QUESTIONS AND ANSWERS ABOUT THIS PROXY STATEMENT AND VOTING

Why am I receiving these materials?

Tyco Electronics' Board of Directors is soliciting your proxy to vote at the Annual General Meeting of Shareholders. The information provided in this proxy statement is for your use in determining how you will vote on the proposals described within.

What proposals are scheduled to be voted on at the meeting?

The three proposals scheduled for a vote are:

Proposal 1: To elect eleven (11) nominees proposed by the Board of Directors as directors to hold office until the next annual general meeting of shareholders and until his/her successor is elected and qualified;

Proposal 2: To approve the Tyco Electronics Ltd. 2007 Stock and Incentive Plan (as amended and restated); and

Proposal 3: To appoint Deloitte & Touche LLP as the company's independent auditor and to authorize the Audit Committee of the Board of Directors to set the independent auditor's remuneration.

What is the recommendation of the Board of Directors on each of the proposals scheduled to be voted on at the meeting?

Tyco Electronics' Board of Directors recommends that you vote **FOR** each of the nominees to the Board of Directors, **FOR** approval of the Tyco Electronics Ltd. 2007 Stock and Incentive Plan (as amended and restated), and **FOR** the appointment of Deloitte & Touche LLP as the company's independent auditor and the authorization of the Audit Committee to set the independent auditor's remuneration.

What constitutes a quorum for the meeting?

The presence, in person or by proxy, of the holders of a majority of the common shares outstanding on April 3, 2009, the record date for the meeting, constitutes a quorum for the conduct of business.

How do I attend the Annual General Meeting?

All shareholders are invited to attend the Annual General Meeting. For admission to the meeting, shareholders of record should bring the admission ticket attached to the enclosed proxy card to the Registered Shareholders check-in area, where their ownership will be verified. Those who have beneficial ownership of common shares held by a bank, brokerage firm or other nominee should come to the Beneficial Owners check-in area. To be admitted, beneficial owners must bring account statements or letters from their banks or brokers showing that they own Tyco Electronics common shares as of April 3, 2009. Registration will begin at 1:00 p.m., Atlantic Daylight Time, and the meeting will begin at 2:00 p.m., Atlantic Daylight Time (1:00 p.m., Eastern Daylight Time).

Who can vote at the meeting?

Only shareholders of record of Tyco Electronics common shares at the close of business on April 3, 2009, the record date established by the Board of Directors, will be entitled to vote at the annual meeting.

What vote is required for approval of each proposal?

Each proposal requires the affirmative vote of a majority of the votes cast by the holders of common shares represented at the annual meeting in person or by proxy.

Pursuant to Bermuda law, (i) common shares which are represented by "broker non-votes" (i.e., common shares held by brokers which are represented at the annual meeting but with respect to which the broker is not empowered to vote on a particular proposal) and (ii) common shares which abstain from voting on any matter, are not included in the determination of the common shares voting on such matter, but are counted for quorum purposes.

What is the difference between being a shareholder of record and a beneficial owner?

If your shares are registered directly in your name with our stock transfer agent, you are considered the "shareholder of record" of those shares. Proxy materials are sent directly to all shareholders of record.

If your shares are held in a stock brokerage account or by a bank or other nominee on your behalf, your broker, bank or other nominee is considered the shareholder of record and you are considered the "beneficial owner" or "street name holder" of those shares. In this case, the shareholder of record has forwarded these proxy materials, and separate voting instructions, to you. As the beneficial owner, you have the right to direct the shareholder of record how to vote your shares by following the voting instructions they have provided with these materials. Because you are not the shareholder of record, you may not vote your shares in person at the meeting unless you receive a valid proxy from your broker, bank or other nominee that holds your shares giving you the right to vote the shares in person at the meeting.

How many shares can vote at the 2009 meeting?

As of April 3, 2009, there were 458,020,148 common shares issued and outstanding and entitled to vote at the meeting. Shareholders are entitled to one vote per share for each director to be elected and one vote per share on each other matter presented at the annual meeting.

Who will count the votes and certify the results?

An independent vote tabulator will count the votes. BNY Mellon Shareowner Services has been appointed by the Board of Directors as the independent Inspector of Election and will determine the existence of a quorum, validity of proxies and ballots, and certify the results of the voting.

If I vote and then want to change my vote, may I?

If you are a shareholder of record, you may revoke your proxy at any time before the meeting by submitting a later dated proxy card, by a later telephone or Internet vote, by notifying our Secretary in writing that you have revoked your proxy, or by attending the meeting and giving notice of revocation in person. Written revocations should be directed to:

Secretary
Tyco Electronics Ltd.
96 Pitts Bay Road
Pembroke HM 08 Bermuda

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

If your shares are held in a stock brokerage account or by a bank or other nominee on your behalf, follow the voting instructions provided to you with these materials to determine how you may change your vote.

Can other matters be decided at the meeting?

No business shall be conducted at the meeting except business brought before the meeting in accordance with the procedures set forth in the company's bye-law 29. The chairman of the meeting will determine whether business was properly brought before the meeting.

On the date this proxy statement was printed, we did not know of any other matters to come before the meeting other than those disclosed in this proxy statement. If other matters are properly presented for consideration, your proxy gives the persons voting the proxies the authority to vote on the matter according to their judgment.

Are shareholders permitted to ask questions at the meeting?

During the annual meeting, shareholders may ask questions or make comments relating to proposals following the second of the motion and prior to the taking of the vote by the moderator.

Following the annual meeting, the Chief Executive Officer will present a review of the company's financial statements and there will be opportunity for shareholders to ask other questions about the company's business.

CORPORATE GOVERNANCE

Governance Principles

The Board of Directors' Governance Principles, which include guidelines for determining director independence and qualifications for directors, can be found on the company's website at <http://www.tycoelectronics.com/aboutus/boardofdirectors.asp>. The Principles are available in print to any shareholder upon request. Corporate governance developments are regularly reviewed by the Board in order to appropriately modify the Board's Governance Principles, committee charters and policies.

Director Independence

Nine of the eleven directors nominated for re-election have been determined by the Board to be independent directors. For a director to be considered independent, the Board must make an affirmative determination that a director meets the stringent guidelines for independence set by the Board. These guidelines either meet or exceed the NYSE listing standards' independence requirements. The guidelines include a determination that the director has no current or prior material relationships with Tyco Electronics (either directly or as a partner, shareholder or officer of an organization that has a relationship with the company), aside from their directorship, that could affect their judgment.

The independence guidelines also include the determination that certain limits to annual sales to or purchases from entities for which a director serves as an executive officer, and limits on direct compensation from the company for directors and certain family members (other than fees paid for board or committee service), are not exceeded and other restrictions.

Based on the review and recommendation by the Nominating, Governance and Compliance Committee, the Board of Directors analyzed the independence of each director and determined that the following director nominees meet the standards of independence under our director independence guidelines and applicable NYSE listing standards, and that each of the following director nominees is free of any relationship that would interfere with his or her individual exercise of independent judgment: Pierre R. Brondeau, Ram Charan, Robert M. Hernandez, Daniel J. Phelan, Frederic M. Poses, Lawrence S. Smith, Paula A. Sneed, David P. Steiner and John C. Van Scoter. The Board had also determined that Sandra S. Wijnberg met the standards of independence during the period of her service on the Board.

Guide to Ethical Conduct

All directors, officers and employees of Tyco Electronics review and affirm that they understand and are in compliance with the policies and principles contained in Tyco Electronics' code of ethical conduct set forth in the company's manual, "The Power of Integrity: Guide to Ethical Conduct." The guide is published in the Board of Directors section of Tyco Electronics' website at <http://www.tycoelectronics.com/aboutus/EthicalConduct.asp> and is available in print to any shareholder upon request.

Directors are required to promptly inform the chair of the Nominating, Governance and Compliance Committee of actual or potential conflicts of interest.

Tyco Electronics' Audit Committee has established an Office of the Ombudsman which ensures a direct, confidential and impartial avenue to raise any concern or issue with compliance or ethics, including concerns about the company's accounting, internal accounting controls or auditing matters, with the Board. The office is designed to field compliance concerns from external constituencies investors, suppliers and customers as well as Tyco Electronics employees.

Reporting directly to the Audit Committee of the Board of Directors, the Ombudsman's office is independent of functional management. It seeks the fair, timely and impartial resolution of all

compliance and ethics issues. Employees have a number of vehicles to raise issues within Tyco Electronics, including a confidential, toll free, phone number and a confidential submission system via the Internet. Concerns also may be sent directly to the Board by mail.

All concerns are received and promptly reviewed by the Ombudsman and are responded to as quickly as possible. All accounting, audit or control concerns are sent to, and will be addressed by, the Board's Audit Committee.

THE BOARD OF DIRECTORS AND BOARD COMMITTEES

Board of Directors

The Board of Directors currently consists of eleven directors. Frederic Poses serves as Chairman of the Board. John Van Scoter joined the Board on December 1, 2008. Sandra Wijnberg left the Board effective January 31, 2009. References below to fiscal year 2008 include those directors serving on our Board or committees during that period. The Board held eight meetings in fiscal year 2008 and all of our directors attended at least 75% of the total number of meetings of the Board and committees on which they served in fiscal year 2008. It is the policy of the Board that directors are expected to attend the Annual General Meeting of Shareholders. All directors attended the 2008 Annual General Meeting of Shareholders.

Board Committees

The Board has adopted written charters for each of its three standing committees: the Audit Committee, the Management Development and Compensation Committee, and the Nominating, Governance and Compliance Committee. The charters can be found on the company's website at <http://www.tycoelectronics.com/aboutus/boardofdirectors.asp> and are available in print to any shareholder upon request. Each Board committee reports to the Board on their activities at each regular Board meeting.

The Board has determined that all members of the Audit, Management Development and Compensation, and Nominating, Governance and Compliance Committees are independent and satisfy the relevant Securities and Exchange Commission, NYSE, and Tyco Electronics additional independence requirements for the members of such committees.

Board Advisors

Consistent with their respective charters, the Board and its committees may retain their own advisors as they determine necessary to carry out their responsibilities.

Audit Committee

The members of the Audit Committee are directors Lawrence Smith, who chairs the committee, Pierre Brondeau and Paula Sneed. During fiscal year 2008, Ms. Wijnberg was chair of the committee and continued in that role through January 13, 2009 prior to leaving the Board effective January 31, 2009. Ms. Sneed joined the committee on January 14, 2009. The Board has determined that each of Mr. Smith and Ms. Sneed is an "audit committee financial expert," as defined under Securities and Exchange Commission rules. The Board had determined that Ms. Wijnberg was an "audit committee financial expert" for the period during which she served as chair of the committee. The Audit Committee primarily is concerned with the quality and integrity of the company's annual and quarterly financial statements, including its financial and accounting principles, policies and practices, and its internal control over financial reporting; the qualifications, independence and performance of the company's independent auditor and lead audit partner; review and oversight of the company's internal audit function; compliance with legal and regulatory requirements; review of financial and accounting risk exposure; and procedures for handling complaints regarding accounting or auditing matters. The committee also oversees the company Ombudsman and the company's Guide to Ethical Conduct. The Audit Committee met twelve times in fiscal year 2008. The committee's report appears on page 60.

Management Development and Compensation Committee

The members of the Management Development and Compensation Committee are directors Frederic Poses, who chairs the committee, Robert Hernandez and Daniel Phelan. This committee is

responsible to ensure succession of senior leadership; review plans for the development of the organization; review and approve compensation, benefits and human resources policies and objectives and whether the company's officers, directors and employees are compensated in accordance with these policies and objectives; review and approve compensation of the company's executive officers other than the Chief Executive Officer and recommend the Chief Executive Officer's compensation for approval by the independent members of the Board; and review and approve management incentive compensation policies and programs and equity compensation programs for employees. This committee met eight times in fiscal year 2008. The committee's report appears on page 31. Additional information on the committee's processes and procedures for consideration of executive compensation are addressed in the Compensation Discussion and Analysis which follows.

Nominating, Governance and Compliance Committee

The members of the Nominating, Governance and Compliance Committee are directors David Steiner, who chairs the committee, Ram Charan and John Van Scoter. Paula Sneed served on the committee during fiscal year 2008 and through January 13, 2009. Mr. Van Scoter was appointed to the committee effective January 14, 2009. This committee's responsibilities include the selection of director nominees for the Board and the development and review of our Board Governance Principles. The committee annually reviews director compensation and benefits in conjunction with the Management Development and Compensation Committee; oversees the annual self-evaluations of the Board and its committees, as well as director performance; and makes recommendations to the Board concerning the structure and membership of the Board committees. The committee also oversees our environmental, health and safety management system and compliance programs. This committee held six meetings in fiscal year 2008.

The Nominating, Governance and Compliance Committee will consider all shareholder recommendations for candidates for the Board, which should be sent to the Nominating, Governance and Compliance Committee, c/o Harold G. Barksdale, Secretary, Tyco Electronics, 96 Pitts Bay Road, Pembroke HM 08 Bermuda. The general qualifications and specific qualities and skills established by the committee for directors are set forth in the "Director Candidates" section of the Board's Governance Principles, which can be found on the company's website at <http://www.tycoelectronics.com/aboutus/boardofdirectors.asp>. In addition to considering candidates suggested by shareholders, the committee considers candidates recommended by current directors, company officers, employees and others. The committee screens all candidates in the same manner regardless of the source of the recommendation. The committee's review is typically based on any written materials provided with respect to the candidate. The committee determines whether the candidate meets the company's general qualifications and specific qualities and skills for directors and whether requesting additional information or an interview is appropriate.

Meetings of Non-Management Directors

The non-management directors met without any management directors or employees present six times in fiscal 2008. The non-executive chairman of the Board presided at these meetings.

Non-Management Directors' Compensation in Fiscal 2008

Non-management directors' compensation is established collaboratively by the Nominating, Governance and Compliance and the Management Development and Compensation Committees. Compensation of non-management directors in fiscal year 2008 is described under "Compensation of Non-Employee Directors."

Non-Management Directors' Stock Ownership

To help align Board and shareholder interests, directors are encouraged to own, at a minimum, Tyco Electronics' stock or stock units equal to three times their annual cash retainer (a total of \$240,000, based on the current \$80,000 annual cash retainer) within three years of joining the Board. Once a director satisfies the minimum stock ownership recommendation, the director will remain qualified, regardless of market fluctuations, under the guidelines as long as the director does not sell any stock. A majority of the directors' annual compensation is provided as equity, and because such equity is in the form of deferred stock units which cannot be transferred until the director leaves the Board, directors will normally attain the minimum guideline after two years.

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

Our fiscal year ended September 26, 2008 ("Fiscal Year 2008") was the first full fiscal year of operation for Tyco Electronics Ltd. ("Tyco Electronics" or the "Company"), as the Company's separation from Tyco International was completed on June 29, 2007. As discussed in our Compensation Discussion and Analysis ("CD&A") for the fiscal year ended September 28, 2007 ("Fiscal Year 2007"), the Management Development and Compensation Committee ("MDCC" or "Committee") adopted an executive compensation philosophy shortly after separation to serve as the Company's guiding principles in the development of executive compensation levels and programs. In addition, the Committee put into place a disciplined process for the adoption of executive compensation actions, which includes Board approval of executive compensation actions for the Chief Executive Officer and Committee approval of compensation actions for all other executive officers. All compensation actions are to be reviewed for alignment with the Company's executive compensation policy and in light of competitive market data (the Committee reviews competitive data from two separate peer groups), and with reliance on a compensation consultant (who is independent from management) for advice, information and an objective point of view.

In light of the limited period in which the Company operated as a public company in Fiscal Year 2007, neither Company management nor the Committee had the opportunity to complete a comprehensive review of the Company's executive pay levels and programs. In Fiscal Year 2008, however, we had the opportunity to conduct a comprehensive analysis of the competitive position of our executive pay levels and compensation programs. Overall, we believe that our executive pay levels and compensation programs are competitive relative to our peer companies and that the executive pay actions taken in Fiscal Year 2008 better align our executive pay levels and compensation programs with our executive compensation philosophy. In Fiscal Year 2008, we:

confirmed the structure of our overall compensation program for our executive officers as one that relies heavily on performance through the use of annual and long-term incentive programs

awarded base salary increases and set annual and long-term incentive targets for executive officers at levels that are aligned with the competitive market

emphasized equity (in the form of long-term incentive awards granted primarily in the form of stock options) as the primary component of long-term compensation for our executive officers, ensuring that pay opportunities are linked to shareholder return and maximize share ownership by our executive officers

We are still in the early stages of the implementation of our executive compensation philosophy, but we believe that with the actions taken in Fiscal Year 2008, we have made significant progress in aligning our executive pay levels and compensation programs with our executive compensation philosophy.

Executive Compensation Philosophy

Our executive compensation philosophy is designed to deliver competitive total compensation, upon the achievement of individual and/or corporate performance objectives, which will attract, motivate and retain leaders who will drive the creation of shareholder value. The executive compensation philosophy has also been designed to align with the Company's organization-wide total rewards strategy. The Committee reviews and administers the Company's compensation and benefit programs for executive officers, including the named executive officers. (For purposes of this CD&A, "executive officer" means the Chief Executive Officer, his direct reports and any other executive

officers of the Company subject to Section 16 of the Securities Exchange Act.) In determining total compensation, the Committee considers the following key objectives and attributes:

Shareholder alignment Executive compensation programs will be designed to create shareholder value. Long-term incentive awards, which make up a significant percentage of our executives' total compensation, will closely align the interests of executives with the long-term interest of our shareholders.

Performance based Many components of our executive compensation package are linked to performance. Annual cash incentive awards are tied to overall corporate, segment or business unit measures that allow for differentiation among our highest and lowest performing business units. Long-term incentive awards, granted primarily in the form of stock options, are designed to reward our executive officers for the creation of long-term shareholder value.

Competitive with external talent markets Our executive compensation programs are designed to be competitive within the various talent markets in which the Company competes for executive talent. Compensation programs are designed with reference to both a general peer group of companies that compete with us for executive talent and an electronics industry peer group.

Focus on executive stock ownership The Company has adopted the Tyco Electronics Share Ownership and Retention Requirement Plan which, together with long-term equity awards, drives executive stock ownership.

Simple and transparent Our executive compensation programs are designed to be readily understood by our executives and transparent to our investors.

Role of the Management Development & Compensation Committee

The MDCC administers the Company's compensation policies and programs for executive officers, including the named executive officers. The Committee reviews, analyzes and approves the design of the Company's executive compensation policies and programs, administers the Company's stock incentive plans (including reviewing and approving equity incentive awards for executive officers) and reviews and approves all compensation decisions relating to the named executive officers and other executive officers of the Company.

The Committee is comprised exclusively of members who meet the independence requirements of the NYSE. Each MDCC member is also a "non-employee director" for purposes of Rule 16b-3 of the Securities Exchange Act and an "outside director" for purposes of Section 162(m) of the Internal Revenue Code.

Role of Management

The MDCC has established a process with management to support the development and review of executive officer compensation, as described below.

Chief Executive Officer Compensation

The MDCC will make recommendations to the independent members of the Board regarding Chief Executive Officer compensation actions. The recommendations will be based on factors deemed appropriate by the Committee, including Chief Executive Officer performance and competitive market data provided by the Committee's independent compensation consultant. The MDCC will discuss and evaluate Chief Executive Officer compensation recommendations in an executive session attended only by the Committee members, its independent compensation consultant, and the Senior Vice President Global Human Resources, who attends primarily to provide contextual information. The Chief Executive Officer will not attend the executive session when Chief Executive Officer compensation

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

actions are discussed. The MDCC does not anticipate that management will have any role in the development of Chief Executive Officer compensation except for providing to the MDCC or the Committee's independent compensation consultant relevant data relating to the Chief Executive Officer's performance and compensation history.

Other Named Executive Officer Compensation

The Chief Executive Officer will make recommendations to the MDCC relating to compensation actions for the other executive officers. The recommendations will be made based on each executive officer's performance, as assessed by the Chief Executive Officer, competitive market data provided by the Committee's independent compensation consultant and other factors deemed relevant by the Chief Executive Officer, including but not limited to internal pay equity, relative importance of the role of each executive, experience level and prior compensation actions. The Senior Vice President, Global Human Resources also will be present for the discussion of compensation actions for the other named executive officers.

Role of Compensation Consultant

Under its charter, the MDCC has the sole authority to retain consultants, counsel, accountants and others to assist it in the performance of its duties, including the evaluation of executive compensation levels and programs. The MDCC has engaged Towers Perrin to serve as the Committee's compensation consultant. Towers Perrin reports directly to the MDCC and provides assistance to the Committee in developing the Company's executive compensation programs and executive pay levels and generally provides advice to the Committee on executive compensation issues. The MDCC independently retained Towers Perrin and has the ability to terminate Towers Perrin's services at the Committee's discretion. Outside of the services performed for the MDCC, Towers Perrin provides no services to the Company except with prior notification to the MDCC chair. The specific Towers Perrin consultants to the Committee are precluded from any involvement in any work for management not expressly authorized by the MDCC.

Towers Perrin performed the following services for the MDCC in Fiscal Year 2008:

Evaluated the competitive position of the Company's executive officers' total compensation packages relative to the Company's peer groups for purposes of assisting the MDCC in determining compensation actions for Fiscal Year 2008 and beyond

Provided advice to the Committee in the establishment of annual and long-term incentive guidelines for executive officers

Provided ongoing advice as needed on the design of Tyco Electronics' annual and long-term cash and equity incentive programs, including the Fiscal Year 2008 annual grant and performance plan

Assisted with the development of competitive global long-term incentive grant guidelines for the Company's global participant population, including both executives and non-executives

Briefed the MDCC on executive compensation trends among the Company's peer groups

Provided advice to the MDCC and Nominating, Governance and Compliance Committee on director compensation levels

Provided advice to the MDCC on the Chief Executive Officer's compensation.

Executive Compensation Benchmarks

For purposes of benchmarking market practices on compensation levels for senior executives, the Company has adopted a peer group framework that includes the use of a primary talent market peer group and a secondary reference group.

The primary talent market peer group is comprised of companies across a range of industries in which Tyco Electronics competes for executive talent as opposed to being limited to companies only in the electronics industry. Since Tyco Electronics typically competes for executive talent with companies in industries other than the electronics industry, the Company and Committee believe that it is appropriate to establish a benchmark peer group that sufficiently covers companies in those industries. The industries included in the primary talent market peer group are aerospace and defense, electronics and scientific equipment and industrial manufacturing. The primary talent market peer group consists of approximately 90 companies, listed in Appendix B, with revenues ranging from \$350 million to \$170 billion. Data obtained from this group is adjusted to reflect the relative size of Tyco Electronics within the group.

The secondary reference group is comprised of companies within the electronics industry. We use the secondary reference group as a benchmark to identify any differences in compensation practices between our industry peers and the broader primary talent market peer companies. As shown below, there are currently 16 companies in the secondary industry reference group with revenues ranging from \$2.8 billion to \$36.6 billion, with a median of \$10 billion.

3M Company	General Dynamics Corporation
Agilent Technologies, Inc.	Harris Corporation
Amphenol Corporation	Honeywell International Inc.
Cooper Industries, Ltd.	ITT Corporation
Corning Incorporated	Johnson Controls, Inc.
Danaher Corporation	Molex Incorporated
EMC Corporation	Motorola, Inc.
Emerson Electric Co.	QUALCOMM Incorporated

The benchmark data is compiled by the Committee's consultant and is used by the MDCC as a reference to ensure that our compensation levels and programs are competitive with the compensation paid by the companies that may compete with Tyco Electronics for executive talent. As explained below, the benchmark data is just one of the factors that are used in setting executive compensation levels.

Tax Deductibility of Executive Compensation

In evaluating compensation programs covering our executive officers, the Committee considers the potential impact on the Company of Internal Revenue Code Section 162(m). The Committee generally intends to maximize deductibility of compensation under Section 162(m) to the extent consistent with our overall compensation program objectives, while also maintaining maximum flexibility in the design of our compensation programs and in making appropriate payments to executive officers. However, the Committee reserves the right to use its independent judgment to approve nondeductible compensation, while taking into account the financial effects such action may have on the Company. Section 162(m) limits the tax deduction available to public companies for annual compensation that is paid to certain of the Company's executive officers in excess of \$1 million, unless the compensation qualifies as performance-based or is otherwise exempt from Section 162(m). Annual incentive bonuses, stock options and other performance based awards made to executive officers under the Company's 2007 Stock and Incentive Plan are intended to qualify as performance-based compensation exemption under Section 162(m).

Compensation Overview Process

The Company's total compensation package for executive officers, including named executive officers, is currently comprised of the following elements:

Base salary

Annual cash incentives

Long-term equity incentives

Executive benefits and perquisites

Broad-based retirement and health and welfare benefits

As a general rule, the MDCC has set the 50th percentile of our primary talent market peer group as the benchmark for an executive's total compensation. The components of an executive's total compensation, base pay and annual and long-term incentive awards, also are benchmarked at the 50th percentile of our primary talent market peer group. After the benchmark is determined for each executive position, the MDCC takes other factors into consideration in establishing the executive's compensation level. Those factors can include: differences in the executive's responsibilities versus the benchmark role; internal pay equity and relative importance of the executive's role with the Company; individual performance and contributions to strategic initiatives; level of experience; and compensation history. Thus, the actual pay positioning for each executive officer may be below or above the 50th percentile benchmark for total compensation and/or for one or more of the component elements of total compensation. In addition, in order to attract and retain highly qualified external candidates to fill critical management roles, the MDCC may approve total compensation packages and/or individual compensation components that are above the 50th percentile benchmark levels for that candidate's position.

Annual and long-term incentive awards also are structured with the potential to deliver significantly higher payouts (above the established target level for each executive officer) as an incentive to drive the short and long-term strategies of the Company and increase shareholder value. Similarly, the awards are structured to deliver substantially lower payouts (below the target level for each executive officer) for performance that falls below expectations.

Executive officers in the United States receive limited perquisites (as described below) and perquisites outside the U.S. are based on local market practice. Broad-based employee benefit programs are provided to executive officers on the same basis as all other employees.

In order to assist it in setting executive compensation levels, the MDCC conducts a comprehensive assessment of total compensation at least annually, with the assistance of its compensation consultant. The assessment is completed for each executive officer and analyzes current base salary, target annual incentive opportunity, target long-term incentive opportunity, target total cash compensation (base salary and target incentive), and total direct compensation (base salary, target annual incentive opportunity and target long-term incentive opportunity) in light of current market practice, which includes comparative data from the Company's primary talent market peer group. In addition to the total compensation assessment, the Committee utilizes tally sheets that are assembled for each executive officer, showing the officer's compensation history, work history and educational credentials, job responsibilities and tenure with the Company. The tally sheets enable the MDCC to understand how changes in one element of an executive officer's compensation could impact the value of other elements of the executive officer's compensation.

With the information provided in the total compensation assessment and tally sheets as a reference, and with the input of its compensation consultant and the Chief Executive Officer (with respect to actions taken for the other executive officers), the Committee will make executive

compensation determinations for our executive officers based on the competitive market position and other factors discussed above. The Committee and Board will follow a similar process in making determinations regarding the Chief Executive Officer's compensation.

Differences in compensation levels between our executive officers are largely driven by our objective to align each executive's compensation with 50th-percentile market compensation practices specific to the executive's role. As 50th-percentile market compensation practices vary for the roles held by our executive officers, there are differences in their compensation levels. Additionally, the factors described above (such as differences in the executive's responsibilities versus the benchmark role, internal pay equity and relative importance of the executive's role with the Company, individual performance and contributions to strategic initiatives, level of experience and compensation history) will also drive differences in compensation levels of our executive officers. An executive officer's compensation can change materially from year to year based on Company performance, individual performance, or a role change, including promotion.

In March 2008, the Committee, with the assistance of its compensation consultant, conducted a preliminary compensation assessment to determine the competitive position of each executive officer's base salary, annual incentive target, total cash compensation, long-term incentive value (based on the annualized value of the July 2, 2007 Founders' Grant awards) and total direct compensation relative to the Company's primary and secondary peer groups. The purpose of the March compensation assessment was to provide relevant information to the Committee for determining base salary adjustments for a group of executive officers, including named executive officers. The Committee was also provided tally sheets for the executive officers. Based on the data provided in the competitive assessment, and in consideration of other factors deemed relevant by the Committee, base salary increases were approved for a number of executive officers, including named executive officers (as described below), effective in April 2008. With the base salary increases that were approved, the base salary levels for our named executive officers range from 25% below to 6% above the 50th percentile peer group base salary benchmarks.

In July 2008, the Committee, with the assistance of its compensation consultant, updated and reviewed the March 2008 competitive compensation assessment. The updated competitive assessment covered each executive officer's current base salary, target annual incentive for Fiscal Year 2008, total cash compensation, long-term incentive value (based on the annualized value of the July 2, 2007 Founders' Grant awards) and total compensation, and indicated the competitive position of each compensation element and total compensation level relative to the primary talent market peer group benchmarks. The competitive assessment indicated that the compensation levels for our executive officers, including our named executive officers, fell both below and above the 50th percentile of the primary talent market peer group benchmarks. The Committee reviewed the compensation levels for each executive officer in light of the relevant factors discussed above such as the executive's level of experience, the additional responsibilities of a particular executive's role versus the benchmark, individual performance considerations and the executive's compensation history and determined that the compensation levels were reasonable and consistent with our executive compensation philosophy. The results of the July 2008 competitive compensation assessment assisted the Committee in determining whether to make base salary pay adjustments effective in January 2009 (none were made) and in setting annual and long-term incentive targets for the executive officer group for Fiscal Year 2009.

Elements of Compensation

Base salary

Base salary provides a fixed compensation for the performance of the executive's core duties and responsibilities. The base salary levels for Tyco Electronics' executive officers, including the named

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

executive officers, were initially established by Tyco International prior to separation and were not changed during the remainder of Fiscal Year 2007. Based on the competitive data in the March 2008 compensation assessment and in consideration of the date of the most recent base salary increase and other factors, as described below, the Committee approved base salary increases for a number of named executive officers, including Mr. Scott, Mr. Curtin, Mr. Clarke, Mr. Okamoto and Ms. Leipold, effective April 1, 2008.

The Committee approved a base salary increase for Mr. Scott from \$500,000 to \$525,000, representing an annualized increase of approximately 5.0% since his last base salary adjustment, which was effective January 1, 2007. The Committee approved the increase after considering the peer group market data and the base salary levels of our Chief Financial Officer and other executive officers.

The Committee approved a base salary increase for Mr. Curtin from \$475,000 to \$505,875, representing an annualized increase of approximately 6.5% since his last base salary adjustment, which was effective January 1, 2007. The Committee approved the increase after considering the peer group market data and the base salary levels of our General Counsel and other executive officers.

The Committee approved a base salary increase for Mr. Clarke from £241,500 to £253,500, representing an annualized increase of approximately 5.0% since his last base salary adjustment, which was effective October 1, 2006. The Committee approved the increase after considering the peer group market data and the base salary levels of our other business unit presidents.

The Committee approved a base salary increase for Mr. Okamoto from ¥52,595,920 to ¥54,700,000, representing an annualized increase of 4.0% since his last base salary adjustment, which was effective October 1, 2006. The Committee approved the increase after considering the peer group market data and the base salary levels of our other business unit presidents.

The Committee approved a base salary increase for Ms. Leipold from \$385,000 to \$404,250, representing an annualized increase of approximately 5.0% since her last base salary adjustment, which was effective January 1, 2007. The Committee approved the increase after considering the peer group market data and the base salary levels of our other executive officers.

Mr. Lynch did not receive a base salary increase in Fiscal Year 2008 or in Fiscal Year 2009 through the date of this proxy statement.

Annual Incentive Awards

Annual incentive awards provide executive officers with a bonus opportunity if certain financial performance goals are achieved. The annual incentive program is intended to reward executive officers upon the achievement of financial performance goals (at the corporate, segment and/or business unit level), with some limited discretion applied for individual performance. The MDCC intends the Company's annual incentive award program to provide market competitive awards targeted at the 50th percentile relative to peer companies for performance achieved at the predetermined target levels. Award opportunities above the 50th percentile will be available to the extent that performance exceeds the predetermined target levels. Payments at levels below the 50th percentile will be awarded to the extent that performance is below the performance target levels. No annual incentive payments will be made if threshold performance levels are not achieved, absent the occurrence of extenuating circumstances that, in the discretion of the Committee, merit an exception to the threshold performance requirement.

The annual incentive awards will typically be structured as cash payments. Within 90 days of the start of each fiscal year, the Committee will establish the applicable performance criteria, which will include minimum performance thresholds required to earn an award, target performance goals required to earn a payment of 100%, and a maximum performance level required to earn the maximum bonus permitted. If the Company attains the established financial goals, executive officers will receive an

award based on a target bonus percentage which will be set at the beginning of each fiscal year and expressed as a percentage of the executive's base salary. Incentive target bonus percentages for executive officers generally range from 50% to 100% of base salary. The target bonus percentages for our named officers for Fiscal Year 2008 were as follows: Mr. Lynch 100%; Mr. Scott 75%; Mr. Curtin 75%; Mr. Clarke 75%; Mr. Okamoto 75%; and Ms. Leipold 65%. The target bonus percentages fell within a range of 20% below to 7% above the 50th percentile primary market group benchmarks.

For Fiscal Year 2008, the Company established the following financial measures for the annual incentive award program:

Corporate Level:

Measure	Weighting
Earnings per Share ("EPS")	60%
Return On Invested Capital ("ROIC")	30%
Key Performance Indicator ("KPI")	10%

Business Unit Level overall award based 80% on business unit performance (described below) and 20% on corporate level results (described above)

Measure	Weighting
Business Unit Operating Income ("OI")	60%
Business Unit ROIC	30%
Business Unit KPI	10%

For purposes of the annual incentive award program, EPS, OI and ROIC are adjusted financial measures that exclude the effects of events deemed not reflective of the actual performance of the eligible participants. For Fiscal Year 2008, the categories of adjustments included the elimination of the effects of (i) business disposals, (ii) pre-separation tax matters, (iii) charges and income related to former management or shareholder litigation, (iv) land sales, and (v) restructuring and asset impairment charges.

The KPI is an additional measure specifically designed for the Company and each business unit to emphasize an important initiative. The corporate level KPI for Fiscal Year 2008 was operating income percentage and the KPI for the business units was either operating income percentage or organic sales growth. Organic sales growth is our reported net sales growth as adjusted for the impact from foreign exchange rates, acquisitions and divestitures. As noted above, business unit awards were based 80% on the attainment of the business unit performance measures and 20% on the corporate level results in order to drive cross-business collaboration.

The minimum threshold performance required to earn an annual incentive award for each established performance measure was set at 90%, with maximum payout for each performance measure set at attainment of 110% of such measure. Actual awards could have ranged from 0% (for performance below the threshold level) to 200% (for performance at or over the maximum performance level) of an incentive bonus target.

For the Fiscal Year 2008 annual incentive award program, the Committee reserved the discretion to adjust individual or business unit award amounts upward or downward by up to 25% based on its subjective evaluation of the individual or business unit performance during the fiscal year. However, any discretionary adjustments were required to net out to zero. In addition, the Committee granted the

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

Chief Executive Officer a discretionary award pool of \$6.5 million (10% of the target AIP pool amount) to make additional annual incentive awards as deemed appropriate in his discretion.

Fiscal Year 2008 performance targets, actual attainment and corresponding annual incentive award results at the corporate level and for the Communications, Computer & Consumer Electronics and Network Solutions business units (for Mr. Okamoto and Mr. Clarke, respectively) were as follows:

Corporate Level: Messrs. Lynch, Scott, Curtin and Ms. Leipold

Performance Measure	Target Range	Results	Performance % to Target	Bonus Score

Network Solutions Weighted Score:				5.5%
Network Solutions Earned Award, including 20% attributed to Corporate Level Results (178.9%):				40.2%

Once the bonus scores were calculated, adjustments were made to arrive at the final bonus payout for each named executive officer, as follows:

The corporate level bonus score was adjusted downward to a rating of 150% (from 178.9%) to more appropriately reflect the overall business performance in Fiscal Year 2008. As a result, Messrs. Lynch, Scott and Curtin and Ms. Leipold were awarded annual incentive payments equal to 150% of their respective annual incentive program targets.

The CC&CE bonus score was adjusted upward to a rating of 44.7% (from 35.8%) to recognize the business unit's solid performance in a weak economy, its leadership in the Company's talent sharing process and productivity/TEOA (Tyco Electronics Operational Advantage) programs, its efficiency in operational portfolio cleanup, and its market share gains with key customers. As a result, Mr. Okamoto was awarded an annual incentive payment equal to 44.7% of his annual incentive plan target.

Mr. Clarke's bonus score was adjusted upward to a rating of 50.2% (from 40.2%) to recognize Mr. Clarke's contribution to corporate-wide initiatives including the development of the Eastern Europe and India markets and his executive sponsorship of the Tyco Electronics Operations Council.

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

The adjustments were made based on the Committee's authority to adjust annual incentive awards upward or downward by 25% (as described above). The Chief Executive Officer did not award any amounts from the \$6.5 million discretionary pool (as described above).

Long-Term Incentive Awards

The MDCC intends to use long-term incentive awards in the form of stock options, restricted stock units and other forms of equity and/or cash to deliver competitive compensation that recognizes employees for their contributions to the Company and aligns executive officers with shareholders in focusing on long-term growth and stock performance. As part of the Company's compensation philosophy, the MDCC concluded that annual grants of long-term incentive awards to executive officers typically should be targeted at the 50th percentile relative to our primary talent market peer group, but should have the ability to deliver compensation at the high end of the market for superior performance and at the low end of the market for weak performance. The Company does not have a rigid policy for the allocation of long-term equity incentive awards among the different forms of equity. However, consistent with its policy that a majority of an executive officer's compensation be performance-based, long-term equity incentive awards for executive officers will be weighted primarily in the form of stock options or some other form of performance-based award.

The Committee intends that long-term equity incentive awards will be granted on an annual basis, typically in the first fiscal quarter of each year. In general, the factors used to determine the number of shares subject to long-term incentive equity awards in any year will include (i) target grant ranges based on competitive data from our benchmark companies, (ii) the Company's stock price, (iii) the mix of stock options and full value shares to be granted, (iv) total share utilization and dilution, (v) the incentive and retentive value deemed appropriate for the grant, (vi) prior grant history, and (vii) anticipated equity-related expense. (As discussed above, the Committee set Fiscal Year 2009 long-term incentive target ranges based on the July 2008 competitive compensation assessment.)

As discussed in our Fiscal Year 2007 CD&A, the Company issued a Founders' Grant to executive officers and other employees on July 2, 2007 that consisted of a mix of stock options and restricted stock units. (Executive officers received an award mix of 75% stock options and 25% restricted stock units.) The Founders' Grant award values were designed to cover eighteen months (as the Committee did not intend to issue another broad-based long-term equity grant until the Company's 2009 fiscal year), plus an additional one-time award to executive officers and other employees to recognize their contributions during the separation process. Thus, the values of the Founders' Grant awards were set between the 50th and 75th percentiles of primary market group benchmarks. Consistent with the Committee's intent when granting the Founders' Grant awards, no long-term equity incentive awards were granted to executive officers in Fiscal Year 2008.

In November 2008, Fiscal Year 2009 annual long-term equity incentive awards were granted to executive officers and other employees. (These equity awards are not reflected in the Summary Compensation Table because they were granted in Fiscal Year 2009.) To support our philosophy that long-term incentive awards be performance based and be designed to reward the creation of shareholder value, the Fiscal Year 2009 long-term equity incentive awards for executive officers were made in the form of stock options (70%) and restricted stock unit awards (30%). The grant values were based on the long-term equity incentive ranges adopted by the Committee in July 2008, as discussed above. For purposes of establishing the long-term incentive ranges, the Committee grouped executives together (except for Mr. Lynch) based on an evaluation of the importance of each executive's role to the organization and a review of competitive market data. Roles were grouped accordingly and ranges established based on the market data. For example, Messrs. Scott and Curtin were grouped together reflecting their large functional roles. Messrs. Okamoto and Clarke were grouped together with other executives leading large business units. Ms. Leipold was grouped together with other similarly-situated corporate level executives. All grants made to the executive officers, except

for Mr. Lynch, were within the ranges established for each executive group. Mr. Lynch's Fiscal Year 2009 annual long-term equity incentive grant was based on competitive market data and was set at the 50th percentile of his primary market group benchmark.

Pay Mix

We do not have a specific policy with respect to the allocation between fixed versus performance-based compensation or annual versus long-term compensation. Our mix is largely driven by our practice of basing each element of compensation on market 50th-percentile practices. However, management and the MDCC periodically review our mix in relation to market and in relation to our desired objective of providing the majority of our named executive officers' compensation through performance-based components. The following table shows our mix of fixed compensation versus performance-based compensation and annual versus long-term compensation, based on the data shown in the Summary Compensation Table. As indicated by the table below, our actual mix is consistent with our objective to deliver the majority of executive compensation through long-term equity incentives.

	Base Salary	Long-Term Incentives	Non-Equity Incentive	Other Compensation
Lynch	12.5%	66.4%	18.7%	2.4%
Curtin	23.4%	44.6%	27.1%	4.8%
Scott	23.2%	43.5%	26.7%	6.6%
Okamoto	24.3%	59.2%	8.3%	8.2%
Clarke	29.2%	57.9%	11.3%	1.6%
Leipold	22.1%	49.4%	22.1%	6.3%

Retirement and Deferred Compensation Benefits

The Company maintains various retirement plans to assist our executive officers with retirement income planning and increase the attractiveness of employment with the Company.

The Company provides a defined contribution plan, the Tyco Electronics Retirement Savings and Investment Plan ("RSIP"), that is available to all eligible United States employees, and a nonqualified supplemental retirement plan, the Tyco Electronics Supplemental Savings and Retirement Plan ("SSRP"), in which executive officers may participate.

Under the RSIP, the Company match level is based on years of service, as follows:

Years of Service	Employee Contribution*	Company Contribution*
0 - 9	1%	5%
10 - 19	2%	6%
20 - 24	3%	7%
25 - 29	4%	8%
30 or more	5%	9%

*

Represents the percentage of the employee's compensation, which for purposes of the RSIP, generally includes base salary and annual incentive awards paid to the employee.

Company contributions for the named executive officers are shown in the "All Other Compensation" column of the Summary Compensation Table and the related table of All Other Compensation that follow this CD&A. Executive officers are fully vested in Company matching contributions upon completion of three years of vesting service under the RSIP and SSRP.

Under the SSRP, executive officers may defer up to 50% of their base salary and 100% of their annual incentive awards. The Company provides matching contributions to the SSRP based on the

executive officer's deferred base salary and annual incentive awards at the same rate such officer is eligible to receive matching contributions under the RSIP and on any cash compensation (i.e., base salary and annual incentive awards) the executive officer earns that year in excess of Internal Revenue Service limits. This plan was filed as an exhibit to Tyco Electronics' Current Report on Form 8-K filed with the Securities and Exchange Commission on November 9, 2007.

All of the Company's U.S. retirement, deferred compensation, incentive and other executive and broad-based plans are intended to comply with Section 409A of the Internal Revenue Code.

Mr. Okamoto is eligible to receive retirement benefits under the Directors' Retirement Allowance Regulation, a defined benefit pension plan maintained by the Company in Japan. Mr. Okamoto is entitled to receive either a single lump sum payment or a monthly life annuity commencing at normal retirement age 60, or upon earlier retirement after age 50 with 15 years of service. Annuities for retirement after age 60 are payable for Mr. Okamoto's lifetime, with ten years guaranteed. Annuities for earlier retirement are payable for ten years only. The lump sum is based upon the product of specified plan factors that vary by service, multiplied by the average annual pensionable salary during the ten-year period prior to termination. This amount is offset by the employee retirement lump sum previously received and increased at a specified interest rate. Death benefits will be paid to the survivor for a ten-year period upon the death of the individual who attained age 50 and 15 years of service. Projected pension benefits for Mr. Okamoto are disclosed in the Pension Benefits table that follows this CD&A.

Dr. Gromer participated in a defined benefit pension plan established by the Company for the benefit of its German employees. Dr. Gromer retired from active employment on December 31, 2007 and elected to commence his pension benefit on April 1, 2008. Dr. Gromer is receiving a monthly benefit of 46,183 €, which will be payable for the remainder of his life.

Welfare Benefits

We provide welfare benefits to executive officers on the same basis as all other employees. These arrangements include medical, dental, life insurance and disability coverage and are offered to all our eligible U.S.-based employees. The various benefit plans are part of our overall total compensation offering and are intended to be competitive with peer companies.

Outside of the United States, the Company provides welfare benefits based on local country practices.

Perquisites

The Company's perquisite program provides for the payment to U.S. executive officers of a cash allowance equal to an additional ten percent (10%) of base salary, in lieu of perquisites typically provided by other companies. The executive is permitted to apply the allowance as he or she deems appropriate. Other than the allowance, there are no perquisites provided to U.S. executive officers.

Outside of the United States, perquisite benefits are paid to executive officers based on local country practice. (See the Summary Compensation Table that follows this CD&A for more information on the perquisite benefits paid to our non-U.S. named executive officers.)

Change in Control and Termination Payments

The Company maintains the Tyco Electronics Severance Plan for U.S. Officers and Executives ("Severance Plan") and the Tyco Electronics Change in Control Severance Plan for Certain U.S. Officers and Executives ("CIC Plan"). These plans were filed as exhibits to Tyco Electronics' Current Report on Form 8-K filed with the Securities and Exchange Commission on November 9, 2007. The Company believes that the maintenance of severance and change in control benefits is appropriate in

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

order to attract and retain executive talent (given the fact that such benefits are standard benefits provided by peer companies), to avoid costly and potentially protracted separation negotiations, to ensure continuity of management in the event of an actual or threatened change in control and to protect our executive officers' investment in the Company. The Committee performed a competitive analysis of both plans when they were adopted in Fiscal Year 2007 and determined that the benefits provided under both plans were standard in the marketplace.

Under the Company's Severance Plan, benefits are payable to an executive officer only upon an involuntary termination of employment for any reason other than cause, permanent disability or death, and are conditioned upon the executive officer executing a release (including confidentiality, one year non-competition, two year non-solicitation and non-disparagement covenants) in favor of the Company. Under the Severance Plan, an eligible executive will be paid cash severance upon termination of employment equal to: two times base salary plus two times target bonus for the Chief Executive Officer, one and one-half times base salary plus one and one-half times target bonus for Section 16 officers who are direct reports to the Chief Executive Officer, and one times base salary plus one times target bonus for other Section 16 officers and executives classified as Band 1 or Band 2 employees. Cash severance payments are made in monthly installments. In addition, the terminated executive will be eligible to receive a pro rata annual incentive payment for the year in which the termination occurs and continued health and welfare benefits for the length of the severance period. The Severance Plan does not provide any special treatment for outstanding equity awards. The severance benefits provided under the Severance Plan, including the cash severance multiples, were set by the Committee at levels deemed consistent with market practice. "Cause" is defined as substantial failure or refusal to perform duties and responsibilities of the executive's job, violation of fiduciary duty, conviction of a felony or misdemeanor, dishonesty, theft, violation of our rules or policies, or other egregious conduct that has or could have a serious and detrimental impact on Tyco Electronics and its employees.

Severance benefits for non-U.S. executives will generally be based on local statutory requirements.

The Company's CIC Plan incorporates a "double trigger" concept before benefits become payable. In other words, benefits are payable to an executive officer under the CIC Plan only upon an involuntary termination of employment by the Company or "good reason resignation" that occurs during a period shortly before and continuing after a change in control (a "qualifying termination") and are conditioned upon the executive officer executing a release (including confidentiality, non-competition, non-solicitation and non-disparagement covenants) in favor of the Company. For purposes of the CIC Plan, "good reason resignation" generally means assignment of duties materially inconsistent with the executive's position, a material adverse change in the executive's position, Company actions that would cause the executive to violate his or her ethical or professional obligations, relocation to a place of employment greater than 60 miles from the executive's current place of employment, a reduction in the executive's base salary or annual bonus, a reduction in the aggregate of the executive's benefits or failure by the Company to have its obligations under the CIC Plan assumed by a successor.

No benefits are payable under the CIC Plan if the executive officer is terminated for "cause." "Cause" is defined as a violation of fiduciary duty, conviction of a felony or misdemeanor, dishonesty, theft or other egregious conduct likely to have a materially detrimental impact on Tyco Electronics and its employees.

Under the CIC Plan, an eligible executive will be paid cash severance in the event of a qualifying termination equal to: three times base salary plus three times target bonus for the Chief Executive Officer, two times base salary plus two times target bonus for Section 16 officers who are direct reports to the Chief Executive Officer, and one and one-half times base salary plus one and one-half times target bonus for other Section 16 officers and Band 1 employees. Cash severance payments will be made in the form of a lump sum payment. In addition, the terminated executive will be eligible to

receive a pro rata annual incentive payment for the year in which the termination occurs and continued health and welfare benefits for the length of the severance period (i.e., 36, 24 or 18 months). Outstanding equity awards will become fully vested in the event of a qualifying termination. Cash severance and other benefits payable as a result of a qualifying termination will be limited to the greater after-tax amount resulting from (i) payment of the full benefits provided under the CIC Plan and imposition of all taxes, including any applicable excise taxes under Internal Revenue Code Section 280G, or (ii) payment of the benefits capped at the Section 280G limit with no excise tax imposed. Benefits payable under the CIC Plan will not be grossed up for the imposition of Section 280G or any other taxes. The severance benefits provided under the CIC Plan, including the cash severance multiples, were set by the Committee at levels deemed consistent with market practice.

Retention Agreement and Consulting Agreement with Dr. Gromer

On March 22, 2006, Dr. Gromer and Tyco International entered into a retention agreement providing Dr. Gromer with a monetary benefit equal to two times his annual base salary and target bonus in exchange for Dr. Gromer's continued service under his services agreement with Tyco Electronics Logistics AG for a period of no less than two years following the separation. If Dr. Gromer's employment was terminated before the end of the two-year period for reasons other than cause or as a result of death or disability, he would still be eligible to receive the retention payment. However, the actual retention award Dr. Gromer was to receive was to be reduced by any severance, notice pay, termination indemnity or other similar amount paid by Tyco International or Tyco Electronics as a result of any termination.

On April 11, 2007, Tyco International announced that Dr. Gromer would retire from Tyco Electronics on December 31, 2007. In accordance with the terms of a release and separation agreement among Tyco Electronics Logistics AG, Tyco Electronics AMP GmbH, Tyco International and Dr. Gromer dated as of April 10, 2007, Dr. Gromer received a lump sum payment of 3,359,232 € (USD 4,939,863 using a January 28, 2008 conversion ratio of 1.46860 USD to 1 € for the amount of the payment paid out of Germany, and January 29, 2008 conversion ratio of 1.47150 USD to 1 € for the amount of the payment paid out of Switzerland), representing 24 months' base salary and target bonus, in satisfaction of the obligations to Dr. Gromer under the March 22, 2006 retention agreement. The agreement restricts Dr. Gromer from soliciting Tyco Electronics' customers and employees and from competing with Tyco Electronics for a period of 24 months after his retirement on December 31, 2007.

On January 15, 2008, the Company entered into a consulting agreement with Dr. Gromer. The term of the consulting agreement began on January 15, 2008 and ended on December 31, 2008. During the term of the consulting agreement, Dr. Gromer made himself available to the Chief Executive Officer on a reasonable basis to provide assistance at client meetings, industry trade shows and other customer relationship activities. As remuneration for his services, the Company paid Dr. Gromer a monthly consulting fee equal to 11,340 EUR (USD \$17,061).

Executive Stock Ownership Requirements

The Company maintains a Share Ownership and Retention Requirement Plan applicable to the Company's executive officers, including the named executive officers. Under the plan, the Chief Executive Officer is required to own Tyco Electronics common shares in an amount equal to five times base salary, while the direct reports to the Chief Executive Officer are required to own shares in an amount equal to two times base salary. All covered executive officers are required to meet the share ownership requirements within five years of the effective date of the plan, or within five years of the officer's date of employment, if later. The following shares count towards the ownership requirements: wholly owned shares, shares in stock units or deferred compensation plans, shares in 401(k) plans and employee stock ownership plans, unvested restricted stock and shares held by immediate family

members that are considered beneficially owned by the executive officer. As of fiscal year end 2008, five of the six named executive officers met their stock ownership requirements.

(1) Salary and bonus for Messrs. Lynch, Curtin and Scott and Ms. Leipold are paid in U.S. dollars (USD). Mr. Okamoto's salary and bonus are paid in Japanese yen (JPY). Mr. Clarke's salary and bonus are paid in Great Britain pounds (GBP). Dr. Gromer's salary and bonus were paid in euros (EUR), with one-third attributable to his employment status with Tyco Electronics AMP GmbH in Germany, and two-thirds attributable to his employment status with Tyco Electronics Logistics AG in Switzerland. Dr. Gromer's salary and bonus are pro-rated reflecting his retirement from Tyco Electronics on December 31, 2007. To convert compensation values to USD, the monthly conversion rates, as determined by the average monthly income statement foreign currency translation rates used by Tyco Electronics finance, were averaged. For Dr. Gromer, a three-month average was used to reflect his period of employment at Tyco Electronics during fiscal 2008. The following are the conversion rates for the above table.

1 JPY = 0.00930 USD
1 GBP = 1.97561 USD
1 EUR = 1.44593 USD

(2) Amounts shown are not reduced to reflect the named executive officers' elections, if any, to defer receipt of salary into the SSRP.

(3) In satisfaction of the obligations to Dr. Gromer under his March 22, 2006 retention agreement, he received a lump sum payment representing 24 months' base salary and target bonus. The payment was paid out in accordance with his employment agreement with Tyco Electronics AMP GmbH in Germany and Tyco Electronics Logistics AG in Switzerland totaling 3,359,232 EUR (USD \$4,939,863 using a January 28, 2008 conversion ratio of 1.46860 for the German portion and January 29, 2008 conversion ratio of 1.47150 for the Swiss portion on respective dates of payment).

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

Amounts paid to Messrs. Curtin and Scott in 2007 represent dollar amounts outside of Tyco Electronics' Annual Incentive Plan ("AIP"). Mr. Curtin's bonus represents a retention payment paid pursuant to the terms of an agreement with Tyco International entered into in order to retain Mr. Curtin's services during the transition period and prior to the time at which he was appointed Chief Financial Officer to recognize the critical role he played in the successful operation of the Tyco Electronics business during separation from Tyco International. Mr. Scott's bonus reflected the work he did on behalf of Tyco International on the separation. Both bonuses were paid shortly after July 2, 2007, after the completion of the separation. Amounts paid under the company's AIP are reported in column (g) as "Non-Equity Incentive Plan Compensation."

- (4) Represents the compensation costs of restricted stock units ("RSUs") for financial reporting purposes for fiscal 2008 under Statement of Financial Accounting Standards No. 123R, "Share-Based Payment" ("SFAS 123R"), rather than an amount paid to or realized by the named executive officer. See Note 24 (Share Plans) to the notes to consolidated and combined financial statements ("Note 24") set forth in Tyco Electronics' Annual Report on Form 10-K/A for the fiscal year ended September 26, 2008 (the "10-K") for the assumptions made in determining SFAS 123R values. For grants that vest through the passage of time, the fair market value of the award at the time of the grant is allocated as an expense over the period of vesting. The fair value of restricted share awards has been determined based on the market value on the grant date. There can be no assurance that the SFAS 123R amounts will ever be realized.
- Dr. Gromer had no SFAS 123R expense in fiscal 2008 because all awards had previously been expensed as a result of the accelerated vesting of his outstanding equity awards. However, there was an accounting reversal (\$201,090) representing the performance awards that were forfeited upon his retirement. These awards were already fully vested and expensed in a prior period, but because the terms and conditions for the above target portion were not met and the awards forfeited, the expense was reversed. No expense on these performance awards was taken in fiscal 2007 and, therefore, no negative amount is reflected in the Summary Compensation Table.
- (5) Represents the compensation costs of stock options for financial reporting purposes for fiscal 2008 under SFAS 123R, rather than an amount paid to or realized by the named executive officer. See Note 24 in the 10-K for the assumptions made in determining SFAS 123R values. There can be no assurance that the SFAS 123R amounts will ever be realized.
- (6) Represents amounts earned for fiscal 2008 under the AIP. Amounts shown are not reduced to reflect the named executive officers' elections, if any, to defer receipt of awards into the SSRP.
- (7) Represents the aggregate change in actuarial present value of the accumulated benefits for Mr. Okamoto, Mr. Clarke, Dr. Gromer and Ms. Leipold under their pension plans as described in "CD&A Elements of Compensation Retirement and Deferred Compensation Benefits." Within the change in pension value for Dr. Gromer, a minimal amount, \$3,826 in 2008 and \$1,105 in 2007, is related to an annuity contract set up with an insurance company. Ms. Leipold had a decrease in pension value (\$7,366) as a result of the increase in the discount rate and the pension plan being frozen, which resulted in no additional benefit accrual for the year. Messrs. Lynch, Curtin and Scott do not participate in a pension plan.
- (8) See the All Other Compensation table below for amounts which include perquisites and company match on employee contributions to the employee stock purchase plan, the company's 401(k) plan and nonqualified defined contribution plan, and other amounts. The amounts reflected in the table for perquisites are the company's incremental cost. The company also provides group life, health, hospitalization and medical reimbursement plans which do not discriminate in scope, terms or operation in favor of officers and are available to all full-time employees.

- (a) Amounts reflect a cash perquisite allowance under the executive flexible perquisites allowance program which provides executives a cash allowance of 10%.

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

- (b) Outside of the United States, Tyco Electronics provides a company car to certain senior executives. Mr. Okamoto's perquisites included \$36,173, which reflects the incremental cost to the company of the lease value of a company car along with any associated taxes or maintenance costs. The amounts also included a housing allowance of \$123,904 and the cost of a club membership totaling \$195, all consistent with Japanese practice.
- (c) Mr. Clarke's perquisites included \$22,024, which reflects the incremental cost to the company of the lease value of a company car along with associated taxes or maintenance costs. In addition, Mr. Clarke was provided with a car allowance of \$1,395 for any additional miscellaneous costs and \$5,137 in tax planning assistance.
- (d) For 2008, Dr. Gromer's perquisites included \$205,973 which reflects the accrued vacation payment he received for unused vacation days at the time of his retirement. The payment was made in accordance with his employment agreement, using a January 28, 2008 conversion ratio of 1.46860 for the German portion and January 29, 2008 conversion ratio of 1.47150 for the Swiss portion on respective dates of payment. For 2008, this amount also included \$8,846 relating to the incremental cost to the company of the lease value of a company car along with associated taxes or maintenance costs. Dr. Gromer was occasionally provided with a driver and the cost of the driver, \$2,163, is included in the amount shown along with some miscellaneous service charges. The fuel costs attributable to Dr. Gromer's personal use of the company car are estimated to be \$945. Dr. Gromer also received \$8,130 in tax planning assistance.
- (e) Represents business expense income related to spousal travel for airfare and meal costs. Mr. Lynch was traveling for business and his wife accompanied him on the trip; these are the costs associated with her travel. There was no additional incremental cost to the company regarding usage of the corporate aircraft, as costs reflect the commercial flight ticket Mrs. Lynch took back home. The company aircraft was only used by Mr. Lynch for company business during fiscal 2008.
- (f) Majority represents relocation costs paid out in 2008 to Ms. Leipold. She was previously located in Harrisburg, PA but moved to the new Tyco Electronics' U.S. corporate headquarters in Berwyn, PA as a result of the company's separation from Tyco International.
- (g) The amount for Mr. Okamoto reflects the combination of premiums paid for ordinary accident and income indemnity insurance.
- (h) Represents the company matching contribution made under the Employee Stock Purchase Plan.
- (i) Reflects contributions made on behalf of the named executive officers under Tyco Electronics' qualified defined contribution plan and accruals on behalf of the named executive officers under the SSRP (also a defined contribution plan), as follows:

Name	Year	Company Matching	
		Contribution (Qualified Plan)	Company Contribution (Non-Qualified Plan)
Mr. Lynch	2008	\$ 11,500	\$ 72,319
Mr. Curtin	2008	\$ 7,750	\$ 44,736
Mr. Scott	2008	\$ 11,500	\$ 79,085
Ms. Leipold	2008	\$ 17,714	\$ 54,845

Grants of Plan-Based Awards in Fiscal 2008

The following table discloses potential payouts under the company's non-equity and equity incentive plans. There were no equity awards granted during fiscal 2008. The founder's grant awarded in fiscal 2007 at separation was granted at a level above the standard long-term annual incentive award to establish a meaningful ownership stake in the newly separated company and create strong management alignment with our shareholders' interests. On an annual basis beginning in fiscal 2009, our long-term annual incentive award will be granted in the first quarter of each fiscal year.

The information in the table below shows estimated possible payouts under the company's AIP for fiscal 2008 at different performance levels. The actual payouts under the AIP for fiscal 2008 are shown in the Summary Compensation Table.

Name (a)	Estimated Possible Payouts Under Non-Equity Incentive Plan Awards ⁽¹⁾

(1) The "Threshold" column represents the minimum amount payable when threshold performance is met. The "Target" column represents the amount payable if the specified performance targets are reached. The "Maximum" column represents the maximum amount payable under the plan.

(2) In calculating estimated possible payouts under non-equity incentive plan award numbers, the foreign currency translation rates were used as described in footnote (1) to the Summary Compensation Table.

(3) Dr. Gromer's numbers are pro-rated reflecting his retirement from Tyco Electronics on December 31, 2007.

Pension Benefits for Fiscal 2008

The following table provides details regarding the present value of accumulated benefits under the plans described in "CD&A Elements of Compensation Retirement and Deferred Compensation Benefits" for the named executive officers in fiscal 2008.

Name ⁽¹⁾ (a)	Plan Name (b)	Number of Years Credited Service ⁽²⁾ (c)	Present Value of Accumulated Benefit ⁽³⁾ (\$) (d)	Payments During Last Fiscal Year (\$) (e)
Minoru Okamoto	AMP Japan Plan for Directors	19.75	\$ 2,027,868	
Alan C. Clarke	Tyco Electronics UK Pension Scheme	27.1	\$ 2,030,704	
Juergen W. Gromer	Tyco Electronics AMP Germany (Pension Plan)	30.0	\$ 15,765,948 ⁽⁴⁾	\$ 430,527 ⁽⁵⁾
Jane A. Leipold	Tyco Electronics Pension Plan Part II AMP	17.0	\$ 65,605	

(1) Messrs. Lynch, Curtin and Scott do not participate in any pension plan sponsored by Tyco Electronics.

(2) In calculating Mr. Okamoto's pension benefit, all years of service were taken into account since his latest date of re-employment in 1988 with 11.4 years serving as a director. However, Mr. Okamoto was paid a lump sum settlement (JPY 14,809,520) of the pension accrued prior to becoming a director of the Japanese subsidiary in 1997. The value of that lump sum settlement is offset against the pension accrued during his service as a director, and the amount shown in the table reflects the pension benefit with the offset. Credited service for Dr. Gromer takes into account all years of service with Tyco Electronics and its predecessors and an additional five years of service credited with a prior employer, as agreed when he joined Tyco Electronics in 1983.

(3) The present value of accumulated benefit amounts have been measured as of August 31, 2008 with the exception of Dr. Gromer, whose measurement date of December 31, 2007 reflects his retirement date from Tyco Electronics; and are based on a number of assumptions, including:

A discount rate of 2.5% was used for Mr. Okamoto; 6.0% was used for Mr. Clarke and Dr. Gromer; and 7.05% was used for Ms. Leipold;

Mortality rates based on standard actuarial tables; and

No retirements prior to normal retirement age or withdrawals for disability or otherwise prior to retirement.

With respect to: Mr. Okamoto, the dollar amount shown has been converted from JPY using a conversion rate of 0.009 USD to 1 JPY; Mr. Clarke, the dollar amount shown has been converted from GBP using a conversion rate of 1.847 USD to 1 GBP; and Dr. Gromer, the dollar amount shown has been converted from EUR using a conversion ratio of 1.467 USD to 1 EUR.

(4) The present value of accumulated benefit for Dr. Gromer assumes that he will receive his retirement benefits in the form of a straight life annuity. He is required to pay medical and long-term care insurance, as well as taxes from the benefit provided under the pension benefits plan. Additionally, \$71,950 of the present value of accumulated benefit for Dr. Gromer is payable by an insurance company.

(5)

Dr. Gromer began to receive monthly payments from his accumulated pension benefit in April 2008. All payments were in euros. A majority of the payments were paid through Tyco Electronics AMP GmbH in Germany, with \$1,957 being paid out through the insurance company related to the annuity contract. In converting the amounts to USD, a six-month average of the monthly income statement foreign currency translation rates was used to reflect the period in which payments were received.

Nonqualified Deferred Compensation for Fiscal 2008

The following table discloses contributions, earnings and balances to each of the named executive officers in the table under the SSRP (Supplemental Savings and Retirement Plan) that provides for compensation deferral on a non-tax-qualified basis. See "CD&A Elements of Compensation Retirement and Deferred Compensation Benefits" for information regarding the plan. Pursuant to the SSRP, executive officers may defer up to 50% of their base salary and 100% of their annual bonus. We provide matching contributions based on the executive's deferred base salary and bonus the executive earns in excess of the Internal Revenue Code Section 401(a)(17) limit (\$230,000 in 2008) as follows: \$5 for every \$1 the executive officer contributes up to the first 1% of the executive officer's eligible pay or, if the executive officer is credited with more than ten years of service, \$6 for every \$1 the executive officer contributes up to the first 2% of the executive officer's eligible pay. The SSRP is offered only in the U.S., so that Mr. Okamoto, Mr. Clarke and Dr. Gromer did not participate in the SSRP, nor did they have any deferred compensation for fiscal 2008.

(2)

The amounts shown in column (c) represent matching contributions by the company, the amounts of which are included in the Summary Compensation Table in the All Other Compensation column.

(3)

No portion of these earnings shown in column (d) were included in the Summary Compensation Table because the SSRP does not provide for "above-market" or preferential earnings as defined in applicable Securities and Exchange Commission rules.

The distribution shown for Mr. Curtin is from a legacy non-qualified deferred compensation plan and was made pursuant to a distribution election filed by Mr. Curtin at the time that the compensation was deferred.

Termination and Change in Control Payments

The table below outlines the potential payments to our Chief Executive Officer and other named executive officers upon the occurrence of certain termination triggering events. For the purpose of the table, below are definitions generally applicable for the various types of terminations under the Tyco Electronics Severance Plan for U.S. Officers and Executives (referred to in this proxy statement as the "Severance Plan") and/or the Tyco Electronics Change in Control Severance Plan for Certain U.S.

Officers and Executives (referred to in this proxy statement as the "CIC Plan"). See "CD&A Elements of Compensation Change in Control and Termination Payments" for information regarding the terms of the plans.

"*Voluntary Resignation*" means any retirement or termination of employment that is not initiated by the company or any subsidiary other than a Good Reason Resignation (defined below).

"*Good Reason Resignation*" means any retirement or termination of employment by a participant that is not initiated by the company or any subsidiary and that is caused by any one or more of the following events which occurs during the period beginning 60 days prior to the date of a Change in Control (defined below) and ending two years after the date of such Change in Control:

(1) without the participant's written consent, the company (a) assigns or causes to be assigned to the participant any duties inconsistent in any material respect with his or her position as in effect immediately prior to the Change in Control, (b) makes or causes to be made any material adverse change in the participant's position (including titles and reporting relationships and level), authority, duties or responsibilities, or (c) takes or causes to be taken any other action which, in the reasonable judgment of the participant, would cause him or her to violate his or her ethical or professional obligations (after written notice of such judgment has been provided by the participant to the Management Development and Compensation Committee and the company has been given a 15-day period within which to cure such action), or which results in a significant diminution in such position, authority, duties or responsibilities;

(2) without the participant's written consent, the participant's being required to relocate to a principal place of employment more than 60 miles from his or her existing principal place of employment;

(3) without the participant's written consent, the company (a) reduces the participant's base salary or annual bonus, or (b) reduces the participant's retirement, welfare, stock incentive, perquisite and other benefits, taken as a whole; or

(4) the company fails to obtain a satisfactory agreement from any successor to assume and agree to perform the company's obligations to the participant under the CIC Plan.

"*Involuntary Termination*" means a termination of the participant initiated by the company or a subsidiary for any reason other than Cause (defined below), Permanent Disability (defined below) or death, subject to the conditions specified in the applicable plan.

"*Cause*" means any misconduct identified as a ground for termination in company policy or other written policies or procedures, including among other things, misconduct, dishonesty, criminal activity, or egregious conduct that has or could have a serious and detrimental impact on the company and its employees.

"*Permanent Disability*" means that a participant has a permanent and total incapacity from engaging in any employment for the employer for physical or mental reasons. A "Permanent Disability" will be deemed to exist if the participant meets the requirements for disability benefits under the employer's long-term disability plan or under the requirements for disability benefits under the U.S. social security laws (or similar laws outside the United States, if the participant is employed in that jurisdiction) then in effect, or if the participant is designated with an inactive employment status at the end of a disability or medical leave.

"*Change in Control*" means any of the following events:

(1) any "person" (as defined in Section 13(d) and 14(d) of the Securities Exchange Act), excluding for this purpose, (i) the company or any subsidiary company (wherever incorporated) of the company as defined by Section 86 of the Companies Act 1981 of Bermuda, or (ii) any employee benefit

plan of the company or any such subsidiary company (or any person or entity organized, appointed or established by the company for or pursuant to the terms of any such plan that acquires beneficial ownership of voting securities of the company), is or becomes the "beneficial owner" (as defined in Rule 13d-3 under the Securities Exchange Act) directly or indirectly of securities of the company representing more than 30 percent of the combined voting power of the company's then outstanding securities; provided, however, that no Change in Control will be deemed to have occurred as a result of a change in ownership percentage resulting solely from an acquisition of securities by the company;

(2) persons who, as of July 1, 2007 (the "effective date"), constitute the Board (the "Incumbent Directors") cease for any reason (including without limitation, as a result of a tender offer, proxy contest, merger or similar transaction) to constitute at least a majority thereof, provided that any person becoming a director of the company subsequent to the effective date shall be considered an Incumbent Director if such person's election or nomination for election was approved by a vote of at least 50 percent of the Incumbent Directors; but provided further, that any such person whose initial assumption of office is in connection with an actual or threatened proxy contest relating to the election of members of the Board or other actual or threatened solicitation of proxies or consents by or on behalf of a "person" (as defined in Section 13(d) and 14(d) of the Securities Exchange Act) other than the Board, including by reason of agreement intended to avoid or settle any such actual or threatened contest or solicitation, shall not be considered an Incumbent Director;

(3) consummation of a reorganization, merger or consolidation or sale or other disposition of at least 80 percent of the assets of the company (a "Business Combination"), in each case, unless, following such Business Combination, all or substantially all of the individuals and entities who were the beneficial owners of outstanding voting securities of the company immediately prior to such Business Combination beneficially own directly or indirectly more than 50 percent of the combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors, as the case may be, of the company resulting from such Business Combination (including, without limitation, a company which, as a result of such transaction, owns the company or all or substantially all of the company's assets either directly or through one or more subsidiary companies (wherever incorporated) of the company as defined by Section 86 of the Companies Act 1981 of Bermuda) in substantially the same proportions as their ownership, immediately prior to such Business Combination, of the outstanding voting securities of the company; or

(4) approval by the stockholders of the company of a complete liquidation or dissolution of the Company.

"Change in Control Termination" means a participant's Involuntary Termination or Good Reason Resignation that occurs during the period beginning 60 days prior to the date of a Change in Control and ending two years after the date of such Change in Control.

(1) Severance is calculated as follows under Involuntary Termination Not for Cause for U.S.-based executives: Mr. Lynch two times base salary plus two times bonus, Messrs. Curtin and Scott and Ms. Leipold one and one-half times base salary plus one and one-half times bonus; and as follows under Involuntary Termination Change in Control for U.S.-based executives: Mr. Lynch three times base salary plus three times bonus, Messrs. Curtin and Scott and Ms. Leipold two times base salary plus two times bonus. If the "parachute payment" (severance plus value of accelerated equity) is greater than three times the average W-2 reported compensation for the preceding five years, then an "excise tax" is imposed on the portion of the parachute payment that exceeds the average W-2 reported compensation for the preceding years. In this case, the participant will receive the greater of (i) payment of the full benefits provided under the CIC Plan and imposition of all taxes, including any applicable excise taxes under Internal Revenue Code

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

Section 280G, or (ii) payment of the benefits capped at the Section 280G limit with no excise tax imposed. Under the CIC Plan, benefits payable thereunder will not be grossed up for the imposition of Internal Revenue Code Section 280G or any other taxes. Mr. Okamoto and Mr. Clarke are not covered by the Severance Plan or CIC Plan; the termination benefits payable are based on local requirements. Based on our understanding of Japanese law, Mr. Okamoto would be entitled to receive his normal compensation (base salary and allowance) for the remaining term of his service contract. On September 26, 2008, Mr. Okamoto had fifteen months remaining in his then-current directorship. Mr. Clarke is entitled to a redundancy payment based on local statutory requirements, three weeks of base salary per every year of service as well as a notice pay amount. The total maximum redundancy payment cannot exceed 104 weeks' salary and the notice pay amount cannot exceed twelve weeks' salary. Mr. Clarke currently has 27 years of service with the company; however, only eight years of service are included in the calculation because of the lump sum settlement Mr. Clarke received in 2000 related to the acquisition of Raychem by Tyco International in 1999. Dr. Gromer retired on December 31, 2007, and is no longer eligible for termination payments.

- (2) Assumes the effective date of termination is September 26, 2008 and that the pro rata payment under the 2008 AIP is equal to 12/12ths of the target award.
- (3) Assumes the effective date of termination is September 26, 2008 and the price per Tyco Electronics common share on the date of termination equals \$27.39. Under Involuntary Termination Change in Control, all outstanding stock options that are vested and exercisable as of the termination date, as well as the options that vest as a result of the acceleration, will be exercisable for the greater of the period specified in the option agreement or twelve months from the termination date. In no event, however, will an option be exercisable beyond its original expiration date. Amounts disclosed for stock options only reflect options that are in-the-money as of September 26, 2008. Restricted stock units and options granted on July 2, 2007 will be forfeited if the retirement date is prior to July 2, 2009.
- (4) Payments associated with benefits and perquisites are limited to the items listed. No other benefits or perquisite continuation occurs under the termination scenarios listed.
- (5) Health and welfare benefits continuation is calculated as follows under Involuntary Termination Not for Cause: Mr. Lynch 24 months, Messrs. Curtin and Scott and Ms. Leipold 18 months; and as follows under Involuntary Termination Change in Control: Mr. Lynch 36 months, Messrs. Curtin and Scott and Ms. Leipold 24 months. Annual amount is an approximation. In the event that provision of any of the benefits would adversely affect the tax status of the applicable plan or benefits, the company, in its sole discretion, may elect to pay to the participant cash in lieu of such coverage in an amount equal to the company's premium or average cost of providing such coverage.
- (6) Outplacement is calculated as the cost of services for the participant for a period of twelve months from the participant's termination date under Involuntary Termination Change in Control. The company offers twelve month coverage totaling \$30,000 for the Chief Executive Officer and provides \$12,000 for senior executives. The company has the right and sole discretion to pay outplacement services under Involuntary Termination Not for Cause, but is not required to provide such benefits.
- (7) Mr. Okamoto has termination provisions within his pension plan. In the event of an involuntary termination or change in control (termination before attainment of age 60), he will receive an enhanced pension benefit. The amount shown in the table is the value of the enhancement. Each year the value of this enhancement is decreasing because he is closer to his attainment of age 60.
- (8) Assumes that all performance based units that were converted to time based awards at separation will have fully vested prior to any officer's retirement and that as a result no awards will be forfeited.

COMPENSATION OF NON-EMPLOYEE DIRECTORS

Compensation of each director who is not a salaried employee of Tyco Electronics is set at \$200,000 per annum, payable \$80,000 in cash and \$120,000 in Tyco Electronics deferred stock units ("DSUs"). The chair of the Audit Committee receives an additional \$25,000 cash retainer and the chairs of the Management Development and Compensation Committee and Nominating, Governance and Compliance Committee receive an additional \$15,000 cash retainer. The chairman of the Board receives an additional \$100,000 cash retainer. Directors who are employees of Tyco Electronics or its subsidiaries do not receive any compensation for their services as directors. In fiscal 2009, Audit Committee members each will receive an additional \$10,000 in cash compensation.

Each DSU will vest immediately upon grant, and will be paid in common shares within 30 days following a non-employee director's termination (subject to the option of deferring the payout as described below). Dividend equivalents or additional DSUs are credited to a non-employee director's DSU account when dividends are paid on our common shares.

Upon his retirement from the company on December 31, 2007, Dr. Gromer became a non-employee director. As a result, on January 15, 2008, the Board awarded to Dr. Gromer a Founders' Grant of 4,800 DSUs. Additionally, as described in the "CD&A Elements of Compensation Retention Agreement and Consulting Agreement with Dr. Gromer," on January 15, 2008, the company and Dr. Gromer entered into a consulting agreement whereby the company paid Dr. Gromer a monthly consulting fee equal to 11,340 EUR (USD \$17,061, using an annual average of the monthly income statement foreign currency translation rates of 1.50454). The consulting agreement ended on December 31, 2008.

Under the Tyco Electronics Director Deferred Compensation Plan, each non-employee director may make an election to defer some or all of his or her cash remuneration for that year. Non-employee directors also may elect to defer payout of their DSUs to a date later than termination. Each non-employee director may elect to receive a distribution of the amounts credited to his or her deferred compensation account either in a lump sum cash payment or in installments not to exceed ten years with payment made (or commencing) at termination of service or at a fixed date selected by the non-employee director. Two non-employee directors elected to defer their compensation for calendar year 2008. As a result of recent tax legislation changes, no deferral elections will be made in calendar year 2009.

Tyco Electronics reimburses its board members for expenses incurred in attending board and committee meetings or performing other services for the company in their capacities as directors. Such expenses include food, lodging and transportation.

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

The following table discloses the cash and equity awards paid to each of the company's non-management directors during the fiscal year ended September 26, 2008.

David P. Steiner	\$ 95,000			\$ 95,000
Sandra S. Wijnberg ⁽³⁾	\$ 105,000			\$ 105,000

(1) The amounts shown in column (b) represent the amount of cash compensation earned in fiscal 2008 for board and committee services. Mr. Poses received additional fees for his work as the board chair and as the chair of the Management Development and Compensation Committee. Mr. Steiner and Ms. Wijnberg each received additional fees for their roles as chair of the Nominating, Governance and Compliance Committee and the Audit Committee, respectively. Dr. Gromer's cash compensation was pro-rated for the 3/4ths of fiscal 2008 he served as a non-employee director. The amount in the table reflects the USD equivalent for fees earned as Dr. Gromer is paid in euros.

(2) Upon appointment to the Board of Directors, Dr. Gromer received a grant of 4,800 DSUs. The grant date fair value of these DSUs was \$33.17 per share, calculated by using the closing price of the common shares on the date of grant. The DSUs vested immediately and non-employee directors receive dividend equivalents in connection with these awards. The amounts shown in column (c) represent the compensation costs of DSUs for financial reporting purposes for the 2008 fiscal year under SFAS 123R, rather than an amount paid to or realized by the non-employee director. See Note 24 in the 10-K for the assumptions made in determining SFAS 123R values. The fair value of DSUs has been determined based on the market value on the grant date. There can be no assurance that the SFAS 123R amount will ever be realized.

(3) Ms. Wijnberg left the Board effective January 31, 2009.

Charitable Contributions

Our board governance principles require that the Board approve all charitable donations by Tyco Electronics to organizations associated with a director. The amount of any such donation is limited to an amount that is less than one percent of that organization's annual charitable receipts and is less than one percent of Tyco Electronics' annual charitable contributions.

Any matching donation by Tyco Electronics to organizations associated with a director is limited to an amount that is no greater than the amount contributed by the director and is required to be made in a manner consistent with Tyco Electronics' employee matching gift program.

**PROPOSAL NUMBER TWO: APPROVAL OF THE TYCO ELECTRONICS LTD.
2007 STOCK AND INCENTIVE PLAN (AS AMENDED AND RESTATED)**

The Tyco Electronics Ltd. 2007 Stock and Incentive Plan (as amended and restated upon approval of the shareholders) (the "SIP" or the "Plan") governs the award and payment of cash and equity awards to company employees and non-employee directors. The SIP was initially approved by the company's Board of Directors and by Tyco International Ltd., as our former sole shareholder, on June 4, 2007, prior to our separation from Tyco International on June 29, 2007 (the "Separation"). The primary purpose of requesting approval of the SIP at this time is to ensure that certain payments made under the SIP will continue to qualify as "performance-based" compensation under Section 162(m) ("Section 162(m)") of the Internal Revenue Code of 1986, as amended (the "Code"). The Board of Directors also approved a number of miscellaneous modifications to the SIP, as described herein. Our Board of Directors has approved the amendment and restatement of the SIP, subject to shareholder approval at the 2009 Annual General Meeting.

Our Board of Directors is asking the company's shareholders to approve the SIP, the material terms of the performance goals under the SIP, the group of eligible employees under the SIP, the criteria upon which objective performance goals may be established by the Management Development and Compensation Committee (referred to in this proposal as the Committee) under the SIP and the maximum amount of incentive compensation that may be paid to any employee under the SIP.

Discussion of the Purposes of this Proposal

The principal reason for submitting this proposal to our shareholders at the Annual General Meeting arises under Section 162(m) of the Code. Shareholder approval of the SIP, including specified performance goals, is necessary to permit the award of compensation that is considered as "performance-based" under Section 162(m). Section 162(m) generally does not allow a publicly held company to obtain tax deductions for compensation of more than \$1 million paid in any year with respect to its chief executive officer and the three other highest paid officers of the company (excluding the chief financial officer). Payments that are "performance-based" in accordance with conditions specified under Section 162(m) are exempt from this limitation. Because the SIP was approved by Tyco International, as sole shareholder, before the Separation, we have been permitted to award compensation under the SIP since the Separation that has qualified as "performance-based" compensation under Section 162(m). However, under Section 162(m) transition rules, shareholder approval at the 2009 Annual General Meeting is necessary in order to allow us to continue to grant "performance-based" compensation under Section 162(m). Our Board of Directors believes that it is in the best interests of the company and its shareholders to continue to ensure that, where possible, awards made to its chief executive officer and three other highest paid executive officers (excluding the chief financial officer) are deductible by the company for federal income tax purposes.

Other Modifications Made to the Plan

The Board has approved a number of other miscellaneous modifications to the Plan since November 2008, including:

Modification of the retirement provisions applicable to awards under the Plan. Previously, stock options and other stock-based awards vested in full upon "normal retirement" (attainment of age 60 and the sum of age and completed years of service equals or exceeds 70) and on a pro rata basis on "retirement" (attainment of age 55 and the sum of age and completed years of service equals or exceeds 60). The Plan was amended in November 2008 to eliminate the two definitions of retirement and replace it with one definition attainment of age 55 and completion of at least five years of service and to provide that a participant who is retirement eligible will vest in his/her equity awards only on a pro rata basis upon termination of employment.

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

Clarification that dividend equivalents, typically credited to restricted stock unit or deferred stock unit awards, will not be awarded in connection with stock option or stock appreciation rights awards.

Clarification that the term of stock options and stock appreciation rights will not exceed ten years, unless necessary to comply with the laws of a foreign jurisdiction or to preserve the tax advantaged status of the award in a foreign jurisdiction.

Clarification that the prohibition on repricing of underwater stock options includes, among other types of repricings, a cash payment in exchange for the underwater options.

Clarification that outside directors may be awarded deferred stock units, fully vested shares or stock options, as determined by the Board of Directors, and a modification to the Plan that allows deferred stock units to be awarded at any time. The Plan previously required that deferred stock units be awarded as of the first day of each fiscal year or upon the commencement of a new director's service.

Modification of the Plan to provide that the vesting period of a time-based full value share award (e.g., restricted stock, restricted stock units) will be no less than three years (either on a gradual or cliff vesting basis), except that the Committee may award up to 10% of the shares authorized for issuance under the Plan with vesting periods of less than three years in such circumstances as deemed appropriate by the Committee (e.g., a new hire award).

Clarification that the number of shares available for awards under the Plan will be decreased by the total number of shares equal in value to the total value of a stock appreciation right on the day of its settlement; clarification that forfeited or cancelled full value share awards (restricted stock, restricted stock units, deferred stock units, etc.) will be added back to the available shares authorized for issuance at the same rate (1.8) at which they were counted when originally awarded.

Modification of the Plan to eliminate the provision that allowed shares withheld as payment of the exercise price of a stock option or in satisfaction of tax withholding obligations to be added back to the shares available for issuance under the Plan.

Modifications and clarifications to the Plan to assure that the Plan and awards made under the Plan comply with Section 409A of the Code.

Adoption of this proposal requires the affirmative vote of a majority of the votes cast by the holders of common shares represented at the Annual General Meeting in person or by proxy. Absent such approval, the Tyco Electronics Ltd. 2007 Stock and Incentive Plan (as amended and restated) will not become effective and the 2007 Stock and Incentive Plan will remain in effect in its current form.

Material Terms of the SIP

A summary of the material features of the SIP is set forth below. This summary is qualified in its entirety by reference to the complete text of the SIP, which is attached as Appendix A to this proxy statement.

Purpose. The Plan is intended to make available incentives that aid us to attract, recruit and retain directors and employees, by providing performance-related incentives and an opportunity to participate in the company's growth and financial success, and to align the financial interests of directors and employees with that of our other shareholders.

Plan Administration. The Plan is administered by the Committee. The Committee, or to the extent required by applicable law, the Board of Directors, has broad discretion and authority under the Plan to:

interpret and administer the Plan;

select employees to receive awards, determine the form of an award, the number of common shares subject to an award and the terms and conditions of each award;

waive or amend any terms, conditions, restrictions or limitations on an award, except that the Plan's prohibition on the repricing of stock options and stock appreciation rights cannot be waived; and

delegate its duties and appoint agents to help administer the Plan.

Eligibility. In general, each of our employees, non-employee directors and grantees of an acquired company is eligible to receive awards under the Plan. The persons who are eligible to receive annual performance bonuses pursuant to the SIP are certain employees and non-employee directors designated by the Committee and who are subject to the reporting requirements of Section 16(a) of the Securities Exchange Act. The persons who are eligible to receive long-term performance awards pursuant to the SIP are certain employees and non-employee directors designated by the Committee. Subject to annual individual limits set forth in the Plan, the number of future awards that may be granted to any one individual or category of individuals is not presently determinable.

Shares Subject to the Plan. The total number of shares that may be issued to participants under the Plan is 5% of the company's shares outstanding as of the original effective date of the Plan (24,843,452 shares), subject to adjustments as provided under the terms of the Plan. As of the date of this proxy statement, approximately 10,000,000 shares remain available for issuance under the Plan. When common shares are issued pursuant to a grant of restricted stock, restricted stock units, deferred stock units, performance units or as payment of an annual performance bonus or other stock-based award, the total number of common shares remaining available for grant will be decreased by a margin of 1.8 per common share issued. In determining the number of shares that remain available under the Plan, the following do not count against the Plan's share limit: (a) shares related to awards paid in cash; (b) shares related to awards that expire, are forfeited or cancelled or terminate for any other reason without issuance of shares; (c) any shares issued in connection with awards that are assumed, converted or substituted as a result of the acquisition of an acquired company by us or a combination of our company with another company; and (d) any shares of restricted stock that are returned to us upon a participant's termination of employment.

Stock Options and Stock Appreciation Rights. Stock options awarded under the Plan may be in the form of nonqualified stock options or incentive stock options or a combination of the two. Stock appreciation rights may be awarded either alone or in tandem with stock options. Stock appreciation rights will be paid in cash or common shares or a combination of cash and common shares, as determined by the Committee. Unless determined otherwise by the Committee or as required by law, stock options and stock appreciation rights granted under the Plan are subject to the following terms and conditions:

Exercise Price. The Committee will set the exercise price at the time of grant, which will be no less than the fair market value of a common share as of the date of grant.

No Repricing. The exercise price of a stock option may not be decreased after the date of grant, other than in connection with permitted Plan adjustments, nor may stock options be cancelled for cash or otherwise be replaced by new stock option grants having a lower exercise price, unless approved by our shareholders.

Vesting. Stock options and stock appreciation rights will vest at such time and in the manner as determined at the time of grant by the Committee. Stock options and stock appreciation rights (i) will immediately vest in full upon the death or disability of a participant, or upon a change in control that results in a termination without cause or resignation for good reason and (ii) will vest on a pro rata basis upon a participant's retirement (which is defined as the attainment of age 55 and completion of five years of service).

Post-Termination Exercise. Unless the Committee provides otherwise, stock options, stock appreciation rights and long-term performance awards that have not vested as of the date of a participant's termination of employment will be forfeited, except in the case of death, disability, change in control termination or retirement, as described above. Subject to the term of the award, any vested stock option or stock appreciation right that has not already been exercised will remain exercisable for a period of three years after termination of employment because of retirement, death or disability, and any vested stock option or stock appreciation right that has not already been exercised will remain exercisable for a period of 90 days after termination for any other reason except for a termination of employment for cause.

Performance-Based Awards. The Plan provides for performance-based awards in the form of: (1) annual performance bonuses that may be granted in the form of cash or common shares; and (2) long-term performance awards in the form of performance units that may be paid in cash or shares or performance-based restricted stock units or restricted stock awards that are paid in shares. It is intended that annual performance bonuses and long-term performance awards will qualify as "performance-based" compensation for purposes of Section 162(m). The Committee, in its discretion, will fix the amount, terms and conditions of annual performance bonuses and long-term performance awards, subject to the following:

Performance Cycles. Annual performance bonuses will be awarded in connection with a 12-month performance cycle, which will coincide with our fiscal year. Long-term performance awards will be awarded in connection with a performance cycle that will not be shorter than 12 months or longer than five years. The annual performance bonus amount and the number of shares or units that are earned will be determined by the level of performance attained in relation to the applicable performance measures, as certified by the Committee following completion of the performance period.

Target Awards and Award Criteria. The Committee typically will set a target amount or target number of shares or units for each participant receiving an annual performance bonus or long-term performance award within 90 days after the start of a performance cycle. At that time, the Committee will also establish criteria for these awards, including the minimum level of performance that must be attained before any annual performance bonuses and long-term performance award will be paid or vest and the annual performance bonus amounts and the number of shares or units that will become payable upon attainment of various levels of performance. Financial performance measures may take into account such adjustments as the Committee may specify, which need not be consistent with accounting standards applicable to our financial statements.

Restricted Stock, Restricted Stock Units and Deferred Stock Units. Restricted stock, restricted stock units and deferred stock units may be awarded under the Plan to any employee selected by the Committee. Restricted stock units and deferred stock units may be settled in shares or cash. The Committee has the discretion to fix the terms and conditions applicable to awards of restricted stock, restricted stock units and deferred stock units, subject to the following:

Vesting. Unless the award certificate provides otherwise, any restrictions on restricted stock, restricted stock units or deferred stock units will lapse in equal annual installments over a four-year period after the date of grant. In no event will the vesting period applicable to a restricted stock, restricted stock unit or deferred stock unit award be less than three years (on either a cliff or graded vesting basis), except that the Committee may grant up to 10% of the shares authorized for issuance with vesting periods less than three years under such circumstances as it deems appropriate.

Acceleration of Vesting. Any restrictions on restricted stock, restricted stock units or deferred stock units that have not lapsed or been satisfied on the date of a participant's termination of

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

employment will immediately lapse in part upon retirement, and will lapse in full upon death, disability or a change in control termination. Upon a termination of employment for any other reason, any unvested restricted stock units, deferred stock units or shares of restricted stock will be forfeited, unless otherwise provided by the Committee.

Dividends and Dividend Equivalents. At the discretion of the Committee, dividends paid on shares may be paid immediately or withheld and deferred in the participant's account. In the event of a payment of dividends on common shares, the Committee may credit restricted stock units and deferred stock units with dividend equivalents, which may be distributed immediately or withheld and deferred in the participant's account or credited in the form of additional share units.

Director Awards. The Committee may grant deferred stock units to each director in such an amount as the Board of Directors, in its discretion, may approve in advance. Each such deferred stock unit will vest as determined by the Committee and will be paid in common shares within 30 days following the director's termination of Board service. In addition, the Committee may grant stock options, stock appreciation rights and other stock-based awards to directors.

Substitute Awards. The Committee may make awards to grantees of an acquired company through the assumption of, or in substitution for, outstanding stock-based awards previously granted to the grantees. The assumed or substituted awards will be subject to the terms and conditions of the original awards made by the acquired company, with any adjustments that the Committee considers appropriate to give effect to the relevant provisions of any agreement for the acquisition of the acquired company.

Performance Goals. The SIP provides for performance-based awards in the form of: (1) annual performance bonuses that may be granted in the form of cash or common shares; and (2) long-term performance awards in the form of performance units that may be paid in cash or shares or performance-based restricted stock units or restricted stock awards that are paid in shares. These performance-based awards are designed to satisfy the requirements of deductibility under Section 162(m) and are in addition to options or stock appreciation rights which may also qualify as performance-based awards for Section 162(m) purposes. Stock options and stock appreciation rights may be awarded under the SIP with an exercise price at the time of grant of no less than the fair market value of a common share. Accordingly, these options and stock appreciation rights can qualify as performance-based compensation under Section 162(m).

In order to meet the requirement of deductibility under Section 162(m), the goals must be based on one or more of the following criteria set forth in the SIP:

Net operating profit after taxes;

Net operating profit after taxes, per share;

Return on invested capital;

Return on assets or net assets;

Total shareholder return;

Relative total shareholder return (as compared with a peer group of the company);

Earnings before income taxes;

Earnings per share;

Net income;

Free cash flow;

Free cash flow per share;

Revenue (or any component thereof); or

Revenue growth.

Maximum Performance Based Compensation. The SIP is administered by the Management Development and Compensation Committee of the Board, which consists solely of two or more "outside directors" within the meaning of Section 162(m). The Committee has the sole authority to select employees to receive awards, determine the form of an award, the number of common shares subject to an award, and the terms and conditions of each award. However, no employee will be entitled to receive an annual performance bonus or long-term performance award under the SIP that is in excess of \$10,000,000 for any performance cycle of 12 months. In addition, no employee may be granted more than six million shares over any calendar year pursuant to awards of stock options, stock appreciation rights, and performance-based restricted stock and restricted stock units, except that an incentive award of no more than ten million shares may be made pursuant to stock options, stock appreciation rights, and performance-based restricted stock and restricted stock units to any person who has been hired within the calendar year as a key employee (as defined in Section 162(m)). If a performance cycle is longer than 12 months, the maximum amount that may be paid under the SIP will be adjusted proportionately.

Change in Control. If there is a change in control that results in a participant's involuntary termination of employment (as described in the Plan), then all outstanding stock options and stock appreciation rights will become exercisable, all conditions applicable to outstanding restricted stock, restricted stock units and other stock-based awards (other than long-term performance awards) and deferred stock units will be waived, and each participant who has been granted an annual performance bonus or long-term performance award that is outstanding as of the date of the involuntary termination will be deemed to have achieved a level of performance that would cause all (100%) of the participant's target amounts to become payable and all restrictions applicable to the participant's restricted stock units and shares of restricted stock to lapse. Unless otherwise determined by the Committee, in its discretion, if awards payable in shares of company stock will not be substituted with comparable awards payable or redeemable in shares of publicly-traded stock after the change in control, then such awards will become fully vested immediately prior to the change in control and each such award that is a stock option will be paid out in cash (in an amount equal to the excess of the fair market value of the underlying shares over the exercise price of the option).

Non-transferability of Awards. Awards under the Plan will not be subject in any manner to alienation, anticipation, sale, assignment, pledge, encumbrance or transfer, and no other persons will otherwise acquire any rights therein, except transfer by will or by the laws of descent or distribution. However, the Committee may, in its discretion, permit a participant to transfer awards (e.g., to family members or trusts for family members) subject to such conditions as the Committee may establish.

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

Adjustments. In the event of a change in the number of outstanding common shares by reason of a stock split, reverse stock split, dividend or other distribution, extraordinary cash dividend, recapitalization, merger, consolidation, split-up, spin-off, reorganization, combination, repurchase or exchange of shares or other securities or similar corporate transaction or event, the Committee shall make an appropriate adjustment to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan.

Amendment and Termination. The Plan may be amended or terminated by our Board of Directors at any time without shareholder approval, except that any material revision to the terms of the Plan requires shareholder approval before it can be effective. A revision is "material" for this purpose if it materially increases the number of common shares that may be issued under the Plan (other than an increase pursuant to an "adjustment" as described above), materially expands the types of awards available under the Plan, materially expands the class of persons eligible to receive awards, materially extends the term of the Plan, materially decreases the exercise price at which stock options or stock appreciation rights may be granted, reduces the exercise price of outstanding stock options or stock appreciation rights, or results in the replacement of outstanding stock options or stock appreciation rights with awards that have a lower exercise price. The Board of Directors may, without shareholder approval, amend the Plan to increase the maximum value of deferred stock units that may be granted to a director in any fiscal year and the maximum number of common shares that may be granted to a director in any fiscal year pursuant to awards of stock options, stock appreciation rights and other stock-based awards. If not earlier terminated, the Plan will terminate on June 3, 2017. No awards may be granted under the Plan after it is terminated, but any previously granted awards will remain in effect until they expire.

Summary of Federal Income Tax Consequences of Awards

The following is a brief summary of the material United States federal income tax consequences of the grant, exercise and disposition of stock options, stock appreciation rights, restricted stock, performance units, restricted stock units and deferred stock units under the SIP. This summary is not intended to be exhaustive and, among other things, does not describe state, local or foreign tax consequences. Because the federal income tax rules governing awards and related payments are complex, subject to frequent change, and depend on individual circumstances, participants should consult their tax advisors before exercising options or other awards or disposing of stock acquired pursuant to awards. This summary assumes that all awards granted under the Plan are exempt from or comply with, the rules under Section 409A of the Code related to deferred compensation. The following is not intended or written to be used, and cannot be used, for the purposes of avoiding taxpayer penalties.

Nonqualified Stock Options and Stock Appreciation Rights. A participant will not recognize any income at the time a nonqualified stock option or stock appreciation right is granted, nor will the company be entitled to a deduction at that time. When a nonqualified stock option is exercised, the participant will recognize ordinary income in an amount equal to the excess of the fair market value of the common shares received as of the date of exercise over the exercise price. When a stock appreciation right is exercised, the participant will recognize ordinary income in an amount equal to the cash received or, if the stock appreciation right is paid in common shares, the fair market value of the common shares received as of the date of exercise. Payroll taxes are required to be withheld from the participant on the amount of ordinary income recognized by the participant. We will be entitled to a tax deduction with respect to a nonqualified stock option or stock appreciation right at the same time and in the same amount as the participant recognizes income. The participant's subsequent disposition of the common shares generally will give rise to capital gain or loss equal to the difference between the sale price and the sum of the exercise price the participant paid for the shares plus the ordinary

income the participant recognized with respect to the shares, and these capital gains will be taxable as long-term capital gains if the participant held the shares for more than one year following exercise.

Incentive Stock Options. Incentive stock options, or ISOs, are intended to qualify for treatment under Section 422 of the Code. A participant will not recognize any income at the time an ISO is granted. Nor will a participant recognize any income at the time an ISO is exercised. However, the excess of the fair market value of the common shares on the date of exercise over the exercise price paid will be a preference item that could create a liability under the alternative minimum tax. If a participant disposes of the common shares acquired on exercise of an ISO after the later of two years after the date of grant of the ISO or one year after the date of exercise of the ISO (the "holding period"), the gain, if any, will be long-term capital gain subject to the applicable tax rates. If the participant disposes of the common shares prior to the end of the holding period, the participant will recognize ordinary income in the year of the disposition equal to the excess of the lesser of (i) the fair market value of the common shares on the date of exercise or (ii) the amount received for the common shares, over the exercise price paid. The balance of the gain or loss, if any, will be long-term or short-term capital gain or loss, depending on how long the common shares were held by the participant prior to disposition. If the amount realized upon such a disqualifying disposition is less than fair market value of the shares on the date of exercise, the amount of compensation income will be limited to the excess of the amount realized over the optionee's adjusted basis in the shares. We are not entitled to a deduction as a result of the grant or exercise of an ISO unless a participant recognizes ordinary income as a result of a disposition, in which case we will be entitled to a deduction at the same time and in the same amount as the participant recognizes ordinary income.

Restricted Stock. With respect to stock grants involving the issuance of shares that are restricted as to transferability and subject to a substantial risk of forfeiture, the participant must generally recognize ordinary income equal to the fair market value of the shares received at the first time the shares become transferable or are not subject to a substantial risk of forfeiture, whichever occurs earlier. The participant may elect under Section 83(b) of the Code to be taxed at the time of receipt of shares rather than upon lapse of restrictions on transferability or substantial risk of forfeiture, but if the participant subsequently forfeits such shares, the participant would not be entitled to any tax deduction, including as a capital loss, for the value of the shares on which the participant previously paid tax. The participant must file such election with the Internal Revenue Service ("IRS") within 30 days of the receipt of the shares. We generally will be entitled to a deduction in an amount equal to the ordinary income recognized by the participant. Any otherwise taxable disposition of the restricted stock after the time the restrictions lapse will result in a capital gain or loss (long-term or short-term, depending on the holding period) to the extent the amount realized from the sale differs from the tax basis, i.e., the fair market value of the common shares on the date the restrictions lapse. Dividends paid in cash and received by a participant prior to the time the restrictions lapse will constitute ordinary income to the participant in the year paid and we will generally be entitled to a corresponding deduction for such dividends. Any dividends paid in stock will be treated as an award of additional restricted stock subject to the tax treatment described herein.

Performance Units, Restricted Stock Units and Deferred Stock Units. Except as otherwise described in the following paragraph, the grant of a performance unit, restricted stock unit or deferred stock unit will create no income tax consequences to the company or the participant. Upon the participant's receipt of cash and/or shares at the end of the applicable performance or vesting period, the participant will recognize ordinary income equal to the amount of cash and/or the fair market value of the shares received, and the company will be entitled to a corresponding deduction in the same amount and at the same time. If performance units are settled in whole or in part in shares, upon the participant's subsequent disposition of the shares the participant will recognize a capital gain or loss (long-term or short-term, depending on the holding period) to the extent the amount realized upon disposition differs

from the shares' tax basis, i.e., the fair market value of the shares on the date the participant received the shares.

Section 457A of the Code. Section 457A was added to the Code in 2008 and generally subjects compensation that is deferred under a plan of a "nonqualified entity" to immediate taxation in the year in which the compensation is no longer subject to a substantial risk of forfeiture. Section 457A is generally applicable to compensation payable for services rendered on and after January 1, 2009. Based on Section 457A and guidance published by the IRS, it is possible that certain awards that can be granted under the SIP for services rendered on and after January 1, 2009 may be subject to immediate taxation upon grant. The company is currently seeking clarification of the IRS guidance and when the implications of Section 457A are better understood, the Committee will take whatever action it deems appropriate.

Additional Taxes Under Section 409A of the Code. If an award under the SIP is neither exempt from nor compliant with the requirements of Section 409A of the Code, then the participant may be subject to additional taxes under such section. Section 409A of the Code imposes additional taxes equal to 20% of the compensation required to be included in gross income by reason of a failure to comply with such section, if applicable, plus interest thereon had such deferred compensation been includable in gross income in the year in which it was first deferred or is no longer subject to a substantial risk of forfeiture, if later.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Review and Approval of Related Person Transactions

All relationships and transactions in which the company and our directors and executive officers or their immediate family members are participants were reviewed to determine whether such persons have a direct or indirect material interest. As required under Securities and Exchange Commission rules, transactions that are determined to be directly or indirectly material to the company or a related person are disclosed in the company's proxy statement. In addition, the Nominating, Governance and Compliance Committee reviews and approves or ratifies any related person transaction that is required to be disclosed. In the course of its review and approval or ratification of a disclosable related person transaction, the committee considers whether the transaction is fair and reasonable to the company and will take into account, among other factors it deems appropriate:

whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances;

the extent of the related person's interest in the transaction and the materiality of the transaction to the company;

the related person's relationship to the company;

the material facts of the transaction, including the proposed aggregate value of the transaction;

the business purpose for and reasonableness of the transaction, taken in the context of the alternatives available to the company for attaining the purposes of the transaction;

whether the transaction is in the ordinary course of the company's business and was proposed and considered in the ordinary course of business; and

the effect of the transaction on the company's business and operations, including on the company's internal control over financial reporting and system of disclosure controls or procedures, and any additional conditions or controls (including reporting and review requirements) that should be applied to such transaction.

Any member of the committee who is a related person with respect to a transaction under review may not participate in the deliberations or vote respecting approval or ratification of the transaction, provided, however, that such director may be counted in determining the presence of a quorum at a meeting at which the committee considers the transaction.

Related Party Transactions

Pierre Brondeau, a director, is the President and Chief Executive Officer of Rohm & Haas Company, a manufacturer of specialty materials and a wholly-owned subsidiary of Dow Chemical Company since April 2009, from which Tyco Electronics made \$3.5 million in purchases during fiscal 2008. Robert Hernandez, a director, is the Chairman of the Board of RTI International Metals, Inc., a producer of titanium mill products and fabricated metal components, from which Tyco Electronics made \$0.3 million in purchases during fiscal 2008. Mr. Hernandez' brother, William Hernandez, is the Senior Vice President and Chief Financial Officer of PPG Industries, a supplier of paints, coatings, chemicals, optical products, specialty materials, glass and fiber glass, to which Tyco Electronics made \$2.9 million in sales during fiscal 2008. Frederic Poses, a director, is the former Chairman and Chief Executive Officer of Trane Inc. (formerly American Standard Companies Inc.), a manufacturer and provider of air conditioning systems and services and vehicle control systems, with which Tyco Electronics made \$0.4 million in purchases and \$3.9 million in sales during the first and second quarters of fiscal 2008 (prior to Mr. Poses' departure from Trane Inc. and Trane's acquisition by Ingersoll-Rand in 2008).

The foregoing directors could be deemed to have indirect interests in the transactions based on their current or former executive positions with the companies with which Tyco Electronics transacted business in fiscal 2008, but such transactions were arms-length commercial dealings between the companies, none of which are material individually or in the aggregate. The Committee has reviewed and approved or ratified these

transactions.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires Tyco Electronics' executive officers and directors and persons who beneficially own more than ten percent of Tyco Electronics' common shares to file electronically reports of ownership and changes in ownership of such common shares with the Securities and Exchange Commission and NYSE. These persons are required by Securities and Exchange Commission regulations to furnish Tyco Electronics with copies of all Section 16(a) forms they file. As a matter of practice, Tyco Electronics' administrative staff assists Tyco Electronics' executive officers and directors in preparing initial reports of ownership and reports of changes in ownership and files those reports on their behalf. Based on Tyco Electronics' review of such forms, as well as information provided and representations made by the reporting persons, Tyco Electronics believes that all of its executive officers, directors and beneficial owners of more than ten percent of its common shares complied with the reporting requirements of Section 16(a) during Tyco Electronics' fiscal year ended September 26, 2008, other than three late Form 4 filings made by each of directors Lawrence S. Smith and Paula A. Sneed, reporting one transaction on each form.

POLICY FOR THE PRE-APPROVAL OF AUDIT AND NON-AUDIT SERVICES

The Audit Committee adopted a pre-approval policy that provides guidelines for the audit, audit-related, tax and other permissible non-audit services that may be provided by the independent auditor. The policy identifies the principles that must be considered by the Audit Committee in approving services to ensure that the auditor's independence is not impaired. The policy provides that the controller and senior vice president and tax officer will support the Audit Committee by providing a list of proposed services to the Committee, monitoring the services and fees pre-approved by the Committee, providing periodic reports to the Committee with respect to pre-approved services and ensuring compliance with the policy.

Under the policy, the Audit Committee annually pre-approves the audit fee and terms of the engagement, as set forth in the audit engagement letter. This approval includes approval of a specified list of audit, audit-related and tax services. Any service not included in the specified list of services must be submitted to the Audit Committee for pre-approval. All services may not extend for more than twelve months, unless the Audit Committee specifically provides for a different period. The independent auditor may not begin work on any engagement without confirmation of Audit Committee pre-approval from the controller or his delegate.

In accordance with the policy, the Audit Committee may delegate one or more of its members the authority to pre-approve the engagement of the independent auditor when the entire Committee is unable to do so. The chair must report all such pre-approvals to the Audit Committee at the next committee meeting.

AUDIT COMMITTEE REPORT

The information contained in the report below shall not be deemed to be "soliciting material" or to be "filed" with the Securities and Exchange Commission, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the company specifically incorporates it by reference in such filing.

During our fiscal year ended September 26, 2008, the Audit Committee of the Board was composed of three directors, Sandra S. Wijnberg, Pierre R. Brondeau and Lawrence S. Smith, each of whom the Board has determined meets the independence and experience requirements of the NYSE and applicable federal regulations. In addition, the Board has determined that Ms. Wijnberg and Mr. Smith are audit committee financial experts. Ms. Wijnberg chaired the Committee through January 13, 2009, at which time Mr. Smith took over the role of chair of the Committee. The Audit Committee operates under a charter approved by the Board of Directors. A summary description of the duties and powers of the Audit Committee can be found in "The Board of Directors and Board Committees" section of this proxy statement. The Audit Committee oversees the company's financial reporting process on behalf of the Board. Management has the primary responsibility for the financial statements and the reporting process, assures that the company develops and maintains adequate financial controls and procedures, and monitors compliance with these processes. The company's independent auditor is responsible for performing an audit in accordance with the standards of the Public Company Accounting Oversight Board (United States) to obtain reasonable assurance that the company's consolidated financial statements are free from material misstatement and expressing an opinion on the conformity of the financial statements with accounting principles generally accepted in the United States. The internal auditors are responsible to the Audit Committee and the Board for testing the integrity of the financial accounting and reporting control systems and such other matters as the Audit Committee and Board determine.

In this context, the Audit Committee has reviewed the consolidated and combined financial statements in Tyco Electronics' Annual Report on Form 10-K for the fiscal year ended September 26, 2008. The committee held discussions with management, the internal auditors and the independent auditor concerning the consolidated and combined financial statements, as well as the independent auditor's opinion thereon. The Committee also discussed with management, the internal auditors and the independent auditor the report of management and the independent auditor's opinion regarding the company's internal control over financial reporting required by Section 404 of the Sarbanes-Oxley Act of 2002. Management represented to the committee that the company's consolidated and combined financial statements were prepared in accordance with generally accepted accounting principles.

The committee discussed with the independent auditor the matters required to be discussed by the Statement on Auditing Standards No. 61, as amended. In addition, the committee discussed with the independent auditor the auditor's independence from Tyco Electronics and its management, including the matters in the letter received from the independent auditor regarding the independent auditor's communications with the audit committee concerning independence.

Based upon the committee's review and discussions referred to above, the committee recommended that the Board include the company's audited consolidated and combined financial statements in Tyco Electronics' Annual Report on Form 10-K for the fiscal year ended September 26, 2008 filed with the Securities and Exchange Commission.

**ARTICLE IV
AWARDS**

4.1 *Eligibility.* All Participants and Employees are eligible to be designated to receive Awards granted under the Plan, except as otherwise provided in this Article IV.

4.2 *Form of Awards.* Awards will be in the form determined by the Committee, in its discretion, and will be evidenced by an Award Certificate. Awards may be granted singly or in combination or in tandem with other Awards.

4.3 *Stock Options and Stock Appreciation Rights.* The Committee may grant Stock Options and Stock Appreciation Rights under the Plan to those Employees whom the Committee may from time to time select, in the amounts and pursuant to the other terms and conditions that the Committee, in its discretion, may determine and set forth in the Award Certificate, subject to the provisions below:

(a) *Form.* Stock Options granted under the Plan will, at the discretion of the Committee and as set forth in the Award Certificate, be in the form of Incentive Stock Options, Nonqualified Stock Options or a combination of the two. If an Incentive Stock Option and a Nonqualified Stock Option are granted to the same Participant under the Plan at the same time, the form of each will be clearly identified, and they will be deemed to have been granted in separate grants. In no event will the exercise of one Award affect the right to exercise the other Award. Stock Appreciation Rights may be granted either alone or in connection with concurrently or previously granted Nonqualified Stock Options.

(b) *Exercise Price.* The Committee will set the Exercise Price of Fair Market Value Stock Options or Stock Appreciation Rights granted under the Plan at a price that is equal to the Fair Market Value of a Share on the date of grant, subject to adjustment as provided in Section 5.3. The Committee will set the Exercise Price of Premium-Priced Stock Options at a price that is higher than the Fair Market Value of a Share as of the date of grant, provided that such price is no higher than 150 percent of such Fair Market Value. The Exercise Price of Incentive Stock Options will be equal to or greater than 110 percent of the Fair Market Value of a Share as of the date of grant if the Participant receiving the Stock Options owns stock possessing more than 10 percent of the total combined voting power of all classes of stock of the Company or any subsidiary or parent corporation of the Company, as defined in Section 424 of the Code. The Exercise Price of a Stock Appreciation Right granted in tandem with a Stock Option will equal the Exercise Price of the related Stock Option. The Committee will set forth the Exercise Price of a Stock Option or Stock Appreciation Right in the Award Certificate. Stock Options granted under the Plan will, at the discretion of the Committee and as set forth in the Award Certificate, be Fair Market Value Stock Options, Premium-Priced Stock Options or a combination of Fair Market Value Stock Options and Premium-Priced Stock Options.

(c) *Term and Timing of Exercise.* Each Stock Option or Stock Appreciation Right granted under the Plan will be exercisable in whole or in part, subject to the following conditions, unless determined otherwise by the Committee:

(i) The Committee will determine and set forth in the Award Certificate the date on which any Award of Stock Options or Stock Appreciation Rights to a Participant may first be exercised. Unless the applicable Award Certificate provides otherwise, a Stock Option or Stock Appreciation Right will become exercisable in equal annual installments over a period of four years beginning immediately after the date on which the Stock Option or Stock Appreciation Right was granted. The right to exercise a Stock Option or Stock Appreciation Right will lapse no later than 10 years after the date of grant, except to the extent necessary to comply with applicable laws outside of the United States or to preserve the tax advantages of the Award outside the United States.

(ii) Unless the applicable Award Certificate provides otherwise, upon the death or Disability of a Participant who has outstanding Stock Options or Stock Appreciation Rights, the unvested Stock Options or Stock Appreciation Rights will vest. Unless the applicable Award Certificate provides otherwise, the Participant's Stock Options and Stock Appreciation Rights will lapse, and will not thereafter be exercisable, upon the earlier of (A) their original expiration date or (B) the date that is three years after the date on which the Participant dies, incurs a Disability or retires.

(iii) Unless the applicable Award Certificate provides otherwise, upon the Retirement of a Participant, a pro rata portion of the Participant's Stock Options and Stock Appreciation Rights will vest so that the total number of vested Stock Options or Stock Appreciation Rights held by the Participant at Termination of Employment (including those that have already vested as of such date) will be equal to (A) the total number of Stock Options or Stock Appreciation Rights originally granted to the Participant under each Award multiplied by (ii) a fraction, the numerator of which is the period of time (in whole months) that have elapsed since the date of grant, and the denominator of which is four years (or such other applicable vesting term as is set forth in the Award Certificate). Unless the Award Certificate provides otherwise, such Participant's Stock Options and Stock Appreciation Rights will lapse, and will not thereafter be exercisable, upon the earlier of (A) their original expiration date or (B) the date that is three years after the date of Termination of Employment.

(iv) Upon the Termination of Employment of a Participant that does not meet the requirements of paragraphs (ii) or (iii) above, or as otherwise provided in Section 5.4 (Change in Control), any unvested Stock Options or Stock Appreciation Rights will be forfeited unless the Award Certificate provides otherwise. Any Stock Options or Stock Appreciation Rights that are vested as of such Termination of Employment will lapse, and will not thereafter be exercisable, upon the earlier of (A) their original expiration date or (B) the date that is ninety (90) days after the date of such Termination of Employment unless the Award Certificate provides otherwise.

(v) Stock Options and Stock Appreciation Rights of a deceased Participant may be exercised only by the estate of the Participant or by the person given authority to exercise the Stock Options or Stock Appreciation Rights by the Participant's will or by operation of law. If a Stock Option or Stock Appreciation Right is exercised by the executor or administrator of a deceased Participant, or by the person or persons to whom the Stock Option or Stock Appreciation Right has been transferred by the Participant's will or the applicable laws of descent and distribution, the Company will be under no obligation to deliver Shares or cash until the Company is satisfied that the person exercising the Stock Option or Stock Appreciation Right is the duly appointed executor or administrator of the deceased Participant or the person to whom the Stock Option or Stock Appreciation Right has been transferred by the Participant's will or by applicable laws of descent and distribution.

(vi) A Stock Appreciation Right granted in tandem with a Stock Option is subject to the same terms and conditions as the related Stock Option and will be exercisable only to the extent that the related Stock Option is exercisable.

(d) *Payment of Exercise Price.* The Exercise Price of a Stock Option must be paid in full when the Stock Option is exercised. Stock certificates will be registered and delivered only upon receipt of payment. Payment of the Exercise Price may be made in cash or by certified check, bank draft, wire transfer, or postal or express money order, provided that the format is approved by the

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

Company or a designated third-party administrator. The Committee, in its discretion may also allow payment to be made by any of the following methods, as set forth in the Award Certificate:

(i) Delivering a properly executed exercise notice to the Company or its agent, together with irrevocable instructions to a broker to deliver to the Company, within the typical settlement cycle for the sale of equity securities on the relevant trading market (or otherwise in accordance with the provisions of Regulation T issued by the Federal Reserve Board), the amount of sale proceeds with respect to the portion of the Shares to be acquired having a Fair Market Value on the date of exercise equal to the sum of the applicable portion of the Exercise Price being so paid;

(ii) Tendering (actually or by attestation) to the Company, previously acquired Shares that have been held by the Participant for at least six months, subject to paragraph (iv), and that have a Fair Market Value on the day prior to the date of exercise equal to the applicable portion of the Exercise Price being so paid, provided that the Board has specifically approved the repurchase of such Shares (unless such approval is not required by the terms of the bye-laws of the Company) and the Committee has determined that, as of the date of repurchase, the Company is, and after the repurchase will continue to be, able to pay its liabilities as they become due; or

(iii) Provided such payment method has been expressly authorized by the Board or the Committee in advance and subject to any requirements of applicable law and regulations, instructing the Company to reduce the number of Shares that would otherwise be issued by such number of Shares as have in the aggregate a Fair Market Value on the date of exercise equal to the applicable portion of the Exercise Price being so paid.

(iv) The Committee, in consideration of applicable accounting standards, may waive any holding period on Shares required to tender pursuant to clause (ii).

(e) *Incentive Stock Options.* Incentive Stock Options granted under the Plan will be subject to the following additional conditions, limitations and restrictions:

(i) *Eligibility.* Incentive Stock Options may be granted only to Employees of the Company or a Subsidiary that is a subsidiary or parent corporation of the Company, within the meaning of Section 424 of the Code.

(ii) *Timing of Grant.* No Incentive Stock Option will be granted under the Plan after the 10-year anniversary of the date on which the Plan is adopted by the Board or, if earlier, the date on which the Plan is approved by the Company's stockholders.

(iii) *Amount of Award.* Subject to Section 5.3 of the Plan, no more than 10 million Shares may be available for grant in the form of Incentive Stock Options. The aggregate Fair Market Value (as of the date of grant) of the Shares with respect to which the Incentive Stock Options awarded to any Employee first become exercisable during any calendar year may not exceed \$100,000 (U.S.). For purposes of this \$100,000 (U.S.) limit, the Employee's Incentive Stock Options under this Plan and all other plans maintained by the Company and its Subsidiaries will be aggregated. To the extent any Incentive Stock Option would exceed the \$100,000 (U.S.) limit, the Incentive Stock Option will afterwards be treated as a Nonqualified Stock Option for all purposes to the extent required by the Code and underlying regulations and rulings.

(iv) *Timing of Exercise.* If the Committee exercises its discretion in the Award Certificate to permit an Incentive Stock Option to be exercised by a Participant more than three months after the Participant has ceased being an Employee (or more than 12 months if the Participant is permanently and totally disabled, within the meaning of Section 22(e) of the

Code), the Incentive Stock Option will afterwards be treated as a Nonqualified Stock Option to the extent required by the Code and underlying regulations and rulings. For purposes of this paragraph (iv), an Employee's employment relationship will be treated as continuing intact while the Employee is on military leave, sick leave or another approved leave of absence if the period of leave does not exceed 90 days, or a longer period to the extent that the Employee's right to reemployment with the Company or a Subsidiary is guaranteed by statute or by contract. If the period of leave exceeds 90 days and the Employee's right to reemployment is not guaranteed by statute or contract, the employment relationship will be deemed to have ceased on the 91st day of the leave.

(v) *Transfer Restrictions.* In no event will the Committee permit an Incentive Stock Option to be transferred by an Employee other than by will or the laws of descent and distribution, and any Incentive Stock Option awarded under this Plan will be exercisable only by the Employee during the Employee's lifetime.

(f) *Exercise of Stock Appreciation Rights.* Upon exercise of a Participant's Stock Appreciation Rights, the Company will pay cash or Shares or a combination of cash and Shares, in the discretion of the Committee and as described in the Award Certificate. Cash payments will be equal to the excess of the Fair Market Value of a Share on the date of exercise over the Exercise Price, for each Share for which a Stock Appreciation Right was exercised. If Shares are paid for the Stock Appreciation Right, the Participant will receive a number of whole Shares equal to the quotient of the cash payment amount divided by the Fair Market Value of a Share on the date of exercise.

(g) *No Repricing.* Except as otherwise provided in Section 5.3, in no event will the Committee (i) decrease the Exercise Price of a Stock Option or Stock Appreciation Right after the date of grant or (ii) cancel outstanding Stock Options or Stock Appreciation Rights in exchange for a cash payment or for a grant of replacement Stock Options or Stock Appreciation Rights with a lower Exercise Price than that of the replaced Stock Options or Stock Appreciation Rights or other Awards, without first obtaining the approval of the holders of a majority of the Shares who are present in person or by proxy at a meeting of the Company's stockholders and entitled to vote.

4.4 *Annual Performance Bonuses.* The Committee may grant Annual Performance Bonuses under the Plan in the form of cash or Shares to the Reporting Persons that the Committee may from time to time select, in the amounts and pursuant to the terms and conditions that the Committee may determine and set forth in the Award Certificate, subject to the provisions below:

(a) *Performance Cycles.* Annual Performance Bonuses will be awarded in connection with a 12-month Performance Cycle, which will be the fiscal year of the Company.

(b) *Eligible Participants.* Within 90 days after the commencement of a Performance Cycle, the Committee will determine the Reporting Persons who will be eligible to receive an Annual Performance Bonus under the Plan.

(c) *Performance Measures; Targets; Award Criteria.*

(i) Within 90 days after the commencement of a Performance Cycle, the Committee will fix and establish in writing (A) the Performance Measures that will apply to that Performance Cycle; (B) the Target Amount payable to each Participant; and (C) subject to subsection (d) below, the criteria for computing the amount that will be paid with respect to each level of attained performance. The Committee will also set forth the minimum level of performance, based on objective factors, that must be attained during the Performance Cycle before any Annual Performance Bonus will be paid and the percentage of the Target Amount that will become payable upon attainment of various levels of performance that equal or exceed the minimum required level.

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

(ii) The Committee may, in its discretion, select Performance Measures that measure the performance of the Company or one or more business units, divisions or Subsidiaries of the Company. The Committee may select Performance Measures that are absolute or relative to the performance of one or more comparable companies or an index of comparable companies.

(iii) The Committee, in its discretion, may, on a case-by-case basis, reduce, but not increase, the amount payable to any Key Employee with respect to any given Performance Cycle, provided, however, that no reduction will result in an increase in the amount payable under any Annual Performance Bonus of another Key Employee.

(d) *Payment, Certification.* No Annual Performance Bonus will vest with respect to any Reporting Person until the Committee certifies in writing the level of performance attained for the Performance Cycle in relation to the applicable Performance Measures. In applying Performance Measures, the Committee may, in its discretion, exclude unusual or infrequently occurring items (including any event listed in Section 5.3 and the cumulative effect of changes in the law, regulations or accounting rules), and may determine no later than ninety (90) days after the commencement of any applicable Performance Cycle to exclude other items, each determined in accordance with GAAP (to the extent applicable) and as identified in the financial statements, notes to the financial statements or discussion and analysis of management.

(e) *Form of Payment.* Annual Performance Bonuses will be paid in cash or Shares. All such Performance Bonuses shall be paid no later than the 15th day of the third month following the end of the calendar year (or, if later, following the end of the Company's fiscal year) in which such Performance Bonuses are no longer subject to a substantial risk of forfeiture (as determined for purposes of Section 409A of the Code), except to the extent that a Participant has elected to defer payment under the terms of a duly authorized deferred compensation arrangement in which case the terms of such arrangement shall govern.

(f) *Section 162(m) of the Code.* It is the intent of the Company that Annual Performance Bonuses be "performance-based compensation" for purposes of Section 162(m) of the Code, that this Section 4.4 be interpreted in a manner that satisfies the applicable requirements of Section 162(m)(C) of the Code and related regulations, and that the Plan be operated so that the Company may take a full tax deduction for Annual Performance Bonuses. If any provision of this Plan or any Annual Performance Bonus would otherwise frustrate or conflict with this intent, the provision will be interpreted and deemed amended so as to avoid this conflict.

4.5 Long Term Performance Awards. The Committee may grant Long Term Performance Awards under the Plan in the form of Performance Units, Restricted Units or Restricted Stock to any Employee who the Committee may from time to time select, in the amounts and pursuant to the terms and conditions that the Committee may determine and set forth in the Award Certificate, subject to the provisions below:

(a) *Performance Cycles.* Long Term Performance Awards will be awarded in connection with a Performance Cycle, as determined by the Committee in its discretion, provided, however, that a Performance Cycle may be no shorter than 12 months and no longer than 5 years.

(b) *Eligible Participants.* Within 90 days after the commencement of a Performance Cycle, the Committee will determine the Employees who will be eligible to receive a Long Term Performance Award for the Performance Cycle, provided that the Committee may determine the eligibility of any Employee other than a Key Employee after the expiration of the 90-day period.

(c) *Performance Measures; Targets; Award Criteria.*

(i) Within 90 days after the commencement of a Performance Cycle, the Committee will fix and establish in writing (A) the Performance Measures that will apply to that Performance Cycle; (B) with respect to Performance Units, the Target Amount payable to each Participant; (C) with respect to Restricted Units and Restricted Stock, the Target Vesting Percentage for each Participant; and (D) subject to subsection (d) below, the criteria for computing the amount that will be paid or will vest with respect to each level of attained performance. The Committee will also set forth the minimum level of performance, based on objective factors, that must be attained during the Performance Cycle before any Long Term Performance Award will be paid or vest, and the percentage of Performance Units that will become payable and the percentage of performance-based Restricted Units or Shares of Restricted Stock that will vest upon attainment of various levels of performance that equal or exceed the minimum required level.

(ii) The Committee may, in its discretion, select Performance Measures that measure the performance of the Company or one or more business units, divisions or Subsidiaries of the Company. The Committee may select Performance Measures that are absolute or relative to the performance of one or more comparable companies or an index of comparable companies.

(iii) The Committee, in its discretion, may, on a case-by-case basis, reduce, but not increase, the amount of Long Term Performance Awards payable to any Key Employee with respect to any given Performance Cycle, provided, however, that no reduction will result in an increase in the dollar amount or number of Shares payable under any Long Term Performance Award of another Key Employee.

(iv) With respect to Employees who are not Key Employees, the Committee may establish, in its discretion, performance criteria other than the Performance Measures that will be applicable for the Performance Cycle.

(d) *Payment, Certification.* No Long Term Performance Award will vest with respect to any Employee until the Committee certifies in writing the level of performance attained for the Performance Cycle in relation to the applicable Performance Measures. Long Term Performance Awards awarded to Participants who are not Key Employees will be based on the Performance Measures, or other applicable performance criteria, and payment formulas that the Committee, in its discretion, may establish for these purposes. These Performance Measures, or other performance criteria, and formulas may be the same as or different than the Performance Measures and formulas that apply to Key Employees.

In applying Performance Measures, the Committee may, in its discretion, exclude unusual or infrequently occurring items (including any event listed in Section 5.3) and the cumulative effect of changes in the law, regulations or accounting rules, and may determine no later than ninety (90) days after the commencement of any applicable Performance Cycle to exclude other items, each determined in accordance with GAAP (to the extent applicable) and as identified in the financial statements, notes to the financial statements or discussion and analysis of management.

(e) *Form of Payment.* Long Term Performance Awards in the form of Performance Units may be paid in cash or full Shares, in the discretion of the Committee, and as set forth in the Award Certificate. Performance-based Restricted Units and Restricted Stock will be paid in full Shares. Payment with respect to any fractional Share will be in cash in an amount based on the Fair Market Value of the Share as of the date the Performance Unit becomes payable. All such Long Term Performance Awards shall be paid no later than the 15th day of the third month following the end of the calendar year (or, if later, following the end of the Company's fiscal year) in which such Long Term Performance Awards are no longer subject to a substantial risk of forfeiture (as determined for purposes of Code Section 409A), except to the extent that a Participant has elected to defer payment under the terms of a duly authorized deferred compensation arrangement, in which case the terms of such arrangement shall govern.

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

(f) *Section 162(m) of the Code.* It is the intent of the Company that Long Term Performance Awards made to Key Employees be "performance-based compensation" for purposes of Section 162(m) of the Code, that this Section 4.5 be interpreted in a manner that satisfies the applicable requirements of Section 162(m)(C) of the Code and related regulations with respect to Long Term Performance awards made to Key Employees, and that the Plan be operated so that the Company may take a full tax deduction for Long Term Performance Awards. If any provision of this Plan or any Long Term Performance Award would otherwise frustrate or conflict with this intent, the provision will be interpreted and deemed amended so as to avoid this conflict.

(g) *Retirement.* If a Participant would be entitled to a Long Term Performance Award but for the fact that the Participant's employment with the Company terminated prior to the end of the Performance Cycle as a result of the Participant's Retirement, the Participant may, in the Committee's discretion, receive a Long Term Performance Award, pro rated for the portion of the Performance Cycle that the Participant completed and payable at the same time after the end of the Performance Cycle that payments to other Long Term Performance Award recipients are made.

4.6 *Other Stock-Based Awards.* The Committee may, from time to time, grant Awards (other than Stock Options, Stock Appreciation Rights, Annual Performance Bonuses or Long Term Performance Awards) to any Employee who the Committee may from time to time select, which Awards consist of, or are denominated in, payable in, valued in whole or in part by reference to, or otherwise related to, Shares. These Awards may include, among other forms, Restricted Stock, Restricted Units, or Deferred Stock Units. The Committee will determine, in its discretion, the terms and conditions that will apply to Awards granted pursuant to this Section 4.6, which terms and conditions will be set forth in the applicable Award Certificate.

(a) *Vesting.* Unless the Award Certificate provides otherwise, restrictions on Stock-Based Awards granted under this Section 4.6 will lapse in equal annual installments over a period of four years beginning immediately after the date of grant. If the restrictions on Stock-Based Awards have not lapsed or been satisfied as of the Participant's Termination of Employment, the Shares will be forfeited by the Participant if the termination is for any reason other than the Retirement, death or Disability of the Participant or a Change in Control. Unless the Award Certificate provides otherwise, (i) all restrictions on Stock-Based Awards granted pursuant to this Section 4.6 will lapse upon the death or Disability of the Participant, (ii) in the event of Retirement, the Award will vest pro rata with respect to the portion of the four-year vesting term (or such other vesting term as is set forth in the Award Certificate) that the Participant has completed as of the Participant's Termination of Employment and provided that the Participant has satisfied all other applicable conditions established by the Committee with respect to such pro rata vesting, and (iii) in the event of a Change in Control, Stock-Based Awards will be treated in accordance with Section 5.4. In no event may the vesting period of a time-based full-value share award be less than three years (on either a cliff or graded vesting basis), except that the Committee may award up to 10 percent of the shares authorized for issuance under Section 5.1 with a vesting period of less than three years under such circumstances as it deems appropriate.

(b) *Grant of Restricted Stock.* The Committee may grant Restricted Stock to any Employee, which Shares will be registered in the name of the Participant and held for the Participant by the Company. The Participant will have all rights of a stockholder with respect to the Shares, including the right to vote and to receive dividends or other distributions, except that the Shares may be subject to a vesting schedule and will be forfeited if the Participant attempts to sell, transfer, assign, pledge or otherwise encumber or dispose of the Shares before the restrictions are satisfied or lapse.

(c) *Grant of Restricted Units.* The Committee may grant Restricted Units to any Employee, which Units will be paid in cash or whole Shares or a combination of cash and Shares, as determined in the discretion of the Committee. The Committee will determine the terms and

conditions applicable to the grant of Restricted Units, which terms and conditions will be set forth in the Award Certificate. For each Restricted Unit that vests, one Share will be paid or an amount in cash equal to the Fair Market Value of a Share, as set forth in the Award Certificate, will be delivered to the Participant on the applicable delivery date.

(d) *Grant of Deferred Stock Units.* The Committee may grant Deferred Stock Units to any Employee, which Units will be paid in whole Shares upon the Employee's Termination of Employment if the restrictions on the Units have lapsed. One Share will be paid for each Deferred Stock Unit that becomes payable.

(e) *Dividends and Dividend Equivalents.* At the discretion of the Committee and as set forth in the applicable Award Certificate, dividends issued on Shares may be paid immediately or withheld and deferred in the Participant's account. In the event of a payment of dividends on Common Stock, the Committee may credit Restricted Units with Dividend Equivalents in accordance with terms and conditions established in the discretion of the Committee. Dividend Equivalents will be subject to such vesting terms as is determined by the Committee and may be distributed immediately or withheld and deferred in the Participant's account as determined by the Committee and set forth in the applicable Award Certificate. Deferred Stock Units may, in the discretion of the Committee and as set forth in the Award Certificate, be credited with Dividend Equivalents or additional Deferred Stock Units. The number of any Deferred Stock Units credited to a Participant's account upon the payment of a dividend will be equal to the quotient produced by dividing the cash value of the dividend by the Fair Market Value of one Share as of the date the dividend is paid. The Committee will determine any terms and conditions on deferral of a dividend or Dividend Equivalent, including the rate of interest to be credited on deferral and whether interest will be compounded.

4.7 *Director Awards.*

(a) The Committee may grant Deferred Stock Units to each Director in such an amount as the Board, in its discretion, may approve in advance. Each such Deferred Stock Unit will vest as determined by the Committee and set forth in the Award Certificate and will be paid in Shares within 30 days following the recipient's Termination of Directorship, subject to deferral under any applicable deferred compensation plan approved by the Committee, in which case the terms of such arrangement shall govern. Dividend Equivalents or additional Deferred Stock Units will be credited to each Director's account when dividends are paid on Common Stock to the shareholders, and will be paid to the Director at the same time that the Deferred Stock Units are paid to the Director.

(b) The Committee may grant Director Shares to each Director in such amounts as the Board, in its discretion, may approve in advance.

(c) The Committee may, in its discretion, grant Stock Options, Stock Appreciation Rights and other Stock-Based Awards to Directors.

4.8 *Substitute Awards.* The Committee may make Awards under the Plan to Acquired Grantees through the assumption of, or in substitution for, outstanding Stock-Based Awards previously granted to such Acquired Grantees. Such assumed or substituted Awards will be subject to the terms and conditions of the original awards made by the Acquired Company, with such adjustments therein as the Committee considers appropriate to give effect to the relevant provisions of any agreement for the acquisition of the Acquired Company, provided that any such adjustment with respect to Nonqualified Stock Options and Stock Appreciation Rights shall satisfy the requirements of Treas. Reg. § 1.409A-1(b)(5)(v)(D) and otherwise ensure that such awards continue to be exempt from Code Section 409A and provided that any adjustment to Awards that are subject to Code Section 409A is in compliance with Code Section 409A and the regulations and rulings thereunder. Any grant of Incentive Stock Options pursuant to this Section 4.8 will be made in accordance with Section 424 of the Code and any final regulations published thereunder.

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

4.9 *Limit on Individual Grants.* Subject to Sections 5.1 and 5.3, no Employee may be granted more than 6 million Shares over any calendar year pursuant to Awards of Stock Options, Stock Appreciation Rights and performance-based Restricted Stock and Restricted Units, except that an incentive Award of no more than 10 million Shares may be made pursuant to Stock Options, Stock Appreciation Rights and performance-based Restricted Stock and Restricted Units to any person who has been hired within the calendar year as a Key Employee. The maximum amount that may be paid in cash or Shares pursuant to Annual Performance Bonuses or Long Term Performance Awards paid in Performance Units to any one Employee is \$10 million (U.S.) for any Performance Cycle of 12 months. For any longer Performance Cycle, this maximum will be adjusted proportionally.

4.10 *Termination for Cause.* Notwithstanding anything to the contrary herein, if a Participant incurs a Termination of Directorship or Termination of Employment for Cause, then all Stock Options, Stock Appreciation Rights, Annual Performance Bonuses, Long Term Performance Awards, Restricted Units, Restricted Stock and other Stock-Based Awards will immediately be cancelled. The exercise of any Stock Option or Stock Appreciation Right or the payment of any Award may be delayed, in the Committee's discretion, in the event that a potential termination for Cause is pending, subject to ensuring an exemption from or compliance with Code Section 409A and the underlying regulations and rulings. If a Participant incurs a Termination of Employment for Cause, or the Company becomes aware (after the Participant's Termination of Employment) of conduct on the part of the Participant that would be grounds for a Termination of Employment for Cause, then the Participant will be required to deliver to the Company (i) Shares (or, in the discretion of the Committee, cash) in an amount that is equal in value to the amount of any profit the Participant realized upon the exercise of an Option during the period beginning six (6) months prior to the Participant's Termination of Employment for Cause and ending on the two (2) year anniversary of such Termination of Employment; and (ii) the number of Shares (or, in the discretion of the Committee, the cash value of said shares) the Participant received for Restricted Shares or Restricted Units that vested during the period described in (i) above.

ARTICLE V SHARES SUBJECT TO THE PLAN; ADJUSTMENTS

5.1 *Shares Available.* The Shares issuable under the Plan will be authorized but unissued Shares, and, to the extent permissible under applicable law, Shares acquired by the Company, any Subsidiary or any other person or entity designated by the Company. The total number of Shares with respect to which Awards may be issued under the Plan may equal, but may not exceed, five percent (5%) of the Shares outstanding as of June 29, 2007, subject to adjustment in accordance with Section 5.3; provided that when Shares are issued pursuant to a grant of Restricted Stock, Restricted Units, Deferred Stock Units, Performance Units or as payment of an Annual Performance Bonus or other Stock-Based Award, the total number of Shares remaining available for grant will be decreased by a margin of at least 1.8 per Share issued. In addition, in the case of the settlement of any stock-settled Stock Appreciation Right, the total number of Shares available for grant will be decreased by the total number of Shares equal in value to the total value of the Stock Appreciation Right on the day of settlement. No more than 10 million Shares of the total Shares issuable under the Plan may be available for grant in the form of Incentive Stock Options.

5.2 *Counting Rules.* The following Shares related to Awards under this Plan may again be available for issuance under the Plan, in addition to the Shares described in Section 5.1:

(a) Shares related to Awards paid in cash;

(b) Shares related to Awards that expire, are forfeited or cancelled or terminate for any other reason without issuance of Shares, and provided that each such forfeited, cancelled or terminated Share that was originally issued pursuant to a grant of Restricted Stock, Restricted Units, Deferred Stock Units, Performance Units or as payment of an Annual Performance Bonus or other Stock-Based Award shall be counted as 1.8 Share;

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

(c) Any Shares issued in connection with Awards that are assumed, converted or substituted as a result of the acquisition of an Acquired Company by the Company or a combination of the Company with another company; and

(d) Any Shares of Restricted Stock that are returned to the Company upon a Participant's Termination of Employment.

5.3 *Adjustments.* In the event of a change in the outstanding Shares by reason of a stock split, reverse stock split, dividend or other distribution (whether in the form of cash, Shares, other securities or other property), extraordinary cash dividend, recapitalization, merger, consolidation, split-up, spin-off, reorganization, combination, repurchase or exchange of Shares or other securities or similar corporate transaction or event, the Committee shall make an appropriate adjustment to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan. Any such adjustment with respect to Nonqualified Stock Options and Stock Appreciation Rights shall satisfy the requirements of Treas. Reg. § 1.409A-1(b)(5)(v)(D) and otherwise ensure that such awards continue to be exempt from Code Section 409A, and any adjustment to Awards that are subject to Code Section 409A shall comply with Code Section 409A and the regulations and rulings thereunder. Any adjustment made by the Committee under this Section 5.3 will be conclusive and binding for all purposes under the Plan.

5.4 *Change in Control.*

(a) Unless otherwise provided under the terms of an applicable Award Certificate, (i) all outstanding Stock Options and Stock Appreciation Rights will become exercisable as of the effective date of a Participant's Change in Control Termination if the Awards are not otherwise vested, and all conditions will be waived with respect to outstanding Restricted Stock, Restricted Units and other Stock-Based Awards (other than Long Term Performance Awards) and Deferred Stock Units, and (ii) each Participant who has been granted an Annual Performance Bonus or Long Term Performance Award that is outstanding as of the date of such Participant's Change in Control Termination will be deemed to have achieved a level of performance, as of the Change in Control Termination, that would cause all (100%) of the Participant's Target Amounts to become payable and all restrictions on the Participant's Restricted Units and Shares of Restricted Stock to lapse. Unless the Committee determines otherwise in its discretion (either when the award is granted or any time thereafter), in the event that Awards outstanding as of the date of a Change in Control that are payable in shares of Company Common Stock will not be substituted with comparable awards payable or redeemable in shares of publicly-traded stock after the Change in Control, each such outstanding Award (i) will become fully vested (at target, where applicable) immediately prior to the Change in Control and (ii) each such Award that is a Stock Option will be settled in cash, without the Participant's consent, for an amount equal to the amount that could have been attained upon the exercise of such Award immediately prior to the Change in Control had such Award been exercisable or payable at such time.

(b) In addition to the such other actions described in Section 5.4(a), in the event of a Change in Control the Committee may take any one or more of the following actions with respect to any or all outstanding Awards, without the consent of the Participant: (i) the Committee may determine that outstanding Stock Options and Stock Appreciation Rights shall be fully exercisable, and restrictions on Restricted Stock, Restricted Units, Deferred Stock Units and other Stock-Based Awards shall lapse, as of the date of the Change in Control or such other time (prior to a Participant's Change in Control Termination) as the Committee determines, (ii) the Committee may require that a Participant surrender their outstanding Stock Options and Stock Appreciation Rights in exchange for one or more payments by the Company, in cash or Common Stock as determined by the Committee, in an amount equal to the amount by which the then Fair Market Value of the shares of Common Stock subject to the Participant's unexercised Stock Options and Stock Appreciation Rights exceeds the exercise price, if any, and on such terms as the Committee

determines, (iii) after giving Participants an opportunity to exercise their outstanding Stock Options and Stock Appreciation Rights, the Committee may terminate any or all unexercised Stock Options and Stock Appreciation Rights at such time as the Committee deems appropriate, (iv) the Committee may determine that Annual Performance Bonuses and/or Long Term Performance Awards will be paid out at their target level, in cash or Common Stock as determined by the Committee, or (v) the Committee may determine that Awards that remain outstanding after the Change in Control shall be converted to similar grants of, or assumed by, the surviving corporation (or a parent or subsidiary of the surviving corporation or successor). Such acceleration, surrender, termination, settlement or conversion shall take place as of the date of the Change in Control or such other date as the Committee may specify. The Committee may specify how an Award will be treated in the event of a Change in Control either when the Award is granted or at any time thereafter, except as otherwise provided herein.

5.5 *Fractional Shares.* No fractional Shares will be issued under the Plan. Except as otherwise provided in Section 4.5(e), if a Participant acquires the right to receive a fractional Share under the Plan, the Participant will receive, in lieu of the fractional Share, a full Share as of the date of settlement, unless otherwise provided by the Committee.

ARTICLE VI AMENDMENT AND TERMINATION

6.1 *Amendment.* The Plan may be amended at any time and from time to time by the Board without the approval of stockholders of the Company, except that no material revision to the terms of the Plan will be effective until the amendment is approved by the stockholders of the Company. A revision is "material" for this purpose if, among other changes, it materially increases the number of Shares that may be issued under the Plan (other than an increase pursuant to Section 5.3 of the Plan), expands the types of Awards available under the Plan, materially expands the class of persons eligible to receive Awards under the Plan, materially extends the term of the Plan, materially decreases the Exercise Price at which Stock Options or Stock Appreciation Rights may be granted, reduces the Exercise Price of outstanding Stock Options or Stock Appreciation Rights, or results in the replacement of outstanding Stock Options and Stock Appreciation Rights with new Awards that have an Exercise Price that is lower than the Exercise Price of the replaced Stock Options and Stock Appreciation Rights. No amendment of the Plan or any outstanding Award made without the Participant's written consent may adversely affect any right of a Participant with respect to an outstanding Award.

6.2 *Termination.* The Plan will terminate upon the earlier of the following dates or events to occur:

- (a) the adoption of a resolution of the Board terminating the Plan; or
- (b) the day before the 10th anniversary of the adoption of the Plan by the Company's shareholder as described in Section 1.2.

No Awards will be granted under this Plan after it has terminated. The termination of the Plan, however, will not alter or impair any of the rights or obligations of any person under any Award previously granted under the Plan without such person's consent. After the termination of the Plan, any previously granted Awards will remain in effect and will continue to be governed by the terms of the Plan and the applicable Award Certificate.

ARTICLE VII GENERAL PROVISIONS

7.1 *Nontransferability of Awards.* No Award under the Plan will be subject in any manner to alienation, anticipation, sale, assignment, pledge, encumbrance or transfer, and no other persons will otherwise acquire any rights therein, except as provided below.

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

(a) Any Award may be transferred by will or by the laws of descent or distribution.

(b) The Committee may provide in the applicable Award Certificate that all or any part of a Nonqualified Option or Shares of Restricted Stock may, subject to the prior written consent of the Committee, be transferred to a family member. For purposes of this subsection (b), "family member" includes any child, stepchild, grandchild, parent, stepparent, grandparent, spouse, former spouse, sibling, niece, nephew, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the Participant, including adoptive relationships, any person sharing the Participant's household (other than a tenant or employee), a trust in which these persons have more than 50 percent of the beneficial interest, a foundation in which these persons (or the Participant) control the management of assets, and any other entity in which these persons (or the Participant) own more than 50 percent of the voting interests.

Any transferred Award will be subject to all of the same terms and conditions as provided in the Plan and the applicable Award Certificate. The Participant or the Participant's estate will remain liable for any withholding tax that may be imposed by any federal, state or local tax authority. The Committee may, in its discretion, disallow all or a part of any transfer of an Award pursuant to this subsection (b) unless and until the Participant makes arrangements satisfactory to the Committee for the payment of any withholding tax. The Participant must immediately notify the Committee, in the form and manner required by the Committee, of any proposed transfer of an Award pursuant to this subsection (b). No transfer will be effective until the Committee consents to the transfer in writing.

(c) Except as otherwise provided in the applicable Award Certificate, any Nonqualified Stock Option transferred by a Participant pursuant to this subsection (c) may be exercised by the transferee only to the extent that the Award would have been exercisable by the Participant had no transfer occurred. The transfer of Shares upon exercise of the Award will be conditioned on the payment of any withholding tax.

(d) Restricted Stock may be freely transferred after the restrictions lapse or are satisfied and the Shares are delivered, provided, however, that Restricted Stock awarded to an affiliate of the Company may be transferred only pursuant to Rule 144 under the Securities Act, or pursuant to an effective registration for resale under the Securities Act. For purposes of this subsection (d), "affiliate" will have the meaning assigned to that term under Rule 144.

(e) In no event may a Participant transfer an Incentive Stock Option other than by will or the laws of descent and distribution.

7.2 Withholding of Taxes. The Committee, in its discretion, may satisfy a Participant's tax withholding obligations by any of the following methods or any method as it determines to be in accordance with the laws of the jurisdiction in which the Participant resides, has domicile or performs services.

(a) *Stock Options and Stock Appreciation Rights.* As a condition to the delivery of Shares pursuant to the exercise of a Stock Option or Stock Appreciation Right, the Committee may require that the Participant, at the time of exercise, pay to the Company by cash, certified check, bank draft, wire transfer or postal or express money order an amount sufficient to satisfy any applicable tax withholding obligations. The Committee may also, in its discretion, accept payment of tax withholding obligations through any of the Exercise Price payment methods described in Section 4.3(d).

(b) *Other Awards Payable in Shares.* The Participant shall satisfy the Participant's tax withholding obligations arising in connection with the release of restrictions on Restricted Units, Restricted Stock and other Stock-Based Awards by payment to the Company in cash or by certified check, bank draft, wire transfer or postal or express money order, provided that the format is approved by the Company or a designated third-party administrator. However, subject to any

requirements of applicable law, the Company may also satisfy the Participant's tax withholding obligations by other methods, including selling or withholding Shares that would otherwise be available for delivery, provided that the Board or the Committee has specifically approved such payment method in advance.

(c) *Cash Awards.* The Company may satisfy a Participant's tax withholding obligation arising in connection with the payment of any Award in cash by withholding cash from such payment.

7.3 *Special Forfeiture Provision.* The Committee may, in its discretion, provide in an Award Certificate that the Participant may not, within two years of the Participant's Termination of Employment with the Company, enter into any employment or consultation arrangement (including service as an agent, partner, stockholder, consultant, officer or director) with any entity or person engaged in any business in which the Company or any Subsidiary is engaged without prior written approval of the Committee if, in the sole judgment of the Committee, the business is competitive with the Company or any Subsidiary or business unit or such employment or consultation arrangement would present a risk that the Participant would likely disclose Company proprietary information (as determined by the Committee). If the Committee makes a determination that this prohibition has been violated, the Participant (i) will forfeit all rights under any outstanding Stock Option or Stock Appreciation Right that was granted subject to the Award Certificate and will return to the Company the amount of any profit realized upon an exercise of all Awards during the period, as the Committee determines and sets forth in the Award Certificate, beginning no earlier than six months prior to the Participant's Termination of Employment, and (ii) will forfeit and return to the Company any Annual Performance Bonuses, Performance Units, Shares of Restricted Stock, Restricted Units (including any credited Dividend Equivalents), Deferred Stock Units, and other Stock-Based Awards that are outstanding on the date of the Participant's Termination of Employment, subject to the Award Certificate, and have not vested or that had vested and remain subject to this Section 7.3 during a period, as the Committee determines and sets forth in the Award Certificate, beginning no earlier than six months prior to the Participant's Termination of Employment.

7.4 *No Implied Rights.* The establishment and operation of the Plan, including the eligibility of a Participant to participate in the Plan, will not be construed as conferring any legal or other right upon any Director for any continuation of directorship or any Employee for the continuation of employment through the end of any Performance Cycle or other period. The Company expressly reserves the right, which may be exercised at any time and in the Company's sole discretion, to discharge any individual or treat him or her without regard to the effect such discharge might have upon him or her as a Participant in the Plan.

7.5 *No Obligation to Exercise Awards.* The grant of a Stock Option or Stock Appreciation Right will impose no obligation upon the Participant to exercise the Award.

7.6 *No Rights as Stockholders.* A Participant who is granted an Award under the Plan will have no rights as a stockholder of the Company with respect to the Award unless and until certificates for the Shares underlying the Award are registered in the Participant's name and (other than in the case of Restricted Stock) delivered to the Participant. The right of any Participant to receive an Award by virtue of participation in the Plan will be no greater than the right of any unsecured general creditor of the Company.

7.7 *Indemnification of Committee.* The Company will indemnify, to the fullest extent permitted by law, each person made or threatened to be made a party to any civil or criminal action or proceeding by reason of the fact that the person, or the executor or administrator of the person's estate, is or was a member of the Committee or a delegate of the Committee.

7.8 *No Required Segregation of Assets.* Neither the Company nor any Subsidiary will be required to segregate any assets that may at any time be represented by Awards granted pursuant to the Plan.

Edgar Filing: Tyco Electronics Ltd. - Form DEF 14A

7.9 Nature of Payments. All Awards made pursuant to the Plan are in consideration of services for the Company or a Subsidiary. Any gain realized pursuant to Awards under the Plan constitutes a special incentive payment to the Participant and will not be taken into account as compensation for purposes of any other employee benefit plan of the Company or a Subsidiary, except as the Committee otherwise provides. The adoption of the Plan will have no effect on Awards made or to be made under any other benefit plan covering an employee of the Company or a Subsidiary or any predecessor or successor of the Company or a Subsidiary.

7.10 Securities Law Compliance. Awards under the Plan are intended to satisfy the requirements of Rule 16b-3 under the Exchange Act. If any provision of this Plan or any grant of an Award would otherwise frustrate or conflict with this intent, that provision will be interpreted and deemed amended so as to avoid conflict. No Participant will be entitled to a grant, exercise, transfer or payment of any Award if the grant, exercise, transfer or payment would violate the provisions of the Sarbanes-Oxley Act of 2002 or any other applicable law.

7.11 Section 409A Compliance. To the extent the Committee determines that any Award granted under the Plan is subject to Section 409A of the Code, the Award Certificate evidencing such Award will incorporate the terms and conditions required by Section 409A of the Code. To the extent applicable, the Plan and the Award Certificate will be interpreted in accordance with Section 409A of the Code and Department of Treasury regulations and other interpretive guidance issued thereunder, including without limitation any such regulations or other guidance that may be issued after the Effective Date. Notwithstanding any provision of the Plan, in the event that the Committee determines that any Award may be subject to Section 409A of the Code, the Committee may adopt such amendments to the Plan and/or the applicable Award Certificate or adopt policies and procedures or take any other action or actions, including an action or amendment with retroactive effect, that the Committee determines is necessary or appropriate to (i) exempt the Award from the application of Section 409A of the Code or (ii) comply with the requirements of Section 409A of the Code. Any Award that provides for a payment to any Participant who is a "specified employee" of deferred compensation that is subject to Code Section 409A(a)(2) and that becomes payable upon, or that is accelerated upon, such Participant's Termination of Employment, shall also provide that no such payment shall be made on or before the date which is six months following such Participant's Termination of Employment (or, if earlier, such Participant's death). A specified employee for this purpose shall be determined by the Committee or its delegate in accordance with the provisions of Code Section 409A and the regulations and rulings thereunder.

7.12 Governing Law, Severability. The Plan and all determinations made and actions taken under the Plan will be governed by the law of Bermuda and construed accordingly. If any provision of the Plan is held unlawful or otherwise invalid or unenforceable in whole or in part, the unlawfulness, invalidity or unenforceability will not affect any other parts of the Plan, which parts will remain in full force and effect.
