(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For Quarterly Period December 31, 2010

or

TRANSITION REPORT UNDER SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition period from _____ to _____

Commission File Number: 0-13215

WARP 9, INC.

(Exact name of registrant as specified in its charter)

CALIFORNIA

30-0050402

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

6500 HOLLISTER AVENUE, SUITE 120, SANTA BARBARA, CA 93117

(Address of principal executive offices) (Zip Code)

(805) 964-3313

Registrant's telephone number, including area code

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the proceeding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes

No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (ss.232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Edgar Filing: WARP 9, INC. - Form 10-Q

Yes[___]

No[_X_]

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check One).

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>

(Do not check if a smaller reporting company)

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes[___]

No[_X_]

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of the latest practicable date.

As of February 17, 2010 the number of shares outstanding of the registrant's class of common stock was 340,579,815.

WARP 9, INC. AND SUBSIDIARY
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED
 DECEMBER 31, 2010

1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all normal recurring adjustments considered necessary for a fair presentation have been included. Operating results for the six months ended December 31, 2010 are not necessarily indicative of the results that may be expected for the year ending June 30, 2011. For further information refer to the financial statements and footnotes thereto included in the Company's Form 10K for the year ended June 30, 2010.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Warp 9, Inc. is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

ACCOUNTS RECEIVABLE

The Company extends credit to its customers. Accounts receivable are customer obligations due under normal trade terms. The Company performs continuing credit evaluations of its customers' financial condition. Management reviews accounts receivable on a regular basis, based on contracted terms and how recently payments have been received to determine if any such amounts will potentially be uncollected. The Company includes any balances that are determined to be uncollectible in its allowance for doubtful accounts. After all attempts to collect a receivable have failed, the receivable is written off. The balance of the allowance account at December 31, 2010 and June 30, 2010 are \$108,972 and \$161,924, respectively.

STOCK-BASED COMPENSATION

The Company addressed the accounting for share-based payment transactions

Edgar Filing: WARP 9, INC. - Form 10-Q

in which an enterprise receives employee services in exchange for either equity instruments of the enterprise or liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments. The transactions are accounted for using a fair-value-based method and recognized as expenses in our statement of income. There was no material impact on the Company's financial statement of operations.

Stock-based compensation expense recognized during the period is based on the value of the portion of stock-based payment awards that is ultimately expected to vest. Stock-based compensation expense recognized in the consolidated statement of operations during the three months ended December 31, 2010, included compensation expense for the stock-based payment awards granted prior to, but not yet vested, as of December 31, 2010 based on the grant date fair value estimated. Stock-based compensation expense recognized in the statement of income for the three months ended December 31, 2010 is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The stock-based compensation expense recognized in the consolidated statements of operations during the six months ended December 31, 2010 and 2009 are \$202 and \$5,438, respectively.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Management reviewed accounting pronouncements issued during the six months ended December 31, 2010, and no pronouncements were adopted during the period.

-7-

WARP 9, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED DECEMBER 31, 2010

3. CAPITAL STOCK

At December 31, 2010 and 2009, the Company's authorized stock consists of 495,000,000 shares of common stock, par value \$0.001 per share. The Company is also authorized to issue 5,000,000 shares of preferred stock with a par value of \$0.001. The rights, preferences and privileges of the holders of the preferred stock will be determined by the Board of Directors prior to issuance of such shares.

4. STOCK OPTIONS AND WARRANTS

On July 10, 2003, the Company adopted the Warp 9, Inc. Stock Option Plan for Directors, Executive Officers, and Employees of and Key Consultants to the Company. This Plan, may issue 25,000,000 shares of common stock. Options granted under the Plan could be either Incentive Options or Nonqualified Options, and are administered by the Company's Board of Directors. Each option may be exercisable in full or in installment and at such time as designated by the Board. Notwithstanding any other provision of the Plan or of any Option agreement, each option are to expire on the date specified in the Option agreement, which date are to be no later than the tenth anniversary of the date on which the Option was granted (fifth anniversary in the case of an Incentive Option granted to a

Edgar Filing: WARP 9, INC. - Form 10-Q

greater-than-10% stockholder). The purchase price per share of the Common Stock under each Incentive Option is to be no less than the Fair Market Value of the Common Stock on the date the option was granted (110% of the Fair Market Value in the case of a greater-than-10% stockholder). The purchase price per share of the Common Stock under each Nonqualified Option were to be specified by the Board at the time the Option was granted, and could be less than, equal to or greater than the Fair Market Value of the shares of Common Stock on the date such Nonqualified Option was granted, but were to be no less than the par value of shares of Common Stock. The plan provided specific language as to the termination of options granted hereunder.

A summary of the Company's stock option activity and related information follows:

	12/31/2010	
	Options	Weighted average exercise price
Outstanding -beginning of period	3,240,000	\$ 0.01
Granted	-	-
Exercised	-	-
Forfeited	(200,000)	(0.01)
Outstanding - end of period	3,040,000	\$ 0.01
Exercisable at the end of period	2,973,313	\$ 0.01
Weighted average fair value of options granted during the year		\$ -

The Black Scholes option valuation model was developed for use in estimating the fair value of traded options, which do not have vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions, including the expected stock price volatility. Because the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its employee stock options.

-8-

WARP 9, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED
DECEMBER 31, 2010

4. STOCK OPTIONS AND WARRANTS (Continued)

The weighted average remaining contractual life of options outstanding

Edgar Filing: WARP 9, INC. - Form 10-Q

issued under the plan as of December 31, 2010 was as follows:

Exercise prices	Number of options outstanding	Weighted Average remaining contractual life (years)
-----	-----	-----
\$ 0.070	100,000	3.00
\$ 0.080	50,000	1.00
\$ 0.010	2,500,000	0.79
\$ 0.010	250,000	3.81
\$ 0.010	40,000	7.58
\$ 0.008	100,000	7.33

	3,040,000	
	=====	

5. SUBSEQUENT EVENT

Management has evaluated subsequent events according to TOPIC 855 as of the date of the financial statements and has determined there are no subsequent events to be reported.

-9-

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CAUTIONARY STATEMENTS

This Form 10-Q may contain "forward-looking statements," as that term is used in federal securities laws, about Warp 9, Inc.'s financial condition, results of operations and business. These statements include, among others:

- o statements concerning the potential benefits that Warp 9, Inc. ("W9" or the "Company") may experience from its business activities and certain transactions it contemplates or has completed; and
- o statements of W9's expectations, beliefs, future plans and strategies, anticipated developments and other matters that are not historical facts. These statements may be made expressly in this Form 10-Q. You can find many of these statements by looking for words such as "believes," "expects," "anticipates," "estimates," "opines," or similar expressions used in this Form 10-Q. These forward-looking statements are subject to numerous assumptions, risks and uncertainties that

Edgar Filing: WARP 9, INC. - Form 10-Q

may cause W9's actual results to be materially different from any future results expressed or implied by W9 in those statements. The most important facts that could prevent W9 from achieving its stated goals include, but are not limited to, the following:

- (a) volatility or decline of the Company's stock price;
 - (b) potential fluctuation in quarterly results;
 - (c) failure of the Company to earn revenues or profits;
 - (d) inadequate capital to continue or expand its business, and inability to raise additional capital or financing to implement its business plans;
 - (e) failure to further commercialize its technology or to make sales;
 - (f) reduction in demand for the Company's products and services;
 - (g) rapid and significant changes in markets;
 - (h) litigation with or legal claims and allegations by outside parties, reducing revenue and increasing costs;
 - (i) insufficient revenues to cover operating costs;
 - (j) failure of the re-licensing or other commercialization of the Roaming Messenger technology to produce revenues or profits;
 - (k) aspects of the Company's business are not proprietary and in general the Company is subject to inherent competition;
 - (l) further dilution of existing shareholders' ownership in Company;
 - (m) uncollectible accounts and the need to incur expenses to collect amounts owed to the Company;
- 10-
- (n) the Company does not have an Audit Committee nor sufficient independent directors.

There is no assurance that the Company will be profitable, the Company may not be able to successfully develop, manage or market its products and services, the Company may not be able to attract or retain qualified executives and technology personnel, the Company may not be able to obtain customers for its products or services, the Company's products and services may become obsolete, government regulation may hinder the Company's business, additional dilution in outstanding stock ownership may be incurred due to the issuance of more shares, warrants and stock options, the exercise of outstanding warrants and stock options, or other risks inherent in the Company's businesses.

Because the statements are subject to risks and uncertainties, actual

Edgar Filing: WARP 9, INC. - Form 10-Q

results may differ materially from those expressed or implied by the forward-looking statements. W9 cautions you not to place undue reliance on the statements, which speak only as of the date of this Form 10-Q. The cautionary statements contained or referred to in this section should be considered in connection with any subsequent written or oral forward-looking statements that W9 or persons acting on its behalf may issue. The Company does not undertake any obligation to review or confirm analysts' expectations or estimates or to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date of this Form 10-Q, or to reflect the occurrence of unanticipated events.

CURRENT OVERVIEW

Warp 9 is a provider of e-commerce software platforms and services for the catalog and retail industry. Our suite of software platforms are designed to help multi-channel retailers maximize the Internet channel by applying our technologies for online catalogs, e-mail marketing campaigns, and interactive visual merchandising. Offered as an outsourced and fully managed Software-as-a-Service ("SaaS") model, our products allow customers to focus on their core business, rather than technical implementations and software and hardware architecture, design, and maintenance. We also offer professional services to our clients which include online catalog design, merchandizing and optimization, order management, e-mail marketing campaign development, integration to third party payment processing and fulfillment systems, analytics, custom reporting and strategic consultation.

Our products and services allow our clients to lower costs and focus on promoting and marketing their brand, product line and website while leveraging the investments we have made in technology and infrastructure to operate a dynamic online Internet presence.

We charge our customers a monthly fee for using our e-commerce software based on a Software-as-a-Service model. These fees include fixed monthly charges, and variable fees based on the sales volume of our clients' e-commerce websites. Unlike traditional software companies that sell software on a perpetual license where quarterly and annual revenues are quite difficult to predict, our SaaS model spreads the collection of contract revenue over several quarters or years and makes our revenues more predictable for a longer period of time.

While the Warp 9 Internet Commerce System ("ICS") is our flagship and highest revenue product, we have developed and deployed new products based on a proprietary virtual publishing technology. These new products allow for the creation of interactive web versions of paper catalogs and magazines where users can flip through pages with a mouse and click on products or advertisements. These magazines or catalogs have built-in integration for e-commerce transactions through our ICS product and other transaction based activities.

-11-

Accordingly, when shoppers click on a product, they are taken to the e-commerce product page where they can add that product to their shopping cart for purchasing. Clients utilizing this technology have discovered when exposing consumers to the virtual catalogs, a higher average order size and significant increase in rate of conversion result. We have sold this solution on a limited basis while we continue to refine the product and technology. We believe there could be many markets for our virtual catalog and magazine technology and we expect to test market these new products in the future.

Research and development ("R&D") efforts have been focused both on

Edgar Filing: WARP 9, INC. - Form 10-Q

updating our flagship ICS e-commerce platform as well as developing new products and on updating our current products with new features. In the planning phase of our development efforts, we look to direct client feedback and feature requests; we study the e-commerce landscape to determine features that will provide our clients with a competitive advantage in producing greater and more effective selling; and we also examine features that will create a competitive advantage during our sales process to clients. Emerging and declining trends also play a role in how clients perceive what features should be provided by which vendors. We are sometimes able to capitalize on these opportunities by bundling features for greater value and/or increased fees and revenue. Management believes that in order to compete successfully, it must dedicate a greater allocation of resources to research and development. Updating our platform, creating new products and revamping the current products must be part of the ongoing operational practice in order to compete successfully. There can be no assurance that management will be able to successfully devote the resources needed for this research and development and that it will be able to compete successfully.

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of our financial condition and results of operations, including the discussion on liquidity and capital resources, are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, management re-evaluates its estimates and judgments, particularly those related to the determination of the estimated recoverable amounts of trade accounts receivable, impairment of long-lived assets, revenue recognition and deferred tax assets. We believe the following critical accounting policies require more significant judgment and estimates used in the preparation of the financial statements.

We maintain an allowance for doubtful accounts for estimated losses that may arise if any of our customers are unable to make required payments. Management specifically analyzes the age of customer balances, historical bad debt experience, customer credit-worthiness, and changes in customer payment terms when making estimates of the uncollectability of our trade accounts receivable balances. If we determine that the financial conditions of any of our customers deteriorated, whether due to customer specific or general economic issues, increases in the allowance may be made. Accounts receivable are written off when all collection attempts have failed.

We follow the provisions of Staff Accounting Bulletin ("SAB") 101, "Revenue Recognition in Financial Statements" for revenue recognition and SAB 104. Under Staff Accounting Bulletin 101, four conditions must be met before revenue can be recognized: (i) there is persuasive evidence that an arrangement exists, (ii) delivery has occurred or service has been rendered, (iii) the price is fixed or determinable and (iv) collection is reasonably assured.

Income taxes are accounted for under the asset and liability method. Under this method, to the extent that we believe that the deferred tax asset is not likely to be recovered, a valuation allowance is provided. In making this determination, we consider estimated future taxable income and taxable timing differences expected in the future. Actual results may differ from those estimates.

Edgar Filing: WARP 9, INC. - Form 10-Q

REVENUE

Total revenue for the three months ended December 31, 2010 decreased by (\$249,339) to \$253,131 compared to \$502,470 for the same prior period. For the six months ended December 31, 2010, total revenue decreased by (\$388,819) to \$499,722 compared to \$888,541 in the same prior period. The overall decrease in revenue was the result of the decrease in recurring monthly fees caused by client terminations combined with a decrease in ICS Site Development fees for new clients. The client terminations were due to both i) the financial environment affecting the clients' fiscal health and in turn, Warp 9's revenue stream from those clients and ii) increased competition in the e-commerce software space and the perceived competitive nature of the ICS product-line.

COST OF REVENUE

The cost of revenue for the three months ended December 31, 2010 decreased by (\$17,010) to \$21,469 compared to \$38,479 for the same prior period. For the six months ended December 31, 2010 the cost of revenue decreased (\$34,810) to \$40,695 compared to \$75,505 in the same prior period. The overall decrease was primarily due to the decrease in sales commissions.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative (SG&A) expenses for the three months ended December 31, 2010 decreased (\$23,214) to \$296,550 compared to \$319,764 for the same prior period. For the six months ended December 31, 2010, SG&A expenses decreased by (\$72,711) to \$575,469 compared to \$648,180 in the same prior period. The overall decrease in SG&A expenses was primarily due a decrease in staffing and legal fees off-set by an increase in outside service expenses.

RESEARCH AND DEVELOPMENT

Research and development expenses for the three months ended December 31, 2010 increased \$22,222 to \$27,222 as compared to \$5,000 for the same prior period. For the six months ended December 31, 2010, the research and development expenses increased \$36,265 to \$46,265 as compared to \$10,000 for the same prior period. The overall increase was due to increased staffing expense associated with research and development to update our e-commerce platform and new products and features.

NET INCOME/(LOSS)

The consolidated net loss for the three months ended December 31, 2010 was (\$65,916) compared to the consolidated net income of \$83,999 for the same prior period. For the six months ended December 31, 2010, the consolidated net loss was (\$146,213) compared to the consolidated net income of \$98,046 for the same prior period. The consolidated net loss is mainly attributable to a reduction in gross revenue, an increase in research and development expense, an increase in a provision for income tax and a non-cash expense recognition for Executive Compensation in the amount of \$64,614.

LIQUIDITY AND CAPITAL RESOURCES

The Company had net working capital (i.e. the difference between current assets and current liabilities) of \$704,748 at December 31, 2010 as compared to a net working capital of \$799,359 at June 30, 2010. The decrease in net working capital at December 31, 2010 was caused by a reduction in revenue and net income during the six months ended December 31, 2010.

Edgar Filing: WARP 9, INC. - Form 10-Q

Cash flow used in operating activities was (\$198,172) for the six months ended December 31, 2010 as compared to cash flow provided by operating activities of \$215,803 for the same prior period. The decrease in cash flow of (\$413,975) used in operating activities was primarily due to a reduction in income to a net loss and the absence of the collection of a large non-recurring receivable in the prior period.

Cash flow used in investing activities was (\$4,538) for the six months ended December 31, 2010 as compared to cash flow used in investment activities of (\$13,118) for the same prior period. The decrease in cash flow used in investing activities of (\$8,580) was primarily due to the reduction of equipment purchases during the current period.

Cash flow used in financing activities was (\$1,382) for the six months ended December 31, 2010 as compared to (\$21,712) for the same prior period. The decrease in cash flow of (\$20,330) used in financing activities was primarily due to a reduction in payments made towards a note payable combined with the maturity of capital leases during the prior period.

While we expect that our capital needs in the foreseeable future will be met by cash-on-hand and existing cash flow, there is no assurance that the Company will generate any or sufficient positive cash flows, or have sufficient capital, to finance its growth and business operations, or that such capital will be available on terms that are favorable to the Company or at all. The Company has recently been incurring operating losses and experiencing negative cash flow. In the current financial environment, it could become difficult for the Company to obtain business leases and other equipment financing. There is no assurance that we would be able to obtain additional working capital through the private placement of common stock or from any other source.

OFF-BALANCE SHEET ARRANGEMENTS

None.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not Applicable.

ITEM 4T. CONTROLS AND PROCEDURES.

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by Warp 9 in the reports that it files under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer that it files under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer and principal financial officers, or persons performing similar functions as appropriate to allow timely decisions regarding required disclosure. The Company's Chairman, Chief Executive Officer, and Acting Chief Financial Officer are responsible for establishing and maintaining disclosure controls and procedures for the Company.

Management has evaluated the effectiveness of the Company's disclosure controls and procedures as of December 31, 2010 (under the supervision and with the participation of the Company's Chairman, Chief Executive Officer, and Acting Chief Financial Officer) pursuant to Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. As part of such evaluation, management considered the matters discussed below relating to internal control over financial reporting. Based on this evaluation, the Company's Chairman, Chief Executive Officer, and Acting Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective as of December 31, 2010.

INTERNAL CONTROL OVER FINANCIAL REPORTING

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934). The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes of accounting principles generally accepted in the United States. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance of achieving their control objectives. Furthermore, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate due to change in conditions, or the degree of compliance with the policies or procedures may deteriorate. After evaluating the Company's internal controls over financial reporting, the Company's Chairman, Chief Executive Officer, and Acting Chief Financial Officer have concluded that the internal controls over financial reporting are effective as of December 31, 2010.

CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING

There have been no changes in the Company's internal control over financial reporting that occurred during the Company's third fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS
