COMPENSATION DISCUSSION AND ANALYSIS

Overview of Compensation Program

The Compensation Committee (for purposes of this analysis, the Committee) of the Board has responsibility for establishing, implementing and continually monitoring adherence with the Company's compensation philosophy. The Committee ensures that the total compensation paid to the named executive officers is fair, reasonable and competitive. Generally, the types of compensation and benefits provided to the named executive officers, including the actively-employed named executive officers, are similar to those provided to other executive officers in publicly traded financial institutions.

Throughout this proxy statement, the individuals who served as the Company's Chief Executive Officer and Chief Financial Officer during fiscal 2007, as well as the other individuals included in the Summary Compensation Table on page 13, are referred to as the named executive officers.

Compensation Philosophy and Objectives

The Committee believes that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals by the Company, and which aligns the interests of the executive officers with the Company's overall business strategy, values and management initiatives. These policies are intended to reward executives for strategic management and the enhancement of shareholder value and support a performance-oriented environment that rewards achievement of internal goals. The Committee evaluates both performance and compensation to ensure that the Company maintains its ability to attract and retain superior employees in key positions and that compensation provided to key

employees remains competitive relative to the compensation paid to similarly situated executives of our peer companies. To that end, the Committee believes executive compensation packages provided by the Company to its executives, including the named executive officers, should be designed to include both cash and stock-based compensation that reward performance as measured against established goals.

8

Role of Executive Officers in Compensation Decisions

The Committee makes all compensation decisions for the named executive officers and approves recommendations regarding equity awards to all named executive officers of the Company. Decisions regarding the non-equity compensation of other executive officers are made by the Committee and the Chief Executive Officer.

The Committee and the Chief Executive Officer annually reviews the performance of each member of the named executive officers (other than the Chief Executive Officer whose performance is reviewed by the Committee). The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are presented to the Committee. The Committee can exercise its discretion in modifying any recommended adjustments or awards to executives.

Setting Executive Compensation

Based on the foregoing objectives, the Committee has structured the Company's annual and long-term incentive-based cash and non-cash executive compensation to motivate executives to achieve the business goals set by the Company and reward the executives for achieving such goals. To that end, the Committee has retained Clark Consulting to provide research for benchmarking purposes related to executive compensation. Additionally, the Company subscribes to and participates in the Mississippi Bankers Association survey, which provides the Committee with comparative compensation data from the Company's market areas and its peer groups. This information is used by the committee to ensure that it is providing compensation opportunities comparable to its peer group, thereby allowing the Company to retain talented executive officers who contribute to the Company's overall and long-term success.

It is anticipated that the services provided by Clark Consulting will be used as the basis of comparison of compensation between the Company and the companies in the Compensation Peer Group.

2007 Executive Compensation Components

Historically, and for the fiscal year ended December 31, 2007, the principal components of compensation for named executive officers were:

- base salary;
- performance-based incentive bonus compensation;
- equity incentive compensation;
- retirement and other benefits; and
- Perquisites and other personal benefits.

Edgar Filing: FIRST BANCSHARES INC /MS/ - Form DEF 14A

Base Salary

The Company provides named executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. Base salary ranges for named executive officers are determined for each executive based on his or her position and responsibility.

During its review of base salaries for executives, the Committee primarily considers: 1) performance of the Company; 2) market data provided by our outside consultants; 3) internal review of the executive s compensation, both individually and relative to other officers; and 4) individual performance of the executive. Salary levels are typically considered annually as part of the Company s performance review process as well as upon a promotion or other change in job responsibility. Merit based increases to salaries of the named executive officers are based on the Committee s assessment of the individual s performance.

9

Performance-Based Incentive Compensation

The Company has established an incentive bonus compensation plan that is based upon individual performance as well as team and corporate performance. Named executive officers in the Company have unique performance goals in up to nine (9) categories. The individual measures relate primarily to sales, service quality, regulatory compliance, timeliness, and financial goals. The particular measures on an individual s performance depend on the actions that are determined to be most important for that individual to achieve for the current year. The estimated bonus payouts are accrued throughout the year. Cash bonuses may be granted to executives at each year end depending on the achievement of a corporate performance target such as earnings per share, which was used in 2007. The Company s Chief Executive Officer has measures that are company-wide in nature. The measures for 2007 were for net income, earnings per share and return on equity. Each measure was weighted equally for 2007.

For the year ended December 31, 2007, the following cash bonuses were awarded:

David E. Johnson	\$80,950
M. Ray "Hoppy" Cole, Jr.	\$12,717
DeeDee Lowery	\$15,000
David O. Thoms, Jr.	\$ 7,623

Company's common stock by the Company's and its subsidiary's directors, key employees, and management. Under the 1999 Plan, the Company may grant either incentive stock options or nonqualified stock options. Options granted to directors and employees vest in equal amounts over three years. Stock options granted to management vest based on annual performance goals or after nine years and eleven months, if still employed. At December 31, 2007, 213,356 options had been granted, and 92,580 had been exercised or forfeited. All options expire and are void unless exercised on or before April 15, 2009. The options are exercisable at not less than the market value of the Company's stock at the grant.

2007 Stock Option Plan

In 2007, the Company adopted the 2007 Stock Incentive Plan. The 2007 Plan provides for the issuance of up to 315,000 shares of Company Common Stock, \$1.00 par value per share. Shares issued under the 2007 Plan may consist in whole or in part of authorized but unissued shares or treasury shares.

The Company sponsors an Employee Stock Ownership Plan (ESOP), which was established in 2006 for employees who have completed one year of service for the Company and attained age 21. Employees become fully vested after five years of service. Contributions to the plan are at the discretion of the Board of Directors. The Company has entered into Change of Control Agreements with certain key employees. The Change of Control Agreements are designed to promote stability and continuity of senior management. Tax and Accounting Implications

Deductibility of Executive Compensation

As part of its role, the Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that the Company may not deduct compensation of more than \$1,000,000 that is paid to certain individuals. The Company believes that compensation paid under the incentive plans are generally fully deductible for federal income tax purposes.
