The Compensation/Administration Committee met once during the fiscal year ended July 31, 2001, and the Audit Committee met once during the fiscal year ended July 31, 2001.

The Company's Board of Directors held six meetings during the fiscal year ended July 31, 2001, at which time all the then Directors were present or consented in writing to the action taken at such meetings. No incumbent Director attended fewer than 100% of said meetings.

Audit Committee Report

The Audit Committee of the Board of Directors consists of three directors, the majority of which are the Company's independent directors. The Audit Committee operates under a written charter adopted by the Board of Directors, which is attached as Exhibit A to this Proxy Statement. The Audit Committee is responsible for overseeing the Company's financial reporting process on behalf of the Board of Directors. The Audit Committee discussed with Miller and McCollom the matters required to be discussed by Statement on Auditing Standards No. 61 (Communications with Audit Committee s). These matters included a discussion of Miller and McCollom's judgments about the quality (not just the acceptability of the Company's accounting principles as applied to financial reporting.

Miller and McCollom also provided the Audit Committee with the written disclosures and letter required by Independence Standards Board Standard No. 1. (Independence Discussions with Audit Committees), and the Audit Committee discussed with Miller and McCollom that firm's independence.

Based upon the Audit Committee's discussion with management and the independent auditors and the Audit Committee's review of the representation of management and the disclosures by the independent auditors to the Audit Committee, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-KSB for the fiscal year ended July 31, 2001, for filing with the U.S. Securities and Exchange Commission. PROPOSAL NO. 2. APPROVAL OF AN AMENDMENT TO THE COMPANY'S ARTICLES OF INCORPORATION TO INCREASE THE COMPANY'S AUTHORIZED COMMON STOCK FROM 20,000,000 TO 50,000,000 SHARES

The Board of Directors has approved and is recommending to the stockholders for approval, an amendment to Article Four of the Company's Articles of Incorporation to increase the number of shares of common stock which the Company is authorized to issue from 20,000,000 to 50,000,000. The full text of the proposed amendment to the Articles of Incorporation is shown below.

Purpose and Effect of the Amendment

Under the present Articles of Incorporation, the Company has the authority to issue 20,000,000 shares of common stock. As of February 1, 2002, 7,890,599 were issued and outstanding. We have reserved 6,500,000 common shares for issuance under various stock option plans and as of February 1, 2002 approximately 5,152,000 shares were reserved for issuance upon exercise of the Company's outstanding stock options and warrants. Accordingly, as of February 1, 2002, after taking into account the shares reserved for issuance, fewer than 7,000,000 shares of common stock were available for issuance for all future corporate purposes. The proposed amendment would provide for an additional 30,000,000 shares available for issuance.

The additional common stock to be authorized by adoption of the proposed amendment would have rights identical to the currently outstanding common stock. Adoption of the proposed amendment and issuance of additional shares of common stock would not affect the rights of the holders of currently outstanding common stock, except for effects incidental to increasing the number of shares of common stock outstanding, such as dilution of the earnings per share and voting rights of current holders of common stock. If the amendment is adopted, it will become effective upon filing Articles of Amendment with the California Secretary of State.

The purpose of the increase in authorize shares is to provide additional shares of common stock that could be issued for corporate purposes without further stockholder approval, unless required by applicable law or regulation. The Board of Directors believes that it is in the best interests of the Company to have additional shares of common stock authorized at this time to alleviate the delay of holding a special meeting of stockholders to authorize additional shares of common stock when the need arises. Possible purposes for additional shares of common stock include effecting acquisitions of other businesses, or properties, establishing strategic relationships with other companies and securing additional financing for the operation of the Company through the issuance of

Edgar Filing: INNOVATIVE MEDICAL SERVICES - Form DEF 14A

additional shares or other equity-based securities. Purposes for additional shares of common stock also include paying stock dividends or forward splitting of the outstanding shares. The Company has no specific plans for any of these actions at this time.

Text of the Amendment to the Articles of Incorporation

If this proposal is approved, Article FOUR of the Company's Articles of Incorporation will be amended to state as follows:

FOUR: The corporation is authorized to issue two (2) classes of shares, to be designated respectively as "Common Shares" and "Preferred Shares". The total number of Common Shares the corporation is authorized to issue is Fifty Million (50,000,000) with no par value. The total number of preferred Shares the corporation is authorized to issue is Five Million (5,000,000) with no par value. Said preferred stock may subsequently receive such designation as may be deemed appropriate by the Board of Directors of the corporation, and the Board of Directors shall have the right to determine or alter the rights, preferences, privileges, and restrictions granted to, or imposed upon said preferred. shares. Additionally, the Board of Directors shall be empowered to increase or decrease (but not below the number of shares of Common or preferred Shares then outstanding) the number of shares of any class of shares subsequent to the issue of shares of that class.

PROPOSAL NO. 3. APPROVAL OF THE INNOVATIVE MEDICAL SERVICES 2002 EMPLOYEE INCENTIVE STOCK OPTION PLAN

On January 31, 2002 the Company's Board of Directors approved submitting the Innovative Medical Services 2002- Employee Incentive Stock Option Plan to the shareholders for approval. The Board of Directors recommends approval of the Plan. The purpose of the Plan is to advance the business and development of the Company and its shareholders by affording to the key employees and non-employee directors of the Company the opportunity to acquire a propriety interest in the Company by the grant of Options to acquire shares of the Company's common stock.

The Options granted are "Incentive Stock Options" within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, for certain key employees. The Plan is administered by an Administrative Committee whom shall serve a one year term. Subject to anti-dilution provisions, the Plan may issue Options to acquire up to 4,000,000 shares to Key Employees. The exercise price for Options shall be set by the Administrative Committee but shall not be for less than the fair market value of the shares on the date the Option is granted. The period in which Options can be exercised shall be set by the Administrative Committee not to exceed five years from the date of Grant. The Plan may be terminated, modified or amended by the Board of directors upon the recommendation of the Administrative Committee.

All Key Employees of the Company and its subsidiaries are eligible to participate in the Incentive Stock Options. A Key Employee is defined in the Plan as a Company employee who in the judgment of the Administrative Committee has the ability to positively affect the profitability and economic well-being of the Company. Part time employees, independent contractors, non-employee directors, consultants and advisors performing bona fide services to the Company shall be considered eligible for participation in the Plan.

Federal Income Tax Consequences

The following is a general summary of the United States federal income tax treatment of incentive stock options and non-qualified stock options, which are authorized for grant under the 2002 Plan, based upon the current provisions of the Internal Revenue Code and regulations promulgated thereunder.

Edgar Filing: INNOVATIVE MEDICAL SERVICES - Form DEF 14A

Incentive Stock Options

Incentive stock options under the 2002 Plan are intended to meet the requirements of Internal Revenue Code section 422. No tax consequences result from the grant of the option. If an option holder acquires stock upon the exercise, no income will be recognized by the option holder for ordinary income tax purposes (although the difference between the option exercise price and the fair market value of the stock subject to option may result in alternative minimum tax liability to the option holder) and the Company will be allowed no deduction as a result of such exercise, if the following conditions are met: (a) at all times during the period beginning with the date of granting of the option and ending on the day three months before the date of such exercise, the option holder is an employee of the Company or of a subsidiary and (b) the option holder makes no disposition of the stock within two years from the date the option is granted nor within one year after the stock is transferred to the option holder. If the option holder sells the stock after complying with these conditions, any gain realized over the price paid for the stock will ordinarily be treated as long-term capital gain, and any loss will be treated as long-term capital loss, in the year of the sale.

If the option holder fails to comply with the employment requirements, the tax consequences will be substantially the same as for a non-qualified option, discussed below. If the option holder fails to comply with the holding period requirements, the option holder will recognize ordinary income in an amount equal to the lesser of (1) the excess of the fair market value of the stock on the date the option was exercised over the exercise price or (2) the excess of the amount realized upon such disposition over the adjusted tax basis of the stock. Any additional gain ordinarily will be recognized by the option holder as capital gain, either long-term or short-term, depending on the holding period of the shares. If the option holder is treated as having received ordinary income because of his or her failure to comply with either condition above, the Company will be allowed an equivalent deduction in the same year.

Non Qualified Stock Options

No tax consequences result from the grant of the option. An option holder who exercised a non-qualified stock option will generally realize compensation taxable as ordinary income in an amount equal to the difference between the exercise price and the fair market value of the shares on the dates of exercise, and the Company will be entitled to a deduction from income in the same amount. Any subsequent gain or loss will be a capital transaction.

Disallowance of Deductions

The Internal Revenue Code disallows for publicly held corporations with respect to compensation in excess of \$1,000,000 paid to the corporation's chief executive officer and its four other most highly compensated officers. However, compensation payable solely on account of attainment of one or more performance goals is not subject to this deduction limitation if certain statutory requirements are satisfied. Under this exception, the deduction limitation does not apply with respect to compensation otherwise deductible on account to stock options and stock appreciation rights granted at fair market value under a plan, such as the 2002 Plan, that limits the number of shares that may be issued to any individual and that is approved by the Company's stockholders.

PROPOSAL NO. 4. APPROVAL OF THE INNOVATIVE MEDICAL SERVICES 2002 NON-QUALIFIED STOCK OPTION PLAN

On January 31, 2002 the Company's Board of Directors approved submitting the Innovative Medical Services 2002- Non-Qualified Stock Option Plan to the shareholders for approval. The Board of Directors recommends approval of the

Edgar Filing: INNOVATIVE MEDICAL SERVICES - Form DEF 14A

Plan. The purpose of the Plan is to advance the business and development of the Company and its shareholders by affording Eligible Plan Participants to be able to the opportunity to acquire a propriety interest in the Company by the grant of Options to acquire shares of the Company's common stock. Eligible Plan Participants include the Directors and Officers of the Company, consultants, advisors and other individuals deemed by the Compensation Committee to provide valuable services to the Company but who are not otherwise eligible to participate in the Employee Incentive Stock Option Plan.

The Options granted are not "Incentive Stock Options" within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended. The issuance of such non-qualified options pursuant to this Plan is not expected to be a taxable event for recipient until such time that the recipient elects to exercise the option whereupon the recipient is expected to recognize income to the extent the market price of the shares exceeds the exercise price of the option on the date of exercise.

The Plan is administered by an Administrative Committee whom shall serve a one-year term. The Administrative Committee is composed of the Board's Compensation/Administration Committee. Subject to anti-dilution provisions, the Plan may issue Options to acquire up to 2,000,000 shares to Eligible Plan Participants. The Company will not receive any consideration for the grant of options under the Plan and approximate market value of the shares to be reserved for the plan is \$4,000,000 based upon the average thirty trading day closing price for the Company's common stock for the period ending January 31, 2002. The exercise price for Options shall be set by the Administrative Committee but shall not be for less than the fair market value of the shares on the date the Option is granted. Fair market value shall mean the average of the closing price for ten consecutive trading days at which the Stock is listed in the Nasdaq quotation system ending on the day prior to the date an Option is granted. The period in which Options can be exercised shall be set by the Administrative Committee not to exceed five years from the date of Grant.

The Executive Officers and Directors of the Company are eligible to participate in the Plan. The Administrative Committee shall grant to individuals newly appointed as Executive Officers or as Directors, an option to purchase 100,000 shares of common stock at fair market value. Upon each subsequent anniversary thereof, each such Officer and Director will receive an option to purchase 50,000 shares of common stock at fair market value. The plan also gives the Administrative Committee discretion to award additional options. The aggregate number and kind of shares within the Plan and the rights under outstanding Options granted hereunder, both as to the number of shares and Option price, will be adjusted accordingly in the event of a reverse split in the outstanding shares of the Common Stock of the Company.

The Board may at any time terminate the plan. The approval of the majority of shareholders is required to increase the total number of shares subject to the plan, change the manner of determining the option price or to withdraw the administration of the plan from the Administrative Committee.

Audit Committee Charter INNOVATIVE MEDICAL SERVICES

The Audit Committee ("the Committee"), of the Board of Directors ("the Board") of Innovative Medical Services ("the Company"), will have the oversight responsibility, authority and specific duties as described below.

COMPOSITION

The Committee will be comprised of three or more directors as determined by the Board. The members of the Committee will meet the independence and experience requirements of NASDAQ. The members of the Committee will be elected annually after the annual meeting of the shareholders and will be listed in the annual report to shareholders. One of the members of the Committee will be elected Committee Chair by the Board.

RESPONSIBILITY

The Committee is a part of the Board. Its primary function is to assist the Board in fulfilling its oversight responsibilities with respect to (i) the annual financial information to be provided to shareholders and the Securities and Exchange Commission (SEC); (ii) the system of internal controls that management has established; and (iii) the internal and external audit process. In addition, the Committee provides an avenue for communication between internal audit, the independent accountants, financial management and the Board. The Committee should have a clear understanding with the independent accountants that they must maintain an open and transparent relationship with the Committee, and that the ultimate accountability of the independent accountants is to the Board and the Committee. The Committee will make regular reports to the Board concerning its activities.

While the Audit Committee has the responsibilities and powers set forth in this Charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. This is the

Edgar Filing: INNOVATIVE MEDICAL SERVICES - Form DEF 14A

responsibility of management and the independent auditor. Nor is it the duty of the Audit Committee to conduct investigations, to resolve disagreements, if any, between management and the independent auditor or to assure compliance with laws and regulations and the Company's business conduct guidelines.

AUTHORITY

Subject to the prior approval of the Board, the Committee is granted the authority to investigate any matter or activity involving financial accounting and financial reporting, as well as the internal controls of the Company. In that regard, the Committee will have the authority to approve the retention of external professionals to render advice and counsel in such matter. All employees will be directed to cooperate with respect thereto as requested by members of the Committee.

MEETINGS

The Committee is to meet at least one time annually and as many additional times as the Committee deems necessary. Content of the agenda for each meeting should be cleared by the Committee Chair.

ATTENDANCE

Committee members will strive to be present at all meetings. As necessary or desirable, the Committee Chair may request that members of management and representatives of the independent accountants and internal audit be present at Committee meetings.

SPECIFIC DUTIES

In carrying out its oversight responsibilities, the Committee will:

1. Review and reassess the adequacy of this charter annually and recommend any proposed changes to the Board for approval. This should be done in compliance with applicable SEC and or NASDAQ Audit Committee Requirements existing at the time.
2. Review with the Company's management, internal audit and independent accountants the Company's accounting and financial reporting controls. Obtain annually in writing from the independent accountants their letter as to the adequacy of such controls.
3. Review with the Company's management, internal audit and independent accountants significant accounting and reporting principles, practices and procedures applied by the Company in preparing its financial statements. Discuss with the independent accountants their judgments about the quality, not just the acceptability, of the Company's accounting principles used in financial reporting.
4. Review the scope of internal audit's work plan for the year and receive a summary report of major findings by internal auditors and how management is addressing the conditions reported.
5. Review the scope and general extent of the independent accountants' annual audit. The Committee's review should include an explanation from the independent accountants of the factors considered by the accountants in determining the audit scope, including the major risk factors. The independent accountants should confirm to the Committee that no limitations have been placed on the scope or nature of their audit procedures. The Committee will review annually with management the fee arrangement with the independent accountants.
6. Inquire as to the independence of the independent accountants and obtain from the independent accountants, at least annually, a formal written statement delineating all relationships between the independent accountants and the Company as contemplated by Independence Standards Board Standard

Edgar Filing: INNOVATIVE MEDICAL SERVICES - Form DEF 14A

- No. 1, Independence Discussions with Audit Committees.
7. Have a predetermined arrangement with the independent accountants that they will advise the Committee through its Chair and management of the Company of any matters identified through procedures followed for interim quarterly financial statements, and that such notification as required under standards for communication with Audit Committees is to the related press release or, if not practicable, prior to filing Forms 10-Q. Also receive a written confirmation provided by the independent accountants at the end of each of the first three quarters of the year that they have nothing to report to the Committee, if that is the case, or the written enumeration of required reporting issues.
 8. At the completion of the annual audit, review with management, internal audit and the independent accountants the following:
 - a. The annual financial statements and related footnotes and financial information to be included in the Company's annual report to shareholders and on Form 10-K.
 - b. Results of the audit of the financial statements and the related report thereon and, if applicable, a report on changes during the year in accounting principles and their application.
 - c. Significant changes to the audit plan, if any, and any serious disputes or difficulties with management encountered during the audit. Inquire about the cooperation received by the independent accountants during their audit, including access to all requested records, data and information. Inquire of the independent accountants whether there have been any disagreements with management which, if not satisfactorily resolved, would have caused them to issue a nonstandard report on the Company's financial statements.
 - d. Other communications as required to be communicated by the independent accountants by Statement of Auditing Standards (SAS) 61 as amended by SAS 90 relating to the conduct of the audit. Further, receive a written communication provided by the independent accountants concerning their judgment about the quality of the Company's accounting principles, as outlined in SAS 61 amended by SAS 90, and that they concur with management's representation concerning audit adjustments.
 - e. If deemed appropriate after such review and discussion, recommend to the Board that the financial statements be included in the Company's annual report on Form 10-K.
 9. After preparation by management and review by internal audit and independent accountants, approve the report required under SEC rules to be included in the Company's annual proxy statement. The charter is to be published as an appendix to the proxy statement every three years.
 10. Discuss with the independent accountants the quality of the Company's financial and accounting personnel. Also, elicit the comments of management regarding the responsiveness of the independent accountants to the Company's needs.
 11. Meet with management, internal audit and the independent accountants to discuss any relevant significant recommendations that the independent accountants may have, particularly those characterized as 'material' or 'serious'. Typically, such recommendations will be presented by the independent accountants in the form of a Letter of Comments and Recommendations to the Committee. The Committee should review responses of

Edgar Filing: INNOVATIVE MEDICAL SERVICES - Form DEF 14A

management to the Letter of Comments and Recommendations from the independent accountants and receive follow-up reports on action taken concerning the aforementioned recommendations.

12. Recommend to the Board the selection, retention or termination of the Company's independent accountants.
13. Review the appointment and replacement of the senior internal audit executive.
14. Review with management, internal audit and the independent accountants the methods used to establish and monitor the Company's policies with respect to unethical or illegal activities by Company employees that may have a material impact on the financial statements.
15. Generally as part of the review of the annual financial statements, receive an oral report(s), at least annually, from the Company's general counsel concerning legal and regulatory matters that may have a material impact on the financial statements.
16. As the Committee may deem appropriate, obtain, weigh and consider expert advice as to Audit Committee related rules of the SEC and or NASDAQ and other accounting, legal and regulatory provisions.

Provided however, that if the Optionee shall die or become permanently and totally disabled while employed by or serving as a Plan Participant, as solely determined by the Board in accordance with its policies, then either his or her personal representatives or a transferee under the Optionee's will or pursuant to the laws of descent and distribution, or the disabled Optionee may exercise the Option in full six (6) months from the date of such death or disability unless this provision is modified by the Option Agreement for the Options. In the case of an Optionee's retirement in accordance with the Company's established retirement policy, such Option shall remain exercisable by the Optionee for three (3) days from the date of such retirement unless this provision is modified by the Option Agreement for the Options.

(b) No transfer of an Option by the Optionee by will or the laws of descent and distribution shall be effective to bind the Company unless the Company shall have been furnished with a written notice thereof and an authenticated copy of the will and/or such other evidence as the Committee may deem necessary to establish the validity of the transfer and the acceptance by the transferee or transferees of the terms and conditions of such Option.
