**PROSPECTUS SUPPLEMENT
(to Prospectus dated June 4, 2015)**

5,000,000 Shares

New Mountain Finance Corporation

Common Stock

We are a Delaware corporation that was originally incorporated on June 29, 2010. We are a closed-end, non-diversified management investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. In some cases, our investments may also include equity interests. Our primary focus is in the debt of defensive growth companies, which are defined as generally exhibiting the following characteristics: (i) sustainable secular growth drivers, (ii) high barriers to competitive entry, (iii) high free cash flow after capital expenditure and working capital needs, (iv) high returns on assets and (v) niche market dominance.

The investments that we invest in are almost entirely rated below investment grade or may be unrated, which are often referred to as "leveraged loans," "high yield" or "junk" debt investments, and may be considered "high risk" or speculative compared to debt investments that are rated investment grade. Such issuers are considered more likely than investment grade issuers to default on their payments of interest and principal and such risk of default could reduce our net asset value and income distributions. Our investments are also primarily floating rate debt investments that contain interest reset provisions that may make it more difficult for borrowers to make debt repayments to us if interest rates rise. In addition, some of our debt investments will not fully amortize during their lifetime, which could result in a loss or a substantial amount of unpaid principal and interest due upon maturity. Our debt investments may also lose significant market value before a default occurs. Furthermore, an active trading market may not exist for these securities. This illiquidity may make it more difficult to value our investments.

We are offering for sale 5,000,000 shares of our common stock. Steven B. Klinsky, the Chairman of our board of directors, is purchasing 500,000 shares in this offering at the public offering price. We have granted the

underwriters a 30-day option to purchase up to 750,000 additional shares of our common stock at the public offering price, less underwriting discounts and commissions.

Our common stock is listed on the New York Stock Exchange under the symbol "NMFC". On September 18, 2015, the last reported sales price on the New York Stock Exchange for our common stock was \$14.34 per share, and the net asset value per share of our common stock on June 30, 2015 (the last date prior to the date of this prospectus supplement on which we determined our net asset value per share) was \$13.90.

An investment in our common stock is very risky and highly speculative. Shares of closed-end investment companies, including business development companies, frequently trade at a discount to their net asset value. In addition, the companies in which we invest in are subject to special risks. See "Risk Factors" beginning on page S-28 of this prospectus supplement and beginning on page 29 of the accompanying prospectus to read about factors you should consider, including the risk of leverage, before investing in our common stock.

This prospectus supplement and the accompanying prospectus contain important information about us that a prospective investor should know before investing in our common stock. Please read this prospectus supplement and the accompanying prospectus before investing and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information with the United States Securities and Exchange Commission (<http://www.sec.gov>), which is available free of charge by contacting us by mail at 787 Seventh Avenue, 48th Floor, New York, New York 10019 or on our website at <http://www.newmountainfinance.com>. Information contained on our website is not incorporated by reference into this prospectus supplement and the accompanying prospectus, and you should not consider that information to be part of this prospectus supplement and the accompanying prospectus.

Neither the United States Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities, or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Share	Total(4)
Public Offering Price	\$ 14.1400	\$ 70,700,000
Sales Load paid by us (Underwriting Discounts and Commissions)(1)(2)	\$ 0.3600	\$ 1,620,000
Proceeds to us (before expenses)(2)(3)	\$ 13.7800	\$ 69,080,000
Sales Load payable to the underwriters by Investment Adviser (Underwriting Discounts and Commissions)(1)(3)	\$ 0.0642	\$ 288,900

(1) See "Underwriting" for details of compensation to be received by the underwriters.

(2) As per an arrangement between the underwriters and Steven B. Klinsky, our Chairman of the board of directors, the underwriters will not receive sales load on the 500,000 shares Mr. Klinsky is purchasing in this offering, which decreases the total sales load received by the underwriters from us by approximately \$180,000 and increases proceeds to us by approximately \$180,000.

(3) New Mountain Finance Advisers BDC, L.L.C. (the "Investment Adviser") has agreed to bear \$288,900, or \$0.0642 per share, of sales load only in connection with this offering, excluding the 500,000 shares Mr. Klinsky is purchasing in this offering, which is reflected in the above table. All payments made by the Investment Adviser will not be subject to reimbursement by us. All other expenses of the offering will be

borne by us. We will incur approximately \$339,462 of estimated expenses in connection with this offering.

(4)

To the extent that the underwriters sell more than 5,000,000 shares of our common stock, the underwriters have the option to purchase up to an additional 750,000 shares of our common stock at the public offering price, less the sales load, within 30 days of the date of this prospectus supplement. If the underwriters exercise this option in full, the total public offering price, sales load payable by us, proceeds to us and sales load payable by the Investment Adviser will be \$81,305,000, \$1,890,000, \$79,415,000 and \$337,050, respectively. See "Underwriting".

The underwriters expect to deliver the shares against payment in New York, New York on or about September 25, 2015.

ABOUT THIS PROSPECTUS SUPPLEMENT

You should rely only on the information contained in this prospectus supplement and the accompanying prospectus. Neither we nor the underwriters have authorized any other person to provide you with different information from that contained in this prospectus supplement or the accompanying prospectus. If anyone provides you with different or inconsistent information, you should not rely on it. This prospectus supplement and the accompanying prospectus do not constitute an offer to sell, or a solicitation of an offer to buy, any shares of our common stock by any person in any jurisdiction where it is unlawful for that person to make such an offer or solicitation or to any person in any jurisdiction to whom it is unlawful to make such an offer or solicitation. The information contained in this prospectus supplement and the accompanying prospectus is complete and accurate only as of their respective dates, regardless of the time of their delivery or sale of our common stock. This prospectus supplement supersedes the accompanying prospectus to the extent it contains information different from or additional to the information in that prospectus.

This document is in two parts. The first part is this prospectus supplement, which describes the terms of this offering of common stock and also adds to and updates information contained in the accompanying prospectus. The second part is the accompanying prospectus, which gives more general information and disclosure. To the extent the information contained in this prospectus supplement differs from the information contained in the accompanying prospectus, the information in this prospectus supplement shall control. Please carefully read this prospectus supplement and the accompanying prospectus together with any exhibits and the additional information described under "Available Information" and in the "Summary" and "Risk Factors" sections of this prospectus supplement and the accompanying prospectus before you make an investment decision. Unless otherwise indicated, all information included in this prospectus supplement assumes no exercise by the underwriters of their option to purchase up to an additional 750,000 shares of our common stock.

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights some of the information in this prospectus supplement and the accompanying prospectus. It may not contain all the information that is important to you. For a more complete understanding, we encourage you to read this entire prospectus supplement and the accompanying prospectus and the documents to which we have referred in this prospectus supplement, together with the accompanying prospectus, including the risks set forth under "Risk Factors" and the other information included in this prospectus supplement and the accompanying prospectus.

In this prospectus supplement, unless the context otherwise requires, references to:

"NMFC", the "Company", "we", "us" and "our" refers to New Mountain Finance Corporation, a Delaware corporation, which was incorporated on June 29, 2010, including, where appropriate, its wholly-owned direct and indirect subsidiaries;

"NMF SLF" refers to New Mountain Finance SPV Funding, L.L.C., a Delaware limited liability company;

"NMF Holdings" and "Predecessor Operating Company" refers to New Mountain Finance Holdings, L.L.C., a Delaware limited liability company. References to NMF Holdings include its wholly-owned subsidiary, NMF SLF, unless the context otherwise requires. References to NMF Holdings exclude NMF SLF when referencing NMF Holdings' common membership units, board of directors, and credit facility or leverage;

"SBIC GP" refers to New Mountain Finance SBIC G.P. L.L.C., a Delaware limited liability company;

"SBIC LP" refers to New Mountain Finance SBIC L.P., a Delaware limited partnership;

"Guardian AIV" refers to New Mountain Guardian AIV, L.P.;

"AIV Holdings" refers to New Mountain Finance AIV Holdings Corporation, a Delaware corporation which was incorporated on March 11, 2011, of which Guardian AIV was the sole stockholder;

"Investment Adviser" refers to New Mountain Finance Advisers BDC, L.L.C., our investment adviser;

"Administrator" refers to New Mountain Finance Administration, L.L.C., our administrator;

"New Mountain Capital" refers to New Mountain Capital Group, L.L.C. and its affiliates;

"Predecessor Entities" refers to New Mountain Guardian (Leveraged), L.L.C. and New Mountain Guardian Partners, L.P., together with their respective direct and indirect wholly-owned subsidiaries prior to our initial public offering;

"NMFC Credit Facility" refers to our Senior Secured Revolving Credit Agreement with Goldman Sachs Bank USA, Morgan Stanley Bank, N.A. and Stifel Bank & Trust, dated June 4, 2014, as amended (together with the related guarantee and security agreement);

Edgar Filing: New Mountain Finance Corp - Form 497

"Holdings Credit Facility" refers to NMF Holdings' Second Amended and Restated Loan and Security Agreement with Wells Fargo Bank, National Association, dated December 18, 2014;

"Predecessor Holdings Credit Facility" refers to NMF Holdings' Amended and Restated Loan and Security Agreement with Wells Fargo Bank, National Association, dated May 19, 2011, as amended;

S-1

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

"SLF Credit Facility" refers to NMF SLF's Loan and Security Agreement with Wells Fargo Bank, National Association, dated October 27, 2010, as amended; and

"Convertible Notes" refers to our convertible notes issued on June 3, 2014 under an indenture between us and U.S. Bank National Association.

For the periods prior to and as of December 31, 2013, all financial information provided in this prospectus supplement and accompanying prospectus reflect our organizational structure prior to the restructuring on May 8, 2014 described under "Description of Restructuring" in the accompanying prospectus, where NMF Holdings functioned as the operating company.

Overview

We are a Delaware corporation that was originally incorporated on June 29, 2010. We are a closed-end, non-diversified management investment company that has elected to be regulated as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act"). As such, we are obligated to comply with certain regulatory requirements. We have elected to be treated, and intend to comply with the requirements to continue to qualify annually, as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended, (the "Code"). We are also registered as an investment adviser under the Investment Advisers Act of 1940, as amended (the "Advisers Act").

On May 19, 2011, we priced our initial public offering (the "IPO") of 7,272,727 shares of common stock at a public offering price of \$13.75 per share. Concurrently with the closing of the IPO and at the public offering price of \$13.75 per share, we sold an additional 2,172,000 shares of our common stock to certain executives and employees of, and other individuals affiliated with, New Mountain Capital in a concurrent private placement (the "Concurrent Private Placement"). Additionally, 1,252,964 shares were issued to the partners of New Mountain Guardian Partners, L.P. at that time for their ownership interest in the Predecessor Entities. In connection with our IPO and through a series of transactions, NMF Holdings acquired all of the operations of the Predecessor Entities, including all of the assets and liabilities related to such operations.

NMF Holdings is a Delaware limited liability company. Until May 8, 2014, NMF Holdings was externally managed and was regulated as a BDC under the 1940 Act. As such, NMF Holdings was obligated to comply with certain regulatory requirements. NMF Holdings was treated as a partnership for United States ("U.S.") federal income tax purposes for so long as it had at least two members. With the completion of the underwritten secondary offering on February 3, 2014, NMF Holdings' existence as a partnership for U.S. federal income tax purposes terminated and NMF Holdings became an entity that is disregarded as a separate entity from its owner for U.S. federal tax purposes. See "Material Federal Income Tax Considerations" in the accompanying prospectus. For additional information on our organizational structure prior to May 8, 2014, see "Description of Restructuring" in the accompanying prospectus.

Until May 8, 2014, NMF Holdings was externally managed by the Investment Adviser. As of May 8, 2014, the Investment Adviser serves as the external investment adviser to us. The Administrator provides the administrative services necessary for operations. The Investment Adviser and Administrator are wholly-owned subsidiaries of New Mountain Capital. New Mountain Capital is a firm with a track record of investing in the middle market and with assets under management totaling more than \$15.0 billion⁽¹⁾, which includes total assets held by us. New Mountain Capital focuses on investing in defensive growth companies across its private equity, public equity, and credit investment vehicles. NMF Holdings, formerly known as New Mountain Guardian

(1) Includes amounts committed, not all of which have been drawn down and invested to-date, as of June 30, 2015, as well as amounts called and returned since inception.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

(Leveraged), L.L.C., was originally formed as a subsidiary of Guardian AIV by New Mountain Capital in October 2008. Guardian AIV was formed through an allocation of approximately \$300.0 million of the \$5.1 billion of commitments supporting New Mountain Partners III, L.P., a private equity fund managed by New Mountain Capital. In February 2009, New Mountain Capital formed a co-investment vehicle, New Mountain Guardian Partners, L.P., comprising \$20.4 million of commitments.

Prior to December 18, 2014, NMF SLF was a Delaware limited liability company. NMF SLF was a wholly-owned subsidiary of NMF Holdings and thus a wholly-owned indirect subsidiary of us. NMF SLF was bankruptcy-remote and non-recourse to us. As part of an amendment to our existing credit facilities with Wells Fargo Bank, National Association, NMF SLF merged with and into NMF Holdings on December 18, 2014. See "Management's Discussion and Analysis of Financial Conditions and Results of Operations - Liquidity and Capital Resources - Borrowings" in this prospectus supplement for additional information on our borrowings.

During the six months ended June 30, 2015, we established a wholly-owned subsidiary, NMF QID NGL Holdings, Inc. ("NMF QID"). Our wholly-owned subsidiaries, NMF Ancora Holdings Inc. ("NMF Ancora"), NMF QID and NMF YP Holdings Inc. ("NMF YP"), are structured as Delaware entities that serve as tax blocker corporations which hold equity or equity-like investments in portfolio companies organized as limited liability companies (or other forms of pass-through entities). We consolidate our tax blocker corporations for accounting purposes. The tax blocker corporations are not consolidated for income tax purposes and may incur income tax expense as a result of their ownership of the portfolio companies. Additionally, our wholly-owned subsidiary, New Mountain Finance Servicing, L.L.C. ("NMF Servicing") serves as the administrative agent on certain investment transactions. SBIC LP, and its general partner, SBIC GP, were organized in Delaware as a limited partnership and limited liability company, respectively. SBIC LP and SBIC GP are our consolidated wholly-owned direct and indirect subsidiaries. SBIC LP received a license from the U.S. Small Business Administration (the "SBA") to operate as a small business investment company ("SBIC") under Section 301(c) of the Small Business Investment Act of 1958, as amended (the "1958 Act").

Table of Contents

The diagram below depicts our organizational structure as of September 21, 2015.

* Includes partners of New Mountain Guardian Partners, L.P.

** NMFC is the sole limited partner of SBIC LP. NMFC, directly or indirectly through SBIC GP, wholly-owns SBIC LP. NMFC owns 100.0% of SBIC GP which owns 1.0% of SBIC LP. NMFC owns 99.0% of SBIC LP.

Our investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. In some cases, our investments may also include equity interests. The primary focus is in the debt of defensive growth companies, which are defined as generally exhibiting the following characteristics: (i) sustainable secular growth drivers, (ii) high barriers to competitive entry, (iii) high free cash flow after capital expenditure and working capital needs, (iv) high returns on assets and (v) niche market dominance. Similar to us, SBIC LP's investment objective is to generate current income and capital appreciation under our investment criteria. However, SBIC LP's investments must be in SBA eligible companies. Our portfolio may be concentrated in a limited number of industries. As of June 30, 2015, our top five industry concentrations were software, business services, education, federal services and distribution & logistics.

The investments that we invest in are almost entirely rated below investment grade or may be unrated, which are often referred to as "leveraged loans," "high yield" or "junk" debt investments, and may be considered "high risk" or speculative compared to debt investments that are rated investment grade. Such issuers are considered more likely than investment grade issuers to default on their payments of interest and principal and such risk of default could reduce our net asset value and income distributions. Our investments are also primarily floating rate debt investments that contain interest reset provisions that may make it more difficult for borrowers to make debt repayments to us if interest rates rise. In addition, some of our debt investments will not fully

Table of Contents

amortize during their lifetime, which could result in a loss or a substantial amount of unpaid principal and interest due upon maturity. Our debt investments may also lose significant market value before a default occurs. Furthermore, an active trading market may not exist for these securities. This illiquidity may make it more difficult to value our investments.

As of June 30, 2015, our net asset value was \$808.3 million and our portfolio had a fair value of approximately \$1,308.9 million in 65 portfolio companies, with a weighted average yield to maturity at cost ("Yield to Maturity at Cost") of approximately 10.8%. This Yield to Maturity at Cost calculation assumes that all investments, including secured collateralized agreements, not on non-accrual are purchased at the adjusted cost on the quarter end date and held until their respective maturities with no prepayments or losses and exited at par at maturity. Adjusted cost reflects the accounting principles generally accepted in the United States of America ("GAAP") cost for post-IPO investments and a stepped up cost basis of pre-IPO investments (assuming a step-up to fair market value occurred on the IPO date). This calculation excludes the impact of existing leverage. Yield to Maturity at Cost uses the London Interbank Offered Rate ("LIBOR") curves at each quarter's end date. The actual yield to maturity may be higher or lower due to the future selection of the LIBOR contracts by the individual companies in our portfolio or other factors.

The Investment Adviser

The Investment Adviser, a wholly-owned subsidiary of New Mountain Capital, manages our day-to-day operations and provides us with investment advisory and management services. In particular, the Investment Adviser is responsible for identifying attractive investment opportunities, conducting research and due diligence on prospective investments, structuring our investments and monitoring and servicing our investments. We currently do not have, and do not intend to have, any employees. As of June 30, 2015, the Investment Adviser was supported by approximately 100 staff members of New Mountain Capital, including approximately 60 investment professionals.

The Investment Adviser is managed by a five member investment committee (the "Investment Committee"), which is responsible for approving purchases and sales of our investments above \$10.0 million in aggregate by issuer. The Investment Committee currently consists of Steven B. Klinsky, Robert A. Hamwee, Adam B. Weinstein and John R. Kline. The fifth and final member of the Investment Committee will consist of a New Mountain Capital Managing Director who will hold the position on the Investment Committee on an annual rotating basis. Beginning in August 2015, Matthew S. Holt was appointed to the Investment Committee for the following twelve months. In addition, our executive officers and certain investment professionals of the Investment Adviser are invited to all Investment Committee meetings. Purchases and dispositions below \$10.0 million may be approved by our Chief Executive Officer. These approval thresholds are subject to change over time. We expect to benefit from the extensive and varied relevant experience of the investment professionals serving on the Investment Committee, which includes expertise in private equity, primary and secondary leveraged credit, private mezzanine finance and distressed debt.

Recent Developments

Departure of Certain Officers & Appointment of Certain Officers

On June 22, 2015, our board of directors appointed Karrie J. Jerry as the Chief Compliance Officer and Corporate Secretary of NMFC, in place of Paula A. Bosco, who previously served in such positions.

Ms. Jerry, 41, joined NMFC in 2011 and served as our Compliance Vice President and Assistant Corporate Secretary prior to this promotion. Before joining NMFC, Ms. Jerry served as a Compliance Associate and Assistant Corporate Secretary at Apollo Investment Corporation ("Apollo"), a BDC, from 2005 until 2011. During her time at Apollo, Ms. Jerry also served in

Table of Contents

compliance and corporate governance oversight roles of Apollo's other publicly listed funds, which included a real estate investment trust and another closed-end fund. Ms. Jerry received a Bachelor of Science in Paralegal Studies from Boston University.

On August 4, 2015, our board of directors appointed Melody L. Siu as the interim Chief Financial Officer ("CFO") and Treasurer of NMFC, effective as of August 14, 2015, in place of David M. Cordova, who previously served in such positions. We have commenced a search for a new permanent CFO.

Ms. Siu, 32, joined NMFC in 2011 and served as our Controller prior to this interim appointment. From 2008 to 2010, she served as the Assistant Controller for Prospect Capital Corporation ("Prospect"), an externally managed BDC. During her time at Prospect, Ms. Siu assisted with Prospect's accounting, financial and U.S. Securities and Exchange Commission ("SEC") reporting. Ms. Siu began her career at Ernst & Young LLP within their Financial Services Office Assurance practice focusing primarily on investment companies and Sarbanes-Oxley compliance, where she held several positions from 2003 to 2008 and finished as a supervising senior auditor. Ms. Siu received a Bachelor of Science in Accounting and International Business from New York University's Leonard N. Stern School of Business.

Dividend

On August 4, 2015, our board of directors declared a third quarter 2015 distribution of \$0.34 per share payable on September 30, 2015 to holders of record as of September 16, 2015.

Preliminary Estimates of Net Asset Value and Adjusted Net Investment Income

Set forth below is a preliminary estimate of our net asset value per share as of September 21, 2015 and a preliminary estimate of our adjusted net investment income per share range for the three months ended September 30, 2015. The following estimates are not a comprehensive statement of our financial condition or results for the period from December 31, 2014 through September 21, 2015. We advise you that our actual results for the three and nine months ended September 30, 2015 may differ materially from these estimates, which are given only as of the date of this prospectus supplement, as a result of the completion of our financial closing procedures, final adjustments and other developments, including changes in interest rates, changes in the businesses to whom we have made loans or market and industry fluctuations, which may arise between now and the time that our financial results for the three and nine months ended September 30, 2015 are finalized. This information is inherently uncertain.

As of the date of this prospectus supplement, we currently expect that we will meet our adjusted net investment income per share estimate of between \$0.33 and \$0.35 for the three months ended September 30, 2015, which was previously announced on our quarterly earnings call held on August 6, 2015.

As of September 21, 2015, we estimate that our net asset value per share is approximately \$13.78.

The preliminary financial estimates provided herein have been prepared by, and are the responsibility of, management. Neither Deloitte & Touche LLP, our independent registered public accounting firm, nor any other independent accountants, have audited, reviewed, compiled, or performed any procedures with respect to the accompanying preliminary financial data. Accordingly, Deloitte & Touche LLP does not express an opinion or any form of assurance with respect thereto and assumes no responsibility for, and disclaims any association with, this information.

Table of Contents

Competitive Advantages

We believe that we have the following competitive advantages over other capital providers to middle market companies:

Proven and Differentiated Investment Style With Areas of Deep Industry Knowledge

In making its investment decisions, the Investment Adviser applies New Mountain Capital's long-standing, consistent investment approach that has been in place since its founding more than 15 years ago. We focus on companies in less well followed defensive growth niches of the middle market space where we believe few debt funds have built equivalent research and operational size and scale.

We benefit directly from New Mountain Capital's private equity investment strategy that seeks to identify attractive investment sectors from the top down and then works to become a well positioned investor in these sectors. New Mountain Capital focuses on companies and industries with sustainable strengths in all economic cycles, particularly ones that are defensive in nature, that are secular and can maintain pricing power in the midst of a recessionary and/or inflationary environment. New Mountain Capital focuses on companies within sectors in which it has significant expertise (examples include federal services, software, education, niche healthcare, business services, energy and distribution & logistics) while typically avoiding investments in companies with products or services that serve markets that are highly cyclical, have the potential for long-term decline, are overly-dependent on consumer demand or are commodity-like in nature.

In making its investment decisions, the Investment Adviser has adopted the approach of New Mountain Capital, which is based on three primary investment principles:

1. A generalist approach, combined with proactive pursuit of the highest quality opportunities within carefully selected industries, identified via an intensive and structured ongoing research process;
2. Emphasis on strong downside protection and strict risk controls; and
3. Continued search for superior risk adjusted returns, combined with timely, intelligent exits and outstanding return performance.

Experienced Management Team and Established Platform

The Investment Adviser's team members have extensive experience in the leveraged lending space. Steven B. Klinsky, New Mountain Capital's Founder, Chief Executive Officer and Managing Director and Chairman of our board of directors, was a general partner of Forstmann Little & Co., a manager of debt and equity funds totaling multiple billions of dollars in the 1980s and 1990s. He was also a co-founder of Goldman, Sachs & Co.'s Leverage Buyout Group in the period from 1981 to 1984. Robert A. Hamwee, our Chief Executive Officer and President and Managing Director of New Mountain Capital, was formerly President of GSC Group, Inc. ("GSC"), where he was the portfolio manager of GSC's distressed debt funds and led the development of GSC's CLOs. John R. Kline, our Chief Operating Officer and Executive Vice President and Managing Director of New Mountain Capital, worked at GSC as an investment analyst and trader for GSC's control distressed and corporate credit funds and at Goldman, Sachs & Co. in the Credit Risk Management and Advisory Group.

Many of the debt investments that we have made to date have been in the same companies with which New Mountain Capital has already conducted months of intensive acquisition due diligence related to potential private equity investments. We believe that private equity underwriting due diligence is usually more robust than typical due diligence for loan underwriting. In its

Table of Contents

underwriting of debt investments, the Investment Adviser is able to utilize the research and hands-on operating experience that New Mountain Capital's private equity underwriting teams possess regarding the individual companies and industries. Business and industry due diligence is led by a team of investment professionals of the Investment Adviser that generally consists of three to seven individuals, typically based on their relevant company and/or industry specific knowledge. Additionally, the Investment Adviser is also able to utilize its relationships with operating management teams and other private equity sponsors. We believe this differentiates us from many of our competitors.

Significant Sourcing Capabilities and Relationships

We believe the Investment Adviser's ability to source attractive investment opportunities is greatly aided by both New Mountain Capital's historical and current reviews of private equity opportunities in the business segments we target. To date, a significant majority of the investments that we have made are in the debt of companies and industry sectors that were first identified and reviewed in connection with New Mountain Capital's private equity efforts, and the majority of our current pipeline reflects this as well. Furthermore, the Investment Adviser's investment professionals have deep and longstanding relationships in both the private equity sponsor community and the lending/agency community which they have and will continue to utilize to generate investment opportunities.

Risk Management through Various Cycles

New Mountain Capital has emphasized tight control of risk since its inception and long before the recent global financial distress began. To date, New Mountain Capital has never experienced a bankruptcy of any of its portfolio companies in its private equity efforts. The Investment Adviser seeks to emphasize tight control of risk with our investments in several important ways, consistent with New Mountain Capital's historical approach. In particular, the Investment Adviser:

Emphasizes the origination or purchase of debt in what the Investment Adviser believes are defensive growth companies, which are less likely to be dependent on macro-economic cycles;

Targets investments in companies that are preeminent market leaders in their own industries, and when possible, investments in companies that have strong management teams whose skills are difficult for competitors to acquire or reproduce; and

Emphasizes capital structure seniority in the Investment Adviser's underwriting process.

Access to Non Mark to Market, Seasoned Leverage Facility

The amount available under our Holdings Credit Facility is generally not subject to reduction as a result of mark to market fluctuations in our portfolio investments. For a detailed discussion of our credit facilities, see "Management's Discussion and Analysis of Financial Conditions and Results of Operations – Liquidity and Capital Resources" in this prospectus supplement.

Market Opportunity

We believe that the size of the market for investments that we target, coupled with the demands of middle market companies for flexible sources of capital at competitive terms and rates, create an attractive investment environment for us.

The leverage finance market has a high level of financing needs over the next several years due to significant bank debt maturities. We believe that the large dollar volume of loans that

Table of Contents

need to be refinanced will present attractive opportunities to invest capital in a manner consistent with our stated objectives.

Middle market companies continue to face difficulties in accessing the capital markets. We believe opportunities to serve the middle market will continue to exist. While many middle market companies were formerly able to raise funds by issuing high-yield bonds, we believe this approach to financing has become more difficult in recent years as institutional investors have sought to invest in larger, more liquid offerings.

Consolidation among commercial banks has reduced the focus on middle market lending. We believe that many traditional bank lenders to middle market businesses have either exited or de-emphasized their service and product offerings in the middle market. These traditional lenders have instead focused on lending and providing other services to large corporate clients. We believe this has resulted in fewer key players and the reduced availability of debt capital to the companies we target.

Attractive pricing. Reduced access to, and availability of, debt capital typically increases the interest rates, or pricing, of loans for middle market lenders. Recent primary debt transactions in this market often include upfront fees, prepayment protections and, in some cases, warrants to purchase common stock, all of which should enhance the profitability of new loans to lenders.

Conservative deal structures. As a result of the credit crisis, many lenders are requiring larger equity contributions from financial sponsors. Larger equity contributions create an enhanced margin of safety for lenders because leverage is a lower percentage of the implied enterprise value of the company.

Large pool of uninvested private equity capital available for new buyouts. We expect that private equity firms will continue to pursue acquisitions and will seek to leverage their equity investments with mezzanine loans and/or senior loans (including traditional first and second lien, as well as unitranche loans) provided by companies such as ours.

Operating and Regulatory Structure

We are a closed-end, non-diversified management investment company that has elected to be regulated as a BDC under the 1940 Act and are required to maintain an asset coverage ratio, as defined in the 1940 Act, of at least 200.0%. We include the assets and liabilities of our consolidated subsidiaries for purposes of satisfying the requirements under the 1940 Act. See "Regulation" in the accompanying prospectus.

We have elected to be treated, and intend to comply with the requirements to continue to qualify annually, as a RIC under Subchapter M of the Code. See "Material Federal Income Tax Considerations" in the accompanying prospectus. As a RIC, we generally will not be subject to corporate-level U.S. federal income taxes on any net ordinary income or capital gains that we timely distribute to our stockholders as dividends if it meets certain source-of-income, distribution and asset diversification requirements. We intend to distribute to our stockholders substantially all of our annual taxable income except that we may retain certain net capital gains for reinvestment.

Risks

An investment in our common stock involves risk, including the risk of leverage and the risk that our operating policies and strategies may change without prior notice to our stockholders or prior stockholder approval. See "Risk Factors" and the other information included in this prospectus supplement and the accompanying prospectus for a discussion of factors you should carefully consider before deciding to invest in our common stock. The value of our assets, as well

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

as the market price of our common stock, will fluctuate. Our investments may be risky, and you may lose all or part of your investment. Investing in our common stock involves other risks, including the following:

We may suffer credit losses;

We do not expect to replicate the Predecessor Entities' historical performance or the historical performance of other entities managed or supported by New Mountain Capital;

There is uncertainty as to the value of our portfolio investments because most of our investments are, and may continue to be in private companies and recorded at fair value;

Our ability to achieve our investment objective depends on key investment personnel of the Investment Adviser. If the Investment Adviser were to lose any of its key investment personnel, our ability to achieve our investment objective could be significantly harmed;

The Investment Adviser has limited experience managing a BDC or a RIC, which could adversely affect our business;

We operate in a highly competitive market for investment opportunities and may not be able to compete effectively;

Our investments in securities rated below investment grade are speculative in nature and are subject to additional risk factors such as increased possibility of default, illiquidity of the security, and changes in value based on changes in interest rates;

Our business, results of operations and financial condition depends on our ability to manage future growth effectively;

We borrow money, which could magnify the potential for gain or loss on amounts invested in us and increase the risk of investing in us;

Changes in interest rates may affect our cost of capital and net investment income;

Regulations governing the operations of BDCs will affect our ability to raise additional equity capital as well as our ability to issue senior securities or borrow for investment purposes, any or all of which could have a negative effect on our investment objectives and strategies;

We may experience fluctuations in our annual and quarterly results due to the nature of our business;

Our board of directors may change our investment objective, operating policies and strategies without prior notice or member approval, the effects of which may be adverse to your interests;

We will be subject to corporate-level U.S. federal income tax on all of our income if we are unable to maintain RIC status under Subchapter M of the Code, which would have a material adverse effect on our financial performance;

Edgar Filing: New Mountain Finance Corp - Form 497

We may not be able to pay distributions on our common stock, our distributions may not grow over time and a portion of our distributions to you may be a return of capital for U.S. federal income tax purposes;

Our investments in portfolio companies may be risky, and we could lose all or part of any of our investments;

The lack of liquidity in our investments may adversely affect our business;

Economic recessions or downturns could impair our portfolio companies and harm our operating results;

S-10

Table of Contents

The market price of our common stock may fluctuate significantly; and

Sales of substantial amounts of our common stock in the public market may have an adverse effect on the market price of its common stock.

Company Information

Our administrative and executive offices are located at 787 Seventh Avenue, 48th Floor, New York, New York 10019, and our telephone number is (212) 720-0300. We maintain a website at <http://www.newmountainfinance.com>. Information contained on our website is not incorporated by reference into this prospectus supplement or the accompanying prospectus, and you should not consider information contained on our website to be part of this prospectus supplement or the accompanying prospectus.

Presentation of Historical Financial Information and Market Data

Historical Financial Information

Unless otherwise indicated, historical references contained in the accompanying prospectus for periods prior to and as of December 31, 2013 in "Selected Financial and Other Data", "Selected Quarterly Data", "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Senior Securities" relate to NMF Holdings. Unless otherwise indicated, historical references contained in this prospectus supplement for periods prior to and as of December 31, 2013 in "Selected Financial and Other Data", "Selected Quarterly Data" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" relate to NMF Holdings. The consolidated financial statements of New Mountain Finance Holdings, L.L.C., formerly known as New Mountain Guardian (Leveraged), L.L.C., and New Mountain Guardian Partners, L.P. are NMF Holdings' historical consolidated financial statements.

Market Data

Statistical and market data used in this prospectus supplement and accompanying prospectus has been obtained from governmental and independent industry sources and publications. We have not independently verified the data obtained from these sources, and we cannot assure you of the accuracy or completeness of the data. Forward-looking information obtained from these sources is subject to the same qualifications and the additional uncertainties regarding the other forward-looking statements contained in this prospectus supplement and accompanying prospectus. See "Cautionary Statement Regarding Forward-Looking Statements" in this prospectus supplement and the accompanying prospectus.

Table of Contents

THE OFFERING

Common Stock Offered	We are offering 5,000,000 shares of our common stock. To the extent that the underwriters sell more than 5,000,000 shares of our common stock, the underwriters have the option to purchase up to an additional 750,000 shares of our common stock at the initial public offering price, less the underwriting discount (sales load), within 30 days of the date of this prospectus supplement.
Shares of Our Common Stock Currently Outstanding	58,161,821 shares.
Shares of Our Common Stock Outstanding After This Offering	63,161,821 shares, excluding 750,000 shares of common stock issuable pursuant to the option to purchase additional shares granted to the underwriters. This amount does not include any shares which may be issuable upon conversion of existing securities.

Table of Contents

Use of Proceeds

Our net proceeds from this offering will be approximately \$68.8 million, after deducting estimated offering expenses of approximately \$0.3 million payable by us and underwriting discounts and commissions of approximately \$1.6 million. In addition, the Investment Adviser has agreed to bear \$0.3 million of sales load in connection with this offering, which will not be subject to reimbursement by us. If the underwriters' option to purchase additional shares is exercised in full, our net proceeds from this offering will be approximately \$79.1 million, after deducting estimated offering expenses of approximately \$0.3 million payable by us and underwriting discounts and commissions of approximately \$1.9 million. In addition, if the underwriters' option to purchase additional shares is exercised in full, the Investment Adviser will bear an aggregate of \$0.3 million of sales load in connection with this offering, which will not be subject to reimbursement by us. Steven B. Klinsky, the Chairman of our board of directors, is purchasing 500,000 shares of the common stock in connection with this offering. As per an arrangement with the underwriters, we and the Investment Adviser will not pay and the underwriters will not receive the sales load on the shares Mr. Klinsky is purchasing in this offering. As a result, the estimated net proceeds to be received by us from the offering set forth above assumes the receipt of such purchase price for such shares in this offering. We intend to use the net proceeds from this offering primarily for new investments in portfolio companies in accordance with our investment objective and strategies described in this prospectus supplement and the accompanying prospectus. We may also use a portion of the net proceeds from the sale of shares of our common stock offered by us for other general corporate purposes, including to temporarily repay indebtedness (which will be subject to reborrowing), and other working capital needs. We are continuously identifying, reviewing and, to the extent consistent with our investment objective, funding new investments. As a result, we typically raise capital as we deem appropriate to fund such new investments. We expect it will take up to three months for us to substantially invest the net proceeds of this offering, depending on the availability of attractive opportunities and market conditions. However, we can offer no assurance that we will be able to achieve this goal. Pending such use, we will invest the net proceeds primarily in cash, cash equivalents, U.S. government securities and other high-quality investments that mature in one year or less from the date of the investment. These securities may have lower yields than the types of investments we would typically make in accordance with our investment objective and, accordingly, may result in lower distributions, if any, during such period. See "Use of Proceeds" in this prospectus supplement.

New York Stock Exchange Symbol

"NMFC"

Table of Contents

Investment Advisory Fees

We pay the Investment Adviser a fee for its services under an investment advisory and management agreement (the "Investment Management Agreement") consisting of two components a base management fee and an incentive fee. The base management fee is calculated at an annual rate of 1.75% of our gross assets, which equals our total assets on the Consolidated Statements of Assets and Liabilities, less (i) the borrowings under the SLF Credit Facility and (ii) cash and cash equivalents. The base management fee is payable quarterly in arrears, and is calculated based on the average value of our gross assets, which equals our total assets, as determined in accordance with GAAP, borrowings under the SLF Credit Facility, and cash and cash equivalents at the end of each of the two most recently completed calendar quarters, and appropriately adjusted on a pro rata basis for any equity capital raises or repurchases during the current calendar quarter. Since our IPO, the base management fee calculation has deducted the borrowings under the SLF Credit Facility. The SLF Credit Facility has historically consisted of primarily lower yielding assets at higher advance rates. As part of an amendment to our existing credit facilities with Wells Fargo Bank, National Association, the SLF Credit Facility merged with the Predecessor Holdings Credit Facility and into the Holdings Credit Facility on December 18, 2014. Post credit facility merger and to be consistent with the methodology since our IPO, the Investment Adviser will waive management fees on the leverage associated with those assets that share the same underlying yield characteristics with investments leveraged under the legacy SLF Credit Facility. The Investment Adviser cannot recoup management fees that the Investment Adviser has previously waived. We have not invested, and currently do not invest, in derivatives. To the extent we invest in derivatives in the future, we will use the actual value of the derivatives, as reported on our Consolidated Statements of Assets and Liabilities, for purposes of calculating our base management fee. The incentive fee consists of two parts. The first part is calculated and payable quarterly in arrears and equals 20.0% of our "Pre-Incentive Fee Adjusted Net Investment Income" for the immediately preceding quarter, subject to a "preferred return", or "hurdle", and a "catch-up" feature each as described in the Investment Management Agreement. The second part will be determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Management Agreement) and will equal 20.0% of our "Adjusted Realized Capital Gains", if any, on a cumulative basis from inception through the end of the year, computed net of all "Adjusted Realized Capital Losses" and "Adjusted Unrealized Capital Depreciation" on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fee each as described in the Investment Management Agreement. See "Investment Management Agreement" in the accompanying prospectus.

Table of Contents

Administrator	The Administrator serves as the administrator for us and arranges office space for us and provides us with office equipment and administrative services. The Administrator performs, or oversees the performance of, our financial records, prepares reports to our stockholders and reports filed by us with the SEC, monitors the payment of our expenses, and oversees the performance of administrative and professional services rendered to us by others. We reimburse the Administrator for our allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations to us under an administration agreement, as amended and restated (the "Administration Agreement"). See "Administration Agreement" in the accompanying prospectus.
Distributions	We intend to pay quarterly distributions to our stockholders out of assets legally available for distribution. The quarterly distributions, if any, will be determined by our board of directors. The distributions we pay to our stockholders in a year may exceed our taxable income for that year and, accordingly, a portion of such distributions may constitute a return of capital for U.S. federal income tax purposes. The specific tax characteristics of our distributions will be reported to stockholders after the end of the calendar year. See "Price Range of Common Stock and Distributions" in this prospectus supplement and the accompanying prospectus.
Taxation of NMFC	We have elected to be treated, and intend to comply with the requirements to continue to qualify annually, as a RIC under Subchapter M of the Code. As a RIC, we generally will not pay corporate-level U.S. federal income taxes on any net ordinary income or capital gains that are timely distributed to our stockholders as dividends. To maintain our RIC status, we must meet specified source-of-income and asset diversification requirements and distribute annually to our stockholders at least 90.0% of our net ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any. See "Price Range of Common Stock and Distributions" in this prospectus supplement and the accompanying prospectus and "Material Federal Income Tax Considerations" in the accompanying prospectus.

Table of Contents

Dividend Reinvestment Plan	We have adopted an "opt out" dividend reinvestment plan for our stockholders. As a result, if we declare a distribution, then your cash distributions will be automatically reinvested in additional shares of our common stock, unless you specifically "opt out" of the dividend reinvestment plan so as to receive cash distributions. Stockholders who receive distributions in the form of stock will be subject to the same U.S. federal income tax consequences as stockholders who elect to receive their distributions in cash. Cash distributions reinvested in additional shares of our common stock will be automatically reinvested by us in additional shares of our common stock. We will use only newly issued shares to implement the plan if the price at which newly issued shares are to be credited is equal to or greater than 110.0% of the last determined net asset value of our shares. We reserve the right to either issue new shares or purchase shares of our common stock in the open market in connection with our implementation of the plan if the price at which newly issued shares are to be credited to stockholders' accounts does not exceed 110.0% of the last determined net asset value of the shares. See "Dividend Reinvestment Plan" in the accompanying prospectus.
Trading at a Discount	Shares of closed-end investment companies frequently trade at a discount to their net asset value. The possibility that our common stock may trade at a discount to our net asset value per share is separate and distinct from the risk that our net asset value per share may decline. We cannot predict whether our common stock will trade above, at or below net asset value.
License Agreement	We have entered into a royalty-free license agreement with New Mountain Capital, pursuant to which New Mountain Capital has agreed to grant us a non-exclusive license to use the names "New Mountain" and "New Mountain Finance". See "License Agreement" in the accompanying prospectus.
Leverage	We expect to continue to use leverage to make investments. As a result, we may continue to be exposed to the risks of leverage, which include that leverage may be considered a speculative investment technique. The use of leverage magnifies the potential for gain and loss on amounts we invest and therefore, indirectly, increases the risks associated with investing in shares of our common stock. See "Risk Factors" in this prospectus supplement and the accompanying prospectus.

Table of Contents

Anti-Takeover Provisions

Our board of directors is divided into three classes of directors serving staggered three-year terms. This structure is intended to provide us with a greater likelihood of continuity of management, which may be necessary for us to realize the full value of our investments. A staggered board of directors also may serve to deter hostile takeovers or proxy contests, as may certain other measures that we may adopt. These measures may delay, defer or prevent a transaction or a change in control that might otherwise be in the best interests of our stockholders. See "Description of Capital Stock Delaware Law and Certain Certificate of Incorporation and Bylaw Provisions; Anti-Takeover Measures" in the accompanying prospectus.

Available Information

We have filed with the SEC a registration statement on Form N-2 together with all amendments and related exhibits under the Securities Act of 1933, as amended (the "Securities Act"). The registration statement contains additional information about us and the shares of common stock being offered by this prospectus supplement and the accompanying prospectus.

We are required to file annual, quarterly and current reports, proxy statements and other information with the SEC under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). This information is available at the SEC's public reference room at 100 F Street, NE, Washington, District of Columbia 20549 and on the SEC's website at <http://www.sec.gov>. The public may obtain information on the operation of the SEC's public reference room by calling the SEC at 1-800-SEC-0330. This information is also available free of charge by contacting us at New Mountain Finance Corporation, 787 Seventh Avenue, 48th Floor, New York, New York 10019, by telephone at (212) 720-0300, or on our website at <http://www.newmountainfinance.com>.

Information contained on our website or on the SEC's web site about us is not incorporated into this prospectus supplement and the accompanying prospectus and you should not consider information contained on our website or on the SEC's website to be part of this prospectus supplement and the accompanying prospectus.

Table of Contents**FEES AND EXPENSES**

The following table is intended to assist you in understanding the costs and expenses that you will bear directly or indirectly. We caution you that some of the percentages indicated in the table below are estimates and may vary. Except where the context suggests otherwise, whenever this prospectus supplement and the accompanying prospectus contains a reference to fees or expenses paid by "you", "NMFC", or "us" or that "we", "NMFC", or the "Company" will pay fees or expenses, we will pay such fees and expenses out of our net assets and, consequently, you will indirectly bear such fees or expenses as an investor in us. However, you will not be required to deliver any money or otherwise bear personal liability or responsibility for such fees or expenses.

Stockholder transaction expenses:	
Sales load borne by us (as a percentage of offering price)	2.29%(1)
Offering expenses borne by us (as a percentage of offering price)	0.48%(2)
Dividend reinvestment plan fees	N/A(3)
Total stockholder transaction expenses (as a percentage of offering price)	2.77%
Annual expenses (as a percentage of net assets attributable to common stock):	
Base management fees	2.87%(4)
Incentive fees payable under the Investment Management Agreement	2.38%(5)
Interest payments on borrowed funds	1.98%(6)
Other expenses	0.91%(7)
Acquired fund fees and expenses	0.18%(8)
Total annual expenses	8.32%(9)

Example

The following example, required by the SEC, demonstrates the projected dollar amount of total cumulative expenses that would be incurred over various periods with respect to a hypothetical investment in our common stock. In calculating the following expense amounts, we have assumed that our borrowings and annual operating expenses would remain at the levels set forth in the table above. See Note 6 below for additional information regarding certain assumptions regarding our level of leverage.

	1 Year	3 Years	5 Years	10 Years
You would pay the following expenses on a \$1,000 investment, assuming a 5.0% annual return	\$ 58	\$ 172	\$ 283	\$ 549

The example and the expenses in the tables above should not be considered a representation of future expenses, and actual expenses may be greater or less than those shown.

While the example assumes, as required by the applicable rules of the SEC, a 5.0% annual return, our performance will vary and may result in a return greater or less than 5.0%. The incentive fee under the Investment Management Agreement, which, assuming a 5.0% annual return, would either not be payable or would have an insignificant impact on the expense amounts shown above, is not included in the above example. The above illustration assumes that we will not realize any capital gains (computed net of all realized capital losses and unrealized capital depreciation) in any of the indicated time periods. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an incentive fee of a material amount, our expenses and returns to our investors would be higher. For example, if we assumed that we received our 5.0% annual return completely in the form of net realized capital gains on our investments, computed net

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

of all cumulative unrealized depreciation on our investments, the projected dollar amount of total cumulative expenses set forth in the above illustration would be as follows:

	1 Year	3 Years	5 Years	10 Years
You would pay the following expenses on a \$1,000 investment, assuming a 5.0% annual return	\$ 67	\$ 197	\$ 322	\$ 610

The example assumes a sales load borne by us of 2.3%. In addition, while the examples assume reinvestment of all distributions at net asset value, participants in our dividend reinvestment plan will receive a number of shares of our common stock determined by dividing the total dollar amount of the distribution payable to a participant by the market price per share of our common stock at the close of trading on the dividend payment date. The market price per share of our common stock may be at, above or below net asset value. See "Dividend Reinvestment Plan" in the accompanying prospectus for additional information regarding the dividend reinvestment plan.

- (1) Represents the sales load to be paid by us with respect to the shares of common stock to be sold by us in this offering for which the calculation is adjusted. Steven B. Klinsky, the Chairman of our board of directors, is purchasing 500,000 shares of the common stock in connection with this offering. As per an arrangement with the underwriters, we and the Investment Adviser will not pay and the underwriters will not receive the sales load on the shares Mr. Klinsky is purchasing in this offering. The Investment Adviser has agreed to bear \$0.0642 per share, or approximately 0.5% of the offering price, excluding the 500,000 shares Mr. Klinsky is purchasing in this offering, of the sales load in connection with this offering, which is not reflected in the above table and will not be subject to reimbursement by us. There is no guaranty that there will be any sales of our common stock pursuant to this prospectus supplement or the accompanying prospectus.
- (2) The offering expenses of this offering are estimated to be approximately \$339,462.
- (3) The de minimus expenses of the dividend reinvestment plan are included in "other expenses".
- (4) The base management fee under the Investment Management Agreement is based on an annual rate of 1.75% of our average gross assets for the two most recent quarters, which equals our total assets on the Consolidated Statements of Assets and Liabilities, less (i) the borrowings under the SLF Credit Facility and (ii) cash and cash equivalents. We have not invested, and currently do not invest, in derivatives. To the extent we invest in derivatives in the future, we will use the actual value of the derivatives, as reported on our Consolidated Statements of Assets and Liabilities, for purposes of calculating our base management fee. Since our IPO, the base management fee calculation has deducted the borrowings under the SLF Credit Facility. The SLF Credit Facility has historically consisted of primarily lower yielding assets at higher advance rates. As part of an amendment to our existing credit facilities with Wells Fargo Bank, National Association, the SLF Credit Facility merged with the Predecessor Holdings Credit Facility and into the Holdings Credit Facility on December 18, 2014. Post credit facility merger and to be consistent with the methodology since IPO, the Investment Adviser will waive management fees on the leverage associated with those assets that share the same underlying yield characteristics with investments leveraged under the legacy SLF Credit Facility. The Investment Adviser cannot recoup management fees that the Investment Adviser has previously waived. The base management fee reflected in the table above is based on the six months ended June 30, 2015 and does not include any management fees waived. The base management fee net of the management fee waiver would be 2.37% for the six months ended June 30, 2015. See "Investment Management Agreement" in the accompanying prospectus.

Table of Contents

- (5) Assumes that annual incentive fees earned by the Investment Adviser remain consistent with the incentive fees earned by the Investment Adviser during the six months ended June 30, 2015 and includes accrued capital gains incentive fee. These accrued capital gains incentive fees would be paid by us if we ceased operations on June 30, 2015 and liquidated our investments at the June 30, 2015 valuation. As we cannot predict whether we will meet the thresholds for incentive fees under the Investment Management Agreement, the incentive fees paid in subsequent periods, if any, may be substantially different than the fees incurred during the six months ended June 30, 2015. For more detailed information about the incentive fee calculations, see the "Investment Management Agreement" section of the accompanying prospectus.
- (6) We may borrow funds from time to time to make investments to the extent we determine that additional capital would allow us to take advantage of additional investment opportunities or if the economic situation is otherwise conducive to doing so. The costs associated with these borrowings are indirectly borne by our stockholders. As of June 30, 2015, we had \$359.9 million, \$38.0 million, \$115.0 million and \$55.0 million of indebtedness outstanding under the Holdings Credit Facility, the NMFC Credit Facility, the Convertible Notes and the SBA-guaranteed debentures, respectively. For purposes of this calculation, we have assumed the June 30, 2015 amounts outstanding under the credit facilities, Convertible Notes and SBA-guaranteed debentures, and have computed interest expense using an assumed interest rate of 2.6% for the Holdings Credit Facility, 2.7% for the NMFC Credit Facility, 5.0% for the Convertible Notes and 2.3% for the SBA-guaranteed debentures, which were the rates payable as of June 30, 2015. See "Senior Securities" in this prospectus supplement.
- (7) "Other expenses" include our overhead expenses, including payments by us under the Administration Agreement based on the allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations to us under the Administration Agreement. Pursuant to the Administration Agreement, the Administrator may, in its own discretion, submit to us for reimbursement some or all of the expenses that the Administrator has incurred on our behalf during any quarterly period. As a result, the amount of expenses for which we will have to reimburse the Administrator may fluctuate in future quarterly periods and there can be no assurance given as to when, or if, the Administrator may determine to limit the expenses that the Administrator submits to us for reimbursement in the future. However, it is expected that the Administrator will continue to support part of our expense burden in the near future and may decide to not calculate and charge through certain overhead related amounts as well as continue to cover some of the indirect costs. The Administrator cannot recoup any expenses that the Administrator has previously waived. This expense ratio does not include any expenses waived or reimbursed by the Administrator. Assuming the expenses waived or reimbursed by the Administrator at June 30, 2015, the expense ratio including expenses waived or reimbursed by the Administrator would be 0.82%. See "Administration Agreement" in the accompanying prospectus.
- (8) The holders of shares of our common stock indirectly bear the expenses of our investment in NMFC Senior Loan Program I, LLC ("SLP I"). No management fee is charged to the Company's investment in SLP I in connection with the administrative services provided to SLP I. Future expenses for SLP I may be substantially higher or lower because certain expenses may fluctuate over time.
- (9) The holders of shares of our common stock indirectly bear the cost associated with our annual expenses.

Table of Contents

SELECTED FINANCIAL AND OTHER DATA

The selected financial data should be read in conjunction with the respective financial statements and related consolidated notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in this prospectus supplement and the accompanying prospectus. Financial information for the years ended December 31, 2014, December 31, 2013, December 31, 2012, December 31, 2011, December 31, 2010 and December 31, 2009 has been derived from the Predecessor Operating Company and our financial statements and the related notes thereto that were audited by Deloitte & Touche, LLP, an independent registered public accounting firm. The financial information at and for the six months ended June 30, 2015 was derived from our unaudited consolidated financial statements and related consolidated notes. In the opinion of management, all adjustments, consisting solely of normal recurring accruals, considered necessary for the fair presentation of financial statements for the interim periods, have been included. Our results for the interim periods may not be indicative of our results for any future interim period or the full year. See "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Senior Securities" in this prospectus supplement and the accompanying prospectus for more information.

The below selected financial and other data is for NMFC.

(1)

In applying the if-converted method, conversion is not assumed for purposes of computing diluted earnings per share if the effect would be anti-dilutive. For the six months ended June 30, 2015 and the year ended December 31, 2014, there was no anti-dilution. For the years ended December 31, 2013 and December 31, 2012, due to reflecting earnings for the full year of operations of the Predecessor Operating Company assuming 100.0% NMFC ownership of Predecessor Operating Company and assuming all of AIV Holdings units in the Predecessor Operating Company

Table of Contents

were exchanged for public shares of NMFC during the years then ended, the earnings per share would be \$1.79 and \$2.18, respectively.

(2)

Dividends declared in the year ended December 31, 2014 include a \$0.12 per share special dividend related to realized capital gains attributable to the Company's warrant investments in Learning Care Group (US), Inc. Dividends declared in the year ended December 31, 2013 include a \$0.12 per share special dividend related to a distribution received attributable to NMF Holdings' investment in YP Equity Investors LLC. Dividends declared in the year ended December 31, 2012 include a \$0.23 per share special dividend related to estimated realized capital gains attributable to NMF Holdings' investments in Lawson Software, Inc. and Infor Lux Bond Company and a \$0.14 per share special dividend intended to minimize to the greatest extent possible NMFC's U.S. federal income or excise tax liability.

(3)

For the six months ended June 30, 2015 and the years ended December 31, 2014, December 31, 2013, December 31, 2012 and for the period May 19, 2011 to December 31, 2011, total return is calculated assuming a purchase of common stock at the opening of the first day of the year and assuming a purchase of common stock at our IPO, respectively, and a sale on the closing of the last day of the respective period ends. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at prices obtained under NMFC's dividend reinvestment plan.

(4)

Total return is calculated assuming a purchase at net asset value on the opening of the first day of the period and a sale at net asset value on the last day of the period. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at the net asset value on the last day of the respective quarter.

(5)

For the year ended December 31, 2014, amounts include the investment activity of the Predecessor Operating Company and the Company.

(6)

The weighted average Yield to Maturity at Cost calculation assumes that all investments, including secured collateralized agreements, not on non-accrual are purchased at the adjusted cost on the respective period ends and held until their respective maturities with no prepayments or losses and exited at par at maturity. Adjusted cost reflects the GAAP cost for post-IPO investments and a stepped up cost basis of pre-IPO investments (assuming a step-up to fair market value occurred on the IPO date).

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

As of May 8, 2014, NMFC assumed all operating activities previously undertaken by NMF Holdings. The following table sets forth selected financial and other data for NMF Holdings when it was the Predecessor Operating Company.

(in thousands except units and per unit data)

New Mountain Finance Holdings, L.L.C.	Years ended December 31,				
	2013	2012	2011	2010	2009
Statement of Operations Data:

N/A Fund was not unitized as of December 31, 2010 and December 31, 2009.

(1)

Dividends declared in the year ended December 31, 2013 include a \$0.12 per unit special dividend related to a distribution received attributable to NMF Holdings' investment in YP Equity Investors LLC. Dividends

declared in the year ended December 31, 2012 include a \$0.23 per unit special dividend related to estimated realized capital gains attributable to NMF Holdings' investments in Lawson Software, Inc. and Infor Lux Bond Company and a \$0.14 per unit special dividend intended to minimize to the greatest extent possible NMFC's U.S. federal income or excise tax liability. Actual cash payments on the dividends declared to AIV Holdings only, for the quarters ended March 31, 2012, June 30, 2012, December 31, 2012 and March 31, 2013, were made on April 4, 2012, July 9, 2012, January 7, 2013 and April 5, 2013 respectively.

(2)

For years ended December 31, 2013 and December 31, 2012, total return is calculated assuming a purchase at net asset value on the opening of the first day of the year and a sale at net asset value on the last day of the respective period ends. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at the net asset value on the last day of the respective quarter. For the year ended December 31, 2011, total return is calculated in two parts: (1) from the opening of the first day of the year to NMFC's IPO date, total return is calculated based on net income over weighted average net assets and (2) from NMFC's IPO date to the last day of the year, total return is calculated assuming a purchase at net asset value on NMFC's IPO date and a sale at net asset value on the last day of the year. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at the net asset value on the last day of the respective quarter. For the years ended December 31, 2010 and December 31, 2009, total return is the ratio of net income compared to capital, adjusted for capital contributions and distributions.

(3)

The weighted average Yield to Maturity at Cost calculation assumes that all investments not on non-accrual are purchased at the adjusted cost on the respective period ends and held until their respective maturities with no prepayments or losses and exited at par at maturity. Adjusted cost reflects the GAAP cost for post-IPO investments

Table of Contents

and a stepped up cost basis of pre-IPO investments (assuming a step-up to fair market value occurred on the IPO date). The weighted average Yield to Maturity at Cost was not calculated prior to NMFC's IPO.

(4)

The weighted average Yield to Maturity calculation assumes that all investments not on non-accrual are purchased at fair value on the respective period ends and held until their respective maturities with no prepayments or losses and exited at par at maturity. The weighted average Yield to Maturity was not calculated subsequent to December 31, 2013.

(5)

Prior to NMFC's IPO, for yield calculation purposes, NMF SLF was treated as a fully levered asset of NMF Holdings with NMF SLF's net asset value being included in the yield to maturity calculations. Since NMF SLF is consolidated in accordance with GAAP, at the time of the IPO, NMF Holdings began using the weighted average Yield to Maturity concept instead of the "Adjusted Yield to Maturity" concept for yield calculation purposes.

(6)

"Adjusted Yield to Maturity" assumes that the investments in NMF Holdings' portfolio are purchased at fair value on the respective period ends and held until their respective maturities with no prepayments or losses and exited at par at maturity. This calculation excludes the impact of existing leverage, except for the non-recourse debt of NMF SLF. NMF SLF is treated as a fully levered asset of NMF Holdings, with NMF SLF's net asset value being included for yield calculation purposes.

(7)

Weighted average common membership units outstanding presented from May 19, 2011 to December 31, 2011, as the fund became unitized on May 19, 2011, the IPO date.

Table of Contents**SELECTED QUARTERLY FINANCIAL DATA**

The selected quarterly financial data should be read in conjunction with the respective financial statements and related consolidated notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in this prospectus supplement and the accompanying prospectus. The following table sets forth certain quarterly financial data for the quarter ended June 30, 2015 and March 31, 2015 and each of the quarters for the fiscal years ended December 31, 2014 and December 31, 2013 of NMFC. This data is derived from our unaudited financial statements. Results for any quarter are not necessarily indicative of results for the full year or for any future quarter. See "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Senior Securities" included in this prospectus supplement and the accompanying prospectus for more information.

RISK FACTORS

Investing in our securities involves a number of significant risks. In addition to the other information contained in this prospectus supplement and the accompanying prospectus, you should consider carefully the following information before making an investment in our securities. The risks set out below are not the only risks we face and you should read the risks set out in the accompanying prospectus. Additional risks and uncertainties not presently known to us or not presently deemed material by us might also impair our operations and performance. If any of the following events occur, our business, financial condition and results of operations could be materially and adversely affected. In such case, our net asset value and the trading price of our common stock could decline and you may lose all or part of your investment.

RISKS RELATED TO OUR BUSINESS AND STRUCTURE

Our ability to achieve our investment objective depends on key investment personnel of the Investment Adviser. If the Investment Adviser were to lose any of its key investment personnel, our ability to achieve our investment objective could be significantly harmed.

We depend on the investment judgment, skill and relationships of the investment professionals of the Investment Adviser, particularly Steven B. Klinsky and Robert A. Hamwee, as well as other key personnel to identify, evaluate, negotiate, structure, execute, monitor and service our investments. The Investment Adviser, as an affiliate of New Mountain Capital, is supported by New Mountain Capital's team, which as of June 30, 2015 consisted of approximately 100 staff members of New Mountain Capital and its affiliates to fulfill its obligations to us under the Investment Management Agreement. The Investment Adviser may also depend upon New Mountain Capital to obtain access to investment opportunities originated by the professionals of New Mountain Capital and its affiliates. Our future success depends to a significant extent on the continued service and coordination of the key investment personnel of the Investment Adviser. The departure of any of these individuals could have a material adverse effect on our ability to achieve our investment objective.

The Investment Committee, which provides oversight over our investment activities, is provided by the Investment Adviser. The Investment Committee currently consists of five members. The loss of any member of the Investment Committee or of other senior professionals of the Investment Adviser and its affiliates without suitable replacement could limit our ability to achieve our investment objective and operate as we anticipate. This could have a material adverse effect on our financial condition, results of operation and cash flows. To achieve our investment objective, the Investment Adviser may hire, train, supervise and manage new investment professionals to participate in its investment selection and monitoring process. If the Investment Adviser is unable to find investment professionals or do so in a timely manner, our business, financial condition and results of operations could be adversely affected.

We borrow money, which could magnify the potential for gain or loss on amounts invested in us and increase the risk of investing in us.

We borrow money as part of our business plan. Borrowings, also known as leverage, magnify the potential for gain or loss on invested equity capital and may, consequently, increase the risk of investing in us. We expect to continue to use leverage to finance our investments, through senior securities issued by banks and other lenders. Lenders of these senior securities have fixed dollar claims on our assets that are superior to claims of our common stockholders. If the value of our assets decreases, leveraging would cause our net asset value to decline more sharply than it otherwise would have had it not leveraged. Similarly, any decrease in our income would cause our net income to decline more sharply than it would have had it not borrowed. Such a decline could adversely affect our ability to make common stock dividend payments. In addition, because our

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

investments may be illiquid, we may be unable to dispose of them or to do so at a favorable price in the event we need to do so if we are unable to refinance any indebtedness upon maturity and, as a result, we may suffer losses. Leverage is generally considered a speculative investment technique.

Our ability to service any debt that we incur depends largely on our financial performance and is subject to prevailing economic conditions and competitive pressures. Moreover, as the Investment Adviser's management fee is payable to the Investment Adviser based on gross assets, including those assets acquired through the use of leverage, the Investment Adviser may have a financial incentive to incur leverage which may not be consistent with our interests and the interests of our common stockholders. In addition, holders of our common stock will, indirectly, bear the burden of any increase in our expenses as a result of leverage, including any increase in the management fee payable to the Investment Adviser.

At June 30, 2015, we had \$359.9 million, \$38.0 million, \$115.0 million and \$55.0 million of indebtedness outstanding under the Holdings Credit Facility, the NMFC Credit Facility, the Convertible Notes and the SBA-guaranteed debentures, respectively. The Holdings Credit Facility had a weighted average interest rate of 2.6% for the six months ended June 30, 2015, the NMFC Credit Facility had a weighted average interest rate of 2.7% for the six months ended June 30, 2015 and the SBA-guaranteed debentures had a weighted average interest rate of 1.9% for the six months ended June 30, 2015. The interest rate on the Convertible Notes is 5.0% per annum.

Illustration. The following table illustrates the effect of leverage on returns from an investment in our common stock assuming various annual returns, net of expenses and adjusted for unsettled securities purchased. The calculations in the table below are hypothetical. Actual returns may be higher or lower than those appearing below. The calculation assumes (i) \$1,392.1 million in total assets, (ii) a weighted average cost of borrowings of 3.0%, which assumes the weighted average interest rates as of June 30, 2015 for the Holdings Credit Facility, the NMFC Credit Facility and the SBA-guaranteed debentures and the interest rate as of June 30, 2015 for the Convertible Notes, (iii) \$567.9 million in debt outstanding and (iv) \$808.3 million in net assets.

Assumed Return on Our Portfolio (net of expenses)

	(10.0)%	(5.0)%	0%	5.0%	10.0%
Corresponding return to stockholder	(19.3)%	(10.7)%	(2.1)%	6.5%	15.1%

If we are unable to obtain additional debt financing, or if our borrowing capacity is materially reduced, our business could be materially adversely affected.

We may want to obtain additional debt financing, or need to do so upon maturity of our credit facilities, in order to obtain funds which may be made available for investments. The revolving period under the Holdings Credit Facility ends on December 18, 2017, and the Holdings Credit Facility matures on December 18, 2019. The NMFC Credit Facility and the Convertible Notes mature on June 4, 2019 and June 15, 2019, respectively. The SBA-guaranteed debentures have ten year maturities and will begin to mature on March 1, 2025. If we are unable to increase, renew or replace any such facilities and enter into new debt financing facilities or other debt financing on commercially reasonable terms, our liquidity may be reduced significantly. In addition, if we are unable to repay amounts outstanding under any such facilities and are declared in default or are unable to renew or refinance these facilities, we may not be able to make new investments or operate our business in the normal course. These situations may arise due to circumstances that we may be unable to control, such as lack of access to the credit markets, a severe decline in the

Table of Contents

value of the U.S. dollar, a further economic downturn or an operational problem that affects us or third parties, and could materially damage our business operations, results of operations and financial condition.

RISKS RELATED TO OUR OPERATIONS

Regulations governing the operations of BDCs will affect our ability to raise additional equity capital as well as our ability to issue senior securities or borrow for investment purposes, any or all of which could have a negative effect on our investment objectives and strategies.

Our business requires a substantial amount of capital. We may acquire additional capital from the issuance of senior securities, including borrowing under a credit facility or other indebtedness. In addition, we may also issue additional equity capital, which would in turn increase the equity capital available to us. However, we may not be able to raise additional capital in the future on favorable terms or at all.

We may issue debt securities, preferred stock, and we may borrow money from banks or other financial institutions, which we refer to collectively as "senior securities", up to the maximum amount permitted by the 1940 Act. The 1940 Act permits us to issue senior securities in amounts such that our asset coverage, as defined in the 1940 Act, equals at least 200.0% after each issuance of senior securities. As a result of our SEC exemptive relief, we are permitted to exclude our SBA-guaranteed debentures from the definition of senior securities in the 200.0% asset coverage ratio we are required to maintain under the 1940 Act. If our asset coverage ratio is not at least 200.0%, we would be unable to issue senior securities, and if we had senior securities outstanding (other than any indebtedness issued in consideration of a privately arranged loan, such as any indebtedness outstanding under the Holdings Credit Facility and NMFC Credit Facility), we would be unable to make distributions to our stockholders. However, at June 30, 2015, our only senior securities outstanding were indebtedness under the Holdings Credit Facility, NMFC Credit Facility and Convertible Notes and therefore at June 30, 2015, we would not have been precluded from paying distributions. If the value of our assets declines, we may be unable to satisfy this test. If that happens, we may be required to liquidate a portion of our investments and repay a portion of our indebtedness at a time when such sales may be disadvantageous.

The Holdings Credit Facility matures on December 18, 2019 and permits borrowings of \$495.0 million as of June 30, 2015. The Holdings Credit Facility had \$359.9 million in debt outstanding as of June 30, 2015. The NMFC Credit Facility matures on June 4, 2019 and permits borrowings of \$95.0 million as of June 30, 2015. The NMFC Credit Facility had \$38.0 million in debt outstanding as of June 30, 2015. The Convertible Notes mature on June 15, 2019. The Convertible Notes had \$115.0 million in debt outstanding as of June 30, 2015. The SBA-guaranteed debentures have ten year maturities and will begin to mature on March 1, 2025. As of June 30, 2015, \$55.0 million of SBA-guaranteed debentures were outstanding.

In addition, we may in the future seek to securitize other portfolio securities to generate cash for funding new investments. To securitize loans, we would likely create a wholly-owned subsidiary and contribute a pool of loans to the subsidiary. We would then sell interests in the subsidiary on a non-recourse basis to purchasers and we would retain all or a portion of the equity in the subsidiary. If we are unable to successfully securitize its loan portfolio, which must be done in compliance with the relevant restrictions in the Holdings Credit Facility, our ability to grow our business or fully execute our business strategy could be impaired and our earnings, if any, could decrease. The securitization market is subject to changing market conditions, and we may not be able to access this market when it would otherwise deem appropriate. Moreover, the successful securitization of our portfolio might expose us to losses as the residual investments in which we do not sell interests will tend to be those that are riskier and more apt to generate losses. The 1940 Act also may impose restrictions on the structure of any securitization.

Table of Contents

We may also obtain capital through the issuance of additional equity capital. As a BDC, we generally are not able to issue or sell our common stock at a price below net asset value per share. If our common stock trades at a discount to its net asset value per share, this restriction could adversely affect our ability to raise equity capital. We may, however, sell our common stock, or warrants, options or rights to acquire its common stock, at a price below its net asset value per share of the common stock if our board of directors and independent directors determine that such sale is in our best interests and the best interests of our stockholders, and our stockholders approve such sale. In any such case, the price at which our securities are to be issued and sold may not be less than a price that, in the determination of our board of directors, closely approximates the market value of such securities (less any underwriting commission or discount). If we raise additional funds by issuing more shares of our common stock, or if we issue senior securities convertible into, or exchangeable for, our common stock, the percentage ownership of our stockholders may decline and you may experience dilution.

RISKS RELATING TO OUR INVESTMENTS

Our portfolio may be concentrated in a limited number of industries, which may subject us to a risk of significant loss if there is a downturn in a particular industry in which a number of our investments are concentrated.

Our portfolio may be concentrated in a limited number of industries. For example, as of June 30, 2015, our investments in the software, the business services and the education industries represented approximately 25.8%, 18.1% and 11.5%, respectively, of the fair value of our portfolio. A downturn in any particular industry in which we are invested could significantly impact the portfolio companies operating in that industry, and accordingly, the aggregate returns that we realize from our investment in such portfolio companies.

Specifically, companies in the software industry often have narrow product lines and small market shares. Because of rapid technological change, the average selling prices of products and some services provided by software companies have historically decreased over their productive lives. As a result, the average selling prices of products and services offered by software companies in which we invest may decrease over time. In addition, companies in the business services industry are subject to general economic downturns and business cycles, and will often suffer reduced revenues and rate pressures during periods of economic uncertainty. Likewise, companies in the education industry are required to comply with extensive regulatory and accreditation requirements, which could be subject to change by Congress, and which can limit their access to federal aid or similar loan programs, or otherwise increase their compliance costs. If an industry in which we have significant investments suffers from adverse business or economic conditions, as these industries have to varying degrees, a material portion of its investment portfolio could be affected adversely, which, in turn, could adversely affect our financial position and results of operations.

Continuation of the current decline in oil and natural gas prices for a prolonged period of time could have a material adverse effect.

As of June 30, 2015, approximately 6.1% of our portfolio at fair value is invested in energy-related businesses. A decline in oil and natural gas prices would adversely affect the credit quality of these investments. A decrease in credit quality would, in turn, negatively affect the fair value of these investments, which would consequently negatively affect our financial position and results of operations. Should the current decline in oil and natural gas prices persist, it is likely that our energy-related portfolio companies' abilities to satisfy our financial or operating covenants or other lenders will be adversely affected, thereby negatively impacting our financial condition and their ability to satisfy their debt service and other obligations to us.

Table of Contents

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement and the accompanying prospectus contain forward-looking statements that involve substantial risks and uncertainties. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about us, our current and prospective portfolio investments, our industry, our beliefs, and our assumptions. Words such as "anticipate", "believe", "continue", "could", "estimate", "expect", "intend", "may", "plan", "potential", "project", "seek", "should", "target", "will", "would" or variations of these words and similar expressions are intended to identify forward-looking statements. The forward-looking statements contained in this prospectus supplement and the accompanying prospectus involve risks and uncertainties, including statements as to:

the preliminary estimates of our net asset value and adjusted net investment income;

our future operating results;

our business prospects and the prospects of our portfolio companies;

the impact of investments that we expect to make;

our contractual arrangements and relationships with third parties;

the dependence of our future success on the general economy and its impact on the industries in which we invest;

the ability of our portfolio companies to achieve their objectives;

our expected financings and investments;

the adequacy of our cash resources and working capital; and

the timing of cash flows, if any, from the operations of our portfolio companies.

These statements are not guarantees of future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements, including without limitation:

an economic downturn could impair our portfolio companies' ability to continue to operate, which could lead to the loss of some or all of our investments in such portfolio companies;

a contraction of available credit and/or an inability to access the equity markets could impair our lending and investment activities;

Edgar Filing: New Mountain Finance Corp - Form 497

interest rate volatility could adversely affect our results, particularly if we elect to use leverage as part of our investment strategy;

currency fluctuations could adversely affect the results of our investments in foreign companies, particularly to the extent that we receive payments denominated in foreign currency rather than U.S. dollars; and

the risks, uncertainties and other factors we identify in "Risk Factors" and elsewhere in this prospectus supplement, the accompanying prospectus and in our filings with the SEC.

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be inaccurate. Important assumptions include our ability to originate new loans and investments, certain margins and levels of profitability and the availability of additional capital. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this prospectus supplement or the

S-32

Table of Contents

accompanying prospectus should not be regarded as a representation by us that our plans and objectives will be achieved. These risks and uncertainties include those described or identified in "Risk Factors" and elsewhere in this prospectus supplement and the accompanying prospectus. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this prospectus supplement. However, we will update this prospectus supplement to reflect any material changes to the information contained herein. The forward-looking statements and projections contained in this prospectus supplement are excluded from the safe harbor protection provided by Section 27A of the Securities Act.

Table of Contents**CAPITALIZATION**

The following table sets forth our capitalization as of June 30, 2015:

on an actual basis; and

on an as adjusted basis to give effect to the sale of 5,000,000 shares of our common stock by us in this offering at a public offering price of \$14.14 per share, after deducting the estimated sales load (underwriting discounts and commissions) of approximately \$1.6 million and estimated offering expenses of approximately \$0.3 million payable by us. The Investment Adviser has agreed to bear \$0.3 million, or approximately 0.5% of the offering price, excluding the 500,000 shares Steven B. Klinsky, the Chairman of our board of directors, is purchasing in this offering, of sales load in connection with this offering, which is not reflected in the below table and will not be subject to reimbursement by us.

You should read this table together with "Use of Proceeds" and the financial statements and related notes thereto included elsewhere in this prospectus supplement and the accompanying prospectus.

	As of June 30, 2015	
	Actual (unaudited)	As Adjusted (unaudited)
	(in thousands)	
Assets:		
Cash and cash equivalents	\$ 24,226	\$ 92,967
Investments at fair value	1,308,872	1,308,872
Other assets	59,003	58,664
Total assets	\$ 1,392,101	\$ 1,460,503

USE OF PROCEEDS

We estimate that we will receive net proceeds from the sale of the 5,000,000 shares of our common stock in this offering of approximately \$68.8 million, after deducting estimated offering expenses of approximately \$0.3 million payable by us and underwriting discounts and commissions of approximately \$1.6 million. In addition, the Investment Adviser has agreed to bear \$0.3 million of sales load in connection with this offering, which will not be subject to reimbursement by us. Steven B. Klinsky, the Chairman of our board of directors, is purchasing 500,000 shares of the common stock in connection with this offering. As per an arrangement with the underwriters, we and the Investment Adviser will not pay and the underwriters will not receive the sales load on the shares Mr. Klinsky is purchasing in this offering.

We intend to use the net proceeds from this offering for new investments in portfolio companies in accordance with our investment objective and strategies described in this prospectus supplement and the accompanying prospectus. We may also use a portion of the net proceeds from the sale of shares of our common stock sold in this offering for other general corporate purposes, including to temporarily repay indebtedness (which will be subject to reborrowing), and other working capital needs. We are continuously identifying, reviewing and, to the extent consistent with our investment objective, funding new investments. As a result, we typically raise capital as we deem appropriate to fund such new investments.

We expect that it will take up to three months for us to substantially invest the net proceeds from this offering, depending on the availability of attractive opportunities and market conditions. However, we can offer no assurance that we will be able to achieve this goal.

Proceeds not immediately used for new investments or the temporary repayment of debt will be invested primarily in cash, cash equivalents, U.S. government securities and other high-quality investments that mature in one year or less from the date of investment. These temporary investments are expected to provide a lower net return than we hope to achieve from our target investments.

Table of Contents**PRICE RANGE OF COMMON STOCK AND DISTRIBUTIONS**

Our common stock is traded on the New York Stock Exchange ("NYSE") under the symbol "NMFC". The following table sets forth the net asset value ("NAV") per share of our common stock, the high and low closing sale price for our common stock, the closing sale price as a percentage of NAV and the quarterly dividend distributions per share for each fiscal quarter for the years ended December 31, 2015, December 31, 2014 and December 31, 2013.

Fiscal Year Ended	NAV Per Share(2)	Closing Sales Price(3)		Premium or Discount of High Closing Sales to NAV(4)	Premium or Discount of Low Closing Sales to NAV(4)	Declared Dividends Per Share(5)
		High	Low			
December 31, 2015						
Third Quarter(1)	* \$	14.94	\$ 14.27	*	* \$	0.34
Second Quarter	\$	13.90	\$ 15.14	8.92%	4.24%	\$ 0.34
First Quarter	\$	13.89	\$ 15.06	8.42%	2.95%	\$ 0.34
December 31, 2014						
Fourth Quarter	\$	13.83	\$ 15.09	9.11%	2.24%	\$ 0.34
Third Quarter	\$	14.33	\$ 15.39	7.40%	1.05%	\$ 0.46(6)
Second Quarter	\$	14.65	\$ 14.89	1.64%	(5.05)%	\$ 0.34
First Quarter	\$	14.53	\$ 15.19	4.54%	(0.48)%	\$ 0.34
December 31, 2013						
Fourth Quarter	\$	14.38	\$ 15.19	5.63%	(2.29)%	\$ 0.34
Third Quarter	\$	14.32	\$ 14.90	4.05%	(0.77)%	\$ 0.46(7)
Second Quarter	\$	14.32	\$ 15.60	8.94%	(3.49)%	\$ 0.34
First Quarter	\$	14.31	\$ 15.45	7.97%	(0.07)%	\$ 0.34

- (1) Period from July 1, 2015 through September 18, 2015.
- (2) NAV is determined as of the last date in the relevant quarter and therefore may not reflect the NAV per share on the date of the high and low sales prices. The NAVs shown are based on outstanding shares at the end of each period.
- (3) Closing sales price is determined as the high or low closing sales price noted within the respective quarter, not adjusted for dividends.
- (4) Calculated as of the respective high or low closing sales price divided by the quarter end NAV.
- (5) Represents the dividend paid for the specified quarter.
- (6) Includes a special dividend of \$0.12 per share paid on September 3, 2014 and a third quarter dividend of \$0.34 per share paid on September 30, 2014.
- (7) Includes a special dividend of \$0.12 per share paid on August 30, 2013 and a third quarter dividend of \$0.34 per share paid on September 30, 2013.
- * Not determinable at the time of filing.

Edgar Filing: New Mountain Finance Corp - Form 497

On September 18, 2015, the last reported sales price of our common stock was \$14.34 per share. As of September 18, 2015, we had approximately 29 stockholders of record and approximately one beneficial owner whose shares are held in the names of brokers, dealers, funds, trusts and clearing agencies.

S-36

Table of Contents

Shares of BDCs may trade at a market price that is less than the value of the net assets attributable to those shares. The possibility that our shares of common stock will trade at a discount from NAV or at premiums that are unsustainable over the long term are separate and distinct from the risk that our NAV will decrease. Since our initial public offering on May 19, 2011, our shares of common stock have traded at times at both a discount and a premium to the net assets attributable to those shares. As of September 18, 2015 our shares of common stock traded at a premium of approximately 3.2% of the NAV attributable to those shares as of June 30, 2015. It is not possible to predict whether the shares offered hereby will trade at, above, or below NAV.

We intend to pay quarterly distributions to our stockholders in amounts sufficient to maintain our status as a RIC. We intend to distribute approximately our entire Adjusted Net Investment Income (defined as net investment income adjusted to reflect income as if the cost basis of investments held at the IPO date had stepped-up to fair market value as of the IPO date) on a quarterly basis and substantially all of our taxable income on an annual basis, except that we may retain certain net capital gains for reinvestment.

We have adopted an "opt out" dividend reinvestment plan on behalf of our stockholders, pursuant to which each of our stockholders' cash distributions will be automatically reinvested in additional shares of our common stock, unless the stockholder elects to receive cash. Cash distributions reinvested in additional shares of our common stock will be automatically reinvested by us into additional shares of our common stock.

We apply the following in implementing the dividend reinvestment plan. If the price at which newly issued shares are to be credited to stockholders' accounts is equal to or greater than 110.0% of the last determined NAV of the shares, we will use only newly issued shares to implement the dividend reinvestment plan. Under such circumstances, the number of shares to be issued to a stockholder is determined by dividing the total dollar amount of the distribution payable to such stockholder by the market price per share of our common stock on the NYSE on the distribution payment date. Market price per share on that date will be the closing price for such shares on the NYSE or, if no sale is reported for such day, the average of their electronically reported bid and ask prices.

If the price at which newly issued shares are to be credited to stockholders' accounts is less than 110.0% of the last determined NAV of the shares, we will either issue new shares or instruct the plan administrator to purchase shares in the open market to satisfy the additional shares required. Shares purchased in open market transactions by the plan administrator will be allocated to a stockholder based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market. The number of shares of our common stock to be outstanding after giving effect to payment of the distribution cannot be established until the value per share at which additional shares will be issued has been determined and elections of our stockholders have been tabulated.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

The following table reflects the cash distributions, including dividends and returns of capital, if any, per unit/share that have been declared by the NMF Holding's board of directors from our IPO until May 8, 2014, and our board of directors thereafter:

Date Declared	Record Date	Payment Date	Amount
August 4, 2015	September 16, 2015	September 30, 2015	\$ 0.34
May 5, 2015	June 16, 2015	June 30, 2015	0.34

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The information contained in this section should be read in conjunction with the Selected Financial and Other Data and our financial statements and notes thereto appearing elsewhere in this prospectus supplement and the accompanying prospectus. For the periods prior to and as of May 8, 2014 all financial information provided in this prospectus supplement and the accompanying prospectus reflects our organizational structure prior to the restructuring on May 8, 2014 described under "Description of Restructuring" in the accompanying prospectus, where NMF Holdings functioned as the operating company. In addition to historical information, the following discussion and other parts of this prospectus supplement and the accompanying prospectus contain forward-looking information that involves risks and uncertainties. Our actual results could differ materially from those anticipated by such forward-looking information due to the factors discussed under "Risk Factors" and "Cautionary Statement Regarding Forward-Looking Statements" appearing elsewhere in this prospectus supplement and the accompanying prospectus.

Overview

NMFC is a Delaware corporation that was originally incorporated on June 29, 2010. NMFC is a closed-end, non-diversified management investment company that has elected to be regulated as a BDC under the 1940 Act. As such, NMFC is obligated to comply with certain regulatory requirements. NMFC has elected to be treated, and intends to comply with the requirements to continue to qualify annually, as a RIC under Subchapter M of the Code. NMFC is also registered as an investment adviser under the Advisers Act.

On May 19, 2011, NMFC priced its IPO of 7,272,727 shares of common stock at a public offering price of \$13.75 per share. Concurrently with the closing of the IPO and at the public offering price of \$13.75 per share, NMFC sold an additional 2,172,000 shares of its common stock to certain executives and employees of, and other individuals affiliated with, New Mountain Capital in the Concurrent Private Placement. Additionally, 1,252,964 shares were issued to the partners of New Mountain Guardian Partners, L.P. at that time for their ownership interest in the Predecessor Entities. In connection with NMFC's IPO and through a series of transactions, NMF Holdings acquired all of the operations of the Predecessor Entities, including all of the assets and liabilities related to such operations.

NMF Holdings is a Delaware limited liability company. Until May 8, 2014, NMF Holdings was externally managed and was regulated as a BDC under the 1940 Act. As such, NMF Holdings was obligated to comply with certain regulatory requirements. NMF Holdings was treated as a partnership for U.S. federal income tax purposes for so long as it had at least two members. With the completion of the underwritten secondary offering on February 3, 2014, NMF Holdings' existence as a partnership for U.S. federal income tax purposes terminated and NMF Holdings became an entity that is disregarded as a separate entity from its owner for U.S. federal tax purposes. For additional information on our organizational structure prior to May 8, 2014, see "Description of Restructuring" in the accompanying prospectus".

Until May 8, 2014, NMF Holdings was externally managed by the Investment Adviser. As of May 8, 2014, the Investment Adviser serves as the external investment adviser to NMFC. The Administrator provides the administrative services necessary for operations. The Investment Adviser and Administrator are wholly-owned subsidiaries of New Mountain Capital. New Mountain Capital is a firm with a track record of investing in the middle market and with assets under management totaling more than \$15.0 billion⁽¹⁾, which includes total assets held by the Company. New Mountain

(1) Includes amounts committed, not all of which have been drawn down and invested to-date, as of June 30, 2015, as well as amounts called and returned since inception.

Table of Contents

Capital focuses on investing in defensive growth companies across its private equity, public equity and credit investment vehicles. NMF Holdings, formerly known as New Mountain Guardian (Leveraged), L.L.C., was originally formed as a subsidiary of Guardian AIV by New Mountain Capital in October 2008. Guardian AIV was formed through an allocation of approximately \$300.0 million of the \$5.1 billion of commitments supporting New Mountain Partners III, L.P., a private equity fund managed by New Mountain Capital. In February 2009, New Mountain Capital formed a co-investment vehicle, New Mountain Guardian Partners, L.P., comprising \$20.4 million of commitments. New Mountain Guardian (Leveraged), L.L.C. and New Mountain Guardian Partners, L.P., together with their respective direct and indirect wholly-owned subsidiaries, are defined as the "Predecessor Entities".

Prior to December 18, 2014, NMF SLF was a Delaware limited liability company. NMF SLF was a wholly-owned subsidiary of NMF Holdings and thus a wholly-owned indirect subsidiary of the Company. NMF SLF was bankruptcy-remote and non-recourse to NMFC. As part of an amendment to the Company's existing credit facilities with Wells Fargo Bank, National Association, NMF SLF merged with and into NMF Holdings on December 18, 2014. See "*Borrowings*" for additional information on the Company's credit facilities.

Since NMFC's IPO, and through June 30, 2015, NMFC raised approximately \$374.6 million in net proceeds from additional offerings of common stock and issued shares of its common stock valued at approximately \$288.4 million on behalf of AIV Holdings for exchanged units. NMFC acquired from NMF Holdings units of NMF Holdings equal to the number of shares of NMFC's common stock sold in additional offerings. With the completion of the final secondary offering on February 3, 2014, NMFC owned 100.0% of the units of NMF Holdings, which became a wholly-owned subsidiary of NMFC.

Current Organization

During the six months ended June 30, 2015, the Company established a wholly-owned subsidiary, NMF QID. The Company's wholly-owned subsidiaries, NMF Ancora, NMF QID and NMF YP, are structured as Delaware entities that serve as tax blocker corporations which hold equity or equity-like investments in portfolio companies organized as limited liability companies (or other forms of pass-through entities). The Company consolidates its tax blocker corporations for accounting purposes. The tax blocker corporations are not consolidated for income tax purposes and may incur income tax expense as a result of their ownership of the portfolio companies. Additionally, the Company has a wholly-owned subsidiary, NMF Servicing that serves as the administrative agent on certain investment transactions. SBIC LP, and its general partner, SBIC GP, were organized in Delaware as a limited partnership and limited liability company, respectively. SBIC LP and SBIC GP are consolidated wholly-owned direct and indirect subsidiaries of the Company. SBIC LP received a license from the SBA to operate as a SBIC under Section 301(c) of the 1958 Act.

Table of Contents

The diagram below depicts the Company's organizational structure as of June 30, 2015.

* Includes partners of New Mountain Guardian Partners, L.P.

** NMFC is the sole limited partner of SBIC LP. NMFC, directly or indirectly through SBIC GP, wholly-owns SBIC LP. NMFC owns 100.0% of SBIC GP which owns 1.0% of SBIC LP. NMFC owns 99.0% of SBIC LP.

The Company's investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. In some cases, the Company's investments may also include equity interests. The primary focus is in the debt of defensive growth companies, which are defined as generally exhibiting the following characteristics: (i) sustainable secular growth drivers, (ii) high barriers to competitive entry, (iii) high free cash flow after capital expenditure and working capital needs, (iv) high returns on assets and (v) niche market dominance. Similar to the Company, SBIC LP's investment objective is to generate current income and capital appreciation under the investment criteria used by the Company, however, SBIC LP's investments must be SBA eligible companies. The Company's portfolio may be concentrated in a limited number of industries. As of June 30, 2015, the Company's top five industry concentrations were software, business services, education, federal services and distribution & logistics.

The investments that we invest in are almost entirely rated below investment grade or may be unrated, which are often referred to as "leveraged loans," "high yield" or "junk" debt investments, and may be considered "high risk" or speculative compared to debt investments that are rated investment grade. Such issuers are considered more likely than investment grade issuers to default on their payments of interest and principal and such risk of default could reduce our net asset value and income distributions. Our investments are also primarily floating rate debt investments that contain interest reset provisions that may make it more difficult for borrowers to make debt repayments to us if interest rates rise. In addition, some of our debt investments will not fully

Table of Contents

amortize during their lifetime, which could result in a loss or a substantial amount of unpaid principal and interest due upon maturity. Our debt investments may also lose significant market value before a default occurs. Furthermore, an active trading market may not exist for these securities. This illiquidity may make it more difficult to value our investments.

As of June 30, 2015, the Company's net asset value was \$808.3 million and its portfolio had a fair value of approximately \$1,308.9 million in 65 portfolio companies, with a weighted average Yield to Maturity at Cost of approximately 10.8%.

Recent Developments

On August 4, 2015, the Company's board of directors declared a third quarter 2015 distribution of \$0.34 per share payable on September 30, 2015 to holders of record as of September 16, 2015.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following items as critical accounting policies.

Basis of Accounting

The Company consolidates its wholly-owned direct and indirect subsidiaries: NMF Holdings, NMF Servicing, SBIC LP, SBIC GP, NMF Ancora, NMF QID and NMF YP. Previously, the Company consolidated its wholly-owned indirect subsidiary NMF SLF until it merged with and into NMF Holdings on December 18, 2014. See "*Borrowings*" for additional information on the Company's credit facilities. The Company is an investment company following accounting and reporting guidance as described in Accounting Standards Codification Topic 946, *Financial Services - Investment Companies*, ("ASC 946"). Prior to the Restructuring, the Predecessor Operating Company consolidated its wholly-owned subsidiary, NMF SLF. NMFC did not consolidate the Predecessor Operating Company. Prior to the Restructuring, NMFC applied investment company master-feeder financial statement presentation, as described in ASC 946 to its interest in the Predecessor Operating Company. NMFC observed that it is also industry practice to follow the presentation prescribed for a master fund-feeder fund structure in ASC 946 in instances in which a master fund is owned by more than one feeder fund and that such presentation provided stockholders of NMFC with a clearer depiction of its investment in the master fund.

Valuation and Leveling of Portfolio Investments

At all times consistent with GAAP and the 1940 Act, the Company conducts a valuation of assets, which impacts its net asset value.

The Company values its assets on a quarterly basis, or more frequently if required under the 1940 Act. In all cases, the Company's board of directors is ultimately and solely responsible for determining the fair value of its portfolio investments on a quarterly basis in good faith, including investments that are not publicly traded, those whose market prices are not readily available and any other situation where its portfolio investments require a fair value determination. Security

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

transactions are accounted for on a trade date basis. The Company's quarterly valuation procedures are set forth in more detail below:

- (1) Investments for which market quotations are readily available on an exchange are valued at such market quotations based on the closing price indicated from independent pricing services.
- (2) Investments for which indicative prices are obtained from various pricing services and/or brokers or dealers are valued through a multi-step valuation process, as described below, to determine whether the quote(s) obtained is representative of fair value in accordance with GAAP.
 - a. Bond quotes are obtained through independent pricing services. Internal reviews are performed by the investment professionals of the Investment Adviser to ensure that the quote obtained is representative of fair value in accordance with GAAP and if so, the quote is used. If the Investment Adviser is unable to sufficiently validate the quote(s) internally and if the investment's par value or its fair value exceeds the materiality threshold, the investment is valued similarly to those assets with no readily available quotes (see (3) below); and
 - b. For investments other than bonds, the Company looks at the number of quotes readily available and performs the following:
 - i. Investments for which two or more quotes are received from a pricing service are valued using the mean of the mean of the bid and ask of the quotes obtained;
 - ii. Investments for which one quote is received from a pricing service are validated internally. The investment professionals of the Investment Adviser analyze the market quotes obtained using an array of valuation methods (further described below) to validate the fair value. If the Investment Adviser is unable to sufficiently validate the quote internally and if the investment's par value or its fair value exceeds the materiality threshold, the investment is valued similarly to those assets with no readily available quotes (see (3) below).
- (3) Investments for which quotations are not readily available through exchanges, pricing services, brokers, or dealers are valued through a multi-step valuation process:
 - a. Each portfolio company or investment is initially valued by the investment professionals of the Investment Adviser responsible for the credit monitoring;
 - b. Preliminary valuation conclusions will then be documented and discussed with the Company's senior management;
 - c. If an investment falls into (3) above for four consecutive quarters and if the investment's par value or its fair value exceeds the materiality threshold, then at least once each fiscal year, the valuation for each portfolio investment for which the Company does not have a readily available market quotation will be reviewed by an independent valuation firm engaged by the Company's board of directors; and
 - d. When deemed appropriate by the Company's management, an independent valuation firm may be engaged to review and value investment(s) of a portfolio company, without any preliminary valuation being performed by the Investment Adviser. The investment professionals of the Investment Adviser will review and validate the value provided.

Table of Contents

For investments in revolving credit facilities and delayed draw commitments, the cost basis of the funded investments purchased is offset by any costs/netbacks received for any unfunded portion on the total balance committed. The fair value is also adjusted for the price appreciation or depreciation on the unfunded portion. As a result, the purchase of commitments not completely funded may result in a negative fair value until it is called and funded.

The values assigned to investments are based upon available information and do not necessarily represent amounts which might ultimately be realized, since such amounts depend on future circumstances and cannot be reasonably determined until the individual positions are liquidated. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may fluctuate from period to period and the fluctuations could be material.

GAAP fair value measurement guidance classifies the inputs used in measuring fair value into three levels as follows:

Level I Quoted prices (unadjusted) are available in active markets for identical investments and the Company has the ability to access such quotes as of the reporting date. The type of investments which would generally be included in Level I include active exchange-traded equity securities and exchange-traded derivatives. As required by Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"), the Company, to the extent that it holds such investments, does not adjust the quoted price for these investments, even in situations where the Company holds a large position and a sale could reasonably impact the quoted price.

Level II Pricing inputs are observable for the investments, either directly or indirectly, as of the reporting date, but are not the same as those used in Level I. Level II inputs include the following:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in non-active markets (examples include corporate and municipal bonds, which trade infrequently);

Pricing models whose inputs are observable for substantially the full term of the asset or liability (examples include most over-the-counter derivatives, including foreign exchange forward contracts); and

Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the asset or liability.

Level III Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment.

The inputs used to measure fair value may fall into different levels. In all instances when the inputs fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level of input that is significant to the fair value measurement in its entirety. As such, a Level III fair value measurement may include inputs that are both observable (Levels I and II) and unobservable (Level III). Gains and losses for such assets categorized within the Level III table below may include changes in fair value that are attributable to both observable inputs (Levels II and III) and unobservable inputs (Level III).

The inputs into the determination of fair value require significant judgment or estimation by management and consideration of factors specific to each investment. A review of the fair value hierarchy classifications is conducted on a quarterly basis. Changes in the observability of valuation

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

inputs may result in the transfer of certain investments within the fair value hierarchy from period to period. Reclassifications impacting the fair value hierarchy are reported as transfers in/out of the respective leveling categories as of the beginning of the quarter in which the reclassifications occur.

The following table summarizes the levels in the fair value hierarchy that the Company's portfolio investments fall into as of June 30, 2015:

(in thousands)	Total	Level I	Level II	Level III
First lien	\$ 578,748	\$	\$ 379,283	\$ 199,465
Second lien	536,409		468,542	67,867
Subordinated	92,516		37,224	55,292
Equity and other	101,199	281	235	100,683
Total investments	\$ 1,308,872	\$ 281	\$ 885,284	\$ 423,307

The Company generally uses the following framework when determining the fair value of investments where there are little, if any, market activity or observable pricing inputs. The Company typically determines the fair value of its performing debt investments utilizing an income approach. Additional consideration is given using a market based approach, as well as reviewing the overall underlying portfolio company's performance and associated financial risks. The following outlines additional details on the approaches considered:

Company Performance, Financial Review, and Analysis: Prior to investment, as part of its due diligence process, the Company evaluates the overall performance and financial stability of the portfolio company. Post investment, the Company analyzes each portfolio company's current operating performance and relevant financial trends versus prior year and budgeted results, including, but not limited to, factors affecting its revenue and earnings before interest, taxes, depreciation, and amortization ("EBITDA") growth, margin trends, liquidity position, covenant compliance and changes to its capital structure. The Company also attempts to identify and subsequently track any developments at the portfolio company, within its customer or vendor base or within the industry or the macroeconomic environment, generally, that may alter any material element of its original investment thesis. This analysis is specific to each portfolio company. The Company leverages the knowledge gained from its original due diligence process, augmented by this subsequent monitoring, to continually refine its outlook for each of its portfolio companies and ultimately form the valuation of its investment in each portfolio company. When an external event such as a purchase transaction, public offering or subsequent sale occurs, the Company will consider the pricing indicated by the external event to corroborate the private valuation.

Market Based Approach: The Company may estimate the total enterprise value of each portfolio company by utilizing market value cash flow (EBITDA) multiples of publicly traded comparable companies. The Company considers numerous factors when selecting the appropriate companies whose trading multiples are used to value its portfolio companies. These factors include, but are not limited to, the type of organization, similarity to the business being valued, relevant risk factors, as well as size, profitability and growth expectations. The Company may apply an average of various relevant comparable company EBITDA multiples to the portfolio company's latest twelve month ("LTM") EBITDA or projected EBITDA to calculate portfolio company enterprise value. Significant increases or decreases in the multiple will result in an increase or decrease in enterprise value, resulting in an increase or decrease in the fair value estimate of the investment. In applying the market based approach as of June 30, 2015, the Company used the relevant EBITDA multiple ranges set forth in the table below to determine the enterprise value of investments in 17 of its portfolio companies. The Company believes this was a reasonable range in light of current comparable company trading levels and the specific companies involved.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

Income Based Approach: The Company also may use a discounted cash flow analysis to estimate the fair value of the investment. Projected cash flows represent the relevant security's contractual interest, fee and principal payments plus the assumption of full principal recovery at the investment's expected maturity date. These cash flows are discounted at a rate established utilizing a yield calibration approach, which incorporates changes in the credit quality (as measured by relevant statistics) of the portfolio company, as compared to changes in the yield associated with comparable credit quality market indices, between the date of origination and the valuation date. Significant increases or decreases in the discount rate would result in a decrease or increase in the fair value measurement. In applying the income based approach as of June 30, 2015, the Company used the discount ranges set forth in the table below to value investments in 18 of its portfolio companies.

(in thousands) Type	Fair Value	Approach	Unobservable Input	Range		Weighted Average
				Low	High	
First lien	\$ 199,465	Market approach	EBITDA multiple	5.0x	14.0x	9.0x
		Income approach	Discount rate	7.8%	14.4%	10.2%
Second lien	67,867	Market approach	EBITDA multiple	8.5x	13.5x	10.6x
		Income approach	Discount rate	11.0%	13.0%	11.7%
		Other	N/A(1)	N/A(1)	N/A(1)	N/A(1)
Subordinated	55,292	Market approach	EBITDA multiple	5.0x	12.5x	9.0x
		Income approach	Discount rate	8.5%	17.8%	14.5%
Equity and other	100,683	Market approach	EBITDA multiple	3.0x	12.0x	6.7x
		Income approach	Discount rate	8.0%	19.1%	13.7%
		Black Scholes analysis	Expected life in years	10.8	10.8	10.8
			Volatility	27.5%	27.5%	27.5%
			Discount rate	2.4%	2.4%	2.4%
\$ 423,307						

(1)

Fair value was determined based on transaction pricing or recent acquisition or sale as the best measure of fair value with no material changes in operations of the related portfolio company since the transaction date.

NMFC Senior Loan Program I, LLC

NMFC Senior Loan Program I, LLC ("SLP I") was formed as a Delaware limited liability company on May 27, 2014 and commenced operations on June 10, 2014. SLP I is a portfolio company held by the Company. SLP I is structured as a private investment fund, in which all of the investors are qualified purchasers, as such term is defined under the 1940 Act. Transfer of interests in SLP I is subject to restrictions, and as a result, such interests are not readily marketable. SLP I operates under a limited liability company agreement (the "Agreement") and will continue in existence until June 10, 2019, subject to earlier termination pursuant to certain terms of the Agreement. The term may be extended for up to one year pursuant to certain terms of the Agreement. SLP I has a three year re-investment period.

SLP I is capitalized with \$93.0 million of capital commitments, \$275.0 million of debt from a revolving credit facility and is managed by the Company. The Company's capital commitment is \$23.0 million, representing less than 25.0% ownership, with third party investors representing the remaining capital commitment. As of June 30, 2015, SLP I had total investments with an aggregate fair value of approximately \$350.7 million, debt outstanding of \$256.1 million and capital that had

Table of Contents

been called and funded of \$93.0 million. The Company's investment in SLP I is disclosed on the Company's Consolidated Schedule of Investments as of June 30, 2015.

The Company, as an investment adviser registered under the Advisers Act, acts as the collateral manager to SLP I and is entitled to receive a management fee for its investment management services provided to SLP I. As a result, SLP I is classified as an affiliate of the Company. For the three and six months ended June 30, 2015, the Company earned approximately \$0.3 million and \$0.6 million, respectively, in management fees related to SLP I which is included in other income. For the three and six months ended June 30, 2014, the Company earned approximately \$4 thousand and \$4 thousand, respectively, in management fees related to SLP I which is included in other income. As of June 30, 2015 and December 31, 2014, approximately \$0.3 million and \$0.5 million, respectively, of management fees related to SLP I was included in receivable from affiliates. For the three and six months ended June 30, 2015, the Company earned approximately \$0.9 million and \$1.8 million, respectively, of dividend income related to SLP I, which is included in dividend income. The Company earned no dividend income related to SLP I during the three and six months ended June 30, 2014. As of June 30, 2015 and December 31, 2014, approximately \$0.9 million and \$0.8 million, respectively, of dividend income related to SLP I was included in interest and dividend receivable.

SLP I invests in senior secured loans issued by companies within the Company's core industry verticals. These investments are typically broadly syndicated first lien loans.

Collateralized agreements or repurchase financings

The Company follows the guidance in Accounting Standards Codification Topic 860, *Transfers and Servicing – Secured Borrowing and Collateral*, ("ASC 860") when accounting for transactions involving the purchases of securities under collateralized agreements to resell (resale agreements). These transactions are treated as collateralized financing transactions and are recorded at their contracted resale or repurchase amounts, as specified in the respective agreements. Interest on collateralized agreements is accrued and recognized over the life of the transaction and included in interest income. As of June 30, 2015 and December 31, 2014, the Company held one collateralized agreement to resell with a carrying value of \$30.0 million, collateralized by a second lien bond in Northstar GOM Holdings Group LLC with a fair value of \$30.0 million and guaranteed by a private hedge fund with approximately \$800.0 million of assets under management as of June 30, 2015. The private hedge fund has the option to repurchase the collateral from the Company at the par value of the collateralized agreement within a year. The collateralized agreement earned interest at a rate of 15.0% per annum as of June 30, 2015 and December 31, 2014.

Revenue Recognition

The Company's revenue recognition policies are as follows:

Sales and paydowns of investments: Realized gains and losses on investments are determined on the specific identification method.

Interest and dividend income: Interest income, including amortization of premium and discount using the effective interest method, is recorded on the accrual basis and periodically assessed for collectability. Interest income also includes interest earned from cash on hand. Upon the prepayment of a loan or debt security, any prepayment penalties are recorded as part of interest income. The Company has loans and certain preferred equity investments in the portfolio that contain a payment-in-kind ("PIK") interest or dividend provision. PIK interest and dividends are accrued and recorded as income at the contractual rates, if deemed collectible. The PIK interest and dividends are added to the principal or share balances on the capitalization dates and generally due at maturity or when redeemed by the issuer.

Table of Contents

Dividend income on common equity is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies. Dividend income on preferred securities is recorded as dividend income on an accrual basis to the extent that such amounts are deemed collectible.

Non-accrual income: Investments are placed on non-accrual status when principal or interest payments are past due 30 days or more and when there is reasonable doubt that principal or interest will be collected. Accrued cash and un-capitalized PIK interest or dividends are reversed when an investment is placed on non-accrual status. Previously capitalized PIK interest or dividends are not reversed when an investment is placed on non-accrual status. Interest or dividend payments received on non-accrual investments may be recognized as income or applied to principal depending upon management's judgment of the ultimate outcome. Non-accrual investments are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current.

Other income: Other income represents delayed compensation, consent or amendment fees, revolver fees, structuring fees, management fees from a non-controlled/affiliated investment and other miscellaneous fees received and are typically non-recurring in nature. Delayed compensation is income earned from counterparties on trades that do not settle within a set number of business days after trade date. Other income may also include fees from bridge loans. The Company may from time to time enter into bridge financing commitments, an obligation to provide interim financing to a counterparty until permanent credit can be obtained. These commitments are short-term in nature and may expire unfunded. A fee is received by the Company for providing such commitments. Structuring fees are recognized as income when earned, usually when paid at the closing of the investment and are non-refundable.

Prior to the Restructuring, NMFC's revenue recognition policies were as follows:

Revenue, expenses, and capital gains (losses): At each quarterly valuation date, the Predecessor Operating Company's investment income, expenses, net realized gains (losses), and net increase (decrease) in unrealized appreciation (depreciation) were allocated to NMFC based on its pro-rata interest in the net assets of the Predecessor Operating Company. This was recorded on NMFC's Statements of Operations. Realized gains and losses are recorded upon sales of NMFC's investments in the Predecessor Operating Company. Net change in unrealized appreciation (depreciation) of investment in New Mountain Finance Holdings, L.L.C. is the difference between the net asset value per share and the closing price per share for shares issued as part of the dividend reinvestment plan on the dividend payment date. This net change in unrealized appreciation (depreciation) of investment in New Mountain Finance Holdings, L.L.C. includes the unrealized appreciation (depreciation) from the IPO. NMFC used the proceeds from its IPO and Concurrent Private Placement to purchase units in the Predecessor Operating Company at \$13.75 per unit (its IPO price per share). At the IPO date, \$13.75 per unit represented a discount to the actual net asset value per unit of the Predecessor Operating Company. As a result, NMFC experienced immediate unrealized appreciation on its investment.

All expenses, including those of NMFC, were paid and recorded by the Predecessor Operating Company. Expenses were allocated to NMFC based on pro-rata ownership interest. In addition, the Predecessor Operating Company paid all of the offering costs related to the IPO and subsequent offerings. NMFC recorded its portion of the offering costs as a direct reduction to net assets and the cost of their investment in the Predecessor Operating Company.

Table of Contents**Monitoring of Portfolio Investments**

The Company monitors the performance and financial trends of its portfolio companies on at least a quarterly basis. The Company attempts to identify any developments within the portfolio company, the industry or the macroeconomic environment that may alter any material element of its original investment strategy.

The Company uses an investment rating system to characterize and monitor the credit profile and expected level of returns on each investment in the portfolio. The Company uses a four-level numeric rating scale as follows:

Investment Rating 1 Investment is performing materially above expectations;

Investment Rating 2 Investment is performing materially in-line with expectations. All new loans are rated 2 at initial purchase;

Investment Rating 3 Investment is performing materially below expectations and risk has increased materially since the original investment; and

Investment Rating 4 Investment is performing substantially below expectations and risks have increased substantially since the original investment. Payments may be delinquent. There is meaningful possibility that the Company will not recoup its original cost basis in the investment and may realize a substantial loss upon exit.

The following table shows the distribution of the Company's investments on the 1 to 4 investment rating scale at fair value as of June 30, 2015:

As of June 30, 2015					
(in millions)					
Investment Rating	Par Value(1)	Percent	Fair Value	Percent	
Investment Rating 1	\$ 208.2	16.6%	\$ 218.3	16.7%	
Investment Rating 2	1,008.2	80.3%	1,063.9	81.3%	
Investment Rating 3	37.6	3.0%	26.3	2.0%	
Investment Rating 4	1.8	0.1%	0.4	%	
	\$ 1,255.8	100.0%	\$ 1,308.9	100.0%	

(1) Excludes shares and warrants.

As of June 30, 2015, all investments in the Company's portfolio had an Investment Rating of 1 or 2 with the exception of four portfolio company names; three portfolio companies with an Investment Rating of 3 and one portfolio company with an Investment Rating of 4.

During the first quarter of 2015, the Company placed a portion of its second lien position in Edmentum, Inc. ("Edmentum") on non-accrual status due to its ongoing restructuring. As of March 31, 2015, the Company's investment in Edmentum had an aggregate cost basis of \$30.8 million, an aggregate fair value of \$15.6 million and total unearned interest income of \$0.4 million for the three months then ended. In June 2015, Edmentum completed a restructuring which resulted in a material modification of the original terms and an extinguishment of the Company's original investment in Edmentum. Prior to the extinguishment in June 2015, the Company's original investment in Edmentum had an aggregate cost of \$31.6 million, an aggregate fair value of \$16.4 million and total unearned interest income for the three and six months ended June 30, 2015 of \$0.4 million and \$0.8 million, respectively. The extinguishment resulted in a realized loss of \$15.2 million. Post restructuring, the Company's investments in Edmentum have been restored to full accrual status. As of June 30, 2015, the Company's investments in Edmentum have an aggregate cost basis of \$23.1 million and an aggregate fair value of \$22.8 million.

Table of Contents

During the first quarter of 2015, the Company's first lien position in Education Management LLC ("EDMC") was non-income producing as a result of the portfolio company undergoing a restructuring. As of December 31, 2014, the Company's investment in EDMC had an aggregate cost basis of \$3.0 million, an aggregate fair value of \$1.4 million and no unearned interest income for the three months then ended. In January 2015, EDMC completed a restructuring which resulted in a material modification of the original terms and an extinguishment of the Company's original investment in EDMC. Prior to the extinguishment in January 2015, the Company's original investment in EDMC had an aggregate cost of \$3.0 million, an aggregate fair value of \$1.4 million and no unearned interest income for the period then ended. The extinguishment resulted in a realized loss of \$1.6 million. Post restructuring, the Company's investments in EDMC are income producing. As of June 30, 2015, the Company's investments in EDMC have an aggregate cost basis of \$1.4 million and an aggregate fair value of \$1.2 million.

During the third quarter of 2014, the Company placed a portion of its first lien position in UniTek Global Services, Inc. ("UniTek") on non-accrual status in anticipation of a voluntary petition for a "Pre-Packaged" Chapter 11 Bankruptcy in the U.S. Bankruptcy Court for the District of Delaware which was filed on November 3, 2014. As of December 31, 2014, the Company's investments in UniTek had an aggregate cost of \$47.4 million, an aggregate fair value of \$35.2 million and total unearned interest income of \$1.0 million for the year then ended. In January 2015, UniTek emerged from "Pre-Packaged" Chapter 11 Bankruptcy and completed its restructuring. The restructuring resulted in a material modification of the original terms and an extinguishment of the Company's original investments in UniTek. Prior to the extinguishment in January 2015, the Company's original investments in UniTek had an aggregate cost of \$52.9 million, an aggregate fair value of \$40.1 million and total unearned interest income of \$0.1 million for the period then ended. The extinguishment resulted in a realized loss of \$12.8 million. Post restructuring, the Company's investments in UniTek have been restored to full accrual status. As of June 30, 2015, the Company's investments in UniTek have an aggregate cost basis of \$40.4 million and an aggregate fair value of \$47.2 million.

As of June 30, 2015, the Company's two super priority first lien positions in ATI Acquisition Company and its related equity positions in Ancora Acquisition LLC had an Investment Rating of 4 due to the underlying business encountering significant regulatory constraints which have led to the portfolio company's underperformance. As of June 30, 2015, the Company's two super priority first lien positions in ATI Acquisition Company and its related preferred shares and warrants in Ancora Acquisition LLC remained on non-accrual status due to the inability of the portfolio company to service its interest payments for the quarter then ended and uncertainty about its ability to pay such amounts in the future. As of June 30, 2015, the Company's investment in ATI Acquisition Company and Ancora Acquisition LLC had an aggregate cost basis of \$1.6 million, an aggregate fair value of \$0.4 million and total unearned interest income of \$0.1 million and \$0.2 million for the three and six months then ended. For the three and six months ended June 30, 2014, total unearned interest income was \$0.1 million and \$0.2 million, respectively. As of December 31, 2014, the Company's investment had an aggregate cost basis of \$1.6 million and an aggregate fair value of \$0.4 million. As of June 30, 2015 and December 31, 2014, unrealized gains (losses) include a fee that the Company would receive upon maturity of the two super priority first lien debt investments.

Portfolio and Investment Activity

The fair value of the Company's investments was approximately \$1,308.9 million in 65 portfolio companies at June 30, 2015 and approximately \$1,424.7 million in 71 portfolio companies at December 31, 2014.

Table of Contents

The following table shows the Company's portfolio and investment activity for the six months ended June 30, 2015 and June 30, 2014:

(in millions)	Six months ended	
	June 30, 2015	June 30, 2014(1)
New investments in 14 and 23 portfolio companies, respectively	\$ 190.0	\$ 317.0
Debt repayments in existing portfolio companies	262.8	62.7
Sales of securities in 12 and 8 portfolio companies, respectively	52.4	75.8
Change in unrealized appreciation on 37 and 36 portfolio companies, respectively	48.6	17.3
Change in unrealized depreciation on 39 and 32 portfolio companies, respectively	(30.7)	(10.5)

- (1) For the six months ended June 30, 2014, amounts represent the investment activity of the Predecessor Operating Company through and including May 7, 2014 and the investment activity of the Company from May 8, 2014 through June 30, 2014.

At June 30, 2015 and June 30, 2014, the Company's weighted average Yield to Maturity at Cost was approximately 10.8% and 10.7%, respectively.

Recent Accounting Standards Updates

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers Topic 606 Summary and Amendments that Create Revenue from Contracts with Customers and Other Assets and Deferred Costs* ("ASU 2014-09"). ASU 2014-09 establishes a comprehensive and converged standard on revenue recognition to enable financial statement users to better understand and consistently analyze an entity's revenue across industries, transactions and geographies. The core principle of the new guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps: (1) identify the contract(s) with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) the entity satisfies a performance obligation. The new guidance also specifies the accounting for certain costs to obtain or fulfill a contract with a customer. The new guidance requires improved disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. Qualitative and quantitative information is required to be disclosed about: (1) contracts with customers, (2) significant judgments and changes in judgments, and (3) assets recognized from costs to obtain or fulfill a contract. The new guidance will apply to all entities. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2016. Early application is not permitted. The Company is in the process of evaluating the impact that this guidance will have on its consolidated financial statements and disclosures.

In June 2014, the FASB issued Accounting Standards Update No. 2014-11, *Transfers and Servicing Topic 860 Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures* ("ASU 2014-11"). ASU 2014-11 changes the accounting for repurchase- and resale-to-maturity agreements by requiring that such agreements be recognized as financing arrangements, and requires that a transfer of a financial asset and a repurchase agreement entered into contemporaneously be accounted for separately. ASU 2014-11 requires additional disclosures about certain transferred financial assets accounted for as sales and certain securities financing transactions. The accounting changes and additional disclosures about certain transferred financial

Table of Contents

assets accounted for as sales are effective for the first interim and annual reporting periods beginning after December 15, 2014. The additional disclosures for securities financing transactions are required for annual reporting periods beginning after December 15, 2014 and for interim reporting periods beginning after March 15, 2015. The adoption of ASU 2014-11 does not have a material impact on the Company's consolidated financial statements and disclosures.

In August 2014, the FASB issued Accounting Standards Update No. 2014-15, *Presentation of Financial Statements - Going Concern Subtopic 205-40 - Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern* ("ASU 2014-15"). ASU 2014-15 will explicitly require management to assess an entity's ability to continue as a going concern, and to provide related footnote disclosure in certain circumstances. The new standard will be effective for all entities in the first annual period ending after December 15, 2016. Earlier adoption is permitted. The adoption of ASU 2014-15 is not expected to have a material impact on the Company's consolidated financial statements and disclosures.

In April 2015, the FASB issued Accounting Standards Update No. 2015-03, *Interest - Imputation of Interest Subtopic 835-30 - Simplifying the Presentation of Debt Issuance Costs* ("ASU 2015-03"), which changes the presentation of debt issuance costs in financial statements. Under ASU 2015-03, an entity presents such costs on the statement of assets and liabilities as a direct deduction from the related debt liability rather than as an asset. Amortization of the costs is reported as interest expense. The new standard will be effective for all public entities for interim and annual reporting periods beginning after December 15, 2015. Earlier adoption is permitted. The Company is in the process of evaluating the impact that this guidance will have on its consolidated financial statements and disclosures.

Results of Operations

Under GAAP, NMFC's IPO did not step-up the cost basis of the Predecessor Operating Company's existing investments to fair market value at the IPO date. Since the total value of the Predecessor Operating Company's investments at the time of the IPO was greater than the investments' cost basis, a larger amount of amortization of purchase or original issue discount, and different amounts in realized gain and unrealized appreciation, may be recognized under GAAP in each period than if the step-up had occurred. This will remain until such predecessor investments are sold, repaid or mature in the future. The Company tracks the transferred (or fair market) value of each of the Predecessor Operating Company's investments as of the time of the IPO and, for purposes of the incentive fee calculation, adjusts income as if each investment was purchased at the date of the IPO (or stepped up to fair market value). The respective "Adjusted Net Investment Income" (defined as net investment income adjusted to reflect income as if the cost basis of investments held at the IPO date had stepped-up to fair market value as of the IPO date) is used in calculating both the incentive fee and dividend payments.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

The following table for the Company for the three months ended June 30, 2015 is adjusted to reflect the step-up to fair market value and the allocation of the incentive fees related to hypothetical capital gains out of the adjusted post-incentive fee net investment income.

(in thousands)	Three Months Ended June 30, 2015	Stepped-up Cost Basis Adjustments	Incentive Fee Adjustments(1)	Adjusted Three Months Ended June 30, 2015

Net increase in net assets resulting from operations	\$ 20,264			\$ 20,264

-
- (1) For the three months ended June 30, 2015, the Company incurred total incentive fees of \$5.1 million, of which \$9 thousand related to capital gains incentive fees on a hypothetical liquidation basis.
- (2) Includes income from non-controlled/non-affiliated investments, non-controlled/affiliated investments and controlled investments.
- (3) Includes management fee waivers of \$1.2 million. No expense waivers and reimbursements were noted for the three months ended June 30, 2015.
- (4) Includes net realized gains and losses on investments and net change in unrealized appreciation (depreciation) of investments from non-controlled/non-affiliated investments, non-controlled/affiliated investments and controlled investments.

For the three months ended June 30, 2015, the Company had a \$33 thousand adjustment to interest income for amortization, an increase of \$47 thousand to net realized losses and an increase of approximately \$0.1 million to net change in unrealized appreciation to adjust for the stepped-up cost basis of the transferred investments as discussed above. For the three months ended June 30, 2015, total adjusted investment income of \$37.9 million consisted of approximately \$30.7 million in cash interest from investments, approximately \$1.5 million in PIK interest from investments, approximately \$2.8 million in prepayment fees, net amortization of purchase premiums and

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

discounts of approximately \$0.5 million, approximately \$1.1 million in cash dividends from investments, \$0.7 million in PIK dividends from investments and approximately \$0.6 million in other income. The Company's Adjusted Net Investment Income was \$20.2 million for the three months ended June 30, 2015.

In accordance with GAAP, for the three months ended June 30, 2015, the Company accrued \$9 thousand of hypothetical capital gains incentive fee based upon the cumulative net Adjusted Realized Capital Gains and Adjusted Realized Capital Losses and the cumulative net Adjusted Unrealized Capital Appreciation and Adjusted Unrealized Capital Depreciation on investments held at the end of each period. Actual amounts paid to the Investment Adviser are consistent with the Investment Management Agreement and are based only on actual Adjusted Realized Capital Gains computed net of all Adjusted Realized Capital Losses and Adjusted Unrealized Capital Depreciation on a cumulative basis from inception through the end of each calendar year as if the entire portfolio was sold at fair value. As of June 30, 2015, no actual capital gains incentive fee was owed under the Investment Management Agreement by the Company, as cumulative net Adjusted Realized Gains did not exceed cumulative Adjusted Unrealized Depreciation.

The following table for the Company for the six months ended June 30, 2015 is adjusted to reflect the step-up to fair market value and the allocation of the incentive fees related to hypothetical capital gains out of the adjusted post-incentive fee net investment income.

(1) For the six months ended June 30, 2015, the Company incurred total incentive fees of \$10.4 million, of which \$0.5 million related to capital gains incentive fees on a hypothetical liquidation basis.

Table of Contents

- (2) Includes income from non-controlled/non-affiliated investments, non-controlled/affiliated investments and controlled investments.
- (3) Includes expense waivers and reimbursements of \$0.4 million and management fee waivers of \$2.6 million.
- (4) Includes net realized gains and losses on investments and net change in unrealized appreciation (depreciation) of investments from non-controlled/non-affiliated investments, non-controlled/affiliated investments and controlled investments.

For the six months ended June 30, 2015, the Company had a \$66 thousand adjustment to interest income for amortization, an increase of \$47 thousand to net realized losses and an increase of approximately \$0.1 million to net change in unrealized appreciation to adjust for the stepped-up cost basis of the transferred investments as discussed above. For the six months ended June 30, 2015, total adjusted investment income of \$74.4 million consisted of approximately \$62.3 million in cash interest from investments, approximately \$2.2 million in PIK interest from investments, approximately \$3.2 million in prepayment fees, net amortization of purchase premiums and discounts of approximately \$1.1 million, approximately \$1.9 million in cash dividends from investments, \$1.2 million in PIK dividends from investments and approximately \$2.5 million in other income. The Company's Adjusted Net Investment Income was \$39.7 million for the six months ended June 30, 2015.

In accordance with GAAP, for the six months ended June 30, 2015, the Company accrued \$0.5 million of hypothetical capital gains incentive fee based upon the cumulative net Adjusted Realized Capital Gains and Adjusted Realized Capital Losses and the cumulative net Adjusted Unrealized Capital Appreciation and Adjusted Unrealized Capital Depreciation on investments held at the end of each period. Actual amounts paid to the Investment Adviser are consistent with the Investment Management Agreement and are based only on actual Adjusted Realized Capital Gains computed net of all Adjusted Realized Capital Losses and Adjusted Unrealized Capital Depreciation on a cumulative basis from inception through the end of each calendar year as if the entire portfolio was sold at fair value. As of June 30, 2015, no actual capital gains incentive fee was owed under the Investment Management Agreement by the Company, as cumulative net Adjusted Realized Gains did not exceed cumulative Adjusted Unrealized Depreciation.

Table of Contents**Results of Operations for the Company for the Three Months Ended June 30, 2015 and June 30, 2014****Revenue**

(in thousands)	Three Months Ended		Percentage Change
	June 30, 2015	June 30, 2014	
Interest income	\$ 35,470	\$ 18,788	
Interest income allocated from the Predecessor Operating Company		12,847	
Total interest income	35,470	31,635	12%

Dividend income allocated from the Predecessor Operating Company		279	
Total dividend income	1,795	1,251	43%
Other income	640	709	
Other income allocated from the Predecessor Operating Company		113	
Total other income	640	822	(22)%
Total investment income	\$ 37,905	\$ 33,708	12%

The Company's total investment income increased by approximately \$4.2 million for the three months ended June 30, 2015 as compared to the three months ended June 30, 2014. The 12% increase in total investment income primarily results from an increase in interest income of approximately \$3.8 million from the three months ended June 30, 2014 to the three months ended June 30, 2015 which is attributable to larger invested balances, driven by the proceeds from the October 2014 primary offering of the Company's common stock, the Company's use of leverage from its revolving credit facilities and the deployment of the June 2014 proceeds from the issuance of \$115.0 million of convertible notes to originate new investments and prepayment fees received associated with the early repayments or partial repayments of five different portfolio companies held by the Company as of March 31, 2015. In addition, the increase in dividend income during the three months ended June 30, 2015 as compared to the three months ended June 30, 2014 was primarily attributable to distributions from the Company's investment in SLP I and PIK dividend income from an equity position. The decrease in other income during the three months ended June 30, 2015 as compared to the three months ended June 30, 2014, which represents fees that are generally non-recurring in nature, was primarily attributable to lower structuring, amendment and consent fees received from portfolio companies during the three months ended June 30, 2015.

S-57

Table of Contents

The Company's total net operating expenses increased by approximately \$1.2 million for the three months ended June 30, 2015 as compared to the three months ended June 30, 2014. The Company's management fee increased by approximately \$0.3 million, net of a management fee waiver, and incentive fees increased by approximately \$0.4 million for the three months ended June 30, 2015 as compared to the three months ended June 30, 2014. The increase in management fee and incentive fee from the three months ended June 30, 2014 to the three months ended June 30, 2015 was attributable to larger invested balances, driven by the proceeds from the October 2014 primary offering of NMFC's common stock and the Company's use of leverage from its revolving credit facilities and the deployment of the June 2014 proceeds from the issuance of \$115.0 million of convertible notes to originate new investments. The Company's capital gains incentive fees decreased by approximately \$1.3 million for the three months ended June 30, 2015 as compared to the three months ended June 30, 2014, which was attributable to lower net Adjusted Realized Capital Gains (Losses) and Adjusted Unrealized Capital Appreciation (Depreciation) of investments during the period due to steady marks on the broader portfolio resulting in a minimal increase to the capital gains incentive fee for the three months ended 2015. As of June 30, 2015, no actual capital gains incentive fee would be owed under the Investment Management Agreement by the Company if the Company had ceased operations as of June 30, 2015, as cumulative net Adjusted Realized Gains did not exceed cumulative Adjusted Unrealized Depreciation.

Interest and other financing expenses increased by approximately \$1.6 million during the three months ended June 30, 2015, primarily due to the Company's issuance of \$115.0 million of convertible notes and the closing of the NMFC Credit Facility (as defined below) during the second quarter of 2014 and the drawing on SBA-guaranteed debentures beginning during the fourth quarter of 2014. The Company's total professional fees, total administrative expenses and total other general and administrative expenses remained relatively flat for the three months ended June 30, 2015 as compared to the three months ended June 30, 2014.

Net Realized Gains (Losses) and Net Change in Unrealized Appreciation (Depreciation)

Not meaningful.

Table of Contents

The Company's net realized losses and unrealized gains resulted in a minimal net gain for the three months ended June 30, 2015 compared to the net realized and unrealized gains resulting in a net gain of approximately \$6.4 million for the same period in 2014. We look at net realized and unrealized gains or losses together as movement in unrealized appreciation or depreciation can be the result of realizations. The minimal gain for the three months ended June 30, 2015 was primarily driven by the overall decrease in the market prices of the Company's investments during the period which were offset by sales or repayments of investments with fair values in excess of March 31, 2015 valuations, resulting in net realized gains being greater than the reversal of the cumulative net unrealized gains for those investments. In addition, one portfolio company had a modification of terms that was accounted for as an extinguishment during the quarter ended June 30, 2015, the net realized loss of approximately \$15.2 million was offset by the reversal of the cumulative net unrealized losses for this investment. The net gain for the three months ended June 30, 2014 was primarily driven by the overall increase in the market prices of the Company's investments during the period and driven by sales or repayments of investments with fair values in excess of March 31, 2014 valuations, resulting in net realized gains being greater than the reversal of the cumulative net unrealized gains for those investments. In addition, net realized gains were primarily attributable to a gain of \$5.6 million from the sale of the Company's warrant investments in one portfolio company which was offset by a trading loss of approximately \$0.8 million. The provision for income taxes was attributable to three equity investments that are held as of June 30, 2015 in three of the Company's corporate subsidiaries.

Results of Operations for the Company for the Six Months Ended June 30, 2015 and June 30, 2014**Revenue**

(in thousands)	Six Months Ended		Percentage Change
	June 30, 2015	June 30, 2014	
Interest income	\$ 68,817	\$ 18,788	
Interest income allocated from the Predecessor Operating Company		40,515	
Total interest income	68,817	59,303	16%
Dividend income	3,102	972	
Dividend income allocated from the Predecessor Operating Company		2,368	
Total dividend income	3,102	3,340	(7)%

Total other income	2,522	1,504	68%
Total investment income	\$ 74,441	\$ 64,147	16%

The Company's total investment income increased by approximately \$10.3 million for the six months ended June 30, 2015 as compared to the six months ended June 30, 2014. The 16% increase in total investment income primarily results from an increase in interest income of approximately \$9.5 million from the six months ended June 30, 2014 to the six months ended June 30, 2015 which is attributable to larger invested balances, driven by the proceeds from the

Table of Contents

October 2014 primary offering of the Company's common stock, the Company's use of leverage from its revolving credit facilities and the deployment of the June 2014 proceeds from the issuance of \$115.0 million of convertible notes to originate new investments and prepayment fees received associated with the early repayments or partial repayments of seven different portfolio companies held by the Company as of December 31, 2014. The increase in other income of approximately \$1.0 million during the six months ended June 30, 2015 as compared to the six months ended June 30, 2014, which represents fees that are generally non-recurring in nature, was primarily attributable to structuring, amendment and consent fees received from ten different portfolio companies and management fees from a non-controlled affiliated portfolio company. The decrease in dividend income during the six months ended June 30, 2015 as compared to the six months ended June 30, 2014 was primarily attributable to a large non-recurring distribution from one of the Predecessor Operating Company's warrant investments during the three months ended March 31, 2014.

Capital gains incentive fee accrual assumes a hypothetical liquidation basis.

S-61

Table of Contents

The Company's total net operating expenses increased by approximately \$4.3 million for the six months ended June 30, 2015 as compared to the six months ended June 30, 2014. The Company's management fee increased by approximately \$1.3 million, net of a management fee waiver, and incentive fees increased by approximately \$0.9 million for the six months ended June 30, 2015 as compared to the six months ended June 30, 2014. The increase in management fee and incentive fee from the six months ended June 30, 2014 to the six months ended June 30, 2015 was attributable to larger invested balances, driven by the proceeds from the October 2014 primary offering of NMFC's common stock and the Company's use of leverage from its revolving credit facilities and the deployment of the June 2014 proceeds from the issuance of \$115.0 million of convertible notes to originate new investments. The Company's capital gains incentive fees decreased by approximately \$2.3 million for the six months ended June 30, 2015 as compared to the six months ended June 30, 2014, which was attributable to lower net Adjusted Realized Capital Gains (Losses) and Adjusted Unrealized Capital Appreciation (Depreciation) of investments during the period due to lower marks on the broader portfolio. As of June 30, 2015, no actual capital gains incentive fee would be owed under the Investment Management Agreement by the Company if the Company had ceased operations as of June 30, 2015, as cumulative net Adjusted Realized Gains did not exceed cumulative Adjusted Unrealized Depreciation.

Interest and other financing expenses increased by approximately \$3.8 million during the six months ended June 30, 2015, primarily due to the Company's issuance of \$115.0 million of convertible notes and the closing of the NMFC Credit Facility (as defined below) during the second quarter of 2014 and the drawing on SBA-guaranteed debentures beginning during the fourth quarter of 2014. The Company's total professional fees, total administrative expenses and total other general and administrative expenses remained relatively flat for the six months ended June 30, 2015 as compared to the six months ended June 30, 2014. During the six months ended June 30, 2014, the Company incurred \$10.9 thousand in other expenses that were not subject to the expense cap pursuant to the administration agreement, as amended and restated (the "Administration Agreement"), with the Administrator, and further restricted by the Company. The Company's expenses waived and reimbursed decreased by approximately \$0.4 million for the six months ended June 30, 2015 as compared to the six months ended June 30, 2014 due to the expiration of the expense cap on March 31, 2014.

Table of Contents*Net Realized Gains (Losses) and Net Change in Unrealized Appreciation (Depreciation)*

(in thousands)	Six Months Ended		Percentage Change
	June 30, 2015	June 30, 2014

*
Not meaningful.

The Company's net realized losses and unrealized gains resulted in a net gain of approximately \$3.9 million for the six months ended June 30, 2015 compared to the net realized and unrealized gains resulting in a net gain of approximately \$13.8 million for the same period in 2014. We look at net realized and unrealized gains or losses together as movement in unrealized appreciation or depreciation can be the result of realizations. The net gain for the six months ended June 30, 2015 was primarily driven by the sales or repayments of investments with fair values in excess of December 31, 2014 valuations, resulting in net realized gains being greater than the reversal of the cumulative net unrealized gains for those investments which included the sale of two portfolio companies resulting in realized gains of approximately \$14.2 million. These gains were offset by \$29.7 million of realized losses on investments resulting from the modification of terms on three portfolio companies that were accounted for as extinguishments. The net gain for the six months ended June 30, 2014 was primarily driven by the overall increase in the market prices of the Company's investments during the period, a \$5.6 million gain from the sale of the Company's warrant investments in one portfolio company and driven by sales or repayments of investments with fair values in excess of December 31, 2013 valuations, resulting in net realized gains being greater than the reversal of the cumulative net unrealized gains for those investments. The provision for income taxes was attributable to three equity investments that are held as of June 30, 2015 in three of the Company's corporate subsidiaries.

Liquidity and Capital Resources

The primary use of existing funds and any funds raised in the future is expected to be for the Company's repayment of indebtedness, the Company's investments in portfolio companies, cash distributions to the Company's stockholders or for other general corporate purposes.

Since NMFC's IPO, and through June 30, 2015, NMFC raised approximately \$374.6 million in net proceeds from additional offerings of common stock and issued shares valued at approximately \$288.4 million on behalf of AIV Holdings for exchanged units. NMFC acquired from the Predecessor

Table of Contents

Operating Company units of the Predecessor Operating Company equal to the number of shares of NMFC's common stock sold in the additional offerings.

The Company's liquidity is generated and generally available through advances from the revolving credit facilities, from cash flows from operations, and, we expect, through periodic follow-on equity offerings. In addition, we may from time to time enter into additional debt facilities, increase the size of existing facilities or issue additional debt securities, including unsecured debt and/or debt securities convertible into common stock. Any such incurrence or issuance would be subject to prevailing market conditions, our liquidity requirements, contractual and regulatory restrictions and other factors. In accordance with the 1940 Act, with certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, calculated pursuant to the 1940 Act, is at least 200.0% after such borrowing.

At June 30, 2015 and December 31, 2014, the Company had cash and cash equivalents of approximately \$24.2 million and \$23.4 million, respectively. Cash provided by operating activities for the Company during the six months ended June 30, 2015 was approximately \$142.3 million and cash used in operating activities for the Company for the six months ended June 30, 2014 was approximately \$(154.6) million, which includes the activity allocated from NMF Holdings. We expect that all current liquidity needs by the Company will be met with cash flows from operations and other activities.

Borrowings

Holdings Credit Facility On December 18, 2014 the Company entered into the Second Amended and Restated Loan and Security Agreement (the "Holdings Credit Facility"), among the Company, as the Collateral Manager, NMF Holdings as the Borrower, Wells Fargo Securities, LLC as the Administrative Agent and Wells Fargo Bank, National Association, as the Lender and Collateral Custodian, which is structured as a revolving credit facility and matures on December 18, 2019.

Immediately prior to amending the Holdings Credit Facility, NMF SPV merged with and into NMF Holdings. The Holdings Credit Facility effectively amended and restated the Predecessor Holdings Credit Facility (as defined below), merged with the SLF Credit Facility (as defined below), and combined the amount of borrowings previously available.

The maximum amount of revolving borrowings available under the Holdings Credit Facility is \$495.0 million, which is the aggregate of the \$280.0 million previously available under the Predecessor Holdings Credit Facility (as defined below) and the \$215.0 million previously available under the SLF Credit Facility (as defined below). Under the Holdings Credit Facility, NMF Holdings is permitted to borrow up to 25.0%, 45.0% or 70.0% of the purchase price of pledged assets, subject to approval by the Wells Fargo Securities, LLC. The Holdings Credit Facility is non-recourse to the Company and is collateralized by all of the investments of NMF Holdings on an investment by investment basis. All fees associated with the origination or upsizing of the Holdings Credit Facility are capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the Holdings Credit Facility. The Holdings Credit Facility contains certain customary affirmative and negative covenants and events of default. In addition, the Holdings Credit Facility requires the Company to maintain a minimum asset coverage ratio. The covenants are generally not tied to mark to market fluctuations in the prices of NMF Holdings investments, but rather to the performance of the underlying portfolio companies.

The Holdings Credit Facility bears interest at a rate of the LIBOR plus 2.00% per annum for Broadly Syndicated Loans (as defined in the Loan and Security Agreement) and LIBOR plus 2.75% per annum for all other investments. The Holdings Credit Facility also charges a non-usage fee,

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

based on the unused facility amount multiplied by the Non-Usage Fee Rate (as defined in the Loan and Security Agreement).

Prior to December 18, 2014, the Loan and Security Agreement, as amended and restated, dated May 19, 2011 (the "Predecessor Holdings Credit Facility") among NMF Holdings as the Borrower and Collateral Administrator, Wells Fargo Securities, LLC as the Administrative Agent, and Wells Fargo Bank, National Association, as the Collateral Custodian, was structured as a revolving credit facility and would mature on October 27, 2016.

The maximum amount of revolving borrowings available under the Predecessor Holdings Credit Facility was \$280.0 million. Until December 18, 2014, NMF Holdings was permitted to borrow up to 45.0% or 25.0% of the purchase price of pledged first lien or non-first lien debt securities, and up to 70.0% and 45.0% of the purchase price of specified first lien debt securities and specified non-first lien debt securities, respectively, subject to approval by Wells Fargo Bank, National Association. The Predecessor Holdings Credit Facility was amended and restated on May 6, 2014 and as a result, it was non-recourse to the Company and was collateralized by all of the investments of NMF Holdings on an investment by investment basis. All fees associated with the origination or upsizing of the Predecessor Holdings Credit Facility were capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the Predecessor Holdings Credit Facility. The Predecessor Holdings Credit Facility contained certain customary affirmative and negative covenants and events of default, including the occurrence of a change in control. In addition, the Predecessor Holdings Credit Facility required the Company to maintain a minimum asset coverage ratio. However, the covenants were generally not tied to mark to market fluctuations in the prices of NMF Holdings' investments, but rather to the performance of the underlying portfolio companies.

The Predecessor Holdings Credit Facility bore interest at a rate of the LIBOR plus 2.75% per annum and charged a non-usage fee, based on the unused facility amount multiplied by the Non-Usage Fee Rate (as defined in the Loan and Security Agreement).

The following table summarizes the interest expense, non-usage fees and amortization of financing costs incurred on the Holdings Credit Facility for the three and six months ended June 30, 2015 and the Predecessor Holdings Credit Facility for the three and six months ended June 30, 2014.

(in million)	Three months ended		Six months ended	
	June 30, 2015	June 30, 2014	June 30, 2015	June 30, 2014
Interest expense	\$ 2.5	\$ 1.6	\$ 5.4	\$ 3.3
Non-usage fee	\$ 0.1	\$ 0.1	\$ 0.2	\$ 0.2
Amortization of financing costs	\$ 0.4	\$ 0.2	\$ 0.8	\$ 0.4
Weighted average interest rate	2.6%	2.9%	2.6%	2.9%
Effective interest rate	3.2%	3.5%	3.1%	3.4%
Average debt outstanding	\$ 374.2	\$ 224.7	\$ 411.6	\$ 228.7

As of June 30, 2015 and December 31, 2014, the outstanding balance on the Holdings Credit Facility was \$359.9 million and \$468.1 million, respectively, and NMF Holdings was in compliance with the applicable covenants in the Holdings Credit Facility on such dates.

SLF Credit Facility NMF SLF's Loan and Security Agreement, as amended and restated, dated October 27, 2010 (the "SLF Credit Facility") among NMF SLF as the Borrower, NMF Holdings as the Collateral Administrator, Wells Fargo Securities, LLC as the Administrative Agent, and Wells Fargo Bank, National Association, as the Collateral Custodian, was structured as a revolving credit

Table of Contents

facility and was set to mature on October 27, 2016. The maximum amount of revolving borrowings available under the SLF Credit Facility was \$215.0 million. The SLF Credit Facility was non-recourse to the Company and secured by all assets of NMF SLF on an investment by investment basis. All fees associated with the origination or upsizing of the SLF Credit Facility were capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the SLF Credit Facility. The SLF Credit Facility contained certain customary affirmative and negative covenants and events of default, including the occurrence of a change in control. The covenants were generally not tied to mark to market fluctuations in the prices of the NMF SLF's investments, but rather to the performance of the underlying portfolio companies. NMF SLF was not restricted from the purchase or sale of loans with an affiliate. Therefore, specified first lien loans could be moved as collateral between the Holdings Credit Facility and the SLF Credit Facility. The SLF Credit Facility merged with the Holdings Credit Facility on December 18, 2014.

Until December 18, 2014, the SLF Credit Facility permitted borrowings of up to 70.0% of the purchase price of pledged first lien debt securities and up to 25.0% of the purchase price of specified second lien loans, of which, up to 25.0% of the aggregate outstanding loan balance of all pledged debt securities in the SLF Credit Facility was allowed to be derived from second lien loans, subject to approval by Wells Fargo Bank, National Association.

The SLF Credit Facility bore interest at a rate of LIBOR plus 2.00% per annum for first lien loans and LIBOR plus 2.75% per annum for second lien loans, respectively, as amended on March 11, 2013. A non-usage fee was paid, based on the unused facility amount multiplied by the Non-Usage Fee Rate (as defined in the Loan and Security Agreement).

The following table summarizes the interest expense, non-usage fees and amortization of financing costs incurred on the SLF Credit Facility for the three and six months ended June 30, 2015 and June 30, 2014.

(in millions)	Three months ended		Six months ended	
	June 30, 2015(1)	June 30, 2014	June 30, 2015(1)	June 30, 2014
Interest expense	\$	\$ 1.2	\$	\$ 2.4
Non-usage fee	\$	\$	(2)\$	(2)
Amortization of financing costs	\$	\$ 0.2	\$	\$ 0.4
Weighted average interest rate		% 2.2%		% 2.2%
Effective interest rate		% 2.7%		% 2.7%
Average debt outstanding	\$	\$ 215.0	\$	\$ 215.0

(1) Not applicable, as the SLF Credit Facility merged with and into the Holdings Credit Facility on December 18, 2014.

(2) For the three and six months ended June 30, 2014, the total non-usage fee was less than \$50 thousand.

As of December 31, 2014, the SLF Credit Facility had merged with the Holdings Credit Facility.

NMFC Credit Facility The Senior Secured Revolving Credit Agreement, as amended, dated June 4, 2014 (together with the related guarantee and security agreement, the "NMFC Credit Facility"), among the Company as the Borrower and Goldman Sachs Bank USA as the Administrative Agent and Collateral Agent, and Goldman Sachs Bank USA, Morgan Stanley, N.A. and Stifel Bank & Trust as Lenders, is structured as a senior secured revolving credit facility and matures on June 4, 2019. The NMFC Credit Facility is guaranteed by certain domestic subsidiaries

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

of the Company and proceeds from the NMFC Credit Facility may be used for general corporate purposes, including the funding of portfolio investments.

The maximum amount of revolving borrowings available under the NMFC Credit Facility is \$95.0 million, as amended on June 26, 2015. The Company is permitted to borrow at various advance rates depending on the type of portfolio investment as outlined in the Senior Secured Revolving Credit Agreement. All fees associated with the origination of the NMFC Credit Facility are capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the NMFC Credit Facility. The NMFC Credit Facility contains certain customary affirmative and negative covenants and events of default, including certain financial covenants related to asset coverage and liquidity and other maintenance covenants.

The NMFC Credit Facility generally bears interest at a rate of LIBOR plus 2.50% per annum or the prime rate plus 1.50% per annum, and charges a commitment fee, based on the unused facility amount multiplied by 0.375% (as defined in the Senior Secured Revolving Credit Agreement).

The following table summarizes the interest expense, non-usage fees and amortization of financing costs incurred on the NMFC Credit Facility for the three and six months ended June 30, 2015 and June 30, 2014.

(in millions)	Three months ended		Six months ended	
	June 30, 2015	June 30, 2014	June 30, 2015	June 30, 2014
Interest expense	\$ 0.5	\$	\$ 0.7	\$
Non-usage fee	\$ (1)	\$ (2)	\$ 0.1	\$ (2)
Amortization of financing costs	\$ 0.1	\$ (2)	\$ 0.2	\$ (2)
Weighted average interest rate	2.7%	%	2.7%	%
Effective interest rate	3.5%	%	3.7%	%
Average debt outstanding	\$ 67.1	\$	\$ 49.5	\$

- (1) For the three months ended June 30, 2015, the total non-usage fee was less than \$50 thousand.
- (2) For the three and six months ended June 30, 2014, the total non-usage fee and amortization of financing costs were less than \$50 thousand.

As of June 30, 2015 and December 31, 2014, the outstanding balance on the NMFC Credit Facility was \$38.0 million and \$50.0 million, respectively, and NMFC was in compliance with the applicable covenants in the NMFC Credit Facility on such dates.

Convertible Notes On June 3, 2014, the Company closed a private offering of \$115.0 million aggregate principal amount of senior unsecured convertible notes (the "Convertible Notes"), pursuant to an indenture, dated June 3, 2014 (the "Indenture"). The Convertible Notes were issued in a private placement only to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. As of the first anniversary, June 3, 2015, of the Convertible Notes, the restrictions under Rule 144A under the Securities Act of 1933 were removed, allowing the Convertible Notes to be eligible and freely tradable without restrictions for resale pursuant to Rule 144(b)(1) under the Securities Act of 1933. The Convertible Notes bear interest at an annual rate of 5.0%, payable semi-annually in arrears on June 15 and December 15 of each year, which commenced on December 15, 2014. The Convertible Notes will mature on June 15, 2019 unless earlier converted or repurchased at the holder's option.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

The following table summarizes certain key terms related to the convertible features of the Company's Convertible Notes as of June 30, 2015.

	June 30, 2015
Initial conversion premium	12.5%
Initial conversion rate(1)	62.7746
Initial conversion price	\$15.93
Conversion premium at June 30, 2015	11.7%
Conversion rate at June 30, 2015(1)(2)	63.2794
Conversion price at June 30, 2015(2)(3)	\$15.80
Last conversion price calculation date	June 3, 2015

- (1) Conversion rates denominated in shares of common stock per \$1.0 thousand principal amount of the Convertible Notes converted.
- (2) Represents conversion rate and conversion price, as applicable, taking into account certain de minimis adjustments that will be made on the conversion date.
- (3) The conversion price in effect at June 30, 2015 was calculated on the last anniversary of the issuance and will be adjusted again on the next anniversary, unless the exercise price shall have changed by more than 1.0% before the anniversary.

The conversion rate will be subject to adjustment upon certain events, such as stock splits and combinations, mergers, spin-offs, increases in dividends in excess of \$0.34 per share per quarter and certain changes in control. Certain of these adjustments, including adjustments for increases in dividends, are subject to a conversion price floor of \$14.16 per share. In no event will the total number of shares of common stock issuable upon conversion exceed 70.6214 per \$1.0 thousand principal amount of the Convertible Notes. The Company has determined that the embedded conversion option in the Convertible Notes is not required to be separately accounted for as a derivative under GAAP.

The Convertible Notes are senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries and financing vehicles. The issuance is considered part of the if-converted method for calculation of diluted earnings per share.

The Company may not redeem the Convertible Notes prior to maturity. No sinking fund is provided for the Convertible Notes. In addition, if certain corporate events occur in respect of the Company, holders of the Convertible Notes may require the Company to repurchase for cash all or part of their Convertible Notes at a repurchase price equal to 100.0% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the repurchase date.

The Indenture contains certain covenants, including covenants requiring the Company to provide financial information to the holders of the Convertible Note and the Trustee if the Company ceases to be subject to the reporting requirements of the Exchange Act. These covenants are subject to limitations and exceptions that are described in the Indenture.

Table of Contents

The following table summarizes the interest expense and amortization of financing costs incurred on the Convertible Notes for the three and six months ended June 30, 2015 and June 30, 2014.

(in millions)	Three months ended		Six months ended	
	June 30, 2015	June 30, 2014	June 30, 2015	June 30, 2014
Interest expense	\$ 1.5	\$ 0.4	\$ 2.9	\$ 0.4
Amortization of financing costs	\$ 0.2	\$ 0.1	\$ 0.4	\$ 0.1
Effective interest rate	5.7%	5.7%	5.7%	5.7%

As of June 30, 2015 and December 31, 2014, the outstanding balance on the Convertible Notes was \$115.0 million and \$115.0 million, respectively, and NMFC was in compliance with the terms of the Indenture.

SBA-guaranteed debentures On August 1, 2014, SBIC LP received an SBIC license from the SBA.

The SBIC license allows SBIC LP to obtain leverage by issuing SBA-guaranteed debentures, subject to the issuance of a capital commitment by the SBA and other customary procedures. SBA-guaranteed debentures are non-recourse to the Company, interest only debentures with interest payable semi-annually and have a ten year maturity. The principal amount of SBA-guaranteed debentures is not required to be paid prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA-guaranteed debentures is fixed on a semi-annual basis at a market-driven spread over U.S. Treasury Notes with ten year maturities. The SBA, as a creditor, will have a superior claim to the assets of SBIC LP over the Company's stockholders in the event SBIC LP is liquidated or the SBA exercises remedies upon an event of default.

The maximum amount of borrowings available under current SBA regulations is \$150.0 million as long as the licensee has at least \$75.0 million in regulatory capital, receives a capital commitment from the SBA and has been through an examination by the SBA subsequent to licensing.

As of June 30, 2015 and December 31, 2014, SBIC LP had regulatory capital of \$55.4 million and \$42.2 million, respectively, and SBA-guaranteed debentures outstanding of \$55.0 million and \$37.5 million, respectively. The SBA-guaranteed debentures incur upfront fees of 3.425%, which consists of a 1.00% commitment fee and a 2.425% issuance discount, which are amortized over the life of the SBA-guaranteed debentures. The following table summarizes the Company's fixed-rate SBA-guaranteed debentures as of June 30, 2015.

(in millions) Issuance Date	Maturity Date	Debenture Amount	Interest Rate	SBA Annual Charge
Fixed SBA-guaranteed debentures				
March 25, 2015	March 1, 2025	\$ 37.5	2.517%	0.355%
Interim SBA-guaranteed debentures				
	September 2025(1)	17.5	0.639%	0.355%
Total SBA-guaranteed debentures		\$ 55.0		

(1) Estimated maturity date as interim SBA-guaranteed debentures are expected to pool in September 2015.

Prior to pooling, the SBA-guaranteed debentures bear interest at an interim floating rate of LIBOR plus 0.30%. Once pooled, which occurs in March and September each year, the

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

SBA-guaranteed debentures bear interest at a fixed rate that is set to the current 10-year treasury rate plus a spread at each pooling date.

The following table summarizes the interest expense and amortization of financing costs incurred on the SBA-guaranteed debentures for the three and six months ended June 30, 2015 and June 30, 2014.

	Three months ended		Six months ended	
	June 30, 2015	June 30, 2014(1)	June 30, 2015	June 30, 2014(1)
Interest expense	\$ 0.3	\$	\$ 0.4	\$
Amortization of financing costs	\$	(2)	\$ 0.1	\$
Weighted average interest rate	2.5%	%	1.9%	%
Effective interest rate	2.8%	%	2.2%	%
Average debt outstanding	\$ 47.1	\$	\$ 42.3	\$

(1) Not applicable, as SBIC LP did not have any outstanding SBA-guaranteed debentures for the three and six months ended June 30, 2014.

(2) For the three months ended June 30, 2015, the total amortization of financing costs was less than \$50 thousand.

The SBIC program is designed to stimulate the flow of private investor capital into eligible small businesses, as defined by the SBA. Under SBA regulations, SBIC LP is subject to regulatory requirements, including making investments in SBA-eligible businesses, investing at least 25.0% of its investment capital in eligible smaller businesses, as defined under the 1958 Act, placing certain limitations on the financing terms of investments, regulating the types of financing, prohibiting investments in small businesses with certain characteristics or in certain industries and requiring capitalization thresholds that limit distributions to the Company. SBIC LP is subject to an annual periodic examination by an SBA examiner to determine SBIC LP's compliance with the relevant SBA regulations and an annual financial audit of its financial statements that are prepared on a basis of accounting other than GAAP (such as ASC 820) by an independent auditor. As of June 30, 2015, SBIC LP was in compliance with SBA regulatory requirements.

Off-Balance Sheet Arrangements

The Company may become a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financial needs of its portfolio companies. These instruments may include commitments to extend credit and involve, to varying degrees, elements of liquidity and credit risk in excess of the amount recognized in the balance sheet. As of June 30, 2015 and December 31, 2014, the Company had outstanding commitments to third parties to fund investments totaling \$16.5 million and \$27.4 million, respectively, under various undrawn revolving credit facilities, delayed draw commitments or other future funding commitments.

The Company may from time to time enter into financing commitment letters or bridge financing commitments, which could require funding in the future. As of June 30, 2015 and December 31, 2014, the Company had commitment letters to purchase debt investments in an aggregate par amount of \$13.0 million and \$0, respectively. As of June 30, 2015 and December 31, 2014, the Company had bridge financing commitments in an aggregate par amount of \$20.0 million and \$0, respectively, which could require funding in the future.

Table of Contents**Contractual Obligations**

A summary of the Company's significant contractual payment obligations as of June 30, 2015 is as follows:

	Contractual Obligations Payments Due by Period				
	(in millions)				
	Total	Less than 1	1 - 3 Years	3 - 5 Years	More than 5
		Year			Years
Holdings Credit Facility(1)	\$ 359.9	\$	\$	\$ 359.9	\$
Convertible Notes(2)	115.0			115.0	
SBA-guaranteed debentures(3)	55.0				55.0
NMFC Credit Facility(4)	38.0			38.0	
Total Contractual Obligations	\$ 567.9	\$	\$	\$ 512.9	\$ 55.0

- (1) Under the terms of the \$495.0 million Holdings Credit Facility, all outstanding borrowings under that facility (\$359.9 million as of June 30, 2015) must be repaid on or before December 18, 2019. As of June 30, 2015, there was approximately \$135.1 million of possible capacity remaining under the Holdings Credit Facility.
- (2) The \$115.0 million Convertible Notes will mature on June 15, 2019 unless earlier converted or repurchased at the holder's option.
- (3) \$37.5 million of the Company's SBA-guaranteed debentures will mature on March 1, 2025 and \$17.5 million of the Company's SBA-guaranteed debentures are estimated to mature in September 2025.
- (4) Under the terms of the \$95.0 million NMFC Credit Facility, all outstanding borrowings under that facility (\$38.0 million as of June 30, 2015) must be repaid on or before June 4, 2019. As of June 30, 2015, there was approximately \$57.0 million of possible capacity remaining under the NMFC Credit Facility.

The Company has certain contracts under which it has material future commitments. The Company has \$16.5 million of undrawn funding commitments as of June 30, 2015 related to its participation as a lender in revolving credit facilities, delayed draw commitments or other future funding commitments of the Company's portfolio companies. As of June 30, 2015, the Company had bridge financing commitments and commitment letters to purchase debt investments in an aggregate par amount of \$20.0 million and \$13.0 million, which could require funding in the future.

We have entered into the Investment Management Agreement with the Investment Adviser in accordance with the 1940 Act. Under the Investment Management Agreement, the Investment Adviser has agreed to provide the Company with investment advisory and management services. We have agreed to pay for these services (1) a management fee and (2) an incentive fee based on its performance.

We have also entered into an Administration Agreement with the Administrator. Under the Administration Agreement, the Administrator has agreed to arrange office space for us and provide office equipment and clerical, bookkeeping and record keeping services and other administrative services necessary to conduct our respective day-to-day operations. The Administrator has also agreed to perform, or oversee the performance of, our financial records, our reports to stockholders and reports filed with the SEC.

If any of the contractual obligations discussed above are terminated, our costs under any new agreements that are entered into may increase. In addition, we would likely incur significant time and expense in locating alternative parties to provide the services we expect to receive under the Investment Management Agreement and the Administration Agreement.

-
- (1) Special dividend related to realized capital gains attributable to the Company's warrant investments in Learning Care Group (US), Inc.

S-72

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

- (2) Special dividend related to a distribution received attributable to NMF Holdings' investment in YP Equity Investors LLC.
- (3) Special dividend intended to minimize to the greatest extent possible NMFC's U.S. federal income or excise tax liability.
- (4) Special dividend related to estimated realized capital gains attributable to NMF Holdings' investments in Lawson Software, Inc. and Infor Lux Bond Company.

Tax characteristics of all dividends paid by the Company were reported to stockholders on Form 1099 after the end of the calendar year. Future quarterly dividends, if any, for the Company will be determined by the board of directors.

The Company intends to pay quarterly distributions to its stockholders and to maintain its status as a RIC. The Company intends to distribute approximately its entire portion of Adjusted Net Investment Income on a quarterly basis and substantially its entire taxable income on an annual basis, except that it may retain certain net capital gains for reinvestment.

The Company maintains an "opt out" dividend reinvestment plan for its common stockholders. As a result, the Company's stockholders' cash dividends will be automatically reinvested in additional shares of common stock, unless the stockholder elects to receive cash. Cash dividends reinvested in additional shares of the Company's common stock will be automatically reinvested by the Company into additional shares of the Company's common stock.

Related Parties

The Company has entered into a number of business relationships with affiliated or related parties, including the following:

The Company has entered into the Investment Management Agreement with the Investment Adviser, a wholly-owned subsidiary of New Mountain Capital. Therefore, New Mountain Capital is entitled to any profits earned by the Investment Adviser, which includes any fees payable to the Investment Adviser under the terms of the Investment Management Agreement, less expenses incurred by the Investment Adviser in performing its services under the Investment Management Agreement.

The Company has entered into an Administration Agreement with the Administrator, a wholly-owned subsidiary of New Mountain Capital. The Administrator arranges office space for the Company and provides office equipment and administrative services necessary to conduct their respective day-to-day operations pursuant to the Administration Agreement. The Company reimburses the Administrator for the allocable portion of overhead and other expenses incurred by it in performing its obligations to the Company under the Administration Agreement, which includes the fees and expenses associated with performing administrative, finance, and compliance functions, and the compensation of the Company's chief financial officer and chief compliance officer and their respective staffs. Pursuant to the Administration Agreement and further restricted by the Company, expenses payable to the Administrator by the Company as well as other direct and indirect expenses (excluding interest, other financing expense, trading expenses and management and incentive fees) had been capped at \$4.25 million for the time period from April 1, 2013 to March 31, 2014. The expense cap expired on March 31, 2014. Thereafter, the Administrator may, in its own discretion, submit to the Company for reimbursement some or all of the expenses that the Administrator has incurred on behalf of the Company during any quarterly period. As a result, the amount of expenses for which the Company will have to reimburse the Administrator may fluctuate in future quarterly periods and there can be no assurance given as to when, or if, the Administrator may determine to limit the expenses that the

Table of Contents

Administrator submits to the Company for reimbursement in the future. However, it is expected that the Administrator will continue to support part of the expense burden of the Company in the near future and may decide to not calculate and charge through certain overhead related amounts as well as continue to cover some of the indirect costs. The Administrator cannot recoup any expenses that the Administrator has previously waived. For the three and six months ended June 30, 2015, approximately \$0.3 million and \$0.7 million, respectively, of indirect administrative expenses were included in administrative expenses, of which \$0 and \$0.4 million, respectively, were waived by the Administrator. For the three and six months ended June 30, 2014, approximately \$0.4 million and \$0.7 million, respectively, of indirect administrative expenses were included in administrative expenses, of which \$0.1 and \$0.4 million, respectively, were waived by the Administrator. As of June 30, 2015 and December 31, 2014, approximately \$0.3 million and \$0.3 million, respectively, of indirect administrative expenses were included in payable to affiliates as the expenses were payable to the Administrator.

The Company, the Investment Adviser and the Administrator have entered into a royalty-free Trademark License Agreement, as amended, with New Mountain Capital, pursuant to which New Mountain Capital has agreed to grant the Company, the Investment Adviser and the Administrator, a non-exclusive, royalty-free license to use the name "New Mountain" and "New Mountain Finance".

In addition, the Company has adopted a formal code of ethics that governs the conduct of their respective officers and directors. These officers and directors also remain subject to the duties imposed by the 1940 Act, the Delaware General Corporation Law and the Delaware Limited Liability Company Act.

The Investment Adviser and its affiliates may also manage other funds in the future that may have investment mandates that are similar, in whole and in part, with the Company's investment mandates. The Investment Adviser and its affiliates may determine that an investment is appropriate for the Company and for one or more of those other funds. In such event, depending on the availability of such investment and other appropriate factors, the Investment Adviser or its affiliates may determine that we should invest side-by-side with one or more other funds. Any such investments will be made only to the extent permitted by applicable law and interpretive positions of the SEC and its staff, and consistent with the Investment Adviser's allocation procedures.

Concurrently with the IPO, NMFC sold an additional 2,172,000 shares of its common stock to certain executives and employees of, and other individuals affiliated with, New Mountain Capital in the Concurrent Private Placement.

Quantitative and Qualitative Disclosures About Market Risk

The Company is subject to certain financial market risks, such as interest rate fluctuations. During the six months ended June 30, 2015, certain of the loans held in the Company's portfolio had floating interest rates. As of June 30, 2015, approximately 84.2% of investments at fair value (excluding investments on non-accrual, revolvers, delayed draws and non-interest bearing equity investments) represent floating-rate investments with a LIBOR floor (includes investments bearing prime interest rate contracts) and approximately 15.8% of investments at fair value represent fixed-rate investments. Additionally, the Company's senior secured revolving credit facilities are also subject to floating interest rates and are currently paid based on one-month floating LIBOR rates.

The following table estimates the potential changes in net cash flow generated from interest income and expenses, should interest rates increase by 100, 200 or 300 basis points, or decrease by 25 basis points. Interest income is calculated as revenue from interest generated from the Company's portfolio of investments held on June 30, 2015. Interest expense is calculated based on

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

the terms of the Company's outstanding revolving credit facilities and convertible notes. For the Company's floating rate credit facilities, the Company uses the outstanding balance as of June 30, 2015. Interest expense on the Company's floating rate credit facilities are calculated using the interest rate as of June 30, 2015, adjusted for the hypothetical changes in rates, as shown below. The base interest rate case assumes the rates on the Company's portfolio investments remain unchanged from the actual effective interest rates as of June 30, 2015. These hypothetical calculations are based on a model of the investments in our portfolio, held as of June 30, 2015, and are only adjusted for assumed changes in the underlying base interest rates.

Actual results could differ significantly from those estimated in the table.

Change in Interest Rates	Estimated Percentage Change in Interest Income Net of Interest Expense (unaudited)
25 Basis Points	0.73%(1)
Base Interest Rate	%
+100 Basis Points	(2.38)%
+200 Basis Points	3.58%
+300 Basis Points	10.16%

(1)

Limited to the lesser of the June 30, 2015 LIBOR rates or a decrease of 25 basis points.

The Company was not exposed to any foreign currency exchange risks as of June 30, 2015.

S-75

Table of Contents**UNDERWRITING**

We and the underwriters named below have entered into an underwriting agreement with respect to the shares being offered. Subject to certain conditions, each underwriter has severally agreed to purchase the number of shares indicated in the following table. Wells Fargo Securities, LLC, Goldman, Sachs & Co. and Morgan Stanley & Co. LLC are the representatives of the underwriters.

Underwriter	Number of Shares
Wells Fargo Securities, LLC	1,750,000
Goldman, Sachs & Co.	1,250,000
Morgan Stanley & Co. LLC	1,000,000
Keefe, Bruyette & Woods, Inc	425,000
Robert W. Baird & Co. Incorporated	275,000
Janney Montgomery Scott LLC	150,000
Oppenheimer & Co. Inc.	150,000
Total	5,000,000

The underwriters are committed to take and pay for all of the shares being offered, if any are taken, other than the shares covered by the option described below unless and until this option is exercised.

If the underwriters sell more shares than the total number set forth in the table above, the underwriters have an option to buy up to an additional 750,000 shares from us. They may exercise that option for 30 days. If any shares are purchased pursuant to this option, the underwriters will severally purchase shares in approximately the same proportion as set forth in the table above.

Our Chairman of the board of directors, Steven B. Klinsky, is purchasing an aggregate of 500,000 shares of our common stock in this offering. As per an arrangement with the underwriters, we and the Investment Adviser will not pay and the underwriters will not receive the sales load on the shares that Mr. Klinsky is purchasing in this offering.

The following table shows the per share and total underwriting discounts and commissions (sales load) to be paid to the underwriters by us. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase 750,000 additional shares. In addition, the Investment Adviser has agreed to bear \$288,900, or \$0.0642 per share, of the underwriting discounts and commissions (sales load) in this offering, excluding the 500,000 shares Mr. Klinsky is purchasing in this offering, which is also reflected in the following table and will not be subject to reimbursement by us.

	Sales Load by Investment Adviser			
	Sales Load by Us(1)		No Exercise	Full Exercise
	No Exercise	Full Exercise	No Exercise	Full Exercise
Per Share	\$ 0.3600	\$ 0.3600	\$ 0.0642	\$ 0.0642
Total	\$ 1,620,000	\$ 1,890,000	\$ 288,900	\$ 337,050

(1)

As per an arrangement between the underwriters and Steven B. Klinsky, our Chairman of the board of directors, the underwriters will not receive sales load on the 500,000 shares Mr. Klinsky is purchasing in this offering which decreases the total sales load received by the underwriters from us by approximately \$180,000.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

Because the Financial Industry Regulatory Authority, or FINRA, views the common stock offered hereby as interests in a direct participation program, the offering is being made in compliance with the requirements of FINRA Rule 2310. Investor suitability with respect to the common stock should be judged similarly to suitability with respect to other securities that are listed for trading on a national securities exchange.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of the issuer. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Shares sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus supplement. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$0.00000 per share from the public offering price. If all the shares are not sold at the initial offering price, the representatives may change the public offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

We, each of our officers and directors and each of the members of the Investment Adviser's investment committee have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any shares of our common stock or securities convertible into or exchangeable for shares of our common stock during the period from the date of this prospectus supplement continuing through the date 60 days (90 days in the case of Mr. Klinsky) after the date of this prospectus supplement, except with the prior written consent of Wells Fargo Securities, LLC, Goldman, Sachs & Co. and Morgan Stanley & Co. LLC.

Our common stock is listed on the New York Stock Exchange under the symbol "NMFC".

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares from us in the offering. The underwriters may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option granted to them. "Naked" short sales are any sales in excess of such option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the

Table of Contents

representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own account, may have the effect of preventing or retarding a decline in the market price of the company's stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on the New York Stock Exchange, in the over-the-counter market or otherwise.

The underwriters do not expect sales to discretionary accounts to exceed five percent of the total number of shares offered.

We estimate that the offering expenses that will be borne by us in connection with the sale of shares of our common stock offered by us in this offering will be approximately \$339,462. The Investment Adviser has agreed to bear \$0.0642 per share, or approximately 0.5% of the offering price, excluding the 500,000 shares Mr. Klinsky is purchasing in this offering, which will not be subject to reimbursement by us.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933.

The underwriters and their respective affiliates are full-service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates may, from time to time, perform various financial advisory and investment banking services for us, for which they will receive customary fees and expenses. In addition, an affiliate of Wells Fargo Securities, LLC is a lender under the Holdings Credit Facility and affiliates of Goldman, Sachs & Co., Morgan Stanley & Co. LLC and Keefe, Bruyette & Woods, Inc. are lenders under the NMFC Credit Facility. Certain directly or indirectly held registered broker dealers, investment advisors, and bank subsidiaries of Wells Fargo & Company, an affiliate of Wells Fargo Securities, LLC an underwriter in this offering, hold approximately 10.7% of our common stock.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and such investment and securities activities may involve securities and/or instruments of the issuer. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

We intend to use the net proceeds from the sale of shares of our common stock sold in this offering primarily for new investments in portfolio companies in accordance with our investment objective and strategies described in this prospectus supplement and the accompanying prospectus. We may also use a portion of the net proceeds from the sale of shares of our common stock sold in this offering for other general corporate purposes, including to temporarily repay indebtedness (which will be subject to reborrowing), and other working capital needs. Affiliates of Wells Fargo Securities, LLC are lenders under the Holdings Credit Facility and affiliates of Goldman, Sachs & Co., Morgan Stanley & Co. LLC and Keefe, Bruyette & Woods, Inc. are lenders under the NMFC Credit Facility. Accordingly, affiliates of Wells Fargo Securities, LLC, Goldman, Sachs & Co.,

Table of Contents

Morgan Stanley & Co. LLC and Keefe, Bruyette & Woods, Inc. may receive more than 5.0% of the net proceeds of this offering to the extent such proceeds are used to temporarily repay outstanding indebtedness under the Holdings Credit Facility or the NMFC Credit Facility.

The principal business address of Wells Fargo Securities, LLC is 550 South Tryon Street, Charlotte, North Carolina 28202, the principal business address of Goldman, Sachs & Co. is 200 West Street, New York, New York 10282, and the principal business address of Morgan Stanley & Co. LLC is 1585 Broadway, New York, New York 10036.

Each of the underwriters may arrange to sell common shares offered hereby in certain jurisdictions outside the United States, either directly or through affiliates, where they are permitted to do so. In that regard, Wells Fargo Securities, LLC may arrange to sell shares in certain jurisdictions through an affiliate, Wells Fargo Securities International Limited, or WFSIL. WFSIL is a wholly-owned indirect subsidiary of Wells Fargo & Company and an affiliate of Wells Fargo Securities, LLC. WFSIL is a United Kingdom incorporated investment firm regulated by the Financial Conduct Authority. Wells Fargo Securities is the trade name for certain corporate and investment banking services of Wells Fargo & Company and its affiliates, including Wells Fargo Securities, LLC and WFSIL.

LEGAL MATTERS

Certain legal matters regarding the shares of common stock offered hereby will be passed upon for us by Sutherland Asbill & Brennan LLP, Washington, District of Columbia. Certain legal matters in connection with the shares of common stock offered hereby will be passed upon for the underwriters by Fried, Frank, Harris, Shriver & Jacobson LLP, New York, New York. Fried, Frank, Harris, Shriver & Jacobson LLP represents New Mountain Capital, L.L.C. and its portfolio companies from time to time in the ordinary course of business.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

With respect to the unaudited interim financial information of New Mountain Finance Corporation as of June 30, 2015 and for the three and six month periods ended June 30, 2015 and 2014, which is included in this prospectus supplement, Deloitte & Touche LLP, an independent registered public accounting firm, has applied limited procedures in accordance with the standards of the Public Company Accounting Oversight Board (United States) for a review of such information. However, as stated in their report included in the accompanying prospectus, they did not audit and they do not express an opinion on that interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. Deloitte & Touche LLP are not subject to the liability provisions of Section 11 of the Securities Act of 1933 for their reports on the unaudited interim financial information because those reports are not "reports" or a "part" of the Registration Statement prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Act.

The consolidated financial statements of the Company and the related information of the Company and New Mountain Finance Holdings, L.L.C. included in the Senior Securities table and the effectiveness of the Company's internal control over financial reporting, included in the accompanying prospectus, have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports appearing herein and elsewhere in the Registration Statement. Such financial statements and information included in the Senior Securities table have been so included in reliance upon the reports of such firm, given their authority as experts in accounting and auditing.

Table of Contents

The principal business address of Deloitte & Touche LLP is 30 Rockefeller Center Plaza, New York, New York 10112.

AVAILABLE INFORMATION

We have filed with the SEC a registration statement on Form N-2, together with all amendments and related exhibits, under the Securities Act, with respect to the shares of common stock offered by this prospectus supplement and the accompanying prospectus. The registration statement contains additional information about us and the shares of common stock being offered by this prospectus supplement and the accompanying prospectus.

We are required to file with or submit to the SEC annual, quarterly and current reports, proxy statements and other information meeting the informational requirements of the Exchange Act. You may inspect and copy these reports, proxy statements and other information, as well as the registration statement and related exhibits and schedules, at the Public Reference Room of the SEC at 100 F Street, N.E., Washington, District of Columbia 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an internet site that contains reports, proxy and information statements and other information filed electronically by us with the SEC, which are available on the SEC's website at <http://www.sec.gov>. Copies of these reports, proxy and information statements and other information may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing the SEC's Public Reference Section, 100 F Street, N.E., Washington, District of Columbia 20549. This information will also be available free of charge by contacting us at 787 Seventh Avenue, 48th Floor, New York, New York 10019, by telephone at (212) 720-0300, or on our website at <http://www.newmountainfinance.com>. Information contained on our website or on the SEC's web site about us is not incorporated into this prospectus supplement and the accompanying prospectus and you should not consider information contained on our website or on the SEC's website to be part of this prospectus supplement and the accompanying prospectus.

(1)

New Mountain Finance Corporation (the "Company") generally acquires its investments in private transactions exempt from registration under the Securities Act of 1933, as amended (the "Securities Act"). These investments are generally subject to certain limitations on resale, and may be deemed to be "restricted securities" under the Securities Act.

(2)

Investment is pledged as collateral for the Holdings Credit Facility, a revolving credit facility among the Company as Collateral Manager, New Mountain Finance Holdings, L.L.C. ("NMF Holdings") as the Borrower, Wells Fargo Securities, LLC as the Administrative Agent, and Wells Fargo Bank, National Association, as the Lender and Collateral Custodian. See Note 7, *Borrowings*, for details.

(3)

Edgar Filing: New Mountain Finance Corp - Form 497

Investment is pledged as collateral for the NMFC Credit Facility, a revolving credit facility among the Company as the Borrower and Goldman Sachs Bank USA as the Administrative Agent and the Collateral Agent and Goldman Sachs Bank USA, Morgan Stanley, N.A. and Stifel Bank & Trust as Lenders. See Note 7, *Borrowings*, for details.

- (4) Investment is held in New Mountain Finance SBIC, L.P.
- (5) Investment is held in NMF YP Holdings, Inc.
- (6) Investment is held in NMF Ancora Holdings, Inc.
- (7) Investment is held in NMF QID NGL Holdings, Inc.
- (8) Investment or a portion of the investment is on non-accrual status. See Note 3, *Investments*, for details.
- (9) Securities are registered under the Securities Act.
- (10) The Company holds investments in three related entities of YP Holdings LLC/Print Media Holdings LLC. The Company directly holds warrants to purchase a 4.96% membership interest of YP Equity Investors, LLC (which at closing represented an indirect 1.0% equity interest in YP Holdings LLC) and holds an investment in the Term Loan B loans issued by YP LLC and Print Media LLC, wholly-owned subsidiaries of YP Holdings LLC and Print Media Holdings LLC, respectively.
- (11) Par Value amounts represent the drawn or undrawn (as indicated in type of investment) portion of revolving credit facilities or delayed draws. Cost amounts represent the cash received at settlement date net the impact of paydowns and cash paid for drawn revolvers or delayed draws.
- (12) The Company holds investments in Packaging Coordinators, Inc. and one related entity of Packaging Coordinators, Inc. The Company has a debt investment in Packaging Coordinators, Inc. and holds ordinary equity in PCI Pharma Holdings UK Limited, a wholly-owned subsidiary of Packaging Coordinators, Inc.
- (13) The Company holds investments in ATI Acquisition Company and Ancora Acquisition LLC. The Company has debt investments in ATI Acquisition Company and preferred equity and warrants to purchase units of common membership interests of Ancora Acquisition LLC. The Company received its investments in Ancora Acquisition LLC as a result of its investments in ATI Acquisition Company.
- (14) The Company holds an investment in CompassLearning, Inc. that is structured as a first lien last out term loan.
- (15)

The Company holds two first lien investments in Tolt Solutions, Inc. The debt investment with an interest rate at base rate + 6.00% is structured as a first lien first out debt investment. The debt investment with an interest rate at base rate + 11.00% is structured as a first lien last out debt investment.

- (16) The Company holds investments in two related entities of Tenawa Resource Holdings LLC. The Company holds 5.05% of the common units in QID NGL LLC (which at closing represented 98.1% of the ownership in the common units in Tenawa Resource Holdings LLC) and holds a first lien investment in Tenawa Resource Management LLC, a wholly-owned subsidiary of Tenawa Resource Holdings LLC.
- (17) The Company holds investments in QC McKissock Investment, LLC and one related entity of QC McKissock Investment, LLC. The Company holds a first lien term loan in QC McKissock Investment, LLC (which at closing represented 71.1% of the ownership in the Series A common units of McKissock Investment Holdings, LLC) and holds a first lien term loan and a delayed draw term loan in McKissock, LLC, a wholly-owned subsidiary of McKissock Investment Holdings, LLC.
- (18) The Company holds investments in TWDiamondback Holdings Corp. and one related entity of TWDiamondback Holdings Corp. The Company holds preferred equity in TWDiamondback Holdings Corp. and holds a first lien last out term loan and a delayed draw term loan in Diamondback Drugs of Delaware LLC, a wholly-owned subsidiary of TWDiamondback Holdings Corp.
- (19) The Company holds investments in Edmentum Ultimate Holdings, LLC and its related entities. The Company holds subordinated notes and ordinary equity in Edmentum Ultimate Holdings, LLC and holds a second lien revolver in Edmentum, Inc. and Archipelago Learning, Inc., which are wholly-owned subsidiaries of Edmentum Ultimate Holdings, LLC.
- (20) Total shares reported assumes shares issued for the capitalization of PIK interest. Actual shares owned total 35,000.

The accompanying notes are an integral part of these consolidated financial statements.

Table of Contents**New Mountain Finance Corporation****Consolidated Schedule of Investments (Continued)****June 30, 2015****(in thousands, except shares)****(unaudited)**

- (21) The Company holds preferred equity in UniTek Global Services, Inc. that is entitled to receive cumulative preferential dividends at a rate of 13.5% per annum payable in additional shares.
- (22) The Company holds investments in Education Management Corporation and one related entity of Education Management Corporation. The Company holds series A-1 convertible preferred stock and common stock in Education Management Corporation and holds a tranche A first lien term loan and a tranche B first lien term loan in Education Management II LLC, which is an indirect subsidiary of Education Management Corporation.
- (23) Denotes investments in which the Company is an "Affiliated Person", as defined in the Investment Company Act of 1940, as amended, due to owning or holding the power to vote 5.0% or more of the outstanding voting securities of the investment but not controlling the company. Fair value as of December 31, 2014 and June 30, 2015 along with transactions during the six months ended June 30, 2015 in which the issuer was a non-controlled/affiliated investment is as follows:

Portfolio Company(1)	Fair Value at December 31, 2014	Gross Additions (cost)	Gross Redemptions (cost)	Net Realized Gains (Loss)	Net Change In Unrealized Appreciation (Depreciation)	Fair Value at June 30, 2015	Interest Income	Dividend Income	Other Income
Edmentum Ultimate Holdings, LLC/Edmentum Inc.	\$	\$ 23,148	\$	\$	\$ (367)	\$ 22,781	\$ 129	\$	\$
NMFC Senior Loan Program I LLC	22,461				539	23,000		1,809	597
Tenawa Resource Holdings LLC		43,264			556	43,820	2,097		25
Total Non-Controlled/Affiliated Investments	\$ 22,461	\$ 66,412	\$	\$	728	\$ 89,601	\$ 2,226	\$ 1,809	\$ 622

- (A) Gross additions include increases in the cost basis of investments resulting from new portfolio investments, payment-in-kind ("PIK") interest or dividends, the amortization of discounts, reorganizations or restructurings and the movement of an existing portfolio company into this category from a different category.
- (B) Gross reductions include decreases in the cost basis of investments resulting from principal collections related to investment repayments or sales, reorganizations or restructurings and the movement of an existing portfolio company out of this category into a different category.
- (24) Denotes investments in which the Company is in "Control", as defined in the Investment Company Act of 1940, as amended, due to owning or holding the power to vote 25.0% or more of the outstanding voting securities of the investment. Fair value as of December 31, 2014 and June 30, 2015 along with transactions during the six months ended June 30, 2015 in which the issuer was a controlled investment is as follows:

Portfolio Company(1)	Fair Value at December 31, 2014	Gross Additions (cost)(A)	Gross Redemptions (cost)(B)	Net Realized Gains (Losses)	Net Change		Fair Value at June 30, 2015	Interest Income	Dividend Income	Other Income
					In	Unrealized Appreciation (Depreciation)				
UniTek Global Services, Inc.	\$	\$ 41,272	\$ (835)	\$	\$ 6,734	\$ 47,171	\$ 970	\$ 1,191	\$ 23	
Total Controlled Investments	\$	\$ 41,272	\$ (835)	\$	\$ 6,734	\$ 47,171	\$ 970	\$ 1,191	\$ 23	

-
- (A) Gross additions include increases in the cost basis of investments resulting from new portfolio investments, PIK interest or dividends, the amortization of discounts, reorganizations or restructurings and the movement of an existing portfolio company into this category from a different category.

- (B) Gross reductions include decreases in the cost basis of investments resulting from principal collections related to investment repayments or sales, reorganizations or restructurings and the movement of an existing portfolio company out of this category into a different category.

* All or a portion of interest contains PIK interest.

** Indicates assets that the Company deems to be "non-qualifying assets" under Section 55(a) of the Investment Company Act of 1940, as amended. Qualifying assets must represent at least 70.00% of the Company's total assets at the time of acquisition of any additional non-qualifying assets. As of June 30, 2015, 8.1% of the Company's total assets were non-qualifying assets.

(1)

New Mountain Finance Corporation (the "Company") generally acquires its investments in private transactions exempt from registration under the Securities Act of 1933, as amended (the "Securities Act"). These investments are generally subject to certain limitations on resale, and may be deemed to be "restricted

securities" under the Securities Act.

(2)

Investment is pledged as collateral for the Holdings Credit Facility, a revolving credit facility among the Company as Collateral Manager, New Mountain Finance Holdings, L.L.C. ("NMF Holdings") as the Borrower, Wells Fargo Securities, LLC as the Administrative Agent, and Wells Fargo Bank, National Association, as the Lender and Collateral Custodian. See Note 7, *Borrowings*, for details.

(3)

Investment is pledged as collateral for the NMFC Credit Facility, a revolving credit facility among the Company as the Borrower and Goldman Sachs Bank USA as the Administrative Agent and the Collateral Agent and Goldman Sachs Bank USA and Morgan Stanley, N.A. as Lenders. See Note 7, *Borrowings*, for details.

(4)

Investment is held in New Mountain Finance SBIC, L.P.

(5)

Investment is held in NMF YP Holdings, Inc.

(6)

Investment is held in NMF Ancora Holdings, Inc.

(7)

Investment or a portion of the investment is on non-accrual status. See Note 3, *Investments*, for details.

(8)

The Company holds 1,014,451 warrants in UniTek Global Services, Inc., which represents a 4.41% equity ownership on a fully diluted basis.

(9)

Securities are registered under the Securities Act.

(10)

The Company holds investments in two related entities of YP Holdings LLC. The Company directly holds warrants to purchase a 4.96% membership interest of YP Equity Investors, LLC (which at closing represented an indirect 1.0% equity interest in YP Holdings LLC) and holds an investment in the Term Loan B loans issued by YP LLC, a subsidiary of YP Holdings LLC.

(11)

Par Value amounts represent the drawn or undrawn (as indicated in type of investment) portion of revolving credit facilities or delayed draws. Cost amounts represent the cash received at settlement date net the impact of paydowns and cash paid for drawn revolvers or delayed draws.

(12)

The Company holds investments in Packaging Coordinators, Inc. and one related entity of Packaging Coordinators, Inc. The Company has a debt investment in Packaging Coordinators, Inc. and holds ordinary equity in PCI Pharma Holdings UK Limited, a wholly-owned subsidiary of Packaging Coordinators, Inc.

(13)

The Company holds investments in ATI Acquisition Company and Ancora Acquisition LLC. The Company has debt investments in ATI Acquisition Company and preferred equity and warrants to purchase units of common membership interests of Ancora Acquisition LLC. The Company received its investments in Ancora Acquisition LLC as a result of its investments in ATI Acquisition Company.

- (14) The Company holds an investment in CompassLearning, Inc. that is structured as a first lien last out term loan.
- (15) The Company holds two first lien investments in Tolt Solutions, Inc. The debt investment with an interest rate at base rate + 6.00% is structured as a first lien first out debt investment. The debt investment with an interest rate at base rate + 11.00% is structured as a first lien last out debt investment.
- (16) The Company holds investments in two related entities of Tenawa Resource Holdings LLC. The Company holds 4.76% of the common units in QID NGL LLC (which at closing represented 98.1% of the ownership in the common units in Tenawa Resource Holdings LLC) and holds a first lien investment in Tenawa Resource Management LLC, a wholly-owned subsidiary of Tenawa Resource Holdings LLC.
- (17) The Company holds investments in two wholly-owned subsidiaries of Learning Care Group (US) Inc. The Company has a debt investment in Learning Care Group (US) No. 2 Inc. and holds warrants to purchase common stock of ASP LCG Holdings, Inc.
- (18) The Company holds investments in TWDiamondback Holdings Corp. and one related entity of TWDiamondback Holdings Corp. The Company holds preferred equity in TWDiamondback Holdings Corp. and holds a first lien last out term loan and a delayed draw term loan in Diamondback Drugs of Delaware LLC, a wholly-owned subsidiary of TWDiamondback Holdings Corp.

**Notes to the Consolidated Financial Statements of
New Mountain Finance Corporation**

June 30, 2015

(in thousands, except share data)

(unaudited)

Note 1. Formation and Business Purpose

New Mountain Finance Corporation ("NMFC" or the "Company") is a Delaware corporation that was originally incorporated on June 29, 2010. NMFC is a closed-end, non-diversified management investment company that has elected to be regulated as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act"). As such, NMFC is obligated to comply with certain regulatory requirements. NMFC has elected to be treated, and intends to comply with the requirements to continue to qualify annually, as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended, (the "Code"). NMFC is also registered as an investment adviser under the Investment Advisers Act of 1940, as amended (the "Advisers Act").

On May 19, 2011, NMFC priced its initial public offering (the "IPO") of 7,272,727 shares of common stock at a public offering price of \$13.75 per share. Concurrently with the closing of the IPO and at the public offering price of \$13.75 per share, NMFC sold an additional 2,172,000 shares of its common stock to certain executives and employees of, and other individuals affiliated with, New Mountain Capital (defined as New Mountain Capital Group, L.L.C. and its affiliates) in a concurrent private placement (the "Concurrent Private Placement"). Additionally, 1,252,964 shares were issued to the partners of New Mountain Guardian Partners, L.P. at that time for their ownership interest in the Predecessor Entities (as defined below). In connection with NMFC's IPO and through a series of transactions, New Mountain Finance Holdings, L.L.C. ("NMF Holdings" or the "Predecessor Operating Company") acquired all of the operations of the Predecessor Entities, including all of the assets and liabilities related to such operations.

NMF Holdings is a Delaware limited liability company. Until May 8, 2014, NMF Holdings was externally managed and was regulated as a BDC under the 1940 Act. As such, NMF Holdings was obligated to comply with certain regulatory requirements. NMF Holdings was treated as a partnership for United States ("U.S.") federal income tax purposes for so long as it had at least two members. With the completion of the underwritten secondary offering on February 3, 2014, NMF Holdings' existence as a partnership for U.S. federal income tax purposes terminated and NMF Holdings became an entity that is disregarded as a separate entity from its owner for U.S. federal tax purposes. For additional information on the Company's organizational structure prior to May 8, 2014, see " Restructuring".

Until May 8, 2014, NMF Holdings was externally managed by New Mountain Finance Advisers BDC, L.L.C. (the "Investment Adviser"). As of May 8, 2014, the Investment Adviser serves as the external investment adviser to NMFC. New Mountain Finance Administration, L.L.C. (the "Administrator") provides the administrative services necessary for operations. The Investment Adviser and Administrator are wholly-owned subsidiaries of New Mountain Capital. New Mountain Capital is a firm with a track record of investing in the middle market. New Mountain Capital focuses on investing in defensive growth companies across its private equity, public equity and credit investment vehicles. NMF Holdings, formerly known as New Mountain Guardian (Leveraged), L.L.C., was originally formed as a subsidiary of New Mountain Guardian AIV, L.P. ("Guardian AIV") by New Mountain Capital in October 2008. Guardian AIV was formed through an allocation of approximately \$300.0 million of the \$5.1 billion of commitments supporting New Mountain

Table of Contents

(in thousands, except share data)

(unaudited)

Note 1. Formation and Business Purpose (Continued)

Partners III, L.P., a private equity fund managed by New Mountain Capital. In February 2009, New Mountain Capital formed a co-investment vehicle, New Mountain Guardian Partners, L.P., comprising \$20.4 million of commitments. New Mountain Guardian (Leveraged), L.L.C. and New Mountain Guardian Partners, L.P., together with their respective direct and indirect wholly-owned subsidiaries, are defined as the "Predecessor Entities".

Prior to December 18, 2014, New Mountain Finance SPV Funding, L.L.C. ("NMF SLF") was a Delaware limited liability company. NMF SLF was a wholly-owned subsidiary of NMF Holdings and thus a wholly-owned indirect subsidiary of the Company. NMF SLF was bankruptcy-remote and non-recourse to NMFC. As part of an amendment to the Company's existing credit facilities with Wells Fargo Bank, National Association, NMF SLF merged with and into NMF Holdings on December 18, 2014. See Note 7, *Borrowings*, for details.

Until April 25, 2014, New Mountain Finance AIV Holdings Corporation ("AIV Holdings") was a Delaware corporation that was originally incorporated on March 11, 2011. AIV Holdings was dissolved on April 25, 2014. Guardian AIV, a Delaware limited partnership, was AIV Holdings' sole stockholder. AIV Holdings was a closed-end, non-diversified management investment company that was regulated as a BDC under the 1940 Act. As such, AIV Holdings was obligated to comply with certain regulatory requirements. AIV Holdings was treated, and complied with the requirements to qualify annually, as a RIC under the Code.

Prior to the Restructuring (as defined below) on May 8, 2014, NMFC and AIV Holdings were holding companies with no direct operations of their own, and their sole asset was their ownership in NMF Holdings. In connection with the IPO, NMFC and AIV Holdings each entered into a joinder agreement with respect to the Limited Liability Company Agreement, as amended and restated (the "Operating Agreement"), of NMF Holdings, pursuant to which NMFC and AIV Holdings were admitted as members of NMF Holdings. NMFC acquired from NMF Holdings, with the gross proceeds of the IPO and the Concurrent Private Placement, common membership units ("units") of NMF Holdings (the number of units were equal to the number of shares of NMFC's common stock sold in the IPO and the Concurrent Private Placement). Additionally, NMFC received units of NMF Holdings equal to the number of shares of common stock of NMFC issued to the partners of New Mountain Guardian Partners, L.P. Guardian AIV was the parent of NMF Holdings prior to the IPO and, as a result of the transactions completed in connection with the IPO, obtained units in NMF Holdings. Guardian AIV contributed its units in NMF Holdings to its newly formed subsidiary, AIV Holdings, in exchange for common stock of AIV Holdings. AIV Holdings had the right to exchange all or any portion of its units in NMF Holdings for shares of NMFC's common stock on a one-for-one basis at any time.

The original structure was designed to generally prevent NMFC from being allocated taxable income with respect to unrecognized gains that existed at the time of the IPO in the Predecessor Entities' assets, and rather such amounts would be allocated generally to AIV Holdings. The result was that any distributions made to NMFC's stockholders that were attributable to such gains generally were not treated as taxable dividends but rather as return of capital.

**Notes to the Consolidated Financial Statements of
New Mountain Finance Corporation (Continued)**

June 30, 2015

(in thousands, except share data)

(unaudited)

Note 1. Formation and Business Purpose (Continued)

Since NMFC's IPO, and through June 30, 2015, NMFC raised approximately \$374,625 in net proceeds from additional offerings of common stock and issued shares of its common stock valued at approximately \$288,416 on behalf of AIV Holdings for exchanged units. NMFC acquired from NMF Holdings units of NMF Holdings equal to the number of shares of NMFC's common stock sold in the additional offerings. With the completion of the final secondary offering on February 3, 2014, NMFC owned 100.0% of the units of NMF Holdings, which became a wholly-owned subsidiary of NMFC.

Restructuring

As a BDC, AIV Holdings had been subject to the 1940 Act, including certain provisions applicable only to BDCs. Accordingly, and after careful consideration of the 1940 Act requirements applicable to BDCs, the cost of 1940 Act compliance and a thorough assessment of AIV Holdings' business model, AIV Holdings' board of directors determined that continuation as a BDC was not in the best interests of AIV Holdings and Guardian AIV. Specifically, given that AIV Holdings was formed for the sole purpose of holding units of NMF Holdings and AIV Holdings had disposed of all of the units of NMF Holdings that it was holding as of February 3, 2014, the board of directors of AIV Holdings approved and declared advisable at an in-person meeting held on March 25, 2014 the withdrawal of AIV Holdings' election to be regulated as a BDC under the 1940 Act. In addition, the board of directors of AIV Holdings approved and declared advisable for AIV Holdings to terminate its registration under Section 12(g) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and to dissolve AIV Holdings under the laws of the State of Delaware.

Upon receipt of the necessary stockholder consent to authorize the board of directors of AIV Holdings to withdraw AIV Holdings' election to be regulated as a BDC, the withdrawal was filed and became effective upon receipt by the U.S. Securities and Exchange Commission ("SEC") of AIV Holdings' notification of withdrawal on Form N-54C on April 15, 2014. The board of directors of AIV Holdings believed that AIV Holdings met the requirements for filing the notification to withdraw its election to be regulated as a BDC, upon the receipt of the necessary stockholder consent. After the notification of withdrawal of AIV Holdings' BDC election was filed with the SEC, AIV Holdings was no longer subject to the regulatory provisions of the 1940 Act applicable to BDCs generally, including regulations related to insurance, custody, composition of its board of directors, affiliated transactions and any compensation arrangements.

In addition, on April 15, 2014, AIV Holdings filed a Form 15 with the SEC to terminate AIV Holdings' registration under Section 12(g) of the Exchange Act. After these SEC filings and any other federal or state regulatory or tax filings were made, AIV Holdings proceeded to dissolve under Delaware law by filing a certificate of dissolution in Delaware on April 25, 2014.

Until May 8, 2014, as a BDC, NMF Holdings had been subject to the 1940 Act, including certain provisions applicable only to BDCs. Accordingly, and after careful consideration of the 1940 Act requirements applicable to BDCs, the cost of 1940 Act compliance and a thorough assessment of NMF Holdings' current business model, NMF Holdings' board of directors determined at an

New Mountain Finance Corporation (Continued)**

June 30, 2015

(in thousands, except share data)

(unaudited)

Note 1. Formation and Business Purpose (Continued)

in-person meeting held on March 25, 2014 that continuation as a BDC was not in the best interests of NMF Holdings.

At the 2014 joint annual meeting of the stockholders of NMFC and the sole unit holder of NMF Holdings held on May 6, 2014, the stockholders of NMFC and the sole unit holder of NMF Holdings approved a proposal which authorized the board of directors of NMF Holdings to withdraw NMF Holdings' election to be regulated as a BDC. Additionally, the stockholders of NMFC approved a new investment advisory and management agreement between NMFC and the Investment Adviser. Upon receipt of the necessary stockholder/unit holder approval to authorize the board of directors of NMF Holdings to withdraw NMF Holdings' election to be regulated as a BDC, the withdrawal was filed and became effective upon receipt by the SEC of NMF Holdings' notification of withdrawal on Form N-54C on May 8, 2014.

Effective May 8, 2014, NMF Holdings amended and restated its Operating Agreement such that the board of directors of NMF Holdings was dissolved and NMF Holdings remained a wholly-owned subsidiary of NMFC with the sole purpose of serving as a special purpose vehicle for NMF Holdings' credit facility, and NMFC assumed all other operating activities previously undertaken by NMF Holdings under the management of the Investment Adviser (collectively, the "Restructuring"). After the Restructuring, all wholly-owned direct and indirect subsidiaries of NMFC are consolidated with NMFC for both 1940 Act and financial statement reporting purposes, subject to any financial statement adjustments required in accordance with accounting principles generally accepted in the United States of America ("GAAP"). NMFC continues to remain a BDC under the 1940 Act.

Also, on May 8, 2014, NMF Holdings filed Form 15 with the SEC to terminate NMF Holdings' registration under Section 12(g) of the Exchange Act. As a special purpose entity, NMF Holdings is bankruptcy-remote and non-recourse to NMFC. In addition, the assets held at NMF Holdings will continue to be used to secure NMF Holdings' credit facility.

Current Organization

During the six months ended June 30, 2015, the Company established a wholly-owned subsidiary, NMF QID NGL Holdings, Inc. ("NMF QID"). The Company's wholly-owned subsidiaries, NMF Ancora Holdings Inc. ("NMF Ancora"), NMF QID and NMF YP Holdings Inc. ("NMF YP"), are structured as Delaware entities that serve as tax blocker corporations which hold equity or equity-like investments in portfolio companies organized as limited liability companies (or other forms of pass-through entities). The Company consolidates its tax blocker corporations for accounting purposes. The tax blocker corporations are not consolidated for income tax purposes and may incur income tax expense as a result of their ownership of the portfolio companies. Additionally, the Company has a wholly-owned subsidiary, New Mountain Finance Servicing, L.L.C. ("NMF Servicing") that serves as the administrative agent on certain investment transactions. New Mountain Finance SBIC, L.P. ("SBIC LP"), and its general partner, New Mountain Finance SBIC G.P., L.L.C. ("SBIC GP"), were organized in Delaware as a limited partnership and limited liability company, respectively. SBIC LP and SBIC GP are consolidated wholly-owned direct and indirect

subsidiaries of the Company. SBIC LP received a license from the U.S. Small Business Association (the "SBA") to operate as a small business investment company ("SBIC") under Section 301(c) of the Small Business Investment Act of 1958, as amended (the "1958 Act").

The diagram below depicts the Company's organizational structure as of June 30, 2015.

*
Includes partners of New Mountain Guardian Partners, L.P.

**
NMFC is the sole limited partner of SBIC LP. NMFC, directly or indirectly through SBIC GP, wholly-owns SBIC LP. NMFC owns 100.0% of SBIC GP which owns 1.0% of SBIC LP. NMFC owns 99.0% of SBIC LP.

The Company's investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. In some cases, the Company's investments may also include equity interests. The primary focus is in the debt of defensive growth companies, which are defined as

Edgar Filing: New Mountain Finance Corp - Form 497

generally exhibiting the following characteristics: (i) sustainable secular growth drivers, (ii) high barriers to competitive entry, (iii) high free cash flow after capital expenditure and working capital needs, (iv) high returns on assets and (v) niche market dominance. Similar to the Company, SBIC LP's investment objective is to generate current income and capital

Note 1. Formation and Business Purpose (Continued)

appreciation under the investment criteria used by the Company, however, SBIC LP's investments must be SBA eligible companies. The Company's portfolio may be concentrated in a limited number of industries. As of June 30, 2015, the Company's top five industry concentrations were software, business services, education, federal services and distribution & logistics.

Note 2. Summary of Significant Accounting Policies

Basis of accounting The Company's consolidated financial statements have been prepared in conformity with GAAP. The Company is an investment company following accounting and reporting guidance in Accounting Standards Codification Topic 946, *Financial Services Investment Companies*, ("ASC 946"). NMFC consolidates its wholly-owned direct and indirect subsidiaries: NMF Holdings, NMF Servicing, SBIC LP, SBIC GP, NMF Ancora, NMF QID and NMF YP. Previously, the Company consolidated its wholly-owned indirect subsidiary NMF SLF until it merged with and into NMF Holdings on December 18, 2014. See Note 7, *Borrowings*, for details. Prior to the Restructuring, the Predecessor Operating Company consolidated its wholly-owned subsidiary, NMF SLF. NMFC and AIV Holdings did not consolidate the Predecessor Operating Company. Prior to the Restructuring, NMFC and AIV Holdings applied investment company master-feeder financial statement presentation, as described in ASC 946 to their interest in the Predecessor Operating Company. NMFC and AIV Holdings observed that it was also industry practice to follow the presentation prescribed for a master fund-feeder fund structure in ASC 946 in instances in which a master fund was owned by more than one feeder fund and that such presentation provided stockholders of NMFC and AIV Holdings with a clearer depiction of their investment in the master fund.

The Company's consolidated financial statements reflect all adjustments and reclassifications which, in the opinion of management, are necessary for the fair presentation of the results of operations and financial condition for all periods presented. All intercompany transactions have been eliminated. Revenues are recognized when earned and expenses when incurred. The financial results of the Company's portfolio investments are not consolidated in the financial statements. Prior to the IPO, an affiliate of the Predecessor Entities paid a majority of the management and incentive fees. Historical operating expenses do not reflect the allocation of certain professional fees, administrative and other expenses that have been incurred following the completion of the IPO. Accordingly, the Predecessor Operating Company's historical operating expenses are not comparable to its operating expenses after the completion of the IPO.

The Company's interim consolidated financial statements are prepared in accordance with GAAP and pursuant to the requirements for reporting on Form 10-Q and Article 6 or 10 of Regulation S-X. Accordingly, the Company's interim consolidated financial statements do not include all of the information and notes required by GAAP for annual financial statements. In the opinion of management, all adjustments, consisting solely of normal recurring accruals considered necessary for the fair presentation of financial statements for the interim period, have been included. The current period's results of operations will not necessarily be indicative of results that ultimately may be achieved for the fiscal year ending December 31, 2015.

(unaudited)

Note 2. Summary of Significant Accounting Policies (Continued)

Investments The Company applies fair value accounting in accordance with GAAP. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments are reflected on the Company's Consolidated Statements of Assets and Liabilities at fair value, with changes in unrealized gains and losses resulting from changes in fair value reflected in the Company's Consolidated Statements of Operations as "Net change in unrealized appreciation (depreciation) of investments" and realizations on portfolio investments reflected in the Company's Consolidated Statements of Operations as "Net realized gains (losses) on investments".

The Company values its assets on a quarterly basis, or more frequently if required under the 1940 Act. In all cases, the Company's board of directors is ultimately and solely responsible for determining the fair value of the portfolio investments on a quarterly basis in good faith, including investments that are not publicly traded, those whose market prices are not readily available and any other situation where its portfolio investments require a fair value determination. Security transactions are accounted for on a trade date basis. The Company's quarterly valuation procedures are set forth in more detail below:

- (1) Investments for which market quotations are readily available on an exchange are valued at such market quotations based on the closing price indicated from independent pricing services.
- (2) Investments for which indicative prices are obtained from various pricing services and/or brokers or dealers are valued through a multi-step valuation process, as described below, to determine whether the quote(s) obtained is representative of fair value in accordance with GAAP.
 - a. Bond quotes are obtained through independent pricing services. Internal reviews are performed by the investment professionals of the Investment Adviser to ensure that the quote obtained is representative of fair value in accordance with GAAP and if so, the quote is used. If the Investment Adviser is unable to sufficiently validate the quote(s) internally and if the investment's par value or its fair value exceeds the materiality threshold, the investment is valued similarly to those assets with no readily available quotes (see (3) below); and
 - b. For investments other than bonds, the Company looks at the number of quotes readily available and performs the following:
 - i. Investments for which two or more quotes are received from a pricing service are valued using the mean of the mean of the bid and ask of the quotes obtained.
 - ii. Investments for which one quote is received from a pricing service are validated internally. The investment professionals of the Investment Adviser analyze the market quotes obtained using an array of valuation methods (further described below) to validate the fair value. If the Investment Adviser is unable to sufficiently

Table of Contents

(in thousands, except share data)

(unaudited)

Note 2. Summary of Significant Accounting Policies (Continued)

validate the quote internally and if the investment's par value or its fair value exceeds the materiality threshold, the investment is valued similarly to those assets with no readily available quotes (see (3) below).

(3)

Investments for which quotations are not readily available through exchanges, pricing services, brokers, or dealers are valued through a multi-step valuation process:

- a. Each portfolio company or investment is initially valued by the investment professionals of the Investment Adviser responsible for the credit monitoring;
- b. Preliminary valuation conclusions will then be documented and discussed with the Company's senior management;
- c. If an investment falls into (3) above for four consecutive quarters and if the investment's par value or its fair value exceeds the materiality threshold, then at least once each fiscal year, the valuation for each portfolio investment for which the Company does not have a readily available market quotation will be reviewed by an independent valuation firm engaged by the Company's board of directors; and
- d. When deemed appropriate by the Company's management, an independent valuation firm may be engaged to review and value investment(s) of a portfolio company, without any preliminary valuation being performed by the Investment Adviser. The investment professionals of the Investment Adviser will review and validate the value provided.

For investments in revolving credit facilities and delayed draw commitments, the cost basis of the funded investments purchased is offset by any costs/netbacks received for any unfunded portion on the total balance committed. The fair value is also adjusted for the price appreciation or depreciation on the unfunded portion. As a result, the purchase of commitments not completely funded may result in a negative fair value until it is called and funded.

The values assigned to investments are based upon available information and do not necessarily represent amounts which might ultimately be realized, since such amounts depend on future circumstances and cannot be reasonably determined until the individual positions are liquidated. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may fluctuate from period to period and the fluctuations could be material.

Prior to the Restructuring, NMFC was a holding company with no direct operations of its own, and its sole asset was its ownership in the Predecessor Operating Company. Prior to the completion of the underwritten secondary public offering on February 3, 2014, AIV Holdings was a holding company with no direct operations of its own, and its sole asset was its ownership in the Predecessor Operating Company. NMFC's and AIV Holdings' investments in the Predecessor Operating Company were carried at fair value and represented the respective pro-rata interest in the net assets of the Predecessor Operating Company as of the applicable reporting date. NMFC and

Note 2. Summary of Significant Accounting Policies (Continued)

AIV Holdings valued their ownership interest on a quarterly basis, or more frequently if required under the 1940 Act.

See Note 3, *Investments*, for further discussion relating to investments.

Collateralized agreements or repurchase financings The Company follows the guidance in Accounting Standards Codification Topic 860, *Transfers and Servicing - Secured Borrowing and Collateral*, ("ASC 860") when accounting for transactions involving the purchases of securities under collateralized agreements to resell (resale agreements). These transactions are treated as collateralized financing transactions and are recorded at their contracted resale or repurchase amounts, as specified in the respective agreements. Interest on collateralized agreements is accrued and recognized over the life of the transaction and included in interest income. As of June 30, 2015 and December 31, 2014, the Company held one collateralized agreement to resell with a carrying value of \$30,000, collateralized by a second lien bond in Northstar GOM Holdings Group LLC with a fair value of \$30,000 and guaranteed by a private hedge fund with approximately \$800,000 of assets under management as of June 30, 2015. The private hedge fund has the option to repurchase the collateral from the Company at the par value of the collateralized agreement within a year. The collateralized agreement earned interest at a rate of 15.0% per annum as of June 30, 2015 and December 31, 2014.

Cash and cash equivalents Cash and cash equivalents include cash and short-term, highly liquid investments. The Company defines cash equivalents as securities that are readily convertible into known amounts of cash and so near maturity that there is insignificant risk of changes in value. These securities have original maturities of three months or less. The Company did not hold any cash equivalents as of June 30, 2015 and December 31, 2014.

Revenue recognition

The Company's revenue recognition policies are as follows:

Sales and paydowns of investments: Realized gains and losses on investments are determined on the specific identification method.

Interest and dividend income: Interest income, including amortization of premium and discount using the effective interest method, is recorded on the accrual basis and periodically assessed for collectability. Interest income also includes interest earned from cash on hand. Upon the prepayment of a loan or debt security, any prepayment penalties are recorded as part of interest income. The Company has loans and certain preferred equity investments in the portfolio that contain a payment-in-kind ("PIK") interest or dividend provision. PIK interest and dividends are accrued and recorded as income at the contractual rates, if deemed collectible. The PIK interest and dividends are added to the principal or share balances on the capitalization dates and are generally due at maturity or when redeemed by the issuer.

Table of Contents

**Notes to the Consolidated Financial Statements of
New Mountain Finance Corporation (Continued)**

June 30, 2015

(in thousands, except share data)

(unaudited)

Note 2. Summary of Significant Accounting Policies (Continued)

Dividend income on common equity is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies. Dividend income on preferred securities is recorded as dividend income on an accrual basis to the extent that such amounts are deemed collectible.

Non-accrual income: Investments are placed on non-accrual status when principal or interest payments are past due 30 days or more and when there is reasonable doubt that principal or interest will be collected. Accrued cash and un-capitalized PIK interest or dividends are reversed when an investment is placed on non-accrual status. Previously capitalized PIK interest or dividends are not reversed when an investment is placed on non-accrual status. Interest or dividend payments received on non-accrual investments may be recognized as income or applied to principal depending upon management's judgment of the ultimate outcome. Non-accrual investments are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current.

Other income: Other income represents delayed compensation, consent or amendment fees, revolver fees, structuring fees, management fees from a non-controlled/affiliated investment and other miscellaneous fees received and are typically non-recurring in nature. Delayed compensation is income earned from counterparties on trades that do not settle within a set number of business days after trade date. Other income may also include fees from bridge loans. The Company may from time to time enter into bridge financing commitments, an obligation to provide interim financing to a counterparty until permanent credit can be obtained. These commitments are short-term in nature and may expire unfunded. A fee is received by the Company for providing such commitments. Structuring fees are recognized as income when earned, usually when paid at the closing of the investment and are non-refundable.

Prior to the Restructuring, NMFC's revenue recognition policies were as follows:

Revenue, expenses, and capital gains (losses): At each quarterly valuation date, the Predecessor Operating Company's investment income, expenses, net realized gains (losses), and net increase (decrease) in unrealized appreciation (depreciation) were allocated to NMFC based on its pro-rata interest in the net assets of the Predecessor Operating Company. This was recorded on NMFC's Statements of Operations. Realized gains and losses were recorded upon sales of NMFC's investments in the Predecessor Operating Company. Net change in unrealized appreciation (depreciation) of investment in New Mountain Finance Holdings, L.L.C. was the difference between the net asset value per share and the closing price per share for shares issued as part of the dividend reinvestment plan on the dividend payment date. This net change in unrealized appreciation (depreciation) of investment in New Mountain Finance Holdings, L.L.C. included the unrealized appreciation (depreciation) from the IPO. NMFC used the proceeds from its IPO and Concurrent Private Placement to purchase units in the Predecessor Operating Company at \$13.75 per unit (its IPO price per share). At the IPO date, \$13.75 per unit represented a discount to the actual net asset value per unit of the Predecessor Operating Company. As a result, NMFC experienced immediate unrealized appreciation on its investment.

Table of Contents

**Notes to the Consolidated Financial Statements of
New Mountain Finance Corporation (Continued)**

June 30, 2015

(in thousands, except share data)

(unaudited)

Note 2. Summary of Significant Accounting Policies (Continued)

All expenses, including those of NMFC, were paid and recorded by the Predecessor Operating Company. Expenses were allocated to NMFC based on its pro-rata ownership interest. In addition, the Predecessor Operating Company paid all of the offering costs related to the IPO and subsequent offerings. NMFC recorded its portion of the offering costs as a direct reduction to net assets and the cost of its investment in the Predecessor Operating Company.

Interest and other financing expenses Interest and other financing fees are recorded on an accrual basis by the Company. See Note 7, *Borrowings*, for details.

Deferred financing costs The deferred financing costs of the Company consists of capitalized expenses related to the origination and amending of the Company's borrowings. The Company amortizes these costs into expense using the straight-line method over the stated life of the related borrowing. See Note 7, *Borrowings*, for details.

Income taxes The Company has elected to be treated, and intends to comply with the requirements to qualify annually, as a RIC under subchapter M of the Code. As a RIC, the Company is not subject to U.S. federal income tax on the portion of taxable income and gains timely distributed to its stockholders.

To continue to qualify as a RIC, the Company is required to meet certain income and asset diversification tests in addition to distributing at least 90.0% of its investment company taxable income, as defined by the Code. Since U.S. federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes.

Differences between taxable income and the results of operations for financial reporting purposes may be permanent or temporary in nature. Permanent differences are reclassified among capital accounts in the financial statements to reflect their tax character. Differences in classification may also result from the treatment of short-term gains as ordinary income for tax purposes.

For U.S. federal income tax purposes, distributions paid to stockholders of the Company are reported as ordinary income, return of capital, long term capital gains or a combination thereof.

The Company will be subject to a 4.0% nondeductible federal excise tax on certain undistributed income unless the Company distributes, in a timely manner as required by the Code, an amount at least equal to the sum of (1) 98.0% of its respective net ordinary income earned for the calendar year and (2) 98.2% of its respective capital gain net income for the one-year period ending October 31 in the calendar year.

Certain consolidated subsidiaries of the Company are subject to U.S. federal and state income taxes. These taxable entities are not consolidated for income tax purposes and may generate income tax liabilities or assets from permanent and temporary differences in the recognition of items for financial reporting and income tax purposes.

New Mountain Finance Corporation (Continued)**

June 30, 2015

(in thousands, except share data)

(unaudited)

Note 2. Summary of Significant Accounting Policies (Continued)

For the three and six months ended June 30, 2015, the Company recognized a total provision for income taxes of approximately \$288 and \$938, respectively, for the Company's consolidated subsidiaries. For the three and six months ended June 30, 2015, the Company recorded current income tax expense of approximately \$153 and \$302, respectively, and deferred income tax expense of approximately \$135 and \$636, respectively. For the three and six months ended June 30, 2014, the Company recognized a total provision for income taxes of approximately \$386 and \$386, respectively, for the Company's consolidated subsidiaries. For the three and six months ended June 30, 2014, the Company recorded deferred income tax expense of approximately \$386 and \$386, respectively. The Company did not record any current income tax expense for the three and six months ended June 30, 2014. As of June 30, 2015 and December 31, 2014, the Company had \$1,129 and \$493, respectively, of deferred tax liabilities primarily relating to deferred taxes attributable to certain differences between the computation of income for U.S. federal income tax purposes as compared to GAAP.

The Company has adopted the Income Taxes topic of the Accounting Standards Codification Topic 740 ("ASC 740"). ASC 740 provides guidance for income taxes, including how uncertain income tax positions should be recognized, measured, and disclosed in the financial statements. Based on its analysis, the Company has determined that there were no material uncertain income tax positions through December 31, 2014. The 2011, 2012, 2013 and 2014 tax years remain subject to examination by the U.S. federal, state, and local tax authorities.

Dividends Distributions to common stockholders of the Company are recorded on the record date as set by the board of directors. The Company intends to make distributions to its stockholders that will be sufficient to enable the Company to maintain its status as a RIC. The Company intends to distribute approximately all of its adjusted net investment income (see Note 5, *Agreements*) on a quarterly basis and substantially all of its taxable income on an annual basis, except that the Company may retain certain net capital gains for reinvestment.

The Company has adopted a dividend reinvestment plan that provides on behalf of its stockholders for reinvestment of any distributions declared, unless a stockholder elects to receive cash.

The Company applies the following in implementing the dividend reinvestment plan. If the price at which newly issued shares are to be credited to stockholders' accounts is greater than 110.0% of the last determined net asset value of the shares, the Company will use only newly issued shares to implement its dividend reinvestment plan. Under such circumstances, the number of shares to be issued to a stockholder is determined by dividing the total dollar amount of the distribution payable to such stockholder by the market price per share of the Company's common stock on the New York Stock Exchange ("NYSE") on the distribution payment date. Market price per share on that date will be the closing price for such shares on the NYSE or, if no sale is reported for such day, the average of their electronically reported bid and asked prices.

If the price at which newly issued shares are to be credited to stockholders' accounts is less than 110.0% of the last determined net asset value of the shares, the Company will either issue new

Table of Contents

(unaudited)

Note 2. Summary of Significant Accounting Policies (Continued)

shares or instruct the plan administrator to purchase shares in the open market to satisfy the additional shares required. Shares purchased in open market transactions by the plan administrator will be allocated to a stockholder based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market. The number of shares of the Company's common stock to be outstanding after giving effect to payment of the distribution cannot be established until the value per share at which additional shares will be issued has been determined and elections of the Company's stockholders have been tabulated.

Earnings per share The Company's earnings per share ("EPS") amounts have been computed based on the weighted-average number of shares of common stock outstanding for the period. Basic EPS is computed by dividing net increase (decrease) in net assets resulting from operations by the weighted average number of shares of common stock outstanding during the period of computation. Diluted EPS is computed by dividing net increase (decrease) in net assets resulting from operations by the weighted average number of shares of common stock assuming all potential shares had been issued, and its related net impact to net assets accounted for, and the additional shares of common stock were dilutive. Diluted EPS reflects the potential dilution, using the as-if-converted method for convertible debt, which could occur if all potentially dilutive securities were exercised.

Foreign securities The accounting records of the Company are maintained in U.S. dollars. Investment securities denominated in foreign currencies are translated into U.S. dollars based on the rate of exchange of such currencies on the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollars based on the rate of exchange of such currencies on the respective dates of the transactions. The Company does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with "Net change in unrealized appreciation (depreciation) of investments" and "Net realized gains (losses) on investments" in the Company's Consolidated Statements of Operations.

Investments denominated in foreign currencies may be negatively affected by movements in the rate of exchange between the U.S. dollar and such foreign currencies. This movement is beyond the control of the Company and cannot be predicted.

Use of estimates The preparation of the Company's consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Company's consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Changes in the economic environment, financial markets, and other metrics used in determining these estimates could cause actual results to differ from the estimates used, and the differences could be material.

Note 2. Summary of Significant Accounting Policies (Continued)

Dividend income recorded related to distributions received from flow-through investments is an accounting estimate based on the most recent estimate of the tax treatment of the distribution. During the six months ended June 30, 2015, the Company adjusted an accounting estimate related to the classification of dividend income for a distribution received from one of the Company's equity investments. Based on updated tax projections received during the quarter ended March 31, 2015, the Company decreased dividend income by \$99 and increased the realized gain by \$99 to agree to the tax treatment on the investment.

Note 3. Investments

At June 30, 2015, the Company's investments consisted of the following:

Investment Cost and Fair Value by Type

	Cost	Fair Value

During the first quarter of 2015, the Company placed a portion of its second lien position in Edmentum, Inc. ("Edmentum") on non-accrual status due to its ongoing restructuring. As of March 31, 2015, the Company's investment in Edmentum had an aggregate cost basis of \$30,771, an aggregate fair value of \$15,575 and total unearned interest income of \$438 for the three months then ended. In June 2015, Edmentum completed a restructuring which resulted in a material modification of the original terms and an extinguishment of the Company's original investment in Edmentum. Prior to the extinguishment in June 2015, the Company's original investment in Edmentum had an aggregate cost of \$31,636, an aggregate fair value of \$16,437 and total unearned interest income for the three and six months ended June 30, 2015 of \$413

and \$851,

(unaudited)

Note 3. Investments (Continued)

respectively. The extinguishment resulted in a realized loss of \$15,199. Post restructuring, the Company's investments in Edmentum have been restored to full accrual status. As of June 30, 2015, the Company's investments in Edmentum have an aggregate cost basis of \$23,148 and an aggregate fair value of \$22,781.

During the first quarter of 2015, the Company's first lien position in Education Management LLC ("EDMC") was non-income producing as a result of the portfolio company undergoing a restructuring. As of December 31, 2014, the Company's investment in EDMC had an aggregate cost basis of \$2,987, an aggregate fair value of \$1,376 and no unearned interest income for the three months then ended. In January 2015, EDMC completed a restructuring which resulted in a material modification of the original terms and an extinguishment of the Company's original investment in EDMC. Prior to the extinguishment in January 2015, the Company's original investment in EDMC had an aggregate cost of \$2,987, an aggregate fair value of \$1,376 and no unearned interest income for the period then ended. The extinguishment resulted in a realized loss of \$1,611. Post restructuring, the Company's investments in EDMC are income producing. As of June 30, 2015, the Company's investments in EDMC have an aggregate cost basis of \$1,397 and an aggregate fair value of \$1,237.

During the third quarter of 2014, the Company placed a portion of its first lien position in UniTek Global Services, Inc. ("UniTek") on non-accrual status in anticipation of a voluntary petition for a "Pre-Packaged" Chapter 11 Bankruptcy in the U.S. Bankruptcy Court for the District of Delaware, which was filed on November 3, 2014. As of December 31, 2014, the Company's investments in UniTek had an aggregate cost of \$47,357, an aggregate fair value of \$35,227 and total unearned interest income of \$975 for the year then ended. In January 2015, UniTek emerged from "Pre-Packaged" Chapter 11 Bankruptcy and completed its restructuring. The restructuring resulted in a material modification of the original terms and an extinguishment of the Company's original investments in UniTek. Prior to the extinguishment in January 2015, the Company's original investments in UniTek had an aggregate cost of \$52,902, an aggregate fair value of \$40,137 and total unearned interest income of \$68 for the period then ended. The extinguishment resulted in a realized loss of \$12,765. Post restructuring, the Company's investments in UniTek have been restored to full accrual status. As of June 30, 2015, the Company's investments in UniTek have an aggregate cost basis of \$40,437 and an aggregate fair value of \$47,171.

As of June 30, 2015, the Company's two super priority first lien positions in ATI Acquisition Company and its related preferred shares and warrants in Ancora Acquisition LLC remained on non-accrual status due to the inability of the portfolio company to service its interest payment for the quarter then ended and uncertainty about its ability to pay such amounts in the future. As of June 30, 2015, the Company's investment had an aggregate cost basis of \$1,611, an aggregate fair value of \$394 and total unearned interest income of \$85 and \$168, respectively, for the three and six months then ended. For the three and six months ended June 30, 2014, total unearned interest income was \$81 and \$161, respectively. As of December 31, 2014, the Company's investment had an aggregate cost basis of \$1,611 and an aggregate fair value of \$402. As of June 30, 2015 and

Note 3. Investments (Continued)

December 31, 2014, unrealized gains (losses) include a fee that the Company would receive upon maturity of the two super priority first lien debt investments.

As of June 30, 2015, the Company had unfunded commitments on revolving credit facilities and bridge facilities of \$7,983 and \$20,000, respectively. The Company had unfunded commitments in the form of delayed draws or other future funding commitments of \$8,525 as of June 30, 2015. As of June 30, 2015, the Company had commitment letters to purchase debt investments in the aggregate par amount of \$13,000. The unfunded commitments on revolving credit facilities and delayed draws are disclosed on the Company's Consolidated Schedule of Investments as of June 30, 2015.

As of December 31, 2014, the Company had unfunded commitments on revolving credit facilities and bridge facilities of \$8,948 and \$0, respectively. The Company had unfunded commitments in the form of delayed draws or other future funding commitments of \$18,475 as of December 31, 2014. As of December 31, 2014, the Company did not have any commitment letters to purchase debt investments. The unfunded commitments on revolving credit facilities and delayed draws are disclosed on the Company's Consolidated Schedule of Investments as of December 31, 2014.

NMFC Senior Loan Program I, LLC

NMFC Senior Loan Program I, LLC ("SLP I") was formed as a Delaware limited liability company on May 27, 2014 and commenced operations on June 10, 2014. SLP I is a portfolio company held by the Company. SLP I is structured as a private investment fund, in which all of the investors are qualified purchasers, as such term is defined under the 1940 Act. Transfer of interests in SLP I is subject to restrictions, and as a result, such interests are not readily marketable. SLP I operates under a limited liability company agreement (the "Agreement") and will continue in existence until June 10, 2019, subject to earlier termination pursuant to certain terms of the Agreement. The term may be extended for up to one year pursuant to certain terms of the Agreement. SLP I has a three year re-investment period.

SLP I is capitalized with \$93,000 of capital commitments, \$275,000 of debt from a revolving credit facility and is managed by the Company. The Company's capital commitment is \$23,000, representing less than 25.0% ownership, with third party investors representing the remaining capital commitment. As of June 30, 2015, SLP I had total investments with an aggregate fair value of approximately \$350,711, debt outstanding of \$256,126 and capital that had been called and funded of \$93,000. The Company's investment in SLP I is disclosed on the Company's Consolidated Schedule of Investments as of June 30, 2015.

The Company, as an investment adviser registered under the Advisers Act, acts as the collateral manager to SLP I and is entitled to receive a management fee for its investment management services provided to SLP I. As a result, SLP I is classified as an affiliate of the Company. For the three and six months ended June 30, 2015, the Company earned approximately \$296 and \$597, respectively, in management fees related to SLP I which is included in other

income. For the three and six months ended June 30, 2014, the Company earned approximately \$4 and \$4, respectively, in management fees related to SLP I which is included in other income. As of June 30, 2015 and December 31, 2014, approximately \$296 and \$468, respectively, of management fees related to SLP I was included in receivable from affiliates. For the three and six months ended June 30, 2015, the Company earned approximately \$951 and \$1,809, respectively, of dividend income related to SLP I, which is included in dividend income. The Company earned no dividend income related to SLP I during the three and six months ended June 30, 2014. As of June 30, 2015 and December 31, 2014, approximately \$951 and \$828, respectively, of dividend income related to SLP I was included in interest and dividend receivable.

SLP I invests in senior secured loans issued by companies within the Company's core industry verticals. These investments are typically broadly syndicated first lien loans.

UniTek Global Services, Inc.

UniTek Global Services, Inc. ("UniTek") is a full service provider of technical services to customers in the wireless telecommunications, public safety, satellite television and broadband cable industries in the U.S. and Canada. UniTek's customers are primarily satellite television, broadband cable and other telecommunications companies, their contractors, and municipalities and related agencies. UniTek's customers utilize its services to build and maintain their infrastructure and networks and to provide residential and commercial fulfillment services, which is critical to their ability to deliver voice, video and data services to end users.

UniTek is not considered a significant majority-owned unconsolidated subsidiary under Regulation S-X Rule 10-01(b)(1) for the six months ended June 30, 2015.

Investment risk factors First and second lien debt that the Company invests in is entirely, or almost entirely, rated below investment grade or may be unrated. Debt investments rated below investment grade are often referred to as "leveraged loans," "high yield" or "junk" debt investments, and may be considered "high risk" compared to debt investments that are rated investment grade. These debt investments are considered speculative because of the credit risk of the issuers. Such issuers are considered more likely than investment grade issuers to default on their payments of interest and principal and such risk of default could reduce the net asset value and income distributions of the Company. In addition, some of the Company's debt investments will not fully amortize during their lifetime, which could result in a loss or a substantial amount of unpaid principal and interest due upon maturity. First and second lien debt may also lose significant market value before a default occurs. Furthermore, an active trading market may not exist for these first and second lien debt investments. This illiquidity may make it more difficult to value the debt.

Subordinated debt is generally subject to similar risks as those associated with first and second lien debt, except that such debt is subordinated in payment and/or lower in lien priority. Subordinated debt is subject to the additional risk that the cash flow of the borrower and the property securing the debt, if any, may be insufficient to meet scheduled payments after giving effect to the senior secured and unsecured obligations of the borrower.

Note 3. Investments (Continued)

The Company may directly invest in the equity of private companies or in some cases, equity investments could be made in connection with a debt investment. Equity investments may or may not appreciate in value. As a result the Company may not be able to recognize realized gains upon disposition.

Note 4. Fair Value

Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"), establishes a fair value hierarchy that prioritizes and ranks the inputs to valuation techniques used in measuring investments at fair value. The hierarchy classifies the inputs used in measuring fair value into three levels as follows:

Level I Quoted prices (unadjusted) are available in active markets for identical investments and the Company has the ability to access such quotes as of the reporting date. The type of investments which would generally be included in Level I include active exchange-traded equity securities and exchange-traded derivatives. As required by ASC 820, the Company, to the extent that it holds such investments, does not adjust the quoted price for these investments, even in situations where the Company holds a large position and a sale could reasonably impact the quoted price.

Level II Pricing inputs are observable for the investments, either directly or indirectly, as of the reporting date, but are not the same as those used in Level I. Level II inputs include the following:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in non-active markets (examples include corporate and municipal bonds, which trade infrequently);

Pricing models whose inputs are observable for substantially the full term of the asset or liability (examples include most over-the-counter derivatives, including foreign exchange forward contracts); and

Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the asset or liability.

Level III Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment.

The inputs used to measure fair value may fall into different levels. In all instances when the inputs fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level of input that is significant to the fair value measurement in its entirety. As such, a Level III fair value measurement may include inputs that are both observable

Note 4. Fair Value (Continued)

(Levels I and II) and unobservable (Level III). Gains and losses for such assets categorized within the Level III table below may include changes in fair value that are attributable to both observable inputs (Levels II and III) and unobservable inputs (Level III).

The inputs into the determination of fair value require significant judgment or estimation by management and consideration of factors specific to each investment. A review of the fair value hierarchy classifications is conducted on a quarterly basis. Changes in the observability of valuation inputs may result in the transfer of certain investments within the fair value hierarchy from period to period. Reclassifications impacting the fair value hierarchy are reported as transfers in/out of the respective leveling categories as of the beginning of the quarter in which the reclassifications occur.

The following table summarizes the levels in the fair value hierarchy that the Company's portfolio investments fall into as of June 30, 2015:

	Total	Level I	Level II	Level III
First lien	\$ 578,748	\$	\$ 379,283	\$ 199,465
Second lien	536,409		468,542	67,867
Subordinated	92,516		37,224	55,292
Equity and other	101,199	281	235	100,683
Total investments	\$ 1,308,872	\$ 281	\$ 885,284	\$ 423,307

The following table summarizes the levels in the fair value hierarchy that the Company's portfolio investments fall into as of December 31, 2014:

	Total	Level I	Level II	Level III
First lien	\$ 677,901	\$	\$ 508,721	\$ 169,180
Second lien	604,158		469,752	134,406
Subordinated	61,987		26,517	35,470
Equity and other	80,625			80,625
Total investments	\$ 1,424,671	\$	\$ 1,004,990	\$ 419,681

Note 4. Fair Value (Continued)

The following table summarizes the changes in fair value of Level III portfolio investments for the six months ended June 30, 2014, as well as the portion of appreciation (depreciation) included in income attributable to unrealized appreciation (depreciation) related to those assets and liabilities still held by the Company at June 30, 2014:

	Total	First Lien	Second Lien	Subordinated	Equity and other
Fair value, December 31, 2013	\$ 153,720	\$ 28,411	\$ 55,538	\$ 5,171	\$ 64,600
Total gains or losses included in earnings:					
Net realized gains on investments	6,824	1,260		196	5,368
Net change in unrealized (depreciation) appreciation	(421)	(329)	645	(196)	(541)
Purchases, including capitalized PIK and revolver fundings	125,229	78,190	17,498	15,238	14,303
Proceeds from sales and paydowns of investments	(12,571)	(1,025)		(5,559)	(5,987)
Transfers into Level III(1)	39,480		39,480		
Fair value, June 30, 2014	\$ 312,261	\$ 106,507	\$ 113,161	\$ 14,850	\$ 77,743
Unrealized appreciation (depreciation) for the period relating to those Level III assets that were still held by the Company at the end of the period:	\$ 2,632	\$ 144	\$ 645	\$	\$ 1,843

(1)

As of June 30, 2014, the portfolio investments were transferred into Level III from Level II at fair value as of the beginning of the quarter in which the reclassifications occurred.

Except as noted in the tables above, there were no other transfers in or out of Level I, II, or III during the three and six months ended June 30, 2015 and June 30, 2014. Transfers into Level III occur as quotations obtained through pricing services are not deemed representative of fair value as of the balance sheet date and such assets are internally valued. As quotations obtained through pricing services are substantiated through additional market sources, investments are transferred out of Level III. The Company invests in revolving credit facilities. These investments are categorized as Level III investments as these assets are not actively traded and their fair values are often implied by the term loans of the respective portfolio companies.

Note 4. Fair Value (Continued)

The Company generally uses the following framework when determining the fair value of investments where there are little, if any, market activity or observable pricing inputs. The Company typically determines the fair value of its performing debt investments utilizing an income approach. Additional consideration is given using a market based approach, as well as reviewing the overall underlying portfolio company's performance and associated financial risks. The following outlines additional details on the approaches considered:

Company Performance, Financial Review, and Analysis: Prior to investment, as part of its due diligence process, the Company evaluates the overall performance and financial stability of the portfolio company. Post investment, the Company analyzes each portfolio company's current operating performance and relevant financial trends versus prior year and budgeted results, including, but not limited to, factors affecting its revenue and earnings before interest, taxes, depreciation, and amortization ("EBITDA") growth, margin trends, liquidity position, covenant compliance and changes to its capital structure. The Company also attempts to identify and subsequently track any developments at the portfolio company, within its customer or vendor base or within the industry or the macroeconomic environment, generally, that may alter any material element of its original investment thesis. This analysis is specific to each portfolio company. The Company leverages the knowledge gained from its original due diligence process, augmented by this subsequent monitoring, to continually refine its outlook for each of its portfolio companies and ultimately form the valuation of its investment in each portfolio company. When an external event such as a purchase transaction, public offering or subsequent sale occurs, the Company will consider the pricing indicated by the external event to corroborate the private valuation.

Market Based Approach: The Company may estimate the total enterprise value of each portfolio company by utilizing market value cash flow (EBITDA) multiples of publicly traded comparable companies. The Company considers numerous factors when selecting the appropriate companies whose trading multiples are used to value its portfolio companies. These factors include, but are not limited to, the type of organization, similarity to the business being valued, relevant risk factors, as well as size, profitability and growth expectations. The Company may apply an average of various relevant comparable company EBITDA multiples to the portfolio company's latest twelve month ("LTM") EBITDA or projected EBITDA to calculate portfolio company enterprise value. Significant increases or decreases in the multiple will result in an increase or decrease in enterprise value, resulting in an increase or decrease in the fair value estimate of the investment. In applying the market based approach as of June 30, 2015, the Company used the relevant EBITDA multiple ranges set forth in the table below to determine the enterprise value of investments in 17 of its portfolio companies. The Company believes this was a reasonable range in light of current comparable company trading levels and the specific companies involved.

Table of Contents

**Notes to the Consolidated Financial Statements of
New Mountain Finance Corporation (Continued)**

June 30, 2015

(in thousands, except share data)

(unaudited)

Note 4. Fair Value (Continued)

Income Based Approach: The Company also may use a discounted cash flow analysis to estimate the fair value of the investment. Projected cash flows represent the relevant security's contractual interest, fee and principal payments plus the assumption of full principal recovery at the investment's expected maturity date. These cash flows are discounted at a rate established utilizing a yield calibration approach, which incorporates changes in the credit quality (as measured by relevant statistics) of the portfolio company, as compared to changes in the yield associated with comparable credit quality market indices, between the date of origination and the valuation date. Significant increases or decreases in the discount rate would result in a decrease or increase in the fair value measurement. In applying the income based approach as of June 30, 2015, the Company used the discount ranges set forth in the table below to value investments in 18 of its portfolio companies.

Type	Fair Value	Approach	Unobservable Input	Range		Weighted Average
				Low	High	
First lien	\$ 199,465	Market approach	EBITDA multiple	5.0x	14.0x	9.0x
		Income approach	Discount rate	7.8%	14.4%	10.2%
Second lien	67,867	Market approach	EBITDA multiple	8.5x	13.5x	10.6x
		Income approach	Discount rate	11.0%	13.0%	11.7%
		Other	N/A(1)	N/A(1)	N/A(1)	N/A(1)
Subordinated	55,292	Market approach	EBITDA multiple	5.0x	12.5x	9.0x
		Income approach	Discount rate	8.5%	17.8%	14.5%
Equity and other	100,683	Market approach	EBITDA multiple	3.0x	12.0x	6.7x
		Income approach	Discount rate	8.0%	19.1%	13.7%
		Black Scholes analysis	Expected life in years	10.8	10.8	10.8
			Volatility	27.5%	27.5%	27.5%
			Discount rate	2.4%	2.4%	2.4%
	\$ 423,307					

(1)

Fair value was determined based on transaction pricing or recent acquisition or sale as the best measure of fair value with no material changes in operations of the related portfolio company since the transaction date.

Based on a comparison to similar BDC credit facilities, the terms and conditions of the Holdings Credit Facility and the NMFC Credit Facility (as defined in Note 7, *Borrowings*) are representative of market. The carrying values of the Holdings Credit Facility and NMFC Credit Facility approximate fair value as of June 30, 2015, as the facilities are continually monitored and examined by both the borrower and the lender. The carrying value of the SBA-guaranteed debentures approximate fair value as of June 30, 2015 based on a comparison of market interest rates for the Company's borrowings and similar entities. The fair value of the Holdings Credit Facility, NMFC Credit Facility and SBA-guaranteed debentures are considered Level III. The fair

Note 4. Fair Value (Continued)

value of the Convertible Notes (as defined in Note 7, *Borrowings*) as of June 30, 2015 was \$116,869, which was based on quoted prices and considered Level II. See Note 7, *Borrowings*, for details. The carrying value of the collateralized agreement approximates fair value as of June 30, 2015 and is considered Level III. The fair value of other financial assets and liabilities approximates their carrying value based on the short-term nature of these items.

Fair value risk factors The Company seeks investment opportunities that offer the possibility of attaining substantial capital appreciation. Certain events particular to each industry in which the Company's portfolio companies conduct their operations, as well as general economic and political conditions, may have a significant negative impact on the operations and profitability of the Company's investments and/or on the fair value of the Company's investments. The Company's investments are subject to the risk of non-payment of scheduled interest or principal, resulting in a reduction in income to the Company and their corresponding fair valuations. Also, there may be risk associated with the concentration of investments in one geographic region or in certain industries. These events are beyond the control of the Company and cannot be predicted. Furthermore, the ability to liquidate investments and realize value is subject to uncertainties.

Note 5. Agreements

NMF Holdings entered into an investment advisory and management agreement, as amended and restated with the Investment Adviser on May 19, 2011. Until May 8, 2014, under the investment advisory and management agreement, the Investment Adviser managed the day-to-day operations of, and provided investment advisory services to, NMF Holdings. For providing these services, the Investment Adviser received a fee from NMF Holdings, consisting of two components – a base management fee and an incentive fee.

On May 6, 2014, the stockholders of NMFC approved a new investment advisory and management agreement (the "Investment Management Agreement") with the Investment Adviser which became effective on May 8, 2014. Under the Investment Management Agreement, the Investment Adviser manages the day-to-day operations of, and provides investment advisory services to, the Company. For providing these services, the Investment Adviser receives a fee from the Company, consisting of two components – a base management fee and an incentive fee.

The base management fee is calculated at an annual rate of 1.75% of the Company's gross assets, which equals the Company's total assets on the Consolidated Statements of Assets and Liabilities, less (i) the borrowings under the SLF Credit Facility (as defined in Note 7, *Borrowings*) and (ii) cash and cash equivalents. The base management fee is payable quarterly in arrears, and is calculated based on the average value of the Company's gross assets, which equals the Company's total assets, as determined in accordance with GAAP, borrowings under the SLF Credit Facility, and cash and cash equivalents at the end of each of the two most recently completed calendar quarters, and appropriately adjusted on a pro rata basis for any equity capital raises or repurchases during the current calendar quarter. The Company has not invested, and currently is not invested, in derivatives. To the extent the Company invests in derivatives in the future, the

Table of Contents

New Mountain Finance Corporation (Continued)**

June 30, 2015

(in thousands, except share data)

(unaudited)

Note 5. Agreements (Continued)

Company will use the actual value of the derivatives, as reported on the Consolidated Statements of Assets and Liabilities, for purposes of calculating its base management fee.

Since IPO, the base management fee calculation has deducted the borrowings under the SLF Credit Facility. The SLF Credit Facility had historically consisted of primarily lower yielding assets at higher advance rates. As part of an amendment to the Company's existing credit facilities with Wells Fargo Bank, National Association, the SLF Credit Facility merged with the Predecessor Holdings Credit Facility and into the Holdings Credit Facility on December 18, 2014 (as defined in Note 7, *Borrowings*). Post credit facility merger and to be consistent with the methodology since IPO, the Investment Adviser will waive management fees on the leverage associated with those assets that share the same underlying yield characteristics with investments leveraged under the legacy SLF Credit Facility, which approximated \$251,508 as of June 30, 2015. The Investment Adviser cannot recoup management fees that the Investment Adviser has previously waived. For the three and six months ended June 30, 2015, management fees waived were approximately \$1,247 and \$2,629, respectively. The Investment Adviser did not waive any management fees during the three and six months ended June 30, 2014.

The incentive fee consists of two parts. The first part is calculated and payable quarterly in arrears and equals 20.0% of the Company's "Pre-Incentive Fee Adjusted Net Investment Income" for the immediately preceding quarter, subject to a "preferred return", or "hurdle", and a "catch-up" feature. "Pre-Incentive Fee Net Investment Income" means interest income, dividend income and any other income (including any other fees (other than fees for providing managerial assistance), such as commitment, origination, structuring, diligence and consulting fees or other fees that the Company receives from portfolio companies) accrued during the calendar quarter, minus the Company's operating expenses for the quarter (including the base management fee, expenses payable under an administration agreement, as amended and restated (the "Administration Agreement"), with the Administrator, and any interest expense and distributions paid on any issued and outstanding preferred stock (of which there are none as of June 30, 2015), but excluding the incentive fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero coupon securities), accrued income that the Company has not yet received in cash. Pre-Incentive Fee Net Investment Income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation.

Under GAAP, NMFC's IPO did not step-up the cost basis of the Predecessor Operating Company's existing investments to fair market value at the IPO date. Since the total value of the Predecessor Operating Company's investments at the time of the IPO was greater than the investments' cost basis, a larger amount of amortization of purchase or original issue discount, as well as different amounts in realized gain and unrealized appreciation, may be recognized under GAAP in each period than if the step-up had occurred. This will remain until such predecessor investments are sold, repaid or mature in the future. The Company tracks the transferred (or fair market) value of each of its investments as of the time of the IPO and, for purposes of the incentive fee calculation, adjusts Pre-Incentive Fee Net Investment Income to reflect the amortization of

Table of Contents

**Notes to the Consolidated Financial Statements of
New Mountain Finance Corporation (Continued)**

June 30, 2015

(in thousands, except share data)

(unaudited)

Note 5. Agreements (Continued)

purchase or original issue discount on the Company's investments as if each investment was purchased at the date of the IPO, or stepped up to fair market value. This is defined as "Pre-Incentive Fee Adjusted Net Investment Income". The Company also uses the transferred (or fair market) value of each of its investments as of the time of the IPO to adjust capital gains ("Adjusted Realized Capital Gains") or losses ("Adjusted Realized Capital Losses") and unrealized capital appreciation ("Adjusted Unrealized Capital Appreciation") and unrealized capital depreciation ("Adjusted Unrealized Capital Depreciation").

Pre-Incentive Fee Adjusted Net Investment Income, expressed as a rate of return on the value of the Company's net assets at the end of the immediately preceding calendar quarter, will be compared to a "hurdle rate" of 2.0% per quarter (8.0% annualized), subject to a "catch-up" provision measured as of the end of each calendar quarter. The hurdle rate is appropriately pro-rated for any partial periods. The calculation of the Company's incentive fee with respect to the Pre-Incentive Fee Adjusted Net Investment Income for each quarter is as follows:

No incentive fee is payable to the Investment Adviser in any calendar quarter in which the Company's Pre-Incentive Fee Adjusted Net Investment Income does not exceed the hurdle rate of 2.0% (the "preferred return" or "hurdle").

100.0% of the Company's Pre-Incentive Fee Adjusted Net Investment Income with respect to that portion of such Pre-Incentive Fee Adjusted Net Investment Income, if any, that exceeds the hurdle rate but is less than or equal to 2.5% in any calendar quarter (10.0% annualized) is payable to the Investment Adviser. This portion of the Company's Pre-Incentive Fee Adjusted Net Investment Income (which exceeds the hurdle rate but is less than or equal to 2.5%) is referred to as the "catch-up". The catch-up provision is intended to provide the Investment Adviser with an incentive fee of 20.0% on all of the Company's Pre-Incentive Fee Adjusted Net Investment Income as if a hurdle rate did not apply when the Company's Pre-Incentive Fee Adjusted Net Investment Income exceeds 2.5% in any calendar quarter.

20.0% of the amount of the Company's Pre-Incentive Fee Adjusted Net Investment Income, if any, that exceeds 2.5% in any calendar quarter (10.0% annualized) is payable to the Investment Adviser once the hurdle is reached and the catch-up is achieved.

The second part will be determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Management Agreement) and will equal 20.0% of the Company's Adjusted Realized Capital Gains, if any, on a cumulative basis from inception through the end of each calendar year, computed net of all Adjusted Realized Capital Losses and Adjusted Unrealized Capital Depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fee.

In accordance with GAAP, the Company accrues a hypothetical capital gains incentive fee based upon the cumulative net Adjusted Realized Capital Gains and Adjusted Realized Capital Losses and the cumulative net Adjusted Unrealized Capital Appreciation and Adjusted Unrealized Capital Depreciation on investments held at the end of each period. Actual amounts paid to the

Note 5. Agreements (Continued)

Investment Adviser are consistent with the Investment Management Agreement and are based only on actual Adjusted Realized Capital Gains computed net of all Adjusted Realized Capital Losses and Adjusted Unrealized Capital Depreciation on a cumulative basis from inception through the end of each calendar year as if the entire portfolio was sold at fair value.

The following table summarizes the management fees and incentive fees incurred by the Company for the three and six months ended June 30, 2015 and June 30, 2014.

	Three months ended		Six months ended	
	June 30, 2015	June 30, 2014	June 30, 2015	June 30, 2014
Management fee	\$ 6,198	\$ 2,742	\$ 12,666	\$ 2,742
Management fee allocated from NMF Holdings		1,879		5,983
Less: management fee waiver	(1,247)		(2,629)	
Total management fee	4,951	4,621	10,037	8,725
Incentive fee, excluding accrued capital gains incentive fees	\$ 5,057	\$ 2,747	\$ 9,935	\$ 2,747
Incentive fee, excluding accrued capital gains incentive fees allocated from NMF Holdings		1,882		6,248
Total incentive fee	5,057	4,629	9,935	8,995
Accrued capital gains incentive fees(1)	\$ 9	\$ 763	\$ 490	\$ 763
Accrued capital gains incentive fees allocated from NMF Holdings(1)		523		2,024
Total accrued capital gains incentive fees	9	1,286	490	2,787

(1)

As of June 30, 2015, no actual capital gains incentive fee was owed under the Investment Management Agreement by the Company, as cumulative net Adjusted Realized Capital Gains did not exceed cumulative Adjusted Unrealized Capital Depreciation. As of June 30, 2014, approximately \$1,971 of capital gains incentive fees was owed under the Investment Management Agreement by the Company, as cumulative net Adjusted Realized Capital Gains exceeded cumulative Adjusted Unrealized Capital Depreciation.

The Company's Consolidated Statements of Operations below are adjusted as if the step-up in cost basis to fair market value had occurred at the IPO date, May 19, 2011.

Note 5. Agreements (Continued)

- (3) Includes expense waivers and reimbursements of \$823.
- (4) For the six months ended June 30, 2014, the Company incurred total incentive fees of \$11,782, of which \$2,787 related to capital gains incentive fees on a hypothetical liquidation basis.

The Company has entered into an Administration Agreement with the Administrator under which the Administrator provides administrative services. The Administrator performs, or oversees the performance of, the Company's consolidated financial records, prepares reports filed with the SEC, generally monitors the payment of the Company's expenses and watches the performance of administrative and professional services rendered by others. The Company will reimburse the Administrator for the Company's allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations to the Company under the Administration Agreement. Pursuant to the Administration Agreement and further restricted by the Company, expenses payable to the Administrator by the Company as well as other direct and indirect expenses (excluding interest, other financing expenses, trading expenses and management and incentive fees) had been capped at \$4,250 for the time period from April 1, 2013 to March 31, 2014. The expense cap expired on March 31, 2014. Thereafter, the Administrator may, in its own discretion, submit to the Company for reimbursement some or all of the expenses that the Administrator has incurred on behalf of the Company during any quarterly period. As a result, the amount of expenses for which the Company will have to reimburse the Administrator may fluctuate in future quarterly periods and there can be no assurance given as to when, or if, the Administrator may determine to limit the expenses that the Administrator submits to the Company for reimbursement in the future. However, it is expected that the Administrator will continue to support part of the expense burden of the Company in the near future and may decide to not calculate and charge through certain overhead related amounts as well as continue to cover some of the indirect costs. The Administrator cannot recoup any expenses that the Administrator has previously waived. For the three and six months ended June 30, 2015, approximately \$324 and \$724, respectively, of indirect administrative expenses were included in administrative expenses of which \$0 and \$400, respectively, of indirect administrative expenses were waived by the Administrator. For the three and six months ended June 30, 2014, approximately \$357 and \$747, respectively, of indirect administrative expenses were included in administrative expenses of which \$58 and \$448, respectively, of indirect administrative expenses were waived by the Administrator. As of June 30, 2015 and December 31, 2014, approximately \$324 and \$326, respectively, of indirect administrative expenses were included in payable to affiliates as the expenses were payable to the Administrator.

	Three months ended		Six months ended	
	June 30, 2015	June 30, 2014	June 30, 2015	June 30, 2014
Administrative expenses	\$	\$ 58	\$ 400	\$ 58
Administrative expenses allocated from NMF Holdings				390
Professional fees				
Professional fees allocated from NMF Holdings				375
Other general and administrative expenses				
Other general and administrative expenses allocated from NMF Holdings				
Total expense reimbursement	\$	\$ 58	\$ 400	\$ 823

As of June 30, 2015 and June 30, 2014, no expense waivers and reimbursements were receivable from an affiliate.

The Company, the Investment Adviser and the Administrator have also entered into a Trademark License Agreement, as amended, with New Mountain Capital, pursuant to which New Mountain Capital has agreed to grant the Company, the Investment Adviser and the Administrator, a non-exclusive, royalty-free license to use the "New Mountain" and the "New Mountain Finance" names. Under the Trademark License Agreement, as amended, subject to certain conditions, the Company, the Investment Adviser and the Administrator will have a right to use the "New Mountain" and "New Mountain Finance" names, for so long as the Investment Adviser or one of its affiliates remains the investment adviser of the Company. Other than with respect to this limited license, the Company, the Investment Adviser and the Administrator will have no legal right to the "New Mountain" or the "New Mountain Finance" names.

NMFC entered into a Registration Rights Agreement with Steven B. Klinsky (the Chairman of the Company's board of directors), an entity related to Steven B. Klinsky and the Investment Adviser. Subject to several exceptions, the Investment Adviser has the right to require NMFC to register for public resale under the Securities Act of 1933, as amended (the "Securities Act of 1933"), all registerable securities that are held by any of them and that they request to be registered. Registerable securities subject to the Registration Rights Agreement are shares of NMFC's common stock issued and any other shares of NMFC's common stock held by the Investment Adviser and any of their transferees. The rights under the Registration Rights Agreement can be conditionally exercised by the Investment Adviser, meaning that prior to the effectiveness of the registration statement related to the shares, the Investment Adviser can withdraw its request to

(unaudited)

Note 5. Agreements (Continued)

have the shares registered. Investment Adviser may assign its rights to any person that acquires registerable securities subject to the Registration Rights Agreement and who agrees to be bound by the terms of the Registration Rights Agreement. Steven B. Klinsky and a related entity will have the right to "piggyback", or include their own registerable securities in such a registration. Shares held by Steven B. Klinsky were registered on a shelf registration statement on Form N-2.

The Investment Adviser may require NMFC to use its reasonable best efforts to register under the Securities Act of 1933 all or any portion of these registerable securities upon a "demand request". The demand registration rights are subject to certain limitations.

The Registration Rights Agreement includes limited blackout and suspension periods. In addition, the Investment Adviser may also require NMFC to file a shelf registration statement on Form N-2 for the resale of their registerable securities if NMFC is eligible to use Form N-2 at that time. Holders of registerable securities have "piggyback" registration rights, which means that these holders may include their respective shares in any future registrations of NMFC's equity securities, whether or not that registration relates to a primary offering by NMFC or a secondary offering by or on behalf of any of NMFC's stockholders. The Investment Adviser and Steven B. Klinsky (and a related entity) have priority over NMFC in any registration that is an underwritten offering.

The Investment Adviser and Steven B. Klinsky (and a related entity) will be responsible for the expenses of any demand registration (including underwriters' discounts or commissions) and their pro-rata share of any "piggyback" registration. NMFC has agreed to indemnify the Investment Adviser and Steven B. Klinsky (and a related entity) with respect to liabilities resulting from untrue statements or omissions in any registration statement filed pursuant to the Registration Rights Agreement, other than untrue statements or omissions resulting from information furnished to NMFC by such parties. The Investment Adviser and Steven B. Klinsky (and a related entity) have also agreed to indemnify NMFC with respect to liabilities resulting from untrue statements or omissions furnished by them to NMFC relating to them in any registration statement.

Note 6. Related Parties

The Company has entered into a number of business relationships with affiliated or related parties.

The Company has entered into the Investment Management Agreement with the Investment Adviser, a wholly-owned subsidiary of New Mountain Capital. Therefore, New Mountain Capital is entitled to any profits earned by the Investment Adviser, which includes any fees payable to the Investment Adviser under the terms of the Investment Management Agreement, less expenses incurred by the Investment Adviser in performing its services under the Investment Management Agreement.

The Company has entered into an Administration Agreement with the Administrator, a wholly-owned subsidiary of New Mountain Capital. The Administrator arranges office space for the Company and provides office equipment and administrative services necessary to conduct their

Note 6. Related Parties (Continued)

respective day-to-day operations pursuant to the Administration Agreement. The Company reimburses the Administrator for the allocable portion of overhead and other expenses incurred by it in performing its obligations to the Company under the Administration Agreement which includes the fees and expenses associated with performing administrative, finance and compliance functions, and the compensation of the Company's chief financial officer and chief compliance officer and their respective staffs. Pursuant to the Administration Agreement and further restricted by the Company, expenses payable to the Administrator by the Company as well as other direct and indirect expenses (excluding interest, other financing expenses, trading expenses and management and incentive fees) had been capped at \$4,250 for the time period from April 1, 2013 to March 31, 2014. The expense cap expired on March 31, 2014. Thereafter, the Administrator may, in its own discretion, submit to the Company for reimbursement some or all of the expenses that the Administrator has incurred on behalf of the Company during any quarterly period. As a result, the amount of expenses for which the Company will have to reimburse the Administrator may fluctuate in future quarterly periods and there can be no assurance given as to when, or if, the Administrator may determine to limit the expenses that the Administrator submits to the Company for reimbursement in the future. However, it is expected that the Administrator will continue to support part of the expense burden of the Company in the near future and may decide to not calculate and charge through certain overhead related amounts as well as continue to cover some of the indirect costs. The Administrator cannot recoup any expenses that the Administrator has previously waived. The Administrator cannot recoup any expenses that the Administrator has previously waived. For the three and six months ended June 30, 2015, approximately \$324 and \$724, respectively, of indirect administrative expenses were included in administrative expenses of which \$0 and \$400, respectively, of indirect administrative expenses were waived by the Administrator. For the three and six months ended June 30, 2014, approximately \$357 and \$747, respectively, of indirect administrative expenses were included in administrative expenses of which \$58 and \$448, respectively, of indirect administrative expenses were waived by the Administrator. As of June 30, 2015 and December 31, 2014, approximately \$324 and \$326, respectively, of indirect administrative expenses were included in payable to affiliates as the expenses were payable to the Administrator.

The Company, the Investment Adviser and the Administrator have entered into a royalty-free Trademark License Agreement, as amended, with New Mountain Capital, pursuant to which New Mountain Capital has agreed to grant the Company, the Investment Adviser and the Administrator, a non-exclusive, royalty-free license to use the name "New Mountain" and "New Mountain Finance".

The Company has adopted a formal code of ethics that governs the conduct of their respective officers and directors. These officers and directors also remain subject to the duties imposed by the 1940 Act, the Delaware General Corporation Law and the Delaware Limited Liability Company Act.

The Investment Adviser and its affiliates may also manage other funds in the future that may have investment mandates that are similar, in whole and in part, with the Company's investment mandates. The Investment Adviser and its affiliates may determine that an investment is appropriate for the Company or for one or more of those other funds. In such event, depending on the

Table of Contents

(in thousands, except share data)

(unaudited)

Note 6. Related Parties (Continued)

availability of such investment and other appropriate factors, the Investment Adviser or its affiliates may determine that the Company should invest side-by-side with one or more other funds. Any such investments will be made only to the extent permitted by applicable law and interpretive positions of the SEC and its staff and consistent with the Investment Adviser's allocation procedures.

Concurrently with the IPO, NMFC sold an additional 2,172,000 shares of its common stock to certain executives and employees of, and other individuals affiliated with, New Mountain Capital in the Concurrent Private Placement.

Note 7. Borrowings

Holdings Credit Facility On December 18, 2014 the Company entered into the Second Amended and Restated Loan and Security Agreement (the "Holdings Credit Facility"), among the Company, as the Collateral Manager, NMF Holdings as the Borrower, Wells Fargo Securities, LLC as the Administrative Agent and Wells Fargo Bank, National Association, as the Lender and Collateral Custodian, which is structured as a revolving credit facility and matures on December 18, 2019.

Immediately prior to amending the Holdings Credit Facility, NMF SPV merged with and into NMF Holdings. The Holdings Credit Facility effectively amended and restated the Predecessor Holdings Credit Facility (as defined below), merged with the SLF Credit Facility (as defined below), and combined the amount of borrowings previously available.

The maximum amount of revolving borrowings available under the Holdings Credit Facility is \$495,000, which is the aggregate of the \$280,000 previously available under the Predecessor Holdings Credit Facility (as defined below) and the \$215,000 previously available under the SLF Credit Facility (as defined below). Under the Holdings Credit Facility, NMF Holdings is permitted to borrow up to 25.0%, 45.0% or 70.0% of the purchase price of pledged assets, subject to approval by the Wells Fargo Securities, LLC. The Holdings Credit Facility is non-recourse to the Company and is collateralized by all of the investments of NMF Holdings on an investment by investment basis. All fees associated with the origination or upsizing of the Holdings Credit Facility are capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the Holdings Credit Facility. The Holdings Credit Facility contains certain customary affirmative and negative covenants and events of default. In addition, the Holdings Credit Facility requires the Company to maintain a minimum asset coverage ratio. The covenants are generally not tied to mark to market fluctuations in the prices of NMF Holdings investments, but rather to the performance of the underlying portfolio companies.

The Holdings Credit Facility bears interest at a rate of the London Interbank Offered Rate ("LIBOR") plus 2.00% per annum for Broadly Syndicated Loans (as defined in the Loan and Security Agreement) and LIBOR plus 2.75% per annum for all other investments. The Holdings Credit Facility also charges a non-usage fee, based on the unused facility amount multiplied by the Non-Usage Fee Rate (as defined in the Loan and Security Agreement).

Note 7. Borrowings (Continued)

Prior to December 18, 2014, the Loan and Security Agreement, as amended and restated, dated May 19, 2011 (the "Predecessor Holdings Credit Facility") among NMF Holdings as the Borrower and Collateral Administrator, Wells Fargo Securities, LLC as the Administrative Agent, and Wells Fargo Bank, National Association, as the Collateral Custodian, was structured as a revolving credit facility and would mature on October 27, 2016. NMF Holdings became a party to the Predecessor Holdings Credit Facility upon the IPO of NMFC. The Predecessor Holdings Credit Facility amended and restated the credit facility of the Predecessor Entities (the "Predecessor Credit Facility").

The maximum amount of revolving borrowings available under the Predecessor Holdings Credit Facility was \$280,000. Until December 18, 2014, NMF Holdings was permitted to borrow up to 45.0% or 25.0% of the purchase price of pledged first lien or non-first lien debt securities, and up to 70.0% and 45.0% of the purchase price of specified first lien debt securities and specified non-first lien debt securities, respectively, subject to approval by Wells Fargo Bank, National Association. The Predecessor Holdings Credit Facility was amended and restated on May 6, 2014 and as a result, it was non-recourse to the Company and was collateralized by all of the investments of NMF Holdings on an investment by investment basis. All fees associated with the origination or upsizing of the Predecessor Holdings Credit Facility were capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the Predecessor Holdings Credit Facility. The Predecessor Holdings Credit Facility contained certain customary affirmative and negative covenants and events of default, including the occurrence of a change in control. In addition, the Predecessor Holdings Credit Facility required the Company to maintain a minimum asset coverage ratio. However, the covenants were generally not tied to mark to market fluctuations in the prices of NMF Holdings' investments, but rather to the performance of the underlying portfolio companies.

The Predecessor Holdings Credit Facility bore interest at a rate of LIBOR plus 2.75% per annum and charged a non-usage fee, based on the unused facility amount multiplied by the Non-Usage Fee Rate (as defined in the Loan and Security Agreement).

The following table summarizes the interest expense, non-usage fees and amortization of financing costs incurred on the Holdings Credit Facility for the three and six months ended June 30,

Note 7. Borrowings (Continued)

2015 and the Predecessor Holdings Credit Facility for the three and six months ended June 30, 2014.

	Three months ended		Six months ended	
	June 30, 2015	June 30, 2014	June 30, 2015	June 30, 2014
Interest expense	\$ 2,458	\$ 1,648	\$ 5,351	\$ 3,340
Non-usage fee	\$ 151	\$ 92	\$ 207	\$ 151
Amortization of financing costs	\$ 402	\$ 219	\$ 799	\$ 421
Weighted average interest rate	2.6%	2.9%	2.6%	2.9%
Effective interest rate	3.2%	3.5%	3.1%	3.4%
Average debt outstanding	\$ 374,180	\$ 224,660	\$ 411,631	\$ 228,728

As of June 30, 2015 and December 31, 2014, the outstanding balance on the Holdings Credit Facility was \$359,858 and \$468,108, respectively, and NMF Holdings was in compliance with the applicable covenants in the Holdings Credit Facility on such dates.

SLF Credit Facility NMF SLF's Loan and Security Agreement, as amended and restated, dated October 27, 2010 (the "SLF Credit Facility") among NMF SLF as the Borrower, NMF Holdings as the Collateral Administrator, Wells Fargo Securities, LLC as the Administrative Agent, and Wells Fargo Bank, National Association, as the Collateral Custodian, was structured as a revolving credit facility and was set to mature on October 27, 2016. The maximum amount of revolving borrowings available under the SLF Credit Facility was \$215,000. The SLF Credit Facility was non-recourse to the Company and secured by all assets of NMF SLF on an investment by investment basis. All fees associated with the origination or upsizing of the SLF Credit Facility were capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the SLF Credit Facility. The SLF Credit Facility contained certain customary affirmative and negative covenants and events of default, including the occurrence of a change in control. The covenants were generally not tied to mark to market fluctuations in the prices of NMF SLF's investments, but rather to the performance of the underlying portfolio companies. NMF SLF was not restricted from the purchase or sale of loans with an affiliate. Therefore, specified loans could be moved as collateral between the Holdings Credit Facility and the SLF Credit Facility. The SLF Credit Facility merged with the Holdings Credit Facility on December 18, 2014.

Until December 18, 2014, the SLF Credit Facility permitted borrowings of up to 70.0% of the purchase price of pledged first lien debt securities and up to 25.0% of the purchase price of specified second lien loans, of which, up to 25.0% of the aggregate outstanding loan balance of all pledged debt securities in the SLF Credit Facility was allowed to be derived from second lien loans, subject to approval by Wells Fargo Bank, National Association.

The SLF Credit Facility bore interest at a rate of LIBOR plus 2.00% per annum for first lien loans and LIBOR plus 2.75% per annum for second lien loans, respectively. A non-usage fee was

Note 7. Borrowings (Continued)

paid, based on the unused facility amount multiplied by the Non-Usage Fee Rate (as defined in the Loan and Security Agreement).

The following table summarizes the interest expense, non-usage fees and amortization of financing costs incurred on the SLF Credit Facility for the three and six months ended June 30, 2015 and June 30, 2014.

	Three months ended		Six months ended	
	June 30, 2015(1)	June 30, 2014	June 30, 2015(1)	June 30, 2014
Interest expense	\$	\$ 1,212	\$	\$ 2,413
Non-usage fee	\$	\$	(2)\$	\$ (2)
Amortization of financing costs	\$	\$ 219	\$	\$ 434
Weighted average interest rate		% 2.2%		% 2.2%
Effective interest rate		% 2.7%		% 2.7%
Average debt outstanding	\$	\$ 215,000	\$	\$ 214,996

(1) Not applicable, as the SLF Credit Facility merged with and into the Holdings Credit Facility on December 18, 2014.

(2) For the three and six months ended June 30, 2014, the total non-usage fee was less than \$1.

As of December 31, 2014, the SLF Credit Facility had merged with the Holdings Credit Facility.

NMFC Credit Facility The Senior Secured Revolving Credit Agreement, as amended, dated June 4, 2014 (together with the related guarantee and security agreement, the "NMFC Credit Facility"), among the Company as the Borrower and Goldman Sachs Bank USA as the Administrative Agent and Collateral Agent, and Goldman Sachs Bank USA, Morgan Stanley, N.A. and Stifel Bank & Trust as Lenders, is structured as a senior secured revolving credit facility and matures on June 4, 2019. The NMFC Credit Facility is guaranteed by certain domestic subsidiaries of the Company and proceeds from the NMFC Credit Facility may be used for general corporate purposes, including the funding of portfolio investments.

The maximum amount of revolving borrowings available under the NMFC Credit Facility is \$95,000, as amended on June 26, 2015. The Company is permitted to borrow at various advance rates depending on the type of portfolio investment as outlined in the Senior Secured Revolving Credit Agreement. All fees associated with the origination of the NMFC Credit Facility are capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the NMFC Credit Facility. The NMFC Credit Facility contains certain customary affirmative and negative covenants and events of default, including certain financial covenants related to asset coverage and liquidity and other maintenance covenants.

(in thousands, except share data)

(unaudited)

Note 7. Borrowings (Continued)

The NMFC Credit Facility generally bears interest at a rate of LIBOR plus 2.50% per annum or the prime rate plus 1.50% per annum, and charges a commitment fee, based on the unused facility amount multiplied by 0.375% (as defined in the Senior Secured Revolving Credit Agreement).

The following table summarizes the interest expense, non-usage fees and amortization of financing costs incurred on the NMFC Credit Facility for the three and six months ended June 30, 2015 and June 30, 2014.

	Three months ended		Six months ended	
	June 30, 2015	June 30, 2014	June 30, 2015	June 30, 2014
Interest expense	\$ 454	\$	\$ 666	\$
Non-usage fee	\$ 13	\$ 14	\$ 59	\$ 14
Amortization of financing costs	\$ 121	\$ 15	\$ 182	\$ 15
Weighted average interest rate	2.7%	%	2.7%	%
Effective interest rate	3.5%	%	3.7%	%
Average debt outstanding	\$ 67,108	\$	\$ 49,507	\$

As of June 30, 2015 and December 31, 2014, the outstanding balance on the NMFC Credit Facility was \$38,000 and \$50,000, respectively, and NMFC was in compliance with the applicable covenants in the NMFC Credit Facility on such dates.

Convertible Notes On June 3, 2014, the Company closed a private offering of \$115,000 aggregate principal amount of senior unsecured convertible notes (the "Convertible Notes"), pursuant to an indenture, dated June 3, 2014 (the "Indenture"). The Convertible Notes were issued in a private placement only to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. As of the first anniversary, June 3, 2015, of the Convertible Notes, the restrictions under Rule 144A under the Securities Act of 1933 were removed, allowing the Convertible Notes to be eligible and freely tradable without restrictions for resale pursuant to Rule 144(b)(1) under the Securities Act of 1933. The Convertible Notes bear interest at an annual rate of 5.0%, payable semi-annually in arrears on June 15 and December 15 of each year, which commenced on December 15, 2014. The Convertible Notes will mature on June 15, 2019 unless earlier converted or repurchased at the holder's option.

(unaudited)

Note 7. Borrowings (Continued)

The following table summarizes certain key terms related to the convertible features of the Company's Convertible Notes as of June 30, 2015.

	June 30, 2015
Initial conversion premium	12.5%
Initial conversion rate(1)	62.7746
Initial conversion price	\$ 15.93
Conversion premium at June 30, 2015	11.7%
Conversion rate at June 30, 2015(1)(2)	63.2794
Conversion price at June 30, 2015(2)(3)	\$ 15.80
Last conversion price calculation date	June 3, 2015

- (1) Conversion rates denominated in shares of common stock per \$1 principal amount of the Convertible Notes converted.
- (2) Represents conversion rate and conversion price, as applicable, taking into account certain de minimis adjustments that will be made on the conversion date.
- (3) The conversion price in effect at June 30, 2015 was calculated on the last anniversary of the issuance and will be adjusted again on the next anniversary, unless the exercise price shall have changed by more than 1.0% before the anniversary.

The conversion rate will be subject to adjustment upon certain events, such as stock splits and combinations, mergers, spin-offs, increases in dividends in excess of \$0.34 per share per quarter and certain changes in control. Certain of these adjustments, including adjustments for increases in dividends, are subject to a conversion price floor of \$14.16 per share. In no event will the total number of shares of common stock issuable upon conversion exceed 70.6214 per \$1 principal amount of the Convertible Notes. The Company has determined that the embedded conversion option in the Convertible Notes is not required to be separately accounted for as a derivative under GAAP.

The Convertible Notes are senior unsecured obligations and rank senior in right of payment to the Company's existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to the Company's existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of the Company's secured indebtedness (including existing unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by the Company's subsidiaries and financing vehicles. As more reflected in Note 11, *Earnings Per Share*, the issuance is considered part of the if-converted method for calculation of diluted earnings per share.

The Company may not redeem the Convertible Notes prior to maturity. No sinking fund is provided for the Convertible Notes. In addition, if certain corporate events occur in respect of the Company, holders of the Convertible Notes may require the Company to repurchase for cash all or

Note 7. Borrowings (Continued)

part of their Convertible Notes at a repurchase price equal to 100.0% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the repurchase date.

The Indenture contains certain covenants, including covenants requiring the Company to provide financial information to the holders of the Convertible Note and the Trustee if the Company ceases to be subject to the reporting requirements of the Exchange Act. These covenants are subject to limitations and exceptions that are described in the Indenture.

The following table summarizes the interest expense and amortization of financing costs incurred on the Convertible Notes for the three and six months ended June 30, 2015 and June 30, 2014.

	Three months ended		Six months ended	
	June 30, 2015	June 30, 2014	June 30, 2015	June 30, 2014
Interest expense	\$ 1,437	\$ 447	\$ 2,875	\$ 447
Amortization of financing costs	\$ 186	\$ 57	\$ 369	\$ 57
Effective interest rate	5.7%	5.7%	5.7%	5.7%

As of June 30, 2015 and December 31, 2014, the outstanding balance on the Convertible Notes was \$115,000 and \$115,000, respectively, and NMFC was in compliance with the terms of the Indenture.

SBA-guaranteed debentures On August 1, 2014, SBIC LP received an SBIC license from the SBA.

The SBIC license allows SBIC LP to obtain leverage by issuing SBA-guaranteed debentures, subject to the issuance of a capital commitment by the SBA and other customary procedures. SBA-guaranteed debentures are non-recourse to the Company, interest only debentures with interest payable semi-annually and have a ten year maturity. The principal amount of SBA-guaranteed debentures is not required to be paid prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA-guaranteed debentures is fixed on a semi-annual basis at a market-driven spread over U.S. Treasury Notes with ten year maturities. The SBA, as a creditor, will have a superior claim to the assets of SBIC LP over the Company's stockholders in the event SBIC LP is liquidated or the SBA exercises remedies upon an event of default.

The maximum amount of borrowings available under current SBA regulations is \$150,000 as long as the licensee has at least \$75,000 in regulatory capital, receives a capital commitment from the SBA and has been through an examination by the SBA subsequent to licensing.

As of June 30, 2015 and December 31, 2014, SBIC LP had regulatory capital of \$55,398 and \$42,168, respectively, and SBA-guaranteed debentures outstanding of \$55,000 and \$37,500, respectively. The SBA-guaranteed debentures incur upfront fees of 3.425%, which consists of a

Table of Contents

New Mountain Finance Corporation (Continued)**

June 30, 2015

(in thousands, except share data)

(unaudited)

Note 7. Borrowings (Continued)

1.00% commitment fee and a 2.425% issuance discount, which are amortized over the life of the SBA-guaranteed debentures. The following table summarizes the Company's SBA-guaranteed debentures as of June 30, 2015.

Issuance Date	Maturity Date	Debenture Amount	Interest Rate	SBA Annual Charge
Fixed SBA-guaranteed debentures				
March 25, 2015	March 1, 2025	\$ 37,500	2.517%	0.355%
Interim SBA-guaranteed debentures				
	September 2025(1)	17,500	0.639%	0.355%
Total SBA-guaranteed debentures		\$ 55,000		

(1) Estimated maturity date as interim SBA-guaranteed debentures are expected to pool in September 2015.

Prior to pooling, the SBA-guaranteed debentures bear interest at an interim floating rate of LIBOR plus 0.30%. Once pooled, which occurs in March and September each year, the SBA-guaranteed debentures bear interest at a fixed rate that is set to the current 10-year treasury rate plus a spread at each pooling date.

The following table summarizes the interest expense and amortization of financing costs incurred on the SBA-guaranteed debentures for the three and six months ended June 30, 2015 and June 30, 2014.

	Three months ended		Six months ended	
	June 30, 2015	June 30, 2014(1)	June 30, 2015	June 30, 2014(1)
Interest expense	\$ 293	\$	\$ 393	\$
Amortization of financing costs	\$ 39	\$	\$ 70	\$
Weighted average interest rate	2.5%	%	1.9%	%
Effective interest rate	2.8%	%	2.2%	%
Average debt outstanding	\$ 47,115	\$	\$ 42,334	\$

(1) Not applicable, as SBIC LP did not have any outstanding SBA-guaranteed debentures for the three and six months ended June 30, 2014.

The SBIC program is designed to stimulate the flow of private investor capital into eligible small businesses, as defined by the SBA. Under SBA regulations, SBIC LP is subject to regulatory requirements, including making investments in SBA-eligible businesses, investing at least 25.0% of its investment capital in eligible smaller businesses, as defined under the 1958 Act, placing certain limitations on the financing terms of investments, regulating the types of financing, prohibiting

(unaudited)

Note 7. Borrowings (Continued)

investments in small businesses with certain characteristics or in certain industries and requiring capitalization thresholds that limit distributions to the Company. SBIC LP is subject to an annual periodic examination by an SBA examiner to determine SBIC LP's compliance with the relevant SBA regulations and an annual financial audit of its financial statements that are prepared on a basis of accounting other than GAAP (such as ASC 820) by an independent auditor. As of June 30, 2015, SBIC LP was in compliance with SBA regulatory requirements.

Leverage risk factors The Company utilizes and may utilize leverage to the maximum extent permitted by the law for investment and other general business purposes. The Company's lenders will have fixed dollar claims on certain assets that are superior to the claims of the Company's common stockholders, and the Company would expect such lenders to seek recovery against these assets in the event of a default. The use of leverage also magnifies the potential for gain or loss on amounts invested. Leverage may magnify interest rate risk (particularly on the Company's fixed-rate investments), which is the risk that the prices of portfolio investments will fall or rise if market interest rates for those types of securities rise or fall. As a result, leverage may cause greater changes in the Company's net asset value. Similarly, leverage may cause a sharper decline in the Company's income than if the Company had not borrowed. Such a decline could negatively affect the Company's ability to make dividend payments to its stockholders. Leverage is generally considered a speculative investment technique. The Company's ability to service any debt incurred will depend largely on financial performance and will be subject to prevailing economic conditions and competitive pressures.

Note 8. Regulation

The Company has elected to be treated, and intends to comply with the requirements to continue to qualify annually, as a RIC under Subchapter M of the Code. In order to continue to qualify as a RIC, among other things, the Company is required to timely distribute to its stockholders at least 90.0% of investment company taxable income, as defined by the Code, for each year. The Company, among other things, intends to make and will continue to make the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal, state, and local income taxes (excluding excise taxes which may be imposed under the Code).

Additionally as a BDC, the Company must not acquire any assets other than "qualifying assets" specified in the 1940 Act unless, at the time the acquisition is made, at least 70.0% of its total assets are qualifying assets (with certain limited exceptions).

Note 9. Commitments and Contingencies

In the normal course of business, the Company may enter into contracts that contain a variety of representations and warranties and which provide general indemnifications. The Company may also enter into future funding commitments such as revolving credit facilities, bridge financing commitments or delayed draw commitments. As of June 30, 2015, the Company had unfunded

Table of Contents

(in thousands, except share data)

(unaudited)

Note 9. Commitments and Contingencies (Continued)

commitments on revolving credit facilities of \$7,983, outstanding bridge financing commitments of \$20,000 and other future funding commitments of \$8,525. The unfunded commitments on revolving credit facilities and delayed draws are disclosed on the Company's Consolidated Schedule of Investments. As of December 31, 2014, the Company had unfunded commitments on revolving credit facilities of \$8,948, no outstanding bridge financing commitments and other future funding commitments of \$18,475. The unfunded commitments on revolving credit facilities and delayed draws are disclosed on the Company's Consolidated Schedule of Investments.

The Company also has revolving borrowings available under the Holdings Credit Facility and the NMFC Credit Facility as of June 30, 2015. See Note 7, *Borrowings*, for details.

The Company may from time to time enter into financing commitment letters. As of June 30, 2015 and December 31, 2014, the Company had commitment letters to purchase debt investments in an aggregate par amount of \$13,000 and \$0, respectively, which could require funding in the future.

Note 10. Net Assets

The table below illustrates the effect of certain transactions on the net asset accounts of the Company:

	Common Stock		Paid in Undistributed Capital in Net		Accumulated Undistributed Net		Net	Total
	Shares	Par Amount	Excess of Par	Investment Income	Realized Gains (Losses)	Unrealized Appreciation (Depreciation)		Net Assets
Balance at December 31, 2014	57,997,890	\$ 580	\$ 817,129	\$ 2,530	\$ 14,131	\$ (32,200)		\$ 802,170

(unaudited)

Note 12. Financial Highlights (Continued)

- (2) For the six months ended June 30, 2014, per share data is based on the summation of the per share results of operations items over the outstanding shares for the period in which the respective line items were realized or earned.
- (3) Total return is calculated assuming a purchase of common stock at the opening of the first day of the year and a sale on the closing of the last business day of the period. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at prices obtained under the Company's dividend reinvestment plan.
- (4) Total return is calculated assuming a purchase at net asset value on the opening of the first day of the year and a sale at net asset value on the last day of the period. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at the net asset value on the last day of the respective quarter.
- (5) Ratio to average net assets for the six months ended June 30, 2015 and June 30, 2014, is based on the summation of the results of operations items over the net assets for the period in which the respective line items were realized or earned. For the six months ended June 30, 2014, the Company is reflecting its net investment income and expenses as well as its proportionate share of the Predecessor Operating Company's net investment income and expenses.
- (6) For the six months ended June 30, 2014, average debt outstanding represents the Company's proportionate share of the Predecessor Operating Company's average debt outstanding as well as the Company's average debt outstanding. The average debt outstanding for the six months ended June 30, 2014 at the Holdings Credit Facility and SLF Credit Facility was \$228,728 and \$214,996, respectively.
- (7) For the six months ended June 30, 2014, average debt outstanding represents the period from June 3, 2014 (issuance of the Convertible Notes) to June 30, 2014.
- (8) On November 5, 2014, the Company received exemptive relief from the SEC allowing the Company to modify the asset coverage requirement to exclude the SBA-guaranteed debentures from this calculation.
- (9) For the six months ended June 30, 2014, portfolio turnover represents the investment activity of the Predecessor Operating Company and the Company.

Note 13. Recent Accounting Standards Updates

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers Topic 606 Summary and Amendments that Create Revenue from Contracts with Customers and Other Assets and Deferred Costs* ("ASU 2014-09"). ASU 2014-09 establishes a comprehensive and converged standard on revenue recognition to enable financial statement users to better understand and consistently analyze an entity's revenue across industries, transactions and geographies. The core principle of the new guidance is that an entity should

Table of Contents

(in thousands, except share data)

(unaudited)

Note 13. Recent Accounting Standards Updates (Continued)

recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps: (1) identify the contract(s) with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) the entity satisfies a performance obligation. The new guidance also specifies the accounting for certain costs to obtain or fulfill a contract with a customer. The new guidance requires improved disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. Qualitative and quantitative information is required to be disclosed about: (1) contracts with customers, (2) significant judgments and changes in judgments, and (3) assets recognized from costs to obtain or fulfill a contract. The new guidance will apply to all entities. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2016. Early application is not permitted. The Company is in the process of evaluating the impact that this guidance will have on its consolidated financial statements and disclosures.

In June 2014, the FASB issued Accounting Standards Update No. 2014-11, *Transfers and Servicing Topic 860 Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures* ("ASU 2014-11"). ASU 2014-11 changes the accounting for repurchase- and resale-to-maturity agreements by requiring that such agreements be recognized as financing arrangements, and requires that a transfer of a financial asset and a repurchase agreement entered into contemporaneously be accounted for separately. ASU 2014-11 requires additional disclosures about certain transferred financial assets accounted for as sales and certain securities financing transactions. The accounting changes and additional disclosures about certain transferred financial assets accounted for as sales are effective for the first interim and annual reporting periods beginning after December 15, 2014. The additional disclosures for securities financing transactions are required for annual reporting periods beginning after December 15, 2014 and for interim reporting periods beginning after March 15, 2015. The adoption of ASU 2014-11 does not have a material impact on the Company's consolidated financial statements and disclosures.

In August 2014, the FASB issued Accounting Standards Update No. 2014-15, *Presentation of Financial Statements Going Concern Subtopic 205-40 Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern* ("ASU 2014-15"). ASU 2014-15 will explicitly require management to assess an entity's ability to continue as a going concern, and to provide related footnote disclosure in certain circumstances. The new standard will be effective for all entities in the first annual period ending after December 15, 2016. Earlier adoption is permitted. The adoption of ASU 2014-15 is not expected to have a material impact on the Company's consolidated financial statements and disclosures.

In April 2015, the FASB issued Accounting Standards Update No. 2015-03, *Interest Imputation of Interest Subtopic 835-30 Simplifying the Presentation of Debt Issuance Costs* ("ASU 2015-03"), which changes the presentation of debt issuance costs in financial statements. Under ASU 2015-03, an entity presents such costs on the statement of assets and liabilities as a

direct deduction from the related debt liability rather than as an asset. Amortization of the costs is reported as interest expense. The new standard will be effective for all public entities for interim and annual reporting periods beginning after December 15, 2015. Earlier adoption is permitted. The Company is in the process of evaluating the impact that this guidance will have on its consolidated financial statements and disclosures.

Note 14. Subsequent Events

On August 4, 2015, the Company's board of directors declared a third quarter 2015 distribution of \$0.34 per share payable on September 30, 2015 to holders of record as of September 16, 2015.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Boards of Directors of
New Mountain Finance Corporation
New York, New York

We have reviewed the accompanying consolidated statement of assets and liabilities of New Mountain Finance Corporation and subsidiaries, including the consolidated schedule of investments, as of June 30, 2015, and the related consolidated statements of operations, changes in net assets, and cash flows for the three and six month periods ended June 30, 2015 and 2014. These interim financial statements are the responsibility of the management of New Mountain Finance Corporation.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of assets and liabilities of New Mountain Finance Corporation as of December 31, 2014, the related statements of operations, changes in net assets, and cash flows for the year then ended (not presented herein); and in our report dated March 2, 2015, we expressed an unqualified opinion on those financial statements and included an explanatory paragraph relating to the restructuring that occurred in 2014.

In our opinion, the information set forth in the statement of assets and liabilities of New Mountain Finance Corporation as of December 31, 2014, is fairly stated, in all material respects, in relation to the statement of assets and liabilities of New Mountain Finance Corporation as of December 31, 2014, from which it has been derived.

Debt Securities

New Mountain Finance Corporation ("NMFC", the "Company", "we", "us" and "our") is a Delaware corporation that was originally incorporated on June 29, 2010. We are a closed end, non-diversified management investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. In some cases, our investments may also include equity interests. Our primary focus is in the debt of defensive growth companies, which are defined as generally exhibiting the following characteristics: (i) sustainable secular growth drivers, (ii) high barriers to competitive entry, (iii) high free cash flow after capital expenditure and working capital needs, (iv) high returns on assets and (v) niche market dominance.

The investments that we invest in are almost entirely rated below investment grade or may be unrated, which are often referred to as "leveraged loans," "high yield" or "junk" debt investments, and may be considered "high risk" or speculative compared to debt investments that are rated investment grade. Such issuers are considered more likely than investment grade issuers to default on their payments of interest and principal and such risk of default could reduce our net asset value and income distributions. Our investments are also primarily floating rate debt investments that contain interest reset provisions that may make it more difficult for borrowers to make debt repayments to us if interest rates rise. In addition, some of our debt investments will not fully amortize during their lifetime, which could result in a loss or a substantial amount of unpaid principal and interest due upon maturity. Our debt investments may also lose significant market value before a default occurs. Furthermore, an active trading market may not exist for these securities. This illiquidity may make it more difficult to value our investments.

We may offer, from time to time, in one or more offerings or series, up to \$250,000,000 of common stock, preferred stock, subscription rights to purchase shares of common stock, debt securities or warrants, which we refer to, collectively, as the "securities". The preferred stock, subscription rights, debt securities and warrants offered hereby may be convertible or exchangeable into shares of common stock. The securities may be offered at prices and on terms to be described in one or more supplements to this prospectus.

In the event we offer common stock, the offering price per share of our common stock less any underwriting discounts or commissions will generally not be less than the net asset value per share of our common stock at the time we make the offering. However, we may issue shares of our common stock pursuant to this prospectus at a price per share that is less than its net asset value per share (i) in connection with a rights offering to our existing stockholders, (ii) with the prior approval of the majority of our common stockholders or (iii) under such other circumstances as the United States Securities and Exchange Commission may permit.

The securities may be offered directly to one or more purchasers, or through agents designated from time to time by us, or to or through underwriters or dealers. Each prospectus supplement relating to an offering will identify any agents or underwriters involved in the sale of the securities, and will disclose any applicable purchase price, fee, discount or commissions arrangement between us and our agents or underwriters or among our underwriters or the basis upon which such amount may be calculated. See "Plan of Distribution". We may not sell any of the securities through agents, underwriters or dealers without delivery of this prospectus and a prospectus supplement describing the method and terms of the offering of such securities.

In addition, this prospectus relates to 2,172,000 shares of our common stock that may be sold by the selling stockholders identified under "Selling Stockholders". Sales of our common stock by the selling stockholders, which may occur at prices below the net asset value per share of our common stock, may adversely affect the market price of our common stock and may make it more difficult for us to raise capital.

The selling stockholders identified under "Selling Stockholders" acquired their respective shares of our common stock either through (i) the concurrent private placement to certain of our affiliates in connection with our initial public offering or (ii) the formation transactions completed immediately prior to our initial public offering. Each offering by the selling stockholders of their shares of our common stock through agents, underwriters or dealers will be accompanied by a prospectus supplement that will identify the selling stockholders that are participating in such offering. We will not receive any proceeds from the sale of shares of our common stock by any of the selling stockholders.

Our common stock is traded on the New York Stock Exchange under the symbol "NMFC". On May 28, 2015, the last reported sales price on the New York Stock Exchange for our common stock was \$15.14 per share. Based on this last reported sales price of our common stock, the aggregate market value of the shares of our common stock held by the selling stockholders identified under "Selling Stockholders" is approximately \$32.9 million.

An investment in our common stock is very risky and highly speculative. Shares of closed-end investment companies, including business development companies, frequently trade at a discount to their net asset value. In addition, the companies in which we invest are subject to special risks. See "Risk Factors" beginning on page 29 to read about factors you should consider, including the risk of leverage, before investing in our common stock.

Neither the United States Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities, or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

This prospectus may not be used to consummate sales of our securities unless accompanied by a prospectus supplement.

Please read this prospectus and any accompanying prospectus supplements before investing and keep each for future reference. This prospectus and any accompanying prospectus supplements contain important information about us that a prospective investor ought to know before investing in our securities. We file annual, quarterly and current reports, proxy statements and other information with the United States Securities and Exchange Commission (<http://www.sec.gov>), which is available free of charge by contacting us by mail at 787 Seventh Avenue, 48th Floor, New York, New York 10019 or on our website at <http://www.newmountainfinance.com>.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we have filed with the United States Securities and Exchange Commission ("SEC"), using the "shelf" registration process. Under the shelf registration process, which constitutes a delayed offering in reliance on Rule 415 under the Securities Act of 1933, as amended (the "Securities Act"), we may offer, from time to time, in one or more offerings, up to \$250,000,000 of common stock, preferred stock, subscription rights to purchase shares of common stock, debt securities or warrants, on terms to be determined at the time of the offering. In addition, this prospectus relates to 2,172,000 shares of our common stock that may be sold by the selling stockholders identified under "Selling Stockholders". The securities may be offered at prices and on terms described in one or more supplements to this prospectus. This prospectus provides you with a general description of our offerings of securities that we may conduct pursuant to this prospectus. Each time we use this prospectus to offer securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. A prospectus supplement may also add, update or change information contained in this prospectus.

Please carefully read this prospectus and any such supplements together with any exhibits and the additional information described under "Available Information" and in the "Summary" and "Risk Factors" sections before you make an investment decision.

Table of Contents

PROSPECTUS SUMMARY

The following summary contains basic information about offerings pursuant to this prospectus. It may not contain all the information that is important to you. For a more complete understanding of offerings pursuant to this prospectus, we encourage you to read this entire prospectus and the documents to which we have referred in this prospectus, together with any accompanying prospectus supplements, including the risks set forth under the caption "Risk Factors" in this prospectus and any accompanying prospectus supplement and the information set forth under the caption "Available Information" in this prospectus.

In this prospectus, unless the context otherwise requires, references to:

"NMFC", the "Company", "we", "us" and "our" refers to New Mountain Finance Corporation, a Delaware corporation, which was incorporated on June 29, 2010, including, where appropriate, its wholly-owned direct and indirect subsidiaries;

"NMF SLF" refers to New Mountain Finance SPV Funding, L.L.C., a Delaware limited liability company;

"NMF Holdings" and "Predecessor Operating Company" refers to New Mountain Finance Holdings, L.L.C., a Delaware limited liability company. References to NMF Holdings include its wholly-owned subsidiary, NMF SLF, unless the context otherwise requires. References to NMF Holdings exclude NMF SLF when referencing NMF Holdings' common membership units, board of directors, and credit facility or leverage;

"SBIC GP" refers to New Mountain Finance SBIC G.P. L.L.C., a Delaware limited liability company;

"SBIC LP" refers to New Mountain Finance SBIC L.P., a Delaware limited partnership;

"Guardian AIV" refers to New Mountain Guardian AIV, L.P.;

"AIV Holdings" refers to New Mountain Finance AIV Holdings Corporation, a Delaware corporation which was incorporated on March 11, 2011, of which Guardian AIV was the sole stockholder;

"Investment Adviser" refers to New Mountain Finance Advisers BDC, L.L.C., our investment adviser;

"Administrator" refers to New Mountain Finance Administration, L.L.C., our administrator;

"New Mountain Capital" refers to New Mountain Capital Group, L.L.C. and its affiliates;

"Predecessor Entities" refers to New Mountain Guardian (Leveraged), L.L.C. and New Mountain Guardian Partners, L.P., together with their respective direct and indirect wholly-owned subsidiaries prior to our initial public offering;

"NMFC Credit Facility" refers to our Senior Secured Revolving Credit Agreement with Goldman Sachs Bank USA and Morgan Stanley Bank, N.A., dated June 4, 2014, as amended (together with the related guarantee and security agreement);

Edgar Filing: New Mountain Finance Corp - Form 497

"Holdings Credit Facility" refers to NMF Holdings' Second Amended and Restated Loan and Security Agreement with Wells Fargo Bank, National Association, dated December 18, 2014;

"Predecessor Holdings Credit Facility" refers to NMF Holdings' Amended and Restated Loan and Security Agreement with Wells Fargo Bank, National Association, dated May 19, 2011, as amended;

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

"SLF Credit Facility" refers to NMF SLF's Loan and Security Agreement with Wells Fargo Bank, National Association, dated October 27, 2010, as amended; and

"Convertible Notes" refers to our convertible notes issued on June 3, 2014 under an indenture between us and U.S. Bank National Association.

For the periods prior to and as of December 31, 2013, all financial information provided in this prospectus reflects our organizational structure prior to the restructuring on May 8, 2014 described under "Description of Restructuring", where NMF Holdings functioned as the operating company.

Overview

We are a Delaware corporation that was originally incorporated on June 29, 2010. We are a closed-end, non-diversified management investment company that has elected to be regulated as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act"). As such, we are obligated to comply with certain regulatory requirements. We have elected to be treated, and intend to comply with the requirements to continue to qualify annually, as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended, (the "Code"). We are also registered as an investment adviser under the Investment Advisers Act of 1940, as amended (the "Advisers Act").

On May 19, 2011, we priced our initial public offering (the "IPO") of 7,272,727 shares of common stock at a public offering price of \$13.75 per share. Concurrently with the closing of the IPO and at the public offering price of \$13.75 per share, we sold an additional 2,172,000 shares of our common stock to certain executives and employees of, and other individuals affiliated with, New Mountain Capital in a concurrent private placement (the "Concurrent Private Placement"). Additionally, 1,252,964 shares were issued to the partners of New Mountain Guardian Partners, L.P. at that time for their ownership interest in the Predecessor Entities. In connection with our IPO and through a series of transactions, NMF Holdings acquired all of the operations of the Predecessor Entities, including all of the assets and liabilities related to such operations.

NMF Holdings is a Delaware limited liability company. Until May 8, 2014, NMF Holdings was externally managed and was regulated as a BDC under the 1940 Act. As such, NMF Holdings was obligated to comply with certain regulatory requirements. NMF Holdings was treated as a partnership for United States ("U.S.") federal income tax purposes for so long as it had at least two members. With the completion of the underwritten secondary offering on February 3, 2014, NMF Holdings' existence as a partnership for U.S. federal income tax purposes terminated and NMF Holdings became an entity that is disregarded as a separate entity from its owner for U.S. federal tax purposes. See "Material Federal Income Tax Considerations". For additional information on our organizational structure prior to May 8, 2014, see "Description of Restructuring".

Until May 8, 2014, NMF Holdings was externally managed by the Investment Adviser. As of May 8, 2014, the Investment Adviser serves as the external investment adviser to us. The Administrator provides the administrative services necessary for operations. The Investment Adviser and Administrator are wholly-owned subsidiaries of New Mountain Capital. New Mountain Capital is a firm with a track record of investing in the middle market and with assets under management totaling approximately \$15.0 billion⁽¹⁾, which includes total assets held by us. New Mountain Capital focuses on investing in defensive growth companies across its private equity, public equity, and credit investment vehicles. NMF Holdings, formerly known as New Mountain Guardian (Leveraged), L.L.C., was originally formed as a subsidiary of Guardian AIV by New Mountain Capital in October 2008. Guardian AIV was formed through an allocation of approximately \$300.0 million of the

(1) Includes amounts committed, not all of which have been drawn down and invested to-date, as of March 31, 2015, as well as amounts called and returned since inception.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

\$5.1 billion of commitments supporting New Mountain Partners III, L.P., a private equity fund managed by New Mountain Capital. In February 2009, New Mountain Capital formed a co-investment vehicle, New Mountain Guardian Partners, L.P., comprising \$20.4 million of commitments.

Prior to December 18, 2014, NMF SLF was a Delaware limited liability company. NMF SLF was a wholly-owned subsidiary of NMF Holdings and thus a wholly-owned indirect subsidiary of us. NMF SLF was bankruptcy-remote and non-recourse to us. As part of an amendment to our existing credit facilities with Wells Fargo Bank, National Association, NMF SLF merged with and into NMF Holdings on December 18, 2014. See "Management's Discussion and Analysis of Financial Conditions and Results of Operations - Liquidity and Capital Resources" for additional information on our borrowings.

During the three months ended March 31, 2015, we established a wholly-owned subsidiary, NMF QID NGL Holdings, Inc. ("NMF QID"). Our wholly-owned subsidiaries, NMF Ancora Holdings Inc. ("NMF Ancora"), NMF QID and NMF YP Holdings Inc. ("NMF YP"), are structured as Delaware entities that serve as tax blocker corporations which hold equity or equity-like investments in portfolio companies organized as limited liability companies (or other forms of pass-through entities). We consolidate our tax blocker corporations for accounting purposes but the tax blocker corporations are not consolidated for income tax purposes and may incur income tax expense as a result of their ownership of portfolio companies. Additionally, our wholly-owned subsidiary, New Mountain Finance Servicing, L.L.C. ("NMF Servicing") serves as the administrative agent on certain investment transactions. SBIC LP, and its general partner, SBIC GP, were organized in Delaware as a limited partnership and limited liability company, respectively. SBIC LP and SBIC GP are our consolidated wholly-owned direct and indirect subsidiaries. SBIC LP received a license from the U.S. Small Business Administration (the "SBA") to operate as a small business investment company ("SBIC") under Section 301(c) of the Small Business Investment Act of 1958, as amended (the "1958 Act").

The diagram below depicts our organizational structure as of May 28, 2015.

*

Includes partners of New Mountain Guardian Partners, L.P.

Table of Contents

**

NMFC is the sole limited partner of SBIC LP. NMFC, directly or indirectly through SBIC GP, wholly-owns SBIC LP. NMFC owns 100.0% of SBIC GP which owns 1.0% of SBIC LP. NMFC owns 99.0% of SBIC LP.

Our investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. In some cases, our investments may also include equity interests. The primary focus is in the debt of defensive growth companies, which are defined as generally exhibiting the following characteristics: (i) sustainable secular growth drivers, (ii) high barriers to competitive entry, (iii) high free cash flow after capital expenditure and working capital needs, (iv) high returns on assets and (v) niche market dominance. Similar to us, SBIC LP's investment objective is to generate current income and capital appreciation under our investment criteria. However, SBIC LP's investments must be SBA eligible companies. Our portfolio may be concentrated in a limited number of industries. As of March 31, 2015, our top five industry concentrations were software, business services, education, federal services and healthcare services.

The investments that we invest in are almost entirely rated below investment grade or may be unrated, which are often referred to as "leveraged loans," "high yield" or "junk" debt investments, and may be considered "high risk" or speculative compared to debt investments that are rated investment grade. Such issuers are considered more likely than investment grade issuers to default on their payments of interest and principal and such risk of default could reduce our net asset value and income distributions. Our investments are also primarily floating rate debt investments that contain interest reset provisions that may make it more difficult for borrowers to make debt repayments to us if interest rates rise. In addition, some of our debt investments will not fully amortize during their lifetime, which could result in a loss or a substantial amount of unpaid principal and interest due upon maturity. Our debt investments may also lose significant market value before a default occurs. Furthermore, an active trading market may not exist for these securities. This illiquidity may make it more difficult to value our investments.

As of March 31, 2015, our net asset value was \$806.5 million and our portfolio had a fair value of approximately \$1,404.8 million in 69 portfolio companies, with a weighted average yield to maturity at cost ("Yield to Maturity at Cost") of approximately 10.6%. This Yield to Maturity at Cost calculation assumes that all investments, including secured collateralized agreements, not on non-accrual are purchased at the adjusted cost on the quarter end date and held until their respective maturities with no prepayments or losses and exited at par at maturity. Adjusted cost reflects the accounting principles generally accepted in the United States of America ("GAAP") cost for post-IPO investments and a stepped up cost basis of pre-IPO investments (assuming a step-up to fair market value occurred on the IPO date). This calculation excludes the impact of existing leverage. Yield to Maturity at Cost uses the London Interbank Offered Rate ("LIBOR") curves at each quarter's end date. The actual yield to maturity may be higher or lower due to the future selection of the LIBOR contracts by the individual companies in our portfolio or other factors.

Recent Developments

Edmentum, Inc.

On April 20, 2015, Edmentum, Inc. ("Edmentum") announced an agreement with the unanimous support of its first lien lenders, second lien lenders and equity sponsors to recapitalize its balance sheet and reduce its outstanding indebtedness. The recapitalization is expected to close in the second quarter of 2015.

Table of Contents

Dividend

On May 5, 2015, our board of directors declared a second quarter 2015 distribution of \$0.34 per share payable on June 30, 2015 to holders of record as of June 16, 2015.

Administration Agreement

On May 5, 2015, we entered into a Second Amended and Restated Administration Agreement with the Administrator to reflect current operating procedures.

The Investment Adviser

The Investment Adviser, a wholly-owned subsidiary of New Mountain Capital, manages our day-to-day operations and provides us with investment advisory and management services. In particular, the Investment Adviser is responsible for identifying attractive investment opportunities, conducting research and due diligence on prospective investments, structuring our investments and monitoring and servicing our investments. We currently do not have, and do not intend to have, any employees. As of March 31, 2015, the Investment Adviser was supported by approximately 100 staff members of New Mountain Capital, including approximately 60 investment professionals.

The Investment Adviser is managed by a five member investment committee (the "Investment Committee"), which is responsible for approving purchases and sales of our investments above \$10.0 million in aggregate by issuer. The Investment Committee currently consists of Steven B. Klinsky, Robert A. Hamwee, Adam B. Weinstein, Michael B. Ajouz and John R. Kline. In addition, our executive officers and certain investment professionals of the Investment Adviser are invited to all Investment Committee meetings. Purchases and dispositions below \$10.0 million may be approved by our Chief Executive Officer. These approval thresholds are subject to change over time. We expect to benefit from the extensive and varied relevant experience of the investment professionals serving on the Investment Committee, which includes expertise in private equity, primary and secondary leveraged credit, private mezzanine finance and distressed debt.

Competitive Advantages

We believe that we have the following competitive advantages over other capital providers to middle market companies:

Proven and Differentiated Investment Style With Areas of Deep Industry Knowledge

In making its investment decisions, the Investment Adviser applies New Mountain Capital's long-standing, consistent investment approach that has been in place since its founding more than 15 years ago. We focus on companies in less well followed defensive growth niches of the middle market space where we believe few debt funds have built equivalent research and operational size and scale.

We benefit directly from New Mountain Capital's private equity investment strategy that seeks to identify attractive investment sectors from the top down and then works to become a well positioned investor in these sectors. New Mountain Capital focuses on companies and industries with sustainable strengths in all economic cycles, particularly ones that are defensive in nature, that are secular and can maintain pricing power in the midst of a recessionary and/or inflationary environment. New Mountain Capital focuses on companies within sectors in which it has significant expertise (examples include federal services, software, education, niche healthcare, business services, energy and distribution & logistics) while typically avoiding investments in companies with products or services that serve markets that are highly cyclical, have the potential for long-term decline, are overly-dependent on consumer demand or are commodity-like in nature.

Table of Contents

In making its investment decisions, the Investment Adviser has adopted the approach of New Mountain Capital, which is based on three primary investment principles:

1. A generalist approach, combined with proactive pursuit of the highest quality opportunities within carefully selected industries, identified via an intensive and structured ongoing research process;
2. Emphasis on strong downside protection and strict risk controls; and
3. Continued search for superior risk adjusted returns, combined with timely, intelligent exits and outstanding return performance.

Experienced Management Team and Established Platform

The Investment Adviser's team members have extensive experience in the leveraged lending space. Steven B. Klinsky, New Mountain Capital's Founder, Chief Executive Officer and Managing Director and Chairman of our board of directors, was a general partner of Forstmann Little & Co., a manager of debt and equity funds totaling multiple billions of dollars in the 1980s and 1990s. He was also a co-founder of Goldman, Sachs & Co.'s Leverage Buyout Group in the period from 1981 to 1984. Robert A. Hamwee, our Chief Executive Officer and President and Managing Director of New Mountain Capital, was formerly President of GSC Group, Inc. ("GSC"), where he was the portfolio manager of GSC's distressed debt funds and led the development of GSC's CLOs. John R. Kline, our Chief Operating Officer and Executive Vice President and Managing Director of New Mountain Capital, worked at GSC as an investment analyst and trader for GSC's control distressed and corporate credit funds and at Goldman, Sachs & Co. in the Credit Risk Management and Advisory Group.

Many of the debt investments that we have made to date have been in the same companies with which New Mountain Capital has already conducted months of intensive acquisition due diligence related to potential private equity investments. We believe that private equity underwriting due diligence is usually more robust than typical due diligence for loan underwriting. In its underwriting of debt investments, the Investment Adviser is able to utilize the research and hands-on operating experience that New Mountain Capital's private equity underwriting teams possess regarding the individual companies and industries. Business and industry due diligence is led by a team of investment professionals of the Investment Adviser that generally consists of three to seven individuals, typically based on their relevant company and/or industry specific knowledge. Additionally, the Investment Adviser is also able to utilize its relationships with operating management teams and other private equity sponsors. We believe this differentiates us from many of our competitors.

Significant Sourcing Capabilities and Relationships

We believe the Investment Adviser's ability to source attractive investment opportunities is greatly aided by both New Mountain Capital's historical and current reviews of private equity opportunities in the business segments we target. To date, a significant majority of the investments that we have made are in the debt of companies and industry sectors that were first identified and reviewed in connection with New Mountain Capital's private equity efforts, and the majority of our current pipeline reflects this as well. Furthermore, the Investment Adviser's investment professionals have deep and longstanding relationships in both the private equity sponsor community and the lending/agency community which they have and will continue to utilize to generate investment opportunities.

Table of Contents

Risk Management through Various Cycles

New Mountain Capital has emphasized tight control of risk since its inception and long before the recent global financial distress began. To date, New Mountain Capital has never experienced a bankruptcy of any of its portfolio companies in its private equity efforts or with respect to the Predecessor Entities' business. The Investment Adviser seeks to emphasize tight control of risk with our investments in several important ways, consistent with New Mountain Capital's historical approach. In particular, the Investment Adviser:

Emphasizes the origination or purchase of debt in what the Investment Adviser believes are defensive growth companies, which are less likely to be dependent on macro-economic cycles;

Targets investments in companies that are preeminent market leaders in their own industries, and when possible, investments in companies that have strong management teams whose skills are difficult for competitors to acquire or reproduce; and

Emphasizes capital structure seniority in the Investment Adviser's underwriting process.

Access to Non Mark to Market, Seasoned Leverage Facility

The amount available under the Holdings Credit Facility is generally not subject to reduction as a result of mark to market fluctuations in our portfolio investments. For a detailed discussion of our credit facilities, see "Management's Discussion and Analysis of Financial Conditions and Results of Operations – Liquidity and Capital Resources".

Market Opportunity

We believe that the size of the market for investments that we target, coupled with the demands of middle market companies for flexible sources of capital at competitive terms and rates, create an attractive investment environment for us.

The leverage finance market has a high level of financing needs over the next several years due to significant bank debt maturities. We believe that the large dollar volume of loans that need to be refinanced will present attractive opportunities to invest capital in a manner consistent with our stated objectives.

Middle market companies continue to face difficulties in accessing the capital markets. We believe opportunities to serve the middle market will continue to exist. While many middle market companies were formerly able to raise funds by issuing high-yield bonds, we believe this approach to financing has become more difficult in recent years as institutional investors have sought to invest in larger, more liquid offerings.

Consolidation among commercial banks has reduced the focus on middle market lending. We believe that many traditional bank lenders to middle market businesses have either exited or de-emphasized their service and product offerings in the middle market. These traditional lenders have instead focused on lending and providing other services to large corporate clients. We believe this has resulted in fewer key players and the reduced availability of debt capital to the companies we target.

Attractive pricing. Reduced access to, and availability of, debt capital typically increases the interest rates, or pricing, of loans for middle market lenders. Recent primary debt transactions in this market often include upfront fees, prepayment protections and, in some cases, warrants to purchase common stock, all of which should enhance the profitability of new loans to lenders.

Table of Contents

Conservative deal structures. As a result of the credit crisis, many lenders are requiring larger equity contributions from financial sponsors. Larger equity contributions create an enhanced margin of safety for lenders because leverage is a lower percentage of the implied enterprise value of the company.

Large pool of uninvested private equity capital available for new buyouts. We expect that private equity firms will continue to pursue acquisitions and will seek to leverage their equity investments with mezzanine loans and/or senior loans (including traditional first and second lien, as well as untranche loans) provided by companies such as ours.

Operating and Regulatory Structure

We are a closed-end, non-diversified management investment company that has elected to be regulated as a BDC under the 1940 Act and are required to maintain an asset coverage ratio, as defined in the 1940 Act, of at least 200.0%. We include the assets and liabilities of our consolidated subsidiaries for purposes of satisfying the requirements under the 1940 Act. See "Regulation" in this prospectus.

We have elected to be treated, and intend to comply with the requirements to continue to qualify annually, as a RIC under Subchapter M of the Code. See "Material Federal Income Tax Considerations" in this prospectus. As a RIC, we generally will not pay corporate-level U.S. federal income taxes on any net ordinary income or capital gains that we timely distribute to our stockholders as dividends if it meets certain source-of-income, distribution and asset diversification requirements. We intend to distribute to our stockholders substantially all of our annual taxable income except that we may retain certain net capital gains for reinvestment.

Risks

An investment in our securities involves risk, including the risk of leverage and the risk that our operating policies and strategies may change without prior notice to our stockholders or prior stockholder approval. See "Risk Factors" and the other information included in this prospectus for a discussion of factors you should carefully consider before deciding to invest in our securities. The value of our assets, as well as the market price of our securities, will fluctuate. Our investments may be risky, and you may lose all or part of your investment. Investing in us involves other risks, including the following:

We may suffer credit losses;

We do not expect to replicate the Predecessor Entities' historical performance or the historical performance of other entities managed or supported by New Mountain Capital;

There is uncertainty as to the value of our portfolio investments because most of our investments are, and may continue to be in private companies and recorded at fair value;

Our ability to achieve our investment objective depends on key investment personnel of the Investment Adviser. If the Investment Adviser were to lose any of its key investment personnel, our ability to achieve our investment objective could be significantly harmed;

The Investment Adviser has limited experience managing a BDC or a RIC, which could adversely affect our business;

We operate in a highly competitive market for investment opportunities and may not be able to compete effectively;

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

Our investments in securities rated below investment grade are speculative in nature and are subject to additional risk factors such as increased possibility of default, illiquidity of the security, and changes in value based on changes in interest rates;

Our business, results of operations and financial condition depends on our ability to manage future growth effectively;

We borrow money, which could magnify the potential for gain or loss on amounts invested in us and increase the risk of investing in us;

Changes in interest rates may affect our cost of capital and net investment income;

Regulations governing the operations of BDCs will affect our ability to raise additional equity capital as well as our ability to issue senior securities or borrow for investment purposes, any or all of which could have a negative effect on our investment objectives and strategies;

We may experience fluctuations in our annual and quarterly results due to the nature of our business;

Our board of directors may change our investment objective, operating policies and strategies without prior notice or member approval, the effects of which may be adverse to your interests;

We will be subject to corporate-level U.S. federal income tax on all of our income if we are unable to maintain RIC status under Subchapter M of the Code, which would have a material adverse effect on our financial performance;

We may not be able to pay distributions on our common stock, our distributions may not grow over time and a portion of our distributions to you may be a return of capital for U.S. federal income tax purposes;

Our investments in portfolio companies may be risky, and we could lose all or part of any of our investments;

The lack of liquidity in our investments may adversely affect our business;

Economic recessions or downturns could impair our portfolio companies and harm our operating results;

The market price of our common stock may fluctuate significantly; and

Sales of substantial amounts of our common stock in the public market may have an adverse effect on the market price of its common stock.

Company Information

Our administrative and executive offices are located at 787 Seventh Avenue, 48th Floor, New York, New York 10019, and our telephone number is (212) 720-0300. We maintain a website at <http://www.newmountainfinance.com>. Information contained on our website is not incorporated by reference into this prospectus, and you should not consider information contained on our website to be part of this prospectus.

Presentation of Historical Financial Information and Market Data

Historical Financial Information

Unless otherwise indicated, historical references contained in this prospectus for periods prior to and as of December 31, 2013 in "Selected Financial and Other Data", "Selected Quarterly Data", "Management's Discussion and Analysis of Financial Condition and Results of Operations", "Senior

Table of Contents

Securities" and "Portfolio Companies" relate to NMF Holdings. The consolidated financial statements of New Mountain Finance Holdings, L.L.C., formerly known as New Mountain Guardian (Leveraged), L.L.C., and New Mountain Guardian Partners, L.P. are NMF Holdings' historical consolidated financial statements.

Market Data

Statistical and market data used in this prospectus has been obtained from governmental and independent industry sources and publications. We have not independently verified the data obtained from these sources, and we cannot assure you of the accuracy or completeness of the data. Forward-looking information obtained from these sources is subject to the same qualifications and the additional uncertainties regarding the other forward-looking statements contained in this prospectus. See "Cautionary Statement Regarding Forward-Looking Statements".

Table of Contents

THE OFFERING

We may offer, from time to time, up to \$250,000,000 of common stock, preferred stock, subscription rights to purchase shares of common stock, debt securities or warrants, on terms to be determined at the time of each offering. We will offer our securities at prices and on terms to be set forth in one or more supplements to this prospectus. The offering price per share of our securities, less any underwriting commissions or discounts, generally will not be less than the net asset value per share of our securities at the time of an offering. However, we may issue securities pursuant to this prospectus at a price per share that is less than our net asset value per share (i) in connection with a rights offering to our existing stockholders, (ii) with the prior approval of the majority of our common stockholders or (iii) under such other circumstances as the SEC may permit. Any such issuance of shares of our common stock below net asset value may be dilutive to the net asset value of our common stock. See "Risk Factors – Risks Relating to Offerings Pursuant to this Prospectus". In addition, this prospectus relates to 2,172,000 shares of our common stock that may be sold by the selling stockholders identified under "Selling Stockholders". Sales of our common stock by the selling stockholders, which may occur at prices below the net asset value per share of our common stock, may adversely affect the market price of our common stock and may make it more difficult for us to raise capital.

Our securities may be offered directly to one or more purchasers, or through agents designated from time to time by us, or to or through underwriters or dealers. The prospectus supplement relating to an offering will identify any agents or underwriters involved in the sale of our securities, and will disclose any applicable purchase price, fee, commission or discount arrangement between us and our agents or underwriters or among our underwriters or the basis upon which such amount may be calculated. See "Plan of Distribution". We may not sell any of our securities through agents, underwriters or dealers without delivery of this prospectus and a prospectus supplement describing the method and terms of the offering of securities.

Set forth below is additional information regarding offerings of securities pursuant to this prospectus:

Use of Proceeds

Unless otherwise specified in a prospectus supplement, we intend to use the net proceeds from the sale of our securities for new investments in portfolio companies in accordance with our investment objective and strategies described in this prospectus, to temporarily repay indebtedness (which will be subject to reborrowing), to pay our operating expenses and distributions to our stockholders and for general corporate purposes, and other working capital needs. Proceeds not immediately used for new investments or the temporary repayment of debt will be invested in cash, cash equivalents, U.S. government securities and other high-quality investments that mature in one year or less from the date of the investment. These securities may have lower yields than the types of investments we would typically make in accordance with our investment objective and, accordingly, may result in lower distributions, if any during such period. Each supplement to this prospectus relating to an offering will more fully identify the use of the proceeds from such offering. See "Use of Proceeds".

We will not receive any proceeds from any sale of common stock by the selling stockholders identified under "Selling Stockholders".

Table of Contents

New York Stock Exchange Symbol

"NMFC"

Investment Advisory Fees

We pay the Investment Adviser a fee for its services under an investment advisory and management agreement (the "Investment Management Agreement") consisting of two components—a base management fee and an incentive fee. The base management fee is calculated at an annual rate of 1.75% of our gross assets, which equals our total assets on the Consolidated Statements of Assets and Liabilities, less (i) the borrowings under the SLF Credit Facility and (ii) cash and cash equivalents. The base management fee is payable quarterly in arrears, and is calculated based on the average value of our gross assets, which equals our total assets, as determined in accordance with GAAP, borrowings under the SLF Credit Facility, and cash and cash equivalents at the end of each of the two most recently completed calendar quarters, and appropriately adjusted on a pro rata basis for any equity capital raises or repurchases during the current calendar quarter. Since IPO, the base management fee calculation has deducted the borrowings under the SLF Credit Facility. The SLF Credit Facility has historically consisted of primarily lower yielding assets at higher advance rates. As part of an amendment to our existing credit facilities with Wells Fargo Bank, National Association, the SLF Credit Facility merged with the Predecessor Holdings Credit Facility and into the Holdings Credit Facility on December 18, 2014. Post credit facility merger and to be consistent with the methodology since IPO, the Investment Adviser will waive management fees on the leverage associated with those assets that share the same underlying yield characteristics with investments leveraged under the legacy SLF Credit Facility. The Investment Adviser cannot recoup management fees that the Investment Adviser has previously waived. We have not invested, and currently do not invest, in derivatives. To the extent we invest in derivatives in the future, we will use the actual value of the derivatives, as reported on our Consolidated Statements of Assets and Liabilities, for purposes of calculating our base management fee. The incentive fee consists of two parts. The first part is calculated and payable quarterly in arrears and equals 20.0% of our "Pre-Incentive Fee Adjusted Net Investment Income" for the immediately preceding quarter, subject to a "preferred return", or "hurdle", and a "catch-up" feature each as described in the Investment Management Agreement. The second part will be determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Management Agreement) and will equal 20.0% of our "Adjusted Realized Capital Gains", if any, on a cumulative basis from inception through the end of the year, computed net of all "Adjusted Realized Capital Losses" and "Adjusted Unrealized Capital Depreciation" on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fee each as described in the Investment Management Agreement. See "Investment Management Agreement".

Table of Contents

Administrator

The Administrator serves as the administrator for us and arranges office space for us and provides us with office equipment and administrative services. The Administrator performs, or oversees the performance of, our financial records, prepares reports to our stockholders and reports filed by us with the SEC, monitors the payment of our expenses, and oversees the performance of administrative and professional services rendered to us by others. We reimburse the Administrator for our allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations to us under an administration agreement, as amended and restated (the "Administration Agreement"). See "Administration Agreement".

Distributions

We intend to pay quarterly distributions to our stockholders out of assets legally available for distribution. The quarterly distributions, if any, will be determined by our board of directors. The distributions we pay to our stockholders in a year may exceed our taxable income for that year and, accordingly, a portion of such distributions may constitute a return of capital for U.S. federal income tax purposes. The specific tax characteristics of our distributions will be reported to stockholders after the end of the calendar year. See "Price Range of Common Stock and Distributions".

Taxation of NMFC

We have elected to be treated, and intend to comply with the requirements to continue to qualify annually, as a RIC under Subchapter M of the Code. As a RIC, we generally will not pay corporate-level U.S. federal income taxes on any net ordinary income or capital gains that are timely distributed to our stockholders as dividends. To maintain our RIC status, we must meet specified source-of-income and asset diversification requirements and distribute annually to our stockholders at least 90.0% of our net ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any. See "Price Range of Common Stock and Distributions" and "Material Federal Income Tax Considerations".

Table of Contents

Dividend Reinvestment Plan	We have adopted an "opt out" dividend reinvestment plan for our stockholders. As a result, if we declare a distribution, then your cash distributions will be automatically reinvested in additional shares of our common stock, unless you specifically "opt out" of the dividend reinvestment plan so as to receive cash distributions. Stockholders who receive distributions in the form of stock will be subject to the same U.S. federal income tax consequences as stockholders who elect to receive their distributions in cash. Cash distributions reinvested in additional shares of our common stock will be automatically reinvested by us in additional shares of our common stock. We will use only newly issued shares to implement the plan if the price at which newly issued shares are to be credited is equal to or greater than 110.0% of the last determined net asset value of our shares. We reserve the right to purchase shares of our common stock in the open market in connection with our implementation of the plan if the price at which newly issued shares are to be credited does not exceed 110.0% of the last determined net asset value of the shares. See "Dividend Reinvestment Plan".
Trading at a Discount	Shares of closed-end investment companies frequently trade at a discount to their net asset value. The possibility that our common stock may trade at a discount to our net asset value per share is separate and distinct from the risk that our net asset value per share may decline. We cannot predict whether our common stock will trade above, at or below net asset value.
License Agreement	We have entered into a royalty-free license agreement with New Mountain Capital, pursuant to which New Mountain Capital has agreed to grant us a non-exclusive license to use the names "New Mountain" and "New Mountain Finance". See "License Agreement".
Leverage	We expect to continue to use leverage to make investments. As a result, we may continue to be exposed to the risks of leverage, which include that leverage may be considered a speculative investment technique. The use of leverage magnifies the potential for gain and loss on amounts we invest and therefore, indirectly, increases the risks associated with investing in shares of our common stock. See "Risk Factors".
Anti-Takeover Provisions	Our board of directors is divided into three classes of directors serving staggered three-year terms. This structure is intended to provide us with a greater likelihood of continuity of management, which may be necessary for us to realize the full value of our investments. A staggered board of directors also may serve to deter hostile takeovers or proxy contests, as may certain other measures that we may adopt. These measures may delay, defer or prevent a transaction or a change in control that might otherwise be in the best interests of our stockholders. See "Description of Capital Stock - Delaware Law and Certain Certificate of Incorporation and Bylaw Provisions; Anti-Takeover Measures".

Table of Contents

Available Information

We have filed with the SEC a registration statement on Form N-2 together with all amendments and related exhibits under the Securities Act. The registration statement contains additional information about us and the securities being offered by this prospectus.

We are required to file annual, quarterly and current reports, proxy statements and other information with the SEC under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). This information is available at the SEC's public reference room at 100 F Street, NE, Washington, District of Columbia 20549 and on the SEC's website at <http://www.sec.gov>. The public may obtain information on the operation of the SEC's public reference room by calling the SEC at 1-800-SEC-0330. This information is also available free of charge by contacting us at New Mountain Finance Corporation, 787 Seventh Avenue, 48th Floor, New York, New York 10019, by telephone at (212) 720-0300, or on our website at <http://www.newmountainfinance.com>. Information contained on our website or on the SEC's web site about us is not incorporated into this prospectus and you should not consider information contained on our website or on the SEC's website to be part of this prospectus.

Table of Contents**FEES AND EXPENSES**

The following table is intended to assist you in understanding the costs and expenses that you will bear directly or indirectly. We caution you that some of the percentages indicated in the table below are estimates and may vary. Except where the context suggests otherwise, whenever this prospectus contains a reference to fees or expenses paid by "you", "NMFC", or "us" or that "we", "NMFC", or the "Company" will pay fees or expenses, we will pay such fees and expenses out of our net assets and, consequently, you will indirectly bear such fees or expenses as an investor. However, you will not be required to deliver any money or otherwise bear personal liability or responsibility for such fees or expenses.

Stockholder transaction expenses:	
Sales load (as a percentage of offering price)	N/A(1)
Offering expenses borne by us (as a percentage of offering price)	N/A(2)
Dividend reinvestment plan fees	N/A(3)
Total stockholder transaction expenses (as a percentage of offering price)	%
Annual expenses (as a percentage of net assets attributable to common stock):	
Base management fees	3.18%(4)
Incentive fees payable under the Investment Management Agreement	2.66%(5)
Interest payments on borrowed funds	2.49%(6)
Other expenses	0.97%(7)
Acquired fund fees and expenses	0.19%(8)
Total annual expenses	9.49%(9)

Example

The following example demonstrates the projected dollar amount of total cumulative expenses that would be incurred over various periods with respect to a hypothetical investment in our common stock. In calculating the following expense amounts, we have assumed that our borrowings and annual operating expenses would remain at the levels set forth in the table above. In the event that shares to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will restate this example to reflect the applicable sales load and offering expenses. See Note 6 below for additional information regarding certain assumptions regarding our level of leverage.

	1 Year	3 Years	5 Years	10 Years
You would pay the following expenses on a \$1,000 investment, assuming a 5.0% annual return	\$ 68	\$ 200	\$ 327	\$ 620

The example and the expenses in the tables above should not be considered a representation of future expenses, and actual expenses may be greater or less than those shown.

While the example assumes, as required by the applicable rules of the SEC, a 5.0% annual return, our performance will vary and may result in a return greater or less than 5.0%. The incentive fee under the Investment Management Agreement, which, assuming a 5.0% annual return, would either not be payable or would have an insignificant impact on the expense amounts shown above, is not included in the above example. The above illustration assumes that we will not realize any capital gains (computed net of all realized capital losses and unrealized capital depreciation) in any of the indicated time periods. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an incentive fee of a material amount, our expenses and returns to our investors would be higher. For example, if we assumed that we received our 5.0%

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

annual return completely in the form of net realized capital gains on our investments, computed net of all cumulative unrealized depreciation on our investments, the projected dollar amount of total cumulative expenses set forth in the above illustration would be as follows:

	1 Year	3 Years	5 Years	10 Years
You would pay the following expenses on a \$1,000 investment, assuming a 5.0% annual return	\$ 78	\$ 226	\$ 365	\$ 676

The example assumes no sales load. In addition, while the examples assume reinvestment of all distributions at net asset value, participants in our dividend reinvestment plan will receive a number of shares of our common stock determined by dividing the total dollar amount of the distribution payable to a participant by the market price per share of our common stock at the close of trading on the dividend payment date. The market price per share of our common stock may be at, above or below net asset value. See "Dividend Reinvestment Plan" for additional information regarding the dividend reinvestment plan.

- (1) In the event that the shares to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will disclose the applicable sales load.
- (2) The prospectus supplement corresponding to each offering, including each underwritten offering by any of the selling stockholders identified under "Selling Stockholders", will disclose the applicable estimated amount of offering expenses of the offering and the offering expenses borne by us as a percentage of the offering price.
- (3) The de minimus expenses of the dividend reinvestment plan are included in "other expenses."
- (4) The base management fee under the Investment Management Agreement is based on an annual rate of 1.75% of our average gross assets for the two most recent quarters, which equals our total assets on the Consolidated Statements of Assets and Liabilities, less (i) the borrowings under the SLF Credit Facility and (ii) cash and cash equivalents. We have not invested, and currently do not invest, in derivatives. To the extent we invest in derivatives in the future, we will use the actual value of the derivatives, as reported on our Consolidated Statements of Assets and Liabilities, for purposes of calculating our base management fee. Since IPO, the base management fee calculation has deducted the borrowings under the SLF Credit Facility. The SLF Credit Facility has historically consisted of primarily lower yielding assets at higher advance rates. As part of an amendment to our existing credit facilities with Wells Fargo Bank, National Association, the SLF Credit Facility merged with the Predecessor Holdings Credit Facility and into the Holdings Credit Facility on December 18, 2014. Post credit facility merger and to be consistent with the methodology since IPO, the Investment Adviser will waive management fees on the leverage associated with those assets that share the same underlying yield characteristics with investments leveraged under the legacy SLF Credit Facility. The Investment Adviser cannot recoup management fees that the Investment Adviser has previously waived. The base management fee reflected in the table above is based on the three months ended March 31, 2015 and does not include any management fees waived. The base management fee net of the management fee waiver would be 2.49% for the three months ended March 31, 2015. See "Investment Management Agreement."
- (5) Assumes that annual incentive fees earned by the Investment Adviser remain consistent with the incentive fees earned by the Investment Adviser during the three months ended March 31, 2015 and includes accrued capital gains incentive fee. These accrued capital gains incentive fees would be paid by us if we ceased operations on March 31, 2015 and liquidated our investments at the March 31, 2015 valuation. As we cannot predict whether we will meet the

Table of Contents

thresholds for incentive fees under the Investment Management Agreement, the incentive fees paid in subsequent periods, if any, may be substantially different than the fees incurred during the three months ended March 31, 2015. For more detailed information about the incentive fee calculations, see the "Investment Management Agreement" section of this prospectus.

- (6) We may borrow funds from time to time to make investments to the extent we determine that additional capital would allow us to take advantage of additional investment opportunities or if the economic situation is otherwise conducive to doing so. The costs associated with these borrowings are indirectly borne by our stockholders. As of March 31, 2015, we had \$442.6 million, \$68.8 million, \$115.0 million and \$37.5 million of indebtedness outstanding under the Holdings Credit Facility, the NMFC Credit Facility, the Convertible Notes and the SBA-guaranteed debentures, respectively. For purposes of this calculation, we have assumed the March 31, 2015 amounts outstanding under the credit facilities, Convertible Notes and SBA-guaranteed debentures, and have computed interest expense using an assumed interest rate of 2.6% for the Holdings Credit Facility, 2.7% for the NMFC Credit Facility, 5.0% for the Convertible Notes and 2.9% for the SBA-guaranteed debentures, which were the rates payable as of March 31, 2015. See "Senior Securities" in this prospectus.
- (7) "Other expenses" include our overhead expenses, including payments by us under the Administration Agreement based on the allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations to us under the Administration Agreement. Pursuant to the Administration Agreement, the Administrator may, in its own discretion, submit to us for reimbursement some or all of the expenses that the Administrator has incurred on our behalf during any quarterly period. As a result, the amount of expenses for which we will have to reimburse the Administrator may fluctuate in future quarterly periods and there can be no assurance given as to when, or if, the Administrator may determine to limit the expenses that the Administrator submits to us for reimbursement in the future. However, it is expected that the Administrator will continue to support part of our expense burden in the near future and may decide to not calculate and charge through certain overhead related amounts as well as continue to cover some of the indirect costs. The Administrator cannot recoup any expenses that the Administrator has previously waived. This expense ratio does not include any expenses waived or reimbursed by the Administrator. Assuming the expenses waived or reimbursed by the Administrator at March 31, 2015, the expense ratio including expenses waived or reimbursed by the Administrator would be 0.77%. See "Administration Agreement."
- (8) The holders of shares of our common stock indirectly bear the expenses of our investment in NMFC Senior Loan Program I, LLC ("SLP I"). No management fee is charged to the Company's investment in SLP I in connection with the administrative services provided to SLP I. Future expenses for SLP I may be substantially higher or lower because certain expenses may fluctuate over time.
- (9) The holders of shares of our common stock indirectly bear the cost associated with our annual expenses.

Table of Contents

SELECTED FINANCIAL AND OTHER DATA

The selected financial data should be read in conjunction with the respective financial statements and related consolidated notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in this prospectus. Financial information for the years ended December 31, 2014, December 31, 2013, December 31, 2012, December 31, 2011, December 31, 2010 and December 31, 2009 has been derived from the Predecessor Operating Company and our financial statements that were audited by Deloitte & Touche, LLP, an independent registered public accounting firm. The financial information at and for the three months ended March 31, 2015 was derived from our unaudited consolidated financial statements and related consolidated notes. In the opinion of management, all adjustments, consisting solely of normal recurring accruals, considered necessary for the fair presentation of financial statements for the interim periods, have been included. Our results for the interim periods may not be indicative of our results for any future interim period or the full year. See "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Senior Securities" in this prospectus for more information.

(1)

In applying the if-converted method, conversion is not assumed for purposes of computing diluted earnings per share if the effect would be anti-dilutive. For the three months ended March 31, 2015 and the year ended December 31, 2014, there was no anti-dilution. For the years ended December 31, 2013 and December 31, 2012, due to reflecting earnings for the full year of operations of the Predecessor Operating Company assuming 100.0% NMFC ownership of Predecessor Operating Company and assuming all of AIV Holdings units in the Predecessor Operating Company were exchanged for public shares of NMFC during the years then ended, the earnings per share would be \$1.79 and \$2.18, respectively.

(2)

Dividends declared in the year ended December 31, 2014 include a \$0.12 per share special dividend related to realized capital gains attributable to the Company's warrant investments in Learning Care Group (US), Inc. Dividends declared in the year ended December 31, 2013 include a \$0.12 per share special dividend related to a distribution received attributable to NMF Holdings' investment in YP Equity Investors LLC. Dividends declared in the year ended December 31, 2012 include a \$0.23 per share special dividend related to estimated realized capital gains attributable to NMF Holdings' investments in Lawson Software, Inc. and Infor Lux Bond Company and a \$0.14 per share special dividend intended to minimize to the greatest extent possible NMFC's U.S. federal income or excise tax liability.

(3)

For the three months ended March 31, 2015 and the years ended December 31, 2014, December 31, 2013, December 31, 2012 and for the period May 19, 2011 to December 31, 2011, total return is calculated assuming a purchase of common stock at the opening of the first day of the year and assuming a purchase of common stock at IPO, respectively, and a sale on the closing of the last day of the respective period ends. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at prices obtained under NMFC's dividend reinvestment plan.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

- (4) Total return is calculated assuming a purchase at net asset value on the opening of the first day of the period and a sale at net asset value on the last day of the period. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at the net asset value on the last day of the respective quarter.
- (5) For the year ended December 31, 2014, amounts include the investment activity of the Predecessor Operating Company and the Company.
- (6) The weighted average Yield to Maturity at Cost calculation assumes that all investments, including secured collateralized agreements, not on non-accrual are purchased at the adjusted cost on the respective period ends and held until their respective maturities with no prepayments or losses and exited at par at maturity. Adjusted cost reflects the GAAP cost for post-IPO investments and a stepped up cost basis of pre-IPO investments (assuming a step-up to fair market value occurred on the IPO date).

As of May 8, 2014, NMFC assumed all operating activities previously undertaken by NMF Holdings. The following table sets forth selected financial and other data for NMF Holdings when it was the Predecessor Operating Company.

(in thousands except units and per unit data)

N/A Fund was not unitized as of December 31, 2010 and December 31, 2009.

Table of Contents

- (1) Dividends declared in the year ended December 31, 2013 include a \$0.12 per unit special dividend related to a distribution received attributable to NMF Holdings' investment in YP Equity Investors LLC. Dividends declared in the year ended December 31, 2012 include a \$0.23 per unit special dividend related to estimated realized capital gains attributable to NMF Holdings' investments in Lawson Software, Inc. and Infor Lux Bond Company and a \$0.14 per unit special dividend intended to minimize to the greatest extent possible NMFC's U.S. federal income or excise tax liability. Actual cash payments on the dividends declared to AIV Holdings only, for the quarters ended March 31, 2012, June 30, 2012, December 31, 2012 and March 31, 2013, were made on April 4, 2012, July 9, 2012, January 7, 2013 and April 5, 2013 respectively.
- (2) For years ended December 31, 2013 and December 31, 2012, total return is calculated assuming a purchase at net asset value on the opening of the first day of the year and a sale at net asset value on the last day of the respective period ends. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at the net asset value on the last day of the respective quarter. For the year ended December 31, 2011, total return is calculated in two parts: (1) from the opening of the first day of the year to NMFC's IPO date, total return is calculated based on net income over weighted average net assets and (2) from NMFC's IPO date to the last day of the year, total return is calculated assuming a purchase at net asset value on NMFC's IPO date and a sale at net asset value on the last day of the year. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at the net asset value on the last day of the respective quarter. For the years ended December 31, 2010 and December 31, 2009, total return is the ratio of net income compared to capital, adjusted for capital contributions and distributions.
- (3) The weighted average Yield to Maturity at Cost calculation assumes that all investments not on non-accrual are purchased at the adjusted cost on the respective period ends and held until their respective maturities with no prepayments or losses and exited at par at maturity. Adjusted cost reflects the GAAP cost for post-IPO investments and a stepped up cost basis of pre-IPO investments (assuming a step-up to fair market value occurred on the IPO date). The weighted average Yield to Maturity at Cost was not calculated prior to NMFC's IPO.
- (4) The weighted average Yield to Maturity calculation assumes that all investments not on non-accrual are purchased at fair value on the respective period ends and held until their respective maturities with no prepayments or losses and exited at par at maturity. The weighted average Yield to Maturity was not calculated subsequent to December 31, 2013.
- (5) Prior to NMFC's IPO, for yield calculation purposes, NMF SLF was treated as a fully levered asset of NMF Holdings with NMF SLF's net asset value being included in the yield to maturity calculations. Since NMF SLF is consolidated in accordance with GAAP, at the time of the IPO, NMF Holdings began using the weighted average Yield to Maturity concept instead of the "Adjusted Yield to Maturity" concept for yield calculation purposes.
- (6) "Adjusted Yield to Maturity" assumes that the investments in NMF Holdings' portfolio are purchased at fair value on the respective period ends and held until their respective maturities with no prepayments or losses and exited at par at maturity. This calculation excludes the impact of existing leverage, except for the non-recourse debt of NMF SLF. NMF SLF is treated as a fully levered asset of NMF Holdings, with NMF SLF's net asset value being included for yield calculation purposes.
- (7) Weighted average common membership units outstanding presented from May 19, 2011 to December 31, 2011, as the fund became unitized on May 19, 2011, the IPO date.

Table of Contents**SELECTED QUARTERLY FINANCIAL DATA**

The selected quarterly financial data should be read in conjunction with the respective financial statements and related consolidated notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in this prospectus. The following table sets forth certain quarterly financial data for the quarter ended March 31, 2015 and each of the quarters for the fiscal years ended December 31, 2014, December 31, 2013 and December 31, 2012 of NMFC. This data is derived from our unaudited financial statements. Results for any quarter are not necessarily indicative of results for the full year or for any future quarter. See "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Senior Securities" included in this prospectus for more information.

The below selected quarterly financial data is for NMFC.

N/A Not applicable, as NMF Holdings was not unitized until May 19, 2011.

Table of Contents

DESCRIPTION OF RESTRUCTURING

NMFC is a Delaware corporation that was originally incorporated on June 29, 2010. NMFC is a closed-end, non-diversified management investment company that has elected to be regulated as a BDC under the 1940 Act. As such, NMFC is obligated to comply with certain regulatory requirements. NMFC has elected to be treated, and intends to comply with the requirements to continue to qualify annually, as a RIC under Subchapter M of the Code. NMFC is also registered as an investment adviser under the Advisers Act.

On May 19, 2011, NMFC priced the IPO of 7,272,727 shares of common stock at a public offering price of \$13.75 per share. Concurrently with the closing of the IPO and at the public offering price of \$13.75 per share, NMFC sold an additional 2,172,000 shares of its common stock to certain executives and employees of, and other individuals affiliated with, New Mountain Capital in the Concurrent Private Placement. Additionally, 1,252,964 shares were issued to the partners of New Mountain Guardian Partners, L.P. at that time for their ownership interest in the Predecessor Entities. In connection with NMFC's IPO and through a series of transactions, the NMF Holdings acquired all of the operations of the Predecessor Entities, including all of the assets and liabilities related to such operations.

NMF Holdings is a Delaware limited liability company. Until May 8, 2014, NMF Holdings was externally managed and was regulated as a BDC under the 1940 Act. As such, NMF Holdings was obligated to comply with certain regulatory requirements. NMF Holdings was treated as a partnership for U.S. federal income tax purposes for so long as it had at least two members. With the completion of the underwritten secondary offering on February 3, 2014, NMF Holdings' existence as a partnership for U.S. federal income tax purposes terminated and NMF Holdings became an entity that is disregarded as a separate entity from its owner for U.S. federal tax purposes. See "Material Federal Income Tax Considerations".

Until May 8, 2014, NMF Holdings was externally managed by the Investment Adviser. As of May 8, 2014, the Investment Adviser now serves as the external investment adviser to NMFC. The Administrator provides the administrative services necessary for operations. The Investment Adviser and Administrator are wholly-owned subsidiaries of New Mountain Capital. New Mountain Capital is a firm with a track record of investing in the middle market and with assets under management totaling more than \$15.0 billion(1), which includes total assets held by the Company. New Mountain Capital focuses on investing in defensive growth companies across its private equity, public equity, and credit investment vehicles. NMF Holdings, formerly known as New Mountain Guardian (Leveraged), L.L.C., was originally formed as a subsidiary of Guardian AIV by New Mountain Capital in October 2008. Guardian AIV was formed through an allocation of approximately \$300.0 million of the \$5.1 billion of commitments supporting New Mountain Partners III, L.P., a private equity fund managed by New Mountain Capital. In February 2009, New Mountain Capital formed a co-investment vehicle, New Mountain Guardian Partners, L.P., comprising \$20.4 million of commitments.

Until April 25, 2014, AIV Holdings was a Delaware corporation that was originally incorporated on March 11, 2011. AIV Holdings was dissolved on April 25, 2014. Guardian AIV, a Delaware limited partnership, was AIV Holdings' sole stockholder. AIV Holdings was a closed-end, non-diversified management investment company that was regulated as a BDC under the 1940 Act. As such, AIV Holdings was obligated to comply with certain regulatory requirements. AIV Holdings was treated, and complied with the requirements to qualify annually, as a RIC under the Code.

(1) Includes amounts committed, not all of which have been drawn down and invested to-date, as of March 31, 2015, as well as amounts called and returned since inception.

Table of Contents

Prior to the Restructuring (as defined below) on May 8, 2014, NMFC and AIV Holdings were holding companies with no direct operations of their own, and their sole asset was their ownership in NMF Holdings. In connection with the IPO, NMFC and AIV Holdings each entered into a joinder agreement with respect to the Limited Liability Company Agreement, as amended and restated, of NMF Holdings, pursuant to which NMFC and AIV Holdings were admitted as members of NMF Holdings. NMFC acquired from NMF Holdings, with the gross proceeds of the IPO and the Concurrent Private Placement, common membership units ("units") of NMF Holdings (the number of units were equal to the number of shares of NMFC's common stock sold in the IPO and the Concurrent Private Placement). Additionally, NMFC received units of NMF Holdings equal to the number of shares of common stock of NMFC issued to the partners of New Mountain Guardian Partners, L.P. Guardian AIV was the parent of NMF Holdings prior to the IPO and, as a result of the transactions completed in connection with the IPO, obtained units in NMF Holdings. Guardian AIV contributed its units in NMF Holdings to AIV Holdings in exchange for common stock of AIV Holdings. AIV Holdings had the right to exchange all or any portion of its units in NMF Holdings for shares of NMFC's common stock on a one-for-one basis at any time.

The original structure was designed to generally prevent NMFC and its stockholders from being allocated taxable income with respect to unrecognized gains that existed at the time of the IPO in the Predecessor Entities' assets, and rather such amounts would be allocated generally to AIV Holdings. The result was that any distributions made to NMFC's stockholders that were attributable to such gains generally were not treated as taxable dividends but rather as return of capital. See "Material Federal Income Tax Considerations" included in this prospectus.

Since the IPO through February 3, 2014, NMFC completed five underwritten secondary offerings of its common stock on behalf of AIV Holdings as the selling stockholder. In connection with these five secondary offerings, AIV Holdings tendered an aggregate of 20,221,938 units of NMF Holdings held by AIV Holdings to NMFC in exchange for the net proceeds (after deducting underwriting discounts and commissions) of these five secondary offerings and NMFC issued an aggregate of 20,221,938 shares of its common stock directly to the underwriters for these five secondary offerings. AIV Holdings distributed all of the net proceeds from these five secondary offerings to its sole stockholder, Guardian AIV. With the completion of the final secondary offering on February 3, 2014, NMFC now owns 100.0% of the units of NMF Holdings, which is now a wholly-owned subsidiary of NMFC.

As a BDC, AIV Holdings had been subject to the 1940 Act, including certain provisions applicable only to BDCs. Accordingly, and after careful consideration of the 1940 Act requirements applicable to BDCs, the cost of 1940 Act compliance and a thorough assessment of AIV Holdings' business model, AIV Holdings' board of directors determined that continuation as a BDC was not in the best interests of AIV Holdings and Guardian AIV. Specifically, given that AIV Holdings was formed for the sole purpose of holding units of NMF Holdings and AIV Holdings had disposed of all of the units of NMF Holdings that it was holding as of February 3, 2014, the board of directors of AIV Holdings approved and declared advisable at an in-person meeting held on March 25, 2014 the withdrawal of AIV Holdings' election to be regulated as a BDC under the 1940 Act. In addition, the board of directors of AIV Holdings approved and declared advisable for AIV Holdings to terminate its registration under Section 12(g) of the Exchange Act and to dissolve AIV Holdings under the laws of the State of Delaware.

Upon receipt of the necessary stockholder consent to authorize the board of directors of AIV Holdings to withdraw AIV Holdings' election to be regulated as a BDC, the withdrawal was filed and became effective upon receipt by the SEC of AIV Holdings' notification of withdrawal on Form N-54C on April 15, 2014. The board of directors of AIV Holdings believed that AIV Holdings met the requirements for filing the notification to withdraw its election to be regulated as a BDC, upon the receipt of the necessary stockholder consent. After the notification of withdrawal of AIV

Table of Contents

Holdings' BDC election was filed with the SEC, AIV Holdings was no longer subject to the regulatory provisions of the 1940 Act applicable to BDCs generally, including regulations related to insurance, custody, composition of its board of directors, affiliated transactions and any compensation arrangements.

In addition, on April 15, 2014, AIV Holdings filed a Form 15 with the SEC to terminate AIV Holdings' registration under Section 12(g) of the Exchange Act. After these SEC filings and any other federal or state regulatory or tax filings were made, AIV Holdings proceeded to dissolve under Delaware law by filing a certificate of dissolution in Delaware on April 25, 2014.

Until May 8, 2014, as a BDC, NMF Holdings had been subject to the 1940 Act, including certain provisions applicable only to BDCs. Accordingly, and after careful consideration of the 1940 Act requirements applicable to BDCs, the cost of 1940 Act compliance and a thorough assessment of NMF Holdings' current business model, NMF Holdings' board of directors determined at an in-person meeting held on March 25, 2014 that continuation as a BDC was not in the best interests of NMF Holdings.

At the 2014 joint annual meeting of the stockholders of NMFC and the sole unit holder of NMF Holdings held on May 6, 2014, the stockholders of NMFC and the sole unit holder of NMF Holdings approved a proposal which authorized the board of directors of NMF Holdings to withdraw NMF Holdings' election to be regulated as a BDC. Additionally, the stockholders of NMFC approved a new investment advisory and management agreement between NMFC and the Investment Adviser. Upon receipt of the necessary stockholder/unit holder approval to authorize the board of directors of NMF Holdings to withdraw NMF Holdings' election to be regulated as a BDC, the withdrawal was filed and became effective upon receipt by the SEC of NMF Holdings' notification of withdrawal on Form N-54C on May 8, 2014.

Effective May 8, 2014, NMF Holdings amended and restated its Limited Liability Company Agreement, (as amended and restated, the "Operating Agreement") such that the board of directors of NMF Holdings was dissolved and NMF Holdings remained a wholly-owned subsidiary of NMFC with the sole purpose of serving as a special purpose vehicle for NMF Holdings' credit facility, and NMFC assumed all other operating activities previously undertaken by NMF Holdings under the management of the Investment Adviser (collectively, the "Restructuring"). After the Restructuring, all wholly-owned direct and indirect subsidiaries of NMFC are consolidated with NMFC for both 1940 Act and financial statement reporting purposes, subject to any financial statement adjustments required in accordance with GAAP. NMFC continues to remain a BDC regulated under the 1940 Act.

Also, on May 8, 2014, NMF Holdings filed Form 15 with the SEC to terminate NMF Holdings' registration under Section 12(g) of the Exchange Act. As a special purpose entity, NMF Holdings is bankruptcy-remote and non-recourse to NMFC. In addition, the assets held at NMF Holdings will continue to be used to secure NMF Holdings' credit facility.

Table of Contents

The diagram below depicts our organizational structure as of May 28, 2015.

*
Includes partners of New Mountain Guardian Partners, L.P.

**
NMFC is the sole limited partner of SBIC LP. NMFC, directly or indirectly through SBIC GP, wholly-owns SBIC LP. NMFC owns 100.0% of SBIC GP which owns 1.0% of SBIC LP. NMFC owns 99.0% of SBIC LP.

RISK FACTORS

Investing in our securities involves a number of significant risks. In addition to the other information contained in this prospectus and any accompanying prospectus supplement, you should consider carefully the following information before making an investment in our securities. The risks set out below are not the only risks we face. Additional risks and uncertainties not presently known to us or not presently deemed material by us might also impair our operations and performance. If any of the following events occur, our business, financial condition and results of operations could be materially and adversely affected. In such case, our net asset value and the trading price of our common stock could decline or the value of our preferred stock, subscription rights, warrants or debt securities may decline, and you may lose all or part of your investment.

Risks Related to our Business and Structure

Uncertainty about the financial stability of the U.S. and of several countries in the European Union (EU) could have a significant adverse effect on our business, results of operations and financial condition, thus affecting our financial condition and earnings.

Due to federal budget deficit concerns, S&P downgraded the federal government's credit rating from AAA to AA+ for the first time in history on August 5, 2011. Further, Moody's and Fitch have warned that they may downgrade the federal government's credit rating. Further downgrades or warnings by S&P or other rating agencies, and the government's credit and deficit concerns in general, could cause interest rates and borrowing costs to rise, which may negatively impact both the perception of credit risk associated with our debt portfolio and our ability to access the debt markets on favorable terms. In addition, a decreased credit rating could create broader financial turmoil and uncertainty, which may weigh heavily on our financial performance and the value of our common stock.

In 2010, a financial crisis emerged in Europe, triggered by high budget deficits and rising direct and contingent sovereign debt in Greece, Ireland, Italy, Portugal and Spain, which created concerns about the ability of these nations to continue to service their sovereign debt obligations. Risks and ongoing concerns resulting from the debt crisis in Europe could have a detrimental impact on the global economic recovery, sovereign and non-sovereign debt in these countries and the financial condition of European financial institutions. Market and economic disruptions have affected, and may continue to affect, consumer confidence levels and spending, personal bankruptcy rates, levels of incurrence and default on consumer debt and home prices, among other factors. We cannot assure you that the market disruptions in Europe, including the increased cost of funding for certain governments and financial institutions, will not spread, and we cannot assure you that future assistance packages will be available, or if available, sufficient to stabilize the affected countries and markets in Europe or elsewhere. To the extent uncertainty regarding any economic recovery in Europe continues to negatively impact consumer confidence and consumer credit factors, our business and results of operations could be significantly and adversely affected.

In October 2014, the U.S. Federal Reserve announced that it has terminated its bond-buying program, or quantitative easing, which was designed to stimulate the economy and expand the Federal Reserve's holdings of long-term securities until key economic indicators, such as the unemployment rate, showed signs of improvement. It is unclear what effect, if any, the Federal Reserve's termination of quantitative easing will have on the value of our investments. However, it is possible that without quantitative easing by the Federal Reserve, these developments, along with the European sovereign debt crisis, could cause interest rates and borrowing costs to rise, which may negatively impact our ability to access the debt markets on favorable terms.

Table of Contents

We may suffer credit losses.

Investments in small and middle market businesses are highly speculative and involve a high degree of risk of credit loss. These risks are likely to increase during volatile economic periods, such as the U.S. and many other economies have recently been experiencing.

We do not expect to replicate the Predecessor Entities' historical performance or the historical performance of other entities managed or supported by New Mountain Capital.

We do not expect to replicate the Predecessor Entities' historical performance or the historical performance of New Mountain Capital's investments. Our investment returns may be substantially lower than the returns achieved by the Predecessor Entities. Although the Predecessor Entities commenced operations during otherwise unfavorable economic conditions, this was a favorable environment in which the Predecessor Operating Company could conduct its business in light of its investment objectives and strategy. In addition, our investment strategies may differ from those of New Mountain Capital or its affiliates. We, as a BDC and as a RIC, are subject to certain regulatory restrictions that do not apply to New Mountain Capital or its affiliates.

We are generally not permitted to invest in any portfolio company in which New Mountain Capital or any of its affiliates currently have an investment or to make any co-investments with New Mountain Capital or its affiliates, except to the extent permitted by the 1940 Act. This may adversely affect the pace at which we make investments. Moreover, we may operate with a different leverage profile than the Predecessor Entities. Furthermore, none of the prior results from the Predecessor Entities were from public reporting companies, and all or a portion of these results were achieved in particularly favorable market conditions for the Predecessor Operating Company's investment strategy which may never be repeated. Finally, we can offer no assurance that our investment team will be able to continue to implement its investment objective with the same degree of success as it has had in the past.

There is uncertainty as to the value of our portfolio investments because most of our investments are, and may continue to be in private companies and recorded at fair value. In addition, the fair values of our investments are determined by our board of directors in accordance with our valuation policy.

Some of our investments are and may be in the form of securities or loans that are not publicly traded. The fair value of these investments may not be readily determinable. Under the 1940 Act, we are required to carry our portfolio investments at market value or, if there is no readily available market value, at fair value as determined in good faith by our board of directors, including to reflect significant events affecting the value of its securities. We value our investments for which we do not have readily available market quotations quarterly, or more frequently as circumstances require, at fair value as determined in good faith by our board of directors in accordance with our valuation policy, which is at all times consistent with GAAP.

Our board of directors utilizes the services of one or more independent third-party valuation firms to aid it in determining the fair value with respect to its material unquoted assets in accordance with our valuation policy. The inputs into the determination of fair value of these investments may require significant management judgment or estimation. Even if observable market data is available, such information may be the result of consensus pricing information or broker quotes, which include a disclaimer that the broker would not be held to such a price in an actual transaction. The non-binding nature of consensus pricing and/or quotes accompanied by disclaimers materially reduces the reliability of such information.

The types of factors that the board of directors takes into account in determining the fair value of our investments generally include, as appropriate: available market data, including relevant and

Table of Contents

applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows and the markets in which it does business, comparisons of financial ratios of peer companies that are public, comparable merger and acquisition transactions and the principal market and enterprise values. Since these valuations, and particularly valuations of private securities and private companies, are inherently uncertain, may fluctuate over short periods of time and may be based on estimates, our determinations of fair value may differ materially from the values that would have been used if a ready market for these securities existed.

Due to this uncertainty, our fair value determinations may cause our net asset value, on any given date, to be materially understated or overstated. In addition, investors purchasing our common stock based on an overstated net asset value would pay a higher price than the realizable value that our investments might warrant.

We may adjust quarterly the valuation of our portfolio to reflect our board of directors' determination of the fair value of each investment in our portfolio. Any changes in fair value are recorded in our statement of operations as net change in unrealized appreciation or depreciation.

Our ability to achieve our investment objective depends on key investment personnel of the Investment Adviser. If the Investment Adviser were to lose any of its key investment personnel, our ability to achieve our investment objective could be significantly harmed.

We depend on the investment judgment, skill and relationships of the investment professionals of the Investment Adviser, particularly Steven B. Klinsky and Robert A. Hamwee, as well as other key personnel to identify, evaluate, negotiate, structure, execute, monitor and service our investments. The Investment Adviser, as an affiliate of New Mountain Capital, is supported by New Mountain Capital's team, which as of March 31, 2015 consisted of approximately 100 staff members of New Mountain Capital and its affiliates to fulfill its obligations to us under the Investment Management Agreement. The Investment Adviser may also depend upon New Mountain Capital to obtain access to investment opportunities originated by the professionals of New Mountain Capital and its affiliates. Our future success depends to a significant extent on the continued service and coordination of the key investment personnel of the Investment Adviser. The departure of any of these individuals could have a material adverse effect on our ability to achieve our investment objective.

The Investment Committee, which provides oversight over our investment activities, is provided by the Investment Adviser. The Investment Committee currently consists of five members. The loss of any member of the Investment Committee or of other senior professionals of the Investment Adviser and its affiliates without suitable replacement could limit our ability to achieve our investment objective and operate as we anticipate. This could have a material adverse effect on our financial condition, results of operation and cash flows. To achieve our investment objective, the Investment Adviser may hire, train, supervise and manage new investment professionals to participate in its investment selection and monitoring process. If the Investment Adviser is unable to find investment professionals or do so in a timely manner, our business, financial condition and results of operations could be adversely affected.

The Investment Adviser has limited experience managing a BDC or a RIC, which could adversely affect our business.

Other than us, the Investment Adviser has not previously managed a BDC or a RIC. The 1940 Act and the Code impose numerous constraints on the operations of BDCs and RICs that do not apply to the other investment vehicles previously managed by the investment professionals of the

Table of Contents

Investment Adviser. For example, under the 1940 Act, BDCs are required to invest at least 70.0% of their total assets primarily in securities of qualifying U.S. private or thinly traded companies, cash, cash equivalents, U.S. government securities and other high quality debt investments that mature in one year or less. Moreover, qualification for taxation as a RIC under subchapter M of the Code requires satisfaction of source-of-income, asset diversification and annual distribution requirements. The failure to comply with these provisions in a timely manner could prevent us from qualifying as a BDC or as a RIC and could force us to pay unexpected taxes and penalties, which would have a material adverse effect on our performance. The Investment Adviser's lack of experience in managing a portfolio of assets under the constraints applicable to BDCs and RICs may hinder its ability to take advantage of attractive investment opportunities and, as a result, achieve our investment objective. If we fail to maintain our status as a BDC or as a RIC, our operating flexibility could be significantly reduced.

We operate in a highly competitive market for investment opportunities and may not be able to compete effectively.

We compete for investments with other BDCs and investment funds (including private equity and hedge funds), as well as traditional financial services companies such as commercial banks and other sources of funding. Many of our competitors are substantially larger and have considerably greater financial, technical and marketing resources than we do. For example, some competitors may have a lower cost of capital and access to funding sources that are not available to us. In addition, some of our competitors may have higher risk tolerances or different risk assessments than us. Furthermore, many of our competitors have greater experience operating under, or are not subject to, the regulatory restrictions that the 1940 Act imposes on us as a BDC or the source-of-income, asset diversification and distribution requirements that we must satisfy to maintain our RIC status. These characteristics could allow our competitors to consider a wider variety of investments, establish more relationships and offer better pricing and more flexible structuring than we are able to do. There are a number of new BDCs that have recently completed their IPO's or that have filed registration statements with the SEC, which could create increased competition for investment opportunities.

We may lose investment opportunities if it does not match our competitors' pricing, terms and structure. With respect to the investments that we make, we do not seek to compete based primarily on the interest rates we may offer, and we believe that some of our competitors may make loans with interest rates that may be lower than the rates we offer. In the secondary market for acquiring existing loans, we expect to compete generally on the basis of pricing terms. If we match our competitors' pricing, terms and structure, we may experience decreased net interest income, lower yields and increased risk of credit loss. If we are forced to match our competitors' pricing, terms and structure, we may not be able to achieve acceptable returns on our investments or may bear substantial risk of capital loss. Part of our competitive advantage stems from the fact that we believe the market for middle market lending is underserved by traditional bank lenders and other financial sources. A significant increase in the number and/or the size of our competitors in this target market could force us to accept less attractive investment terms. We may also compete for investment opportunities with accounts managed by the Investment Adviser or its affiliates. Although the Investment Adviser allocates opportunities in accordance with its policies and procedures, allocations to such other accounts reduces the amount and frequency of opportunities available to us and may not be in our best interests and, consequently, our stockholders. Moreover, the performance of investment opportunities is not known at the time of allocation. If we are not able to compete effectively, our business, financial condition and results of operations may be adversely affected, thus affecting our business, financial condition and results of operations. Because of this competition, there can be no assurance that we will be able to identify and take advantage of

Table of Contents

attractive investment opportunities that we identify or that we will be able to fully invest our available capital.

Our business, results of operations and financial condition depends on our ability to manage future growth effectively.

Our ability to achieve our investment objective and to grow depends on the Investment Adviser's ability to identify, invest in and monitor companies that meet our investment criteria. Accomplishing this result on a cost-effective basis is largely a function of the Investment Adviser's structuring of the investment process, its ability to provide competent, attentive and efficient services to us and its ability to access financing on acceptable terms. The Investment Adviser has substantial responsibilities under the Investment Management Agreement and may also be called upon to provide managerial assistance to our portfolio companies. These demands on the time of the Investment Adviser and its investment professionals may distract them or slow our rate of investment. In order to grow, we and the Investment Adviser may need to retain, train, supervise and manage new investment professionals. However, these investment professionals may not be able to contribute effectively to the work of the Investment Adviser. If we are unable to manage our future growth effectively, our business, results of operations and financial condition could be materially adversely affected.

The incentive fee may induce the Investment Adviser to make speculative investments.

The incentive fee payable to the Investment Adviser may create an incentive for the Investment Adviser to pursue investments that are risky or more speculative than would be the case in the absence of such compensation arrangement, which could result in higher investment losses, particularly during cyclical economic downturns. The incentive fee payable to the Investment Adviser is calculated based on a percentage of our return on investment capital. This may encourage the Investment Adviser to use leverage to increase the return on our investments. In addition, because the base management fee is payable based upon our gross assets, which includes any borrowings for investment purposes, but excludes borrowings under the SLF Credit Facility and cash and cash equivalents for investment purposes, the Investment Adviser may be further encouraged to use leverage to make additional investments. Under certain circumstances, the use of leverage may increase the likelihood of default, which would impair the value of our common stock.

The incentive fee payable to the Investment Adviser also may create an incentive for the Investment Adviser to invest in instruments that have a deferred interest feature, even if such deferred payments would not provide the cash necessary to pay current distributions to our stockholders. Under these investments, we would accrue the interest over the life of the investment but would not receive the cash income from the investment until the end of the investment's term, if at all. Our net investment income used to calculate the income portion of the incentive fee, however, includes accrued interest. Thus, a portion of the incentive fee would be based on income that we have not yet received in cash and may never receive in cash if the portfolio company is unable to satisfy such interest payment obligations. In addition, the "catch-up" portion of the incentive fee may encourage the Investment Adviser to accelerate or defer interest payable by portfolio companies from one calendar quarter to another, potentially resulting in fluctuations in timing and dividend amounts.

We may be obligated to pay the Investment Adviser incentive compensation even if we incur a loss.

The Investment Adviser is entitled to incentive compensation for each fiscal quarter in an amount equal to a percentage of the excess of our Pre-Incentive Fee Adjusted Net Investment

Table of Contents

Income for that quarter (before deducting incentive compensation) above a performance threshold for that quarter. Accordingly, since the performance threshold is based on a percentage of our net asset value, decreases in our net asset value make it easier to achieve the performance threshold. Our Pre-Incentive Fee Adjusted Net Investment Income for incentive compensation purposes excludes realized and unrealized capital losses or depreciation that it may incur in the fiscal quarter, even if such capital losses or depreciation result in a net loss on our statement of operations for that quarter. Thus, we may be required to pay the Investment Adviser incentive compensation for a fiscal quarter even if there is a decline in the value of our portfolio or we incur a net loss for that quarter.

We borrow money, which could magnify the potential for gain or loss on amounts invested in us and increase the risk of investing in us.

We borrow money as part of our business plan. Borrowings, also known as leverage, magnify the potential for gain or loss on invested equity capital and may, consequently, increase the risk of investing in us. We expect to continue to use leverage to finance our investments, through senior securities issued by banks and other lenders. Lenders of these senior securities have fixed dollar claims on our assets that are superior to claims of our common stockholders. If the value of our assets decreases, leveraging would cause our net asset value to decline more sharply than it otherwise would have had it not leveraged. Similarly, any decrease in our income would cause our net income to decline more sharply than it would have had it not borrowed. Such a decline could adversely affect our ability to make common stock dividend payments. In addition, because our investments may be illiquid, we may be unable to dispose of them or to do so at a favorable price in the event we need to do so if we are unable to refinance any indebtedness upon maturity and, as a result, we may suffer losses. Leverage is generally considered a speculative investment technique.

Our ability to service any debt that we incur depends largely on our financial performance and is subject to prevailing economic conditions and competitive pressures. Moreover, as the Investment Adviser's management fee is payable to the Investment Adviser based on gross assets, including those assets acquired through the use of leverage, the Investment Adviser may have a financial incentive to incur leverage which may not be consistent with our interests and the interests of our common stockholders. In addition, holders of our common stock will, indirectly, bear the burden of any increase in our expenses as a result of leverage, including any increase in the management fee payable to the Investment Adviser.

At March 31, 2015, we had \$442.6 million, \$68.8 million, \$115.0 million and \$37.5 million of indebtedness outstanding under the Holdings Credit Facility, the NMFC Credit Facility, the Convertible Notes and the SBA-guaranteed debentures, respectively. The Holdings Credit Facility had a weighted average interest rate of 2.6% for the three months ended March 31, 2015 and the NMFC Credit Facility had a weighted average interest rate of 2.7% for the three months ended March 31, 2015. The interest rate on the Convertible Notes is 5.0% per annum and the interest rate on the SBA-guaranteed debentures is 2.9% per annum as of March 31, 2015.

Illustration. The following table illustrates the effect of leverage on returns from an investment in our common stock assuming various annual returns, net of expenses and adjusted for unsettled securities purchased. The calculations in the table below are hypothetical. Actual returns may be higher or lower than those appearing below. The calculation assumes (i) \$1,487.6 million in total assets, (ii) a weighted average cost of borrowings of 3.0%, which assumes the weighted average interest rates as of March 31, 2015 for the Holdings Credit Facility and the NMFC Credit Facility, the interest rate as of March 31, 2015 for the Convertible Notes and the interest rate and annual charge as of March 31, 2015 for the SBA-guaranteed debentures, (iii) \$663.9 million in debt outstanding and (iv) \$806.5 million in net assets.

We may need to raise additional capital to grow.

We may need additional capital to fund new investments and grow. We may access the capital markets periodically to issue equity securities. In addition, we may also issue debt securities or borrow from financial institutions in order to obtain such additional capital. Unfavorable economic conditions could increase our funding costs and limit our access to the capital markets or result in a decision by lenders not to extend credit to us. A reduction in the availability of new capital could limit our ability to grow. In addition, we are required to distribute at least 90.0% of its net ordinary income and net short-term capital gains in excess of net long-term capital losses, if any, to our stockholders to maintain our RIC status. As a result, these earnings will not be available to fund new investments. If we are unable to access the capital markets or if we are unable to borrow from financial institutions, we may be unable to grow our business and execute our business strategy fully, and our earnings, if any, could decrease, which could have an adverse effect on the value of our securities.

If we are unable to comply with the covenants or restrictions in our borrowings, our business could be materially adversely affected.

The Holdings Credit Facility includes covenants that, subject to exceptions, restrict our ability to pay distributions, create liens on assets, make investments, make acquisitions and engage in mergers or consolidations. The Holdings Credit Facility also includes a change of control provision that accelerates the indebtedness under the facility in the event of certain change of control events. Complying with these restrictions may prevent us from taking actions that we believe would help us grow our business or are otherwise consistent with our investment objective. These restrictions could also limit our ability to plan for or react to market conditions or meet extraordinary capital needs or otherwise restrict corporate activities. In addition, the restrictions contained in the Holdings Credit Facility could limit our ability to make distributions to our stockholders in certain circumstances, which could result in us failing to qualify as a RIC and thus becoming subject to corporate-level U.S. federal income tax (and any applicable state and local taxes).

The NMFC Credit Facility includes customary covenants, including certain financial covenants related to asset coverage and liquidity and other maintenance covenants, as well as customary events of default.

Our Convertible Notes are subject to certain covenants, including covenants requiring us to provide financial information to the holders of the Convertible Notes and the trustee if we cease to be subject to the reporting requirements of the Exchange Act. These covenants are subject to limitations and exceptions.

The breach of any of the covenants or restrictions, unless cured within the applicable grace period, would result in a default under the applicable credit facility that would permit the lenders thereunder to declare all amounts outstanding to be due and payable. In such an event, we may not have sufficient assets to repay such indebtedness. As a result, any default could have serious consequences to our financial condition. An event of default or an acceleration under the credit facilities could also cause a cross-default or cross-acceleration of another debt instrument or contractual obligation, which would adversely impact our liquidity. We may not be granted waivers

Table of Contents

or amendments to the credit facilities if for any reason we are unable to comply with it, and we may not be able to refinance the credit facilities on terms acceptable to us, or at all.

We may enter into reverse repurchase agreements, which are another form of leverage.

We may enter into reverse repurchase agreements as part of our management of our investment portfolio. Under a reverse repurchase agreement, we will effectively pledge our assets as collateral to secure a short-term loan. Generally, the other party to the agreement makes the loan in an amount equal to a percentage of the fair value of the pledged collateral. At the maturity of the reverse repurchase agreement, the payor will be required to repay the loan and correspondingly receive back its collateral. While used as collateral, the assets continue to pay principal and interest which are for our benefit.

Our use of reverse repurchase agreements, if any, involves many of the same risks involved in our use of leverage, as the proceeds from reverse repurchase agreements generally will be invested in additional securities. There is a risk that the market value of the securities acquired with the proceeds of a reverse repurchase agreement may decline below the price of the securities that we have sold but remain obligated to repurchase under the reverse repurchase agreement. In addition, there is a risk that the market value of the securities effectively pledged by us may decline. If a buyer of securities under a reverse repurchase agreement were to file for bankruptcy or experience insolvency, we may be adversely affected. Also, in entering into reverse repurchase agreements, we would bear the risk of loss to the extent that the proceeds of such agreements at settlement are more than the fair value of the underlying securities being pledged. In addition, due to the interest costs associated with reverse repurchase agreements transactions, our net asset value would decline, and, in some cases, we may be worse off than if such instruments had not been used.

If we are unable to obtain additional debt financing, or if our borrowing capacity is materially reduced, our business could be materially adversely affected.

We may want to obtain additional debt financing, or need to do so upon maturity of our credit facilities, in order to obtain funds which may be made available for investments. The revolving period under the Holdings Credit Facility ends on December 18, 2017, and the Holdings Credit Facility matures on December 18, 2019. The NMFC Credit Facility, the Convertible Notes and the SBA-guaranteed debentures mature on June 4, 2019, June 15, 2019 and March 1, 2025, respectively. If we are unable to increase, renew or replace any such facilities and enter into new debt financing facilities or other debt financing on commercially reasonable terms, our liquidity may be reduced significantly. In addition, if we are unable to repay amounts outstanding under any such facilities and are declared in default or are unable to renew or refinance these facilities, we may not be able to make new investments or operate our business in the normal course. These situations may arise due to circumstances that we may be unable to control, such as lack of access to the credit markets, a severe decline in the value of the U.S. dollar, a further economic downturn or an operational problem that affects us or third parties, and could materially damage our business operations, results of operations and financial condition.

A renewed disruption in the capital markets and the credit markets could adversely affect our business.

As a BDC, we must maintain our ability to raise additional capital for investment purposes. If we are unable to access the capital markets or credit markets, we may be forced to curtail our business operations and may be unable to pursue new investment opportunities. The capital markets and the credit markets have experienced extreme volatility in recent periods, and, as a result, there have been and will likely continue to be uncertainty in the financial markets in general.

Table of Contents

Disruptions in the capital markets in recent years increased the spread between the yields realized on risk-free and higher risk securities, resulting in illiquidity in parts of the capital markets. In addition, a prolonged period of market illiquidity may cause us to reduce the volume of loans that we originate and/or funds and adversely affect the value of our portfolio investments. Unfavorable economic conditions could also increase our funding costs, limit our access to the capital markets or result in a decision by lenders not to extend credit to us. These events could limit our investment originations, limit our ability to grow and negatively impact our operating results. Ongoing disruptive conditions in the financial industry and the impact of new legislation in response to those conditions could restrict our business operations and, consequently, could adversely impact our business, results of operations and financial condition.

If the fair value of our assets declines substantially, we may fail to maintain the asset coverage ratios imposed upon it by the 1940 Act and contained in the Holdings Credit Facility and NMFC Credit Facility. Any such failure would affect our ability to issue senior securities, including borrowings, draw on the Holdings Credit Facility and NMFC Credit Facility and pay distributions, which could materially impair our business operations. Our liquidity could be impaired further by our inability to access the capital or credit markets. For example, we cannot be certain that we will be able to renew our credit facilities as they mature or to consummate new borrowing facilities to provide capital for normal operations, including new originations, or reapply for SBIC licenses. In recent years, reflecting concern about the stability of the financial markets, many lenders and institutional investors have reduced or ceased providing funding to borrowers. This market turmoil and tightening of credit have led to increased market volatility and widespread reduction of business activity generally in recent years. In addition, adverse economic conditions due to these disruptive conditions could materially impact our ability to comply with the financial and other covenants in any existing or future credit facilities. If we are unable to comply with these covenants, this could materially adversely affect our business, results of operations and financial condition.

Changes in interest rates may affect our cost of capital and net investment income.

To the extent we borrow money to make investments, our net investment income depends, in part, upon the difference between the rate at which we borrow funds and the rate at which we invest those funds. As a result, a significant change in market interest rates may have a material adverse effect on our net investment income in the event we use debt to finance our investments. In periods of rising interest rates, our cost of funds would increase, which could reduce our net investment income. We may use interest rate risk management techniques in an effort to limit our exposure to interest rate fluctuations. These techniques may include various interest rate hedging activities to the extent permitted by the 1940 Act.

The incentive fee we pay to the Investment Adviser with respect to capital gains may be effectively greater than 20.0%.

As a result of the operation of the cumulative method of calculating the capital gains portion of the incentive fee we pay to the Investment Adviser, the cumulative aggregate capital gains fee received by the Investment Adviser could be effectively greater than 20.0%, depending on the timing and extent of subsequent net realized capital losses or net unrealized depreciation. We cannot predict whether, or to what extent, this payment calculation would affect your investment in our common stock.

SBIC LP is licensed by the SBA and is subject to SBA regulations.

On August 1, 2014, our wholly-owned direct and indirect subsidiary, SBIC LP, received its license to operate as an SBIC under the 1958 Act and is regulated by the SBA. The SBA places certain limitations on the financing terms of investments by SBICs in portfolio companies, regulates

Table of Contents

the types of financings, prohibits investing in small businesses with certain characteristics or in certain industries and requires capitalization thresholds that limit distributions to us. Compliance with SBIC requirements may cause SBIC LP to invest at less competitive rates in order to find investments that qualify under the SBA regulations.

The SBA regulations require, among other things, an annual periodic examination of a licensed SBIC by an SBA examiner to determine the SBIC's compliance with the relevant SBA regulations, and the performance of a financial audit by an independent auditor. If SBIC LP fails to comply with applicable regulations, the SBA could, depending on the severity of the violation, limit or prohibit SBIC LP's use of the debentures, declare outstanding debentures immediately due and payable, and/or limit SBIC LP from making new investments. In addition, the SBA could revoke or suspend SBIC LP's license for willful or repeated violation of, or willful or repeated failure to observe, any provision of the 1958 Act or any rule or regulation promulgated thereunder. These actions by the SBA would, in turn, negatively affect us because SBIC LP is our wholly-owned direct and indirect subsidiary.

SBA-guaranteed debentures are non-recourse to us, have a ten year maturity, and may be prepaid at any time without penalty. Pooling of issued SBA-guaranteed debentures occurs in March and September of each year. The interest rate of SBA-guaranteed debentures is fixed at the time of pooling at a market-driven spread over ten year U.S. Treasury Notes. The interest rate on debentures issued prior to the next pooling date is LIBOR plus 30 basis points. Leverage through SBA-guaranteed debentures is subject to required capitalization thresholds. Current SBA regulations limit the amount that any SBIC may borrow to two tiers of leverage capped at \$150.0 million, where each tier is equivalent to the SBIC's regulatory capital, which generally equates to the amount of equity capital in the SBIC.

Risks Related to Our Operations

Because we intend to distribute substantially all of our income to our stockholders to obtain and maintain our status as a RIC, we will continue to need additional capital to finance our growth. If additional funds are unavailable or not available on favorable terms, our ability to grow may be impaired.

In order for us to qualify for the tax benefits available to RICs and to avoid payment of excise taxes, we intend to distribute to our stockholders substantially all of our annual taxable income. As a result of these requirements, we may need to raise capital from other sources to grow our business.

As a BDC, we are required to meet a coverage ratio of total assets, less liabilities and indebtedness not represented by senior securities and excluding SBA-guaranteed debentures as permitted by exemptive relief obtained from the SEC, to total senior securities, which includes all of our borrowings with the exception of SBA-guaranteed debentures, of at least 200.0%. This requirement limits the amount that we may borrow. Since we continue to need capital to grow our investment portfolio, these limitations may prevent us from incurring debt and require us to raise additional equity at a time when it may be disadvantageous to do so. While we expect that we will be able to borrow and to issue additional debt securities and expect that we will be able to issue additional equity securities, which would in turn increase the equity capital available to us, we cannot assure you that debt and equity financing will be available to us on favorable terms, or at all. In addition, as a BDC, we generally are not permitted to issue equity securities priced below net asset value without stockholder approval. If additional funds are not available us, we may be forced to curtail or cease new investment activities, and our net asset value could decline.

Table of Contents

SBIC LP may be unable to make distributions to us that will enable us to meet or maintain our RIC status.

In order for us to continue to qualify for tax benefits available to RICs and to minimize corporate-level U.S. federal income tax, we must distribute to our stockholders, for each taxable year, at least 90.0% of our "investment company taxable income", which is generally our net ordinary income plus the excess of realized net short-term capital gains over realized net long-term capital losses, including investment company taxable income from SBIC LP. We will be partially dependent on SBIC LP for cash distributions to enable us to meet the RIC distribution requirements. SBIC LP may be limited by SBA regulations governing SBICs from making certain distributions to us that may be necessary to maintain our status as a RIC. We may have to request a waiver of the SBA's restrictions for SBIC LP to make certain distributions to maintain our RIC status. We cannot assure you that the SBA will grant such waiver and if SBIC LP is unable to obtain a waiver, compliance with the SBA regulations may result in corporate-level U.S. federal income tax.

Our ability to enter into transactions with our affiliates is restricted.

As a BDC, we are prohibited under the 1940 Act from participating in certain transactions with our affiliates without the prior approval of our independent directors and, in some cases, the SEC. Any person that owns, directly or indirectly, 5.0% or more of our outstanding voting securities is an affiliate of ours for purposes of the 1940 Act. We are generally prohibited from buying or selling any securities (other than our securities) from or to an affiliate. The 1940 Act also prohibits certain "joint" transactions with an affiliate, which could include investments in the same portfolio company (whether at the same or different times), without prior approval of independent directors and, in some cases, the SEC. If a person acquires more than 25.0% of our voting securities, we are prohibited from buying or selling any security (other than our securities) from or to such person or certain of that person's affiliates, or entering into prohibited joint transactions with such persons, absent the prior approval of the SEC. Similar restrictions limit our ability to transact business with our officers or directors or their affiliates. As a result of these restrictions, we may be prohibited from buying or selling any security from or to any portfolio company of a private equity fund managed by any affiliate of the Investment Adviser without the prior approval of the SEC, which may limit the scope of investment opportunities that would otherwise be available to us.

The Investment Adviser has significant potential conflicts of interest with us and, consequently, your interests as stockholders which could adversely impact our investment returns.

Our executive officers and directors, as well as the current or future investment professionals of the Investment Adviser, serve or may serve as officers, directors or principals of entities that operate in the same or a related line of business as we do or of investment funds managed by our affiliates. Accordingly, they may have obligations to investors in those entities, the fulfillment of which might not be in your interests as stockholders. Although we are currently New Mountain Capital's only vehicle focused primarily on investing in the investments that we target, in the future, the investment professionals of the Investment Adviser and/or New Mountain Capital employees that provide services pursuant to the Investment Management Agreement may manage other funds which may from time to time have overlapping investment objectives with our own and, accordingly, may invest in, whether principally or secondarily, asset classes similar to those targeted by us. If this occurs, the Investment Adviser may face conflicts of interest in allocating investment opportunities to us and such other funds. Although the investment professionals endeavor to allocate investment opportunities in a fair and equitable manner, it is possible that we may not be given the opportunity to participate in certain investments made by the Investment Adviser or persons affiliated with the Investment Adviser or that certain of these investment funds may be

Table of Contents

avored over us. When these investment professionals identify an investment, they may be forced to choose which investment fund should make the investment.

If the Investment Adviser forms other affiliates in the future, we may co-invest on a concurrent basis with such other affiliate, subject to compliance with applicable regulations and regulatory guidance or an exemptive order from the SEC and our allocation procedures. In addition, we pay management and incentive fees to the Investment Adviser and reimburse the Investment Adviser for certain expenses it incurs. As a result, investors in our common stock invest in us on a "gross" basis and receive distributions on a "net" basis after our expenses. Also, the incentive fee payable to the Investment Adviser may create an incentive for the Investment Adviser to pursue investments that are riskier or more speculative than would be the case in the absence of such compensation arrangements. Any potential conflict of interest arising as a result of the arrangements with the Investment Adviser could have a material adverse effect on our business, results of operations and financial condition.

The Investment Committee, the Investment Adviser or its affiliates may, from time to time, possess material non-public information, limiting our investment discretion.

The Investment Adviser's investment professionals, Investment Committee or their respective affiliates may serve as directors of, or in a similar capacity with, companies in which we invest. In the event that material non-public information is obtained with respect to such companies, or we become subject to trading restrictions under the internal trading policies of those companies or as a result of applicable law or regulations, we could be prohibited for a period of time from purchasing or selling the securities of such companies, and this prohibition may have an adverse effect on us and our stockholders.

The valuation process for certain of our portfolio holdings creates a conflict of interest.

Some of our portfolio investments are made in the form of securities that are not publicly traded. As a result, our board of directors determines the fair value of these securities in good faith. In connection with this determination, investment professionals from the Investment Adviser may provide our board of directors with portfolio company valuations based upon the most recent portfolio company financial statements available and projected financial results of each portfolio company. In addition, Steven B. Klinsky, a member of our board of directors, has an indirect pecuniary interest in the Investment Adviser. The participation of the Investment Adviser's investment professionals in our valuation process, and the indirect pecuniary interest in the Investment Adviser by a member of our board of directors, could result in a conflict of interest as the Investment Adviser's management fee is based, in part, on our gross assets and incentive fees are based, in part, on unrealized gains and losses.

Conflicts of interest may exist related to other arrangements with the Investment Adviser or its affiliates.

We have entered into a royalty-free license agreement with New Mountain Capital under which New Mountain Capital has agreed to grant us a non-exclusive, royalty-free license to use the name "New Mountain". In addition, we reimburse the Administrator for the allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations to us under the Administration Agreement, such as the allocable portion of the cost of our chief financial officer and chief compliance officer and their respective staffs. This could create conflicts of interest that our board of directors must monitor.

Table of Contents

The Investment Management Agreement with the Investment Adviser and the Administration Agreement with the Administrator were not negotiated on an arm's length basis.

The Investment Management Agreement and the Administration Agreement were negotiated between related parties. In addition, we may choose not to enforce, or to enforce less vigorously, our respective rights and remedies under these agreements because of our desire to maintain our ongoing relationship with the Investment Adviser, the Administrator and their respective affiliates. Any such decision, however, could cause us to breach our fiduciary obligations to our stockholders.

The Investment Adviser's liability is limited under the Investment Management Agreement, and we have agreed to indemnify the Investment Adviser against certain liabilities, which may lead the Investment Adviser to act in a riskier manner than it would when acting for its own account.

Under the Investment Management Agreement, the Investment Adviser does not assume any responsibility other than to render the services called for under that agreement, and it is not responsible for any action of our board of directors in following or declining to follow the Investment Adviser's advice or recommendations. Under the terms of the Investment Management Agreement, the Investment Adviser, its officers, members, personnel, any person controlling or controlled by the Investment Adviser are not liable for acts or omissions performed in accordance with and pursuant to the Investment Management Agreement, except those resulting from acts constituting gross negligence, willful misconduct, bad faith or reckless disregard of the Investment Adviser's duties under the Investment Management Agreement. In addition, we have agreed to indemnify the Investment Adviser and each of its officers, directors, members, managers and employees from and against any claims or liabilities, including reasonable legal fees and other expenses reasonably incurred, arising out of or in connection with our business and operations or any action taken or omitted pursuant to authority granted by the Investment Management Agreement, except where attributable to gross negligence, willful misconduct, bad faith or reckless disregard of such person's duties under the Investment Management Agreement. These protections may lead the Investment Adviser to act in a riskier manner than it would when acting for its own account.

The Investment Adviser can resign upon 60 days' notice, and a suitable replacement may not be found within that time, resulting in disruptions in our operations that could adversely affect our business, results of operations and financial condition.

Under the Investment Management Agreement, the Investment Adviser has the right to resign at any time upon 60 days' written notice, whether a replacement has been found or not. If the Investment Adviser resigns, we may not be able to find a new investment adviser or hire internal management with similar expertise and ability to provide the same or equivalent services on acceptable terms within 60 days, or at all. If a replacement is not able to be found on a timely basis, our business, results of operations and financial condition and our ability to pay distributions are likely to be materially adversely affected and the market price of our common stock may decline. In addition, if we are unable to identify and reach an agreement with a single institution or group of executives having the expertise possessed by the Investment Adviser and its affiliates, the coordination of its internal management and investment activities is likely to suffer. Even if we are able to retain comparable management, whether internal or external, their integration into our business and lack of familiarity with our investment objective may result in additional costs and time delays that may materially adversely affect our business, results of operations and financial condition.

Table of Contents

The Administrator can resign upon 60 days' notice from its role as Administrator under the Administration Agreement, and a suitable replacement may not be found, resulting in disruptions that could adversely affect our business, results of operations and financial condition.

The Administrator has the right to resign under the Administration Agreement upon 60 days' written notice, whether a replacement has been found or not. If the Administrator resigns, it may be difficult to find a new administrator or hire internal management with similar expertise and ability to provide the same or equivalent services on acceptable terms, or at all. If a replacement is not found quickly, our business, results of operations and financial condition, as well as our ability to pay distributions, are likely to be adversely affected, and the market price of our common stock may decline. In addition, the coordination of our internal management and administrative activities is likely to suffer if we are unable to identify and reach an agreement with a service provider or individuals with the expertise possessed by the Administrator. Even if a comparable service provider or individuals to perform such services are retained, whether internal or external, their integration into our business and lack of familiarity with our investment objective may result in additional costs and time delays that may materially adversely affect our business, results of operations and financial condition.

If we fail to maintain our status as a BDC, our business and operating flexibility could be significantly reduced.

We qualify as a BDC under the 1940 Act. The 1940 Act imposes numerous constraints on the operations of BDCs. For example, BDCs are required to invest at least 70.0% of their total assets in specified types of securities, primarily in private companies or thinly-traded U.S. public companies, cash, cash equivalents, U.S. government securities and other high quality debt investments that mature in one year or less. Failure to comply with the requirements imposed on BDCs by the 1940 Act could cause the SEC to bring an enforcement action against us and/or expose us to claims of private litigants. In addition, upon approval of a majority of our stockholders, we may elect to withdraw their respective election as a BDC. If we decide to withdraw our election, or if we otherwise fail to qualify, or maintain our qualification, as a BDC, we may be subject to the substantially greater regulation under the 1940 Act as a closed-end investment company. Compliance with these regulations would significantly decrease our operating flexibility and could significantly increase our cost of doing business.

If we do not invest a sufficient portion of our assets in qualifying assets, we could be precluded from investing in certain assets or could be required to dispose of certain assets, which could have a material adverse effect on our business, financial condition and results of operations.

As a BDC, we are prohibited from acquiring any assets other than "qualifying assets" unless, at the time of and after giving effect to such acquisition, at least 70.0% of our total assets are qualifying assets. We may acquire in the future other investments that are not "qualifying assets" to the extent permitted by the 1940 Act. If we do not invest a sufficient portion of our assets in qualifying assets, we would be prohibited from investing in additional assets, which could have a material adverse effect on our business, financial condition and results of operations. Similarly, these rules could prevent us from making follow-on investments in existing portfolio companies (which could result in the dilution of its position) or could require us to dispose of investments at inopportune times in order to come into compliance with the 1940 Act. If we need to dispose of these investments quickly, it may be difficult to dispose of such investments on favorable terms. For example, we may have difficulty in finding a buyer and, even if a buyer is found, it may have to sell the investments at a substantial loss.

Table of Contents

Our ability to invest in public companies may be limited in certain circumstances.

To maintain our status as a BDC, we are not permitted to acquire any assets other than "qualifying assets" specified in the 1940 Act unless, at the time the acquisition is made, at least 70.0% of its total assets are qualifying assets (with certain limited exceptions). Subject to certain exceptions for follow-on investments and distressed companies, an investment in an issuer that has outstanding securities listed on a national securities exchange may be treated as qualifying assets only if such issuer has a common equity market capitalization that is less than \$250.0 million at the time of such investment.

Regulations governing the operations of BDCs will affect our ability to raise additional equity capital as well as our ability to issue senior securities or borrow for investment purposes, any or all of which could have a negative effect on our investment objectives and strategies.

Our business requires a substantial amount of capital. We may acquire additional capital from the issuance of senior securities, including borrowing under a credit facility or other indebtedness. In addition, we may also issue additional equity capital, which would in turn increase the equity capital available to us. However, we may not be able to raise additional capital in the future on favorable terms or at all.

We may issue debt securities, preferred stock, and we may borrow money from banks or other financial institutions, which we refer to collectively as "senior securities", up to the maximum amount permitted by the 1940 Act. The 1940 Act permits us to issue senior securities in amounts such that our asset coverage, as defined in the 1940 Act, equals at least 200.0% after each issuance of senior securities. As a result of our SEC exemptive relief, we are permitted to exclude our SBA-guaranteed debentures from the definition of senior securities in the 200.0% asset coverage ratio we are required to maintain under the 1940 Act. If our asset coverage ratio is not at least 200.0%, we would be unable to issue senior securities, and if we had senior securities outstanding (other than any indebtedness issued in consideration of a privately arranged loan, such as any indebtedness outstanding under the Holdings Credit Facility and NMFC Credit Facility), we would be unable to make distributions to our stockholders. However, at March 31, 2015, our only senior securities outstanding were indebtedness under the Holdings Credit Facility, NMFC Credit Facility and Convertible Notes and therefore at March 31, 2015, we would not have been precluded from paying distributions. If the value of our assets declines, we may be unable to satisfy this test. If that happens, we may be required to liquidate a portion of our investments and repay a portion of our indebtedness at a time when such sales may be disadvantageous.

The Holdings Credit Facility matures on December 18, 2019 and permits borrowings of \$495.0 million as of March 31, 2015. The Holdings Credit Facility had \$442.6 million in debt outstanding as of March 31, 2015. The NMFC Credit Facility matures on June 4, 2019 and permits borrowings of \$80.0 million as of March 31, 2015. The NMFC Credit Facility had \$68.8 million in debt outstanding as of March 31, 2015. The Convertible Notes mature on June 15, 2019. The Convertible Notes had \$115.0 million in debt outstanding as of March 31, 2015. The SBA-guaranteed debentures mature on March 1, 2025. As of March 31, 2015, \$37.5 million of SBA-guaranteed debentures were outstanding.

In addition, we may in the future seek to securitize other portfolio securities to generate cash for funding new investments. To securitize loans, we would likely create a wholly-owned subsidiary and contribute a pool of loans to the subsidiary. We would then sell interests in the subsidiary on a non-recourse basis to purchasers and we would retain all or a portion of the equity in the subsidiary. If we are unable to successfully securitize its loan portfolio, which must be done in compliance with the relevant restrictions in the Holdings Credit Facility, our ability to grow our business or fully execute our business strategy could be impaired and our earnings, if any, could

Table of Contents

decrease. The securitization market is subject to changing market conditions, and we may not be able to access this market when it would otherwise deem appropriate. Moreover, the successful securitization of our portfolio might expose us to losses as the residual investments in which we do not sell interests will tend to be those that are riskier and more apt to generate losses. The 1940 Act also may impose restrictions on the structure of any securitization.

We may also obtain capital through the issuance of additional equity capital. As a BDC, we generally are not able to issue or sell our common stock at a price below net asset value per share. If our common stock trades at a discount to its net asset value per share, this restriction could adversely affect our ability to raise equity capital. We may, however, sell our common stock, or warrants, options or rights to acquire its common stock, at a price below its net asset value per share of the common stock if our board of directors and independent directors determine that such sale is in our best interests and the best interests of our stockholders, and our stockholders approve such sale. In any such case, the price at which our securities are to be issued and sold may not be less than a price that, in the determination of our board of directors, closely approximates the market value of such securities (less any underwriting commission or discount). If we raise additional funds by issuing more shares of our common stock, or if we issue senior securities convertible into, or exchangeable for, our common stock, the percentage ownership of our stockholders may decline and you may experience dilution.

Our business model in the future may depend to an extent upon our referral relationships with private equity sponsors, and the inability of the investment professionals of the Investment Adviser to maintain or develop these relationships, or the failure of these relationships to generate investment opportunities, could adversely affect our business strategy.

If the investment professionals of the Investment Adviser fail to maintain existing relationships or develop new relationships with other sponsors or sources of investment opportunities, we may not be able to grow our investment portfolio. In addition, individuals with whom the investment professionals of the Investment Adviser have relationships are not obligated to provide us with investment opportunities, and, therefore, there is no assurance that any relationships they currently or may in the future have will generate investment opportunities for us.

We may experience fluctuations in our annual and quarterly results due to the nature of our business.

We could experience fluctuations in our annual and quarterly operating results due to a number of factors, some of which are beyond our control, including the ability or inability of us to make investments in companies that meet our investment criteria, the interest rate payable on the debt securities acquired and the default rate on such securities, the level of our expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which we encounter competition in the markets in which we operate and general economic conditions. As a result of these factors, results for any period should not be relied upon as being indicative of performance in future periods.

Our board of directors may change its investment objective, operating policies and strategies without prior notice or member approval, the effects of which may be adverse to your interest as a stockholder.

Our board of directors has the authority, except as otherwise provided in the 1940 Act, to modify or waive certain of our operating policies and strategies without prior notice and without stockholder approval. As a result, our board of directors may be able to change our investment policies and objectives without any input from our stockholders. However, absent stockholder approval, we may not change the nature of our business so as to cease to be, or withdraw its

Table of Contents

election as, a BDC. Under Delaware law, we also cannot be dissolved without prior stockholder approval. We cannot predict the effect any changes to our current operating policies and strategies would have on our business, operating results and the market price of our common stock. Nevertheless, any such changes could adversely affect our business and impair our ability to make distributions to our stockholders.

We will be subject to corporate-level U.S. federal income tax on all of our income if we are unable to maintain RIC status under Subchapter M of the Code, which would have a material adverse effect on our financial performance.

Although we intend to continue to qualify annually as a RIC under Subchapter M of the Code, no assurance can be given that we will be able to maintain our RIC status. To maintain RIC status and be relieved of U.S. federal income taxes on income and gains distributed to our stockholders, we must meet the annual distribution, source-of-income and asset diversification requirements described below.

The annual distribution requirement for a RIC will be satisfied if we distribute to our stockholders on an annual basis at least 90.0% of its net ordinary income plus the excess of realized net short-term capital gains over realized net long-term capital losses, if any. Because we use debt financing, we are subject to an asset coverage ratio requirement under the 1940 Act, and we are subject to certain financial covenants contained in the Holdings Credit Facility and other debt financing agreements (as applicable). This asset coverage ratio requirement and these financial covenants could, under certain circumstances, restrict us from making distributions to our stockholders, which distributions are necessary for us to satisfy the distribution requirement. If we are unable to obtain cash from other sources, and thus are unable to make sufficient distributions to our stockholders, we could fail to qualify for RIC tax treatment and thus become subject to certain corporate-level U.S. federal income tax (and any applicable state and local taxes).

The source-of-income requirement will be satisfied if at least 90.0% of our allocable share of our gross income for each year is derived from dividends, interest payments with respect to loans of certain securities, gains from the sale of stock or other securities, net income from certain "qualified publicly traded partnerships" or other income derived with respect to our business of investing in such stock or securities.

The asset diversification requirement will be satisfied if we meet certain asset diversification requirements at the end of each quarter of our taxable year. To satisfy this requirement, at least 50.0% of the value of our assets must consist of cash, cash equivalents, U.S. government securities, securities of other RICs, and other such securities if such other securities of any one issuer do not represent more than 5.0% of the value of our assets or more than 10.0% of the outstanding voting securities of the issuer; and no more than 25.0% of the value of our assets can be invested in the securities, other than U.S. government securities or securities of other RICs, of one issuer, of two or more issuers that are controlled, as determined under applicable Code rules, by it and that are engaged in the same or similar or related trades or businesses or of certain "qualified publicly traded partnerships". Failure to meet these requirements may result in us having to dispose of certain investments quickly in order to prevent the loss of our RIC status. Because most of our investments are intended to be in private companies, and therefore may be relatively illiquid, any such dispositions could be made at disadvantageous prices and could result in substantial losses.

If we fail to qualify for or maintain our RIC status for any reason, and we do not qualify for certain relief provisions under the Code, we would be subject to corporate-level U.S. federal income tax (and any applicable state and local taxes). In this event, the resulting taxes could substantially reduce our net assets, the amount of income available for distribution and the amount of our distributions, which would have a material adverse effect on our financial performance.

Table of Contents

You may have current tax liabilities on distributions you reinvest in our common stock.

Under the dividend reinvestment plan, if you own shares of our common stock registered in your own name, you will have all cash distributions automatically reinvested in additional shares of our common stock unless you opt out of the dividend reinvestment plan by delivering notice by phone, internet or in writing to the plan administrator at least three days prior to the payment date of the next dividend or distribution. If you have not "opted out" of the dividend reinvestment plan, you will be deemed to have received, and for U.S. federal income tax purposes will be taxed on, the amount reinvested in our common stock of to the extent the amount reinvested was not a tax-free return of capital. As a result, you may have to use funds from other sources to pay your U.S. federal income tax liability on the value of the common stock received.

We may not be able to pay you distributions on our common stock, our distributions to you may not grow over time and a portion of our distributions to you may be a return of capital for U.S. federal income tax purposes.

We intend to pay quarterly distributions to our stockholders out of assets legally available for distribution. We cannot assure you that we will continue to achieve investment results that will allow us to make a specified level of cash distributions or year-to-year increases in cash distributions. If we are unable to satisfy the asset coverage test applicable to us as a BDC, or if we violate certain covenants under the Holdings Credit Facility and the NMFC Credit Facility, our ability to pay distributions to our stockholders could be limited. All distributions are paid at the discretion of our board of directors and depend on our earnings, financial condition, maintenance of our RIC status, compliance with applicable BDC regulations, compliance with covenants under the Holdings Credit Facility and the NMFC Credit Facility, and such other factors as our board of directors may deem relevant from time to time. The distributions that we pay to our stockholders in a year may exceed our taxable income for that year and, accordingly, a portion of such distributions may constitute a return of capital for U.S. federal income tax purposes.

We may have difficulty paying our required distributions if we recognize taxable income before or without receiving cash representing such income.

For U.S. federal income tax purposes, we include in our taxable income our allocable share of certain amounts that we have not yet received in cash, such as original issue discount or accruals on a contingent payment debt instrument, which may occur if we receive warrants in connection with the origination of a loan or possibly in other circumstances or contracted payment-in-kind ("PIK") interest, which generally represents contractual interest added to the loan balance and due at the end of the loan term. Our allocable share of such original issue discount and PIK interest are included in our taxable income before we receive any corresponding cash payments. We also may be required to include in our taxable income our allocable share of certain other amounts that we will not receive in cash.

Because in certain cases we may recognize taxable income before or without receiving cash representing such income, we may have difficulty making distributions to our stockholders that will be sufficient to enable us to meet the annual distribution requirement necessary for us to qualify as a RIC. Accordingly, we may need to sell some of our assets at times and/or at prices that we would not consider advantageous. We may need to raise additional equity or debt capital, or we may need to forego new investment opportunities or otherwise take actions that are disadvantageous to our business (or be unable to take actions that are advantageous to our business) to enable us to make distributions to our stockholders that will be sufficient to enable us to meet the annual distribution requirement. If we are unable to obtain cash from other sources to enable us to meet the annual distribution requirement, we may fail to qualify for the U.S. federal income tax benefits

Table of Contents

allowable to RICs and, thus, become subject to a corporate-level U.S. federal income tax (and any applicable state and local taxes).

Changes in laws or regulations governing our operations may adversely affect our business or cause us to alter our business strategy.

Changes in the laws or regulations or the interpretations of the laws and regulations that govern BDCs, RICs or non-depository commercial lenders could significantly affect our operations and our cost of doing business. Our portfolio companies are subject to U.S. federal, state and local laws and regulations. New legislation may be enacted or new interpretations, rulings or regulations could be adopted, any of which could materially adversely affect our business, including with respect to the types of investments we are permitted to make, and your interest as a stockholder potentially with retroactive effect. In addition, any changes to the laws and regulations governing our operations relating to permitted investments may cause us to alter its investment strategy in order to avail ourselves of new or different opportunities. These changes could result in material changes to the strategies and plans set forth in this prospectus and may result in our investment focus shifting from the areas of expertise of the Investment Adviser to other types of investments in which the Investment Adviser may have less expertise or little or no experience. Any such changes, if they occur, could have a material adverse effect on our business, results of operations and financial condition and, consequently, the value of your investment in us.

On July 21, 2010, the Wall Street Reform and Consumer Protection Act, or Dodd-Frank Act, was signed into law. Although passage of the Dodd-Frank Act has resulted in extensive rulemaking and regulatory changes that affect us and the financial industry as a whole, many of its provisions remain subject to extended implementation periods and delayed effective dates and will require extensive rulemaking by regulatory authorities. While the full impact of the Dodd-Frank Act on us and our portfolio companies may not be known for an extended period of time, the Dodd-Frank Act, including future rules implementing its provisions and the interpretation of those rules, along with other legislative and regulatory proposals directed at the financial services industry or affecting taxation that are proposed or pending in the U.S. Congress, may negatively impact our or our portfolio companies' operations, cash flows or financial condition, impose additional costs on us or our portfolio companies, intensify the regulatory supervision of us or our portfolio companies or otherwise adversely affect our business or the business of our portfolio companies.

Over the last several years, there has been an increase in regulatory attention to the extension of credit outside of the traditional banking sector, raising the possibility that some portion of the non-bank financial sector will be subject to new regulation. While it cannot be known at this time whether these regulations will be implemented or what form they will take, increased regulation of non-bank credit extension could negatively impact our operations, cash flows or financial condition, impose additional costs on us, intensify the regulatory supervision of us or otherwise adversely affect our business.

The effect of global climate change may impact the operations of our portfolio companies.

There may be evidence of global climate change. Climate change creates physical and financial risk and some of our portfolio companies may be adversely affected by climate change. For example, the needs of customers of energy companies vary with weather conditions, primarily temperature and humidity. To the extent weather conditions are affected by climate change, energy use could increase or decrease depending on the duration and magnitude of any changes. Increases in the cost of energy could adversely affect the cost of operations of our portfolio companies if the use of energy products or services is material to their business. A decrease in energy use due to weather changes may affect some of our portfolio companies' financial condition, through decreased revenues. Extreme weather conditions in general require more system

Table of Contents

backup, adding to costs, and can contribute to increased system stresses, including service interruptions.

Pending legislation may allow us to incur additional leverage.

As a BDC, under the 1940 Act we generally are not permitted to incur indebtedness unless immediately after such borrowing we have an asset coverage for total borrowings of at least 200.0% (i.e., the amount of debt may not exceed 50.0% of the value of our total assets or we may borrow an amount equal to 100.0% of net assets). Legislation introduced during the 113th Congress, if reintroduced and passed, would modify this section of the 1940 Act and increase the amount of debt that BDCs may incur by modifying the percentage from 200.0% to 150.0%. As a result, we may be able to incur additional indebtedness in the future and therefore your risk of an investment in our common stock may increase.

We incur significant costs as a result of being a publicly traded company.

As a publicly traded company, we incur legal, accounting and other expenses, which are paid by us, including costs associated with the periodic reporting requirements applicable to a company whose securities are registered under the Exchange Act, as well as additional corporate governance requirements, including requirements under the Sarbanes-Oxley Act of 2002, or the "Sarbanes-Oxley Act," and other rules implemented by the SEC.

Efforts to comply with Section 404 of the Sarbanes-Oxley Act involve significant expenditures, and non-compliance with Section 404 of the Sarbanes-Oxley Act may adversely affect us and the market price of our common stock.

We are subject to the Sarbanes-Oxley Act, and the related rules and regulations promulgated by the SEC. Under current SEC rules since our fiscal year ending December 31, 2012, our management has been required to report on our internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act, and rules and regulations of the SEC thereunder. We are required to review on an annual basis our internal control over financial reporting, and on a quarterly and annual basis to evaluate and disclose changes in our internal control over financial reporting. As a result, we expect to continue to incur additional expenses, which may negatively impact our financial performance and our ability to make distributions to our stockholders. This process also may result in a diversion of management's time and attention. We cannot be certain as to the timing of completion of any evaluation, testing and remediation actions or the impact of the same on our operations, and we are not able to ensure that the process is effective or that our internal control over financial reporting is or will continue to be effective in a timely manner. In the event that we are unable to maintain or achieve compliance with Section 404 of the Sarbanes-Oxley Act and related rules, we and, consequently, the market price of our common stock may be adversely affected.

Our business is highly dependent on information systems and systems failures could significantly disrupt our business, which may, in turn, negatively affect the market price of our common stock and our ability to pay dividends.

Our business is highly dependent on the communications and information systems of the Investment Adviser and its affiliates. Any failure or interruption of such systems could cause delays or other problems in our activities. This, in turn, could have a material adverse effect on our operating results and, consequently, negatively affect the market price of our common stock and our ability to pay dividends to our stockholders. In addition, because many of our portfolio companies operate and rely on network infrastructure and enterprise applications and internal technology systems for development, marketing, operational, support and other business activities,

Table of Contents

a disruption or failure of any or all of these systems in the event of a major telecommunications failure, cyber-attack, fire, earthquake, severe weather conditions or other catastrophic event could cause system interruptions, delays in product development and loss of critical data and could otherwise disrupt their business operations.

The failure in cyber security systems, as well as the occurrence of events unanticipated in our disaster recovery systems and management continuity planning could impair our ability to conduct business effectively.

The occurrence of a disaster such as a cyber attack, a natural catastrophe, an industrial accident, a terrorist attack or war, events unanticipated in our disaster recovery systems, or a support failure from external providers, could have an adverse effect on our ability to conduct business and on our results of operations and financial condition, particularly if those events affect our computer-based data processing, transmission, storage, and retrieval systems or destroy data. If a significant number of our managers were unavailable in the event of a disaster, our ability to effectively conduct our business could be severely compromised.

We depend heavily upon computer systems to perform necessary business functions. Despite our implementation of a variety of security measures, our computer systems could be subject to cyber attacks and unauthorized access, such as physical and electronic break-ins or unauthorized tampering. Like other companies, we may experience threats to our data and systems, including malware and computer virus attacks, unauthorized access, system failures and disruptions. If one or more of these events occurs, it could potentially jeopardize the confidential, proprietary and other information processed and stored in, and transmitted through, our computer systems and networks, or otherwise cause interruptions or malfunctions in our operations, which could result in damage to our reputation, financial losses, litigation, increased costs, regulatory penalties and/or customer dissatisfaction or loss.

Risks Relating to Our Investments

Our investments in portfolio companies may be risky, and we could lose all or part of any of our investments.

Investments in small and middle market businesses are highly speculative and involve a high degree of risk of credit loss. These risks are likely to increase during volatile economic periods, such as the U.S. and many other economies have recently experienced. Among other things, these companies:

may have limited financial resources and may be unable to meet their obligations under their debt instruments that we hold, which may be accompanied by a deterioration in the value of any collateral and a reduction in the likelihood of us realizing any guarantees from subsidiaries or affiliates of its portfolio companies that we may have obtained in connection with its investment, as well as a corresponding decrease in the value of any equity components of its investments;

may have shorter operating histories, narrower product lines, smaller market shares and/or more significant customer concentrations than larger businesses, which tend to render them more vulnerable to competitors' actions and market conditions, as well as general economic downturns;

are more likely to depend on the management talents and efforts of a small group of persons; therefore, the death, disability, resignation or termination of one or more of these persons could have a material adverse impact on our portfolio company and, in turn, on us;

Table of Contents

generally have less predictable operating results, may from time to time be parties to litigation, may be engaged in rapidly changing businesses with products subject to a substantial risk of obsolescence;

may require substantial additional capital to support their operations, finance expansion or maintain their competitive position; and

generally have less publicly available information about their businesses, operations and financial condition.

In addition, in the course of providing significant managerial assistance to certain of our portfolio companies, certain of our officers and directors may serve as directors on the boards of such companies. To the extent that litigation arises out of our investments in these companies, our officers and directors may be named as defendants in such litigation, which could result in an expenditure of funds (through our indemnification of such officers and directors) and the diversion of management time and resources.

Our investment strategy, which is focused primarily on privately held companies, presents certain challenges, including the lack of available information about these companies.

We invest primarily in privately held companies. There is generally little public information about these companies, and, as a result, we must rely on the ability of the Investment Adviser to obtain adequate information to evaluate the potential returns from, and risks related to, investing in these companies. If we are unable to uncover all material information about these companies, we may not make a fully informed investment decision, and we may lose money on our investments. Also, privately held companies frequently have less diverse product lines and smaller market presence than larger competitors. They are, thus, generally more vulnerable to economic downturns and may experience substantial variations in operating results. These factors could adversely affect our investment returns.

Our investments in securities rated below investment grade are speculative in nature and are subject to additional risk factors such as increased possibility of default, illiquidity of the security, and changes in value based on changes in interest rates.

The investments that we invest in are typically rated below investment grade. Securities rated below investment grade are often referred to as "leveraged loans," "high yield" or "junk" securities, and may be considered "high risk" compared to debt instruments that are rated investment grade. High yield securities are regarded as having predominantly speculative characteristics with respect to the issuer's capacity to pay interest and repay principal in accordance with the terms of the obligations and involve major risk exposure to adverse conditions. In addition, high yield securities generally offer a higher current yield than that available from higher grade issues, but typically involve greater risk. These securities are especially sensitive to adverse changes in general economic conditions, to changes in the financial condition of their issuers and to price fluctuation in response to changes in interest rates. During periods of economic downturn or rising interest rates, issuers of below investment grade instruments may experience financial stress that could adversely affect their ability to make payments of principal and interest and increase the possibility of default.

Our portfolio may be concentrated in a limited number of industries, which may subject us to a risk of significant loss if there is a downturn in a particular industry in which a number of our investments are concentrated.

Our portfolio may be concentrated in a limited number of industries. For example, as of March 31, 2015, our investments in the software, the business services and the education industries represented approximately 23.9%, 18.5% and 13.9%, respectively, of the fair value of our portfolio. A

Table of Contents

downturn in any particular industry in which we are invested could significantly impact the portfolio companies operating in that industry, and accordingly, the aggregate returns that we realize from our investment in such portfolio companies.

Specifically, companies in the software industry often have narrow product lines and small market shares. Because of rapid technological change, the average selling prices of products and some services provided by software companies have historically decreased over their productive lives. As a result, the average selling prices of products and services offered by software companies in which we invest may decrease over time. In addition, companies in the business services industry are subject to general economic downturns and business cycles, and will often suffer reduced revenues and rate pressures during periods of economic uncertainty. Likewise, companies in the education industry are required to comply with extensive regulatory and accreditation requirements, which could be subject to change by Congress, and which can limit their access to federal aid or similar loan programs, or otherwise increase their compliance costs. If an industry in which we have significant investments suffers from adverse business or economic conditions, as these industries have to varying degrees, a material portion of its investment portfolio could be affected adversely, which, in turn, could adversely affect our financial position and results of operations.

Continuation of the current decline in oil and natural gas prices for a prolonged period of time could have a material adverse effect.

As of March 31, 2015, approximately 5.3% of our portfolio at fair value is invested in energy-related businesses. A decline in oil and natural gas prices would adversely affect the credit quality of these investments. A decrease in credit quality would, in turn, negatively affect the fair value of these investments, which would consequently negatively affect our financial position and results of operations. Should the current decline in oil and natural gas prices persist, it is likely that our energy-related portfolio companies' abilities to satisfy our financial or operating covenants or other lenders will be adversely affected, thereby negatively impacting our financial condition and their ability to satisfy their debt service and other obligations to us.

If we make unsecured investments, those investments might not generate sufficient cash flow to service their debt obligations to us.

We may make unsecured investments. Unsecured investments may be subordinated to other obligations of the obligor. Unsecured investments often reflect a greater possibility that adverse changes in the financial condition of the obligor or general economic conditions (including, for example, a substantial period of rising interest rates or declining earnings) or both may impair the ability of the obligor to make payment of principal and interest. If we make an unsecured investment in a portfolio company, that portfolio company may be highly leveraged, and its relatively high debt-to-equity ratio may increase the risk that its operations might not generate sufficient cash to service its debt obligations.

If we invest in the securities and obligations of distressed and bankrupt issuers, we might not receive interest or other payments.

From time to time, we may invest in other types of investments which are not our primary focus, including investments in the securities and obligations of distressed and bankrupt issuers, including debt obligations that are in covenant or payment default. Such investments generally are considered speculative. The repayment of defaulted obligations is subject to significant uncertainties. Defaulted obligations might be repaid only after lengthy workout or bankruptcy proceedings, during which the issuer of those obligations might not make any interest or other payments.

Table of Contents

The lack of liquidity in our investments may adversely affect our business.

We invest, and will continue to invest, in companies whose securities are not publicly traded and whose securities will be subject to legal and other restrictions on resale or will otherwise be less liquid than publicly traded securities. The illiquidity of these investments may make it difficult for us to sell these investments when desired. In addition, if we are required or otherwise choose to liquidate all or a portion of our portfolio quickly, we may realize significantly less than the value at which we had previously recorded these investments. Our investments are usually subject to contractual or legal restrictions on resale or are otherwise illiquid because there is usually no established trading market for such investments. Because most of our investments are illiquid, we may be unable to dispose of them in which case we could fail to qualify as a RIC and/or a BDC, or we may be unable to do so at a favorable price, and, as a result, we may suffer losses.

Price declines and illiquidity in the corporate debt markets may adversely affect the fair value of our portfolio investments, reducing our net asset value through increased net unrealized depreciation.

As a BDC, we are required to carry our investments at market value or, if no market value is ascertainable, at fair value as determined in good faith by our board of directors. As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments:

a comparison of the portfolio company's securities to publicly traded securities;

the enterprise value of a portfolio company;

the nature and realizable value of any collateral;

the portfolio company's ability to make payments and its earnings and discounted cash flow;

the markets in which the portfolio company does business; and

changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made in the future and other relevant factors.

When an external event such as a purchase transaction, public offering or subsequent sale occurs, we will use the pricing indicated by the external event to corroborate our valuation. We will record decreases in the market values or fair values of our investments as unrealized depreciation. Declines in prices and liquidity in the corporate debt markets may result in significant net unrealized depreciation in its portfolio. The effect of all of these factors on our portfolio may reduce our net asset value by increasing net unrealized depreciation in our portfolio. Depending on market conditions, we could incur substantial realized losses and may suffer additional unrealized losses in future periods, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

If we are unable to make follow-on investments in our portfolio companies, the value of our investment portfolio could be adversely affected.

Following an initial investment in a portfolio company, we may make additional investments in that portfolio company as "follow-on" investments, in order to (i) increase or maintain in whole or in part our equity ownership percentage, (ii) exercise warrants, options or convertible securities that were acquired in the original or subsequent financing or (iii) attempt to preserve or enhance the value of our investment. We may elect not to make follow-on investments or may otherwise lack sufficient funds to make these investments. We have the discretion to make follow-on investments, subject to the availability of capital resources. If we fail to make follow-on investments, the

Table of Contents

continued viability of a portfolio company and our investment may, in some circumstances, be jeopardized and we could miss an opportunity for us to increase our participation in a successful operation. Even if we have sufficient capital to make a desired follow-on investment, we may elect not to make a follow-on investment because we may not want to increase our concentration of risk, either because we prefer other opportunities or because we are subject to BDC requirements that would prevent such follow-on investments or such follow-on investments would adversely impact our ability to maintain our RIC status.

Our portfolio companies may incur debt that ranks equally with, or senior to, its investments in such companies.

We invest in portfolio companies at all levels of the capital structure. Our portfolio companies may have, or may be permitted to incur, other debt that ranks equally with, or senior to, the debt in which we invest. By their terms, these debt instruments may entitle the holders to receive payment of interest or principal on or before the dates on which we are entitled to receive payments with respect to the debt instruments in which we invest. In addition, in the event of insolvency, liquidation, dissolution, reorganization or bankruptcy of a portfolio company, holders of debt instruments ranking senior to our investment in that portfolio company would typically be entitled to receive payment in full before we receive any distribution. After repaying the senior creditors, the portfolio company may not have any remaining assets to use for repaying its obligation to us. In the case of debt ranking equally with debt instruments in which we invest, we would have to share on an equal basis any distributions with other creditors holding such debt in the event of an insolvency, liquidation, dissolution, reorganization or bankruptcy of the relevant portfolio company.

The disposition of our investments may result in contingent liabilities.

Most of our investments will involve private securities. In connection with the disposition of an investment in private securities, we may be required to make representations about the business and financial affairs of the portfolio company typical of those made in connection with the sale of a business. We may also be required to indemnify the purchasers of such investment to the extent that any such representations turn out to be inaccurate or with respect to certain potential liabilities. These arrangements may result in contingent liabilities that ultimately yield funding obligations that must be satisfied through our return of certain distributions previously made to it.

There may be circumstances where our debt investments could be subordinated to claims of other creditors or we could be subject to lender liability claims.

Even though we may have structured certain of our investments as senior loans, if one of our portfolio companies were to go bankrupt, depending on the facts and circumstances, including the extent to which we actually provided managerial assistance to that portfolio company, a bankruptcy court might re-characterize our debt investment and subordinate all or a portion of our claim to that of other creditors. We may also be subject to lender liability claims for actions taken by it with respect to a borrower's business or instances where it exercises control over the borrower. It is possible that we could become subject to a lender's liability claim, including as a result of actions taken in rendering significant managerial assistance.

Second priority liens on collateral securing loans that we make to its portfolio companies may be subject to control by senior creditors with first priority liens. If there is a default, the value of the collateral may not be sufficient to repay in full both the first priority creditors and us.

Certain loans to portfolio companies will be secured on a second priority basis by the same collateral securing senior secured debt of such companies. The first priority liens on the collateral will secure the portfolio company's obligations under any outstanding senior debt and may secure

Table of Contents

certain other future debt that may be permitted to be incurred by the portfolio company under the agreements governing the loans. The holders of obligations secured by the first priority liens on the collateral will generally control the liquidation of and be entitled to receive proceeds from any realization of the collateral to repay their obligations in full before us. In addition, the value of the collateral in the event of liquidation will depend on market and economic conditions, the availability of buyers and other factors. There can be no assurance that the proceeds, if any, from the sale or sales of all of the collateral would be sufficient to satisfy the loan obligations secured by the second priority liens after payment in full of all obligations secured by the first priority liens on the collateral. If such proceeds are not sufficient to repay amounts outstanding under the loan obligations secured by the second priority liens, then we, to the extent not repaid from the proceeds of the sale of the collateral, will only have an unsecured claim against the portfolio company's remaining assets, if any.

The rights we may have with respect to the collateral securing the loans we make to our portfolio companies with senior debt outstanding may also be limited pursuant to the terms of one or more intercreditor agreements entered into with the holders of first priority senior debt. Under an intercreditor agreement, at any time that obligations that have the benefit of the first priority liens are outstanding, any of the following actions that may be taken in respect of the collateral will be at the direction of the holders of the obligations secured by the first priority liens: the ability to cause the commencement of enforcement proceedings against the collateral, the ability to control the conduct of such proceedings, the approval of amendments to collateral documents; releases of liens on the collateral and waivers of past defaults under collateral documents. We may not have the ability to control or direct these actions, even if our rights are adversely affected.

We generally do not control our portfolio companies.

Although we have taken and may in the future take controlling equity positions in our portfolio companies from time to time, we generally do not control most of our portfolio companies, even though we may have board representation or board observation rights, and our debt agreements may contain certain restrictive covenants that limit the business and operations of our portfolio companies. As a result, we are subject to the risk that a portfolio company may make business decisions with which we disagree and the management of such company may take risks or otherwise act in ways that do not serve our interests as debt investors. Due to the lack of liquidity of the investments that we typically hold in our portfolio companies, we may not be able to dispose of our investments in the event that we disagree with the actions of a portfolio company as readily as we would otherwise like to or at favorable prices which could decrease the value of our investments.

Economic recessions, downturns or government spending cuts could impair our portfolio companies and harm its operating results.

Many of our portfolio companies may be susceptible to economic slowdowns or recessions and may be unable to repay its debt investments during these periods. Therefore, our non-performing assets are likely to increase, and the value of our portfolio is likely to decrease during these periods. Adverse economic conditions also may decrease the value of collateral securing some of our debt investments and the value of our equity investments. Economic slowdowns or recessions could lead to financial losses in our portfolio and a decrease in revenues, net income and assets. Unfavorable economic conditions also could increase our funding costs, limit our access to the capital markets or result in a decision by lenders not to extend credit to us. These events could prevent us from increasing investments and harm its operating results.

Table of Contents

A number of our portfolio companies provide services to the U.S. government. Changes in the U.S. government's priorities and spending, or significant delays or reductions in appropriations of the U.S. government's funds, could have a material adverse effect on the financial position, results of operations and cash flows of such portfolio companies.

A number of our portfolio companies derive a substantial portion of their revenue from the U.S. government. Levels of the U.S. government's spending in future periods are very difficult to predict and subject to significant risks. In addition, significant budgetary constraints may result in further reductions to projected spending levels. In particular, U.S. government expenditures are subject to the potential for automatic reductions, generally referred to as "sequestration." Sequestration occurred during 2013, and may occur again in the future, resulting in significant additional reductions to spending by the U.S. government on both existing and new contracts as well as disruption of ongoing programs. Even if sequestration does not occur again in the future, we expect that budgetary constraints and ongoing concerns regarding the U.S. national debt will continue to place downward pressure on U.S. government spending levels. Due to these and other factors, overall U.S. government spending could decline, which could result in significant reductions to the revenues, cash flow and profits of our portfolio companies that provide services to the U.S. government.

Defaults by our portfolio companies may harm our operating results.

A portfolio company's failure to satisfy financial or operating covenants imposed by us or other lenders could lead to defaults and, potentially, termination of its loans and foreclosure on its secured assets, which could trigger cross-defaults under other agreements and jeopardize a portfolio company's ability to meet its obligations under the debt or equity securities that we hold.

We may incur expenses to the extent necessary to seek recovery upon default or to negotiate new terms, which may include the waiver of certain financial covenants, with a defaulting portfolio company. In addition, lenders in certain cases can be subject to lender liability claims for actions taken by them when they become too involved in the borrower's business or exercise control over a borrower. It is possible that we could become subject to a lender's liability claim, including as a result of actions taken if we render significant managerial assistance to the borrower. Furthermore, if one of our portfolio companies were to file for bankruptcy protection, even though we may have structured our investment as senior secured debt, depending on the facts and circumstances, including the extent to which we provided managerial assistance to that portfolio company, a bankruptcy court might re-characterize our debt holding and subordinate all or a portion of our claim to claims of other creditors.

Prepayments of our debt investments by our portfolio companies could adversely impact our results of operations and reduce our return on equity.

We are subject to the risk that the investments we make in our portfolio companies may be repaid prior to maturity. When this occurs, subject to maintenance of our RIC status, we will generally reinvest these proceeds in temporary investments, pending our future investment in new portfolio companies. These temporary investments will typically have substantially lower yields than the debt being prepaid and we could experience significant delays in reinvesting these amounts. Any future investment in a new portfolio company may also be at lower yields than the debt that was repaid. As a result, our results of operations could be materially adversely affected if one or more of our portfolio companies elect to prepay amounts owed to us. Additionally, prepayments could negatively impact our return on equity, which could result in a decline in the market price of our common stock.

Table of Contents

We may not realize gains from our equity investments.

When we invest in portfolio companies, we may acquire warrants or other equity securities of portfolio companies as well. We may also invest in equity securities directly. To the extent we hold equity investments, we will attempt to dispose of them and realize gains upon its disposition of them. However, the equity interests we receive may not appreciate in value and, in fact, may decline in value. As a result, we may not be able to realize gains from our equity interests, and any gains that we do realize on the disposition of any equity interests may not be sufficient to offset any other losses we experience. We also may be unable to realize any value if a portfolio company does not have a liquidity event, such as a sale of the business, recapitalization or public offering, which would allow us to sell the underlying equity interests.

Our performance may differ from our historical performance as our current investment strategy includes significantly more primary originations in addition to secondary market purchases.

Historically, our investment strategy consisted primarily of secondary market purchases in debt securities. We adjusted that investment strategy to also include significantly more primary originations. While loans that we originate and loans we purchase in the secondary market face many of the same risks associated with the financing of leveraged companies, we may be exposed to different risks depending on specific business considerations for secondary market purchases or origination of loans. Primary originations require substantially more time and resources for sourcing, diligencing and monitoring investments, which may consume a significant portion of our resources. Further, the valuation process for primary originations may be more cumbersome and uncertain due to the lack of comparable market quotes for the investment and would likely require more frequent review by a third-party valuation firm. This may result in greater costs for us and fluctuations in the quarterly valuations of investments that are primary originations. As a result, this strategy may result in different returns from these investments than the types of returns historically experienced from secondary market purchases of debt securities.

We may be subject to additional risks if we invest in foreign securities and/or engage in hedging transactions.

The 1940 Act generally requires that 70.0% of our investments be in issuers each of whom is organized under the laws of, and has its principal place of business in, any state of the U.S., the District of Columbia, Puerto Rico, the Virgin Islands or any other possession of the U.S. Our investment strategy does not presently contemplate significant investments in securities of non-U.S. companies. However, we may desire to make such investments in the future, to the extent that such transactions and investments are permitted under the 1940 Act. We expect that these investments would focus on the same types of investments that we make in U.S. middle market companies and accordingly would be complementary to our overall strategy and enhance the diversity of our holdings. Investing in foreign companies could expose us to additional risks not typically associated with investing in U.S. companies. These risks include changes in exchange control regulations, political and social instability, expropriation, imposition of foreign taxes, less liquid markets and less available information than is generally the case in the U.S., higher transaction costs, less government supervision of exchanges, brokers and issuers, less developed bankruptcy laws, difficulty in enforcing contractual obligations, lack of uniform accounting and auditing standards and greater price volatility. Investments denominated in foreign currencies would be subject to the risk that the value of a particular currency will change in relation to one or more other currencies. Among the factors that may affect currency values are trade balances, the level of short-term interest rates, differences in relative values of similar assets in different currencies, long-term opportunities for investment and capital appreciation and political developments. We may employ

Table of Contents

hedging techniques to minimize these risks, but we can offer no assurance that we will, in fact, hedge currency risk, or that if we do, such strategies will be effective.

Engaging in hedging transactions would also, indirectly, entail additional risks to our stockholders. Although it is not currently anticipated that we would engage in hedging transactions as a principal investment strategy, if we determined to engage in hedging transactions, we generally would seek to hedge against fluctuations of the relative values of our portfolio positions from changes in market interest rates or currency exchange rates. Hedging against a decline in the values of our portfolio positions would not eliminate the possibility of fluctuations in the values of such positions or prevent losses if the values of the positions declined. However, such hedging could establish other positions designed to gain from those same developments, thereby offsetting the decline in the value of such portfolio positions.

These hedging transactions could also limit the opportunity for gain if the values of the underlying portfolio positions increased. Moreover, it might not be possible to hedge against an exchange rate or interest rate fluctuation that was so generally anticipated that we would not be able to enter into a hedging transaction at an acceptable price. If we choose to engage in hedging transactions, there can be no assurances that we will achieve the intended benefits of such transactions and, depending on the degree of exposure such transactions could create, such transactions may expose us to risk of loss.

While we may enter into these types of transactions to seek to reduce currency exchange rate and interest rate risks, unanticipated changes in currency exchange rates or interest rates could result in poorer overall investment performance than if we had not engaged in any such hedging transactions. In addition, the degree of correlation between price movements of the instruments used in a hedging strategy and price movements in the portfolio positions being hedged could vary. Moreover, for a variety of reasons, we might not seek to establish a perfect correlation between the hedging instruments and the portfolio holdings being hedged. Any imperfect correlation could prevent us from achieving the intended hedge and expose us to risk of loss. In addition, it might not be possible to hedge fully or perfectly against currency fluctuations affecting the value of securities denominated in non-U.S. currencies because the value of those securities would likely fluctuate as a result of factors not related to currency fluctuations.

Uncertainty relating to the LIBOR calculation process may adversely affect the value of our portfolio of LIBOR-indexed, floating-rate debt securities.

Concerns have been publicized that some of the member banks surveyed by the British Bankers' Association ("BBA") in connection with the calculation of LIBOR across a range of maturities and currencies may have been under-reporting or otherwise manipulating the inter-bank lending rate applicable to them in order to profit on their derivatives positions or to avoid an appearance of capital insufficiency or adverse reputational or other consequences that may have resulted from reporting inter-bank lending rates higher than those they actually submitted. A number of BBA member banks have entered into settlements with their regulators and law enforcement agencies with respect to alleged manipulation of LIBOR, and investigations by regulators and governmental authorities in various jurisdictions are ongoing.

Actions by the BBA, regulators or law enforcement agencies may result in changes to the manner in which LIBOR is determined. Uncertainty as to the nature of such potential changes may adversely affect the market for LIBOR-based securities, including our portfolio of LIBOR-indexed, floating-rate debt securities. In addition, any further changes or reforms to the determination or supervision of LIBOR may result in a sudden or prolonged increase or decrease in reported LIBOR, which could have an adverse impact on the market for LIBOR-based securities or the value of our portfolio of LIBOR-indexed, floating-rate debt securities.

Table of Contents

Risks Relating to Our Securities

The market price of our common stock may fluctuate significantly.

The market price and liquidity of the market for shares of our common stock may be significantly affected by numerous factors, some of which are beyond our control and may not be directly related to our operating performance. These factors include:

price and volume fluctuations in the overall stock market or in the market for BDCs from time to time;

investor demand for shares of our common stock;

significant volatility in the market price and trading volume of securities of registered closed-end management investment companies, BDCs or other financial services companies, which is not necessarily related to the operating performance of these companies;

the inability to raise equity capital;

our inability to borrow money or deploy or invest its capital;

fluctuations in interest rates;

any shortfall in revenue or net income or any increase in losses from levels expected by investors or securities analysts;

operating performance of companies comparable to us;

changes in regulatory policies or tax guidelines with respect to RICs or BDCs;

our loss of status as or ability to operate as BDC;

our failure to qualify as a RIC, loss of RIC status or ability to operate as a RIC;

actual or anticipated changes in our earnings or fluctuations in its operating results;

changes in the value of our portfolio of investments;

general economic conditions, trends and other external factors;

departures of key personnel; or

loss of a major source of funding.

Edgar Filing: New Mountain Finance Corp - Form 497

In addition, we are required to continue to meet certain listing standards in order for our common stock to remain listed on the New York Stock Exchange ("NYSE"). If we were to be delisted by the NYSE, the liquidity of our common stock would be materially impaired.

Investing in our common stock may involve an above average degree of risk.

The investments we may make may result in a higher amount of risk, volatility or loss of principal than alternative investment options. These investments in portfolio companies may be highly speculative and aggressive, and therefore, an investment in our common stock may not be suitable for investors with lower risk tolerance.

Sales of substantial amounts of our common stock in the public market may have an adverse effect on the market price of our common stock.

Sales of substantial amounts of our common stock could materially adversely affect the prevailing market prices for our common stock. If substantial amounts of our common stock were

Table of Contents

sold, this could impair our ability to raise additional capital through the sale of securities should we desire to do so.

Certain provisions of our certificate of incorporation and bylaws, as well as aspects of the Delaware General Corporation Law could deter takeover attempts and have an adverse impact on the price of our common stock.

Our certificate of incorporation and bylaws as well as the Delaware General Corporation Law contain provisions that may have the effect of discouraging a third party from making an acquisition proposal for us. Among other things, our certificate of incorporation and bylaws:

provide for a classified board of directors, which may delay the ability of our stockholders to change the membership of a majority of its board of directors;

authorize the issuance of "blank check" preferred stock that could be issued by our board of directors to thwart a takeover attempt;

do not provide for cumulative voting;

provide that vacancies on the board of directors, including newly created directorships, may be filled only by a majority vote of directors then in office;

provide that our directors may be removed only for cause;

require supermajority voting to effect certain amendments to our certificate of incorporation and bylaws; and

require stockholders to provide advance notice of new business proposals and director nominations under specific procedures.

These anti-takeover provisions may inhibit a change in control in circumstances that could give the holders of our common stock the opportunity to realize a premium over the market price for its common stock. The Holdings Credit Facility and NMFC Credit Facility also include covenants that, among other things, restrict its ability to dispose of assets, incur additional indebtedness, make restricted payments, create liens on assets, make investments, make acquisitions and engage in mergers or consolidations. The Holdings Credit Facility and NMFC Credit Facility also include change of control provisions that accelerate the indebtedness under these facilities in the event of certain change of control events.

Shares of our common stock have traded at a discount from net asset value and may do so in the future.

Shares of closed-end investment companies have frequently traded at a market price that is less than the net asset value that is attributable to those shares. In part as a result of adverse economic conditions and increasing pressure within the financial sector of which we are a part, our common stock has at times traded below its net asset value per share since our IPO on May 19, 2011. Our shares could once again trade at a discount to net asset value. The possibility that our shares of common stock may trade at a discount from net asset value over the long term is separate and distinct from the risk that our net asset value will decrease. We cannot predict whether shares of our common stock will trade above, at or below its net asset value. If our common stock trades below its net asset value, we will generally not be able to issue additional shares of our common stock at its market price without first obtaining the approval for such issuance from our stockholders and our independent directors. If additional funds are not available to us, we could be forced to curtail or cease our new lending and investment activities, and our net asset value could decrease and our level of distributions could be impacted.

Table of Contents

You may not receive dividends or our dividends may decline or may not grow over time.

We cannot assure you that we will achieve investment results or maintain a tax status that will allow or require any specified level of cash distributions or year-to-year increases in cash distributions. In particular, our future dividends are dependent upon the investment income we receive on our portfolio investments. To the extent such investment income declines, our ability to pay future dividends may be harmed.

We will have broad discretion over the use of proceeds of any offering made pursuant to this prospectus, to the extent it is successful.

We will have significant flexibility in applying the proceeds of any offering made pursuant to this prospectus. We will also pay operating expenses, and may pay other expenses such as due diligence expenses of potential new investments, from net proceeds. Our ability to achieve our investment objective may be limited to the extent that the net proceeds of the offering, pending full investment, are used to pay operating expenses. In addition, we can provide you no assurance that the current offering will be successful, or that by increasing the size of our available equity capital, our aggregate expenses, and correspondingly, our expense ratio, will be lowered.

Your interest in NMFC may be diluted if you do not fully exercise your subscription rights in any rights offering.

In the event we issue subscription rights to purchase shares of our common stock, stockholders who do not fully exercise their rights should expect that they will, at the completion of the offer, own a smaller proportional interest in NMFC than would otherwise be the case if they fully exercised their rights. We cannot state precisely the amount of any such dilution in share ownership because we do not know at this time what proportion of the shares will be purchased as a result of the offer.

In addition, if the subscription price is less than our net asset value per share, then our stockholders would experience an immediate dilution of the aggregate net asset value of their shares as a result of the offer. The amount of any decrease in net asset value is not predictable because it is not known at this time what the subscription price and net asset value per share will be on the expiration date of the rights offering or what proportion of the shares will be purchased as a result of the offer. Such dilution could be substantial.

If we issue preferred stock, the net asset value and market value of our common stock will likely become more volatile.

We cannot assure you that the issuance of preferred stock would result in a higher yield or return to the holders of our common stock. The issuance of preferred stock would likely cause the net asset value and market value of the common stock to become more volatile. If the dividend rate on the preferred stock were to approach the net rate of return on our investment portfolio, the benefit of leverage to the holders of the common stock would be reduced. If the dividend rate on the preferred stock were to exceed the net rate of return on our portfolio, the leverage would result in a lower rate of return to the holders of common stock than if we had not issued preferred stock. Any decline in the net asset value of our investments would be borne entirely by the holders of common stock. Therefore, if the market value of our portfolio were to decline, the leverage would result in a greater decrease in net asset value to the holders of common stock than if we were not leveraged through the issuance of preferred stock. This greater net asset value decrease would also tend to cause a greater decline in the market price for the common stock. We might be in danger of failing to maintain the required asset coverage of the preferred stock or of losing our ratings, if any, on the preferred stock or, in an extreme case, our current investment income might

Table of Contents

not be sufficient to meet the dividend requirements on the preferred stock. In order to counteract such an event, we might need to liquidate investments in order to fund a redemption of some or all of the preferred stock. In addition, we would pay (and the holders of common stock would bear) all costs and expenses relating to the issuance and ongoing maintenance of the preferred stock, including higher advisory fees if our total return exceeds the dividend rate on the preferred stock. Holders of preferred stock may have different interests than holders of common stock and may at times have disproportionate influence over our affairs.

Holders of any preferred stock we might issue would have the right to elect members of our board of directors and class voting rights on certain matters.

Holders of any preferred stock we might issue, voting separately as a single class, would have the right to elect two members of our board of directors at all times and in the event dividends become two full years in arrears would have the right to elect a majority of the directors until such arrearage is completely eliminated. In addition, preferred stockholders have class voting rights on certain matters, including changes in fundamental investment restrictions and conversion to open-end status, and accordingly can veto any such changes. Restrictions imposed on the declarations and payment of dividends or other distributions to the holders of our common stock and preferred stock, both by the 1940 Act and by requirements imposed by rating agencies, if any, or the terms of our credit facilities, if any, might impair our ability to maintain our qualification as a RIC for U.S. federal income tax purposes. While we would intend to redeem our preferred stock to the extent necessary to enable us to distribute our income as required to maintain our qualification as a RIC, there can be no assurance that such actions could be effected in time to meet the tax requirements.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that involve substantial risks and uncertainties. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about us, our current and prospective portfolio investments, our industry, our beliefs, and our assumptions. Words such as "anticipate", "believe", "continue", "could", "estimate", "expect", "intend", "may", "plan", "potential", "project", "seek", "should", "target", "will", "would" or variations of these words and similar expressions are intended to identify forward-looking statements. The forward-looking statements contained in this prospectus involve risks and uncertainties, including statements as to:

our future operating results;

our business prospects and the prospects of our portfolio companies;

the impact of investments that we expect to make;

our contractual arrangements and relationships with third parties;

the dependence of our future success on the general economy and its impact on the industries in which we invest;

the ability of our portfolio companies to achieve their objectives;

our expected financings and investments;

the adequacy of our cash resources and working capital; and

the timing of cash flows, if any, from the operations of our portfolio companies.

These statements are not guarantees of future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements, including without limitation:

an economic downturn could impair our portfolio companies' ability to continue to operate, which could lead to the loss of some or all of our investments in such portfolio companies;

a contraction of available credit and/or an inability to access the equity markets could impair our lending and investment activities;

interest rate volatility could adversely affect our results, particularly if we elect to use leverage as part of our investment strategy;

Edgar Filing: New Mountain Finance Corp - Form 497

currency fluctuations could adversely affect the results of our investments in foreign companies, particularly to the extent that we receive payments denominated in foreign currency rather than U.S. dollars; and

the risks, uncertainties and other factors we identify in "Risk Factors" and elsewhere in this prospectus and in our filings with the SEC.

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be inaccurate. Important assumptions include our ability to originate new loans and investments, certain margins and levels of profitability and the availability of additional capital. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this prospectus should not be regarded as a representation by us that our plans and objectives will be achieved. These risks and uncertainties include those described or identified in "Risk Factors" and elsewhere in this prospectus. You

Table of Contents

should not place undue reliance on these forward-looking statements, which apply only as of the date of this prospectus. However, we will update this prospectus to reflect any material changes to the information contained herein. The forward-looking statements and projections contained in this prospectus are excluded from the safe harbor protection provided by Section 27A of the Securities Act.

Table of Contents

USE OF PROCEEDS

We intend to use the net proceeds from the sale of our securities pursuant to this prospectus for new investments in portfolio companies in accordance with our investment objective and strategies described in this prospectus, to temporarily repay indebtedness (which will be subject to reborrowing), to pay our operating expenses, to pay distributions to our stockholders and for general corporate purposes, and other working capital needs. We are continuously identifying, reviewing and, to the extent consistent with its investment objective, funding new investments. As a result, we typically raise capital as we deem appropriate to fund such new investments. The supplement to this prospectus relating to an offering will more fully identify the use of the proceeds from such offering.

We estimate that it will take less than six months for us to substantially invest the net proceeds of any offering made pursuant to this prospectus, depending on the availability of attractive opportunities, market conditions and the amount raised. However, we can offer no assurance that we will be able to achieve this goal.

Proceeds not immediately used for new investments or the temporary repayment of debt will be invested primarily in cash, cash equivalents, U.S. government securities and other high-quality investments that mature in one year or less from the date of investment. These securities may have lower yields than the types of investments we would typically make in accordance with our investment objective and, accordingly, may result in lower distributions, if any, during such period.

Table of Contents**PRICE RANGE OF COMMON STOCK AND DISTRIBUTIONS**

Our common stock is traded on the New York Stock Exchange ("NYSE") under the symbol "NMFC". The following table sets forth the net asset value ("NAV") per share of our common stock, the high and low closing sale price for our common stock, the closing sale price as a percentage of NAV and the quarterly dividend distributions per share for each fiscal quarter for the years ended December 31, 2015, December 31, 2014 and December 31, 2013.

Fiscal Year Ended	NAV Per Share(2)	Closing Sales Price(3)		Premium or Discount of High Closing Sales to NAV(4)	Premium or Discount of Low Closing Sales to NAV(4)	Declared Dividends Per Share(5)	
		High	Low				
December 31, 2015							
Second Quarter(1)	* \$	\$ 15.14	\$ 14.53	*	* \$	0.34	
First Quarter	\$	13.89	\$ 15.06	\$ 14.30	8.42%	2.95%	\$ 0.34
December 31, 2014							
Fourth Quarter	\$	13.83	\$ 15.09	\$ 14.14	9.11%	2.24%	\$ 0.34
Third Quarter	\$	14.33	\$ 15.39	\$ 14.48	7.40%	1.05%	\$ 0.46(6)
Second Quarter	\$	14.65	\$ 14.89	\$ 13.91	1.64%	(5.05)%	\$ 0.34
First Quarter	\$	14.53	\$ 15.19	\$ 14.46	4.54%	(0.48)%	\$ 0.34
December 31, 2013							
Fourth Quarter	\$	14.38	\$ 15.19	\$ 14.05	5.63%	(2.29)%	\$ 0.34
Third Quarter	\$	14.32	\$ 14.90	\$ 14.21	4.05%	(0.77)%	\$ 0.46(7)
Second Quarter	\$	14.32	\$ 15.60	\$ 13.82	8.94%	(3.49)%	\$ 0.34
First Quarter	\$	14.31	\$ 15.45	\$ 14.30	7.97%	(0.07)%	\$ 0.34

- (1) Period from April 1, 2015 through May 28, 2015.
- (2) NAV is determined as of the last date in the relevant quarter and therefore may not reflect the NAV per share on the date of the high and low sales prices. The NAVs shown are based on outstanding shares at the end of each period.
- (3) Closing sales price is determined as the high or low closing sales price noted within the respective quarter, not adjusted for dividends.
- (4) Calculated as of the respective high or low closing sales price divided by the quarter end NAV.
- (5) Represents the dividend declared or paid for the specified quarter.
- (6) Includes a special dividend of \$0.12 per share paid on September 3, 2014 and a third quarter dividend of \$0.34 per share paid on September 30, 2014.
- (7) Includes a special dividend of \$0.12 per share paid on August 30, 2013 and a third quarter dividend of \$0.34 per share paid on September 30, 2013.
- * Not determinable at the time of filing.

Edgar Filing: New Mountain Finance Corp - Form 497

On May 28, 2015, the last reported sales price of our common stock was \$15.14 per share. As of May 28, 2015, we had approximately 29 stockholders of record and approximately one beneficial owner whose shares are held in the names of brokers, dealers, funds, trusts and clearing agencies.

Shares of BDCs may trade at a market price that is less than the value of the net assets attributable to those shares. The possibility that NMFC's shares of common stock will trade at a discount from NAV or at premiums that are unsustainable over the long term are separate and distinct from the risk that our NAV will decrease. Since NMFC's initial public offering on May 19,

Table of Contents

2011, NMFC's shares of common stock have traded at times at both a discount and a premium to the net assets attributable to those shares. As of May 28, NMFC's shares of common stock traded at a premium of approximately 9.0% of the NAV attributable to those shares as of March 31, 2015. It is not possible to predict whether the shares offered hereby will trade at, above, or below NAV.

We intend to pay quarterly distributions to our stockholders and to maintain our status as a RIC. We intend to distribute approximately our entire Adjusted Net Investment Income (defined as net investment income adjusted to reflect income as if the cost basis of investments held at the IPO date had stepped-up to fair market value as of the IPO date) on a quarterly basis and substantially all of our taxable income on an annual basis, except that we may retain certain net capital gains for reinvestment.

We have adopted an "opt out" dividend reinvestment plan on behalf of our stockholders, whereas our stockholders' cash dividends will be automatically reinvested in additional shares of our common stock, unless the stockholder elects to receive cash. Cash dividends reinvested in additional shares of our common stock will be automatically reinvested by us into additional shares of our common stock.

We apply the following in implementing the dividend reinvestment plan. If the price at which newly issued shares are to be credited to stockholders' accounts is greater than 110.0% of the last determined NAV of the shares, we will use only newly issued shares to implement its dividend reinvestment plan. Under such circumstances, the number of shares to be issued to a stockholder is determined by dividing the total dollar amount of the distribution payable to such stockholder by the market price per share of our common stock on the NYSE on the distribution payment date. Market price per share on that date will be the closing price for such shares on the NYSE or, if no sale is reported for such day, the average of their electronically reported bid and asked prices.

If the price at which newly issued shares are to be credited to stockholders' accounts is less than 110.0% of the last determined NAV of the shares, we will either issue new shares or instruct the plan administrator to purchase shares in the open market to satisfy the additional shares required. Shares purchased in open market transactions by the plan administrator will be allocated to a stockholder based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market. The number of shares of our common stock to be outstanding after giving effect to payment of the distribution cannot be established until the value per share at which additional shares will be issued has been determined and elections of our stockholders have been tabulated.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

The following table reflects the cash distributions, including dividends and returns of capital, if any, per unit/share that have been declared by the NMF Holding's board of directors, and subsequently our board of directors, from our IPO until May 8, 2014, and our board of directors thereafter:

Date Declared	Record Date	Payment Date	Amount
May 5, 2015	June 16, 2015	June 30, 2015	\$ 0.34
February 23, 2015	March 17, 2015	March 31, 2015	0.34
			\$ 0.68
November 4, 2014	December 16, 2014	December 30, 2014	\$ 0.34

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The information contained in this section should be read in conjunction with the Selected Financial and Other Data and our Financial Statements and notes thereto appearing elsewhere in this prospectus. For the periods prior to and as of May 8, 2014, all financial information provided in this prospectus reflects our organizational structure prior to the restructuring on May 8, 2014 described under "Description of Restructuring", where NMF Holdings functioned as the operating company. In addition to historical information, the following discussion and other parts of this prospectus contain forward-looking information that involves risks and uncertainties. Our actual results could differ materially from those anticipated by such forward-looking information due to the factors discussed under "Risk Factors" and "Cautionary Statement Regarding Forward-Looking Statements" appearing elsewhere in this prospectus.

Overview

NMFC is a Delaware corporation that was originally incorporated on June 29, 2010. NMFC is a closed-end, non-diversified management investment company that has elected to be regulated as a BDC under the 1940 Act. As such, NMFC is obligated to comply with certain regulatory requirements. NMFC has elected to be treated, and intends to comply with the requirements to continue to qualify annually, as a RIC under Subchapter M of the Code. NMFC is also registered as an investment adviser under the Advisers Act.

On May 19, 2011, NMFC priced its IPO of 7,272,727 shares of common stock at a public offering price of \$13.75 per share. Concurrently with the closing of the IPO and at the public offering price of \$13.75 per share, NMFC sold an additional 2,172,000 shares of its common stock to certain executives and employees of, and other individuals affiliated with, New Mountain Capital in the Concurrent Private Placement. Additionally, 1,252,964 shares were issued to the partners of New Mountain Guardian Partners, L.P. at that time for their ownership interest in the Predecessor Entities. In connection with NMFC's IPO and through a series of transactions, NMF Holdings acquired all of the operations of the Predecessor Entities, including all of the assets and liabilities related to such operations.

NMF Holdings is a Delaware limited liability company. Until May 8, 2014, NMF Holdings was externally managed and was regulated as a BDC under the 1940 Act. As such, NMF Holdings was obligated to comply with certain regulatory requirements. NMF Holdings was treated as a partnership for U.S. federal income tax purposes for so long as it had at least two members. With the completion of the underwritten secondary offering on February 3, 2014, NMF Holdings' existence as a partnership for U.S. federal income tax purposes terminated and NMF Holdings became an entity that is disregarded as a separate entity from its owner for U.S. federal tax purposes. For additional information on our organizational structure prior to May 8, 2014, see " Restructuring".

Until May 8, 2014, NMF Holdings was externally managed by the Investment Adviser. As of May 8, 2014, the Investment Adviser serves as the external investment adviser to NMFC. The Administrator provides the administrative services necessary for operations. The Investment Adviser and Administrator are wholly-owned subsidiaries of New Mountain Capital. New Mountain Capital is a firm with a track record of investing in the middle market and with assets under management totaling more than \$15.0 billion⁽¹⁾, which includes total assets held by the Company. New Mountain Capital focuses on investing in defensive growth companies across its private equity, public equity and credit investment vehicles. NMF Holdings, formerly known as New Mountain Guardian

(1) Includes amounts committed, not all of which have been drawn down and invested to-date, as of March 31, 2015, as well as amounts called and returned since inception.

Table of Contents

(Leveraged), L.L.C., was originally formed as a subsidiary of Guardian AIV by New Mountain Capital in October 2008. Guardian AIV was formed through an allocation of approximately \$300.0 million of the \$5.1 billion of commitments supporting New Mountain Partners III, L.P., a private equity fund managed by New Mountain Capital. In February 2009, New Mountain Capital formed a co-investment vehicle, New Mountain Guardian Partners, L.P., comprising \$20.4 million of commitments.

Prior to December 18, 2014, NMF SLF was a Delaware limited liability company. NMF SLF was a wholly-owned subsidiary of NMF Holdings and thus a wholly-owned indirect subsidiary of the Company. NMF SLF was bankruptcy-remote and non-recourse to NMFC. As part of an amendment to the Company's existing credit facilities with Wells Fargo Bank, National Association, NMF SLF merged with and into NMF Holdings on December 18, 2014. See "*Borrowings*" for additional information on the Company's credit facilities.

Since NMFC's IPO, and through March 31, 2015, NMFC raised approximately \$374.6 million in net proceeds from additional offerings of common stock and issued shares of its common stock valued at approximately \$288.4 million on behalf of AIV Holdings for exchanged units. NMFC acquired from NMF Holdings units of NMF Holdings equal to the number of shares of NMFC's common stock sold in additional offerings. With the completion of the final secondary offering on February 3, 2014, NMFC owned 100.0% of the units of NMF Holdings, which became a wholly-owned subsidiary of NMFC.

Current Organization

During the three months ended March 31, 2015, the Company established a wholly-owned subsidiary, NMF QID. The Company's wholly-owned subsidiaries, NMF Ancora, NMF QID and NMF YP, are structured as Delaware entities that serve as tax blocker corporations which hold equity or equity-like investments in portfolio companies organized as limited liability companies (or other forms of pass-through entities). Tax blocker corporations are not consolidated for income tax purposes and may incur income tax expense as a result of their ownership of portfolio companies. Additionally, the Company has a wholly-owned subsidiary, NMF Servicing that serves as the administrative agent on certain investment transactions. SBIC LP, and its general partner, SBIC GP, were organized in Delaware as a limited partnership and limited liability company, respectively. SBIC LP and SBIC GP are consolidated wholly-owned direct and indirect subsidiaries of the Company. SBIC LP received a license from the SBA to operate as a SBIC under Section 301(c) of the 1958 Act.

Table of Contents

The diagram below depicts the Company's organizational structure as of March 31, 2015.

*
Includes partners of New Mountain Guardian Partners, L.P.

**
NMFC is the sole limited partner of SBIC LP. NMFC, directly or indirectly through SBIC GP, wholly-owns SBIC LP. NMFC owns 100.0% of SBIC GP which owns 1.0% of SBIC LP. NMFC owns 99.0% of SBIC LP.

The Company's investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. In some cases, the Company's investments may also include equity interests. The primary focus is in the debt of defensive growth companies, which are defined as generally exhibiting the following characteristics: (i) sustainable secular growth drivers, (ii) high barriers to competitive entry, (iii) high free cash flow after capital expenditure and working capital needs, (iv) high returns on assets and (v) niche market dominance. Similar to the Company, SBIC LP's investment objective is to generate current income and capital appreciation under the investment criteria used by the Company, however, SBIC LP's investments must be SBA eligible companies. Our portfolio may be concentrated in a limited number of industries. As of March 31, 2015, our top five industry concentrations were software, business services, education, federal services and healthcare services.

The securities that we invest in are almost entirely rated below investment grade or may be unrated, which are often referred to as "leveraged loans," "high yield" or "junk" debt investments, and may be considered "high risk" or speculative compared to debt investments that are rated investment grade. Such issuers are considered more likely than investment grade issuers to default on their payments of interest and principal and such risk of default could reduce our net asset value and income distributions. Our investments are also primarily floating rate debt investments that contain interest reset provisions that may make it more difficult for borrowers to make debt repayments to us if interest rates rise. In addition, some of our debt investments will not fully amortize during their lifetime, which could result in a loss or a substantial amount of unpaid principal and interest due upon maturity. Our debt investments may also lose significant market

Table of Contents

value before a default occurs. Furthermore, an active trading market may not exist for these securities. This illiquidity may make it more difficult to value our investments.

As of March 31, 2015, the Company's net asset value was \$806.5 million and its portfolio had a fair value of approximately \$1,404.8 million in 69 portfolio companies, with a weighted average Yield to Maturity at Cost of approximately 10.6%.

Recent Developments

On April 20, 2015, Edmentum, Inc. ("Edmentum") announced an agreement with the unanimous support of its first lien lenders, second lien lenders and equity sponsors to recapitalize its balance sheet and reduce its outstanding indebtedness. The recapitalization is expected to close in the second quarter of 2015.

On May 5, 2015, the Company's board of directors declared a second quarter 2015 distribution of \$0.34 per share payable on June 30, 2015 to holders of record as of June 16, 2015.

On May 5, 2015, the Company entered into a Second Amended and Restated Administration Agreement with the Administrator to reflect current operating procedures.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following items as critical accounting policies.

Basis of Accounting

The Company consolidates its wholly-owned direct and indirect subsidiaries: NMF Holdings, NMF Servicing, SBIC LP, SBIC GP, NMF Ancora, NMF QID and NMF YP. Previously, the Company consolidated its wholly-owned indirect subsidiary NMF SLF until it merged with and into NMF Holdings on December 18, 2014. See "*Borrowings*" for additional information on the Company's credit facilities. The Company is an investment company following accounting and reporting guidance as described in Accounting Standards Codification Topic 946, *Financial Services - Investment Companies*, ("ASC 946"). Prior to the Restructuring, the Predecessor Operating Company consolidated its wholly-owned subsidiary, NMF SLF. NMFC did not consolidate the Predecessor Operating Company. Prior to the Restructuring, NMFC applied investment company master-feeder financial statement presentation, as described in ASC 946 to its interest in the Predecessor Operating Company. NMFC observed that it is also industry practice to follow the presentation prescribed for a master fund-feeder fund structure in ASC 946 in instances in which a master fund is owned by more than one feeder fund and that such presentation provided stockholders of NMFC with a clearer depiction of its investment in the master fund.

Valuation and Leveling of Portfolio Investments

At all times consistent with GAAP and the 1940 Act, the Company conducts a valuation of assets, which impacts its net asset value.

The Company values its assets on a quarterly basis, or more frequently if required under the 1940 Act. In all cases, the Company's board of directors is ultimately and solely responsible for determining the fair value of its portfolio investments on a quarterly basis in good faith, including investments that are not publicly traded, those whose market prices are not readily available and any other situation where its portfolio investments require a fair value determination. Security

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

transactions are accounted for on a trade date basis. The Company's quarterly valuation procedures are set forth in more detail below:

- (1) Investments for which market quotations are readily available on an exchange are valued at such market quotations based on the closing price indicated from independent pricing services.
- (2) Investments for which indicative prices are obtained from various pricing services and/or brokers or dealers are valued through a multi-step valuation process, as described below, to determine whether the quote(s) obtained is representative of fair value in accordance with GAAP.
 - a. Bond quotes are obtained through independent pricing services. Internal reviews are performed by the investment professionals of the Investment Adviser to ensure that the quote obtained is representative of fair value in accordance with GAAP and if so, the quote is used. If the Investment Adviser is unable to sufficiently validate the quote(s) internally and if the investment's par value or its fair value exceeds the materiality threshold, the investment is valued similarly to those assets with no readily available quotes (see (3) below); and
 - b. For investments other than bonds, the Company looks at the number of quotes readily available and performs the following:
 - i. Investments for which two or more quotes are received from a pricing service are valued using the mean of the mean of the bid and ask of the quotes obtained;
 - ii. Investments for which one quote is received from a pricing service are validated internally. The investment professionals of the Investment Adviser analyze the market quotes obtained using an array of valuation methods (further described below) to validate the fair value. If the Investment Adviser is unable to sufficiently validate the quote internally and if the investment's par value or its fair value exceeds the materiality threshold, the investment is valued similarly to those assets with no readily available quotes (see (3) below).
- (3) Investments for which quotations are not readily available through exchanges, pricing services, brokers, or dealers are valued through a multi-step valuation process:
 - a. Each portfolio company or investment is initially valued by the investment professionals of the Investment Adviser responsible for the credit monitoring;
 - b. Preliminary valuation conclusions will then be documented and discussed with the Company's senior management;
 - c. If an investment falls into (3) above for four consecutive quarters and if the investment's par value or its fair value exceeds the materiality threshold, then at least once each fiscal year, the valuation for each portfolio investment for which the Company does not have a readily available market quotation will be reviewed by an independent valuation firm engaged by the Company's board of directors; and
 - d. When deemed appropriate by the Company's management, an independent valuation firm may be engaged to review and value investment(s) of a portfolio company, without any preliminary valuation being performed by the Investment Adviser. The investment professionals of the Investment Adviser will review and validate the value provided.

Table of Contents

For investments in revolving credit facilities and delayed draw commitments, the cost basis of the funded investments purchased is offset by any costs/netbacks received for any unfunded portion on the total balance committed. The fair value is also adjusted for the price appreciation or depreciation on the unfunded portion. As a result, the purchase of commitments not completely funded may result in a negative fair value until it is called and funded.

The values assigned to investments are based upon available information and do not necessarily represent amounts which might ultimately be realized, since such amounts depend on future circumstances and cannot be reasonably determined until the individual positions are liquidated. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may fluctuate from period to period and the fluctuations could be material.

GAAP fair value measurement guidance classifies the inputs used in measuring fair value into three levels as follows:

Level I Quoted prices (unadjusted) are available in active markets for identical investments and the Company has the ability to access such quotes as of the reporting date. The type of investments which would generally be included in Level I include active exchange-traded equity securities and exchange-traded derivatives. As required by Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"), the Company, to the extent that it holds such investments, does not adjust the quoted price for these investments, even in situations where the Company holds a large position and a sale could reasonably impact the quoted price.

Level II Pricing inputs are observable for the investments, either directly or indirectly, as of the reporting date, but are not the same as those used in Level I. Level II inputs include the following:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in non-active markets (examples include corporate and municipal bonds, which trade infrequently);

Pricing models whose inputs are observable for substantially the full term of the asset or liability (examples include most over-the-counter derivatives, including foreign exchange forward contracts); and

Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the asset or liability.

Level III Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment.

The inputs used to measure fair value may fall into different levels. In all instances when the inputs fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level of input that is significant to the fair value measurement in its entirety. As such, a Level III fair value measurement may include inputs that are both observable (Levels I and II) and unobservable (Level III). Gains and losses for such assets categorized within the Level III table below may include changes in fair value that are attributable to both observable inputs (Levels II and III) and unobservable inputs (Level III).

The inputs into the determination of fair value require significant judgment or estimation by management and consideration of factors specific to each investment. A review of the fair value hierarchy classifications is conducted on a quarterly basis. Changes in the observability of valuation

Table of Contents

inputs may result in the transfer of certain investments within the fair value hierarchy from period to period. Reclassifications impacting the fair value hierarchy are reported as transfers in/out of the respective leveling categories as of the beginning of the quarter in which the reclassifications occur.

The following table summarizes the levels in the fair value hierarchy that the Company's portfolio investments fall into as of March 31, 2015:

(in thousands)	Total	Level I	Level II	Level III
First lien	\$ 641,501	\$	\$ 488,843	\$ 152,658
Second lien	591,465		488,729	102,736
Subordinated	75,544		37,482	38,062
Equity and other	96,244		526	95,718
Total investments	\$ 1,404,754	\$	\$ 1,015,580	\$ 389,174

The Company generally uses the following framework when determining the fair value of investments where there are little, if any, market activity or observable pricing inputs. The Company typically determines the fair value of its performing debt investments utilizing an income approach. Additional consideration is given using a market based approach, as well as reviewing the overall underlying portfolio company's performance and associated financial risks. The following outlines additional details on the approaches considered:

Company Performance, Financial Review, and Analysis: Prior to investment, as part of its due diligence process, the Company evaluates the overall performance and financial stability of the portfolio company. Post investment, the Company analyzes each portfolio company's current operating performance and relevant financial trends versus prior year and budgeted results, including, but not limited to, factors affecting its revenue and earnings before interest, taxes, depreciation, and amortization ("EBITDA") growth, margin trends, liquidity position, covenant compliance and changes to its capital structure. The Company also attempts to identify and subsequently track any developments at the portfolio company, within its customer or vendor base or within the industry or the macroeconomic environment, generally, that may alter any material element of its original investment thesis. This analysis is specific to each portfolio company. The Company leverages the knowledge gained from its original due diligence process, augmented by this subsequent monitoring, to continually refine its outlook for each of its portfolio companies and ultimately form the valuation of its investment in each portfolio company. When an external event such as a purchase transaction, public offering or subsequent sale occurs, the Company will consider the pricing indicated by the external event to corroborate the private valuation.

Market Based Approach: The Company may estimate the total enterprise value of each portfolio company by utilizing market value cash flow (EBITDA) multiples of publicly traded comparable companies. The Company considers numerous factors when selecting the appropriate companies whose trading multiples are used to value its portfolio companies. These factors include, but are not limited to, the type of organization, similarity to the business being valued, relevant risk factors, as well as size, profitability and growth expectations. The Company may apply an average of various relevant comparable company EBITDA multiples to the portfolio company's latest twelve month ("LTM") EBITDA or projected EBITDA to calculate portfolio company enterprise value. Significant increases or decreases in the multiple will result in an increase or decrease in enterprise value, resulting in an increase or decrease in the fair value estimate of the investment. In applying the market based approach as of March 31, 2015, the Company used the relevant EBITDA multiple ranges set forth in the table below to determine the enterprise value of investments in 16 of its portfolio companies. The Company believes this was a reasonable range in light of current comparable company trading levels and the specific companies involved.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

Income Based Approach: The Company also may use a discounted cash flow analysis to estimate the fair value of the investment. Projected cash flows represent the relevant security's contractual interest, fee and principal payments plus the assumption of full principal recovery at the investment's expected maturity date. These cash flows are discounted at a rate established utilizing a yield calibration approach, which incorporates changes in the credit quality (as measured by relevant statistics) of the portfolio company, as compared to changes in the yield associated with comparable credit quality market indices, between the date of origination and the valuation date. Significant increases or decreases in the discount rate would result in a decrease or increase in the fair value measurement. In applying the income based approach as of March 31, 2015, the Company used the discount ranges set forth in the table below to value investments in 17 of its portfolio companies.

(in thousands) Type	Fair Value	Approach	Unobservable Input	Range		Weighted Average
				Low	High	
First lien	\$ 152,658	Market approach	EBITDA multiple	4.5x	16.5x	9.9x
		Income approach	Discount rate	7.9%	14.4%	10.9%
Second lien	102,736	Market approach	EBITDA multiple	5.5x	15.0x	10.6x
		Income approach	Discount rate	11.0%	15.5%	12.6%
Subordinated	38,062	Market approach	EBITDA multiple	4.5x	12.2x	9.8x
		Income approach	Discount rate	10.4%	17.6%	14.6%
Equity and other	95,718	Market approach	EBITDA multiple	3.0x	16.5x	6.5x
		Income approach	Discount rate	8.0%	19.1%	13.9%
		Black Scholes analysis	Expected life in years	11.0	11.0	11.0
			Volatility	28.5%	28.5%	28.5%
			Discount rate	2.1%	2.1%	2.1%
	\$ 389,174					

NMFC Senior Loan Program I, LLC

NMFC Senior Loan Program I, LLC ("SLP I") was formed as a Delaware limited liability company on May 27, 2014 and commenced operations on June 10, 2014. SLP I is a portfolio company held by the Company. SLP I is structured as a private investment fund, in which all of the investors are qualified purchasers, as such term is defined under the 1940 Act. Transfer of interests in SLP I is subject to restrictions, and as a result, such interests are not readily marketable. SLP I operates under a limited liability company agreement (the "Agreement") and will continue in existence until June 10, 2019, subject to earlier termination pursuant to certain terms of the Agreement. The term may be extended for up to one year pursuant to certain terms of the Agreement. SLP I has a three year re-investment period.

SLP I is capitalized with \$93.0 million of capital commitments, \$275.0 million of debt from a revolving credit facility and is managed by the Company. The Company's capital commitment is \$23.0 million, representing less than 25.0% ownership, with third party investors representing the remaining capital commitment. As of March 31, 2015, SLP I had total investments with an aggregate fair value of approximately \$343.0 million, debt outstanding of \$247.1 million and capital that had been called and funded of \$93.0 million. The Company's investment in SLP I is disclosed on the Company's Consolidated Schedule of Investments as of March 31, 2015.

The Company, as an investment adviser registered under the Advisers Act, acts as the collateral manager to SLP I and is entitled to receive a management fee for its investment

Table of Contents

management services provided to SLP I. As a result, SLP I is classified as an affiliate of the Company. For the three months ended March 31, 2015, the Company earned approximately \$0.3 million in management fees related to SLP I which is included in other income. As of March 31, 2015, approximately \$0.6 million of management fees related to SLP I was included in receivable from affiliates. For the three months ended March 31, 2015, the Company earned approximately \$0.9 million of dividend income related to SLP I, which is included in dividend income. As of March 31, 2015, approximately \$1.0 million of dividend income related to SLP I was included in interest and dividend receivable.

SLP I invests in senior secured loans issued by companies within the Company's core industry verticals. These investments are typically broadly syndicated first lien loans.

Collateralized agreements or repurchase financings

The Company follows the guidance in Accounting Standards Codification Topic 860, Transfers and Servicing – Secured Borrowing and Collateral, ("ASC 860") when accounting for transactions involving the purchases of securities under collateralized agreements to resell (resale agreements). These transactions are treated as collateralized financing transactions and are recorded at their contracted resale or repurchase amounts, as specified in the respective agreements. Interest on collateralized agreements is accrued and recognized over the life of the transaction and included in interest income. As of March 31, 2015 and December 31, 2014, the Company held one collateralized agreement to resell with a carrying value of \$30.0 million, collateralized by a security with a fair value of \$30.0 million and guaranteed by the counterparty. The counterparty has the option to repurchase the collateral from the Company at the par value of the collateralized agreement within a year. The collateralized agreement earns interest at a rate of 15.0% per annum as of March 31, 2015 and December 31, 2014.

Revenue Recognition

The Company's revenue recognition policies are as follows:

Sales and paydowns of investments: Realized gains and losses on investments are determined on the specific identification method.

Interest and dividend income: Interest income, including amortization of premium and discount using the effective interest method, is recorded on the accrual basis and periodically assessed for collectability. Interest income also includes interest earned from cash on hand. Upon the prepayment of a loan or debt security, any prepayment penalties are recorded as part of interest income. The Company has loans and certain preferred equity investments in the portfolio that contain a payment-in-kind ("PIK") interest or dividend provision. PIK interest and dividends are accrued and recorded as income at the contractual rates, if deemed collectible. The PIK interest and dividends are added to the principal or share balances on the capitalization dates and generally due at maturity or when redeemed by the issuer.

Dividend income on common equity is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies. Dividend income on preferred securities is recorded as dividend income on an accrual basis to the extent that such amounts are deemed collectible.

Table of Contents

Non-accrual income: Investments are placed on non-accrual status when principal or interest payments are past due 30 days or more and when there is reasonable doubt that principal or interest will be collected. Accrued cash and un-capitalized PIK interest or dividends are reversed when an investment is placed on non-accrual status. Previously capitalized PIK interest or dividends are not reversed when an investment is placed on non-accrual status. Interest or dividend payments received on non-accrual investments may be recognized as income or applied to principal depending upon management's judgment of the ultimate outcome. Non-accrual investments are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current.

Other income: Other income represents delayed compensation, consent or amendment fees, revolver fees, structuring fees, management fees from a non-controlled/affiliated investment and other miscellaneous fees received and are typically non-recurring in nature. Delayed compensation is income earned from counterparties on trades that do not settle within a set number of business days after trade date. Other income may also include fees from bridge loans. The Company may from time to time enter into bridge financing commitments, an obligation to provide interim financing to a counterparty until permanent credit can be obtained. These commitments are short-term in nature and may expire unfunded. A fee is received by the Company for providing such commitments. Structuring fees are recognized as income when earned, usually when paid at the closing of the investment and are non-refundable.

Prior to the Restructuring, NMFC's revenue recognition policies were as follows:

Revenue, expenses, and capital gains (losses): At each quarterly valuation date, the Predecessor Operating Company's investment income, expenses, net realized gains (losses), and net increase (decrease) in unrealized appreciation (depreciation) were allocated to NMFC based on its pro-rata interest in the net assets of the Predecessor Operating Company. This was recorded on NMFC's Statements of Operations. Realized gains and losses are recorded upon sales of NMFC's investments in the Predecessor Operating Company. Net change in unrealized appreciation (depreciation) of investment in New Mountain Finance Holdings, L.L.C. is the difference between the net asset value per share and the closing price per share for shares issued as part of the dividend reinvestment plan on the dividend payment date. This net change in unrealized appreciation (depreciation) of investment in New Mountain Finance Holdings, L.L.C. includes the unrealized appreciation (depreciation) from the IPO. NMFC used the proceeds from its IPO and Concurrent Private Placement to purchase units in the Predecessor Operating Company at \$13.75 per unit (its IPO price per share). At the IPO date, \$13.75 per unit represented a discount to the actual net asset value per unit of the Predecessor Operating Company. As a result, NMFC experienced immediate unrealized appreciation on its investment.

All expenses, including those of NMFC, were paid and recorded by the Predecessor Operating Company. Expenses were allocated to NMFC based on pro-rata ownership interest. In addition, the Predecessor Operating Company paid all of the offering costs related to the IPO and subsequent offerings. NMFC recorded its portion of the offering costs as a direct reduction to net assets and the cost of their investment in the Predecessor Operating Company.

Monitoring of Portfolio Investments

The Company monitors the performance and financial trends of its portfolio companies on at least a quarterly basis. The Company attempts to identify any developments within the portfolio company, the industry or the macroeconomic environment that may alter any material element of its original investment strategy.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

The Company uses an investment rating system to characterize and monitor the credit profile and expected level of returns on each investment in the portfolio. The Company uses a four-level numeric rating scale as follows:

Investment Rating 1 Investment is performing materially above expectations;

Investment Rating 2 Investment is performing materially in-line with expectations. All new loans are rated 2 at initial purchase;

Investment Rating 3 Investment is performing materially below expectations and risk has increased materially since the original investment; and

Investment Rating 4 Investment is performing substantially below expectations and risks have increased substantially since the original investment. Payments may be delinquent. There is meaningful possibility that the Company will not recoup its original cost basis in the investment and may realize a substantial loss upon exit.

The following table shows the distribution of the Company's investments on the 1 to 4 investment rating scale at fair value as of March 31, 2015:

As of March 31, 2015					
(in millions)					
Investment Rating	Par Value(1)	Percent	Fair Value	Percent	
Investment Rating 1	\$ 280.6	20.6%	\$ 292.9	20.8%	
Investment Rating 2	1,005.9	73.6%	1,062.8	75.7%	
Investment Rating 3	61.2	4.5%	40.9	2.9%	
Investment Rating 4	17.4	1.3%	8.2	0.6%	
	\$ 1,365.1	100.0%	\$ 1,404.8	100.0%	

(1) Excludes shares and warrants.

As of March 31, 2015, all investments in the Company's portfolio had an Investment Rating of 1 or 2 with the exception of six portfolio company names; five portfolio companies with an Investment Rating of 3 and two portfolio companies with an Investment Rating of 4. As of March 31, 2015, a portion of the Company's investment in one portfolio company had an Investment Rating of 3 and a portion had an Investment Rating of 4.

During the first quarter of 2015, the Company placed a portion of its second lien position in Edmentum, Inc. ("Edmentum") on non-accrual status due to its ongoing restructuring. As of March 31, 2015, the portion of the Edmentum second lien position placed on non-accrual status represented an aggregate cost basis of \$15.4 million, an aggregate fair value of \$7.8 million and total unearned interest income of \$0.4 million for the three months then ended.

During the first quarter of 2015, the Company's first lien position in Education Management LLC ("EDMC") was non-income producing as a result of the portfolio company undergoing a restructuring. As of December 31, 2014, the Company's investment in EDMC had an aggregate cost basis of \$3.0 million, an aggregate fair value of \$1.4 million and total unearned interest income of \$0 for the three months then ended. In January 2015, EDMC completed a restructuring which resulted in a material modification of the original terms and an extinguishment of the Company's original investment in EDMC. Prior to the extinguishment, the Company's original investment in EDMC had an aggregate cost of \$3.0 million and an aggregate fair value of \$1.4 million. The extinguishment resulted in a realized loss of \$1.6 million. Post restructuring, the Company's investments in EDMC are income producing. As of March 31, 2015, the Company's investments in EDMC have an aggregate cost basis of \$1.4 million and an aggregate fair value of \$1.4 million.

Table of Contents

During the third quarter of 2014, the Company placed a portion of its first lien position in UniTek Global Services, Inc. ("UniTek") on non-accrual status in anticipation of a voluntary petition for a "Pre-Packaged" Chapter 11 Bankruptcy in the U.S. Bankruptcy Court for the District of Delaware which was filed on November 3, 2014. As of December 31, 2014, the Company's investments in UniTek had an aggregate fair value of \$35.2 million. In January 2015, UniTek emerged from "Pre-Packaged" Chapter 11 Bankruptcy and completed its restructuring. The restructuring resulted in a material modification of the original terms and an extinguishment of the Company's original investments in UniTek. Prior to the extinguishment, the Company's original investments in UniTek had an aggregate cost of \$52.9 million and an aggregate fair value of \$40.1 million. The extinguishment resulted in a realized loss of \$12.8 million. Post restructuring, the Company's investments in UniTek have been restored to full accrual status. As of March 31, 2015, the Company's investments in UniTek have an aggregate cost basis of \$40.5 million and an aggregate fair value of \$47.3 million.

As of March 31, 2015, the Company's two super priority first lien positions in ATI Acquisition Company and its related equity positions in Ancora Acquisition LLC had an Investment Rating of 4 due to the underlying business encountering significant regulatory constraints which have led to the portfolio company's underperformance. As of March 31, 2015, the Company's two super priority first lien positions in ATI Acquisition Company and its related preferred shares and warrants in Ancora Acquisition LLC remained on non-accrual status due to the inability of the portfolio company to service its interest payments for the quarter then ended and uncertainty about its ability to pay such amounts in the future. As of March 31, 2015, the Company's investment in ATI Acquisition Company and Ancora Acquisition LLC had an aggregate cost basis of \$1.6 million, an aggregate fair value of \$0.4 million and total unearned interest income of \$0.1 million for the three months then ended. Unrealized gains (losses) include a fee that the Company would receive upon maturity of the two super priority first lien debt investments.

Portfolio and Investment Activity

The fair value of the Company's investments was approximately \$1,404.8 million in 69 portfolio companies at March 31, 2015 and approximately \$1,424.7 million in 71 portfolio companies at December 31, 2014.

At March 31, 2014, the Company's only investment was its investment in the Predecessor Operating Company. The following table shows the Company's portfolio and investment activity for the three months ended March 31, 2015 and the Predecessor Operating Company's portfolio and investment activity for the three months ended March 31, 2014:

(in millions)	Three months ended	
	March 31, 2015	March 31, 2014
New investments in 7 and 15 portfolio companies, respectively	\$ 67.2	\$ 158.7
Debt repayments in existing portfolio companies	50.0	40.6
Sales of securities in 10 and 5 portfolio companies, respectively	43.3	61.8
Change in unrealized appreciation on 42 and 35 portfolio companies, respectively	33.7	11.5
Change in unrealized depreciation on 31 and 27 portfolio companies, respectively	(29.2)	(6.7)

Table of Contents

At March 31, 2015, the Company's weighted average Yield to Maturity at Cost was approximately 10.6%. At March 31, 2014, the Predecessor Operating Company's weighted average Yield to Maturity at Cost was approximately 10.9%.

Recent Accounting Standards Updates

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers Topic 606 Summary and Amendments that Create Revenue from Contracts with Customers and Other Assets and Deferred Costs* ('ASU 2014-09"). ASU 2014-09 establishes a comprehensive and converged standard on revenue recognition to enable financial statement users to better understand and consistently analyze an entity's revenue across industries, transactions and geographies. The core principle of the new guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps: (1) identify the contract(s) with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) the entity satisfies a performance obligation. The new guidance also specifies the accounting for certain costs to obtain or fulfill a contract with a customer. The new guidance requires improved disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. Qualitative and quantitative information is required to be disclosed about: (1) contracts with customers, (2) significant judgments and changes in judgments, and (3) assets recognized from costs to obtain or fulfill a contract. The new guidance will apply to all entities. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2016. Early application is not permitted. The Company is in the process of evaluating the impact that this guidance will have on its consolidated financial statements and disclosures.

In June 2014, the FASB issued Accounting Standards Update No. 2014-11, *Transfers and Servicing Topic 860 Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures* ("ASU 2014-11"). ASU 2014-11 changes the accounting for repurchase- and resale-to-maturity agreements by requiring that such agreements be recognized as financing arrangements, and requires that a transfer of a financial asset and a repurchase agreement entered into contemporaneously be accounted for separately. ASU 2014-11 requires additional disclosures about certain transferred financial assets accounted for as sales and certain securities financing transactions. The accounting changes and additional disclosures about certain transferred financial assets accounted for as sales are effective for the first interim and annual reporting periods beginning after December 15, 2014. The additional disclosures for securities financing transactions are required for annual reporting periods beginning after December 15, 2014 and for interim reporting periods beginning after March 15, 2015. The Company is in the process of evaluating the impact that this guidance will have on its consolidated financial statements and disclosures.

In August 2014, the FASB issued Accounting Standards Update No. 2014-15, *Presentation of Financial Statements Going Concern Subtopic 205-40 Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern* ("ASU 2014-15"). ASU 2014-15 will explicitly require management to assess an entity's ability to continue as a going concern, and to provide related footnote disclosure in certain circumstances. The new standard will be effective for all entities in the first annual period ending after December 15, 2016. Earlier adoption is permitted. The adoption of ASU 2014-15 is not expected to have a material impact on the Company's consolidated financial statements and disclosures.

In April 2015, the FASB issued Accounting Standards Update No. 2015-03, *Interest Imputation of Interest Subtopic 835-30 Simplifying the Presentation of Debt Issuance Costs*

Table of Contents

("ASU 2015-03"), which changes the presentation of debt issuance costs in financial statements. Under ASU 2015-03, an entity presents such costs on the statement of assets and liabilities as a direct deduction from the related debt liability rather than as an asset. Amortization of the costs is reported as interest expense. The new standard will be effective for all public entities for interim and annual reporting periods beginning after December 15, 2015. Earlier adoption is permitted. The Company is in the process of evaluating the impact that this guidance will have on its consolidated financial statements and disclosures.

Results of Operations

Under GAAP, NMFC's IPO did not step-up the cost basis of the Predecessor Operating Company's existing investments to fair market value at the IPO date. Since the total value of the Predecessor Operating Company's investments at the time of the IPO was greater than the investments' cost basis, a larger amount of amortization of purchase or original issue discount, and different amounts in realized gain and unrealized appreciation, may be recognized under GAAP in each period than if the step-up had occurred. This will remain until such predecessor investments are sold, repaid or mature in the future. The Company tracks the transferred (or fair market) value of each of the Predecessor Operating Company's investments as of the time of the IPO and, for purposes of the incentive fee calculation, adjusts income as if each investment was purchased at the date of the IPO (or stepped up to fair market value). The respective "Adjusted Net Investment Income" (defined as net investment income adjusted to reflect income as if the cost basis of investments held at the IPO date had stepped-up to fair market value as of the IPO date) is used in calculating both the incentive fee and dividend payments.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

The following table for the Company for the three months ended March 31, 2015 is adjusted to reflect the step-up to fair market value and the allocation of the incentive fees related to hypothetical capital gains out of the adjusted post-incentive fee net investment income.

(in thousands)	Three Months Ended March 31, 2015	Stepped-up Cost Basis Adjustments	Incentive Fee Adjustments(1)	Adjusted Three Months Ended March 31, 2015
Investment income				
Interest income	\$ 33,347	\$ (33)	\$	\$ 33,314
Dividend income	1,307			1,307
Other income	1,882			1,882
Total investment income(2)	36,536	(33)		36,503
Total expenses pre-incentive fee(3)	12,115			12,115
Pre-Incentive Fee Net Investment Income	24,421	(33)		24,388
Incentive fee	5,359		(481)	4,878
Post-Incentive Fee Net Investment Income	19,062	(33)	481	19,510
Net realized losses on investments(4)	(133)			(133)
Net change in unrealized appreciation (depreciation) of investments(4)	4,486	33		4,519
Provision for taxes	(501)			(501)
Capital gains incentive fees			(481)	(481)
Net increase in net assets resulting from operations	\$ 22,914			\$ 22,914

(1) For the three months ended March 31, 2015, the Company incurred total incentive fees of \$5.4 million, of which \$0.5 million related to capital gains incentive fees on a hypothetical liquidation basis.

(2) Includes income from non-controlled/non-affiliated investments, non-controlled/affiliated investments and controlled investments.

(3) Includes expense waivers and reimbursements of \$0.4 million and management fee waivers of \$1.4 million.

(4) Includes net realized losses on investments and net change in unrealized appreciation (depreciation) of investments from non-controlled/non-affiliated investments, non-controlled/affiliated investments and controlled investments.

For the three months ended March 31, 2015, the Company had a less than \$0.1 million adjustment to interest income for amortization and an increase of less than \$0.1 million to net

Table of Contents

change in unrealized appreciation to adjust for the stepped-up cost basis of the transferred investments as discussed above. For the three months ended March 31, 2015, total adjusted investment income of \$36.5 million consisted of approximately \$31.6 million in cash interest from investments, approximately \$0.7 million in PIK interest from investments, approximately \$0.4 million in prepayment fees, net amortization of purchase premiums and discounts and origination fees of approximately \$0.6 million, approximately \$0.8 million in cash dividends from investments, \$0.5 million in PIK dividends from investments and approximately \$1.9 million in other income. The Company's Adjusted Net Investment Income was \$19.5 million for the three months ended March 31, 2015.

In accordance with GAAP, for the three months ended March 31, 2015, the Company accrued \$0.5 million of hypothetical capital gains incentive fee based upon the cumulative net Adjusted Realized Capital Gains and Adjusted Realized Capital Losses and the cumulative net Adjusted Unrealized Capital Appreciation and Adjusted Unrealized Capital Depreciation on investments held at the end of each period. Actual amounts paid to the Investment Adviser are consistent with the Investment Management Agreement and are based only on actual Adjusted Realized Capital Gains computed net of all Adjusted Realized Capital Losses and Adjusted Unrealized Capital Depreciation on a cumulative basis from inception through the end of each calendar year as if the entire portfolio was sold at fair value. As of March 31, 2015, no actual capital gains incentive fee was owed under the Investment Management Agreement by the Company, as cumulative net Adjusted Realized Gains did not exceed cumulative Adjusted Unrealized Depreciation.

Results of Operations for the Company for the Three Months Ended March 31, 2015 and the Predecessor Operating Company for the Three Months Ended March 31, 2014

Revenue

(in thousands)	Three Months Ended		Percentage Change
	March 31, 2015	March 31, 2014	
Interest income	\$ 33,347	\$ 28,139	19%
Dividend income	1,307	2,095	(38)%
Other income	1,882	684	175%
Total investment income	\$ 36,536	\$ 30,918	18%

The Company's total investment income increased by approximately \$5.6 million for the three months ended March 31, 2015 as compared to the Predecessor Operating Company's total investment income for the three months ended March 31, 2014. The 18% increase in total investment income primarily results from an increase in interest income of approximately \$5.2 million from the three months ended March 31, 2014 to the three months ended March 31, 2015 which is attributable to larger invested balances, driven by the proceeds from the April 2014 and October 2014 primary offerings of the Company's common stock, the June 2014 offering of NMFC's convertible notes, the Company's use of leverage from its revolving credit facilities to originate new investments and prepayment fees received associated with the early repayments or partial repayments of two different portfolio companies held by the Company as of December 31, 2014. The increase in other income of approximately \$1.2 million during the three months ended March 31, 2015 as compared to the three months ended March 31, 2014, which represents fees that are generally non-recurring in nature, was primarily attributable to structuring, amendment and consent fees received from four different portfolio companies and management fees from a non-controlled affiliated portfolio company. The decrease in dividend income during the three months ended March 31, 2015 as compared to the three months ended March 31, 2014 was

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

primarily attributable to a large non-recurring distribution from one of the Predecessor Operating Company's warrant investments during the three months ended March 31, 2014.

Operating Expenses

(in thousands)	Three Months Ended		Percentage Change
	March 31, 2015	March 31, 2014	
Management fee	\$ 6,468	\$ 4,176	
Less: management fee waiver	(1,382)		
Total management fee	5,086	4,176	22%
Incentive fee	4,878	4,443	10%
Capital gains incentive fee(1)	481	1,527	(69)%
Interest and other financing expenses	5,477	3,413	60%
Professional fees	739	862	(14)%
Administrative expenses	635	596	7%
Other general and administrative expenses	429	390	10%
Total expenses	17,725	15,407	15%
Less: expenses waived and reimbursed	(400)	(774)	(48)%
Net expenses before income taxes	17,325	14,633	18%
Income tax expense	149		NM*
Net expenses after income taxes	\$ 17,474	\$ 14,633	19%

*
Not meaningful.

(1)
Capital gains incentive fee accrual assumes a hypothetical liquidation basis.

The Company's total net operating expenses increased by approximately \$2.8 million for the three months ended March 31, 2015 as compared to the Predecessor Operating Company's three months ended March 31, 2014. The Company's management fee increased by approximately \$0.9 million, net of a management fee waiver, and incentive fees increased by approximately \$0.4 million for the three months ended March 31, 2015 as compared to the Predecessor Operating Company's three months ended March 31, 2014. The increase in management fee and incentive fee from the Predecessor Operating Company's three months ended March 31, 2014 to the Company's three months ended March 31, 2015 was attributable to larger invested balances, driven by the proceeds from the April 2014 and October 2014 primary offerings of NMFC's common stock, the June 2014 offering of NMFC's convertible notes and the Company's use of leverage from its revolving credit facilities to originate new investments. The Company's capital gains incentive fees decreased by approximately \$1.0 million for the three months ended March 31, 2015 as compared to the Predecessor Operating Company's three months ended March 31, 2014, which was attributable to lower net Adjusted Realized Capital Gains (Losses) and Adjusted Unrealized Capital Appreciation (Depreciation) of investments during the period due to lower marks on the broader portfolio. As of March 31, 2015, no actual capital gains incentive fee would be owed under the Investment Management Agreement by the Company if the Company had ceased operations as of March 31, 2015, as cumulative net Adjusted Realized Gains did not exceed cumulative Adjusted Unrealized Depreciation.

Interest and other financing expenses increased by approximately \$2.1 million during the three months ended March 31, 2015, primarily due to the Company's issuance of \$115.0 million of convertible notes and the closing of the NMFC Credit Facility (as defined below) during the second quarter of 2014 and the drawing on SBA-guaranteed debentures during the fourth quarter of 2014.

Table of Contents

The Company's total professional fees, total administrative expenses and total other general and administrative expenses remained relatively flat for the three months ended March 31, 2015 as compared to the Predecessor Operating Company's three months ended March 31, 2014. During the three months ended March 31, 2014, the Company incurred \$10.9 thousand in other expenses that were not subject to the expense cap pursuant to the administration agreement, as amended and restated (the "Administration Agreement"), with the Administrator, and further restricted by the Company. The Company's expenses waived and reimbursed decreased by approximately \$0.4 million for the three months ended March 31, 2015 as compared to the Predecessor Operating Company's three months ended March 31, 2014 due to the expiration of the expense cap on March 31, 2014.

Net Realized Gains (Losses) and Net Change in Unrealized Appreciation (Depreciation)

(in thousands)	Three Months Ended		Percentage Change
	March 31, 2015	March 31, 2014	
Net realized losses (gains) on investments	\$ (133)	\$ 2,780	(105)%
Net change in unrealized appreciation (depreciation) of investments	4,486	4,814	(7)%
Provision for taxes	(501)		NM*
Total net realized gains and net change in unrealized (depreciation) appreciation of investments	\$ 3,852	\$ 7,594	(49)%

*

Not meaningful.

The Company's net realized losses and unrealized gains resulted in a net gain of approximately \$3.9 million for the three months ended March 31, 2015 compared to the Predecessor Operating Company's net realized and unrealized gains resulting in a net gain of approximately \$7.6 million for the same period in 2014. We look at net realized and unrealized gains or losses together as movement in unrealized appreciation or depreciation can be the result of realizations. The net gain for the three months ended March 31, 2015 was primarily driven by the overall increase in the market prices of the Company's investments during the period and the sale of two portfolio companies, which resulted in realized gains of approximately \$14.2 million. These gains were offset by \$14.4 million of realized losses on investments resulting from the modification of terms on two portfolio companies that were accounted for as extinguishments. The net gain for the three months ended March 31, 2014 was primarily driven by the overall increase in the market prices of the Predecessor Operating Company's investments during the period. The provision for income taxes was attributable to two equity investments that are held as of March 31, 2015 in two of the Company's corporate subsidiaries.

Table of Contents**Results of Operations for the Company for the Year Ended December 31, 2014 and the Predecessor Operating Company for the Years Ended December 31, 2013 and December 31, 2012***Revenue*

(in thousands)	Years ended December 31,		
	2014	2013	2012
Interest income	\$ 85,123	\$ 107,027	\$ 83,646
Interest income allocated from the Predecessor Operating Company	40,515		
Total interest income	125,638	107,027	83,646
Dividend income	2,309	5,049	812
Dividend income allocated from the Predecessor Operating Company	2,368		
Total dividend income	4,677	5,049	812
Other income	4,491	2,836	1,328
Other income allocated from the Predecessor Operating Company	795		
Total other income	5,286	2,836	1,328
Total investment income	\$ 135,601	\$ 114,912	\$ 85,786

The Company's total investment income increased by approximately \$20.7 million for the year ended December 31, 2014 as compared to the Predecessor Operating Company's total investment income for the year ended December 31, 2013. The 18.0% increase in total investment income primarily results from an increase in interest income of approximately \$18.6 million from the year ended December 31, 2013 to the year ended December 31, 2014 which is attributable to larger invested balances, driven by the proceeds from the October 2013, April 2014 and October 2014 primary offerings of the Company's common stock and the June 2014 offering of the Company's convertible notes, the Company's use of leverage from its revolving credit facilities to originate new investments and prepayment fees received associated with the early repayments or partial repayments of ten different portfolio companies held by the Predecessor Operating Company as of December 31, 2013. The increase in other income of approximately \$2.5 million during the year ended December 31, 2014 as compared to the year ended December 31, 2013, which represents fees that are non-recurring in nature, was primarily attributable to structuring, amendment and consent fees received from twenty different portfolio companies and management fees from a non-controlled affiliated portfolio company. The decrease in dividend income during the year ended December 31, 2014 as compared to the year ended December 31, 2013 was primarily attributable to a large distribution from one of the Predecessor Operating Company's warrant investments in the prior year.

The Predecessor Operating Company's total investment income increased by \$29.1 million for the year ended December 31, 2013 as compared to the year ended December 31, 2012. The 34.0% increase in investment income results from the increase in interest and other income for the year ended December 31, 2013, which was primarily attributable to larger invested balances, driven by the proceeds from the 2012 and 2013 primary offerings of NMFC's common stock, the Predecessor Operating Company's use of leverage for its revolving credit facilities to originate new investments and prepayment fees received associated with the early repayments or partial repayments of twenty different portfolio companies held by the Predecessor Operating Company as of December 31, 2012. Additionally, the Predecessor Operating Company's other income, which

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

represents fees that are non-recurring in nature, increased due to commitment fees received from three bridge facilities and consent, amendment and forbearance fees received associated with ten different portfolio companies held by the Predecessor Operating Company as of December 31, 2012. The increase in dividend income for the year ended December 31, 2013 was attributable to distributions received from two portfolio companies, which was recorded as dividend income.

Operating Expenses

(1) Capital gains incentive fee accrual assumes a hypothetical liquidation basis.

Edgar Filing: New Mountain Finance Corp - Form 497

The Company's total net operating expenses increased by approximately \$4.3 million for the year ended December 31, 2014 as compared to the Predecessor Operating Company's year ended December 31, 2013. The Company's management fee increased by approximately \$4.0 million, net

Table of Contents

of a management fee waiver, and incentive fees increased by approximately \$1.8 million for the year ended December 31, 2014 as compared to the Predecessor Operating Company's year ended December 31, 2013. The increase in management fee and incentive fee from the Predecessor Operating Company's year ended December 31, 2013 to the Company's year ended December 31, 2014 was attributable to larger invested balances, driven by the proceeds from the October 2013, April 2014 and October 2014 primary offerings of NMFC's common stock, the June 2014 offering of NMFC's convertible notes and the Company's use of leverage from its revolving credit facilities to originate new investments. The Company's capital gains incentive fee accrual decreased by approximately \$9.8 million for the year ended December 31, 2014 as compared to the Predecessor Operating Company's year ended December 31, 2013, which was attributable to lower net Adjusted Realized Capital Gains (Losses) and net Adjusted Unrealized Capital Depreciation of investments during the period due to lower marks on the broader portfolio. As of December 31, 2014, no actual capital gains incentive fee was owed under the Investment Management Agreement by the Company, as cumulative net Adjusted Realized Gains did not exceed cumulative Adjusted Unrealized Depreciation.

Interest and other financing expenses increased by approximately \$5.6 million during the year ended December 31, 2014, primarily due to the increase of average debt outstanding from \$184.1 million to \$244.6 million for the Holdings Credit Facility (as defined below) for the year ended December 31, 2013 compared to December 31, 2014. In addition, during the year ended December 31, 2014, the Company issued \$115.0 million of convertible notes, closed the NMFC Credit Facility (as defined below) and began to draw on SBA-guaranteed debentures. The Company's total professional fees, total administrative expenses and total other general and administrative expenses marginally increased by approximately \$0.2 million for the year ended December 31, 2014 as compared to the Predecessor Operating Company's year ended December 31, 2013. During the year ended December 31, 2014, the Company incurred \$10.9 thousand in other expenses that were not subject to the expense cap pursuant to the administration agreement, as amended and restated (the "Administration Agreement"), with the Administrator, and further restricted by the Company. For the year ended December 31, 2014, approximately \$1.4 million of indirect administrative expenses were included in administrative expenses, of which \$0.8 million were waived by the Administrator. The Company's expenses waived and reimbursed decreased by approximately \$2.1 million for the year ended December 31, 2014 as compared to the Predecessor Operating Company's year ended December 31, 2013 due to the expiration of the expense cap on March 31, 2014 and the decrease of waived indirect administrative expenses by the Administrator during the year ended December 31, 2014.

The Predecessor Operating Company's total net operating expenses increased by approximately \$10.7 million for the year ended December 31, 2013 as compared to the year ended December 31, 2012. The Predecessor Operating Company's management fees increased by approximately \$3.8 million and incentive fees increased by approximately \$5.0 million for the year ended December 31, 2013 as compared to the year ended December 31, 2012. The increase in management and incentive fees from the year ended December 31, 2012 to the year ended December 31, 2013 was attributable to larger invested balances, driven by the proceeds from the 2012 and 2013 primary offerings of NMFC's common stock, the Predecessor Operating Company's use of leverage from its revolving credit facilities to originate new investments and the receipt of a dividend distribution from one of the Predecessor Operating Company's warrant investments. The Predecessor Operating Company's capital gains incentive fees decreased approximately \$1.2 million for the year ended December 31, 2013 as compared to the year ended December 31, 2012, which was attributable to lower net Adjusted Realized Capital Gains (Losses) and Adjusted Unrealized Capital Appreciation (Depreciation) of investments during the period. As of December 31, 2013, approximately \$1.1 million of capital gains incentive fees was owed under the Investment Management Agreement by the Predecessor Operating Company, as cumulative net

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

Adjusted Realized Gains exceeded cumulative Adjusted Unrealized Depreciation and was paid during the year ended December 31, 2014.

Interest and other credit facility expenses increased by approximately \$2.4 million during the year ended December 31, 2013, primarily due to the increase of average debt outstanding from \$133.6 million to \$184.1 million for the Holdings Credit Facility and from \$181.4 million to \$214.3 million for the SLF Credit Facility for the year ended December 31, 2012 compared to December 31, 2013. For the year ended December 31, 2013, the Predecessor Operating Company incurred approximately \$0.1 million in other expenses that were not subject to the expense cap pursuant to the Administration Agreement with the Administrator and further restricted by the Predecessor Operating Company.

Net Realized Gains and Net Change in Unrealized Appreciation (Depreciation)

(in thousands)	Years ended December 31,		
	2014	2013	2012
Net realized gains on investments	\$ 357	\$ 7,253	\$ 18,851
Net realized gains on investments allocated from Predecessor Operating Company	8,568		
Total realized gains on investments	8,925	7,253	18,851
Net change in unrealized (depreciation) appreciation of investments	(43,863)	7,994	9,928
Net change in unrealized appreciation (depreciation) of investments allocated from Predecessor Operating Company	940		
Total change in unrealized (depreciation) appreciation of investments	(42,923)	7,994	9,928
Provision for taxes	(493)		
Total net realized gains and net change in unrealized (depreciation) appreciation of investments	\$ (34,491)	\$ 15,247	\$ 28,779

The Company's net realized and unrealized losses resulted in a net loss of approximately \$34.5 million for the year ended December 31, 2014 compared to the Predecessor Operating Company's net realized and unrealized gains resulting in a net gain of approximately \$15.2 million for the same period in 2013. We look at net realized and unrealized gains or losses together as movement in unrealized appreciation or depreciation can be the result of realizations. The net loss for the year ended December 31, 2014 was primarily driven by the overall decrease in the market prices of the Company's investments during the period and the partial write-down related to two portfolio companies. These losses were partially offset by a \$5.6 million gain from the sale of the Company's warrant investments in one portfolio company and sales or repayments of investments with fair values in excess of December 31, 2013 valuations resulting in net realized gains being greater than the reversal of the cumulative net unrealized gains for those investments. The provision for income taxes was attributable to one warrant investment that is held as of December 31, 2014 in one of the Company's corporate subsidiaries.

The net gain for the year ended December 31, 2013 was primarily driven by sales or repayment of investments with fair values in excess of December 31, 2012 valuations, resulting in net realized gains being greater than the reversal of the cumulative net unrealized gains for those investments. Additionally, during the year ended December 31, 2013, a distribution from a warrant investment resulted in a realized gain of approximately \$1.1 million, the modification of terms on one debt investment that was accounted for as an extinguishment resulted in a realized gain of

Table of Contents

\$1.7 million and the sale of the first lien position in ATI Acquisition Company resulted in a realized loss of \$4.3 million.

The total net gain for the year ended December 31, 2012 was primarily related to the overall increase in the market and the quality of the Predecessor Operating Company's portfolio, directly impacting the prices of the Predecessor Operating Company's portfolio. The appreciation of the Predecessor Operating Company's portfolio and the sale or repayment of investments with fair values in excess of December 31, 2011 valuations, resulted in net realized gains being greater than the reversal of the cumulative net unrealized gains for those investments.

Liquidity and Capital Resources

The primary use of existing funds and any funds raised in the future is expected to be for the Company's repayment of indebtedness, the Company's investments in portfolio companies, cash distributions to the Company's stockholders or for other general corporate purposes.

Since NMFC's IPO, and through March 31, 2015, NMFC raised approximately \$374.6 million in net proceeds from additional offerings of common stock and issued shares valued at approximately \$288.4 million on behalf of AIV Holdings for exchanged units. NMFC acquired from the Predecessor Operating Company units of the Predecessor Operating Company equal to the number of shares of NMFC's common stock sold in the additional offerings.

The Company's liquidity is generated and generally available through advances from the revolving credit facilities, from cash flows from operations, and, we expect, through periodic follow-on equity offerings. In addition, we may from time to time enter into additional debt facilities, increase the size of existing facilities or issue additional debt securities, including unsecured debt and/or debt securities convertible into common stock. Any such incurrence or issuance would be subject to prevailing market conditions, our liquidity requirements, contractual and regulatory restrictions and other factors. In accordance with the 1940 Act, with certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, calculated pursuant to the 1940 Act, is at least 200.0% after such borrowing.

At March 31, 2015 and December 31, 2014, the Company had cash and cash equivalents of approximately \$22.2 million and \$23.4 million, respectively. Cash provided by operating activities for the Company during the three months ended March 31, 2015 was approximately \$24.3 million and cash used in operating activities for the Predecessor Operating Company for the three months ended March 31, 2014 was approximately \$(36.6) million. We expect that all current liquidity needs by the Company will be met with cash flows from operations and other activities.

Borrowings

Holdings Credit Facility On December 18, 2014 the Company entered into the Second Amended and Restated Loan and Security Agreement (the "Holdings Credit Facility"), among the Company, as the Collateral Manager, NMF Holdings as the Borrower, Wells Fargo Securities, LLC as the Administrative Agent and Wells Fargo Bank, National Association, as the Lender and Collateral Custodian, which is structured as a revolving credit facility and matures on December 18, 2019.

Immediately prior to amending the Holdings Credit Facility, NMF SPV merged with and into NMF Holdings. The Holdings Credit Facility effectively amended and restated the Predecessor Holdings Credit Facility (as defined below), merged with the SLF Credit Facility (as defined below), and combined the amount of borrowings previously available.

The maximum amount of revolving borrowings available under the Holdings Credit Facility is \$495.0 million, which is the aggregate of the \$280.0 million previously available under the Predecessor Holdings Credit Facility (as defined below) and the \$215.0 million previously available

Table of Contents

under the SLF Credit Facility (as defined below). Under the Holdings Credit Facility, NMF Holdings is permitted to borrow up to 25.0%, 45.0% or 70.0% of the purchase price of pledged assets, subject to approval by the Wells Fargo Securities, LLC. The Holdings Credit Facility is non-recourse to the Company and is collateralized by all of the investments of NMF Holdings on an investment by investment basis. All fees associated with the origination or upsizing of the Holdings Credit Facility are capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the Holdings Credit Facility. The Holdings Credit Facility contains certain customary affirmative and negative covenants and events of default. In addition, the Holdings Credit Facility requires the Company to maintain a minimum asset coverage ratio. The covenants are generally not tied to mark to market fluctuations in the prices of NMF Holdings investments, but rather to the performance of the underlying portfolio companies.

The Holdings Credit Facility bears interest at a rate of the LIBOR plus 2.00% per annum for Broadly Syndicated Loans (as defined in the Loan and Security Agreement) and LIBOR plus 2.75% per annum for all other investments. The Holdings Credit Facility also charges a non-usage fee, based on the unused facility amount multiplied by the Non-Usage Fee Rate (as defined in the Loan and Security Agreement).

Prior to December 18, 2014, the Loan and Security Agreement, as amended and restated, dated May 19, 2011 (the "Predecessor Holdings Credit Facility") among NMF Holdings as the Borrower and Collateral Administrator, Wells Fargo Securities, LLC as the Administrative Agent, and Wells Fargo Bank, National Association, as the Collateral Custodian, was structured as a revolving credit facility and would mature on October 27, 2016.

The maximum amount of revolving borrowings available under the Predecessor Holdings Credit Facility was \$280.0 million. Until December 18, 2014, NMF Holdings was permitted to borrow up to 45.0% or 25.0% of the purchase price of pledged first lien or non-first lien debt securities, and up to 70.0% and 45.0% of the purchase price of specified first lien debt securities and specified non-first lien debt securities, respectively, subject to approval by Wells Fargo Bank, National Association. The Predecessor Holdings Credit Facility was amended and restated on May 6, 2014 and as a result, it was non-recourse to the Company and was collateralized by all of the investments of NMF Holdings on an investment by investment basis. All fees associated with the origination or upsizing of the Predecessor Holdings Credit Facility were capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the Predecessor Holdings Credit Facility. The Predecessor Holdings Credit Facility contained certain customary affirmative and negative covenants and events of default, including the occurrence of a change in control. In addition, the Predecessor Holdings Credit Facility required the Company to maintain a minimum asset coverage ratio. However, the covenants were generally not tied to mark to market fluctuations in the prices of NMF Holdings' investments, but rather to the performance of the underlying portfolio companies.

The Predecessor Holdings Credit Facility bore interest at a rate of the LIBOR plus 2.75% per annum and charged a non-usage fee, based on the unused facility amount multiplied by the Non-Usage Fee Rate (as defined in the Loan and Security Agreement).

Table of Contents

The following table summarizes the interest expense, non-usage fees and amortization of financing costs incurred on the Holdings Credit Facility for the three months ended March 31, 2015 and the Predecessor Holdings Credit Facility for the three months ended March 31, 2014.

(in millions)	Three months ended	
	March 31, 2015	March 31, 2014
Interest expense	\$ 2.9	\$ 1.7
Non-usage fee	\$ 0.1	\$ 0.1
Amortization of financing costs	\$ 0.4	\$ 0.2
Weighted average interest rate	2.6%	2.9%
Effective interest rate	3.0%	3.4%
Average debt outstanding	\$ 449.5	\$ 232.8

As of March 31, 2015 and December 31, 2014, the outstanding balance of Holdings Credit Facility was \$442.6 million and \$468.1 million, respectively, and NMF Holdings was in compliance with the applicable covenants in the Holdings Credit Facility on such dates.

SLF Credit Facility NMF SLF's Loan and Security Agreement, as amended and restated, dated October 27, 2010 (the "SLF Credit Facility") among NMF SLF as the Borrower, NMF Holdings as the Collateral Administrator, Wells Fargo Securities, LLC as the Administrative Agent, and Wells Fargo Bank, National Association, as the Collateral Custodian, was structured as a revolving credit facility and would mature on October 27, 2016. The maximum amount of revolving borrowings available under the SLF Credit Facility was \$215.0 million. The SLF Credit Facility was non-recourse to the Company and secured by all assets of NMF SLF on an investment by investment basis. All fees associated with the origination or upsizing of the SLF Credit Facility were capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the SLF Credit Facility. The SLF Credit Facility contained certain customary affirmative and negative covenants and events of default, including the occurrence of a change in control. The covenants were generally not tied to mark to market fluctuations in the prices of the NMF SLF's investments, but rather to the performance of the underlying portfolio companies. NMF SLF was not restricted from the purchase or sale of loans with an affiliate. Therefore, specified first lien loans could be moved as collateral between the Holdings Credit Facility and the SLF Credit Facility. The SLF Credit Facility merged with the Holdings Credit Facility on December 18, 2014.

Until December 18, 2014, the SLF Credit Facility permitted borrowings of up to 70.0% of the purchase price of pledged first lien debt securities and up to 25.0% of the purchase price of specified second lien loans, of which, up to 25.0% of the aggregate outstanding loan balance of all pledged debt securities in the SLF Credit Facility was allowed to be derived from second lien loans, subject to approval by Wells Fargo Bank, National Association.

The SLF Credit Facility bore interest at a rate of LIBOR plus 2.00% per annum for first lien loans and LIBOR plus 2.75% per annum for second lien loans, respectively, as amended on March 11, 2013. A non-usage fee was paid, based on the unused facility amount multiplied by the Non-Usage Fee Rate (as defined in the Loan and Security Agreement).

Table of Contents

The following table summarizes the interest expense, non-usage fees and amortization of financing costs incurred on the SLF Credit Facility for the three months ended March 31, 2015 and March 31, 2014.

	Three months ended	
	March 31, 2015(1)	March 31, 2014
Interest expense	\$	\$ 1.2
Non-usage fee	\$	\$ (2)
Amortization of financing costs	\$	\$ 0.2
Weighted average interest rate		% 2.2%
Effective interest rate		% 2.7%
Average debt outstanding	\$	\$ 215.0

(1) Not applicable, as the SLF Credit Facility merged with and into the Holdings Credit Facility on December 18, 2014.

(2) For the three months ended March 31, 2014, the total non-usage fee was less than \$50 thousand.

As of December 31, 2014, the SLF Credit Facility had merged with the Holdings Credit Facility.

NMFC Credit Facility The Senior Secured Revolving Credit Agreement, as amended, dated June 4, 2014 (together with the related guarantee and security agreement, the "NMFC Credit Facility"), among the Company as the Borrower and Goldman Sachs Bank USA as the Administrative Agent and Collateral Agent, and Goldman Sachs Bank USA and Morgan Stanley, N.A. as Lenders, is structured as a senior secured revolving credit facility and matures on June 4, 2019. The NMFC Credit Facility is guaranteed by certain domestic subsidiaries of the Company and proceeds from the NMFC Credit Facility may be used for general corporate purposes, including the funding of portfolio investments.

The maximum amount of revolving borrowings available under the NMFC Credit Facility is \$80.0 million, as amended on December 29, 2014. The Company is permitted to borrow at various advance rates depending on the type of portfolio investment as outlined in the Senior Secured Revolving Credit Agreement. All fees associated with the origination of the NMFC Credit Facility are capitalized on the Company's Consolidated Statement of Assets and Liabilities and charged against income as other financing expenses over the life of the NMFC Credit Facility. The NMFC Credit Facility contains certain customary affirmative and negative covenants and events of default, including certain financial covenants related to asset coverage and liquidity and other maintenance covenants.

The NMFC Credit Facility will generally bear interest at a rate of LIBOR plus 2.50% per annum or the prime rate plus 1.50% per annum, and charges a commitment fee, based on the unused facility amount multiplied by 0.375% (as defined in the Senior Secured Revolving Credit Agreement).

Table of Contents

The following table summarizes the interest expense, non-usage fees and amortization of financing costs incurred on the NMFC Credit Facility for the three months ended March 31, 2015 and March 31, 2014.

(in millions)	Three months ended	
	March 31, 2015	March 31, 2014(1)
Interest expense	\$ 0.2	\$
Non-usage fee	\$	(2)
Amortization of financing costs	\$ 0.1	\$
Weighted average interest rate	2.7%	%
Effective interest rate	4.1%	%
Average debt outstanding	\$ 31.7	\$

(1) Not applicable, as the NMFC Credit Facility commenced on June 4, 2014.

(2) For the three months ended March 31, 2015, the total non-usage fee was less than \$50 thousand.

As of March 31, 2015 and December 31, 2014, the outstanding balance on the NMFC Credit Facility was \$68.8 million and \$50.0 million, respectively, and NMFC was in compliance with the applicable covenants in the NMFC Credit Facility on such dates.

Convertible Notes On June 3, 2014, the Company closed a private offering of \$115.0 million aggregate principal amount of senior unsecured convertible notes (the "Convertible Notes"), pursuant to an indenture, dated June 3, 2014 (the "Indenture"). The Convertible Notes were issued in a private placement only to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. The Convertible Notes bear interest at an annual rate of 5.0%, payable semi-annually in arrears on June 15 and December 15 of each year, commencing on December 15, 2014. The Convertible Notes will mature on June 15, 2019 unless earlier converted or repurchased at the holder's option. The Convertible Notes will be convertible by the holders into shares of common stock, initially at a conversion rate of 62.7746 shares of the Company's common stock per \$1.0 thousand principal amount of Convertible Notes (7,219,083 common shares) corresponding to an initial conversion price per share of approximately \$15.93, which represents a premium of 12.5% to the \$14.16 per share closing price of the Company's common stock on May 28, 2014. The conversion rate will be subject to adjustment upon certain events, such as stock splits and combinations, mergers, spin-offs, increases in dividends in excess of \$0.34 per share per quarter and certain changes in control. Certain of these adjustments, including adjustments for increases in dividends, are subject to a conversion price floor of \$14.16 per share. In no event will the total number of shares of common stock issuable upon conversion exceed 70.6214 per \$1.0 thousand principal amount of the Convertible Notes. The Company has determined that the embedded conversion option in the Convertible Notes is not required to be separately accounted for as a derivative under GAAP.

The Convertible Notes are senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries and financing vehicles. The issuance is considered part of the if-converted method for calculation of diluted earnings per share.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

The Company may not redeem the Convertible Notes prior to maturity. No sinking fund is provided for the Convertible Notes. In addition, if certain corporate events occur in respect of the Company, holders of the Convertible Notes may require the Company to repurchase for cash all or part of their Convertible Notes at a repurchase price equal to 100.0% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the repurchase date.

The Indenture contains certain covenants, including covenants requiring the Company to provide financial information to the holders of the Convertible Note and the Trustee if the Company ceases to be subject to the reporting requirements of the Exchange Act. These covenants are subject to limitations and exceptions that are described in the Indenture. As of March 31, 2015, the Company was in compliance with the terms of the Indenture.

Interest expense and amortization of financing costs incurred on the Convertible Notes for the three months ended March 31, 2015 was \$1.4 million and \$0.2 million, respectively. The effective interest rate for the three months ended March 31, 2015 was 5.7%.

SBA-guaranteed debentures On August 1, 2014, SBIC LP received an SBIC license from the SBA.

The SBIC license allows SBIC LP to obtain leverage by issuing SBA-guaranteed debentures, subject to the issuance of a capital commitment by the SBA and other customary procedures. SBA-guaranteed debentures are non-recourse, interest only debentures with interest payable semi-annually and have a ten year maturity. The principal amount of SBA-guaranteed debentures is not required to be paid prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA-guaranteed debentures is fixed on a semi-annual basis at a market-driven spread over U.S. Treasury Notes with ten year maturities. The SBA, as a creditor, will have a superior claim to the assets of SBIC LP over the Company's stockholders in the event SBIC LP is liquidated or the SBA exercises remedies upon an event of default.

The maximum amount of borrowings available under current SBA regulations is \$150.0 million as long as the licensee has at least \$75.0 million in regulatory capital, receives a capital commitment from the SBA and has been through an examination by the SBA subsequent to licensing.

As of March 31, 2015, SBIC LP had regulatory capital of \$42.2 million and SBA-guaranteed debentures outstanding of \$37.5 million. The SBA-guaranteed debentures incur upfront fees of 3.43%, which consists of a 1.00% commitment fee and a 2.43% issuance discount, which are amortized over the life of the SBA-guaranteed debentures. The following table summarizes the Company's fixed-rate SBA-guaranteed debentures as of March 31, 2015.

(in millions)					
Issuance Date	Maturity Date	Debt Amount	Fixed Interest Rate	SBA Annual Charge	
March 25, 2015	March 1, 2025	\$ 37.5	2.517%	0.355%	

SBIC LP's outstanding SBA-guaranteed debentures pooled on March 25, 2015 and prior to pooling bore interest at an interim floating rate of LIBOR plus 0.30%. Interest expense and amortization of financing costs incurred on the SBA-guaranteed debentures for the three months ended March 31, 2015 was \$0.1 million and \$31 thousand, respectively. The weighted average interest rate and the effective interest rate for the three months ended March 31, 2015 was 1.1% and 1.4%, respectively.

Table of Contents

The SBIC program is designed to stimulate the flow of private investor capital into eligible small businesses, as defined by the SBA. Under SBA regulations, SBIC LP is subject to regulatory requirements, including making investments in SBA-eligible businesses, investing at least 25.0% of its investment capital in eligible smaller businesses, as defined under the 1958 Act, placing certain limitations on the financing terms of investments, regulating the types of financing, prohibiting investments in small businesses with certain characteristics or in certain industries and requiring capitalization thresholds that limit distributions to the Company. SBIC LP is subject to an annual periodic examination by an SBA examiner to determine SBIC LP's compliance with the relevant SBA regulations and an annual financial audit of its financial statements that are prepared on a basis of accounting other than GAAP (such as ASC 820) by an independent auditor. As of March 31, 2015, SBIC LP was in compliance with SBA regulatory requirements.

Off-Balance Sheet Arrangements

The Company may become a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financial needs of its portfolio companies. These instruments may include commitments to extend credit and involve, to varying degrees, elements of liquidity and credit risk in excess of the amount recognized in the balance sheet. As of March 31, 2015 and December 31, 2014, the Company had outstanding commitments to third parties to fund investments totaling \$18.5 million and \$27.4 million, respectively, under various undrawn revolving credit facilities, delayed draw commitments or other future funding commitments.

The Company may from time to time enter into financing commitment letters or bridge financing commitments, which could require funding in the future. As of March 31, 2015 and December 31, 2014, the Company did not enter into any commitment letters to purchase debt investments. As of March 31, 2015 and December 31, 2014, the Company had not entered into any bridge financing commitments which could require funding in the future.

Contractual Obligations

A summary of the Company's significant contractual payment obligations as of March 31, 2015 is as follows:

	Contractual Obligations Payments				
	Due by Period (in millions)				
	Total	Less than 1 Year	1 - 3 Years	3 - 5 Years	More than 5 Years
Holdings Credit Facility(1)	\$ 442.6	\$	\$	\$ 442.6	\$
Convertible Notes(2)	115.0			115.0	
NMFC Credit Facility(3)	68.8			68.8	
SBA-guaranteed debentures(4)	37.5				37.5
Total Contractual Obligations	\$ 663.9	\$	\$	\$ 626.4	\$ 37.5

- (1) Under the terms of the \$495.0 million Holdings Credit Facility, all outstanding borrowings under that facility (\$442.6 million as of March 31, 2015) must be repaid on or before December 18, 2019. As of March 31, 2015, there was approximately \$52.4 million of possible capacity remaining under the Holdings Credit Facility.
- (2) The \$115.0 million Convertible Notes will mature on June 15, 2019 unless earlier converted or repurchased at the holder's option.
- (3) Under the terms of the \$80.0 million NMFC Credit Facility, all outstanding borrowings under that facility (\$68.8 million as of March 31, 2015) must be repaid on or before June 4, 2019. As

Table of Contents

of March 31, 2015, there was approximately \$11.2 million of possible capacity remaining under the NMFC Credit Facility.

(4)

The SBA-guaranteed debentures will mature on March 1, 2025.

The Company has certain contracts under which it has material future commitments. The Company has \$18.5 million of undrawn funding commitments as of March 31, 2015 related to its participation as a lender in revolving credit facilities, delayed draw commitments or other future funding commitments of the Company's portfolio companies. As of March 31, 2015, the Company did not enter into any bridge financing commitments which could require funding in the future.

We have entered into the Investment Management Agreement with the Investment Adviser in accordance with the 1940 Act. Under the Investment Management Agreement, the Investment Adviser has agreed to provide the Company with investment advisory and management services. We have agreed to pay for these services (1) a management fee and (2) an incentive fee based on its performance.

We have also entered into an Administration Agreement with the Administrator. Under the Administration Agreement, the Administrator has agreed to arrange office space for us and provide office equipment and clerical, bookkeeping and record keeping services and other administrative services necessary to conduct our respective day-to-day operations. The Administrator has also agreed to perform, or oversee the performance of, our financial records, our reports to stockholders and reports filed with the SEC.

If any of the contractual obligations discussed above are terminated, our costs under any new agreements that are entered into may increase. In addition, we would likely incur significant time and expense in locating alternative parties to provide the services we expect to receive under the Investment Management Agreement and the Administration Agreement.

Distributions and Dividends

Dividends declared and paid to stockholders of the Company for the three months ended March 31, 2015 totaled \$19.7 million.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

The following table summarizes the Company's quarterly cash distributions, including dividends and returns of capital, if any, per share that have been declared by the Company's board of directors since the Company's IPO:

Fiscal Year Ended	Date Declared	Record Date	Payment Date	Per Share Amount

(1) Special dividend related to realized capital gains attributable to the Company's warrant investments in Learning Care Group (US), Inc.

Table of Contents

- (2) Special dividend related to a distribution received attributable to the Predecessor Operating Company's investment in YP Equity Investors LLC.
- (3) Special dividend intended to minimize to the greatest extent possible the Company's U.S. federal income or excise tax liability.
- (4) Special dividend related to estimated realized capital gains attributable to the Predecessor Operating Company's investments in Lawson Software, Inc. and Infor Lux Bond Company.

Tax characteristics of all dividends paid by the Company were reported to stockholders on Form 1099 after the end of the calendar year. Future quarterly dividends, if any, for the Company will be determined by the board of directors.

The Company intends to pay quarterly distributions to its stockholders and to maintain its status as a RIC. The Company intends to distribute approximately its entire portion of Adjusted Net Investment Income on a quarterly basis and substantially its entire taxable income on an annual basis, except that it may retain certain net capital gains for reinvestment.

The Company maintains an "opt out" dividend reinvestment plan for its common stockholders. As a result, the Company's stockholders' cash dividends will be automatically reinvested in additional shares of common stock, unless the stockholder elects to receive cash. Cash dividends reinvested in additional shares of the Company's common stock will be automatically reinvested by the Company into additional shares of the Company's common stock.

Related Parties

The Company has entered into a number of business relationships with affiliated or related parties, including the following:

The Company has entered into the Investment Management Agreement with the Investment Adviser, a wholly-owned subsidiary of New Mountain Capital. Therefore, New Mountain Capital is entitled to any profits earned by the Investment Adviser, which includes any fees payable to the Investment Adviser under the terms of the Investment Management Agreement, less expenses incurred by the Investment Adviser in performing its services under the Investment Management Agreement.

The Company has entered into an Administration Agreement with the Administrator, a wholly-owned subsidiary of New Mountain Capital. The Administrator arranges office space for the Company and provides office equipment and administrative services necessary to conduct their respective day-to-day operations pursuant to the Administration Agreement. The Company reimburses the Administrator for the allocable portion of overhead and other expenses incurred by it in performing its obligations to the Company under the Administration Agreement, which includes the fees and expenses associated with performing administrative, finance, and compliance functions, and the compensation of the Company's chief financial officer and chief compliance officer and their respective staffs. Pursuant to the Administration Agreement and further restricted by the Company, expenses payable to the Administrator by the Company as well as other direct and indirect expenses (excluding interest, other financing expense, trading expenses and management and incentive fees) had been capped at \$4.25 million for the time period from April 1, 2013 to March 31, 2014. The expense cap expired on March 31, 2014. Thereafter, the Administrator may, in its own discretion, submit to the Company for reimbursement some or all of the expenses that the Administrator has incurred on behalf of the Company during any quarterly period. As a result, the amount of expenses for which the Company will have to reimburse the Administrator may fluctuate in future quarterly periods and there can be no assurance given as to when, or if, the Administrator may determine to limit the expenses that the

Table of Contents

Administrator submits to the Company for reimbursement in the future. However, it is expected that the Administrator will continue to support part of the expense burden of the Company in the near future and may decide to not calculate and charge through certain overhead related amounts as well as continue to cover some of the indirect costs. The Administrator cannot recoup any expenses that the Administrator has previously waived. For the three months ended March 31, 2015, approximately \$0.4 million of indirect administrative expenses were included in administrative expenses, of which \$0.4 million were waived by the Administrator.

The Company, the Investment Adviser and the Administrator have entered into a royalty-free Trademark License Agreement, as amended, with New Mountain Capital, pursuant to which New Mountain Capital has agreed to grant the Company, the Investment Adviser and the Administrator, a non-exclusive, royalty-free license to use the name "New Mountain" and "New Mountain Finance".

In addition, the Company has adopted a formal code of ethics that governs the conduct of their respective officers and directors. These officers and directors also remain subject to the duties imposed by the 1940 Act, the Delaware General Corporation Law and the Delaware Limited Liability Company Act.

The Investment Adviser and its affiliates may also manage other funds in the future that may have investment mandates that are similar, in whole and in part, with the Company's investment mandates. The Investment Adviser and its affiliates may determine that an investment is appropriate for the Company and for one or more of those other funds. In such event, depending on the availability of such investment and other appropriate factors, the Investment Adviser or its affiliates may determine that we should invest side-by-side with one or more other funds. Any such investments will be made only to the extent permitted by applicable law and interpretive positions of the SEC and its staff, and consistent with the Investment Adviser's allocation procedures.

Concurrently with the IPO, NMFC sold an additional 2,172,000 shares of its common stock to certain executives and employees of, and other individuals affiliated with, New Mountain Capital in the Concurrent Private Placement.

Quantitative and Qualitative Disclosures About Market Risk

The Company is subject to certain financial market risks, such as interest rate fluctuations. During the three months ended March 31, 2015, certain of the loans held in the Company's portfolio had floating interest rates. As of March 31, 2015, approximately 86.0% of investments at fair value (excluding investments on non-accrual, revolvers, delayed draws and non-interest bearing equity investments) represent floating-rate investments with a LIBOR floor (includes investments bearing prime interest rate contracts) and approximately 14.0% of investments at fair value represent fixed-rate investments. Additionally, the Company's senior secured revolving credit facilities are also subject to floating interest rates and are currently paid based on one-month floating LIBOR rates.

The following table estimates the potential changes in net cash flow generated from interest income and expenses, should interest rates increase by 100, 200 or 300 basis points, or decrease by 25 basis points. Interest income is calculated as revenue from interest generated from the Company's portfolio of investments held on March 31, 2015. Interest expense is calculated based on the terms of the Company's outstanding revolving credit facilities and convertible notes. For the Company's floating rate credit facilities, the Company uses the outstanding balance as of March 31, 2015. Interest expense on the Company's floating rate credit facilities are calculated using the interest rate as of March 31, 2015, adjusted for the hypothetical changes in rates, as shown below. The base interest rate case assumes the rates on the Company's portfolio investments remain

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

unchanged from the actual effective interest rates as of March 31, 2015. These hypothetical calculations are based on a model of the investments in our portfolio, held as of March 31, 2015, and are only adjusted for assumed changes in the underlying base interest rates.

Actual results could differ significantly from those estimated in the table.

Change in Interest Rates	Estimated Percentage Change in Interest Income Net of Interest Expense (unaudited)
25 Basis Points	0.85%(1)
Base Interest Rate	%
+100 Basis Points	(3.16)%
+200 Basis Points	2.49%
+300 Basis Points	8.80%

(1)

Limited to the lesser of the March 31, 2015 LIBOR rates or a decrease of 25 basis points.

The Company was not exposed to any foreign currency exchange risks as of March 31, 2015.

Table of Contents**SENIOR SECURITIES**

Information about our senior securities as of March 31, 2015 and December 31, 2014 and information about NMF Holdings' senior securities as of December 31, 2013, 2012, 2011, 2010 and 2009 are shown in the following table. The report of Deloitte & Touche, LLP, an independent registered public accounting firm, on the senior securities table as of December 31, 2014, 2013, 2012, 2011, 2010 and 2009 is included in this prospectus and is attached as an exhibit to the registration statement of which this prospectus is a part.

- (1) We have excluded our SBA-guaranteed debentures from this table as a result of the SEC exemptive relief that permits us to exclude such debentures from the definition of senior securities in the 200.0% asset coverage ratio we are required to maintain under the 1940 Act. At March 31, 2015 and December 31, 2014, we had \$37.5 million and \$37.5 million, respectively, in SBA-guaranteed debentures outstanding. At December 31, 2013, 2012, 2011, 2010 and 2009, we had no outstanding SBA-guaranteed debentures. Total asset coverage per unit including the SBA-guaranteed debentures as of March 31, 2015 and December 31, 2014 is \$2,215 and \$2,196, respectively, and unchanged for the prior years.
- (2) Total amount of each class of senior securities outstanding at the end of the period presented.
- (3) Asset coverage per unit is the ratio of the carrying value of our total assets, less all liabilities excluding indebtedness represented by senior securities in this table, to the aggregate amount of senior securities representing indebtedness. Asset coverage per unit is expressed in terms of dollar amounts per \$1,000 of indebtedness and is calculated on a consolidated basis.
- (4)

Edgar Filing: New Mountain Finance Corp - Form 497

The amount to which such class of senior security would be entitled upon the voluntary liquidation of the issuer in preference to any security junior to it. The " " in this column

indicates that the SEC expressly does not require this information to be disclosed for certain types of senior securities.

(5)

Not applicable because the senior securities are not registered for public trading.

(6)

Prior to NMFC's IPO on May 19, 2011, these credit facilities existed at the Predecessor Entities.

Table of Contents

BUSINESS

The Company

NMFC is a Delaware corporation that was originally incorporated on June 29, 2010. NMFC is a closed-end, non-diversified management investment company that has elected to be regulated as a BDC under the 1940 Act. As such, NMFC is obligated to comply with certain regulatory requirements. NMFC has elected to be treated, and intends to comply with the requirements to continue to qualify annually, as a RIC under Subchapter M of the Code. NMFC is also registered as an investment adviser under the Advisers Act.

On May 19, 2011, NMFC priced its IPO of 7,272,727 shares of common stock at a public offering price of \$13.75 per share. Concurrently with the closing of the IPO and at the public offering price of \$13.75 per share, NMFC sold an additional 2,172,000 shares of its common stock to certain executives and employees of, and other individuals affiliated with, New Mountain Capital in the Concurrent Private Placement. Additionally, 1,252,964 shares were issued to the partners of New Mountain Guardian Partners, L.P. at that time for their ownership interest in the Predecessor Entities. In connection with NMFC's IPO and through a series of transactions, NMF Holdings acquired all of the operations of the Predecessor Entities, including all of the assets and liabilities related to such operations.

NMF Holdings is a Delaware limited liability company. Until May 8, 2014, NMF Holdings was externally managed and was regulated as a BDC under the 1940 Act. As such, NMF Holdings was obligated to comply with certain regulatory requirements. NMF Holdings was treated as a partnership for U.S. federal income tax purposes for so long as it had at least two members. With the completion of the underwritten secondary offering on February 3, 2014, NMF Holdings' existence as a partnership for U.S. federal income tax purposes terminated and NMF Holdings became an entity that is disregarded as a separate entity from its owner for U.S. federal tax purposes. See "Material Federal Income Tax Considerations." For additional information on our organizational structure prior to May 8, 2014, see "Description of Restructuring."

Until May 8, 2014, NMF Holdings was externally managed by the Investment Adviser. As of May 8, 2014, the Investment Adviser serves as the external investment adviser to NMFC. The Administrator provides the administrative services necessary for operations. The Investment Adviser and Administrator are wholly-owned subsidiaries of New Mountain Capital. New Mountain Capital is a firm with a track record of investing in the middle market and with assets under management totaling more than \$15.0 billion⁽¹⁾, which includes total assets held by the Company. New Mountain Capital focuses on investing in defensive growth companies across its private equity, public equity and credit investment vehicles. NMF Holdings, formerly known as New Mountain Guardian (Leveraged), L.L.C., was originally formed as a subsidiary of Guardian AIV by New Mountain Capital in October 2008. Guardian AIV was formed through an allocation of approximately \$300.0 million of the \$5.1 billion of commitments supporting New Mountain Partners III, L.P., a private equity fund managed by New Mountain Capital. In February 2009, New Mountain Capital formed a co-investment vehicle, New Mountain Guardian Partners, L.P., comprising \$20.4 million of commitments.

Prior to December 18, 2014, NMF SLF was a Delaware limited liability company. NMF SLF was a wholly-owned subsidiary of NMF Holdings and thus our wholly-owned indirect subsidiary. NMF SLF was bankruptcy-remote and non-recourse to NMFC. As part of an amendment to our existing credit facilities with Wells Fargo Bank, National Association, NMF SLF merged with and into NMF Holdings on December 18, 2014. See "Management's Discussion and Analysis of Financial

Conditions and Results of Operations Liquidity and Capital Resources" for additional information on our credit facilities.

Current Organization

During the three months ended March 31, 2015, we established a wholly-owned subsidiary, NMF QID. Our wholly-owned subsidiaries, NMF Ancora, NMF QID and NMF YP, are structured as Delaware entities that serve as tax blocker corporations which hold equity or equity-like investments in portfolio companies organized as limited liability companies (or other forms of pass-through entities). We consolidate our tax blocker corporations for accounting purposes but the tax blocker corporations are not consolidated for income tax purposes and may incur income tax expense as a result of their ownership of portfolio companies. Additionally, we have a wholly-owned subsidiary, NMF Servicing that serves as the administrative agent on certain investment transactions. SBIC LP, and its general partner, SBIC GP, were organized in Delaware as a limited partnership and limited liability company, respectively. SBIC LP and SBIC GP are our consolidated wholly-owned direct and indirect subsidiaries. SBIC LP received a license from the SBA to operate as a SBIC under Section 301(c) of the 1958 Act.

The diagram below depicts our organizational structure as of May 28, 2015.

* Includes partners of New Mountain Guardian Partners, L.P.

** NMFC is the sole limited partner of SBIC LP. NMFC, directly or indirectly through SBIC GP, wholly-owns SBIC LP. NMFC owns 100.0% of SBIC GP which owns 1.0% of SBIC LP. NMFC owns 99.0% of SBIC LP.

Our investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. In some cases, our investments may also include equity interests. Our primary focus is in the debt of defensive growth companies, which are defined as generally exhibiting the following characteristics: (i) sustainable secular growth drivers, (ii) high barriers to competitive entry, (iii) high free cash flow after capital expenditure and working capital needs, (iv) high returns on assets and (v) niche market dominance. Similar to us, SBIC LP's

Table of Contents

investment objective is to generate current income and capital appreciation under our investment criteria. However, SBIC LP's investments must be SBA eligible companies. Our portfolio may be concentrated in a limited number of industries. As of March 31, 2015, our top five industry concentrations were software, business services, education, federal services and healthcare services.

The investments that we invest in are almost entirely rated below investment grade or may be unrated, which are often referred to as "leveraged loans," "high yield" or "junk" debt investments, and may be considered "high risk" or speculative compared to debt investments that are rated investment grade. Such issuers are considered more likely than investment grade issuers to default on their payments of interest and principal and such risk of default could reduce our net asset value and income distributions. Our investments are also primarily floating rate debt investments that contain interest reset provisions that may make it more difficult for borrowers to make debt repayments to us if interest rates rise. In addition, some of our debt investments will not fully amortize during their lifetime, which could result in a loss or a substantial amount of unpaid principal and interest due upon maturity. Our debt investments may also lose significant market value before a default occurs. Furthermore, an active trading market may not exist for these securities. This illiquidity may make it more difficult to value our investments.

As of March 31, 2015, our net asset value was \$806.5 million and our portfolio had a fair value of approximately \$1,404.8 million in 69 portfolio companies, with a weighted average Yield to Maturity at Cost of approximately 10.6%.

NMF Holdings is a party to the Holdings Credit Facility pursuant to a secured credit agreement with Wells Fargo Bank, National Association. As of March 31, 2015, the Holdings Credit Facility, which matures on December 18, 2019, provides for potential borrowings up to \$495.0 million. Unlike many credit facilities for BDCs the amount available under the Holdings Credit Facility is generally not subject to reduction as a result of mark to market fluctuations in its portfolio investments. As of March 31, 2015, we were permitted to borrow up to 45.0% or 25.0% of the purchase price of pledged first lien or non-first lien debt securities, and up to 70.0% and 45.0% of the purchase price of specified first lien debt securities and specified non-first lien debt securities, respectively, subject to approval by Wells Fargo Bank, National Association. The Holdings Credit Facility bears interest at a rate of LIBOR plus 2.00% per annum for Broadly Syndicated Loans (as defined in the Loan and Security Agreement) and LIBOR plus 2.75% per annum for all other investments. The Holdings Credit Facility also charges a non-usage fee, based on the unused facility amount multiplied by the Non-Usage Fee Rate (as defined in the Loan and Security Agreement). As of March 31, 2015, \$442.6 million was outstanding under the Holdings Credit Facility.

The NMFC Credit Facility among NMFC as the Borrower and Goldman Sachs Bank USA as the Administrative Agent and Collateral Agent, and Goldman Sachs Bank USA and Morgan Stanley, N.A. as Lenders, is structured as a senior secured revolving credit facility and matures on June 4, 2019. As of March 31, 2015, the maximum amount of revolving borrowings available under the NMFC Credit Facility was \$80.0 million. NMFC is permitted to borrow at various advance rates depending on the type of portfolio investment as outlined in the Senior Secured Revolving Credit Agreement. The NMFC Credit Facility contains certain customary affirmative and negative covenants and events of default, including certain financial covenants related to asset coverage and liquidity and other maintenance covenants. The NMFC Credit Facility will generally bear interest at a rate of LIBOR plus 2.50% per annum or the prime rate plus 1.50% per annum, and charges a commitment fee, based on the unused facility amount multiplied by 0.375% (as defined in the Senior Secured Revolving Credit Agreement). As of March 31, 2015, \$68.8 million was outstanding under the NMFC Credit Facility.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

On June 3, 2014, NMFC closed a private offering of \$115.0 million aggregate principal amount Convertible Notes, pursuant to an indenture, dated June 3, 2014. The Convertible Notes were issued in a private placement only to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended. The Convertible Notes bear interest at an annual rate of 5.0%, payable semi-annually in arrears on June 15 and December 15 of each year, commencing on December 15, 2014. The Convertible Notes will mature on June 15, 2019 unless earlier converted or repurchased at the holder's option.

On August 1, 2014, SBIC LP received an SBIC license from the SBA. The SBIC license allows SBIC LP to obtain leverage by issuing SBA-guaranteed debentures, subject to the issuance of a capital commitment by the SBA and other customary procedures. SBA-guaranteed debentures are non-recourse, interest only debentures with interest payable semi-annually and have a ten year maturity. The principal amount of SBA-guaranteed debentures is not required to be paid prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA-guaranteed debentures is fixed on a semi-annual basis at a market-driven spread over U.S. Treasury Notes with ten year maturities. The SBA, as a creditor, will have a superior claim to the assets of SBIC LP over the Company's stockholders in the event SBIC LP is liquidated or the SBA exercises remedies upon an event of default. As of March 31, 2015, SBIC LP's SBA-guaranteed debentures bear interest at an annual fixed rate of 2.9%. As of March 31, 2015, SBIC LP had \$37.5 million of SBA-guaranteed debentures outstanding.

For a detailed discussion of the Holdings Credit Facility, the NMFC Credit Facility, the Convertible Notes and the SBA-guaranteed debentures, see "Management's Discussion and Analysis of Financial Conditions and Results of Operations – Liquidity and Capital Resources."

We expect to continue to finance our investments using both debt and equity, including proceeds from equity and debt securities issued by NMFC.

Recent Developments

On April 20, 2015, Edmentum, Inc. ("Edmentum") announced an agreement with the unanimous support of its first lien lenders, second lien lenders and equity sponsors to recapitalize its balance sheet and reduce its outstanding indebtedness. The recapitalization is expected to close in the second quarter of 2015.

On May 5, 2015, the Company's board of directors declared a second quarter 2015 distribution of \$0.34 per share payable on June 30, 2015 to holders of record as of June 16, 2015.

On May 5, 2015, the Company entered into a Second Amended and Restated Administration Agreement with the Administrator to reflect current operating procedures.

New Mountain Capital

New Mountain Capital manages private equity, public equity and debt investments with aggregate assets under management totaling more than \$15.0 billion⁽¹⁾, which includes total assets held by the Company.

New Mountain Capital's first private equity fund, the \$770.0 million New Mountain Partners, L.P., or "Fund I", began its investment period in January 2000. New Mountain Capital's second private equity fund, the \$1.6 billion New Mountain Partners II, L.P., or "Fund II", began its investment period in January 2005. New Mountain Capital's third private equity fund, Fund III, with over \$5.1 billion of aggregate commitments, began its investment period in August 2007. New

(1) Includes amounts committed, not all of which have been drawn down and invested to-date, as of March 31, 2015, as well as amounts called and returned since inception.

Table of Contents

Mountain Capital's fourth private equity fund, "Fund IV", with over \$4.1 billion of aggregate commitments, began its investment period in July 2013. New Mountain Capital manages public equity portfolios through New Mountain Vantage Advisers, L.L.C., which is designed to apply New Mountain Capital's established strengths toward non-control positions in the U.S. public equity markets generally. New Mountain Capital manages its debt portfolio through us, and we are currently New Mountain Capital's only vehicle focused primarily on investing in the investments that we target.

New Mountain Capital's mission is to be "best in class" in the new generation of investment managers as measured by returns, control of risk, service to investors and the quality of the businesses in which New Mountain Capital invests. All of New Mountain Capital's efforts emphasize intensive fundamental research and the proactive creation of proprietary investment advantages in carefully selected industry sectors. New Mountain Capital is a generalist firm but has developed particular competitive advantages in what New Mountain Capital believes to be particularly attractive sectors, such as education, healthcare, logistics, business and industrial services, federal information technology services, media, software, insurance, consumer products, financial services and technology, infrastructure and energy. New Mountain Capital is focused on systematically establishing expertise in new sectors in which it believes it will have a competitive advantage over time.

The Investment Adviser

The Investment Adviser, a wholly-owned subsidiary of New Mountain Capital, manages our day-to-day operations and provides us with investment advisory and management services. In particular, the Investment Adviser is responsible for identifying attractive investment opportunities, conducting research and due diligence on prospective investments, structuring our investments and monitoring and servicing our investments. We currently do not have, and do not intend to have, any employees. As of March 31, 2015, the Investment Adviser was supported by approximately 100 staff members of New Mountain Capital, including approximately 60 investment professionals.

The Investment Adviser is managed by a five member Investment Committee, which is responsible for approving purchases and sales of our investments above \$10.0 million in aggregate by issuer. The Investment Committee currently consists of Steven B. Klinsky, Robert A. Hamwee, Adam B. Weinstein, Michael B. Ajouz and John R. Kline. In addition, our executive officers and certain investment professionals of the Investment Adviser are invited to all Investment Committee meetings. Purchases and dispositions below \$10.0 million may be approved by our Chief Executive Officer. These approval thresholds are subject to change over time. We expect to benefit from the extensive and varied relevant experience of the investment professionals serving on the Investment Committee, which includes expertise in private equity, primary and secondary leveraged credit, private mezzanine finance and distressed debt.

Investment Objectives and Portfolio

Our investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. In some cases, our investments may also include equity interests such as preferred stock, common stock, warrants or options received in connection with our debt investments or may include a direct investment in the equity of private companies.

We make investments through both primary originations and open-market secondary purchases. We primarily target loans to, and invest in, the U.S. middle market businesses, a market segment we believe continues to be underserved by other lenders. We define middle market

Table of Contents

businesses as those businesses with annual earnings before interest, taxes, depreciation, and amortization ("EBITDA") between \$20.0 million and \$200.0 million. Our primary focus is in the debt of defensive growth companies, which are defined as generally exhibiting the following characteristics: (i) sustainable secular growth drivers, (ii) high barriers to competitive entry, (iii) high free cash flow after capital expenditure and working capital needs, (iv) high returns on assets and (v) niche market dominance. Similar to the Company, SBIC LP's investment objective is to generate current income and capital appreciation under our investment criteria. However, SBIC LP's investments must be SBA eligible companies. Our portfolio may be concentrated in a limited number of industries. As of March 31, 2015, our top five industry concentrations were software, business services, education, federal services and healthcare services. Our targeted investments typically have maturities of between five and ten years and generally range in size between \$10.0 million and \$50.0 million. This investment size may vary proportionately as the size of our capital base changes. At March 31, 2015, our portfolio consisted of 69 portfolio companies and was invested 45.7% in first lien loans, 42.1% in second lien loans, 5.4% in subordinated debt and 6.8% in equity and other, as measured at fair value.

The fair value of our investments was approximately \$1,404.8 million in 69 portfolio companies at March 31, 2015.

At March 31, 2014, the Company's only investment was its investment in the Predecessor Operating Company. The following table shows the Company's portfolio and investment activity for the three months ended March 31, 2015 and the Predecessor Operating Company's portfolio and investment activity for the three months ended March 31, 2014:

(in millions)	Three months ended	
	March 31, 2015	March 31, 2014
New investments in 7 and 15 portfolio companies, respectively	\$ 67.2	\$ 158.7
Debt repayments in existing portfolio companies	50.0	40.6
Sales of securities in 10 and 5 portfolio companies, respectively	43.3	61.8
Change in unrealized appreciation on 42 and 35 portfolio companies, respectively	33.7	11.5
Change in unrealized depreciation on 31 and 27 portfolio companies, respectively	(29.2)	(6.7)

At March 31, 2015, the Company's weighted average Yield to Maturity at Cost was approximately 10.6%.

Table of Contents

The following summarizes our ten largest portfolio company investments and top ten industries in which we were invested as of March 31, 2015, calculated as a percentage of total assets as of March 31, 2015.

Portfolio Company	Percent of Total Assets
UniTek Global Services, Inc.	3.2%
TIBCO Software Inc.	3.0%
Tenawa Resource Holdings LLC	2.8%
Deltek, Inc.	2.8%
Ascend Learning, LLC	2.7%
Kronos Incorporated	2.6%
McGraw-Hill Global Education Holdings, LLC	2.5%
Envision Acquisition Company, LLC	2.5%
Tolt Solutions, Inc.	2.4%
Crowley Holdings Preferred, LLC	2.4%

Industry	Percent of Total Assets
Software	22.6%
Business Services	17.5%
Education	13.1%
Federal Services	8.4%
Healthcare Services	7.2%
Distribution & Logistics	7.0%
Energy	5.1%
Media	4.1%
Consumer Services	3.2%
Business Products	1.7%

Competitive Advantages

We believe that we have the following competitive advantages over other capital providers to middle market companies:

Proven and Differentiated Investment Style With Areas of Deep Industry Knowledge

In making its investment decisions, the Investment Adviser applies New Mountain Capital's long-standing, consistent investment approach that has been in place since its founding more than 15 years ago. We focus on companies in less well followed defensive growth niches of the middle market space where we believe few debt funds have built equivalent research and operational size and scale.

We benefit directly from New Mountain Capital's private equity investment strategy that seeks to identify attractive investment sectors from the top down and then works to become a well positioned investor in these sectors. New Mountain Capital focuses on companies and industries with sustainable strengths in all economic cycles, particularly ones that are defensive in nature, that are secular and can maintain pricing power in the midst of a recessionary and/or inflationary environment. New Mountain Capital focuses on companies within sectors in which it has significant expertise (examples include federal services, software, education, niche healthcare, business services, energy and distribution & logistics) while typically avoiding investments in companies with

Table of Contents

products or services that serve markets that are highly cyclical, have the potential for long-term decline, are overly-dependent on consumer demand or are commodity-like in nature.

In making its investment decisions, the Investment Adviser has adopted the approach of New Mountain Capital, which is based on three primary investment principles:

1. A generalist approach, combined with proactive pursuit of the highest quality opportunities within carefully selected industries, identified via an intensive and structured ongoing research process;
2. Emphasis on strong downside protection and strict risk controls; and
3. Continued search for superior risk adjusted returns, combined with timely, intelligent exits and outstanding return performance.

Experienced Management Team and Established Platform

The Investment Adviser's team members have extensive experience in the leveraged lending space. Steven B. Klinsky, New Mountain Capital's Founder, Chief Executive Officer and Managing Director and Chairman of our board of directors, was a general partner of Forstmann Little & Co., a manager of debt and equity funds totaling multiple billions of dollars in the 1980s and 1990s. He was also a co-founder of Goldman, Sachs & Co.'s Leverage Buyout Group in the period from 1981 to 1984. Robert A. Hamwee, our Chief Executive Officer and President and Managing Director of New Mountain Capital, was formerly President of GSC Group, Inc. ("GSC"), where he was the portfolio manager of GSC's distressed debt funds and led the development of GSC's CLOs. John R. Kline, our Chief Operating Officer and Executive Vice President and Managing Director of New Mountain Capital, worked at GSC as an investment analyst and trader for GSC's control distressed and corporate credit funds and at Goldman, Sachs & Co. in the Credit Risk Management and Advisory Group.

Many of the debt investments that we have made to date have been in the same companies with which New Mountain Capital has already conducted months of intensive acquisition due diligence related to potential private equity investments. We believe that private equity underwriting due diligence is usually more robust than typical due diligence for loan underwriting. In its underwriting of debt investments, the Investment Adviser is able to utilize the research and hands-on operating experience that New Mountain Capital's private equity underwriting teams possess regarding the individual companies and industries. Business and industry due diligence is led by a team of investment professionals of the Investment Adviser that generally consists of three to seven individuals, typically based on their relevant company and/or industry specific knowledge. Additionally, the Investment Adviser is also able to utilize its relationships with operating management teams and other private equity sponsors. We believe this differentiates us from many of our competitors.

Significant Sourcing Capabilities and Relationships

We believe the Investment Adviser's ability to source attractive investment opportunities is greatly aided by both New Mountain Capital's historical and current reviews of private equity opportunities in the business segments we target. To date, a significant majority of the investments that we have made are in the debt of companies and industry sectors that were first identified and reviewed in connection with New Mountain Capital's private equity efforts, and the majority of our current pipeline reflects this as well. Furthermore, the Investment Adviser's investment professionals have deep and longstanding relationships in both the private equity sponsor community and the lending/agency community which they have and will continue to utilize to generate investment opportunities.

Table of Contents

Risk Management through Various Cycles

New Mountain Capital has emphasized tight control of risk since its inception and long before the recent global financial distress began. To date, New Mountain Capital has never experienced a bankruptcy of any of its portfolio companies in its private equity efforts or with respect to the Predecessor Entities' business. The Investment Adviser seeks to emphasize tight control of risk with our investments in several important ways, consistent with New Mountain Capital's historical approach. In particular, the Investment Adviser:

Emphasizes the origination or purchase of debt in what the Investment Adviser believes are defensive growth companies, which are less likely to be dependent on macro-economic cycles;

Targets investments in companies that are preeminent market leaders in their own industries, and when possible, investments in companies that have strong management teams whose skills are difficult for competitors to acquire or reproduce; and

Emphasizes capital structure seniority in the Investment Adviser's underwriting process.

Access to Non Mark to Market, Seasoned Leverage Facility

The amount available under our Holdings Credit Facility is generally not subject to reduction as a result of mark to market fluctuations in our portfolio investments. For a detailed discussion of our credit facilities, see "Management's Discussion and Analysis of Financial Conditions and Results of Operations – Liquidity and Capital Resources."

Market Opportunity

We believe that the size of the market for investments that we target, coupled with the demands of middle market companies for flexible sources of capital at competitive terms and rates, create an attractive investment environment for us.

The leverage finance market has a high level of financing needs over the next several years due to significant bank debt maturities. We believe that the large dollar volume of loans that need to be refinanced will present attractive opportunities to invest capital in a manner consistent with our stated objectives.

Middle market companies continue to face difficulties in accessing the capital markets. We believe opportunities to serve the middle market will continue to exist. While many middle market companies were formerly able to raise funds by issuing high-yield bonds, we believe this approach to financing has become more difficult in recent years as institutional investors have sought to invest in larger, more liquid offerings.

Consolidation among commercial banks has reduced the focus on middle market lending. We believe that many traditional bank lenders to middle market businesses have either exited or de-emphasized their service and product offerings in the middle market. These traditional lenders have instead focused on lending and providing other services to large corporate clients. We believe this has resulted in fewer key players and the reduced availability of debt capital to the companies we target.

Attractive pricing. Reduced access to, and availability of, debt capital typically increases the interest rates, or pricing, of loans for middle market lenders. Recent primary debt transactions in this market often include upfront fees, prepayment protections and, in some cases, warrants to purchase common stock, all of which should enhance the profitability of new loans to lenders.

Table of Contents

Conservative deal structures. As a result of the credit crisis, many lenders are requiring larger equity contributions from financial sponsors. Larger equity contributions create an enhanced margin of safety for lenders because leverage is a lower percentage of the implied enterprise value of the company.

Large pool of uninvested private equity capital available for new buyouts. We expect that private equity firms will continue to pursue acquisitions and will seek to leverage their equity investments with mezzanine loans and/or senior loans (including traditional first and second lien, as well as unitranche loans) provided by companies such as ours.

Investment Criteria

The Investment Adviser has identified the following investment criteria and guidelines for use in evaluating prospective portfolio companies. However, not all of these criteria and guidelines were, or will be, met in connection with each of our investments.

Defensive growth industries. We seek to invest in industries that can succeed in both robust and weak economic environments but which are also sufficiently large and growing to achieve high valuations providing enterprise value cushion for our targeted debt securities.

High barriers to competitive entry. We target industries and companies that have well defined industries and well established, understandable barriers to competitive entry.

Recurring revenue. Where possible, we focus on companies that have a high degree of predictability in future revenue.

Flexible cost structure. We seek to invest in businesses that have limited fixed costs and therefore modest operating leverage.

Strong free cash flow and high return on assets. We focus on businesses with a demonstrated ability to produce meaningful free cash flow from operations. We typically target companies that are not asset intensive and that have minimal capital expenditure and minimal working capital growth needs.

Sustainable business and niche market dominance. We seek to invest in businesses that exert niche market dominance in their industry and that have a demonstrated history of sustaining market leadership over time.

Established companies. We seek to invest in established companies with sound historical financial performance. We do not intend to invest in start-up companies or companies with speculative business plans.

Private equity sponsorship. We generally seek to invest in companies in conjunction with private equity sponsors who it knows and trusts and who have proven capabilities in building value.

Seasoned management team. We generally require that its portfolio companies have a seasoned management team with strong corporate governance. Oftentimes we have a historical relationship with or direct knowledge of key managers from previous investment experience.

Investment Selection and Process

Edgar Filing: New Mountain Finance Corp - Form 497

The Investment Adviser believes it has developed a proven, consistent and replicable investment process to execute our investment strategy. The Investment Adviser seeks to identify the

Table of Contents

most attractive investment sectors from the top down and then works to become the most advantaged investor in these sectors. The steps in the Investment Adviser's process include:

Identifying attractive investment sectors top down: The Investment Adviser works continuously and in a variety of ways to proactively identify the most attractive sectors for investment opportunities. The investment professionals of the Investment Adviser participate in this process through both individual and group efforts, formal and informal. The Investment Adviser has also worked with consultants, investment bankers and public equity managers to supplement its internal analyses, although the prime driver of sector ideas has been the Investment Adviser itself.

Creating competitive advantages in the selected industry sectors: Once a sector has been identified, the Investment Adviser works to make itself the most advantaged and knowledgeable investor in that sector. An internal working team is assigned to each project. The team may spend months confirming the sector thesis and building the Investment Adviser's leadership in this sector. In general, the Investment Adviser seeks to construct proprietary databases and to utilize the best specialized industry consultants. The Investment Adviser particularly stresses the establishment of close relationships with operating managers in each field in order to gain the deepest possible level of understanding. When advisable, industry executives have been placed on New Mountain Capital's Management Advisory Board or have been hired on salary as "executives in residence". When the Investment Adviser considers specific investment ideas in its chosen sectors, it can triangulate its own views against the views of its management relationships, consultants, brokers, bankers and others. The Investment Adviser believes this multi-front analysis leads to strong decision making and company identification. The Investment Adviser also believes that its "flexible specialization" approach gives us all the benefits of a narrow-based sector fund without forcing us to invest in any industry sector at an inappropriate time for that sector. The Investment Adviser can also become a leading investment expert in lesser known or smaller sectors that would not support an entire fund dedicated solely to them.

Targeting companies with leading market share and attractive business models in its chosen sectors: The Investment Adviser, consistent with New Mountain Capital's historical approach, typically follows a "good to great" approach, seeking to invest in debt securities of companies in its chosen sectors that it believes are already safe and successful but where the Investment Adviser sees an opportunity for further increases in enterprise value due to special circumstances existing at the time of the financing or through value that a sponsor can add. The investment professionals of the Investment Adviser have been successful in targeting companies with leading market shares, rapid growth, high free cash flows, high operating margins, high barriers to entry and which produce goods or services that are of value to their customers.

Utilizing this research platform, we have largely invested in the debt of companies and industries that have been researched by New Mountain Capital's private equity efforts. In many instances, we have studied the specific debt issuer with which New Mountain Capital has already conducted months of intensive acquisition due diligence related to a potential private equity investment. In other situations, while New Mountain Capital may not have specifically analyzed the issuer in the past, we have deep knowledge of the company's industry through New Mountain Capital's private equity work. We expect the Investment Adviser to continue this approach in the future.

Beyond the foregoing, the investment professionals of the Investment Adviser have deep and longstanding relationships in both the private equity sponsor community and the lending/agency community. We have sourced and we expect to continue sourcing new investment opportunities from both private equity sponsors and other lenders and agents. In private equity, we have strong, personal relationships with principals at a significant majority of relevant sponsors, and we expect that we will continue to utilize those relationships to generate investment opportunities. In the same

Table of Contents

fashion, we have an extensive relationship network with lenders and agents, including commercial banks, investment banks, loan funds, mezzanine funds and a wide range of smaller agents that seek debt capital on behalf of their clients. In addition to newly issued primary opportunities, we have extensive experience in sourcing investment opportunities from the secondary market, and will continue to actively monitor that large, and often volatile, area for appropriate investment opportunities.

This team performs the core underwriting function to determine the attractiveness of the target's business model, focusing on the investment criteria described above. The team ultimately develops a forecast of a target's likely operating and financial performance. Team members have diverse backgrounds in investment management, investment banking, consulting, and operations. We believe the presence within New Mountain Capital of numerous former CEOs and other senior operating executives, and their active involvement in our underwriting process, combined with New Mountain Capital's experience as a majority stockholder owning and directing a wide range of businesses and overseeing operating companies in the same or related industries, is a key differentiator for us versus typical debt investment vehicles.

In addition to performing rigorous business due diligence, the Investment Adviser also thoroughly reviews and/or structures the relevant credit documentation, including bank credit agreements and bond indentures, to ensure that any securities we invest in have appropriate credit rights, protections and remedies. There is a strong focus on appropriate covenant packages. This part of the process, as well as the determination of the appropriate price/yield parameters for individual securities, is led by Robert A. Hamwee, John R. Kline and James W. Stone III with significant input as needed from other professionals with extensive credit experience, such as Steven B. Klinsky, New Mountain Capital's Managing Director, Founder and Chief Executive Officer, and others.

Investment Committee

The Investment Committee currently consists of Steven B. Klinsky, Robert A. Hamwee, Adam B. Weinstein, Michael B. Ajouz and John R. Kline. In addition, our executive officers and certain investment professionals of the Investment Adviser are invited to all Investment Committee meetings. The Investment Committee is responsible for approving all of our investment purchases above \$10.0 million. The Investment Committee also monitors investments in our portfolio and approves all asset dispositions above \$10.0 million. Purchases and dispositions below \$10.0 million may be approved by our Chief Executive Officer. These approval thresholds are subject to change over time. We expect to benefit from the extensive and varied relevant experience of the investment professionals serving on the Investment Committee, which includes expertise in private equity, primary and secondary leveraged credit, private mezzanine finance and distressed debt.

The purpose of the Investment Committee is to evaluate and approve, as deemed appropriate, all investments by the Investment Adviser, subject to certain thresholds. The Investment Committee process is intended to bring the diverse experience and perspectives of the Investment Committee's members to the analysis and consideration of every investment. The Investment Committee also serves to provide investment consistency and adherence to the Investment Adviser's investment philosophies and policies. The Investment Committee also determines appropriate investment sizing and suggests ongoing monitoring requirements.

In addition to reviewing investments, the Investment Committee meetings serve as a forum to discuss credit views and outlooks. Potential transactions and investment opportunities are also reviewed on a regular basis. Members of our investment team are encouraged to share information and views on credits with the committee early in their analysis. This process improves the quality of the analysis and assists the deal team members to work more efficiently.

Table of Contents

Investment Structure

We target debt investments that will yield meaningful current income and occasionally provide the opportunity for capital appreciation through equity securities. Our debt investments are typically structured with the maximum seniority and collateral that we can reasonably obtain while seeking to achieve its total return target.

Debt Investments

The terms of our debt investments are tailored to the facts and circumstances of the transaction and prospective portfolio company and structured to protect its rights and manage its risk while creating incentives for the portfolio company to achieve its business plan. A substantial source of return is the cash interest that we collect on its debt investments.

First Lien Loans and Bonds. First lien loans and bonds generally have terms of four to seven years, provide for a variable or fixed interest rate, may contain prepayment penalties and are secured by a first priority security interest in all existing and future assets of the borrower. These first lien loans and bonds may include PIK interest, which represents contractual interest accrued and added to the principal that generally becomes due at maturity.

Second Lien Loans and Bonds. Second lien loans and bonds generally have terms of five to eight years, provide for a variable or fixed interest rate, may contain prepayment penalties and are secured by a second priority security interest in all existing and future assets of the borrower. These second lien loans and bonds may include PIK interest.

Unsecured Senior, Subordinated and "Mezzanine" Loans and Bonds. Any unsecured investments are generally expected to have terms of five to ten years and provide for a fixed interest rate. Unsecured investments may include PIK interest and may have an equity component, such as warrants to purchase common stock in the portfolio company.

In addition, from time to time we may also enter into revolving credit facilities, bridge financing commitments, delayed draw commitments or other commitments which can result in providing future financing to a portfolio company.

Equity Investments

When we make a debt investment, we may be granted equity in the portfolio company in the same class of security as the sponsor receives upon funding. In addition, we may from time to time make non-control, equity co-investments in conjunction with private equity sponsors. We generally seek to structure our equity investments, such as direct equity co-investments, to provide us with minority rights provisions and event-driven put rights. We also seek to obtain limited registration rights in connection with these investments, which may include "piggyback" registration rights.

Portfolio Company Monitoring

We monitor the performance and financial trends of our portfolio companies on at least a quarterly basis. We attempt to identify any developments within the portfolio company, the industry or the macroeconomic environment that may alter any material element of our original investment strategy. We use several methods of evaluating and monitoring the performance of our investments, including but not limited to, the following:

review of monthly and/or quarterly financial statements and financial projections for portfolio companies provided by its management;

ongoing dialogue with and review of original diligence sources;

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

periodic contact with portfolio company management (and, if appropriate the private equity sponsor) to discuss financial position, requirements and accomplishments; and

assessment of business development success, including product development, profitability and the portfolio company's overall adherence to its business plan.

We use an investment rating system to characterize and monitor the credit profile and expected level of returns on each investment in the portfolio. We use a four-level numeric rating scale as follows:

Investment Rating 1 Investment is performing materially above expectations;

Investment Rating 2 Investment is performing materially in-line with expectations. All new loans are rated 2 at initial purchase;

Investment Rating 3 Investment is performing materially below expectations and risk has increased materially since the original investment; and

Investment Rating 4 Investment is performing substantially below expectations and risks have increased substantially since the original investment. Payments may be delinquent. There is meaningful possibility that we will not recoup our original cost basis in the investment and may realize a substantial loss upon exit.

The following table shows the distribution of our investments on the 1 to 4 investment rating scale at fair value as of March 31, 2015:

(in millions)	As of March 31, 2015			
	Par Value(1)	Percent	Fair Value	Percent
Investment Rating 1	\$ 280.6	20.6%	\$ 292.9	20.8%
Investment Rating 2	1,005.9	73.6%	1,062.8	75.7%
Investment Rating 3	61.2	4.5%	40.9	2.9%
Investment Rating 4	17.4	1.3%	8.2	0.6%
	\$ 1,365.1	100.0%	\$ 1,404.8	100.0%

(1) Excludes shares and warrants.

Exit Strategies/Refinancing

We exit our investments typically through one of four scenarios: (i) the sale of the portfolio company itself resulting in repayment of all outstanding debt, (ii) the recapitalization of the portfolio company in which our loan is replaced with debt or equity from a third party or parties (in some cases, we may choose to participate in the newly issued loan(s)), (iii) the repayment of the initial or remaining principal amount of our loan then outstanding at maturity or (iv) the sale of the debt investment by us. In some investments, there may be scheduled amortization of some portion of our loan which would result in a partial exit of our investment prior to the maturity of the loan.

Managerial Assistance

Edgar Filing: New Mountain Finance Corp - Form 497

In order to count portfolio securities as qualifying assets for the purpose of the 70.0% test, we must either control the issuer of the securities or must offer to make available to the issuer of the securities (other than small and solvent companies described above) significant managerial assistance, except that, where we purchase such securities in conjunction with one or more other persons acting together, one of the other persons in the group may make available such

Table of Contents

managerial assistance. Making available managerial assistance means, among other things, any arrangement whereby the BDC offers to provide, and, if accepted, does so provide, significant guidance and counsel concerning the management, operations or business objectives and policies of a portfolio company. The Administrator or its affiliate provides such managerial assistance on our behalf to portfolio companies that request this assistance.

Competition

We compete for investments with a number of BDCs and investment funds (including private equity and hedge funds), as well as traditional financial services companies such as commercial banks and other sources of financing. Many of these entities have greater financial and managerial resources than we do. We believe we are able to be competitive with these entities primarily on the basis of the experience and contacts of our management team, our responsive and efficient investment analysis and decision-making processes, the investment terms we offer, the leveraged model that we employ to perform our due diligence with the broader New Mountain Capital team and our model of investing in companies and industries we know well.

We believe that some of our competitors may make investments with interest rates and returns that are comparable to or lower than the rates and returns that we target. Therefore, we do not seek to compete solely on the interest rates and returns that we offer to potential portfolio companies. For additional information concerning the competitive risks we face, see "Risk Factors Risks Relating to Our Business".

Employees

We do not have any employees. Day-to-day investment operations that are conducted by us are managed by the Investment Adviser. See "Investment Management Agreement". We reimburse the Administrator for the allocable portion of overhead and other expenses incurred by it in performing its obligations to us under the Administration Agreement, including the compensation of our chief financial officer and chief compliance officer, and their respective staffs. For a more detailed discussion of the Administration Agreement, see "Administration Agreement".

Properties

Our executive office is located at 787 Seventh Avenue, 48th Floor, New York, New York 10019. We believe that our current office facilities are adequate for our business as we intend to conduct it.

Legal Proceedings

We, our consolidated subsidiaries, the Investment Adviser and the Administrator are not currently subject to any material legal proceedings, although these entities may, from time to time, be involved in litigation arising out of operations in the normal course of business or otherwise.

Table of Contents**PORTFOLIO COMPANIES**

The following table sets forth certain information as of March 31, 2015, for each portfolio company in which we had a debt or equity investment. Other than these investments, our only formal relationships with our portfolio companies are the managerial assistance ancillary to our investments that we may provide, if requested, and the board observation or participation rights we may receive. We do not "control" any of our portfolio companies but we are an "affiliate" of NMFC Senior Loan Program I LLC, which is one of our portfolio companies, each as defined in the 1940 Act. In general, under the 1940 Act, we would "control" a portfolio company if we owned more than 25.0% of its voting securities and would be an "affiliate" of a portfolio company if we owned 5.0% or more of its voting securities.

Name / Address of Portfolio Company(1)	Industry	Type of Investment	Interest Rate(22)	Maturity Date	Yield to Maturity at Cost(23)	Percent of Class Held(24)	Fair Value (in thousands)

Total Investments \$ 1,404,754

- (1) The Company generally acquires its investments in private transactions exempt from registration under the Securities Act of 1933, as amended (the "Securities Act"). These investments are generally subject to certain limitations on resale, and may be deemed to be "restricted securities" under the Securities Act.
- (2) Investment is pledged as collateral for the Holdings Credit Facility, a revolving credit facility among the Company as Collateral Manager, NMF Holdings as the Borrower, Wells Fargo Securities, LLC as the Administrative Agent, and Wells Fargo Bank, National Association, as the Lender and Collateral Custodian.
- (3) Investment is pledged as collateral for the NMFC Credit Facility, a revolving credit facility among the Company as the Borrower, Goldman Sachs Bank USA as the Administrative Agent and the Collateral Agent and Goldman Sachs Bank USA and Morgan Stanley, N.A. as Lenders.
- (4) Investment is held in New Mountain Finance SBIC, L.P.
- (5) Investment is held in NMF YP Holdings, Inc.
- (6) Investment is held in NMF Ancora Holdings, Inc.
- (7) Investment or a portion of the investment is on non-accrual status.
- (8) The Company holds investments in TWDiamondback Holdings Corp. and one related entity of TWDiamondback Holdings Corp. The Company holds preferred equity in TWDiamondback Holdings Corp. and holds a first lien last out term loan and a delayed draw term loan in Diamondback Drugs of Delaware LLC, a wholly-owned subsidiary of TWDiamondback Holdings Corp.
- (9)

Securities are registered under the Securities Act.

- (10) The Company holds investments in two related entities of YP Holdings LLC. The Company directly holds warrants to purchase a 4.96% membership interest of YP Equity Investors, LLC (which at closing represented an indirect 1.0% equity interest in YP Holdings LLC) and holds an investment in the Term Loan B loans issued by YP LLC, a subsidiary of YP Holdings LLC.
- (11) Par Value amounts represent the drawn or undrawn (as indicated in type of investment) portion of revolving credit facilities or delayed draws. Cost amounts represent the cash received at settlement date net the impact of paydowns and cash paid for drawn revolvers or delayed draws.
- (12) The Company holds investments in Packaging Coordinators, Inc. and one related entity of Packaging Coordinators, Inc. The Company has a debt investment in Packaging Coordinators, Inc. and holds ordinary equity in PCI Pharma Holdings UK Limited, a wholly-owned subsidiary of Packaging Coordinators, Inc.
- (13) The Company holds investments in ATI Acquisition Company and Ancora Acquisition LLC. The Company has debt investments in ATI Acquisition Company and preferred equity and warrants to purchase units of common membership interests of Ancora Acquisition LLC. The Company received its investments in Ancora Acquisition LLC as a result of its investments in ATI Acquisition Company.
- (14) The Company holds an investment in CompassLearning, Inc. that is structured as a first lien last out term loan.

Table of Contents

- (15) The Company holds two first lien investments in Tolt Solutions, Inc. The debt investment with an interest rate at base rate + 6.00% is structured as a first lien first out debt investment. The debt investment with an interest rate at base rate + 11.00% is structured as a first lien last out debt investment.
- (16) The Company holds investments in two related entities of Tenawa Resource Holdings LLC. The Company holds 5.05% of the common units in QID NGL LLC (which at closing represented 98.1% of the ownership in the common units in Tenawa Resource Holdings LLC) and holds an investment in the Term Loan of Tenawa Resource Management LLC, a wholly-owned subsidiary of Tenawa Resource Holdings LLC.
- (17) The Company holds investments in two wholly-owned subsidiaries of Learning Care Group (US) Inc. The Company has a debt investment in Learning Care Group (US) No. 2 Inc. and holds warrants to purchase common stock of ASP LCG Holdings, Inc.
- (18) Denotes investments in which the Company is an "Affiliated Person", as defined in the Investment Company Act of 1940, as amended, due to owning or holding the power to vote 5.0% or more of the outstanding voting securities of the investment but not controlling the company.
- (19) Denotes investments in which the Company is in "Control", as defined in the Investment Company Act of 1940, as amended, due to owning or holding the power to vote 25.0% or more of the outstanding voting securities of the investment.
- (20) Total shares reported assumes shares issued for the capitalization of PIK interest. Actual shares owned total 35,000.
- (21) The Company holds preferred equity in UniTek Global Services, Inc. that is entitled to receive cumulative preferential dividends at a rate of 13.5% per annum payable in additional shares.
- (22) All interest is payable in cash unless otherwise indicated. A majority of the variable rate debt investments bear interest at a rate that may be determined by reference to LIBOR (L) or the Prime Rate (P) and which resets quarterly (Q), monthly (M), semi-annually (S) or annually (A). For each debt investment we have provided the current interest rate in effect as of March 31, 2015.
- (23) Assumes that all investments not on non-accrual are purchased at the adjusted cost on the quarter end date and held until their respective maturities with no prepayments or losses and exited at par at maturity. Adjusted cost reflects the GAAP cost for post-IPO investments and a stepped up cost basis of pre-IPO investments (assuming a step-up to fair market value occurred on the IPO date). This calculation excludes the impact of existing leverage. Yield to Maturity at Cost uses the LIBOR curves at each quarter's respective end date
- (24)

Percent of class held is presented only for equity positions.

- (25) The base rate and spread is a blended interest rate. The base rate is determined by reference to both LIBOR and Prime Rate.
- (26) The Company holds investments in QC McKissock Investment, LLC and one related entity of QC McKissock Investment, LLC. The Company holds a first lien term loan in QC McKissock Investment, LLC and holds a first lien term loan and a delayed draw term loan in McKissock, LLC, which is an indirect subsidiary of QC McKissock Investment, LLC.
- (27) The Company holds investments in Education Management Corporation and one related entity of Education Management Corporation. The Company holds series A-1 convertible preferred stock and series A-2 mandatory convertible preferred stock in Education Management Corporation and holds a tranche A first lien term loan and a tranche B first lien term loan in Education Management II LLC, which is an indirect subsidiary of Education Management Corporation.

*

All or a portion of interest contains PIK.

**

Indicates assets that the Company deems to be "non-qualifying assets" under Section 55(a) of the Investment Company Act of 1940, as amended. Qualifying assets must represent at least 70.00% of the Company's total assets at the time of acquisition of any additional non-qualifying assets. As of March 31, 2015, 11.8% of our total assets were non-qualifying assets.

As of March 31, 2015, we had no single investment that represented greater than 5.0% of our total assets.

Table of Contents**MANAGEMENT****Board of Directors and Executive Officers**

Our business and affairs are managed under the direction of our board of directors. Our board of directors appoints our officers, who serve at the discretion of our board of directors. Our board of directors has an audit committee, a nominating and corporate governance committee, a valuation committee and a compensation committee and may establish additional committees from time to time as necessary.

Our board of directors consists of seven members, four of whom are classified under applicable NYSE listing standards as "independent" directors and under Section 2(a)(19) of the 1940 Act as non-interested persons. Pursuant to our governing documents, our directors are divided into three classes. Each class of directors will hold office for a three-year term. However, the initial members of the three classes have initial terms of one, two and three years, respectively. At each annual meeting of our stockholders, the successors to the class of directors whose terms expire at such meeting will be elected to hold office for a term expiring at the annual meeting of stockholders held in the third year following the year of their election. Each director will hold office for the term to which he or she is elected and until his or her successor is duly elected and qualifies. Our governing documents also give our board of directors sole authority to appoint directors to fill vacancies that are created either through an increase in the number of directors or due to the resignation, removal or death of any director.

Directors

Information regarding our board of directors is set forth below. The directors have been divided into two groups – independent directors and interested directors. Interested directors are "interested persons" of NMFC as defined in Section 2(a)(19) of the 1940 Act. The address for each director is c/o New Mountain Finance Corporation, 787 Seventh Avenue, 48th Floor, New York, New York 10019.

Name	Age	Position	Director Since	Expiration of Term
<i>Independent Directors</i>				
David Ogens	60	Director	2010	2018
Alfred F. Hurley, Jr.	60	Director	2010	2016
Kurt J. Wolfgruber	64	Director	2010	2017
David R. Malpass	59	Director	2012	2017
<i>Interested Directors</i>				
Steven B. Klinsky	58	Chairman of the Board of Directors	2010	2017
Robert A. Hamwee	45	Chief Executive Officer, President and Director	2010	2016

Executive Officers Who Are Not Directors

Information regarding our executive officers who are not directors is set forth below.

Name	Age	Position
Paula A. Bosco	42	Chief Compliance Officer, Chief Regulatory Counsel and Corporate Secretary
David M. Cordova	34	Chief Financial Officer and Treasurer
John R. Kline	39	Executive Vice President and Chief Operating Officer

The address for each executive officer is c/o New Mountain Finance Corporation, 787 Seventh Avenue, 48th Floor, New York, New York 10019.

Biographical Information

Directors

Each of our directors has demonstrated high character and integrity, superior credentials and recognition in his respective field and the relevant expertise and experience upon which to be able to offer advice and guidance to our management. Each of our directors also has sufficient time available to devote to our affairs, is able to work with the other members of the board of directors and contribute to our success and can represent the long-term interests of our stockholders as a whole. We have selected our current directors to provide a range of backgrounds and experience to our board of directors. Set forth below is biographical information for each director, including a discussion of the director's particular experience, qualifications, attributes or skills that led us to conclude, as of the date of this prospectus, that the individual should serve as a director, in light of our business and structure.

Independent Directors

David Ogens has been a director of NMFC since November 2010. Mr. Ogens has served as the President and a Director of Med Inc. since 2011, a company that provides complex rehabilitation services to patients with serious muscular/neuro diseases. Previously, Mr. Ogens served as Senior Managing Director and Head of Investment Banking at Leerink Swann LLC, a specialized healthcare investment bank focused on emerging growth healthcare companies, from 2005 to 2009. Prior to serving at Leerink Swann LLC, Mr. Ogens was Chairman and Co-Founder of SCS Financial Services, LLC, a private wealth management firm. Before co-founding SCS Financial Services, LLC in 2002, Mr. Ogens was a Managing Director in the Investment Banking Division of Goldman, Sachs & Co, where he served as a senior investment banker and a head of the High Technology Investment Banking Group. Mr. Ogens received his Bachelor of Arts ("B.A." or "A.B.") and Master of Business Administration ("M.B.A.") from the University of Virginia.

Mr. Ogens brings his experience in wealth management and investment banking, including experience with debt issuances, as well as industry-specific expertise in the healthcare industry to our board of directors. This background positions Mr. Ogens well to serve as our director.

Kurt J. Wolfgruber has been a director of NMFC since November 2010, and is currently a private investor. Mr. Wolfgruber served as President of OppenheimerFunds, Inc., an investment management company, from March 2007 until his departure in May of 2009, during which time he was responsible for OppenheimerFunds, Inc.'s Retail and Wealth Management business units. During such period, Mr. Wolfgruber also served as Chief Investment Officer, overseeing the direction of OppenheimerFunds, Inc.'s investment organization and directing the underlying investment process. Mr. Wolfgruber joined OppenheimerFunds, Inc. in April 2000 as Senior Investment Officer and Director of Domestic Equities, in which position he was responsible for the investment process

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

of the assets managed by OppenheimerFunds, Inc.'s Domestic Equity Portfolio teams. In 2003, Mr. Wolfgruber was named Executive Vice President and Chief Investment Officer of OppenheimerFunds, Inc. with oversight responsibilities for all investment functions including equity and fixed income research and portfolio management, trading and risk management. Prior to joining OppenheimerFunds, Inc., Mr. Wolfgruber spent 26 years at JPMorgan Investment Management in various research, portfolio management and management leadership roles. He has served as a Trustee to Exchange Traded Concepts since 2012. Mr. Wolfgruber received his B.A. in Economics from Ithaca College and his M.B.A. from the University of Virginia. He is also a Chartered Financial Analyst.

Mr. Wolfgruber brings experience in portfolio management and his abilities as a chartered financial analyst to our board of directors. This background positions Mr. Wolfgruber well to serve as our director.

Alfred F. Hurley, Jr. has been a director of NMFC since November 2010. He was a Vice Chairman of Emigrant Bank and Emigrant Bancorp (collectively, the "Bank") from 2007 and 2009, respectively, to December 2012 and was a consultant to the Bank during 2013. His responsibilities at the Bank included advising the Bank's CEO on acquisitions and divestitures, asset/liability management, and new products. In addition, he was the Chairman of the Bank's Credit and Risk Management Committee from 2008 to 2012 and the Bank's acting Chief Risk Officer until January 2012. Before joining the Bank, Mr. Hurley was the Chief Executive Officer of M. Safra & Co., a private money management firm, from 2004 to 2007. Prior to joining M. Safra & Co., Mr. Hurley worked at Merrill Lynch ("ML") from 1976 to 2004. His most recent management positions included serving as Senior Vice President of ML & Co. and Head of Global Private Equity Investing, Managing Director and Head of Japan Investment Banking and Capital Markets, Managing Director and Co-Head of the Global Manufacturing and Services Group, and Managing Director and Head of the Global Automotive Aerospace and Transportation Group. As part of the management duties described above, he was a member of the Corporate and Institutional Client Group ("CICG") Executive Committee which had global responsibility for the firm's equity, debt, investment banking and private equity businesses, a member of the Japan CICG Executive Committee, and a member of the Global Investment Banking Management and Operating Group Committees. Mr. Hurley is also a member of the board of directors of Merrill Corporation, which is a privately held company that provides outsourced solutions for complex, regulated and confidential business information, where he serves as Chairman of the Compensation and Governance and Human Resources Committee and as a member of the Audit Committee. Since February 2014, Mr. Hurley is the sole member of a consulting business, Alfred F. Hurley, Jr. & Company, LLC. Mr. Hurley graduated from Princeton University with an A.B. in History, cum laude.

Mr. Hurley brings his experience in risk management as well as his experience in the banking and money management industries to our board of directors. This background positions Mr. Hurley well to serve as our director.

David R. Malpass has been a director of NMFC since July 2012. He is currently president of Encima Global, an economic research and consulting firm serving institutional investors and corporate clients. His work provides insight and analysis on global economic and political trends, with investment research spanning equities, fixed income, commodities and currencies. Before founding Encima Global, LLC in 2008, Mr. Malpass served as Bear Stearns' chief economist and Senior Managing Director from 1993 to 2008. Between February 1984 and January 1993, Mr. Malpass held economic appointments during the Reagan and Bush Administrations. He was Deputy Assistant Treasury Secretary for Developing Nations, a Deputy Assistant Secretary of State, Republican Staff Director of Congress's Joint Economic Committee, and Senior Analyst for Taxes and Trade at the Senate Budget Committee. From 1977 to 1983, Mr. Malpass worked in Portland, Oregon as a Certified Public Accountant with Arthur Andersen's systems consulting group, the

Table of Contents

Controller at Consolidated Supply Co., and a contract administrator at Esco Corporation, a steel foundry. Mr. Malpass also has served on the board of directors of various UBS mutual funds since May 2014. Mr. Malpass authors the Current Events column in Forbes magazine, and his opinion pieces appear regularly in the Wall Street Journal. Mr. Malpass received a bachelor's degree in physics from Colorado College and a M.B.A. from the University of Denver. In addition to this, he studied international economics at Georgetown University's School of Foreign Service.

Mr. Malpass brings his experience in global economics and research to our board of directors. This background positions Mr. Malpass well to serve as our director.

Interested Directors

Steven B. Klinsky has served as Chairman of the board of directors of NMFC since July 2010. Mr. Klinsky is the Founder of New Mountain Capital and has served as New Mountain Capital's Chief Executive Officer since its inception in 1999. Prior to 1999, Mr. Klinsky served as a General Partner and an Associate Partner with Forstmann Little & Co. and co-founded Goldman, Sachs & Co.'s Leveraged Buyout Group. He currently serves on the board of directors of Gary Klinsky Children Centers, Private Equity Growth Capital Council, Victory Education Partners, SNL Financial LC, Avantor Performance Materials Holdings, Inc., IRI Group Holdings, Inc., and Overland Solutions, Inc., and during the five years prior to the date of this document has served on the board of directors of Oakleaf Global Holdings, Inc., Connexions, Inc., Apptis, Inc., MailSouth, Inc., National Medical Health Card Systems, Inc., RedPrairie Holding, Inc., Inmar, Inc. and Delttek, Inc. Mr. Klinsky received his B.A. in Economics and Political Philosophy from the University of Michigan. He received his M.B.A. from Harvard Business School and his J.D. from Harvard Law School.

From his experience as an executive or director of public and private companies of financial advisory and private equity companies, Mr. Klinsky brings broad financial advisory and investment management expertise to the board of directors. Mr. Klinsky's intimate knowledge of our business and operations, as a Managing Director, Founder and Chief Executive Officer of New Mountain Capital and his experience as a board member or chairman of other publicly-held companies, positions him well to serve as the chairman of our board of directors.

Robert A. Hamwee has served on the board of directors of NMFC since July 2010. Mr. Hamwee has served as NMFC's Chief Executive Officer since July 2010 and President since March 2011. Mr. Hamwee has also served as a Managing Director of New Mountain Capital since 2008. Prior to joining New Mountain Capital, Mr. Hamwee served as a Senior Executive of GSC Group Inc. ("GSC"), a leading institutional investment manager of alternative assets, where he had day-to-day responsibility for managing GSC's control distressed debt funds from 1999 to 2008. Prior to 1999, Mr. Hamwee held various positions at Greenwich Street Capital Partners, the predecessor to GSC, and with The Blackstone Group. Mr. Hamwee has chaired numerous Creditor Committees and Bank Steering Groups, and was formerly a director of a number of public and private companies, including Envirosource, Purina Mills, and Viasystems. Mr. Hamwee received his Bachelor of Business Administration ("B.B.A.") in Finance and Accounting from the University of Michigan.

Mr. Hamwee's depth of experience in managerial operational positions in investment management and financial services and as a member of other corporate boards of directors, as well as his intimate knowledge of our business and operations, provides our board of directors valuable industry- and company-specific knowledge and expertise.

Adam B. Weinstein has served on the board of directors of NMFC since July 2012. Mr. Weinstein has served as our Executive Vice President and Chief Administrative Officer since January 2013 and previously served as our Chief Financial Officer and Treasurer from July 2010. Mr. Weinstein also serves as a Managing Director and Chief Financial Officer of New Mountain

Table of Contents

Capital and has been in various roles since joining in 2005. Prior to joining New Mountain Capital in 2005, Mr. Weinstein was a Manager at Deloitte & Touche, LLP and worked in that firm's merger and acquisition and private equity investor services areas. He also currently serves as a director of Bellerophon Therapeutics Inc., Great Oaks Foundation and Victory Education Partners. Mr. Weinstein sits on a number of boards of directors for professional and non-profit organizations. Mr. Weinstein received his B.S. from Binghamton University, is a member of the AICPA and is a New York State Certified Public Accountant.

Mr. Weinstein brings his industry-specific expertise and background in accounting to our board of directors. This background positions Mr. Weinstein well to serve as our director.

Executive Officers Who Are Not Directors

Paula A. Bosco has served as Chief Compliance Officer and Corporate Secretary of NMFC since July 2010. Ms. Bosco has served as our Chief Regulatory Counsel since February 2013. Ms. Bosco serves as a Managing Director, Chief Regulatory Counsel and Chief Compliance Officer of New Mountain Capital and has been in various roles since joining in 2009. Prior to joining New Mountain Capital in 2009, Ms. Bosco served as the Chief Compliance Officer for the advisory division of Lehman Brothers Inc. from 2007 to 2009. From 2005 to 2007, Ms. Bosco served as Senior Vice President and Assistant Director of International & Investment Advisory Services Compliance at Citigroup Global Markets, Inc. Prior to that, Ms. Bosco held a number of senior legal and regulatory compliance positions with investment banks and financial regulators, as well as with a large New York City law firm. Ms. Bosco received her B.A. in Political Science from the State University of New York, her J.D. from the City University of New York School of Law and her M.B.A. in Finance/Investment Management from Pace University. She is admitted to practice law in the U.S. District Court, Eastern and Southern Districts of New York, and the U.S. Court of Appeals, Second Circuit.

David M. Cordova has served as Chief Financial Officer and Treasurer of NMFC since January 2013. Mr. Cordova joined NMFC as the BDC Finance Director in 2012. Prior to joining New Mountain Capital, he worked for Starwood Property Trust, Inc., an externally managed mortgage REIT of Starwood Capital Group, as Manager of Financial Reporting. Before joining Starwood in 2010, Mr. Cordova worked in Ernst & Young's Audit and Assurance practice from 2005 to 2010. Mr. Cordova received a B.A. in Accounting from James Madison University and a M.B.A. with concentrations in finance and economics from New York University's Leonard N. Stern School of Business.

John R. Kline has served as an Executive Vice President and Chief Operating Officer of NMFC since January 2013. Mr. Kline also serves as a Managing Director of New Mountain Capital. Prior to joining New Mountain Capital in 2008, he worked at GSC Group Inc. from 2001 to 2008 as an investment analyst and trader for GSC Group Inc.'s control distressed and corporate credit funds. From 1999 to 2001, Mr. Kline was with Goldman, Sachs & Co. where he worked in the Credit Risk Management and Advisory Group. He currently serves as a director of UniTek Global Services, Inc. Mr. Kline received an A.B. degree in History from Dartmouth College.

Board Leadership Structure

Our board of directors monitors and performs an oversight role with respect to our business and affairs, compliance with regulatory requirements and the services, expenses and performance of our service providers. Among other things, board of directors approve the appointment of the Administrator and officers, review and monitor the services and activities performed by the Administrator and officers and approve the engagement, and review the performance of, our independent public accounting firm.

Table of Contents

Under our bylaws, our board of directors may designate a chairman to preside over the meetings of the board of directors and meetings of the stockholders and to perform such other duties as may be assigned to him by the board of directors. We do not have a fixed policy as to whether the chairman of the board of directors should be an independent director and believe that we should maintain the flexibility to select the chairman and reorganize the leadership structure, from time to time, based on the criteria that is in our best interests and our stockholders at such times.

Mr. Klinsky currently serves as the chairman of our board of directors. Mr. Klinsky is an "interested person" of NMFC as defined in Section 2(a)(19) of the 1940 Act because he is a Managing Director, Founder and Chief Executive Officer of New Mountain Capital, serves on the investment committee of the Investment Adviser and is the managing member of the sole member of the Investment Adviser. We believe that Mr. Klinsky's history with New Mountain Capital, familiarity with our investment objectives and investment strategy, and extensive knowledge of the financial services industry and the investment valuation process in particular qualify him to serve as the chairman of our board of directors. We believe that, at present, we are best served through this leadership structure, as Mr. Klinsky's relationship with the Investment Adviser and New Mountain Capital, provides an effective bridge and encourages an open dialogue between our management and our board of directors, ensuring that all groups act with a common purpose.

Our board of directors does not currently have a designated lead independent director. We are aware of the potential conflicts that may arise when a non-independent director is chairman of the board of directors, but believe these potential conflicts are offset by our strong corporate governance policies. Our corporate governance policies include regular meetings of the independent directors in executive session without the presence of interested directors and management, the establishment of audit, valuation, nominating and corporate governance and compensation committees comprised solely of independent directors and the appointment of a chief compliance officer, with whom the independent directors meet regularly without the presence of interested directors and other members of management, for administering our compliance policies and procedures.

We recognize that different board leadership structures are appropriate for companies in different situations. We intend to re-examine their corporate governance policies on an ongoing basis to ensure that they continue to meet their needs.

Board of Directors' Role In Risk Oversight

Our board of directors performs its risk oversight function primarily through (1) its four standing committees which report to the board of directors, each of which are comprised solely of independent directors and (2) active monitoring by our chief compliance officer and our compliance policies and procedures.

Our audit committee, valuation committee, nominating and corporate governance committee and compensation committee assist our board of directors in fulfilling its risk oversight responsibilities. The audit committee's risk oversight responsibilities include overseeing our accounting and financial reporting processes, our systems of internal controls regarding finance and accounting, and audits of our financial statements, including the independence of our independent auditors. The valuation committee is responsible for making recommendations in accordance with the valuation policies and procedures adopted by our board of directors, reviewing valuations and any reports of independent valuation firms, confirming that valuations are made in accordance with the valuation policies of our board of directors and reporting any deficiencies or violations of such valuation policies to our board of directors on at least a quarterly basis, and reviewing other matters that our board of directors or the valuation committee deems appropriate.

Table of Contents

The nominating and corporate governance committee's risk oversight responsibilities include selecting, researching and nominating directors for election by our stockholders, developing and recommending to the board of directors a set of corporate governance principles and overseeing the evaluation of the board of directors and our management. The compensation committee is responsible for periodically reviewing director compensation and recommending any appropriate changes to our board of directors. In addition, although we do not directly compensate our executive officers currently, to the extent that we do so in the future, the compensation committee would also be responsible for reviewing and evaluating their compensation and making recommendations to the board of directors regarding their compensation.

Our board of directors performs its risk oversight responsibilities with the assistance of our chief compliance officer. The board of directors quarterly reviews a written report from the chief compliance officer discussing the adequacy and effectiveness of our compliance policies and procedures and our service providers. The chief compliance officer's quarterly report addresses at a minimum:

the operation of our compliance policies and procedures and our service providers since the last report;

any material changes to these policies and procedures since the last report;

any recommendations for material changes to these policies and procedures as a result of the chief compliance officer's quarterly review; and

any compliance matter that has occurred since the date of the last report about which the board of directors would reasonably need to know to oversee our compliance activities and risks.

In addition, the chief compliance officer meets separately in executive session with the independent directors at least once each year.

We believe that our board of directors' role in risk oversight is effective, and appropriate given the extensive regulation to which we are subject as a BDC. We are required to comply with certain regulatory requirements that control the levels of risk in our business and operations. For example, our ability to incur indebtedness is limited because our asset coverage must equal at least 200.0% immediately after we incur indebtedness, we generally have to invest at least 70.0% of our total assets in "qualifying assets" and are not generally permitted to invest in any portfolio company in which one of our affiliates currently has an investment.

We recognize that different board of director roles in risk oversight is appropriate for companies in different situations. We intend to re-examine the manner in which the board of directors administers its oversight function on an ongoing basis to ensure that it continues to meet our needs.

Committees of the Board of Directors

Our board of directors has established an audit committee, a nominating and corporate governance committee, a valuation committee and a compensation committee. The members of each committee have been appointed by our board of directors and serve until their successor is elected and qualifies, unless they are removed or resign. During 2014, our board of directors held nine board of directors meetings, four audit committee meetings, two nominating and corporate governance committee meetings, eight valuation committee meetings and one compensation committee meetings. All directors attended at least 75.0% of the aggregate number of meetings of the board of directors and of the respective committees on which they serve. We require each

Table of Contents

director to make a diligent effort to attend all board and committee meetings as well as each annual meeting of our stockholders.

Audit Committee

The audit committee operates pursuant to a charter approved by our board of directors, a copy of which is available on our website at <http://www.newmountainfinance.com>. The charter sets forth the responsibilities of the audit committee. The audit committee is responsible for recommending the selection of, engagement of and discharge of our independent auditors, reviewing the plans, scope and results of the audit engagement with the independent auditors, approving professional services provided by the independent auditors (including compensation therefore), reviewing the independence of the independent auditors and reviewing the adequacy of our internal controls over financial reporting. The members of the audit committee are Alfred F. Hurley, Jr., David R. Malpass, David Ogens and Kurt J. Wolfgruber, each of whom is not an interested person of NMFC for purposes of the 1940 Act and is independent for purposes of the NYSE's corporate governance listing standards. Kurt J. Wolfgruber serves as the chairman of the audit committee, and our board of directors has determined that Alfred F. Hurley, Jr., David Ogens and Kurt J. Wolfgruber are "audit committee financial experts" as that term is defined under Item 407 of Regulation S-K, as promulgated under the Exchange Act, and that each of them meets the current independence and experience requirements of Rule 10A-3 of the Exchange Act.

Nominating and Corporate Governance Committee

The nominating and corporate governance committee operates pursuant to a charter approved by our board of directors, a copy of which is available on our website at <http://www.newmountainfinance.com>. The charter sets forth the responsibilities of the nominating and corporate governance committee. The nominating and corporate governance committee is responsible for determining criteria for service on the board of directors, identifying, researching and nominating directors for election by our stockholders, selecting nominees to fill vacancies on our board of directors or committees of the board of directors, developing and recommending to the board of directors a set of corporate governance principles and overseeing the self-evaluation of the board of directors and its committees and evaluation of our management. The nominating and corporate governance committee considers nominees properly recommended by our stockholders. The members of the nominating and corporate governance committee are Alfred F. Hurley, Jr., David R. Malpass, David Ogens and Kurt J. Wolfgruber, each of whom is not an interested person of NMFC for purposes of the 1940 Act and is independent for purposes of the NYSE's corporate governance listing standards. Alfred F. Hurley, Jr. serves as the chairman of the nominating and corporate governance committee.

The nominating and corporate governance committees seek candidates who possess the background, skills and expertise to make a significant contribution to the board of directors, us and our stockholders. In considering possible candidates for election as a director, the nominating and corporate governance committee takes into account, in addition to such other factors as they deem relevant, the desirability of selecting directors who:

are of high character and integrity;

are accomplished in their respective fields, with superior credentials and recognition;

have relevant expertise and experience upon which to be able to offer advice and guidance to management;

have sufficient time available to devote to our affairs;

Table of Contents

are able to work with the other members of the board of directors and contribute to our success;

can represent the long-term interests of our stockholders as a whole; and

are selected such that the board of directors represent a range of backgrounds and experience.

The nominating and corporate governance committee has not adopted formal policies with regard to the consideration of diversity in identifying director nominees. In determining whether to recommend a director nominee, the nominating and corporate governance committee considers and discusses diversity, among other factors, with a view toward the need of the board of directors as a whole. The nominating and corporate governance committee generally conceptualizes diversity expansively to include, without limitation, concepts such as race, gender, national origin, differences of viewpoint, professional experience, education, skill and other qualities that contribute to the board of directors, when identifying and recommending director nominees. The nominating and corporate governance committee believes that the inclusion of diversity as one of many factors considered in selecting director nominees is consistent with the nominating and corporate governance committee's goal of creating a board of directors that best serves our needs and the interest of our stockholders.

Valuation Committee

The valuation committee operates pursuant to a charter approved by our board of directors, a copy of which is available on our website at <http://www.newmountainfinance.com>. The charter set forth the responsibilities of the valuation committee. The valuation committee is responsible for making recommendations in accordance with the valuation policies and procedures adopted by our board of directors, reviewing valuations and any reports of independent valuation firms, confirming that valuations are made in accordance with the valuation policies of our board of directors and reporting any deficiencies or violations of such valuation policies to our board of directors on at least a quarterly basis, and reviewing other matters that our board of directors or the valuation committee deems appropriate. The valuation committee is composed of Alfred F. Hurley, Jr., David R. Malpass, David Ogens and Kurt J. Wolfgruber, each of whom is not an interested person of NMFC for purposes of the 1940 Act and is independent for purposes of the NYSE's corporate governance listing standards. David Ogens serves as chairman of the valuation committee.

Compensation Committee

The compensation committee operates pursuant to a charter approved by our board of directors, a copy of which is available on our website at <http://www.newmountainfinance.com>. The charter sets forth the responsibilities of the compensation committee. The compensation committee is responsible for periodically reviewing director compensation and recommending any appropriate changes to the board of directors. In addition, although we do not directly compensate our executive officers currently, to the extent that we do so in the future, the compensation committee would also be responsible for reviewing and evaluating their compensation and making recommendations to the board of directors regarding their compensation. Lastly, the compensation committee would produce a report on our executive compensation practices and policies for inclusion in our proxy statement if required by applicable proxy rules and regulations and, if applicable, make recommendations to the board of directors on our executive compensation practices and policies. The compensation committee has the authority to engage compensation consultants and to delegate its duties and responsibilities to a member or to a subcommittee of the compensation committees. The compensation committee is composed of Alfred F. Hurley, Jr., David R. Malpass, David Ogens and Kurt J. Wolfgruber, each of whom is not an interested person

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

of NMFC for purposes of the 1940 Act and is independent for purposes of the NYSE's corporate governance listing standards. Alfred F. Hurley, Jr. serves as chairman of the compensation committee.

Compensation of Directors

The following table sets forth the compensation of our directors for the year ended December 31, 2014.

Name	Fees Paid in Cash(1)	All Other Compensation(2)	Total

Robert A. Hamwee			
Adam B. Weinstein			
Independent Directors			
David Ogens	\$ 117,025		\$ 117,025
Alfred F. Hurley, Jr.	\$ 103,790		\$ 103,790
Kurt J. Wolfgruber	\$ 109,290		\$ 109,290
David R. Malpass	\$ 99,290		\$ 99,290

(1) For a discussion of the independent directors' compensation, see below.

(2) We do not maintain a stock or option plan, non-equity incentive plan or pension plan for our directors

Our independent directors receive an annual retainer fee of \$85,000 and further receive a fee of \$2,500 for each regularly scheduled board of directors meeting and a fee of \$1,000 for each special board of directors meeting as well as reimbursement of reasonable and documented out-of-pocket expenses incurred in connection with attending each board of directors meeting. In addition, the chairman of the audit committee receives an annual retainer of \$7,500, while the chairman of the valuation committee, the chairman of the compensation committee and the chairman of the nominating and corporate governance committee receive annual retainers of \$5,000, \$1,000 and \$1,000, respectively. No compensation is paid to directors who are interested persons of NMFC as defined in the 1940 Act.

Compensation of Executive Officers

None of our executive officers receive direct compensation from us. We do not engage any compensation consultants. The compensation of the principals and other investment professionals of the Investment Adviser are paid by the Investment Adviser. Compensation paid to our chief financial officer and chief compliance officer is set by the Administrator and is subject to reimbursement by us of the allocable portion of such compensation for services rendered to us.

Indemnification Agreements

We have entered into indemnification agreements with our directors. The indemnification agreements are intended to provide the directors the maximum indemnification permitted under Delaware law and the 1940 Act. Each indemnification agreement provides that we shall indemnify the director who is a party to the agreement, or an Indemnitee, including the advancement of legal expenses, if, by reason of his corporate status, the Indemnitee is, or is threatened to be, made a party to or a witness in any threatened, pending, or completed proceeding, to the maximum extent permitted by Delaware law and the 1940 Act.

Table of Contents

PORTFOLIO MANAGEMENT

The management of our investment portfolio is the responsibility of the Investment Adviser and the Investment Committee, which currently consists of Steven B. Klinsky, Robert A. Hamwee, Adam B. Weinstein, Michael B. Ajouz and John R. Kline. In addition, our executive officers and certain investment professionals of the Investment Adviser are invited to all Investment Committee meetings. We consider Mr. Hamwee to be our portfolio manager. The Investment Committee is responsible for approving all of our investment purchases above \$10.0 million. The Investment Committee also monitors investments in our portfolio and approves all asset dispositions above \$10.0 million. Purchases and dispositions below \$10.0 million may be approved by our Chief Executive Officer. These approval thresholds are subject to change over time.

Investment Personnel

As of March 31, 2015, the Investment Adviser was supported by approximately 100 New Mountain Capital staff members, including approximately 60 investment professionals. These individuals, in addition to the Investment Committee, are primarily responsible for the day-to-day management of our portfolio. The Investment Adviser may retain additional investment professionals, based upon its needs.

Below are the biographies for selected senior investment professionals of the Investment Adviser, whose biographies are not included elsewhere in this prospectus. For more information regarding the business experience of Messrs. Kline, Klinsky, Hamwee and Weinstein, see "Management Biographical Information Directors Interested Directors" and "Management Biographical Information Executive Officers Who Are Not Directors".

Michael B. Ajouz serves on the Investment Adviser's investment committee and serves as a Managing Director of New Mountain Capital. Prior to joining New Mountain Capital in 2000, he was associated with Kohlberg Kravis Roberts & Co. ("KKR") from 1998 to 2000, where he conducted extensive analytical evaluations in over 20 industries. From 1996 to 1998, he was in the Mergers and Acquisitions and Corporate Finance Departments of Goldman Sachs, where he evaluated and executed a number of strategic transactions. From 1995 to 1996, he was an executive at the economic consulting firm, Cornerstone Research. Mr. Ajouz received his B.S., summa cum laude, in Economics with a concentration in finance from The Wharton School, University of Pennsylvania in 1995. Mr. Ajouz serves or has served in the past as a board director of Avantor Performance Materials Holdings S.A., Apptis, Inc., Camber Corporation, Deltek, Inc., Connexions, Inc., Inmar, Inc., Intermarine, Oakleaf Global Holdings, Inc., National Medical Health Card Systems, Inc., Surgis, Western Dental and Medical Specialties Distributors, all of which were or are, portfolio companies of New Mountain Capital.

James W. Stone III has served as a Director of New Mountain Capital since 2011. Prior to joining New Mountain Capital, he worked for The Blackstone Group as a Managing Director of GSO Capital Partners. At Blackstone, Mr. Stone was responsible for originating, evaluating, executing and monitoring various senior secured and mezzanine debt investments across a variety of industries. Before joining Blackstone in 2002, Mr. Stone worked as a Vice President in Lehman Brothers' Communications and Media Group and as a Vice President in UBS Warburg's Leveraged Finance Department. Prior to that, Mr. Stone worked at Nomura Securities International, Inc. with the team that later founded Blackstone's corporate debt investment unit. Mr. Stone received a B.S. in Mathematics and Physics from The University of the South and an M.B.A. with concentrations in finance and accounting from The University of Chicago's Graduate School of Business.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

The table below shows the dollar range of shares of our common stock beneficially owned by our portfolio manager.

Name of Portfolio Manager	Dollar Range of Equity Securities of NMFC(1)(2)
Robert A. Hamwee	over \$1,000,000

(1) The dollar range of equity securities beneficially owned in NMFC is based on the closing price for NMFC's common stock of \$15.14 on May 28, 2015 on the NYSE. Beneficial ownership has been determined in accordance with Rule 16a-1(a)(2) of the Exchange Act.

(2) The dollar range of equity securities beneficially owned are: none, \$1 - \$10,000, \$10,001 - \$50,000, \$50,001 - \$100,000, \$100,001 - \$500,000, \$500,001 - \$1,000,000 or over \$1,000,000.

Mr. Hamwee is not primarily responsible for the day-to-day management of any other portfolio other than our portfolio. Mr. Hamwee is a Managing Director of New Mountain Capital, which as of March 31, 2015 had assets under management totaling more than \$15.0 billion(1), which includes the Company, used to calculate New Mountain Capital's management fees related to such funds. See "Risk Factors Risks Relating to Our Business The Investment Adviser has significant potential conflicts of interest with us and, consequently, your interests as stockholders which could adversely impact our investment returns".

Compensation

None of the Investment Adviser's investment professionals are employed by us or will receive any direct compensation from us in connection with the management of our portfolio. Mr. Klinsky, through his financial interest in the Investment Adviser, is entitled to a portion of any profits earned by the Investment Adviser, which includes any fees payable to the Investment Adviser under the terms of the Investment Management Agreement, less expenses incurred by the Investment Adviser in performing its services under the Investment Management Agreement.

(1) Includes amounts committed, not all of which have been drawn down and invested to-date, as of March 31, 2015, as well as amounts called and returned since inception.

Table of Contents

INVESTMENT MANAGEMENT AGREEMENT

NMFC is a closed-end, non-diversified management investment company that has elected to be regulated as a BDC under the 1940 Act. NMFC is externally managed by the Investment Adviser and pays the Investment Adviser a fee for its services. The following summarizes the arrangements between NMFC and the Investment Adviser pursuant to the Investment Management Agreement.

Overview of the Investment Adviser

Management Services

The Investment Adviser is registered as an Investment Adviser under the Advisers Act. The Investment Adviser serves pursuant to the Investment Management Agreement in accordance with the 1940 Act. Subject to the overall supervision of our board of directors, the Investment Adviser manages our day-to-day operations and provides us with investment advisory and management services. Under the terms of the Investment Management Agreement, the Investment Adviser:

determines the composition of our portfolio, the nature and timing of the changes to its portfolio and the manner of implementing such changes;

determines the securities and other assets that we will purchase, retain or sell;

identifies, evaluates and negotiates the structure of the investments that we make;

executes, monitors and services the investments that we make;

performs due diligence on prospective portfolio companies;

votes, exercises consents and exercises all other rights appertaining to such securities and other assets on our behalf; and

provides us with such other investment advisory, research and related services as we may, from time to time, reasonably require.

The Investment Adviser's services under the Investment Management Agreement are not exclusive, and the Investment Adviser (so long as its services to us are not impaired) and/or other entities affiliated with New Mountain Capital are permitted to furnish similar services to other entities.

Management Fees

Pursuant to the Investment Management Agreement, NMFC has agreed to pay the Investment Adviser a fee for investment advisory and management services consisting of two components – a base management fee and an incentive fee. The cost of both the base management fee payable to the Investment Adviser and any incentive fees paid in cash to the Investment Adviser are borne by NMFC and, as a result, are indirectly borne by NMFC's common stockholders.

Base Management Fees

The base management fee is calculated at an annual rate of 1.75% of our gross assets, which equals our total assets on the Consolidated Statements of Assets and Liabilities, less (i) the borrowings under the SLF Credit Facility and (ii) cash and cash equivalents. The base management fee is payable quarterly in arrears, and is calculated based on the average value of our gross assets, borrowings under the SLF

Edgar Filing: New Mountain Finance Corp - Form 497

Credit Facility, and cash and cash equivalents at the end of each of the two most recently completed calendar quarters, and appropriately adjusted on a pro rata basis for any equity capital raises or repurchases during the current calendar quarter. We have not invested, and currently do not invest, in derivatives. To the extent we invest in derivatives in the

Table of Contents

future, we will use the actual value of the derivatives, as reported on our Consolidated Statements of Assets and Liabilities, for purposes of calculating our base management fee.

Since IPO, the base management fee calculation has deducted the borrowings under the SLF Credit Facility. The SLF Credit Facility has historically consisted of primarily lower yielding assets at higher advance rates. As part of an amendment to the Company's existing credit facilities with Wells Fargo Bank, National Association, the SLF Credit Facility merged with the Predecessor Holdings Credit Facility and into the Holdings Credit Facility on December 18, 2014. Post credit facility merger and to be consistent with the methodology since IPO, the Investment Adviser will waive management fees on the leverage associated with those assets that share the same underlying yield characteristics with investments leveraged under the legacy SLF Credit Facility, which approximated \$318.6 million as of March 31, 2015. The Investment Adviser cannot recoup management fees that the Investment Adviser has previously waived. For the three months ended March 31, 2015, total management fees waived were approximately \$1.4 million.

Incentive Fees

The incentive fee consists of two parts. The first part is calculated and payable quarterly in arrears and equals 20.0% of our "Pre-Incentive Fee Adjusted Net Investment Income" for the immediately preceding quarter, subject to a "preferred return", or "hurdle", and a "catch-up" feature. "Pre-Incentive Fee Net Investment Income" means interest income, dividend income and any other income (including any other fees (other than fees for providing managerial assistance), such as commitment, origination, structuring, diligence and consulting fees or other fees that we receive from portfolio companies) accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, expenses payable under the Administration Agreement, as amended and restated, with the Administrator, and any interest expense and distributions paid on any issued and outstanding preferred stock (of which there is none as of March 31, 2015), but excluding the incentive fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero coupon securities), accrued income that we have not yet received in cash. Pre-Incentive Fee Net Investment Income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation.

Under GAAP, our IPO did not step-up the cost basis of our existing investments to fair market value at the IPO date. Since the total value of our investments at the time of the IPO was greater than the investments' cost basis, a larger amount of amortization of purchase or original issue discount, as well as different amounts in realized gain and unrealized appreciation, may be recognized under GAAP in each period than if the step-up had occurred. This will remain until such predecessor investments are sold or mature in the future. We track the transferred (or fair market) value of each of our investments as of the time of the IPO and, for purposes of the incentive fee calculation, adjust Pre-Incentive Fee Net Investment Income to reflect the amortization of purchase or original issue discount on our investments as if each investment was purchased at the date of the IPO, or stepped up to fair market value. This is defined as "Pre-Incentive Fee Adjusted Net Investment Income". We also use the transferred (or fair market) value of each of our investments as of the time of the IPO to adjust capital gains ("Adjusted Realized Capital Gains") or losses ("Adjusted Realized Capital Losses") and unrealized capital appreciation ("Adjusted Unrealized Capital Appreciation") and unrealized capital depreciation ("Adjusted Unrealized Capital Depreciation").

Pre-Incentive Fee Adjusted Net Investment Income, expressed as a rate of return on the value of our net assets at the end of the immediately preceding calendar quarter, will be compared to a "hurdle rate" of 2.0% per quarter (8.0% annualized), subject to a "catch-up" provision measured as of the end of each calendar quarter. The hurdle rate is appropriately pro-rated for any partial

Table of Contents

periods. The calculation of our incentive fee with respect to the Pre-Incentive Fee Adjusted Net Investment Income for each quarter is as follows:

No incentive fee is payable to the Investment Adviser in any calendar quarter in which our Pre-Incentive Fee Adjusted Net Investment Income does not exceed the hurdle rate of 2.0% (the "preferred return" or "hurdle").

100.0% of our Pre-Incentive Fee Adjusted Net Investment Income with respect to that portion of such Pre-Incentive Fee Adjusted Net Investment Income, if any, that exceeds the hurdle rate but is less than or equal to 2.5% in any calendar quarter (10.0% annualized) is payable to the Investment Adviser. This portion of our Pre-Incentive Fee Adjusted Net Investment Income (which exceeds the hurdle rate but is less than or equal to 2.5%) is referred to as the "catch-up". The catch-up provision is intended to provide the Investment Adviser with an incentive fee of 20.0% on all of our Pre-Incentive Fee Adjusted Net Investment Income as if a hurdle rate did not apply when our Pre-Incentive Fee Adjusted Net Investment Income exceeds 2.5% in any calendar quarter.

20.0% of the amount of our Pre-Incentive Fee Adjusted Net Investment Income, if any, that exceeds 2.5% in any calendar quarter (10.0% annualized) is payable to the Investment Adviser once the hurdle is reached and the catch-up is achieved.

The following is a graphical representation of the calculation of the income related portion of the incentive fee:

**Quarterly Incentive Fee Based on "Pre-Incentive Fee Adjusted Net Investment Income"
Pre-Incentive Fee Adjusted Net Investment Income
(expressed as a percentage of the value of net assets)**

**Percentage of Pre-Incentive Fee Adjusted Net Investment
Income allocated to income related portion of incentive fee**

These calculations will be appropriately prorated for any period of less than three months and adjusted for any equity capital raises or repurchases during the current calendar quarter.

The second part will be determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Management Agreement) and will equal 20.0% of our Adjusted Realized Capital Gains, if any, on a cumulative basis from inception through the end of each calendar year, computed net of all Adjusted Realized Capital Losses and Adjusted Unrealized Capital Depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fee.

In accordance with GAAP, we accrue a hypothetical capital gains incentive fee based upon the cumulative net Adjusted Realized Capital Gains and Adjusted Realized Capital Losses and the cumulative net Adjusted Unrealized Capital Appreciation and Adjusted Unrealized Capital Depreciation on investments held at the end of each period. Actual amounts paid to the Investment Adviser are consistent with the Investment Management Agreement and are based only on actual

Table of Contents

Adjusted Realized Capital Gains computed net of all Adjusted Realized Capital Losses and Adjusted Unrealized Capital Depreciation on a cumulative basis from inception through the end of each calendar year as if the entire portfolio was sold at fair value.

Example 1: Income Related Portion of Incentive Fee for Each Calendar Quarter*:

Alternative 1

Assumptions

Investment income (including interest, dividends, fees, etc.) = 1.25%
 Hurdle rate(1) = 2.00%
 Management fee(2) = 0.44%
 Other expenses (legal, accounting, safekeeping agent, transfer agent, etc.)(3) = 0.20%

Pre-Incentive Fee Adjusted Net Investment Income
 (investment income (management fee + other expenses)) = 0.61%

Pre-Incentive Fee Adjusted Net Investment Income does not exceed the hurdle rate, therefore there is no income related incentive fee.

Alternative 2

Assumptions

Investment income (including interest, dividends, fees, etc.) = 2.90%
 Hurdle rate(1) = 2.00%
 Management fee(2) = 0.44%
 Other expenses (legal, accounting, safekeeping agent, transfer agent, etc.)(3) = 0.20%

Pre-Incentive Fee Adjusted Net Investment Income
 (investment income (management fee + other expenses)) = 2.26%

Incentive fee = 100.00% × Pre-Incentive Fee Adjusted Net Investment Income (subject to "catch-up")(4)

$$= 100.00\% \times (2.26\% - 2.00\%)$$

$$= 0.26\%$$

Pre-Incentive Fee Adjusted Net Investment Income exceeds the hurdle rate, but does not fully satisfy the "catch-up" provision, therefore the income related portion of the incentive fee is 0.26%.

Alternative 3

Assumptions

Investment income (including interest, dividends, fees, etc.) = 3.50%
 Hurdle rate(1) = 2.00%
 Management fee(2) = 0.44%
 Other expenses (legal, accounting, safekeeping agent, transfer agent, etc.)(3) = 0.20%

Pre-Incentive Fee Adjusted Net Investment Income
 (investment income (management fee + other expenses)) = 2.86%

Incentive fee = 100.00% × Pre-Incentive Fee Adjusted Net Investment Income (subject to "catch-up")(4)

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

Incentive fee = $100.00\% \times \text{"catch-up"} + (20.00\% \times (\text{Pre-Incentive Fee Adjusted Net Investment Income} - 2.50\%))$

Catch-up = $2.50\% - 2.00\%$
= 0.50%

Incentive fee = $(100.00\% \times 0.50\%) + (20.00\% \times (2.86\% - 2.50\%))$

= $0.50\% + (20.00\% \times 0.36\%)$

= $0.50\% + 0.07\%$

= 0.57%

Pre-Incentive Fee Adjusted Net Investment Income exceeds the hurdle rate, and fully satisfies the "catch-up" provision, therefore the income related portion of the incentive fee is 0.57%.

*

The hypothetical amount of pre-incentive fee net investment income shown is based on a percentage of total net assets and assumes, for our investments held prior to the IPO, interest income has been adjusted to reflect the amortization of purchase or original issue discount as if each investment was purchased at the date of the IPO, or stepped up to fair market value.

- (1) Represents 8.00% annualized hurdle rate.
- (2) Assumes 1.75% annualized base management fee.
- (3) Excludes organizational and offering expenses.
- (4) The "catch-up" provision is intended to provide the Investment Adviser with an incentive fee of 20.00% on all Pre-Incentive Fee Adjusted Net Investment Income as if a hurdle rate did not apply when our net investment income exceeds 2.50% in any calendar quarter.

Example 2: Capital Gains Portion of Incentive Fee*:

Alternative 1

Assumptions

Year 1: \$20.0 million investment made in Company A ("Investment A"), and \$30.0 million investment made in Company B ("Investment B")

Year 2: Investment A sold for \$50.0 million and fair market value ("FMV") of Investment B determined to be \$32.0 million

Year 3: FMV of Investment B determined to be \$25.0 million

Year 4: Investment B sold for \$31.0 million

The capital gains portion of the incentive fee would be:

Year 1: None

Year 2: Capital gains incentive fee of \$6.0 million (\$30.0 million realized capital gains on sale of Investment A multiplied by 20.0%)

Edgar Filing: New Mountain Finance Corp - Form 497

Year 3: None \$5.0 million (20.0% multiplied by (\$30.0 million cumulative capital gains less \$5.0 million cumulative capital depreciation)) less \$6.0 million (previous capital gains fee paid in Year 2)

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

Year 4: Capital gains incentive fee of \$0.2 million \$6.2 million (\$31.0 million cumulative realized capital gains multiplied by 20.0%) less \$6.0 million (capital gains incentive fee taken in Year 2)

Alternative 2

Assumptions

Year 1: \$20.0 million investment made in Company A ("Investment A"), \$30.0 million investment made in Company B ("Investment B") and \$25.0 million investment made in Company C ("Investment C")

Year 2: Investment A sold for \$50.0 million, FMV of Investment B determined to be \$25.0 million and FMV of Investment C determined to be \$25.0 million

Year 3: FMV of Investment B determined to be \$27.0 million and Investment C sold for \$30.0 million

Year 4: FMV of Investment B determined to be \$35.0 million

Year 5: Investment B sold for \$20.0 million

The capital gains incentive fee, if any, would be:

Year 1: None

Year 2: \$5.0 million capital gains incentive fee 20.0% multiplied by \$25.0 million (\$30.0 million realized capital gains on Investment A less \$5.0 million unrealized capital depreciation on Investment B)

Year 3: \$1.4 million capital gains incentive fee \$6.4 million (20.0% multiplied by \$32.0 million (\$35.0 million cumulative realized capital gains less \$3.0 million unrealized capital depreciation)) less \$5.0 million capital gains incentive fee received in Year 2

Year 4: \$0.6 million capital gains incentive fee \$7.0 million (20.0% multiplied by \$35.0 million cumulative realized capital gains) less cumulative \$6.4 million capital gains incentive fee received in Year 2 and Year 3

Year 5: None \$5.0 million (20.0% multiplied by \$25.0 million (cumulative realized capital gains of \$35.0 million less realized capital losses of \$10.0 million)) less \$7.0 million cumulative capital gains incentive fee paid in Year 2, Year 3 and Year 4(1)

*

The hypothetical amounts of returns shown are based on a percentage of our total net assets and assume no leverage. There is no guarantee that positive returns will be realized and actual returns may vary from those shown in this example. The capital gains incentive fees are calculated on an "adjusted" basis for our investments held prior to the IPO and assumes those investments have been adjusted to reflect the amortization of purchase or original issue discount as if each investment was purchased at the date of the IPO, or stepped up to fair market value.

(1)

As noted above, it is possible that the cumulative aggregate capital gains fee received by the Investment Adviser (\$7.0 million) is effectively greater than \$5.0 million (20.0% of cumulative aggregate realized capital gains less net realized capital losses or net unrealized depreciation (\$25.0 million)).

Table of Contents

Payment of Expenses

Our primary operating expenses are the payment of a base management fee and any incentive fees under the Investment Management Agreement and the allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations to us under the Administration Agreement. We bear all other expenses of our operations and transactions, including (without limitation) fees and expenses relating to:

organizational and offering expenses;

the investigation and monitoring of our investments;

the cost of calculating net asset value;

interest payable on debt, if any, to finance our investments;

the cost of effecting sales and repurchases of shares of our common stock and other securities;

management and incentive fees payable pursuant to the Investment Management Agreement;

fees payable to third parties relating to, or associated with, making investments and valuing investments (including third-party valuation firms);

transfer agent and custodial fees;

fees and expenses associated with marketing efforts (including attendance at investment conferences and similar events);

federal and state registration fees;

any exchange listing fees;

federal, state, local and foreign taxes;

independent directors' fees and expenses;

brokerage commissions;

costs of proxy statements, stockholders' reports and notices;

Edgar Filing: New Mountain Finance Corp - Form 497

costs of preparing government filings, including periodic and current reports with the SEC;

fees and expenses associated with independent audits and outside legal costs;

costs associated with reporting and compliance obligations under the 1940 Act and applicable federal and state securities laws;

fidelity bond, liability insurance and other insurance premiums; and

printing, mailing and all other direct expenses incurred by either the Investment Adviser or us in connection with administering our business, including payments under the Administration Agreement that is based upon our allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations to us under the Administration Agreement, including the allocable portion of the compensation of our chief financial officer and chief compliance officer and their respective staffs.

Duration and Termination

The Investment Management Agreement was initially approved by the board of directors of NMF Holdings, including a majority of the directors who are not interested persons, on March 10, 2011 and

Table of Contents

by a majority of the partners of Guardian AIV and New Mountain Guardian Partners, L.P. through a written consent first solicited on November 8, 2010. At an in-person meeting held on February 23, 2012, the NMF Holdings' board of directors unanimously approved an amended and restated investment advisory and management agreement between NMF Holdings and the Investment Adviser (the "2012 Advisory Agreement"). In accordance with the 1940 Act, the 2012 Advisory Agreement was submitted for approval by the stockholders/unit holders of each of NMFC and NMF Holdings at their 2012 joint annual meeting, which was held on May 8, 2012. The 2012 Advisory Agreement became effective immediately upon receipt of the necessary stockholder/unit holder approval.

In connection with the Restructuring, at an in-person meeting held on March 25, 2014, the board of directors of NMFC unanimously approved a new investment advisory and management agreement between NMFC and the Investment Adviser (the "New Advisory Agreement") and recommended that the 2012 Advisory Agreement be terminated after the New Advisory Agreement is approved by NMFC's stockholders in accordance with the 1940 Act. At NMFC's 2014 annual meeting of stockholders, which was held on May 6, 2014, the New Advisory Agreement was submitted for approval by the stockholders of NMFC. The New Advisory Agreement became effective immediately upon receipt of the necessary stockholder approval. The terms and conditions of the New Advisory Agreement are identical to the terms and conditions of the 2012 Advisory Agreement, except that NMFC replaced NMF Holdings as a party to the New Advisory Agreement.

The New Advisory Agreement provides that the New Advisory Agreement will remain in force for two years from the date on which it first becomes effective, and thereafter shall continue automatically for successive annual periods, provided that such continuance is specifically approved at least annually by (A) the vote of the board of directors, or by the vote of a majority of the outstanding voting securities of NMFC and (B) the vote of a majority of NMFC's board of directors who are not parties to the New Advisory Agreement or "interested persons" (as such term is defined in Section 2(a)(19) of the 1940 Act) of any such party, in accordance with the requirements of the 1940 Act. Notwithstanding the foregoing, the New Advisory Agreement may be terminated (i) by NMFC at any time, without the payment of any penalty, upon giving the Investment Adviser 60 days' written notice (which notice may be waived by the Investment Adviser), provided that such termination by NMFC shall be directed or approved by the vote of a majority of the directors of NMFC in office at the time or by the vote of a majority of the voting securities of NMFC at the time outstanding and entitled to vote, or (ii) by the Investment Adviser on 60 days' written notice to NMFC (which notice may be waived by NMFC).

Indemnification

The Investment Management Agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of their respective duties or by reason of the reckless disregard of their respective duties and obligations, the Investment Adviser and its officers, managers, agents, employees, controlling persons, members (or their owners) and any other person or entity affiliated with it, are entitled to indemnification from us for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of the Investment Adviser's services under the Investment Management Agreement or otherwise as the Investment Adviser.

Organization of the Investment Adviser

The Investment Adviser is a Delaware limited liability company. The principal address of the Investment Adviser is 787 Seventh Avenue, 48th Floor, New York, New York 10019. The Investment Adviser is ultimately controlled by Steven B. Klinsky through Mr. Klinsky's interest in New Mountain Capital.

Board Approval of the Investment Management Agreement

A discussion regarding the basis for our board of directors' approval of the Investment Management Agreement was included in our annual proxy statement that was incorporated by reference in our annual report on Form 10-K for the period ending December 31, 2014.

Table of Contents

ADMINISTRATION AGREEMENT

We have entered into the Administration Agreement with the Administrator, under which the Administrator provides administrative services for us, including arranging office facilities for us and providing office equipment and clerical, bookkeeping and recordkeeping services at such facilities. Under the Administration Agreement, the Administrator also performs, or oversees the performance of, our required administrative services, which includes being responsible for the financial records which we are required to maintain and preparing reports to our stockholders and reports filed with the SEC, which includes, but is not limited to, providing the services of our chief financial officer. In addition, the Administrator assists us in determining and publishing our net asset value, overseeing the preparation and filing of tax returns and the printing and dissemination of reports to our stockholders, and generally overseeing the payment of our expenses and the performance of administrative and professional services rendered to us by others. For providing these services, facilities and personnel, we reimburse the Administrator the allocable portion of overhead and other expenses incurred by it in performing its obligations to us under the Administration Agreement, including our allocable portion of the costs of compensation and related expenses of our chief financial officer and chief compliance officer, and their respective staffs. The Administrator may also provide on our behalf managerial assistance to our portfolio companies. The Administration Agreement may be terminated by us or the Administrator without penalty upon 60 days' written notice to the other party. Pursuant to the Administration Agreement, and further restricted by us, expenses payable to the Administrator by us as well as other direct and indirect expenses (excluding interest, other credit facility expenses, trading expenses and management and incentive fees) had been capped at \$4.25 million for the time period from April 1, 2013 to March 31, 2014. The expense cap expired on March 31, 2014. Thereafter, the Administrator may, in its own discretion, submit to us for reimbursement some or all of the expenses that the Administrator has incurred on our behalf during any quarterly period. As a result, the amount of expenses for which we will have to reimburse the Administrator may fluctuate in future quarterly periods and there can be no assurance given as to when, or if, the Administrator may determine to limit the expenses that the Administrator submits to us for reimbursement in the future. However, it is expected that the Administrator will continue to support part of our expense burden in the near future and may decide to not calculate and charge through certain overhead related amounts as well as continue to cover some of the indirect costs. The Administrator cannot recoup any expenses that the Administrator has previously waived.

The Administration Agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of their respective duties or by reason of the reckless disregard of their respective duties and obligations, the Administrator and its officers, managers, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from us for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of services under the Administration Agreement or otherwise as administrator for us.

LICENSE AGREEMENT

We, the Investment Adviser and the Administrator have entered into a royalty-free Trademark License Agreement, as amended, with New Mountain Capital, pursuant to which New Mountain Capital has agreed to grant us, the Investment Adviser and the Administrator a non-exclusive, royalty-free license to use the name "New Mountain" and "New Mountain Finance". Under this Trademark License Agreement, as amended, subject to certain conditions, we, the Investment Adviser and the Administrator have a right to use the "New Mountain" and the "New Mountain Finance" names for so long as the Investment Adviser or one of its affiliates remains our investment adviser. Other than with respect to this limited license, we, the Investment Adviser and the Administrator have no legal right to the "New Mountain" and the "New Mountain Finance" names.

Table of Contents

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

We have entered into an Investment Management Agreement with the Investment Adviser. Pursuant to the Investment Management Agreement, payments will be equal to (a) a base management fee of 1.75% of the value of our gross assets and (b) an incentive fee based on our performance. Steven B. Klinsky, through his financial interest in the Investment Adviser, is entitled to a portion of any profits earned by the Investment Adviser, which includes any fees payable to the Investment Adviser under the terms of the Investment Management Agreement, less expenses incurred by the Investment Adviser in performing its services under the Investment Management Agreement. In addition, our executive officers and directors, as well as the current or future members of the Investment Adviser, serve or may serve as officers, directors or principals of entities that operate in the same or a related line of business as we do or of investment funds managed by our affiliates. Accordingly, they may have obligations to investors in those entities, the fulfillment of which might not be in our and our stockholders' best interests.

Although we are currently New Mountain Capital's only vehicle focused primarily on investing in first and second lien debt, unsecured notes and mezzanine securities, in the future, the principals of the Investment Adviser and/or New Mountain Capital employees that provide services pursuant to the Investment Management Agreement may manage other funds which may from time to time have overlapping investment objectives with us and, accordingly, may invest in, whether principally or secondarily, asset classes similar to those targeted by us. If this occurs, the Investment Adviser may face conflicts of interest in allocating investment opportunities to us and such other funds. Although the investment professionals will endeavor to allocate investment opportunities in a fair and equitable manner, it is possible that we may not be given the opportunity to participate in certain investments made by investment funds managed by the Investment Adviser or persons affiliated with the Investment Adviser or that certain of these investment funds may be favored over us. When these investment professionals identify an investment, they will be forced to choose which investment fund should make the investment. Alternatively, depending on the availability of such investments and other appropriate factors, the Investment Adviser or its affiliates may determine that we should invest side-by-side with one or more other funds. Any such investments will be made only to the extent permitted by applicable law and interpretive positions of the SEC and its staff, and consistent with the Investment Adviser's allocation procedures.

We have entered into the Administration Agreement with the Administrator. The Administrator arranges office space for us and provides office equipment and administrative services necessary to conduct our day-to-day operations pursuant to the Administration Agreement. We reimburse the Administrator for the allocable portion of overhead and other expenses incurred by it in performing its obligations to us under the Administration Agreement, which includes the fees and expenses associated with performing administrative, finance, and compliance functions, and the compensation of our chief financial officer and chief compliance officer and their respective staffs. Pursuant to the Administration Agreement, as amended and restated, and further restricted by us, expenses payable to the Administrator by us as well as other direct and indirect expenses (excluding interest, other credit facility expenses, trading expenses and management and incentive fees) had been capped at \$4.25 million for the time period from April 1, 2013 to March 31, 2014. The expense cap expired on March 31, 2014. Thereafter, the Administrator may, in its own discretion, submit to us for reimbursement some or all of the expenses that the Administrator has incurred on our behalf during any quarterly period. As a result, the amount of expenses for which we will have to reimburse the Administrator may fluctuate in future quarterly periods and there can be no assurance given as to when, or if, the Administrator may determine to limit the expenses that the Administrator submits to us for reimbursement in the future. However, it is expected that the Administrator will continue to support part of our expense burden in the near future and may decide to not calculate and charge through certain overhead related amounts as well as continue to cover

Table of Contents

some of the indirect costs. The Administrator cannot recoup any expenses that the Administrator has previously waived.

We, the Investment Adviser and the Administrator have entered into a royalty-free Trademark License Agreement, as amended, with New Mountain Capital, pursuant to which New Mountain Capital has agreed to grant us, the Investment Adviser and the Administrator a non-exclusive, royalty-free license to use the name "New Mountain" and "New Mountain Finance". Under this Trademark License Agreement, as amended, subject to certain conditions, we, the Investment Adviser and the Administrator have a right to use the "New Mountain" and the "New Mountain Finance" names for so long as the Investment Adviser or one of its affiliates remains our investment adviser. Other than with respect to this limited license, we, the Investment Adviser and the Administrator have no legal right to the "New Mountain" and the "New Mountain Finance" names.

Concurrently with the closing of NMFC's initial public offering, NMFC sold 2,172,000 shares of its common stock to certain executives and employees of, and other individuals affiliated with, New Mountain Capital in a separate private placement at the initial public offering price per share.

NMFC is a party to a Registration Rights Agreement with Steven B. Klinsky (the Chairman of our board of directors), an entity related to Steven B. Klinsky and the Investment Adviser. Subject to several exceptions, the Investment Adviser has the right to require NMFC to register for public resale under the Securities Act of 1933, as amended, all registerable securities that are held by the Investment Adviser and that it requests to be registered. Registerable securities subject to the Registration Rights Agreement are shares of NMFC's common stock issued to the Investment Adviser and any of its transferees. The rights under the Registration Rights Agreement can be conditionally exercised by the Investment Adviser, meaning that prior to the effectiveness of the registration statement related to the shares, the Investment Adviser can withdraw its request to have the shares registered. The Investment Adviser may assign its rights to any person that acquires registerable securities subject to the Registration Rights Agreement and who agrees to be bound by the terms of the Registration Rights Agreement. Steven B. Klinsky (and a related entity) will have the right to "piggyback", or include his own registrable securities in such a registration.

Holders of registerable securities have "piggyback" registration rights, which means that these holders may include their respective shares in any future registrations of NMFC's equity securities, whether or not that registration relates to a primary offering by NMFC or a secondary offering by or on behalf of any of NMFC's stockholders. The Investment Adviser and Steven B. Klinsky (and a related entity) have priority over NMFC in any registration that is an underwritten offering.

The Investment Adviser and Steven B. Klinsky (and a related entity) will be responsible for the expenses of any demand registration (including underwriters' discounts or commissions) and their pro-rata share of any "piggyback" registration. NMFC has agreed to indemnify the Investment Adviser and Steven B. Klinsky (and a related entity) with respect to liabilities resulting from untrue statements or omissions in any registration statement filed pursuant to the Registration Rights Agreement, other than untrue statements or omissions resulting from information furnished to NMFC by such parties. The Investment Adviser and Steven B. Klinsky (and a related entity) have also agreed to indemnify NMFC with respect to liabilities resulting from untrue statements or omissions furnished by them to NMFC relating to them in any registration statement.

In the ordinary course of business, we may enter into transactions with portfolio companies that may be considered related party transactions. In order to ensure that we do not engage in any prohibited transactions with any persons affiliated with us, we have implemented certain policies and procedures whereby our executive officers screen each of our transactions for any possible affiliations between the proposed portfolio investment, us, companies controlled by us and our employees and directors. We will not enter into any agreements unless and until we are satisfied that doing so will not raise concerns under the 1940 Act or, if such concerns exist, we have taken

Table of Contents

appropriate actions to seek board review and approval or exemptive relief for such transaction. Our board of directors reviews these procedures on a quarterly basis.

We have adopted a Code of Ethics which applies to, among others, our senior officers, including our chief executive officer and chief financial officer, as well as all of our officers, directors and employees. Our Code of Ethics requires that all employees and directors avoid any conflict, or the appearance of a conflict, between an individual's personal interests and our interests. Pursuant to such Code of Ethics, each employee and director must disclose any conflicts of interest, or actions or relationships that might give rise to a conflict, to our chief compliance officer.

Table of Contents**CONTROL PERSONS AND PRINCIPAL STOCKHOLDERS**

The following table sets forth information with respect to the beneficial ownership of our common stock by:

each person known to us to beneficially own 5.0% or more of the outstanding shares of our common stock;

each of our directors and each executive officer individually; and

all of our directors and executive officers as a group.

Beneficial ownership has been determined in accordance with Rule 13d-3 under the Exchange Act and includes voting or investment power (including the power to dispose) with respect to the securities. Assumes no other purchases or sales of securities since the most recently available SEC filings. This assumption has been made under the rules and regulations of the SEC and does not reflect any knowledge that NMFC has with respect to the present intent of the beneficial owners of the securities listed in the table below.

Percentage of beneficial ownership below takes into account 58,075,605 shares of our common stock outstanding as of May 28, 2015. Unless otherwise indicated, the address for each listed holder is c/o New Mountain Finance Corporation, 787 Seventh Avenue, 48th Floor, New York, New York 10019.

Name	Type of Ownership in NMFC	NMFC Shares	
		Number	Percentage
Beneficial Owners of More than 5.0%:			
Wells Fargo & Company(1)	Direct	3,654,110	6.29%
Executive Officers:			
Paula A. Bosco	Direct	14,077	*
David M. Cordova	Direct	3,442	*
John R. Kline	Direct	19,291	*
Interested Directors:			
Steven B. Klinsky(2)	Direct and Beneficial	3,345,089	5.76%
Robert A. Hamwee	Direct and Beneficial	173,965	*
Adam B. Weinstein	Direct	37,669	*
Independent Directors:			
Albert F. Hurley, Jr.	Direct	24,377	*
David R. Malpass	Direct and Beneficial	97,911	*
David Ogens	Direct	33,334	*
Kurt J. Wolfgruber	Direct and Beneficial	51,852	*
All executive officers and directors as a group (10 persons)	Direct and Beneficial	3,801,007	6.54%

* Represents less than 1.0%.

(1) Such securities are held by certain investment vehicles controlled and/or managed by Wells Fargo & Company or its affiliates. The address for Wells Fargo & Company is 420 Montgomery Street, San Francisco, California 94104.

(2) Mr. Klinsky directly owns 2,515,189 shares of our common stock. The Steven B. Klinsky Trust directly owns 123,970 shares of our common stock. The Steven B. Klinsky Non-GST Exempt Trust holds 705,930 shares of our common stock.

Table of Contents

The following table sets forth the dollar range of our equity securities over which holders of our common stock have voting power that is beneficially owned by each of our directors.

	Dollar Range of Equity Securities Beneficially Owned(1)(2)(3)
Interested Directors:	
Steven B. Klinsky	Over \$100,000
Robert A. Hamwee	Over \$100,000
Adam B. Weinstein	Over \$100,000
Independent Directors:	
Albert F. Hurley, Jr.	Over \$100,000
David R. Malpass	Over \$100,000
David Ogens(4)	Over \$100,000
Kurt J. Wolfgruber	Over \$100,000

(1) Beneficial ownership has been determined in accordance with Exchange Act Rule 16a-1(a)(2).

(2) The dollar range of our equity securities beneficially owned is based on the closing price for our common stock of \$15.14 per share on May 28, 2015 on the NYSE.

(3) The dollar range of equity securities beneficially owned are: None, \$1 - \$10,000, \$10,001 - \$50,000, \$50,001 - \$100,000 or over \$100,000.

(4) Mr. Ogens is the beneficial owner of a limited partnership interest in New Mountain Partners, L.P. and New Mountain Partners II, L.P. that is held by Ogens Family, Inc.

Table of Contents

SELLING STOCKHOLDERS

This prospectus also relates to 2,172,000 shares of our common stock being offered for resale on behalf of the stockholders identified below. The stockholders acquired the shares from us in connection with our formation transactions prior to the IPO and the Concurrent Private Placement. We are registering the shares to permit the stockholders and their pledgees, donees, transferees and other successors-in-interest that receive their shares from a stockholder as a gift, partnership distribution or other non-sale related transfer after the date of this prospectus to resell the shares when and as they deem appropriate. We do not know how long the stockholders will hold the shares before selling them, if at all, or how many shares they will sell, if any, and we currently have no agreements, arrangements or understandings with any of the stockholders regarding the sale of any of the resale shares.

The following table sets forth:

the name of the stockholders;

the number and percent of shares of our common stock that the stockholders beneficially owned prior to the offering for resale of the shares under this prospectus;

the number of shares of our common stock that may be offered for resale for the account of the stockholders under this prospectus; and

the number and percent of shares of our common stock to be beneficially owned by the stockholders after the offering of the resale shares (assuming all of the offered resale shares are sold by the stockholders).

The number of shares in the column "Number of Shares Being Offered" represents all of the shares that each stockholder may offer under this prospectus. The shares offered by this prospectus may be offered from time to time by the stockholders listed below.

This table is prepared solely based on information supplied to us by the listed stockholders and any public documents filed with the SEC, and assumes the sale of all of the resale shares. The applicable percentages of beneficial ownership are based on an aggregate of 58,075,605 shares of our common stock issued and outstanding on May 28, 2015, adjusted as may be required by rules promulgated by the SEC.

Beneficial ownership has been determined in accordance with Rule 13d-3 under the Exchange Act and includes voting or investment power (including the power to dispose) with respect to the securities. Assumes no other purchases or sales of securities since the most recently available SEC filings. This assumption has been made under the rules and regulations of the SEC and does not

Edgar Filing: New Mountain Finance Corp - Form 497

DETERMINATION OF NET ASSET VALUE

Quarterly Net Asset Value Determinations

We conduct the valuation of assets, pursuant to which our net asset value is determined, at all times consistent with GAAP and the 1940 Act. We determine our net asset value on a quarterly basis, or more frequently if required under the 1940 Act.

We apply fair value accounting in accordance with GAAP. We value our assets on a quarterly basis, or more frequently if required under the 1940 Act. In all cases, our board of directors is ultimately and solely responsible for determining the fair value of our portfolio investments on a quarterly basis in good faith, including investments that are not publicly traded, those whose market prices are not readily available, and any other situation where our portfolio investments require a fair value determination. Security transactions are accounted for on a trade date basis. Our quarterly valuation procedures are set forth in more detail below:

- (1) Investments for which market quotations are readily available on an exchange are valued at such market quotations based on the closing price indicated from independent pricing services.
- (2) Investments for which indicative prices are obtained from various pricing services and/or brokers or dealers are valued through a multi-step valuation process, as described below, to determine whether the quote(s) obtained is representative of fair value in accordance with GAAP.
 - a. Bond quotes are obtained through independent pricing services. Internal reviews are performed by the investment professionals of the Investment Adviser to ensure that the quote obtained is representative of fair value in accordance with GAAP and if so, the quote is used. If the Investment Adviser is unable to sufficiently validate the quote(s) internally and if the investment's par value or its fair value exceeds the materiality threshold, the investment is valued similarly to those assets with no readily available quotes (see (3) below);
 - b. For investments other than bonds, the investment professionals of the Investment Adviser look at the number of quotes readily available and perform the following:
 - i. Investments for which two or more quotes are received from a pricing service are valued using the mean of the mean of the bid and ask of the quotes obtained;
 - ii. Investments for which one quote is received from a pricing service are validated internally. The investment professionals of the Investment Adviser analyze the market quotes obtained using an array of valuation methods (further described below) to validate the fair value. If the Investment Adviser is unable to sufficiently validate the quote internally and if the investment's par value or its fair value exceeds the materiality threshold, the investment is valued similarly to those assets with no readily available quotes (see (3) below).
- (3) Investments for which quotations are not readily available through exchanges, pricing services, brokers, or dealers are valued through a multi-step valuation process:
 - a. Each portfolio company or investment is initially valued by the investment professionals of the Investment Adviser responsible for the credit monitoring;
 - b. Preliminary valuation conclusions will then be documented and discussed with our senior management;

Table of Contents

- c. If an investment falls into (3) above for four consecutive quarters and if the investment's par value or its fair value exceeds the materiality threshold, then at least once each fiscal year, the valuation for each portfolio investment for which the investment professionals of the Investment Adviser do not have a readily available market quotation will be reviewed by an independent valuation firm engaged by our board of directors; and
- d. When deemed appropriate by our management, an independent valuation firm may be engaged to review and value investment(s) of a portfolio company, without any preliminary valuation being performed by the Investment Adviser. The investment professionals of the Investment Adviser will review and validate the value provided.

For investments in revolving credit facilities and delayed draw commitments, the cost basis of the funded investments purchased is offset by any costs/netbacks received for any unfunded portion on the total balance committed. The fair value is also adjusted for the price appreciation or depreciation on the unfunded portion. As a result, the purchase of commitments not completely funded may result in a negative fair value until it is called and funded.

The values assigned to investments are based upon available information and do not necessarily represent amounts which might ultimately be realized, since such amounts depend on future circumstances and cannot be reasonably determined until the individual positions are liquidated. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of certain investments may fluctuate from period to period and the fluctuations could be material.

Determinations in Connection with Offerings

In connection with future offering of shares of our common stock, our board of directors or an authorized committee thereof will be required to make a good faith determination that it is not selling shares of our common stock at a price below the then current net asset value of our common stock at the time at which the sale is made. Our board of directors or an authorized committee thereof will consider the following factors, among others, in making such determination:

the net asset value per share of our common stock disclosed in the most recent periodic report that we filed with the SEC;

Our management's assessment of whether any material change in the net asset value per share of its common stock has occurred (including through the realization of gains on the sale of our portfolio securities) during the period beginning on the date of the most recently disclosed net asset value per share of our common stock and ending as of a time within 48 hours (excluding Sundays and holidays) of the sale of our common stock; and

the magnitude of the difference between (i) a value that our Board of Directors or an authorized committee thereof has determined reflects the current (as of a time within 48 hours, excluding Sundays and holidays) net asset value of our common stock, which is based upon the net asset value of our common stock disclosed in the most recent periodic report that we filed with the SEC, as adjusted to reflect our management's assessment of any material change in the net asset value of our common stock since the date of the most recently disclosed net asset value of our common stock, and (ii) the offering price of the shares of our common stock in the proposed offering.

Moreover, to the extent that there is even a remote possibility that we may (i) issue shares of our common stock at a price per share below the then current net asset value per share of our common stock at the time at which the sale is made or (ii) trigger the undertaking (which we provide in certain registration statements we file with the SEC) to suspend the offering of shares of

Table of Contents

our common stock if the net asset value per share of our common stock fluctuates by certain amounts in certain circumstances until the prospectus is amended, our board of directors will elect, in the case of clause (i) above, either to postpone the offering until such time that there is no longer the possibility of the occurrence of such event or to undertake to determine the net asset value per share of our common stock within two days prior to any such sale to ensure that such sale will not be below our then current net asset value per share, and, in the case of clause (ii) above, to comply with such undertaking or to undertake to determine the net asset value per share of our common stock to ensure that such undertaking has not been triggered.

These processes and procedures are part of our compliance policies and procedures. Records will be made contemporaneously with all determinations described in this section and these records will be maintained with other records that we are required to maintain under the 1940 Act.

Table of Contents

DIVIDEND REINVESTMENT PLAN

We have adopted a dividend reinvestment plan that provides for reinvestment of our distributions on behalf of our stockholders, unless a stockholder elects to receive cash as provided below. As a result, if our board of directors authorizes, and we declare, a cash distribution, then our stockholders who have not "opted out" of the dividend reinvestment plan will have their cash distributions automatically reinvested in additional shares of our common stock, rather than receiving the cash distributions.

No action will be required on the part of a registered stockholder to have their cash distributions reinvested in shares of our common stock. A registered stockholder may elect to receive an entire distribution in cash by notifying American Stock Transfer and Trust Company, LLC the plan administrator and our transfer agent and registrar, in writing, by phone or through the internet so that such notice is received by the plan administrator no later than three days prior to the payment date for distributions to stockholders. The plan administrator will set up an account for shares acquired through the plan for each stockholder who has not elected to receive distributions in cash and hold such shares in non-certificated form. Upon request by a stockholder participating in the plan, received in writing, by phone or through the internet at any time, the plan administrator will, instead of crediting shares to the participant's account, issue a certificate registered in the participant's name for the number of whole shares of our common stock and a check for any fractional share less a transaction fee of the lesser of (i) \$15.00 and (ii) the price of the fractional share.

Cash distributions reinvested in additional shares of our common stock will be automatically reinvested by us in shares of our common stock. We will use only newly issued shares to implement the plan if the price at which newly issued shares are to be credited is equal to or greater than 110.0% of the last determined net asset value of the shares. Under such circumstances, the number of shares to be issued to a stockholder is determined by dividing the total dollar amount of the distribution payable to such stockholder by the market price per share of our common stock at the close of regular trading on the NYSE on the distribution payment date. Market price per share on that date will be the closing price for such shares on the NYSE or, if no sale is reported for such day, the average of their electronically reported bid and asked prices. We reserve the right to purchase its shares in the open market in connection with its implementation of the plan if the price at which its newly issued shares are to be credited does not exceed 110.0% of the last determined net asset value of the shares. Shares purchased in open market transactions by the plan administrator will be allocated to a stockholder based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market. The number of shares of our common stock to be outstanding after giving effect to payment of the distribution cannot be established until the value per share at which additional shares will be issued has been determined and elections of our stockholders have been tabulated.

There will be no brokerage charges or other charges for dividend reinvestment to stockholders who participate in the plan. We will pay the plan administrator's fees under the plan. If a participant elects by written, telephone, or internet notice to the plan administrator to have the plan administrator sell part or all of the shares held by the plan administrator in the participant's account and remit the proceeds to the participant, the plan administrator is authorized to deduct a \$15.00 transaction fee plus a \$0.10 per share brokerage commissions from the proceeds.

Stockholders who receive distributions in the form of stock generally are subject to the same U.S. federal income tax consequences as are stockholders who elect to receive their distributions in cash. A stockholder's basis for determining gain or loss upon the sale of stock received in a distribution from us will be equal to the total dollar amount of the distribution payable to the stockholder. Any stock received in a distribution will have a holding period for tax purposes

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

commencing on the day following the day on which the shares are credited to the U.S. stockholder's account.

Participants may terminate their accounts under the plan by notifying the plan administrator via its website at *www.amstock.com*, by filling out the transaction request form located at the bottom of their statement and sending it to the plan administrator at American Stock Transfer and Trust Company, LLC, P.O. Box 922, Wall Street Station, New York, New York 10269, Attention: Plan Administration Department, or by calling the plan administrator at (888) 333-0212.

All correspondence concerning the plan should be directed to the plan administrator by mail at American Stock Transfer and Trust Company, LLC, P.O. Box 922, Wall Street Station, New York, New York 10269, or by telephone at (888) 333-0212.

Table of Contents**DESCRIPTION OF SECURITIES**

This prospectus contains a summary of our common stock, preferred stock, subscription rights, warrants and debt securities. These summaries are not meant to be a complete description of each security. However, this prospectus contains the material terms and conditions for each security.

DESCRIPTION OF CAPITAL STOCK

The following description is based on relevant portions of the Delaware General Corporation Law, our amended and restated certificate of incorporation and amended and restated bylaws. This summary is not necessarily complete, and we refer you to the Delaware General Corporation Law, our amended and restated certificate of incorporation and amended and restated bylaws for a more detailed description of the provisions summarized below.

Capital Stock

Our authorized capital stock consists of 100,000,000 shares of common stock, par value \$0.01 per share, of which 58,075,605 shares are outstanding as of May 28, 2015. Our common stock is listed on the NYSE under the ticker symbol "NMFC". No stock has been authorized for issuance under any equity compensation plans. Under Delaware law, our stockholders generally will not be personally liable for our debts or obligations.

The following are our outstanding classes of securities as of May 28, 2015:

(1) Title of Class	(2) Amount Authorized	(3) Amount Held by NMFC or for Its Account	(4) Amount Outstanding Exclusive of Amount Under Column 3
Common Stock	100,000,000		58,075,605
Preferred Stock	2,000,000		
<i>Common Stock</i>			

Under the terms of our amended and restated certificate of incorporation, all shares of our common stock will have equal rights as to earnings, assets, dividends and voting and, when they are issued, will be duly authorized, validly issued, fully paid and nonassessable. Distributions may be paid to the holders of our common stock if, as and when authorized and declared by our board of directors out of funds legally available therefore. Shares of our common stock will have no preemptive, exchange, conversion or redemption rights and will be freely transferable, except where their transfer is restricted by federal and state securities laws or by contract. In the event of our liquidation, dissolution or winding up, each share of our common stock would be entitled to share ratably in all of our assets that are legally available for distribution after we pay all debts and other liabilities and subject to any preferential rights of holders of our preferred stock, if any preferred stock is outstanding at such time. Each share of our common stock will be entitled to one vote on all matters submitted to a vote of stockholders, including the election of directors. Except as provided with respect to any other class or series of stock, the holders of our common stock will possess exclusive voting power. There will be no cumulative voting in the election of directors, which means that holders of a majority of the outstanding shares of common stock will be able to elect all of our directors (other than directors to be elected solely by the holders of preferred stock), and holders of less than a majority of such shares will be unable to elect any director.

Preferred Stock

Our amended and restated certificate of incorporation authorizes our board of directors to issue preferred stock. Prior to the issuance of shares of each class or series, the board of directors

Table of Contents

is required by Delaware law and by our amended and restated certificate of incorporation to set the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series. Thus, the board of directors could authorize the issuance of shares of preferred stock with terms and conditions which could have the effect of delaying, deferring or preventing a transaction or a change in control that might involve a premium price for holders of our common stock or otherwise be in their best interest. You should note, however, that any issuance of preferred stock must comply with the requirements of the 1940 Act. The 1940 Act requires, among other things, that (1) immediately after issuance and before any dividend or other distribution is made with respect to our common stock and before any purchase of our common stock is made, such preferred stock together with all other senior securities must not exceed an amount equal to 50.0% of our total assets after deducting the amount of such dividend, distribution or purchase price, as the case may be, and (2) the holders of shares of preferred stock, if any are issued, must be entitled as a class to elect two directors at all times and to elect a majority of the directors if dividends on such preferred stock are in arrears by two full years or more. Certain matters under the 1940 Act require the separate vote of the holders of any issued and outstanding preferred stock. For example, holders of preferred stock would vote separately from the holders of common stock on a proposal to cease operations as a BDC. We believe that the availability for issuance of preferred stock will provide us with increased flexibility in structuring future financings and acquisitions. However, we do not currently have any plans to issue preferred stock.

Limitation on Liability of Directors and Officers; Indemnification and Advance of Expenses

The Delaware General Corporation Law authorizes corporations to limit or eliminate the personal liability of directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties. Our amended and restated certificate of incorporation will include a provision that eliminates the personal liability of its directors for monetary damages for actions taken as a director, except for liability:

for breach of duty of loyalty;

for acts or omissions not in good faith or involving intentional misconduct or knowing violation of law;

under Section 174 of the DGCL (unlawful dividends); or

for transactions from which the director derived improper personal benefit.

Under our amended and restated bylaws, we will fully indemnify any person who was or is involved in any actual or threatened action, suit or proceeding by reason of the fact that such person is or was one of our directors or officers. So long as we are regulated under the 1940 Act, the above indemnification and limitation of liability is limited by the 1940 Act or by any valid rule, regulation or order of the SEC thereunder. The 1940 Act provides, among other things, that a company may not indemnify any director or officer against liability to it or its security holders to which he or she might otherwise be subject by reason of his or her willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his or her office unless a determination is made by final decision of a court, by vote of a majority of a quorum of directors who are disinterested, non-party directors or by independent legal counsel that the liability for which indemnification is sought did not arise out of the foregoing conduct.

Delaware law also provides that indemnification permitted under the law shall not be deemed exclusive of any other rights to which the directors and officers may be entitled under the corporation's bylaws, any agreement, a vote of stockholders or otherwise.

We have obtained liability insurance for our officers and directors.

Table of Contents

Delaware Law and Certain Certificate of Incorporation and Bylaw Provisions; Anti-Takeover Measures

Certain provisions of our amended and restated certificate of incorporation and amended and restated bylaws, as summarized below, and applicable provisions of the Delaware General Corporation Law and certain other agreements to which we are a party may make it more difficult for or prevent an unsolicited third party from acquiring control of us or changing our board of directors and management. These provisions may have the effect of deterring hostile takeovers or delaying changes in our control or in our management. These provisions are intended to enhance the likelihood of continued stability in the composition of our board of directors and in the policies furnished by them and to discourage certain types of transactions that may involve an actual or threatened change in our control. The provisions also are intended to discourage certain tactics that may be used in proxy fights. These provisions, however, could have the effect of discouraging others from making tender offers for our shares and, as a consequence, they also may inhibit fluctuations in the market price of our shares that could result from actual or rumored takeover attempts.

Classified Board; Vacancies; Removal. The classification of our board of directors and the limitations on removal of directors and filling of vacancies could have the effect of making it more difficult for a third party to acquire us, or of discouraging a third party from acquiring us. Our board of directors will be divided into three classes, with the term of one class expiring at each annual meeting of stockholders. At each annual meeting, one class of directors is elected to a three-year term. This provision could delay for up to two years the replacement of a majority of the board of directors.

Our amended and restated certificate of incorporation provides that, subject to the applicable requirements of the 1940 Act and the rights of any holders of preferred stock, any vacancy on the board of directors, however the vacancy occurs, including a vacancy due to an enlargement of the board, may only be filled by vote a majority of the directors then in office.

A director may be removed at any time at a meeting called for that purpose, but only for cause and only by the affirmative vote of the holders of at least 75.0% of the shares then entitled to vote for the election of the respective director.

Advance Notice Requirements for Stockholder Proposals and Director Nominations. Our amended and restated bylaws provide that with respect to an annual meeting of stockholders, nominations of persons for election to the board of directors and the proposal of business to be considered by stockholders may be made only (1) by or at the direction of the board of directors or (2) by a stockholder who is entitled to vote at the meeting and who has complied with the advance notice procedures of the amended and restated bylaws. Nominations of persons for election to the board of directors at a special meeting may be made only (1) by or at the direction of the board of directors or (2) provided that the board of directors has determined that directors will be elected at the meeting, by a stockholder who is entitled to vote at the meeting and who has complied with the advance notice provisions of the amended and restated bylaws. The purpose of requiring stockholders to give us advance notice of nominations and other business is to afford our board of directors a meaningful opportunity to consider the qualifications of the proposed nominees and the advisability of any other proposed business and, to the extent deemed necessary or desirable by our board of directors, to inform its stockholders and make recommendations about such qualifications or business, as well as to approve a more orderly procedure for conducting meetings of stockholders. Although our amended and restated bylaws do not give its board of directors any power to disapprove stockholder nominations for the election of directors or proposals recommending certain action, they may have the effect of precluding a contest for the election of directors or the consideration of stockholder proposals if proper procedures are not followed and of discouraging or deterring a third party from conducting a solicitation of proxies to elect its own slate

Table of Contents

of directors or to approve its own proposal without regard to whether consideration of such nominees or proposals might be harmful or beneficial to us and our stockholders.

Amendments to Certificate of Incorporation and Bylaws. Delaware's corporation law provides generally that the affirmative vote of a majority of the shares entitled to vote on any matter is required to amend a corporation's certificate of incorporation or bylaws, unless a corporation's certificate of incorporation or bylaws requires a greater percentage. Our amended and restated certificate of incorporation will provide that the following provisions, among others, may be amended by our stockholders only by a vote of at least two-thirds of the shares of our capital stock entitled to vote:

the classification of our board of directors;

the removal of directors;

the limitation on stockholder action by written consent;

the limitation of directors' personal liability to us or our stockholders for breach of fiduciary duty as a director;

the ability to call a Special Meeting of Stockholders being vested in our board of directors, the chairperson of our board, our chief executive officer and in the holders of at least fifty (50) percent of the voting power of all shares of our capital stock generally entitled to vote on the election of directors then outstanding subject to certain procedures; and

the amendment provision requiring that the above provisions be amended only with a two-thirds supermajority vote.

The amended and restated bylaws generally can be amended by approval of (i) a majority of the total number of authorized directors or (ii) the affirmative vote of the holders of at least two-thirds of the shares of our capital stock entitled to vote.

Calling of Special Meetings by Stockholders. Our certificate of incorporation and bylaws also provide that special meetings of the stockholders may only be called by our board of directors, the chairperson of our board, our chief executive officer or upon the request of the holders of at least 50.0% of the voting power of all shares of our capital stock, generally entitled to vote on the election of directors then outstanding, subject to certain limitations.

Section 203 of the Delaware General Corporation Law. We will not be subject to Section 203 of the DGCL, an anti-takeover law. In general, Section 203 prohibits a publicly-held Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years following the date the person became an interested stockholder, unless (with certain exceptions) the "business combination" or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Generally, a "business combination" includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. Generally, an "interested stockholder" is a person who, together with affiliates and associates, owns (or within three years prior to the determination of interested stockholder status, did own) 15.0% or more of a corporation's voting stock. In our certificate of incorporation, we have elected not to be bound by Section 203.

Our credit facilities also include change of control provisions that accelerate the indebtedness under the credit facilities in the event of certain change of control events. If certain transactions were engaged in without the consent of the lender, repayment obligations under the credit facilities could be accelerated.

Table of Contents

DESCRIPTION OF PREFERRED STOCK

In addition to shares of common stock, we have 2,000,000 shares of preferred stock, par value \$0.01, authorized of which no shares are currently outstanding. If we offer preferred stock under this prospectus, we will issue an appropriate prospectus supplement. We may issue preferred stock from time to time in one or more classes or series, without stockholder approval. Prior to issuance of shares of each class or series, our board of directors is required by Delaware law and by our charter to set the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series. Any such an issuance must adhere to the requirements of the 1940 Act, Delaware law and any other limitations imposed by law.

The 1940 Act currently requires, among other things, that (a) immediately after issuance and before any distribution is made with respect to common stock, the liquidation preference of the preferred stock, together with all other senior securities, must not exceed an amount equal to 50.0% of our total assets (taking into account such distribution), (b) the holders of shares of preferred stock, if any are issued, must be entitled as a class to elect two directors at all times and to elect a majority of the directors if dividends on the preferred stock are in arrears by two years or more and (c) such class of stock have complete priority over any other class of stock as to distribution of assets and payment of dividends, which dividends shall be cumulative.

For any series of preferred stock that we may issue, our board of directors will determine and the amendment to the charter and the prospectus supplement relating to such series will describe:

the designation and number of shares of such series;

the rate and time at which, and the preferences and conditions under which, any dividends will be paid on shares of such series, as well as whether such dividends are participating or non-participating;

any provisions relating to convertibility or exchangeability of the shares of such series, including adjustments to the conversion price of such series;

the rights and preferences, if any, of holders of shares of such series upon our liquidation, dissolution or winding up of our affairs;

the voting powers, if any, of the holders of shares of such series;

any provisions relating to the redemption of the shares of such series;

any limitations on our ability to pay dividends or make distributions on, or acquire or redeem, other securities while shares of such series are outstanding;

any conditions or restrictions on our ability to issue additional shares of such series or other securities;

if applicable, a discussion of certain U.S. federal income tax considerations; and

any other relative powers, preferences and participating, optional or special rights of shares of such series, and the qualifications, limitations or restrictions thereof.

Edgar Filing: New Mountain Finance Corp - Form 497

All shares of preferred stock that we may issue will be identical and of equal rank except as to the particular terms thereof that may be fixed by our board of directors, and all shares of each series of preferred stock will be identical and of equal rank except as to the dates from which dividends, if any, thereon will be cumulative.

Table of Contents

DESCRIPTION OF SUBSCRIPTION RIGHTS

General

We may issue subscription rights to our stockholders to purchase common stock. Subscription rights may be issued independently or together with any other offered security and may or may not be transferable by the person purchasing or receiving the subscription rights. In connection with a subscription rights offering to our stockholders, we would distribute certificates evidencing the subscription rights and a prospectus supplement to our stockholders on the record date that we set for receiving subscription rights in such subscription rights offering.

The applicable prospectus supplement would describe the following terms of subscription rights in respect of which this prospectus is being delivered:

the period of time the offering would remain open (which shall be open a minimum number of days such that all record holders would be eligible to participate in the offering and shall not be open longer than 120 days);

the title of such subscription rights;

the exercise price for such subscription rights (or method of calculation thereof);

the ratio of the offering (which, in the case of transferable rights, will require a minimum of three shares to be held of record before a person is entitled to purchase an additional share);

the number of such subscription rights issued to each stockholder;

the extent to which such subscription rights are transferable and the market on which they may be traded if they are transferable;

if applicable, a discussion of certain U.S. federal income tax considerations applicable to the issuance or exercise of such subscription rights;

the date on which the right to exercise such subscription rights shall commence, and the date on which such right shall expire (subject to any extension);

the extent to which such subscription rights include an over-subscription privilege with respect to unsubscribed securities and the terms of such over-subscription privilege;

any termination right we may have in connection with such subscription rights offering; and

any other terms of such subscription rights, including exercise, settlement and other procedures and limitations relating to the transfer and exercise of such subscription rights.

Exercise Of Subscription Rights

Edgar Filing: New Mountain Finance Corp - Form 497

Each subscription right would entitle the holder of the subscription right to purchase for cash such amount of shares of common stock at such exercise price as shall in each case be set forth in, or be determinable as set forth in, the prospectus supplement relating to the subscription rights offered thereby. Subscription rights may be exercised at any time up to the close of business on the expiration date for such subscription rights set forth in the prospectus supplement. After the close of business on the expiration date, all unexercised subscription rights would become void.

Subscription rights may be exercised as set forth in the prospectus supplement relating to the subscription rights offered thereby. Upon receipt of payment and the subscription rights certificate properly completed and duly executed at the corporate trust office of the subscription rights agent or any other office indicated in the prospectus supplement we will forward, as soon as practicable, the shares of common stock purchasable upon such exercise. To the extent permissible under

Table of Contents

applicable law, we may determine to offer any unsubscribed offered securities directly to persons other than stockholders, to or through agents, underwriters or dealers or through a combination of such methods, as set forth in the applicable prospectus supplement.

Dilutive Effects

Any stockholder who chooses not to participate in a rights offering should expect to own a smaller interest in us upon completion of such rights offering. Any rights offering will dilute the ownership interest and voting power of stockholders who do not fully exercise their subscription rights. Further, because the net proceeds per share from any rights offering may be lower than our current net asset value per share, the rights offering may reduce our net asset value per share. The amount of dilution that a stockholder will experience could be substantial, particularly to the extent we engage in multiple rights offerings within a limited time period. In addition, the market price of our common stock could be adversely affected while a rights offering is ongoing as a result of the possibility that a significant number of additional shares may be issued upon completion of such rights offering. All of our stockholders will also indirectly bear the expenses associated with any rights offering we may conduct, regardless of whether they elect to exercise any rights.

Table of Contents

DESCRIPTION OF WARRANTS

The following is a general description of the terms of the warrants we may issue from time to time. Particular terms of any warrants we offer will be described in the prospectus supplement relating to such warrants.

We may issue warrants to purchase shares of our common stock. Such warrants may be issued independently or together with shares of common stock and may be attached or separate from such shares of common stock. We will issue each series of warrants under a separate warrant agreement to be entered into between us and a warrant agent. The warrant agent will act solely as our agent and will not assume any obligation or relationship of agency for or with holders or beneficial owners of warrants.

A prospectus supplement will describe the particular terms of any series of warrants we may issue, including the following:

the title of such warrants;

the aggregate number of such warrants;

the price or prices at which such warrants will be issued;

the currency or currencies, including composite currencies, in which the price of such warrants may be payable;

the number of shares of common stock issuable upon exercise of such warrants;

the price at which and the currency or currencies, including composite currencies, in which the shares of common stock purchasable upon exercise of such warrants may be purchased;

the date on which the right to exercise such warrants shall commence and the date on which such right will expire;

whether such warrants will be issued in registered form or bearer form;

if applicable, the minimum or maximum amount of such warrants which may be exercised at any one time;

if applicable, the number of such warrants issued with each share of common stock;

if applicable, the date on and after which such warrants and the related shares of common stock will be separately transferable;

information with respect to book-entry procedures, if any;

if applicable, a discussion of certain U.S. federal income tax considerations; and

Edgar Filing: New Mountain Finance Corp - Form 497

any other terms of such warrants, including terms, procedures and limitations relating to the exchange and exercise of such warrants.

NMFC and the warrant agent may amend or supplement the warrant agreement for a series of warrants without the consent of the holders of the warrants issued thereunder to effect changes that are not inconsistent with the provisions of the warrants and that do not materially and adversely affect the interests of the holders of the warrants.

Under the 1940 Act, we may generally only offer warrants provided that (1) the warrants expire by their terms within ten years; (2) the exercise or conversion price is not less than the current market value at the date of issuance; (3) our stockholders authorize the proposal to issue such warrants, and our board of directors approves such issuance on the basis that the issuance is in

Table of Contents

the best interests of us and our stockholders; and (4) if the warrants are accompanied by other securities, the warrants are not separately transferable unless no class of such warrants and the securities accompanying them has been publicly distributed. The 1940 Act also provides that the amount of our voting securities that would result from the exercise of all outstanding warrants at the time of issuance may not exceed 25.0% of our outstanding voting securities.

Table of Contents

DESCRIPTION OF DEBT SECURITIES

We may issue debt securities in one or more series. The specific terms of each series of debt securities will be described in the particular prospectus supplement relating to that series. The prospectus supplement may or may not modify the general terms found in this prospectus and will be filed with the SEC. For a complete description of the terms of a particular series of debt securities, you should read both this prospectus and the prospectus supplement relating to that particular series.

As required by federal law for all bonds and notes of companies that are publicly offered, the debt securities are governed by a document called an "indenture." An indenture is a contract between us and the financial institution acting as trustee on your behalf, and is subject to and governed by the Trust Indenture Act of 1939, as amended. The trustee has two main roles. First, the trustee can enforce your rights against us if we default. There are some limitations on the extent to which the trustee acts on your behalf, described in the second paragraph under " Events of Default Remedies if an Event of Default Occurs." Second, the trustee performs certain administrative duties for us with respect to the debt securities.

This section includes a description of the material provisions of the indenture. Because this section is a summary, however, it does not describe every aspect of the debt securities and the indenture. We urge you to read the indenture because it, and not this description, defines your rights as a holder of debt securities. A copy of the form of indenture is attached as an exhibit to the registration statement of which this prospectus is a part. We will file a supplemental indenture with the SEC in connection with any debt offering, at which time the supplemental indenture would be publicly available. See "Available Information" for information on how to obtain a copy of the indenture.

The prospectus supplement, which will accompany this prospectus, will describe the particular series of debt securities being offered by including:

the designation or title of the series of debt securities;

the total principal amount of the series of debt securities;

the percentage of the principal amount at which the series of debt securities will be offered;

the date or dates on which principal will be payable;

the rate or rates (which may be either fixed or variable) and/or the method of determining such rate or rates of interest, if any;

the date or dates from which any interest will accrue, or the method of determining such date or dates, and the date or dates on which any interest will be payable;

whether any interest may be paid by issuing additional securities of the same series in lieu of cash (and the terms upon which any such interest may be paid by issuing additional securities);

the terms for redemption, extension or early repayment, if any;

the currencies in which the series of debt securities are issued and payable;

Edgar Filing: New Mountain Finance Corp - Form 497

whether the amount of payments of principal, premium or interest, if any, on a series of debt securities will be determined with reference to an index, formula or other method (which could be based on one or more currencies, commodities, equity indices or other indices) and how these amounts will be determined;

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

the place or places, if any, other than or in addition to the Borough of Manhattan in the City of New York, of payment, transfer, conversion and/or exchange of the debt securities;

the denominations in which the offered debt securities will be issued (if other than \$1,000 and any integral multiple thereof);

the provision for any sinking fund;

any restrictive covenants;

any Events of Default (as defined in "Events of Default" below);

whether the series of debt securities are issuable in certificated form;

any provisions for defeasance or covenant defeasance;

any special U.S. federal income tax implications, including, if applicable, U.S. federal income tax considerations relating to original issue discount;

whether and under what circumstances we will pay additional amounts in respect of any tax, assessment or governmental charge and, if so, whether we will have the option to redeem the debt securities rather than pay the additional amounts (and the terms of this option);

any provisions for convertibility or exchangeability of the debt securities into or for any other securities;

whether the debt securities are subject to subordination and the terms of such subordination;

whether the debt securities are secured and the terms of any security interest;

the listing, if any, on a securities exchange; and

any other terms.

The debt securities may be secured or unsecured obligations. Under the provisions of the 1940 Act, we, as a BDC, are permitted to issue debt only in amounts such that our asset coverage, as defined in the 1940 Act, equals at least 200.0% after each issuance of debt, but giving effect to any exemptive relief granted to us by the SEC. Unless the prospectus supplement states otherwise, principal (and premium, if any) and interest, if any, will be paid by us in immediately available funds.

General

Edgar Filing: New Mountain Finance Corp - Form 497

The indenture provides that any debt securities proposed to be sold under this prospectus and the accompanying prospectus supplement ("offered debt securities") may be issued under the indenture in one or more series.

For purposes of this prospectus, any reference to the payment of principal of, or premium or interest, if any, on, debt securities will include additional amounts if required by the terms of the debt securities.

The indenture does not limit the amount of debt securities that may be issued thereunder from time to time. Debt securities issued under the indenture, when a single trustee is acting for all debt securities issued under the indenture, are called the "indenture securities." The indenture also provides that there may be more than one trustee thereunder, each with respect to one or more different series of indenture securities. See "Resignation of Trustee" below. At a time when two or more trustees are acting under the indenture, each with respect to only certain series, the term "indenture securities" means the one or more series of debt securities with respect to which each

Table of Contents

respective trustee is acting. In the event that there is more than one trustee under the indenture, the powers and trust obligations of each trustee described in this prospectus will extend only to the one or more series of indenture securities for which it is trustee. If two or more trustees are acting under the indenture, then the indenture securities for which each trustee is acting would be treated as if issued under separate indentures.

Except as described under " Events of Default" and " Merger or Consolidation" below, the indenture does not contain any provisions that give you protection in the event we issue a large amount of debt or we are acquired by another entity.

We refer you to the prospectus supplement for information with respect to any deletions from, modifications of or additions to the Events of Default or our covenants, as applicable, that are described below, including any addition of a covenant or other provision providing event risk protection or similar protection.

We have the ability to issue indenture securities with terms different from those of indenture securities previously issued and, without the consent of the holders thereof, to reopen a previous issue of a series of indenture securities and issue additional indenture securities of that series unless the reopening was restricted when that series was created.

No person from whom we borrow will, in its capacity as either a lender or debt security holder, have either a veto power or a vote in approving or changing any of our operating policies or investment strategies, as applicable.

Conversion and Exchange

If any debt securities are convertible into or exchangeable for other securities, the prospectus supplement will explain the terms and conditions of the conversion or exchange, including the conversion price or exchange ratio (or the calculation method), the conversion or exchange period (or how the period will be determined), if conversion or exchange will be mandatory or at the option of the holder or our provisions for adjusting the conversion price or the exchange ratio and provisions affecting conversion or exchange in the event of the redemption of the underlying debt securities. These terms may also include provisions under which the number or amount of other securities to be received by the holders of the debt securities upon conversion or exchange would be calculated according to the market price of the other securities as of a time stated in the prospectus supplement.

Issuance of Securities in Registered Form

We may issue the debt securities in registered form, in which case we may issue them either in book-entry form only or in "certificated" form. Debt securities issued in book-entry form will be represented by global securities. We expect that we will usually issue debt securities in book-entry only form represented by global securities.

Book-Entry Holders

We will issue registered debt securities in book-entry form only, unless we specify otherwise in the applicable prospectus supplement. This means debt securities will be represented by one or more global securities registered in the name of a depository that will hold them on behalf of financial institutions that participate in the depository's book-entry system. These participating institutions, in turn, hold beneficial interests in the debt securities held by the depository or its nominee. These institutions may hold these interests on behalf of themselves or customers.

Under the indenture, only the person in whose name a debt security is registered is recognized as the holder of that debt security. Consequently, for debt securities issued in

Table of Contents

book-entry form, we will recognize only the depository as the holder of the debt securities and we will make all payments on the debt securities to the depository. The depository will then pass along the payments it receives to its participants, which in turn will pass the payments along to their customers who are the beneficial owners. The depository and its participants do so under agreements they have made with one another or with their customers; they are not obligated to do so under the terms of the debt securities.

As a result, investors will not own debt securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depository's book-entry system or holds an interest through a participant. As long as the debt securities are represented by one or more global securities, investors will be indirect holders, and not holders, of the debt securities.

Street Name Holders

In the future, we may issue debt securities in certificated form or terminate a global security. In these cases, investors may choose to hold their debt securities in their own names or in "street name." Debt securities held in street name are registered in the name of a bank, broker or other financial institution chosen by the investor, and the investor would hold a beneficial interest in those debt securities through the account he or she maintains at that institution.

For debt securities held in street name, we will recognize only the intermediary banks, brokers and other financial institutions in whose names the debt securities are registered as the holders of those debt securities, and we will make all payments on those debt securities to them. These institutions will pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold debt securities in street name will be indirect holders, and not holders, of the debt securities.

Legal Holders

Our obligations, as well as the obligations of the applicable trustee and those of any third parties employed by us or the applicable trustee, run only to the legal holders of the debt securities. We do not have obligations to investors who hold beneficial interests in global securities, in street name or by any other indirect means. This will be the case whether an investor chooses to be an indirect holder of a debt security or has no choice because we are issuing the debt securities only in book-entry form.

For example, once we make a payment or give a notice to the holder, we have no further responsibility for the payment or notice even if that holder is required, under agreements with depository participants or customers or by law, to pass it along to the indirect holders but does not do so. Similarly, if we want to obtain the approval of the holders for any purpose (for example, to amend an indenture or to relieve itself of the consequences of a default or of its obligation to comply with a particular provision of an indenture), we would seek the approval only from the holders, and not the indirect holders, of the debt securities. Whether and how the holders contact the indirect holders is up to the holders.

When we refer to you in this Description of Debt Securities, we mean those who invest in the debt securities being offered by this prospectus, whether they are the holders or only indirect holders of those debt securities. When we refer to your debt securities, we mean the debt securities in which you hold a direct or indirect interest.

Table of Contents

Special Considerations for Indirect Holders

If you hold debt securities through a bank, broker or other financial institution, either in book-entry form or in street name, we urge you to check with that institution to find out:

how it handles securities payments and notices;

whether it imposes fees or charges;

how it would handle a request for the holders' consent, if ever required;

whether and how you can instruct it to send you debt securities registered in your own name so you can be a holder, if that is permitted in the future for a particular series of debt securities;

how it would exercise rights under the debt securities if there were a default or other event triggering the need for holders to act to protect their interests; and

if the debt securities are in book-entry form, how the depository's rules and procedures will affect these matters.

Global Securities

As noted above, we usually will issue debt securities as registered securities in book-entry form only. A global security represents one or any other number of individual debt securities. Generally, all debt securities represented by the same global securities will have the same terms.

Each debt security issued in book-entry form will be represented by a global security that we deposit with and register in the name of a financial institution or its nominee that we select. The financial institution that we select for this purpose is called the depository. Unless we specify otherwise in the applicable prospectus supplement, The Depository Trust Company, New York, New York, known as DTC, will be the depository for all debt securities issued in book-entry form.

A global security may not be transferred to or registered in the name of anyone other than the depository or its nominee, unless special termination situations arise. We describe those situations below under "Termination of a Global Security." As a result of these arrangements, the depository, or its nominee, will be the sole registered owner and holder of all debt securities represented by a global security, and investors will be permitted to own only beneficial interests in a global security. Beneficial interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depository or with another institution that has an account with the depository. Thus, an investor whose security is represented by a global security will not be a holder of the debt security, but only an indirect holder of a beneficial interest in the global security.

Special Considerations for Global Securities

As an indirect holder, an investor's rights relating to a global security will be governed by the account rules of the investor's financial institution and of the depository, as well as general laws relating to securities transfers. The depository that holds the global security will be considered the holder of the debt securities represented by the global security.

If debt securities are issued only in the form of a global security, an investor should be aware of the following:

Edgar Filing: New Mountain Finance Corp - Form 497

an investor cannot cause the debt securities to be registered in his or her name and cannot obtain certificates for his or her interest in the debt securities, except in the special situations we describe below;

Table of Contents

an investor will be an indirect holder and must look to his or her own bank or broker for payments on the debt securities and protection of his or her legal rights relating to the debt securities, as we describe under " Issuance of Securities in Registered Form" above;

an investor may not be able to sell interests in the debt securities to some insurance companies and other institutions that are required by law to own their securities in non-book-entry form;

an investor may not be able to pledge his or her interest in a global security in circumstances where certificates representing the debt securities must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective;

the depositary's policies, which may change from time to time, will govern payments, transfers, exchanges and other matters relating to an investor's interest in a global security. NMFC and the trustee have no responsibility for any aspect of the depositary's actions or for its records of ownership interests in a global security. NMFC and the trustee also do not supervise the depositary in any way;

if we redeem less than all the debt securities of a particular series being redeemed, DTC's practice is to determine by lot the amount to be redeemed from each of its participants holding that series;

an investor is required to give notice of exercise of any option to elect repayment of its debt securities, through its participant, to the applicable trustee and to deliver the related debt securities by causing its participant to transfer its interest in those debt securities, on DTC's records, to the applicable trustee;

DTC requires that those who purchase and sell interests in a global security deposited in its book-entry system use immediately available funds, your broker or bank may also require you to use immediately available funds when purchasing or selling interests in a global security;

financial institutions that participate in the depositary's book-entry system, and through which an investor holds its interest in a global security, may also have their own policies affecting payments, notices and other matters relating to the debt securities; there may be more than one financial intermediary in the chain of ownership for an investor; we do not monitor, nor are we responsible for the actions of, any of those intermediaries.

Termination of a Global Security

If a global security is terminated for any reason, interests in it will be exchanged for certificates in non-book-entry form (certificated securities). After that exchange, the choice of whether to hold the certificated debt securities directly or in street name will be up to the investor. Investors must consult their own banks or brokers to find out how to have their interests in a global security transferred on termination to their own names, so that they will be holders. We have described the rights of legal holders and street name investors under " Issuance of Securities in Registered Form" above.

The prospectus supplement may list situations for terminating a global security that would apply only to the particular series of debt securities covered by the prospectus supplement. If a global security is terminated, only the depositary, and not us or the applicable trustee, is responsible for deciding the investors in whose names the debt securities represented by the global security will be registered and, therefore, who will be the holders of those debt securities.

Table of Contents

Payment and Paying Agents

We will pay interest to the person listed in the applicable trustee's records as the owner of the debt security at the close of business on a particular day in advance of each due date for interest, even if that person no longer owns the debt security on the interest due date. That day, usually about two weeks in advance of the interest due date, is called the "record date." Since we will pay all the interest for an interest period to the holders on the record date, holders buying and selling debt securities must work out between themselves the appropriate purchase price. The most common manner is to adjust the sales price of the debt securities to prorate interest fairly between buyer and seller based on their respective ownership periods within the particular interest period. This prorated interest amount is called "accrued interest."

Payments on Global Securities

We will make payments on a global security in accordance with the applicable policies of the depository as in effect from time to time. Under those policies, we will make payments directly to the depository, or its nominee, and not to any indirect holders who own beneficial interests in the global security. An indirect holder's right to those payments will be governed by the rules and practices of the depository and its participants, as described under " Special Considerations for Global Securities."

Payments on Certificated Securities

We will make payments on a certificated debt security as follows. We will pay interest that is due on an interest payment date to the holder of debt securities as shown on the trustee's records as of the close of business on the regular record date at our office in New York, New York, as applicable, and/or at other offices that may be specified in the prospectus supplement. We will make all payments of principal and premium, if any, by check at the office of the applicable trustee in New York, New York and/or at other offices that may be specified in the prospectus supplement or in a notice to holders against surrender of the debt security.

Alternatively, at our option we may pay any cash interest that becomes due on the debt security by mailing a check to the holder at his, her or its address shown on the trustee's records as of the close of business on the regular record date or by transfer to an account at a bank in the U.S., in either case, on the due date.

Payment When Offices Are Closed

If any payment is due on a debt security on a day that is not a business day, we will make the payment on the next day that is a business day. Payments made on the next business day in this situation will be treated under the indenture as if they were made on the original due date, except as otherwise indicated in the attached prospectus supplement. Such payment will not result in a default under any debt security or the indenture, and no interest will accrue on the payment amount from the original due date to the next day that is a business day.

Book-entry and other indirect holders should consult their banks or brokers for information on how they will receive payments on their debt securities.

Events of Default

You will have rights if an Event of Default occurs in respect of the debt securities of your series and is not cured, as described later in this subsection.

Table of Contents

The term "Event of Default" in respect of the debt securities of your series means any of the following:

we do not pay the principal of, or any premium on, a debt security of the series on its due date;

we do not pay interest on a debt security of the series within 30 days of its due date;

we do not deposit any sinking fund payment in respect of debt securities of the series within two business days of its due date;

we remain in breach of a covenant in respect of debt securities of the series for 60 days after we receive a written notice of default stating we are in breach (the notice must be sent by either the trustee or holders of at least 25.0% of the principal amount of debt securities of the series);

we file for bankruptcy or certain other events of bankruptcy, insolvency or reorganization occur and remain undischarged or unstayed for a period of 90 days; or

the series of debt securities has an asset coverage, as such term is defined in the 1940 Act, of less than 100.0% on the last business day of each of 24 consecutive calendar months, giving effect to any exemptive relief granted to us by the SEC; or

any other Event of Default in respect of debt securities of the series described in the prospectus supplement occurs.

An Event of Default for a particular series of debt securities does not necessarily constitute an Event of Default for any other series of debt securities issued under the same or any other indenture. The trustee may withhold notice to the holders of debt securities of any default, except in the payment of principal, premium, interest, or sinking or purchase fund installment, if it in good faith considers the withholding of notice to be in the interest of the holders.

Remedies if an Event of Default Occurs

If an Event of Default has occurred and is continuing, the trustee or the holders of not less than 25.0% in principal amount of the outstanding debt securities of the affected series may (and the trustee shall at the request of such holders) declare the entire principal amount of all the debt securities of that series to be due and immediately payable. This is called a declaration of acceleration of maturity. A declaration of acceleration of maturity may be canceled by the holders of a majority in principal amount of the outstanding debt securities of the affected series if (1) we have deposited with the trustee all amounts due and owing with respect to the securities (other than principal that has become due solely by reason of such acceleration) and certain other amounts, and (2) any other Events of Default have been cured or waived.

The trustee has some special duties, the trustee is not required to take any action under the indenture at the request of any holders unless the holders offer the trustee protection from expenses and liability reasonably satisfactory to it (called an "indemnity"). If indemnity reasonably satisfactory to the trustee is provided, the holders of a majority in principal amount of the outstanding debt securities of the relevant series may direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the trustee. The trustee may refuse to follow those directions in certain circumstances. No delay or omission in exercising any right or remedy will be treated as a waiver of that right, remedy or Event of Default.

Table of Contents

Before you are allowed to bypass your trustee and bring your own lawsuit or other formal legal action or take other steps to enforce your rights or protect your interests relating to the debt securities, the following must occur:

you must give the trustee written notice that an Event of Default with respect to the relevant series of debt securities has occurred and remains uncured;

the holders of at least 25.0% in principal amount of all outstanding debt securities of the relevant series must make a written request that the trustee take action because of the default and must offer indemnity, security, or both reasonably satisfactory to the trustee against the costs, expenses, and other liabilities of taking that action;

the trustee must not have taken action for 60 days after receipt of the above notice and offer of indemnity and/or security; and

the holders of a majority in principal amount of the debt securities of that series must not have given the trustee a direction inconsistent with the above notice during that 60-day period.

However, you are entitled at any time to bring a lawsuit for the payment of money due on your debt securities on or after the due date.

Book-entry and other indirect holders should consult their banks or brokers for information on how to give notice or direction to or make a request of the trustee and how to declare or cancel an acceleration of maturity.

Each year, we will furnish to each trustee a written statement of certain of our officers certifying that to their knowledge we are in compliance with the indenture and the debt securities, or else specifying any default.

Waiver of Default

Holders of a majority in principal amount of the outstanding debt securities of the affected series may waive any past defaults other than

the payment of principal, any premium or interest; or

in respect of a covenant that cannot be modified or amended without the consent of each holder.

Merger or Consolidation

Under the terms of the indenture, we are generally permitted to consolidate or merge with another entity. We are also permitted to sell all or substantially all of its assets to another entity. However, we may not take any of these actions unless all the following conditions are met:

where we merge out of existence or sell substantially all our assets, the resulting entity or transferee must agree to be legally responsible for our obligations under the debt securities;

the merger or sale of assets must not cause a default on the debt securities and we must not already be in default (unless the merger or sale would cure the default). For purposes of this no-default test, a default would include an Event of Default that has occurred and has not been cured, as described under "Events of Default" above. A default for this purpose would also include any event that would be an Event of Default if the requirements for giving us a notice of default or NMFC's as applicable, having to exist for a specific period of time were disregarded.

Edgar Filing: New Mountain Finance Corp - Form 497

we must deliver certain certificates and documents to the trustee; and

we must satisfy any other requirements specified in the prospectus supplement relating to a particular series of debt securities.

Table of Contents

Modification or Waiver

There are three types of changes we can make to the indenture and the debt securities issued thereunder.

Changes Requiring Your Approval

First, there are changes that we cannot make to your debt securities without your specific approval. The following is a list of those types of changes:

change the stated maturity of the principal of or interest on a debt security or the terms of any sinking fund with respect to any security;

reduce any amounts due on a debt security;

reduce the amount of principal payable upon acceleration of the maturity of an original issue discount or indexed security following a default or upon the redemption thereof or the amount thereof provable in a bankruptcy proceeding;

adversely affect any right of repayment at the holder's option;

change the place or currency of payment on a debt security (except as otherwise described in the prospectus or prospectus supplement);

impair your right to sue for payment;

adversely affect any right to convert or exchange a debt security in accordance with its terms;

modify the subordination provisions in the indenture in a manner that is adverse to outstanding holders of the debt securities;

reduce the percentage of holders of debt securities whose consent is needed to modify or amend the indenture;

reduce the percentage of holders of debt securities whose consent is needed to waive compliance with certain provisions of the indenture or to waive certain defaults;

modify any other aspect of the provisions of the indenture dealing with supplemental indentures with the consent of holders, waiver of past defaults, changes to the quorum or voting requirements or the waiver of certain covenants; and

change any obligation we have to pay additional amounts.

Changes Not Requiring Approval

The second type of change does not require any vote by the holders of the debt securities. This type is limited to clarifications, establishment of the form or terms of new securities of any series as permitted by the indenture and certain other changes that would not

adversely affect holders of the outstanding debt securities in any material respect. We also do not need any approval to make any change that affects only debt securities to be issued under the indenture after the change takes effect.

Table of Contents

Changes Requiring Majority Approval

Any other change to the indenture and the debt securities would require the following approval:

if the change affects only one series of debt securities, it must be approved by the holders of a majority in principal amount of that series; and

if the change affects more than one series of debt securities issued under the same indenture, it must be approved by the holders of a majority in principal amount of all of the series affected by the change, with all affected series voting together as one class for this purpose.

In each case, the required approval must be given by written consent.

The holders of a majority in principal amount of a series of debt securities issued under the indenture, voting together as one class for this purpose, may waive our compliance with some of its covenants applicable to that series of debt securities. However, we cannot obtain a waiver of a payment default or of any of the matters covered by the bullet points included above under " Changes Requiring Your Approval."

Further Details Concerning Voting

When taking a vote, we will use the following rules to decide how much principal to attribute to a debt security:

for original issue discount securities, we will use the principal amount that would be due and payable on the voting date if the maturity of these debt securities were accelerated to that date because of a default;

for debt securities whose principal amount is not known (for example, because it is based on an index), we will use the principal face amount at original issuance or a special rule for that debt security described in the prospectus supplement; and

for debt securities denominated in one or more foreign currencies, we will use the U.S. dollar equivalent.

Debt securities will not be considered outstanding, and therefore not eligible to vote, if we have deposited or set aside in trust money for their payment or redemption or if we, any other obligor, or any of our affiliates, or any obligor own such debt securities. Debt securities will also not be eligible to vote if they have been fully defeased as described later under " Defeasance Full Defeasance".

We will generally be entitled to set any day as a record date for the purpose of determining the holders of outstanding indenture securities that are entitled to vote or take other action under the indenture. However, the record date may not be more than 30 days before the date of the first solicitation of holders to vote on or take such action. If we set a record date for a vote or other action to be taken by holders of one or more series, that vote or action may be taken only by persons who are holders of outstanding indenture securities of those series on the record date and must be taken within 11 months following the record date.

Book-entry and other indirect holders should consult their banks or brokers for information on how approval may be granted or denied if we seek to change the indenture or the debt securities or requests a waiver.

Table of Contents

Defeasance

The following provisions will be applicable to each series of debt securities unless we state in the applicable prospectus supplement that the provisions of covenant defeasance and full defeasance will not be applicable to that series.

Covenant Defeasance

Under current U.S. federal tax law and the indenture, we can make the deposit described below and be released from some of the restrictive covenants in the indenture under which the particular series was issued. This is called "covenant defeasance". In that event, you would lose the protection of those restrictive covenants but would gain the protection of having money and government securities set aside in trust to repay your debt securities. If we achieve covenant defeasance and your debt securities were subordinated as described under "Indenture Provisions - Subordination" below, such subordination would not prevent the trustee under the indenture from applying the funds available to it from the deposit described in the first bullet below to the payment of amounts due in respect of such debt securities for the benefit of the subordinated debt holders. In order to achieve covenant defeasance, we must do the following:

we must deposit in trust for the benefit of all holders of a series of debt securities a combination of cash (in such currency in which such securities are then specified as payable at stated maturity) or government obligations applicable to such securities (determined on the basis of the currency in which such securities are then specified as payable at stated maturity) that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates and any mandatory sinking fund payments or analogous payments;

we must deliver to the trustee a legal opinion of our counsel confirming that, under current U.S. federal income tax law, we may make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit;

we must deliver to the trustee a legal opinion of our counsel stating that the above deposit does not require registration by us under the 1940 Act and a legal opinion and officers' certificate stating that all conditions precedent to covenant defeasance have been complied with;

defeasance must not result in a breach or violation of, or result in a default under, of the indenture or any of our other material agreements or instruments, as applicable;

no default or event of default with respect to such debt securities shall have occurred and be continuing and no defaults or events of default related to bankruptcy, insolvency or reorganization shall occur during the next 90 days; and

satisfy the conditions for covenant defeasance contained in any supplemental indentures.

If we accomplish covenant defeasance, you can still look to us for repayment of the debt securities if there were a shortfall in the trust deposit or the trustee is prevented from making payment. For example, if one of the remaining Events of Default occurred (such as our bankruptcy) and the debt securities became immediately due and payable, there might be such a shortfall. However, there is no assurance that we would have sufficient funds to make payment of the shortfall.

Full Defeasance

If there is a change in U.S. federal tax law or we obtain IRS ruling, as described in the second bullet below, we can legally release ourselves from all payment and other obligations on the debt

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

securities of a particular series (called "full defeasance") if we put in place the following other arrangements for you to be repaid:

we must deposit in trust for the benefit of all holders of a series of debt securities a combination of cash (in such currency in which such securities are then specified as payable at stated maturity) or government obligations applicable to such securities (determined on the basis of the currency in which such securities are then specified as payable at stated maturity) that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates and any mandatory sinking fund payments or analogous payments;

we must deliver to the trustee a legal opinion confirming that there has been a change in current U.S. federal tax law or an IRS ruling that allows us to make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit. Under current U.S. federal tax law, the deposit and our legal release from the debt securities would be treated as though we paid you your share of the cash and notes or bonds at the time the cash and notes or bonds were deposited in trust in exchange for your debt securities and you would recognize gain or loss on the debt securities at the time of the deposit;

we must deliver to the trustee a legal opinion of our counsel stating that the above deposit does not require registration by us under the 1940 Act and a legal opinion and officers' certificate stating that all conditions precedent to defeasance have been complied with;

defeasance must not result in a breach or violation of, or constitute a default under, of the indenture or any of our other material agreements or instruments, as applicable;

no default or event of default with respect to such debt securities shall have occurred and be continuing and no defaults or events of default related to bankruptcy, insolvency or reorganization shall occur during the next 90 days; and

satisfy the conditions for full defeasance contained in any supplemental indentures.

If we ever did accomplish full defeasance, as described above, you would have to rely solely on the trust deposit for repayment of the debt securities. You could not look to us for repayment in the unlikely event of any shortfall. Conversely, the trust deposit would most likely be protected from claims of our lenders and other creditors, as applicable, if we ever became bankrupt or insolvent. If your debt securities were subordinated as described later under "Indenture Provisions Subordination", such subordination would not prevent the trustee under the indenture from applying the funds available to it from the deposit referred to in the first bullet of the preceding paragraph to the payment of amounts due in respect of such debt securities for the benefit of the subordinated debt holders.

Form, Exchange and Transfer of Certificated Registered Securities

If registered debt securities cease to be issued in book-entry form, they will be issued:

only in fully registered certificated form;

without interest coupons; and

unless we indicate otherwise in the prospectus supplement, in denominations of \$1,000 and amounts that are multiples of \$1,000.

Holders may exchange their certificated securities for debt securities of smaller denominations or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed and as long as the denomination is greater than the minimum

denomination for such securities.

Table of Contents

Holders may exchange or transfer their certificated securities at the office of the trustee. We have appointed the trustee to act as its agent for registering debt securities in the names of holders transferring debt securities. We may appoint another entity to perform these functions or perform them itself.

Holders will not be required to pay a service charge to transfer or exchange their certificated securities, but they may be required to pay any tax or other governmental charge associated with the transfer or exchange. The transfer or exchange will be made only if our transfer agent, as applicable, is satisfied with the holder's proof of legal ownership.

If we have designated additional transfer agents for your debt security, they will be named in the prospectus supplement. We may appoint additional transfer agents or cancel the appointment of any particular transfer agent. We may also approve a change in the office through which any transfer agent acts.

If any certificated securities of a particular series are redeemable and we redeem less than all the debt securities of that series, we may block the transfer or exchange of those debt securities during the period beginning 15 days before the day we mail the notice of redemption and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers or exchanges of any certificated securities selected for redemption, except that we will continue to permit transfers and exchanges of the unredeemed portion of any debt security that will be partially redeemed.

If a registered debt security is issued in book-entry form, only the depository will be entitled to transfer and exchange the debt security as described in this subsection, since it will be the sole holder of the debt security.

Resignation of Trustee

Each trustee may resign or be removed with respect to one or more series of indenture securities provided that a successor trustee is appointed to act with respect to these series and has accepted such appointment. In the event that two or more persons are acting as trustee with respect to different series of indenture securities under the indenture, each of the trustees will be a trustee of a trust separate and apart from the trust administered by any other trustee.

Indenture Provisions Subordination

Upon any distribution of our assets upon its dissolution, winding up, liquidation or reorganization, the payment of the principal of (and premium, if any) and interest, if any, on any indenture securities denominated as subordinated debt securities is to be subordinated to the extent provided in the indenture in right of payment to the prior payment in full of all Senior Indebtedness (as defined below), but our obligation to you to make payment of the principal of (and premium, if any) and interest, if any, on such subordinated debt securities will not otherwise be affected. In addition, no payment on account of principal (or premium, if any), sinking fund or interest, if any, may be made on such subordinated debt securities at any time unless full payment of all amounts due in respect of the principal (and premium, if any), sinking fund and interest on Senior Indebtedness has been made or duly provided for in money or money's worth.

In the event that, notwithstanding the foregoing, any payment by us is received by the trustee in respect of subordinated debt securities or by the holders of any of such subordinated debt securities, upon our dissolution, winding up, liquidation or reorganization before all Senior Indebtedness is paid in full, the payment or distribution must be paid over to the holders of the Senior Indebtedness or on their behalf for application to the payment of all the Senior Indebtedness remaining unpaid until all the Senior Indebtedness has been paid in full, after giving effect to any

Table of Contents

concurrent payment or distribution to the holders of the Senior Indebtedness. Subject to the payment in full of all Senior Indebtedness upon this distribution by us, the holders of such subordinated debt securities will be subrogated to the rights of the holders of the Senior Indebtedness to the extent of payments made to the holders of the Senior Indebtedness out of the distributive share of such subordinated debt securities.

By reason of this subordination, in the event of a distribution of our assets upon its insolvency, certain of its senior creditors may recover more, ratably, than holders of any subordinated debt securities or the holders of any indenture securities that are not Senior Indebtedness. The indenture provides that these subordination provisions will not apply to money and securities held in trust under the defeasance provisions of the indenture.

Senior Indebtedness is defined in the indenture as the principal of (and premium, if any) and unpaid interest on:

our indebtedness (including indebtedness of others guaranteed by us), whenever created, incurred, assumed or guaranteed, for money borrowed, that we have designated as "Senior Indebtedness" for purposes of the indenture and in accordance with the terms of the indenture (including any indenture securities designated as Senior Indebtedness), and

renewals, extensions, modifications and refinancings of any of this indebtedness.

If this prospectus is being delivered in connection with the offering of a series of indenture securities denominated as subordinated debt securities, the accompanying prospectus supplement will set forth the approximate amount of our Senior Indebtedness and of its other Indebtedness outstanding as of a recent date.

Secured Indebtedness and Ranking

Certain of our indebtedness, including certain series of indenture securities, may be secured. The prospectus supplement for each series of indenture securities will describe the terms of any security interest for such series and will indicate the approximate amount of our secured indebtedness as of a recent date. Any unsecured indenture securities will effectively rank junior to any secured indebtedness, including any secured indenture securities, that we incur in the future to the extent of the value of the assets securing such future secured indebtedness. Our debt securities, whether secured or unsecured, will rank structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities.

In the event of bankruptcy, liquidation, reorganization or other winding up any of its assets that secure secured debt will be available to pay obligations on unsecured debt securities only after all indebtedness under such secured debt has been repaid in full from such assets. We advise you that there may not be sufficient assets remaining to pay amounts due on any or all unsecured debt securities then outstanding after fulfillment of this obligation. As a result, the holders of unsecured indenture securities may recover less, ratably, than holders of any of our secured indebtedness.

The Trustee under the Indenture

U.S. Bank National Association will serve as the trustee under the indenture.

Certain Considerations Relating to Foreign Currencies

Debt securities denominated or payable in foreign currencies may entail significant risks. These risks include the possibility of significant fluctuations in the foreign currency markets, the imposition or modification of foreign exchange controls and potential illiquidity in the secondary market. These risks will vary depending upon the currency or currencies involved and will be more fully described in the applicable prospectus supplement.

Table of Contents

SHARES ELIGIBLE FOR FUTURE SALE

Sales of substantial amounts of our unregistered common stock in the public market, including by New Mountain Guardian Partners, L.P., or its transferees, or the perception that such sales could occur, could adversely affect the prevailing market price of our common stock and our future ability to raise capital through the sale of its equity securities.

Restricted securities may be sold in the public market only if registered or if they qualify for an exemption from registration under Rule 144 under the Securities Act. Any shares of our common stock to be received by New Mountain Guardian Partners, L.P. or its transferees or the Investment Adviser, if applicable with respect to any shares of our common stock received as payment of the incentive fee, would be eligible for public sale if registered under the Securities Act or sold in accordance with Rule 144 of the Securities Act. We have granted Steven B. Klinsky, an entity related to Mr. Klinsky, the Investment Adviser and their permitted transferees the registration rights described below.

Rule 144

In general, a person who has beneficially owned restricted shares of our common stock for at least six months would be entitled to sell their securities provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the 90 days preceding, a sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least 90 days before the sale. Persons who have beneficially owned restricted shares or our common stock for at least six months but who are our affiliates at the time of, or any time during the 90 days preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of either of the following:

1.0% of the number of shares of our common stock then outstanding; or

the average weekly trading volume of our common stock on the NYSE for the four calendar weeks prior to the sale,

provided, in each case, that we are subject to the Exchange Act periodic reporting requirements for at least 90 days before the sale. Such sales must also comply with the manner of sale, current public information and notice provisions of Rule 144.

Registration Rights

Pursuant to the Registration Rights Agreement entered into in connection with our IPO, the Investment Adviser has the right, subject to various conditions and limitations, to demand the filing of, and include any registerable securities held by the Investment Adviser, if any, in, registration statements relating to our common stock. Furthermore, Steven B. Klinsky and a related entity have the right to "piggyback", or include their own registrable securities in a demand registration. These registration rights could impair the prevailing market price and impair NMFC's ability to raise capital by depressing the price at which it could sell its common stock. Steven B. Klinsky, and an entity related to Steven B. Klinsky have exercised their rights under the Registration Rights Agreement and their respective shares of our common stock are being offered for resale in this prospectus. See "Selling Stockholders" in this prospectus.

Table of Contents

MATERIAL FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a general summary of the material U.S. federal income tax considerations applicable to us and an investment in shares of our common stock. The discussion is based upon the Internal Revenue Code of 1986, as amended, which we refer to as the "Code", the regulations of the U.S. Department of Treasury promulgated thereunder, which we refer to as the "Treasury regulations", the legislative history of the Code, current administrative interpretations and practices of the Internal Revenue Service, which we refer to as the "IRS", (including administrative interpretations and practices of the IRS expressed in private letter rulings which are binding on the IRS only with respect to the particular taxpayers that requested and received those rulings) and judicial decisions, each as of the date of this prospectus and all of which are subject to change or differing interpretations, possibly retroactively, which could affect the continuing validity of this discussion. The U.S. federal income tax laws addressed in this summary are highly technical and complex, and certain aspects of their application to us are not completely clear. In addition, certain U.S. federal income tax consequences described in this summary depend upon certain factual matters, including (without limitation) the value and tax basis ascribed to our assets and the manner in which we operate, and certain complicated tax accounting calculations. We have not sought, and will not seek, any ruling from the IRS regarding any matter discussed in this summary, and this summary is not binding on the IRS. Accordingly, there can be no assurance that the IRS will not assert, and a court will not sustain, a position contrary to any of the tax consequences discussed below. This summary does not purport to be a complete description of all the tax aspects affecting us and our stockholders. For example, this summary does not describe all U.S. federal income tax consequences that may be relevant to certain types of stockholders subject to special treatment under U.S. federal income tax laws, including stockholders subject to the alternative minimum tax, tax-exempt organizations, insurance companies, partnerships or other pass-through entities and their owners, persons that hold shares of our common stock through a foreign financial institution, persons that hold shares of our common stock through a non-financial foreign entity, Non-U.S. stockholders (as defined below) engaged in a trade or business in the U.S. or Non-U.S. stockholders entitled to claim the benefits of an applicable income tax treaty, persons who have ceased to be U.S. citizens or to be taxed as resident aliens, persons holding our common stock in connection with a hedging, straddle, conversion or other integrated transaction, dealers in securities, a trader in securities that elects to use a market-to-market method of accounting for its securities holdings, pension plans and trusts, and financial institutions. This summary assumes that stockholders hold our common stock as capital assets for U.S. federal income tax purposes (generally, assets held for investment) and that all of the parties to the LLC Agreement comply with all of their respective representations, covenants and agreements contained in the LLC Agreement in accordance with their terms. This summary generally does not discuss any aspects of U.S. estate or gift tax or foreign, state or local tax. It does not discuss the special treatment under U.S. federal income tax laws that could result if we invested in tax-exempt securities or certain other investment assets.

A "U.S. stockholder" generally is a beneficial owner of shares of our common stock that is, for U.S. federal income tax purposes:

A citizen or individual resident of the U.S.;

A corporation, or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the U.S. or any state thereof or the District of Columbia;

A trust if (i) a court within the U.S. is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all

Table of Contents

substantive decisions of the trust, or (ii) the trust has in effect a valid election to be treated as a domestic trust for U.S. federal income tax purposes; or

An estate, the income of which is subject to U.S. federal income taxation regardless of its source.

A "Non-U.S. stockholder" generally is a beneficial owner of shares of our common stock that is not a U.S. stockholder or a partnership (or an entity or arrangement treated as a partnership) for U.S. federal income tax purposes.

If a partnership, or other entity or arrangement treated as a partnership for U.S. federal income tax purposes, holds shares of our common stock, the U.S. federal income tax treatment of the partnership and each partner generally will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. A stockholder that is a partnership holding shares of our common stock, and each partner in such a partnership, should consult his, her or its own tax adviser with respect to the tax consequences of the purchase, ownership and disposition of shares of our common stock.

Tax matters are very complicated and the tax consequences to each stockholder of an investment in shares of our common stock will depend on the facts of his, her or its particular situation. You should consult your own tax adviser regarding the specific consequences of such an investment, including tax reporting requirements, the applicability of federal, state, local and foreign tax laws, eligibility for the benefits of any applicable income tax treaty and the effect of any possible changes in the tax laws.

Our Election to be Taxed as a RIC

We have elected to be treated, and intend to comply with the requirements to continue to qualify annually, as a RIC under Subchapter M of the Code. As a RIC, we generally will not pay corporate-level U.S. federal income taxes on any net ordinary income or capital gains that we timely distribute to our stockholders as dividends. Rather, dividends distributed by us generally will be taxable to our stockholders, and any net operating losses, foreign tax credits and other tax attributes of ours generally will not pass through to our stockholders, subject to special rules for certain items such as net capital gains and qualified dividend income recognized by us. See "Taxation of U.S. Stockholders" and "Taxation of Non-U.S. Stockholders" below.

To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements (as described below). In addition, to qualify as a RIC, we must distribute to our stockholders, for each taxable year, at least 90.0% of our "investment company taxable income", which is generally our net ordinary income plus the excess of realized net short-term capital gains over realized net long-term capital losses (the "Annual Distribution Requirement").

Taxation as a RIC

If we:

qualify as a RIC; and

satisfy the Annual Distribution Requirement,

then we will not be subject to U.S. federal income tax on the portion of our income that is timely distributed (or is deemed to be timely distributed) to our stockholders. If we fail to qualify as a RIC, we will be subject to U.S. federal income tax at the regular corporate rates on our income and capital gains.

Edgar Filing: New Mountain Finance Corp - Form 497

Table of Contents

We will be subject to a 4.0% nondeductible federal excise tax on certain undistributed income unless we distribute in a timely manner an amount at least equal to the sum of (1) 98.0% of our net ordinary income for each calendar year, (2) 98.2% of our capital gain net income for the one-year period ending October 31 in that calendar year and (3) any income recognized, but not distributed and on which we did not pay corporate-level U.S. federal income tax, in preceding years (the "Excise Tax Avoidance Requirement"). While we intend to make distributions to our stockholders in each taxable year that will be sufficient to avoid any federal excise tax on our earnings, there can be no assurance that we will be successful in entirely avoiding this tax.

In order to qualify as a RIC for U.S. federal income tax purposes, we must, among other things:

continue to qualify as a BDC under the 1940 Act at all times during each taxable year;

derive in each taxable year at least 90.0% of our gross income from dividends, interest, payments with respect to loans of certain securities, gains from the sale of stock or other securities, net income from certain "qualified publicly traded partnerships", or other income derived with respect to our business of investing in such stock or securities (the "90.0% Income Test"); and

diversify our holdings so that at the end of each quarter of the taxable year:

at least 50.0% of the value of our assets consists of cash, cash equivalents, U.S. government securities, securities of other RICs, and other securities if such other securities of any one issuer do not represent more than 5.0% of the value of our assets or more than 10.0% of the outstanding voting securities of the issuer; and

no more than 25.0% of the value of our assets is invested in the securities, other than U.S. government securities or securities of other RICs, of one issuer, of two or more issuers that are controlled, as determined under applicable Code rules, by us and that are engaged in the same or similar or related trades or businesses or of certain "qualified publicly traded partnerships" (the "Diversification Tests").

NMF Holdings is treated as a disregarded entity for U.S. federal income tax purposes. As a result, NMF Holdings will itself not be subject to U.S. federal income tax and, for U.S. federal income tax purposes, we will take into account all of NMF Holdings' assets and items of income, gain, loss, deduction and credit. In the remainder of this discussion, except as otherwise indicated, references to "we" "us" "our" and "NMFC" include NMF Holdings.

SBIC GP and SBIC LP are treated as disregarded entities for U.S. federal income tax purposes. As a result, both SBIC GP and SBIC LP will themselves not be subject to U.S. federal income tax and, for U.S. federal income tax purposes, we will take into account all of SBIC GP's and SBIC LP's assets and items of income, gain, loss, deduction and credit. In the remainder of this discussion, except as otherwise indicated, references to "we" "us" "our" and "NMFC" include SBIC GP and SBIC LP.

NMF Ancora, NMF QID and NMF YP are Delaware corporations. NMF Ancora, NMF QID and NMF YP are not consolidated for income tax purposes and may each incur U.S. federal, state and local income tax expense with respect to their respective income and expenses earned from investment activities.

A RIC is limited in its ability to deduct expenses in excess of its "investment company taxable income" (which is, generally, ordinary income plus the excess of realized net short-term capital gains over realized net long-term capital losses). If our expenses in a given year exceed our investment company taxable income, we would experience a net operating loss for that year. However, a RIC is not permitted to carry forward net operating losses to subsequent years and

Table of Contents

such net operating losses do not pass through to its stockholders. In addition, expenses can be used only to offset investment company taxable income, not net capital gain. A RIC may not use any net capital losses (that is, realized capital losses in excess of realized capital gains) to offset the RIC's investment company taxable income, but may carry forward such losses, and use them to offset capital gains, indefinitely. Due to these limits on the deductibility of expenses and net capital losses, we may for tax purposes have aggregate taxable income for several years that we are required to distribute and that is taxable to its stockholders even if such income is greater than the aggregate net income we actually earned during those years.

For U.S. federal income tax purposes, we will include in our taxable income certain amounts that we have not yet received in cash. For example, if we hold debt obligations that are treated under applicable tax rules as having original issue discount (such as debt instruments with PIK interest or, in certain cases, increasing interest rates or issued with warrants), we must include in our taxable income in each year the portion of the original issue discount that accrues over the life of the obligation, regardless of whether cash representing such income is received by us in the same taxable year. We may also have to include in our taxable income other amounts that we have not yet received in cash, such as accruals on a contingent payment debt instrument or deferred loan origination fees that are paid after origination of the loan or are paid in non-cash compensation such as warrants or stock. Because original issue discount or other amounts accrued will be included in our investment company taxable income for the year of accrual and before we receive any corresponding cash payments, we may be required to make a distribution to our stockholders in order to satisfy the Annual Distribution Requirement, even though we would not have received any corresponding cash payment.

Accordingly, to enable us to satisfy the Annual Distribution Requirement, we may need to sell some of our assets at times and/or at prices that we would not consider advantageous, we may need to raise additional equity or debt capital or we may need to forego new investment opportunities or otherwise take actions that are disadvantageous to our business (or be unable to take actions that are advantageous to our business). If we are unable to obtain cash from other sources to enable us to satisfy the Annual Distribution Requirement, we may fail to qualify for the U.S. federal income tax benefits allowable to RICs and, thus, become subject to a corporate level U.S. federal income tax (and any applicable state and local taxes).

Because we intend to use debt financing, we may be prevented by financial covenants contained in our debt financing agreements from making distributions to our shareholders. In addition, under the 1940 Act, we are generally not permitted to make distributions to our shareholders while our debt obligations and other senior securities are outstanding unless certain "asset coverage" tests are met. See "Regulation Senior Securities". Limits on distributions to our shareholders may prevent us from satisfying the Annual Distribution Requirement and, therefore, may jeopardize our qualification for taxation as a RIC, or subject us to the 4.0% federal excise tax.

Although we do not presently expect to do so, we may borrow funds and sell assets in order to make distributions to our stockholders that are sufficient for us to satisfy the Annual Distribution Requirement. However, our ability to dispose of assets may be limited by (1) the illiquid nature of our portfolio and/or (2) other requirements relating to our status as a RIC, including the Diversification Tests. If we dispose of assets in order to meet the Annual Distribution Requirement or the Excise Tax Avoidance Requirement, we may make such dispositions at times that, from an investment standpoint, are not advant
