A copy of the release is furnished with this report as Exhibit 99.1.

ITEM 2.05. COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES.

On February 6, 2010, the Board of Directors of Boston Scientific Corporation (the “Company”) approved, and the Company committed to, a series of management changes and restructuring initiatives (the “2010 Plan”), designed to strengthen the Company and position it for long-term success. The Company estimates that the Plan will reduce annual pre-tax operating expenses by approximately \$200 million to \$250 million once completed in 2011. Key activities under the plan include the integration of the Company’s Cardiovascular and Cardiac Rhythm Management (CRM) businesses; the centralization of the Company’s R&D organization; and the restructuring of certain other businesses, regions, corporate functions and product franchises in order to drive innovation, accelerate profitable growth and increase both accountability and shareholder value. The Company anticipates the elimination of 1,000 to 1,300 positions as a result of the execution of the 2010 Plan. Activities under the 2010 Plan will be initiated in the first quarter of 2010 and are expected to be substantially completed by the end of 2011.

The Company estimates that the 2010 Plan will result in total pre-tax charges of approximately \$180 million to \$200 million, of which the Company estimates approximately \$140 million to \$160 million will be recorded in 2010, and that approximately \$170 million to \$190 million of total charges will result in future cash outlays. The following table provides a summary of the Company’s estimates of costs associated with the 2010 Plan by major type of cost:

Type of Cost	Total Expected Amounts
Restructuring charges:	
Termination benefits	\$115 million to \$125 million
Asset write-offs	\$5 million
Other (1)	\$35 million to \$40 million
Restructuring-related expenses:	
Other (2)	\$25 million to \$30 million
	\$180 million to \$200 million

(1) Includes primarily consulting fees and costs associated with contractual cancellations

(2) Includes accelerated depreciation and other costs necessary to implement the 2010 Plan

The Company estimates that during the first quarter of 2010, it will record approximately \$85 million to \$95 million of restructuring charges associated with the 2010 Plan. The Company will record the remaining expenses throughout 2010 and 2011. The restructuring charges will be recorded pursuant to Financial Accounting Standards Board Accounting Standards Codification™ Topic 420, Exit or Disposal Cost Obligations; Topic 712, Compensation – Nonretirement Postemployment Benefits; and Topic 360, Property, Plant and Equipment, as applicable.
