BLUE CHIP VALUE FUND

NOTES TO STATEMENT OF INVESTMENTS

September 30, 2010 (Unaudited)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Blue Chip Value Fund, Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its statement of investments.

Security Valuation All securities of the Fund are valued as of the close of regular trading on the New York Stock Exchange (NYSE), currently 4:00 p.m. (Eastern Time), on each day that the NYSE is open. Listed securities are generally valued at the last sales price as of the close of regular trading on the NYSE. Securities traded on the National Association of Securities Dealers Automated Quotation (NASDAQ) are generally valued at the NASDAQ Official Closing Price (NOCP). In the absence of sales and NOCP, such securities are valued at the mean of the bid and asked prices.

Securities having a remaining maturity of 60 days or less are valued at amortized cost which approximates market value.

When market quotations are not readily available or when events occur that make established valuation methods unreliable, securities of the Fund may be valued at fair value determined in good faith by or under the direction of the Board of Directors. Factors which may be considered when determining the fair value of a security include (a) the fundamental data relating to the investment; (b) an evaluation of the forces which influence the market in which the security is sold, including the liquidity and depth of the market; (c) the market value at date of purchase; (d) information as to any transactions or offers with respect to the security or comparable securities; and (e) any other relevant matters.

Investment Transactions Investment transactions are accounted for on the date the investments are purchased or sold (trade date). Realized gains and losses from investment transactions and unrealized appreciation and depreciation of investment are determined on the specific identification basis for both financial statement and federal income tax purposes. Dividend income is recorded on the ex-dividend date. Interest income, which includes interest earned on money market funds, is accrued and recorded daily.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and disclosures made in the accompanying notes to the financial statements. Actual results could differ from those estimates.

2. FAIR VALUE MEASUREMENTS

A three-tier hierarchy has been established for fair value measurement based on the extent of use of observable inputs as compared to unobservable inputs for disclosure purposes and requires additional disclosures about these valuations measurements. Inputs refer broadly to the assumptions that market participants would use in pricing a security. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the security developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the security developed based on the best information available in the circumstances.

The three-tier hierarchy is summarized as follows:

Level 1 Quoted and Unadjusted Prices in active markets for identical investments.

Level 2 Other Significant Observable Inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Significant Unobservable Inputs (including the Fund's own assumptions in determining the fair value of investments).

The following is a summary of the inputs used as of September 30, 2010 in valuing the Fund's assets:

Investments in Securities at Value*	Level 1	Level 2	Level 3	Total
-------------------------------------	---------	---------	---------	-------

	Quoted and Unadjusted Prices	Other Significant Observable Inputs	Significant Unobservable Inputs	
	\$			\$
Common Stocks	99,966,786	\$ -	\$ -	99,966,786
Short-Term Investments	2,256,756	-	-	2,256,756
	\$			\$
TOTAL	102,223,542	\$ -	\$ -	102,223,542

*For detailed Industry descriptions, see accompanying Statement of Investments

All securities of the Fund were valued using Level 1 inputs during the three months ended September 30, 2010. Thus a reconciliation of assets in which significant unobservable inputs (Level 3) were used is not applicable.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

3. UNREALIZED APPRECIATION AND DEPRECIATION OF INVESTMENTS (TAX BASIS)**As of September 30, 2010:**

Gross appreciation (excess of value over tax cost)	\$ 5,708,123
Gross depreciation (excess of tax cost over value)	<u>(6,900,254)</u>
Net unrealized appreciation / (depreciation)	\$ <u>(1,192,131)</u>
Cost of investments for income tax purposes	\$ <u>103,415,673</u>

4. LOAN OUTSTANDING

The Fund has a line of credit with The Bank of New York Mellon (BONY) in which the Fund may borrow up to the lesser of 15% of the Fund's total assets, \$15,000,000 or the maximum amount the Fund is permitted to borrow under the Investment Company Act of 1940. For the period January 1, 2010 through February 28, 2010 the interest rate reset daily at overnight Federal Funds Rate plus 1.00%. Effective March 1, 2010, the interest rate changed to overnight Federal Funds Rate plus 1.25% and the Fund pays an annual loan facility fee of 0.03%. The borrowings under the BONY loan are secured by a perfected security interest on all of the Fund's assets.

Details of the loan outstanding are as follows:

	As of September 30, 2010	Average for the Nine Months Ended September 30, 2010
Loan outstanding	\$ 0.00	\$10,439,441
Interest rate	N/A	1.28 %
% of Fund's total assets	0.00 %	10.20 %
Amount of debt per share outstanding	\$ 0.00	\$ 0.37
Number of shares outstanding (in thousands)	28,464	28,464 *

*Weighted Average

5. SUBSEQUENT EVENT

Effective December 1, 2010 the line of credit with BONY will be terminated.

On November 18, 2010, the Fund's Board of Directors and the Board of Trustees of the Westcore Trust announced formal approval to a proposal to reorganize the Fund into Westcore Blue Chip Fund, a registered open-end fund with a similar investment objective and strategies. The reorganization must be approved by the Blue Chip Value Fund's shareholders. The Fund has set the close of business on November 19, 2010 as the record date for the special meeting of shareholders of the Fund to consider the reorganization. It is anticipated that proxy materials will be distributed to Blue Chip Value Fund's shareholders later this year or in early 2011 and that the special meeting will be held on February 8, 2011.

Item 2 - Controls and Procedures.

(a) The registrant's Principal Executive Officer and Principal Financial Officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) within 90 days of the filing date of this report and have concluded that the registrant's disclosure controls and procedures were effective, as of that date.

(b) There was no change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3 Exhibits.

Separate certifications for the registrant's Principal Executive Officer and Principal Financial Officer, as required by Rule 30a-2(a) under the Investment Company Act of 1940, are attached as Ex99.CERT.
