PRELIMINARY PROXY STATEMENT, SUBJECT TO COMPLETION

PHH Corporation

April 30, 2013

Dear Fellow Stockholder:

You are cordially invited to attend the 2013 Annual Meeting of Stockholders (the "Annual Meeting") of PHH Corporation (the "Company"), which will be held at our offices located at 3000 Leadenhall Road, Mt. Laurel, New Jersey 08054, on Wednesday, June 12, 2013, at 10:00 a.m., local time. At the Annual Meeting, stockholders will be asked to vote on the matters described in the accompanying Notice of 2013 Annual Meeting.

YOUR VOTE IS EXTREMELY IMPORTANT REGARDLESS OF THE NUMBER OF SHARES YOU OWN.

In order to ensure that your shares are represented at the Annual Meeting, whether you plan to attend or not, please vote in accordance with the enclosed instructions. You can vote your shares by telephone, electronically via the Internet or by completing and returning the enclosed proxy card. If you vote using the enclosed proxy card, you must sign, date and mail the proxy card in the enclosed envelope. If you decide to attend the Annual Meeting and wish to modify your vote, you may revoke your proxy and vote in person at the meeting.

Admission to the Annual Meeting will be by admission ticket only. If you are a stockholder of record and plan to attend the Annual Meeting, retain the top portion of your proxy card as your admission ticket and bring it and a photo ID with you so that you may gain admission to the meeting. If your shares are held through a bank, broker or other nominee, please contact your nominee and request that the nominee obtain an admission ticket for you or provide you with evidence of your share ownership, which will gain you admission to the Annual Meeting.

Pursuant to rules adopted by the U.S. Securities and Exchange Commission, we are furnishing via the Internet our proxy statement and other proxy materials to stockholders holding less than 1,000 shares of our common stock as of the record date for the Annual Meeting. We believe this e-proxy process reduces the environmental impact of our Annual Meeting, reduces our printing and postage costs, and expedites the receipt of proxy materials by our stockholders.

Thank you for your continued interest in PHH Corporation. We look forward to seeing you at the meeting.

Sincerely,

Glen A. Messina
President and Chief Executive Officer

Who can attend the Annual Meeting?

Edgar Filing: PHH CORP - Form PRE 14A

Only stockholders of record as of the close of business on March 25, 2013, or their duly appointed proxies, may attend the Annual Meeting. Stockholders will be asked to present valid picture identification, such as a driver's license or passport. Please note that, if you are a beneficial owner and hold your shares in "street name," or through an intermediary, such as a bank, broker or other nominee, you must bring either

an admission ticket from your bank, broker or other nominee that is the record holder of your shares or a copy of a brokerage statement reflecting your stock ownership as of the record date.

Cameras and video recording devices will not be permitted at the Annual Meeting. A list of stockholders entitled to vote at the Annual Meeting will be available for examination by any stockholder for any purpose germane to the Annual Meeting beginning ten days prior to the Annual Meeting during ordinary business hours at 3000 Leadenhall Road, Mt. Laurel, New Jersey 08054, our principal place of business, and ending on the date of the Annual Meeting.

Do I need an admission ticket to attend the Annual Meeting?

Yes. Attendance at the Annual Meeting will be limited to stockholders of record as of the record date, their authorized representatives and our guests. Admission will be by admission ticket only. For registered stockholders, the top portion of the proxy card enclosed with the Proxy Statement will serve as an admission ticket. If you are a beneficial owner and hold your shares in "street name," or through an intermediary, such as a bank, broker or other nominee, you should request an admission ticket from your bank, broker or other nominee or send a request in writing to PHH Corporation, Attention: Investor Relations, 3000 Leadenhall Road, Mt. Laurel, New Jersey 08054, and include proof of ownership of PHH Corporation common stock, such as a bank or brokerage firm account statement or letter from the bank, broker or other nominee holding your stock, confirming your beneficial ownership. Stockholders who do not obtain admission tickets in advance of the Annual Meeting may obtain them on the date of the Annual Meeting at the registration desk upon verifying their stock ownership as of the record date. In accordance with our security procedures, all persons attending the Annual Meeting must present picture identification along with their admission ticket or proof of beneficial ownership in order to gain admission to the meeting. Admission to the Annual Meeting will be expedited if admission tickets are obtained in advance. Admission tickets may be issued to others at our discretion.

How many votes must be present at the Annual Meeting to constitute a quorum?

Stockholders holding a majority of the issued and outstanding shares of our common stock entitled to vote as of the record date, March 25, 2013, must be present, in person or by proxy, to constitute a quorum at the Annual Meeting. As of the record date, there were 57,060,403 shares of our common stock issued and outstanding. Shares represented by abstentions on any proposal to be acted upon by stockholders at the Annual Meeting will be treated as present at the Annual Meeting for purposes of determining whether a quorum is present.

How many votes can be cast by all stockholders?

57,060,403 votes may be cast at the Annual Meeting. Each stockholder is entitled to cast one vote for each share of common stock held by such stockholder as of the record date. There is no cumulative voting and the holders of our common stock vote together as a single class.

What vote is needed for each of the proposals to be adopted?

Proposal 1 Director Election Proposal: Directors are elected by a plurality of the votes cast by stockholders of record as of the record date that are present, in person or by proxy, at a meeting of stockholders at which a quorum is present. If Proposal 2 is approved by the stockholders at the Annual Meeting, the ten candidates with the highest number of "**FOR**" votes will be elected, subject to our majority vote standard for directors in uncontested elections as set forth in our Corporate Governance Guidelines and described below. If Proposal 2 is not approved by the stockholders at the Annual Meeting, the four candidates (comprised of Ms. Jane D. Carlin, Mr. Thomas P. Gibbons, Ms. Deborah M. Reif and Mr. Carroll R. Wetzel, Jr.) with the highest number of "**FOR**" votes will be elected, subject to our majority vote standard for directors in uncontested elections as

Table of Contents

set forth in our Corporate Governance Guidelines and described below. In each case, under applicable Maryland law, abstentions and broker non-votes, if any, will not be counted as votes cast for the election of directors and, therefore, will have no effect on the outcome of the vote, although abstentions and broker non-votes will be taken into account for purposes of determining whether a quorum is present at the meeting.

Under our Corporate Governance Guidelines, a director that fails to receive more votes cast "for" than "against" his or her election or re-election is expected to tender his or her resignation from the Board and, within 90 days following certification of the stockholder vote, the Corporate Governance Committee of the Board is required to determine whether to accept the director's resignation and to submit such recommendation for prompt consideration by the Board. Under our Corporate Governance Guidelines, the Board is required to act on any such recommendation from the Corporate Governance Committee and the Board shall nominate for election or re-election as director only candidates who agree to tender, promptly following such person's failure to receive the required vote for election or re-election at the next meeting at which such person would face election or re-election, an irrevocable resignation that will be effective upon Board acceptance of such resignation.

Proposal 2 Charter Amendment Proposal to Declassify the Board of Directors: Approval of the amendment to our Charter to declassify our Board of Directors as contemplated by the Articles of Amendment requires the affirmative vote of eighty percent (80%) of the aggregate votes entitled to be cast on the proposal by stockholders of record as of the record date. Under applicable Maryland law, abstentions and broker non-votes, if any, will have the same effect as votes against the proposal, although abstentions and broker non-votes will be taken into account for the purpose of determining whether a quorum is present at the meeting.

Proposal 3 Ratification of Auditors Proposal: Approval of the ratification of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2013 requires the affirmative vote of a majority of the votes cast on the proposal by stockholders of record as of the record date that are present, in person or by proxy, at a meeting of stockholders at which a quorum is present. Under applicable Maryland law, abstentions will be taken into account for the purpose of determining whether a quorum is present at the meeting, but will not be counted as votes cast or shares voting on the proposal and will have no effect on the outcome of the vote.

Proposal 4 Say on Pay Vote: Approval of the advisory resolution approving compensation of our named executive officers as disclosed pursuant to Item 402 of Regulation S-K, requires the affirmative vote of a majority of the votes cast on the proposal by stockholders of record as of the record date that are present, in person or by proxy, at a meeting of stockholders at which a quorum is present. Under applicable Maryland law, abstentions and broker non-votes, if any, will be taken into account for the purpose of determining whether a quorum is present at the meeting, but will not be counted as votes cast or shares voting on the proposal and will have no effect on the outcome of the vote. Although the Say on Pay Vote is only advisory in nature and is not binding on the Board or the Company, we intend to review the voting results with the Board and the Human Capital and Compensation Committee of the Board so that such voting results may be taken into consideration in connection with future executive compensation decisions.

Other business: All other business that may properly come before the Annual Meeting requires the affirmative vote of a majority of the votes cast on the proposal by stockholders of record as of the record date that are present, in person or by proxy, at a meeting of stockholders at which a quorum is present. Under applicable Maryland law, abstentions and broker non-votes, if any, will not be counted as votes cast or shares voting on the proposal and, therefore, will have no effect on

Table of Contents

the outcome of the vote, although abstentions and broker non-votes will be taken into account for the purpose of determining whether a quorum is present at the meeting.

What is a broker non-vote?

Generally, a broker non-vote occurs when shares held by a bank, broker or other nominee for a beneficial owner are not voted with respect to a particular proposal because (i) the nominee has not received voting instructions from the beneficial owner and (ii) the nominee lacks discretionary voting power to vote such shares. Under the rules of the New York Stock Exchange (the "NYSE"), a nominee does not have discretionary voting power with respect to "non-routine" matters.

"Non-routine" matters under the NYSE's rules include director elections, whether contested or uncontested, and votes concerning executive compensation and certain corporate governance proposals. As a result, your bank, broker or other nominee may only vote your shares on "non-routine" matters if you have provided your bank, broker or other nominee with specific voting instructions.

Thus, if your shares are held in "street name" and you do not provide instructions as to how your shares are to be voted on "non-routine" matters, your bank, broker or other nominee will not be able to vote your shares on your behalf and your shares will be reported as "broker non-votes." For matters that are still considered "routine" under the NYSE's rules (e.g., ratification of auditors), your bank, broker or other nominee may continue to exercise discretionary voting authority and may vote your shares on your behalf for such routine matters even if you fail to provide your bank, broker or other nominee with specific voting instructions as to how you would like your shares voted on such routine matters.

We urge you to provide instructions to your bank, broker or other nominee so that your votes may be counted for each proposal to be voted upon. You should vote your shares by following the instructions provided on the vote instruction form that you receive from your bank, broker or other nominee.

How do I vote?

You can vote in person or by valid proxy received by telephone, via the Internet or by mail. We urge you to vote by doing one of the following:

Vote by Telephone: You can vote your shares by calling the toll-free number indicated on your proxy card using a touch-tone telephone 24 hours a day. Easy-to-follow voice prompts enable you to vote your shares and confirm that your voting instructions have been properly recorded. If you are a beneficial owner, or you hold your shares in "street name," please check your vote instruction form or contact your bank, broker or other nominee to determine whether you will be able to vote by telephone.

Vote by Internet: You can also vote via the Internet by following the instructions on your proxy card. The website address for Internet voting is indicated on your proxy card. Internet voting is also available 24 hours per day. If you are a beneficial owner, or you hold your shares in "street name," please check your vote instruction form or contact your bank, broker or other nominee to determine whether you will be able to vote via the Internet.

Vote by Mail: If you choose to vote by mail, complete, sign, date and return your proxy card in the postage-paid envelope provided. Please promptly mail your proxy card to ensure that it is received on or before June 11, 2013.

The deadline for voting by telephone or electronically through the Internet is 11:59 p.m. EDT on June 11, 2013.

Table of Contents

Can I change my vote?

Yes. A proxy may be revoked at any time prior to the voting at the Annual Meeting by submitting a later dated proxy (including a proxy authorization submitted by telephone or electronically through the Internet prior to the deadline for voting by telephone or the Internet), by giving timely written notice of such revocation to our Corporate Secretary in advance of the Annual Meeting or by attending the Annual Meeting and voting in person. If you have shares held by a bank, broker or other nominee or in "street name", you may change your vote by submitting a later dated voting instruction form to your broker, bank or other nominee or fiduciary, or if you obtained a legal proxy from your broker, bank nominee or fiduciary giving you the right to vote your shares, by attending the meeting and voting in person.

Could other matters be decided at the Annual Meeting?

The Board does not intend to bring any matter before the Annual Meeting other than those described in this Proxy Statement. If any other matters properly come before the Annual Meeting, the persons named in the enclosed proxy, or their duly appointed substitutes acting at the Annual Meeting, will be authorized to vote or otherwise act in respect of any such matters in their discretion.

What if I vote for some but not all of the proposals?

Shares of our common stock represented by proxies received by us (whether received through the return of the enclosed proxy card or received via telephone or the Internet) where the stockholder has provided voting instructions with respect to the proposals described in this Proxy Statement, including the Director Election Proposal, the Charter Amendment Proposal to Declassify the Board of Directors, the Ratification of Auditors Proposal, and the Say on Pay Vote will be voted in accordance with the voting instructions so made. If your proxy card is properly executed and returned but does not contain voting instructions as to one or more of the proposals to be voted upon at the Annual Meeting, or if you give your proxy by telephone or via the Internet without indicating how you want to vote on each of the proposals to be voted upon at the Annual Meeting, your shares will be voted:

FOR the Director Election Proposal;

FOR the Charter Amendment Proposal to Declassify the Board of Directors;

FOR the Ratification of Auditors Proposal;

FOR the Say on Pay Vote; and

At the discretion of the persons named in the enclosed proxy card, on any other matter that may properly come before the Annual Meeting or any adjournment or postponement of the Annual Meeting.

If your shares are held in street name and you do not properly instruct your bank, broker or other nominee how to vote your shares, your bank, broker or other nominee may either use its discretion to vote your shares on matters deemed "routine" by the NYSE or may not vote your shares. For any matters deemed "non-routine" by the NYSE, your bank, broker or other nominee would not be able to vote your shares on such matters. We encourage you to provide instructions to your bank, broker or other nominee by carefully following the instructions provided to ensure that your shares are voted at the Annual Meeting in accordance with your desires.

Who will pay for the cost of this proxy solicitation?

We will pay the cost of soliciting proxies on behalf of our Board. Our directors, officers and employees may solicit proxies on our behalf in person or by telephone, facsimile or electronically through the Internet, as described above. We have engaged Broadridge Financial Solutions, Inc. ("Broadridge") to assist us in the distribution and solicitation of proxies. We will also reimburse brokerage firms and other

Table of Contents

custodians, nominees and fiduciaries for their expenses incurred in sending our proxy materials to beneficial owners of our common stock as of the record date.

Who will count and certify the vote?

Representatives of Broadridge will count the votes and certify the voting results. The voting results are expected to be published in a Current Report on Form 8-K filed with the SEC within four business days following the conclusion of the Annual Meeting.

How can I access the proxy materials and 2012 Annual Report electronically?

PROPOSAL 1 DIRECTOR ELECTION PROPOSAL

Our Board of Directors currently consists of three Classes of directors with each director serving a staggered three-year term as follows:

Class I Directors	Class II Directors	Class III Directors
Term Expires at 2015 Annual Meeting	Term Expires at this Annual Meeting	Term Expires at 2014 Annual Meeting
James O. Egan	Jane D. Carlin	Jon A. Boscia
Allan Z. Loren	Thomas P. Gibbons	Glen A. Messina
Gregory J. Parseghian	Deborah M. Reif	Charles P. Pizzi
	Carroll R. Wetzel, Jr.	

As described below under "Proposal 2 Charter Amendment Proposal to Declassify the Board of Directors," our Board of Directors is recommending that stockholders approve the declassification of our Board of Directors so that all directors will be elected annually. This Proposal 1 concerns the election of directors under two alternative scenarios:

1. If stockholders approve Proposal 2, to amend the Charter of the Company as contemplated by the Articles of Amendment (the "Charter Amendment") to eliminate our classified Board structure, our three incumbent Class I directors and three incumbent Class III directors will resign such that their terms will end at the Annual Meeting. Accordingly, if stockholders approve Proposal 2, the following ten individuals recommended by our Board of Directors are standing for election to serve a one-year term until the 2014 annual meeting of stockholders and until their respective successors are duly elected and qualified, or until their earlier death, retirement or resignation: Mr. Jon A. Boscia, Ms. Jane D. Carlin, Mr. James O. Egan, Mr. Thomas P. Gibbons, Mr. Allan Z. Loren, Mr. Glen A. Messina, Mr. Gregory J. Parseghian, Mr. Charles P. Pizzi, Ms. Deborah M. Reif and Mr. Carroll R. Wetzel, Jr.

2. If stockholders do not approve Proposal 2, the election of our three Class II director nominees will proceed under our Charter as currently in effect and our Class I and Class III directors will continue to serve the remainder of their current three-year terms. Accordingly, if stockholders do not approve Proposal 2, the following four individuals recommended by our Board of Directors are standing for election as Class II directors to serve a three-year term until the 2016 annual meeting of stockholders and until their respective successors are duly elected and qualified, or until their earlier death, retirement or resignation: Ms. Jane D. Carlin, Mr. Thomas P. Gibbons, Ms. Deborah M. Reif and Mr. Carroll R. Wetzel, Jr.

Each nominee has consented to being named in this Proxy Statement and to serve if elected. If Proposal 2 is approved, shares of our common stock represented by duly authorized proxies will be voted FOR Mr. Jon A. Boscia, Ms. Jane D. Carlin, Mr. James O. Egan, Mr. Thomas P. Gibbons, Mr. Allan Z. Loren, Mr. Glen A. Messina, Mr. Gregory J. Parseghian, Mr. Charles P. Pizzi, Ms. Deborah M. Reif and Mr. Carroll R. We expect to file the Articles of Amendment with the SDAT as soon as practicable after the Charter Amendment has been approved at the Annual Meeting. Because the Articles of Amendment must be accepted for record by the SDAT prior to the election of directors at the Annual Meeting, the Board intends to briefly adjourn the Annual Meeting until the Articles of Amendment become effective.

If Proposal 2 is not approved, shares of our common stock represented by duly authorized proxies will be voted FOR Ms. Jane D. Carlin, Mr. Thomas P. Gibbons, Ms. Deborah M. Reif and Mr. Carroll R. Wetzel, Jr., or any substitute nominee or nominees designated by the Board if, prior to the Annual

Independence of the Board of Directors

Under the rules of the NYSE and the SEC, our Board is required to affirmatively determine which directors are independent and to disclose such determination in our annual report to stockholders and in our proxy statement for each annual meeting of stockholders. Our Board has reviewed each director's relationships with us in conjunction with our previously adopted categorical Independence Standards for Directors (the "Independence Standards") and Section 303A of the NYSE's Listed Company Manual (the "NYSE Listing Standards"). A copy of our categorical Independence Standards is available on our corporate website at www.phh.com under the heading "Investor Relations Corporate Governance." A copy of our Independence Standards is also available to stockholders upon request, addressed to the Corporate Secretary at 3000 Leadenhall Road, Mt. Laurel, New Jersey, 08054. Based on the Board's review, our Board has affirmatively determined that each of our current non-employee directors and director nominees Messrs. Boscia, Egan, Gibbons, Loren, Parseghian, Pizzi and Wetzel and Ms. Carlin and Ms. Reif is independent within the meaning of our categorical Independence Standards and the NYSE Listing Standards and has no material relationship with us or any of our subsidiaries, either directly or as a partner, stockholder or officer of an organization that has a relationship with us. Our Board has also determined that Mr. Messina, who serves as our Chief Executive Officer, is not an independent director. Accordingly, 90% of our incumbent directors, representing more than two-thirds of our incumbent directors as required by our Corporate Governance Guidelines, are independent.

CORPORATE GOVERNANCE

Board of Directors' Role in Risk Oversight

Our business and affairs are managed under the direction of the Board in accordance with our amended and restated by-laws. The role of the Board is one of oversight, including as to matters relating to risk management. Our management is responsible for managing our day-to-day operations and affairs, including the development and implementation of systems and processes to identify and monitor risks to the Company and policies and procedures to ensure that risks undertaken by the Company are consistent with our business objectives and risk tolerances. To assist it in fulfilling its oversight function, the Board has established five standing committees comprised of the Audit Committee, the Human Capital and Compensation Committee, the Corporate Governance Committee, the Finance and Risk Management Committee and the Regulatory Oversight Committee. Each standing committee regularly reports to the Board and is responsible for oversight in connection with actions taken by such committee consistent with the exercise of fiduciary duties by the directors serving on such committee. Our risk management process is intended to ensure that our risks are undertaken knowingly and purposefully.

As noted above, the primary purpose of the Finance and Risk Management Committee is to assist the Board in fulfilling its oversight responsibilities with respect to the assessment of our overall capital structure and its impact on the generation of appropriate risk adjusted returns, as well as the existence, operation and effectiveness of our risk management programs, policies and practices, among other things. The Finance and Risk Management Committee regularly discusses with our management, including, among others, our Chief Executive Officer, Chief Financial Officer, Chief Risk Officer and Treasurer, risks facing the Company and management's plans and initiatives undertaken to mitigate such risks.

The Audit Committee charter provides that the Audit Committee is responsible for discussing our guidelines and policies governing the process by which we undertake risk assessment and risk management, including our major financial risk exposures and the steps our management has taken to monitor and control such exposures. Further, as part of our periodic reporting process, management reviews with the Audit Committee our disclosure process and the disclosures contained in our periodic reports filed with the SEC, including disclosure concerning our risk factors.

The Human Capital and Compensation Committee has focused on aligning our compensation policies with our long-term interests and avoiding short-term rewards for management decisions that could pose long-term risks to us as described in more detail below under "Executive Compensation." The Board's compensation risk governance includes the Human Capital and Compensation Committee consulting with the Board's Audit Committee and Finance and Risk Management Committee around compensation and risk. The Finance and Risk Management Committee reviews the risk factors each year, and reviews program changes for these factors, consistent with its Charter.

Board Leadership Structure

Since 2005, our Chairman of the Board has been an independent, non-employee director. The Chairman of the Board is elected by a majority vote of the directors. Currently, James O. Egan serves as our non-executive Chairman of the Board, a position he has held since June 17, 2009. Mr. Egan has served as a director and as Chair of the Audit Committee of the Board since March 30, 2009. Mr. Egan also serves as a member of the Corporate Governance Committee of the Board.

In his capacity as non-executive Chairman of the Board, Mr. Egan leads all meetings of our Board at which he is present, but does not serve as an employee or corporate officer. The non-executive Chairman of the Board serves on appropriate committees as requested by the Board, sets meeting schedules and agendas and manages information flow to the Board to assure appropriate understanding of, and discussion regarding matters of interest or concern to the Board. The non-executive Chairman of the

Table of Contents

Board also has such additional powers and performs such additional duties consistent with organizing and leading the actions of the Board as the Board may from time-to-time prescribe.

The decision to separate the positions of Chairman of the Board and Chief Executive Officer was made at the time of our spin-off in early 2005. Although the Board does not currently have a policy requiring that the positions of Chairman of the Board and Chief Executive Officer be separated, the Board continues to believe that it is appropriate for the Chairman of the Board to be an independent, non-employee director to ensure that the Board operates independently of management in the fulfillment of its oversight function and that the matters presented for consideration by the Board and its committees reflect matters of key importance to the Company and its stockholders as determined by the independent directors.

Executive Sessions of Non-Management Directors

Executive sessions of non-management directors are held regularly by the Board and its Committees without management present to discuss the criteria upon which the performance of the Chief Executive Officer and other senior executives is based, the performance of the Chief Executive Officer and other senior executives against such criteria, the compensation of the Chief Executive Officer and other senior executives and any other relevant matters. Our Board has designated Mr. Egan, our non-executive Chairman of the Board and Chairman of the Audit Committee, as the presiding director of executive sessions of the non-management directors of the Board.

Corporate Governance Guidelines

The Board has adopted Corporate Governance Guidelines to assist the Board in monitoring the effectiveness of decision-making, both at the Board and management levels and to enhance long-term stockholder value. The Corporate Governance Guidelines outline the following:

the responsibilities of the Board;

the composition of the Board, including the requirement that two-thirds of the directors be independent within the meaning of the NYSE Listing Standards;

Director duties, tenure, retirement and succession;

conduct of Board and Committee meetings; and

the selection and evaluation of the Chief Executive Officer.

Our Corporate Governance Guidelines are available on our corporate website at www.phh.com under the heading "Investor Relations Corporate Governance." A copy of our Corporate Governance Guidelines is also available to stockholders upon request, addressed to the Corporate Secretary at 3000 Leadenhall Road, Mt. Laurel, New Jersey, 08054.

In furtherance of this commitment, we promote ethical behavior and have adopted a Code of Business Ethics and Conduct (the "Code of Conduct") that is applicable to all of our directors, officers and employees. The Code of Conduct provides, among other things:

guidelines for our directors, officers and employees with respect to ethical handling of conflicts of interest, including special procedures covering related party transactions between us and members of our Management Operating Committee or directors and their families, examples of the most common types of conflicts of interest that require disclosure (e.g., personal

disciplinary measures for violations of the Code of Conduct and any other applicable rules and regulations.

The Code of Conduct is available on our corporate website at www.phh.com under the heading "Investor Relations Corporate Governance Code of Business Ethics and Conduct." We will post any amendments to the Code of Conduct, or waivers of its provisions with respect to our directors or executive officers, to our corporate website under the heading "Investor Relations Corporate Governance." A copy of the Code of Conduct is also available to stockholders upon request, addressed to the Corporate Secretary at 3000 Leadenhall Road, Mt. Laurel, New Jersey, 08054.

Code of Ethics for Chief Executive Officer and Senior Financial Officers

Our Board has also adopted a Code of Ethics for the Chief Executive Officer and Senior Financial Officers (the "Financial Officers Code") that is applicable to our Chief Executive Officer, our Chief Financial Officer, Chief Accounting Officer, Treasurer, Controller and other persons performing similar functions (the "Covered Officers"). The Financial Officers Code provides, among other things:

The Board has established certain procedures and criteria for the selection of nominees for election to our Board. In accordance with such procedures and criteria as set forth in our Corporate Governance Guidelines, the Board seeks members from diverse professional and personal backgrounds who combine a broad spectrum of experience and expertise with a reputation for integrity. Pursuant to its charter, the Corporate Governance Committee is required to identify individuals qualified to become members of the Board, which shall be consistent with the Board's criteria for selecting new directors. In identifying possible director candidates, the Corporate Governance Committee considers recommendations of professional search firms, stockholders, and members of management or the Board. In evaluating possible director candidates, the Corporate Governance Committee, consistent with the Board's Corporate Governance Guidelines and its charter, considers criteria such as skills, experience, age, diversity, and availability to prepare, attend and participate in Board and Board Committee meetings, as well as personal qualities of leadership, character, judgment, and reputation for integrity and adherence to the highest ethical standards, so as to enhance the Board's ability to oversee in the interest of our stockholders our affairs and business, including, when applicable, to enhance the ability of Committees of the Board to fulfill their duties and/or to satisfy any independence requirements imposed by law, regulation or NYSE requirement. In considering diversity, in particular, the Corporate Governance Committee considers general principles of diversity in the broadest sense. The Corporate Governance Committee seeks to recommend the nomination of directors who represent different qualities and attributes and a mix of professional and personal backgrounds and experiences that will enhance the quality of the Board's deliberations and oversight of our business. The Corporate Governance Committee is also responsible for conducting a review of the credentials of individuals it wishes to recommend to the Board as a director nominee, recommending director nominees to the Board for submission for a stockholder vote at either an annual meeting of stockholders or at any special meeting of stockholders called for the purpose of electing directors, reviewing the suitability for continued service as a director of each Board member when his or her term expires and when he or she has a significant change in status, including but not limited to an employment change, and recommending whether such a director should be re-nominated to the Board or continue as a director. The Corporate Governance Committee's assessment of director nominees includes an examination of whether the individual is independent and whether the individual's service as a director may give rise to a conflict of interest, as well as consideration of diversity, age, skills and experience in the context of the needs of the Board. Additionally, the Corporate Governance Committee conducts a vetting process that generally includes, among other things, personal interviews, discussions with professional references, background and credit checks, and resume verification. When formulating its director nominee recommendations, the Corporate Governance Committee also considers the advice and recommendations from others as it deems appropriate.

Our amended and restated by-laws provide the procedure for stockholders to make director nominations either at any annual meeting of stockholders or at any special meeting of stockholders called for the purpose of electing directors. A stockholder who is both a stockholder of record on the date of notice as provided for in our amended and restated by-laws and on the record date for the determination of stockholders entitled to vote at such meeting and gives timely notice can nominate persons for election to our Board either for an annual meeting of stockholders or at any special meeting of stockholders called for the purpose of electing directors. The notice must be delivered to or mailed and received by the Corporate Secretary at 3000 Leadenhall Road, Mt. Laurel, New Jersey, 08054:

in the case of an annual meeting, not later than the close of business on the 90th day nor earlier than the close of business on the 120th day prior to the first anniversary of the preceding year's

annual meeting; provided, however, that in the event that the date of the annual meeting is advanced by more than 30 days or delayed by more than 60 days after such anniversary date, notice by the stockholder must be so delivered not earlier than the close of business on the 90th day prior to the date of such annual meeting and not later than the close of business on the later of the 60th day prior to the date of such annual meeting or the tenth day following the day on which public announcement of the date of such annual meeting is first made, and

in the case of a special meeting of stockholders called for the purpose of electing directors, not later than the close of business on the tenth day following the day on which notice of the date of the special meeting was sent or public announcement of the date of the special meeting was made, whichever first occurs.

The stockholder's notice to our Corporate Secretary must be in writing and include the following information, as more fully described in Section 1.10 of our amended and restated by-laws:

(i) as to each person whom the stockholder proposes to nominate for election as a director (each, a "Proposed Nominee"):

all information relating to the Proposed Nominee that would be required to be disclosed in connection with solicitations of proxies for election of the Proposed Nominee pursuant to Regulation 14A of the Exchange Act; and

a statement of the background and qualifications of each such Proposed Nominee;

(ii) as to the stockholder giving the notice of any Proposed Nominee and any Stockholder Associated Person (as defined in the amended and restated by-laws):

the class, series and number of all shares of stock or other securities of the Company or any affiliate of the Company (collectively, the "Company Securities"), if any, which are owned (beneficially or of record) by such stockholder, Proposed Nominee or Stockholder Associated Person, the date on which each such Company Security was acquired and the investment intent of such acquisition, and any short interest (including any opportunity to profit or share in any benefit from any decrease in the price of such stock or other security) in any Company Securities of any such person;

the nominee holder for, and number of, any Company Securities owned beneficially but not of record by such stockholder, Proposed Nominee or Stockholder Associated Person;

whether and the extent to which such stockholder, Proposed Nominee or Stockholder Associated Person, directly or indirectly, is subject to or during the last six months has engaged in any hedging, derivative or similar transactions with respect to any Company Securities; and

any interest, direct or indirect, of such stockholder, Proposed Nominee or Stockholder Associated Person, in the Company or any affiliate of the Company, other than an interest arising from the ownership of Company Securities;

(iii) as to the stockholder giving the notice, any Stockholder Associated Person with an interest or ownership referred to in (ii) above, and any Proposed Nominee, the name and address of such stockholder, as they appear on our stock ledger, and the current name and business address, if different, of each such Stockholder Associated Person and any Proposed Nominee;

(iv) a representation that such stockholder intends to appear in person or by proxy at the meeting to nominate the Proposed Nominee(s) in its notice, and

(v) any other information relating to such stockholder that would be required to be disclosed in connection with solicitations of proxies for election of the Proposed Nominee pursuant to Regulation 14A of the Exchange Act.

Such notice must be accompanied by a written consent of each Proposed Nominee to be named as a nominee and to serve as a director if elected. No person shall be eligible for election as a director of the Company unless nominated in accordance with the procedures set forth in our amended and restated by-laws. If the chairman of the meeting determines that a nomination was not made in accordance with the above-described procedures, the chairman of the meeting shall declare to the meeting that the nomination was defective and such defective nomination shall be disregarded. No adjournment or postponement of a meeting of stockholders shall commence a new period for the giving of notice of a stockholder proposal under our amended and restated by-laws.

Communication with Non-Management Directors

In accordance with our Corporate Governance Guidelines, all stockholder and interested party communications to any director, the non-management directors as a group or the Board shall be forwarded to the attention of the Chair of the Corporate Governance Committee, c/o the Corporate Secretary, 3000 Leadenhall Road, Mt. Laurel, New Jersey, 08054. The Corporate Secretary shall review all such stockholder and interested party communications and discard those which (i) are not related to our business or governance of our Company, (ii) are commercial solicitations which are not relevant to the Board's responsibilities and duties, (iii) pose a threat to health or safety or (iv) the Chair of the Corporate Governance Committee has otherwise instructed the Corporate Secretary not to forward. The Corporate Secretary will then forward all relevant stockholder and interested party communications to the Chair of the Corporate Governance Committee for review and dissemination.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Review and Approval of Related Person Transactions

Pursuant to the Audit Committee's charter, the Audit Committee reviews and approves all transactions with related persons, including executive officers and directors, as described in Item 404(a) of Regulation S-K promulgated by the U.S. Securities and Exchange Commission. We review any relationships or transactions in which we and our directors or executive officers, or their immediate family members, are participants to determine whether these persons have a direct or indirect material interest. Our Code of Conduct and Financial Officers Code provide specific provisions regarding such relationships between our directors or executive officers and us. Our Code of Conduct requires that any relationship that appears to create a conflict of interest must be promptly disclosed to our General Counsel or the Chairman of the Corporate Governance Committee, who will refer the matter, if appropriate, to the Corporate Governance Committee for further review.

See "Corporate Governance Code of Business Ethics and Conduct "and "Corporate Governance Code of Ethics for Chief Executive Officer and Senior Financial Officers" above for more information.

Transactions with BlackRock, Inc.

On February 11, 2013, BlackRock, Inc. ("BlackRock") filed a Schedule 13G/A with the U.S. Securities and Exchange Commission disclosing that certain of its affiliates held, in the aggregate, approximately 5.4% of our common stock as of December 31, 2012. Affiliates of BlackRock provide us with various investment management and risk analytics products and services. During the year ended December 31, 2012, we paid affiliates of BlackRock approximately \$1.3 million for investment management and risk analytics products and services. During the year ending December 31, 2013, we expect to pay affiliates of BlackRock approximately \$2.1 million for investment management and risk analytics products and services. All of our agreements with BlackRock's affiliates were made pursuant to arm's length transactions at prevailing market rates for the services or products rendered or delivered.

Transactions with BNY Mellon

Thomas P. Gibbons, who has served as one of our directors since July 1, 2011, is Vice Chairman and Chief Financial Officer of the Bank of New York Mellon Corporation, the Bank of New York Mellon, and BNY Mellon, N.A. (collectively, together with their respective affiliates, "BNY Mellon"). We have certain relationships and engage in various transactions with BNY Mellon, including financial services, commercial banking and other transactions. BNY Mellon participates as a lender in several of our credit facilities, functions as the custodian for loan files, and functions as the indenture trustee in respect of certain of our outstanding debt obligations. We also execute forward loan sales agreements and interest rate contracts with BNY Mellon. These transactions were entered into in the ordinary course of business upon terms, including interest rate and collateral, substantially the same as those prevailing at the time for comparable transactions. The fees paid to BNY Mellon, including interest expense, during the year ended December 31, 2012 aggregated approximately \$5.9 million. Notwithstanding the foregoing, the Board has determined that Mr. Gibbons is an independent director within the meaning of our categorical Independence Standards and the NYSE Listing Standards and has no material relationship with us or any of our subsidiaries, either directly or as a partner, stockholder or officer of an organization that has a relationship with us.

Director Indemnification Agreements

We have entered into Amended & Restated Indemnification Agreements with each of our directors, including our President and Chief Executive Officer, Mr. Messina. Pursuant to such Amended & Restated Indemnification Agreements, we have agreed to indemnify and advance expenses and costs incurred by each director in connection with any claims, suits or proceedings arising as a result of his or her service as a

director, to the maximum extent permitted by law, including third-party claims and proceedings brought by or in right of us.

Agreement with Alvarez & Marsal

Following approval by our Board, we entered into a letter agreement dated March 1, 2011, with Alvarez & Marsal North America, LLC ("A&M") pursuant to which David J. Coles, a Managing Director of A&M, served as our Interim Executive Vice President and Chief Financial Officer. Mr. Coles ceased serving as our Interim Executive Vice President and Chief Financial Officer on April 25, 2012 following the appointment of Robert Crowl as our Chief Financial Officer. Pursuant to the terms of our letter agreement with A&M, we paid an aggregate of \$2.2 million to A&M for the services of Mr. Coles (including \$185,000 of incentive compensation earned by A&M for Mr. Coles' services rendered in 2012) plus reimbursement for reasonable out-of-pocket expenses for the years 2011 and 2012. Mr. Coles was compensated pursuant to his arrangements with A&M and he was not separately compensated by us and did not participate in any of our equity compensation plans or employee benefit plans.

Employment of Mr. George J. Kilroy's Immediate Family Member

Bradford C. Burgess, who serves as Vice President, Keystone Sales at PHH Arval, is the son-in-law of George J. Kilroy, our Executive Vice President, Fleet. Mr. Burgess received compensation, including base salary, commissions and bonus payments, of \$229,997 for 2012 and was eligible to participate in employee benefit plans available to employees generally on a non-discriminatory basis. Mr. Burgess' compensation and benefits were commensurate with other employees in comparable positions at PHH Arval. Mr. Kilroy has not been involved in decisions with respect to Mr. Burgess' compensation or job performance, and procedures have been established to limit Mr. Kilroy's access to such information.

Consumer Credit Loans in the Ordinary Course of Business

One or more of our mortgage lending subsidiaries has made, in the ordinary course of their respective consumer credit businesses, mortgage loans and/or home equity lines of credit to certain of our directors and executive officers or their immediate family members of types generally made available to the public by such mortgage lending subsidiaries. Such mortgage loans and/or home equity lines of credit were made on substantially the same terms, including interest rates and collateral requirements, as those prevailing at the time for comparable transactions with our other customers generally, and they did not involve more than the normal risk of collectability or present other unfavorable features. Generally, we sell these mortgage loans and/or home equity lines of credit, soon after origination, into the secondary market in the ordinary course of business.

DIRECTOR COMPENSATION

Our non-employee director compensation program is intended to align our non-employee directors' interests with those of our stockholders. We provide non-employee directors with a mix of cash and equity-based compensation to focus them on sustainable shareholder value creation and to provide them market-competitive compensation for their Board service. We pay over one-half of non-employee director compensation in the form of equity, with the rest in cash. This relative equity usage also supports our 100% stock ownership requirements for directors as described below. Members of our Board who are also our officers or employees do not receive any additional compensation for serving as a non-employee director. Currently, our only employee director is our Chief Executive Officer.

Our non-employee directors' equity-based compensation is paid in the form of restricted stock units ("Director RSUs") that are granted under the PHH Corporation Amended and Restated 2005 Equity and Incentive Plan, as amended (the "2005 Equity and Incentive Plan"). Director RSUs are not settled until one year after a director's service on the Board ends.

As a result, our non-employee directors are effectively restricted from selling any of their vested equity-based compensation, not only while serving as a director, but also for one year after their Board service ends. Accordingly, our non-employee directors are essentially subject to a 100% stock ownership requirement with respect to their Director RSUs and we believe that our non-employee directors' compensation program aligns the interests of our directors with long-term shareholder interests. This additional one year holding period also focuses directors on longer term performance, since the value delivered through the Director RSUs will continue to change after their Board service ends.

The Human Capital and Compensation Committee is responsible for reviewing and making recommendations to the Board concerning our non-employee director compensation program. The full Board must approve any changes to that program. We believe that this practice is effective in both administering our non-employee directors' compensation program, and ensuring that all Board members have input into any changes in such program. None of our executive officers play a role in determining or recommending the amount or form of non-employee director compensation. (Our former Chief Executive Officer, in his capacity as a director, did however vote to approve the changes to our non-employee director compensation program in 2010.)

Our non-employee director compensation did not change in 2011 or 2012, and has been increased only once since we became publicly traded in 2005. The Human Capital and Compensation Committee's compensation consultant conducted a study in 2012 which found that our non-employee director compensation program was below market-competitive levels based on our directors' workload. Despite this finding, the Human Capital and Compensation Committee determined that it would recommend to the Board that the non-employee director compensation program should not be changed. The Human Capital and Compensation Committee reasoned that the director workload should decrease at some point in the near future, and therefore it should not increase directors' compensation at this time.

Table of Contents

We believe the current non-employee director compensation program detailed below provides at or below market median compensation levels to our Board members in light of their workload relative to directors at other comparable companies.

	Annualized Amount
Non-Executive Chairman of the Board Retainer	\$ 295,000
Board Member Retainer	220,000
Audit Committee, Chair Stipend	25,000

Human Capital and Compensation Committee, Member Stipend	15,000
Corporate Governance Committee, Chair Stipend	10,000
Corporate Governance Committee, Member Stipend	8,000
Finance and Risk Management Committee, Chair Stipend	25,000
Finance and Risk Management Committee, Member Stipend	15,000

In 2013, the Board created a Regulatory Oversight Committee. The Human Capital and Compensation Committee recommended that the Regulatory Oversight Committee Chair receive a stipend of \$25,000, and members receive a \$15,000 stipend annually, similar to the Finance and Risk Management Committee. This recommendation was based on the fact that the workload and visibility between the two Committees are similar. The Board approved the recommendation. The Committee further recommended, and the Board approved, a prohibition against hedging and/or pledging shares of our stock as collateral for loans or other reasons by our non-employee directors and executive officers.

We do not provide non-employee directors with special one-time grants of Director RSUs or other equity-based awards upon commencing service on the Board.

All Committee stipends are payable 50% in cash and 50% in the form of Director RSUs. The Non-Executive Chairman of the Board Retainer is payable \$122,500 in cash and \$172,500 in Director RSUs. The Non-Executive Board Member Retainer is payable \$85,000 in cash and \$135,000 in Director RSUs. We do not provide directors with stock options or any other form of equity grant.

Non-employee director compensation is paid in arrears in four equal quarterly installments at the end of each calendar quarter ("Fee Payment Date") and is paid in Director RSUs and cash as described above. It is our practice to pro rate non-employee director compensation for the portion of each calendar quarter during which an individual director actually serves as a member or chairperson of the Board or a Committee of the Board.

Each Director RSU represents the right to receive one share of our common stock upon settlement of such Director RSU. Director RSUs are immediately vested and are settled in shares of our common stock one year after the director is no longer a member of the Board. Director RSUs may not be sold or otherwise transferred for value prior to the director's termination of service on the Board. Director RSUs do not currently provide for dividends or dividend equivalents. Director RSUs, however, are settled immediately upon a change-in-control.

The number of Director RSUs granted to each non-employee director on each Fee Payment Date is determined by dividing the total dollar amount of compensation that is payable to each such non-employee director on such Fee Payment Date in the form of Director RSUs by the closing price of our common stock on the NYSE on such Fee Payment Date (or, if there was no trading of our common stock on the NYSE on such Fee Payment Date, the closing price of our common stock on the date last preceding such Fee Payment Date upon which our common stock was traded on the NYSE). Fractional Director RSUs are not granted and any fractional portion resulting from the foregoing calculation is paid in cash.

We do not maintain a pension plan or any deferred compensation plan for non-employee directors. Non-employee directors did not receive any form of compensation for 2012 other than as described above.

PROPOSAL 2 CHARTER AMENDMENT PROPOSAL TO DECLASSIFY THE BOARD OF DIRECTORS

Article Seventh, Paragraphs (e) and (f) of the Company's Charter divides our Board of Directors into three Classes of directors (Class I, Class II and Class III) with terms of three years each. Generally, absent the earlier resignation or removal of a director, the terms of these Classes are staggered so that one Class stands for re-election at each annual meeting of stockholders. The current terms of our director Classes expire as follows: Class I director terms expire at the 2015 annual meeting of stockholders; Class II director terms expire at this Annual Meeting; Class III director terms expire at the 2014 annual meeting of stockholders.

The Board has reviewed the advantages and disadvantages of maintaining a classified Board structure. The Board recognizes that a classified Board provides various advantages, including: (i) providing continuity and stability of directors by ensuring that at any time approximately two-thirds of the directors will have had prior experience with the Company; (ii) promoting a long-term director perspective; and (iii) reducing the vulnerability of the Company to hostile and potentially abusive takeover practices. However, the Board also understands that, in general, there is growing support among stockholders in favor of annual elections of all directors.

After evaluating the various considerations in favor of and against maintaining a classified Board, on April 11, 2013, upon the recommendation of the Corporate Governance Committee, the Board resolved that declassification of the Board by adoption of the Charter Amendment attached to this proxy statement as *Appendix A* is advisable, and that the Charter Amendment should be submitted to the stockholders of the Company for approval at this Annual Meeting. Our Board of Directors also has approved, subject to stockholder approval of the Charter Amendment and effective upon the acceptance for record of the Articles of Amendment by the Maryland State Department of Assessments and Taxation ("SDAT"), certain conforming amendments to our Amended and Restated Bylaws (Bylaw Amendment) to remove references to a classified Board.

As required by our existing Charter provisions, the Charter Amendment must be approved by our stockholders by the affirmative vote of not less than eighty percent (80%) of the aggregate votes entitled to be cast thereon (considered for this purpose as a single class). The Charter Amendment, if approved by stockholders, will become effective upon acceptance for record of the Articles of Amendment by the SDAT. We expect to file the Articles of Amendment with the SDAT as soon as practicable after the Charter Amendment has been approved at the Annual Meeting. Because the Articles of Amendment must be accepted for record by the SDAT prior to the election of directors at the Annual Meeting, the Board intends to briefly adjourn the Annual Meeting until the Articles of Amendment become effective.

If stockholders approve the Charter Amendment, our classified Board structure will be eliminated and our three incumbent Class I directors and three incumbent Class III directors will resign such that their terms will end at the Annual Meeting, which will have the cumulative effect of reducing the current terms of our Class I and Class III directors so that they expire at the Annual Meeting, and all ten members of our Board of Directors will stand for election to a one-year term at the Annual Meeting. The Bylaw Amendment will also become effective. The incumbent Class I and Class III directors have indicated their support for the declassification of our Board of Directors by agreeing to resign from their current three-year terms if stockholders approve the Charter Amendment, effective upon the Articles of Amendment becoming effective.

If stockholders do not approve the Charter Amendment, the Annual Meeting will not be adjourned and the election of our four Class II director nominees to a three-year term will proceed under the Charter as currently in effect, our Class I and Class III directors will continue to serve the remainder of their respective three-year terms, and the Bylaw Amendment will not become effective.

OUR BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE *FOR* THE APPROVAL OF THE AMENDMENT TO OUR CHARTER ELIMINATING THE CLASSIFICATION OF OUR BOARD OF DIRECTORS. UNLESS MARKED TO THE CONTRARY, PROXIES RECEIVED BY US WILL BE VOTED "*FOR*" THE APPROVAL OF THE AMENDMENT TO OUR CHARTER ELIMINATING THE CLASSIFICATION OF OUR BOARD OF DIRECTORS.

PROPOSAL 3 RATIFICATION OF AUDITORS PROPOSAL

The Audit Committee has appointed Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2013. The submission of this matter for approval by stockholders is not legally required; however, the Board believes that such submission provides stockholders an opportunity to provide feedback to the Board on an important issue of corporate governance. If stockholders do not approve the appointment of Deloitte & Touche LLP, the selection of such firm as our independent registered public accounting firm will be reconsidered. In the event that Deloitte & Touche LLP is unable to serve as independent registered public accounting firm for the fiscal year ending December 31, 2013, for any reason, the Audit Committee will appoint another independent registered public accounting firm. Representatives of Deloitte & Touche LLP are expected to be present at the Annual Meeting, will be given an opportunity to make a statement if they desire to do so and will be available to respond to appropriate stockholder questions regarding the Company.

THE BOARD RECOMMENDS A VOTE "FOR" THE RATIFICATION OF THE APPOINTMENT OF DELOITTE & TOUCHE LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2013. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Executive Summary

2012 was a year of successfully enhancing shareholder value through continuous improvement and transformation. We made changes to our leadership team and improved our business operations, with a corresponding increase in financial performance and share price. Our compensation program also changed to further enhance our existing focus on pay-for-performance and shareholder value creation.

Our Compensation Program is designed to deliver Pay-for-Performance. Our compensation program places a strong emphasis on pay-for-performance. We believe we have created and implemented a pay-for-performance-based Total Rewards Philosophy that aligns our compensation programs with sustainable shareholder value creation. Under our Total Rewards Philosophy, all of our compensation programs should:

Link total rewards with our financial performance, productivity, and individual performance and behaviors that create sustainable value.

Provide both fixed and variable compensation that is both market-competitive and delivers pay commensurate with shareholder value creation through enterprise value creation.

Create sustainable shareholder value creation without encouraging unnecessary or excessive risk.

Attract and retain high performing and productive talent through the flexibility to modify the programs as necessary.

Our compensation program design is based on our Total Rewards Philosophy, and has the following elements:

Base salaries: Set at market-competitive levels;

Annual cash incentive plan: Drives a focus on sustainable profitable growth by providing payouts for both strong financial performance and achievement of key objectives;

Long-term incentive plan: Intended to align key employees who drive our success with shareholder interests.

The following design features and implementation of our compensation program demonstrate our commitment to pay-for-performance:

Edgar Filing: PHH CORP - Form PRE 14A

Variable pay comprises a greater percentage of the total compensation package than in most of our Peer Group, with long-term incentives which directly focus on multi-year sustainable shareholder value creation comprising a greater component than in most of the Peer Group.

Table of Contents

Payouts under our annual cash incentive plan are consistent with financial performance and demonstrating the right leadership behaviors.

The long-term incentive plan only delivers value to executives when multi-year shareholder value is created in a transparent manner.

Share ownership guidelines are imposed on executives (and directors) who receive equity grants.

We implemented "clawback" provisions which we believe are broader than generally found at many other companies, and which apply to financial wrongdoing as well as other conduct that results in harm to our business.

No executives are provided with employment contracts.

Severance and change-in-control protections are within market practice and executives are required to comply with post-termination covenants that can include non-compete agreements.

We do not provide tax gross-ups to executives.

Our executive officers are prohibited from pledging our shares as collateral for loans or other reasons.

Our executive officers are prohibited from hedging our shares.

We conduct a rigorous assessment of the potential business risk from our compensation programs on an annual basis.

Our 2012 Compensation Program Delivered on the Pay-for-Performance Promise. We used a disciplined process to modify our 2012 compensation program to provide rewards to executives that were commensurate with our performance. The compensation program focused on the key business drivers of shareholder value creation balanced with share price movement. Our compensation program delivers the majority of rewards when shareholder value increases, with a substantial portion dependent upon multi-year performance. The performance metrics in our compensation program align with our four key strategies to create shareholder value:

1. Disciplined growth in our franchise platforms
2. Operational excellence
3. Unwavering commitment to customer service
4. Near-term liquidity cash generation and balance sheet deleveraging

Management Incentive Plan ("MIP")

Our 2012 Management Incentive Plan (MIP) was comprised of the following three metrics: (1) Core Earnings (Pre-tax) Per Diluted Share, (2) Adjusted Cash Flow and (3) Pre-tax Core ROE. These performance metrics accomplish the following objectives:

Edgar Filing: PHH CORP - Form PRE 14A

Adjusted Cash Flow 60% of Opportunity: Our businesses rely on cash flow in order to fund our operations and pay our debt, and a focus on this measure is important to sustainable success.

Core Earnings (Pre-Tax) Per Diluted Share 20% of Opportunity: This is a measure of the profitability of our ongoing business operations.

Pre-tax Core ROE 20% of Opportunity: This is a measure of the efficiency of our use of shareholder assets, and a focus on Pre-tax Core ROE ensures that we are operating in a manner that will drive shareholder value.

In order to focus our employees on driving performance that they can control, we created separate goals for each of our Mortgage and Fleet business units. Our business unit leaders, George Kilroy and

Table of Contents

David Tucker, were eligible for MIP payouts based 75% on their respective business unit's performance and 25% on our overall consolidated performance. The remaining Named Executive Officers received payouts based 100% on our overall consolidated performance.

Our focus on Adjusted Cash Flow in 2012 was emphasized by our using it as a "gate", such that no payouts would be made for business unit performance unless the business unit generated Adjusted Cash Flow at the Threshold level, which is 90% of Target.

We recognized that 2012 performance might not match prior years. Therefore, our target performance goals were set above our business plan, requiring performance levels above plan in order to receive target payouts. In order to provide an appropriate pay-for-performance relationship, performance above Target results in progressively greater payouts up to a maximum of 150% of an individual's target award amount for maximum performance, and performance below Target results in decreased payouts. Performance below threshold levels results in no payouts.

Each MIP participant also had individual Management by Objectives ("MBOs"). Our executive officers, including our named executive officers identified in the Summary Compensation Table below (our "Named Executive Officers" or "NEOs"), had MBOs that were focused on financial, operational excellence (including risk) and leadership (including talent) objectives, reflecting the view of the Human Capital and Compensation Committee (the "Committee") that these areas are critical to sustainable shareholder value creation. Potential payouts could be adjusted based on relative MBO achievement.

These design changes we believe created an incentive plan which is tightly aligned with the key operating and strategic objectives under our 2012 business plan. We had to generate sufficient Adjusted Cash Flow before any payouts could be made. Payout levels were determined by Core Earnings (Pre-Tax) Per Diluted Share, which is a profitability measure, Pre-tax Core ROE, which is a measure of efficiency in deploying shareholder assets, and Adjusted Cash Flow. Then, payouts potentially could still be reduced unless executives met all of their individual MBOs. These 2012 MIP design elements, combined with the need to exceed our business plan to get target payouts, ensured that individual and aggregate payouts under the 2012 MIP demonstrated pay for performance.

We exceeded our Business Plan and Target performance on all three metrics, paying out at 113.2% of Target for Mortgage business unit performance, 120.2% of Target for the Fleet business unit performance, and 116.0% of Target for overall consolidated performance.

Core Earnings (Pre-Tax) Per Diluted Share, Adjusted Cash Flow and Pre-tax Core ROE are financial measures that are not in accordance with U.S. generally accepted accounting principles ("GAAP"). See *Appendix B* Note Regarding Non-GAAP Financial Measures for a detailed description of these non-GAAP financial measures and a reconciliation of these measures to their most directly comparable GAAP financial measures as required by Item 10(e) of Regulation S-K.

Long-term Incentive Plan

We made Long-term Incentive Plan grants in September 2012 (the "September 2012 LTIP Grant"). Our September 2012 LTIP Grants for our Named Executive Officers were designed to focus on share price appreciation, as a balance to the MIP performance metrics, which focus on business operations and profitability. This is consistent with executives' sign-on grants we made in 2012. We believe that this combination of annual operating/profitability measures and long-term share price measures provides an appropriate balance in creating sustainable shareholder value creation. The guiding principles we used in designing this grant includes:

Create a strong pay-for-performance alignment by providing rewards only if we are successful in our operational transformation as reflected in share price appreciation.

Align award levels with enterprise value creation and share price appreciation.

Table of Contents

Focus executives on resolving immediate challenges and positioning us for long-term success.

The September 2012 LTIP Grant was made to a limited group of key employees who are considered to be the most likely to drive substantial shareholder value creation, and should be rewarded commensurate with that value creation. The September 2012 LTIP Grant for our Named Executive Officers consisted of stock options and performance-based restricted stock units ("PRSUs").

The number of employees that were recipients of the September 2012 LTIP Grant has been reduced by approximately 90% from prior years' grants in 2008 and 2009.

Recipients of the September 2012 LTIP Grant are subject to restrictive covenant agreements that would prohibit the individual from engaging in certain competitive activities during the term of their employment with us and for one or two years following employment termination.

The stock options granted as part of the September 2012 LTIP Grant are three-year cliff-vested. When shareholder value is created, as reflected in share price increases over a three-year period, executives will be rewarded for that value creation.

The PRSUs granted as part of the September 2012 LTIP Grant are also three-year cliff-vested, and only vest if certain stock price targets are met in the three months prior to vesting. Therefore, if our performance is insufficient to result in the desired share price increase after a multi-year period, executives will not see any rewards from this grant.

September 2012 LTIP Grant recipients that were granted stock options and PRSUs are subject to share ownership guidelines, and cannot sell their vested equity unless those ownership guidelines are met. We believe this ensures that executives will focus on sustainable performance due to their continued ownership of our stock.

Previous Say-on-Pay Vote

Shareholders previously recognized the linkage between pay and performance in our 2011 compensation program. 94% of our shareholders approved our executive compensation program in last year's "Say on Pay" vote. We did not make any changes to our executive compensation programs solely as a result of that vote. However, our 2012 and 2013 executive compensation programs reflect our continued efforts to align executive rewards with sustainable operating performance and shareholder value creation.

Executive Compensation Program

Introduction. Our executive compensation program in 2012 continued to evolve and focus executives on process and business improvements, profitability and shareholder value creation. The continued challenging economic and business environment in 2012, including the continued difficulties in the mortgage and liquidity markets, impacted our compensation program design. We believe our performance, and the relative payouts under the executive compensation program, demonstrated the appropriateness of the performance alignment of our compensation program design.

Building on the pay-for-performance focus in our Total Rewards Philosophy that was implemented in 2010, we utilized performance goals that were aligned to the business priorities and shareholder perspectives. We further utilized MBOs to drive individual performance and accountability for the Named Executive Officers and other incentive-eligible employees.

Corporate Governance

Human Capital and Compensation Committee Oversight of Executive Compensation. During 2012, the Board and the Committee continued to operationalize the Committee's Charter that had been redesigned in 2010. The Committee focused on sustainable shareholder value creation as the underpinning of our compensation programs.

The Committee was responsible for overseeing our executive compensation policies, including evaluating and approving the compensation of our Named Executive Officers as listed in the Summary Compensation Table below, as well as the compensation of up to 22 positions that were in our Management Operating Committee at some point during 2012. The Committee reviews and determines the MBOs, MBO achievement, performance, base salary, annual and long-term incentive awards, equity awards and other compensation for each Named Executive Officer, and evaluates our compensation policies. The Committee reviews the performance and compensation for the Chief Executive Officer, and makes recommendations to the full Board for final approval. The Committee also has the authority to engage and retain executive compensation consultants to assist with such evaluations and had, in fact, retained PricewaterhouseCoopers LLP ("PwC") as its consultant in 2012. Board members who are not members of the Committee are not involved in the decisions surrounding the engagement and/or retention of the Committee's consultant.

Role of Management in Executive Compensation Decisions. Generally, our Chief Executive Officer makes recommendations to the Committee as it relates to the compensation of our other executive officers. In addition, our executive officers, including our Chief Executive Officer, as well as our Chief Human Resources Officer, Chief Financial Officer, Chief Risk Officer, Chief Ethics and Compliance Officer and other human resources personnel, may provide input and make proposals as requested by the Committee regarding the design, operation, objectives and values of the various components of compensation in order to provide appropriate performance and retention incentives for key employees. These proposals may be made on the initiative of the Chief Executive Officer, the executive officers, or upon the request of the Committee. Our Chief Executive Officer provides a self-assessment to the Committee, and otherwise is not involved in deliberations relating to his own compensation.

Our Chief Executive Officer, Glen Messina, was promoted to the position in January 2012 from his prior position as Chief Operating Officer. Mr. Messina, following his appointment as our Chief Executive Officer in January 2012, made recommendations relating to the performance achievement of our executive officers against their individual MBOs and corresponding payouts under the 2011 MIP, and the terms of any severance agreements. Mr. Messina provided similar information to the Committee in connection with payouts under the 2012 MIP. The Committee, in consultation with its executive compensation consultant, makes the ultimate decisions relating to executive compensation design and payouts to our executive officers other than our Chief Executive Officer and may take into consideration the recommendations, if any, of our Chief Executive Officer in connection with determining the amount or form of compensation paid to our executive officers. The Committee meets in executive session to determine our Chief Executive Officer's compensation and presents its recommendations on the Chief Executive Officer's compensation to the full Board for discussion and final approval.

Executive Compensation Consultants. During 2012, the Committee retained PwC to assist with the evaluation of our executive compensation. In determining to retain PwC, the Committee considered PwC's prior engagements by the Committee since February 2008, which were prior to Mr. Egan, our current Non-Executive Chairman of the Board, joining the Board. The Committee did not consider Mr. Egan's past employment relationship with PwC that ended in 1996 as a conflict. Mr. Egan is not a member of the Committee and played no role in the Committee's decision to engage and/or retain PwC. Pursuant to its engagement, PwC analyzed and provided comparative executive and director compensation data and compensation program design assistance for the Committee's consideration in evaluating and setting the compensation of the Named Executive Officers and the overall structure of our compensation policies.

Table of Contents

PwC was paid approximately \$790,000 in fees during 2012 as a result of compensation services provided to the Committee. During 2012, PwC continued providing non-compensation-related consulting services to management. These additional services were mainly related to corporate tax planning, internal audit outsourcing and mortgage compliance/risk consulting services. Aggregate fees for these additional services were approximately \$4,000,000. The Committee believes that these other services do not compromise PwC's ability to provide the Committee with an independent perspective on executive compensation. The factors that the Committee has considered in evaluating PwC's independence are primarily based on representations made to the Committee by PwC and its consultants and include the following:

PwC's provision of other services to us: Although PwC provides other services to the Company, PwC's consultants that provide services to the Committee do not provide any other services to us, with the exception of assisting management with certain activities related to Committee decision-making.

Fees paid by us as a percentage of PwC's total revenue: Fees paid by us to PwC represent approximately 0.01% of PwC's total revenue.

PwC's policies and procedures that are designed to prevent conflicts of interest: PwC has a Global Conflict of Interest Policy that prohibits PwC's consultants that provide services to the Committee from engaging in activities that would present a conflict of interest. Further, such consultants have represented to the Committee that they do not receive compensation from PwC which is dependent on the amount of fees we pay PwC for non-Committee-related services.

Business or personal relationships with Committee members: PwC's consultants have represented to the Committee that they do not have any personal or business relationships with any member of the Committee.

PHH shares owned by PwC's consultants: PwC's consultants have represented to the Committee that they do not directly own any of our shares.

Business or personal relationships between PwC or its consultants and our executives: PwC has represented to the Committee that neither PwC nor PwC's consultants have any business or personal relationship with any of our executive officers.

Consultant's compensation for other services: PwC's consultants have represented to the Committee that they do not receive compensation from PwC that is dependent upon the non-compensation related services PwC provides to us.

PwC has also represented to the Committee that it has implemented the following additional safeguards to maintain the independence of its consultants that provide services to the Committee:

PwC's consultants that provide services to the Committee are not involved in the pursuit or performance of non-compensation-related services by PwC to us.

The remuneration of PwC's consultants that provide services to the Committee are not directly determined by the fact or amount of PwC's provision of non-compensation-related services to us.

PwC has continued to provide executive compensation consulting services to the Committee during 2013. The Committee is currently evaluating proposals from PwC and certain other compensation consulting firms and, in connection with such evaluation, the Committee intends to further consider the independence of PwC and the independence of such other compensation consulting firms in accordance with new SEC and NYSE rules that go into effect July 1, 2013,

Compensation Process

Executive Compensation Objectives. The primary objective of our executive compensation policies, as overseen by the Committee, is to attract, retain and motivate qualified executive officers to manage our

Table of Contents

business in order to create sustainable profitable growth and underlying stockholder value creation within approved risk profiles. Our executive compensation policies are intended to facilitate the achievement of our short-term and long-term business strategies through aligning compensation with performance by:

aligning the interests of our executive officers with the interests of our stockholders through equity-based compensation;

rewarding executive performance through variable, at-risk compensation that is dependent upon meeting specified financial, operating, talent and other performance targets; and

providing base salaries and other compensation that are competitive and designed to attract and retain highly talented executives.

The Committee exercises its judgment in determining each Named Executive Officer's total compensation and the allocation of compensation among the various components of compensation described below, including the relative mix between short-term and long-term compensation or cash and equity compensation. The Committee utilizes factors such as market data, shareholder alignment, and attraction and retention needs to guide in its decision-making. The Committee considers this to be a "best practice," such that the Committee has the flexibility to make compensation-related decisions that best attract, retain and motivate the right talent to drive shareholder value creation. The Committee utilizes a disciplined process in exercising its business judgment, consistent with our Total Rewards Philosophy, in determining total compensation based upon the following criteria:

our short-term and long-term strategic objectives, financial and other performance criteria, leadership behaviors, and individual MBOs;

the competitive compensation levels for executive officers at companies in similar businesses and/or of similar size;

the overall economic environment and industry conditions;

unique circumstances impacting us and our executive officers; and

the recommendations of the Committee's executive compensation consultants.

Based upon its analysis of these criteria, the Committee determines each component of executive compensation and aggregate compensation levels (as discussed below) for the Named Executive Officers, taking into consideration the total compensation relative to the Peer Group (as defined in "Benchmarking" below) and other market-competitive practice.

Benchmarking. The Committee believes that an understanding of market-competitive practices is a critical underpinning to making sound executive compensation decisions. The Committee utilizes a peer group of publicly-traded companies as a data point in determining market-competitive compensation practices. In 2012, the Committee conducted its regular review of the peer group with PwC's assistance. Based on this review, the Committee modified the peer group to make sure that it continues to be representative of the fact that we compete in both the mortgage and fleet management industries for customers and executive talent, as well as with outsourcing companies for executive talent.

The Committee eliminated three organizations due to their (1) being subject to TARP's compensation restrictions (Flagstar) or (2) reporting substantial losses and being approximately $\frac{1}{3}$ our size (Astoria Financial Corporation and MBIA). The Committee added four organizations, Corelogic, Genpact,

Edgar Filing: PHH CORP - Form PRE 14A

Table of Contents

Nationstar Mortgage Holdings and Ocwen Financial, since they are representative of our operations. The new peer group is set forth below:

Alliance Data Systems Corp.	Avis Budget Group, Inc.	Corelogic, Inc.
Euronet Worldwide, Inc.	Fidelity National Information Services, Inc.	GATX Corp.
Genpact, Ltd.	Heartland Payment Systems, Inc.	Lender Processing Services, Inc.
MGIC Investment Corp.	Nationstar Mortgage Holdings	New York Community Bancorp, Inc.
Ocwen Financial	Radian Group, Inc.	Ryder System, Inc.
United Rentals, Inc.		

At the time the peer group was developed, our revenues were above the peer group median, and our assets were at least 3x the assets of the peer group companies. The Committee will continue to evaluate the peer group in 2013 for appropriateness with our business profile, market changes, and size.

Recognizing that we compete in multiple industries, and many of the competitors in each of our business segments are divisions of much larger organizations, or are privately-held, the Committee also asked PwC to provide data from national compensation databases in order to assist in the compensation evaluation. The Committee is able to be flexible in making the right decisions to attract, retain and motivate executive talent, since it uses these multiple data sources for benchmarking executive compensation.

The Committee evaluated the base salary, short-term and long-term incentives and actual and target total compensation levels, as well as shareholder dilution levels, for the peer group and from the survey data, including the median and percentile ranges for each compensation component, and in the aggregate, for comparison with that of our Named Executive Officers. The Committee further reviewed the realizable value of the equity grants in analyzing the effectiveness and relative pay-for-performance relationships of the executive compensation program. The Committee determined that for 2012, total executive compensation for our Named Executive Officers should incent them to achieve above-market performance by paying them commensurate with that performance. The Committee further determined that the total compensation opportunity, including realizable value, represents an appropriate relationship between executive rewards and shareholder value creation, especially given the focus on profitability in the MIP and share price appreciation in the long-term incentive grants. The Committee intends to utilize this compensation philosophy again in 2013 and may adjust target total compensation levels, as well as base salary, short-term and long-term incentives, of our executive officers based upon how they advance these factors and sustainable stockholder value creation. In 2012, the Committee reviewed tally sheets setting forth the total remuneration for our Named Executive Officers, as well as walk-away sheets, setting forth the amounts they would receive if they left our employ. The Committee will review these again in 2013 and use them to provide context for its compensation decisions.

2012 Executive Compensation Program Design

Components of Executive Compensation. The primary components of our executive compensation arrangements for our Named Executive Officers are base salaries, variable annual compensation programs and long-term incentive awards. Consistent with our pay-for-performance philosophy, the focus of our compensation program is on variable, performance-based pay, with the largest component representing long-term incentives. The implementation of our pay-for-performance philosophy results in a pay mix for both our CEO and our other Named Executive Officers that is more heavily weighted towards performance-based pay than our Peer Group.

Base Salaries. The Committee is responsible for approving and recommending to the full Board for final approval the base salary of our Chief Executive Officer and approving the base salaries of our other Named Executive Officers, which includes review and approval of annual adjustments, if warranted, to their base salaries. Base salaries are intended to provide a level of cash compensation that is externally competitive in relation to the responsibilities of the executive's position in order to attract and retain executive talent.

Only one Named Executive Officer (George Kilroy) was employed in the same position in 2011 and 2012. Base salary increases represented relative market-competitive positioning, experience, tenure, performance and contributions to our success in 2011. Mr. Messina received an increase in 2012 reflective of his promotion to Chief Executive Officer, in the context of market-competitive compensation levels for comparable CEOs. Richard Bradfield received base salary increases reflecting his promotion and relative market positioning. Robert Crowl and David Tucker were hired in 2012. The following table sets forth the

(3) Hired as Executive Vice President and Chief Financial Officer on April 26, 2012.

(4) Hired as Executive Vice President, Mortgage and President, PHH Mortgage on May 21, 2012.

(5) Salary increased from \$285,000 to \$300,000 on March 13, 2012 as a result of a promotion that expanded his accountabilities from SVP Capital Markets of PHH Mortgage to SVP and Treasurer of PHH Corporation. Salary further increased from \$300,000 to \$330,000 on September 8, 2012 in recognition of market competitive levels and strong performance since taking over the Treasurer role.

Variable Annual Cash Compensation Programs. In 2012, our Named Executive Officers, other executive officers, and certain other employees were eligible for additional cash compensation through participation in our annual cash-based Management Incentive Plan ("MIP"), which is a subplan of our 2005 Equity and Incentive Plan. Under the MIP, each participant was eligible for a target payout based on our achieving target performance objectives, and the employee achieving all or a portion of his or her individual MBOs. Performance above or below the target performance goals would increase or decrease executives' payout eligibility. Failure to achieve all the MBOs also could reduce an executive's payout eligibility.

The Committee considered the operating performance in 2011, and the significant challenges due to economic and business difficulties in 2012. Performance goals and payout opportunities were aligned with shareholder value creation, so that merely achieving the business plan would be reflected in lower incentive payouts for MIP participants; above business plan performance was necessary for participants to receive target incentive levels. In addition, we added performance metrics to focus participants on the need to generate cash flow and be efficient in the use of shareholder capital. In order to focus participants on critical activities and objectives, and to tie payouts more closely to performance which they can control, thereby increasing the effectiveness of the MIP, the Mortgage and Fleet Business Segments each had their own objectives, with Corporate employees (such as the Chief Executive Officer and Chief Financial Officer) evaluated based on our overall results. The MIP also included a key feature each Business Segment had to achieve its Threshold Adjusted Cash Flow goal or there would be no payouts for any

Table of Contents

participant in the Business Segment. Similarly, we had to achieve our overall Threshold Adjusted Cash Flow goal for any corporate participants to be eligible for payouts under the MIP.

For 2012, MIP participants may receive a maximum cash payment equal to such participant's target award amount multiplied by the maximum payout percentage set forth in the following tables, as applicable, based upon the level of achievement of the Adjusted Cash Flow, Core Earnings (Pre-tax) Per Diluted Share and Pre-tax Core ROE metrics determined on either a consolidated or segment basis, as applicable, and as certified by the Committee, multiplied by the respective weighting of the metric.

The Committee implemented one additional key performance criterion to ensure the sustainability of our results before paying out under the MIP. All MIP payouts were further contingent upon the Board's approval of a business plan for 2013 which is based on our having sufficient liquidity to execute on our objectives for 2013.

The Adjusted Cash Flow metric is based on either Consolidated Adjusted Cash Flow or Segment Adjusted Cash Flow, as applicable. Consolidated Adjusted Cash Flow is defined as free cash flow calculated as follows: the total change in our cash and cash equivalents from the beginning to the end of the performance period, adjusted as follows: (a) subtract net cash proceeds received by us from the sale of equity or equity instruments, (b) add cash paid by us for options and other derivative securities, (c) add cash paid by us for principal payments on unsecured borrowings, and (d) subtract proceeds received by us from unsecured borrowings. Segment Adjusted Cash Flow is defined as segment free cash flow calculated

Table of Contents

as follows: the total change in cash and cash equivalents from the beginning to the end of the performance period for either our fleet segment or combined mortgage segment, as applicable, adjusted as follows: (a) add cash paid by such segment during the year for principal payments on intercompany borrowings and (b) subtract proceeds received by such segment during the year from intercompany borrowings.

The Core Earnings (Pre-Tax) Per Diluted Share metric is based on "Core Earnings (Pre-tax)" (defined as pre-tax income after non-controlling interest excluding unrealized changes in fair value of mortgage servicing rights that are based upon projections of expected future cash flows and prepayments, as well as realized and unrealized changes in the fair value of derivatives that are intended to offset changes in the fair value of mortgage service rights) divided by our fully diluted weighted-average common shares outstanding during the performance period.

The Pre-tax Core ROE metric is based on Core Earnings (Pre-tax), as described above determined on either a consolidated or segment basis, as applicable, divided by "Adjusted Average Book Equity" determined on either a consolidated or segment basis, as applicable. Consolidated Adjusted Average Book Equity is based on an average of Total PHH Corporation stockholder's equity as of each of September 30, 2011, December 31, 2011, March 31, 2012, June 30, 2012, September 30, 2012 and December 31, 2012, adjusted for the equity impact of unrealized changes in the fair value of mortgage servicing rights that are based upon projections of expected future cash flows and prepayments and realized and unrealized changes in the fair value of derivatives that are intended to offset changes in the fair value of mortgage servicing rights that are recorded during the performance period. The adjustment to average Total PHH Corporation stockholders' equity will be calculated as follows: average Total PHH Corporation stockholders' equity plus or minus the after-tax impact (based upon a 41% effective tax rate) of unrealized changes in the fair value of mortgage servicing rights.

To calculate Segment Adjusted Average Book Equity and Segment Pre-tax Core ROE for each of our fleet and combined mortgage segments, segment equity as of each of September 30, 2011 and December 31, 2011 is based on the actual segment equity determined for those quarters under the methodology we generally use for determining segment equity, and segment equity for calendar quarters in 2012 is based on segment equity as of January 1, 2012, adjusted on a dollar-for-dollar basis based on the actual changes in each segment's equity determined in accordance with U.S. generally accepted accounting principles and adjusted for the equity impact of unrealized changes in fair value of mortgage servicing rights that are recorded during the performance period, to the extent applicable. The adjustment to the above segment equity amounts will be calculated as follows: the segment equity amounts determined above plus or minus the after-tax impact (based upon a 41% effective tax rate) of unrealized changes in the fair value of mortgage servicing rights, as applicable.

In order to tie a greater percentage of each executive officer's compensation to the achievement of our annual performance objective, our executive officers' target award amounts as a percentage of their base salaries were based on each such executive officer's duties and responsibilities, with greater target payouts as a percentage of base salary for executive officers with greater duties and responsibilities.

The Committee set the performance and payout targets under the 2012 MIP at levels that were consistent with our business plan and that were considered to be challenging based on historical performance as well as industry and market conditions. In our Mortgage business, we were facing a declining volume and margin environment for mortgage production. Our Fleet business was challenged by the economic conditions affecting our clients and their spend on our services. Our performance exceeded our Business Plan and Target performance measures except for Core Earnings (Pre-Tax) Per Diluted Share and Pre-tax Core ROE, resulting in the following overall payout levels:

Mortgage business unit: 113.2% of Target

Fleet business unit: 120.2% of Target

Corporate: 116% of Target

Individuals also had to meet individual MBOs that were set based on the critical responsibilities for each position, and their need to drive overall shareholder value creation. Each Named Executive Officer had MBOs that were focused on financial, operational excellence (including risk) and leadership (including talent) objectives, reflecting the view of the Committee that these areas are critical to sustainable shareholder value creation. More specifically, each Named Executive Officer had the following weight attached to their MBOs: Financial (25%); Operational Excellence (50%) and Core Leadership (25%). Within these categories, Named Executive Officers are rated on a 3 point scale: Did Not Meet, Met and Exceeds. The MBO review process was disciplined and rigorous. The process began with each individual preparing a self-assessment of his or her performance against their respective MBOs. Individuals' managers, our Human Resources personnel, and then our current Chief Executive Officer reviewed those assessments, and developed recommendations for relative MBO performance. Our Chief Executive Officer presented those recommendations for the individuals that are members of our Management Operating Committee and were eligible for payouts, including the Named Executive Officers, to the Committee, which determined their final relative performance against their MBOs.

The Committee then reviewed the leadership and other activities of the executives to ensure that their performance demonstrated good leadership behaviors, and further adjusted payouts where appropriate. The MBOs are designed to focus participants on driving our success through financial, operational excellence, and leadership objectives. Consistent with that design, the Committee recognized our strong performance in 2012 with MBO achievement assessments that generally were at or above 100% achievement. The Committee approved MBO recommendations for the Management Operating Committee that ranged from 97% of targeted achievement to 137% of targeted achievement. Our current Chief Executive Officer approved the final relative performance for all other MIP participants.

The Committee reviewed our current Chief Executive Officer's self-assessment, and the Board's and investors' and other stakeholders' perspectives on his performance, our overall performance, and the Chief Executive Officer's leadership in driving our performance. The Committee determined that our current Chief Executive Officer demonstrated outstanding leadership in managing through the challenges we faced in 2012 and recommended an MBO achievement level for our current Chief Executive Officer of 115% of targeted achievement. The full Board agreed with and approved the Committee's recommendation.

- (1) Mr. Messina was appointed President and Chief Executive Officer on January 3, 2012.
- (2) Mr. Crowl was hired effective April 26, 2012 as Executive Vice President and Chief Financial Officer. His employment offer indicated that his 2012 MIP target of \$400,000 would be prorated based on his employment start date.
- (3) Mr. Tucker was hired effective May 21, 2012 as Executive Vice President Mortgage and President, PHH Mortgage. His employment offer indicated that his 2012 MIP target of \$700,000 would be prorated based on his employment start date and that a payout of \$350,000 of his 2012 MIP award was guaranteed.
- (4) Range shown is reflective of Threshold performance and Maximum performance against respective MIP Performance Leverage Table for respective organizational segment (PHH, Mortgage or Fleet).

For 2012 MIP participants whose approved MBO achievement level exceeded 100%, the Committee awarded discretionary cash bonuses reflecting such MBO achievement in addition to such participants' 2012 MIP approved payouts. For the Named Executive Officers, these discretionary cash bonuses are included in the Bonus column of the Summary Compensation Table below and were \$208,600, \$181,853, \$19,873 and \$55,067 for Messrs. Messina, Tucker, Kilroy and Bradfield, respectively.

The Committee recognized that by exercising its judgment to reward performance that exceeded expectations, the Company may lose the tax deductability under Internal Revenue Code Section 162(m) of payments to Named Executive Officers that exceed \$1 million. The Committee believes in paying for performance, and that our 2012 performance in the financial, operational, and capital markets areas, demonstrates that certain Named Executive Officers exceeded their objectives, and that the additional discretionary bonus amounts disclosed on the Summary Compensation Table are consistent with paying for performance.

Long-Term Incentive Awards. The Committee administers the 2005 Equity and Incentive Plan, which provides for equity-based awards, including RSUs and options to purchase our common stock ("Stock Options"). The Committee considers equity-based awards to our Named Executive Officers an appropriate and effective method of retaining key management employees and aligning their interests with the interests of our stockholders. Eligibility for equity-based awards, the number of shares underlying each award and the terms and conditions of each award are determined by the Committee upon consultation with our management and the Committee's compensation consultant.

The Committee approved a long-term incentive plan grant in September 2012 (the "September 2012 LTIP Grant") to a limited group of employees who are expected to lead us in creating shareholder value, in order to continue to align them with long-term shareholder interests. The September 2012 LTIP Grant

was designed specifically to provide incentives to a limited group of individuals who have the greatest influence over long-term shareholder value creation, including Company profitability and share price appreciation. In particular, the program provides grants levels that are targeted at the 75th percentile of the market peer group for comparable roles for the applicable executive. These awards will only deliver the targeted value to the Named Executive Officers if targeted PHH stock price appreciation occurs within the defined vesting periods and other conditions are met. Failure to reach these levels of stock price appreciation would result in the complete loss of all value in some of the awards. Moreover, in determining award levels the Committee also factored in the executives' total compensation level to ensure that we remain within market-competitive total compensation levels. The elements of the September 2012 LTIP Grant to the Named Executive Officers include:

Plan Element	Linkage to Shareholder Value Creation
Stock Options	Stock options granted as part of the September 2012 LTIP Grant are time vested and have an exercise price of \$20.30, which was our share price on the date of grant. They vest on September 27, 2015 subject to provisions of the plan agreement including remaining continuously employed with the Company through the vesting date. They provide value to the executives when the share price rises, directly aligning executives with shareholder perspectives. The amount of value provided directly correlates to the amount of share price increase.
Performance-Based Restricted Stock Units ("PRSUs")	The PRSUs granted as part of the September 2012 LTIP Grant will vest only if we achieve specified share price targets in the three months at the end of the three-year vesting period. If our share price averages at least \$30 during that three-month period, 100% of the PRSUs will vest. If our share price averages less than \$30 and at least \$25 during that time, 33% of the PRSUs will vest. This market condition balances the operational and profitability goals of the MIP, and ensures that Named Executive Officers understand the impact of their decisions on shareholder interests.
Three year cliff-vesting	Unless an accelerated vesting trigger has occurred as described below, both the Stock Options and the PRSUs granted as part of the September 2012 LTIP Grant vest after three years, so that long-term performance is required before executives receive awards and retention of key employees is enhanced.
Accelerated vesting triggers	If a Change in Control occurs during the performance period, the PRSU grants will become vested as specified in the chart below:

<u>Date of Change in Control</u>	<u>Percent Vested</u>
Before January 1, 2013	0%
On or after January 1, 2013, but before January 1, 2014	25%
On or after January 1, 2014, but before January 1, 2015	50%
January 1, 2015 or thereafter	100%

For Stock Options, if a Change in Control occurs, the executive will vest in a prorated portion of the award based on the number of days from the grant date through the Change in Control date. The acquiring company also has the ability to replace the Stock Option awards with awards of the acquiring company.

Share ownership guidelines

September 2012 LTIP Grant recipients that are members of our Management Operating Committee are required to hold a specified amount of our common stock and are not permitted to sell any shares of our common stock acquired under the September 2012 LTIP Grant or any subsequent equity-based grants (except to pay taxes upon vesting or exercise). The ownership guidelines are as follows:

CEO 5x base salary

CFO and Business Unit Presidents 3x base salary

Other Senior Executives 2x base salary

Other equity-based grant recipients 1x base salary

Restrictive Covenant Agreements

Recipients of the September 2012 LTIP Grant were required to have previously signed a restrictive covenant agreement, or if not, to sign a restrictive covenant agreement, or forfeit their September 2012 LTIP Grant. The restrictive covenant agreements prohibit the executives from engaging in certain competitive activities during the term of their employment with us and for one to two years following employment termination. All of the September 2012 LTIP grant recipients signed and are subject to the restrictive covenants.

Claw-Back Provisions	Long-term incentive grants are subject to "claw back" provisions which state that any unvested award shall be forfeited and shares issued shall be returned if it is determined that the recipient violates non-competition, non-solicitation, non-disclosure, or other restrictive covenant agreements, is terminated for cause, or engages in conduct which materially harms us, such as financial or reputational harm, provides materially inaccurate information related to our financial statements, creates excessive risk or allows it to be created, violates our Code of Conduct, or is under investigation for a regulatory matter due to gross negligence or willful misconduct in the performance of the recipient's duties.

2013 Executive Compensation Decision-making

In 2013, we have continued to focus our executive compensation program on our overall business strategy, sustainable business performance, and shareholder value creation. Our executive compensation program is pay-for-performance oriented, with the expectation that this will drive success and create value. Success will continue to be determined by operating and individual performance, including the right leadership behaviors.

2013 Management Incentive Plan. We evaluated our expected operating, business and economic environment for 2013, and determined that our MIP should be modified to continue its focus on our key business objectives. In order to enhance the focus on operating efficiencies and performance, the weighting of the Adjusted Cash Flow performance measures was reduced from 60% to 50%, and the weightings of the Core Earnings (Pre-Tax) Per Diluted Share and Pre-tax Core ROE measures were increased to 25% each. The 2013 MIP provides all participants, including Named Executive Officers, with the opportunity to receive payouts if we meet our performance goals. Similar to the 2012 MIP, reflecting the importance of cash flow generation, no payouts under the 2013 MIP will be made if our Adjusted Cash Flow is not at

Table of Contents

least equal to the Threshold level of performance; similarly, no payouts will be made if we do not meet the net worth covenants in our borrowing arrangements. The pay-for-performance nature of the 2013 MIP is further enhanced by the continued use of individual MBOs, so that payouts may be adjusted based on relative performance against an individual's MBOs (including exhibiting the right leadership behaviors). We have continued to structure the 2013 MIP awards for business unit employees (other than our business unit Presidents) on business unit, rather than company-wide, performance. This business unit focus is intended to drive each participant to maximize the performance of his or her own business unit, and the performance which he or she controls. We believe that this is the best way to drive performance in the business units. For our business unit Presidents, we have structured their 2013 MIP awards to take into account both business unit and company-wide performance.

Establishment of 2013 MIP Performance Goals. The Committee approved the performance goals for awards made under the 2013 MIP. The performance period under the 2013 MIP is January 1, 2013 through December 31, 2013. The performance goals for awards granted under the 2013 MIP are based on three separate metrics: (1) "Adjusted Cash Flow," (2) "Core Earnings (Pre-Tax) Per Diluted Share," and (3) "Pre-tax Core ROE," which will be weighted 50%, 25%, and 25%, respectively, in determining the amount of awards to be paid at the conclusion of the performance period. The metrics for each particular award are conditioned on our performance as a whole, the performance of our Fleet segment, or the performance of our consolidated Mortgage segments, as applicable, based on the grant recipient's primary responsibilities.

In addition to meeting the financial objectives, additional "gates" have been established. These performance gates must be achieved in order for there to be payouts under the 2013 MIP. The 2013 MIP gates are:

1. Minimum Adjusted Cash Flow generation for each business unit (similar to the 2012 MIP design).
2. Approval of a 2014 Business Plan with adequate available liquidity resources to meet 2014 business needs (similar to the 2012 MIP design).
3. Compliance with minimum net worth covenants in our borrowing arrangements.

Payments under the 2013 MIP will only be made following certification by the Committee that the performance goals and gates have been met. The maximum payout percentage for a level of achievement of any metric above the "Threshold" level and between the "Target" and "Maximum" levels set forth in the tables above will be determined based on straight-line interpolation. The Committee set the performance goals to be "stretch" goals at the Target level, in addition to the gates that must be met. The Committee may exercise judgment to reduce actual payouts. Similar to 2012, MBOs are set for all executives.

2013 Long-Term Incentive Awards

Consistent with the key award features described earlier in the "September 2012 LTIP Grant" and pursuant to the 2005 Equity and Incentive Plan, which provides for equity-based awards, including RSUs and Stock Options, the Committee approved a long-term incentive plan grant in March 2013 (the "March 2013 LTIP Grant") which was granted to a limited group of employees who are expected to lead us in creating shareholder value in order to continue to align them with long-term shareholder interests. The March 2013 LTIP Grant was designed to provide equity incentives to a limited group of individuals who have the greatest influence over long-term shareholder value creation, including Company profitability and share price appreciation. In particular, the program provides grants levels that are targeted at the 75th percentile of the market peer group for comparable roles for the applicable executive. These awards to the Named Executive Officers will only deliver the targeted value if targeted PHH stock price appreciation occurs within the defined vesting periods and other conditions are met. Failure to reach these levels of stock price appreciation would result in the complete loss of all value in some of the awards. Moreover, in determining award levels, the Committee also factored in the executive's total compensation level to ensure that we remain within market-competitive total compensation levels.

Compensation of Our Current Chief Executive Officer

On January 3, 2012, Mr. Messina was promoted from Chief Operating Officer to President and Chief Executive Officer. In connection with his promotion, Mr. Messina received certain promotional considerations that were intended to recognize his new duties, as well as further align him with shareholder interests and incent him to drive shareholder value creation over the long-term, as follows. The guiding

principles behind this compensation are intended to provide Mr. Messina with rewards commensurate with enterprise value creation, operational and financial improvements, and share price appreciation.

Base salary increase to \$800,000 from \$700,000.

Increase in MIP Target annual incentive opportunity to 150% of Base Salary from 125% of Base Salary.

203,937 PRSUs that vest February 19, 2015, only if share price targets are achieved and subject to Mr. Messina's continued employment with us. Each PRSU represents a contingent right to receive one share of our common stock upon vesting. The PRSUs will vest on February 19, 2015, if the average of our common stock price for the 90-day period prior to and including February 19, 2015, equals or exceeds \$30.00 per share, subject to equitable adjustment upon the occurrence of certain events. One-third of the PRSUs will vest on February 19, 2015, if the average of our common stock price for the 90-day period prior to and including February 19, 2015, equals or exceeds \$25.00 per share and is less than \$30.00 per share, subject to equitable adjustment upon the occurrence of certain events. None of the PRSUs will vest if the average of our common stock price for the 90-day period prior to and including February 19, 2015, is less than \$25.00 per share, subject to equitable adjustment upon the occurrence of certain events.

Other Named Executive Officer New Hires

On April 26, 2012, we hired Robert Crowl to be our Chief Financial Officer. Mr. Crowl was provided a 2012 annualized base salary of \$400,000, and a Target 2012 MIP opportunity of \$273,973, prorated based on his start date. Mr. Crowl also received a sign-on grant of 12,239 PRSUs, with the same vesting and share price targets as Mr. Messina's February 2012 PRSU grant, and 24,213 stock options with three-year cliff vesting. Mr. Crowl also received a grant of 1,900 RSUs, which represents a 1:1 matching grant for his open market purchases of our stock. These matching RSUs will vest after one year, subject to continued employment with us.

On May 21, 2012, we hired David Tucker to be Executive Vice President, Mortgage and President of our Mortgage Business Segment. Mr. Tucker was provided a 2012 annualized base salary of \$560,000, and a Target 2012 MIP opportunity of \$431,507, prorated based on his start date. Mr. Tucker also received a sign-on grant of 76,499 PRSUs, with the same vesting and share price targets as Mr. Messina's February 2012 PRSU grant, and a grant of 151,331 stock options, with three-year cliff vesting. Mr. Tucker also received a grant of 10,000 RSUs, which represents a 1:1 matching grant for his open market purchases of our stock. These matching RSUs will vest after one year, subject to continued employment with us, and was the maximum matching grant permitted under his offer.

The long-term incentive grants to Messrs. Crowl and Tucker are consistent with those provided to our Chief Executive Officer, and ensure that we receive long-term shareholder value creation before they provide rewards to the executives.

Retirement Benefits

Mr. Kilroy and Mr. Bradfield participate in the PHH Corporation Pension Plan, which is a defined benefit pension plan that was available to all of our employees prior to 2005. The benefits payable under the PHH Corporation Pension Plan have been frozen for Mr. Kilroy and Mr. Bradfield as well as the other plan participants. See " Pension Benefits" below for more information regarding benefits available to Mr. Kilroy and Mr. Bradfield under this plan. In addition, all of our Named Executive Officers are eligible to participate in the PHH Corporation Employee Savings Plan (the "PHH Savings Plan") on the same basis as other employees during the term of their employment. The PHH Savings Plan is a tax-qualified

Table of Contents

retirement savings plan that provides for employee contributions made on a pre-tax basis and matching contributions based on a portion of the employee's compensation contributed to the PHH Savings Plan up to the statutory limit. The matching contribution percentage under the PHH Savings Plan is 4% of the employee's compensation contributed to the PHH Savings Plan up to the statutory limit. See "All Other Compensation" in Footnote 6 under " Summary Compensation Table" for more information regarding matching contributions to the PHH Savings Plan made on behalf of each Named Executive Officer.

Perquisites and Other Compensation

We provide only two perquisites to our Named Executive Officers. Our Named Executive Officers generally are provided with or have use of company vehicles. Also, incumbent Named Executive Officers continue to receive financial planning services, but they are not being provided to newly-hired executives. We do not provide tax reimbursements on the foregoing perquisites. Considering our fleet management business, the provision of vehicles to our Named Executive Officers is considered an appropriate perquisite. The Committee reviews the appropriateness of perquisites each year, and will do so again in 2013. Each of our Named Executive Officers also is entitled to participate in various employee benefit plans available generally to all employees on a non-discriminatory basis.

Change in Control and Other Severance Arrangements

In 2012, we modified our executive severance program to provide consistency with market practice and to protect shareholders through the use of restrictive covenants. The executive severance program now has the following elements:

In the event of a termination without cause, a participant in the Tier I Severance Program is entitled to receive severance benefits as described below, provided a general release agreement is executed.

Certain members of the executive leadership team, including Named Executive Officers and certain Management Operating Committee members, as well as other key employees, are eligible to participate in the Tier I Severance Program, depending upon whether they were required to execute restrictive covenants that included non-competition provisions as a condition of participating in the long term incentive program.

Severance benefits under the Tier I Severance Program include salary continuation for either one or two years which runs concurrent with the duration of the non-compete and non-solicitation provisions contained in restrictive covenant agreements executed as a condition of participation in the long term incentive program; outplacement assistance services not to exceed \$17,000 to be used within 24 months of the separation from employment; and reimbursement for the cost of COBRA coverage during the duration of the restrictive covenants.

We also maintain a general severance program for senior level executives and other employees. In 2013, we modified our general severance plan to state that if a Senior Vice President is terminated without cause after one year of service (vs. within 6 months), he or she would receive 26 weeks of salary, and that if the individual is terminated without cause before completing one year of service, he or she is eligible for 16 weeks of salary, rather than 26 weeks. The executive is required to execute confidentiality and non-solicitation agreements, and to provide a general release of all claims, in order to receive the benefits.

Under the 2005 Equity and Incentive Plan, unvested equity-based awards generally will become fully and immediately vested and, in the case of stock options, exercisable, upon the occurrence of a change in control transaction (as defined in the 2005 Equity and Incentive Plan). See below for additional information regarding payments in the event of a change in control or other termination of employment for each Named Executive Officer.

We entered into a separation agreement with Mr. Selitto following his termination without cause on January 3, 2012. In exchange for a general release of claims and a non-compete period of 24 months,

beginning on the date of his termination, Mr. Selitto received the following severance benefits: (a) 12 months of salary continuation at \$840,000; (b) Reimbursement of COBRA payment premiums from date of separation until the earlier of the date he eligible for coverage under a new group health plan or January 31, 2013. We reimbursed Mr. Selitto for \$15,873 of COBRA benefits; (c) The opportunity to continue to vest in nonqualified stock options provided on October 26, 2009 as if Mr. Selitto remained employed through October 26, 2012; and (d) Transfer of title to his company provided car. Mr. Selitto purchased his vehicle at fair market value of \$33,810. See also "Potential Payments Upon Termination of Employment or Change in Control Potential Payments and Benefits Severance" below for additional information.

Deductibility of Executive Compensation

In accordance with Section 162(m) of the Internal Revenue Code, the deductibility for federal corporate income tax purposes of compensation paid to certain of our executive officers in excess of \$1 million in any year may be restricted. The Committee believes that it is in the best interests of our stockholders to provide tax-deductible compensation when consistent with meeting our key strategic and operational goals and objectives and paying for performance. Accordingly, where it is deemed necessary and in our best interests to attract and retain the best possible executive talent and to motivate such executives to achieve the goals inherent in our business strategy, the Committee may approve compensation to executive officers that may exceed the limits of deductibility imposed by Section 162(m). The 2012 and 2013 Management Incentive Plans were specifically designed, approved and implemented for favorable tax treatment under Section 162(m). The Committee retains the ability to exercise its judgment to make awards that it believes are in the best interests of shareholders, even if those awards do not result in favorable tax treatment, as it did for certain awards in 2013 where the Committee exercised that judgment to reward outstanding performance by certain Named Executive Officers as described in the Summary Compensation Table.

Compensation Risk Assessment

Our management, with the assistance of the Human Capital and Compensation Committee's compensation consultant, conducted a risk assessment of our compensation programs to determine whether such programs are reasonably likely to have a material adverse effect on us. The risk assessment determined that our compensation programs do not encourage excessive or unnecessary risk-taking and are not reasonably likely to have a material adverse effect on us. While risk-taking is a necessary part of profitable growth, the Human Capital and Compensation Committee has focused on aligning our compensation policies with our long-term interests and avoiding short-term rewards for management decisions that could pose long-term risks to us, as follows:

Limits on MIP awards. MIP awards are capped at 150% of an executive's target award to protect against disproportionately large short-term incentives, and the Human Capital and Compensation Committee has discretion in determining reductions in the size of MIP awards based on those factors it deems appropriate, including whether an executive has caused us to incur unnecessary or excessive risk. (Performance below the Threshold performance level does not result in payouts.) The MIP also has "gates" related to cash flow and other key business needs to ensure that payouts are not made unless we provide sustainable performance. Further, senior executive officers have specific risk components embedded in their MBOs.

Use of Long-Term Incentive Compensation. Equity-based long-term incentive compensation that vests over a period of years, including awards with performance objectives, is a component of senior executive compensation. This vesting period encourages our executives to focus on sustaining our long-term performance. All equity grants have multi-year cliff vesting (with the exception of matching RSU grants), to ensure a focus on sustainable performance.

Table of Contents

Multi-Level Review and Oversight. We have multi-level review and oversight of our business operations and compensation processes in order to mitigate the possibility of employees receiving rewards for engaging in short-term, unsustainable performance decisions.

We have other compensation risk governance practices in place as well. Our Chief Risk Officer is responsible for understanding the risks posed by our operations and processes, including our compensation programs. The Chief Risk Officer's and Chief Ethics and Compliance Officer's input also are expressly solicited by the Committee in the design phase when changes to our compensation programs are being considered. They provide analyses of the fraud and other risks and mitigating factors to the Committee in connection with all compensation program changes. The Board's compensation risk governance includes the Human Capital and Compensation Committee consulting with the Board's Audit Committee and Finance and Risk Management Committee around compensation and risk. The Finance and Risk Management Committee reviews the risk factors each year, and reviews program changes for these factors, consistent with its Charter.

In sum, our compensation programs are structured so that a considerable amount of compensation of our executives is tied to our long-term health, which encourages risk oversight. We believe our compensation programs avoid the type of disproportionately large short-term incentives that could encourage executives and other employees to take risks that may not be in our long-term interests, include risk management in the individual objectives of executives and other key employees to align them with incentive payouts, and provide incentives to manage for long-term performance. The Human Capital and Compensation Committee believe this combination of factors encourages our executives and other employees to manage our businesses in a prudent manner.

Compensation Committee Interlocks and Insider Participation

The Human Capital and Compensation Committee is currently comprised of Messrs. Loren (Chair) and Pizzi and Ms. Reif. Mr. Pizzi was appointed to the Human Capital and Compensation Committee on January 26, 2012. The Human Capital and Compensation Committee consists entirely of "outside directors" within the meaning of the regulations under Section 162(m) of the Internal Revenue Code of 1986, as amended, "non-employee directors" under SEC Rule 16b-3, and "independent" directors as affirmatively determined by the Board pursuant to the NYSE Listing Standards and our categorical Independence Standards. The current members of the Human Capital and Compensation Committee are the individuals named as signatories to the Compensation Committee Report set forth above under "Compensation Committee Report." None of the individuals that served on the Human Capital and Compensation Committee during 2012 and none of the current members of the Human Capital and Compensation Committee are former officers or employees of the Company.

Table of Contents**SUMMARY COMPENSATION TABLE**

The information below sets forth the compensation awarded to, earned by or paid to our "Named Executive Officers" as defined in Item 402 of Regulation S-K (collectively referred to as our "Named Executive Officers"). The form and amount of the compensation awarded to, earned by or paid to our Named Executive Officers for the year ended December 31, 2012, was determined by the Human Capital and Compensation Committee of our Board. The amounts included in the "Stock Awards," "Option Awards" and "Total" columns reflect the aggregate grant date fair value of equity-based compensation awards made during a given year in accordance with SEC rules, as opposed to the amount of equity-based compensation expense recognized by us during such year or the amount of value actually realized from equity-based compensation awards during such year by the particular Named Executive Officer. Accordingly, the amounts in the "Total" column do not necessarily reflect either the compensation expense recognized by us for a given year or the value actually realized from equity-based compensation awards by our Named Executive Officers for a given year, either of which may be substantially greater or less than the amounts included in the "Total" column below. See the "Option Exercises and Stock Vested During 2012" table below for information concerning the amount of value actually realized during 2012 by our Named Executive Officers from equity-based compensation awards. For Mr. Selitto, the values included in the All Other Compensation column reflect compensation paid in connection with his separation from the Company effective January 3, 2012.

The figures shown in this column represent discretionary bonus amounts awarded to certain Named Executive Officers. In particular, for Mr. Messina this figure, which was recommended by the Human Capital and Compensation Committee and approved by the Board of Directors, was awarded because he demonstrated outstanding leadership in managing through the challenges we faced in 2012, both anticipated and unanticipated. For Mr. Tucker, Mr. Kilroy and Mr. Bradfield these additional amounts acknowledge their respective roles and leadership demonstrated in 2012 and other performance beyond their individual objectives. In addition, for Mr. Tucker, this figure also includes a \$350,000 guaranteed 2012 MIP payment pursuant to the terms of his employment offer letter.

(1) Amounts represent awards under the PHH Corporation Management Incentive Plan.

(2) Represents awards of performance-based restricted stock units ("2012 PRSUs") under the 2005 Equity and Incentive Plan. Subject to continued employment and certain other conditions, recipients of the 2012 PRSUs which contains a three year target measurement period (TMP) from the date of original grant will receive shares, if any, of PHH common stock based on the average closing Fair Market Value of PHH common stock during the final 90 day calendar day period of TMP. The final amount of earned shares, if any, will be settled between the end of the TMP period and December 31, 2015. More specifically, if the average closing Fair Market Value of PHH common stock fails to achieve a \$25.00 closing average in the final 90 days of TMP, 0% of the PRSUs granted will be settled and the entire PRSU grant from three years earlier will be forfeited. If the average closing fair market value of PHH common stock is \$25.00 or greater but less than \$30.00 in the final 90 day period prior to the end of the TMP 33 and 1/3rd % of the PRSUs granted on February 19, 2012 and June 6, 2012 will be settled with the balance of the PRSUs granted three years earlier being forfeited. PRSUs granted on September 27, 2012 will settle at 33% of the original grant size if the average closing fair market value of PHH common stock is \$25.00 or higher, but less than \$30.00 within the final 90 day period of TMP, with the balance of the PRSUs granted on September 27, 2012 being forfeited. If the average closing fair market value of PHH common stock price is \$30.00 or higher in the final 90 calendar day period of TMP, 100% of the PRSUs granted three years earlier will settle. Zero percent of the shares will settle if the average closing fair market value of PHH common stock in the final 90 days of TMP is below \$25.00. The Committee may exercise negative discretion to reduce the Achieved Percentage and the amount payable under this Award prior to the earlier of payment of the Award or Change in Control. Such discretion may be exercised based on the Committee's subjective determination (or the Committee's determination based upon a recommendation of the Company's management) of the extent to which the Grantee has achieved such individual goals for the TMP, if any, as the Committee may establish or based on any other factors the Committee deems necessary or appropriate in its sole and absolute discretion. See also Note 19, "Stock-Based Compensation" in the Notes to Consolidated Financial Statements included in the 2011 Annual Report for more information, including the assumptions used in calculating grant date fair value of equity-based compensation awards.

Table of Contents

- (7) Represents the threshold number, equal to 50% of the target number, of shares underlying unvested performance-based restricted stock units ("2011 PRSUs") granted under the 2005 Equity and Incentive Plan on November 14, 2011. Subject to continued employment and certain other conditions, recipients of the 2011 PRSUs will earn shares of our common stock according to the percentage by which we attain or exceed a minimum threshold amount of cumulative Core Earnings (Pre-Tax) during the target measurement period of October 1, 2011, through December 31, 2013. For purposes of the 2011 PRSUs, "Core Earnings (Pre-Tax)" means consolidated pre-tax income after non-controlling interest excluding unrealized changes in fair value of mortgage servicing rights that are based upon projections of expected future cash flows and prepayments as well as realized and unrealized changes in the fair value of derivatives that are intended to offset changes in the fair value of mortgage servicing rights. Achievement of the minimum threshold performance level during the target measurement period will entitle recipients of the 2011 PRSUs to receive the threshold number of shares underlying such 2011 PRSUs, which represents 50% of the target number of shares underlying such 2011 PRSUs. Recipients of the 2011 PRSUs may not earn more than 150% of the target number of shares underlying such 2011 PRSUs. The Human Capital and Compensation Committee may exercise negative discretion to reduce the actual number of shares earned pursuant to the 2011 PRSUs. The 2011 PRSUs will be settled, and shares earned pursuant thereto will be issued, on or after January 1, 2014, and on or before April 30, 2014. See also Note 19, "Stock-Based Compensation" in the Notes to Consolidated Financial Statements included in the 2011 Annual Report for more information, including the assumptions used in calculating grant date fair value of equity-based compensation awards. Mr. Selitto's employment terminated on January 3, 2012. Per plan provisions upon termination Mr. Selitto forfeited 75% of the PRSUs grant and became eligible to be considered for value derived from the remaining shares based on company performance as described in this note.
- (8) Represents performance RSUs granted to Mr. Messina on February 19, 2012 pursuant to his promotional compensation package associated with becoming CEO. The award, subject to continued employment and other plan provisions will vest on February 19, 2015. The final number of units that Mr. Messina will receive upon vesting on that date depends on PHH's average stock price in the 90 day period leading up to and including February 19, 2015. If the average stock price is below \$25, 0% of the shares will vest. If the average stock price is \$25 or higher but below \$30, 33 and 1/3rd% of the shares will vest. If the share price is \$30 or higher, 100% of the shares will vest.
- (9) Represents Performance Restricted Stock Units (PRSUs) granted on September 27, 2012 that will settle on September 26, 2015. The period between September 27, 2012 and September 26, 2015 is known as the measurement period (TMP). The shares will settle at 33% of the original grant if the average closing fair market value of PHH common stock in the final 90 calendar days of TMP is at least \$25.00 but below \$30.00. If the average closing fair market value of PHH stock is \$30.00 or higher in the final 90 day calendar days of TMP, 100% of the PRSUs granted will settle. Zero percent of the shares will settle if the average closing fair market value of PHH common stock in the final 90 days of TMP is below \$25.00.

The final number of units that Mr. Tucker will receive upon vesting on that date depends on PHH's average stock price in the 90 day period leading up to and including June 6, 2015. If the average stock price is below \$25, 0% of the shares will vest. If the average stock price is \$25 or higher but below \$30, 33 and 1/3rd% of the shares will vest. If the share price is \$30 or higher, 100% of the shares will vest.
- (16) These stock options awards are fully exercisable as of December 31, 2012.

Represents remaining portion of performance RSUs that were granted on January 10, 2008. The grant provided for accelerated vesting over each of the first three years based on business performance. To the extent the performance goals were not achieved in each of the three years, the remaining RSUs would vest 50% on January 10, 2012 and 50% on January 10, 2013.

The agreement did not extend the period in which the option could be exercised, therefore requiring the exercise to occur within one year of termination.

PENSION BENEFITS

The following table sets forth information relating to the PHH Corporation Pension Plan, which is a defined benefit plan adopted as of our spin-off in 2005. The PHH Corporation Pension Plan has been frozen for all participants, and no further benefits are accruing under such plans. The only two Named Executive Officers eligible for pension benefits under the PHH Corporation Pension Plan are Mr. Kilroy and Mr. Bradfield. The PHH Corporation Pension Plan assumed all liabilities and obligations owed to participants that were actively employed by us at the time of the spin-off under the predecessor plan of Cendant Corporation (now known as Avis Budget Group, Inc.). Certain of our current and former employees, including Messrs. Messina, Selitto, Crowl, and Tucker, were not participants in the predecessor plan of Cendant Corporation (now known as Avis Budget Group, Inc.) and are not participants in the PHH Corporation Pension Plan.

George J. Kilroy	PHH Corporation Pension Plan	28.1	1,105,922	
Richard J. Bradfield	PHH Corporation Pension Plan	8.0	16,661

(2) The valuation included in this column have been calculated as of December 31, 2012 assuming the Named Executive Officer will retire at the normal retirement age of 65 and using the interest rate and other assumptions as described in Note 13, "Pension and Other Post Employment Benefits" in the Notes to Consolidated Financial Statements included in the 2012 Annual Report.

NON-QUALIFIED DEFERRED COMPENSATION

We no longer maintain a non-qualified deferred compensation plan. The PHH Corporation Executive Deferred Compensation Plan (the "Deferred Compensation Plan") was established in 1994 for specified executive officers at that time and was frozen to further participation in 1997. On December 16, 2010, the Board, upon the recommendation of the Human Capital and Compensation Committee, terminated the Deferred Compensation Plan. None of the Named Executive Officers were participants in the Deferred Compensation Plan and none of the Named Executive Officers received earnings or distributions under the Deferred Compensation Plan.

Table of Contents**POTENTIAL PAYMENTS UPON TERMINATION OF EMPLOYMENT OR CHANGE IN CONTROL**

The following table sets forth the estimated payments and benefits payable to the Named Executive Officers that were employed by us on December 31, 2012, pursuant to the terms of any contract, agreement, plan or arrangement that existed as of December 31, 2012, and that provided for payments and benefits following, or in connection with, a termination of the Named Executive Officer's employment, including by voluntary termination with or without good reason, involuntary termination not for cause, involuntary termination for cause, retirement, death, disability, or a change in control with or without a termination of the Named Executive Officer's employment. For purposes of calculating the amounts in the table below, we have assumed that the termination or change in control event took place on December 31, 2012, as required by SEC rules. For purposes of calculating the value on December 31, 2012, of any equity-based awards in accordance with the SEC rules, we used the closing price of our common stock on December 31, 2012, or \$22.75 per share. See the discussion that follows the table for additional information regarding these estimated payments and benefits.

- (1) Pursuant to the 11/14/2011 RSU award: If the executive is terminated by the company without cause or due to death or disability, after the three year performance period is completed the executive has the opportunity to vest in 25% of the award depending on performance against the goals. If the executive terminates due to a change in control, the award will immediately vest in a portion of 25% of target shares. This portion is calculated as the percentage of Core Earnings (pre-tax) earned from the beginning of the performance period through 12/31/2013 compared to threshold Core Earnings (pre-tax) performance required.

Table of Contents

The amounts shown in the table above include estimates of what would be paid to the applicable Named Executive Officers upon the occurrence of the specified event. The actual amounts to be paid to the applicable Named Executive Officers can only be determined at the time of such event. We have included payments related to the PHH Corporation Pension Plan in the table since this is a frozen plan and is not available to all of our current employees. We have not included payments related to the PHH Corporation Pension Plan in the specified events other than the "Retirement" column, as these payments are not triggered by termination, death or disability of the applicable Named Executive Officer or a change in control. These amounts would be payable to the applicable Named Executive Officer at some time after the specified event once the minimum retirement age and other PHH Corporation Pension Plan requirements were met. In addition, the table does not include payments of life or disability insurance payable upon the death or disability of the Named Executive Officers, as these benefits are available to all employees on the same basis.

Potential Payments and Benefits

Severance. We provide post-termination payments of salary or severance to our Named Executive Officers under the Tier I Severance Program in the event of a reduction in our workforce, the elimination or discontinuation of their position, or if employment is terminated by Company without cause. Severance benefits under the Tier I Plan include salary continuation for either one or two years which runs concurrent with the duration of the non-compete and non-solicitation provisions contained in restrictive covenant agreements executed as a condition of participation in the long term incentive program; outplacement assistance services not to exceed \$17,000 to be used within 24 months of the separation from employment; and reimbursement for the cost of COBRA coverage during the duration of the restricted covenants.

We entered into a separation agreement with Mr. Selitto following his termination without cause on January 3, 2012. In exchange for a general release of claims and a non-compete period of 24 months, beginning on the date of his termination, Mr. Selitto received the following severance benefits: (a) 12 months of salary continuation at \$840,000; (b) Reimbursement of COBRA payment premiums from date of separation until the earlier of the date he eligible for coverage under a new group health plan or January 31, 2013. We reimbursed Mr. Selitto for \$15,873 of COBRA benefits; (c) The opportunity to continue to vest in nonqualified stock options provided on October 26, 2009 as if Mr. Selitto remained employed through October 26, 2012; and (d) Transfer of title to his company provided car. Mr. Selitto purchased his vehicle at fair market value of \$33,810.

Also, pursuant to the November 11, 2011 Performance Restricted Stock Unit award, after the three-year performance period is completed, Mr. Selitto has the opportunity to vest in 25% of the award depending on the performance against the goals. Pursuant to the November 11, 2011 Stock Option award, Mr. Selitto received accelerated vesting for 25% of the stock option award. The November 2011 grants are subject to non-competition and other restrictive covenant provisions.

Accelerated Vesting of Stock Awards. All of the stock awards made to our Named Executive Officers have been granted under the 2005 Equity and Incentive Plan and are subject to the vesting and other terms set forth in award agreements and the 2005 Equity and Incentive Plan. Pursuant to the terms of the 2005 Equity and Incentive Plan and unless provided otherwise in the applicable award agreements, in the event of a Change in Control (defined below), any stock option award carrying a right to exercise that was not previously vested and exercisable becomes fully vested and exercisable, and any restrictions, deferral limitations, payment conditions and forfeiture conditions for RSU and other equity-based awards lapse and such equity-based awards are deemed fully vested. In addition, any performance conditions imposed with respect to such equity-based awards are deemed to be fully achieved. The terms of the PRSU awards that were made as part of the September 2012 LTIP Grants contain specific accelerated vesting triggers that supersede the terms of the 2005 Equity and Incentive Plan and expressly provide that any Change in Control or termination of employment without cause prior to January 1, 2013, will result in the vesting of

Table of Contents

none of the PRSU awards that were made as part of the September 2012 LTIP Grants. In the case of a Change in Control, a prorated portion of the September 2012 Stock Options will vest based on the number of days from the grant date through the Change in Control date. The acquiring company also has the ability to replace the Stock Option awards with awards of the acquiring company. None of the September 2012 Stock Option awards will vest in the event of a termination of employment without cause that occurs prior to January 1, 2013.

Pursuant to the terms of the 2005 Equity and Incentive Plan, a Change in Control is deemed to have occurred if:

any person, as such term is used in Sections 13(d) and 14(d) of the Exchange Act (other than (i) us, (ii) any trustee or other fiduciary holding securities under one of our employee benefit plans and (iii) any corporation owned, directly or indirectly, by our stockholders in substantially the same proportions as their ownership of our common stock), is or becomes the beneficial owner (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of our common stock representing 30% or more of the combined voting power of our then outstanding voting securities (excluding any person who becomes such a beneficial owner in connection with a transaction immediately following which the individuals who comprise our Board immediately prior thereto constitute at least a majority of the Board of the entity surviving such transaction or, if we or the entity surviving the transaction is then a subsidiary, the ultimate parent thereof);

the following individuals cease for any reason to constitute a majority of the number of directors then serving: individuals who constitute the Board and any new director (other than a director whose initial assumption of office is in connection with an actual or threatened election contest, including but not limited to a consent solicitation, relating to the election of directors) whose appointment or election by the Board or nomination for election by our stockholders was approved or recommended by a vote of at least two-thirds ($\frac{2}{3}$) of the directors then still in office who either were directors or whose appointment, election or nomination for election was previously so approved or recommended;

there is consummated a merger or consolidation of us or any of our direct or indirect subsidiaries with any other corporation, other than a merger or consolidation immediately following which the individuals who comprise our Board immediately prior thereto constitute at least a majority of the Board of the entity surviving such merger or consolidation or, if we or the entity surviving such merger is then a subsidiary, the ultimate parent thereof; or

our stockholders approve a plan of complete liquidation or there is consummated an agreement for the sale or disposition by us of all or substantially all of our assets (or any transaction having a similar effect), other than a sale or disposition by us of all or substantially all of our assets to an entity, immediately following which the individuals who comprise our Board immediately prior thereto constitute at least a majority of the Board of the entity to which such assets are sold or disposed of or, if such entity is a subsidiary, the ultimate parent thereof.

The amounts in the table are calculated using the closing price of our common stock on December 31, 2012, and the number of stock options and RSUs used to calculate the amounts in the table are those unexercisable stock options and unvested RSUs that would become exercisable and vested as a result of the Change in Control event pursuant to SEC rules.

Accelerated Payout of 2012 MIPs. As discussed above with regard to equity-based awards, in the event of a Change in Control, the performance conditions imposed with respect to awards under the PHH Corporation Management Incentive Plan are deemed to be fully achieved and the target payout amount under each Named Executive Officer's respective MIP award will be deemed to be earned and payable to the each such Named Executive Officer. In the event of the death of a Named Executive Officer, the performance conditions under the MIP are deemed to be fully achieved and the target payout amount,

prorated according to the extent of time that the Named Executive Officer participated in the MIP during the performance period, is deemed earned and payable to such Named Executive Officer's estate. See " Compensation Discussion and Analysis Executive Compensation Program Variable Annual Cash Compensation Programs" and the " Grants of Plan-Based Awards During 2012" table above for information regarding the MIP.

Retirement Plans. Mr. Kilroy and Mr. Bradfield are participants in the PHH Corporation Pension Plan. This plan was available to all employees prior to 1999 on a non-discriminatory basis. Participants in the PHH Corporation Pension Plan are entitled to payments in the form of an annuity upon attaining retirement age. The amounts reflected in the table above are based on the estimated present value on December 31, 2012 of the payouts for Mr. Kilroy and Mr. Bradfield. See the " Pension Benefits" table above for more information.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our executive officers and directors, and any persons that beneficially own more than ten percent of a registered class of our equity securities, to file reports of ownership and changes in ownership on Forms 3, 4 and 5 with the SEC and the NYSE. To our knowledge, based solely upon our review of Forms 3 and 4 that have been filed with the SEC and written representations from our executive officers and directors that no Form 5s were required, we believe that, except for a single Form 3 for David Tucker that was inadvertently filed late, all of our executive officers, directors and greater than ten percent beneficial owners complied with all Section 16(a) filing requirements applicable to them with respect to transactions during 2012.

STOCKHOLDER PROPOSALS FOR 2014 ANNUAL MEETING OF STOCKHOLDERS

We provide stockholders with the opportunity, under certain circumstances and consistent with our amended and restated by-laws and the rules of the SEC, to participate in the governance of the Company by submitting proposals and director nominations for consideration at our annual meeting of stockholders. Proposals from stockholders are given careful consideration by us in accordance with Rule 14a-8 promulgated under the Exchange Act ("Rule 14a-8"). For a proposal to be included in our proxy statement and proxy card for our 2014 Annual Meeting of Stockholders, such proposal must comply with Rule 14a-8 and must be received by us in writing no later than December 31, 2013. An untimely proposal may not be brought before or considered at our 2014 Annual Meeting of Stockholders. Any stockholder proposal or director nomination submitted must also be made in compliance with our amended and restated by-laws. APPENDIX B

NOTE REGARDING NON-GAAP FINANCIAL MEASURES

Core Earnings (Pre-Tax), Core Earnings (Pre-Tax) Per Diluted Share, Adjusted Cash Flow, and Pre-tax Core ROE are financial measures that are not in accordance with U.S. generally accepted accounting principles ("GAAP"). See "Non-GAAP Reconciliations" below for a reconciliation of these measures to the most directly comparable GAAP financial measures as required by Item 10(e) of Regulation S-K.

We believe that these Non-GAAP financial measures can be useful to investors because it provides a means by which investors can evaluate our underlying key drivers and operating performance of the business, exclusive of certain adjustments and activities that investors may consider to be unrelated to the underlying economic performance of our business for a given period.

We also believe that any meaningful analysis of our financial performance by investors requires an understanding of the factors that drive our underlying operating performance which can be obscured by significant unrealized changes in value of our mortgage servicing rights, as well as any gain or loss on derivatives that are intended to offset market-related fair value adjustments on our mortgage servicing rights, in a given period that are included in Income (loss) before income taxes and Net income (loss) attributable to PHH Corporation, Diluted earnings (loss) per share attributable to PHH Corporation and Return on Equity as computed in accordance with GAAP or, in the case of Return on Equity, computed utilizing amounts that are computed in accordance with GAAP.

Core Earnings (Pre-Tax), Core Earnings (Pre-Tax) Per Diluted Share and Pre-tax Core ROE

Core Earnings (Pre-Tax), Core Earnings (Pre-Tax) Per Diluted Share and Pre-tax Core ROE involve differences from Income (loss) before income taxes, Net income (loss) attributable to PHH Corporation, Diluted earnings (loss) per share attributable to PHH Corporation and Return on Equity as computed in accordance with GAAP or, in the case of Return on Equity, computed utilizing amounts that are computed in accordance with GAAP. These Non-GAAP measures should be considered as supplementary to, and not as a substitute for, Income (loss) before income taxes, Net income (loss) attributable to PHH Corporation, Diluted earnings (loss) per share attributable to PHH Corporation and Return on Equity computed in accordance with GAAP or, in the case of Return on Equity, computed utilizing amounts that are computed in accordance with GAAP, as a measure of our financial performance.

Core Earnings (Pre-Tax), Core Earnings (Pre-Tax) Per Diluted Share and Pre-tax Core ROE, as presented on a consolidated and segment basis, measures our financial performance excluding unrealized changes in fair value of our mortgage servicing rights that are based upon projections of expected future cash flows and prepayments. The changes in fair value of mortgage servicing rights are highly sensitive to changes in interest rates and are dependent upon the level of current and projected interest rates at the end of each reporting period. Core Earnings (Pre-Tax) Per Diluted Share measures our Core Earnings (Pre-Tax) performance based on fully diluted shares outstanding and Pre-tax Core ROE measures our Core Earnings (Pre-Tax) performance based on our Adjusted Average Book Equity.

Value lost from actual prepayments and recurring cash flows are recorded when actual cash payments or prepayments of the underlying loans are received, and are included in Core Earnings (Pre-Tax), Core Earnings (Pre-Tax) Per Diluted Share and Pre-tax Core ROE based on the current fair value of the mortgage servicing rights at the time the payments are received.

The presentation of Core Earnings (Pre-Tax), Core Earnings (Pre-Tax) Per Diluted Share and Pre-tax Core ROE are designed to more closely align the timing of recognizing the actual value lost from prepayments in our mortgage servicing segment with the associated value created through new originations in our mortgage production segment. We believe that we will likely replenish most, if not all, realized value lost from changes in value from actual prepayments through new loan originations and we actively manage and monitor economic replenishment rates to measure our ability to continue to do so. Therefore, we do not believe the unrealized change in value of our mortgage servicing rights is representative of the economic change in value of our business as a whole.

Table of Contents

Core Earnings (Pre-Tax) is used in managing our mortgage business. We have also designed certain management incentives based upon the achievement of Core Earnings (Pre-Tax), Core Earnings (Pre-Tax) Per Diluted Share and Pre-tax Core ROE targets, subject to potential adjustments that may be made at the discretion of the Human Capital and Compensation Committee. The calculation of Pre-tax Core ROE is based on Adjusted Average Book Equity, which differs from Total PHH Corporation stockholder's equity. Adjusted Average Book Equity measures Total PHH Corporation stockholders' equity, adjusted for the equity impact of unrealized changes in the fair value of mortgage servicing rights that are based upon projections of expected future cash flows and prepayments and realized and unrealized changes in the fair value of derivatives that are intended to offset changes in the fair value of mortgage servicing rights that are recorded during the period.

Limitations on the use of Core Earnings (Pre-Tax), Core Earnings (Pre-Tax) Per Diluted Share and Pre-tax Core ROE

Since Core Earnings (Pre-Tax), Core Earnings (Pre-Tax) Per Diluted Share and Pre-tax Core ROE measure our financial performance excluding unrealized changes in value of mortgage servicing rights, these measures may not appropriately reflect the rate of value lost on subsequent actual payments or prepayments over time. As such, Core Earnings (Pre-Tax), Core Earnings (Pre-Tax) Per Diluted Share and Pre-tax Core ROE may tend to overstate operating results in a declining interest rate environment and understate operating results in a rising interest rate environment, absent the effect of any offsetting gains or losses on derivatives that are intended to offset changes in fair value on our mortgage servicing rights.

Adjusted Cash Flow

Adjusted Cash Flow involves differences from Net increase (decrease) in cash and cash equivalents computed in accordance with GAAP. Adjusted cash flow should be considered as supplementary to, and not as a substitute for, Net increase (decrease) in cash and cash equivalents computed in accordance with GAAP as a measure of the Company's net increase or decrease in cash and cash equivalents.

Adjusted Cash Flow, as presented on a consolidated and segment basis, measures the Company's Net increase (decrease) in cash and cash equivalents for a given period excluding changes resulting from the issuance of equity, the purchase of derivative securities related to the Company's stock or the issuance or repayment of unsecured or other debt by PHH Corporation. The Company believes that Adjusted Cash Flow is a useful measure for investors because the Company's ability to repay future unsecured debt maturities or return capital to equity holders is highly dependent on a demonstrated ability to generate cash. Accordingly, the Company believes that Adjusted Cash Flow may assist investors in determining the amount of cash and cash equivalents generated from business activities during a period that is available to repay unsecured debt or distribute to holders of the Company's equity.

Adjusted Cash Flow can be generated through a combination of earnings, more efficient utilization of asset-backed funding facilities, or an improved working capital position. Adjusted Cash Flow can vary significantly between periods based upon a variety of potential factors including timing related to cash collateral postings, mortgage origination volumes and margins, fleet vehicle purchases, sales, and related securitizations, etc.

Limitations on the use of Adjusted Cash Flow

Adjusted Cash Flow is not a substitute for the Net increase (decrease) in cash and cash equivalents for a period and is not intended to provide the Company's total sources and uses of cash or measure its change in liquidity. As such, it is important that investors review the Company's consolidated statement of cash flows for a more detailed understanding of the drivers of net cash provided by (used in) operating activities, investing activities, and financing activities.

Adjusted Cash Flow metrics are used in managing the Company's mortgage and fleet businesses. The Company has also designed certain management incentives based upon the achievement of Adjusted Cash
