PROSPECTUS SUMMARY

In addition to the following summary, you should read the more detailed information about us, our common stock and our financial statements appearing elsewhere in this prospectus.

OUR COMPANY

Penge Corp. was incorporated in August 2002 as a Nevada corporation and maintains its principal offices at 11231 Winter Cottage Place, Las Vegas, Nevada 89135. Our telephone number is (702) 562-3176.

We began operations in September 2002 through the purchase of the Major Trees Farm, a 272-acre tree and shrub farm near Tucson, Arizona. In May 2004, we acquired the 17-acre Sampres Farm near Houston, Texas. In the two and one-half years since our incorporation, we have invested all available capital into expanding and improving the Major Trees Farm, acquiring the Sampres Farm, and otherwise attempting to improve our tree production and nursery business. In that process, we have significantly expanded the number of trees and shrubs planted on, and harvested from, the Major Trees Farm and have been able to sell all of our products at prices consistent with our budgets and projections.

In the foreseeable future, we plan to continue to expand our operations through the planting of additional trees and shrubs on our existing farms and

Edgar Filing: PENGE CORP - Form SB-2/A

the purchase of additional nursery properties and businesses. We will continue to look for nursery businesses or properties with annual revenues of between \$100,000 and \$10 million. In the past, we have been able to negotiate favorable terms with owners of small nursery businesses who are hoping to exit the market. We attribute this success to the limited liquidity opportunities available to small nursery businesses and hope to be able to exploit this situation to negotiate favorable terms in the future.

Our goal is to expand the number of farms we manage and the number of trees and shrubs planted on those farms in the next few years while holding down increases in our administrative and other general operating expenses. As we spread our production costs over a larger inventory, we also hope to experience a decline in our per-unit production and sales costs. Over time, we believe that the increases in revenue from our expanded operations will outpace increases in our administrative, operational and other expenses.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should consider the following discussion of risks in addition to the other information in this prospectus before purchasing any shares of our common stock. In addition to historical information, the information in this prospectus contains "forward-looking" statements about our future business and performance. Our actual operating results and financial performance may be very different from what we expect as of the date of this prospectus. The risks described in this prospectus represent all of the risks that management has identified and determined to be material to our company. Additional risks and uncertainties not currently known unto us or that we currently deem to be immaterial may also materially and adversely affect our business operations. Any of these risks could materially and adversely affect our business, results of operations and financial condition.

Risks Regarding Our Company and Our Business

OUR LIMITED OPERATING HISTORY MAKES IT DIFFICULT FOR YOU TO EVALUATE OUR PERFORMANCE AND FORECAST OUR FUTURE.

We were formed and began operations in 2002. Our limited operating

Edgar Filing: PENGE CORP - Form SB-2/A

history makes it difficult for you to evaluate our ability to generate revenues, manage costs, create profits and generate cash from operations. Our limited operating history also makes it difficult to analyze our ability to compete in the marketplace. Before investing in our common stock, you should consider the risks and difficulties we may encounter as a relatively new business, including risks related to our ability to

- o implement our business plan;
- o obtain capital necessary to continue operations and implement our business plan;
- o anticipate and adapt to changes in the market;
- o find and acquire new businesses; and
- o administer and manage our operations.

If we fail to successfully manage these risks, our business will suffer or fail. We cannot assure you that we will successfully address these risks or that our business strategy will be successful.

IF WE CANNOT RAISE SUFFICIENT CAPITAL AT REASONABLE PRICES, WE MAY BE UNABLE TO MEET EXISTING OBLIGATIONS OR ADEQUATELY EXPLOIT EXISTING OR FUTURE OPPORTUNITIES.

As of [date within 45 days of effective date], we had \$[to be completed] in cash and cash equivalents. As of September 30, 2004, we had a working capital deficit of \$(191,890). We need to obtain significant additional working capital to implement our business plan of expanding our nursery

5

operations and to be able to meet our financial obligations as they become due. We will receive no proceeds from the sale of the common stock pursuant to this prospectus, so we must find other sources of financing. We may not be able to raise the additional capital needed, or we may be forced to pay an extremely high price for capital. Factors affecting the availability and price of capital may include the following:

- o the availability and cost of capital generally;
- o our financial results;
- o market interest, or lack of interest, in our industry and business plan;
- o the success of our business;
- o the amount of our capital needs; and
- o the amount of debt, options, warrants and convertible securities we have outstanding.

If we cannot raise sufficient capital or are forced to pay a high price for capital, we may be unable to meet current or future obligations or adequately exploit existing or future opportunities. If we are unable to obtain capital for an extended period of time, we may be forced to discontinue

Edgar Filing: PENGE CORP - Form SB-2/A

operations.

WE HAVE PLEDGED A SIGNIFICANT PORTION OF OUR ASSETS TO SECURE FINANCING AGREEMENTS, AND IF WE DEFAULT UNDER SUCH ARRANGEMENTS, OUR CREDITORS MAY FORECLOSE ON OUR PLEDGED ASSETS.

We have pledged substantially all of our assets to secure notes payable funding our purchase of the Major Trees Farm and the Sampres Farm and to secure other short-term financing. Governing security agreements grant our creditors the rights and remedies that are commonly provided a secured creditor. If we default under such arrangements, such creditors may foreclose on, seize and dispose of, all pledged assets.

WE ARE REQUIRED TO MAKE PAYMENTS UNDER OUTSTANDING NOTES IN AMOUNTS EXCEEDING OUR EXISTING CASH AND CASH EQUIVALENTS BEGINNING IN MARCH 2005.

We have issued \$555,000 of convertible notes payable to fund our operations, \$300,000 of which is secured by certain of the assets of the Major Trees Farm and the Sampres Farm and \$200,000 of which is secured by 50,000 trees contained in our inventory. A payment of \$276,572 in principal plus accrued interest under these notes is due on March 31, 2005.

In addition, as of September 30, 2004, we owed \$815,561 under notes issued in connection with our acquisitions of the Major Trees Farm and the Sampres Farm, substantially all of which is secured by certain of the assets associated with such farms. Payments totaling \$309,905 are due by June 30, 2005.

6

The amounts payable under our outstanding notes in the current fiscal year exceed our current cash and cash equivalents. If we default on payments under these notes, the holders will have the right to accelerate principal and interest payments and pursue remedies available at law and under governing documents. The exercise of such remedies would likely result in our insolvency.

WE MAY BE UNABLE TO CONTINUE TO IDENTIFY APPROPRIATE ACQUISITION TARGETS OR CONSUMMATE ACQUISITIONS OF THOSE TARGETS, AND IF WE ARE UNABLE TO DO SO OUR BUSINESS WILL NOT CONTINUE TO GROW AS PLANNED.

Our business plan anticipates growth primarily through the acquisition of small businesses in the tree production and nursery industry. We may be unable to implement that acquisition strategy for several reasons, including the following:

- o We may be unable to continue to locate suitable nursery businesses for acquisition for various reasons, including:
 - o the absence of such businesses;
 - o our lack of knowledge of such businesses or the fact that they are for sale;
 - o our lack of sufficient working capital to conduct an adequate search for potential acquisition targets and to conduct the due diligence necessary to evaluate the appropriateness of a potential target; and
 - o our lack of expertise or experience in evaluating or

Edgar Filing: PENGE CORP - Form SB-2/A

operating the types of businesses that are for sale.

- o Businesses that we are interested in acquiring may be unwilling to sell to us for various reasons, including:
 - o an unwillingness to accept our equity securities or a promissory note as consideration;
 - o a desire to receive cash and a lack of confidence in our ability to obtain the cash necessary to close;
 - o concerns with our ability to operate the business profitably or appropriately, particularly if any targets are not agricultural companies; and
 - o a desire to be acquired by a larger company for strategic or personal reasons (including the desire to be employed by a larger, more stable acquirer).

7

- o We may be unable to raise the capital necessary to purchase those businesses that we identify as potential acquisition targets quickly enough or at all in order to be able to consummate desired acquisitions.

If we cannot continue to identify appropriate acquisition targets and consummate acquisitions, our business will not continue to grow as planned.

WE HAVE INCURRED SUBSTANTIAL LOSSES SINCE OUR INCEPTION AND MAY CONTINUE TO INCUR LOSSES IN THE FUTURE.

We have experienced net losses in each twelve-month period since inception, with a retained deficit of approximately \$(1,015,508) as of September 30, 2004. We may never generate a net profit. Even if we do become profitable, we may not be able to maintain profitability or to increase profitability in the future.

OUR ACCOUNTANTS HAVE INCLUDED AN EXPLANATORY PARAGRAPH IN OUR FINANCIAL STATEMENTS REGARDING OUR STATUS AS A "GOING CONCERN."

Our consolidated financial statements included in this prospectus have been prepared on the assumption that we will continue as a going concern. Our independent registered public accounting firm has issued its report dated July 9, 2004 that includes an explanatory paragraph stating that our having only recently been formed, our lack of success in establishing profitable operations and the fact that our current liabilities exceed our current assets raise substantial doubt about our ability to continue as a going concern.

WE MAY BE UNABLE TO MANAGE SIGNIFICANT GROWTH.

To successfully implement our business strategy, we must establish and achieve substantial growth in our customer base through expansion of production and sales from existing properties and through business acquisitions. If achieved, significant growth would place significant demands on our management

Edgar Filing: PENGE CORP - Form SB-2/A

and systems of financial and internal controls, and will almost certainly require an increase in the capacity, efficiency and accuracy of our management and distribution support systems. Moreover, significant growth would require an increase in the number of our personnel, particularly within sales, accounting, production and management. The market for such personnel remains highly competitive, and we may not be able to attract and retain the qualified personnel required by our business strategy. If successful in expanding our business, we may outgrow our present facilities and/or management capacity, placing additional strains on our human resources in trying to locate, manage and staff multiple locations.

OUR DIRECTORS, EXECUTIVE OFFICERS AND PRINCIPAL STOCKHOLDERS HAVE EFFECTIVE CONTROL OF PENGE.

Our directors, officers, and 5% stockholders and their affiliates control approximately 48% of the outstanding shares of our common stock (62% on a fully diluted basis). Even if such persons sell all shares registered on their behalf in the offering, they will continue to control 40% of the outstanding shares of our common stock (52% on a fully diluted basis). These directors,

8

officers and affiliates effectively control all matters requiring approval by the stockholders of Penge, including any determination with respect to the acquisition or disposition of assets, future issuances of securities, declarations of dividends and the election of directors. This concentration of ownership may also delay, defer or prevent a change in control of Penge and otherwise prevent you and stockholders other than our affiliates from influencing the direction and future of Penge.

WE ARE DEPENDENT UPON KEY PERSONNEL, AND THE LOSS OF SUCH PERSONNEL COULD SIGNIFICANTLY IMPAIR OUR ABILITY TO IMPLEMENT OUR BUSINESS PLAN.

We are highly dependent upon the efforts of management, particularly Kirk Fischer, our Chief Executive Officer and Chief Financial Officer, and Jim Fischer, our Vice President of Operations. Competition for management personnel is intense, and the number of qualified managers knowledgeable about, and interested in, the tree and shrub nursery industry is limited. As a result, we may be unable to retain our key management employees or attract other highly qualified employees in the future. In addition, the large number of shares of common stock issued to our officers and directors at inception are not subject to repurchase rights if such persons terminate employment with us, decreasing our ability to provide equity-based incentive for new management. We may be required to offer significant salaries and equity-based compensation in order to retain or attract qualified management personnel and key employees. If we are unsuccessful in retaining or attracting such employees, the reduction in the quantity or quality of personnel may lead to a decline in our production, sales or service capacity.

OUR FARMS ARE CURRENTLY OUR PRIMARY SOURCE OF REVENUE AND ARE VULNERABLE TO INSECTS, DISEASE, WEATHER, DROUGHT, FIRE AND OTHER NATURAL HAZARDS.

Our tree and shrub farms are our main assets and currently our primary source of revenue. The Eldarica Pine and the other plant varieties that we grow on the farms are subject to risks associated with disease, insects, weather, drought, fire and other natural hazards. We cannot prevent or predict the impact of disease, insects, weather, drought, fire or other natural hazards on the trees and other shrubs. If the trees and other shrubs we grow are damaged or destroyed by any of those elements, we could suffer a significant loss of

Edgar Filing: PENGE CORP - Form SB-2/A

revenue and assets. The loss would be particularly significant if the affected plants were the Eldarica Pine, which accounted for approximately 91% of our revenue in our prior fiscal year and will continue to be a significant portion of our revenue in the foreseeable future.

OUR TREE AND NURSERY BUSINESS IS LARGELY DEPENDENT ON A SINGLE CUSTOMER.

During the fiscal year ended June 30, 2004, a single customer, Home Depot, accounted for approximately 75% of our revenue. We have no long-term contract with Home Depot, and Home Depot could discontinue purchasing from the Major Trees Farm at any time. The loss of Home Depot as a customer, or a decrease in the number of trees and shrubs purchased by Home Depot, would likely lead to a material reduction in our revenues.

9

Risks Specific to the Purchase of Common Stock in This Offering

THERE IS NO PUBLIC MARKET FOR OUR STOCK, AND EVEN IF A MARKET DEVELOPS, IT WILL LIKELY BE THIN AND SUBJECT TO MANIPULATION.

There is no public market for our common stock, and we can provide no assurance that a public market for our common stock will develop in the future. Even if a public market does develop, the volume of trading in our common stock will likely be limited and likely dominated by a few individuals. The limited volume, if any, will make the price of our common stock subject to manipulation by one or more stockholders and will significantly limit the number of shares that one can purchase or sell in a short period of time. An investor may find it difficult to dispose of shares of our common stock or obtain a fair price for our common stock in the market.

IF A MARKET FOR OUR COMMON STOCK DEVELOPS, THE MARKET PRICE FOR OUR COMMON STOCK WILL LIKELY BE VOLATILE AND MAY CHANGE DRAMATICALLY AT ANY TIME.

If a market for our common stock develops, the market price of our common stock, like that of the securities of other early-stage companies, may be highly volatile. Our stock price may change dramatically as the result of announcements of our quarterly results, the execution or termination of significant customer contracts, significant litigation or other factors or events that would be expected to affect our business or financial condition, results of operations and other factors specific to our business and future prospects. In addition, the market price for our common stock may be affected by various factors not directly related to our business, including the following:

- o intentional manipulation of our stock price by existing or future stockholders;
- o short selling of our common stock or related derivative securities;
- o a single acquisition or disposition, or several related acquisitions or dispositions, of a large number of our shares;
- o the interest, or lack of interest, of the market in our business sector, without regard to our financial condition or results of operations;

Edgar Filing: PENGE CORP - Form SB-2/A

- o the adoption of governmental regulations and similar developments in the United States or abroad that may affect our ability to offer our products and services or affect our cost structure;
- o developments in the businesses of companies that purchase our products (such as Home Depot); and
- o economic and other external market factors, such as a general decline in market prices due to poor economic indicators or investor distrust.

10

OBTAINING ADDITIONAL CAPITAL THROUGH THE FUTURE SALE OF COMMON STOCK AND DERIVATIVE SECURITIES WILL RESULT IN DILUTION OF STOCKHOLDER INTERESTS.

We plan to raise additional funds in the future by issuing additional shares of common stock, or securities such as convertible notes, options, warrants or preferred stock that are convertible into common stock. Any such sale of common stock or other derivative securities will lead to further dilution of the equity ownership of existing holders of our common stock.

OUR COMMON STOCK IS A "LOW-PRICED STOCK" AND SUBJECT TO REGULATION THAT LIMITS OR RESTRICTS THE POTENTIAL MARKET FOR OUR STOCK.

Shares of our common stock may be deemed to be "penny stock," resulting in increased risks to our investors and certain requirements being imposed on some brokers who execute transactions in our common stock. In general, a penny stock is an equity security that:

- o Is priced under five dollars;
- o Is not traded on a national stock exchange, the Nasdaq National Market or the Nasdaq SmallCap Market;
- o May be listed in the "pink sheets" or the OTC Bulletin Board;
- o Is issued by a company that has less than \$5 million in net tangible assets (if it has been in business less than three years) or has less than \$2 million in net tangible assets (if it has been in business for at least three years); and
- o Is issued by a company that has average revenues of less than \$6 million for the past three years.

We believe that our common stock is presently a "penny stock." At any time the common stock qualifies as a penny stock, the following requirements, among others, will generally apply:

- o Certain broker-dealers who recommend penny stock to persons other than established customers and accredited investors must make a special written suitability determination for the purchaser and receive the purchaser's written agreement to a transaction prior to sale.
- o Prior to executing any transaction involving a penny stock, certain broker-dealers must deliver to certain purchasers a

Edgar Filing: PENGE CORP - Form SB-2/A

disclosure schedule explaining the risks involved in owning penny stock, the broker-dealer's duties to the customer, a toll-free telephone number for inquiries about the broker-dealer's disciplinary history and the customer's rights and remedies in case of fraud or abuse in the sale.

- o In connection with the execution of any transaction involving a penny stock, certain broker-dealers must deliver to certain purchasers the following:

11

- o bid and offer price quotes and volume information;
- o the broker-dealer's compensation for the trade;
- o the compensation received by certain salespersons for the trade;
- o monthly accounts statements; and
- o a written statement of the customer's financial situation and investment goals.

These requirements significantly add to the burden of the broker-dealer and limit the market for penny stocks. These regulatory burdens may severely affect our ability to create a market for our stock and the liquidity and market price for our common stock.

FORWARD-LOOKING STATEMENTS

This prospectus, including, without limitation, "Prospectus Summary," "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Our Business," contains statements that constitute "forward-looking statements." Such statements can be identified by the use of the forward-looking words "anticipate," "estimate," "project," "likely," "believe," "intend" or "expect" or similar words. When considering such forward-looking statements, you should keep in mind the risk factors noted above and other cautionary statements throughout this prospectus. You should also keep in mind that all forward-looking statements are based on management's existing beliefs about present and future events outside of management's control and on assumptions that may prove to be incorrect.

SELLING STOCKHOLDERS

All of the offered shares are to be offered and sold by our existing security holders. Of the shares of our common stock offered hereby, 3,861,466 shares of common stock are currently owned by the selling stockholders and 1,932,638 shares are issuable upon the conversion of convertible notes payable.

In addition, pursuant to Rule 416 of the Securities Act, this prospectus, and the registration statement of which it is a part, covers a presently indeterminate number of shares of common stock issuable upon the occurrence of a stock split, stock dividend or other similar transaction.

Edgar Filing: PENGE CORP - Form SB-2/A

BENEFICIAL OWNERSHIP OF SELLING STOCKHOLDERS

The table that follows sets forth, as of January 1, 2005:

- o the name of each selling stockholder;

- o certain beneficial ownership information with respect to the selling stockholders;

- o the number of shares that may be sold from time to time by each selling stockholder pursuant to this prospectus; and

- o the amount (and, if one percent or more, the percentage) of common shares to be owned by each selling stockholder if all offered shares are sold.

Beneficial ownership is determined in accordance with SEC rules and generally includes voting or investment power with respect to securities. Common shares that are issuable upon the exercise of outstanding options, warrants or other purchase or conversion rights, to the extent exercisable within 60 days of the date of this table, are treated as outstanding for purposes of computing each selling stockholder's percentage ownership of outstanding common shares.

RELATIONSHIPS WITH SELLING STOCKHOLDERS

Certain of the selling stockholders are officers, directors or affiliates of our company. Kirk Fischer is the Chairman of the Board, Chief Executive Officer and Chief Financial Officer. Jim Fischer is our Vice President of Operations and a director, and is the father of Kirk Fischer. Lori Fischer is

Edgar Filing: PENGE CORP - Form SB-2/A

our Controller and a director, is the wife of Kirk Fischer. Rocky Fischer has been a consultant for us and is the brother of Kirk Fischer (and son of Jim Fischer). KC Holmes is our former President and Chief Financial Officer, the current Manager of Mergers & Acquisitions and a significant stockholder of our company. KC Holmes is the cousin of Kirk Fischer and Rocky Fischer and the nephew of Jim Fischer. The following persons have the following relationship with KC Holmes: Steve Homes (brother), Angie Fisher (sister-in-law), Darla Wenger (sister-in-law), Richard L. Wenger (father-in-law), Richard Wenger (brother-in-law), Cheri Marx (sister-in-law) and Donna Brown (sister-in-law). We purchased certain assets of the Major Trees Farm from Roger and Barbara Major in August 2002 and engage Roger Major as a consultant to our company.

BROKER-DEALERS

None of the selling stockholders are broker-dealers or affiliates of broker-dealers.

PLAN OF DISTRIBUTION

METHODS OF DISTRIBUTION

The selling stockholders, which as used herein includes donees, pledgees, transferees or other successors-in-interest selling shares of common stock or interests in shares of common stock received after the date of this prospectus from a selling stockholder as a gift, pledge, partnership distribution or other transfer, may, from time to time, sell, transfer or otherwise dispose of any or all of their shares of common stock or interests in shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These dispositions may be at fixed prices, at prevailing market prices at the time of sale, at prices related to the prevailing market price, at varying prices determined at the time of sale or at negotiated prices.

18

The selling stockholders may use any one or more of the following methods when disposing of shares or interests therein:

- o ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- o block trades in which the broker-dealer will attempt to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;
- o purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- o an exchange distribution in accordance with the rules of the applicable exchange;
- o privately negotiated transactions;
- o through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- o broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;

Edgar Filing: PENGE CORP - Form SB-2/A

- o a combination of any such methods of sale; and
- o any other method permitted pursuant to applicable law.

The selling stockholders may, from time to time, pledge or grant a security interest in some or all of the shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock, from time to time, under this prospectus, or under an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus. The selling stockholders may also transfer the shares of common stock in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

The selling stockholders may also sell shares by means of short sales to the extent permitted by United States securities laws. Short sales involve the sale by a selling stockholder, usually with a future delivery date, of shares of common stock that the seller does not own. Covered short sales are sales made in an amount not greater than the number of shares subject to the short seller's warrant, exchange right or other right to acquire shares of

19

common stock. A selling stockholder may close out any covered short position by either exercising its warrants or exchange rights to acquire shares of common stock or purchasing shares in the open market. In determining the source of shares to close out the covered short position, a selling stockholder will likely consider, among other things, the price of shares of common stock available for purchase in the open market as compared to the price at which it may purchase shares of common stock pursuant to its warrants or exchange rights.

Naked short sales are any sales in excess of the number of shares subject to the short seller's warrant, exchange right or other right to acquire shares of common stock. A selling stockholder must close out any naked position by purchasing shares. A naked short position is more likely to be created if a selling stockholder is concerned that there may be downward pressure on the price of the shares of common stock in the open market.

The existence of a significant number of short sales generally causes the price of the shares of common stock to decline, in part because it indicates that a number of market participants are taking a position that will be profitable only if the price of the shares of common stock declines. Purchases to cover naked short sales may, however, increase the demand for the shares of common stock and have the effect of raising or maintaining the price of the shares of common stock.

The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities that require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The selling stockholders also may resell all or a portion of the shares

Edgar Filing: PENGE CORP - Form SB-2/A

in open market transactions in reliance upon Rule 144 under the Securities Act, provided that they meet the criteria and conform to the requirements of that rule.

The selling stockholders and any underwriters, broker-dealers or agents that participate in the sale of the common stock or interests therein may be "underwriters" within the meaning of Section 2(11) of the Securities Act. Any discounts, commissions, concessions or profit they earn on any resale of the shares may be underwriting discounts and commissions under the Securities Act. Selling stockholders who are "underwriters" within the meaning of Section 2(11) of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act.

To the extent required, the shares of our common stock to be sold, the names of the selling stockholders, the respective purchase prices and public offering prices, the names of any agents, dealers or underwriters, and any applicable commissions or discounts with respect to a particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement that includes this prospectus.

20

DETERMINATION OF OFFERING PRICE

The offering price of the shares of common stock offered by this prospectus is being determined by each of the selling stockholders on a transaction-by-transaction basis based upon factors that the selling stockholder considers appropriate. The offering prices determined by the selling stockholders may, or may not, relate to a current market price but should not, in any case, be considered an indication of the actual value of the common stock. We do not have any influence over the price at which any selling stockholders offer or sell the common stock offered by this prospectus.

PASSIVE MARKET MAKING

We have advised the selling stockholders that, while they are engaged in a distribution of the shares offered pursuant to this prospectus, they are required to comply with Regulation M promulgated under the Securities Exchange Act. With certain exceptions, Regulation M precludes the selling stockholders, any affiliate purchasers and any broker-dealer or other person who participates in the distribution from bidding for or purchasing, or attempting to induce any person to bid for or purchase, any security that is subject to the distribution until the entire distribution is complete. Regulation M also restricts bids or purchases made in order to stabilize the price of a security in connection with the distribution of that security. We do not intend to engage in any passive market making or stabilization transactions during the course of the distribution described in this prospectus. All of the foregoing may affect the marketability of the shares offered pursuant to this prospectus.

LIMITATIONS

We have advised the selling stockholders that, to the extent necessary to comply with governing state securities laws, the offered securities should be offered and sold in such jurisdictions only through registered or licensed brokers or dealers. In addition, we have advised the selling stockholders that the offered securities may not be offered or sold in any state unless they have been registered or qualified for sale in the applicable state or an exemption

Edgar Filing: PENGE CORP - Form SB-2/A

from the registration or qualification requirement is available with respect to such offers or sales.

Additionally, we have advised the selling stockholders that the registration statement of which this prospectus is a part may not be used in connection with share exchanges or business combination transactions.

GENERAL

We are paying the expenses incurred in connection with preparing and filing this prospectus and the registration statement to which it relates, other than selling commissions. We estimate that these expenses will total approximately \$90,000 and plan to pay for such expenses out of our cash flow from operations.

21

We have not retained any underwriter, broker or dealer to facilitate the offer or sale of the offered shares offered pursuant to this prospectus. We will pay no underwriting commissions or discounts in connection with this offering, and we will not receive any proceeds from the sale of the offered shares.

USE OF PROCEEDS

All proceeds from any sale of offered shares, less commissions and other customary fees and expenses, will be paid directly to the selling stockholders selling the offered shares. We will not receive any proceeds from the sale of any of the offered shares.

DILUTION

Our net tangible book value (tangible assets less total liabilities) at September 30, 2004 was \$149,311 or approximately \$0.01 per each of the 12,952,332 shares of common stock then outstanding. Accordingly, new investors who purchase shares may suffer an immediate dilution of the difference between the purchase price per share and approximately \$0.01 per share.

As of January 1, 2005, there were outstanding options to purchase up to 4,550,000 shares of our common stock as well as notes payable convertible into 1,932,638 shares of our common stock. The existence of those options and conversion rights may hinder future equity offerings by us, and the exercise of those options and conversion rights may have an adverse effect on the value of shares of our common stock. Furthermore, the holders of those options and conversion rights may exercise them at a time when we would otherwise be able to obtain additional equity capital on terms more favorable to us.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This section includes many projections and other forward-looking

Edgar Filing: PENGE CORP - Form SB-2/A

statements regarding management's expectations regarding performance of the Company. You should not place undue reliance on such projections and forward looking statements, and, when considering such projections and forward-looking statements, you should keep in mind the risk factors noted throughout this prospectus. You should also keep in mind that all projections and forward-looking statements are based on management's existing beliefs about present and future events outside of management's control and on assumptions that may prove to be incorrect.

OVERVIEW

OUR BUSINESS AND STRATEGY. We began operations in September 2002 through the purchase of the Major Trees Farm, a 272-acre tree and shrub farm near Tucson, Arizona. In May 2004, we acquired the 17-acre Sampres Farm near Houston, Texas. We now have more than 200,000 trees and large shrubs planted on the two farms. Unless otherwise specified or evident from the context, "we," "us," the "Company" and similar terms refer to Penge Corp. and its consolidated subsidiaries.

In the two and one-half years since our incorporation, we have invested all available capital into expanding and improving the Major Trees Farm, acquiring the Sampres Farm, and otherwise attempting to improve our tree production and nursery business. In that process, we have significantly expanded the number of trees and shrubs planted on, and harvested from, the Major Trees Farm and have been able to sell all of our products at prices consistent with our budgets and projections.

In the foreseeable future, we plan to continue to expand our operations through the planting of additional trees and shrubs on our existing farms and the purchase of additional nursery properties and businesses. We will continue to look for nursery businesses or properties with annual revenues of between \$100,000 and \$10 million. In the past, we have been able to negotiate favorable terms with owners of small nursery businesses who are hoping to exit the market. We attribute this success to the limited liquidity opportunities available to small nursery businesses and hope to be able to exploit this situation to negotiate favorable terms in the future.

Our goal is to expand the number of farms we manage and the number of trees and shrubs planted on those farms in the next few years while holding down increases in our administrative and other general operating expenses. As we spread our production costs over a larger inventory, we also hope to experience a decline in our per-unit production and sales costs. Over time, we believe that the increases in revenue from our expanded operations will outpace increases in our administrative, operational and other expenses.

We also offer business structure consulting services on a limited basis. Our total revenue from these consulting services has been less than \$40,000 since inception. We do not plan to actively market such consulting services in the future but remain open to accepting consulting engagements as they arise. Consulting services have been an insignificant part of our business in the past, and we do not expect consulting services to be a significant part of our business in the future.

OUR ACQUISITIONS.

THE MAJOR TREES FARM. In September 2002, we purchased the Major Trees

Edgar Filing: PENGE CORP - Form SB-2/A

Farm, a 272-acre tree farm near Tucson, Arizona. (Information regarding the structure of the transaction and our acquisition costs is set forth beginning on page 38). The Major Trees Farm is located in an area with a moderate climate and an abundant migrant labor source. The Major Trees Farm is relatively large, includes abundant water rights and contains many of the necessary buildings, equipment, pivots and wells to substantially expand operations. We primarily grow Eldarica Pine Trees on the Major Trees Farm, substantially all of which are harvested in the fall and sold to Home Depot and other retailers. The previous owners of the Major Trees Farm had a 15-year sales relationship with Home Depot, which we have been able to continue notwithstanding the absence of any purchase commitment by Home Depot. We have sold approximately 30,000 trees from the Major Trees Farm in our 2004-05 winter sales season at an approximate average cost of \$26 per tree and may sell an additional 3,000 - 5,000 trees over the next few months.

In the two and one-half years since our purchase of the Major Trees Farm, we have been able to expand the number of trees growing on the farm from 61,000 trees immediately prior to the 2002 fall harvest to approximately 180,000 trees immediately prior to our 2004 fall harvest and replanting. In general, we are able to harvest a tree 36 months after it is planted. Assuming demand and pricing remain stable in the future, the inventory we have growing on the Major Trees Farm is expected to generate approximately \$4.7 million in revenue over the next three years. In addition, our business plan calls for continued expansion of inventory for the next several years and, accordingly, we expect our inventory to grow for harvests in 2007-08 and thereafter.

SAMPRES FARM. In May 2004, we acquired the 17-acre Sampres Farm near Houston, Texas. (Information regarding the structure of the transaction and our acquisition costs is set forth on page 39). The purchase of this farm is strategic to us. Texas is one of the largest nursery markets in the country with over 20 million people in a localized selling area. Tree prices are high relative to other parts of the Southwest, and competition is localized, giving us an opportunity for growth in this region. Many of our best customers currently are located in State of Texas and immediate surrounding areas. We hope that, by moving our site of production closer to our key sales markets, we can decrease our shipping expenses and increase our gross margins.

The Sampres Farm includes trees, shrubs and other nursery products and is much smaller than the Major Trees Farm, with an existing inventory of approximately 37,000 trees and shrubs on the date of acquisition. The primary harvest and sales season for the Sampres Farm is spring/summer, and we anticipate harvesting and selling the approximately 37,000 trees we purchased in the acquisition from the Sampres Farm over the next three years. We are expanding the number of trees and shrubs planted on the Sampres Farm, with over 20,000 additional trees and shrubs planted in the six months following our acquisition of the farm, and expect to be able to begin harvesting an expanded inventory in the spring of 2007.

PLANNED ACQUISITIONS. We anticipate buying additional assets in the nursery industry again in 2005, with a focus on growing our core business lines and increasing our position in Texas. We are presently in negotiations with the owner of a tree, shrub and plant farm in the State of Texas but have not executed definitive documents and can provide no assurance that we will be able to execute definitive documents or consummate the transaction. To the extent we are successful in reaching agreements with respect to future acquisitions, we plan to finance the cash portion of these acquisitions through cash flow

Edgar Filing: PENGE CORP - Form SB-2/A

generated from operations and the issuance of promissory notes and equity securities. We anticipate that a majority of the purchase price of any acquisition will be paid for through the issuance of debt or equity securities to the sellers.

SEASONALITY.

Our primary business is the production and sale of trees and shrubs to retailers and landscape companies. As with other agricultural business, our business is seasonal in nature. Most of our revenues come from the Major Trees Farm on which we grow primarily Eldarica Pine Trees. We generally harvest such trees in the fall and generate substantially all revenues from such trees between November and January. Revenues from the Major Trees Farm during other months of the year are negligible. Although we experience administrative and other expenses throughout the year, costs associated with the Major Trees Farm also increase significantly during the October - January period as we harvest the trees, transport them to market and conduct most of our planting activities.

The primary harvest and sales season for the Sampres Farm is between March and September of each year, and we expect to incur related transportation, sales and planting expenses during that period. Revenues from the Sampres Farm are expected to be less than 30% of our overall revenue, but the acquisition of this farm should help balance the seasonality of our business.

Even with the purchase of the Sampres Farm, we will continue to experience dramatic increases and decreases in revenue and expenses throughout the year. As a result, our quarterly results will generally not be indicative of our annual results. In addition, this seasonality presents a serious challenge in managing our cash flow, as we continue to experience many administrative and other expenses throughout the calendar year. As was the case in late 2004, we may experience a shortage of cash and an increase in accounts payable and long-term debt during the late summer and fall months as we incur administrative, harvesting and other expenses prior to our generation of cash from operations in the winter months.

GENERAL OUTLOOK.

OPERATIONS: We experienced a net loss of \$(337,586) in the partial fiscal year ended June 30, 2003 ("Fiscal 2003") and a net loss of \$(400,005) in the fiscal year ended June 30, 2004 ("Fiscal 2004"). Detailed information regarding our revenue and major expense line items is set forth in "Results of Operations" below. We experienced a 20% increase in revenue between Fiscal 2003

and Fiscal 2004, from \$669,721 in Fiscal 2003 to \$806,977 in Fiscal 2004 with substantially all revenue in both years coming from the Major Trees Farm. We expect revenue from the Major Trees Farm to increase only modestly in the fiscal year ended June 30, 2005 ("Fiscal 2005") but expect to begin harvesting trees from the Sampres Farm in Fiscal 2005, generating additional revenue of between \$200,000 and \$400,000.

Operating expenses increased from \$579,361 in Fiscal 2003 to \$654,287 in Fiscal 2004. This increase in operating expenses is attributable primarily to an increase in salaries, wages and related taxes from \$148,866 in Fiscal 2003 to \$387,077 in Fiscal 2004. During Fiscal 2003, the executives and key employees of the Company accepted temporary reductions in pay in order to conserve capital. During Fiscal 2004, such voluntary reductions were eliminated and the salaries

Edgar Filing: PENGE CORP - Form SB-2/A

of most of the executives and key employees were increased in order to bring them closer to market wages. We do not expect any similar increase in Fiscal 2005. General and administrative expenses are expected to increase overall as we experience increased legal, accounting and other fees associated with our preparation and filing of the registration statement of which this prospectus is a part and our ongoing filing requirements. We expect that cost of goods sold will increase in absolute terms as our revenues increase but expect a decrease in cost of goods sold as a percentage of revenue. We expect interest expense to increase as a result of the increase in our long term debt.

Overall, we expect our revenue in Fiscal 2005 to grow faster than our expenses and believe our financial performance in Fiscal 2005 will represent an improvement over that in Fiscal 2004. Any projections related to Fiscal 2005 are subject to the risks identified in "Risk Factors" and throughout this prospectus. In addition, we hope to close the acquisition of one nursery business during Fiscal 2005. If we are successful in closing such an acquisition, of which we can provide no assurance, we would expect to incur additional costs associated with the acquisition itself and may recognize additional revenues since most of the farms we are looking at harvest and sell during the spring and summer months.

LIQUIDITY AND CAPITAL RESOURCES: As of September 30, 2004, we had \$24,890 in cash and cash equivalents, total current assets of \$940,738 and currently liabilities of \$1,132,628, representing a current working capital deficit of \$(191,890). Our current liabilities as of that date include a \$276,572 principal balance on a secured convertible note due March 31, 2005 and a \$525,978 principal balance on non-convertible notes due within one year. We generate a majority of our revenues between November and January of each fiscal year. As a result of revenue collected between September 30, 2004 and [date within 45 days of effective date], we have increased our cash and cash equivalents balance to \$[to be completed] as of [date within 45 days of effective date].

We anticipate making additional capital expenditures during the remainder of Fiscal 2005. Specifically, resources permitting, we plan to spend at least \$200,000 to replace inventory sold during Fiscal 2005 and to expand our inventory of trees and shrubs. We are also budgeting approximately \$300,000 for the cash portion of the purchase price of an acquisition (which amount may or may not be sufficient) and expect to spend between \$50,000 and \$100,000 to replace equipment and other items on the Major Trees Farm and the Sampres Farm.

26

We plan to use cash on hand and that collected in the coming months to pay a portion of our accounts payable and establish a reserve to cover most of our planned capital expenditures and basic operating expenses until we again start generating revenue in March 2005. With respect to the current portion of our notes payable, we believe that most of the holders of the convertible and non-convertible notes coming due in the next year will either convert such debt to equity or replace existing notes with notes with deferred payment dates. To the extent that does not occur, we believe that we can raise capital sufficient to repay the current portion of our long term debt through the issuance of additional notes and the sale of equity securities and warrants.

In addition, members of our management have informally agreed to provide up to \$200,000 of short-term financing to us. Such financing bears interest at the rate of 8% per annum. Management may demand payment on 30 days written notice, so long as 180 days have passed since the Company and management

Edgar Filing: PENGE CORP - Form SB-2/A

entered into the financing arrangement.

Other than the informal and nonbinding commitments from management, we do not have any specific commitments from third parties to provide financing needed to cover any capital shortfalls with respect to our operations, planned capital expenditures or near-term debt obligations. We caution that, particularly in light of the early stage of our business, such financing may not be available on favorable terms, or at all. We may be compelled to divert substantial portions of our existing cash and future cash flow to the repayment of debt, which would limit our ability to replace or expand inventory and acquire additional farms. This would have an adverse affect on revenues in the coming years. Certain of such debt is secured by our real property, and holders of the unsecured debt have standard remedies available to debtholders. If we were to default on such notes and the holders were to exercise their remedies, we would incur substantial legal expenses, penalties and related costs and could be forced to seek bankruptcy protection or to discontinue operations.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management is basing this discussion and analysis of our financial condition and results of operations on our consolidated financial statements. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our critical accounting policies and estimates, including those related to revenue recognition, valuation of accounts receivable, property, plant and equipment, long-lived assets, intangible assets and contingencies. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

27

We believe the following critical accounting policies affect the more significant judgments and estimates used in the preparation of our consolidated financial statements. These judgments and estimates affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses during the reporting periods. Changes to these judgments and estimates could adversely affect our future results of operations and cash flows.

- o Inventory Valuation. We record inventories at the lower of cost or the market value of such inventory. For inventory acquired as part of a business combination, cost is the estimated selling price, less the estimated costs associated with selling such inventory. Our average production cost for inventory is generally lower than the average wholesale price for our trees, so the cost of acquired inventory is typically greater than the cost of inventory grown from seed. A majority of the inventory that was sold in Fiscal 2003 and Fiscal 2004 was inventory acquired as part of our acquisition of the Major Trees Farm.
- o Cost of Goods Sold. As explained in "Inventory Valuation" above, we record inventories at the lower of cost or market value of such inventory, and our average production cost for inventory is generally lower than its market value. For inventories acquired in

Edgar Filing: PENGE CORP - Form SB-2/A

connection with our acquisition of a business or farm, we record inventory at the estimated selling price, less the estimated costs of selling such inventory. A majority of the inventory that we sold in Fiscal 2003 and Fiscal 2004 was inventory acquired as part of our acquisition of the Major Trees Farm. In Fiscal 2005 and afterwards, a portion of our sales will include trees acquired as part of our acquisitions of the Major Trees Farm and the Sampres Farm (and possible future acquisitions); however, our operation of the Major Trees Farm is much larger than our operation of the Sampres Farm, and in Fiscal 2005 and the following years, we expect a majority of our goods sold to be trees or shrubs that we have planted and grown. As a result, we expect cost of good sold as a percentage of sales to decline in future years.

- o Revenue Recognition. Our revenue comes primarily from the sale of agricultural products. We recognize revenue from the sale of agricultural products when rights and risk of ownership have passed to the customer, there is persuasive evidence of a sales arrangement, product has been shipped or delivered to the customer, the price and terms are finalized and collection of the resulting receivable is reasonably assured. We recognize revenue from business consulting services over the term of the underlying consulting agreement.
- o Property, Plant and Equipment. A significant portion of our assets consists of property and equipment, including real property, farm buildings and farming equipment. We record property and equipment at cost (and capitalize expenditures for major renewals and betterments that extend the useful life of property and equipment). The appraised value of real property and buildings in the regions in which our farms are located has increased steadily over the last decade; however, the market for agricultural property is thin, especially in areas remote from large cities. Our properties are remote from any large cities. As a result, there is no certainty that we would be able to sell any property or building at its book value, or at all. The absence of an active market for agricultural properties in the region may inhibit our ability to determine accurately the fair market value of our real property and building assets.

RESULTS OF OPERATIONS

QUARTER ENDED SEPTEMBER 30, 2004 COMPARED WITH QUARTER ENDED SEPTEMBER 30, 2003

The following table reflects selected operational results for fiscal quarters ended September 30, 2004 and September 30, 2003, which represent the first quarters of Fiscal 2005 and Fiscal 2004:

	YEARS ENDED SEPTEMBER 30,	
	2004	2003
	-----	-----
STATEMENT OF OPERATIONS DATA:		
REVENUE	\$ 2,652	\$ 9,161
COST OF GOODS SOLD	1,640	3,247
GROSS PROFIT (LOSS)	1,012	5,914

Edgar Filing: PENGE CORP - Form SB-2/A

OPERATING EXPENSES	225,004	218,642
INCOME (LOSS) FROM OPERATIONS	(223,992)	(212,728)
OTHER INCOME (EXPENSE):		
Interest income (expense), net	(53,925)	(24,937)
NET INCOME (LOSS)	\$ (277,917)	\$ (233,883)
LOSS PER COMMON SHARE	(.02)	(.02)

Our results of operations for the quarter ended September 30, 2004 included the operations of our Major Trees Farm and the Sampres Farm. Results of operations for the quarter ended September 30, 2003 do not include the Sampres Farm, which was acquired in May 2004. Revenue from, and expenses associated with, the Sampres Farm were nominal for the quarter ended September 30, 2004 and do not materially affect the comparability of results.

29

REVENUE AND COSTS OF GOOD SOLD. Our revenues are derived primarily from the sale of trees and other nursery products. Revenues decreased from \$9,161 for the quarter ended September 30, 2003 to \$2,652 for the quarter ended September 30, 2004. Costs of Good Sold decreased from \$3,247 for the quarter ended September 30, 2003 to \$1,640 for the quarter ended September 30, 2004. Our revenue and certain of our expenses (particularly our cost of goods sold) are seasonal, with a majority of our revenue and costs of good sold being recognized between November and January of each year. As a result, revenues, and related costs of good sold, for the quarters ended September 30, 2003 and September 30, 2004 are not representative of revenues or costs of good sold for the respective fiscal years. Such results primarily illustrate the seasonality of our business. We expect both revenue and costs of good sold to increase significantly for the quarter ended December 31, 2004 as we enter into our harvest and sales season for the Major Trees Farm.

OPERATING EXPENSES. Operating expenses consist primarily of personnel expense associated with management, consulting fees, travel expenses, professional fees, general overhead and depreciation. Operating expenses increased from \$218,642 for the quarter ended September 30, 2003 to \$225,004 for the quarter ended September 30, 2004. This increase is attributable to an increase in consulting fees from \$46,267 for the quarter ended September 30, 2003 to \$60,000 for the quarter ended September 30, 2004 as a result of expenses incurred in connection our grant of stock options to pay consulting expenses. Our other general and administrative expenses also increased from \$39,063 for the quarter ended September 30, 2003 to \$65,180 for the quarter ended September 30, 2004 primarily as a result of expenses associated with our audit. These increases were partially offset by a decrease in salaries, wages and related taxes from \$123,167 for the quarter ended September 30, 2003 to \$89,082 for the quarter ended September 30, 2004 as a result of fixed annual salaries in the current year that are less than the pay rates initially used in the prior year. We expect general and administrative expense to increase in quarter ended December 31, 2004 as we experience increased legal, accounting and other costs associated with becoming a public company.

INTEREST EXPENSE. Interest expense consists primarily of interest paid on outstanding notes payable and amortization of deferred loan costs. Interest expense increased from \$24,937 for the quarter ended September 30, 2003 to \$53,931 for the quarter ended September 30, 2004. This increase is a result of

Edgar Filing: PENGE CORP - Form SB-2/A

an increase in indebtedness primarily in order to fund our expansion of inventory and our acquisition costs. We expect interest expense to increase in quarter ended December 31, 2004 as a result of a \$100,000 increase in indebtedness.

NET LOSS. Our net loss increased from \$233,883 for the quarter ended September 30, 2003 to \$277,917 for the quarter ended September 30, 2004. The increase in net loss is the result of incremental increases in our operating expenses and is primarily attributable to an increase in interest expense associated with our increased debt and an increase in general and administrative expenses, particular legal, accounting and other expenses preparatory to the registration process. The amount of our net loss for the quarter ended September 30, 2004 is not representative of our expected operating results for Fiscal 2005. Our revenue and certain of our costs are seasonal. We expect seasonal increases in revenue to outpace seasonal increases in our expenses and to experience a decline in net loss during the quarter ended December 31, 2004.

Edgar Filing: PENGE CORP - Form SB-2/A

Penge Corp. was organized on August 6, 2002 under the laws of the state of Nevada. Penge acquired the Major Trees Farm on September 27, 2002. Our results of operations reflect the operations of the Major Trees Farm from that date. On January 27, 2003, Penge organized Anglewood Advisors, Inc., an advisory firm, which was abandoned on October 2, 2003. Our results of operations reflect the operations of Anglewood Advisors during that time period. In May 2004, Penge acquired the assets of the Sampres Farm. Our results of operations for Fiscal 2004 reflect minimal revenue from the Sampres Farm.

REVENUE. Our revenues are derived primarily from the sale of trees and other nursery products, but also include limited consulting fees. Revenues increased from \$669,721 for Fiscal 2003 to \$806,977 for Fiscal 2004, an increase of approximately 20%. This increase is primarily the result of our increasing the number of trees sold by the Major Trees Farm from approximately 22,100 trees in Fiscal 2003, generating approximately \$655,000 in revenue, to approximately 28,600 in Fiscal 2004, generating approximately \$758,000 in revenue. Most of the

31

trees we grow can be sold within three years of being planted. During the last 24 months, we have significantly increased our tree inventory by planting or acquiring additional trees. In addition, we recently acquired the Sampres Farm. We expect annual revenue growth to accelerate in Fiscal 2005, primarily as a result of new revenue associated with the Sampres Farm, but in small part because we expect to begin selling a small part of the additional inventory we planted at the Major Trees Farm.

COST OF GOODS SOLD. Cost of goods sold includes all operational expenses associated with the operation of our two farms, including all farm-related salaries, planting, maintenance and harvesting costs, equipment and any depreciation related to the foregoing. Cost of goods sold increased from \$402,980 for Fiscal 2003 to \$428,004 for Fiscal 2004. This increase is primarily the result of inventory costs associated with increased sales. Cost of goods sold as a percentage of revenue decreased, from approximately 60% in Fiscal 2003 to approximately 53% in Fiscal 2004. This decrease in cost of goods sold as a percentage of revenue is a result of the spreading of certain fixed (or relatively fixed) costs included in cost of goods sold, such as depreciation of equipment and agricultural buildings, salaries of full time farm employees and farm equipment costs, across increasing revenue. During Fiscal 2003 and Fiscal 2004, we primarily sold acquired inventory, for which we generally record a higher expense in cost of goods sold than we do with respect to inventory we have produced. In the coming year, we expect to decrease the percentage of acquired inventory we sell and, as a result, expect our cost of goods sold to decrease as a percentage of revenue.

OPERATING EXPENSES. Operating expenses consist primarily of personnel expense associated with management, consulting fees, travel expenses, professional fees, general overhead and depreciation. Operating expenses increased from \$579,361 for Fiscal 2003 to \$654,287 for Fiscal 2004, an increase of approximately 13%. Operating expenses as a percentage of revenue decreased slightly, from approximately 86% in Fiscal 2003 to approximately 81% in Fiscal 2004. This decrease in operating expenses as a percentage of revenue is a result of spreading increasing costs over more rapidly increasing revenue.

The absolute increase in operating expenses is primarily a result of increases in salaries, wages and related taxes, which increased from \$148,866 for Fiscal 2003 to \$387,077 for Fiscal 2004. During Fiscal 2003, the executives

Edgar Filing: PENGE CORP - Form SB-2/A

and key employees of the Company accepted temporary reductions in pay in order to conserve capital. During Fiscal 2004, such voluntary reductions were eliminated and the salaries of most of the executives and key employees were increased in order to bring them closer to market wages. We do not expect any similar increase in Fiscal 2005. Consulting expenses decreased from \$235,146 in Fiscal 2003 to \$63,287 in Fiscal 2004, primarily as a result of the \$120,000 we expensed in Fiscal 2003, compared to the \$30,000 we expensed in Fiscal 2004, for equity-based compensation. We expect equity-based consulting expenses to increase in Fiscal 2005 but not to the \$120,000 level in Fiscal 2003. We experienced a slight decrease, from \$169,146 in Fiscal 2003 to \$155,873 in Fiscal 2004, in other general and administrative expenses. In light of expenses preparatory to, and associated with, the registration statement of which this prospectus is a part and anticipated ongoing compliance expenses, we expect other general and administrative expenses to increase in Fiscal 2005.

32

LOSS ON UNSUCCESSFUL ACQUISITIONS. Loss on unsuccessful acquisitions consists of non-refundable deposits or due-diligence expenses associated with acquisitions contemplated by us but abandoned after due diligence. As we continue to look for acquisition opportunities in Fiscal 2005, we may, but do not plan to, incur similar expenses.

INTEREST EXPENSE. Interest expense consists primarily of interest paid on outstanding notes payable and amortization of deferred loan costs. Interest expense increased from \$68,057 for Fiscal 2003 to \$116,163 for Fiscal 2004, an increase of approximately 71%. This increase is a result of an increase in indebtedness primarily in order to fund our expansion of inventory and our acquisition costs. Interest expense also increased as a percentage of revenue, from approximately 10% in Fiscal 2003 to approximately 14% in Fiscal 2004. We expect interest expense to increase in Fiscal 2005 as a result of additional debt incurred in order to fund operations and harvesting in early Fiscal 2005, but expect our debt to grow slower than our revenue and, as a result, to decrease as a percentage of revenue.

NET LOSS. Our net loss increased from \$337,586 for Fiscal 2003 to \$400,005 for Fiscal 2004. Information about our expectations with respect to Fiscal 2005 is set forth in the "General Outlook" subsection of this discussion above.

LIQUIDITY AND CAPITAL RESOURCES

Capital Commitments and Expenditures. The following table discloses aggregate information about our contractual obligations including long-term debt, operating and capital lease payments, office lease payments, contractual service agreements and the periods in which payments are due as of September 30, 2004:

- * Under the terms of the governing documents, we may request an extension in exchange for a minimum penalty of \$12,500; we have requested such an extension and are negotiating specific terms.
- ** Under the terms of the governing documents, we agreed to provide a term life insurance policy in the amount of \$550,000 on each of Kirk and Jim Fischer and to name the lenders as a beneficiary; we have acquired the insurance policies but have not named the lenders as a beneficiary.
- (1) Convertible with accrued interest into common stock at \$0.30 per share anytime through March 2005; holders have option to require us to buy back some or all of the shares of common stock received upon the conversion at \$0.345 per share upon certain terms; we agreed to register the shares of common stock issuable upon conversion.
- (2) Convertible with accrued interest into common stock at \$0.25 per share during the first six months, at \$0.35 per share during the second six months and at \$0.50 per share thereafter; we have agreed to register the shares of common stock issuable upon conversion.

34

- (3) Convertible with accrued interest into common stock at \$0.24 per share during the first twelve months, at \$0.30 per share during the second twelve months and at \$0.35 per share thereafter; we have agreed to register the shares of common stock received upon conversion upon registration of any of our shares of common stock.
- (4) Accruing interest at 7% until May 2005, at 8% from May 2005 until May 2007 and at 9% from May 2007 until May 2009.

As of June 30, 2004, we had \$2,237 in cash and cash equivalents. This represents an increase of \$2,237 compared to June 30, 2003. Cash used during the year ended June 30, 2004 includes approximately \$453,068 used in operations as well as \$167,340 used in investing activities. Sources of cash during the year ended June 30, 2004 included a net amount of \$622,645 from financing activities. Of the \$622,645 of net cash provided by financing activities, \$335,019 represents net cash received less payments made on non-convertible promissory notes issued to multiple parties from March 2004 - June 2004, \$11,264 represents net cash received less payments made on nonconvertible notes, \$312,700 represents the proceeds from issuance of common stock less offering costs. The \$36,338 difference between the \$622,645 of net cash provided by financing activities and the \$658,983 of cash itemized above represents payments on advances and loan costs and proceeds allocated to beneficial conversion features.

As of September 30, 2004, we had \$24,890 in cash and cash equivalents. This represents an increase of \$22,653 compared to June 30, 2004. Cash used during the quarter ended September 30, 2004 includes approximately \$337,872 used in operations as well as \$1,000 provided by investing activities. Sources of cash during the quarter ended September 30, 2004 included a net amount of \$359,525 from financing activities. Of this net amount, \$192,948 represents net cash received less payments made on notes payable, \$30,000 represents the proceeds from issuance of common stock less offering costs, \$11,538 represents proceeds from the sale of options to purchase common stock, \$50,000 represents proceeds allocated to beneficial conversion features, \$91,539 represents net cash received less payments made on related party advances and \$(16,500) represents payment of loan costs.

Edgar Filing: PENGE CORP - Form SB-2/A

Our material capital expenditures for Fiscal 2003 and Fiscal 2004 included direct costs of approximately \$291,000 to plant approximately 180,000 trees and shrubs, \$65,000 to purchase farming equipment and \$150,000 to pay the cash portion of the purchase price for the Sampres Farm. We made no material capital expenditures during the quarter ended September 30, 2004.

We anticipate making capital expenditures during the remainder of Fiscal 2005. Specifically, resources permitting, we plan to spend at least \$200,000 to replace inventory sold during Fiscal 2005 and to expand our inventory. We are also budgeting approximately \$300,000 for the cash portion of the purchase price of an acquisition (which amount may or may not be sufficient) and expect to spend between \$50,000 and \$100,000 to replace equipment and other items on the Major Trees Farm and the Sampres Farm.

LIQUIDITY. The following table reflects selected balance sheet data as of September 30, 2004 and June 30, 2004:

35

	SEPTEMBER 30, 2004	JUNE 30, 2004
BALANCE SHEET DATA:		
Cash and cash equivalents	\$ 24,980	\$ 2,237
Working capital (deficit)	(191,890)	(303,333)
Total assets	2,164,704	2,020,827
Retained deficit	(1,015,508)	(737,591)
Stockholders' equity	209,370	335,749

As of September 30, 2004, we had \$24,890 in cash and cash equivalents, total current assets of \$940,738 and currently liabilities of \$1,132,628, representing a current working capital deficit of \$(191,890). Our current liabilities as of that date include a \$276,572 balance on a secured convertible note due March 31, 2005 and a \$525,978 principal balance on non-convertible notes payable due within one year. We generate a majority of our revenues between November and January of each fiscal year. As a result of revenue collected between September 30, 2004 and [date within 45 days of effective date], we have increased our cash and cash equivalents balance to \$[to be completed] as of [date within 45 days of effective date].

We plan to use cash on hand and that collected in the coming months to pay a portion of our accounts payable and establish a reserve to cover most of our planned capital expenditures and basic operating expenses until we again start generating revenue in March 2005. With respect to the current portion of our notes payable, we believe that most of the holders of the convertible and non-convertible notes coming due in the next year will either convert such debt to equity or replace existing notes with notes with deferred payment dates. To the extent that does not occur, we believe that we can raise capital sufficient to repay the current portion of our long term debt through the issuance of additional notes and the sale of equity securities and warrants.

In addition, members of our management have informally agreed to provide up to \$200,000 of short-term financing to us. Such financing bears interest at 8% per annum. Management may demand payment on 30 days written notice, so long as 180 days have passed since the Company and management entered into the financing arrangement.

Other than the informal and nonbinding commitments from management, we

Edgar Filing: PENGE CORP - Form SB-2/A

do not have any specific commitments from third parties to provide financing needed to cover any capital shortfalls with respect to our operations, planned capital expenditures or near-term debt obligations. We caution that, particularly in light of the early stage of our business, such financing may not be available on favorable terms, or at all. We may be compelled to divert substantial portions of our existing cash and future cash flow to the repayment of debt, which would limit our ability to replace or expand inventory and acquire additional farms. This would have an adverse affect on revenues in the coming years. Certain of such debt is secured by our real property, and holders of the unsecured debt have standard remedies available to debtholders. If we were to default on such notes and the holders were to exercise their remedies, we would incur substantial legal expenses, penalties and related costs and could be forced to seek bankruptcy protection or to discontinue operations.

36

Our consolidated financial statements have been prepared on the assumption that our Company will continue as a going concern. Our independent registered public accounting firm has issued its report dated July 9, 2004 that includes an explanatory paragraph stating that our having only recently been formed, our lack of success in establishing profitable operations and the fact that our current liabilities exceed our current assets raise substantial doubt about our ability to continue as a going concern. Our product line is limited, and it has been necessary to rely upon financing from the issuance of promissory notes and the sale of our equity securities to sustain operations in the past. Additional financing will be required if we are to continue as a going concern.

37

OUR BUSINESS

OVERVIEW

Penge Corp. was incorporated in August 2002 as a Nevada corporation and maintains its principal offices at 11231 Winter Cottage Place, Las Vegas, Nevada 89135. Our telephone number is (702) 562-3176. We own and operate a tree production and nursery business. Unless otherwise specified or evident from the context, "we," "us," the "Company" and similar terms refer to Penge Corp. and its consolidated subsidiaries.

In the two and one-half years since our incorporation, we have invested all available capital into expanding and improving the Major Trees Farm, acquiring the Sampres Farm, and otherwise attempting to improve our tree production and nursery business. In that process, we have significantly expanded the number of trees and shrubs planted on, and harvested from, the Major Trees Farm and have been able to sell all of our products at prices consistent with our budgets and projections.

In the foreseeable future, we plan to continue to expand our operations through the planting of additional trees and shrubs on our existing farms and the purchase of additional nursery properties and businesses. We will continue to look for nursery businesses or properties with annual revenues of between \$100,000 and \$10 million. In the past, we have been able to negotiate favorable

Edgar Filing: PENGE CORP - Form SB-2/A

terms with owners of small nursery businesses who are hoping to exit the market. We attribute this success to the limited liquidity opportunities available to small nursery businesses and hope to be able to exploit this situation to negotiate favorable terms in the future.

Our goal is to expand the number of farms we manage, and the number of trees and shrubs planted on those farms, in the next few years while holding down increases in our administrative and other general operating expenses. As we spread our production costs over a larger inventory, we also hope to experience a decline in our per-unit production and sales costs. Over time, we expect that the increases in revenue from our expanded operations will outpace increases in our administrative, operational and other expenses.

We also offer business structure consulting services on a limited basis. Our total revenue from these consulting services has been less than \$40,000 since inception. We do not plan to actively market such consulting services in the future but remain open to accepting consulting engagements as they arise. Consulting services have been an insignificant part of our business in the past, and we do not expect consulting services to be a significant part of our business in the future.

The Major Trees Farm

In September 2002, pursuant to a Purchase Agreement signed in August 2002 and for a total purchase price of \$957,429, consisting of \$800,000 of notes payable and \$157,429 in cash, we acquired a tree and shrub farm in southern Arizona, 90 minutes southeast of Tucson and a wholesale tree and shrub business consisting of all of the stock of Major Trees, Inc., an Arizona corporation incorporated on December 29, 1993, and certain assets of Roger and Barbara Major, dba M7 Farms. Prior to this acquisition, we had no relationships with Major Trees, Inc. or Roger and Barbara Major. The farm is a 25-year-old tree and

38

shrub farm on 272 acres that grows trees and shrubs that are then sold wholesale to retail outlets, such as Home Depot, and to retail nurseries and landscape companies primarily in Arizona, New Mexico, Texas, and Nevada. Prior to our acquisition of the Major Trees Farm in September 2002, M7 Farms, Major Trees, Inc. and their predecessors and affiliates had engaged in this business for the previous approximately 25 years. We now conduct the business previously conducted jointly by M7 Farms and Major Trees, Inc.

The Major Trees Farm sells a variety of trees and shrubs and is the largest supplier of Eldarica Pine trees in the Southwest, selling these pine trees as, among other things, living, potted Christmas trees. The Major Trees Farm sold approximately 22,100 trees in Fiscal 2003 and generated approximately \$655,000 in revenue for Fiscal 2003. The Major Trees Farm sold approximately 28,600 trees in Fiscal 2004 and generated approximately \$758,000 in revenue for Fiscal 2004. We have approximately 180,000 trees growing on the Major Trees Farm, 30,000 of which we harvested and sold at the end of calendar 2004, with the possibility of selling up to an additional 5,000 trees this fiscal year.

Sampres Farm

In May 2004, pursuant to an Asset Purchase Agreement and for a total purchase price of \$670,151, including 400,000 shares of our common stock valued

Edgar Filing: PENGE CORP - Form SB-2/A

at \$120,000, a \$400,000 promissory note and \$150,151 in cash, we acquired certain assets, including a 17-acre tree and shrub farm near Houston, Texas and other assets related to its operation, from Sampres Tree Farms, L.L.C. and H. Preston and Shirley M. Franks. Prior to our acquisition of these assets, we had no relationships with Sampres Tree Farms, L.L.C. or H. Preston and Shirley M. Franks. In the two years prior to our acquisition of these assets, Sampres Tree Farms, L.L.C., which was organized in 2002, operated the 17-acre tree and shrub farm and sold a variety of landscape trees and shrubs primarily at retail, but also to retail nurseries, in Texas. We are now operating the acquired assets and are growing a variety of landscape trees and shrubs, which we sell to retail nurseries and landscape companies in Arizona, New Mexico, Texas and Nevada. We presently have an inventory of approximately 40,000 - 50,000 trees, which we plan on harvesting and selling over the next three years. We are expanding the number of trees and shrubs planted on the Sampres Farm, with over 20,000 additional trees and shrubs planted in the first six months following the acquisition, and expect to be able to begin harvesting an expanded inventory in the spring of 2007.

INDUSTRY BACKGROUND

Nursery and Landscape

The market for landscape trees and shrubs is large and very diverse. Major customer groups include retail nurseries, major retail outlets and landscape companies. Due to the significant transportation and shipping costs as well as varying local growing conditions and landscaping needs, the markets for landscape trees and shrubs are very localized and highly specific to particular geographic and climatological regions with the majority of landscape trees grown in particular areas also ultimately being sold and planted in the same geographic area. However, due to the existence of such a wide variety of growers, growers are subject to price pressures.

39

Living Christmas Trees

The market for Christmas trees is very large and diverse. According to the National Christmas Tree Association, Christmas trees are displayed in between 80 and 90 million homes in the United States each year. Of that number, roughly 30 to 35 million are real Christmas trees, with the remainder being artificial.

We compete in a very small niche of the larger Christmas tree market - potted, living trees. In the American Southwest, unlike other regions of our country, it is warm enough in the winter that consumers can buy living trees, rather than cut trees, keep them indoors during the Christmas season and then plant them out of doors later that season. Our Eldarica Pine trees are uniquely suited for sale as a potted, living tree in the Southwest because they are robust enough to withstand Christmas-season abuse, need little water and are able to withstand replanting in a warm, dry environment. Of our trees sold to Home Depot and similar retailers, we believe that many are sold and used as potted, living Christmas trees and then planted as landscaping trees.

TARGET MARKET, SALES AND MARKETING

Major Retailers

We market and sell our trees and shrubs to Home Depot and similar major retailers. Our marketing efforts consist solely of personal contacts with, and referrals to, purchasing retailers.

The trees sold to the major retailers are primarily Eldarica Pine trees, which are typically re-sold as potted living Christmas trees. In Fiscal 2004, we generated approximately 75% of our revenues through sales of Eldarica Pine trees to Home Depot (and 17% of our revenues through sales of Eldarica Pine trees to other retailers). We do not have any written agreement with, or purchase commitment from, Home Depot or any other retailer. We anticipate sales of Eldarica Pine trees decreasing as a percentage of our total sales in the future as we increase our planting and sales of landscape trees and shrubs.

Nurseries and Landscape Companies

We have significantly increased our planting of landscape trees and shrubs other than the Eldarica Pine in an attempt to increase our sales in the retail nursery and landscape markets. We plan to market such landscape trees and shrubs primarily through personal contacts with, and referrals to, retail nurseries and landscaping companies.

In Fiscal 2004, we generated approximately 17% of our revenues through sales to retail nurseries and landscaping companies in Arizona, New Mexico, Nevada and Texas.

40

We plan to increase our production of trees through additional acquisitions of farms such as the Sampres Farm, which added only landscaping trees, and by planting additional landscape trees on our current properties. We believe that this will permit us to increase our sales to landscape and nursery customers and to generate additional revenues during the spring and summer months. In the long run, we anticipate most of our revenue growth to come from sales of landscaping trees and shrubs to retail nurseries and landscape companies.

OUR PRODUCTS

Our farms grow dozens of trees and shrubs native to the Southwest region. These trees are primarily desert trees and shrubs that thrive in the dry and arid regions common throughout the southwestern United States and are those varieties most commonly sold by nurseries and utilized by landscape companies in that area. The primary tree grown by the Major Trees Farm is the Eldarica Pine. The Eldarica Pine is from the Middle East and Russia and is a desert tree with growth of 1-6 feet a year depending on climate, water, and fertilizer. The tree is highly disease resistant and hardy in warm climates.

The Eldarica Pine has been sold in the United States for decades and is a proven commodity in both hardiness and marketability to the Christmas, landscape and nursery markets in the southern United States and the region from Texas to California in particular. The Eldarica Pine represented approximately 91% of our Fiscal 2004 sales. We anticipate this decreasing as a percentage of our total sales in the future as we increase our production and sales of other trees and shrubs to the retail nursery and landscape markets.

Edgar Filing: PENGE CORP - Form SB-2/A

We grow our trees from seed to harvest in 1-gallon to 100-gallon plastic pots. The Eldarica Pine trees are sold at an average age of 3 years old, with heights ranging from 3 feet to 11 feet, with the best selling trees being 6-7 feet tall.

COMPETITION

The market for landscape, living Christmas and nursery trees is very large and diverse, and therefore, a grower must possess some form of sustainable competitive advantage in order to be successful. This could take the form of geographic proximity to a large number of purchasers, cultivation of a unique species or variety of trees or access to affordable labor, natural resources or capital. The large number of growers also results in highly competitive pricing and pressures on profitability. In order to be competitive in this market, we must effectively anticipate and respond to market demands and developments.

41

We have not experienced a reduction in orders or significant demands for price reduction from Home Depot and other cost sensitive retailers. As a result, we believe that our prices (at least for our Eldarica Pine) are as low or lower than those of our competitors. We also believe that the size of our Eldarica Pine operation, which is the largest in the Southwest, gives us a competitive advantage with larger retailers because of our perceived ability to meet their growing demand more easily than smaller growers. With respect to variety of species, geographic location, access to labor and other factors, we do not have a significant advantage or disadvantage overall, and may be perceived as having a competitive advantage or disadvantage, depending upon which competitor we are being compared with.

SUBSIDIARY

Penge owns 100% of the outstanding shares of common stock of Major Trees, Inc., an Arizona corporation.

INTELLECTUAL PROPERTY

We do not presently regard our intellectual property as critical to our success. If we acquire any proprietary intellectual property rights that we believe would benefit from patent, copyright, trademark or trade secret protection, we intend to take appropriate steps in order to protect those rights. This would likely include the filing of applications for appropriate state and federal registrations of our intellectual property rights and requiring any employees involved with the intellectual property to sign confidentiality and invention agreements.

EMPLOYEES

In addition to our four full-time management team members, we currently have a full-time foreman, two additional full-time employees and between ten and fifteen seasonal employees at each of our two farms. None of our employees is represented by a collective bargaining organization, and we consider our relationship with all our employees to be satisfactory. We plan to hire additional management and operational expertise as cash flow and business execution dictate.

GOVERNMENT REGULATION

Edgar Filing: PENGE CORP - Form SB-2/A

The nursery industry as a whole is not regulated by state, federal or local governments. As a result, our expenses associated with compliance with government regulations are minimal. Because of the proximity of our properties to the Mexican border and our use of temporary laborers, we do experience some administrative expense in connection with our compliance with immigration and employment laws, including laws requiring that we verify the immigration status of our employees, limiting our ability to employ legal and illegal aliens, granting certain minimum wage and other rights to employees and laws designed to facilitate the organization of labor. If we were to fail to comply with any such laws or regulations, we may incur significant expenses in connection with any government investigation or litigation and could be forced to pay fines and/or take costly measures to ensure compliance. At such point, costs associated with government regulations could become material.

42

ENVIRONMENTAL REGULATION

We are not required to obtain any environmental permits, and do not use any hazardous materials, in connection with the operation of our nursery business. Accordingly, we have incurred no material expenses associated with environmental compliance. We do, however, use fertilizers and pesticides that may contain chemicals that have been, or may be, determined to be harmful to the environment, which chemicals could enter the air, surface water or ground water in and around our farms or affect animals and plants in the area. If that were to occur (or has occurred in the past), we may be subject to fines, penalties and remediation obligations under the environmental laws; such include, without limitation, the Clean Air Act, the Clean Water Act, the Resource Conservation and Recovery Act and the Comprehensive Environmental Response, Compensation, and Liability Act. At such point, costs associated with environmental compliance and remediation could become material.

PROPERTY

We own a 272-acre tree and shrub farm called the Major Trees Farm that is located at 14660 South Highway 191 in Elfrida, Arizona, which is an approximately 90 minute drive from Tucson, Arizona. The farm is flat, desert landscape and is surrounded by other agricultural land. Water for the farm is drawn from deep wells.

This farm secures a \$600,000 note maturing in March 2007. The note accrues interest at 7% and had an outstanding balance of \$314,884 as of September 30, 2004. Principal payments of \$150,000 are due on March 1, 2005 and March 1, 2007 on the note. We are permitted to prepay the note without penalty at any time and a final payment of \$40,894 will be due on the note upon maturity in March 2007 assuming we do not make any prepayments and make all other payments due under the note in a timely manner. In addition, the farm also secures a \$300,000 convertible note maturing in March 2005. This convertible note had an outstanding balance of \$276,572 as of September 30, 2004. This convertible note requires monthly payments of \$4,125. We may prepay the convertible note and a final payment of \$267,493 will be due on the note upon maturity in March 2005 assuming we do not make any prepayments and make all other payments due under the convertible note in a timely manner. Although we plan on increasing the amount of inventory planted on this farm, we do not otherwise anticipate renovating, improving, or developing this property. In the opinion of our management, this farm is adequately covered by insurance.

We also own a 17-acre tree and shrub farm called the Sampres Tree Farm

Edgar Filing: PENGE CORP - Form SB-2/A

that is located at 19461 Mt. Pleasant Road in Montgomery, Texas, which is an approximately 30 minute drive from Houston, Texas. The farm is sloped and is surrounded by rolling hills. The farm is surrounded by national forest, other agricultural land and residential development. It is very wet and watered by both rainwater and wells. This farm secures a \$400,000 note payable maturing in May 2009. The note accrues interest at the rate of 7% during the first year of the note (until May 2005), 8% during the second and third years of the note (May 2005-May 2007) and 9% during the fourth and fifth years of the note (May 2007-May 2009). This note had an outstanding balance of \$382,778 at September 30, 2004. The note requires monthly payments of \$3,101.20 until January 2005,

43

after which it requires monthly payments of \$2,500; in addition, principal payments of \$50,000 were required on September 1, 2004 and January 1, 2005. We are permitted to prepay the note without penalty at any time, and a final payment of \$267,416 will be due on this note upon maturity in May 2009 assuming we do not make any prepayments and make all other payments due under the note in a timely manner. In addition, this farm also secures the same \$300,000 convertible note, payable maturing in March 2005 that is also secured by the Major Trees Farm. As discussed above, this convertible note had an outstanding balance of \$276,572 as of September 30, 2004. This convertible note requires monthly payments of \$4,125. We may prepay the convertible note, and a final payment of \$267,493 will be due on the note upon maturity in March 2005 assuming we do not make any prepayments and make all other payments due under the convertible note in a timely manner. Although we plan on increasing the amount of inventory planted on this farm, we do not otherwise anticipate renovating, improving, or developing this property. In the opinion of our management, this farm is adequately covered by insurance.

We maintain our corporate records in the home office of Kirk Fischer, our Chief Executive and Chief Financial Officer, and our executive officers use such office on occasion for business purposes. We do not have any lease with respect to such home office. Should we be required to obtain a separate executive office in the Las Vegas, Nevada area, comparable space is available in the area at a reasonable rate.

RESEARCH AND DEVELOPMENT

We have not incurred any research and development expenses in the past and do not anticipate incurring any such expenses in the foreseeable future. All research and development seeds, seedlings and trees have generated revenues in excess of the expense of cultivating them, resulting in no research and development net cost.

LEGAL PROCEEDINGS

We are not engaged in any legal proceedings, nor are we aware of any pending or threatened legal proceedings that, singly or in the aggregate, will have a material adverse effect on our business, financial condition or results of operations.

MANAGEMENT

EXECUTIVE OFFICERS AND DIRECTORS

Certain information regarding our executive officers and directors is set forth below. Our executive officers are appointed by, and continue to serve at the will of, our board of directors. Our directors are elected or appointed for terms that continue, absent resignation, death or removal by our stockholders, until the later of the next annual meeting of stockholders or until a replacement is duly appointed or elected and qualified.

NAME	AGE	POSITION
----	---	-----
Kirk Fischer	37	Chief Executive Officer, Chief Financial Officer and Chairman of the Board
Jim Fischer	58	Vice President of Operations and Director
Lori Fischer	35	Controller and Director

KIRK FISCHER, CHIEF EXECUTIVE OFFICER, CHIEF FINANCIAL OFFICER AND CHAIRMAN OF THE BOARD. Mr. Fischer has served as Chief Executive Officer and Chairman of the Board of Penge since it was founded in August 2002 and as Chief Financial Officer since September 2004. Mr. Fischer's background covers a variety of different businesses, serving primarily in senior management positions. Between 1999 and 2002, Mr. Fischer started, and served as chairman and chief executive officer of, Microcap Financial Services, a company specializing in investor relations, corporate strategy and consulting services for newer public companies, and Microcap Financial Group, a finance and investment company. From 1996 to 1999, Mr. Fischer served as chief executive officer of a fast-food holding company called FFG, Inc., with six locations and over 100 employees. From 1990 to 1996, Mr. Fischer served in management positions at Hart Scientific, Inc., as its assistant controller, and at its subsidiary CSC, as its controller. Mr. Fischer earned a bachelor's degree in accounting from Brigham Young University. Mr. Fischer is the husband of Lori Fischer, our Controller and a director, and the son of Jim Fischer, our Vice President of Operations and a director.

JIM FISCHER, VICE PRESIDENT OF OPERATIONS AND DIRECTOR. Mr. Fischer has served as Vice President of Operations and a director of Penge since it was founded in August 2002. Mr. Fischer has over 30 years' experience working with Cenex-affiliated farm cooperatives and businesses. Starting as general manager of the Wendell Grange Supply operation in 1978, Mr. Fischer grew the business from one location to five locations and over 100 employees. Following his departure from Cenex, from 1996 to 1999, Mr. Fischer served as president of a fast-food holding company called FFG, Inc. with six locations and over 100 employees. Between 1999 and 2002, Mr. Fischer was employed by Microcap Financial Services, a company specializing in investor relations, corporate strategy and consulting services for newer public companies, and Microcap Financial Group, a finance and investment company. Mr. Fischer is the father of Kirk Fischer, our Chief Executive Officer, Chief Financial Officer and Chairman of the Board, and father-in-law of Lori Fischer, our Controller and a director.

45

LORI FISCHER, CONTROLLER AND DIRECTOR. Ms. Fischer has served as Controller of Penge since it was founded in August 2002 and as a director of Penge since September 2004. Between 1999 and 2002, Ms. Fischer served as controller of Microcap Financial Services, a company specializing in investor relations, corporate strategy and consulting services for newer public

Edgar Filing: PENGE CORP - Form SB-2/A

companies, and Microcap Financial Group, a finance and investment company. From 1996 to 1999, Ms. Fischer served as controller of a fast-food holding company called FFG, Inc. Ms. Fischer earned a bachelor's degree in accounting from Brigham Young University. Ms. Fischer is the wife of Kirk Fischer, our Chief Executive Officer, Chief Financial Officer and Chairman of the Board, and the daughter-in-law of Jim Fischer, our Vice President of Operations and a director.

KEY EMPLOYEE

Certain information regarding a key employee is set forth below.

KC HOLMES, MANAGER OF MERGERS & ACQUISITIONS. Mr. Holmes has served as Manager of Mergers & Acquisitions of Penge since September 1, 2004. From its founding in August 2002 until September 1, 2004, Mr. Holmes served as President, Chief Financial Officer and as a director of Penge. From 1996 to 2002, Mr. Holmes served in various capacities with The Murdock Group as an executive and board member and with Q Comm International (QMM) as a board member and consultant. He also served as an executive of NEBO Products, an import/export wholesale business selling hardware and sporting goods, from 1996 to 1999. Mr. Holmes graduated from Brigham Young University with a degree in Psychology. Mr. Holmes is the cousin of Kirk Fischer, our Chief Executive Officer, Chief Financial Officer and Chairman of the Board, and the nephew of Jim Fischer, our Vice President of Operations and a director.

BOARD COMMITTEES

Our entire Board of Directors presently serves as our audit committee. None of the members of the audit committee satisfy the independence requirements applicable to audit committees of listed companies. In addition, the Board of Directors has determined that the audit committee does not have a member qualifying as an audit committee financial expert, as defined in Item 401(h) of Regulation S-B. To save limited capital over the last several years, we have chosen not to expand the size of our Board of Directors or offer cash compensation to our directors. The absence of cash compensation makes recruiting persons who are not otherwise interested in our company more difficult. For these reasons, we do not have on our Board of Directors a person who would qualify as an audit committee financial expert.

We do not presently have a standing nominating committee or compensation committee, and we do not have a nominating committee charter or a compensation committee charter.

EXECUTIVE COMPENSATION

SUMMARY COMPENSATION TABLE. The following table sets forth the aggregate compensation earned during the fiscal years ended June 30, 2004 and June 30, 2003 by each person who served as our Chief Executive Officer during the fiscal years ended June 30, 2004 and June 30, 2003 and each other executive officer if that person received aggregate compensation in excess of \$100,000 during the fiscal years ended June 30, 2004 or June 30, 2003 or is expected to receive aggregate compensation in excess of \$100,000 during fiscal year 2005 (the "named executive officers").

OPTION/SAR GRANTS IN LAST FISCAL YEAR. No options to purchase common stock were granted to the named executive officers during the fiscal year ended June 30, 2004. We have never granted any stock appreciation rights. None of the named executive officers exercised any options during the fiscal year ended June 30, 2004.

AGGREGATE OPTION/SAR EXERCISES IN LAST FISCAL YEAR AND FISCAL YEAR-END OPTION/SAR VALUES. The following table sets forth the information concerning the options to purchase capital stock of the named executive officers exercised during the fiscal year ended June 30, 2004, and the value of unexercised options held by the named executive officers as of June 30, 2004.

(1) The price of a share of common stock issuable upon the exercise of an option to purchase a share of common stock was assumed to be \$0.30, the most recent price at which shares of common stock were sold in private placements by Penge. The value of the unexercised in-the-money options was then calculated as the difference between that market price and the exercise price of the options,

Edgar Filing: PENGE CORP - Form SB-2/A

which is \$0.11.

COMPENSATION OF DIRECTORS. Directors are reimbursed for the expenses they actually incur in attending board meetings. Directors are not paid a fee for their service or attendance at board meetings. In the fiscal year ended June 30, 2004, we granted no options to directors. Directors, whether or not employees, are permitted to participate in our stock incentive plan.

EXECUTIVE EMPLOYMENT AGREEMENTS, TERMINATION OF EMPLOYMENT AND CHANGE OF CONTROL ARRANGEMENTS. Each of our executive officers has previously entered into an engagement agreement based upon our standard form executive employment agreement, which generally provides for the payment of fair and reasonable salary, bonuses as determined by the Board of Directors, participation in all our benefits plans and requires the execution of a confidentiality agreement. In addition, the form agreement provides that the officer may be terminated with or without cause, but that, upon termination, the officer shall be paid through the end of the term of the agreement. The terms of the agreements entered into by each of the officers have expired; however, KC Holmes, a significant stockholder and our Manager of Mergers & Acquisitions has also entered into an engagement agreement based upon our standard form agreement with a term ending September 1, 2006.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The table below sets forth information, as of January 1, 2005 and as of the closing of the offering, assuming all shares are sold, regarding the ownership of our common stock by each person who beneficially owns of record more than 5% of our outstanding common stock, by each person serving as a director or executive officer and by all of our directors, director nominees and executive officers as a group. Except as otherwise indicated in the footnotes to this table, all shares will be owned directly, and the persons named in the table will have sole voting and investment power with respect to shares shown as being beneficially owned by them.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The following discusses certain transactions between us and our officers, directors, beneficial holders of 5% or more of our common stock and certain others that may be deemed to be affiliates.

Edgar Filing: PENGE CORP - Form SB-2/A

In connection with our founding, we issued the following number of shares of our common stock to the following persons that may be deemed to be affiliates or to their designees, among others, in August 2002 in exchange for \$0.00004 per share in cash:

NAME OF PERSON	NUMBER OF SHARES OF COMMON STOCK
Kirk Fischer	1,500,000
Jim Fischer	250,000
KC Holmes	500,000*
Rocky Fischer	250,000
Lorien Investments, LLC (Lori Fischer)	2,000,000
5th Genki, LLC (KC Holmes)	2,500,000

50

* 265,000 of such shares were transferred to persons designated by Mr. Holmes.

Each of the persons named in the table above may be deemed to be promoters of Penge.

In June 2003, we purchased office furniture and equipment with a value of \$15,130 from KC Holmes, Manager of Mergers & Acquisitions, for \$15,130. The determination of value was made by Kirk Fischer and Jim Fischer, directors of the Company without a direct financial interest in the transaction. Kirk Fischer is a cousin of KC Holmes, and Jim Fischer is an uncle of KC Holmes.

During fiscal year 2003, Rocky Fischer, the brother of Kirk Fischer, our Chief Executive Officer, Chief Financial Officer and Chairman of the Board, provided consulting services valued at \$14,500 to Penge, which amount we paid in July 2003.

We issued 100,000 shares of common stock to Rocky Fischer, the brother of Kirk Fischer, our Chief Executive Officer, Chief Financial Officer and Chairman of the Board, for \$10,000 cash in October 2002.

In September 2003, we granted options to purchase 100,000 shares of our common stock to Rocky Fischer, the brother of Kirk Fischer, our Chief Executive Officer, Chief Financial Officer and Chairman of the Board, for consulting services.

In November 2002, we granted options to purchase the following number of shares of our common stock to the following persons that may be deemed to be affiliates, among others, under our 2002 Stock Incentive Plan:

NAME OF PERSON	NUMBER OF OPTIONS TO PURCHASE SHARES OF COMMON STOCK
Kirk Fischer	1,000,000
Jim Fischer	1,000,000
KC Holmes	1,000,000
Rocky Fischer	1,000,000

During fiscal years 2003 and 2004 respectively, we paid Rocky Fischer, the brother of Kirk Fischer, our Chief Executive Officer, Chief Financial Officer and Chairman of the Board, \$24,020 and \$25,875 for consulting services.

Edgar Filing: PENGE CORP - Form SB-2/A

During fiscal years 2003 and 2004, we provided the compensation described in the section entitled "Executive Compensation" to Kirk Fischer, Chief Executive Officer, Chief Financial Officer and a director; Lori Fischer, Controller and a director; and KC Holmes, Manager of Mergers & Acquisitions. In addition, in fiscal years 2003 and 2004 respectively, we paid salary of \$29,500 and \$77,000 to Jim Fischer, Vice President of Operations and a director.

DESCRIPTION OF OUR CAPITAL STOCK

Our authorized capital stock consists of 50,000,000 shares of common stock, \$.001 par value, and 10,000,000 shares of preferred stock, \$.001 par value. As of January 1, 2005, there were 12,952,332 shares of our common stock outstanding, held of record by and beneficially owned by approximately 110 stockholders. As of January 1, 2005, there were no shares of preferred stock issued or outstanding.

OUR COMMON STOCK

Holders of our common stock are entitled to receive any dividends properly declared by our board. Holders of our common stock are entitled to one

Edgar Filing: PENGE CORP - Form SB-2/A

vote per share on all matters on which the holders of our common stock are entitled to vote. Holders of our common stock do not have any cumulative voting, preemptive, conversion, redemption or sinking fund rights. If we are liquidated, dissolved or wound up, holders of our common stock are entitled to share equally and ratably in our remaining assets after the payment of all our liabilities and the liquidation preference of any outstanding class or series of our preferred stock. The outstanding shares of our common stock are fully paid and nonassessable. The rights, preferences and privileges of our common stock are subject to any series of our preferred stock that we may issue in the future, as described below.

OUR PREFERRED STOCK

Our board of directors has the authority to issue preferred stock in one or more series and to fix the number, designation, power, preferences and relative, participating, optional and other rights, and the qualifications, limitations and restrictions thereof, if any, of any series of preferred stock, including, without limitation, the following, without any further vote or action by our stockholders:

- o the distinctive designation of, and the number of shares of preferred stock that shall constitute the series, which number may be increased (except as otherwise fixed by the board of directors) or decreased (but not below the number of shares thereof then outstanding) from time to time by action of the board of directors;

52

- o the rate and times at which, and the terms and conditions upon which, dividends, if any, on shares of the series shall be paid, the extent of preferences or relation, if any, of such dividends to the dividends payable on any other class or classes of our stock, or on any series of preferred stock or of any other class or classes of our stock, and whether such dividends shall be cumulative or non-cumulative;
- o the right, if any, of the holders of shares of the series to convert the same into, or exchange the same for, shares of any other class or classes of our stock, or of any series of preferred stock or of any other class or classes of our stock, and the terms and conditions of such conversion or exchange;
- o whether shares of the series shall be subject to redemption, and the redemption price or prices including, without limitation, a redemption price or prices payable in shares of the common stock and the time or times at which, and the terms and conditions upon which, shares of the series may be redeemed;
- o the rights, if any, of the holders of shares of the series upon voluntary or involuntary liquidation, merger, consolidation, distribution or sale of assets, dissolution or winding-up of the company;
- o the terms of the sinking fund or redemption or purchase account, if any, to be provided for shares of the series; and
- o the voting power, if any, of the holders of shares of the series that may, without limiting the generality of the foregoing, include the right to more or less than one vote per share on any or all matters voted upon by the stockholders and the right to vote, as a series by itself or together with other series of preferred stock as a class, upon such matters, under such

Edgar Filing: PENGE CORP - Form SB-2/A

circumstances and upon such conditions as the board of directors may fix, including, without limitation, the right, voting as a series by itself or together with other series of preferred stock or together with all series of preferred stock as a class, to elect one or more of our directors in the event there shall have been a default in the payment of dividends on any one or more series of preferred stock or under such other circumstances and upon such condition as the board of directors may determine.

The issuance of preferred stock by our board of directors could adversely affect the rights of holders of our common stock. The potential issuance of our preferred stock may:

- o have the effect of delaying or preventing a change in control of the company;
- o discourage bids for our common stock at a premium over the market price of our common stock; and
- o adversely affect the market price of, and the voting, dividend, liquidation and other rights of the holders of our common stock.

MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

ABSENCE OF MARKET FOR COMMON STOCK

Our common stock is not listed on any exchange or quoted on any similar quotation service, and there is currently no market for our common stock. We are taking steps to enable our common stock to be quoted on the OTC Bulletin Board but can provide no assurance that our common stock will ever be quoted on any quotation service or that any market for our common stock will ever develop.

COMMON STOCK OUTSTANDING AND AVAILABLE FOR FUTURE SALE

Future sales of substantial amounts of common stock in the public market or the prospect of such sales could adversely affect market prices for our common stock (to the extent that any such market develops).

As of January 1, 2005, there were 12,952,332 shares of our common stock outstanding held by approximately 110 holders of record. In addition, there were 4,500,000 shares of common stock authorized for issuance upon exercise of outstanding options granted pursuant to our stock option plan, 3,500,000 shares of common stock reserved for the future grant of stock options under that plan, 50,000 shares of our common stock issuable upon the exercise of outstanding options, 1,932,638 shares of common stock issuable upon the conversion of convertible notes payable and no shares of common stock subject to outstanding warrants to purchase common stock.

All outstanding shares of our common stock are "restricted securities," as defined in Rule 144 promulgated under the Securities Act, and may be sold in the public market only if registered under the Securities Act or if they qualify for an exemption from registration, including an exemption under Rule 144. The resale of 3,861,466 of such shares has been registered under the registration statement of which this prospectus is a part and, subject to compliance with state securities laws and the prospectus delivery requirements under the Securities Act, may be sold pursuant to this prospectus at any time the registration statement is effective.

Edgar Filing: PENGE CORP - Form SB-2/A

In general under Rule 144, a person, including an "affiliate" of our company, who has beneficially owned restricted shares for at least one year is entitled to sell within any three-month period a number of shares that does not exceed the greater of one percent of the then outstanding shares of common stock (approximately 129,523 shares of common stock as of the date hereof) or the average weekly trading volume of the common stock during the four calendar weeks preceding the sale. Sales under Rule 144 are subject to manner-of-sale restrictions, notice requirements and the availability of current public information about us. Rule 144(k) provides that a person who is not an "affiliate" of the issuer at any time during the three months preceding a sale and who has beneficially owned shares for at least two years is entitled to sell those shares at any time without compliance with the public information, volume limitation, manner of sale and notice provisions of Rule 144.

54

DIVIDENDS

We have never declared or paid cash dividends on our shares of common stock. We currently intend to retain future earnings for use in our business and, therefore, do not anticipate paying any dividends on our shares of common stock in the foreseeable future.

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS

Set forth below is certain information about the number of shares of our common stock subject to options, warrants and other rights granted, or that may be granted, under our compensation plans as of June 30, 2004. The equity compensation plan that has been approved by security holders is the 2002 Stock Incentive Plan. We have no equity compensation plans that have not been approved by security holders.

The validity of the securities offered pursuant to this prospectus is being passed upon for us by Stoel Rives LLP.

EXPERTS

Our financial statements included in this prospectus as of June 30, 2004 and 2003 and for each of the two years then ended have been audited by Pritchett, Siler & Hardy, P.C., independent registered public accounting firm, as stated in its report appearing elsewhere in this prospectus and in the registration statement, and are included in reliance upon that report given upon the authority of that firm as experts in accounting and auditing.

55

INDEMNIFICATION OF OUR OFFICERS AND DIRECTORS

Our articles of incorporation provide that we shall indemnify and advance expenses to our directors, officers, employees, fiduciaries or agents and to any person who is or was serving at our request as a director, officer, partner, trustee, employee, fiduciary or agent of another domestic or foreign corporation or other person or of an employee benefit plan (and their respective estates or personal representatives) to the fullest extent as from time to time permitted by Nevada law.

Our bylaws provide that we shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of our company, by reason of the fact that he or she is or was a director, officer, employee or agent of our company, or is or was serving at the request of our company as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him or her in connection with the action, suit or proceeding if he or she acted in good faith and in a manner that he or she reasonably believed to be in or not opposed to the best interests of our company and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

With respect to derivative actions, our bylaws provide that we shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of our company to procure a judgment in its favor by reason of the fact that he or she is or was a director, officer, employee or agent of our company, or is or was serving at the request of our company as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses, including amounts paid in settlement and attorneys' fees actually and reasonably incurred by him or her in connection with the defense or settlement of the action or suit if he or she acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of our company. We may not indemnify any such person for any claim, issue or matter as to which such person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals therefrom, to be liable to our company or for amounts paid in settlement to our company, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to

Edgar Filing: PENGE CORP - Form SB-2/A

indemnity for such expenses as the court deems proper.

Any indemnification under the provisions described above, unless ordered by a court, may be made by our company only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances. The determination must be made:

- o By the stockholders;

56

- o By the board of directors by majority vote of a quorum consisting of directors who were not parties to the act, suit or proceeding;
- o If a majority vote of a quorum consisting of directors who were not parties to the act, suit or proceeding so orders, by independent legal counsel in a written opinion; or
- o If a quorum consisting of directors who were not parties to the act, suit or proceeding cannot be obtained, by independent legal counsel in a written opinion.

Our bylaws further provide that the expenses of officers and directors incurred in defending a civil or criminal action, suit or proceeding must be paid by our company as they are incurred and in advance of the final disposition of the action, suit or proceeding, upon receipt of an undertaking by or on behalf of the director or officer to repay the amount if it is ultimately determined by a court of competent jurisdiction that he or she is not entitled to be indemnified by our company.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions or otherwise, we have been informed that in the opinion of the SEC such indemnification is contrary to public policy as expressed in the Securities Act and is, therefore, unenforceable.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC a registration statement on Form SB-2 under the Securities Act with respect to shares of common stock offered pursuant to this prospectus. This prospectus, which forms a part of the registration statement, does not contain all of the information included in the registration statement and its exhibits, as permitted by the rules and regulations of the SEC and you should refer to the registration statement and its exhibits. Statements in this prospectus as to the contents of any contract or other document referred to in this prospectus are not necessarily complete and, in each instance, reference is made to the copy of that contract or other document filed as an exhibit to the registration statement, each statement being qualified in all respects by that reference. You may read and copy the registration statement, including exhibits and schedules filed with it, at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains a website (<http://www.sec.gov>) that contains reports, proxy and information statements and other information regarding registrants, such as us, that file electronically with the SEC.

Edgar Filing: PENGE CORP - Form SB-2/A

Upon completion of this offering, we will become subject to the information and periodic reporting requirements under the Exchange Act and, in accordance with this law, will file periodic reports, proxy statements and other information with the SEC. These periodic reports, proxy statements and other information will be available for inspection and copying at the SEC's Public Reference Room and the website of the SEC referred to above.

PENGE CORP. AND SUBSIDIARY

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION - Penge Corp. ("Parent") was organized under the laws of the State of Nevada on August 6, 2002.

Major Trees, Inc. ("MT Subsidiary") was organized under the laws of the State of Arizona on December 29, 1993.

Edgar Filing: PENGE CORP - Form SB-2/A

Anglewood Advisors, Inc. ("AA Subsidiary") was organized under the laws of the State of Nevada on January 27, 2003 as a wholly-owned subsidiary of Parent. AA Subsidiary offered business structure consulting. On October 2, 2003, the Company's Board of Directors determined to abandon AA Subsidiary. AA Subsidiary has been dissolved by the State of Nevada. At the time of abandonment, AA Subsidiary had no assets and no liabilities. The financial statements reflect the operations of AA Subsidiary from January 27, 2003 through October 2, 2003. The Company continues to offer business structure consulting through Parent.

Parent and MT Subsidiary ("the Company") grows trees and other agricultural products. Also, the Company has occasionally provided business consulting services. The Company has, at the present time, not paid any dividends and any dividends that may be paid in the future will depend upon the financial requirements of the Company and other relevant factors.

CONDENSED FINANCIAL STATEMENTS - The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows at September 30, 2004 and 2003 and for the periods then ended have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's June 30, 2004 audited financial statements. The results of operations for the periods ended September 30, 2004 and 2003 are not necessarily indicative of the operating results for the full year.

CONSOLIDATION - The consolidated financial statements include the accounts of Parent and Parent's wholly-owned MT Subsidiary. The consolidated financial statements also include the accounts of Parent's formerly wholly-owned AA Subsidiary for the period from January 27, 2003 through October 2, 2003. All significant intercompany transactions have been eliminated in consolidation.

FISCAL YEAR - The Company's fiscal year-end is June 30th.

AGRICULTURAL PRODUCTION - The Company accounts for their agricultural activities in accordance with Statement of Position 85-3, "Accounting by Agricultural Producers and Agricultural Cooperatives". All direct and indirect costs of growing crops are either accumulated as inventory or expensed as cost of goods sold. Permanent land development costs are capitalized and not depreciated. Limited-life land development costs and the development costs to bring long-life and intermediate-life plants into production are capitalized and depreciated using the straight-line method over the estimated useful lives of the assets.

Edgar Filing: PENGE CORP - Form SB-2/A

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [CONTINUED]

CASH AND CASH EQUIVALENTS - The Company considers all highly-liquid debt investments purchased with a maturity of three months or less to be cash equivalents.

INVESTMENTS - The Company's investments which are bought and held principally for the purpose of selling them in the near term are classified as trading securities. Trading securities are recorded at fair value with changes in fair value being included in earnings. Investments for which the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity and are recorded at amortized cost. Investments not classified as either held-to-maturity or trading securities are classified as available-for-sale. Available-for-sale securities are recorded at fair value with changes in fair value being excluded from earnings and recorded net of tax as a separate component of equity in accordance with Statement of Financial Accounting Standards No. 115, "Accounting for Certain Investments in Debt and Equity Securities". The cost of a security is determined using the average cost method.

ACCOUNTS RECEIVABLE - The Company records accounts receivable at the lower of cost or fair value. The Company recognizes interest income on an account receivable based on the stated interest rate for past-due accounts over the period that the account is past due. The Company accumulates and defers fees and costs associated with establishing a receivable to be amortized over the estimated life of the related receivable. The Company estimates allowances for doubtful accounts based on the aged receivable balances and historical losses. The Company records interest income on delinquent accounts receivable only when payment is received. The Company first applies payments received on delinquent accounts receivable to eliminate the outstanding principal. The Company charges off uncollectible accounts receivable when management estimates no possibility of collecting the related receivable. The Company considers accounts receivable to be past due or delinquent based on contractual terms.

INVENTORIES - Growing crop inventory is stated at the lower of market or cost using the retail method. Under the retail method, the Company counts and extends their inventory at sales prices. This inventory at sales prices is then multiplied by a cost ratio to determine inventory at cost. The cost ratio is determined by taking the total of the beginning inventory at cost plus all direct and indirect costs of growing crops divided by the total of the ending inventory at sales prices plus sales revenues. Raw material inventory is stated at the lower of market or cost using the first-in first-out (FIFO) method.

PROPERTY AND EQUIPMENT - Property and equipment are stated at cost or carryover basis. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized upon being placed in service. Expenditures for maintenance and repairs are charged to expense as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. In accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", the Company periodically reviews their property and equipment for impairment.

ACQUISITION COSTS - Costs related to proposed acquisitions are deferred and will be included in the acquisition price upon completion of the related acquisition. In the event an acquisition is unsuccessful, the costs related to the acquisition are written off to expense.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [CONTINUED]

INTANGIBLE ASSETS - The Company accounts for their intangible assets in accordance with Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets". SFAS No. 142 establishes three classifications for intangible assets including definite-life intangible assets, indefinite-life intangible assets and goodwill and requires different accounting treatment and disclosures for each classification. In accordance with SFAS No. 142, the Company periodically reviews their intangible assets for impairment. No impairment was recorded during the three months ended September 30, 2004 and 2003.

STOCK OFFERING COSTS - Costs related to proposed stock offerings are deferred and will be offset against the proceeds of the offering. In the event a stock offering is unsuccessful, the costs related to the offering are written off to expense.

PRODUCT WARRANTY - The Company warrants their agricultural products against damage that may occur prior to delivery to the customer. At September 30, 2004 and June 30, 2004, the Company has established a reserve for future warranty expense of \$12 and \$31, respectively.

REVENUE RECOGNITION - The Company's revenue comes primarily from the sale of agricultural products. The Company recognizes revenue from the sale of agricultural products when rights and risk of ownership have passed to the customer, there is persuasive evidence of a sales arrangement, product has been shipped or delivered to the customer, the price and terms are finalized and collection of the resulting receivable is reasonably assured. The Company also generates revenue from business consulting services. The Company recognizes revenue from business consulting services over the term of the underlying consulting agreement.

STOCK-BASED COMPENSATION - The Company has one stock-based employee compensation plan [SEE NOTE 8]. The Company accounts for their plan under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees", and related Interpretations. During the three months ended September 30, 2004 and 2003, the Company did not have any stock-based employee compensation.

INCOME TAXES - The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" [SEE NOTE 9].

LOSS PER SHARE - The computation of loss per share is based on the weighted average number of common shares outstanding during the period presented, in accordance with Statement of Financial Accounting Standards No. 128, "Earnings Per Share" [SEE NOTE 10].

ACCOUNTING ESTIMATES - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the

Edgar Filing: PENGE CORP - Form SB-2/A

reported period. Actual results could differ from those estimated.

RECENTLY ENACTED ACCOUNTING STANDARDS - Statement of Financial Accounting Standards ("SFAS") No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities", and SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity", were recently issued. SFAS No. 149 and 150 have no current applicability to the Company or their effect on the financial statements would not have been significant.

RESTATEMENT - The financial statements have been restated for all periods presented to reflect Parent's amended articles of incorporation which were filed with the State of Nevada in October 2004 [SEE NOTES 8 AND 15].

NOTE 2 - ACQUISITION OF CERTAIN ASSETS OF SAMPRES TREE FARMS, L.L.C.

On May 26, 2004, Parent acquired certain assets of Sampres Tree Farms, L.L.C. pursuant to an Asset Purchase Agreement signed May 20, 2004. Parent issued 400,000 shares of common stock, issued a \$400,000 note payable and paid \$150,151 in cash to acquire the assets from Sampres Tree Farms, L.L.C. The Company has accounted for the acquisition as an asset purchase.

NOTE 8 - CAPITAL STOCK AND OPTIONS [CONTINUED]

From July through September 2004, the Company issued 100,001 shares of their previously authorized but unissued common stock for cash of \$30,000, or \$.30 per share.

In June 2004, the Company issued 166,667 shares of their previously authorized but unissued common stock for a subscription receivable of \$50,000, or \$.30 per share.

In May 2004, the Company issued 400,000 shares of their previously authorized but unissued common stock as part of an asset acquisition [SEE NOTE 2] valued at \$120,000, or \$.30 per share.

From August 2003 through June 2004, the Company issued 450,664 shares of their previously authorized but unissued common stock for cash of \$135,200, or \$.30 per share. Stock offering costs of \$27,500 were netted against the proceeds.

From July through September 2003, the Company issued 220,000 shares of their previously authorized but unissued common stock for cash of \$55,000, or \$.25 per share.

In June 2003, the Company issued 420,000 shares of their previously authorized but unissued common stock for a subscription receivable of \$105,000, or \$.25 per share. The Company received the \$105,000 subscription receivable in July 2003.

SALE OF STOCK OPTIONS - In August 2004, the Company sold options to purchase 50,000 shares of common stock for cash of \$11,538. The options are exercisable at \$.30 per share for 10 years. At September 30, 2004, none of these options had been exercised, forfeited or cancelled.

STOCK OPTION PLAN - In October 2002, the Company's Board of Directors approved and adopted the "2002 Stock Incentive Plan" ("the Plan") with a maximum of 8,000,000 shares of common stock reserved for issuance under the

Edgar Filing: PENGE CORP - Form SB-2/A

Plan. The Plan provides for both the direct award of shares and for the grant of options to purchase shares to employees, officers, directors, agents, consultants, advisors and independent contractors. Awards under the Plan will be granted as determined by the Board of Directors and the Board of Directors shall determine which eligible persons are to receive Incentive Stock Options, Non-Statutory Stock Options or stock issuances. The Board of Directors also sets the number of shares, the exercise price and the exercise terms for grants. Options granted to non-exempt employees are required to have an exercise price of at least 85% of the fair market value of the common stock at the time of grant. Incentive Stock Options must be granted with an exercise price of at least 100% (110% for shareholders who own at least 10% of the Company's outstanding stock) of the fair market value of the common stock at the time of grant. Incentive Stock Options are required to expire within 10 years. There are no vesting requirements, so all awards vest immediately. At September 30, 2004, total awards available to be granted from the Plan amounted to 3,500,000.

In July 2004, the Company's Board of Directors granted options to purchase 200,000 shares of common stock from the 2002 Stock Incentive Plan to a consultant for services rendered valued at \$60,000. The options vested immediately and are exercisable at \$.30 per share for 10 years. At September 30, 2004, none of these options had been exercised, forfeited or cancelled.

NOTE 9 - INCOME TAXES

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes". SFAS No. 109 requires the Company to provide a net deferred tax asset or liability equal to the expected future tax benefit or expense of temporary reporting differences between book and tax accounting methods and any available operating loss or tax credit carryforwards. At September 30, 2004 and June 30, 2004, the Company has available unused net operating loss carryforwards of approximately \$746,000 and \$540,000, respectively, which may be applied against future taxable income and which expire in various years through 2025. Also, the Company has unused capital loss carryovers at September 30, 2004 and June 30, 2004 of approximately \$23,000 which expire in various years through 2009.

Edgar Filing: PENGE CORP - Form SB-2/A

At September 30, 2004 and June 30, 2004, respectively, the total of all deferred tax assets is approximately \$157,000 and \$118,000 and the total of all deferred tax liabilities is \$49,000, and \$50,000. The amount of and ultimate realization of the benefits from the deferred tax assets for income tax purposes is dependent, in part, upon the tax laws in effect, the future earnings of the Company, and other future events, the effects of which cannot be determined. Because of the uncertainty surrounding the realization of the loss carryforwards, the Company has established a valuation allowance of approximately \$108,000 and \$68,000 at September 30, 2004 and June 30, 2004, respectively. The change in the valuation allowance for the three months ended September 30, 2004 is approximately \$40,000.

The temporary differences, tax credits and carryforwards gave rise to the following deferred tax asset (liability) at:

	September 30, 2004	June 30, 2004
	-----	-----
Net operating loss carryover	\$ 146,687	\$ 106,282

Deferred income tax expense results primarily from the reversal of temporary timing differences between tax and financial statement income.

The reconciliation of income tax expense from continuing operations computed at the U.S. federal statutory tax rate to the Company's effective rate is as follows for:

	For the Three Months Ended September 30,	
	2004	2003
	-----	-----
Computed tax at the expected federal statutory rate	15.00%	15.00%

NOTE 10 - LOSS PER SHARE

The following data shows the amounts used in computing loss per share:

	For the Three Months Ended September 30,	
	2004	2003
	-----	-----
Loss from operations available to common shareholders (numerator)	\$ (277,917)	\$ (233,883)
	-----	-----
Weighted average number of common shares outstanding used in loss per share for the period (denominator)	12,922,984	11,839,203
	-----	-----

At September 30, 2004, the Company had outstanding options to purchase 4,550,000 shares and notes payable convertible into 1,914,048 shares which were not used in the computation of loss per share because their effect would be anti-dilutive. At September 30, 2003, the Company had outstanding options to purchase 4,300,000 shares which were not used in the computation

Edgar Filing: PENGE CORP - Form SB-2/A

of loss per share because their effect would be anti-dilutive. Dilutive loss per share was not presented, as the Company had no common stock equivalent shares for all periods presented that would affect the computation of diluted loss per share.

NOTE 11 - GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company was only recently formed and has not yet been successful in establishing profitable operations. Further, the Company has current liabilities in excess of current assets. These factors raise substantial doubt about the ability of the Company to continue as a going concern. In this regard, management is proposing to raise any necessary additional funds not provided by operations through loans or through additional sales of their common stock or through possible business combinations. There is no assurance that the Company will be successful in raising this additional capital or in achieving profitable operations. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

NOTE 12 - RELATED PARTY TRANSACTIONS

ACCOUNTS PAYABLE - At June 30, 2003, the Company had accrued consulting fees of \$14,500 payable to a relative of an officer/shareholder of the Company for consulting services rendered during the year ended June 30, 2003. In July 2003, the Company paid the accrued fees.

conversion, the creditor can require the Company to redeem any amount of the shares issued in the conversion at \$.345 per share. At September 30, 2004, the Company owed \$276,572 in principal and \$2,247 in accrued interest on the note. If the note had been converted into stock on September 30, 2004, then the Company would have issued 929,486 shares of common stock which would have been redeemable at the creditor's option for \$320,673.

NOTE 15 - SUBSEQUENT EVENTS

AMENDED ARTICLES OF INCORPORATION - In October 2004, Parent filed amended articles of incorporation with the State of Nevada. The amended articles of incorporation authorized 10,000,000 shares of preferred stock with \$.001 par value and changed the common stock par value from no par value to \$.001 [SEE NOTE 8]. The financial statements have been restated for all periods presented to reflect the amended articles of incorporation.

RELATED PARTY NOTES PAYABLE - In October 2004, the Company issued two notes payable - one to the Company's Manager of Mergers and Acquisitions and one to a director/shareholder of the Company. Each note is due on demand and each provides for the Company to borrow up to \$200,000 at 8% per annum.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors
PENGE CORP. AND SUBSIDIARY
Las Vegas, Nevada

We have audited the accompanying consolidated balance sheets of Penge Corp. and Subsidiary as of June 30, 2004 and 2003 and the related consolidated statements of operations, stockholders' equity and cash flows for the year ended June 30, 2004 and for the period from inception on August 6, 2002 through June 30, 2003. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our

Edgar Filing: PENGE CORP - Form SB-2/A

audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Penge Corp. and Subsidiary as of June 30, 2004 and 2003 and the consolidated results of their operations and their cash flows for the year ended June 30, 2004 and for the period from inception on August 6, 2002 through June 30, 2003, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 14 to the financial statements, the Company was only recently formed and has not yet been successful in establishing profitable operations. Further, the Company has current liabilities in excess of current assets. These factors raise substantial doubt about the ability of the Company to continue as a going concern. Management's plans in regards to these matters are also described in Note 14. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

PENGE CORP. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION - Penge Corp. ("Parent") was organized under the laws of the State of Nevada on August 6, 2002.

Major Trees, Inc. ("MT Subsidiary") was organized under the laws of the State of Arizona on December 29, 1993. On September 27, 2002, Parent acquired MT Subsidiary and certain assets of M7 Farms pursuant to a Purchase Agreement signed August 14, 2002. Parent issued \$800,000 of notes payable and paid \$157,429 in cash to acquire certain assets from M7 Farms and 100% of the outstanding shares of MT Subsidiary's common stock wherein MT Subsidiary became a wholly-owned subsidiary of Parent [SEE NOTE 2]. The acquisition of MT Subsidiary has been accounted for as a purchase of MT Subsidiary. The financial statements reflect the operations of MT Subsidiary from September 27, 2002.

Anglewood Advisors, Inc. ("AA Subsidiary") was organized under the laws of the State of Nevada on January 27, 2003 as a wholly-owned subsidiary of Parent. AA Subsidiary offered business structure consulting. On October 2, 2003, the Company's Board of Directors determined to abandon AA Subsidiary. AA Subsidiary has been dissolved by the State of Nevada. At the time of abandonment, AA Subsidiary had no assets and no liabilities. The financial statements reflect the operations of AA Subsidiary from January 27, 2003 through October 2, 2003. The Company continues to offer business structure consulting through Parent.

Parent and MT Subsidiary ("the Company") grow trees and other agricultural products. Also, the Company has occasionally provided business consulting services. The Company has, at the present time, not paid any dividends and any dividends that may be paid in the future will depend upon the financial requirements of the Company and other relevant factors.

CONSOLIDATION - The consolidated financial statements include the accounts of Parent and Parent's wholly-owned MT Subsidiary. The consolidated financial statements also include the accounts of Parent's formerly wholly-owned AA Subsidiary for the period from January 27, 2003 through October 2, 2003. All significant intercompany transactions have been eliminated in consolidation.

Edgar Filing: PENGE CORP - Form SB-2/A

FISCAL YEAR - The Company's fiscal year-end is June 30th.

AGRICULTURAL PRODUCTION - The Company accounts for their agricultural activities in accordance with Statement of Position 85-3, "Accounting by Agricultural Producers and Agricultural Cooperatives". All direct and indirect costs of growing crops are either accumulated as inventory or expensed as cost of goods sold. Permanent land development costs are capitalized and not depreciated. Limited-life land development costs and the development costs to bring long-life and intermediate-life plants into production are capitalized and depreciated using the straight-line method over the estimated useful lives of the assets.

CASH AND CASH EQUIVALENTS - The Company considers all highly-liquid debt investments purchased with a maturity of three months or less to be cash equivalents.

F-33

PENGE CORP. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [CONTINUED]

INVESTMENTS - The Company's investments which are bought and held principally for the purpose of selling them in the near term are classified as trading securities. Trading securities are recorded at fair value with changes in fair value being included in earnings. Investments for which the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity and are recorded at amortized cost. Investments not classified as either held-to-maturity or trading securities are classified as available-for-sale. Available-for-sale securities are recorded at fair value with changes in fair value being excluded from earnings and recorded net of tax as a separate component of equity in accordance with Statement of Financial Accounting Standards No. 115, "Accounting for Certain Investments in Debt and Equity Securities". The cost of a security is determined using the average cost method.

ACCOUNTS RECEIVABLE - The Company records accounts receivable at the lower of cost or fair value. The Company recognizes interest income on an account receivable based on the stated interest rate for past-due accounts over the period that the account is past due. The Company accumulates and defers fees and costs associated with establishing a receivable to be amortized over the estimated life of the related receivable. The Company estimates allowances for doubtful accounts based on the aged receivable balances and historical losses. The Company records interest income on delinquent accounts receivable only when payment is received. The Company first applies payments received on delinquent accounts receivable to eliminate the outstanding principal. The Company charges off uncollectible accounts receivable when management estimates no possibility of collecting the related receivable. The Company considers accounts receivable to be past due or delinquent based on contractual terms.

INVENTORIES - Growing crop inventory is stated at the lower of market or cost using the retail method. Under the retail method, the Company counts and extends their inventory at sales prices. This inventory at sales prices

Edgar Filing: PENGE CORP - Form SB-2/A

is then multiplied by a cost ratio to determine inventory at cost. The cost ratio is determined by taking the total of the beginning inventory at cost plus all direct and indirect costs of growing crops divided by the total of the ending inventory at sales prices plus sales revenues. Raw material inventory is stated at the lower of market or cost using the first-in first-out (FIFO) method.

PROPERTY AND EQUIPMENT - Property and equipment are stated at cost or carryover basis. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized upon being placed in service. Expenditures for maintenance and repairs are charged to expense as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. In accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", the Company periodically reviews their property and equipment for impairment.

F-34

PENGE CORP. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [CONTINUED]

INTANGIBLE ASSETS - The Company accounts for their intangible assets in accordance with Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets". SFAS No. 142 establishes three classifications for intangible assets including definite-life intangible assets, indefinite-life intangible assets and goodwill and requires different accounting treatment and disclosures for each classification. In accordance with SFAS No. 142, the Company periodically reviews their intangible assets for impairment. No impairment was recorded during the year ended June 30, 2004 and the period from inception on August 6, 2002 through June 30, 2003.

ACQUISITION COSTS - Costs related to proposed acquisitions are deferred and will be included in the acquisition price upon completion of the related acquisition. In the event an acquisition is unsuccessful, the costs related to the acquisition are written off to expense.

STOCK OFFERING COSTS - Costs related to proposed stock offerings are deferred and will be offset against the proceeds of the offering. In the event a stock offering is unsuccessful, the costs related to the offering are written off to expense.

PRODUCT WARRANTY - The Company warrants their agricultural products against damage that may occur prior to delivery to the customer. At June 30, 2004 and 2003, the Company has established a reserve for future warranty expense of \$31 and \$300, respectively.

REVENUE RECOGNITION - The Company's revenue comes primarily from the sale of agricultural products. The Company recognizes revenue from the sale of agricultural products when rights and risk of ownership have passed to the customer, there is persuasive evidence of a sales arrangement, product has

Edgar Filing: PENGE CORP - Form SB-2/A

been shipped or delivered to the customer, the price and terms are finalized and collection of the resulting receivable is reasonably assured. The Company also generates revenue from business consulting services. The Company recognizes revenue from business consulting services over the term of the underlying consulting agreement.

STOCK-BASED COMPENSATION - The Company has one stock-based employee compensation plan [SEE NOTE 10]. The Company accounts for their plan under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees", and related Interpretations. The following table illustrates the effect on net income and loss per share if the Company had applied the fair value recognition provisions of Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation", to the Company's stock-based employee compensation.

INCOME TAXES - The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" [SEE NOTE 12].

LOSS PER SHARE - The computation of loss per share is based on the weighted average number of common shares outstanding during the period presented, in accordance with Statement of Financial Accounting Standards No. 128, "Earnings Per Share" [SEE NOTE 13].

ACCOUNTING ESTIMATES - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the

Edgar Filing: PENGE CORP - Form SB-2/A

reported period. Actual results could differ from those estimated.

RECENTLY ENACTED ACCOUNTING STANDARDS - Statement of Financial Accounting Standards ("SFAS") No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities", and SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity", were recently issued. SFAS No. 149 and 150 have no current applicability to the Company or their effect on the financial statements would not have been significant.

RESTATEMENT - The financial statements have been restated for all periods presented to reflect Parent's amended articles of incorporation which were filed with the State of Nevada in October 2004 [SEE NOTES 10 AND 18].

(benefit) of \$(2,976).

STOCK OPTION PLAN - In October 2002, the Company's Board of Directors approved and adopted the "2002 Stock Incentive Plan" ("the Plan") with a maximum of 8,000,000 shares of common stock reserved for issuance under the Plan. The Plan provides for both the direct award of shares and for the grant of options to purchase shares to employees, officers, directors, agents, consultants, advisors and independent contractors. Awards under the Plan will be granted as determined by the Board of Directors and the Board of Directors shall determine which eligible persons are to receive Incentive Stock Options, Non-Statutory Stock Options or stock issuances. The Board of Directors also sets the number of shares, the exercise price and the exercise terms for grants. Options granted to non-exempt employees are required to have an exercise price of at least 85% of the fair market value of the common stock at the time of grant. Incentive Stock Options must be granted with an exercise price of at least 100% (110% for shareholders who own at least 10% of the Company's outstanding stock) of the fair market value of the common stock at the time of grant. Incentive Stock Options are required to expire within 10 years. There are no vesting requirements, so all awards vest immediately. At June 30, 2004, total awards available to be granted from the Plan amounted to 3,700,000.

In September 2003, the Company's Board of Directors granted options to purchase 100,000 shares of common stock from the 2002 Stock Incentive Plan to a consultant for services rendered valued at \$30,000. The options vested immediately and are exercisable at \$.30 per share for 10 years. At June 30, 2004, none of these options had been exercised, forfeited or cancelled.

In November 2002, the Company's Board of Directors granted options to purchase 2,000,000 shares of common stock from the 2002 Stock Incentive Plan to officers of the Company for services rendered. The options vested immediately and are exercisable at \$.11 per share for 5 years. The Company did not record any amount for the options since there was no intrinsic value for the options. At June 30, 2004, none of these options had been exercised, forfeited or cancelled.

In November 2002, the Company's Board of Directors granted options to purchase 1,000,000 shares of common stock from the 2002 Stock Incentive Plan to an employee of the Company for services rendered. The options vested immediately and are exercisable at \$.10 per share for 10 years. The Company did not record any amount for the options since there was no intrinsic value for the options. At June 30, 2004, none of these options had been exercised, forfeited or cancelled.

NOTE 11 - UNSUCCESSFUL ACQUISITIONS

In May 2004, the Company was negotiating a possible acquisition of another company. However, the negotiations were called off and no acquisition occurred. All expenses associated with the unsuccessful acquisition have been classified as a loss on unsuccessful acquisition.

In April 2003, the Company was negotiating a possible acquisition of another company. However, the negotiations were called off and no acquisition occurred. All expenses associated with the unsuccessful acquisition have been classified as a loss on unsuccessful acquisition.

NOTE 12 - INCOME TAXES

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes". SFAS No. 109 requires the Company to provide a net deferred tax asset or liability equal to the expected future tax benefit or expense of temporary reporting differences between book and tax accounting methods and any available operating loss or tax credit carryforwards. At June 30, 2004 and 2003, the Company has available unused net operating loss carryforwards of approximately \$540,000 and \$217,000, respectively, which may be applied against future taxable income and which expire in various years through 2024. Also, the Company has unused capital loss carryovers at June 30, 2004 and 2003 of approximately \$23,000 and \$9,000, respectively, which expire in various years through 2009.

At June 30, 2004 and 2003, respectively, the total of all deferred tax assets is approximately \$118,000 and \$51,000 and the total of all deferred tax liabilities is \$50,000, and \$55,000. The amount of and ultimate realization of the benefits from the deferred tax assets for income tax purposes is dependent, in part, upon the tax laws in effect, the future earnings of the Company, and other future events, the effects of which cannot be determined. Because of the uncertainty surrounding the realization of the loss carryforwards, the Company has established a valuation allowance of approximately \$68,000 and \$0 at June 30, 2004 and 2003, respectively. The change in the valuation allowance for the year ended June 30, 2004 and for the period from inception on August 6, 2002 through June 30, 2003 is approximately \$68,000 and \$0, respectively.

	-----	-----
Loss from operations available to common shareholders (numerator)	\$ (400,005)	\$ (337,586)
	-----	-----
Weighted average number of common shares outstanding used in loss per share for the period (denominator)	12,179,860	9,653,338
	-----	-----

At June 30, 2004, the Company had outstanding options to purchase 4,300,000 shares and notes payable convertible into 1,202,084 shares which were not used in the computation of loss per share because their effect would be anti-dilutive. At June 30, 2003, the Company had outstanding options to purchase 4,200,000 shares which were not used in the computation of loss per share because their effect would be anti-dilutive. Dilutive loss per share was not presented, as the Company had no common stock equivalent shares for all periods presented that would affect the computation of diluted loss per share.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 14 - GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, which contemplate continuation of the Company as a going concern. However,

Edgar Filing: PENGE CORP - Form SB-2/A

the Company was only recently formed and has not yet been successful in establishing profitable operations. Further, the Company has current liabilities in excess of current assets. These factors raise substantial doubt about the ability of the Company to continue as a going concern. In this regard, management is proposing to raise any necessary additional funds not provided by operations through loans or through additional sales of their common stock or through possible business combinations. There is no assurance that the Company will be successful in raising this additional capital or in achieving profitable operations. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

NOTE 15 - RELATED PARTY TRANSACTIONS

ACCOUNTS RECEIVABLE - At June 30, 2004, an entity controlled by a relative of an officer/shareholder of the Company owed \$630 in accounts receivable to the Company.

ASSET ACQUISITION - In June 2003, the Company purchased \$15,130 of property and equipment from an officer/shareholder of the Company with a carryover basis of zero. This has been accounted for as a capital distribution [SEE NOTE 10].

ACCOUNTS PAYABLE - At June 30, 2003, the Company had accrued consulting fees of \$14,500 payable to a relative of an officer/shareholder of the Company for consulting services rendered during the year ended June 30, 2003. In July 2003, the Company paid the accrued fees.

RELATED PARTY ADVANCES - During the year ended June 30, 2004 and the period from inception on August 6, 2002 through June 30, 2003, officers/shareholders of the Company and their relatives have made advances to the Company and the Company has repaid the advances as funds have been available. NOTE 16 - CONCENTRATIONS

ACCOUNTS RECEIVABLE - A significant percent of the Company's accounts receivable at June 30, 2004 was owed by only four customers. The following table lists the percent of the receivables owed by those customers that accounted for 10% or more of the total accounts receivable at June 30, 2004:

Customer A	29%
Customer B	16%
Customer C	11%
Customer D	11%

REVENUES - During the year ended June 30, 2004 and the period from inception on August 6, 2002 through June 30, 2003, respectively, the Company had a significant customer which accounted for 77% and 69% of the Company's total sales. The loss of this significant customer could adversely affect the Company's business and financial condition.

NOTE 17 - COMMITMENTS AND CONTINGENCIES

REDEMPTION OF COMMON STOCK - The Company has a convertible note payable which is convertible into common stock at \$.30 per share. At the time of conversion, the creditor can require the Company to redeem any amount of the shares issued in the conversion at \$.345 per share. At June 30, 2004, the Company owed \$291,019 in principal and \$2,233 in accrued interest on the note. If the note had been converted into stock on June 30, 2004, then the Company would have issued 977,506 shares of common stock which would have been redeemable at the creditor's option for \$337,240.

NOTE 18 - SUBSEQUENT EVENTS

AMENDED ARTICLES OF INCORPORATION - In October 2004, Parent filed amended articles of incorporation with the State of Nevada. The amended articles of incorporation authorized 10,000,000 shares of preferred stock with \$.001 par value and changed the common stock par value from no par value to \$.001 [SEE NOTE 10]. The financial statements have been restated for all periods presented to reflect the amended articles of incorporation.

COMMON STOCK ISSUANCE - In July and August 2004, the Company issued 100,001 shares of their previously authorized but unissued common stock for cash of \$30,000, or \$.30 per share.

GRANT OF STOCK OPTIONS - In August 2004, the Company's Board of Directors granted options to purchase 200,000 shares of common stock from the 2002 Stock Incentive Plan to a consultant for services rendered. The options vested immediately and are exercisable at \$.30 per share for 10 years.

SALE OF STOCK OPTIONS - In August 2004, the Company sold options to purchase 50,000 shares of common stock. The options are exercisable at \$.30 per share for 10 years.

SECURED CONVERTIBLE NOTE PAYABLE - In July 2004, the Company issued a \$200,000 note payable. The note is secured by 50,000 trees which are part of the Company's inventory. The note accrues interest at 10% per annum and is due January 2007. The unpaid principal and interest are convertible into common stock at \$.24 per share during the first year, at \$.30 per share during the second year and at \$.35 per share thereafter.

PART II
INFORMATION NOT REQUIRED IN THE PROSPECTUS

ITEM 24. INDEMNIFICATION OF DIRECTORS AND OFFICERS

Our articles of incorporation provide that we shall indemnify and advance expenses to our directors, officers, employees, fiduciaries or agents and to any person who is or was serving at our request as a director, officer, partner, trustee, employee, fiduciary or agent of another domestic or foreign corporation or other person or of an employee benefit plan (and their respective estates or personal representatives) to the fullest extent as from time to time permitted by Nevada law.

Our bylaws provide that we shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of our company, by reason of the fact that he or she is or was a director, officer, employee or agent of our company, or is or was serving at the request of our company as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him or her in connection with the action, suit or proceeding if he or she acted in good faith and in a manner that he or she reasonably believed to be in or not opposed to the best interests of our company and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

With respect to derivative actions, our bylaws provide that we shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of our company to procure a judgment in its favor by reason of the fact that he or she is or was a director, officer, employee or agent of our company, or is or was serving at the request of our company as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses, including amounts paid in settlement and attorneys' fees actually and reasonably incurred by him or her in connection with the defense or settlement of the action or suit if he or she acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of our company. We may not indemnify any such person for any claim, issue or matter as to which such person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals therefrom, to be liable to our company or for amounts paid in settlement to our company, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

Any indemnification under the provisions described above, unless ordered by a court, may be made by our company only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances. The determination must be made:

Edgar Filing: PENGE CORP - Form SB-2/A

- o By the stockholders;

- o By the board of directors by majority vote of a quorum consisting of directors who were not parties to the act, suit or proceeding;
- o If a majority vote of a quorum consisting of directors who were not parties to the act, suit or proceeding so orders, by independent legal counsel in a written opinion; or
- o If a quorum consisting of directors who were not parties to the act, suit or proceeding cannot be obtained, by independent legal counsel in a written opinion.

Our bylaws further provide that the expenses of officers and directors incurred in defending a civil or criminal action, suit or proceeding must be paid by our company as they are incurred and in advance of the final disposition of the action, suit or proceeding, upon receipt of an undertaking by or on behalf of the director or officer to repay the amount if it is ultimately determined by a court of competent jurisdiction that he or she is not entitled to be indemnified by our company.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions or otherwise, we have been informed that in the opinion of the SEC such indemnification is contrary to public policy as expressed in the Securities Act and is, therefore, unenforceable.

ITEM 25. OTHER EXPENSES OF ISSUANCE AND DISTRIBUTION

The following table sets forth the various expenses of the offering, sale and distribution of the offered securities being registered pursuant to this registration statement (the "Registration Statement"). We will bear all of the expenses listed below. All of the amounts shown are estimates except the SEC registration fees.

ITEM 26. RECENT SALES OF UNREGISTERED SECURITIES

Within the last three years, Penge has issued and sold the following unregistered securities on the dates and for the consideration indicated:

SHARES OF COMMON STOCK

In connection with our organization, during August 2002, we offered and sold an aggregate of 7,340,000 shares of our common stock at a per share price of \$0.00004 per share for aggregate proceeds of \$294. The offer and sale of such shares of our common stock were effected in reliance upon the exemptions for sales of securities not involving a public offering, as set forth in Rule 504 promulgated under the Securities Act and in Section 4(2) of the Securities Act, based upon the following: (a) the investors confirmed to us that they had such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities; (b) there was no public offering or general solicitation with respect to the offering; (c) the investors had access to all relevant and available information regarding, and/or were involved in the planning and founding of, our company, (d) the investors acknowledged that all securities being purchased were "restricted securities" for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; (e) a legend was placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act; (f) the aggregate offering price for the offering (combined with the offering price of all prior offerings of securities under Rule 504, any exemption under Section 3(b) of the Securities Act or in violation of Section 5(a) of the Securities Act) did not exceed \$1 million; and (g) the Company was not at the time of the offering subject to the reporting requirements of the Securities Exchange Act, an investment company, or a development stage company with no specific business plan or a business plan involving engaging in a merger or acquisition with an unidentified company.

During September 2002 and October 2002, we offered and sold 2,295,000 shares of our common stock at \$0.10 per share to 26 investors. Of those 2,295,000 shares, 1,570,000 shares were sold for cash totaling \$157,000; 150,000 shares were sold for services valued at \$15,000; 450,000 shares were sold for a subscription receivable of \$45,000, which was subsequently paid in full; and 125,000 shares were sold for available-for-sale securities valued at \$12,500. The offer and sale of such shares of our common stock were effected in reliance upon the exemptions for sales of securities not involving a public offering, as set forth in Rule 504 promulgated under the Securities Act and in Section 4(2) of the Securities Act, based upon the following: (a) the investors confirmed to us that they had such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities; (b) there was no public offering or general solicitation with respect to the offering; (c) the investors were provided with certain disclosure materials and all other information requested with respect to our company; (d) the investors acknowledged that all securities being purchased were "restricted securities" for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; (e) a legend was placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act; (f) the aggregate offering price for the offering (combined with the offering price of all prior offerings of securities under Rule 504, any exemption under Section 3(b) of the Securities Act or in violation of Section 5(a) of the Securities Act) did not exceed \$1 million; and (g) the Company was not at the time of the offering subject to the reporting requirements of the Securities

Between January 2003 and June 2003, we offered and sold 720,000 shares of our common stock at \$0.20 per share to 10 investors. Of those 720,000 shares, 500,000 shares were sold for cash totaling \$100,000; 20,000 shares were sold for services valued at \$4,000 and 200,000 shares were sold to pay rent of \$40,000. The offer and sale of such shares of our common stock were effected in reliance upon the exemptions for sales of securities not involving a public offering, as set forth in Rule 506 promulgated under the Securities Act and in Section 4(2) of the Securities Act, based upon the following: (a) the investors confirmed to us that they were "accredited investors," as defined in Rule 501 of Regulation D promulgated under the Securities Act and had such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities; (b) there was no public offering or general solicitation with respect to each offering; (c) the investors were provided with certain disclosure materials and all other information requested with respect to our company; (d) the investors acknowledged that all securities being purchased were "restricted securities" for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; and (e) a legend was placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act.

In January 2003, Roger Major accepted 750,000 shares of our common stock as partial payment of \$150,000 on a note payable received in connection with our purchase of the Major Trees Farm and certain assets of M7 Farms on September 27, 2002 and Thomas L. Chandler, accepted 50,000 shares of our common stock valued at \$10,000 as repayment of a short-term loan. The offer and sale of these shares of common stock were effected in reliance upon the exemptions for sales of securities not involving a public offering as set forth in Rule 506 promulgated under the Securities Act and in Section 4(2) of the Securities Act, based upon the following: (a) Major confirmed to us that he was an "accredited investor" as defined in Rule 501 of Regulation D promulgated under the Securities Act; (b) there was no public offering or general solicitation with respect to such offering; (c) Major was provided with certain disclosure materials and all other information requested with respect to our company; (d) Major acknowledged that all securities being acquired were "restricted securities" for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; and (e) a legend was placed on the certificates representing each such security that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act.

Between July 2003 and September 2003, we offered and sold 680,000 shares of our common stock at \$0.25 per share to seven investors. Of those 680,000 shares, 260,000 shares were sold for cash totaling \$65,000 and 420,000 shares were sold for a subscription receivable of \$105,000, which was subsequently paid in full. The offer and sale of such shares of our common stock were effected in reliance upon the exemptions for sales of securities not involving a public offering, as set forth in Rule 506 promulgated under the Securities Act and in Section 4(2)

of the Securities Act, based upon the following: (a) the investors confirmed to us that they were "accredited investors," as defined in Rule 501 of Regulation D promulgated under the Securities Act and had such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities; (b) there was no public offering or general solicitation with respect to each offering; (c) the investors were provided with certain disclosure materials and all other information requested with respect to our company; (d) the investors acknowledged that all securities being purchased were "restricted securities" for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; and (e) a legend was placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act.

Between August 2003 and September 2004, we offered and sold 717,332 shares of our common stock at \$0.30 per share to 13 investors. Of these shares, 550,665 were sold for cash totaling \$165,200 and 166,667 shares were sold for a subscription receivable of \$50,000, which is still outstanding. The offer and sale of such shares of our common stock were effected in reliance upon the exemptions for sales of securities not involving a public offering, as set forth in Rule 506 promulgated under the Securities Act and in Section 4(2) of the Securities Act, based upon the following: (a) the investors confirmed to us that they were "accredited investors," as defined in Rule 501 of Regulation D promulgated under the Securities Act and had such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities; (b) there was no public offering or general solicitation with respect to each offering; (c) the investors were provided with certain disclosure materials and all other information requested with respect to our company; (d) the investors acknowledged that all securities being purchased were "restricted securities" for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; and (e) a legend was placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act.

In May 2004, we issued 400,000 shares of our common stock valued at \$120,000, or \$0.30 per share, to H. Preston and Shirley Franks in connection with our acquisition of certain assets of Sampres Tree Farms, L.L.C. The offer and sale of such shares of our common stock were effected in reliance upon the exemptions for sales of securities not involving a public offering, as set forth in Rule 506 promulgated under the Securities Act and in Section 4(2) of the Securities Act, based upon the following: (a) the investors confirmed to us that they were "accredited investors," as defined in Rule 501 of Regulation D promulgated under the Securities Act and had such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities; (b) there was no public offering or general solicitation with respect to each offering; (c) the investors were provided with certain disclosure materials and all other information requested with respect to our company; (d) the investors acknowledged that all securities being purchased were "restricted securities"

for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; and (e) a legend was placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act.

CONVERTIBLE NOTES PAYABLE

In March 2004, we issued a convertible note payable secured by both of our farms totaling \$300,000 to two investors. This note bears interest at 10% per annum with unpaid principal and accrued interest convertible into shares of our common stock at \$0.30 per share. The offer and sale of such convertible note payable were effected in reliance upon the exemptions for sales of securities not involving a public offering, as set forth in Rule 506 promulgated under the Securities Act and in Section 4(2) of the Securities Act, based upon the following: (a) the investors confirmed to us that they were "accredited investors," as defined in Rule 501 of Regulation D promulgated under the Securities Act and had such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities; (b) there was no public offering or general solicitation with respect to each offering; (c) the investors were provided with certain disclosure materials and all other information requested with respect to our company; (d) the investors acknowledged that all securities being purchased were "restricted securities" for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; and (e) a legend was placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act.

Between March and June 2004, we issued unsecured convertible notes payable totaling \$55,000 to four investors. These notes bear interest at 10% per annum, mature between September and December 2006 and are convertible into shares of our common stock at \$0.25 per share during the first six months, at \$0.35 per share during the second six months and at \$0.50 per share thereafter. The offer and sale of such convertible notes payable were effected in reliance upon the exemptions for sales of securities not involving a public offering, as set forth in Section 4(2) of the Securities Act, based upon the following: (a) the investors confirmed to us that they were "accredited investors," as defined in Rule 501 of Regulation D promulgated under the Securities Act and had such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities; (b) there was no public offering or general solicitation with respect to each offering; (c) the investors were provided with certain disclosure materials and all other information requested with respect to our company; (d) the investors acknowledged that all securities being purchased were "restricted securities" for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; and (e) a legend was placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act.

Edgar Filing: PENGE CORP - Form SB-2/A

In July 2004, we issued a convertible note payable for \$200,000 to two investors, secured by 50,000 trees from our inventory, bearing interest at 10% per annum and maturing in January 2007. The unpaid principal and interest on the note is convertible into shares of our common stock at \$0.24 per share during the first year, at \$0.30 per share during the second year and at \$0.35 per share thereafter. The offer and sale of such note were effected in reliance upon the exemptions for sales of securities not involving a public offering, as set forth in Rule 506 promulgated under the Securities Act and in Section 4(2) of the Securities Act, based upon the following: (a) the investors confirmed to us that they were "accredited investors," as defined in Rule 501 of Regulation D promulgated under the Securities Act and had such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities; (b) there was no public offering or general solicitation with respect to the offering; (c) the investors were provided with certain disclosure materials and all other information requested with respect to our company; (d) the investors acknowledged that all securities being purchased were "restricted securities" for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; and (e) a legend was placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act.

OPTIONS TO PURCHASE SHARES OF COMMON STOCK

In November 2002, we granted options to purchase the following number of shares of our common stock to the following individuals under our 2002 Stock Incentive Plan:

NAME OF INDIVIDUAL	NUMBER OF OPTIONS TO PURCHASE SHARES OF COMMON STOCK
Kirk Fischer	1,000,000
Jim Fischer	1,000,000
KC Holmes	1,000,000
Rocky Fischer	1,000,000
Doug Bean	200,000

In September 2003, we granted Rocky Fischer 100,000 options to purchase shares of our common stock under our 2002 Stock Incentive Plan. In August 2004, we granted Doug Bean 200,000 options to purchase shares of our common stock under our 2002 Stock Incentive Plan. No such options have been exercised.

The offers and issuances of the options to purchase shares of our common stock described in the preceding paragraph were effected in reliance upon the exemption for offers and sales pursuant to certain compensatory benefit plans as set forth in Rule 701 promulgated under the Securities Act, based upon the following: (a) the offers and issuances were made pursuant to a written compensatory benefit plan established by us for the compensation of our officers, employees, directors, consultants and other permitted persons; (b) the recipients of such options were officers, employees, directors, consultants or other permitted persons at the time of the issuance of the options (and any recipients that were consultants provided bona fide services unrelated to a capital-raising transaction or the promotion of a market for our stock in exchange for such options); (c) we were not subject to the reporting requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, as

amended, at the time of issuance of the options; (d) the aggregate sale price, calculated in accordance with Rule 701, of the options issued in reliance on Rule 701 during any 12-month period did not exceed \$1 million; (e) all recipients were provided with certain disclosure materials and all other information requested with respect to our company, including a copy of the governing compensatory benefit document; (f) the option recipients acknowledged that all securities being purchased were "restricted securities" for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; and (g) the governing option agreement requires that, unless otherwise permitted by law, a legend be placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act.

In August 2004, we offered and sold options to purchase 50,000 shares of our common stock to a single investor in connection with a \$50,000 secured note payable. The offer and sale of such options to purchase shares of our common stock were effected in reliance upon the exemptions for sales of securities not involving a public offering, as set forth in Rule 506 promulgated under the Securities Act and in Section 4(2) of the Securities Act, based upon the following: (a) the investors confirmed to us that they were "accredited investors," as defined in Rule 501 of Regulation D promulgated under the Securities Act and had such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities; (b) there was no public offering or general solicitation with respect to each offering; (c) the investors were provided with certain disclosure materials and all other information requested with respect to our company; (d) the investors acknowledged that all securities being purchased were "restricted securities" for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act; and (e) a legend was placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act.

ITEM 28. UNDERTAKINGS

The Registrant hereby undertakes:

(1) To file during any period in which offers or sales are being made, a post-effective amendment to this registration statement to:

(i) Include any prospectus required by Section 10(a)(3) of the Securities Act.

(ii) Reflect in the prospectus any facts or events that, individually or together, represent a fundamental change in the information. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

(iii) Include any additional or changed material information on the plan of distribution.

(2) That for determining liability under the Securities Act, to treat each post-effective amendment as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering.

(3) To file a post-effective amendment to remove from registration any of the securities that remain unsold at the end of the offering.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as

Edgar Filing: PENGE CORP - Form SB-2/A

expressed in the Securities Act and will be governed by the final adjudication of such issue.
