CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Description of Business

CRA International, Inc. ("CRA") is a worldwide leading consulting services firm that applies advanced analytic techniques and in-depth industry knowledge to complex engagements for a broad range of clients. CRA offers services in two broad areas: litigation, regulatory, and financial consulting and management consulting. CRA operates in one business segment. CRA operates its business under its registered trade name, Charles River Associates.

2. Basis of Presentation and Estimates

The accompanying unaudited condensed consolidated financial statements reflect the results of operations, financial position, cash flows, and stockholders' equity as of and for the quarters ending March 31, 2018 and April 1, 2017, respectively. These financial statements have been prepared in accordance with the rules and regulations of the U.S. Securities and Exchange Commission ("SEC") for Quarterly Reports on Form 10-Q. Accordingly, these financial statements do not include all the information and note disclosures required by accounting principles generally accepted in the United States of America ("GAAP") for annual financial statements. In the opinion of management, these financial statements reflect all adjustments of a normal, recurring nature necessary for the fair statement of CRA's results of operations, financial position, cash flows, and stockholders' equity for the interim periods presented in conformity with GAAP. Results of operations for the interim periods presented herein are not necessarily indicative of results of operations for a full year. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 30, 2017 included in our Annual Report on Form 10-K filed with the SEC on March 12, 2018.

The preparation of financial statements in conformity with GAAP requires management to make significant estimates and judgments that affect the reported amounts of assets and liabilities, as well as the related disclosure of contingent assets and liabilities, at the date of the financial statements, and the reported amounts of consolidated revenues and expenses during the reporting period. Estimates in these condensed consolidated financial statements include, but are not limited to, allowances for accounts receivable and unbilled services, revenue recognition on fixed price contracts, depreciation of property and equipment, share-based compensation, valuation of acquired intangible assets, impairment of long lived assets, goodwill, accrued and deferred income taxes, valuation allowances on deferred tax assets, accrued compensation, accrued exit costs, and other accrued expenses. These items are monitored and analyzed by CRA for changes in facts and circumstances, and material changes in these estimates could occur in the future. Changes in estimates are recorded in the period in which they become known. CRA bases its estimates on historical experience and various other assumptions that CRA believes to be reasonable under the circumstances. Actual results may differ from those estimates if CRA's assumptions based on past experience or other assumptions do not turn out to be substantially accurate.

3. Principles of Consolidation

The condensed consolidated financial statements include the accounts of CRA and its wholly owned subsidiaries. In addition, as more fully explained below, the condensed consolidated financial statements include CRA's interest in GNU123 Liquidating Corporation ("GNU", formerly known as

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

3. Principles of Consolidation (Continued)

NeuCo, Inc). All significant intercompany transactions and accounts have been eliminated in consolidation.

CRA's ownership interest in GNU was 55.89% for all periods presented. GNU's financial results have been consolidated with CRA, and the portion of GNU's results allocable to its other owners is shown as "noncontrolling interest."

On April 13, 2016, a buyer acquired substantially all the business assets and assumed substantially all the liabilities of GNU for a purchase price of \$1.35 million. Of this amount, \$1.1 million was received at closing, with the remaining \$0.25 million payable on or after April 13, 2017, subject to contingencies, as outlined in the asset purchase agreement, which remaining amount was paid in full on May 3, 2017. GNU recognized a gain on sale of its business assets of \$0.25 million during the second quarter of fiscal 2017, of which \$0.14 million is attributed to CRA, and received \$3.8 million during the second quarter of fiscal 2016, of which \$2.1 million is attributed to CRA. GNU was dissolved on December 15, 2017. Subsequent to the dissolution, CRA received a partial distribution of \$0.6 million in accordance with the asset purchase agreement. The final distribution is expected to be received during fiscal 2018.

4. Recent Accounting Standards Adopted

Revenue from Contracts with Customers

CRA adopted Accounting Standards Update ("ASU") No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* (ASC 606) on December 31, 2017, using the modified retrospective method for all contracts not completed as of the date of adoption. The reported results for 2018 reflect the application of ASC 606 guidance while the reported results for 2017 were prepared under the guidance of ASC 605, *Revenue Recognition* (ASC 605). The cumulative effect of applying ASC 606 to all contracts with customers that were not completed as of December 30, 2017 amounted to \$0.4 million. The cumulative effect adjustment resulted in an increase to CRA's opening balance of retained earnings of \$0.4 million, net of tax. Prior periods were not retrospectively adjusted.

Statement of Cash Flows (Topic 230): Restricted Cash

CRA adopted ASU No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash* ("ASU 2016-18"). ASU 2016-18 amends ASC 230 to add or clarify guidance on the classification and presentation of restricted cash in the statement of cash flows. The new standard requires cash and cash equivalents balances on the statement of cash flows to include restricted cash and cash equivalent balances. ASU 2016-18 requires the registrant to provide appropriate disclosures about its accounting policies pertaining to restricted cash in accordance with GAAP. Additionally, changes in restricted cash and restricted cash equivalents that result from transfers between cash, cash equivalents, and restricted cash and restricted cash equivalents are not to be presented as cash flow activities in the statement of cash flows. The adoption of ASU 2016-18 did not have a material impact on CRA's financial position, results of operations, cash flows, or disclosures.

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

4. Recent Accounting Standards Adopted (Continued)

Business Combinations (Topic 805): Clarifying the Definition of a Business

CRA adopted ASU No. 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business* ("ASU 2017-01"). ASU 2017-01 clarifies the definition of a business with the objective of adding guidance to assist companies and other reporting organizations with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. Under the amendments, a business is an integrated set of activities and assets that is capable of being conducted and managed for the purpose of providing a return in the form of dividends, lower costs, or other economic benefits directly to investors or other owners, members, or participants. The adoption of ASU 2017-01 did not have a material impact on CRA's financial position, results of operations, cash flows, or disclosures.

Intangibles Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment

CRA adopted ASU No. 2017-04, *Intangibles Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment* ("ASU 2017-04"). ASU 2017-04 simplifies the subsequent measurement of goodwill, and eliminates Step 2 from the goodwill impairment test. Under the amendments, an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. Additionally, an entity should consider income tax effects from any tax-deductible goodwill on the carrying amount of the reporting unit when measuring the goodwill impairment loss, if applicable. The amendment also eliminated the requirements for any reporting unit with a zero or negative carrying amount to perform a qualitative assessment and, if it fails that qualitative test, to perform Step 2 of the goodwill impairment test. Therefore, the same impairment assessment applies to all reporting units. An entity is required to disclose the amount of goodwill allocated to each reporting unit with a zero or negative carrying amount of net assets. The adoption of ASU 2017-04 did not have a material impact on CRA's financial position, results of operations, cash flows, or disclosures.

Compensation Stock Compensation (Topic 718): Scope of Modification Accounting

CRA adopted ASU No. 2017-09, *Compensation Stock Compensation (Topic 718): Scope of Modification Accounting* ("ASU 2017-09"). ASU 2017-09 updates guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. Under the amendments, an entity should account for the effects of a modification unless all the following conditions are met. First, the fair value (or calculated value or intrinsic value, if such an alternative measurement method is used) of the modified award is the same as the fair value (or calculated value or intrinsic value, if such an alternative measurement method is used) of the original award immediately before the original award is modified. If the modification does not affect any of the inputs to the valuation technique that the entity uses to value the award, the entity is not required to estimate the value immediately before and after the modification. Second, the vesting conditions of the modified award are the same as the vesting conditions of the original award immediately before the original award is modified. Third, the classification of the modified award as an equity instrument or a liability instrument is the same as the classification of the original award immediately before the

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

4. Recent Accounting Standards Adopted (Continued)

original award is modified. The adoption of ASU 2017-09 did not have a material impact on CRA's financial position, results of operations, cash flows, or disclosures.

Staff Accounting Bulletin No. 118 (SAB 118)

On December 22, 2017, the SEC staff issued Staff Accounting Bulletin No. 118, "*Income Tax Accounting Implications of the Tax Cuts and Jobs Act*" ("SAB 118"), to address the application of US GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the Tax Cuts and Jobs Act (the "Tax Act"). SAB 118 summarizes a three-step process to be applied at each reporting period to account for and disclose: (1) the effects of the change in tax law for which accounting is complete; (2) provisional amounts (or adjustments to provisional amounts) for the effects of the change in tax law where accounting is not complete, but a reasonable estimate has been determined; and (3) current or deferred tax amounts reflected in accordance with law prior to the enactment of the change in tax law because the accounting of the effects of the change in tax law are not complete and a reasonable estimate has not been determined, together with qualitative disclosure of the effects of the changes in tax law for which the accounting is not complete, the reason why the accounting is not complete, and the additional information that is needed to be obtained, prepared or analyzed in order to complete the accounting. Because the Tax Act was passed late in the fourth quarter of 2017, and ongoing guidance and accounting interpretation are expected over the next 12 months, CRA considers the accounting of deferred tax remeasurements and other items to be incomplete due to the forthcoming guidance and its ongoing analysis of final year-end data and tax positions. Adjustments to these preliminary amounts identified during the measurement period, as defined, will be included as an adjustment to tax expense from continuing operations in the period the amounts are determined. CRA believes that it has made a good faith effort to complete the accounting under ASC 740 with respect to the Tax Act. SAB 118 provides that the measurement period is complete when a company's accounting is complete and in no circumstances, should the measurement period extend beyond one year from the enactment date of the applicable change in tax law.

5. Recent Accounting Standards Not Yet Adopted

Leases (Topic 842)

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-02, *Leases (Topic 842)* ("ASU 2016-02"). ASU 2016-02 establishes a comprehensive new lease accounting model. The new standard clarifies the definition of a lease, requires a dual approach to lease classification similar to current lease classifications, and causes lessees to recognize leases on the balance sheet as a lease liability with a corresponding right-of-use asset for leases with a lease term of more than twelve months. The new standard is effective for interim and annual periods beginning after December 15, 2018. Early adoption is permitted. The new standard requires a modified retrospective transition for capital or operating leases existing at or entered into after the beginning of the earliest comparative period presented in the financial statements, but it does not require transition accounting for leases that expire prior to the date of initial application. CRA has

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

5. Recent Accounting Standards Not Yet Adopted (Continued)

not yet determined the effects, if any, that the adoption of ASU 2016-02 may have on its financial position, results of operations, cash flows, or disclosures.

6. Business Acquisitions

On January 31, 2017, CRA acquired C1 Consulting LLC, an independent consulting firm, and its wholly-owned subsidiary C1 Associates (collectively, "C1") for initial consideration comprised of cash and CRA restricted common stock. The asset purchase agreement provided for additional purchase consideration to be paid for up to four years following the transaction in the form of an earnout, if specific performance targets are met. These earnout payments are payable in cash and CRA restricted common stock. The fair value of this obligation was measured as of the acquisition date and accounted for as a component of the purchase consideration, any adjustments to this initial valuation in future accounting periods will be reported as an adjustment to net income. The purchase price allocation resulted in the recognition of goodwill of \$13.0 million and amortizable intangible assets of \$8.5 million and contingent consideration liability of \$2.4 million.

7. Cash and Cash Equivalents

Cash equivalents consist principally of money market funds with maturities of three months or less when purchased. As of March 31, 2018, a substantial portion of CRA's cash accounts was concentrated at a single financial institution, which potentially exposes CRA to credit risks. The financial institution has a short-term credit rating of A-2 by Standard & Poor's ratings services. CRA has not experienced any losses related to such accounts. CRA does not believe that there is significant risk of non-performance by the financial institution, and its cash on deposit is fully liquid. CRA continually monitors the credit ratings of the institution.

8. Foreign Currency

Results of operations for our non-U.S. subsidiaries are translated from the designated functional currency to the reporting currency of the U.S. dollar. Revenues and expenses are translated at average exchange rates for each month, while assets and liabilities are translated at balance sheet date exchange rates. Resulting net translation adjustments are recorded as a component of stockholders' equity in "Accumulated other comprehensive income (loss)."

Transaction gains and losses arising from currency exchange rate fluctuations on transactions denominated in a currency other than the local functional currency are included in "Foreign currency translation adjustments" on the Condensed Consolidated Statements of Comprehensive Income. Such transaction gains and losses may be realized or unrealized depending upon whether the transaction settled during the period or remains outstanding at the balance sheet date.

9. Fair Value of Financial Instruments

Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurement), then priority to quoted prices for similar instruments in active markets, quoted prices

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

9. Fair Value of Financial Instruments (Continued)

for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market (Level 2 measurement), then the lowest priority to unobservable inputs (Level 3 measurement).

The following table shows CRA's financial instruments as of March 31, 2018 and December 30, 2017 that are measured and recorded in the financial statements at fair value on a recurring basis (in thousands):

	March 31, 2018		
	Quoted Prices in Active Markets for Identical Assets or Liabilities	Significant Other Observable Inputs	Significant Unobservable Inputs
	Level 1	Level 2	Level 3
<i>Assets:</i>			
Money market funds	\$ 24	\$	\$
Total Assets	\$ 24	\$	\$
<i>Liabilities:</i>			
Contingent consideration liability	\$	\$	\$ 5,030
Total Liabilities	\$	\$	\$ 5,030
	December 30, 2017		
	Quoted Prices in Active Markets for Identical Assets or Liabilities	Significant Other Observable Inputs	Significant Unobservable Inputs
	Level 1	Level 2	Level 3
<i>Assets:</i>			
Money market funds	\$ 5,006	\$	\$
Total Assets	\$ 5,006	\$	\$
<i>Liabilities:</i>			
Contingent consideration liability	\$	\$	\$ 5,137
Total Liabilities	\$	\$	\$ 5,137

Edgar Filing: CRA INTERNATIONAL, INC. - Form 10-Q

The fair values of CRA's money market funds are based on quotes received from third-party banks.

The contingent consideration liabilities in the tables above are for estimated future contingent consideration payments related to prior acquisitions. The fair value measurement of this liability is based on significant inputs not observed in the market and thus represents a Level 3 measurement. The significant unobservable inputs used in the fair value measurements of this contingent consideration liability are CRA's measures of the estimated payouts based on internally generated financial projections and discount rates. The fair value of the contingent consideration liability is reassessed on a quarterly basis by CRA using additional information as it becomes available and any change in the fair value estimate is recorded in the earnings of that period.

Table of Contents**CRA INTERNATIONAL, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****9. Fair Value of Financial Instruments (Continued)**

The following table summarizes the changes in the contingent consideration liability over the fiscal quarter ended March 31, 2018 and the fiscal year ended December 30, 2017 (in thousands):

	March 31, 2018	December 30, 2017
Beginning balance	\$ 5,137	\$ 549
Acquisitions		2,357
Remeasurement of acquisition-related contingent consideration	(264)	1,155
Accretion	157	1,328
Payments		(299)
Effects of foreign currency translation		47
Ending balance	\$ 5,030	\$ 5,137

10. Forgivable Loans

Forgivable loan activity for the fiscal quarter ended March 31, 2018 and the fiscal year ended December 30, 2017 is as follows (in thousands):

	March 31, 2018	December 30, 2017
Beginning balance	\$ 28,628	\$ 33,962
Advances	23,028	11,672
Repayments	(3,333)	(2,135)
Reclassification to other assets		(1,100)
Amortization	(3,552)	(14,155)
Effects of foreign currency translation	22	384
Ending balance	\$ 44,793	\$ 28,628

Current portion of forgivable loans	\$ 6,651	\$ 5,540
-------------------------------------	----------	----------

Non-current portion of forgivable loans	\$ 38,142	\$ 23,088
---	-----------	-----------

11. Goodwill and Intangible Assets

The changes in the carrying amount of goodwill during the fiscal quarter ended March 31, 2018, is as follows (in thousands):

Edgar Filing: CRA INTERNATIONAL, INC. - Form 10-Q

	Goodwill, gross	Accumulated impairment losses	Goodwill, net
Balance at December 30, 2017	\$ 165,417	\$ (76,417)	\$ 89,000
Effect of foreign currency translation	527		527
Balance at March 31, 2018	\$ 165,944	\$ (76,417)	\$ 89,527

Table of Contents**CRA INTERNATIONAL, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****11. Goodwill and Intangible Assets (Continued)**

Intangible assets that are separable from goodwill and have determinable useful lives are valued separately and amortized over their expected useful lives. There were no impairment losses related to intangible assets during the first quarter of fiscal 2018 or the first quarter of fiscal 2017.

The components of acquired identifiable intangible assets are as follows (in thousands):

	March 31, 2018	December 30, 2017
Non-competition agreements, net of accumulated amortization of \$490 and \$464, respectively	\$ 233	\$ 260
Customer relationships, net of accumulated amortization of \$3,472 and \$3,172, respectively	8,648	8,948
Total, net of accumulated amortization of \$3,962 and \$3,636, respectively	\$ 8,881	\$ 9,208

12. Accrued Expenses

Accrued expenses consist of the following (in thousands):

	March 31, 2018	December 30, 2017
Compensation and related expenses	\$ 51,346	\$ 80,105
Income taxes payable	275	153
Other	15,917	14,315
Total	\$ 67,538	\$ 94,573

As of March 31, 2018 and December 30, 2017, approximately \$29.0 million and \$63.8 million, respectively, of accrued bonuses were included above in "Compensation and related expenses".

13. Credit Agreement

CRA is party to a credit agreement that provides CRA with a \$125.0 million revolving credit facility and a \$15.0 million sublimit for the issuance of letters of credit. CRA may use the proceeds of the revolving credit facility to provide working capital and for other general corporate purposes. CRA may repay any borrowings under the revolving credit facility at any time, but no later than October 24, 2022. There were \$10.0 million in borrowings outstanding under this revolving credit facility as of March 31, 2018. There were no outstanding borrowings on this facility as of December 30, 2017.

As of March 31, 2018, the amount available under this revolving credit facility was reduced by certain letters of credit outstanding, which amounted to \$3.6 million. Under the credit agreement, CRA must comply with various financial and non-financial covenants. Compliance with these financial covenants is tested on a fiscal quarterly basis. As of March 31, 2018 and December 30, 2017, CRA was in compliance with the covenants of its credit agreement.

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

14. Revenue Recognition

CRA offers consulting services in two broad areas: litigation, regulatory, and financial consulting and management consulting. Together, these two service areas comprised all of CRA's consolidated revenues during the fiscal quarter ended March 31, 2018. CRA recognizes all project revenue on a gross basis based on consideration of the criteria set forth in ASC Topic 606-10-55, *Principal versus Agent Considerations*.

CRA evaluates its revenue contracts with customers based on the five-step model under ASC 606: (1) Identify the contract with the customer; (2) Identify the performance obligations in the contract; (3) Determine the transaction price; (4) Allocate the transaction price to separate performance obligations; and (5) Recognize revenue when (or as) each performance obligation is satisfied. CRA evaluates its contracts for legal enforceability at contract inception and subsequently throughout the CRA's relationship with its customers. If legal enforceability with regards to the rights and obligations exist for both CRA and the customer, then CRA has an enforceable contract and revenue recognition is permitted subject to the satisfaction of the other criteria. If, at the outset of an arrangement, CRA determines that a contract with enforceable rights and obligations does not exist, revenues are deferred until all criteria for an enforceable contract are met.

Revenue is recognized when, or as, obligations under the terms of a contract are satisfied, which occurs when control of the promised consulting services are transferred to customers. Revenue is measured as the amount of consideration CRA expects to receive in exchange for transferring consulting services to a customer ("transaction price"). To the extent the transaction price includes variable consideration, CRA estimates the amount of variable consideration that should be included in the transaction price utilizing the most likely amount to which it expects to be entitled. Variable consideration is included in the transaction price if, in CRA's judgment, it is probable that a significant future reversal of cumulative revenue under the contract will not occur. Estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of CRA's anticipated performance and all information (historical, current and forecasted) that is reasonably available. Sales, value add, and other taxes collected on behalf of third parties are excluded from revenue.

When determining the transaction price of a contract, an adjustment is made if payment from a customer occurs either significantly before or significantly after performance, resulting in a significant financing component. Applying the practical expedient in paragraph 606-10-32-18, CRA does not assess whether a significant financing component exists if the period between when it performs its obligations under the contract and when the customer pays is one year or less. None of the CRA's contracts contained a significant financing component as of March 31, 2018.

If the contract contains a single performance obligation, the entire transaction price is allocated to the single performance obligation. Contracts that contain multiple performance obligations require an allocation of the transaction price based on the estimated relative standalone selling prices of the promised consulting services underlying each performance obligation. CRA determines standalone selling prices based on the price at which the performance obligation is sold separately. If the standalone selling price is not observable through past transactions, CRA estimates the standalone selling price considering all available information such as market conditions and internally approved pricing guidelines related to the performance obligations.

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

14. Revenue Recognition (Continued)

Contracts are often modified to account for changes in project scope. Contract modifications exist when the modification either creates new or changes the existing enforceable rights and obligations. Generally, contract modifications for consulting services are not distinct from the existing contract as the modification expands CRA's consulting services and thus are accounted for as if they were part of that existing contract. The effect of a contract modification on the transaction price and measure of progress for the performance obligation to which it relates is recognized as an adjustment to revenue on a cumulative catch-up basis.

Consulting services revenue is generally recognized over time as the services are delivered to the customer based on the extent of progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgment and is based on the nature of the consulting services to be provided. Depending on which better depicts the transfer of value to the customer, CRA generally measures its progress using either right-to-invoice for time and materials projects, or cost-to-cost for fixed-price projects. CRA uses the right-to-invoice measure of progress when it has a right to invoice the customer for an amount that corresponds directly with the value to the customer of its performance to date. Under the right-to-invoice measure of progress, revenues are recorded equal to the amount CRA could invoice the customer. CRA uses the cost-to-cost measure of progress when it best depicts the transfer of value to the customer which occurs as it incurs costs on its contract. Under the cost-to-cost measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues are recorded proportionally as costs are incurred.

Consulting Services Revenues

The contracts CRA enters into and operates under specify whether the engagements are billed on a time-and-materials or a fixed-price basis. Most of CRA's revenue is derived from time-and-materials service contracts. Revenues from time-and-materials service contracts are recognized as services are provided based upon hours worked and contractually agreed-upon hourly rates, as well as indirect fees based upon hours worked. Revenues from a majority of CRA's fixed-price engagements are recognized on a proportional performance method based on the ratio of costs incurred (input method), substantially all of which are labor-related, to the total estimated project costs. In general, project costs are classified in costs of services and are based on the direct salary of our employee consultants on the engagement plus all direct expenses incurred to complete the engagement, including any amounts billed to CRA by its non-employee experts.

Disaggregation of Revenue

The following table disaggregates CRA's revenue by major business line and timing of transfer of its consulting services. Refer to Note 12 to CRA's consolidated financial statements included in the

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

14. Revenue Recognition (Continued)

annual report on Form 10-K for fiscal 2017, which was filed with the SEC on March 12, 2018, for further detail on revenues by geographical location (in thousands).

	Fiscal Quarter Ended	
	March 31, 2018	April 1, 2017(1)
Type of Contract		
Consulting services revenues		
Fixed Price	\$ 20,714	\$ 18,774
Time-and-materials	78,762	69,397
Total	\$ 99,476	\$ 88,171

	Fiscal Quarter Ended	
	March 31, 2018	April 1, 2017(1)
Geographic Breakdown		
Consulting services revenues		
United States	\$ 76,860	\$ 72,628
United Kingdom	17,505	10,542
Other	5,111	5,001
Total	\$ 99,476	\$ 88,171

(1)

As noted above, prior period amounts have not been adjusted under the modified retrospective method.

Reserves for Variable Consideration and Credit Risk

Revenues from our consulting services are recorded at the net sales price, or transaction price, which includes estimates of variable consideration for which reserves are established and result from price concessions that are extended to our customers. These reserves on the variable consideration components subject to constraint are classified as reductions of accounts receivable. These calculated estimates take into consideration CRA's historical experiences of prior period revenues which were subsequently reversed due to these price concessions. Overall, these reserves reflect CRA's best estimates of the amount of consideration to which it is entitled based on the terms of its contracts with its customers. The amount of variable consideration which is included in the transaction price may be constrained, and is included in the net sales price only to the extent that it is probable that a significant reversal in the amount of the cumulative revenue recognized will not occur in a future period. Actual amounts of consideration ultimately received may differ from its estimates. If actual results in the future vary from the its estimates, CRA adjusts these estimates, which would affect net revenue and earnings in the period such variances become known.

Edgar Filing: CRA INTERNATIONAL, INC. - Form 10-Q

CRA's billed and unbilled receivables consist of receivables from a broad range of clients in a variety of industries located throughout the U.S. and in other countries. CRA performs a credit evaluation of its clients to minimize its collectability risk. Periodically, CRA will require advance

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

14. Revenue Recognition (Continued)

payment from certain clients. However, CRA does not require collateral or other security. CRA maintains accounts receivable allowances for estimated losses and disputed amounts resulting from clients' failures to make required payments. CRA bases its estimates on historical collection experience, current trends, and credit policy. In determining these estimates, CRA examines historical write-offs of its receivables and reviews client accounts to identify any specific customer collection issues. If the financial condition of any of CRA's customers were to deteriorate, resulting in an impairment of their ability or intent to make payment, additional allowances may be required.

Generally, accounts and unbilled receivables allowances are recorded as a reduction to revenues. During the first quarter of 2018, \$0.3 million was recorded as a bad debt expense and reported as a component of selling, general and administrative expenses related to credit-related losses.

Revenues also include reimbursable expenses, which include travel and other out-of-pocket expenses, outside consultants, and other reimbursable expenses. Reimbursable expenses are as follows (in thousands):

	Fiscal Quarter Ended	
	March 31, 2018	April 1, 2017
Reimbursable expenses	\$ 11,229	\$ 9,140

CRA collects goods and services and value added taxes from customers and records these amounts on a net basis, which is within the scope of ASC Topic 606-10-55, *Principal versus Agent Considerations*.

Transaction Price Allocated to Future Performance Obligations

ASC 606 requires that CRA disclose the aggregate amount of transaction price that is allocated to performance obligations that have not yet been satisfied as of March 31, 2018. The guidance provides certain practical expedients that limit this requirement for (1) contracts with an original expected length of one year or less and (ii) contracts for which revenue is recognized at the amount to which CRA has the right to invoice for consulting services performed. Given the nature of its business, CRA does not disclose the value of unsatisfied performance obligations as the practical expedients apply to its unsatisfied performance obligations as of March 31, 2018.

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

14. Revenue Recognition (Continued)*Contract Balances from Contracts with Customers*

The following table presents changes in CRA's contract assets and contract liabilities during the fiscal quarter ended March 31, 2018 (in thousands):

Fiscal Quarter Ended March 31, 2018	Balance at Beginning of Period	Additions	Deductions	Balance at End of Period
Contract assets:				
Accounts receivable	\$ 87,181	\$ 97,956	\$ 100,721	\$ 84,416
Allowance for doubtful accounts	7,378	1,031	1,497	6,912
Accounts receivable, net of allowances	\$ 79,803	\$ 96,925	\$ 99,224	\$ 77,504
Unbilled services	\$ 35,276	\$ 148,308	\$ 138,238	\$ 45,346
Unbilled receivables allowance	1,746	1,583	670	2,659
Unbilled services, net of allowances	\$ 33,530	\$ 146,725	\$ 137,568	\$ 42,687
Contract liabilities:				
Deferred revenue	\$ 6,896	\$ 15,301	\$ 17,399	\$ 4,798

During the fiscal quarter ended March 31, 2018, CRA recognized the following revenue as a result of changes in the contract asset and the contract liability balances (in thousands):

	March 31, 2018
Revenue recognized in the period from:	
Amounts included in the contract liability at the beginning of the period	\$ 2,858
Performance obligations satisfied in previous periods	\$ 2,135

The timing of revenue recognition, billings and cash collections results in billed receivables, contract assets and contract liabilities on the condensed consolidated balance sheets.

When consideration is received, or such consideration is unconditionally due from a customer prior to transferring consulting services to the customer under the terms of a contract, a contract liability is recorded. Contract liabilities are recognized as revenue after control of the consulting services are transferred to the customer and all revenue recognition criteria have been met.

Costs to Obtain or Fulfill a Customer Contract

Prior to the adoption of ASC 606, CRA expensed bonuses paid to its employees. Under ASC 606, bonuses are not linked or paid based on specific contract billings or revenues and therefore do not represent incremental costs of obtaining a contract with a customer. Furthermore, even

Edgar Filing: CRA INTERNATIONAL, INC. - Form 10-Q

if the bonuses paid were incremental, the practical expedient in paragraph 340-40-25-4 would apply, allowing for incremental costs of obtaining contracts to be expensed as incurred if the amortization period of the assets that it otherwise would have recognized is one year or less. As such, these costs are included in both cost of services and selling, general, and administrative expenses.

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

15. Net Income per Share

CRA calculates basic and diluted earnings per common share using the two-class method. Under the two-class method, net earnings are allocated to each class of common stock and participating security as if all the net earnings for the period had been distributed. CRA's participating securities consist of unvested share-based payment awards that contain a nonforfeitable right to receive dividends and therefore are considered to participate in undistributed earnings with common shareholders. Basic earnings per common share excludes dilution and is calculated by dividing net earnings allocable to common shares by the weighted-average number of common shares outstanding for the period. Diluted earnings per common share is calculated by dividing net earnings allocable to common shares by the weighted-average number of common shares as of the balance sheet date, as adjusted for the potential dilutive effect of non-participating share-based awards. Net earnings allocable to these participating securities were not significant for the first quarter of fiscal 2018 or fiscal 2017.

The following table presents a reconciliation from net income to the net income available to common shareholders (in thousands):

	March 31, 2018	April 1, 2017
Net income, as reported	\$ 4,886	\$ 2,853
Less: net income attributable to participating shares	29	20
Net income available to common shareholders	\$ 4,857	\$ 2,833

The following presents a reconciliation of basic to diluted weighted average shares of common stock outstanding (in thousands):

	March 31, 2018	April 1, 2017
Basic weighted average shares outstanding	8,285	8,419
Stock options and restricted stock units	295	202
Diluted weighted average shares outstanding	8,580	8,621

For the first quarter ended March 31, 2018, the anti-dilutive share based awards that were excluded from the calculation of common stock equivalents for purposes of computing diluted weighted average shares outstanding amounted to 5,689 shares. For the first quarter ended April 1, 2017, the anti-dilutive share based awards that were excluded from the calculation of common stock equivalents for purposes of computing diluted weighted average shares outstanding amounted to 8,234 shares. These share-based awards each period were anti-dilutive because their exercise price exceeded the average market price over the respective period.

On May 3, 2017 and February 15, 2018, CRA announced its Board of Directors authorized the repurchase of up to an additional \$20.0 million and \$20.0 million, respectively, of CRA's common stock. Repurchases under these programs are discretionary and CRA may make such purchases under any of these programs in the open market (including under any Rule 10b5-1 plan adopted by CRA) or in privately negotiated transactions, in each case in accordance with applicable insider trading and other securities laws and regulations. CRA records the retirement of its repurchased shares as a reduction to common stock. During the first quarter ended March 31, 2018, CRA repurchased and retired 162,892

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

15. Net Income per Share (Continued)

shares under these share repurchase programs at an average price per share of \$51.13 and in the first quarter ended April 1, 2017, there were no shares repurchased or retired under these share repurchase programs. As of March 31, 2018, there was approximately \$21.2 million available for future repurchases under these programs.

16. Income Taxes

Effects of the Tax Cuts and Jobs Act

On December 22, 2017, the Tax Cuts and Jobs Act (the "Tax Act") was signed into U.S. law. The Tax Act significantly changes the Internal Revenue Code of 1986, as amended. The Tax Act, among other things, includes changes to the U.S. corporate tax rate, expands limitations on the deductibility of meals and entertainment, eliminates the exception to the section 162(m) limitation on the deductibility of the compensation paid to certain executive officers for "qualified performance-based compensation," allows for the expensing of capital expenditures, the migration from a "worldwide" system of taxation to a territorial system, and a one-time transition tax on the mandatory deemed repatriation of cumulative foreign earnings as of December 31, 2017. ASC Topic 740, "Accounting for Income Taxes," requires companies to recognize the effect of tax law changes in the period of enactment even though the effective date for most provisions is for tax years beginning after December 31, 2017, or in the case of certain other provisions of the law, January 1, 2018.

Given the significance of the legislation, the U.S. Securities and Exchange Commission staff issued Staff Accounting Bulletin No. 118 ("SAB 118"), which allows registrants to record provisional amounts during a one year "measurement period" similar to that used when accounting for business combinations. However, the measurement period is deemed to have ended earlier when the registrant has obtained, prepared, and analyzed the information necessary to finalize its accounting. During the measurement period, impacts of the law are expected to be recorded at the time a reasonable estimate for all or a portion of the effects can be made, and provisional amounts can be recognized and adjusted as information becomes available, prepared, or analyzed.

SAB 118 summarizes a three-step process to be applied at each reporting period to account for and disclose: (1) the effects of the change in tax law for which accounting is complete; (2) provisional amounts (or adjustments to provisional amounts) for the effects of the change in tax law where accounting is not complete, but a reasonable estimate has been determined; and (3) current or deferred tax amounts reflected in accordance with law prior to the enactment of the change in tax law because the accounting of the effects of the change in tax law are not complete and a reasonable estimate has not been determined, together with qualitative disclosure of the effects of the changes in tax law for which the accounting is not complete, the reason why the accounting is not complete, and the additional information that is needed to be obtained, prepared or analyzed in order to complete the accounting. CRA is applying the guidance in SAB 118 when accounting for the enactment-date effects of the Tax Act. As of March 31, 2018, CRA has not completed its accounting for all the tax effects of the Tax Act; however, in certain cases, as described below, aspects of accounting are complete. Additionally, CRA has made a reasonable estimate of other effects. As further discussed below, during the three-month period ended March 31, 2018, CRA recognized an adjustment of \$53,000 to the provisional amounts recorded at December 30, 2017 and included this adjustment as a component of income tax expense from continuing operations. In all cases, CRA will continue to make and refine its calculations as

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

16. Income Taxes (Continued)

additional analysis is completed. CRA's estimates may also be affected as it gains a more thorough understanding of the tax law. These changes could be material to income tax expense.

Deferred tax assets and liabilities: CRA remeasured its U.S. related deferred tax assets and liabilities based on the expected rates at which they may reverse in the future, which is generally 21%. CRA recorded a provisional amount of \$3.6 million as of December 30, 2017 related to the remeasurement of its deferred tax balances. Upon refinement of its calculations during the three months ended March 31, 2018, CRA adjusted its provisional amount by \$53,000, which is included as a component of income tax expense from continuing operations. CRA will continue to analyze and refine its calculations related to the measurement of our deferred tax balances.

Foreign Tax Effects

The Tax Act includes a one-time mandatory repatriation transition tax on the net accumulated earnings and profits of a U.S. taxpayer's foreign subsidiaries. At December 30, 2017, CRA did not record any transition tax liability as it believes it is in an accumulated deficit position with respect to its foreign subsidiaries based on its E&P analysis. CRA considers its accounting for the transition tax to be complete.

The Tax Act subjects a US shareholder to current tax on global intangible low-taxed income ("GILTI") earned by certain foreign subsidiaries. The FASB Staff Q&A, Topic 740 No. 5, Accounting for Global Intangible Low-Taxed Income, states that an entity can make an accounting policy election to either recognize deferred taxes for temporary differences expected to reverse as GILTI in future years or provide for the tax expense related to GILTI resulting from those items in the year the tax is incurred. Given the complexity of the GILTI provisions, we are still evaluating the effects of the GILTI provisions and have not yet determined our accounting policy. At March 31, 2018, because we are still evaluating the GILTI provisions and our analysis of future taxable income that is subject to GILTI, we have included GILTI related to current-year operations only in our estimated annual effective tax rate ("EAETR") and have not provided additional GILTI on deferred items.

The Tax Act allows US Corporations to take a deduction related to its foreign-derived intangible income ("FDII") produced in the US. CRA expects to be able to take FDII deduction for the year ended December 29, 2018. CRA has made sufficient progress in its calculations to reasonably estimate the effect on its estimated annual effective tax rate but will continue to refine its calculations, which may result in changes to this amount.

CRA's effective income tax rates were 17.5% and 38.6% for the first quarters of fiscal 2018 and fiscal 2017, respectively. The effective tax rate for the first quarter of fiscal 2018 was lower than the prior year primarily due to a lower statutory US corporate tax rate of 21% as well as an increased tax benefit on stock-based compensation related to the adoption of ASU 2016-09, partially offset by higher non-deductible items as a result of the Tax Act, including limitations on the deductibility of compensation paid to executive officers, and limitations on the deductibility of meals and entertainment. The effective tax rate in the first quarter of fiscal 2018 was lower than the combined federal and state statutory tax rate primarily due to the tax benefit on stock-based compensation related to the adoption of ASU 2016-09, partially offset by non-deductible items referenced above as a

Table of Contents

CRA INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

16. Income Taxes (Continued)

result of the Tax Act. The effective tax rate in the first quarter of fiscal 2017 was lower than the combined federal and state statutory tax rate due to a favorable geographical mix of earnings.

CRA has not provided for deferred income taxes or foreign withholding taxes on undistributed earnings and other basis differences that may exist from its foreign subsidiaries as of March 31, 2018 because such earnings are considered to be indefinitely reinvested. CRA does not rely on these unremitted earnings as a source of funds for its domestic business as it expects to have sufficient cash flow in the U.S. to fund its U.S. operational and strategic needs. If CRA were to repatriate its foreign earnings that are indefinitely reinvested, it would accrue substantially no additional tax expense.

17. Contingencies

CRA is subject to legal actions arising in the ordinary course of business. In management's opinion, CRA believes it has adequate legal defenses and/or insurance coverage with respect to the eventuality of such actions. CRA does not believe any settlement or judgment relating to any pending legal action would materially affect its financial position or results of operations.

18. Correction

During the first quarter, CRA discovered the December 30, 2017 balances of deferred compensation and other non-current liabilities of \$20,656 thousand and deferred rent and facility-related non-current liabilities of \$11,526 thousand had been transposed. These immaterial offsetting errors had a net effect of \$0 on non-current liabilities and total liabilities and have been revised as follows in the presentation of the December 30, 2017 balance sheet in this quarterly report on Form 10-Q (in thousands):

	As previously reported	As revised
Deferred compensation and other non-current liabilities	\$ 20,656	\$ 11,526
Deferred rent and facility-related non-current liabilities	11,526	20,656

19. Subsequent Events

On April 26, 2018, CRA's Board of Directors declared a quarterly cash dividend of \$0.17 per share of CRA's common stock, payable on June 15, 2018 to shareholders of record as of May 29, 2018.

During the month of April 2018, CRA made borrowings of \$13.0 million in the U.S. and £5.0 million in the U.K. on its existing revolving line of credit to fund operations. These borrowings are expected to be repaid over the next twelve months in accordance with the terms of the agreement.

During the month of April 2018, CRA repurchased and retired 215,585 shares under its share repurchase program at an average price per share of \$55.99. As of May 8, 2018, there was approximately \$9.1 million available for future repurchases under this program.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

Except for historical facts, the statements in this quarterly report are forward-looking statements. Forward-looking statements are merely our current predictions of future events. These statements are inherently uncertain, and actual events could differ materially from our predictions. Important factors that could cause actual events to vary from our predictions include those discussed below under the heading "Risk Factors." We assume no obligation to update our forward-looking statements to reflect new information or developments. We urge readers to review carefully the risk factors described in the other documents that we file with the Securities and Exchange Commission, or SEC. You can read these documents at www.sec.gov.

Our principal Internet address is www.crai.com. Our website provides a link to a third-party website through which our annual, quarterly, and current reports, and amendments to those reports, are available free of charge. We believe these reports are made available as soon as reasonably practicable after we file them electronically with, or furnish them to, the SEC. We do not maintain or provide any information directly to the third-party website, and we do not check its accuracy.

Our website also includes information about our corporate governance practices. The Investor Relations page of our website provides a link to a web page where you can obtain a copy of our code of business conduct and ethics applicable to our principal executive officer, principal financial officer, and principal accounting officer.

Critical Accounting Policies and Significant Estimates

The discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the U.S. ("U.S. GAAP"). The preparation of these financial statements requires us to make significant estimates and judgments that affect the reported amounts of assets and liabilities, as well as the related disclosure of contingent assets and liabilities, at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Estimates in these condensed consolidated financial statements include, but are not limited to, allowances for accounts receivable and unbilled services, revenue recognition on fixed price contracts, depreciation of property and equipment, share-based compensation, valuation of acquired intangible assets, impairment of long lived assets, goodwill, accrued and deferred income taxes, valuation allowances on deferred tax assets, accrued compensation, accrued exit costs, and other accrued expenses. These items are monitored and analyzed by management for changes in facts and circumstances, and material changes in these estimates could occur in the future. Changes in estimates are recorded in the period in which they become known. We base our estimates on historical experience and various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from our estimates if our assumptions based on past experience or our other assumptions do not turn out to be substantially accurate.

Apart from the additional revenue recognition accounting policy included below, we have described our significant accounting policies in Note 1 to our consolidated financial statements included in our annual report on Form 10-K for fiscal 2017, which was filed with the SEC on March 12, 2018. We have reviewed our accounting policies, identifying those that we believe to be critical to the preparation and understanding of our consolidated financial statements in the list set forth below. See the disclosure under the heading "Critical Accounting Policies" in Item 7 of Part II of our Annual Report on Form 10-K for fiscal 2017 for a detailed description of these policies and their potential effects on our results of operations and financial condition.

Revenue recognition and allowances for accounts receivable and unbilled services

Share-based compensation expense

Deferred compensation

Table of Contents

Valuation of goodwill and other intangible assets

Accounting for income taxes

Except for the adoption of ASC 606, we did not adopt any changes in the fiscal quarter ended March 31, 2018 that had a material effect on these critical accounting policies, nor did we make any changes to our accounting policies in the fiscal quarter ended March 31, 2018 that changed these critical accounting policies.

Revenue from Contracts with Customers

We adopted Accounting Standards Update ("ASU") No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* (ASC 606) on January 1, 2018, using the modified retrospective method for all contracts not completed as of the date of adoption. The reported results for 2018 reflect the application of ASC 606 guidance while the reported results for 2017 were prepared under the guidance of ASC 605, *Revenue Recognition* (ASC 605). The cumulative effect of applying ASC 606 to all contracts with customers that were not completed as of December 30, 2017 amounted to \$0.4 million. The cumulative effect adjustment will result in an increase to our opening balance of retained earnings of \$0.4 million, net of tax. Prior periods will not be retrospectively adjusted. See Note 14 of the consolidated condensed financial statements for a complete description of our accounting policy.

Recent Accounting Standards

See Note 5 to our condensed consolidated financial statements included in this quarterly report on Form 10-Q for a discussion of recent accounting standards that we have not yet adopted. Additionally, Note 5 should be read in conjunction with the disclosure under the heading "Recent Accounting Standards" contained in Note 1 of the consolidated financial statements and the notes contained in our Annual Report on Form 10-K for the fiscal year ended December 30, 2017.

Results of Operations For the Fiscal Quarter Ended March 31, 2018 Compared to the Fiscal Quarter Ended April 1, 2017

The following table provides operating information as a percentage of revenues for the periods indicated:

	Fiscal Quarter Ended	
	March 31, 2018	April 1, 2017
Revenues	100.0%	100.0%
Costs of services (exclusive of depreciation and amortization)	69.8	71.0
Selling, general and administrative expenses	21.8	21.2
Depreciation and amortization	2.2	2.2
Income from operations	6.2	5.6
Other expense, net	(0.3)	(0.3)
Income before provision for income taxes	6.0	5.2
Provision for income taxes	1.0	2.0
Net income	4.9	3.2
Net loss attributable to noncontrolling interest, net of tax	0.0	0.0
Net income attributable to CRA International, Inc.	4.9%	3.2%

Table of Contents**Fiscal Quarter Ended March 31, 2018 Compared to the Fiscal Quarter Ended April 1, 2017**

Revenues. Revenues increased by \$11.3 million, or 12.8%, to \$99.5 million for the first quarter of fiscal 2018 from \$88.2 million for the first quarter of fiscal 2017. The increase in net revenue was a result of an increase in gross revenues of \$12.3 million as compared to the first quarter of fiscal 2017, while write-offs and reserves increased by \$1.0 million compared to the first quarter of 2017. Utilization increased to 73% for the first quarter of fiscal 2018 from 72% for the first quarter of fiscal 2017, while consultant headcount grew modestly from 627 at the end of the first quarter of fiscal 2017 to 647 at the end of the first quarter of fiscal 2018. We benefited from a full quarter of productivity from the consultant employees that joined us from C1 in February 2017. Client service hours increased by 6.8% for the first quarter 2018 when compared to the first quarter 2017.

Overall, revenues outside of the U.S. represented approximately 23% of total revenues for the first quarter of fiscal 2018 compared with approximately 18% of total revenues for the first quarter of fiscal 2017. Revenues derived from fixed-price engagements increased to 21% of total revenues for the first quarter of fiscal 2018 compared with 19% of total revenues for the first quarter of fiscal 2017. These percentages of revenue derived from fixed-price engagements depend largely on the proportion of our revenues derived from our management consulting business, which typically has a higher concentration of fixed-price service contracts.

Costs of Services. Costs of services increased by \$6.8 million, or 10.9%, to \$69.4 million for the first quarter of fiscal 2018 from \$62.6 million for the first quarter of fiscal 2017. The increase in costs of services was due primarily to an increase of \$2.9 million in employee compensation and fringe benefit costs attributable to salaries and benefits associated with our increased consulting headcount, and an increase in incentive and retention compensation costs of \$2.5 million, offset by a decrease in forgivable loan amortization of \$0.3 million and in contingent consideration valuation of \$0.3 million. Additionally, client reimbursable expenses increased by \$2.1 million in the first quarter of fiscal 2018 compared to the first quarter of fiscal 2017. As a percentage of revenues, costs of services decreased to 69.8% for the first quarter of fiscal 2018 from 71.0% for the first quarter of fiscal 2017.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$3.0 million, or 16.0%, to \$21.7 million for the first quarter of fiscal 2018 from \$18.7 million for the first quarter of fiscal 2017. A significant contributor to this increase was a \$0.5 million increase in employee and incentive compensation, a \$1.7 million increase in rent expense due to \$0.6 million related to net costs related to a lease recapture and increased rent due to additional space in our New York, San Francisco, Chicago and London offices, as well as an increase in commissions to our nonemployee experts of \$0.3 million for the first quarter of fiscal 2018 as compared to the first quarter of fiscal 2017, as a higher percentage of our revenue for the quarter was sourced by our nonemployee experts.

As a percentage of revenues, selling, general and administrative expenses increased slightly to 21.8% for the first quarter of fiscal 2018 from 21.2% for the first quarter of fiscal 2017 due primarily to the aforementioned increase in selling, general and administrative expenses somewhat offset by the effect of an increase in revenues in the first quarter of fiscal 2018 as compared with the first quarter of fiscal 2017. Commissions to our nonemployee experts decreased slightly to 3.0% of revenues for the first quarter of fiscal 2018 compared to 3.1% of revenues for the first quarter of fiscal 2017.

Provision for Income Taxes. The income tax provision was \$1.0 million and the effective tax rate was 17.5% for the first quarter of fiscal 2018 compared to \$1.8 million and 38.6% for the first quarters of fiscal 2017. The effective tax rate for the first quarter of fiscal 2018 was lower than the prior year primarily due to a lower statutory US corporate tax rate of 21% as well as higher tax benefit on stock-based compensation related to the adoption of ASU 2016-09, partially offset by higher non-deductible items as a result of the Tax Act in the first quarter of fiscal 2018. The effective tax rate in the first

Table of Contents

quarter of fiscal 2018 was lower than the combined federal and state statutory tax rate due to a favorable geographical mix of earnings as well as tax benefit on stock-based compensation related to the adoption of ASU 2016-09, partially offset by non-deductible items. The effective tax rate in the first quarter of fiscal 2017 was lower than the combined federal and state statutory tax rate due to a favorable geographical mix of earnings.

Net Income Attributable to CRA International, Inc. Net income attributable to CRA International, Inc. increased by \$2.0 million to \$4.9 million for the first quarter of fiscal 2018 from \$2.9 million for the first quarter of fiscal 2017. The net income per diluted share was \$0.57 per share for the first quarter of fiscal 2018, compared to \$0.33 of net income per diluted share for the first quarter of fiscal 2017. Weighted average diluted shares outstanding decreased by approximately 41,000 shares to approximately 8,580,000 shares for the first quarter of fiscal 2018 from approximately 8,621,000 shares for the first quarter of fiscal 2017. The decrease in weighted average diluted shares outstanding was primarily due to the full benefit from the share repurchases of common stock in the remainder of fiscal 2017, offset in part by an increase as a result of shares of restricted stock and time-vesting restricted stock units that have vested or that have been issued as part of the long-term incentive plan or C1 acquisition, and stock options that have been exercised, since the first quarter of fiscal 2017.

Liquidity and Capital Resources

We believe that our current cash, cash equivalents, cash generated from operations, and amounts available under our bank revolving line of credit will be sufficient to meet our anticipated working capital and capital expenditure requirements for at least the next 12 months.

General. In the fiscal quarter ended March 31, 2018, cash and cash equivalents decreased by \$43.2 million. We completed the period with cash and cash equivalents of \$10.9 million and working capital (defined as current assets less current liabilities) of \$44.2 million. The principal drivers of the reduction of cash was payment of a significant portion of our fiscal 2017 performance bonuses in the first quarter of 2018, the repurchase of shares, the funding of forgivable loans and the buildout costs of our Chicago and London offices.

Of the total cash and cash equivalents of \$10.9 million at March 31, 2018, \$2.1 million was held within the U.S. We have sufficient sources of liquidity in the U.S., including cash from operations and availability on our revolving line of credit, to fund U.S. activities. At March 31, 2018, we had outstanding borrowings on the revolving line of credit of \$10.0 million, which is expected to be paid within twelve months of borrowings.

Sources and Uses of Cash. During the fiscal quarter ended March 31, 2018, net cash used in operating activities was \$40.5 million. Net income was \$4.9 million for the fiscal quarter ended March 31, 2018. The primary factor in cash used in operations was the decrease in the "accounts payable, accrued expenses, and other liabilities" line item of the cash flow statement of \$31.1 million due to the payment of a significant portion of our fiscal 2017 performance bonuses during the first quarter of fiscal 2018. Other uses of cash included an increase of \$8.9 million in unbilled receivables. Offsetting these uses of cash was a \$1.0 million decrease in the prepaid expenses and other current assets, and other assets and a \$3.6 million decrease in the accounts receivable, net. Cash provided by operations included non-cash items including depreciation and amortization expense of \$2.2 million and share-based compensation expenses of \$1.3 million. The change in forgivable loans for the period of \$16.0 million was primarily driven by \$19.7 million of forgivable loan issuances, net of repayments, offset by \$3.6 million of forgivable loan amortization.

During the fiscal quarter ended March 31, 2018, net cash used in investing activities was \$3.2 million for capital expenditures.

Table of Contents

Net cash from financing activities during the first quarter of fiscal 2018 was neutral, primarily as a result of borrowings under the line of credit of \$10.0 million and \$0.5 million received upon the issuance of shares of common stock related to the exercise of stock options. Offsetting these increases in cash was the tax withholding payments reimbursed by restricted shares of \$1.8 million, payment of \$1.5 million cash dividend to shareholders and \$7.2 million repurchases of common stock.

Indebtedness

We are party to a credit agreement that provides us with a \$125.0 million revolving credit facility and a \$15.0 million sublimit for the issuance of letters of credit. We may use the proceeds of the revolving credit facility to provide working capital and for other general corporate purposes. Generally, we may repay any borrowings under the revolving credit facility at any time, but must repay all borrowings no later than October 24, 2022. There was \$10.0 million in outstanding balances under this revolving line of credit as of March 31, 2018.

The amount available under this revolving line of credit is reduced by certain letters of credit outstanding, which amounted to \$3.6 million as of March 31, 2018. Borrowings under the revolving credit facility bear interest at a rate per annum, at our election, of either (i) the adjusted base rate, as defined in the credit agreement, plus an applicable margin, which varies between 0.25% and 1.25% depending on our total leverage ratio as determined under the credit agreement, or (ii) the adjusted eurocurrency rate, as defined in the credit agreement, plus an applicable margin, which varies between 1.25% and 2.25% depending on our total leverage ratio. We are required to pay a fee on the unused portion of the revolving credit facility at a rate per annum that varies between 0.20% and 0.35% depending on our total leverage ratio. Borrowings under the revolving credit facility are secured by 100% of the stock of certain of our U.S. subsidiaries and 65% of the stock of certain of our foreign subsidiaries, which represent approximately \$28.9 million in net assets as of March 31, 2018.

Under the credit agreement, we must comply with various financial and non-financial covenants. Compliance with these financial covenants is tested on a fiscal quarterly basis. Any indebtedness outstanding under the revolving credit facility may become immediately due and payable upon the occurrence of stated events of default, including our failure to pay principal, interest or fees or a violation of any financial covenant. The financial covenants require us to maintain an adjusted consolidated EBITDA to consolidated interest expense ratio of more than 2.5:1.0 and to comply with a consolidated debt to adjusted consolidated EBITDA ratio of not more than 3.0:1.0. The non-financial covenant restrictions of the senior credit agreement include, but are not limited to, our ability to incur additional indebtedness, engage in acquisitions or dispositions, and enter into business combinations.

Forgivable Loans and Term Loans

In order to attract and retain highly skilled professionals, we may issue forgivable loans or term loans to employees and non-employee experts. A portion of these loans is collateralized. The forgivable loans have terms that are generally between three and eight years. The principal amount of forgivable loans and accrued interest is forgiven by us over the term of the loans, so long as the employee or non-employee expert continues employment or affiliation with us and complies with certain contractual requirements. The expense associated with the forgiveness of the principal amount of the loans is recorded as compensation expense over the service period, which is consistent with the term of the loans.

Compensation Arrangements

We have entered into compensation arrangements for the payment of incentive performance awards to certain of our non-employee experts and employees if specific performance targets are met. The amounts of the awards to be paid under these compensation arrangements could fluctuate

Table of Contents

depending on future performance through the respective measurement periods. Changes in the estimated award are expensed prospectively over the remaining service period. We believe that we will have sufficient funds to satisfy any obligations related to the incentive performance awards. We expect to fund these payments, if any, from existing cash resources, cash generated from operations, or borrowings on our existing revolving credit facility.

Business Acquisitions

As part of our business, we regularly evaluate opportunities to acquire other consulting firms, practices or groups or other businesses. In recent years, we have typically paid for acquisitions with cash, or a combination of cash and our common stock, and we may continue to do so in the future. To pay for an acquisition, we may use cash on hand, cash generated from our operations, borrowings under our revolving credit facility, or we may pursue other forms of financing. Our ability to secure short-term and long-term debt or equity financing in the future, including our ability to refinance our current senior loan agreement, will depend on several factors, including our future profitability, the levels of our debt and equity, restrictions under our existing revolving line of credit with our bank, and the overall credit and equity market environments. See Note 6 Business Acquisitions to the condensed consolidated financial statements to this Form 10-Q for further details of the C1 acquisition in 2017.

Share Repurchases

On May 3, 2017 and February 15, 2018, we announced our Board of Directors approved share repurchase programs of up to \$20.0 million, and \$20.0 million, respectively, of our common stock. We may repurchase shares under these programs in open market purchases (including through any Rule 10b5-1 plan adopted by us) or in privately negotiated transactions in accordance with applicable insider trading and other securities laws and regulations. During the fiscal quarter ended March 31, 2018, we repurchased 162,892 shares at an average purchase price of \$51.13 per share. During the fiscal quarter ended April 1, 2017, we did not repurchase or retire any shares under these programs. Approximately \$21.2 million was available for future repurchases under these programs as of March 31, 2018. We will finance these programs with available cash, cash from future operations and funds from our existing revolving credit facility. We expect to continue repurchasing shares under these programs.

Dividends to Shareholders

We anticipate paying regular quarterly dividends each year. These dividends are anticipated to be funded through cash flow from operations, available cash on hand, and/or borrowings under our revolving credit facility. Although we anticipate paying regular quarterly dividends on our common stock for the foreseeable future, the declaration of any future dividends is subject to the discretion of our board of directors.

Impact of Inflation

To date, inflation has not had a material impact on our financial results. There can be no assurance, however, that inflation will not adversely affect our financial results in the future.

Future Capital and Liquidity Needs

We anticipate that our future capital and liquidity needs will principally consist of funds required for:

operating and general corporate expenses relating to the operation of our business, including the compensation of our employees under various annual bonus or long-term incentive compensation programs;

Table of Contents

the hiring of individuals to replenish and expand our employee base;

capital expenditures, primarily for information technology equipment, office furniture and leasehold improvements;

debt service and repayments, including interest payments on borrowings from our revolving credit facility;

share repurchases;

dividends to shareholders;

potential acquisitions of businesses that would allow us to diversify or expand our service offerings;

contingent obligations related to our acquisitions; and

other known future contractual obligations.

The hiring of individuals to replenish and expand our employee base is an essential part of our business operations and has historically been funded principally from operations. Many of the other above activities are discretionary in nature. For example, capital expenditures can be deferred, acquisitions can be forgone, and share repurchase programs and regular dividends can be suspended. As such, our operating model provides flexibility with respect to the deployment of cash flow from operations. Given this flexibility, we believe that our cash flows from operations, supplemented by cash on hand and borrowings under our bank credit facility (as necessary), will provide adequate cash to fund our long-term cash needs from normal operations for at least the next twelve months.

Our conclusion that we will be able to fund our cash requirements by using existing capital resources and cash generated from operations does not take into account the impact of any future acquisition transactions or any unexpected significant changes in the number of employees or other expenditures that are currently not contemplated. The anticipated cash needs of our business could change significantly if we pursue and complete additional business acquisitions, if our business plans change, if economic conditions change from those currently prevailing or from those now anticipated, or if other unexpected circumstances arise that have a material effect on the cash flow or profitability of our business. Any of these events or circumstances, including any new business opportunities, could involve significant additional funding needs in excess of the identified currently available sources and could require us to raise additional debt or equity funding to meet those needs on terms that may be less favorable compared to our current sources of capital. Our ability to raise additional capital, if necessary, is subject to a variety of factors that we cannot predict with certainty, including:

our future profitability;

the quality of our accounts receivable;

our relative levels of debt and equity;

the volatility and overall condition of the capital markets; and

the market prices of our securities.

Contractual Obligations

Edgar Filing: CRA INTERNATIONAL, INC. - Form 10-Q

On July 28, 2017, we entered into the second amendment to lease an additional 2,422 square feet of office space in New York, New York. The amendment expands the total office space to 44,270 square feet and is set to expire on April 30, 2028. The amendment includes a base rent abatement of approximately \$0.2 million and a tenant improvement allowance of approximately \$0.2 million, increasing the total base rent abatement to approximately \$1.4 million. and the total tenant

Table of Contents

improvement allowance to approximately \$1.6 million. Following an initial rent abatement period, the annual base rent will increase by approximately \$0.2 million per year to a total annual base rent of approximately \$1.4 million. The annual base rent is subject to annual increases of approximately 8% after five years.

On February 12, 2018, we entered into an agreement to lease an additional 7,700 square feet of office space in London, UK. The agreement expands the total office space to 30,344 square feet and is set to expire on May 19, 2031. The agreement includes an additional base rent abatement and tenant improvement allowance of approximately £1.2 million, increasing the total rent incentives to approximately £4.7 million. The base rent for the additional space is approximately £0.5 million per year, increasing the total base rent to approximately £2.1 million, and is subject to increases every five years, based on rental market conditions at that time. At the end of the lease, we will be responsible for returning the vacated space to its original condition at our expense.

Factors Affecting Future Performance

Important factors that could cause our actual results to differ materially from the forward-looking statements we make in this Quarterly Report on Form 10-Q, as well as a description of material risks we face, are set forth under the heading "Risk Factors" included in Part I Item 1A of our Annual Report on Form 10-K for the year ended December 30, 2017 filed with the SEC on March 12, 2018. If any of these risks, or any risks not presently known to us or that we currently believe are not significant, develops into an actual event, then our business, financial condition, and results of operations could be adversely affected.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

For information regarding our exposure to certain market risks see "Item 7A. Quantitative and Qualitative Disclosures about Market Risk," in our Annual Report on Form 10-K for the fiscal year ended December 30, 2017.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our President and Chief Executive Officer and our Chief Financial Officer, we evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. This is done in order to ensure that information we are required to disclose in the reports that are filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Based upon that evaluation, our President and Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of March 31, 2018, due to the material weaknesses in internal control over financial reporting related to the inadequate design and execution of controls over non-routine technical accounting matters and information technology general controls ("ITGC") related to program changes to our accounting software. In addition, despite the significant efforts made during the fiscal year ended December 30, 2017 to remediate our previously identified material weaknesses, the material weakness in internal controls over ITGC prevented our ability to remediate the material weaknesses in internal controls over financial reporting in respect of revenue and related reserve processes and compensation-related processes described in Item 9A of our Annual Report on Form 10-K for the fiscal year ended December 30, 2017.

Notwithstanding these material weaknesses, management has concluded that the condensed consolidated financial statements included in this Form 10-Q present fairly, in all material aspects, our

Table of Contents

financial position, results of operations and cash flows for the periods presented in conformity with accounting principles generally accepted in the United States.

Evaluation of Changes in Internal Control over Financial Reporting

Under the supervision and with the participation of our management, including our President and Chief Executive Officer and Chief Financial Officer, we evaluated whether there were any changes in our internal control over financial reporting during the first quarter of fiscal 2018. Except for the ongoing remediation of the material weaknesses in internal controls over financial reporting noted above pursuant to the plans described in Item 9A of our Annual Reports on Form 10-K for the fiscal years ended December 31, 2016 and December 30, 2017, respectively, there were no changes in our internal control over financial reporting identified in connection with the above evaluation that occurred during the first quarter of fiscal 2018, except those disclosed below, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Beginning December 31, 2017, we implemented ASC 606, *Revenue from Contracts with Customers*. Although the new revenue standard is not expected to have a material impact on our ongoing net income, we did implement changes to our processes related to revenue recognition and the control activities within them. These included the development of new policies based on the five-step model provided in the new revenue standard, new training, ongoing contract review requirements, and gathering of information provided for disclosures.

Plan for Remediation of Material Weakness

We are committed to remediating the control deficiencies that gave rise to the material weaknesses described above. Management is responsible for implementing changes and improvements to our internal control over financial reporting and for remediating the control deficiencies that gave rise to these material weaknesses. During fiscal 2018, we have enhanced our system of internal controls over financial reporting with the following actions:

Maintaining the Special Internal Controls Committee to guide our remediation efforts;

Establishment of an enhanced program change management policy, process and controls over information technology systems, databases, applications and reports created from certain key systems used in the financial reporting process;

Continued strengthening of our accounting policies, procedures, controls and formalized documentation of our control policies, in addition to the execution thereof; and

Engagement of a third party to assist in the design and development of our information technology capabilities; processes and systems.

Important Considerations

The effectiveness of our disclosure controls and procedures and our internal control over financial reporting is subject to various inherent limitations, including judgments used in decision making, assumptions about the likelihood of future events, the soundness of our systems, the possibility of human error, and the risk of fraud. Moreover, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions and the risk that the degree of compliance with policies or procedures may deteriorate over time. Because of these limitations, there can be no assurance that any system of disclosure controls and procedures or internal control over financial reporting will be successful in preventing all errors or fraud or in making all material information known in a timely manner to the appropriate levels of management.

None.

ITEM 1A. Risk Factors

There has been no material change in any risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 30, 2017 filed with the SEC on March 12, 2018. See "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 30, 2017 for a complete description of the material risks we face.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) Not applicable.

(b) Not applicable.

(c) The following table provides information about our repurchases of shares of our common stock during the fiscal quarter ended March 31, 2018. During that period, we did not act in concert with any affiliate or any other person to acquire any of our common stock and, accordingly, we do not believe that purchases by any such affiliate or other person (if any) are reportable in the following table. For purposes of this table, we have divided the fiscal quarter into three periods of four weeks, four weeks, and five weeks, respectively, to coincide with our reporting periods during the first quarter of fiscal 2018.

Issuer Purchases of Equity Securities

Period	(a) Total Number of Shares Purchased(1)	(b) Average Price Paid per Share(1)	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs(2)
December 31, 2017 to January 27, 2018				\$ 9,493,667
January 28, 2018 to February 24, 2018	31,817	\$ 47.32	30,400	\$ 27,978,623
February 25, 2018 to March 31, 2018	166,362	\$ 51.10	132,492	\$ 21,164,213

(1) During the four weeks ended February 24, 2018 we accepted 1,417 shares of our common stock as a tax withholding from certain of our employees, in connection with the vesting of shares of restricted stock that occurred during the indicated period, pursuant to the terms of our 2006 equity incentive plan, at the average price of \$46.06. During the five weeks ended March 31, 2018 we accepted 33,870 shares of our common stock as a tax withholding from certain of our employees, in connection with the vesting of shares of restricted stock and restricted stock units that occurred during the indicated period, pursuant to the terms of our 2006 equity incentive plan, at the average price per share of \$50.98.

(2) On May 3, 2017 and February 15, 2018, we announced our Board of Directors approved share repurchase programs of up to \$20.0 million, and \$20.0 million, respectively, of our common stock. We may repurchase shares under any of these programs in open market purchases (including through any Rule 10b5-1 plan adopted by us) or in privately negotiated transactions in accordance with applicable insider trading and other securities laws and regulations. During the four weeks ended February 24, 2018, we repurchased and retired 30,400 shares under these programs at an average price per share of \$49.84. During the five weeks ended March 31, 2018, we repurchased and retired 132,492 shares under these programs at an average price per share of \$51.43. Approximately \$21.2 million

was available for future repurchases under these programs as of March 31, 2018. We expect to continue to repurchase shares under these programs.
