PART I.

Item 1. Business.

Organization

Greystone Logistics, Inc. ("Greystone" or the "Company") was incorporated in Delaware on February 24, 1969, under the name Permaspray Manufacturing Corporation. It changed its name to Browning Enterprises Inc. in April 1982, to Cabec Energy Corp. in June 1993, to PalWeb Corporation in April 1999 and became Greystone Logistics, Inc. in March 2005 as further described below. In December 1997, Greystone acquired all of the issued and outstanding stock of Plastic Pallet Production, Inc., a Texas corporation ("PPP"), and since that time, Greystone has primarily been engaged in the business of manufacturing and selling plastic pallets.

Effective September 8, 2003, Greystone acquired substantially all of the assets of Greystone Plastics, Inc., an Iowa corporation, through the purchase of such assets by Greystone's newly formed, wholly-owned subsidiary, Greystone Manufacturing, L.L.C., an Oklahoma limited liability company ("GSM"). Greystone Plastics, Inc. was a manufacturer of plastic pallets used in the beverage industry.

Effective March 18, 2005, the Company caused its newly formed, wholly owned subsidiary, Greystone Logistics, Inc., an Oklahoma corporation, to be merged with and into the Company. In connection with such merger and as of the effective time of the merger, the Company amended its certificate of incorporation by changing its name to Greystone Logistics, Inc., pursuant to the terms of the certificate of ownership and merger filed by the Company with the Secretary of State of Oklahoma. Also in connection with such merger, the Company amended its bylaws to change its name to Greystone Logistics, Inc.

Current Business

Products

Greystone's primary business is manufacturing and selling high quality, recycled plastic pallets through its wholly owned subsidiary, GSM. As of May 31, 2010, Greystone had an aggregate production capacity of approximately 70,000 pallets per month.

GSM's product line as of May 31, 2010 consists of the following:

- 40" X 32" rackable pallet,
- 37" X 37" rackable pallet,
- 48" X 40" rackable pallet,
- 48" X 44" rackable pallet,

- 48" X 40" nestable pallet,
- 24"X 24" display pallet,
- 48"X 40" monoblock (one-piece) pallet,
- 48"X 45" stackable pallet, and
- 120cm X 100cm nestable pallet.

As of May 31, 2010, GSM was also marketing the following pallets:

- Mid-duty(TM) Picture Frame – A picture frame, web-top pallet that utilizes a patented inter-locking design and is produced using a proprietary blend of recycled plastics. It has a rackable capacity of 1,500 lbs., a dynamic load of 5,000 lbs., static load of 25,000 lbs., and weighs 50 lbs.
- Mid-duty(TM) Stackable – A web-top pallet that is produced using a proprietary blend of recycled plastics, has a dynamic load of 5,000 lbs., static load of 7,000 lbs., and weighs 32 lbs.
- Mid-duty(TM) 3-Runner – A web-top pallet that utilizes a patented inter-locking design on a three runner bottom and is produced using a proprietary blend of recycled plastics. It has a rackable load of 1,200 lbs., dynamic load of 5,000 lbs., static load of 12,000 lbs and weighs 41 lbs.
- Mid-duty Flat Deck – This pallet is the same as the Mid-duty picture frame,(TM) except it has a solid top and weighs 63 lbs.

The principal raw materials used in manufacturing Greystone's plastic pallets are in abundant supply, and some of these materials may be obtained from recycled plastic containers. At the present time, these materials are being purchased from local, national and international suppliers.

#### Other Business

In January 2010, Greystone started actively selling excess recycled plastic that has been reprocessed into pellet form. Under an agreement with Yorktown Management & Financial Services, L.L.C., an entity owned by Warren Kruger, Greystone's President and CEO, Greystone provides the cost of processing raw material into pelletized recycled plastic and purchases the raw material from Yorktown at cost. Greystone pays 40% of the gross profit, defined as revenue less cost of material and selling commissions, to Yorktown. Greystone intends to grow the product sales of recycled plastic.

In July 2006, Greystone entered into an agreement with a customer to launch a beta test program involving the lease of a small pool of recycled plastic pallets to be utilized in a closed loop shipping system. Pursuant to the agreement, Greystone delivered and tracked throughout the logistics cycle sufficient quantities of plastic pallets for use in shipping the customer's product. Logistically, the beta test program was successful and worked to both parties' expectations. However, due to the low volume and the associated high transportation costs for such low volume, the program was discontinued. Greystone intends to actively pursue lease customers in such closed loop environments.

#### Pallet Industry

According to the U.S. Forest Service, as printed in the National Wooden Pallet and Container Association publication, approximately 400 million new pallets are purchased in the United States each year, and some research sources estimate that even more than 400 million new pallets are purchased each year. At an overall average selling price of \$9/wood pallet, the pallet manufacturing and sales business is approximately a \$4 billion industry. It is estimated that the United States wood pallet industry is served by approximately 3,600 companies, most of which are small, privately held firms that operate in only one location. The industry is generally comprised of companies that manufacture new pallets or repair and recycle pallets. New pallet manufacturing generates about 60% to 65% of the industry's revenues. The U.S. Forest Service estimates that approximately 1.9 billion wood pallets are in circulation in the United States today and that roughly 400 million of the wood pallets currently in circulation were newly manufactured. On an annual basis, approximately 175 million wood pallets are recycled through a process of retrieval, repair, re-manufacturing and secondary marketing, approximately 225 million are sent to landfills, and approximately 100 million are burned, lost, abandoned or leave the country.

Infestation is a concern in the wood pallet industry. According to Virginia Tech's Center for Unit Load Design Center Tech Note No. 1, dated November 11, 1998, the Asian Longhorn Beetle ("ALB"), a devastating wood boring pest native to China and other Asian countries, has invaded hardwood trees in New York City and Chicago. The ALB outbreaks have been traced to solid wood packaging materials ("SWPM"), including wood pallets imported from China. As a result, the USDA Animal and Plant Health Inspection Service has proposed certain interim rules, which include upgrading treatment procedures for SWPM. These treatments are estimated to increase the cost of SWPM by at least 10%, and some treatments will double the price of SWPM.

Pallets are used in virtually all United States industries in which products are broadly distributed, including, but not limited to, the automotive, chemical, consumer products, grocery, produce and food production, paper and forest products, retailing and steel and metals industries. Forklifts, pallet trucks and pallet jacks are used to move loaded pallets, reducing the need for costly hand loading and unloading at distribution centers and warehouses.

Until very recently, plastic pallets had not penetrated the market significantly, due in part to their cost. Heavy duty plastic pallets cost \$46 to \$100, heavy duty wood pallets typically cost approximately \$26, and less sturdy wood pallets typically cost \$8 to \$11. As stated in an article in the July 1996 issue of Material Handling Engineering, wood pallets have an estimated useful life of

7 to 10 trips before repair or recycling is required. A trip, or cycle, is defined as the movement of a pallet under a load from a manufacturer to a distributor (or from a distributor to a retailer) and the movement of the empty pallet back to the manufacturer. Heavy duty plastic pallets, as currently manufactured, have a useful life of 60 or more trips, on average. Greystone's management believes that the trend will continue to switch from wood to plastic, with the only limiting factor being price.

Greystone intends to conduct research on pallet design strength and coefficient of friction and the materials used to make the plastic pallets as required to meet market demands.

#### Employees

As of May 31, 2010, Greystone had 87 full-time employees and used a temporary personnel service to provide additional production personnel as needed.

#### Marketing and Customers

Greystone's primary focus is to provide quality plastic pallets to its existing customers while continuing its marketing efforts to broaden its customer base. Greystone's existing customers are primarily located in the United States and engaged in the beverage, pharmaceutical and other industries. Greystone has generated and plans to continue to generate interest in its pallets by attending trade shows sponsored by industry segments that would benefit from Greystone's products. Greystone hopes to gain wider product acceptance by marketing the concept that the widespread use of plastic pallets could greatly reduce the destruction of trees on a worldwide basis.

Greystone also sells its pallets and pallet leasing services to certain large customers direct through contract distributors and its President, Senior Vice President of Sales and Marketing and other employees.

Greystone derives a substantial portion of its revenue from a national brewer. This customer accounted for approximately 66% and 83% of sales for its pallets in fiscal years 2010 and 2009, respectively. The design of Greystone's recycled plastic pallets are approved for use by the brewery and are the only plastic pallets in use for case goods at the current time. There is no assurance that Greystone will retain this customer's business at the same level, or at all. The loss of a material amount of business from this customer could have a material adverse effect on Greystone.

#### Competition

Greystone's primary competitors are a large number of small, privately held firms that sell wood pallets in very limited geographic locations. Greystone believes that it can compete with manufacturers of wood pallets by emphasizing the cost savings realized over the longer life of its plastic pallets as well as the environmental benefits of its plastic pallets as compared to wood pallets. Greystone also competes with three large and approximately ten small manufacturers of plastic pallets. Some of Greystone's competitors may have substantially greater financial and other resources than Greystone and, therefore, may be able to commit greater resources than Greystone in such areas of product development, manufacturing and marketing. However, Greystone believes

that its proprietary designs coupled with the competitive pricing of its products gives Greystone a competitive advantage over other plastic pallet manufacturers.

#### Government Regulation

The business operations of Greystone are subject to existing and potential federal, state and local environmental laws and regulations pertaining to the handling and disposition of wastes (including solid and hazardous wastes) or otherwise relating to the protection of the environment. In addition, both the plastics industry and Greystone are subject to existing and potential federal, state, local and foreign legislation designed to reduce solid wastes by requiring, among other things, plastics to be degradable in landfills, minimum levels of recycled content, various recycling requirements, disposal fees and limits on the use of plastic products.

#### Patents and Trademarks

Greystone seeks to protect its technical advances by pursuing national and international patent protection for its products and methods when appropriate.

Greystone has access to a patent-pending CJ2(TM) fire retardant formula licensed from Westgate Capital Company, L.L.C. ("WCC"), a company of which Greystone's President and CEO is a member, in connection with the potential production of fire retardant plastic pallets. Pallets produced with CJ2(TM) fire retardant have met UL 2335 classification requirements with respect to fire retardancy.

#### Item 2. Properties.

Greystone has approximately 3 acres of land in Bettendorf, Iowa and two buildings with a total of 120,000 square feet of manufacturing and warehouse space. The manufacturing and warehouse space is sufficiently equipped and designed to accommodate the manufacturing of plastic pallets and is currently used for grinding, processing and re-pelletizing recycled plastic.

#### Item 3. Legal Proceedings.

None.

## PART II.

#### Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

##### Market Information

Greystone's common stock is traded on the National Association of Securities Dealers Automatic Quotation (NASDAQ) over-the-counter bulletin board system (OTCBB), under the

symbol "GLGI." The following table sets forth the range of high and low prices at which Greystone's common stock traded during the time periods indicated, as reported by NASDAQ:

Quarter Ending	High	Low
Aug. 31, 2008	\$0.28	\$0.10
Nov. 30, 2008	0.13	0.05
Feb. 28, 2009	0.11	0.04
May 31, 2009	0.28	0.08
Aug. 31, 2009	0.27	0.21
Nov. 30, 2009	0.26	0.16
Feb. 28, 2010	0.19	0.10
May 31, 2010	0.19	0.10

Quotations reflect inter-dealer prices, without retail mark-up, markdown or commission and may not represent actual transactions.

#### Holders

As of approximately September 2, 2010, Greystone had approximately 333 common shareholders of record.

As of approximately September 1, 2010, there were approximately 1,453 beneficial owners (including those holding in street names) of Greystone's common stock.

#### Dividends

Greystone paid no cash dividends to its common shareholders during the last two fiscal years and does not plan to pay any cash dividends in the near future.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

#### Cautionary Statement Regarding Forward-Looking Information

This Annual Report on Form 10-K includes "forward looking statements" as defined by the Securities and Exchange Commission. These statements concern Greystone's plans, expectations and objectives for future operations. All statements, other than statements of historical facts, included in this Form 10-K that address activities, events or developments that Greystone expects, believes or anticipates will or may occur in the future are forward-looking statements. The words "believe," "plan," "intend," "anticipate," "estimate," "project" and similar expressions are intended to

identify forward-looking statements. These forward-looking statements include, among others, such things as:

- expansion and growth of Greystone's business and operations;
- future financial performance;
- future acquisitions and developments;
- potential sales of products;
- future financing activities; and
- business strategy.

These forward-looking statements are based on assumptions that Greystone believes are reasonable based on current expectations and projections about future events and industry conditions and trends affecting Greystone's business. However, whether actual results and developments will conform to Greystone's expectations and predictions is subject to a number of risks and uncertainties that could cause actual results to differ materially from those contained in the forward-looking statements, including those factors discussed under the section of this Form 10-K entitled "Risk Factors." In addition, Greystone's historical financial performance is not necessarily indicative of the results that may be expected in the future and Greystone believes that such comparisons cannot be relied upon as indicators of future performance.

#### Risk Factors

Greystone has attained operating profits and positive cash flow but there is no assurance that it will be able to sustain profitability.

The Company was incorporated on February 24, 1969. From April 1993 to December 1997, the Company was engaged in various businesses, including the business of exploration, production, and development of oil and gas properties in the continental United States and the operation of a related service business. In December 1997, the Company acquired all of the issued and outstanding stock of Plastic Pallet Production, Inc., and its principal business changed to selling plastic pallets. Since such time, Greystone incurred losses from operations from its inception through fiscal year 2007. However, the results of Greystone's operations for the fiscal years ended May 31, 2010, 2009 and 2008, showed an operating profit and positive cash flows from operations. There is no assurance that Greystone will maintain a positive gross profit or otherwise obtain funds to finance continued operations.

Greystone's financial statements have been qualified on a going concern basis and Greystone has been unable to secure additional financing necessary to sustain and grow its operations.

Greystone's financial statements have been qualified on a going concern basis principally due to lack of sufficient operating income or long-term financing to achieve Greystone's goal of producing and marketing plastic pallets to compete with wood pallets. Greystone has funded its operations to date primarily through equity and debt financings principally guaranteed by its directors. Greystone may need to raise additional funds to implement any expansion strategy beyond current allocation of cash flows for capital projects and the willingness of its directors to

continue providing guarantees. There can be no assurance that additional financing will be available or, if available, that such financing will be on favorable terms. Failure to obtain such additional financing could have a material adverse effect on Greystone.

Greystone has granted security interests in substantially all of its assets in connection with certain debt financings and other transactions.

In connection with certain debt financings and other transactions, Greystone has granted third parties security interests in substantially all of its assets pursuant to agreements entered into with such third parties. Upon the occurrence of an event of default under such agreements, the secured parties may enforce their rights and Greystone may lose all or a portion of its assets. As a result, Greystone could be forced to materially reduce its business activities or cease operations.

Greystone's business could be affected by changes in availability of raw materials.

Greystone uses a proprietary mix of raw materials to produce its plastic pallets. Such raw materials are generally readily available and some may be obtained from a broad range of recycled plastic suppliers and unprocessed waste plastic. At the present time, these materials are being purchased from local, national and international suppliers. The availability of Greystone's raw materials could change at any time for various reasons. For example, the market demand for Greystone's raw materials could suddenly increase, or the rate at which plastic materials are recycled could decrease, affecting both availability and price. Additionally, the laws and regulations governing the production of plastics and the recycling of plastic containers could change and, as a result, affect the supply of Greystone's raw materials. Any interruption in the supply of raw materials or components could have a material adverse effect on Greystone. Furthermore, certain potential alternative suppliers may have pre-existing exclusive relationships with Greystone's competitors and others that may preclude Greystone from obtaining raw materials from such suppliers.

Greystone's business could be affected by competition and rapid technological change.

Greystone currently faces competition from many companies that produce wooden pallets at prices that are substantially lower than the prices Greystone charges for its plastic pallets and other companies that manufacture plastic pallets. It is anticipated that the plastic pallet industry will be subject to intense competition and rapid technological change. Greystone could potentially face additional competition from recycling and plastics companies, many of which have substantially greater financial and other resources than Greystone and, therefore, are able to spend more than Greystone in areas such as product development, manufacturing and marketing. Competitors may develop products that render Greystone's products or proposed products uneconomical or result in products being commercialized that may be superior to Greystone's products. In addition, alternatives to plastic pallets could be developed, which would have a material adverse effect on Greystone.

Greystone is dependent on one large customer.

Greystone derives, and expects that in the foreseeable future it will continue to derive, a large portion of its revenue from a few large customers. A single customer currently accounts for approximately 66% of its sales (83% in fiscal year 2009). There is no assurance that Greystone will retain this customer's business at the same level, or at all. The loss of a material amount of business from this customer would have a material adverse effect on Greystone.

Greystone may not be able to effectively protect Greystone's patents and proprietary rights.

Greystone relies upon a combination of patents and trade secrets to protect its proprietary technology, rights and know-how. There can be no assurance that such patent rights will not be infringed upon, that Greystone's trade secrets will not otherwise become known to or independently developed by competitors, that non-disclosure agreements will not be breached, or that Greystone would have adequate remedies for any such infringement or breach. Litigation may be necessary to enforce Greystone's proprietary rights or to defend Greystone against third-party claims of infringement. Such litigation could result in substantial cost to, and a diversion of effort by, Greystone and its management and may have a material adverse effect on Greystone. Greystone's success and potential competitive advantage is dependent upon its ability to exploit the technology under these patents. There can be no assurance that Greystone will be able to exploit the technology covered by these patents or that Greystone will be able to do so exclusively.

Greystone's business could be affected by changing or new legislation regarding environmental matters.

Greystone's business is subject to changing federal, state and local environmental laws and regulations pertaining to the discharge of materials into the environment, the handling and disposition of waste (including solid and hazardous waste) or otherwise relating to the protection of the environment. As is the case with manufacturers in general, if a release of hazardous substances occurs on or from Greystone's properties or any associated off-site disposal location, or if contamination from prior activities is discovered at any of Greystone's properties, Greystone may be held liable. No assurances can be given that additional environmental issues will not require future expenditures. In addition, both the plastics industry and Greystone are subject to existing and potential federal, state, local and foreign legislation designed to reduce solid wastes by requiring, among other things, plastics to be degradable in landfills, minimum levels of recycled content, various recycling requirements and disposal fees and limits on the use of plastic products. In addition, various consumer and special interest groups have lobbied from time to time for the implementation of these and other such similar measures. Although Greystone believes that the legislation promulgated to date and such initiatives to date have not had a material adverse effect on it, there can be no assurance that any such future legislative or regulatory efforts or future initiatives would not have a material adverse effect.

Greystone's business could be subject to potential product liability claims.

The testing, manufacturing and marketing of Greystone's products and proposed products involve inherent risks related to product liability claims or similar legal theories that may be asserted against Greystone, some of which may cause Greystone to incur significant defense costs. Although Greystone currently maintains product liability insurance coverage that it believes is adequate, there can be no assurance that the coverage limits of its insurance will be adequate under all circumstances or that all such claims will be covered by insurance. In addition, these policies generally must be renewed every year. While Greystone has been able to obtain product liability insurance in the past, there can be no assurance it will be able to obtain such insurance in the future on all of its existing or future products. A successful product liability claim or other judgment against Greystone in excess of its insurance coverage, or the loss of Greystone's product liability insurance coverage could have a material adverse effect upon Greystone.

Greystone currently depends on certain key personnel.

Greystone is dependent on the experience, abilities and continued services of its current management. In particular, Warren Kruger, Greystone's President and CEO, has played a significant role in the development, management and financing of Greystone. The loss or reduction of services of Warren Kruger or any other key employee could have a material adverse effect on Greystone. In addition, there is no assurance that additional managerial assistance will not be required, or that Greystone will be able to attract or retain such personnel.

Greystone's executive officers and directors control a large percentage of Greystone's outstanding common stock, which allows them to control matters submitted to Greystone's shareholders for approval, and all of Greystone's 2003 preferred stock, which entitles them to certain voting rights, including the right to elect a majority of Greystone's Board of Directors.

Greystone's executive officers and directors (and their affiliates), in the aggregate, own approximately 35% of Greystone's outstanding common stock. Therefore, Greystone's executive officers and directors have the ability to decide the outcome of matters submitted to Greystone's shareholders for approval (including the election and removal of directors and any merger, consolidation or sale of all or substantially all of Greystone's assets) and to control Greystone's management and affairs. In addition, an entity that is wholly owned by Greystone's executive officers and directors owns all of Greystone's outstanding 2003 preferred stock. The terms and conditions of Greystone's 2003 preferred stock provide that such holder has the right to elect a majority of Greystone's Board of Directors. Such concentration of ownership may have the effect of delaying, deferring or preventing a change in control, impeding a merger, consolidation, takeover or other business combination or discouraging a potential acquirer from making a tender offer or otherwise attempting to obtain control, which in turn could have an adverse effect on the market price of Greystone's common stock.

Certain restricted shares of Greystone will be eligible for sale in the future and are likely to be sold in the future, which could affect the prevailing market price of Greystone's common stock.

Certain of the outstanding shares of Greystone's common stock are "restricted securities" under Rule 144 of the Securities Act, and (except for shares purchased by "affiliates" of Greystone as such term is defined in Rule 144) would be eligible for sale as the applicable holding periods expire or in the event that the Company files a registration statement relating to such shares. In the future, these shares may be sold only pursuant to a registration statement under the Securities Act or an applicable exemption, including pursuant to Rule 144. Under Rule 144, a person who has owned common stock for at least one year may, under certain circumstances, sell within any three-month period a number of shares of common stock that does not exceed the greater of 1% of the then outstanding shares of common stock or the average weekly trading volume during the four calendar weeks prior to such sale. A person who is not deemed to have been an affiliate of Greystone at any time during the three months preceding a sale, and who has beneficially owned the restricted securities for the last two years is entitled to sell all such shares without regard to the volume limitations, current public information requirements, manner of sale provisions or notice requirements. In addition, Greystone has agreed to file a registration statement in connection with some of these outstanding shares of restricted stock. Sales or the expectation of sales of a substantial number of shares of common stock in the public market by selling shareholders could adversely affect the prevailing market price of the common stock, possibly having a depressive effect on any trading market for the common stock, and may impair Greystone's ability to raise capital at that time through additional sales of its equity securities.

Greystone's stock trades in a limited public market, is subject to price volatility and there can be no assurance that an active trading market will develop or be sustained.

There has been a limited public trading market for Greystone's common stock and there can be no assurance that an active trading market will develop or be sustained. There can be no assurance that Greystone's common stock will trade at or above any particular price in the public market, if at all. The trading price of Greystone's common stock could be subject to significant fluctuations in response to variations in quarterly operating results or even mild expressions of interest on a given day. Accordingly, Greystone's common stock should be expected to experience substantial price changes in short periods of time. Even if Greystone is performing according to its plan and there is no legitimate company-specific financial basis for this volatility, it must still be expected that substantial percentage price swings will occur in Greystone's common stock for the foreseeable future. In addition, the limited market for Greystone's common stock may restrict Greystone's shareholders ability to liquidate their shares.

Greystone does not expect to declare or pay any dividends in the foreseeable future.

Greystone has not declared or paid any dividends on its common stock. Greystone currently intends to retain future earnings to fund the development and growth of its business, to repay indebtedness and for general corporate purposes, and, therefore, does not anticipate paying any cash dividends on its common stock in the foreseeable future. In addition, pursuant to the terms and

conditions of certain loan documentation between Greystone and F&M Bank and the terms and conditions of Greystone's 2003 preferred stock, Greystone is restricted in its ability to pay dividends to holders of its common stock.

Greystone's common stock may be subject to secondary trading restrictions related to penny stocks.

Certain transactions involving the purchase or sale of Greystone's common stock may be affected by a Commission rule for "penny stocks" that imposes additional sales practice burdens and requirements upon broker-dealers that purchase or sell such securities. For transactions covered by this penny stock rule, among other things, broker-dealers must make certain disclosures to purchasers prior to the purchase or sale. Consequently, the penny stock rule may impede the ability of broker-dealers to purchase or sell Greystone's common stock for their customers and the ability of persons now owning or subsequently acquiring Greystone's common stock to resell such securities.

Greystone may issue additional equity securities, which would lead to further dilution of Greystone's issued and outstanding stock.

The issuance of additional common stock or securities convertible into common stock would result in further dilution of the ownership interest in Greystone held by existing shareholders. Greystone is authorized to issue, without shareholder approval, 20,700,000 shares of preferred stock, \$0.0001 par value per share, in one or more series, which may give other shareholders dividend, conversion, voting and liquidation rights, among other rights, which may be superior to the rights of holders of Greystone's common stock. In addition, Greystone is authorized to issue, without shareholder approval, over 4,960,000,000 additional shares of its common stock and securities convertible into common stock.

## Results of Operations

### General

The consolidated financial statements include Greystone and its two wholly-owned subsidiaries, Greystone Manufacturing, L.L.C., or GSM, Plastic Pallet Production, Inc., or PPP, and a variable interest entity, Greystone Properties, L.L.C.

Greystone's primary business is the manufacturing and selling of plastic pallets through its wholly owned subsidiary, GSM. In addition, GSM recycles plastics by grinding, pelletizing and selling the recycled resin through an arrangement with Yorktown Management & Financial Services, L.L.C., an entity owned by Warren Kruger, Greystone's president and CEO.

As of May 31, 2010, Greystone had 87 full-time employees and used temporary personnel as needed. Greystone's production capacity is about 70,000 plastic pallets per month, or 840,000 per year. Production levels have generally been governed by sales and will increase as sales dictate.

Greystone has incurred significant losses from operations; however, for the past three years Greystone has produced positive net income and cash flows from operations. Due to the magnitude of prior losses, we remain highly leveraged and the majority of our bank debt is due within one year. Due to the uncertain market in which Greystone operates, there is no assurance that Greystone will continue to achieve operating profitability or otherwise obtain funds necessary to finance continued operations. See "Liquidity and Capital Resources" under this Item 7.

For all years presented, Greystone's effective tax rate is 0%. From its inception through fiscal year May 31, 2007, Greystone incurred substantial net operating losses which would normally reflect a tax benefit in the statement of operations and a deferred asset on the balance sheet. A valuation reserve has been established to offset the amount of any tax benefit available for each period presented in the consolidated statement of operations. Beginning with fiscal year 2008, Greystone has shown profitability. For fiscal years 2010 and 2009, management has determined that the valuation reserve should offset the amount of any tax benefits. However, management will continue to evaluate the extent that the valuation reserve is needed. Factors that management will consider, among others, is more diversity in its customer base and improved stability in its sales volumes.

#### Year Ended May 31, 2010 Compared to Year Ended May 31, 2009

##### Sales

Sales were \$16,230,555 for fiscal year 2010 compared to \$16,690,708 for fiscal year 2009 for a decrease of \$460,153. Pallet sales were \$15,001,400 in fiscal year 2010 compared to \$16,086,438 in fiscal year 2009 for a decrease of \$1,085,038. Sales to Greystone's major customer were approximately 66% of total sales in fiscal year 2010 compared to 83% in fiscal year 2009 or a decline of approximately \$2,981,000. This decrease in pallet sales is partially offset by increases in pallet sales to other customers. Sales of recycled plastic resin were \$1,229,155, or 8% of sales, compared to \$604,270, or 4% of sales, in fiscal years 2010 and 2009, respectively, for an increase of 624,885.

##### Cost of Sales

Cost of sales was \$13,145,667 (81% of sales) and \$13,125,041 (79% of sales) in fiscal years 2010 and 2009, respectively. The increase in the relationship of cost of sales to sales in fiscal year 2010 is primarily due to increase in manufacturing overhead costs.

Greystone in the normal course of business purchases damaged pallets from its customers for either resale or for regrind. Purchases from its major customer totaled \$857,539 and \$1,581,417 for fiscal year 2010 and 2009, respectively.

##### General and Administrative Expenses

General, selling and administrative expense was \$2,058,302 for fiscal year 2010 compared to \$1,852,126 for fiscal year 2009 for an increase of \$206,176. This increase is primarily related to commissions and travel costs associated with marketing Greystone's product lines and an increase in sales commissions.

## Other Income

Other income was \$304,793 in fiscal year 2010 compared to \$187,705 in fiscal year 2009 for an increase of \$117,088. Other income for fiscal year 2010 includes \$247,084 resulting from the elimination of a payable pursuant to a deemed breach of a contract and the recognition of previously deferred revenue in the amount of \$32,000. Other income for fiscal year 2009 consists primarily of an insurance settlement stemming from a claim on a business interruption policy in the amount of \$132,815 and the recognition of previously deferred revenue in the amount of \$48,000.

## Interest Expense

Interest expense was \$828,059 in fiscal year 2010 compared to \$988,845 in fiscal year 2009 for a decrease of \$160,786. The decrease is primarily attributable to a decrease in the average prime rate of interest for fiscal year 2010 to 3.25% compared to 4.04% for fiscal year 2009 and the reduction in long-term debt.

## Net Income Attributable to Common Stockholders

After deducting preferred dividends and income attributable to non-controlling interests, the net income attributable to common stockholders was \$97,746, or \$0.00 per share, in fiscal year 2010 compared to a net income attributable to common stockholders of \$481,727, or \$0.02 per share, in fiscal year 2009 for the reasons discussed above.

## Liquidity and Capital Resources

### General

Greystone's cash requirements for operating activities consist principally of accounts receivable, inventory, accounts payable, operating leases and scheduled payments of interest on outstanding indebtedness. Greystone is dependent on outside sources of cash to fund its operations. As of May 31, 2010, revenues from sales remain insufficient to meet current liabilities.

A summary of cash flows for the year ended May 31, 2010 is as follows:

Cash provided by operating activities	\$1,308,169
Cash used in investing activities	(342,518 )
Cash used in financing activities	(1,076,667 )

Long term debt obligations of Greystone as of May 31, 2010 are as follows:

Total	1 year	2-3 years	4-5 years	Over 5 years
\$11,714,200	\$9,005,904	\$ 709,503	\$ 528,625	\$1,470,168

To provide for the funding to meet Greystone's operating activities and contractual obligations for fiscal year 2010, Greystone will have to continue to produce positive operating results or explore various options including long-term debt and equity financing. However, there is no guarantee that Greystone will continue to create positive operating results or be able to raise sufficient capital to meet these obligations.

Greystone has a working capital deficit of \$(12,613,621) at May 31, 2010, which includes advances payable to related parties of \$851,580, current portion of long-term debt of \$9,005,904 and accounts payable and accrued liabilities of \$2,961,540. This deficit reflects the uncertain financial condition of Greystone resulting from its inability to obtain long-term financing from traditional financing sources. There is no assurance that Greystone will secure such financing.

As described below, substantially all of the financing that Greystone has received through May 31, 2010 has been provided by loans or through loan guarantees from the officers and directors of Greystone, the offerings of preferred stock to current and former officers and directors of Greystone in 2001 and 2003 and through a private placement of common stock completed in March 2005.

Greystone continues to be dependent upon its officers and directors to provide and/or secure additional financing and there is no assurance that either will do so. As such, there is no assurance that funding will be available for Greystone to continue operations.

Greystone has 50,000 outstanding shares of cumulative 2003 Preferred Stock for a total of \$5,000,000 with a preferred dividend rate at the prime rate of interest plus 3.25%. Greystone does not anticipate that it will make cash dividend payments to any holders of its preferred stock or its common stock unless and until the financial position of Greystone improves through increased revenues, another financing or otherwise.

#### Advances and Loans from Warren Kruger

From time to time, Warren Kruger advances working capital funds to or accepts repayments from Greystone. During fiscal years 2010 and 2009, Mr. Kruger advanced no funds and accepted repayments of \$158,500 and \$221,418, respectively. Effective December 15, 2005, Greystone entered into a loan agreement with Warren Kruger to convert \$527,716 of the advances into a note payable at 7.5% interest and Mr. Kruger has waived payment of interest and principal thereon until January 15, 2011. At May 31, 2010, a note payable of \$527,716, advances of \$851,581 and accrued interest of \$428,202 were due to entities owned or controlled by Warren Kruger.

In addition, Greystone has accounts payable to entities owned or controlled by Mr. Kruger in the amount of \$434,713 at May 31, 2010.

#### Loans from F&M Bank

On March 4, 2005, Greystone entered into a loan agreement with GLOG Investment, L.L.C. ("GLOG") and The F&M Bank & Trust Company ("F&M"), which, among other things, sets forth certain terms applicable to a \$1,500,000 revolving loan extended by F&M to GSM on or about December 18, 2004 and a new \$5,500,000 term loan extended by F&M to GSM on March 4, 2005.

GLOG, an entity owned by Warren F. Kruger, President and CEO, and Robert B. Rosene, Jr., a director, was a party to the loan agreement for the sole purpose of securing the funds necessary to purchase 50,000 shares of Greystone's 2003 preferred stock. The loan agreement provides for a cross default among the revolving loan, the term loan and the GLOG note whereby the bank upon an event of default on any one of the notes, at its discretion, may accelerate payment on all of the notes. The revolving loan, which bears interest at the bank's base rate with a minimum of 4.5%, is renewable annually, is currently due on October 15, 2010, and has a balance as of May 31, 2010 of \$1,261,000. Amounts borrowed under the term loan are represented by a promissory note which currently bears interest at the bank's base rate with a minimum rate of 4.5%, requires monthly principal payments of \$60,577 plus interest, and matures on October 15, 2010.

Greystone's obligations under the loan agreement with F&M are secured by a lien in favor of F&M on substantially all of GSM's assets pursuant to the terms of a security agreement and second mortgage. Also, pursuant to the terms of a guaranty agreement, Greystone guaranteed GSM's performance and payment under the notes. In addition, in order to induce F&M to enter into the loan agreement, certain officers and directors of the Company (Messrs. Kruger and Rosene) entered into a limited guaranty agreement with F&M and Mr. Rosene entered into a pledge agreement with F&M.

#### Advances and Loans from Robert Rosene

Effective December 15, 2005, Greystone entered into a loan agreement with Mr. Rosene to convert \$2,066,000 of advances into a note payable at 7.5% interest. Mr. Rosene has waived payment of principal and interest until January 15, 2011. Accrued interest due to Mr. Rosene at May 31, 2010 is \$797,280.

#### Item 8. Financial Statements and Supplementary Data.

The financial statements of Greystone are set forth on pages F-1 through F-19 inclusive, found at the end of this report.

#### Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.

None.

#### Item 9A. Controls and Procedures.

##### Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed by Greystone in reports filed or submitted under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed

under the Exchange Act is accumulated and communicated to management, including the principal executive and financial officers, as appropriate, to allow timely decisions regarding required disclosure. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

As of May 31, 2010, an evaluation was performed under the supervision and with the participation of Greystone's principal executive officer (CEO) and principal financial officer (CFO), of the effectiveness of the design and operation of Greystone's disclosure controls and procedures pursuant to the Exchange Act Rules 13a-15(e) and 15d-15(e). Based on this evaluation, Greystone's CEO and CFO have concluded that Greystone's disclosure controls and procedures were not effective as of May 31, 2010 as a result of the two material weaknesses identified below.

#### Management's Report on Internal Control Over Financial Reporting

Greystone's CEO and CFO are responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Greystone's internal controls were designed to provide reasonable assurance as to the reliability of Greystone's financial reporting and the preparation of the consolidated financial statements for external purposes in accordance with generally accepted accounting principles in the United States, as well as to safeguard assets from unauthorized use or disposition.

Due to inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of control effectiveness to future periods are subject to the risk that the controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Greystone's CEO and CFO made an assessment of the effectiveness of Greystone's internal control over financial reporting as of May 31, 2010. In making this assessment, Greystone's CEO and CFO used the criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). During this evaluation, Greystone's CEO and CFO identified two material weaknesses. As a result of these two material weaknesses, Greystone's CEO and CFO concluded that Greystone did not maintain effective internal control over financial reporting as of May 31, 2010. The material weaknesses are as follows:

- (i) Greystone lacks the necessary corporate accounting resources to maintain adequate segregation of duties. Reliance on these limited resources impairs Greystone's ability to provide for proper segregation of duties and the ability to ensure consistently complete and accurate financial reporting, as well as disclosure controls and procedures.
- (ii) Greystone, at the parent entity level, has limited resources to ensure that necessary internal controls are implemented and followed throughout the company, including its subsidiaries. Because of this limitation with respect to the ability to allocate sufficient resources to internal controls, material misstatements could occur and remain undetected, implementation of new accounting standards could be hindered and risk assessment and monitoring may not be addressed in a timely manner.

This annual report does not include an attestation report of Greystone's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by Greystone's independent registered public accounting firm pursuant to temporary rules of the SEC to provide only management's report in this annual report.

#### Changes in Internal Control over Financial Reporting

During the period covered by this report, there was no change in Greystone's internal controls over financial reporting that has materially affected or that is reasonably likely to materially affect Greystone's internal control over financial reporting.

#### Item 9B. Other Information.

None.

### PART III.

#### Item 10. Directors, Executive Officers and Corporate Governance.

##### Directors, Executive Officers, Promoters and Control Persons

The following lists the directors and executive officers of Greystone. Directors of Greystone are elected at annual meetings of shareholders unless appointed by the Board of Directors to fill a vacancy upon the resignation or removal of a member or an increase in the number of members of the Board of Directors. Executive officers serve at the pleasure of the Board of Directors.

Name	Position	Term as Director Expires
Warren F. Kruger	President, Chief Executive Officer and Director	2010
Robert B. Rosene, Jr.	Director	2010
William W. Rahhal	Interim Chief Financial Officer Effective January 13, 2010	N/A
Robert H. Nelson	Chief Financial Officer, Resigned Effective October 24, 2009	N/A
Robert Noland	Senior Vice President	N/A

Warren F. Kruger, President, Chief Executive Officer and Director

Mr. Warren F. Kruger, Manager/CEO of privately held Yorktown Management & Financial Services, L.L.C., is 54 years old. Yorktown Management is involved in investment banking, real estate, manufacturing and energy endeavors. Mr. Kruger earned a Bachelor of Business Administration degree from the University of Oklahoma, and an Executive M.B.A. from Southern Methodist University. Mr. Kruger has over thirty years experience in the financial services industry. In 1980, Mr. Kruger co-founded MCM Group, Ltd., which owned and controlled United Bank Club Association, Inc. until 1996 when the firm was sold to a subsidiary of Cendant Corp. (CD-NYSE). He also owned and operated Century Ice, a manufacturer and distributor of ice products from 1996 to 1997, when Packaged Ice, Inc., acquired Century Ice in an industry rollup. Mr. Kruger is a partner with William W. Pritchard in privately held WCC, with investments in oil and gas, real estate and investment banking.

Mr. Kruger became a director of Greystone on January 4, 2002, served as President and Chief Executive Officer from January 10, 2003 to August 15, 2005 and, most recently, has served as President and Chief Executive Officer from November 18, 2006 to the present.

Mr. Robert B. Rosene, Jr., Director

Mr. Rosene, age 56, is President of Seminole Energy Services, L.L.C., a natural gas marketing and gathering company that he co-founded in 1998. Also in 1998, Mr. Rosene co-founded Summit Exploration, L.L.C., an oil and gas production company that holds oil and gas production in several states. Mr. Rosene has served as a director of publicly traded Syntroleum Corporation since 1985. Mr. Rosene has a B.A. with an emphasis in accounting from Oklahoma Baptist University.

Mr. Rosene became a director of Greystone effective June 14, 2004.

William W. Rahhal, Interim Chief Financial Officer

William W. Rahhal, age 69, has been a shareholder and managing officer of Hulme Rahhal Henderson, Inc., Certified Public Accountants, in Ardmore, Oklahoma, since 1988. Mr. Rahhal previously served as Greystone's Chief Financial Officer from October 1, 2002 to October 1, 2004 and subsequently served Greystone as an accounting and financial consultant until his appointment as its Interim Chief Financial Officer, the role in which he currently serves. Mr. Rahhal earned his B.B.A. from the University of Oklahoma and is a Certified Public Accountant licensed in Oklahoma and Texas. Mr. Rahhal has also previously served as a Senior Manager with Price Waterhouse & Co. (now PriceWaterhouseCoopers, LLP) and as financial manager of a privately-held oil and gas production company and contract drilling company.

Mr. Rahhal was named Interim Chief Financial Officer effective as of January 13, 2010.

Robert H. Nelson, Chief Financial Officer

From 2001 until joining Greystone's company in 2004, Mr. Robert H. Nelson, age 65, was a financial consultant to the Key Auto Group, a retail automobile dealership chain. Mr. Nelson served as Chief Financial Officer to Fusion Telecommunications International, Inc., a provider of long distance international communication systems from 1999 to 2001. Mr. Nelson has also served as Chief Financial Officer of: United Auto Group, the second largest publicly traded retail auto group in the United States from 1996 to 1999; Trace International Holding, Inc., a privately owned company with controlling interests in a variety of public and privately owned companies from 1987 to 1999; and Ogden Allied Service and Allied Maintenance Corporation from 1982 to 1987. Prior to that, Mr. Nelson was with Coopers and Lybrand, the predecessor to PricewaterhouseCoopers from 1970 to 1981. Mr. Nelson is a certified public accountant and a graduate of Manhattan College.

Mr. Nelson was named Chief Financial Officer effective as of November 1, 2004 and resigned October 24, 2009.

Robert C. Noland, Senior Vice President of Sales and Marketing

Robert C. Noland, Senior Vice President of Sales and Marketing for Greystone Logistics has over 26 years experience in marketing, sales, and sales management. His background has incorporated High Technology Equipment, Global Positioning Software, Logistics, and Transportation.

He has been employed at Greystone for over three years, and he has added numerous Sales Partners to the Greystone team. These associates specialize in selling plastic pallets to an extensive market of Beverage, Industrial and Manufacturing Companies. He has a Marketing Degree from Kansas State University and an MBA from the University of Arkansas. He resides in Atlanta Georgia, and travels on a frequent basis to support Greystone's sales partners.

Identification of the Audit Committee; Audit Committee Financial Expert

Due to Greystone's size and stage of development, it has had difficulty recruiting individuals to serve on its Board of Directors who are qualified to serve as an audit committee financial expert on an audit committee. As of May 31, 2010, the Company had not established an audit committee and the entire Board of Directors essentially serves as Greystone's audit committee.

Code of Ethics

Effective April 8, 2008, Greystone adopted a Code of Ethics applicable to the Company's officers and directors.

## Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires Greystone's directors, officers and persons who beneficially own more than 10% of any class of the Company's equity securities registered under Section 12 to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of such registered securities of the Company. Officers, directors and greater than 10% beneficial owners are required by regulation to furnish to Greystone copies of all Section 16(a) reports they file.

Based solely on review of the copies of such reports furnished to Greystone and any written representations that no other reports were required during fiscal year 2010, to Greystone's knowledge, all Section 16(a) filing requirements applicable to its officers, directors and greater than 10% beneficial owners during fiscal year 2010 were complied with on a timely basis.

## Item 11. Executive Compensation.

The following table sets forth the compensation paid to named executive officers during the fiscal years ended May 31, 2010 and 2009:

Summary Compensation Table

Name and Principal Position	Fiscal Year Ending May 31,	Salary	Bonus	Option Awards	Nonqualified Deferred Compensation Earnings
Warren F. Kruger, President and Chief Executive Officer	2010	\$120,000	-0-	-0-	120,000 <sup>1</sup>
	2009	\$120,000	-0-	250,000	120,000 <sup>1</sup>
Robert H. Nelson, Chief Financial Officer, through 10/24/2009	2010	\$ 12,692	-0-	-0-	
	2009	\$ 30,000	-0-	-0-	
William W. Rahhal, Interim Chief Financial Officer, effective 1/13/2010	2010	\$ 26,077			
Robert Noland Senior Vice President	2010	\$130,000	-0-	-0-	
	2009	\$130,000	-0-	-0-	

<sup>1</sup> Mr. Kruger voluntarily decided to forgo half of his salary beginning in fiscal year 2006. Greystone has agreed to pay such deferred compensation upon separation of his services from Greystone.

The following table provides information with respect to named executive officers concerning outstanding equity awards as of May 31, 2010:

Outstanding Equity Awards at Fiscal Year End

Name	Number of Securities Underlying Unexercised Options – Exercisable	Number of Securities Underlying Unexercised Options – Unexercisable	Option Exercise Price	Option Expiration Date
Warren F. Kruger	100,000	-0-	\$3.125	4/11/2012
	25,000	-0-	\$1.60	6/26/2012
	150,000	-0-	\$0.55	4/1/2013
	187,500	62,500	\$0.40	2/28/2014
William W. Rahhal	100,000	-0-	\$0.55	4/1/2013
Robert Noland	150,000	50,000	\$0.40	2/28/2014

Directors' and Officers' Compensation

Greystone does not pay cash compensation to the members of its Board of Directors for services on the Board. From time to time in the past, Greystone has granted options to the members of its Board of Directors under its stock option plan as compensation for serving on Greystone's Board of Directors. During the fiscal year ended May 31, 2008, Greystone issued stock options to Robert Rosene, a member of its Board of Directors, to purchase 100,000 shares of common stock as consideration for serving on its Board.

Because the Board of Directors consists of two persons of which one is an outside director, the Board has not considered it necessary create a compensation committee. Both of Greystone's directors participate in determining compensation for officers.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

Securities Authorized for Issuance under Equity Compensation Plans

As of May 31, 2010, Greystone had one equity incentive plan under which equity securities have been authorized for issuance to Greystone's directors, officers, employees and other persons who perform substantial services for or on behalf of Greystone. The following table provides certain information relating to such stock option plan during the year ended May 31, 2010:

## Equity Compensation Plan Information

	(a)	(b)	(c)
Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders	1,970,000	\$ 1.01	18,005,000
Equity compensation plans not approved by security holders	-0-	N/A	-0-
Total	1,970,000	\$ 1.01	18,005,000

## Security Ownership of Certain Beneficial Owners and Management

As of August 31, 2010, Greystone had 26,111,201 shares of its common stock and 50,000 shares of its 2003 preferred stock outstanding. Each share of the 2003 preferred stock is convertible into approximately 66.67 shares of Greystone's common stock.

The following table sets forth certain information regarding the shares of Greystone's common stock beneficially owned as of May 31, 2010, by (i) each person known by Greystone to own beneficially 5% or more of Greystone's outstanding common stock, (ii) each of Greystone's directors and officers, and (iii) all of Greystone's directors and officers as a group:

Name and Address of Beneficial Owner	Amount and Nature of Beneficial Owner(1)	Percent of Class(2)
GLOG Investment, L.L.C. 1613 E. 15th Street Tulsa, OK 74160	3,333,333(3)	11.3%
Warren F. Kruger Chairman, President and CEO 1613 East 15th Street Tulsa, OK 74120	10,023,388(4)	33.5%

Edgar Filing: GREYSTONE LOGISTICS, INC. - Form 10-K

William W. Rahhal Interim Chief Financial Officer 1613 East 15th Street Tulsa, OK 74120	152,883(5)	0.6%
Robert B. Rosene, Jr. Director 1323 E. 71st Street, Suite 300 Tulsa, OK 74136	6,179,284(6)	20.9%
Robert H. Nelson Chief Financial Officer, until 10/14/09 1613 E. 15th Street Tulsa, OK 74120	285,714 (7)	1.1%
Robert C. Noland Senior Vice President of Sales and Marketing 1613 East 15th Street Tulsa, OK 74120	150,000(8)	0.6%
William Pritchard 1437 S. Boulder Tulsa, OK 74119	1,436,029(9)	5.4%
All Directors & Officers as a Group 5 persons)	13,457,936(10)	44.5%

(1)The number of shares beneficially owned by each holder is calculated in accordance with the rules of the Commission, which provide that each holder shall be deemed to be a beneficial owner of a security if that holder has the right to acquire beneficial ownership of the security within 60 days through options, warrants or the conversion of another security; provided, however, if such holder acquires any such rights in connection with or as a participant in any transaction with the effect of changing or influencing control of the issuer, then immediately upon such acquisition, the holder will be deemed to be the beneficial owner of the securities. The number the shares of common stock beneficially owned by each holder includes common stock directly owned by such holder and the number of shares of common stock such holder has the right to acquire upon the conversion of 2003 preferred stock and/or upon the exercise of certain options or warrants.

(2)The percentage ownership for each holder is calculated in accordance with the rules of the Commission, which provide that any shares a holder is deemed to beneficially own by virtue of having a right to acquire shares upon the conversion of warrants, options or other rights, or upon the conversion of preferred stock or other rights are considered outstanding solely for purposes of calculating such holder's percentage ownership.

(3)The total includes 3,333,333 shares of common stock deemed to be owned directly by GLOG Investment, L.L.C. by virtue of its ownership of the 2003 Preferred Stock, which is convertible into common stock. GLOG is wholly owned by the following officers and/or directors of the Registrant: Warren F. Kruger (Chairman, President and CEO) and Robert B. Rosene, Jr. (Director). By virtue of their ownership of and control over GLOG, these shares are also included in the number of shares beneficially owned by each of Warren F. Kruger and Robert B. Rosene, Jr.

(4)

The total includes: (i) 6,201,755 shares of common stock beneficially owned directly by Warren Kruger; (ii) 19,000 shares held of record by Yorktown; (iii) 462,500 shares of common stock that Warren Kruger directly has the right to acquire in connection with options; (iv) 6,800 shares of common stock that Warren Kruger holds as custodian for minor children; and (vii) 3,333,333 shares that GLOG Investment, L.L.C. has the right to acquire upon conversion of the 2003 preferred stock. By virtue of his ability to control GLOG Investment, L.L.C., Warren Kruger is also deemed to beneficially own the shares directly owned by GLOG.

(5)The total includes: (i) 52,883 shares of common stock that William Rahhal which owns as a joint tenant and (ii) 100,000 shares of common stock that Mr. Rahhal has the right to acquire in connection with options.

- (6) The total includes: (i) 2,770,951 shares of common stock beneficially owned directly by Robert Rosene; (ii) 75,000 shares of common stock that Robert Rosene has the right to acquire with options; and (iii) 3,333,333 shares that GLOG Investment, L.L.C. has the right to acquire upon conversion of the 2003 preferred stock. By virtue of his ability to control GLOG, Robert Rosene is also deemed to beneficially own the shares directly owned by GLOG.
- (7) The total includes 285,714 shares of common stock beneficially owned by Mr. Nelson's wife, of which he disclaims any interest.
- (8) The total includes 150,000 shares of common stock that Robert Noland has the right to acquire in connection with options.
- (9) The total includes: (i) 1,061,029 shares of common stock beneficially owned directly by William Pritchard; and (ii) 375,000 shares of common stock that William Pritchard has the right to acquire with options.
- (10) The total includes: (i) 9,051,389 outstanding shares; (ii) 787,500 shares issuable upon exercise of vested stock options; and (iii) 3,333,333 shares that GLOG Investment, L.L.C. has the right to acquire upon conversion of the 2003 preferred stock. By virtue of their ownership of and control over GLOG, these shares are also included in the number of shares beneficially owned by the directors and officers as a group.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Transactions with Related Persons

Loans and Advances

For information regarding loans from Warren Kruger, see "Loans from Warren Kruger" under the heading "Liquidity and Capital Resources" in Item 7 of this Form 10-K.

For information regarding an advance from Robert Rosene, see "Advances and Loans from Robert Rosene" under the heading "Liquidity and Capital Resources" in Item 7 of this Form 10-K.

Technology License Agreement

In April 2001, Greystone entered into a license agreement with WCC, an entity owned by Warren Kruger and William Pritchard, providing for Greystone to have the exclusive right and license to use fire retardancy technology then being developed under the direction and expense of WCC. The license agreement was negotiated and executed 9 months before Warren Kruger, William Pritchard, or entities with which they are affiliated became directors or beneficial owners of 10% or more of Greystone's common stock in January 2002. Under the agreement, Greystone must pay the greater of 2.5% of Greystone's gross monthly revenues derived from the sale of UL listed pallets using the technology or a minimum monthly royalty of \$10,000. However, WCC also agreed in the license agreement to convey to Greystone ownership of the licensed process (as defined in the agreement) in the event that cumulative royalties paid by Greystone equaled \$250,000 during the first two years of the agreement, subject to an override or carried interest in favor of WCC equal to 2.5% of the gross monthly revenues which are the same payments as would have been received under the license agreement. Subsequent to the execution of the original agreement which provided for a "coating" technology, Westgate Capital Company, L.L.C., developed an additive process which Greystone used to successfully complete UL testing. The technology is currently known as CJ2(TM).

Greystone has previously incurred \$400,000 of royalty fees under the license agreement and issued its common stock to WCC in satisfaction of the debt. It is Greystone's understanding that it has a paid-up licensing agreement with Westgate Capital Company, L.L.C. WCC has not asserted that Greystone is in default under the license agreement, and WCC has indicated that it has no current intentions of asserting any default by Greystone under such agreement.

#### Other Transactions

For information relating to a Purchase Agreement and Bill of Sale and related Pallet Molds Lease Agreement entered into with Yorktown Management & Financial Services, LLC, an entity wholly owned by the Company's CEO and President, see "Recent Transactions" under Item 1 of this Form 10-K. Greystone completed this transaction with Yorktown, in part, to alleviate the working capital requirements in maintaining raw material inventory, by purchasing raw material as it is used in the production process. During fiscal years 2010 and 2009, GSM raw material purchases from Yorktown totaled \$3,814,115 and \$5,281,519, respectively.

In addition, GSM pays rental to Yorktown for certain pallet molds at the rate of \$1.00 per pallet. During fiscal years 2010 and 2009, GSM paid or accrued \$42,888 and \$110,597, respectively, in rentals for use of certain pallet molds. Commencing in fiscal year 2010, GSM pays 40% of the gross profit, defined as revenue less cost of material and sales commissions, on sales of recycled resin to Yorktown. Such fees paid or accrued in fiscal year 2010 were \$91,532.

#### Director Independence

Greystone has determined that Mr. Rosene is "independent" within the meaning of Rule 4200(a)(15) of the NASDAQ listing standards. Because of the small size of Greystone's Board of Directors, it has not established any committees. Rather, the entire Board acts as, and performs the same functions as, the audit committee, compensation committee and nominating committee. Mr. Kruger is not considered "independent" within the meaning of Rule 4200(a)(15) of the NASDAQ listing standards.

#### Item 14. Principal Accounting Fees and Services.

The following is a summary of the fees billed to Greystone by HoganTaylor LLP, Greystone's independent registered public accounting firm, for professional services rendered for the fiscal years ended May 31, 2010 and May 31, 2009:

Fee Category	Fiscal 2010 Fees	Fiscal 2009 Fees
Audit Fees(1)	\$ 85,000	\$ 85,000
Audit-Related Fees	0	0
Tax Fees	0	0
All Other Fees	0	0
<b>Total Fees</b>	<b>\$ 85,000</b>	<b>\$ 85,000</b>

(1) Audit Fees consist of aggregate fees billed for professional services rendered for the audit of Greystone's annual financial statements and review of the interim financial statements included in quarterly reports or services that are normally provided by the independent registered public accounting firm in connection with statutory and regulatory filings or engagements during the fiscal years ended May 31, 2010 and May 31, 2009, respectively.

The entire Board of Directors of Greystone is responsible for the appointment, compensation and oversight of the work of the independent registered public accounting firm and approves in advance any services to be performed by the independent registered public accounting firm, whether audit-related or not. The entire Board of Directors reviews each proposed engagement to determine whether the provision of services is compatible with maintaining the independence of the independent registered public accounting firm. All of the fees shown above were pre-approved by the entire Board of Directors.

PART IV

Item 15. Exhibits, Financial Statement Schedules.

(a) (1) Consolidated Financial Statements

The financial statements required under this item are included in Item 8 of Part II.

(2) Schedules

None.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders of  
Greystone Logistics, Inc.

We have audited the consolidated balance sheets of Greystone Logistics, Inc. and subsidiaries as of May 31, 2010 and 2009, and the related consolidated statements of income, changes in stockholders' deficit and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to examine management's assessment of the effectiveness of the Company's internal control over financial reporting as of May 31, 2010, included in Item 9A. and, accordingly, we do not express an opinion thereon. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Greystone Logistics, Inc. and subsidiaries as of May 31, 2010 and 2009, and the consolidated results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1 to the consolidated financial statements, Greystone Logistics, Inc. changed its method of accounting for non-controlling interests as of June 1, 2009.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. At May 31, 2010, the Company has a stockholders' deficit of \$7,681,536 and a working capital deficit of \$12,613,621. These deficits raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are described in Note 2. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

Greystone Logistics, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

May 31, 2010 and 2009

Note 1.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Greystone Logistics, Inc. ("Greystone") through its two wholly-owned subsidiaries, Greystone Manufacturing, LLC ("GSM"), and Plastic Pallet Production, Inc. ("PPP"), is engaged in the manufacture and marketing of plastic pallets and grinding, pelletizing and selling recycled plastic resin. The recycling of plastic resin is accomplished through an agreement with Yorktown Management & Financial Services, L.L.C., an entity owned by Warren F. Kruger, Greystone's president and CEO.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Greystone and its subsidiaries and variable interests. All material intercompany accounts and transactions have been eliminated.

Greystone consolidates all entities that it controls by ownership of a majority voting interest as well as variable interest entities for which Greystone is the primary beneficiary. In determining if Greystone is the primary beneficiary of variable interest entities includes an assessment of Greystone's level of involvement in setting up the entity, determining if the activities of the entity are substantially conducted on behalf of Greystone, determining whether Greystone provides more than half of the subordinated financial support to the entity, and determining if Greystone absorbs the majority of the entity's expected losses or returns.

Greystone also consolidates Greystone Properties, LLC, which is owned by Warren Kruger, President and CEO, and Robert Rosene, a member of the Board of Directors. Messrs. Kruger and Rosene have personally guaranteed the mortgage note payable of Greystone Properties.

Use of Estimates

The preparation of Greystone's financial statements in conformity with accounting principles generally accepted in the United States of America requires Greystone's management to make estimates and assumptions that affect the amounts reported in these financial statements and accompanying notes. Actual results could differ materially from those estimates.

#### Accounts Receivable and Allowance for Doubtful Accounts

Greystone carries its accounts receivable at their face value less an allowance for doubtful accounts. On a periodic basis, Greystone evaluates its accounts receivable and establishes an allowance for doubtful accounts based on a combination of specific customer circumstances and credit conditions and based on a history of collections. Based on periodic reviews of outstanding accounts receivable, Greystone writes off balances deemed to be uncollectible.

#### Inventory

Inventory consists of finished pallets and raw materials and is stated at the lower of average cost or market value.

#### Property, Plant and Equipment

Greystone's property, plant and equipment is stated at cost. Depreciation expense is computed on the straight-line method over the estimated useful lives, as follows:

Plant 39 years  
buildings  
Production 5-10 years  
machinery  
and  
equipment  
Office 3-5 years  
equipment  
& furniture  
& fixtures

Upon sale, retirement or other disposal, the related costs and accumulated depreciation of items of property, plant or equipment are removed from the related accounts and any gain or loss is recognized. When events or changes in circumstances indicate that assets may be impaired, an evaluation is performed comparing the estimated future undiscounted cash flows associated with the asset to the asset's carrying amount. If the asset carrying amount exceeds the cash flows, a write-down to market value or discounted cash flow value is required.

#### Patents

Amortization expense for the costs incurred by Greystone to obtain the patents on the modular pallet system and accessories is computed on the straight-line method over the estimated life of 15-17 years.

#### Stock Options

The grant-date fair value of stock options and other equity-based compensation issued to employees is amortized over the vesting period of the award as compensation cost. The fair value of new option grants is estimated using the Black-Scholes option pricing model. The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options, which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility, dividend yields and expected holding periods.

## Recognition of Revenues

Greystone's sales agreements to customers other than its primary customer generally provide for risk of loss to pass to the customers upon shipment from Greystone's plant in Bettendorf, Iowa. Revenue is recognized for these customers at date of shipment.

Greystone's agreement with its major customer provides that (1) risk of loss or damages for product in transit remain with Greystone or (2) product is subject to approval at the buyer's premises. Accordingly, Greystone recognizes revenue when product has been delivered to the customer's sites and risk of loss has passed to the customer.

For sales to all customers, cost of goods sold is recognized when the related revenue is recognized.

## Income Taxes

Greystone accounts for income taxes under the liability method, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

## Earnings Per Share

Basic earnings per share is computed by dividing the earnings available to common stockholders by the weighted average number of common shares outstanding for the year. In arriving at income available to common stockholders, preferred stock dividends are deducted from net income for the year. For fiscal years 2010 and 2009, convertible preferred stock, warrants and stock options are not considered as their effect is antidilutive.

## Recent Accounting Pronouncements

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements (SFAS 160). SFAS 160 was issued to establish accounting and reporting standards for the noncontrolling interest in a subsidiary (formerly called minority interests) and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. FAS No. 160 is effective for Greystone in fiscal years beginning after December 15, 2009. Greystone adopted this statement effective June 1, 2009.

In June 2009, the FASB issued SFAS No. 167, Amendments to FASB Interpretation No. 46R. SFAS No. 167 amends certain requirements of FASB Interpretation No. 46 (Revised December 2003), "Consolidation of Variable Interest Entities — an interpretation of ARB No. 51," to improve the financial reporting by enterprises involved with variable interest entities and to provide more relevant and reliable information to users of financial statements. SFAS No. 167 is effective for Greystone in the fiscal year beginning June 1, 2010. FAS No. 167 is not expected to have a material impact on the Greystone's consolidated financial position and results of operations.

## Note 2. CONTINUATION AS A GOING CONCERN

The accompanying financial statements have been prepared assuming that Greystone will continue as a going concern. Greystone has achieved profitability from operations and currently, management believes that Greystone has the capacity to produce sufficient plastic pallets to maintain such profitability. However, Greystone is currently dependent on one customer. Sales to this major customer were approximately 66% of its sales in fiscal year 2010 (83% in fiscal year 2009). To date, Greystone has received substantial advances from investors to finance its operations and will require additional substantial funding and/or personal guarantees on debt in order to attain its business plan and continue to achieve profitable operations. Historically, management has been successful in financing its operations primarily through short-term loans and personal guarantees on bank loans by its officers and directors. Management continues to seek long-term and/or permanent financing. Neither the receipt of additional funding in adequate amounts nor the successful implementation of its business plan can be assured. The combination of these factors raises substantial doubt about Greystone's ability to continue as a going concern.

## Note 3. INVENTORY

Inventory consists of the following as of May 31:

	2010	2009
Raw materials	\$331,539	\$376,328
Finished goods	318,404	685,241
Total inventory	\$649,943	\$1,061,569

## Note 4. PROPERTY, PLANT AND EQUIPMENT

A summary of the property, plant and equipment is as follows, as of May 31:

	2010	2009
Production machinery and equipment	\$7,777,025	\$7,827,149
Building and land	4,809,713	4,803,368
Furniture and fixtures	141,988	235,856
	12,728,726	12,866,373
Less: accumulated depreciation	(5,183,521)	(4,657,485)
	\$7,545,205	\$8,208,888

Depreciation expense for the years ended May 31, 2010 and 2009 is \$1,006,201 and \$964,087, respectively.

Note 5.

## OTHER ASSETS

Other assets consist of the following as of May 31:

	2010	2009
Patents	\$190,738	\$190,738
Deposits	3,273	263
Accumulated amortization	(98,835	) (87,346
Total	\$95,176	\$103,655

Amortization of intangibles was \$11,489 and \$11,490 for 2010 and 2009, respectively. Future amortization will be \$11,490 per year for the next five fiscal years and \$34,453 thereafter.

Note 6.

## LONG-TERM DEBT

Long-term debt consists of the following as of May 31:

	2010	2009
Note payable to F&M Bank & Trust Company, bank's base rate of interest but not less than 4.5%, due October, 15, 2010, payable in monthly installments of \$60,577 plus interest	\$4,600,075	\$4,705,846
Note payable to F&M Bank & Trust Company, bank's base rate of interest but not less than 4.5%, due October 15, 2010	1,261,000	1,461,000
Mortgage payable to Greystone Plastics, Inc., 7% interest, due September 7, 2018, payable in monthly installments of \$13,889 plus accrued interest, secured by building	1,402,738	1,569,417
Mortgage payable to Kansas City Life Insurance, 6.25% interest, due July 1, 2014, payable in monthly installments of \$10,781, secured by building	1,213,877	1,265,616
Note payable to BancFirst, prime rate of interest plus 1%, due July 1, 2012 payable in monthly installments of \$14,858, secured by equipment	348,209	507,676
Note payable to F&M Bank & Trust Company, prime rate of interest, due March 15, 2011, payable in monthly installments of \$12,205	98,164	237,063

F-10

Note payable to Robert Rosene, 7.5% interest, due January 15, 2011, unsecured	2,066,000	2,066,000
Note payable to Warren Kruger, 7.5% interest, due January 15, 2011, unsecured	527,716	527,716
Other	196,421	248,962
Total	11,714,200	12,589,296
Less: Current portion	9,005,904	9,339,343
Long-term debt	\$2,708,296	\$3,249,953

The prime rate of interest as of May 31, 2010 was 3.25%.

The notes payable to F&M Bank and Trust Company are secured by Greystone's property and equipment, accounts receivable and cash balances. The loans are guaranteed by the directors of Greystone in effect at May 31, 2010.

Maturities of long-term debt for the five years after May 31, 2010 are \$9,005,904, \$437,315, \$272,188, \$276,859 and \$251,766 with \$1,470,168 payable thereafter.

Note 7.

#### RELATED PARTY TRANSACTIONS

Transactions with Warren Kruger, Chairman

Yorktown Management & Services LLC, an entity owned by Warren Kruger, Chairman and CEO, sells plastic raw material to GSM primarily as a sole provider. During fiscal years 2010 and 2009, GSM's raw material purchases from Yorktown totaled \$3,814,115 and \$5,281,519, respectively.

GSM pays rental to Yorktown for certain pallet molds at the rate of \$1.00 per pallet. During fiscal years 2010 and 2009, GSM paid or accrued \$42,888 and \$110,597, respectively, in rentals for use of certain pallet molds. GSM recycles plastics by grinding, pelletizing and selling the recycled resin through an agreement with Yorktown by which, Yorktown acquires the raw material, sells the raw material to GSM at its cost and receives 40% of the gross profit which is defined under the agreement as revenue less cost of material and sales expenses. Such fees paid or accrued to Yorktown in fiscal year 2010 were \$91,532.

From time to time, Warren Kruger advances working capital funds to or accepts repayments from Greystone. During fiscal years 2010 and 2009, Mr. Kruger advanced no funds and accepted repayments of \$158,500 and \$221,418, respectively. Effective December 15, 2005, Greystone entered into a loan agreement with Warren Kruger to convert \$527,716 of the advances into a note payable at 7.5% interest and Mr. Kruger has

waived payment of interest and principal thereon until January 15, 2011. At May 31, 2010, a note payable of \$527,716, advances of \$851,581 and accrued interest of \$428,202 were due to entities owned or controlled by Warren Kruger.

In addition, Greystone has accounts payable to entities owned or controlled by Mr. Kruger in the amount of \$434,713 at May 31, 2010.

Greystone also reimburses an entity owned by Warren Kruger for office rent at the rate of \$1,500 per month.

Pursuant to Mr. Kruger's employment contract with Greystone, he is entitled to be paid an annual salary of \$240,000. However, effective November 2006, Mr. Kruger voluntarily elected to temporarily defer the payment of half of such salary until such time as Greystone's operating results further improve.

#### Transactions with Robert Rosene, Director

Effective December 15, 2005, Greystone entered into a loan agreement with Mr. Rosene to convert \$2,066,000 of the advances into a note payable at 7.5% interest and Mr. Rosene has waived the payment of principal and accrued interest thereon until January 15, 2011. Accrued interest due to Mr. Rosene at May 31, 2010 is \$797,280.

Note 8.

#### FEDERAL INCOME TAXES

Deferred taxes as of May 31, 2010 and 2009 are as follows:

	2010	2009
Deferred Tax Assets:		
Net operating loss	\$ 2,364,568	\$ 2,436,452
Amortization of intangibles	1,156,403	1,297,563
Deferred compensation accrual	170,000	129,200
Depreciation, financial reporting in excess of tax	20,623	34,112
Provision for doubtful accounts	—	20,597
 Total deferred tax assets	 3,711,594	 3,917,924
Less: Valuation allowance	(3,711,594 )	(3,917,924 )
 Total	 \$ —	 \$ —

Management has provided a valuation allowance for the full amount of the deferred tax asset due to the uncertainty regarding Greystone's ability to continue to maintain profitability from its operations. While management anticipates that the products being developed will improve profitability and, as a result, some or all of the deferred assets would ultimately be realized. Greystone has not yet reached sufficient reliability on product acceptance and marketability to reduce the valuation allowance.

The net change in deferred taxes for the year ended May 31, 2010 and 2009 is as follows:

	2010		2009
Net operating loss	\$ (71,884	)	\$ (342,606 )
Depreciation of property and equipment	(13,489	)	(25,264 )
Amortization of intangibles	(141,160	)	(141,319 )
Deferred compensation accrual	40,800		129,200
Allowance for doubtful accounts	(20,597	)	20,597
Change in valuation allowance	206,330		359,392
 Total	 \$ —		 \$ —

Greystone's effective tax rate for the years ended May 31, 2010 and 2009 differs from the federal statutory rate as follows:

	2010		2009
Tax provision using statutory rates	\$ 143,431		\$ 286,362
Net change in valuation allowance	(206,330	)	( 359,392 )
Compensation cost of stock options	32,629		32,629
Other	30,270		40,401
 Tax provision, per financial statements	 \$ —		 \$ —

Greystone has a net operating loss (NOL) for Federal income tax purposes at May 31, 2010 of \$29,290,000 expiring in fiscal year 2012 through fiscal year 2029 of which \$6,612,000 is management's estimate of the usable amount Pursuant to Internal Revenue Code Section 382 and due to a change in control of Greystone during the fiscal year ended May 31, 2005, the utilization of operating losses accumulated through fiscal year 2005 is limited to approximately \$225,000 per year.

		2012 through
Cumulative as of May 31, 2005	\$2,177,000	2025
Year ending May 31, 2006	1,557,000	2026
Year ending May 31, 2007	2,878,000	2027

Based upon a review of its income tax filing positions, Greystone believes that its positions would be sustained upon an audit and does not anticipate any adjustments that would result in a material change to its financial position. Therefore, no reserves for uncertain income tax positions have been recorded. Greystone recognizes interest related to income taxes as interest expense and penalties as operating expenses. The statute of limitations has not expired for federal income tax returns for fiscal years 2005 through 2010.

## Note 9. STOCKHOLDERS' EQUITY

## Warrants

A summary of outstanding warrants for the years ending May 31, 2010 and 2009 is as follows:

	2010	Weighted average exercise price	2009	Weighted average exercise price
	Shares		Shares	
Beginning of year	5,262,914	\$ 0.56	5,262,914	\$ 0.56
Retirements	5,262,914	\$ 0.56	—	—
End of year	—	\$ —	5,262,914	\$ 0.56

## Common Stock

Effective April 29, 2009, Greystone issued 50,000 shares of common stock in exchange for services. The issuance was valued at the market value of the stock on the date of issue or \$12,500.

## Convertible Preferred Stock

In September 2003, Greystone issued 50,000 shares of Series 2003, cumulative, convertible preferred stock, par value \$0.0001, for a total purchase price of \$5,000,000. Each share of the preferred stock has a stated value of \$100 and a dividend rate equal to the prime rate of interest plus 3.25% and may be converted into common stock at the conversion rate of \$1.50 per share or an aggregate of 3,333,333 shares of common stock. The holder of the preferred stock has been granted certain voting rights so that such holder has the right to elect a majority of the Board of Directors of Greystone.

Preferred stock dividends must be fully paid before a dividend on the common stock may be paid. Greystone has accrued preferred stock dividends of \$2,282,122 and \$1,958,012 as of May 31, 2010 and 2009, respectively. The holder of the preferred stock waived its right to compounded dividends on unpaid interest during the period from March 4, 2005 through May 31, 2010, totaling approximately \$585,000.

## Note STOCK OPTIONS

10.

Greystone has a stock option plan that provides for the granting of options to key employees and non-employee directors. The options are to purchase common stock at not less than fair market value at the date of the grant. The maximum number of shares of common stock for which options may be granted is 20,000,000 of which 18,005,000 are available for grant as of May 31, 2010. Stock options generally expire in ten years from date of grant or upon termination of employment and are generally exercisable one year from date of grant in cumulative annual installments of 25%, except that the options granted in fiscal year 2001 were 100% vested at the date of grant. Following is a summary of option activity for the two years ended May 31, 2010:

	Number	Exercise Price	Fair Value	Remaining Contractual Life (years)	Aggregate Intrinsic Value
Outstanding, May 31, 2008	2,970,000	\$0.84			
Outstanding, May 31, 2009	2,970,000	\$0.84			
Cancelled in fiscal year 2010	(1,000,000)	—			
Outstanding, May 31, 2010	1,970,000	\$1.01		3.1	
Exercisable, May 31, 2010	1,707,500	\$1.10		3.0	
Non-vested options, May 31, 2008	787,500	\$0.40	\$0.37	5.8	\$ 291,375
Options vested in fiscal year 2009	262,500	\$0.40	\$0.37		\$ 97,125
Non-vested options, May 31, 2009	525,000	\$0.40	\$0.37	4.8	\$ 194,250
Options vested in fiscal year 2010	262,500	\$0.40	\$0.37		\$ 97,125
Non-vested options, May 31, 2010	262,500	\$0.40	\$0.37	3.8	\$ 97,125

Share-based compensation cost was \$95,968 for each of fiscal years 2010 and 2009. As of May 31, 2010, there is a total of \$76,604 of unrecognized compensation expense related to non-vested share-based compensation for the management grants. That cost is expected to be recognized in fiscal year 2011.

Note FINANCIAL INSTRUMENTS

11.

The following methods and assumptions are used in estimating the fair-value disclosures for financial instruments:

Accounts Receivable and Accounts Payable: The carrying amounts reported in the balance sheet for accounts receivable and accounts payable approximate fair value due to the short-term maturity of these instruments.

Long-Term Debt: The carrying amount of loans with floating rates of interest approximate fair value. Fixed rate loans are valued based on cash flows using estimated rates comparable loans. The carrying amounts reported in the balance sheet approximate fair value.

Note SUPPLEMENTAL INFORMATION OF CASH FLOWS

12.

Supplemental information of cash flows for the years ended May 31:

	2010	2009
Non-cash activities:		
Preferred dividend accrual	\$ 324,110	\$ 360,513
Supplemental information:		
Interest paid	473,154	651,915
Taxes paid	—	—

Note CONCENTRATIONS OF CREDIT RISK

13.

Financial instruments that potentially subject Greystone to concentrations of credit risk consist principally of cash deposits in excess of federally insured limits. As of May 31, 2010, Greystone's bank balances were within federally insured limits.

For the fiscal year ended May 31, 2010 and 2009, one customer accounted for approximately 66% and 83% of sales, respectively. The account receivable from this customer at May 31, 2010 totaled \$629,968.

As of the fiscal year ended May 31, 2010 and 2009, Greystone purchased 100% of its raw materials from Yorktown Management & Financial Services LLC, an entity owned by Warren Kruger, Chairman and CEO. However, the raw materials for Greystone's products are readily available and may be purchased from other suppliers.

Note OPERATING LEASE

14.

Rental expense on operating lease totaled \$73,200 and \$36,600 during 2010 and 2009, respectively. The equipment lease is between Yorktown Management, a company owned by Warren Kruger, is dated March 1, 2009 and has a term of 36 months. The lease has remaining lease payments of \$73,200 and \$36,600 for fiscal years 2011 and 2012, respectively.

Effective January 1, 2009, Greystone entered into a lease agreement to produce, at a stated rental cost by product, mid-duty pallets using the lessor's equipment with a minimum monthly commitment of \$25,000. The lease has a term of one year with the option of renewing or terminating the lease at the end of each year. The lease was renewed for another year effective January 1, 2010.

Note VARIABLE INTEREST ENTITY

15.

Greystone Properties, LLC is owned by Warren Kruger, President and CEO, and Robert Rosene, a member of the Board of Directors. It was created solely to own and lease one of the two buildings GSM occupies in Bettendorf, Iowa. The lease terms are based on factors other than the lease's market value and the outstanding mortgage on the building is guaranteed by Greystone's President and CEO.

The building, having a carrying value of \$1,765,960 and \$1,816,040 at May 31, 2010 and 2009, respectively, serves as collateral for Greystone Properties' debt. The debt has a carrying value of \$1,213,877 and \$1,265,616 at May 31, 2010 and 2009, respectively, and has no recourse to the general credit of Greystone.

Note RETIREMENT PLAN

16.

Greystone sponsors a retirement plan for the benefit of all eligible employees. The retirement plan qualifies under Section 401(k) of the Internal Revenue Code thereby allowing eligible employees to make tax-deferred contributions. The retirement plan provides that Greystone may elect to make employer-matching contributions equal to a percentage of each participant's voluntary contribution and may also elect to make profit sharing contributions. Greystone has never made any matching or profit sharing contributions to the retirement plan.
