NEWS RELEASE

CPB INC. REPORTS FIRST QUARTER EARNINGS UP 14%

HONOLULU, April 17, 2003 CPB Inc. (NYSE: CPF), parent company of Central Pacific Bank, today reported strong first quarter earnings fueled by exceptional core deposit growth, enhanced operating efficiencies and excellent asset quality. First quarter net income grew 14% to \$8.6 million, or \$0.52 per diluted share, from the \$7.5 million, or \$0.47 per share, posted during the same period last year.

First Quarter Highlights

Net income increased 14% to \$8.6 million from \$7.5 million in the first quarter of 2002.

Diluted earnings per share (EPS) grew 11% to \$0.52 compared to \$0.47 in the first quarter of 2002.

Return on average equity (ROE) was 19.18% and return on average assets (ROA) was 1.73%.

Productivity continued to improve with the efficiency ratio declining to 50.07% from 52.48% in the year ago quarter.

Asset quality remained strong with non-performing assets totaling \$691,000 or 0.03% of total assets.

Cash dividends increased by 78% to \$0.16 per share from \$0.09 in the first quarter of 2002.

"This quarter continues our long track record of delivering steady earnings growth and strong returns," said Clint Arnoldus, Chairman, President and Chief Executive Officer. "CPB's consistently strong performance further supports our proposal to combine CPB Inc. with CB Bancshares, Inc. to form a stronger local bank for Hawaii better positioned to compete and take market share and better able to serve customers and the local community. Our results show we have the team that can do the job."

First Quarter Results of Operations

First quarter revenues (net interest income before provision plus other operating income) grew 3% to \$26.1 million, compared to \$25.2 million in the first quarter of 2002. Net interest income before

provision for loan losses was \$22.4 million, up 5% from the first quarter of 2002. Net interest margin was 4.98%, a slight decrease from the 5.07% reported a year ago.

There was no provision for loan losses in the first quarter of 2003, as net recoveries of \$912,000 were recorded during the quarter. The provision for loan losses was \$300,000 and net charge-offs were \$145,000 in the first quarter of 2002. "Management continually evaluates the quality of its loan portfolio and adjusts the provision for loan losses based on its assessment of risk," said Neal Kanda, Vice President and Chief Financial Officer.

Excluding securities gains and losses, other operating income for the first quarter of 2003 was \$3.7 million, a 6% increase over the \$3.5 million reported in the first quarter of last year. "We are focusing on increasing our fee income through an expansion of trust, asset management and private banking services, and see strong potential for growth in these high-value services," stated Kanda.

Salaries and employee benefits totaled \$7.1 million, an 8% decrease from the \$7.7 million reported in the year ago quarter. Other operating expenses, excluding salaries and benefits, grew to \$6.0 million, an increase of 12% over the \$5.3 million reported in the first quarter of last year. This increase was primarily due to an increase in advertising and promotional expenses.

The effective tax rate declined to 34.11% in the first quarter of 2003 from 36.66% in the same period last year as the Company continues to benefit from the state tax credits realized from its investment in high-technology businesses in 2002.

Asset Quality

Asset quality continued to improve, as total nonperforming assets declined 82% to \$691,000 or 0.03% of total assets, compared to \$3.9 million or 0.21% of total assets a year ago. Nonaccrual loans totaled \$144,000, a decrease of 96% from the \$3.4 million reported a year ago. The allowance for loan losses was 1.87% of total loans compared to 1.94% a year ago.

Balance Sheet Analysis

Total assets grew to \$2.03 billion, a 9% increase over the \$1.86 billion reported a year ago. Investment securities increased to \$528.3 million, up 29% from \$409.6 million reported last year. Total loans grew 5% to \$1.34 billion, compared to \$1.27 billion a year ago.

Total deposits grew to \$1.65 billion, an increase of 12% over the \$1.48 billion reported at March 31, 2002. Non-interest bearing deposits increased by 33% to \$297.8 million, compared to \$223.4 million a year ago.

Shareholders' equity increased 18% to \$178.6 million, or \$11.16 book value per share at March 31, 2003, compared to \$151.9 million or \$9.56 book value per share a year ago.

Outlook

Mr Arnoldus concluded: "Hawaii's tourism industry is facing a period of uncertainty with regard to the geopolitical situation and the outbreak of the SARS (Severe Acute Respiratory Syndrome) virus in Asia. We anticipate these external factors to restrain near-term economic activity within the state. While we are lowering our guidance on 2003 EPS growth to the six to ten percent range, we believe we are well positioned to take advantage of future opportunities."

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, (i) statements about the benefits of a merger between CPB Inc. ("CPB") and CB Bancshares, Inc. ("CBBI"), including future financial and operating results, costs savings and accretion to reported and cash earnings that may be realized from such merger; (ii) statements with respect to CPB's plans, objectives, expectations and intentions and other statements that are not historical facts; and (iii) other statements identified by words such as "believes", "expects", "anticipates", "estimates", "intends", "plans", "targets", "projects" and other similar expressions. These statements are based upon the current beliefs and expectations of CPB's management and are subject to significant risks and uncertainties. Actual results may differ from those set forth in the forward-looking statements.

The following factors, among others, could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements: (1) the business of CPB and CBBI may not be integrated successfully or such integration may be more difficult, time-consuming or costly than expected; (2) expected revenue synergies and cost savings from the merger may not be fully realized or realized within the expected time frame; (3) revenues following the merger may be lower than expected; (4) deposit attrition, operating costs, customer loss and business disruption, including, without limitation, difficulties in maintaining relationships with employees, customers, clients or suppliers, may be greater than expected following the merger; (5) the regulatory approvals required for the merger may not be obtained on the proposed terms; (6) the failure of CPB's and CBBI's shareholders to approve the merger; (7) competitive pressures among depository and other financial institutions may increase significantly and may have an effect on pricing, spending, third-party relationships and revenues; (8) the strength of the United States economy in general and the strength of the Hawaii economy may be different than expected, resulting in, among other things, a deterioration in credit quality or a reduced demand for credit, including the resultant effect on the combined company's loan portfolio and allowance for loan losses; (9) changes in the U.S. legal and regulatory framework; and (10) adverse conditions in the stock market, the public debt market and other capital markets (including changes in interest rate conditions) and the impact of such conditions on the combined company's activities.

Additional factors that could cause CPB's results to differ materially from those described in the forward-looking statements can be found in CPB's reports (such as Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K) filed with the Securities and Exchange Commission and available at the SEC's Internet site (<http://www.sec.gov>). With respect to financial projections for CBBI contained in this document, neither CBBI nor any analyst has published any information for 2003 or 2004. In addition, CPB has not been given the opportunity to do any due diligence on CBBI other than reviewing its publicly available information. Therefore, management of CPB has created its own financial model for CBBI based on CBBI's historical performance and CPB's assumptions regarding the reasonable future performance of CBBI on a stand-alone basis. These assumptions may or may not prove to be correct. The assumptions are inherently subject to significant uncertainties and contingencies, many of which are beyond the control of CBBI. There is no assurance that these projections will be realized and actual results are likely to differ significantly from such projections.

Subject to future developments, CPB intends to file with the SEC a registration statement to register the CPB shares to be issued in the proposed transaction, including related tender/exchange offer materials, and one or more proxy statements for solicitation of proxies from CPB shareholders,
