EXPLANATORY NOTE

We are filing this Form 10-K/A (Amendment No. 2) to our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, originally filed with the U.S. Securities and Exchange Commission (SEC) on March 15, 2010, as amended by Amendment No. 1 thereto (Original Filing), solely for the purpose of complying with Rule 3-09 of Regulation S-X. Rule 3-09 requires that we file financial statements of certain unconsolidated joint ventures in which we hold equity interests of 50% or less and account for them under the equity method, to the extent the unconsolidated joint ventures are individually significant. Under Rule 3-09 of Regulation S-X, we are permitted to file combined financial statements for individually significant unconsolidated joint ventures which are in the same line of business.

We filed a Form 10-K/A (Amendment No. 1) with the SEC on March 31, 2010. That amendment included financial statements for three of our unconsolidated joint venture interests. At the time we filed our 10-K/A (Amendment No. 1), financial information for MIB Partnership, LLP was not available for audit. Such financial information was made available for audit subsequent to the filing of Form 10-K/A (Amendment No. 1), consequently we are updating the combined financial statements as described in Note 1 following to include MIB Partnership, LLP. These financial statements are intended to replace those included in our Form 10-K/A (Amendment No. 1). Accordingly, we are filing this Amendment No. 2 to include the combined financial statements of the Group (as defined in Note 1 to the combined financial statements) under Item 8 – Financial Statements and Supplementary Data, and we are amending Item 15 - Exhibits and Financial Statement Schedules, to include a list of the financial statements and exhibits being filed herewith.

Except as described above, no other changes have been made to the Original Filing, and this Form 10-K/A does not amend, update or change any other items or disclosures in the Original Filing. This Form 10-K/A does not reflect events occurring after the Original Filing. Accordingly, this Amendment should be read in conjunction with the Original Filing and our other filings with the SEC.

PART II.

Item 8. Financial Statements and Supplementary Data

The Financial Statements are attached hereto and begin on page 5.

Report of Independent Registered Public Accounting Firm

To the partners of:

MIB Partnership, LLP;

Franklin Imaging Joint Venture;

Carroll County Radiology, LLC;

MRI at St. Joseph Medical Center, LLC.

We have audited the accompanying combined balance sheet of certain RadNet, Inc. affiliates including MIB Partnership, LLP; Franklin Imaging Joint Venture, Carroll County Radiology, LLC and MRI at St. Joseph Medical Center, LLC, (collectively, the "Group"), as of December 31, 2009, and the related combined statements of income, partners' equity, and cash flows for the year ended December 31, 2009. These financial statements are the responsibility of the Group's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Group's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the combined financial position of the Group at December 31, 2009, and the combined results of their operations and their cash flows for the year ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

CERTAIN RADNET, INC. AFFILIATES  
NOTES TO COMBINED FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF BUSINESS

The financial information for 2008 and 2007 included herein has been prepared by management of Radnet, Inc. without audit. Management of Radnet, Inc. believes that such financial information has been prepared in conformity with U.S. generally accepted accounting principles, and includes all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows as of and for the years ended December 31, 2008 and 2007.

MIB Partnership, LLP, Franklin Imaging Joint Venture, Carroll County Radiology, LLC and MRI at St. Joseph Medical Center, LLC, (collectively, the “Group”), are joint ventures between Radnet, Inc. and, as applicable, hospitals, health systems or radiology practices and were formed for the purpose of owning and operating diagnostic imaging centers. Professional services at the joint venture diagnostic imaging centers are performed by contracted radiology practices or a radiology practice that participates in the joint venture. Each joint venture within the Group is an affiliate of Radnet, Inc. as follows:

	% owned by Radnet, Inc.
MIB Partnership, LLP	25%
Franklin Imaging Joint Venture	49%
Carroll County Radiology, LLC	40%
MRI at St. Joseph Medical Center	49% *

\* Prior to December 2007, Radnet, Inc. owned 73% of MRI at St. Joseph Medical Center

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**PRINCIPLES OF COMBINATION** – Under Rule 3-09 of Regulation S-X, Radnet, Inc. is permitted to file combined financial statements for individually significant unconsolidated joint ventures which are in the same line of business. The combined financial statements include the assets, liabilities, and operations of each member of the Group. The operating activities of each of these joint ventures are completely separate from one another and are in no way affiliated with one another. Accordingly there are no intercompany transactions and balances to be eliminated when combining each together.

**USE OF ESTIMATES** - The preparation of these financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These estimates and assumptions affect various matters including the Group’s reported amounts of assets and liabilities in the combined balance sheets at the dates of the financial statements; disclosure of contingent assets and liabilities at the dates of the financial statements; and reported amounts of revenues and expenses in the combined statements of income during the reporting periods. These estimates involve judgments with respect to numerous factors that are difficult to predict and are beyond management’s control. As a result, actual amounts could materially differ from these estimates.

**REVENUE RECOGNITION** – Combined net revenue consists of net patient fee for service revenue. Net patient service revenue is recognized at the time services are provided net of contractual adjustments based on an evaluation

of expected collections resulting from the analysis of current and past due accounts, past collection experience in relation to amounts billed and other relevant information. Contractual adjustments result from the differences between the rates charged for services performed and reimbursements by government-sponsored healthcare programs and insurance companies for such services.

**CONCENTRATION OF CREDIT RISKS** - Financial instruments that potentially subject the Group to credit risk are primarily cash equivalents and accounts receivable. Each joint venture places its cash and cash equivalents with one major financial institution. At times, the cash in the financial institution is temporarily in excess of the amount insured by the Federal Deposit Insurance Corporation, or FDIC. Substantially all accounts receivable are due under fee-for-service contracts from third party payors, such as insurance companies and government-sponsored healthcare programs, or directly from patients. Services are generally provided pursuant to one-year contracts with healthcare providers. Receivables generally are collected within industry norms for third-party payors. The Group continuously monitors collections from its clients and maintains an allowance for bad debts based upon any specific payor collection issues that are identified and historical experience.

**CASH AND CASH EQUIVALENTS** – The Group considers all highly liquid investments that mature in three months or less when purchased to be cash equivalents. The carrying amount of cash and cash equivalents approximates their fair market value.

**PROPERTY AND EQUIPMENT** - Property and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation and amortization of property and equipment are provided using the straight-line method over the estimated useful lives, which range from 3 to 15 years. Leasehold improvements are amortized at the lesser of the related lease term or their estimated useful lives, whichever is shorter, which range from 3 to 30 years. Only a few leasehold improvements are deemed to have a life greater than 15 years. Maintenance and repairs are charged to expenses as incurred.

**INCOME TAXES** - Each member of the Group is treated as a partnership for federal and state income tax purposes where all taxable income is allocated to the partners in accordance with the respective partnership agreement. Accordingly, no income tax provision is recorded by the joint ventures.

**FAIR VALUE MEASUREMENTS** –The combined balance sheets include the following financial instruments: cash and cash equivalents, receivables, trade accounts payable, capital leases, equipment notes payable and other liabilities. The Group considers the carrying amounts of cash and cash equivalents, receivables, other current assets and current liabilities to approximate their fair value because of the relatively short period of time between the origination of these instruments and their expected realization or payment. Additionally, the Group considers the carrying amount of its equipment notes payable and capital lease obligations to approximate their fair value because the weighted average interest rate used to formulate the carrying amounts approximates current market rates.

#### NOTE 3 – RECENT ACCOUNTING STANDARDS

In May 2009, the FASB issued Statement No. 165, “Subsequent Events,” codified in FASB ASC Topic 855, which establishes general standards of accounting for, and requires disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. Each unconsolidated joint venture subsidiary adopted the provisions of ASC Topic 855 for the quarter ended September 30, 2009. The adoption of these provisions did not have a material effect on the combined financial statements.

In September 2009, the ASC became the authoritative source of accounting principles accepted in the United States (“GAAP”) recognized by the FASB. All existing FASB accounting standards and guidance were superseded by the ASC. Instead of issuing new accounting standards in the form of statements, FASB staff positions and Emerging Issues Task Force abstracts, the FASB now issues Accounting Standards Updates that update the ASC. Rules and interpretive releases of the Securities and Exchange Commission (“SEC”) under authority of federal securities laws continue to be additional sources of authoritative GAAP for SEC registrants.
