Note 1. Basis of Presentation and Nature of Operations

Basis of Presentation: The interim Consolidated Financial Statements of Mach One Corporation (Mach One, the Company, we, us or our) are unaudited but, in the opinion of management, reflect all adjustments necessary for a fair statement of financial position, results of operations and cash flows for the periods presented. Except as otherwise disclosed herein, these adjustments consist of normal, recurring items. The results of operations for any interim period are not necessarily indicative of full year results. The Consolidated Financial Statements and Notes are presented in accordance with the requirements for Quarterly Reports on Form 10-Q and do not contain certain information included in our annual Consolidated Financial Statements and Notes.

The preparation of the interim Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim Consolidated Financial Statements and the reported amounts of revenue and expenses for the reporting periods. Despite our intention to establish accurate estimates and use reasonable assumptions, actual results may differ from our estimates.

The December 31, 2008 Consolidated Balance Sheet data was derived from the audited Consolidated Financial Statements but does not include all disclosures required by accounting principles generally accepted in the United States of America. This Form 10-Q should be read in conjunction with our Consolidated Financial Statements and Notes included in our Annual Report on Form 10-K for the year ended December 31, 2008.

Nature of Business: Mach One Corporation is a global wellness solutions company with operations in Animal Wellness; Organics & Sustainables; and BioPharm Process Systems. Through its Animal Wellness Group, the Company focuses on major opportunities for positive, long-term health and longevity benefits for disease-threatened animals in the commercial livestock and poultry industries, especially the beef and dairy sectors. The Organics & Sustainables Group, through its flagship Ceres Organic Harvest, addresses the growing needs of food manufacturers in the organic foods market which are challenged to increase production capacity for organic raw commodities and feed stocks that go into the finished products. The BioPharm Process Systems Group provides documentation,

Edgar Filing: MACH ONE CORP - Form 10-Q

process modules, process skids, custom tanks and vessels and custom stainless steel fabrication to the biopharmaceutical industry, and also will be integral in setting up and servicing the projected three U.S.-based laboratories for production of Mach One's Animal Wellness Group Bridge(TM) product line.

Note 2. Summary of Significant Accounting Policies

Principles of Consolidation: The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. The wholly owned subsidiaries include Ceres Organic Harvest, Inc. (Ceres), Pacific Rim Foods, Ltd. (Pacific Rim) and Modular Process Constructors, LLC (MPS). All inter-company transactions and balances have been eliminated in the consolidation.

The Company consolidates its financial results in accordance with Financial Accounting Standards Board ("FASB"), Interpretation No. 46R, Consolidation of Variable Interest Entities (FIN 46R), which requires a company to consolidate entities determined to be variable interest entities (VIEs), for which the Company is deemed to be the VIE's primary beneficiary.

Variable Interest Entity: During the six months ended June 30, 2009, the Company was considered the primary beneficiary of Progressive Formulations, Inc. ("PFI"). PFI is an importer and distributor of soy-based organic food products whose initial capitalization was provided in the form of loans and inventory by the Company. PFI is wholly owned by a shareholder of the Company. Refer to Note 4. Consolidation of Variable Interest Entity for further information on our consolidated VIE.

Management Estimates: The preparation of consolidated financial statements in conformity with US generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Company regularly evaluates estimates and assumptions related to the realizability of accounts receivable, inventory valuation, impairment of log-lived assets, and deferred income tax asset valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

Cash and Cash Equivalents: For purposes of reporting cash flows, the Company considers all cash accounts which are not subject to withdrawal restrictions or penalties, and certificates of deposit with original maturities of 90 days or less to be cash or cash equivalents.

Marketable Securities: Marketable securities consist of equity securities, are classified as available for sale and are expected to be redeemed within one year.

Available for sale securities are stated at fair value, with unrealized gains and losses reported as accumulated other comprehensive income (loss), a separate component of stockholders' equity, until realized. These fair values are primarily determined using quoted market prices. The carrying amount of securities, for the purpose of computing unrealized gains and losses, are determined by specific identification. The cost of securities sold is determined by specific identification.

Edgar Filing: MACH ONE CORP - Form 10-Q

Customer Concentrations and Accounts Receivable: Accounts receivable arise in the normal course of business in selling products to customers. Concentrations of credit risk with respect to accounts receivable arise because the Company grants unsecured credit in the form of trade accounts receivable to its customers.

5

Accounts are written off as they are deemed uncollectible based upon a periodic review of the accounts. As of June 30, 2009 and December 31, 2008, management has estimated that accounts receivable are fully collectible, and thus, has established no allowance for doubtful accounts.

Inventory: The Company maintains its inventory on a perpetual basis utilizing the first-in first-out (FIFO) method. Inventories have been valued at the lower of cost or market. As of June 30, 2009 and December 31, 2008, management has not established an obsolescence reserve for inventory, as we believe that all inventory is usable and that market values of all inventories exceed cost.

Property and Equipment: Property and equipment is reported at cost less accumulated depreciation. Maintenance and repairs are charged to expense as incurred. The cost of property and equipment is depreciated over the following estimated useful lives of the related assets:

Building	39 years
Furniture & Fixtures	7 years
Machinery & Equipment	5 years

Long-Lived Assets: The Company periodically evaluates the carrying value of long-lived assets to be held and used, including but not limited to, capital assets, when events and circumstances warrant such a review. The carrying value of a long-lived asset is considered impaired when the anticipated undiscounted cash flow from such asset is less than its carrying value. In that event, a loss is recognized based on the amount by which the carrying value exceeds the fair value of the long-lived asset. Fair value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved. Losses on long-lived assets to be disposed of are determined in a similar manner, except that fair values are reduced for the cost to dispose. The Company has reviewed long-lived assets and certain intangible assets with estimable useful lives and determined that the carrying value is recoverable in future periods.

Revenue Recognition: The Company recognizes revenue when persuasive evidence of an arrangement exists, transfer of title has occurred, the selling price is fixed or determinable, collection is reasonably assured and delivery has occurred per the contract terms. For certain contracts of MPS, the Company recognizes revenue based on the percentage of completion method. Revenue is deferred when customer billings exceed revenue earned.

Segment Reporting: The Company operates and manages the business under one reporting segment.

Goodwill: Goodwill is the excess of cost of an acquired entity over the amounts assigned to assets acquired and liabilities assumed in a business combination. Goodwill is not amortized. In accordance with Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets, we evaluate the carrying value of goodwill annually and between such annual evaluations if events occur or circumstances change that would indicate a possible impairment.

Edgar Filing: MACH ONE CORP - Form 10-Q

Fair Value of Financial Instruments: The respective carrying value of certain on-balance sheet financial instruments approximates their fair values. These financial instruments include cash, accounts receivable, accounts payable and accrued liabilities, and notes payable. Fair values were assumed to approximate cost or carrying values as most of the debt was incurred recently and the assets were acquired within one year. Management is of the opinion that the Company is not exposed to significant interest, credit or currency risks arising from these financial instruments.

Income Taxes: The Company provides for income taxes under SFAS No. 109, Accounting for Income Taxes (SFAS 109) as clarified by FASB Interpretation No. 48 (FIN 48), which requires the use of an asset and liability approach in accounting for income taxes. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect when these differences are expected to reverse. SFAS No. 109 requires the reduction of deferred tax assets by a valuation allowance if, based on the weight of the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. For all periods presented, the Company has recorded a full valuation allowance against its deferred tax assets.

FIN 48 requires the recognition of a financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement with the relevant tax authority.

6

Comprehensive Income (Loss): Comprehensive Income (Loss) includes net loss and items defined as other comprehensive income. Items defined as other comprehensive income include unrealized gains (losses) on marketable securities. The Company had \$(232,223) of other comprehensive income(loss) for the six months ended June 30, 2009. There were no other comprehensive income(loss) items for the six months ended June 30, 2008.

Basic and Diluted Earnings per Common Share: Basic net income (loss) per common share is computed by dividing net loss applicable to common stockholders by the weighted average number of common shares outstanding during the periods presented. Diluted net income (loss) per common share is determined using the weighted average number of common shares outstanding during the periods presented, adjusted for the dilutive effect of any common stock equivalents, consisting of shares that might be issued upon exercise of options, warrants, and conversion of convertible debt.

Recent Accounting Developments: In May 2009, the FASB issued SFAS No. 165, Subsequent Events. This statement establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS No. 165 is effective for the Company in the second quarter of 2009. The adoption of SFAS No. 165 did not have a material impact on the Company's financial statements. The Company has assessed and disclosed reportable subsequent events, if any, as of August 21, 2009 with the issuance of its Unaudited Condensed Financial Statements for the quarterly period ended June 30, 2009.

In June 2009, the FASB issued SFAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles. SFAS No. 168 replaces SFAS No.162 and establishes the FASB Accounting Standards

Edgar Filing: MACH ONE CORP - Form 10-Q

Codification(TM) (Codification) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. Rules and interpretive releases of the Securities and Exchange Commission under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. All guidance contained in the Codification carries an equal level of authority. SFAS No. 168 becomes effective for the Company for the third quarter of 2009. The Company does not expect that the adoption of SFAS No. 168 will have a material effect on the Company's financial statements.

Note 3. Going Concern Uncertainty

The accompanying financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes the realization of assets and the satisfaction of liabilities in the normal course of business. Since inception, until the acquisition of Ceres and MPS in February of 2009, the Company had primarily been engaged in product development and pre-operational activities. Minimal revenue has been generated to date and the Company has accumulated losses totaling \$9,858,056 from inception through June 30, 2009, and a net working capital deficit of \$2,406,844. The uncertainty related to these conditions raises substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Although we recently completed a convertible debt financing with gross proceeds of approximately \$2,250,000 in November 2008 and January 2009, we will eventually require significant additional funding in order to achieve our business plan. Over the next 18 months, in order to have the capability of achieving our business plan, we believe that we will require at least \$3,000,000 in additional funding. Should we be unable to obtain additional funding in the next 3 months, we would be required to cut expenses in our Organics and Sustainables group and temporarily halt operations in our Animal Wellness group until such funding is obtained. We are currently attempting to raise these funds by means of one or more public or private offerings of debt or equity securities or both. We believe that some, if not all, of the required funds could be generated from the increased cash flows of the Company.

However, at this point, we have not specifically identified the type or sources of this funding. We also are exploring commercial and joint venture financing opportunities.

Note 4. Consolidation of Variable Interest Entity

FIN 46R provides a framework for identifying variable interest entities and determining when a company should include the assets, liabilities, non-controlling interests and results of activities of a VIE in its consolidated financial statement.

In general, a VIE is a corporation, partnership, limited liability company, trust, or any other legal structure used to conduct activities or hold assets that either (1) has an insufficient amount of equity to carry out its principal activities without additional subordinated financial support, (2) has a group of equity owners that are unable to make significant decisions about its activities, or (3) has a group of equity owners that do not have the obligation to absorb losses or the right to receive returns generated by its operations.

FIN 46R requires a VIE to be consolidated if a party with an ownership, contractual or other financial interest in the VIE ("a variable interest holder") is obligated to absorb a majority of the risk of loss from the VIE's activities, is entitled to receive a majority of the VIE's residual returns (if no party absorbs a majority of the VIE's losses), or both. A variable interest holder that consolidates the VIE is called the primary beneficiary of the VIE.

Edgar Filing: MACH ONE CORP - Form 10-Q

Upon consolidation, the primary beneficiary generally must initially record all of the VIE's assets, liabilities and non-controlling interests at fair value and subsequently account for the VIE as if it were consolidated based on majority voting interest. FIN 46R also requires disclosures about VIEs that the variable interest holder is not required to consolidate but in which it has a significant variable interest.

7

The Company determined they are required to consolidate PFI as a VIE, as defined by FIN 46R. Therefore, as of and for the three and six months ended June 30, 2009, the consolidated balance sheet, consolidated statements of operations and cash flows, and the related footnotes of the Company have been presented on a consolidated basis to include its variable interest in PFI. More specifically, as of and for the three and six months ended June 30, 2009, PFI amounts included in the consolidated financial statements of the Company consist of; total assets of \$54,623, total liabilities of \$18,836 and selling, general and administrative expenses of \$27,687 and \$74,575, respectively. PFI had no sales during this period. All significant intercompany accounts and transactions have been eliminated in consolidation. No amounts from PFI are included in the consolidated balance sheet as of December 31, 2008 or the consolidated statements of operations and cash flows for the six months ended June 30, 2008 as PFI is a VIE of Ceres, which was not then acquired by the Company.

Note 5. Acquisitions

On December 31, 2008, pursuant to a Plan and Agreement of Reorganization between the Company, Pacific Rim Foods, Ltd. (Pacific Rim) and certain shareholders of Pacific Rim, the Company issued 28,000,000 shares of its common stock, valued at \$3,500,000, and Five Year Zero Coupon Convertible Promissory Notes in the aggregate amount of \$1,500,000 (collectively the "Exchange Securities") in exchange for all of the issued and outstanding capital stock of Pacific Rim. Pacific Rim is a development stage company with interests in the food and energy sector in China and Australia. These interests include equity, debt, options, insurance and intellectual property. The underlying commodities represented by these interests include corn and oil and gas. The development stage of Pacific Rim reflects its early interests in acquiring and controlling a number of shelf stable food processing facilities in China with the intent of growing and processing a broad range of commodities. Its initial interests have focused on sweet corn and its platform interests include Jilin Jimei Foods Ltd, which is the oldest sweet corn joint venture in China. The interests in Jilin Jimei Foods Ltd include options, debt instruments (inventory loans) and intellectual property (trademark and brands). The Company intends to liquidate the assets of Pacific Rim to obtain cash for financing operations of the Company. We are, however, undecided as to the ultimate disposition of the brand trademark as we believe that it is either salable or licensable. We intend to fully liquidate all other assets by December 31, 2010.

On February 18, 2009, the Company consummated the acquisition and purchase from Thomsen Group, LLC (Thomsen) of all of the assets of Modular Process Constructors, LLC (MPS). Pursuant to the Agreement for Purchase and Sale of Business, in exchange for the MPS assets the Company issued to Thomsen 500,000 shares of restricted Series B Convertible Preferred Stock (Series B Preferred Stock), valued at \$150,000. Each share of Series B Preferred Stock is convertible into two shares of the Company's common stock. In addition to the issuance of the Series B Preferred Stock, the Company executed an Earn-Out Agreement with Thomsen, providing for Thomsen to acquire up to an additional 35% of issued and outstanding common stock of Mach One on December 31, 2011, based upon the combined net income of MPS for the years ending December 31, 2009, 2010, and 2011. MPS designs and builds process equipment used by the biopharmaceutical industry. MPS's skid based solutions offer componentized

Edgar Filing: MACH ONE CORP - Form 10-Q

fabrication for small and large projects reducing lead time, transport cost, and installation time. MPS provides entire project solutions including documentation, process modules, custom stainless steel fabrication, and electronic controls to the biopharmaceutical markets.

On February 20, 2009, pursuant to a Plan and Agreement of Reorganization between the Company and Ceres Organic Harvest, Inc. (Ceres), the Company completed the acquisition of all of the issued and outstanding capital stock of Ceres in exchange for 8,000,000 shares of the Company's common stock and 8,000,000 shares of Series C Convertible Preferred Stock (Series C Preferred Stock), valued at \$2,500,000. Each share of Series C Preferred Stock is convertible into one share of Mach One common stock. Ceres and its subsidiary Organic Grain and Milling, Inc. supply organic grain and grain-based ingredients to the food, feed and dairy industries, including varieties of wheat, flour, oats, corn, flax, barley and other products.

Due to the nature and timing of these transactions, as of March 31, 2009, the Company made a good-faith estimate as to the value of the consideration paid for Pacific Rim, MPS and Ceres and the fair value of acquired assets and assumed liabilities, including identifiable intangibles, and recorded a preliminary purchase price allocation. The Company expected to adjust these estimates and the purchase price allocation, if necessary, in the quarter ended June 30, 2009.

As of December 31, 2008, the Company expected to exploit the assets that Pacific Rim holds in China, such as the brand trademark and options to acquire joint ventures. As of June 30, 2009, the Company has reconsidered these options and is focusing its efforts on the Company's mission to develop bio-solutions to provide and promote human and animal wellness. As such, the Company determined the goodwill initially recorded of approximately \$3.4 million was impaired and was charged to operating expenses in the Company's statement of operations.

The Company anticipates finalizing the purchase price allocations for these acquisitions in the quarter ended September 30, 2009.

Edgar Filing: MACH ONE CORP - Form 10-Q

Identifiable intangible assets acquired in the acquisition of Ceres is comprised of; a proprietary product license, an exclusive import supplier relationship and a customer list, tentatively valued at \$980,000, \$660,000 and \$850,000, respectively and estimated to have useful lives of 15, 5 and 5 years, respectively. The Company amortizes these intangible assets using a method that reflects the pattern in which the assets are expected to be consumed.

Identifiable intangible assets acquired in the acquisition of MPS are comprised of engineering methodology and a customer list that the Company estimates has a useful life of 5 years. The Company amortizes these intangible assets using a method that reflects the pattern in which the assets are expected to be consumed.

Identifiable intangible assets acquired in the acquisition of Pacific Rim are comprised of a brand trademark that the Company estimates has a useful life of 15 years. While the trademark is currently in use, we have not currently determined the ultimate disposition and have recorded no amortization as of June 30, 2009.

The Company has recorded the results of the operations of Pacific Rim, Ceres and MPS in the Company's statement of operations beginning with the effective date of each respective acquisition.

Short-term Convertible Notes Payable

The Company entered into two rounds of financing through Commonwealth Capital during the quarters ended December 31, 2008 and March 31, 2009.

The first round (Commonwealth One) was closed in the quarter ended December 31, 2008. Proceeds from the notes were \$550,000. Interest at 12.0% is due with the principal on various dates in June 2009. The notes are unsecured and are convertible into shares of the Company's common stock at \$0.045 per share at any time during the term of the notes.

The second round (Commonwealth Two) was closed partially in December 2008, and the remainder in the quarter ended March 31, 2009. Proceeds from the notes were \$95,000 and \$1,602,984 during the quarters ended December 31, 2008 and March 31, 2009, respectively. Interest at 12.0% is due with the principal on various dates in June 2009. The notes are unsecured and are convertible into shares of the Company's common stock at \$0.075 per share at any time during the term of the notes.

During the three months ended June 30, 2009, \$100,000 of the Commonwealth One and \$60,000 of the Commonwealth Two notes were converted to shares of the company's common stock. Subsequent to June 30, 2009, and as of the date of this report, all notes have either been converted or extended.

10

The Company also entered into loan agreements with an unrelated individual (Plant Notes). Proceeds from the agreements were \$70,000 and \$35,000 during the quarters ended December 31, 2008 and March 31, 2009, respectively. Interest at 5.0% is due with the principal on various dates in July 2009. The notes are unsecured and are convertible into shares of the Company's common stock at \$0.50 per share at any time during the term of the notes.

The Company has recorded accrued interest on the short-term notes payable of \$221,014 and \$13,667, as of June 30, 2009 and December 31, 2008, respectively. Accrued interest is included in accrued expenses on the Company's balance sheet herein.

The conversion prices of these convertible notes were established at, or above, the then current market price of the Company's common stock and therefore, no beneficial conversion feature discount has been recorded.

Transfac Financing Agreement

In connection with the acquisition of Ceres, the Company has an accounts

Edgar Filing: MACH ONE CORP - Form 10-Q

receivable financing agreement (the "Agreement") with Transfac Capital, LLC ("Transfac"). The original Agreement term is one year from the effective date of June 2, 2008 and is cancelable immediately upon notice by Transfac, or within ten days of notice by the Company if the Company secures financing from an FDIC insured institution. Upon the acquisition of Ceres by the Company, the term changed to month-to-month and is cancelable within ten days of notice by Ceres. Under the terms of the Agreement, the Company may offer to sell its accounts receivable to Transfac each month during the term of the Agreement, up to a maximum amount outstanding at any time of \$1.5 million in gross receivables submitted, or \$1.2 million in net amounts funded based upon an 80.0% advance rate. The Company is obligated to offer accounts totaling a minimum of \$300,000 in each month, and Transfac has the right to decline to purchase any offered accounts (invoices).

The Agreement provides for the sale, on a revolving basis, of accounts receivable generated by specified debtors. The purchase price paid by Transfac reflects a discount that is generally 0.7% for the first twenty days, plus an aging fee of 0.034% for each day after the first twenty days. The Company continues to be responsible for the servicing and administration of the receivables purchased. Transfac fees are reported in the Company's statement of operations as interest expense and were \$13,843 and \$18,806 for the three and six months ended June 30, 2009, respectively. There were no fees incurred for the three and six months ended June 30, 2008 as the Agreement is with Ceres, which was not acquired until the first quarter of fiscal 2009.

The Company accounts for the sale of receivables under the Agreement as a secured borrowing with a pledge of the subject receivables as collateral, in accordance with SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. Accounts Receivable pledged as collateral on the accompanying consolidated balance sheets in the amount of \$299,723 as of June 30, 2009, represents the gross receivables that have been designated as "sold" and serve as collateral for short-term debt in the amount of \$198,236 as of June 30, 2009.

Note 12. Basic and Diluted Earning Per Share

The Company computes earnings per share in accordance with FASB Statement of Financial Accounting Standards No. 128, Earnings Per Share (SFAS 128). SFAS 128 requires companies to compute earnings per share under two different methods, basic and diluted, and present per share data for all periods in which statements of operations are presented. Basic earnings per share are computed by dividing net income by the weighted average number of shares of common stock outstanding. Diluted earnings per share are computed by dividing net income by the weighted average number of common stock and common stock equivalents outstanding.

As of June 30, 2009, the Company had (i) 9,000,000 shares of common stock issuable under convertible preferred stock arrangements, (ii) 200,000 shares of common stock issuable upon the exercise of outstanding warrants and (iii) 58,599,618 shares of common stock issuable under convertible debt arrangements. These 67,799,618 shares, which would be reduced by applying the treasury stock method, were excluded from diluted weighted average outstanding shares amount for computing the net loss per common share, because the net effect would be antidilutive for each of the periods presented.

Note 13. Related Party Transactions

We lease our office and warehouse facility in Belgium Wisconsin from Monte B. Tobin, our President, and his wife, (the Tobins) under a five-year net lease.

Edgar Filing: MACH ONE CORP - Form 10-Q

The facility consists of approximately 3,500 square feet of office space and 1,000 square feet of warehouse space, with an option to increase the warehouse space by up to 500 feet. We currently pay a base rent of approximately \$4,300 per month. The Tobins hold a note receivable from the Company representing unpaid rent and interest from 2005 and 2006 totaling \$105,801. Interest accrues at 12% per year.

Note 15. Commitments and Contingencies

The Company forward contracts for a certain portion of its future grain requirements. At June 30, 2009, the Company had outstanding commitments for grain purchases totaling approximately \$2,500,000 related to forward purchase contracts. These contracts are set price contracts to deliver grain to the Company, and are not derivative in nature as they have no net settlement

Edgar Filing: MACH ONE CORP - Form 10-Q

provision and are not transferable.

Pursuant to a warehouse agreement, the Company is obligated to minimum monthly storage and handling amounts totaling \$12,000 for the year ending December 31, 2009.

The Company periodically is subject to claims and lawsuits that arise in the ordinary course of business. It is the opinion of management that the disposition or ultimate resolution of such claims and lawsuits will not have a material adverse effect on the financial position of the Company.

Note 16. Fair Value Measurements

In accordance with SFAS No. 157, we value our marketable securities based on a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1). The next highest priority is based on quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in non-active markets or other observable inputs (Level 2). The lowest priority is given to unobservable inputs (Level 3).

The following table provides information regarding fair value measurements for our marketable securities as of June 30, 2009 according to the three-level fair value hierarchy:

	Balance June 30, 2009	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Equity securities	\$ 137,557	\$ --	\$ 137,557	\$ --

Equity securities as of June 30, 2009 are comprised of stock holdings in one company that is traded on the Over-The-Counter Bulletin Board.

Note 17. Subsequent Events

Subsequent to June 30, 2009, certain holders of the short-term convertible notes payable referenced in Note 9. Short-term Notes Payable and Other Debt herein, converted their notes into common stock under the terms of their agreements. 28,566,961 shares were issued for the conversion of \$1,788,000 in short-term convertible notes plus interest accrued on those notes.

Subsequent to June 30, 2009, the Company issued 625,000 and 500,000 shares of its common stock for services rendered after June 30, 2009, and as an employee retention bonus, respectively. The shares issued for services will result in a charge to operating expenses in the Company's statement of operations for the three-month period ending September 30, 2009.

Subsequent to June 30, 2009, the Company finalized an agreement with the former holders of 4,420,000 shares of Series A Convertible Preferred Stock referenced in Note 13. Stockholders' Equity herein. In accordance with the agreement, the Company issued 2,500,000 shares of its common stock valued at \$221,000.

Edgar Filing: MACH ONE CORP - Form 10-Q

In July of 2009, the Company entered into a Letter of Intent to acquire Atlanta-based White Hat Brands, LLC, producers of a variety of all-natural, multi-vitamin-fortified juice beverages for children under the brand name Dog On It! (TM). Terms of the agreement include the issuance of shares of the Company's common stock. There are several conditions precedent to closing the transaction.

Item 2. Management's Discussion and Analysis or Plan of Operation

NOTE REGARDING FORWARD-LOOKING STATEMENTS

Sections of this Form 10-Q, including the Management's Discussion and Analysis or Plan of Operation, contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), Section 21E of the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), and the Private Securities Litigation Reform Act of 1995, as amended. These forward-looking statements are subject to risks and uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from the results, performance or achievements expressed or implied by the forward-looking statements. You should not unduly rely on these statements. Forward-looking statements involve assumptions and describe our plans, strategies, and expectations. You can generally identify a forward-looking statement by words such as "may," "will," "should," "would," "could," "plan," "goal," "potential," "expect," "anticipate," "estimate," "believe," "intend," "project," and similar words and variations thereof. This Quarterly Report on Form 10-Q contains forward-looking statements that address, among other things.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES:

The preparation of the financial information contained in this 10-Q requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We evaluate these estimates on an ongoing basis, including those related to allowances for doubtful accounts and returns, inventory valuation, the carrying value and any impairment goodwill and of intangible assets, and income taxes. These critical accounting policies are discussed in more detail in the Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended December 31, 2008.

RECENT ACCOUNTING DEVELOPMENTS

See Note 2 to the accompanying interim consolidated financial statements for a summary of recent accounting developments.

Dakota State University and the United States Department of Agriculture's (USDA) Agricultural Research Service. Ceres and OGM operate a grain elevator in North Dakota, with corporate offices in St. Paul, Minnesota. The integration of organic foods and animal feeds to the Mach One package of global wellness solutions extends Mach One's reach as well as its ability to expand its success in sustainable bio-solutions. OSG is headquartered in Minneapolis, Minnesota.

Modular Process Constructors, LLC (dba MPS-BioPharm)--an acquisition that closed Feb. 19, 2009-- is now part of Mach One's BioPharm Process Systems Group and engages in the design and manufacture of constructed systems for the biopharmaceutical industry. It offers process modules and skids, custom tanks and vessels, and sanitary stainless steel flow equipment, along with professional project management, design qualifications, detail design, component procurement, schedule metrics and reporting. With the addition of MPS-BioPharm, it enables Mach One to accelerate production of biopharmaceutical, Nutraceutical, and Bridge(TM) Iggs on a global basis. The BioPharm Process Systems Group is headquartered in Kenosha, Wisconsin.

Today Mach One and its three Operating Groups--Animal Wellness, Organics and Sustainables, and BioPharm Process Systems--offer a broad range of solutions to global health problems, from helping calves develop immunity at birth to carefully managing organic grain crops, to testing equipment that helps detect compromised food products long before they can cause a problem. Currently, neither Animal Wellness nor BioPharm Process Systems has generated significant revenues or acquired significant assets. As such, the Company operates and manages the business under one reporting segment.

We have not generated significant operating revenues, and as of June 30, 2009 we had incurred a cumulative consolidated net loss from inception of \$9,858,056.

For the six month periods ended June 30, 2009 and 2008, our consolidated net losses were \$6,113,296 and \$686,999 respectively. Our current liabilities as of June 30, 2009 exceed current assets by \$2,406,844.

15

Although we recently completed a convertible debt financing with gross proceeds of approximately \$2,250,000 in November 2008 and January 2009, we will eventually require significant additional funding in order to achieve our business plan. We believe that our current cash position will be able to sustain our proposed operations for 2-3 months. Should we be unable to obtain additional funding in the next 3 months, we would be required to cut expenses in our Organics and Sustainables group and temporarily halt operations in our Animal Wellness group until such funding is obtained. Over the next 18 months, in order to have the capability of achieving our business plan, we believe that we will require at least \$3,000,000 in additional funding. We will attempt to raise these funds by means of one or more public or private offerings of debt or equity securities or both. We believe that some, if not all, of the required funds could be generated from the increased cash flows of our Operating Groups as they become fully integrated.

Results of Operations

Quarter Ending June 30, 2009 Compared to Quarter Ending June 30, 2008

Net sales for the quarter ended June 30, 2009 were \$1,683,156 compared to \$22,020 for the same period last year. Net sales increased due to increased revenues from the acquisition of Ceres (approximately \$1,627,000) and MPS (approximately \$45,600). There were no significant changes in sales of the

Edgar Filing: MACH ONE CORP - Form 10-Q

parent company between the periods presented.

Cost of goods sold were \$1,447,195 for the quarter ended June 30, 2009 compared to \$10,027 for the quarter ended June 30, 2008. This increase was primarily due to acquisition of Ceres (approximately \$1,437,000). There were no significant changes in cost of goods sold of the parent company between the periods presented.

Gross profit for the quarter ended June 30, 2009 was \$235,961 compared to \$11,993 for the same period last year. Gross profit increased due to increased sales with the acquisition of Ceres Organic (approximately \$190,100) and MPS (approximately \$45,600).

Operating expenses increased to \$5,200,557 in the quarter ended June 30, 2009 from \$263,469 in the same quarter in 2008. The increase is due to the impairment of goodwill of \$3,438,466 and additional personnel in the parent company and costs associated with additional employees and facilities from the acquisition of Ceres and MPS.

Interest expense for the quarter ended June 30, 2009 was \$154,756 compared to \$470 for the same period last year. Interest expense increased due to the issuance of short term notes payable during the two quarters ended March 31, 2009 and to debt issued in connection with the acquisition of Pacific Rim.

Six Months Ending June 30, 2009 Compared to Six Months Ending June 30, 2008

Net sales for the six months ended June 30, 2009 were \$2,494,604 compared to \$82,427 for the same period last year. Net sales increased due to increased revenues from the acquisition of Ceres (approximately \$2,358,000). There were no significant changes in sales of the parent company between the periods presented.

Cost of goods sold were \$2,166,807 for the six months ended June 30, 2009 compared to \$38,125 for the six months ended June 30, 2008. This increase was primarily due to acquisition of Ceres (approximately \$2,103,000). There were no significant changes in cost of goods sold of the parent company between the periods presented.

Gross profit for the six months ended June 30, 2009 was \$327,797 compared to \$44,302 for the same period last year. Gross profit increased due to increased sales with the acquisition of Ceres Organic (\$283,726). This was offset by a negative gross profit for the parent company in the current period.

Operating expenses increased to \$6,011,956 in the six months ended June 30, 2009 from \$677,471 in the same period in 2008. The increase is due to the impairment of goodwill of \$3,438,466 and additional personnel in the parent company and costs associated with additional employees and facilities from the acquisition of Ceres and MPS.

Interest expense for the six months ended June 30, 2009 was \$436,612 compared to \$58,830 for the same period last year. Interest expense increased due to the issuance of short term notes payable during the two quarters ended March 31, 2009 and to the acquisition of Ceres.

Liquidity and Capital Resources

We had a cash balance of \$183,588 as of June 30, 2009 and a cash balance of \$635,334 as of December 31, 2008.

The value of our marketable securities on June 30, 2009 decreased to \$137,557 from \$483,900 as of market close on December 31, 2008. The decrease is due to the decline in market values of these securities.

Edgar Filing: MACH ONE CORP - Form 10-Q

Accounts receivable as of June 30, 2009 increased to \$1,077,713 from \$44,603 at December 31, 2008 due to the acquisition of Ceres, which added approximately \$982,000 as of June 30, 2009.

Net inventory as of June 30, 2009 increased to \$1,814,436 from \$520,020 at December 31, 2008 due to the acquisition of Ceres, which added approximately \$1,194,000 as of June 30, 2009.

16

Total assets at June 30, 2009 are \$7,632,166 compared to \$6,196,748 at December 31, 2008. This increase is attributable to the acquisitions of Ceres and MPS.

As of June 30, 2009 we have current liabilities totaling \$5,896,035 compared to \$1,223,904 at December 31, 2008. The increase is due to; an increase in accounts payable, which is mainly due to the acquisition of Ceres, which added approximately \$2,329,000 of payables as of June 30, 2009, an increase in accrued interest at the parent company of approximately \$221,000, a net increase in short-term notes payable of approximately \$1,697,000.

Long term debt as of June 30, 2009 is \$3,177,512 compared to \$3,164,268 at December 31, 2008.

Factors that caused our cash flows from operations to decrease during the six months ended June 30, 2009 as compared to the six month period ended June 30, 2008, were the acquisition of Ceres and the use of funds for establishing Animal Wellness Group operations. Our cash flow used in investing activities increased during the six months ended June 30, 2009 as compared to the six months ended June 30, 2008 due to increased fixed asset acquisitions. Cash flow from financing activities increased during the six months ended June 30, 2009 as compared to the same period in 2008 as a result of the issuance of short term notes, which was offset by the purchase of treasury stock.

Our longer-term working capital and capital requirements will depend upon numerous factors, including revenue and profit generation, the cost of filing, prosecuting, defending, and enforcing patent claims and other intellectual property rights, competing technological and market developments, collaborative arrangements. Additional capital will be required in order to attain our goals. We cannot assure you that funds from our future operations or funds provided by our current financing activities will meet the requirements of our operations, and in that event, we will continue to seek additional sources of financing to maintain liquidity. We are actively pursuing all potential financing options as we look to secure additional funds both to stabilize and to grow our business operations. Our management will review any financing options at their disposal, and will judge each potential source of funds on its individual merits. We cannot assure you that we will be able to secure additional funds from debt or equity financing, as and when we need to, or if we can, that the terms of this financing will be favorable to us or our stockholders.

Item 3. Qualitative and Quantitative Disclosures About Market Risk.

Edgar Filing: MACH ONE CORP - Form 10-Q

None.

Item 4T. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in our reports filed pursuant to the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer as appropriate, to allow timely decisions regarding required disclosures. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

As of June 30, 2009, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of our disclosure controls and procedures as such term is defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934 (The "Exchange Act"). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of June 30, 2009 in ensuring that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure because of those material weaknesses relating to internal controls that are described in Item 4 (T) of the Company's Form 10-Q for the quarter ended March 31, 2009.

Notwithstanding the material weaknesses that existed as of June 30, 2009, our Chief Executive Officer and Chief Financial Officer have concluded that the financial statements included in this report present fairly, in all material respects, the financial position, results of operations and cash flows of the Company in conformity with accounting principles generally accepted in the United States of America.

Changes in Internal Controls

During the fiscal quarter ended June 30, 2009, there were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Management has concluded that the material weaknesses in internal control, as described in Item 4 (T) of our Form 10-Q for the quarter ended March 31, 2009, have not been fully remediated. We are committed to finalizing our remediation action plan and implementing the necessary enhancements to our policies and procedures to fully remediate the material weaknesses discussed above.

PART II--OTHER INFORMATION

Item 1. Legal Proceedings.

Not Applicable.

Item 1A. Risk Factors.

The Company is a smaller reporting company as defined by Rule 12b-2 of the
