PART I

Item 1. Description of Business.

Organization

On June 6, 2000 The Finx Group, Inc. was organized as a Delaware corporation. As of June 30, 2000, Fingermatrix, Inc., our predecessor company was merged into The Finx Group, Inc. We have controlling interests in FMX Corp. which was incorporated in Delaware on June 12, 1996, Secured Portal Systems, Inc., which was incorporated in Delaware on August 11, 1999, and Granite Technologies Acquisition Corp., which was incorporated in Delaware on May 15, 2001. Throughout this document our Company and its subsidiaries may be collectively referred to as "We", "Our", "Us", "The Finx Group", the "Company" or the "Registrant".

Current Developments

Trinity Group-I, Inc. Debt Exchange

On April 28, 1999, The Trinity Group-I, Inc. acquired voting control of The Finx Group and since that date has been our only significant source of funding. The Trinity Group-I, Inc. is owned by Lewis S. Schiller, our Chief Executive Officer and Chairman of the Board. As of May 7, 2001, The Trinity Group-I, Inc. had advanced to us approximately \$3.7 million in order to fund our operations. On May 7, 2001, The Trinity Group-I, Inc. exchanged \$1.5 million of such related party debt for 7,500,000 shares of common stock, representing \$0.20 per share, the fair market value of the common stock on May 7, 2001 and exchanged an additional \$2 million of related party debt into 20,000 shares of Series B preferred stock whereby each share of Series B preferred stock represents \$100 of exchanged related party debt. Each share of Series B preferred stock is convertible into shares of common stock as calculated by dividing \$100 by the lowest price that the Company's shares of common stock have traded during the period that the Series B preferred stock has been outstanding. The Series B preferred stock is redeemable by us in whole or in part, at the option of our board of directors, with Lewis S. Schiller, abstaining from any such vote. The Series B preferred stock votes alongside of common stockholders on an "if converted" basis as calculated on the date that any such vote occurs. On October 1, 2002, Trinity Group-I, Inc. converted 2,900 shares of Series B preferred stock into 10,000,000 shares of common stock and gifted 725 shares of Series B preferred stock to Grazyna B. Wnuk, our Vice-President and Secretary of the Board. During April, 2003, Trinity Group-I, Inc. converted 2,000 shares of Series B preferred stock into 50,000,000 shares of common stock. As of May 8, 2003, 15,100 shares of Series B preferred stock are outstanding which can be converted into an aggregate of 377,500,000 shares of common stock.

Expansion of Our Exclusive License with Georal International, Ltd.

On September 13, 1999, we obtained an exclusive distribution agreement from GIL Security Systems, Inc. GIL Security Systems, Inc. is a subsidiary of Georal International, Ltd. and holds all world-wide rights related to the intellectual property related to the GIL security systems, including trademarks, patents and technology, as licensed to it by Alan J. Risi, the controlling owner of both GIL Security Systems, Inc. and Georal International, Ltd. GIL Security Systems, Inc. is engaged in the manufacture and sale of security entrance systems for use as a security device by a variety of customers at airports, federal buildings, court houses, embassies, correctional facilities, schools, governmental operations, department stores and other retail outlets (the "Georal Security Products"). The exclusive distribution agreement gives us distribution

Edgar Filing: FINX GROUP INC - Form 10KSB/A

rights for the sale of all of the Georal Security Products, including all models of the GIL-2001 security door, to specified categories of customers. We refer to the exclusive distribution agreement as the "Georal License".

Upon the initial execution of the Georal License, the categories of customers covered by the exclusive distribution agreement include the United States Treasury Department, the United States Central Intelligence Agency and all other United States Government intelligence agencies, the United States National Security Agency, the United States Defense Intelligence Agency, the United States Department of the Navy, the United States Air Force, the United States Army, all United States Federal Courts and all United States Embassies, all department stores and retail stores located in the United States (including all retail stores located in foreign countries which are part of a retail store chain which is based in the United States), the Government of Israel, NCR Corp. and Sun Microsystems, Inc. On February 21, 2002, the Georal License was expanded to include all financial institutions around the world and gave us an additional right of first refusal to be the exclusive distributor for sales to any governmental body in the world which is not currently included in the Georal License as a protected customer. On May 16, 2002, the Georal License was expanded to include exclusive world wide sales and marketing rights for all casinos, malls, stadiums, office buildings and high rises. On September 9, 2002, the Georal License was expanded

3

to include World Wide rights to all Airports, Airport Authorities, Schools and Education Centers. On October 16, 2002, the Georal License was expanded to provide us with the right to receive forty percent of all maintenance revenues generated from service contracts obtained from our protected customer base; the right to share with Georal International, Ltd., all leasing revenues generated from leasing contracts related to the GIL-2001 security door and the right to renegotiate the discount received by us from Georal International, Ltd. at such time as the gross sales generated under the Georal License reaches \$5 million.

The Georal License commenced on September 1, 1999 and had an initial expiration date of August 31, 2004 which was later extended to August 31, 2009 and then again extended to August 31, 2014

In order to obtain the original Georal License and all of the expansions to the Georal License, we have issued an aggregate of 46,049,874 shares of our common stock valued at approximately \$3 million which we are amortizing over the life of the Georal License. The amortization expense for 2002 approximated \$108,000 and as of December 31, 2002, the unamortized value assigned to the Georal License is \$2.872 million. The amortization expense for years subsequent to December 31, 2002 will approximate \$190,000.

Certification by the U.S. State Department

On December 11, 2001 Georal International, Ltd. received a certification from the U.S. State Department stating that the GIL-2001 had passed forced entry and ballistic resistant tests, as witnessed by a technical representative of the U.S. State Department and that the GIL-2001 was added to the U.S. Department of State list of certified equipment necessary for its procurement for use in U.S. embassies, consulates and other governmental installations both in the U.S. and abroad.

Patent Protection

On October 29, 2002 Georal International, Ltd. received broad patent approval for its security entrance system from the United States Patent

Edgar Filing: FINX GROUP INC - Form 10KSB/A

Trademark Office (Patent 6,472,984). The patent received by Georal International, Ltd. covers the secured portal which is the subject of the exclusive license agreement and may provide barriers to entry and should eliminate competition from other portal manufacturers.

Marketing and Sales Distribution Agreements

On December 13, 2002 we entered into a memorandum of understanding incorporating a reseller agreement with TRW, Inc., which has been acquired by Northrop Grumman Corp. and is now operating as Northrop Grumman Mission Systems. The agreement gives Northrop Grumman Mission Systems the right to market Georal Security Products to the Federal Government and other significant commercial opportunities. On March 26, 2003, we entered into a distribution and marketing agreement with Lockheed Martin. The agreement gives Lockheed Martin worldwide rights to market the Georal Security Products.

In April 2003, we entered into reciprocal marketing agreements with Advanced Biometric Security, Inc. ("ABS"). The Marketing Agreements provide both us and ABS with non-exclusive marketing rights for each others security product lines. ABS provides enterprise software and services related to identity management and the security of physical and logical assets.

All of our marketing agreements provide our resellers with discounted prices for any products that they sell.

Definitive Information Statement to Increase Our Authorized Shares of Common Stock

On September 4, 2002, we filed a definitive information statement in order to increase our authorized shares of common stock from 50,000,000 shares to 750,000,000 shares which was authorized by the written consent of the holders of a majority of the voting power of the outstanding shares of our common stock. We required additional shares of common stock in order to (i) continue efforts to obtain equity financings; (ii) provide compensation in the form of option and stock grants to our employees and key consultants; (iii) provide sufficient shares to facilitate the conversion of convertible preferred stock; (iv) reserve shares for outstanding warrants to purchase common stock; and (v) provide sufficient shares for other corporate purposes as such needs may arise.

Acquisition of Granite Technologies, Inc.

On September 19, 2001, we purchased 95.87% of Granite Technologies Inc.'s common stock in exchange for approximately 3,500,000 shares of our common stock valued at \$1.4 million. Grazyna B. Wnuk received 124,031 shares of our common stock for her ownership interest in Granite Technologies, Inc. and immediate family members of Lewis S. Schiller, received 397,934 of our common shares for their ownership interest in Granite Technologies, Inc. In anticipation of our

acquisition of Granite Technologies, Inc., we entered into a Settlement and Release Agreement with Rock Partners Ltd., SSMI Corp. and Bruno Kordich, on September 15, 2001, pursuant to which (i) we received 4.13% of Granite Technologies Inc.'s common stock then owned by Rock Partners Ltd. and SSMI Corp.; (ii) we received a General Release and a Dismissal with Prejudice on any past disputes by and among Granite Technologies, Inc. and Rock Partners Ltd., SSMI Corp. and Bruno Kordich; (iii) all past agreements between Granite Technologies, Inc. and Rock Partners Ltd., SSMI Corp. and Bruno Kordich became void and cancelled; (iv) Rock Partners Ltd., SSMI Corp. and Bruno Kordich

Edgar Filing: FINX GROUP INC - Form 10KSB/A

received 542,636 shares of our common stock in consideration for items (i), (ii) and (iii); (v) we acknowledged Granite Technologies Inc.'s outstanding notes and liabilities in the aggregate of \$77,000; and (vi) we issued 160,000 shares of our common stock, on behalf of Granite Technologies Inc. in consideration for all remaining claims aggregating \$80,000.

Disposal of Non Security System Business Segments

In September of 2002, our Board of Directors approved a plan whereby it was determined to be in our best interests to focus all of our resources on our security systems business and all non security business segments should be sold. This decision was based on management's evaluation of our capability to support multiple and diverse business segments. Management's evaluation was confirmed in a business assessment report received from vFinance Investments, Inc., who was performing management and investment banking services for us. The business assessment report, among other things, recommended that we streamline our operating activities to focus on our security systems business. We investigated various possible venues to undertake the disposal of the non security system businesses which included Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc., Granite Technologies, Inc., Shopclue.com, Inc., Bizchase, Inc. and Starnet365.com, Inc. We engaged a consultant, pursuant to a consulting agreement, to assist in developing an exit strategy for the disposal of these businesses. Through the efforts of the consultant, on October 18, 2002, Thomas Banks Ltd. acquired Granite Technologies, Inc., Shopclue.com, Inc., Bizchase, Inc. and Starnet365.com, Inc. for nominal consideration, subject to the forgiveness of the amounts owed by such subsidiaries to us and the retention by us of certain rights to the assets of Granite Technologies.

On October 18, 2002, we sold Sequential Electronic Systems, Inc., S-Tech, Inc. and Defense Manufacturing and Systems, Inc. to Trinity Group Acquisition Corp. for one dollar (\$1) and the cancellation of approximately \$2.3 million of principal and interest owed to us by such subsidiaries. As of the date of the transaction, Sequential Electronic Systems, Inc., S-Tech, Inc. and Defense Manufacturing and Systems, Inc. had aggregate assets of \$1.2 million and not including the \$3.1 million they owed to us, had aggregate liabilities of \$2.4 million. These liabilities included \$1.1 million of delinquent payroll taxes for which we have agreed to indemnify Lewis S. Schiller for any claims made against him regarding such delinquent payroll taxes and in connection therewith have reserved \$550,000 of such payroll taxes against the gain on disposal of Sequential Electronic Systems, Inc. and S-Tech, Inc. Trinity Group Acquisition, Corp. is wholly owned by Lewis S. Schiller and the sale of Sequential Electronic Systems, Inc., S-Tech, Inc. and Defense Manufacturing and Systems, Inc. was not consummated at arms-length. However, we believe that because the transaction reduced our liabilities by approximately \$1.8 million that such transaction was in our best interests. As a result of the disposal of Sequential Electronic Systems, Inc., S-Tech, Inc. and Defense Manufacturing and Systems, Inc., the net reduction in our liabilities approximated \$1.8 million and our gain on disposal of approximately \$458,000 is recorded as an addition to paid-in capital because such gain was generated pursuant to a related party transaction.

Our Business

Products

Since September 30, 2002, our business has solely focused on the marketing and sale of our two primary security products: the GIL 2001 Portal Control System and the Secured Card Solutions Software Program. During 2002, we generated revenues of \$6,000 from a contract with Virginia Commonwealth University for one of our Secured Card Solutions.

Edgar Filing: FINX GROUP INC - Form 10KSB/A

The GIL 2001 Portal Control System is state of the art for security processing and human flow management and is built on step-by-step security processor logic using automated, structural, portal barriers for executing positive/authorized or negative/unauthorized access commands. This system includes embedded defensive countermeasures for piggybacked entry, weapons or credentials pass back, run back breeches and protection against forced entry. Standard subsystem capabilities include metal detection for weapon and asset detection, and this system's processing capabilities include execution of access commands from any access control, detection sensor or digital imaging subsystem. With the full physical separation and step-by-step logistics provided by GIL 2001 Portal Control Systems, access control at key checkpoints can be configured in a way to completely secure a facility. The GIL 2001 Portal Control System is designed to create a Secure Physical Firewall that creates a Safe Work Area for

5

employees, visitors, and customers who must pass through our firewall into a secure area. One of the many advantages of this firewall is that it reduces day-to-day confrontational situations.

The Secured Card Solutions Software Program enables colleges and universities to link access control of their recreation facilities with the university ID card, process memberships, issue recreation equipment and obtain utilization reports for multiple recreation facilities. The system is cost-effective to implement and is user-friendly for employees and provides accurate and timely information for recreation administrators. We have provided Virginia Commonwealth University with two of our Secured Card software solutions - the "Secured Recreational Sports Solution" and "The Secured Card Solution". "The Secured Recreational Sports Solution" which currently serves Virginia Commonwealth University from three locations offering a variety of fitness, aquatics and intramurals. The activities are offered to all students, faculty, and university and hospital employees. The Secured Recreational Sports Solution's database is integrated with the Virginia Commonwealth University card database for single university identification. The Secured Recreational Sports Solution handles all check-in of members, locker assignment and equipment check-in and check-out. It also keeps track of member billing and payroll deduction and handles member suspensions and automatic emailing of special events. The Secured Sports Recreation Solution application is written using the new Microsoft.NET architecture. We have also entered into a services and support agreement with Florida International University for the installation, support and use of our Secured Recreational Sports Solution.

Marketing

We are marketing GIL 2001 Portal Control System directly through sales consultants and through channel marketing relationships that we have recently secured. We have resale agreements with Northrop Grumman Mission Systems and Lockheed Martin Mission Systems, which give us significant access and existing in-roads for the department of defense and other governmental customers. Georal International, Ltd. has installed the GIL-2001 at the Department of Justice in Washington, DC, Rikers Island Prison, Citi Corp.'s Data Center and Exodus Communications Corp.

We are marketing the Secured Card Solutions Software Program directly to universities across the United States. We have installed our Secured Recreational Sports Management Solution at Virginia Commonwealth University and at Florida International University.

Competition

Edgar Filing: FINX GROUP INC - Form 10KSB/A

Although there are two direct competitors (Tonali and Secure Access Portals, Inc.), we believe that our product has the following key advantages: (1) significantly higher throughput, meaning more people can use the system per hour than our competitors; (2) U.S. State Department Certification; (3) it is domestically manufactured; and, (4) we have broad patent protection on the Georal portal.

Although there are many product offerings for Card Control Access, we believe that we are developing a niche industry by focusing on the colleges and universities sports recreation facilities. Our upcoming WEB Based Secured Recreational Sports Management Solution will mimic the existing program's capabilities on an internet browser using Microsoft.NET architecture and will further solidify our leadership role in our market niche.

Employees

The Finx Group, Inc. holding company currently employs two individuals who are its executive officers. Our remaining functions are provided by independent consultants.

RISK FACTORS

We Have a History of Losses and Cash Flow Deficits

We have incurred significant operating losses during each of the two years ended December 2002 and as of December 31, 2002 we have a capital deficiency of \$3.8 million. We expect to incur additional losses during the time period in which we are developing products and markets for our subsidiaries and we cannot be assured of when, if ever, our operations will become profitable or the extent of any future profitability. We also cannot be assured that the current trends of negative cash flow and increased losses and expenses (including compensation expense charges that may result from the issuance of our securities in the future) will not continue or, if so, for how long.

6

The Market for Our Common Stock is Limited

Currently, our common stock trades on the National Association of Securities Dealers Automated Quotation System Over-the-Counter Bulletin Board (the "NASDAQ Bulletin Board"). By its nature, the NASDAQ Bulletin Board is a limited market and investors may find it more difficult to dispose of our securities, which are owned by them. Currently, we do not meet the financial and other requirements for a NASDAQ SmallCap, listing. Apart from specific financial criteria that we would have to comply with in order to obtain such listing, there are other corporate governance criteria that must be satisfied in order to obtain any such listing. Among such corporate governance requirements is the requirement that there be no disparity in the voting rights of the holders of the common stock. At the present time, The Trinity Group-I, Inc. owns all of the outstanding shares of our Series A preferred stock. The holder of our Series A preferred stock has the right to elect a majority of the Board of Directors. The NASDAQ may consider the issuance of the Series A preferred stock as a violation of their voting rights rules and policy. The failure to comply with NASDAQ's voting rights rules or policy or any of its other applicable regulations relating to transactions engaged in by us may result in sanctions. Any such actions by NASDAQ could further limit the market for our common stock.

Trading in Our Securities May Be Restricted Due to Compliance with Applicable Penny Stock Regulations

Edgar Filing: FINX GROUP INC - Form 10KSB/A

Broker-dealer practices in connection with transactions in "penny stocks" are regulated by certain penny stock rules and regulations adopted by the SEC. Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on NASDAQ provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system). The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. These rules also impose additional sales practice requirements on broker-dealers which sell such securities to persons other than established customers or institutional accredited investors. For transactions covered by this rule, broker-dealers must also make a special suitability determination for the purchaser and receive the purchaser's written consent to the transaction prior to a sale. Consequently, the application of this rule to the trading of our common stock may affect the ability or willingness of broker-dealers to sell our securities and adversely affect market liquidity for such securities.

Our Company is Subject to Control by a Principal Stockholder

Trinity Group-I, Inc. has advanced significant funds to us and our subsidiaries and owns a controlling interest in our equity. The Trinity Group-I, Inc. is solely owned by Lewis S. Schiller, our Chairman of the Board and Chief Executive Officer. All of the shares of The Trinity Group-I, Inc. owned by Lewis S. Schiller are pledged to an entity controlled by Carol Schiller, the wife of Lewis S. Schiller. In addition, Douglas Schiller, Linda Schiller and Blake Schiller, the adult children of Lewis S. and Carol Schiller, own interests in our outstanding common stock. In addition, The Trinity Group-I, Inc. owns all of our outstanding Series B preferred stock, which as of May 8, 2003, is convertible into approximately 377,500,000 shares of our common stock. The Trinity Group-I, Inc. also owns all of our Series A preferred stock which gives it the right to elect a majority of our Board of Directors. This concentration of ownership and voting rights could delay or prevent a change of control. In addition, Lewis S. Schiller could elect to sell all, or a substantial portion, of his equity interest in The Trinity Group-I, Inc. to a third party. In the event of such a sale by Mr. Lewis S. Schiller, such third party may be able to control our affairs in the same manner that Lewis S. Schiller is able to do so by virtue of his ownership of The Trinity Group-I, Inc. Any such sale may adversely affect the market price of our common stock and could adversely affect our business, financial condition or results of operations.

A Significant Portion of the Net Proceeds of Any Potential Financing May Be Used for the Payment of Related Party and Other Indebtedness and for Salaries of Executives and Key Personnel

The Trinity Group-I, Inc. and Lewis S. Schiller have advanced significant funds to us. Also, Lewis S. Schiller and Grazyna B. Wnuk are owed accrued salaries as of December 31, 2002 of approximately \$2 million. A portion of the proceeds of any potential financing may be used to repay some or all of the amounts owed to these related parties. In addition, it is possible that a substantial portion of the proceeds from any potential financing would be allocated for general corporate purposes, including working capital, would be used to pay the salaries of certain of our officers and other key personnel and consultants.

We Require Additional Financing for Our Business Activities

Edgar Filing: FINX GROUP INC - Form 10KSB/A

We currently have limited operating capital and our inability to obtain a significant financing may adversely affect our business and no assurances are made that any such financing will occur, or that if any financing is completed, that additional financing will not be required.

We Have Granted Significant Benefits Under Certain Existing and Proposed Employment Agreements

Lewis S. Schiller, our Chairman of the Board and Chief Executive Officer, and Grazyna B. Wnuk, our Vice President, Secretary and a Director have employment agreements with us. These employment agreements provide significant benefits to each of them. The terms of these agreements were determined by our management, who are also parties to these agreements.

Rapid Technological Change Could Render Certain of Our Products and Proposed Products Obsolete or Non-Competitive

Major technological changes can occur rapidly in the security industries. It is entirely possible that newer technologies, techniques or products will be developed with more capabilities and better performance than our present and proposed products. The development by competitors of new or improved technologies, techniques or products may make our present or planned products obsolete or non-competitive.

We Cannot Predict Market Acceptance for Our Proposed Products

All of our security products that we currently offer and may develop in the future may not gain market acceptance. The degree of acceptance of our existing security products and any security products that we may develop in the future will depend upon numerous factors, including demonstration of the advantages, uniqueness and reliability of such products, their cost effectiveness, the potential barriers to market entry by alternative products, marketing and distribution support and the financial ability and credibility of such entities.

The Business in Which We Are Engage in May Be Subject to Intense Competition

We may face intense competition from numerous companies which are developing, producing and marketing products for securing access to buildings and facilities which will directly compete with our products. We intend to distribute a security access or entrance system to customers which include government and other institutional purchasers who have been serviced by vendors, which have established and tested security products and systems that have become recognized and accepted in this industry. The type of security system that we will offer to our customers is subject to technological change and compliance with product specifications established by our intended customers. New entrants in this industry must establish product reliability through testing and use in order to gain widespread commercial acceptance of such products. Many of our potential competitors may have greater financial, technical, personnel and other resources than we do and that we expect to have in the foreseeable future. We cannot provide any assurances that we will be able to compete effectively with any of such competitors.

The Board of Directors May Issue Additional Preferred Stock in the Future

We are authorized to issue up to 1,000,000 shares of preferred stock, \$.01 par value (the "Preferred Stock"). The Preferred Stock may be issued in one or more series, the terms of which may be determined at the discretion of our Board of Directors, without further approval of the stockholders. Among the rights of the holders of any additional Preferred Stock that may be authorized by the Board of Directors are rates of dividends, voting rights, terms of redemption, amounts payable upon liquidation, sinking fund provisions and

Edgar Filing: FINX GROUP INC - Form 10KSB/A

conversion rights. One of the effects of any such additional Preferred Stock that may be issued in the future may be to enable the Board of Directors to render more difficult or to discourage an attempt to obtain control of the Company by means of a tender offer, proxy contest, merger or otherwise and thereby protect the continuity of our current management. The terms of any such additional Preferred Stock that may be issued in the future could adversely affect the rights of the holders of common stock. Accordingly, the issuance of any such shares of Preferred Stock may discourage bids for the common stock or adversely affect the market price of the common stock.

A Substantial Number of Our Shares of Common Stock Will Be Available for Future Sale in the Public Market

As of May 8, 2003, approximately 124 million shares of our outstanding common stock are "restricted securities" as that term is defined in Rule 144 promulgated under the Securities Act and in the future may be sold only pursuant to an effective Registration Statement under the Securities Act, in compliance with the exemption provisions of Rule 144 or pursuant to another exemption under the Securities Act. Furthermore, any shares that are

8

issued upon the exercise of any outstanding warrants or options will be eligible for sale, without registration under Rule 144 (subject to the aforementioned volume restrictions of the Rule) following the expiration of two years from the date of issuance.

We Do Not Intend to Pay Any Dividends on the Common Stock in the Foreseeable Future

We currently intend to retain all future earnings, if any, to finance our current and proposed business operations and we do not anticipate paying any cash dividends on our common stock in the foreseeable future. The holder of our Preferred Stock have rights senior to the holders of common stock with respect to any dividends. We may also incur indebtedness in the future that may prohibit or effectively restrict the payment of cash dividends on our common stock.

The Liability of Our Officers and Directors to Us and Our Shareholders is Limited

The applicable provisions of the Delaware Business Corporation Law and our Certificate of Incorporation limit the liability of our officers and directors to us or our shareholders for monetary damages for breaches of their fiduciary duties to us, with certain exceptions, and for other specified acts or omissions of such persons. In addition, the applicable provisions of the Delaware Business Corporation Law and of our Certificate of Incorporation and By-Laws provide for indemnification of such persons under certain circumstances. As a result of these provisions, shareholders may be unable to recover damages against our officers and directors for actions taken by them which constitute negligence, gross negligence or a violation of their fiduciary duties and may otherwise discourage or deter our shareholders from suing our officers or directors even though such actions, if successful, might otherwise benefit us and our shareholders.

Dependence on a Key Supplier

Georal International, Ltd. is the sole supplier of our primary security product pursuant to a license which expires on August 31, 2014. Should Georal International, Ltd. experience difficulty in providing product in a timely manner, this could adversely affect our revenues and reputation in the market.

Edgar Filing: FINX GROUP INC - Form 10KSB/A

Additionally, the failure on the part of Georal International, Ltd. to develop and manufacture or supply new or enhanced products that meet or anticipate technological changes on a timely and cost-competitive basis could have a materially adverse effect on our financial condition and results of operations.

Reliance on Management and Key Personnel and Consultants

While investors have voting rights, they will not be able to take a direct role in the management of our operations. Our success is contingent on the judgment and expertise of our directors and officers and on our being able to attract and retain a senior management team, some of who are approaching retirement age. Our success will also depend to a significant extent upon the skills of certain key personnel and consultants. Our failure to attract replacement or additional qualified employees or to retain the services of key personnel or consultants could adversely affect our business.

We Could Be Subject to Potential Uninsured Liability

We intend to obtain liability, property and business interruption insurance. We may not have sufficient funds with which to purchase and/or maintain such insurance. We plan to operate in a professional and prudent manner to reduce potential liability. Nevertheless, an uninsured claim against us, if successful and of sufficient magnitude could have a material adverse effect on us. In addition, the lack of or the inability to obtain insurance of the type and in the amounts required could impair our ability to enter into certain contracts, which may be, in certain instances, conditioned upon the availability of adequate insurance coverage.

Item 2. Description of Properties.

Our executive offices are located in Boca Raton, Florida in space provided by an executive officer. Our independent consultants perform work for us out of their own offices located throughout the United States.

Item 3. Legal Proceedings.

Although we are a party to certain legal proceedings that have occurred in the ordinary course of business, we do not believe such proceedings to be of a material nature with the exception of the following item. On or about April 8, 2002, a complaint styled "Law Offices of Jerold K. Levien, against The Finx Group, Inc. f/k/a Fingermatrix, Inc., The Trinity Group-I, Inc." was filed in the Supreme Court of the State of New York County of New York. The

9

nature of the action is for breach of contract with regard to the non-payment of legal invoices for services purported to have been rendered by the plaintiff, and the relief sought is \$334,595, such amount having been accrued on our books. We believe we have meritorious defenses to the complaint and intend to vigorously contest this complaint. Due to uncertainties in the legal process, it is at least reasonably possible that our opinion of the outcome will change in the near term and there exists the possibility that there could be a material adverse impact on our operations.

Item 6. Management's Discussion and Analysis of Financial Condition and Results of Operations.

THIS MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS MAY BE DEEMED TO INCLUDE FORWARD-LOOKING STATEMENTS WITHIN THE MEANING OF SECTION 27A OF THE SECURITIES ACT OF 1933, AS AMENDED, AND SECTION 21E OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED, THAT INVOLVE RISK AND UNCERTAINTY. ALTHOUGH MANAGEMENT BELIEVES THAT ITS EXPECTATIONS ARE BASED ON REASONABLE ASSUMPTIONS, IT CAN GIVE NO ASSURANCE THAT ITS EXPECTATIONS WILL BE ACHIEVED.

THE IMPORTANT FACTORS THAT COULD CAUSE ACTUAL RESULTS TO DIFFER FROM THOSE IN THE FORWARD-LOOKING STATEMENTS HEREIN (THE "CAUTIONARY STATEMENTS") INCLUDE, WITHOUT LIMITATION: WE HAVE A HISTORY OF LOSSES AND CASH FLOW DEFICITS; THE MARKET FOR OUR COMMON STOCK IS LIMITED; TRADING IN OUR SECURITIES MAY BE RESTRICTED DUE TO COMPLIANCE WITH APPLICABLE PENNY STOCK REGULATIONS; OUR COMPANY IS SUBJECT TO CONTROL BY A PRINCIPAL STOCKHOLDER; A SIGNIFICANT PORTION OF THE NET PROCEEDS OF ANY POTENTIAL FINANCING MAY BE USED FOR THE PAYMENT OF RELATED PARTY AND OTHER INDEBTEDNESS AND FOR SALARIES OF EXECUTIVES AND KEY PERSONNEL; WE REQUIRE ADDITIONAL FINANCING FOR OUR BUSINESS ACTIVITIES; WE HAVE GRANTED SIGNIFICANT BENEFITS UNDER CERTAIN EXISTING AND PROPOSED EMPLOYMENT AGREEMENTS; RAPID TECHNOLOGICAL CHANGE COULD RENDER CERTAIN OF OUR PRODUCTS AND

Edgar Filing: FINX GROUP INC - Form 10KSB/A

PROPOSED PRODUCTS OBSOLETE OR NON-COMPETITIVE; WE CANNOT PREDICT MARKET ACCEPTANCE FOR OUR PROPOSED PRODUCTS; THE BUSINESS IN WHICH WE INTEND TO ENGAGE IN IS SUBJECT TO INTENSE COMPETITION; THE BOARD OF DIRECTORS MAY ISSUE ADDITIONAL PREFERRED STOCK IN THE FUTURE; A SUBSTANTIAL NUMBER OF OUR SHARES OF COMMON STOCK WILL BE AVAILABLE FOR FUTURE SALE IN THE PUBLIC MARKET; WE DO NOT INTEND TO PAY ANY DIVIDENDS ON THE COMMON STOCK IN THE FORESEEABLE FUTURE; THE LIABILITY OF OUR OFFICERS AND DIRECTORS TO US AND OUR SHAREHOLDERS IS LIMITED; DEPENDENCE ON KEY SUPPLIER; RELIANCE ON MANAGEMENT, KEY PERSONNEL AND CONSULTANTS; WE COULD BE SUBJECT TO POTENTIAL UNINSURED LIABILITY, THE RISKS RELATING TO LEGAL PROCEEDINGS AND OTHER FACTORS BOTH REFERENCED AND NOT REFERENCED IN THIS ANNUAL REPORT ON FORM 10-KSB, INCLUDING THOSE SET FORTH UNDER "RISK FACTORS." ALL SUBSEQUENT WRITTEN AND ORAL FORWARD-LOOKING STATEMENTS ATTRIBUTABLE TO THE COMPANY OR PERSONS ACTING ON ITS BEHALF ARE EXPRESSLY QUALIFIED IN THEIR ENTIRETY BY THE CAUTIONARY STATEMENTS. THE COMPANY DOES NOT UNDERTAKE ANY OBLIGATION TO RELEASE PUBLICLY ANY REVISIONS TO SUCH FORWARD-LOOKING STATEMENTS TO REFLECT EVENTS OR CIRCUMSTANCES AFTER THE DATE HEREOF OR TO REFLECT THE OCCURRENCE OF UNANTICIPATED EVENTS.

Phase Out of the OTC Bulletin Board

Our common stock currently trades on the OTC Bulletin Board ("OTCBB"), which is operated by the Nasdaq Stock Market, Inc. ("NSM"). NSM has advised us that the OTCBB will be phased out in 2004 and will be replaced by the Bulletin Board Exchange ("BBX"). The BBX will be a listed marketplace, with qualitative listing standards but with no minimum share price, income, or asset requirements. BBX Listing Standards includes Public Interest Standards, Public Float/Shareholder Requirements, and Corporate Governance Standards. The Public Interest Standard will allow the BBX to deny listing or de-list an issuer to protect investors. Imposition of this standard will include a review of all directors, officers, and major shareholders for past regulatory or legal issues. The BBX listing standards will require issuers to demonstrate the existence of one hundred round-lot shareholders and two hundred thousand shares in the public float. Corporate Governance Standards will require us to have an annual shareholders' meeting to be held within twelve months of the end of the first fiscal year after we become listed. The BBX will require the appointment of at least one independent director and the creation of an Audit Committee, a majority of the members of which must be independent directors. Related party transactions and potential conflict of interest situations will also be subject to review by the Audit Committee or a comparable body of the Board of Directors. The BBX will also prohibit the disenfranchisement of the voting rights of existing shareholders and require shareholder approval of transactions that involve: the grant of stock options to officers and directors, below-market issuances of stock, acquisitions, and changes of control. We will be required to distribute our annual report on Form 10KSB to our shareholders and engage only auditors that are subject to peer review consistent with the American Institute of Certified Public Accountants ("AICPA") procedures. If the BBX accepts a listing application filed by us, the initial listing fee will be approximately \$10,000 and we will also be subject to an

11

annual renewal fee of approximately \$4,000. If a listing application filed by us is not accepted by the BBX, our common stock will trade on the Pink Sheets which will likely provide holders of our common stock with less liquidity than either the OTCBB or the BBX.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires

Edgar Filing: FINX GROUP INC - Form 10KSB/A

management to make assumptions, estimates and judgments that affect the amounts reported in the financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any. We consider our critical accounting policies to be those that require the more significant judgments and estimates in the preparation of our financial statements, including the following: impairment of long-lived assets, including the valuation of the exclusive license agreement; accounting for expenses in connection with stock options and warrants; and accounting for income taxes. Our management relies on historical experience and on other assumptions believed to be reasonable under the circumstances in making its judgment and estimates. Actual results could differ materially from those estimates. There have been no significant changes in assumptions, estimates and judgments in the preparation of these financial statements from the assumptions, estimates and judgments used in the preparation of our prior year's audited financial statements.

Results of Operations

In September 2002 we made a decision to focus our business exclusively on our Security Systems business and on October 18, 2002 we disposed of all non security system segments. Currently, our primary source of future revenues, if any, will be generated under our Georal License for the sale of Georal Security Products, including the GIL-2001 security door. Potential revenues may be generated from the marketing and distribution of the Georal Security Products to both those customers for which we have exclusive distribution rights and to others as to which we have non-exclusive rights. In December of 2002 TRW, Inc., now operating as Northrop Grumman Mission Systems, agreed to market and distribute the Georal Security Products. In March of 2003, Lockheed Martin Missions Systems also agreed to market and distribute the Georal Security Products. Many of the customers to whom we will seek to market the Georal Security Systems will be domestic and foreign government purchasers or commercial users. On December 11, 2001, the GIL-2001 security door received certification from the U.S. State Department necessary for its possible procurement for use in U.S. embassies, consulates and other governmental installations both in the U.S. and abroad. In October 2002, Georal International, Ltd. received broad patent approval for its security entrance system from the United States Patent Trademark Office (Patent 6,472,984). The patent received by Georal International, Ltd. covers the secured portal which is the subject of the Georal License and may provide barriers to entry and possibly eliminate competition from other portal manufacturers.

Our original marketing strategy was focused solely on sales of the GIL-2001 security door to the U.S. State Department. In 2002, we expanded our marketing efforts to include all customers under the exclusive distribution agreement and have built a sales team for such purpose. We face competition from companies which have far greater financial resources, personnel and experience. Although we believe that we have a unique product and that the GIL-2001 security door is the only product of its type that is certified by the U.S. State Department, we give no assurances that we will be able to generate meaningful revenues using our Georal License.

We also offer Secured Card Solutions from our development and sale of software programs for Device Management and Smart Card applications. We have provided Virginia Commonwealth University with two of our Secured Card software solutions - the "Secured Recreational Sports Solution" and "The Secured Card Solution". "The Secured Recreational Sports Solution" which currently serves Virginia Commonwealth University from three locations offering a variety of fitness, aquatics and intramurals. The activities are offered to all students, faculty, and university and hospital employees. The Secured Recreational Sports Solution's database is integrated with the VCU card database for single university identification. The Secured Recreational Sports Solution handles all check-in of members, locker assignment and equipment check-in and check-out. It also keeps track of member billing and payroll deduction. Further, it handles

Edgar Filing: FINX GROUP INC - Form 10KSB/A

member suspensions and automatic emailing of special events. The Secured Sports Recreation Solution application is written using the new Microsoft.NET architecture. We have also entered into a services and support agreement with Florida International University for the installation, support and use of our Secured Recreational Sports Solution. During 2002, we generated revenues of \$6,000 from a contract with Virginia Commonwealth University for our Secured Card Solutions.

Our operating expenses include executive payroll which is currently \$723,000 per year of which none has been paid. Lewis S. Schiller, our Chief Executive Officer has agreed to defer payment of his salary until January 1, 2004 and as of December 31, 2002 his cumulative deferred salary approximates \$1.4 million. Additionally, Grazyna B. Wnuk, our Vice-President, is owed cumulative salaries of \$573,000. Expenses associated with our sales and marketing represent consulting fees to the consultants who perform such functions and currently approximate \$1

12

million per year. Such sales and marketing costs were not incurred during 2001. Professional fees for legal and accounting services currently approximate \$250,000 annually for both 2002 and 2001. Depreciation and amortization approximated \$130,000 and \$24,000. The value assigned to the Georal License of approximately \$3 million was incurred in 2002 and is being amortized over of the life of the Georal License resulting in ongoing annual amortization expense of \$190,000 for years after 2002.

Since the third quarter of 2001, we have been compensating our employees and consultants with stock options and stock grants that have been registered on Form S-8 and unregistered stock purchase warrants. During 2002, we issued options and warrants to purchase an aggregate of 93,000,165 shares of common stock to our employees and consultants. Such options and warrants, using the Black-Scholes option valuation formula, were valued at \$2.3 million of which \$2.264 million was charged to operations as a non cash expense in 2002 and \$39,000 represented fees to a consultant who assisted us in disposing of our discontinued segments and was charged against the 2002 gain on disposal of such discontinued operations. During 2001 we issued options to purchase 17,125,000 shares of common stock and using the Black-Scholes option valuation formula, such options were valued at \$4.671 million, which was charged to operations as a non cash expense in 2001.

We incurred interest expense at an annual rate of 9% on related party notes payable. For 2002 and 2001, such interest was \$119,000 and \$274,000, respectively. The related party notes payable are the result of advances from Trinity Group-I, Inc., our controlling shareholder, advances from Universal International, Inc., a company owned by Grazyna Wnuk, an officer of the Company, a loan from E. Gerald Kay, a former director, and advances from Blake Schiller and Carol Schiller, both immediate family members of Lewis Schiller, an officer of the Company. Total notes payable owed to related parties as of December 31, 2002 approximates \$1.098 million on which accrued and unpaid interest approximates \$682,000. All of the related party notes and interest are payable upon demand, however; Trinity Group-I, Inc., which is wholly owned by Lewis S. Schiller, has agreed to defer payment of \$550,000 of such interest until January 1, 2004.

As a result of our decision to focus our business exclusively on our Security Systems business we disposed of all non security system segments resulting in a gain on disposal of \$1.4 million. Loss from the operations of discontinued segments was \$456,000 and \$5.036 million, respectively, for 2002 and 2001.

Edgar Filing: FINX GROUP INC - Form 10KSB/A

Financial Condition - Liquidity and Capital Resources

As a result of the disposal of all non Security System business segments, our total liabilities were reduced by \$1.8 million. As a result of Lewis S. Schiller's agreement to defer payment of accrued salary, accrued interest and accrued dividends owed to him our current liabilities were reduced by \$3.931 million. Our working capital deficiency decreased from \$7.1 million at December 31, 2001 to \$4.445 million as of December 31, 2002. During 2002 we used \$1.7 million for our continuing operations. Since April 1999, our primary source of funding has been The Trinity Group-I, Inc. and during 2002 net advances from related parties were \$58,000. Since September of 2001 and during 2002, we have used stock options to compensate our employees and key consultants. The proceeds from the exercise of stock options was \$1.494 million in 2002.

On September 4, 2002, we filed a definitive information statement in order to increase our authorized shares of common stock from 50,000,000 shares to 750,000,000 shares which was authorized by the written consent of the holders of a majority of the voting power of the outstanding shares of our common stock. We required additional shares of common stock in order to (i) continue efforts to obtain equity financings; (ii) provide compensation in the form of option and stock grants to our employees and key consultants; (iii) provide sufficient shares to facilitate the conversion of convertible preferred stock; (iv) reserve shares for outstanding warrants to purchase common stock; and (v) provide sufficient shares for other corporate purposes as such needs may arise.

Pursuant to the terms of the stock purchase agreement to sell Sequential Electronic Systems, Inc. and S-Tech, Inc., we have agreed to indemnify Lewis S. Schiller for any claims made against him regarding \$1.1 million of delinquent payroll taxes owed by Sequential Electronic Systems, Inc. and S-Tech, Inc. at the time of their disposal. A reserve of \$550,000 has been recorded by management based upon our best estimate of the ultimate liability.

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. However, we have a history of operating losses and as of December 31, 2002 have a working capital deficiency of \$4.5 million and a capital deficiency of \$3.8 million. Since April of 1999 we have relied on financial support from our controlling stockholder, The Trinity Group-I, Inc. and other related parties and since September 25, 2001 have compensated our employees and key consultants with stock and stock options some of which were registered on Form S-8. Management is currently seeking additional financing; however no assurances can be made that such

13

financing will be consummated. Our continuation as a going concern is dependent upon our ability to obtain financing, and to use the proceeds from any such financing to increase our business to achieve profitable operations. The accompanying consolidated financial statements do not include any adjustments that would result should we be unable to continue as a going concern.

Wnuk, 10,000,000 shares underlying a warrant to purchase shares and 18,125,000 shares from the assumed conversion of shares of Series B preferred stock. None of the shares of Series A Preferred Stock, Series B Preferred Stock or Common Stock are held jointly by The Trinity Group-I, Inc and Mr. Schiller.

Item 12. Certain Relationships and Related Transactions.

We and our subsidiaries incur interest expense on advances from Lewis S. Schiller advances from The Trinity Group-I, Inc., advances from Universal International, Inc., a company owned by Grazyna B. Wnuk, advances from Grazyna B. Wnuk, a loan from E. Gerald Kay, a former director, and advances from Carol Schiller, the wife of Lewis S. Schiller. Total unpaid and outstanding advances from such related parties as of December 31, 2002 aggregated approximately \$1.098 million. Interest accrued on such notes is generally calculated at 9% (which is the weighted average interest rate at the balance sheet date) and as of December 31, 2002 \$682,000 of such interest remains unpaid. Interest expense on related party notes was \$119,000 for 2002 and \$313,000 for 2001 of which \$39,000 for 2001 related to entities which were discontinued and are included in the loss from operations of discontinued segments.

On April 28, 1999, The Trinity Group-I, Inc. acquired voting control of The Finx Group and since that date has been our only significant source of funding. The Trinity Group-I, Inc. is owned by Lewis S. Schiller, our Chief Executive Officer and Chairman of the Board. As of May 7, 2001, The Trinity Group-I, Inc. had advanced to us approximately \$3.7 million in order to fund our operations. On May 7, 2001, The Trinity Group-I, Inc. exchanged \$1.5 million of such related party debt for 7,500,000 shares of common stock, representing \$0.20 per share, the fair market value of the common stock on May 7, 2001 and exchanged an additional \$2 million of related party debt into 20,000 shares of Series B preferred stock whereby each share of Series B preferred stock represents \$100 of exchanged related party debt. Each share of Series B preferred stock is convertible into shares of common stock as calculated by dividing \$100 by the lowest price that the Company's shares of common stock have traded during the period that the Series B preferred stock has been outstanding.

Edgar Filing: FINX GROUP INC - Form 10KSB/A

The Series B preferred stock is redeemable by us in whole or in part, at the option of our board of directors, with Lewis S. Schiller, abstaining from any such vote. The Series B preferred stock votes alongside of common stockholders on an "if converted" basis as calculated on the date that any such vote occurs. On October 1, 2002, Trinity Group-I, Inc. converted 2,900 shares of Series B preferred stock into 10,000,000 shares of common stock and gifted 725 shares of Series B preferred stock to Grazyna B. Wnuk, our Vice-President and Secretary of the Board. In April 2003, Trinity Group-I, Inc. converted 2,000 shares of Series B preferred stock into 50,000,000 shares of common stock. As of May 8, 2003, 15,100 shares of Series B preferred stock are outstanding which can be converted into an aggregate of 377,500,000 shares of common stock.

17

On September 19, 2001 we acquired 95.87% of Granite Technologies, Inc.'s common stock upon the issuance of approximately 3,500,000 shares of our common stock. Grazyna B. Wnuk received 124,031 shares of our common stock for her ownership interest in Granite Technologies, Inc.; and immediate family members of Lewis S. Schiller, received 397,934 of our common shares for their ownership interest in Granite Technologies, Inc. In accordance with the terms of the Stock Purchase Agreement, the selling shareholders hold certain demand and "piggyback" registration rights with respect to the shares received by them in connection with the acquisition on terms specified in the Stock Purchase Agreement.

In November 2001, one of our discontinued business segments, Sequential Electronic Systems, Inc. was notified that its line-of-credit would not be extended beyond November 30, 2001. Subsequent to November 30, 2001, we utilized a \$522,500 cash collateral deposit provided by The Trinity Group-I, Inc. to satisfy all but \$7,000 of the balance owed under the line-of-credit and such funds became an obligation owed to The Trinity Group-I, Inc.

On November 11, 2001, we entered into an agreement to acquire 5,000,000 shares of Trans Global Services, Inc.'s common stock in exchange for 2,500,000 shares of our common stock. We also had committed to obtain funding of \$1 million for Trans Global Services, Inc. for which it would have received preferred stock that would convert into a maximum of 3,000,000 shares of Trans Global Services, Inc.'s common stock. As of December 31, 2001, we had provided Trans Global Services, Inc. with \$250,000 of funding. Subsequent to December 31, 2001, we had not obtained additional funding and determined that it was not in its best interest to expend additional time and resources pursuing the funding of Trans Global Services, Inc. On March 7, 2002, we entered into a mutual termination agreement with Trans Global Services, Inc. whereby all 2,500,000 shares of our common stock was returned by Trans Global Services, Inc. to us and we returned 4,000,000 of the 5,000,000 shares of Trans Global Services, Inc.'s common stock to them. In consideration of the \$250,000 funding that we provided to Trans Global Services, Inc., the remaining 1,000,000 shares of Trans Global Services, Inc. common stock were retained by our designee's, who were Lewis S. Schiller, members of his immediate family, and Grazyna B. Wnuk. Such designation was for the payment of \$250,000 of related party debt we owed to The Trinity Group-I, Inc.

On November 30, 2001, we executed an agreement with Orion Telecom Operating Corporation, pursuant to which The Trinity Group-I, Inc. provided Orion Telecom with 1,875,000 of its shares of our common stock as a collateral escrow deposit to enable Orion Telecom Operating Corporation to obtain a \$250,000 working capital loan. As consideration for providing the collateral for its loan, Orion Telecom Operating Corporation agrees to pay us and The Trinity Group-I, Inc. a sum equal to \$0.00125 per each minute of certain telecommunication services intended to be provided by Orion Telecom Operating

Edgar Filing: FINX GROUP INC - Form 10KSB/A

Corporation. We and The Trinity Group-I, Inc. will receive 50% each of any monies generated and earned pursuant to this agreement with Orion Telecom Operating Corporation. Upon repayment of the loan, 875,000 shares will be returned to The Trinity Group-I, Inc. and the remaining 1,000,000 shares will be turned over to Orion Telecom in exchange for 1% of Orion Holdings, Inc.'s common stock. The Trinity Group-I, Inc. will also receive 1% of Orion Holdings, Inc.'s common stock. As of May 8, 2003, no revenues have been generated pursuant to the agreement with Orion Telecom Operating Corporation.

On October 31, 2002, Carol Schiller, the wife of Lewis S. Schiller, agreed to convert \$400,000 of related party debt owed to her into 10,000,000 shares of our common stock at the rate of \$.04 per share, the fair value of the common stock on the date of the conversion.

On October 18, 2002, pursuant to the terms of a stock purchase agreement among The Finx Group, Starnet365.com, Inc., Lewis S. Schiller, our Chief Executive Officer and Chairman of the Board, Grazyna B. Wnuk, our Vice-President and Secretary, members of Lewis S. Schiller's immediate family (collectively, the "Starnet Sellers") and Thomas Banks Ltd., (the "Starnet Stock Purchase Agreement"), Thomas Banks Ltd. agreed to purchase 98.05% of the issued and outstanding capital stock of Starnet365.com, Inc. from the Starnet Sellers for one dollar (\$1) and we agreed to cancel approximately \$1.3 million of principal and interest owed by Starnet365.com, Inc. to us. As of the date of the Starnet Stock Purchase Agreement, Starnet365.com, Inc. had an excess of liabilities over assets of approximately \$1.7 million, including the \$1.3 million owed to us, resulting in remaining liabilities of approximately \$444,000. We believe that we may be required to pay approximately \$132,000 of such remaining liabilities based on the existence of corporate guarantees previously made on such amounts by us. As a result of the disposal of Starnet365.com, Inc., the net reduction in our liabilities approximated \$268,000 and our gain on disposal approximated \$312,000.

On October 18, 2002, pursuant to the terms of a stock purchase agreement among The Finx Group, Shopclue.com, Inc., Lewis S. Schiller, our Chief Executive Officer and Chairman of the Board, Grazyna B. Wnuk, our Vice-President and Secretary, members of Lewis S. Schiller's immediate family (collectively, the "Shopclue Sellers") and Thomas Banks Ltd. dated as of September 30, 2002, (the "Shopclue Stock Purchase Agreement"), Thomas Banks agreed to purchase 100% of the issued and outstanding capital stock of Shopclue.com, Inc. from the

18

Shopclue Sellers for one dollar (\$1) and we agreed to cancel approximately \$8,000 of principal and interest owed by Shopclue.com, Inc. to us. As of the date of the Shopclue Stock Purchase Agreement, Shopclue.com, Inc. had an excess of liabilities over assets of approximately \$340,000, including the \$8,000 owed to us, resulting in remaining liabilities of approximately \$332,000. We believe that we may be required to pay approximately \$169,000 of such remaining liabilities which represent delinquent payroll taxes. As a result of the disposal of Shopclue.com, Inc., the net reduction in our liabilities and the corresponding gain on disposal approximated \$160,000.

On October 18, 2002, pursuant to the terms of a stock purchase agreement among The Finx Group, Bizchase, Inc., Lewis S. Schiller, our Chief Executive Officer and Chairman of the Board, Grazyna B. Wnuk, our Vice-President and Secretary, members of Lewis S. Schiller's immediate family (collectively, the "Bizchase Sellers") and Thomas Banks Ltd. dated as of September 30, 2002, (the "Bizchase Stock Purchase Agreement"), Thomas Banks Ltd. agreed to purchase 100% of the issued and outstanding capital stock of Bizchase, Inc. from the Bizchase Sellers for one dollar (\$1) and we agreed to cancel approximately \$2

Edgar Filing: FINX GROUP INC - Form 10KSB/A

million of principal and interest owed by Bizchase, Inc. to us. As of the date of the Bizchase Stock Purchase Agreement, Bizchase, Inc. had an excess of liabilities over assets of approximately \$2.3 million, including the \$2 million owed to us, resulting in remaining liabilities of approximately \$296,000. We believe that we may be required pay approximately \$136,000 of such remaining liabilities of which \$99,000 relates to delinquent payroll taxes and \$37,000 relates to corporate guarantees. As a result of the disposal of Bizchase, Inc., the net reduction in our liabilities and the corresponding gain on disposal approximated \$163,000.

On October 18, 2002, pursuant to the terms of a stock purchase agreement among The Finx Group, Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc. and Trinity Group Acquisition Corp. dated as of September 30, 2002 (the "Sequential and S-Tech Stock Purchase Agreement"), Trinity Group Acquisition Corp. agreed to purchase 100% of the issued and outstanding capital of Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc. from The Finx Group for one dollar (\$1) and The Finx Group agreed to cancel approximately \$2.3 million of principal and interest owed by Sequential Electronic Systems, Inc. and S-Tech, Inc. to The Finx Group. Defense Manufacturing Systems, Inc. was wholly owned by The Finx Group but had no operating activities since its organization. Trinity Group Acquisition Corp. is wholly owned by Lewis S. Schiller, our Chief Executive Officer and Chairman of the Board. As of the date of the Sequential and S-Tech Stock Purchase Agreement, Sequential Electronic Systems, Inc. and S-Tech, Inc. had aggregate assets of \$1.2 million and aggregate liabilities of \$2.4 million, excluding the \$3.1 million owed to us. The aggregate liabilities included \$1.1 million of delinquent payroll taxes and we have agreed to indemnify Lewis S. Schiller for any claims made against him regarding such delinquent payroll taxes and in connection therewith have reserved \$550,000 of such payroll taxes against the gain on disposal of Sequential Electronic Systems, Inc. and S-Tech, Inc. The Trinity Group-I, Inc. is our controlling shareholder and both The Trinity Group-I, Inc. and Trinity Group Acquisition Corp. are wholly owned by Lewis S. Schiller, and the Sequential and S-Tech Stock Purchase Agreement was not consummated at arms-length. However, we believe that because the transaction will reduce our liabilities by approximately \$1.8 million that such transaction is in our best interests. As a result of the disposal of Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc., the net reduction in our liabilities approximated \$1.8 million and our gain on disposal of approximately \$458,000 is recorded as an addition to paid-in capital because such gain was generated pursuant to a related party transaction.

INDEPENDENT AUDITORS' REPORT

Edgar Filing: FINX GROUP INC - Form 10KSB/A

To the Board of Directors and Stockholders of
The Finx Group, Inc.
Boca Raton, Florida

We have audited the accompanying consolidated balance sheet of The Finx Group, Inc., and its subsidiaries, as of December 31, 2002, and the related consolidated statements of operations, changes in capital deficiency, and cash flows for each of the two years in the period ended December 31, 2002. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of The Finx Group, Inc and its subsidiaries as of December 31, 2002, and the consolidated results of their operations and their cash flows for each of the two years in the period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements; (1) the Company has a history of net losses for the two years ended December 31, 2002, (2) as of December 31, 2002 the Company has a working capital deficiency of \$4.4 million and a capital deficiency of \$3.8 million and (3) the Company has relied on continuing financial support from its controlling stockholder. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans regarding these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes to Consolidated Financial Statements
December 31, 2002 and 2001

1. Summary of Significant Accounting Policies

Organization

On June 6, 2000 The Finx Group, Inc. was organized as a Delaware corporation. As of June 30, 2000, Fingermatrix, Inc., our predecessor company was merged into The Finx Group, Inc. The Finx Group, Inc. has controlling interests in FMX Corp. which was incorporated in Delaware on June 12, 1996, Secured Portal Systems, Inc., which was incorporated in Delaware on August 11, 1999, and Granite Technologies Acquisition Corp., which was incorporated in Delaware on May 15, 2001. Throughout this document The Finx Group, Inc. and its subsidiaries may be collectively referred to as "The Finx Group", the "Company" or the "Registrant".

Nature of Operations

In September 2002, the Company's Board of Directors approved a plan to focus the Company's business exclusively on its security systems business and on October 18, 2002 the Company disposed of all non security system business segments. The Company's primary source of future revenues, if any, is expected to be generated under its exclusive license agreement (the "Georal License") with GIL Security Systems, Inc. ("GIL"). GIL is a subsidiary of Georal International, Ltd. ("Georal") and holds all world-wide rights related to the intellectual property related to the GIL security systems, including trademarks, patents and technology, as licensed to it by Alan J. Risi, the controlling owner of both GIL and Georal. GIL is engaged in the manufacture and sale of security entrance systems for use as a security device by a variety of customers at airports, federal buildings, court houses, embassies, correctional facilities, schools, governmental operations, department stores and other retail outlets (the "Georal Security Products"). The Georal License gives us distribution rights for the sale of all of the Georal Security Products, including all models of the GIL-2001 security door, to specified categories of customers. The Company may market and distribute the Georal Security Products to both those customers for which it has exclusive distribution rights and to others as to which it has non-exclusive rights.

On December 13, 2002 the Company entered into a memorandum of understanding incorporating a reseller agreement with TRW, Inc., which has been acquired by Northrop Grumman Corp. and is now operating as Northrop Grumman Mission Systems. The agreement gives Northrop Grumman Mission Systems the right to market Georal Security Products to the Federal Government and other significant commercial opportunities. On March 26, 2003, the Company entered into a distribution and marketing agreement with Lockheed Martin. The agreement gives Lockheed Martin worldwide rights to market the Georal Security Products. In April 2003, the Company entered into reciprocal marketing agreements with Advanced Biometric Security, Inc. ("ABS") which provide both the Company and ABS with non-exclusive marketing rights for each others security product lines. ABS provides enterprise software and services related to identity management and the security of physical and logical assets. Many of the customers to whom the Company will seek to market the Georal Security Systems will be domestic and foreign government purchasers as well as commercial users. On December 11, 2001, the GIL-2001 security door received certification from the U.S. State Department necessary for its possible procurement for use in U.S. embassies, consulates and

Edgar Filing: FINX GROUP INC - Form 10KSB/A

other governmental installations both in the U.S. and abroad. In October 2002, Georal received broad patent approval for its security entrance system from the United States Patent Trademark Office (Patent 6,472,984). The patent received by Georal covers the secured portal which is the subject of the Georal License.

The Company also sells from its sale of software programs for device management and smart card applications ("Secured Card Solutions"). The Company has provided Virginia Commonwealth University with two of its Secured Card Solutions - the "Secured Recreational Sports Solution" and "The Secured Card Solution". The Secured Recreational Sports Solution, which currently serves Virginia Commonwealth University ("VCU") from three locations offering a variety of fitness, aquatics and intramurals. The activities are offered to all students, faculty, and university and hospital employees. The Secured Recreational Sports Solution's database is integrated with the VCU card database for single university identification. The Secured Recreational Sports Solution handles all check-in of members, locker assignment and equipment check-in and check-out. It also keeps track of member billing and payroll deduction. Further, it handles member suspensions and automatic emailing of special events. The Secured Sports Recreation Solution application is written using the new Microsoft.NET architecture. The Company has also entered into a services and support agreement with Florida International University ("FIU") for the installation, support and use of our Secured Recreational Sports Solution. During 2002, the Company generated revenues of \$6,000 from its sales of Secured Card Solutions.

Basis of Presentation

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. However, the Company has a history of net losses for the two years ended December 31, 2002 and as of December 31, 2002 has a working capital deficiency of \$4.445 million and a capital deficiency of \$3.837 million. During 2002 and 2001 the Company has relied on financial support from its controlling stockholder, Trinity Group-I, Inc. ("Trinity") and other related parties and since September 25, 2001 has compensated its employees and key consultants with stock options of which some were registered on Form S-8. Management is currently seeking additional financing; however no assurances can be made that such financing will be consummated. The continuation of the Company as a going concern is dependent upon its ability to obtain financing, and to use the proceeds from any such financing to increase its business to achieve profitable operations. The accompanying consolidated financial statements do not include any adjustments that would result should the Company be unable to continue as a going concern.

Principles of Consolidation

The consolidated financial statements include the accounts of The Finx Group, Inc. and its subsidiaries for which it has direct voting control or effective control. All material intercompany balances and transactions are eliminated in consolidation.

Use of Estimates

In preparing the consolidated financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues

Edgar Filing: FINX GROUP INC - Form 10KSB/A

and expenses during the reporting period. Actual results could differ from those estimates. Some of the more significant estimates include the carrying value of the Company's exclusive license, and patents and their amortization.

Cash

The Company considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents. The Company has no such investment at December 31, 2002.

Furniture, Fixtures and Equipment

Furniture, fixtures and equipment are recorded at cost. Depreciation is provided on the straight-line basis over the useful lives of the assets, which range from three to seven years. Improvements that extend the useful lives of the assets are capitalized while costs of repairs and maintenance are charged to expense as incurred. As of December 31, 2002, the Company's furniture, fixtures and equipment, having a cost basis of \$90,000 are fully depreciated. Depreciation expense during 2002 and 2001 was \$22,000 and \$24,000, respectively.

Patents

Patents are carried at cost less accumulated amortization, which is calculated on a straight-line basis over the assets estimated useful life of 17 years. The Company's patent costs are related to a new broad based electronic optical fingerprint patent, issued in 2001 and amortization expense related such patents was \$612 and \$459 for 2002 and 2001, respectively.

Impairment

Certain long-term assets of the Company are reviewed when changes in circumstances require as to whether their carrying value has become impaired, pursuant to guidance established in Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." Management considers assets to be impaired if the carrying value exceeds the future projected cash flows from related operations [undiscounted and without interest charges]. If impairment is deemed to exist, the asset will be written down to fair value. Management also reevaluates the period of amortization to determine whether subsequent events and circumstances warrant revised estimates of useful lives. As of December 31, 2002, management expects those assets related to its continuing operations to be fully recoverable.

F-10

Revenue Recognition

The Company recognizes revenues when a product is shipped, and from services when performed.

Income Taxes

The Company accounts for income taxes using the asset and liability approach. The measurement of deferred tax assets is reduced, if necessary, by the amount of any tax benefits that, based on available evidence, management does not expect to be realized.

Basic and Diluted Loss Per Share

Basic and diluted per share results for all periods presented were computed based on the net earnings or loss for the respective periods. The

Edgar Filing: FINX GROUP INC - Form 10KSB/A

weighted average number of common shares outstanding during the period was used in the calculation of basic earnings (loss) per share. In accordance with FAS 128, "Earnings Per Share," the weighted average number of common shares used in the calculation of diluted per share amounts is adjusted for the dilutive effects of stock options based on the treasury stock method and the assumed conversion of convertible preferred stock only if an entity records earnings from continuing operations (i.e., before discontinued operations), as such adjustments would otherwise be anti-dilutive to earnings per share from continuing operations. As a result of the Company recording a loss from continuing operations, the average number of common shares used in the calculation of diluted loss per share have not been adjusted for the effects of 44,861,500 potential common shares from unexercised stock options and warrants and 427,513,510 potential common shares from unconverted preferred shares. Such warrants, options and shares of convertible preferred stock may dilute earnings per share in the future.

Fair Value of Financial Instruments

SFAS No. 107, "Disclosure About Fair value of Financial Instruments," requires certain disclosures regarding the fair value of financial instruments. In assessing the fair value of these financial instruments, the Company has used a variety of methods and assumptions, which were based on estimates of market considerations and risks existing at the time. All instruments, including accounts payable and accrued liabilities and amounts due to related parties are reflected at fair value in the financial statements because of the short term maturity of these instruments. The fair value of long-term liabilities also approximate their carrying value.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist of cash. The Company places its cash with high quality financial institutions and as of December 2002 does not have any deposits with financial institutions in excess of federally insured limits.

2. Exclusive License Agreement

On September 13, 1999, the Company obtained the Georal License which gives the Company distribution rights for the sale of Georal Security Products to certain categories of customers. The Georal Security Products covered by the Georal License includes all of GIL's products that existed on September 13, 1999 and all products developed during the term of the Georal License including all models of the GIL-2001 security door. The categories of customers covered by the Georal License includes the United States Treasury Department, the United States Central Intelligence Agency and all other United States Government intelligence agencies, the United States National Security Agency, the United States Defense Intelligence Agency, the United States Department of the Navy, the United States Air Force, the United States Army, all United States Federal Courts and all United States Embassies, all department stores and retail stores located in the United States (including all retail stores located in foreign countries which are part of a retail store chain which is based in the United States), the Government of Israel, NCR Corp. and Sun Microsystems, Inc. The Georal License commenced on September 1, 1999 and had an initial expiration date of August 31, 2004 which was later extended to August 31, 2009 and on October 16, 2002 was further extended to August 31, 2014.

As an inducement to obtain the Georal License and in exchange for 1,000,000 common stock shares of GIL, the Company issued to Alan J. Risi preferred shares which were exchanged for 1,049,874 shares of the Company's Common Stock in July of 2002. On the initial date that the Georal License was entered into, the GIL 2001 security door had not been certified by the U.S.

Edgar Filing: FINX GROUP INC - Form 10KSB/A

State Department and no sales channel pipeline had been developed and the underlying costs of the shares issued were not capitalized.

F-11

On December 11, 2001, the GIL 2001 security door received certification by the U.S. State Department. On February 21, 2002, the Georal License was amended whereby the categories of customers was expanded to include all financial institutions around the world and whereby the Company received a right of first refusal to be the exclusive distributor for sales to any governmental body in the world which is not currently included in the Georal License as a protected customer. As consideration for the amendment entered into on February 21, 2002, the Company issued to Alan Risi 40,000 shares of a newly created Series D 2% Convertible Preferred Stock (the "Series D Preferred Stock") that is convertible into 4,000,000 million shares of the Company's Common Stock. On May 16, 2002, the Georal License for the Georal security systems was further amended whereby the exclusive distribution agreement was expanded to give the Company exclusive world wide sales and marketing rights, for the term of the agreement extending to all casinos, malls, stadiums, office buildings and high rises. As consideration for the amendment entered into on May 16, 2002, the Company issued to Alan Risi 60,000 shares of its Series C 2% Convertible Preferred Stock (the "Series C Preferred Stock") which are convertible into 6,000,000 shares of the Company's Common Stock. On September 9, 2002, the Georal License was expanded to include World Wide rights to all Airports, Airport Authorities, Schools and Education Centers. As consideration for the amendment entered into on September 9, 2002, the Company issued to Alan Risi 100,000 shares of its Series C Preferred Stock which are convertible into 10,000,000 shares of the Company's Common Stock. On October 16, 2002, the Company issued to Alan Risi 250,000 shares of its Series C Preferred Stock for an amendment to the Georal License which provided the Company with the following: (i) the right to receive forty percent of all maintenance revenues generated from service contracts obtained from the Company's protected customer base; (ii) the right to share with Georal, any leasing revenues generated from leasing contracts related to the GIL-2001 security door; (iii) the right to renegotiate the discount received by the Company from its licensor at such time as the gross sales generated under the licensing agreement reaches \$5 million; and (iv) extended the term of the agreement an additional five years, to September 18, 2014. Using the Black-Scholes option valuation formula, the convertible preferred stock was valued at \$2.98 million, the amount included in other assets as "Exclusive License Agreement". Starting in 2002, the Georal License is being amortized on the straight-line method over the remaining life of the exclusive license and during 2002 such amortization expense was \$108,000 (See Note 6).

3. Executive Debt Deferrals

Effective September 30, 2002, Lewis S. Schiller, the Company's Chief Executive Officer and Chairman of the Board, agreed to defer payment of his salary until January 1, 2004, payment of accrued interest on notes payable to Trinity, which is wholly owned by him until January 1, 2004 and payment of accrued dividends on preferred stock held by Trinity him until January 1, 2004. Such amounts are presented as long-term liabilities as of December 31, 2002.

4 Notes Payable, Related Party

On April 28, 1999, Trinity acquired voting control of the Company and since that date has been the Company's only significant source of funding. Trinity is owned by Lewis S. Schiller, The Finx Group's Chief Executive Officer and Chairman of the Board. Other related parties who have advanced funds to the Company are Lewis S. Schiller, Grazyna B. Wnuk, The Finx Group's Vice President and Board Secretary, Universal International, Inc., a company owned by Grazyna

Edgar Filing: FINX GROUP INC - Form 10KSB/A

B. Wnuk, E. Gerald Kay, a former director, and Carol Schiller, the wife of Lewis S. Schiller.

As of May 7, 2001, Trinity had advanced the Company approximately \$3.7 million in order to fund its operations. On May 7, 2001, Trinity exchanged \$1.5 million of such related party debt for 7,500,000 shares of Common Stock, representing \$0.20 per share, the fair market value of the Common Stock on May 7, 2001 and exchanged an additional \$2 million of related party debt into 20,000 shares of Series B 8% Voting Redeemable Convertible Preferred Stock (the "Series B Preferred Stock") whereby each share of Series B Preferred Stock represents \$100 of exchanged related party debt and each share of Series B Preferred Stock is convertible into shares of Common Stock as calculated by dividing \$100 by the lowest price that the Company's shares of Common Stock have traded during the period that the Series B Preferred Stock has been outstanding.

On July 13, 2001, Carol Schiller agreed to exchange \$100,000 of related party debt for 1,000,000 shares of Common Stock at the rate of \$.50 per share, the fair value of the shares on the date of the exchange and on October 31, 2002, she agreed to exchange \$400,000 of related party debt owed to her into 10,000,000 shares of Common Stock at the rate of \$.04 per share, the fair value of the Common Stock on the date of the exchange.

Total unpaid and outstanding advances from such related parties as of December 31, 2002 aggregated \$1.098 million. Interest accrued on all such notes is calculated at 9% (which is the weighted average interest rate at the balance sheet date) and as of December 31, 2002 \$682,000 of such interest remains unpaid. Effective September

F-12

30, 2002, Trinity agreed to defer payment of \$550,000 of such accrued interest until January 1, 2004. Interest expense on related party notes was \$119,000 and \$274,000 for 2002 and 2001, respectively.

The Company measures compensation cost for stock-based compensation plans to employees using the intrinsic value method of accounting as prescribed in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. The Company has adopted those provisions of FAS 123, "Accounting for Stock-Based Compensation" and FAS 148, "Accounting for Stock-Based Compensation - Transition and Disclosure," which require disclosure of the pro forma effects on net earnings and earnings per share as if compensation cost had been recognized based upon the fair value-based method at the date of grant for options awarded.

For purposes of calculating the pro forma expense under SFAS No. 123, the fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model. The following assumptions were used during 2002 to estimate the fair value of options granted:

	2002	2001
	----	----
Dividend yield	0.0%	0.0%
Expected volatility	144.34%	144.34%
Risk-free interest rate	6.0%	6.0%
Expected life of options	3 years	3 years

Had compensation cost for the Company's stock options issued to employees been determined consistent with the fair value method outlined in SFAS No. 123, the impact on the Company's net income and earnings per common share would have been as follows:

Edgar Filing: FINX GROUP INC - Form 10KSB/A

	2002
Net loss:	
As reported	\$ (4,307,000)
Deduct: Amount by which stock-based employee compensation as determined under fair value based method for all awards exceeds the compensation as determined under the intrinsic value method	(1,287,000)
Pro forma under SFAS No. 123	\$ (5,594,000)
Basic and diluted net loss per common share:	
As reported	(\$0.07)
Pro forma under SFAS No. 123	(\$0.09)

As of the date of the Bizchase Stock Purchase Agreement, Bizchase, Inc. had an excess of liabilities over assets of approximately \$2.3 million, including the \$2 million owed to the Company, resulting in remaining liabilities of approximately \$296,000. On October 18, 2002, pursuant to the terms of a stock purchase agreement among The Finx Group, Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc. and Trinity Group Acquisition Corp. dated as of September 30, 2002 (the "Sequential and S-Tech Stock Purchase Agreement"), Trinity Group Acquisition Corp. agreed to purchase 100% of the issued and outstanding capital of Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc. from The Finx Group for one dollar (\$1) and The Finx Group agreed to cancel approximately \$2.3 million of principal and interest owed by Sequential Electronic Systems, Inc. and S-Tech, Inc. to The Finx Group. Defense Manufacturing Systems, Inc. was wholly owned by The Finx Group but had no operating activities since its organization. Trinity Group Acquisition Corp. is wholly owned by Lewis S. Schiller, and the Sequential and

Edgar Filing: FINX GROUP INC - Form 10KSB/A

S-Tech Stock Purchase Agreement was not consummated at arms-length. However, we believe that because the transaction will reduce the Company's liabilities by approximately \$1.8 million that such transaction is in the Company's best interests. As a result of the disposal of Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc., the net reduction in the Company's liabilities approximated \$1.8 million and the gain on disposal which approximated \$458,000 was recorded as an addition to paid-in capital because the transaction was consummated with the controlling atockholder of the Company.

9. Income Taxes

The Company, as of December 31, 2002, has available approximately \$54.3 million of net operating loss carry forwards to reduce future Federal and state income taxes, representing a net deferred tax asset of approximately \$19 million. Based upon the level of historical tax losses, the Company has established a valuation allowance against the entire net deferred tax asset. This represents a decrease in the valuation allowance of approximately \$3.3 million from December 31, 2001. In addition, the Company has available investment tax credit and research tax credit carry forwards in excess of \$500,000. However, it is not currently probable that the related deferred tax assets will be realized by reducing future taxable income during the carry forward period and as such, a valuation allowance has been computed to offset in its entirety the deferred tax asset attributable to the net operating loss and tax credits. The net operating loss carry forwards expire as follows:

F-18

Year of expiration	Net operating loss carry forward
2003	\$5,163,000
2004	5,616,000
2005	2,207,000
2006	3,144,000
2007	3,023,000
2008	2,044,000
2009	1,851,000
2010	2,050,000
2011	3,171,000
2012	194,000
2018	1,080,000
2019	1,319,000
2020	8,261,000
2021	11,176,000
2022	4,177,000
	\$54,319,000

Pursuant to section 382 of the Internal Revenue Code, the annual utilization of these loss carry forwards is limited as a result of the changes in stock ownership, which have occurred during 2002 and 2001, and may be further limited if substantial changes in the Company ownership were to occur.

10. Commitments and Contingencies

Operating Leases

As of December 31, 2002, the Company does not have any operating leases

Indemnifications

Pursuant to the terms of the stock purchase agreement to sell Sequential Electronic Systems, Inc. and S-Tech, Inc., the Company agreed to indemnify Lewis S. Schiller for any claims made against him regarding \$1.1 million of delinquent payroll taxes owed by Sequential Electronic Systems, Inc. and S-Tech, Inc. at the time of their disposal and as of December 31, 2002, the Company has reserved \$550,000 against such potential claims.

Legal Proceedings

Although the Company is a party to certain legal proceedings that have occurred in the ordinary course of business, it does not believe such

Edgar Filing: FINX GROUP INC - Form 10KSB/A

proceedings to be of a material nature with the exception of the following item. On or about April 8, 2002, a complaint styled "Law Offices of Jerold K. Levien, against The Finx Group, Inc. f/k/a Fingermatrix, Inc., The Trinity Group-I, Inc." was filed in the Supreme Court of the State of New York County of New York. The nature of the action is for breach of contract with regard to the non-payment of legal invoices for services purported to have been rendered by the plaintiff, and the relief sought is \$334,595, such amount having been accrued on our books. The Company believes it has meritorious defenses to the complaint and intends to vigorously contest this complaint. Due to uncertainties in the legal process, it is at least reasonably possible that the Company's opinion of the outcome will change in the near term and there exists the possibility that there could be a material adverse impact on its operations.

11. Discontinued Operations

On October 18, 2002, the Company consummated a plan to dispose of certain of its subsidiaries. In September 2002, the Board of Directors of the Company approved a plan whereby it was determined to be in the best interests of the Company to focus all of its resources on the Security Systems business segment, whereby all business segments other than the Security Systems business segment would be disposed. The decision to dispose of all businesses unrelated to the Security Systems segment was based on management's evaluation of its capability to support multiple and diverse business segments. Management's evaluation was confirmed in a business assessment report received from vFinance Investments, Inc. ("vFinance"), who is performing management and investment banking services to the Company. The business assessment report received from vFinance, among other things, recommended that the Company streamline its operating activities to focus on its Security Systems business segment. The Company's management investigated various possible venues to undertake the disposal of the non Security System segments which include Sequential Electronic Systems, Inc. ("Sequential"), S-Tech, Inc. ("S-Tech"), Granite Technologies, Inc. ("Granite Technologies"), Shopclue.com, Inc. ("Shopclue"), Bizchase, Inc. ("Bizchase") and Starnet365.com, Inc. ("Starnet").

The Company engaged a consultant, pursuant to a consulting agreement, to assist in developing an exit strategy for the disposal of Granite Technologies, Shopclue, Bizchase and Starnet for which the consultant received an option to purchase 1,000,000 shares of its Common Stock at an exercise price of \$.04 per share, the fair market value on the date of grant. Through the efforts of the consultant, the Company found a purchaser who agreed to acquire Granite Technologies, Shopclue, Bizchase and Starnet for nominal consideration subject to the forgiveness of the amounts owed by such subsidiaries to the Company and the retention by the Company of certain rights to the assets of Granite Technologies. As a result, the Company entered into the following purchase agreements with Thomas Banks Ltd. ("Thomas Banks").

F-20

Granite Technologies

Granite Technologies Acquisition Corp. ("Granite Acquisition") is wholly owned by The Company and Granite Technologies is wholly owned by Granite Acquisition. As of the date of the Granite Stock Purchase Agreement, Granite Technologies had an excess of liabilities over assets of approximately \$1.45 million, including \$435,000 owed to the Company. The Company believes that it may be required pay approximately \$200,000 of such remaining liabilities which represent delinquent payroll taxes. As a result of the disposal of Granite Technologies, the net reduction in the liabilities of the Company and the corresponding gain on disposal approximated \$815,000 and the gain on disposal approximated \$815,000.

Starnet

Pursuant to the terms of a stock purchase agreement among the Company, Starnet, Lewis S. Schiller, the Company's Chief Executive Officer and Chairman of the Board, Grazyna B. Wnuk, the Company's Vice-President and Secretary, members of Lewis S. Schiller's immediate family (collectively, the "Starnet Sellers") and Thomas Banks dated as of September 30, 2002, (the "Starnet Stock Purchase Agreement"), Thomas Banks agreed to purchase 98.05% of the issued and outstanding capital stock of Starnet from the Starnet Sellers for one dollar (\$1) and the Company agreed to cancel approximately \$1.3 million of principal and interest owed by Starnet to the Company. As of the date of the Starnet Stock Purchase Agreement, Starnet had an excess of liabilities over assets of approximately \$1.7 million, including the \$1.3 million owed to the Company, resulting in remaining liabilities of approximately \$444,000. The Company believes that it may be required to pay approximately \$132,000 of such remaining liabilities based on the existence of corporate guarantees previously made on such amounts by the Company. As a result of the disposal of Starnet, the net reduction in the liabilities of the Company approximated \$268,000 and the gain on disposal approximated \$312,000.

Shopclue

Pursuant to the terms of a stock purchase agreement among the Company, Shopclue, Lewis S. Schiller, the Company's Chief Executive Officer and Chairman of the Board, Grazyna B. Wnuk, the Company's Vice-President and Secretary, members of Lewis S. Schiller's immediate family (collectively, the "Shopclue Sellers") and Thomas Banks dated as of September 30, 2002, (the "Shopclue Stock Purchase Agreement"), Thomas Banks agreed to purchase 100% of the issued and outstanding capital stock of Shopclue from the Shopclue Sellers for one dollar (\$1) and the Company agreed to cancel approximately \$8,000 of principal and interest owed by Shopclue to the Company. As of the date of the Shopclue Stock Purchase Agreement, Shopclue had an excess of liabilities over assets of approximately \$340,000, including the \$8,000 owed to the Company, resulting in remaining liabilities of approximately \$332,000. The Company believes that it may be required to pay approximately \$169,000 of such remaining liabilities which represent delinquent payroll taxes. As a result of the disposal of Shopclue, the net reduction in the liabilities of the Company and the corresponding gain on disposal approximated \$163,000.

Bizchase

Pursuant to the terms of a stock purchase agreement among the Company, Bizchase, Lewis S. Schiller, the Company's Chief Executive Officer and Chairman of the Board, Grazyna B. Wnuk, the Company's Vice-President and Secretary, members of Lewis S. Schiller's immediate family (collectively, the "Bizchase Sellers") and Thomas Banks dated as of September 30, 2002, (the "Bizchase Stock Purchase Agreement"), Thomas Banks agreed to purchase 100% of the issued and outstanding capital stock of Bizchase from the Bizchase Sellers for one dollar (\$1) and the Company agreed to cancel approximately \$2 million of principal and interest owed by Bizchase to the Company. As of the date of the Bizchase Stock Purchase Agreement, Bizchase had an excess of liabilities over assets of approximately \$2.3 million, including the \$2 million owed to the Company, resulting in remaining liabilities of approximately \$296,000. The Company believes that it may be required pay approximately \$136,000 of such remaining liabilities of which \$99,000 relates to delinquent payroll taxes and \$37,000 relates to corporate guarantees. As a result of the disposal of Bizchase, the net reduction in the liabilities of the Company and the corresponding gain on disposal approximated \$160,000.

Sequential and S-Tech

Pursuant to the terms of a stock purchase agreement among the Company, Sequential, S-Tech, Defense Manufacturing and Systems, Inc. ("Defense Manufacturing") and Trinity Group Acquisition Corp. ("Trinity Acquisition") dated as of September 30, 2002 (the "Sequential and S-Tech Stock Purchase Agreement"), Trinity Acquisition agreed to purchase 100% of the issued and outstanding capital of Sequential, S-Tech and Defense Manufacturing from the Company for one dollar (\$1) and the Company agreed to cancel approximately \$2.3 million of principal and interest owed by Sequential and S-Tech to the Company. Defense Manufacturing is wholly owned by the Company but has had no operating activities since its organization. Trinity Acquisition is wholly owned by Lewis S. Schiller, the Company's Chief Executive Officer and Chairman of the Board. As of the date of the Sequential and S-Tech Stock Purchase Agreement, Sequential and S-Tech had aggregate assets of \$1.2 million and aggregate liabilities of \$2.4 million, excluding the \$3.1 million owed to the Company. The aggregate liabilities include \$1.1 million of delinquent payroll taxes and the Company has agreed to indemnify Lewis S. Schiller for any claims made against him regarding such delinquent payroll taxes and in connection therewith have reserved \$550,000 of such payroll taxes against the gain on disposal of Sequential Electronic Systems, Inc. and S-Tech, Inc. The Trinity Group-I, Inc. is the Company's controlling shareholder and both The Trinity Group-I, Inc. and Trinity Acquisition are wholly owned by Lewis S. Schiller, and the Sequential and S-Tech Stock Purchase Agreement was not consummated at arms-length. However, the Company believes that because the transaction will reduce the Company's liabilities by approximately \$1.8 million that such transaction is in its best interests. As a result of the disposal of Sequential, S-Tech and Defense Manufacturing, the net reduction in the liabilities of the Company approximated \$1.8 million and the gain on disposal which approximated \$458,000 was recorded as an addition to paid-in capital because the transaction was consummated with the controlling stockholder of the Company.

The information regarding the Company's discontinued operations is summarized as follows:

12. New Authoritative Pronouncements

On April 30, 2002, the Financial Accounting Standards Board ("FASB") issued Statement No 145, Rescission of FASB Statement No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections. Statement 145 rescinds Statement 4, which required all gains and losses from extinguishment of debt to be aggregated and, if material, classified as an extraordinary item, net of related income tax effect. As a result, the criteria in Opinion 30 will now be used to classify those gains and losses. Statement 64 amended Statement 4, and is no longer necessary because Statement 4 has been rescinded. Statement 145 amends Statement 13 to require that certain lease modifications that have economic effects similar to sale-leaseback transactions be accounted for in the same manner as sale-leaseback transactions. This amendment is consistent with the FASB's goal of requiring similar accounting treatment for transactions that have similar economic effects. This Statement also makes technical corrections to existing pronouncements. While those corrections are not substantive in nature, in some instances they may change accounting practice.

In July 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" ("SFAS 146"), which addresses the recognition, measurement, and reporting of costs associated with exit or disposal activities, and supercedes Emerging Issues Task Force Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)" ("EITF 94-3"). The provisions of SFAS 146 are effective for exit or disposal activities that are initiated after December 31, 2002, with early application encouraged. The Company expects to adopt SFAS 146, effective January 1, 2003.

In October 2002, the FASB issued SFAS No. 147, "Acquisitions of Certain Financial Institutions" ("SFAS 147"). SFAS 147 provides guidance on the accounting for the acquisition of a financial institution. SFAS 147 applies to all financial institution acquisitions except those between two or more mutual enterprises.

In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure" ("SFAS 148"). SFAS 148 amends SFAS no. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"), to

Edgar Filing: FINX GROUP INC - Form 10KSB/A

provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS 148 amends the disclosure requirements of SFAS 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. SFAS 148 is effective for fiscal periods beginning after December 15, 2002.

F-23

In April 2003, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" ("SFAS 149"), which clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts and for hedging activities under FASB Statement No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS No. 149 is effective for contracts entered into or modified after June 30, 2003 and for hedging relationships designated after June 30, 2003.

The Company expects that the adoption of the new Statements will not have a significant impact on its financial statements.

13. Subsequent Events

On January 2, 2003, a warrant to purchase 5,000,000 shares of Common Stock for \$0.04 per share was issued to a consultant resulting in stock compensation expense of \$99,000. None of such warrants have been exercised as of May 8, 2003.

On January 17, 2003, options to purchase 17,604,168 shares of Common Stock for \$0.02 per share were granted and exercised resulting in stock compensation expense of \$366,000.

On March 17, 2003, Grazyna B. Wnuk accepted 9,006,976 shares of Common Stock in exchange for expenses she paid on behalf of the Company amounting to \$34,000, the approximate value of the shares issued.

On March 26, 2003, the Company entered into a distribution and marketing agreement with Lockheed Martin. The agreement gives Lockheed Martin worldwide rights to market the Georal Security Products and a right to purchase the products that they sell at an agreed upon discount from the sales price.

During April 2003, an aggregate of 2,000 shares of Series B Preferred Stock was converted by Trinity into 50,000,000 million shares of Common Stock.
