Winnebago Industries, Inc.
Notes to Consolidated Financial Statements
(Unaudited)

Note 1: Basis of Presentation

The "Company," "we," "our" and "us" are used interchangeably to refer to Winnebago Industries, Inc. and its wholly-owned subsidiary, Winnebago of Indiana, LLC, as appropriate in the context.

We were incorporated under the laws of the state of Iowa on February 12, 1958 and adopted our present name on February 28, 1961. Our executive offices are located at 605 West Crystal Lake Road in Forest City, Iowa. Our telephone number is (641) 585-3535; our website is www.winnebagoind.com. Our common stock trades on the NYSE under the symbol "WGO."

In our opinion, the accompanying unaudited condensed consolidated financial statements contain all adjustments, consisting of normal recurring accruals, necessary to present fairly our consolidated financial position as of November 28, 2015 and the consolidated results of income and comprehensive income and consolidated cash flows for the first three months of Fiscal 2016 and 2015. The consolidated statement of income and comprehensive income for the first three months of Fiscal 2016 is not necessarily indicative of the results to be expected for the full year. The consolidated balance sheet data as of August 29, 2015 was derived from audited financial statements, but does not include all of the information and footnotes required by GAAP for complete financial statements. These interim financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto appearing in our Annual Report on Form 10-K for the fiscal year ended August 29, 2015.

Fiscal Period

We follow a 52-/53-week fiscal year, ending the last Saturday in August. Both Fiscal 2016 and Fiscal 2015 are 52-week years.

New Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which specifies how and when to recognize revenue as well as providing informative, relevant disclosures. In August 2015, the FASB deferred the effective date of this standard by one year, which would become effective for fiscal years beginning after December 15, 2017 (our Fiscal 2019). We are currently evaluating the impact on our consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, Inventory (Topic 330), which requires inventory measured using any method other than last-in, first-out ("LIFO") or the retail inventory method to be subsequently measured at the lower of cost or net realizable value, rather than at the lower of cost or market. Under this ASU, subsequent measurement of inventory using the LIFO and retail

inventory method is unchanged. ASU 2015-11 will become effective prospectively for fiscal years beginning after December 15, 2016 (our Fiscal 2018). We are currently evaluating the impact on our consolidated financial statements.

In September 2015, the FASB issued ASU 2015-16, Business Combinations (Topic 805), to simplify the accounting for measurement-period adjustments in a business combination. Under the new standard, an acquirer must recognize adjustments to provisional amounts in a business combination in the reporting period in which the adjustment amounts are determined, rather than retrospectively adjusting the provisional amounts recognized at the acquisition date with a corresponding adjustment to goodwill as under current guidance. ASU 2015-16 is effective for fiscal years, and the

interim periods within those years, beginning after December 15, 2015 (our Fiscal 2017). This new standard will be applied prospectively to adjustments to provisional amounts that occur after the effective date with earlier application permitted for financial statements that have not been issued. We are currently evaluating the impact of this ASU on our consolidated financial statements, which will be dependent on future acquisitions.

In November 2015, the FASB issued ASU 2015-17, Income Taxes (Topic 740), to simplify the presentation of deferred income taxes. Under the new standard, both deferred tax liabilities and assets are required to be classified as noncurrent in a classified balance sheet. ASU 2015-17 will become effective for fiscal years, and the interim periods within those years, beginning after December 15, 2016 (our Fiscal 2018), with early adoption allowed. As of August 29, 2015, we had deferred taxes that were classified as current and noncurrent assets. During the first quarter of Fiscal 2016, we elected to prospectively adopt ASU 2015-17, thus reclassifying \$8.1 million of current deferred tax assets to noncurrent on the accompanying consolidated balance sheet. The prior reporting period was not retrospectively adjusted. The adoption of this guidance had no impact on our consolidated results of income and comprehensive income.

Note 2: Concentration Risk

One of our dealer organizations accounted for 20.9% and 18.0% of our consolidated net revenues for the first three months of Fiscal 2016 and Fiscal 2015, respectively. A second dealer organization accounted for 14.2% and 19.0% of our consolidated net revenues for the first three months of Fiscal 2016 and Fiscal 2015, respectively. The loss of either or both of these dealer organizations could have a significant adverse effect on our business. In addition, deterioration in the liquidity or creditworthiness of these dealers could negatively impact our sales and could trigger repurchase obligations under our repurchase agreements.

Table of Contents

Note 3: Investments and Fair Value Measurements

Assets and Liabilities that are Measured at Fair Value on a Recurring Basis

We account for fair value measurements in accordance with ASC 820, Fair Value Measurements and Disclosures, which defines fair value, establishes a framework for measurement and expands disclosure about fair value measurement. The fair value hierarchy requires the use of observable market data when available. In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. Our assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

Cash Equivalents

The carrying value of cash equivalents approximates fair value as original maturities are less than three months. Our cash equivalents are comprised of money market funds traded in an active market with no restrictions.

The following tables set forth by level within the fair value hierarchy our financial assets that were accounted for at fair value on a recurring basis at November 28, 2015 and August 29, 2015 according to the valuation techniques we used to determine their fair values:

(In thousands)	Fair Value at November 28, 2015	Fair Value Measurements Using Inputs Considered As		
		Level 1 Quoted Prices in Active Markets for Identical Assets	Level 2 Significant Other Observable Inputs	Level 3 Significant Unobservable Inputs
Assets that fund deferred compensation:				
Domestic equity funds	\$4,484	\$4,411	\$73	\$—
International equity funds	320	292	28	—
Fixed income funds	282	237	45	—
Total assets at fair value	\$5,086	\$4,940	\$146	\$—

(In thousands)	Fair Value at August 29, 2015	Fair Value Measurements Using Inputs Considered As		
		Level 1 Quoted Prices in Active Markets for Identical Assets	Level 2 Significant Other Observable Inputs	Level 3 Significant Unobservable Inputs
Assets that fund deferred compensation:				
Domestic equity funds	\$4,937	\$4,894	\$43	\$—
International equity funds	493	477	16	—
Fixed income funds	284	251	33	—
Total assets at fair value	\$5,714	\$5,622	\$92	\$—

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Assets that Fund Deferred Compensation

Our assets that fund deferred compensation are marketable equity securities measured at fair value using quoted market prices and primarily consist of equity-based mutual funds. The majority of which are classified as Level 1 as they are traded in an active market for which closing stock prices are readily available. These securities fund the Executive share option plan and the Executive deferred compensation plan (see Note 8). The assets related to these deferred compensation plans that will expire within a year are included in prepaid expenses and other assets in the

accompanying consolidated balance sheets; the remaining noncurrent assets are included in other assets.

Assets and Liabilities that are Measured at Fair Value on a Nonrecurring Basis

Our non-financial assets, which include goodwill and property, plant and equipment, are not required to be measured at fair value on a recurring basis. However, if certain triggering events occur, or if an annual impairment test is required, we must evaluate the non-financial asset for impairment. If an impairment did occur, the asset is required to be recorded at the estimated fair value. During the first three months of Fiscal 2016, no impairments were recorded for non-financial assets.

Table of Contents

Note 4: Inventories

Inventories consist of the following:

(In thousands)	November 28, 2015	August 29, 2015
Finished goods	\$28,479	\$12,179
Work-in-process	72,898	66,602
Raw materials	67,441	65,928
Total	168,818	144,709
LIFO reserve	(32,454) (32,544
Total inventories	\$136,364	\$112,165

The above value of inventories, before reduction for the LIFO reserve, approximates replacement cost at the respective dates. Of the \$168.8 million and \$144.7 million inventory at November 28, 2015 and August 29, 2015, respectively, \$156.5 million and \$136.3 million is valued on a LIFO basis. Towables inventory of \$12.3 million and \$8.4 million at November 28, 2015 and August 29, 2015, respectively, is valued on a FIFO basis.

Note 5: Net Investment in Operating Leases and Operating Lease Repurchase Obligations

During the third quarter of Fiscal 2014 we delivered 520 RV rental units to Apollo, a US RV rental company. Under the terms of a sales agreement with Apollo, all units were paid for upon delivery. To secure an order of this magnitude, we contractually agreed to repurchase up to 343 of the units at specified prices after one season of rental use (by no later than December 31, 2014) provided certain conditions were met. On December 29, 2014 the termination date for our repurchase obligation was extended from December 31, 2014 to February 28, 2015. The original cost of these units was depreciated down to the estimated net realizable value of the rental units during the time frame that the units were in rental use. During the first quarter of Fiscal 2015, we were released from our repurchase obligation for 124 units as Apollo sold the units in the market place. As units subject to repurchase were sold, we removed the remaining net investment in operating lease as well as the operating lease repurchase obligation. In the second quarter of Fiscal 2015, we were released from our remaining repurchase obligations and as a result, there were no associated assets or liabilities on the balance sheet at February 28, 2015 or thereafter.

Net lease revenue was recorded ratably over the rental period that Apollo held the units based upon the difference between the proceeds received and the estimated repurchase obligation less the estimated depreciation expense of the unit. We were not required to repurchase any units from Apollo, thus we did not record a gain or loss for the difference between the estimated residual value of the unit and the actual resale value as a component of net lease revenue. We recorded net lease revenue of \$714,000 during the first quarter of Fiscal 2015.

We have not entered into sales agreements with repurchase obligations since Fiscal 2014, thus no additional units have been recorded as operating leases since that time.

Note 6: Property, Plant and Equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and consists of the following:

(In thousands)	November 28, 2015	August 29, 2015
Land	\$1,874	\$1,874
Buildings and building improvements	53,971	53,388
Machinery and equipment	94,970	94,034
Software	9,454	8,033
Transportation	8,917	8,913
Total property, plant and equipment, gross	169,186	166,242
Less accumulated depreciation	(130,092) (128,992

Total property, plant and equipment, net	\$39,094	\$37,250
--	----------	----------

On November 30, 2015 we purchased land and buildings from Country Coach in Junction City, Oregon, for approximately \$5.7 million for eventual expansion of our motorhome operations.

7

Table of Contents

Note 7: Warranty

We provide our motorhome customers a comprehensive 12-month/15,000-mile warranty on our Class A, B and C motorhomes, and a 3-year/36,000-mile structural warranty on Class A and C sidewalls and floors. We provide a comprehensive 12-month warranty on all towable products. We have voluntarily agreed to pay certain warranty-type costs to help protect the reputation of our products and the goodwill of our customers. Estimated costs related to product warranty are accrued at the time of sale and are based upon past warranty claims and unit sales history and adjusted as required to reflect actual costs incurred, as information becomes available. A significant increase in dealership labor rates, the cost of parts or the frequency of claims could have a material adverse impact on our operating results for the period or periods in which such claims or additional costs materialize.

Changes in our product warranty liability are as follows:

(In thousands)	Three Months Ended	
	November 28, 2015	November 29, 2014
Balance at beginning of period	\$11,254	\$9,501
Provision	3,594	2,577
Claims paid	(3,263) (2,988
Balance at end of period	\$11,585	\$9,090

Note 8: Employee and Retiree Benefits

Postretirement health care and deferred compensation benefits are as follows:

(In thousands)	November 28, 2015	August 29, 2015
Postretirement health care benefit cost	\$5,905	\$34,535
Non-qualified deferred compensation	19,092	19,508
Executive share option plan liability	4,196	4,788
SERP benefit liability	2,694	2,649
Executive deferred compensation	376	299
Officer stock-based compensation	255	242
Total postretirement health care and deferred compensation benefits	32,518	62,021
Less current portion	(4,649) (4,931
Long-term postretirement health care and deferred compensation benefits	\$27,869	\$57,090

Postretirement Health Care Benefits

We provide certain health care and other benefits for retired employees hired before April 1, 2001, who have fulfilled eligibility requirements at age 55 with 15 years of continuous service. We use a September 1 measurement date for this plan and our postretirement health care plan currently is not funded.

In Fiscal 2005, through a plan amendment, we established dollar caps on the amount that we will pay for postretirement health care benefits per retiree on an annual basis so that we were not exposed to continued medical inflation. Retirees are required to pay a monthly premium in excess of the employer dollar caps for medical coverage based on years of service and age at retirement. Each January for the past four years, the employer established dollar caps were reduced by 10% through plan amendments. On September 28, 2015, we announced a plan amendment to our postretirement health care benefits. Beginning January 1, 2016, postretirement health care benefits will be discontinued for retirees age 65 and over. We plan to fund a \$700,000 health reimbursement account in calendar 2016 to assist retirees with medical expenses. The plan amendment also includes a 10% reduction in employer paid premiums for retirees under age 65. As a result of these amendments, our liability for postretirement health care was reduced as presented in the following table.

Table of Contents

Date	Event	Dollar Cap Reduction	Liability Reduction (In thousands)	Amortization Period ⁽¹⁾
Fiscal 2005	Established employer dollar caps		\$40,414	11.5 years
January 2012	Reduced employer dollar caps	10%	4,598	7.8 years
January 2013	Reduced employer dollar caps	10%	4,289	7.5 years
January 2014	Reduced employer dollar caps	10%	3,580	7.3 years
January 2015	Reduced employer dollar caps	10%	3,960	7.1 years
January 2016 ⁽²⁾	Reduce employer dollar caps for retirees under age 65; discontinue retiree benefits for retirees age 65 and over	10%	28,596	6.9 years

⁽¹⁾ Plan amendments are amortized on a straight-line basis over the expected remaining service period of active plan participants.

⁽²⁾ In accordance with ASC 715, the effects of the plan amendment are accounted for at the date the amendment is adopted and has been communicated to plan participants. The effective date for this plan amendment was September 28, 2015.

Net periodic postretirement benefit income consisted of the following components:

(In thousands)	Three Months Ended	
	November 28, 2015	November 29, 2014
Interest cost	\$153	\$353
Service cost	41	110
Amortization of prior service benefit	(1,713)	(1,291)
Amortization of net actuarial loss	368	316
Net periodic postretirement benefit income	\$(1,151)	\$(512)
Payments for postretirement health care	\$228	\$251

Note 9: Shareholders' Equity

Stock-Based Compensation

We have a 2014 Omnibus Equity, Performance Award, and Incentive Compensation Plan (as amended, the "Plan") in place as approved by shareholders, which allows us to grant or issue non-qualified stock options, incentive stock options, share awards and other equity compensation to key employees and to non-employee directors.

On October 13, 2015 and October 15, 2014 the Human Resources Committee of the Board of Directors granted an aggregate of 204,200 and 99,600 shares, respectively, of restricted common stock to our key employees and non-employee directors under the Plan. The value of the restricted stock award is determined using the intrinsic value method which, in this case, is based on the number of shares granted and the closing price of our common stock on the date of grant.

Stock-based compensation expense was \$623,000 and \$901,000 during the first quarters of Fiscal 2016 and 2015, respectively. Of the \$623,000 expense recognized in Fiscal 2016, \$363,000 related to the October 13, 2015 grant of 204,200 shares. The remainder is related to the amortization of previously granted restricted stock awards, as well as non-employee director stock units issued in lieu of director fees. Compensation expense is recognized over the requisite service period of the award.

Dividends

On October 14, 2015, the Board of Directors declared a quarterly cash dividend of \$0.10 per share of common stock, which was paid on November 25, 2015 to shareholders of record at the close of business on November 11, 2015.

On December 16, 2015, the Board of Directors declared a quarterly cash dividend of \$0.10 per share of common stock, payable on January 27, 2016 to shareholders of record at the close of business on January 13, 2016.

Note 10: Contingent Liabilities and Commitments

Repurchase Commitments

Generally, manufacturers in the RV industry enter into repurchase agreements with lending institutions which have provided wholesale floorplan financing to dealers. Most dealers' RVs are financed on a "floorplan" basis under which a bank or finance company lends the dealer all, or substantially all, of the purchase price, collateralized by a security interest in the recreation vehicles purchased.

Our repurchase agreements provide that, in the event of default by the dealer on the agreement to pay the lending institution, we will repurchase the financed merchandise. The terms of these agreements, which generally can last up to 18 months, provide that our liability will be the lesser of remaining principal owed by the dealer or dealer invoice less periodic reductions based on the time

Table of Contents

since the date of the original invoice. Our contingent liability on these repurchase agreements was approximately \$390.5 million and \$386.0 million at November 28, 2015 and August 29, 2015, respectively.

In certain instances, we also repurchase inventory from our dealers due to state law or regulatory requirements that govern voluntary or involuntary relationship terminations. Although laws vary from state to state, some states have laws in place that require manufacturers of recreation vehicles to repurchase current inventory if a dealership exits the business. Incremental repurchase exposure beyond existing repurchase agreements, related to dealer inventory in states that we have had historical experience of repurchasing inventory, totaled \$7.3 million and \$7.2 million at November 28, 2015 and August 29, 2015, respectively.

Our risk of loss related to our repurchase commitments is significantly reduced by the potential resale value of any products that are subject to repurchase and is spread over numerous dealers and lenders although two dealer organizations account for approximately 35% of our revenues. The aggregate contingent liability related to our repurchase agreements represents all financed dealer inventory at the period reporting date subject to a repurchase agreement, net of the greater of periodic reductions per the agreement or dealer principal payments. Based on the repurchase exposure as previously described, we established an associated loss reserve. Our accrued losses on repurchases were \$1.2 million as of November 28, 2015 and \$1.3 million as of August 29, 2015.

A summary of repurchase activity is as follows:

(Dollars in thousands)	Three Months Ended	
	November 28, 2015	November 29, 2014
Inventory repurchased: ⁽¹⁾		
Units	—	54
Dollars	\$—	\$7,266
Inventory resold:		
Units	1	1
Cash collected	\$36	\$20
(Gain) loss realized	\$(1) \$12
Units in ending inventory	—	53

⁽¹⁾ The majority of units in ending inventory at November 29, 2014 were attributed to a single dealership and were resold in the second quarter of Fiscal 2015.

We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to calculate our loss reserve for repurchase commitments.

Litigation

We are involved in various legal proceedings which are ordinary litigation incidental to our business, some of which are covered in whole or in part by insurance. We believe while the final resolution of any such litigation may have an impact on our results for a particular reporting period, the ultimate disposition of such litigation will not have any material adverse effect on our financial position, results of operations or liquidity.

For the past several years we have been involved in litigation in Australia seeking to recover from Knott Investments for damages for using our name without our approval. On December 2, 2015 the Federal Court of Australia, New South Wales District Registry, General Division, entered judgment in favor of Winnebago Industries, Inc. and against Knott Investments for damages arising out of its use of the Winnebago name. Damages awarded were 1% of the total sales of Winnebago branded recreation vehicles from October 14, 2004, through October 17, 2013, plus interest. That award is likely to exceed \$5.0 million, plus attorneys' fees. An appeal by Knott Investments is anticipated.

Note 11: Income Taxes

We account for income taxes under ASC 740, Income Taxes. The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in our financial statements or tax returns. On November

20, 2015, the FASB issued ASU 2015-17, Income Taxes (Topic 740), which requires entities to present deferred tax assets (DTAs) and deferred tax liabilities (DTLs) as noncurrent in a classified balance sheet. ASU 2015-17 will become effective for fiscal years, and the interim periods within those years, beginning after December 15, 2016, with early adoption allowed. During the first quarter of Fiscal 2016, we elected to prospectively adopt ASU 2015-17, thus reclassifying \$8.1 million of current DTAs to noncurrent on the accompanying consolidated balance sheet. The prior reporting period was not retrospectively adjusted.

We file tax returns in the US federal jurisdiction, as well as various international and state jurisdictions. Although certain years are no longer subject to examinations by the IRS and various state taxing authorities, net operating loss carryforwards generated in

Table of Contents

those years may still be adjusted upon examination by the IRS or state taxing authorities if they either have been or will be used in a future period. As of November 28, 2015, our federal returns from Fiscal 2012 to present continue to be subject to review by the IRS. Currently, the Company's Fiscal 2014 Federal Return is being reviewed. With few exceptions, the state returns from Fiscal 2009 to present continue to be subject to review by the state taxing jurisdictions. At this time, we have one state jurisdiction that is currently reviewing our Fiscal 2012 and Fiscal 2013 returns. A number of years may elapse before an uncertain tax position is audited and finally resolved, and it is often very difficult to predict the outcome of such audits.

As of November 28, 2015, our unrecognized tax benefits were \$2.4 million including accrued interest and penalties of \$888,000. If we were to prevail on all unrecognized tax benefits recorded, \$1.8 million of the \$2.4 million would benefit the overall effective tax rate. It is our policy to recognize interest and penalties accrued relative to unrecognized tax benefits as tax expense. We do not believe that there will be a significant change in the total amount of unrecognized tax benefits within the next twelve months.

Note 12: Earnings Per Share

The following table reflects the calculation of basic and diluted income per share:

(In thousands, except per share data)	Three Months Ended	
	November 28, 2015	November 29, 2014
Income per share - basic		
Net income	\$8,558	\$9,895
Weighted average shares outstanding	26,976	26,969
Net income per share - basic	\$0.32	\$0.37
Income per share - assuming dilution		
Net income	\$8,558	\$9,895
Weighted average shares outstanding	26,976	26,969
Dilutive impact of awards and options outstanding	91	109
Weighted average shares and potential dilutive shares outstanding	27,067	27,078
Net income per share - assuming dilution	\$0.32	\$0.37

At the end of the first quarter of Fiscal 2016 and Fiscal 2015, there were options outstanding to purchase 24,000 shares and 212,154 shares, respectively, of common stock at an average price of \$33.63 and \$29.17, respectively, which were not included in the computation of diluted income per share because they are considered anti-dilutive under the treasury stock method per ASC 260, Earnings Per Share.

Note 13: Comprehensive Income (Loss)

Changes in defined benefit pension items in AOCI, net of tax, were:

(In thousands)	Three Months Ended	
	November 28, 2015	November 29, 2014
Balance at beginning of period	\$(2,274)	\$(1,808)
OCI before reclassifications	17,701	—
Amounts reclassified from AOCI	(829)	(601)
Net current-period OCI	16,872	(601)
Balance at end of period	\$14,598	\$(2,409)

Reclassifications out of AOCI in net periodic benefit costs, net of tax, were:

(In thousands)	Location on Consolidated Statements of Income and Comprehensive Income	Three Months Ended	
		November 28, 2015	November 29, 2014
Amortization of prior service credit	Operating expenses	\$(1,060) \$(800)
Amortization of net actuarial loss	Operating expenses	231	199
Total reclassifications		\$(829) \$(601)

Table of Contents

Note 14: Subsequent Events

On November 30, 2015 we purchased land and buildings from Country Coach for approximately \$5.7 million for eventual expansion of our motorhome production facilities as noted in Note 6.

On December 2, 2015 the Federal Court of Australia, New South Wales District Registry, General Division, entered judgment in favor of Winnebago Industries, Inc. and against Knott Investments for damages arising out of its use of the Winnebago name. See Note 10.

On December 16, 2015 our Board of Directors declared a cash dividend of \$0.10 per share as noted in Note 9.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion should be read in conjunction with the Unaudited Consolidated Financial Statements contained in this Form 10-Q as well as the Management's Discussion and Analysis and Risk Factors included in our Annual Report on Form 10-K for the fiscal year ended August 29, 2015 and in Part II, Item 1A of this Quarterly Report on Form 10-Q.

Forward-Looking Information

Certain of the matters discussed in this Quarterly Report on Form 10-Q are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which involve risks and uncertainties. A number of factors could cause actual results to differ materially from these statements, including, but not limited to: increases in interest rates, availability of credit, low consumer confidence, availability of labor, significant increase in repurchase obligations, inadequate liquidity or capital resources, availability and price of fuel, a slowdown in the economy, increased material and component costs, availability of chassis and other key component parts, sales order cancellations, slower than anticipated sales of new or existing products, new product introductions by competitors, the effect of global tensions, integration of operations relating to mergers and acquisitions activities, business interruptions, any unexpected expenses related to ERP and strategic sourcing projects, and other factors which may be disclosed throughout this report. Although we believe that the expectations reflected in the “forward-looking statements” are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Undue reliance should not be placed on these “forward-looking statements,” which speak only as of the date of this report. We undertake no obligation to publicly update or revise any “forward-looking statements” whether as a result of new information, future events or otherwise, except as required by law or the rules of the NYSE.

Executive Overview

Winnebago Industries, Inc. is a leading US manufacturer of RVs with a proud history of manufacturing RV products for more than 50 years. We currently produce all of our motorhomes in vertically integrated manufacturing facilities in Iowa and we produce all travel trailer and fifth wheel trailers in Indiana. We distribute our products primarily through independent dealers throughout the US and Canada, who then retail the products to the end consumer. Our retail unit market share, as reported by Stat Surveys based on state records, is illustrated below. Note that this data is subject to adjustment and is continuously updated.

	Rolling 12 Months Through October		Calendar Year

(1) Towable wholesale shipments as reported by RVIA.

(2) Towable retail registrations as reported by Stat Surveys for the US and Canada combined.

(3) Monthly and quarterly towable wholesale shipments are based upon the forecast prepared by Dr. Richard Curtin of the University of Michigan Consumer Survey Research Center for RVIA and reported in the Roadsigns RV Winter 2015 Industry Forecast Issue. The revised RVIA annual 2015 wholesale shipment forecast is 310,100 and the annual forecast for 2016 is 314,400.

(4) Stat Surveys has not issued a projection for retail demand for this period.

(5) YTD wholesale shipments and retail registrations include January through October.

Company Outlook

Based on our profitable operating results in recent years, we believe that we have demonstrated our ability to maintain our liquidity, cover operations costs, recover fixed assets, and maintain physical capacity at present levels. Now that we have entered into the towable market, we are growing revenues and earnings in a market significantly larger than the motorized market.

Our motorized production facilities are currently located in largely rural areas of northern Iowa. In addition, the unemployment rate in these areas is currently low. These factors limit our ability to increase motorized production volumes at a more rapid pace. To overcome these labor shortages we began expanding within the state of Iowa. In Fiscal 2014 we leased an additional manufacturing facility in Lake Mills which is now in production. In the third quarter of Fiscal 2015 we purchased a facility in Waverly, which will be ready for production later this fiscal year. On November 30, 2015 we purchased a production facility in Junction City, Oregon. We plan to invest a total of \$15 - \$20 million as we move production of select diesel products to this West Coast facility. We believe that this move will allow our Forest City facility to increase production of Class A gas and Class C motorhomes. These expansions are intended to facilitate the increased production rate and to reach additional labor markets.

In addition to finding alternative locations, we have re-evaluated the manner in which we deploy labor in our Forest City facility. We are in the process of exiting our bus and aluminum extrusion operations. Both of these operations provided very low margins while consuming production labor. We intend to redeploy these labor resources to the higher-margin motorized operations. In October 2015, we sold assets related to our bus operations and we expect to exit aluminum extrusion operations by the end of the fiscal year.

Fiscal 2016 is a year in which we expect to continue investing and rebuilding for Winnebago's future. We anticipate flat to modest motorized deliveries growth, which is in line with RVIA's projection of 3% growth for the industry. We've taken steps to improve motorized labor efficiency and expect to see modest improvement in Fiscal 2016. In Towables, we anticipate building on our Fiscal 2015 results, with continued penetration of our new products and further expansion of our distribution base. We believe we can again achieve growth in excess of the overall towables market projections for Fiscal 2016.

Table of Contents

Our unit order backlog was as follows:

(In units)	As Of				(Decrease) Increase	% Change	
	November 28, 2015		November 29, 2014				
Class A gas	315	13.1	% 429	20.2	% (114)	(26.6))%
Class A diesel	189	7.8	% 303	14.3	% (114)	(37.6))%
Total Class A	504	20.9	% 732	34.5	% (228)	(31.1))%
Class B	450	18.7	% 340	16.0	% 110	32.4	%
Class C	1,458	60.4	% 1,050	49.5	% 408	38.9	%
Total motorhome backlog ⁽¹⁾	2,412	100.0	% 2,122	100.0	% 290	13.7	%
Travel trailer	238	76.3	% 94	61.0	% 144	153.2	%
Fifth wheel	74	23.7	% 60	39.0	% 14	23.3	%
Total towable backlog ⁽¹⁾	312	100.0	% 154	100.0	% 158	102.6	%

Approximate backlog revenue in thousands⁽²⁾

Motorhomes	\$222,055	\$201,373	\$20,682	10.3	%
Towables	\$7,249	\$4,837	\$2,412	49.9	%

We include in our backlog all accepted purchase orders from dealers to be shipped within the next six months.

⁽¹⁾ Orders in backlog can be cancelled or postponed at the option of the dealer at any time without penalty and, therefore, backlog may not necessarily be an accurate measure of future sales.

Our unit dealer inventory was as follows:

	November 28, 2015		November 29, 2014		(Decrease) Increase	% Change	
	Motorhomes	4,115	4,192	(77)			
Towables	1,838	1,682	156	9.3	%		

A key metric used to evaluate dealer inventory levels is the retail turn rate (12 month retail volume/current dealer inventory). At the end of the first quarter of Fiscal 2016 the retail turn rate was over 2.2 turns which we feel reflects the alignment between retail demand and our dealers' inventory.

At the December 2014 Board of Directors meeting, two strategic initiatives were approved and, as a result, commenced in the second quarter of Fiscal 2015. Both of these projects represent significant investments that we believe will contribute to our future success.

The first strategic initiative, the execution of an ERP system implementation to replace all legacy business applications is progressing according to plans. During the first quarter of Fiscal 2016, the system has gone "live" for Finance and the Towables operation. The next two phases of implementation will involve launching the human resources/payroll areas and then to enable ERP functionality at our newly acquired West Coast Facilities. As we gain more experience and expertise with the new toolset and access to data the new ERP platform affords, we will continue to identify, and in some cases quantify, optimization opportunities in our supply chain, engineering, manufacturing and other business areas. We anticipate that approximately 40% of the cost will be immediately expensed over the life of the project and 60% will be capitalized. As components of the ERP are placed in service, we will depreciate over a 10-year life. The following table illustrates the project costs in Fiscal 2015 and 2016 thus far:

(In thousands)	Fiscal 2015				Fiscal 2016	Cumulative	(1) 55	%
	Q2	Q3	Q4	YTD	Q1	Investment		
Capitalized	\$537	\$884	\$1,870	\$3,291	\$1,412	\$4,703		

Edgar Filing: WINNEBAGO INDUSTRIES INC - Form 10-Q

Expensed	652	611	1,265	2,528	1,363	3,891	45	%
Total	\$1,189	\$1,495	\$3,135	\$5,819	\$2,775	\$8,594	100	%

⁽¹⁾ During the first quarter of Fiscal 2016, we placed in service \$1.7 million of our cumulative capitalized investment.

Table of Contents

Our original cost estimate for this project was \$12 - \$16 million to be completed over a three-year time frame that included software, external implementation assistance and increased internal staffing directly related to this initiative. Now that we have purchased additional facilities in Oregon for motorhome production expansion as well as determined that additional outside expertise is needed to integrate the Oregon facility into our PLM system and to support BOM simplification within our timetable, our total cost estimate for our ERP implementation project has increased to \$25 million as illustrated in the the table below:

(In thousands)	Original Estimate	West Coast Expansion	PLM Integration	BOM Simplification	Revised Estimate
Capitalized	\$9,600	\$2,880	\$1,320	\$1,200	\$15,000
Expensed	6,400	1,920	880	800	10,000
Total	\$16,000	\$4,800	\$2,200	\$2,000	\$25,000

We are still planning that this project will be completed in Fiscal 2017.

The second initiative is a strategic sourcing project with the objective of obtaining long-term material cost savings through standardizing our purchasing processes, optimizing our supplier relationships and improving our current sourcing methodologies. We engaged external support with deep domain expertise to help us launch the project and incurred \$1.6 million in general and administrative expenses for this assistance in Fiscal 2015. We incurred approximately \$200,000 general and administrative expense in the first quarter of Fiscal 2016 (\$140,000 was incurred in the prior year) related to this project, which is less than what was originally planned, as project management was transitioned to internal resources in the first quarter. When all commodities have been through the strategic sourcing process (expected by June 2016), we anticipate this project will provide gross margin expansion of 30 to 50 basis points as we increase our efficiency in acquiring raw materials.

Results of Operations

Current Quarter Compared to the Comparable Quarter Last Year

The following is an analysis of changes in key items included in the statements of operations:

(In thousands, except percent and per share data)	Three Months Ended		November 29, 2014	% of Revenues ⁽¹⁾	(Decrease) Increase	% Change
	November 28, 2015	% of Revenues ⁽¹⁾				
Net revenues	\$214,223	100.0	\$224,403	100.0	\$(10,180)	(4.5)%
Cost of goods sold	188,974	88.2	200,017	89.1	(11,043)	(5.5)%

Total Towables ASP	20,685		25,067		(4,382)	(17.5)%

⁽¹⁾ Percentages may not add due to rounding differences.

Net revenues consisted of the following:

(In thousands)	Three Months Ended		November 29,		(Decrease)	% Change		
	November 28,		2014					
Motorhomes ⁽¹⁾	\$191,495	89.4	% \$203,042	90.5	% \$(11,547)	(5.7)%
Towables ⁽²⁾	16,883	7.9	% 13,606	6.1	% 3,277		24.1	%
Other manufactured products	5,845	2.7	% 7,755	3.5	% (1,910)	(24.6)%
Total net revenues	\$214,223	100.0	% \$224,403	100.0	% \$(10,180)	(4.5)%

⁽¹⁾ Includes motorhome units, parts and services, and net motorhome lease revenue.

⁽²⁾ Includes towable units and parts.

Motorhome net revenues decreased \$11.5 million or 5.7% in the first quarter of Fiscal 2016 attributed primarily to a 5.4% decrease in unit deliveries mostly due to a decrease in Class A products shifting to Class B and C unit sales in

the first quarter of Fiscal 2016. This trend in part reflects the limited motorized labor capacity and the decision we've made regarding where to best allocate production capacity. Additionally, the lower unit volume is due in part to renewed focus on line completion rates and production quality.

Table of Contents

The increase in Towables revenues of \$3.3 million or 24.1% was attributed to a 49.5% increase in unit deliveries partially offset by a decrease in ASP of 17.5% as compared to the first quarter of Fiscal 2015. The decrease in ASP was primarily a result of a mix shift of to lower priced travel trailers.

Cost of goods sold was \$189.0 million, or 88.2% of net revenues for the first quarter of Fiscal 2016 compared to \$200.0 million, or 89.1% of net revenues for the same period a year ago due to the following:

Total variable costs (materials, direct labor, variable overhead, delivery expense and warranty), as a percent of net revenues, decreased from 83.9% to 83.6%.

Fixed overhead (manufacturing support labor, depreciation and facility costs) and research and development-related costs decreased from 5.2% to 4.7% of net revenues due to greater absorption of fixed costs.

All factors considered, gross profit increased from 10.9% to 11.8% of net revenues. Both motorhomes and Towables showed improved margins in the first quarter of Fiscal 2016 compared to the same period in Fiscal 2015. Motorized margins improved as a result of the following key items: improved product mix, lower workers' compensation expense, and cost savings from our strategic sourcing project. Partially offsetting these reductions were cost pressures from labor-related manufacturing inefficiencies and increased warranty expense.

Selling expenses were \$5.0 million and \$4.7 million, or 2.3% and 2.1% of net revenues in the first quarter of Fiscal 2016 and Fiscal 2015, respectively. Increases in the first quarter of Fiscal 2016 included additional advertising and product promotion expenses as compared to the prior year.

General and administrative expenses were \$7.5 million and \$5.2 million, or 3.5% and 2.3% of net revenues in the first quarter of Fiscal 2016 and Fiscal 2015, respectively. Increases in the first quarter of Fiscal 2016 were primarily related to \$1.4 million of incremental costs associated with ERP implementation and increased professional and legal fees.

Non-operating income of \$135,000 in the first quarter of Fiscal 2016 was primarily due to proceeds from our COLI policies.

The overall effective income tax rate for the first quarter of Fiscal 2016 was 33.6% compared to the effective tax rate of 31.5% for the same period in Fiscal 2015. The increase in tax rate for the first quarter of Fiscal 2016 is primarily a result of a lower level of tax planning initiatives recorded during the quarter compared to the same period last year.

Net income and diluted income per share were \$8.6 million and \$0.32 per share, respectively, for the first quarter of Fiscal 2016. In the first quarter of Fiscal 2015, net income was \$9.9 million and diluted income was \$0.37 per share.

Other Balance Sheet Changes

As discussed in Note 8, in the first quarter of Fiscal 2016 we announced a plan amendment reducing our postretirement health care benefits. As a result of the plan amendment, our postretirement health care liability was reduced from \$34.5 million at August 29, 2015 to \$5.9 million at November 28, 2015, or a reduction of \$28.6 million; our deferred tax assets decreased by \$10.9 million and AOCI increased by \$17.7 million.

Analysis of Financial Condition, Liquidity and Resources

Cash and cash equivalents decreased \$14.5 million during the first three months of Fiscal 2016 and totaled \$55.7 million as of November 28, 2015. Significant liquidity events that occurred during the first three months of Fiscal 2016 were:

- Generation of net income of \$8.6 million
- Purchases of property and equipment of \$3.1 million
- Increase in inventory of \$24.1 million
- Dividend payments of \$2.7 million

We have the ability to borrow \$35.0 million through our Amended Credit Agreement with GECC, a revolving credit facility based on our eligible inventory and certain receivables. In addition, the Amended Credit Agreement also includes a framework to expand the size of the facility up to \$50.0 million, based on mutually agreeable terms at the time of the expansion. We are in compliance with all material terms in the Amended Credit Agreement and have no

outstanding borrowings at November 28, 2015.

We filed a Registration Statement on Form S-3, which was declared effective by the SEC on May 9, 2013. Subject to market conditions, we have the ability to offer and sell up to \$35.0 million of our common stock in one or more offerings pursuant to the Registration Statement. The Registration Statement will be available for use for three years from its effective date. We currently have no plans to offer and sell the common stock registered under the Registration Statement; however, it does provide another potential source of liquidity in addition to the alternatives already in place.

Working capital at November 28, 2015 and August 29, 2015 was \$178.2 million and \$184.6 million, respectively, a decrease of \$6.4 million. We currently expect cash on hand, cash collected on receivables, funds generated from operations and the availability under a credit facility to be sufficient to cover both short-term and long-term operating requirements for Fiscal 2016. We

Table of Contents

anticipate capital expenditures in Fiscal 2016 to be approximately \$20 - \$30 million. In addition to the normal \$8 - \$10 million of maintenance spend for our current facilities, we will continue to invest in our ERP system and capacity expansion investments.

We made share repurchases of \$705,000 in the first three months of Fiscal 2016. If we believe the common stock is trading at attractive levels and reflects a prudent use of our capital, subject to compliance with our agreement with GECC, we may purchase additional shares in the remainder of Fiscal 2016. At November 28, 2015 we have \$6.4 million remaining on our board repurchase authorization. See Part II, Item 2 of this Form 10-Q.

Operating Activities

Cash used in operating activities was \$8.1 million for the three months ended November 28, 2015 compared to \$19.6 million for the three months ended November 29, 2014. In Fiscal 2016 the combination of net income of \$8.6 million and changes in non-cash charges (e.g., depreciation, LIFO, stock-based compensation, deferred income taxes) provided \$9.8 million of operating cash. Changes in assets and liabilities (primarily an increase in inventories) used \$17.8 million of operating cash. In the first three months of Fiscal 2015, the combination of net income of \$9.9 million and changes in non-cash charges (e.g., depreciation, LIFO, stock-based compensation, deferred income taxes) provided \$11.4 million of operating cash. Changes in assets and liabilities (primarily increases in inventories) used \$31.1 million of operating cash.

Investing Activities

Cash used in investing activities of \$3.0 million for the three months ended November 28, 2015 was due primarily to capital expenditures of \$3.1 million. In the three months ended November 29, 2014, cash used in investing activities of \$2.0 million was due primarily to capital expenditures of \$2.3 million.

Financing Activities

Cash used in financing activities of \$3.4 million for the three months ended November 28, 2015 was primarily due to \$2.7 million for the payment of dividends and \$705,000 in repurchases of our stock. Cash used in financing activities of \$8.4 million for the three months ended November 29, 2014 was primarily due to \$6.0 million for repurchases of our stock and \$2.4 million for payments of dividends.

Significant Accounting Policies

We describe our significant accounting policies in Note 1, Summary of Significant Accounting Policies, of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended August 29, 2015. We discuss our critical accounting estimates in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report on Form 10-K for the fiscal year ended August 29, 2015. We refer to these disclosures for a detailed explanation of our significant accounting policies and critical accounting estimates. There has been no significant change in our significant accounting policies or critical accounting estimates since the end of Fiscal 2015.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

None

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain "disclosure controls and procedures", as such term is defined under Securities Exchange Act of 1934, as amended ("Exchange Act") Rule 13a-15(e), that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Management necessarily applied its judgment in assessing the costs and

benefits of such controls and procedures and believes such controls and procedures are effective at the reasonable assurance level.

We have carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, required by Exchange Act Rule 13a-15(b), as of the end of the period covered by this Report (the "Evaluation Date"). Based on this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of the Evaluation Date.

Changes in Internal Control Over Financial Reporting

During the first quarter of Fiscal 2016, we had a change in our internal control over financial reporting that occurred as a result of our implementation of a new ERP system that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. During the first quarter of Fiscal 2016, our new ERP system replaced our legacy system for our Finance

Table of Contents

area and the Towables business. Our new ERP system is intended to provide us with enhanced transactional processing and management tools compared to our legacy system. The new system was subject to extensive testing and data reconciliation during implementation.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

We are involved in various legal proceedings which are ordinary litigation incidental to our business, some of which are covered in whole or in part by insurance. We believe, while the final resolution of any such litigation may have an impact on our results for a particular reporting period, the ultimate disposition of such litigation will not have any material adverse effect on our financial position, results of operations or liquidity.

For the past several years we have been involved in litigation in Australia seeking to recover from Knott Investments for damages for using our name without our approval. On December 2, 2015 the Federal Court of Australia, New South Wales District Registry, General Division, entered judgment in favor of Winnebago Industries, Inc. and against Knott Investments for damages arising out of its use of the Winnebago name. Damages awarded were 1% of the total sales of Winnebago branded recreation vehicles from October 14, 2004, through October 17, 2013, plus interest. That award is likely to exceed \$5.0 million, plus attorneys' fees. An appeal by Knott Investments is anticipated.

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in Part I, Item 1A of our Annual Report on Form 10 K for the fiscal year ended August 29, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On December 19, 2007, the Board of Directors authorized the repurchase of outstanding shares of our common stock, depending on market conditions, for an aggregate consideration of up to \$60 million. There is no time restriction on this authorization. During the first quarter of Fiscal 2016, 35,628 shares were repurchased under the authorization, at an aggregate cost of \$705,000. All of these shares were repurchased from employees who vested in Winnebago Industries shares during the first quarter of Fiscal 2016 and elected to pay their payroll tax via shares as opposed to cash. As of November 28, 2015, there was approximately \$6.4 million remaining under this authorization.

Purchases of our common stock during each fiscal month of the first quarter of Fiscal 2016 were:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs
08/30/15 - 10/03/15	767	\$19.67	767	\$7,048,000
10/04/15 - 10/31/15	34,861	\$19.79	34,861	\$6,358,000
11/01/15 - 11/28/15	—	\$—	—	\$6,358,000
Total	35,628	\$19.79	35,628	\$6,358,000

Our Amended Credit Agreement contains covenants that limit our ability to pay certain cash dividends without impacting financial ratio covenants.

Item 6. Exhibits

31.1 Certification by the Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 dated December 23, 2015.

31.2 Certification by the Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 dated December 23, 2015.

Edgar Filing: WINNEBAGO INDUSTRIES INC - Form 10-Q

32.1 Certification by the Chief Executive Officer pursuant to Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 dated December 23, 2015.

32.2 Certification by the Chief Financial Officer pursuant to Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 dated December 23, 2015.
