**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

ý **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the Quarterly period ended September 30, 2007

OR

o **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the transition period from _____ to _____
Commission File Number: 1-14829

Molson Coors Brewing Company

(Exact name of registrant as specified in its charter)

DELAWARE

(State or other jurisdiction of incorporation or organization)

84-0178360

(I.R.S. Employer Identification No.)

**1225 17th Street, Denver, Colorado, USA
1555 Notre Dame Street East, Montréal, Québec, Canada**

(Address of principal executive offices)

**80202
H2L 2R5**
(Zip Code)

**303-279-6565 (Colorado)
514-521-1786 (Québec)**

(Registrant's telephone number, including area code)

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of October 26, 2007:

Class A Common Stock 2,674,772 shares
Class B Common Stock 145,565,023 shares

Exchangeable shares:

As of October 26, 2007, the following number of exchangeable shares was outstanding for Molson Coors Canada, Inc.:

Class A Exchangeable shares 3,314,204
Class B Exchangeable shares 28,266,386

In addition, the registrant has outstanding one share of special Class A voting stock, through which the holders of Class A exchangeable shares and Class B exchangeable shares of Molson Coors Canada Inc. (a subsidiary of the registrant), respectively, may exercise their voting rights with respect to the registrant. The special Class A and Class B voting stock are entitled to one vote for each of the exchangeable share classes, respectively, excluding shares held by the registrant or its subsidiaries, and generally vote together with the Class A common stock and Class B common stock, respectively, on all matters on which the Class A common stock and Class B common stock are entitled to vote. The trustee holder of the special Class A voting stock and the special Class B voting stock has the right to cast a number of votes equal to the number of then outstanding Class A exchangeable shares and Class B exchangeable shares, respectively.

MOLSON COORS BREWING COMPANY AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THIRTEEN AND THIRTY-NINE WEEKS ENDED SEPTEMBER 30, 2007

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

On February 9, 2005, Adolph Coors Company merged with Molson Inc. (the Merger). In connection with the Merger, Adolph Coors Company became the parent of the merged company and changed its name to Molson Coors Brewing Company. Unless otherwise noted in this report, any description of us includes Molson Coors Brewing Company (MCBC or the Company) (formerly Adolph Coors Company), principally a holding company, and its operating subsidiaries: Molson Canada (Molson), operating in Canada; Coors Brewing Company (CBC), operating in the United States (U.S.); Coors Brewers Limited (CBL), operating in the United Kingdom (U.K.); and our other corporate entities. Any reference to Molson Inc. means Molson prior to the Merger. Any reference to "Coors" means the Adolph Coors Company prior to the Merger. Any reference to "Molson Coors" means MCBC, after the Merger.

Unless otherwise indicated, information in this report is presented in U.S. dollars (USD or \$).

Unaudited Condensed Consolidated Financial Statements

The accompanying unaudited condensed consolidated financial statements reflect all adjustments, consisting of normal recurring accruals, which are necessary for a fair statement of the financial position, results of operations and cash flows for the periods presented. The accompanying condensed consolidated financial statements include our accounts, the accounts of our majority-owned subsidiaries and certain variable interest entities (VIEs) of which we are the primary beneficiary. We generally apply the equity method of accounting to 20% to 50% owned investments where we exercise significant influence, except for consolidated VIEs. All intercompany transactions and balances have been eliminated in consolidation. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements, including the notes thereto, contained in our Annual Report on Form 10-K for the year ended December 31, 2006. The results of operations for the thirteen and thirty-nine weeks ended September 30, 2007, are not necessarily indicative of the results that may be achieved for the full fiscal year and cannot be used to indicate financial performance for the entire year.

The December 31, 2006 condensed consolidated balance sheet data were derived from audited financial statements, but do not include all disclosures required by accounting principles generally accepted in the United States of America (U.S. GAAP).

On August 1, 2007, our Board of Directors declared a two-for-one stock split issued in the form of a dividend for all classes of capital stock, with a record date of September 19, 2007, which was effective on October 3, 2007. All share and per share data included in the consolidated financial statements and accompanying notes have been adjusted to reflect our stock split.

Reporting Periods Presented

MCBC follows a 52/53 week fiscal reporting calendar. The third fiscal quarter of 2007 and 2006 consisted of thirteen weeks ending on September 30, 2007 and September 24, 2006, respectively. Fiscal year 2007 will consist of fifty-two weeks ending on December 30, 2007. Fiscal year 2006 consisted of fifty-three weeks ending on December 31, 2006, with the extra week falling in the fourth quarter of 2006.

Since the Merger, the results of Cervejarias Kaiser Brasil S.A. (Kaiser) (now reported as discontinued operations) and Brewers Retail Inc. (BRI) are reported one month in arrears in the accompanying unaudited condensed consolidated financial statements.

Use of estimates

Our consolidated financial statements are prepared in accordance with U.S. GAAP. These accounting principles require us to make certain estimates, judgments and assumptions. We believe that the estimates, judgments and assumptions are reasonable, based on information available at the time they are made. To the extent there are material differences between these estimates and actual results, our consolidated financial statements may be affected.

Properties

In the first quarter of 2007, we completed a re-evaluation of the estimated useful lives of a substantial portion of our property, plant and equipment on a global basis, in light of improvements in maintenance, new technology and changes in expected patterns of usage.

The following table details the ranges of the useful economic lives assigned to depreciable property, plant and equipment:

	Useful Economic Lives as of January 1, 2007	Useful Economic Lives as of December 31, 2006
Buildings and improvements	20 - 40 years	10 - 40 years
Machinery and equipment	3 - 25 years	3 - 20 years
Furniture and fixtures	3 - 10 years	3 - 10 years

These changes in depreciable lives are reflected as a change in estimate and are being recognized prospectively beginning in the first quarter of 2007. These changes to existing and depreciating property, plant and equipment as of January 1, 2007, resulted in a reduction of approximately \$10.2 million and \$24.8 million in our consolidated depreciation expense for the thirteen and thirty-nine weeks ended September 30, 2007, respectively.

Adoption of New Accounting Pronouncements

FASB Interpretation No. 48 "Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109"

On January 1, 2007, we adopted the FASB's Interpretation No. 48, "Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109" (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. FIN 48 prescribes a two-step process to determine the amount of tax benefit to be recognized. First, the tax position must be evaluated to determine the likelihood that it will be sustained upon examination. If the tax position is deemed "more-likely-than-not" to be sustained, the tax position is then valued to determine the amount of benefit to be recognized in the financial statements. As a result of the adoption of FIN 48, we increased tax-related liabilities by a total of \$132.1 million and recorded \$3.9 million as a current liability for unrecognized tax benefits and \$128.2 million as a non-current

liability for unrecognized tax benefits. The cumulative effect of applying the new requirement has been recorded as a reduction to the beginning balance of retained earnings in the amount of \$105.4 million, an increase to goodwill in the amount of \$2.3 million (See Note 9) and an increase to deferred tax assets of \$24.4 million. The adjustment to goodwill reflects changes to liabilities for uncertain tax positions established in the opening balance sheet of the acquisition of CBL in 2002 and the Merger in 2005. See Note 7 for further discussion and Note 15 for the impact to retained earnings.

As a result of the adoption of FIN 48, as of January 1, 2007, we had \$297.4 million unrecognized tax benefits, of which approximately \$257 million would, if recognized, affect the effective tax rate.

We recognize interest and penalties related to unrecognized tax benefits as a component of income tax expense. Approximately \$77.8 million of anticipated interest and penalty payments were accrued at January 1, 2007, in unrecognized tax benefits.

New Accounting Pronouncements

Statement of Financial Accounting Standards (SFAS) No. 157 "Fair Value Measurements"

SFAS 157 was issued in September 2006 and will be effective for us in the first quarter of our 2008 year. This standard clarifies the definition of fair value, establishes a framework for measuring fair value and expands disclosure about fair value measurements. We are in the process of reviewing the impact, if any, that SFAS 157 will have on our financial statements.

SFAS No. 159 "The Fair Value Option for Financial Assets and Financial Liabilities, Including an amendment of FASB Statement No. 115"

SFAS 159 was issued in February 2007 and permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. The objective of this Statement is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities using different measurement techniques. The fair value measurement provisions are elective and can be applied to individual financial instruments. SFAS 159 requires additional disclosures related to the fair value measurements included in the entity's financial statements. This Statement is effective for us as of the beginning of our 2008 year. We have not yet determined whether we will elect to adopt the fair value measurement provisions of this Statement and what impacts such adoption might have on our financial statements.

Proposed Accounting Pronouncements

Proposed FASB Staff Position APB 14-a, "Accounting for Convertible Debt Instruments That May Be Settled in Cash Upon Conversion (Including Partial Cash Settlement)"

The FASB recently proposed FASB Staff Position (FSP) APB 14-a, "Accounting for Convertible Debt Instruments That May Be Settled in Cash Upon Conversion (Including Partial Cash Settlement)" ("FSP 14-a"). The proposed FSP specifies that issuers of such instruments should separately account for the liability and equity components in a manner that will reflect the entity's nonconvertible debt borrowing rate on the instrument's issuance date when interest cost is recognized in subsequent periods. Our 2007 2.5% Convertible Senior Notes due July 30, 2013 are within the scope of FSP 14-a;

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

therefore if the FSP is issued as proposed, we would be required to record the debt portions of our 2.5% Convertible Senior Notes at their fair value on the date of issuance and amortize the discount into interest expense over the life of the debt. However, there would be no effect on our cash interest payments. If the FSP is issued as proposed, we expect the increase in non-cash interest expense recognized on our consolidated financial statements to be significant. As currently proposed, this FSP 14-a will be effective for financial statements issued for fiscal years beginning after December 15, 2007, and will be applied retrospectively to all periods presented. Therefore the adoption of this FSP, if issued as proposed, would be reflected in our financial statements beginning with the first quarter of 2008.

2. BUSINESS SEGMENTS

The Company has three business reporting segments: Canada, United States (U.S.) and Europe. Our reporting segments are defined by geographic regions which is the basis on which our chief operating decision maker evaluates the performance of the business. Corporate revenues are associated with the marketing of the Company's intellectual property, including trademarks and brands. Corporate results include interest expense and certain other general and administrative costs that are not allocated to any of the operating segments.

No single customer accounted for more than 10% of our sales. Net sales represent sales to third party external customers. Intersegment revenues were insignificant and eliminated in consolidation.

The following table represents net sales by segment:

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	September 30, 2007	September 24, 2006	September 30, 2007	September 24, 2006
	(In thousands)

Discontinued operations	10,524	8,957
Total assets	\$ 13,141,258	\$ 11,603,413

- (1) The increase is primarily due to foreign currency translation.

3. SHARE-BASED PAYMENTS

The following table summarizes components of the equity-based compensation recorded as expense:

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	September 30, 2007	September 24, 2006	September 30, 2007	September 24, 2006
(In thousands)				
Stock options, stock-only stock appreciation rights and limited stock appreciation rights:				
Pre-tax compensation expense	\$ 1,506	\$ 957	\$ 8,851	\$ 4,235
Tax benefit	(416)	(289)	(2,730)	(1,159)
After-tax compensation expense	\$ 1,090	\$ 668	\$ 6,121	\$ 3,076
Restricted stock units and deferred stock units:				
Pre-tax compensation expense	\$ 1,477	\$ 1,613	\$ 5,139	\$ 5,034
Tax benefit	(367)	(519)	(1,473)	(1,642)
After-tax compensation expense	\$ 1,110	\$ 1,094	\$ 3,666	\$ 3,392
Performance shares:				
Pre-tax compensation expense	\$ 4,569	\$ 4,864	\$ 13,493	\$ 10,618
Tax benefit	(1,292)	(1,396)	(3,916)	(3,019)
After-tax compensation expense	\$ 3,277	\$ 3,468	\$ 9,577	\$ 7,599
Total after-tax compensation expense	\$ 5,477	\$ 5,230	\$ 19,364	\$ 14,067

As of September 30, 2007, there was \$65.9 million of total unrecognized compensation expense related to non-vested shares from share-based compensation arrangements granted under the plans. This compensation is expected to be recognized over a weighted-average period of approximately 1.8 years. During the thirty-nine weeks ended September 30, 2007, cash received from stock option exercises was \$179.3 million, and the total tax benefit to be realized for the tax deductions from these option exercises was \$22.4 million.

During the thirty-nine weeks ended September 30, 2007, we issued the following awards to certain directors, officers, and other eligible employees, pursuant to the 2005 Molson Coors Brewing Company Incentive Compensation Plan: stock-only stock appreciation rights (SOSARs), restricted stock units (RSUs), deferred stock units (DSUs) and performance share units (PSUs). No stock options (Options) or limited stock appreciation rights (LOSARs) were granted during the thirty-nine weeks ended September 30, 2007. There were no awards granted under the Company's Equity Compensation Plan for Non-Employee Directors and the 1990 Equity Incentive Plan in 2007, and we are not expecting to grant any new awards under these plans for the remainder of 2007.

SOSARs were granted for the first time in the thirty-nine weeks ended September 30, 2007. A SOSAR was granted with an exercise price equal to the market value of a share of common stock on the date of grant. The SOSAR entitles the award recipient to receive shares of the Company's stock with a fair market value equal to the excess of the trading price over the exercise price of such shares on the date of the exercise. SOSARs have a term of ten years and generally vest over three years.

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

During the thirty-nine weeks ended September 30, 2007, we granted 957,646 SOSARs with a weighted-average fair market value of \$13.23 each.

As of September 30, 2007, there were 2,540,570 shares of the Company's stock available for the issuance of Options, SOSARs, LOSARs, RSUs, DSUs and PSUs.

The following table represents the summary of stock options and SOSARs outstanding at September 30, 2007, and the activity during the first three quarters of 2007:

	Outstanding Options and SOSARs	Weighted- average exercise price, per Options and SOSARs	Remaining contractual life, in years	Aggregate intrinsic value
Outstanding as of December 31, 2006	15,525,844	\$ 32.06		
Granted	957,646	\$ 45.79		
Exercised	(5,603,316)	\$ 40.00		
Forfeited	(157,276)	\$ 54.36		
Outstanding as of September 30, 2007	10,722,898	\$ 33.33	5.51	\$ 176,949,087
Exercisable at September 30, 2007	9,428,072	\$ 32.43	5.03	\$ 164,083,625

The weighted-average grant date fair value of Options granted during the first thirty-nine weeks of 2006 was \$9.44. The total intrinsic value of Options exercised during the thirty-nine weeks ended September 30, 2007 and September 24, 2006 were \$63.1 million and \$10.2 million, respectively.

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

The fair values of each SOSAR, Option and LOSAR granted in the first three quarters of 2007 and 2006 were determined on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

	Thirty-Nine Weeks Ended	
	September 30, 2007	September 24, 2006
Volatility ranges	21.8% - 26.8%	24.9% - 30.1%
Weighted-average volatility	25.30%	27.87%
Dividend yield	1.40%	1.86%
Expected term (in years)	3.50 - 7.00	3.50 - 7.00
Risk-free interest rate	4.46%	4.48%

In the thirty-nine weeks ended September 30, 2007, we granted 243,196 RSUs, 7,452 DSUs and 157,336 PSUs with a weighted-average fair market value of \$45.75 and \$47.75 and \$43.42 per award, respectively. The following table represents non-vested RSUs, DSUs and PSUs at September 30, 2007, and the activity during the thirty-nine weeks of 2007:

	Shares	Weighted-average grant date fair value
Non-vested as of December 31, 2006	2,620,480	\$ 34.24
Granted	407,984	\$ 44.89
Vested	(80,088)	\$ 32.50
Forfeited	(213,794)	\$ 22.59
	2,734,582	\$ 36.79

Total fair values of RSUs and DSUs vested were \$2.8 million and \$10,000 during the thirty-nine weeks ended September 30, 2007 and September 24, 2006, respectively.

4. SPECIAL ITEMS, NET

We have incurred charges or benefits that are not indicative of our core operations. As such, we have separately classified these costs as special operating items.

Summary of Special Items

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	September 30, 2007	September 24, 2006	September 30, 2007	September 24, 2006
(In thousands)

Europe Other exit (benefits) costs		(70)		1,245
Corporate Loss (benefits) on change in control agreements for Coors executives		660		(701)
Corporate costs of the proposed joint venture	2,045		2,045	
Total special items	\$ 55,337	\$ 28,453	\$ 88,947	\$ 81,124

Canada Segment

In the third quarter of 2007, we closed our brewery in Edmonton, Alberta, and transferred the facility's production to our other breweries in Canada. We recorded a pretax non-cash impairment charge of approximately \$32.4 million in the third quarter of 2007 associated with the carrying amount of fixed assets at the Edmonton brewery in excess of estimated market value. Current plans are to demolish the building and sell the land, which has a carrying value of \$10.1 million as of September 30, 2007. Approximately 130 employees were impacted by the brewery's closure. We recognized \$8.1 million for severance and other employee related costs and \$2.7 million of other costs associated with the brewery's closure in the third quarter of 2007. We expect to incur approximately \$5.0 million

of additional costs in the fourth quarter of 2007 and first quarter of 2008 associated with the Edmonton brewery closure.

In May 2007, we also recognized an intangible asset impairment charge of \$24.1 million as a result of the Foster's contract termination. See Note 9 for further discussion.

In the first quarter of 2007, the Canada segment initiated a restructuring program focused on labor savings across production, sales, and general and administrative functions, as well as on the reduction of overhead expenses. This restructuring program is estimated to result in a total cost, and a charge to operations, of approximately \$7.8 million in 2007. There were no such items recognized related to this program during the third quarter of 2007 and \$4.1 million expensed for severance and other employee related costs in the first three quarters of 2007, with the remainder expected to be recognized in the fourth quarter of 2007. The restructuring program resulted in a reduction of 50 full-time employees in the first three quarters of 2007, and we expect to realize the restructuring program benefits in slightly over one year.

The following summarizes the activity in the Canada segment restructuring accruals:

	Severance and other employee-related costs	
	(In thousands)	
Balance at December 31, 2006	\$	608
Charges incurred		11,796
Payments made		(2,807)
Foreign currency and other adjustments		812
Balance at September 30, 2007	\$	10,409

U.S. Segment

In the third quarter of 2007, the U.S. segment began a restructuring program focused on labor savings across supply chain functions. We recognized \$2.8 million of expense for severance and other employee related costs in the third quarter of 2007 related to a reduction of 34 full-time employees in the third quarter of 2007, and we expect to realize the restructuring program benefits in less than one year. During the third quarter and first three quarters of 2006, the U.S. segment recognized \$17.2 million and \$60.5 million of accelerated depreciation, respectively and \$5.3 million and \$15.6 million of additional costs as a direct result of the Memphis brewery sale and closure for the third quarter and first three quarters of 2006, respectively. Included in the direct costs of the Memphis closure is a \$3.1 million pension withdrawal cost recognized in the third quarter of 2006. Memphis pension withdrawal obligation was paid in the third quarter of 2007. The U.S. segment special charges for the first three quarters of 2006 were partially offset by the receipt of a \$2.4 million cash distribution from bankruptcy proceedings of a former insurance carrier for a claim related to our environmental obligations at the Lowry Superfund site in Denver, Colorado. The cash received did not impact our estimated environmental liability associated with this site.

The following summarizes the activity in the U.S. segment restructuring accrual accounts:

	Severance and other employee-related costs	Closing and other costs	Total
(In thousands)			
Balance at December 31, 2006	\$ 27,645	\$ 441	\$ 28,086
Charges incurred	2,768		2,768
Payments made	(27,645)	(213)	(27,858)
Other adjustments		(129)	(129)
Balance at September 30, 2007	\$ 2,768	\$ 99	\$ 2,867

Europe Segment

We recognized special items of \$3.4 million and \$2.3 million in the third quarters of 2007 and 2006, respectively. Both of these special charges in 2007 and the 2006 charges were predominantly employee termination costs associated with supply chain and back-office restructuring efforts in the U.K. In addition, we recognized increased liabilities in recognition of an existing pension benefit obligation in accordance with U.K. law of \$3.9 million during the third quarter of 2007. Net special charges of \$12.7 million and \$8.2 million were recorded during the thirty-nine weeks ended September 30, 2007 and September 24, 2006, respectively.

During 2006, supply chain and back-office restructuring actions were identified impacting approximately 250 and 120 employees, respectively. In the first three quarters of 2007, 10 employees were terminated resulting in an additional charge of \$1.0 million, bringing the total employees terminated under this restructuring plan as of September 30, 2007, to 273 employees. The remaining supply chain and back-office terminations under this plan are expected through 2008.

In the first three quarters of 2007, the Europe segment implemented further cost reduction actions as part of a supply chain restructuring program. As a result we have reduced employee levels by a further 59 employees and recognized \$7.8 million of special charges in the first three quarters of 2007; we expect to realize the restructuring plan benefits in just over one year.

The following summarizes the activity in the Europe segment restructuring accruals:

	Severance and other employee-related costs
(In thousands)	
Balance at December 31, 2006	\$ 4,016
Charges incurred	8,764
Payments made	(9,529)
Foreign currency and other adjustments	199
Balance at September 30, 2007	\$ 3,450

Corporate

The Corporate segment recognized \$2.0 million in the third quarter and first three quarters of 2007, compared to \$0.7 million of special charges and \$0.7 million of net special benefits in the third quarter and first three quarters of 2006, respectively. The costs reported as special items recorded in the third quarter of 2007 are a result of the announced intent of MCBC and SABMiller plc to combine the U.S. and Puerto Rican operations of their respective subsidiaries, Coors Brewing Company and Miller Brewing Company, in a joint venture (refer to Note 16 for further discussion). The costs consist primarily of outside professional services. The special items for the third quarter and first three quarters of 2006 were a result of adjusting to the floor provided on the exercise price of stock options held by former Coors officers who left the Company under change in control agreements following the Merger. We did not recognize a charge related to the floor provided on the exercise price of the stock options as the stock price exceeded the floor price during the first three quarters of 2007.

6. DISCONTINUED OPERATIONS

On January 13, 2006, we sold a 68% equity interest in the entity that comprised our previously-reported Brazil operating segment, Kaiser, to FEMSA Cerveza S.A. de C.V. ("FEMSA") for \$68 million cash, less \$4.2 million of transaction costs, including the assumption by FEMSA of Kaiser-related debt and certain contingencies. As discussed in Note 13, we indemnified FEMSA with respect to certain tax and other liabilities. Another brewer held a 17% equity interest in the Kaiser business at the time of this transaction. During the fourth quarter of 2006, we exercised a put option on our remaining 15% interest which had a carrying value of \$2 million at the time of the sale, and received a cash payment of \$15.7 million, including \$0.6 million of accrued interest. We have reflected the results of operations,

financial position, and cash flows for the former Brazil segment in our financial statements as discontinued operations.

During the portion of 2006 that we had a controlling interest, Kaiser had \$57.8 million of net sales and \$2.3 million of pre-tax losses. This 2006 period included the month of December 2005 and the first thirteen days of January 2006, as we reported Kaiser's results one month in arrears. The accounting for our interest in Kaiser changed after the reduction in our ownership position in January 2006, resulting in accounting for our 15% interest under the cost method until the exercise of our put option of our remaining ownership interest in the fourth quarter of 2006. Amounts impacting the gain or loss from discontinued operations in the thirty-nine week periods of 2007 and in 2006 following the sale are associated with changes in estimates of the carrying value of the liabilities related to indemnities we provided to FEMSA with regard to contingent tax and other liabilities, which are discussed further in Note 13.

The table below summarizes the gain (loss) from discontinued operations, net of tax, presented on our condensed consolidated statements of operations:

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	September 30, 2007	September 24, 2006	September 30, 2007	September 24, 2006
	(In thousands)		(In thousands)	
Loss from operations of Kaiser in 2006 prior to sale on January 13, 2006	\$	\$	\$	\$ (2,293)
Loss on sale of 68% of Kaiser				(2,797)
Adjustments to indemnity liabilities due to changes in estimates, foreign exchange gains and losses and accretion expense		(442)	13,409	(14,653)
				5,417
Gain (loss) from discontinued operations, tax affected	\$ (442)	\$ 13,409	\$ (14,653)	\$ 327

7. INCOME TAXES

Our effective tax rate for the third quarter 2007 was negative 4%, resulting in a small income tax benefit. We anticipate that our 2007 full-year effective tax rate will be in the range of 11% to 14%. Our effective tax rate for the third quarter 2007 is lower than our anticipated full-year rate primarily due to reductions in unrecognized tax benefits and the revaluation of deferred tax assets and liabilities in the U.K. The revaluation reflects the impact of a recently enacted 2% UK corporate income tax rate reduction and changes in the tax rules applicable to the disposal of certain fixed assets, the effects of which were recognized as discrete benefits in the third quarter of 2007 income tax provision.

Our tax rate is volatile and may fluctuate with changes in, among other things, the amount and source of income or loss, our ability to utilize foreign tax credits, changes in tax laws, and the movement of liabilities established pursuant to FIN 48 for uncertain tax positions as statutes of limitations expire or positions are otherwise effectively settled. There are pending tax law changes in

Canada that, if enacted, may result in significant changes to existing deferred income tax balances and the range of our 2007 effective tax rate.

On July 19, 2007, the U.K. enacted a 2% reduction in its corporate income tax rate along with several changes in tax laws, including changes that affect the taxation of gains on the disposal of certain fixed assets. The impact of revaluing our deferred tax assets and liabilities in the U.K. at the new corporate income tax rate and taking into account the changes in the capital allowance was a \$13.1 million tax benefit that was recognized as a discrete benefit in the third quarter income tax provision. In addition, there are pending changes in the U.K. tax depreciation rules that are expected to be enacted in 2008; however, we do not expect these changes to have a material effect on our financial statements.

The tax technical correction bill enacted in Canada on February 21, 2007, did not result in the approximate \$90 million income tax benefit previously estimated and disclosed by us. It is reasonably possible that additional changes in the Canadian tax law noted above could be enacted in the next 12 months. If enacted, it would result in an approximate \$108 to \$112 million decrease to the unrecognized tax benefits that would be recognized as an income tax benefit to the statement of operations. That one-time, non-cash income tax benefit depends upon another related tax technical correction bill in Canada that is still pending enactment and will be recorded in the quarter in which that bill is enacted.

On January 1, 2007, we adopted the provisions of FIN 48 and we recognized an approximate \$132.1 million increase in liabilities for uncertain tax positions. As a result, as of January 1, 2007, we had \$297.4 million of unrecognized tax benefits. Since January 1, 2007, unrecognized tax benefits decreased by \$33.4 million. This reduction is net of increases due to fluctuation in foreign exchange rates and additional unrecognized tax benefits and interest accrued for the current year and decreases primarily due to certain tax years closing or being effectively settled and payments made to tax authorities with regard to unrecognized tax benefits during the first three quarters of 2007, resulting in total unrecognized tax benefits of \$264.0 million as of September 30, 2007. We do not anticipate that the net amount of unrecognized tax benefits will change significantly during the next twelve months, other than the pending change in Canadian tax law.

We file income tax returns in most of the federal, state, and provincial jurisdictions in the U.S., U.K., Canada and the Netherlands. Tax years through 2004 are closed or have been effectively settled through examination in the U.S. The Internal Revenue Service has commenced examination of the 2005 and 2006 tax years, and we expect the examination to conclude in late 2008. In addition, we have entered into the Compliance Assurance Process program whereby the Internal Revenue Service will be examining certain 2007 transactions in the current year. Tax years through 2002 are closed or have been effectively settled through examination in Canada. We are currently under examination for tax year 2003 in Canada and expect the examination to conclude in the fourth quarter of 2007. Tax years through 2001 are closed or have been effectively settled through examination in the U.K. We are currently under examination for tax years 2002 through 2004 in the U.K. and expect the examination of tax years 2002 and 2003 to conclude in fourth quarter of 2007 or early 2008 and tax year 2004 to conclude in early 2008. Tax years through 2005 are closed or have been effectively settled through examination in the Netherlands.

8. EARNINGS PER SHARE (EPS)

Basic net income per common share was computed using the weighted average number of shares of common stock outstanding during the period. All share and per share amounts for prior periods were adjusted to reflect the two for one stock split issued in the form of a dividend effective October 3, 2007. Diluted net income per share includes the additional dilutive effect of our potentially dilutive securities, which include certain Options, LOSARs, SOSARs, RSUs and DSUs, calculated using the treasury stock method. Diluted net income per share could also be impacted by our convertible debt and related warrants outstanding if they were in the money.

The following summarizes the effect of dilutive securities on diluted EPS:

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	September 30, 2007	September 24, 2006	September 30, 2007	September 24, 2006
	(In thousands, except per share amounts)

Warrants to issue Class B common shares, 10.5 million at September 30, 2007(3)	10,501		4,765	
	23,118	5,919	11,637	5,659

- (1) Exercise prices exceed the average market price of the common shares or are anti-dilutive due to the impact of the unrecognized compensation cost on the calculation of assumed proceeds in the application of the treasury stock method.
- (2) All necessary conditions required to be satisfied have not been met.
- (3) As discussed in Note 10, we issued \$575 million of senior convertible notes in June 2007. The impact of a net share settlement of the conversion amount at maturity will begin to dilute earnings per share when our stock price reaches \$54.76. The impact of stock that could be issued to settle share obligations we could have under the warrants we issued simultaneously with the convertible notes issuance will begin to dilute earnings per share when our stock price reaches \$70.09. The potential receipt of MCBC stock from counterparties under our purchased call options when and if our stock price is between \$54.76 and \$70.09 would be anti-dilutive and excluded from any calculations of earnings per share.

9. GOODWILL AND OTHER INTANGIBLES

The following summarizes the change in goodwill for the thirty-nine weeks ended September 30, 2007 (in thousands):

Balance at December 31, 2006	\$ 2,968,676
Deferred tax purchase accounting adjustments	(10,559)
Adoption of FIN 48 (See Notes 1 and 7)	2,278
Unrecognized tax benefits adjustments subsequent to adoption of FIN 48	(1,787)
Goodwill arising upon acquisition of an on-premise distribution business in the U.K.	22,139
Foreign currency translation	367,056
	<hr/>
Balance at September 30, 2007	\$ 3,347,803
	<hr/>

The following summarizes goodwill allocated between our operating segments as follows:

	As of	
	September 30, 2007	December 31, 2006
	(In thousands)	
Canada	\$ 1,040,297	\$ 724,196
United States	1,351,157	1,350,571
Europe	956,349	893,909
	<hr/>	<hr/>
Consolidated	\$ 3,347,803	\$ 2,968,676
	<hr/>	<hr/>

We are required to perform goodwill and indefinite-lived intangible asset impairment tests on at least an annual basis and more frequently in certain circumstances. We completed the required impairment testing during the third quarter of 2007 and determined that there were no impairments of goodwill or other indefinite-lived intangible assets.

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

The following table presents details of our intangible assets, other than goodwill, as of September 30, 2007:

	<u>Useful life</u>	<u>Gross</u>	<u>Accumulated amortization</u>	<u>Net</u>
	(Years)		(In thousands)	
Intangible assets subject to amortization:				
Brands	3 - 35	\$ 321,753	\$ (117,577)	\$ 204,176
Distribution rights	2 - 23	360,926	(153,469)	207,457
Patents and technology and distribution channels	3 - 10	36,305	(20,346)	15,959
Other	5 - 34	11,738	(5,281)	6,457
Intangible assets not subject to amortization:				
Brands	Indefinite	3,537,329		3,537,329
Distribution networks	Indefinite	1,019,415		1,019,415
Other	Indefinite	29,045		29,045
Total		\$ 5,316,511	\$ (296,673)	\$ 5,019,838

The following table presents details of our intangible assets, other than goodwill, as of December 31, 2006:

	<u>Useful life</u>	<u>Gross</u>	<u>Accumulated amortization</u>	<u>Net</u>
	(Years)		(In thousands)	
Intangible assets subject to amortization:				
Brands	3 - 35	\$ 288,681	\$ (94,465)	\$ 194,216
Distribution rights	2 - 23	334,342	(104,595)	229,747
Patents and technology and distribution channels	3 - 10	32,289	(17,754)	14,535
Other	5 - 34	11,737	(5,053)	6,684
Intangible assets not subject to amortization:				
Brands	Indefinite	3,054,144		3,054,144
Distribution networks	Indefinite	867,672		867,672
Other	Indefinite	28,296		28,296
Total		\$ 4,617,161	\$ (221,867)	\$ 4,395,294

The incremental change in the gross carrying amounts of intangibles from December 31, 2006 to September 30, 2007, is primarily due to the impact of foreign exchange rate fluctuations, as a significant amount of intangibles are denominated in foreign currencies, specifically, the Canadian dollar (CAD) and the British pound sterling (GBP).

In May 2007, we received a court ruling recognizing the validity of the Foster's Group Limited (Foster's) termination notice; see Note 13 for further discussion. We evaluated the fair value of the amortizable distribution right intangible asset, as computed, utilizing undiscounted cash flows, compared to its present carrying value. Based on this evaluation, we recorded an impairment charge of

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

\$24.1 million in the second quarter of 2007. The charge is included in the special items, net caption in the accompanying consolidated statements of operations for the thirty-nine weeks ended September 30, 2007.

Based on foreign exchange rates as of September 30, 2007, the estimated future amortization expense of finite-lived intangible assets is as follows for the next five years:

	<u>Amount</u>
	(In thousands)
2007 remaining	\$ 16,099
2008	\$ 64,397
2009	\$ 57,450
2010	\$ 38,310
2011	\$ 35,145

Amortization expense of intangible assets was \$16.0 million and \$46.0 million for the thirteen and thirty-nine weeks ended September 30, 2007, and \$18.6 million and \$55.7 million for the thirteen and thirty-nine weeks ended September 24, 2006, respectively.

10. DEBT AND OTHER CREDIT ARRANGEMENTS

Our total borrowings were composed of the following:

	<u>As of</u>	
	<u>September 30, 2007</u>	<u>December 31, 2006</u>
	(In thousands)	
Canadian bank overdraft facilities	\$ 298	\$ 180

Total long-term debt (including current portion)		
Less: current portion of long-term debt	(4,319)	(4,009)
	<u>\$ 2,246,130</u>	<u>\$ 2,129,845</u>
Total long-term debt		

2.5% Convertible Senior Notes due 2013:

On June 15, 2007, MCBC issued \$575 million of 2.5% Convertible Senior Notes (the "Notes") in a public offering. The Notes are governed by indenture and supplemental indenture documents (together, the "Indenture"), dated June 15, 2007, among MCBC and its subsidiary guarantors and our trustee. The Notes are the Company's senior unsecured obligations and rank equal in rights of payment with all of the Company's other senior unsecured debt and senior to all of the Company's future subordinated debt. The Notes are guaranteed on a senior unsecured basis by the same subsidiary guarantors that have guaranteed the Company's other debt securities. The Notes mature on July 30, 2013, unless earlier converted or terminated, subject to certain conditions, as noted below. The Notes bear interest at a rate of 2.5% per annum, payable semi-annually in arrears. The Notes contain certain customary anti-dilution and make-whole provisions to protect holders of the Notes from dilution in their values due to certain events and marketplace and corporate changes, as defined in the Indenture.

Holders may surrender their Notes for conversion prior to the close of business on January 30, 2013, if any of the following conditions is satisfied:

During any calendar quarter, if the closing sales price of our Class B common stock for at least 20 trading days in the period of 30 consecutive trading days ending on the last trading day of the calendar quarter preceding the quarter in which the conversion occurs is more than 130% of the conversion price of the Notes in effect on that last trading day;

During the ten consecutive trading day period following any five consecutive trading day period in which the trading price for the Notes for each such trading day was less than 95% of the closing sale price of our Class B common stock on such date multiplied by the then current conversion rate; or

If we make certain significant distributions to holders of our Class B common stock, we enter into specified corporate transactions or our Class B common stock ceases to be approved for listing on the New York Stock Exchange and is not listed for trading purposes on a U.S. national securities exchange.

After January 30, 2013, holders may surrender their Notes for conversion any time prior to the close of business on the business day immediately preceding the maturity date regardless of whether any of the conditions listed above have been satisfied. Upon conversion of the Notes, holders of the Notes will receive the par value amount of each bond in cash and the shares of our Class B common stock (subject to our right to deliver cash in lieu of all or a portion of those shares) in satisfaction of the conversion feature if, on the day of conversion, the MCBC stock price exceeds the conversion price. The conversion price for each \$1,000 aggregate principal amount of notes is \$54.76 per share of our Class B common stock, which represents a 25% premium above the stock price on the day of the issuance of the Notes and corresponds to the initial conversion ratio of 18.263 shares per each \$1,000 aggregate principal amount of notes. The conversion ratio and conversion price are subject to customary adjustments for certain events and provisions, as defined in the Indenture. If, upon conversion, the MCBC stock price is below the conversion price, adjusted as necessary, a cash payment for the par value amount of the Notes will be made. We accounted for the Notes pursuant to EITF Issue 90-19, *Convertible Bonds with Issuer Option to Settle for Cash upon Conversion*, that is, we did not separate and assign values to the conversion feature of the Notes but rather accounted for the entire agreement as one debt instrument as the conversion feature met the requirements of EITF Issue 00-19

Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock.

In connection with the issuance of the Notes, we incurred approximately \$10.2 million of deferred debt issuance costs which will be amortized as interest expense over the life of the Notes.

The proceeds of the convertible note offering were used as follows:

\$465.4 million to retire 6.375% Senior Notes due 2012 (discussed below)

\$49.7 million for the net cost of the Convertible Note Hedge and Warrant (discussed below)

\$50.0 million voluntary contribution to fund the U.S. defined benefit pension plan

\$9.9 million to cover debt issuance costs

Convertible Note Hedge and Warrants:

In connection with the issuance of the Notes, we entered into a privately-negotiated convertible note hedge transaction. The convertible note hedge (the "purchased call options") will cover up to approximately 10.5 million shares of our Class B common stock. The purchased call options, if exercised by us, require the counterparty to deliver to us shares of MCBC Class B common stock adequate to meet our net share settlement obligations under the convertible notes and are expected to reduce the potential dilution to our Class B common stock to be issued upon conversion of the Notes, if any. Separately and concurrently, we also entered into warrant transactions with respect to our Class B common stock pursuant to which we may be required to issue to the counterparty up to approximately 10.5 million shares of our Class B common stock. The warrant price is \$70.09 which represents a 60% premium above the stock price on the date of the warrant transaction. The warrants expire on February 20, 2014.

We used approximately \$49.7 million of the net proceeds from the issuance of the 2.5% Convertible Senior Notes, to pay for the cost to us of the purchased call options, partially offset by the proceeds to us from the warrant transaction. The net cost of these transactions, net of tax, was recorded in the Stockholder's Equity section of the balance sheet as of September 30, 2007.

The purchased call options and warrants are separate transactions entered into by the Company, and they are not part of the terms of the Notes and do not affect the holders' rights under the Notes.

Debt extinguishment costs on the \$625.0 million of 6.375% Senior Notes due 2012:

On July 11, 2007, we repurchased \$625.0 million aggregate principal amount of our 6.375% \$850 million Senior Notes due 2012. The cash consideration paid of approximately \$651.8 million included principal amounts of notes purchased and accrued but unpaid interest up to, but not including, the settlement date. The cash consideration paid also included an early tender payment of \$20.00 for each \$1,000 principal amount of Senior Notes tendered on or before June 22, 2007. This amount was in addition to the principal amounts of notes and interest, if any, paid to the bond holders whose bonds were repurchased. This early extinguishment of debt resulted in a charge of approximately \$24.5 million in the third quarter of 2007. The loss comprised a \$14.1 million payment to settle the notes at fair value given interest rates at the time of extinguishment, a \$6.6 million incentive payment to note holders for early tendering of the notes, and a \$3.8 million write-off of the proportionate amount of unamortized discount and issuance fees associated with the extinguished debt. The debt

extinguishment was funded, in part, with proceeds from the issuance of \$575 million aggregate principal amount of 2.5% Convertible Senior Notes, issued on June 15, 2007. The remaining source of funds for the early extinguishment was existing cash resources.

11. EMPLOYEE RETIREMENT AND POST-EMPLOYMENT PLANS

We offer defined benefit retirement plans in Canada, the United States and the United Kingdom that cover substantially all of our employees. Additionally, we offer other postretirement benefits to the majority of our Canadian and U.S. employees. The net periodic pension costs under retirement plans and other postretirement benefits were as follows:

Thirteen Weeks Ended September 30, 2007				
	Canada plans	U.S. plans	U.K. plans	Total
(In thousands)				
Defined Benefit Plans				
Service cost	\$ 8,731	\$ 4,337	\$ 10,252	\$ 23,320
Interest cost	22,685	14,340	33,157	70,182
Expected return on plan assets	(28,513)	(17,484)	(41,010)	(87,007)
Amortization of prior service cost	396	11	10,255	10,662
Amortization of net actuarial loss	7	3,458	265	3,730
Less expected participant contributions	(959)		(2,649)	(3,608)
Curtailement gain	(1,626)			(1,626)
Special termination benefits	2,006			2,006
	<u>2,727</u>	<u>4,662</u>	<u>10,270</u>	<u>17,659</u>
Net periodic pension cost	\$ 2,727	\$ 4,662	\$ 10,270	\$ 17,659
Other Postretirement Benefits				
Service cost benefits earned during the period	\$ 2,417	\$ 659		\$ 3,076
Interest cost on projected benefit obligation	3,691	1,977		5,668
Amortization of prior service cost	15	76		91
Amortization of net actuarial loss	360	830		1,190
	<u>6,483</u>	<u>3,542</u>		<u>10,025</u>
Net periodic postretirement benefit cost	\$ 6,483	\$ 3,542		\$ 10,025

The third quarter 2007 net periodic pension cost expense for the U.K. plan includes a charge of \$15.0 million to recognize increased liabilities in recognition of an existing pension benefit obligation in accordance with U.K. law. Previously, estimated pension liabilities did not include such benefit obligations for past services, which resulted in recognition of prior service benefit which was being amortized into income over the remaining service years, favorably benefiting pension costs in 2006 and in the first two quarters of 2007. Approximately \$3.9 million of this prior service benefit relates to a special benefit in the second quarter of 2006 upon the curtailment of the U.K. plan. During the third quarter of 2007, we determined that these benefits will be provided to certain eligible employees which resulted in an additional pension liability and a reduction to the previously recognized prior service benefit and slightly higher interest costs. As a result, a charge of \$11.1 million was recognized in the third quarter of 2007 and a special charge of \$3.9 million was recognized in the same period.

Approximately \$10.3 million of the adjustment recorded in the third quarter of 2007 is reflective of the understatement of net periodic pension costs in 2006. Additionally, approximately \$3.2 million is

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

reflective of the understatement of net periodic pension costs in the first two quarters of 2007. Management assessed the impact of these adjustments and did not believe these amounts were material, individually or in the aggregate, to any previously issued financial statements or to the full year results of operations for 2006.

During the third quarter of 2007, employer contributions paid to the defined benefit plans were \$21.5 million, \$3.3 million and \$6.7 million for the Canada, U.S. and U.K. plans, respectively. Contributions paid to the defined benefit plans for the first three quarters of 2007 were \$70.8 million, \$73.3 million and \$20.0 million for the Canada, U.S. and U.K. plans, respectively. As part of the use of convertible debt offering proceeds discussed in Note 10, the Company made a voluntary contribution to the U.S. pension plan in the second quarter of 2007 of \$50 million. The 2007 annual employer contributions to the combined Canada (including our consolidated joint venture BRI), U.S. and U.K. defined benefit plans are expected to be in the range of \$220 million to \$240 million.

12. FINANCIAL INSTRUMENTS

On April 10, 2007, we undertook an internal reorganization resulting in certain transfers and realignment of assets, liabilities and consolidated subsidiaries. These changes had no impact on our consolidated financial statements. Concurrent with the realignment, we entered into several cross currency swaps to hedge the foreign currency impact of inter-company GBP debt in a CAD functional currency subsidiary. The cross currency swaps are designated as cash flow hedges of forecasted CAD cash flows related to GBP interest and principal payments on the inter-company loans that may fluctuate or be uncertain due to changes in the GBP to CAD exchange rate. The notional amount of the swaps is GBP 530 million. The fair value of the new cross currency swaps depends on the relationship between GBP and CAD foreign exchange rates and interest rates. Generally, the fair value of the new cross currency swaps will be stated as a liability if CAD strengthens against GBP, and will be stated as an asset if CAD weakens against GBP. The fair values of the new cross currency swaps were a liability of \$119.5 million at September 30, 2007. The net effect of this swap eliminates our external GBP interest expense, replacing it with CAD interest expense.

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

The following table sets forth the notional transaction amounts and fair values for our outstanding derivatives, including the new cross currency swaps described above, summarized by risk category and instrument type:

	As of			
	September 30, 2007		December 31, 2006

\$ (499,657)	\$ (22,238)	\$ (65,962)	\$ (411,457)	\$

13. CONTINGENCIES

Indemnity Obligations Sale of Kaiser

As discussed in Note 6, we sold our entire equity interest in Kaiser during 2006 to FEMSA. The terms of the sale agreement require us to indemnify FEMSA for certain exposures related to tax, civil and labor contingencies arising prior to FEMSA's purchase of Kaiser. First, we provided an indemnity for losses Kaiser may incur with respect to tax claims associated with certain previously utilized purchased tax credits. The maximum potential claims amount in this regard, including estimated accumulated penalties and interest, was \$366 million as of September 30, 2007. This amount increased by \$26 million from the prior quarter due to substantial weakening of USD relative to the Brazilian Real. Our estimate of the fair value of the indemnity liability associated with the purchase tax credits as of September 30, 2007 was \$111.7 million, \$4.7 million of which was classified as a current liability and \$107 million of which was classified as non-current. Our fair value estimates consider a number of scenarios for the ultimate resolution of these issues, the probabilities of which are influenced not only by legal developments in Brazil but also by management's intentions with regard to various alternatives that could present themselves leading to the ultimate resolution of these issues. Our indemnity obligations related to previously purchased tax credits increased by \$8.8 million during the third quarter

of 2007 due primarily to foreign exchange movements. The liabilities are also impacted by changes in estimates regarding amounts that could be paid, the timing of such payments and adjustments to the probabilities assigned to various scenarios.

We also provided indemnity related to all other tax, civil and labor contingencies existing as of the date of sale. In this regard, however, FEMSA assumed their full share of all of these contingent liabilities that had been previously recorded and disclosed by us prior to the sale on January 13, 2006. However, we may have to provide indemnity to FEMSA if those contingencies settle at amounts greater than those amounts previously recorded or disclosed by us. We will be able to offset any indemnity exposures in these circumstances with amounts that settle favorably to amounts previously recorded. Our exposure related to these indemnity claims is capped at the amount of the sales price of the 68% equity interest of Kaiser, which was \$68 million. As a result of these contract provisions, our fair value estimates include not only probability-weighted potential cash outflows associated with indemnity provisions, but also probability-weighted cash inflows that could result from favorable settlements, which could occur through negotiation or settlement programs that could arise from the federal or any of the various state governments in Brazil. The recorded fair value of the total tax, civil and labor indemnity liability was \$35.9 million as of September 30, 2007, \$23.5 million of which is classified as a current liability and \$12.4 million of which is classified as non-current.

Future settlement procedures and related negotiation activities associated with these contingencies are largely outside of our control. The sale agreement requires annual cash settlements relating to the tax, civil and labor indemnities, the first of which we expect to occur during the fourth quarter of 2007. Indemnity obligations related to purchased tax credits must be settled upon notification of FEMSA's settlement. Due to the uncertainty involved with the ultimate outcome and timing of these contingencies, significant adjustments to the carrying values of the indemnity obligations have been recorded to date, and additional future adjustments may be required. These liabilities are denominated in Brazilian Reals and have been stated at present value and will, therefore, be subject in the future to foreign exchange gains or losses and to accretion cost, both of which will be recognized in the discontinued operations section of the statement of operations.

The table below summarizes the changes in the contingency reserve balances from December 31, 2006 through September 30, 2007:

	Purchased tax credits indemnity reserve	Tax, civil and labor indemnity reserve	Total indemnity reserves
	(In thousands)		
Balance at December 31, 2006	\$ 77,715	\$ 33,260	\$ 110,975
Adjustments to indemnity liabilities due to changes in estimates and accretion expense	19,303	(2,555)	16,748
Foreign exchange impact	14,719	5,182	19,901
Balance at September 30, 2007	\$ 111,737	\$ 35,887	\$ 147,624

Current liabilities of discontinued operations include current tax liabilities of \$10.5 million. Included in current and non-current assets of discontinued operations are \$5.2 million and \$5.4 million, respectively, of deferred tax assets associated with the indemnity liabilities.

Litigation and Other Disputes

Beginning in May 2005, several purported class actions were filed in the United States and Canada, including Federal courts in Delaware and Colorado and provincial courts in Ontario and Québec, alleging, among other things, that the Company and its affiliated entities, including Molson Inc., and certain officers and directors misled stockholders by failing to disclose first quarter (January-March) 2005 U.S. business trends prior to the Merger vote in January 2005. The Colorado case has since been transferred to Delaware and consolidated with those cases. One of the lawsuits filed in Delaware federal court also alleges that the Company failed to comply with U.S. GAAP in its filings with the U.S. Securities and Exchange Commission. The Québec Superior Court heard arguments in October 2007 regarding the plaintiffs' motion to authorize a class in that case. We opposed the motion. We expect written decision in two to three months. The Company believes these lawsuits are without merit and will vigorously defend them.

In December 2005, Miller Brewing Company (Miller) sued us and several of our subsidiaries in a Wisconsin federal court. Miller sought to invalidate a licensing agreement (the Agreement) allowing Molson Canada to serve as the sole distributor of Miller products in Canada. Miller also sought damages for U.S. and Canadian antitrust violations, and violations of the Agreement's confidentiality provisions. Miller also claimed that the Agreement's purposes had been frustrated as a result of the Merger. We filed a claim against Miller and certain related entities in Ontario, Canada, seeking a declaration that the licensing agreement remains in full force and effect. We reached an agreement with Miller in the first quarter of 2007 resolving the dispute, resulting in amended agreements that extend our relationship and alter the financial terms of the arrangements. Based on the resolution reached, during the first quarter of 2007, we evaluated the carrying value of the intangible asset associated with the Miller arrangements and concluded that there was no impairment.

On May 10, 2007, a trial court in Ontario, Canada ruled at the conclusion of a hearing that the termination notice issued by Foster's in late October 2006 purporting to provide twelve months' notice of its intention to terminate the Foster's U.S. License Agreement due to the Merger was valid and effective. As previously disclosed, the Agreement provided Molson Canada with the right to produce Foster's beer for the U.S. marketplace. As a result of this ruling, we recorded a non-cash impairment charge of \$24.1 million to our distribution right intangible associated with Foster's intangible in the second quarter of 2007. See Note 9 for further discussion.

MCBC and many other brewers and distilled spirits manufacturers have been sued in various courts regarding advertising practices and underage consumption. All of the suits have been brought by the same law firm and allege that each defendant intentionally marketed its products to "children and other underage consumers." In essence, each suit seeks, on behalf of an undefined class of parents and guardians, an injunction and unspecified money damages. In each suit, the manufacturers have advanced motions for dismissal to the courts. To date, all but one of the lawsuits have been dismissed. All of the dismissals have been appealed by plaintiffs, and several appellate courts have decided the appeals in favor of the defendants. During the third quarter of 2007, the Colorado Court of Appeals decided an appeal in favor of the defendants and against the plaintiffs. We will continue to vigorously defend these cases and it is not possible at this time to estimate the possible loss or range of loss, if any, related to them.

We are involved in other disputes and legal actions arising in the ordinary course of our business. While it is not feasible to predict or determine the outcome of these proceedings, in our opinion, based on a review with legal counsel, none of these disputes and legal actions is expected to have a material impact on our consolidated financial position, results of operations or cash flows. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters, including the above-described advertising practices case, may arise from time to time that may harm our business.

Environmental

When we have determined that it is probable that a liability for environmental matters or other legal actions exists and the amount of the loss is reasonably estimable, an estimate of the future costs is recorded as a liability in the financial statements. Costs that extend the life, increase the capacity or improve the safety or efficiency of Company-owned assets or are incurred to mitigate or prevent future environmental contamination may be capitalized. Other environmental costs are expensed when incurred.

From time to time, we have been notified that we are or may be a potentially responsible party (PRP) under the Comprehensive Environmental Response, Compensation and Liability Act or similar state laws for the cleanup of sites where hazardous substances have allegedly been released into the environment. We cannot predict with certainty the total costs of cleanup, our share, if any, of the total cost, the extent to which contributions will be available from other parties, the amount of time necessary to complete the cleanups or insurance coverage available.

We are one of a number of entities named by the Environmental Protection Agency (EPA) as a PRP at the Lowry Superfund site. This landfill is owned by the City and County of Denver, Colorado (Denver) and is managed by Waste Management of Colorado, Inc. (Waste Management). In 1990, we recorded a pretax charge of \$30 million, a portion of which was put into a trust in 1993 as part of a settlement with Denver and Waste Management regarding the then-outstanding litigation. Our settlement was based on an assumed remediation cost of \$120 million (in 1992 adjusted dollars). We are obligated to pay a portion of future costs, if any, in excess of that amount.

Waste Management provides us with updated annual remediation cost estimates through 2032. We reviewed these cost estimates in the assessment of our accrual related to this issue. We use certain assumptions that may differ from Waste Management's estimates to assess our expected liability. Our expected liability (based on the \$120 million threshold being met) is our best estimate currently available.

The assumptions used are as follows:

trust management costs are included in projections with regard to the \$120 million threshold, but are expensed only as incurred;

income taxes, which we believe are not an included cost, are excluded from projections with regard to the \$120 million threshold;

a 2.5% inflation rate for future costs; and

certain operations and maintenance costs were discounted using a 4.70% risk-free rate of return.

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

Based on these assumptions, the present value and gross amount of the future costs at September 30, 2007, are approximately \$2.3 million and \$3.8 million, respectively. Accordingly, we believe that the existing recorded liability is adequate as of September 30, 2007. We did not assume any future recoveries from insurance companies in the estimate of our liability, and none are expected.

Considering that the estimates extend through the year 2032 and the related uncertainties at the site, including what additional remedial actions may be required by the EPA, new technologies and what costs are to be included in the determination of when the \$120 million threshold is reached, the estimate of our liability may change as facts further develop. We cannot predict the amount of any such change, but additional accruals in the future are possible.

We are aware of groundwater contamination at some of our properties in Colorado resulting from historical, ongoing or nearby activities. There may also be other contamination of which we are currently unaware.

In October 2006 we were notified by the EPA that we are a PRP, along with approximately 60 other parties, at the Cooper Drum site in southern California. Certain of Molson's former non-beer business operations, which were discontinued and sold in the mid-1990s, were involved at this site. We responded to the EPA with information regarding our past involvement with the site. We are not yet able to estimate any potential liability associated with this site.

While we cannot predict the eventual aggregate cost for environmental and related matters in which we are currently involved, we believe that any payments, if required, for these matters would be made over a period of time in amounts that would not be material in any one year to our operating results, cash flows or our financial or competitive position. We believe adequate reserves have been provided for losses that are probable and estimable.

14. COMPREHENSIVE INCOME

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	September 30, 2007	September 24, 2006	September 30, 2007	September 24, 2006
	(In thousands)			
Net income	\$ 134,672	\$ 135,794	\$ 324,042	\$ 261,784
Other comprehensive income (loss):				
Foreign currency translation adjustments, net of tax	362,244	66,094	796,136	260,599
Currency effect on pension liability	(6,455)	(114)	(13,917)	49,152
Amortization of net prior service costs and net actuarial losses, net of tax	(20,792)		(14,799)	
Unrealized gain (loss) on derivative instruments, net of tax	(12,944)	12,397	(5,385)	5,623
Reclassification adjustment derivative instruments, net of tax	630	466	(1,538)	(4,626)
Total other comprehensive income	322,683	78,843	760,497	310,748
Comprehensive income	\$ 457,355	\$ 214,637	\$ 1,084,539	\$ 572,532

The significant foreign currency translation adjustments for the thirteen and thirty-nine weeks ended September 30, 2007 are the result of the strengthening of CAD and GBP versus the USD. The CAD and GBP are the functional currencies of a significant portion of our net assets and the foreign currency translation adjustments are a result of translating those net assets to USD, our reporting currency.

15. STOCKHOLDERS' EQUITY

The following table summarizes the components of stockholders' equity from December 31, 2006 through September 30, 2007:

	Common stock issued		Exchangeable shares issued		Paid-in-capital	Retained earnings	Accumulated other comprehensive income	Total
	Class A	Class B	Class A	Class B				
(In thousands)								
Balance at December 31, 2006	\$ 27	\$ 1,332	\$ 124,699	\$ 1,310,989	\$ 2,389,876	\$ 1,673,455	\$ 316,978	\$ 5,817,356
Shares issued under equity compensation plans, including related tax benefit		56			200,182			200,238
Exchange of shares		51	(2)	(191,028)	190,979

Adjustment to adopt FIN 48						(105,409)		(105,409)
Sale of warrants					56,991			56,991
Purchase of call options, net of tax					(66,035)			(66,035)
Net income						324,042		324,042
Cash dividends						(85,906)		(85,906)
Balance at September 30, 2007	\$ 27	\$ 1,439	\$ 124,697	\$ 1,119,961	\$ 2,799,476	\$ 1,806,182	\$ 1,077,475	\$ 6,929,257

16. SUBSEQUENT EVENT

On October 9, 2007, MCBC and SABMiller plc (the investing companies) announced that they have signed a letter of intent to combine the U.S. and Puerto Rico operations of their respective subsidiaries, Coors Brewing Company and Miller Brewing Company, in a joint venture. As covered by the letter of intent and related documents, each party will contribute its business and related operating assets and certain liabilities into an operating joint venture company.

Subject to due diligence attestation actions of each party, the anticipated asset sharing ratio is approximately 58% and 42% from SABMiller plc and MCBC, respectively, which would become the economic interest ratios of the investing companies. Voting interests would be shared 50%-50%, and each investing company will have equal board representation within the joint venture company. Each party to the joint venture has agreed to abstain from assigning its economic or voting interests in the joint venture for a period of five years, and certain rights of first refusal would exist as to subsequent assignment of such interests.

The proposed joint venture transaction has been submitted to the U.S. Department of Justice and the U.S. Federal Trade Commission under the Hart-Scott-Rodino Act of 1976, as amended, and to certain other applicable governmental authorities. Additionally, the proposed joint venture is subject to the approval of the MCBC Class A stockholder group.

17. SUPPLEMENTAL GUARANTOR INFORMATION

MCBC (Parent Guarantor and 2007 Issuer) issued \$575 million of 2.5% Convertible Senior Notes due July 30, 2013 in a registered offering on June 15, 2007 (see Note 10). The convertible notes are guaranteed on a senior unsecured basis by CBC (2002 Issuer), Molson Coors International, LP and Molson Coors Capital Finance ULC (2005 Issuers) and certain domestic subsidiaries (Subsidiary Guarantors).

On May 7, 2002, the 2002 Issuer completed a public offering of \$850 million principal amount of 6.375% Senior notes due 2012. During the third quarter of 2007, \$625 million of the \$850 million 6.375% Senior notes was extinguished by the proceeds received from the 2.5% Convertible Senior Notes issued June 15, 2007. The outstanding Senior notes are guaranteed on a senior and unsecured basis by the Parent Guarantor and 2007 Issuer, 2005 Issuers and Subsidiary Guarantors. The guarantees are full and unconditional and joint and several.

On September 22, 2005, the 2005 Issuers completed a private placement of approximately \$1.1 billion principal amount of Senior notes composed of USD \$300 million 4.85% notes due 2010 and CAD \$900 million 5.00% notes due 2015. The notes were issued with registration rights and are guaranteed on a senior and unsecured basis by Parent Guarantor and 2007 Issuer, 2002 Issuer and Subsidiary Guarantors. The guarantees are full and unconditional and joint and several. Funds necessary to meet the 2005 Issuers' debt service obligations are provided in large part by distributions or advances from MCBC's other subsidiaries, including Molson, a non-guarantor. Under certain circumstances, contractual and legal restrictions, as well as our financial condition and operating requirements, could limit the 2005 Issuers ability to obtain cash for the purpose of meeting its debt service obligation, including the payment of principal and interest on the notes.

On April 10, 2007, we undertook an internal reorganization resulting in certain transfers and realignment of assets, liabilities and subsidiaries. As a result, the notes issued in 2005 are now also a liability of a new subsidiary, Molson Coors International, LP. The internal reorganization changed the legal structure of the guarantees, mainly affecting the presentation of the 2002 Issuer, the 2005 Issuers, Subsidiary Guarantors and Subsidiary Non-Guarantors. While there were no significant changes with regard to the status of any entity as a guarantor or non-guarantor, the internal ownership changes resulted in our Canadian and U.K. businesses being majority-owned by a 2005 Issuer. Prior period amounts have not been restated to reflect the new ownership structure which did not exist in prior periods. Any changes to the status of a subsidiary as a guarantor or non-guarantor were not material.

The following information sets forth Condensed Consolidating Statements of Operations for the thirteen and thirty-nine weeks ended September 30, 2007, and September 24, 2006, Condensed Consolidating Balance Sheets as of September 30, 2007, and December 31, 2006, and Condensed Consolidating Statements of Cash Flows for the thirty-nine weeks ended September 30, 2007, and September 24, 2006. Investments in subsidiaries are accounted for on the equity method; accordingly, entries necessary to consolidate the Parent Guarantor, the Issuers and all of our subsidiaries are reflected in the eliminations column. In the opinion of management, separate complete financial statements of the Issuers and the Subsidiary Guarantors would not provide additional material information that would be useful in assessing their financial composition.

Consolidated stockholders' equity is equal to that of MCBC, which is the Parent Guarantor and 2007 Issuer, and of Molson Coors Canada, Inc., which is a Subsidiary Non-Guarantor. Molson Coors Canada, Inc. is the issuer of exchangeable shares, which former Molson shareholders received in the Merger.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is provided as a supplement to, and should be read in conjunction with, our audited consolidated financial statements, the accompanying notes, and the MD&A included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2006, as well as our consolidated financial statements and the accompanying notes included in this Form 10-Q.

BUSINESS OVERVIEW**Financial highlights**

The following table and other highlights summarize components of our condensed consolidated summary of operations for the thirteen and thirty-nine weeks ended September 30, 2007 and September 24, 2006:

Due to the seasonality of our operating results, quarterly financial results are not an appropriate basis from which to project annual results.

	Thirteen weeks ended			Thirty-nine weeks ended		
	September 30, 2007	September 24, 2006(1)	% change	September 30, 2007	September 24, 2006(1)	% change

(In thousands, except percentages and per share data)

Volume in barrels	11,217	11,243	(0.2)%	31,595	31,286	1.0%
Net sales	\$ 1,685,408	\$ 1,576,824	6.9%	\$ 4,590,286	\$ 4,313,695	6.4%
Income from continuing operations	\$ 135,114	\$ 122,385	10.4%	\$ 338,695	\$ 261,457	29.5%
Diluted income per share from continuing operations	\$ 0.74	\$ 0.70	5.7%	\$ 1.87	\$ 1.51	23.8%

(1)

Per share amounts have been adjusted from previously reported amounts for the effect of our 2-for-1 stock split issued in the form of a stock dividend in October 3, 2007.

Other third quarter 2007 highlights:

We grew net sales at nearly 7%, driven by brand performance across our segments, positive pricing and the benefit of favorable foreign currency.

Coors Light grew sales to retail, or STRs, by more than 5% across our entire company.

We increased revenue per barrel in local currency in all three of our segments.

Our U.S. segment achieved significant STR growth, favorable market share growth, and record income from continuing operations.

Our Canada segment gained market share during the quarter driven by Coors Light and our other strategic brands. In fact, this is the first time in six years that we have achieved year-to-date market share growth through these quarters.

Income from continuing operations increased substantially in the quarter, driven by strategic brand growth, positive pricing, favorable currency movements, and realizing cost savings initiatives and financial strategies to reduce interest expense.

Synergies and other cost savings initiatives

Our 2007 goal is to achieve at least \$55 million of Merger-related synergies and exceed the \$175 million of cumulative synergies forecasted to be achieved since the Merger date. In the third quarter of 2007, we realized \$13 million of Merger-related savings. For the first three quarters of 2007, we achieved \$45 million of Merger-related savings. The expected 2007 savings added to the \$125 million realized prior to 2007 places us in a position to reach our overall Merger-related synergy goal.

We have identified \$250 million of additional cost savings to be achieved by the end of 2009. We have realized \$64 million in these cost savings in the first three quarters of 2007 toward our revised goal of \$76 million of total savings during 2007. This is a \$10 million increase from the original goal we targeted at the beginning of 2007.

Income taxes

Our consolidated effective tax rate for the third quarter 2007 was negative 4%. We anticipate that our 2007 full-year effective tax rate will be in the range of 11% to 14%. Our consolidated effective tax rate for the third quarter 2007 is lower than our anticipated full-year rate primarily due to reductions in unrecognized tax benefits and revaluing deferred tax assets and liabilities in the U.K. to reflect the impact of a recently enacted 2% U.K. corporate income tax rate reduction and changes in the tax rules applicable to the disposal of certain fixed assets, the effects of which were recognized as discrete benefits in the third quarter of 2007 income tax provision.

Discontinued operations

Discontinued operations are associated with the formerly-owned Kaiser business in Brazil. See Part I Financial Statements, Item 1 Note 6 "DISCONTINUED OPERATIONS" and Note 13 "CONTINGENCIES" for discussions of the nature of amounts recognized in the Discontinued Operations section of the condensed consolidated statements of operations, including amounts associated with indemnity obligations to the owners of Kaiser related to purchased tax credits and other tax, civil and labor issues.

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

The CAD strengthened versus the USD resulting in a 7.2% appreciation benefit to USD earnings before income taxes on a comparable quarter-over-quarter basis. During the comparable thirty-nine week periods for 2007 and 2006, the CAD strengthened versus the USD resulting in a 4.3% appreciation benefit to USD earnings before income taxes.

Volume and net sales

Our Canada segment had sales volume totaling 2.3 million barrels for the third quarter ended September 30, 2007, a decrease of 2.4% from the prior year. This decline is almost entirely due to the timing of the inclusion of the higher volume week leading into the Canada Day weekend compared to last year. Our Canada STRs for the third calendar quarter increased 0.8% from the calendar quarter a year ago driven by continued mid-single digit growth of our Molson strategic brands, led by high-single-digit growth on the Coors Light brand, and continued double-digit growth of our partner import brands. Molson Canadian experienced a low-single-digit volume decline, while Rickard's, Creemore and Carling all grew at double-digit rates in the quarter. Total Canadian beer industry STRs grew an estimated 0.5% in the calendar third quarter, resulting in a slight market share increase compared to prior year. This represents our second consecutive quarter of market share growth.

Net sales per barrel increased approximately 1% in local currency, driven by increased sales mix toward higher revenue-per-barrel products, mainly our partner import brands. Net pricing was slightly favorable in the quarter as selective price increase over the past year more than offset higher price discounting focused in Ontario and Quebec.

Sales volume for the thirty-nine week period increased 1.3% over the prior year. Approximately one-half of this growth is due to the timing benefit resulting from the year-over-year alignment of weeks. Our Canada STRs for the year-to-date period increased 1.0% from a year ago driven by mid-single digit growth by our strategic brands, including double-digit growth on Coors Light, Creemore, Carling and our partner import brands in the year-to-date period. Total Canadian beer industry STRs grew an estimated 0.9% in the year-to-date period. As a result, we have maintained year-to-date growth of approximately one-tenth of a share point, driven by two consecutive quarters of share growth.

Net sales per barrel for the thirty-nine week period increased approximately 1% in local currency driven by improved sales mix due to increased super-premium sales during the first three quarters of the year. Price increases, which have contributed over a 2% increase, have been nearly offset by increased levels of price discounting focused in Ontario and Quebec.

Cost of goods sold

Cost of goods sold per barrel increased approximately 6% in local currency in the third quarter of 2007, driven by the following:

Less than 4% increase attributable to input cost inflation was largely offset by 3% of decrease from synergies and other cost savings in the quarter;

4% increase from sales mix shift to partner import brands;

Slightly more than 1% increase primarily from the impact of the allocation of fixed costs over a smaller volume base, and additional fixed costs associated with the opening of our new brewery in Moncton, New Brunswick, for which we received "local brewer" status by the province of Nova Scotia.

Cost of goods sold per barrel for the thirty-nine week period increased approximately 5% in local currency. Inflationary cost increases drove a 3% increase, which was offset by a 3% reduction from synergies and other cost savings initiatives. The requirement to mark-to-market certain foreign currency

positions this year contributed an additional 1% increase during the first three quarters of 2007 and a sales mix shift to our super-premium portfolio contributed to a 3% increase. The remaining 1% increase was driven by other impacts including costs associated with the opening of our new brewery in Moncton.

Marketing, general and administrative expenses

Marketing general and administrative expense decreased approximately 9% in local currency for the third quarter of 2007. Approximately, one-quarter of the overall decrease in general and administrative expenses was driven by the non-recurrence of contract termination costs incurred in the prior year to achieve longer-term information technology synergies.

For the thirty-nine weeks ended September 30, 2007, marketing, general and administrative expenses have decreased approximately 3% in local currency driven by lower general and administrative expenses, including cost savings as a result of the employee restructuring in the first quarter of this year, and the benefit of the non-recurring termination contract costs noted above in the prior year third quarter.

Special items, net

The Canada segment recognized \$43.2 million of special items expense in the third quarter of 2007, as a result of the Edmonton brewery closure. Specific significant charges included a \$32.4 million impairment charge on the carrying value of the fixed assets and an additional \$10.8 million charge for severance and other costs associated with closing the brewery. Current plans are to demolish the buildings and sell the land.

The Canada segment recognized \$71.5 million in special items expense in the first three quarters of 2007. The special items represent, \$24.1 million relating to the Foster's intangible asset impairment, \$4.1 million relating to employee termination costs associated with production and sales, general and administrative functions and \$43.2 million relating to the Edmonton brewery closure. See Part I Financial Statements, Item 1 Note 4 "SPECIAL ITEMS, NET" to the condensed consolidated financial statements for further discussion.

Other income, net

Third quarter other income decreased \$4.6 million over the prior year quarter primarily due to non-recurrence of a \$9.0 million gain recognized in the third quarter of 2006 from the reduction of guarantee liabilities related to our investment in the Montreal Canadiens hockey club in the third quarter of 2006. This was partially offset by our share of net gains from our equity investments in the third quarter of 2007.

Other income through the first three quarters of 2007 was \$10.8 million higher than the prior year comparable period largely due to a gain on the sale of our equity investment in the House of Blues Canada, partially offset by the non-recurrence of the gain from the reduction of guarantees related to our investment in the Montreal Canadiens hockey club in the third quarter of prior year as mentioned above.

Volume and net sales

Sales volume to wholesalers grew 3.4% during the third quarter of 2007, due to STR growth, partially offset by a difference in the timing of our fiscal calendar. Our 50-states U.S. distributors' STRs increased 6.9% and we continued to grow market share during the third quarter of 2007. This sales increase was driven by mid-single-digit growth for Coors Light, which achieved its 10th consecutive quarter of growth, along with double-digit growth of Blue Moon and low-double-digit growth of Keystone Light. Also Coors Banquet grew at a high-single-digit rate during the quarter and has shown growth on a year-to-date basis, benefiting from redesigned packaging and increased advertising investment. Each of our four largest U.S. brands grew STRs during the third quarter and first three quarters of 2007. In addition, our brand portfolio showed broad geographic growth in 48 out of 50 states in the third quarter of 2007. Total U.S. STRs increased 6.4% in the third quarter of 2007, including our Caribbean region. Net sales per barrel increased 2.5% in the third quarter due to favorable pricing.

Sales volume to wholesalers increased by 3.7% in the first three quarters of 2007, with Coors Light, Keystone Light and Blue Moon driving the increased volume. Net sales per barrel increased by 2.2% in 2007, due to selective price increases.

Cost of goods sold

Cost of goods sold per barrel increased 1.7% in the third quarter, due to higher commodity, transportation and packaging-material costs. Our operating cost savings offset approximately half of our U.S. cost of goods sold inflation during the third quarter of 2007. Cost savings decreased for the third quarter of 2007 from our year-to-date trend as we cycled the prior year Memphis brewery closure.

Cost of goods sold per barrel increased by 0.5% in the first three quarters of 2007. The year to date change is the result of higher commodity, transportation and packaging material costs partially offset by cost savings initiatives and lower depreciation. Cost savings initiatives offset nearly two-thirds of our cost of goods sold inflation during the first three quarters of 2007.

Marketing, general and administrative expenses

Marketing, general and administrative expenses increased 6.5% in the third quarter of 2007 compared to 2006. These costs increased due to higher employee incentive compensation based on improved operating results and brand-building and marketing investments versus last year.

Marketing, general and administrative expenses were up 3.8% in 2007 on a thirty-nine week comparison basis. Marketing investments decreased at a low-single-digit rate, while general and administrative expenses grew at a mid-single digit rate due to higher compensation costs and the twenty-six week period impact related to our stock-based long-term incentive program that began late in the first quarter 2006.

Special items, net

We recognized \$2.8 million of special charges in the third quarter of 2007 and \$25.5 million of net special charges in the third quarter of 2006. In the third quarter of 2007, the special charges were related to a newly initiated program focused on long term labor savings across the supply chain areas. In the third quarter of 2006, \$17.2 million of these charges related to accelerated depreciation on the Memphis brewery, \$3.1 million was expensed to increase the estimate of our liability associated with our cost to withdraw from the Memphis hourly workers multi-employer pension plan and the remaining \$5.2 million included employee termination costs and other incremental costs that were the direct result of the Memphis brewery closure. The Memphis brewery was closed and sold during the third quarter of 2006.

Special charges for the first three quarters of 2007 were a result of initiating a supply chain restructuring program. Special charges for the first three quarters of 2006 were primarily a result of the Memphis brewery sale and closure. See Part I Financial Statements, Item 1 Note 4 "SPECIAL ITEMS, NET" to the condensed consolidated financial statements for further discussion.

(1) Interest income is earned on trade loans to U.K. on-premise customers and is typically driven by note receivable balances outstanding from period-to-period.

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

The GBP strengthened versus the USD favorably impacting USD earnings before income taxes by an 8.2% appreciation on a year-over-year basis during the thirteen week third quarter period. During the comparable thirty-nine week periods for 2007 and 2006, the GBP strengthened versus the USD resulting in a 9.2% appreciation impact to USD earnings before income taxes.

Volume and net sales

Our Europe owned-brand sales volumes decreased 6.9% in the third quarter of 2007, due to an extended period of rainy and cool weather conditions throughout the 2007 summer months.

Total Europe net revenue per barrel in local currency increased by 9% in the third quarter, with approximately 5% of this change relating to non-owned factored brands that we deliver to retail. We acquired an on-premise distribution business in the third quarter of 2007. The addition of this on-premise distribution business will raise our net sales per barrel and cost of goods per barrel several percentage points for the next year due to a step-up in our factored brand sales. U.K. owned-brand net sales per barrel in local currency increased nearly 4% in the third quarter of 2007. This represents our third consecutive quarter of improved owned-brand pricing through the third quarter of 2007, an improvement from the previous two years.

In the first three quarters of 2007, our Europe owned-brand volumes decreased 5.7%, reflecting the 2006 benefit of volumes related to the World Cup soccer tournament, whereas our 2007 volumes have been adversely affected by poor weather in the U.K. Other brewers have been similarly impacted by the poor weather this year and the World Cup last year, therefore our market share was only minimally impacted during the first three quarters of 2007.

U.K. owned-brand net sales per barrel in local currency increased by approximately 3% in the first three quarters of 2007, largely due to favorable owned-brand pricing, partly offset by the unfavorable impact of ongoing industry channel mix trends.

Cost of goods sold

Total Europe segment cost of goods sold per barrel in local currency increased by approximately 12% in the third quarter, with approximately 5% of this change related to factored brand sales, including the impact related to the purchase of an on-premise distribution business. U.K. owned-brand cost of goods sold per barrel in local currency increased by approximately 7%, driven by a pension charge of \$4.7 million recognized as an increase to the liability in recognition of an existing pension benefit in accordance with U.K. law, cost inflation, along with higher percentage of fixed costs per barrel spread over lower volumes.

For the first three quarters of 2007, cost of goods sold per barrel in local currency for our U.K. owned-brands increased 1.1% compared to last year, with the allocation of fixed costs over previously noted lower sales volumes for the period offset by cost savings from our supply chain restructuring program.

Marketing, general and administrative expenses

Marketing, general and administrative expenses in the U.K. increased approximately 10% in local currency in the third quarter. Marketing spending increased at a high-single-digit rate in local currency as we continued to roll out our new advertising campaigns for Carling and C2, and re-launched Coors Light in the U.K. General and administrative costs increased at a high-single-digit rate reflecting a pension charge of \$6.4 million to increase the liabilities in recognition of an existing pension benefit in accordance with U.K. law.

For the first three quarters of 2007, marketing, general and administrative expenses in local currency in the U.K. increased 0.2%. Marketing spending increased at a mid-single-digit rate in local

currency as we continued our new advertising campaigns for Carling and C2 and re-launched Coors Light in the U.K., while general and administrative costs declined 2.8% due to continued cost savings initiatives.

Special items, net

We recognized \$3.4 million and \$2.3 million of special charges in the third quarters of 2007 and 2006, respectively. Both of the 2007 and 2006 charges were predominantly employee termination costs associated with the U.K. supply chain and back office restructuring efforts. During the third quarter of 2007, we recognized an increased pension liability in recognition of an existing pension benefit in accordance with U.K. law in the amount of \$3.9 million.

We incurred \$12.7 million of charges in the first three quarters of 2007 compared to \$8.2 million of charges in the first three quarters of 2006. The 2007 items were predominately employee termination costs associated with the U.K. supply chain and back office restructuring efforts and an increased pension liability in recognition of our existing pension benefit in accordance with U.K. law. The 2006 items were also a result of charges recognized as part of restructuring the supply chain operation and back office organization, combined with costs incurred in closing our sales operation in Russia, partly offset by the pension curtailment gain. See Part I Financial Statements, Item 1 Note 4 "SPECIAL ITEMS, NET" to the condensed consolidated financial statements for further discussion.

Other income (expense), net

Other income of \$0.7 million declined \$0.3 million over the prior year quarter. The decline was primarily due to unfavorable foreign currency fluctuations recognized between the comparable periods.

We incurred other expense of \$0.9 million in the first three quarters of 2007 as compared to a net other income of \$1.5 million for the same period in 2006. The decrease noted is due to a non-recurring gain recognized on a sale of a surplus property in 2006, partly offset by improved year-over-year profit performance by our distribution joint venture, Tradeteam.

N/M = Not meaningful

General and administrative expenses

Corporate general and administrative expenses in the third quarter of 2007 decreased \$0.4 million from a year ago.

In the first three quarters of 2007, our general and administrative expenses were down \$6.7 million. The 2007 year-to-date change was largely attributable to lower legal fees, reduced severance costs and transfers of allocable costs to the operating segments from the corporate center.

Special items, net

We recognized \$2.0 million of special charges for the third quarter compared to \$0.7 million in special charges for the comparable period in 2006. The 2007 special charges incurred relate to the costs of professional services incurred related to the announced intent by MCBC and SABMiller plc to combine their U.S. and Puerto Rico operations in a joint venture. The special charge in the third quarter of 2006 was a result of adjusting the floor provided on the exercise price of stock options held by former Coors officers who left the Company under change in control agreements following the Merger. See Part I Financial Statements, Item 1 Note 4 "SPECIAL ITEMS, NET" to the condensed consolidated financial statements for further discussion.

Interest expense, net

Corporate net interest expense totaled \$27.2 million in the third quarter 2007, \$4.1 million lower than the prior year. This decrease was primarily a result of lower average outstanding debt levels this year, driven by current year repayments and restructuring of a portion of our debt. We also recognized a \$24.5 million charge as a result of the debt extinguishment costs during the third quarter of 2007.

For the first three quarters of 2007, net interest expense has decreased by \$21.6 million due to the lower average debt levels outstanding. We also recognized a \$24.5 million charge as a result of the debt extinguishment costs during 2007.

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity are cash provided by operating activities, external borrowings and asset monetizations. As of September 30, 2007, we had a working capital surplus of \$9.4 million, compared to a working capital deficit of \$483.9 million as of September 24, 2006. We ordinarily operate at working capital deficits given the relatively quick turnover of our receivables and inventory. Income tax liabilities of \$158 million were included in current liabilities as of September 24, 2006, contributing to the working capital deficit as of that date. These liabilities are presented as a component of long-term liabilities as of September 30, 2007, as a result of the adoption of FIN 48 in the first quarter of 2007. Contributing to our working capital surplus and deficits were \$38.0 million and \$67.9 million, respectively, of short-term borrowings and current portion of long-term debt at September 30, 2007, and September 24, 2006. We had total cash of \$231.3 million at September 30, 2007, compared to \$179.1 million at September 24, 2006. Long-term debt was \$2.25 billion and \$2.18 billion at September 30, 2007, and September 24, 2006, respectively. We believe that cash flows from operations and cash provided by short-term borrowings, when necessary, will be sufficient to meet our ongoing operating requirements, scheduled principal and interest payments on debt, dividend payments and anticipated capital expenditures. However, our liquidity could be impacted significantly by a decrease in demand for our products, which could arise from competitive circumstances, a decline in the acceptability of alcohol beverages, or any of the other factors we described in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2006.

Operating activities

Net cash provided by operating activities was \$328.6 million for the thirty-nine weeks ended September 30, 2007, compared to net cash provided of \$686.7 million in the comparable period last year. The calendar third quarter typically generates our highest operating cash flows, followed by the second quarter, due primarily to collections on increased receivables from summer beer sales. However, our operating cash flow was significantly lower in the third quarter of 2007 versus the same period in 2006 due to the timing of payments for excise taxes (\$96 million) and trade accounts payable in our Europe segment in 2007. Also, collection on accounts receivable in the U.S. were lower in the third quarter of 2007 by approximately \$33 million due to temporary extensions of credit terms associated with the opening of the Shenandoah brewery. These factors are expected to reverse themselves in the fourth quarter of 2007, resulting in a favorable variance to the comparable period in 2006.

Cash from operating activities was also unfavorably impacted in the third quarter of 2007 by a \$27 million payment made to the multi-employee pension plan associated with the employees at our former Memphis facility, and by \$21 million premium paid to bondholders in the July 2007 tender offer. Additionally, contributions to defined benefit pension plans were higher in first three quarters of 2007 versus 2006 by \$52.1 million and income tax payments were higher by \$31 million. Payments for prior year incentive compensation were higher by \$25 million in 2007 due to the Company's improved financial performance in 2006 versus 2005.

In addition to these factors, the timing of accounts payable disbursements and other accrued expenses on a year-over-year basis contributed to the decrease in operating cash flow, and, to some extent, did by the inclusion of the 53rd week in the fourth quarter of 2006. Specifically, our fiscal 2007 began on January 1, 2007, while our fiscal 2006 began on December 26, 2005. This timing of scheduled payments associated with accounts payable, payroll and other liabilities caused more items to be disbursed in 2007 than in the comparable period of 2006.

While these impacts are expected to continue to correct themselves to some extent as we progress through the year end resulting in more comparable operating cash flows with the prior year, we anticipate that full-year operating cash flow will be lower in 2007 than in 2006.

We may make a payment to FEMSA associated with our Brazil indemnity obligations in 2007, which we expect would approximate \$23 million.

Investing activities

Net cash used in investing activities of \$318.2 million for the thirty-nine weeks ended September 30, 2007, was higher by \$128.7 million compared to the same period in 2006. Additions to properties and intangible assets were higher in 2007 by \$14.5 million as compared to 2006, due primarily to CBL's \$90.0 million purchase in April 2007 of kegs that had been owned and managed by a third-party service provider which was placed in receivership early in 2007, offset by higher capital additions in 2006 associated with the build-out of the Shenandoah brewery in the U.S. We acquired the on-premise distribution business for \$26.7 million in the third quarter of 2007. We collected \$30.0 million in July 2007 from the sale of our equity investment in the House of Blues Canada (see Part I Financial Statements, Item 1 Note 5 under the caption "OTHER INCOME (EXPENSE), NET"). In 2006, we received proceeds of \$68.0 million on the sale of 68% of the Kaiser business in Brazil, offset by \$4.2 million of related transaction costs.

Financing activities

Net cash provided by financing activities totaled \$28.9 million for the thirty-nine weeks ended September 30, 2007, compared to net cash used of \$365.5 million during the same period in 2006. We collected \$179.3 million through the third quarter of 2007 as a result of exercises by stock option

holders, compared to \$40.5 million through the third quarter of 2006. During the second quarter of 2007, we received proceeds from the issuance of \$575 million of senior convertible notes (see Part I Financial Statements, Item 1 Note10 under the caption "DEBT AND OTHER CREDIT ARRANGEMENTS"). We incurred \$10.0 million of direct costs related to the issuance, and also paid a net amount of \$49.7 million for the purchase of a note hedge and proceeds from the issuance of warrants associated with the convertible notes and the tender offer. Payments on long-term debt in 2007 reflect the early extinguishment of \$625.0 million face amount of 6.375% Senior Notes due 2012. Aside from the financing activities associated with the convertible notes, net borrowings under available facilities were approximately \$25.8 million through the third quarter of 2007, encompassing all other activity in our various debt and credit facilities (including those associated with discontinued operations). Net repayments of debt during the same period of 2006 was approximately \$287.0 million (including those associated with discontinued operations). Part I Financial Statements, Item 1 Note10 under the caption "DEBT AND OTHER CREDIT ARRANGEMENTS."

Capital Resources

As discussed in the Financing section above, during the second quarter of 2007, we issued \$575 million of senior convertible notes, with a coupon rate of interest of 2.5%. In the third quarter of 2007, we used the proceeds of the convertible notes issuance, combined with other sources of cash, to retire \$625 million of 6.375% senior notes due 2012 and additional related charges as noted above.

The vast majority of our remaining debt borrowings as of September 30, 2007, consist of publicly traded notes with maturities scheduled from 2010 to 2015. We will continue to use commercial paper borrowings under our existing facility and borrowings under available revolving credit facilities to manage our short-term liquidity requirements through our periods of lower operating cash flow. We expect to be in a more positive liquidity position allowing us to consider different alternatives for the use of cash generated from operations. We expect to take a balanced approach to our alternatives for the remainder of 2007 and beyond, which could include restructuring of consolidated joint venture debt obligations, pension plan funding elections, reinvesting cash into our existing businesses and preserving cash flexibility for potential strategic investments.

As a result of the announcement of the proposed Miller Coors joint venture, credit rating agencies in the U.S. and Canada, such as Moody's and DBRS, have announced their current evaluation that MCBC's credit standing is in developing status.

OFF-BALANCE SHEET ARRANGEMENTS

As of September 30, 2007, we did not have any material off-balance sheet arrangements (as defined in Item 303(a) (4) (ii) of Regulation S-K).

CONTRACTUAL OBLIGATIONS AND COMMERCIAL COMMITMENTS

Contractual obligations requiring future cash payments as of September 30, 2007 were:

	Payments due by period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
(In thousands)					
Total debt, including current maturities	\$ 2,284,108	\$ 37,798	\$ 8,457	\$ 520,922	\$ 1,716,931
Interest payments	549,870	87,012	190,075	142,579	130,204
Derivative payments	2,270,717	122,633	609,093	1,524,188	14,803

Not included in these contractual cash obligations are \$260.8 million of unrecognized tax benefits and \$119.4 million of indemnities provided to FEMSA for which we are unable to make estimates for timing of the related cash payments.

Other commercial commitments as of September 30, 2007 were:

	Amount of commitment expiration per period				
	Total amounts committed	Less than 1 year	1-3 years	3-5 years	More than 5 years
(In thousands)					
Standby letters of credit	\$ 58,155	\$ 58,155	\$	\$	\$

CONTINGENCIES

In the ordinary course of business, we enter into contractual arrangements under which we may agree to indemnify third-parties from any losses or guarantees incurred relating to the pre-existing conditions for losses or guarantees arising from certain events as defined within the particular contract, which may include, for example, litigation or claims relating to past performance. Such indemnification obligations may not be subject to maximum loss clauses. See Part I Financial Statements, Item 1 Note 12 under the caption "CONTINGENCIES Indemnity Obligations Sale of Kaiser" to the condensed consolidated financial statements.

SIGNIFICANT ACCOUNTING POLICIES AND CRITICAL ACCOUNTING ESTIMATES

Our significant accounting policies are set forth in Part II Financial Statements and Supplementary Data Note 1 "BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES" in our Annual Report on Form 10-K for the year ended December 31, 2006. We discuss our critical accounting estimates in Part II Item 7 "MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS" in our Annual Report on Form 10-K for the year ended December 31, 2006. We have not modified the policies and estimates, set forth in our Annual Report on Form 10-K for the year ended December 31, 2006, except for the adoption of FIN 48.

ADOPTION OF NEW ACCOUNTING PRONOUNCEMENTS

See Part I Financial Statements, Item 1 Note 1 "BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES Adoption of New Accounting Pronouncements" to the condensed consolidated financial statements for a description of the new accounting pronouncements that we have adopted.

NEW ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED

See Part I Financial Statements, Item 1 Note 1 "BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES New Accounting Pronouncements" to the condensed consolidated financial statements for a description of the new accounting pronouncements that we have not yet adopted.

CAUTIONARY STATEMENT PURSUANT TO SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This report contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. From time to time, we may also provide oral or written forward-looking statements in other materials we release to the public. Forward-looking statements set forth our current expectations or forecasts of future events. You can identify these statements by forward-looking words such as "expect," "anticipate," "plan," "believe," "seek," "estimate," "outlook," "trends," "future benefits," "strategies," "goals" and similar words. In addition, statements that we make in this report that are not statements of historical fact may also be forward-looking statements.

In particular, statements that we make under the headings "Management's Discussion and Analysis of Financial Condition and Results of Operations," and "Outlook for 2007" including, but not limited to, statements relating to our overall volume trends, consumer preferences, pricing trends and industry forces, cost reduction strategies and anticipated results, anticipated synergies, our expectations for funding our 2007 capital expenditures and operations, debt service capabilities, shipment levels and profitability, market share and the sufficiency of our capital resources are forward-looking statements.

Forward-looking statements are not guarantees of our future performance and involve risks, uncertainties and assumptions that may cause our actual results to differ materially from the expectations we describe in our forward-looking statements. You should not place undue reliance on forward-looking statements. We do not undertake to publicly update forward-looking statements, whether as a result of new information, future events or otherwise. You should be aware that the factors we discuss in "Risk Factors" in Part II., Item 1A, and elsewhere in this report could cause our actual results to differ from future results expressed or implied by any forward-looking statements.

OUTLOOK

We will continue our quest to become a world-class, brand-led Company. We will promote our strategic brands by investing in the "front end" of our business our marketing and sales activities. We will do so with a complete commitment to corporate social responsibility. Simply put, beverages containing alcohol should be consumed responsibly only by adults of legal drinking age. This is a message that we constantly reinforce.

For the remainder of 2007 and beyond, we will remain focused on building brands and reducing costs in each of our segments to provide additional resources for growth. The results are encouraging:

We have favorable volume and market share momentum in the U.S. segment.

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

Our Canada segment portfolio has continued to build sales volume momentum and is growing market share.

In all three of our segments, our brands are supporting favorable pricing.

To continue our brand building progress:

In the Canada segment, we will continue to invest behind innovative programming to grow our strategic brands, by focusing on Coors Light and our above-premium and partner brands, while staying competitive on our Molson branded portfolio.

In the U.S. segment, we will maintain our increased marketing investments behind Coors Light, Coors Banquet, Keystone Light, and Blue Moon. Our Cold Activated Bottles and Frost Brew Lined Cans continue to deliver incremental sales volumes for Coors Light and Coors Banquet. Our NFL sponsorship will provide additional brand visibility through the Super Bowl, and we will focus on the favorable momentum for Blue Moon and Keystone Light.

In the Europe segment, we continue significant marketing investment behind Carling, we will support the re-launch of Coors Light in the U.K. and the expanded distribution of C2, our mid-strength lager entry from Carling. We will roll-out our new cold-dispense technology and distinctive above-bar fonts, which support our whole brand portfolio. In addition, we have been successful in securing a new distribution contract for Carling with Marstons, a major on-premise customer. We expect this new relationship to drive market share growth in the important on-premise channel.

There are a few additional considerations regarding sales volume in the fourth quarter of 2007:

In the Canada segment, we expect fourth quarter sales volume to be lower than sales to retail due to the termination of our Foster's U.S. production contract early in the fourth quarter 2007. This will result in lower reported sales volume, but this will have no impact on our STRs. The Foster's termination will also increase net sales per barrels and cost of goods sold for the next four quarters and will increase as fixed costs are spread over a smaller sales volume base. Also in the fourth quarter of 2007, we will be cycling the benefit of the 53rd week in our fiscal 2006 calendar, which for increased our sales volume by approximately 130,000 barrels increased pretax profit by approximately \$10 million in the fourth quarter of 2006.

In the U.S. segment, the 53rd week in our fourth quarter of 2006 attributed approximately 330,000 barrels to the prior year quarterly sales volume and was approximately break-even from a profit standpoint.

In the Europe segment, we are facing challenges from a weak U.K. economy, a highly competitive industry, and recently enacted smoking bans in England and Wales. The 53rd week in our fourth quarter of 2006 increased our sales volumes by approximately 140,000 barrels resulting in an unfavorable impact on pretax profits of less than \$1 million.

Regarding costs, our management teams continue to exceed their goals for reducing costs in each segment. The current inflationary environment presents a significant challenge coupled with the seasonally small profit fourth quarter, which will compound the margin impact of inflation.

In the Canada segment, we anticipate that our reported cost of goods per barrel in Canada will increase at a high-single-digit rate in local currency for full year 2007. In addition, we expect costs related to closing our Edmonton brewery will be incurred in the fourth quarter of 2007 and into 2008.

In the U.S. segment, we will realize no additional benefits related to closing our Memphis brewery a year ago. In the third quarter, we benefited from more than \$6 million of incremental Memphis cost reductions. With the current outlook for higher commodity inflation and cycling

Edgar Filing: MOLSON COORS BREWING CO - Form 10-Q

the Memphis plant closure, we now expect cost of goods per barrel to increase in the range of 1.5% to 2.0% for full-year 2007 and at a mid-single-digit rate during the fourth quarter of 2007.

In the Europe segment, our team will continue to reduce costs to offset input inflation and to provide resources for brand marketing investments. While the flow-through of cost initiatives implemented in the first half of 2006 will have less impact on the fourth quarter of 2007, additional cost-reduction initiatives are being implemented.

Miller Coors joint venture

On October 9, 2007, MCBC and SABMiller plc announced that they have signed a letter of intent to combine the U.S. and Puerto Rican operations of their respective subsidiaries, Coors Brewing Company and Miller Brewing Company, in a joint venture. The joint venture is expected to have net sales in excess of \$6 billion, operate eight major breweries across the United States and have approximately 10,000 employees. See Part I Financial Statements, Item 1 Note 16 "SUBSEQUENT EVENT" to the condensed consolidated financial statements for additional information.

Corporate

We anticipate full-year 2007 corporate general and administrative expenses in the range of \$102 million to \$108 million, or a reduction of approximately \$15 million from 2006 levels.

In addition to the corporate general and administrative expenses, we anticipate additional costs of professional services related to the MCBC and SABMiller plc joint venture announcement to be in the range of \$15 million to \$25 million during next six to twelve months.

Interest

We anticipate 2007 corporate net interest expense of approximately \$110 to \$114 million, or a reduction of approximately \$26 million from 2006, excluding premiums paid to repurchase part of our 6.375% Senior Notes due 2012, based on the current level of market interest rates and foreign exchange rates.

Tax

We anticipate that our 2007 full-year effective tax rate will be in the range of 11% to 14%. We note that movement of liabilities established pursuant to FIN 48 for uncertain tax positions as statute of limitations expire or positions are otherwise effectively settled in 2007 may result in a fluctuation in the range of our 2007 consolidated effective tax rate. In addition, pending tax law changes in Canada, if enacted, may result in significant changes to the range of our 2007 effective tax rate.

Our tax rate is volatile and may move up or down with changes in, among other things, the amount and source of income or loss, our ability to utilize foreign tax credits, changes in tax laws, and the movement of liabilities established pursuant to FIN 48 for uncertain tax positions as statute of limitations expire or positions are otherwise effectively settled.

Capital Expenditures

Our capital expenditure plan for 2007 is approximately \$425 million, including approximately \$105 million for the acquisition of kegs in the U.K., \$85 million to complete two new breweries, and \$35 million of capital spending by our consolidated joint ventures.

Other

The company anticipates expense related to depreciation and amortization of assets will result in a net decrease in 2007 versus 2006 excluding special items, due to the net effect of six factors:

Substantial existing assets will have been fully depreciated, so depreciation related to these assets is expected to be significantly lower in 2007 than 2006.

Sale of the Memphis brewery in September 2006 eliminated approximately \$70 million of depreciation expense thereafter, including approximately \$60 million of accelerated depreciation in 2006 to reduce the facility's carrying value to equal its salvage value.

We evaluated the estimated useful lives of a substantial portion of our property, plant and equipment on a global basis, in light of improvements in maintenance, new technology and changes in expected patterns of usage. The lengthening of certain depreciable asset lives as a result of this evaluation will result in a reduction of our consolidated depreciation expense for the full year 2007.

Increases due to adding packaging capacity in our Toronto facility during 2006 and bringing online our new brewery in Shenandoah, Virginia, in the first half of 2007.

Installing cold dispensing units in pubs and restaurants in the U.K. will result in a year over year increase.

Purchase of the keg population in the U.K. will add depreciation in the Europe segment.

Changes to our capital spending plans or other changes in our asset base could alter this forward view of depreciation expense.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the normal course of business, we are exposed to fluctuations in interest rates, foreign currencies exchange rates and the prices of production and packaging materials. We have established policies and procedures to govern the strategic management of these exposures through a variety of financial instruments. By policy, we do not enter into any contracts for the purpose of trading or speculation.

Our objective in managing our exposure to fluctuations in interest rates, foreign currency exchange rates and production and packaging materials prices is to decrease the volatility of our earnings and cash flows affected by potential changes in underlying rates and prices. To achieve this objective, we enter into foreign currency forward contracts, commodity swaps, interest rate swaps and cross currency swaps, the values of which change in the opposite direction of the anticipated cash flows. We do not hedge the value of net investments in foreign-currency-denominated operations or translated earnings of foreign subsidiaries. Our primary foreign currency exposures are Canadian dollar (CAD), British pound sterling (GBP or £) and Japanese yen (JPY).

Derivatives are either exchange-traded instruments or over-the-counter agreements entered into with highly rated financial institutions. No losses on over-the-counter agreements due to counterparty credit issues are anticipated. All over-the-counter agreements are entered into with counterparties rated no lower than A (Standard & Poor's) or A2 (Moody's). In some instances our counterparties and we have reciprocal collateralization agreements regarding fair value positions in excess of certain thresholds. These agreements call for the posting of collateral in the form of cash, treasury securities or letters of credit if a fair value loss position to our counterparties or us, exceeds a certain amount. At September 30, 2007, no collateral was posted by our counterparties or us.

We use derivatives in the normal course of business to manage our exposure to fluctuations in interest rates, foreign currency exchange rates and production and packaging material prices. By policy,

we do not enter into such contracts for trading or speculative purposes. We record our derivatives on the Consolidated Balance Sheet as assets or liabilities at fair value in accordance with Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities, as amended and interpreted, incorporating FASB Statements No. 137, 138 and 149 (SFAS 133). Such accounting is complex, as evidenced by significant interpretations of the primary accounting standard, which continues to evolve, as well as the significant judgments and estimates involved in the estimation of fair value in the absence of quoted market values. These estimates are based upon valuation methodologies deemed appropriate in the circumstances; however, the use of different assumptions could have a material effect on the estimated fair value amounts.

Our market-sensitive derivative and other financial instruments, as defined by the Securities and Exchange Commission (SEC), are foreign currency forward contracts, commodity swaps, interest rate swaps, and cross currency swaps. We monitor foreign exchange risk, interest rate risk and related derivatives using two techniques, value-at-risk and sensitivity analysis.

We use value-at-risk to monitor the foreign exchange and interest rate risk of our cross currency swaps. The value-at-risk methodology provides an estimate of the level of a one-day loss that may be equaled or exceeded due to changes in the fair value of these foreign exchange rate and interest rate-sensitive financial instruments. The type of value-at-risk model used to estimate the maximum potential one-day loss in the fair value is a variance/covariance method. The value-at-risk model assumes normal market conditions and a 95% confidence level. There are various modeling techniques that can be used to compute value-at-risk. The computations used to derive our values take into account various correlations between currency rates and interest rates. The correlations have been determined by observing foreign exchange currency market changes and interest rate changes over the most recent one-year period. We have excluded anticipated transactions, firm commitments, cash balances and accounts receivable and payable denominated in foreign currencies from the value-at-risk calculation, some of which these instruments are intended to hedge.

Value-at-risk is a statistical measure of risk that estimates the loss that may be experienced with a given level of confidence over a given period of time. Specifically, as reported herein, value-at-risk is the maximum expected one-day loss at 95% confidence, that is, only 5% of the time or 1 day in 20 is the loss expected to exceed the value-at-risk. Value-at-risk is not intended to represent actual losses that may occur, nor does it represent the full extent of losses that may occur. Actual future gains and losses will differ from those estimated by value-at-risk because of changes or differences in market rates and interrelationships, hedging instruments, hedge percentages, timing and other factors.

The one-day value-at-risk at 95% confidence of our cross currency swaps was \$11.6 million and \$10.6 million at September 30, 2007, and December 31, 2006, respectively. Such a hypothetical loss in fair value is a combination of the foreign exchange and interest rate components of the cross currency swap. Value changes due to the foreign exchange component would be offset completely by increases in the value of our inter-company loan, the underlying transaction being hedged.

See Part I Financial Statements, Item 1 Note 12 "FINANCIAL INSTRUMENTS" to the condensed consolidated financial statements for a discussion of a new cross currency swap entered into as of April 10, 2007, and the table summarizing all market-sensitive derivative instruments including foreign currencies, commodity swaps, interest rate swaps and cross currency swaps and other financial instruments, including their fair values.

We have performed a sensitivity analysis to estimate our exposure to market risk of interest rates, foreign exchange rates and commodity prices. The sensitivity analysis reflects the impact of a hypothetical 10% adverse change in the applicable market interest rates, foreign exchange rates and commodity prices. The volatility of the applicable rates and prices are dependent on many factors that cannot be forecast with reliable accuracy. Therefore, actual changes in fair values could differ significantly from the results presented in the table below.

The following table presents the results of the sensitivity analysis, which reflects the impact of a hypothetical 10% adverse change in the applicable market interest rates, foreign exchange rates and commodity prices of our derivative and debt portfolio:

Estimated fair value volatility	As of	
	September 30, 2007	December 31, 2006
	(In thousands)	
Foreign currency risk:		
Forwards	\$ (8,233)	\$ (28,411)
Interest rate risk:		
Debt, swaps	\$ (52,847)	\$ (64,720)
Commodity price risk:		
Swaps	\$ (19,924)	\$ (6,165)

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and that such information is accumulated and communicated to the Company's management, including our Global Chief Executive Officer and Global Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Management necessarily applies its judgment in assessing the costs and benefits of such controls and procedures that, by their nature, can only provide reasonable assurance regarding management's control objectives. Also, we have investments in certain unconsolidated entities that we do not control or manage. Consequently, our disclosure controls and procedures with respect to such entities are necessarily substantially more limited than those we maintain with respect to our consolidated subsidiaries.

As of the end of the period covered by this quarterly report, the Company conducted an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as required by Rule 13a-15 under the Exchange Act. This evaluation was carried out under the supervision and with the participation of the Company's management, including the Company's Global Chief Executive Officer and Global Chief Financial Officer. Based upon that evaluation, the Global Chief Executive Officer and Global Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective at September 30, 2007. There has been no change during the most recent fiscal quarter in the Company's internal control over financial reporting identified in connection with the evaluation that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is a party to various legal proceedings arising from the normal course of business as described in Part I Financial Statements, Item 1 Note 13 "CONTINGENCIES Litigation and Other Disputes", if decided adversely to or settled by MCBC, the result may, individually or in the aggregate be material to our financial condition or results of operations. We may enter into discussions regarding settlement of these and other lawsuits, and may enter into settlement agreements if we believe such settlement is in the best interests of our shareholders.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2006, which could materially affect our business, financial condition and/or future results, and the developments disclosed in our filings with the SEC since the date of the Form 10-K that relate to the risks described in our Form 10-K. The risks described in our Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or future results.

In addition to Risk Factors outlined in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2006, the following are additional Risk Factors that we have identified.

We may not properly execute, or realize the anticipated \$250 million of cost savings or benefits from, our ongoing strategic initiatives.

Our success is partly dependent upon properly executing, and realizing cost savings or other benefits from, the additional cost savings initiatives identified during 2007. These initiatives are primarily designed to make the company more efficient across the whole of the business, which is a necessity in our highly competitive industry. These initiatives are often complex, and a failure to implement them properly may, in addition to not meeting projected cost savings or benefits, result in an interruption to the company's sales, manufacturing, logistics, customer service or accounting functions. Any of these results could have a material adverse effect on the business and financial results of the company.

We may not be successful in executing definitive agreements regarding or completing, our proposed joint venture transaction with SABMiller plc (SABMiller).

We have entered into a letter of intent with SABMiller with respect to a proposed joint venture transaction. Completion of the transaction will require us to enter into multiple definitive agreements with SABMiller to implement the terms of the transaction. In the event we are unable to reach agreement with SABMiller on the terms of such agreements, we will not be able to complete the transaction, which could have a material adverse effect on our business and financial results to the extent that the failure to achieve the anticipated synergies and other benefits of the joint venture and the consequences of a failed transaction would have an adverse effect on our U.S. segment.

The joint transaction is subject to the receipt of consents and approvals from government entities that could delay or prevent completion of the venture transaction or impose conditions on the venture, which could result in a material adverse effect on the business or financial condition of the joint venture as well as on our business and financial results.

Completion of the venture transaction is conditioned upon the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Act, and certain other regulatory authorities, without receiving objections. If such regulatory approvals are not obtained, we will not be able to complete the transaction, which could have a material adverse effect on our business and financial results. In addition, a substantial delay in obtaining satisfactory approvals or the imposition of unfavorable terms or conditions in the approvals could have an adverse a material adverse effect on the business and financial results of the joint venture as well as on our business and financial results.

We may not realize the cost savings and other benefits we currently anticipate from the joint venture transaction due to challenges associated with integrating operations, technologies, sales and other aspects of the operations.

The success of the joint venture transaction, if approved, will depend in part on the success of the management of the venture in integrating the operations, technologies and personnel of MCBC's and SABMiller's respective U.S. operations following the completion of the transaction. The failure of the venture to integrate the two operations or otherwise to realize the anticipated benefits of the joint venture transaction, including the estimated annual cost savings described elsewhere in this document, could negatively impact the results of operations of the joint venture. In addition, the overall integration of MCBC and SABMiller's respective U.S. operations is complex and, accordingly, may result in unanticipated operational problems, expenses and liabilities and diversion of management's attention. The challenges involved in this integration include the following:

integrating successfully each company's operations, technologies, products and services;

reducing the costs associated with each company's operations;

coordinating sales, distribution and marketing efforts to effectively promote the products of the joint venture;

preserving distribution, marketing or other important relationships of the U.S. operations of both MCBC and SABMiller and resolving potential conflicts that may arise;

coordinating and rationalizing research and development activities to accelerate introduction of new products;

assimilating the personnel and business cultures of both companies; and

building employee morale and motivation.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

On August 1, 2007, shareholders representing in excess of a majority of the votes entitled to be cast by all holders of the Company's Class A Common Stock and holders of Class A Exchangeable Shares of Molson Coors Canada Inc., a Canadian corporation and subsidiary of the Company,

approved by written consent a stock split issued in the form of a stock dividend and related transactions as described in the Company's "Notice of Action Taken Pursuant to Written Consent of the Shareholders" filed August 27, 2007, on Schedule 14C.

ITEM 5. OTHER INFORMATION

None

ITEM 6. EXHIBITS

The following are filed as a part of this Report on Form 10-Q:

(a) **Exhibits**

Exhibit Number	Document Description
31.1	Section 302 Certification of Chief Executive Officer.
31.2	Section 302 Certification of Chief Financial Officer.
32	Written Statement of Chief Executive Officer and Chief Financial Officer furnished pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (18 USC. Section 1350).
