Report of Independent Auditors

The Trustees of the SkyWest, Inc.
Employees' Retirement Plan:

We have audited the accompanying statement of net assets available for benefits of the SkyWest, Inc. Employees' Retirement Plan (the "Plan") as of December 31, 2002 and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2002, and the changes in its net assets available for benefits for the year then ended, in conformity with accounting principles generally accepted in the United States.

Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2002, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

SKYWEST, INC. EMPLOYEES' RETIREMENT PLAN**Notes to Financial Statements****December 31, 2002****(1) Plan Description**

Edgar Filing: SKYWEST INC - Form 11-K

The following description is provided for general information purposes only. More complete information regarding the plan's provisions may be found in the plan document.

(a)

Participation

SkyWest, Inc. (the Company) adopted the SkyWest, Inc. Employees' Retirement Plan (the Plan), a 401(k) plan, effective April 1, 1977. The Plan is a defined contribution plan and is intended to be a qualified retirement plan under the Internal Revenue Code (IRC). It is subject to the provisions of the Employee Retirement Security Act of 1974, as amended (ERISA). The Plan has been amended at various times.

The Plan was established to provide employees with an opportunity to accumulate funds for retirement or disability and to provide death benefits for employees' dependents and beneficiaries. The Plan's trustees include three employees of the Company, one of whom is an officer.

(b)

Eligibility, Contributions, and Benefits

Employees who have completed 90 days of service are eligible to participate in the Plan. An eligible employee who has enrolled, shall become a participant on the first day of the month coinciding with or following the date that the employee meets the respective eligibility requirements. Employees must affirmatively elect to participate in the Plan.

Employees are eligible to participate in the employer match program after completing one year of service. Employees must be making contributions to the Plan in order to receive the employer match. An employee is eligible to participate in the discretionary contribution program when he or she has completed two years of service and is 18 or older.

(c)

Contributions

Participants elect both the amount of salary reduction contributions and the allocation of the salary reduction contributions among the various investment alternatives within the Plan. Salary reduction contributions cannot exceed the lesser of 25% of the participant's eligible compensation or the maximum amount allowable under the IRC, which was \$11,000 during 2002.

Employees are eligible for the Company match when they have completed one year of service and have enrolled in the Plan. During 2002, the Company matched each eligible participant's salary reduction contribution at levels ranging from 2% to 6%, based on years of service. Additionally, each year the Company may make a discretionary contribution based on its earnings. The Company made a discretionary contribution of \$2,292,486 in 2002. Company discretionary contributions are allocated based on the participants' eligible compensation.

(d)

Benefits

Participants are immediately vested 100% in their account balances. Benefits are normally paid at retirement, disability, death, or other termination. Benefit distributions may be made in a single lump sum payment, installments, or an annuity. Participants may withdraw funds from the Plan while actively employed subject to specific restrictions set forth in the Plan agreement.

(f)

Loans Receivable from Participants

7

Under no circumstances can the amount of the loan exceed the lesser of \$50,000 or 50% of the participant's vested account balance.

(g)

Related Parties

The Plan Sponsor and Fidelity Investments Institutional Services Co. (Fidelity) are considered related parties to the Plan. The Plan Sponsor common stock and Fidelity managed mutual funds are investment options in the Plan. Fidelity is the asset custodian for the Plan.

(2) Summary of Significant Accounting Policies

(a)

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America. Distributions to participants are recorded when paid.

(b)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported changes in net assets available for benefits during the reporting period. Actual results could differ from these estimates.

(c)

Investment Valuation

The Plan provides for investments in certain investment securities. These securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Investments, other than loans receivable from participants, are carried at quoted market value. Loans receivable from participants are valued at face value, which approximates the future principal and interest payments discounted at prevailing interest rates for similar instruments. Unrealized appreciation or depreciation caused by fluctuations in the market value of investments is recognized in income currently. Dividends and interest are reinvested as earned. Purchases and sales of investments are recorded on a trade-date basis.

(d)

Expenses

The Plan pays all administrative expenses of the Plan, other than legal fees.

(e)

Interest and Dividend Income

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date.

(f)

Net Unrealized Appreciation (Depreciation) in Fair Value of Investments

Net unrealized appreciation (depreciation) in fair value of investments is determined by comparing the fair value of each investment at the beginning of the plan year (or at the date of

8

purchase for investments acquired during the current plan year) with the fair value at the end of the plan year.

(g)

Net Realized Gain (Loss) on Disposition of Investments

Net realized gain (loss) on investments is determined by comparing the sales price of each investment as of the disposition date with the fair value at the beginning of the plan year (or at the date of purchase for investments acquired during the current plan year).

(h)

Termination of Plan

Although it has not expressed any intent to do so, the Company may terminate the Plan at any time subject to the provisions of the Plan and ERISA. If the Plan is terminated, the participants are fully vested and have a nonforfeitable interest in their accounts.

(3) Transactions with Parties-in-Interest

Transactions in shares of the Plan Sponsor's common stock qualify as party-in-interest transactions under the provisions of ERISA. During 2002, the Plan made purchases of \$1,625,618 and sales of \$534,344 of the Plan Sponsor's common stock.

(4) Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated June 21, 2002, stating that the Plan is qualified under Section 401(a) of the Internal Revenue code (the "Code") and, therefore, the related trust is exempt from taxation. Subsequent to the determination letter the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its

Edgar Filing: SKYWEST INC - Form 11-K

qualification. The Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code, and, therefore, believes the Plan, as amended, is qualified and the related trust is tax exempt.

(5) Investments

During 2002, the Plan's investments (including investments purchased, sold, as well as held during the year) depreciated in fair value as determined by quoted market prices as follows:

	Net Realized and Unrealized Depreciation in Fair Value of Investments
Common stock	\$ 1,143,713
Mutual funds	12,284,779
	\$ 13,428,492

(6)

Plan Amendments

During 2002, the Plan was amended in its entirety to become compliant with changes in the tax laws (GUST and EGTTA provisions) relating to qualified plans. The Company requested a GUST determination letter from the IRS on the amended Plan and on June 21, 2002, the Company received a favorable determination letter. Additionally, during 2002, the Plan added an investment option to allow participants to invest in the Plan Sponsor's common stock (SkyWest, Inc. Common Stock). The Plan was amended to restrict participants investments in SkyWest Common Stock to 25 percent of the participants account balance.
