Presentation to Investors Charter Communications Operating, LLC July 2015 Filed by Charter Communications, Inc. Pursuant to Rule 425 under the Securities Act of 1933 and deemed filed pursuant to Rule 14a-12 under the Securities Act of 1934 Subject Company: Time Warner Cable Inc. Commission File No. 001-33335 The following is an investor presentation made available on Charter's website.

1 Cautionary Statement Regarding Forward-Looking Statements Certain statements in this communication regarding the proposed transaction between Charter Communications, Inc. (“Charter”) and Time Warner Cable Inc. (“Time Warner Cable”) and the proposed transaction regarding Charter’s acquisition of Bright House Networks, LLC (“Bright House”), including any statements regarding the expected timetable for completing the transactions, benefits and synergies of the transactions, future opportunities for the respective companies and products, and any other statements regarding Charter’s, Time Warner Cable’s and Bright House’s future expectations, beliefs, plans, objectives, financial conditions, assumptions or future events or performance that are not historical facts are “forward- looking” statements made within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements are often, but not always, made through the use of words or phrases such as “believe,” “expect,” “anticipate,” “should,” “planned,” “will,” “may,” “intend,” “estimated,” “aim,” “on track,” “target,” “opportunity,” “tentative,” “positioning,” “designed,” “create,” “predict,” “project,” “seek,” “would,” “could,” “continue,” “increases,” and “potential” and similar expressions. All such forward-looking statements involve estimates and assumptions that are subject to risks, uncertainties and

other factors that could cause actual results to differ materially from the results expressed in the statements. Among the key factors that could cause actual results to differ materially from those projected in the forward-looking statements are the following: the timing to consummate the proposed transactions; the risk that a condition to closing the proposed transactions may not be satisfied; the risk that a regulatory approval that may be required for the proposed transactions is not obtained or is obtained subject to conditions that are not anticipated; Charter's ability to achieve the synergies and value creation contemplated by the proposed transactions; Charter's ability to promptly, efficiently and effectively integrate acquired operations into its own operations; and the diversion of management time on transaction related issues. Additional information concerning these and other factors can be found in Charter's and Time Warner Cable's respective filings with the SEC, including Charter's and Time Warner Cable's most recent Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Charter and Time Warner Cable assume no obligation to update any forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof.

2 Important Information for Investors and Shareholders This communication does not constitute an offer to sell or the solicitation of an offer to buy any securities or a solicitation of any vote or approval. In connection with the proposed transaction between Time Warner Cable and Charter, on June 26, 2015, Charter's subsidiary, CCH I, LLC ("New Charter"), filed with the Securities and Exchange Commission ("SEC") a registration statement on Form S-4 that included a preliminary joint proxy statement of Charter and Time Warner Cable that also constitutes a prospectus of New Charter. After the registration statement is declared effective, Charter and Time Warner Cable will mail a definitive proxy statement/prospectus to stockholders of Charter and stockholders of Time Warner Cable. This material is not a substitute for the joint proxy statement/prospectus or registration statement or for any other document that Charter or Time Warner Cable may file with the SEC and send to Charter's and/or Time Warner Cable's stockholders in connection with the proposed transactions. INVESTORS AND SECURITY HOLDERS OF CHARTER AND TIME WARNER CABLE ARE URGED TO READ THE PROXY STATEMENT/PROSPECTUS AND OTHER DOCUMENTS FILED WITH THE SEC CAREFULLY AND IN THEIR ENTIRETY WHEN THEY BECOME AVAILABLE BECAUSE THEY WILL

30 Use of Non-GAAP Financial Metrics 3) 1) The Company uses certain measures that are not defined by Generally Accepted Accounting Principles ("GAAP") to evaluate various aspects of its business. Adjusted EBITDA, pro forma adjusted EBITDA, adjusted EBITDA less capital expenditures, and free cash flow are non-GAAP financial measures and should be considered in addition to, not as a substitute for, net income (loss) or cash flows from operating activities reported in accordance with GAAP. These terms, as defined by Charter, may not be comparable to similarly titled measures used by other companies. Adjusted EBITDA is reconciled to net income (loss) and free cash flow is reconciled to net cash flows from operating activities in the appendix of this presentation. Adjusted EBITDA is defined as net income (loss) plus net interest expense, income taxes, depreciation and amortization, stock compensation expense, loss on extinguishment of debt, (gain) loss on derivative instruments, and other operating expenses, such as equity in income of investees, merger and acquisition costs, special charges and (gain) loss on sale or retirement of assets. As such, it eliminates the significant non-cash depreciation and amortization expense that results from the capital-intensive nature of the Company's businesses as well as other non-cash or special items, and is unaffected by the Company's capital structure or investment activities.

Edgar Filing: TIME WARNER CABLE INC. - Form 425

However, this measure is limited in that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenues and the cash cost of financing. These costs are evaluated through other financial measures. Free cash flow is defined as net cash flows from operating activities, less purchases of property, plant and equipment and changes in accrued expenses related to capital expenditures. Management and the Company's Board use adjusted EBITDA and free cash flow to assess Charter's performance and its ability to service its debt, fund operations and make additional investments with internally generated funds. In addition, adjusted EBITDA generally correlates to the leverage ratio calculation under the Company's credit facilities or outstanding notes to determine compliance with the covenants contained in the credit facilities and notes (all such documents have been previously filed with the SEC). For the purpose of calculating compliance with leverage covenants, we use adjusted EBITDA, as presented, excluding certain expenses paid by our operating subsidiaries to other Charter entities. Our debt covenants refer to these expenses as management fees, which fees were in the amount of \$76 million and \$253 million for the three months ended March 31, 2015 and twelve months ended December 31, 2014, respectively. For a reconciliation of adjusted EBITDA to the most directly comparable GAAP financial measure, see slides 31 – 35.

31 3) 1) Pro Forma GAAP Reconciliations – FY 2014 1) Adjusted EBITDA is defined as net income (loss) plus net interest expense, income taxes, depreciation and amortization, stock compensation expense, (gain) loss on derivative instruments, and other operating expenses, such as equity in income of investees, merger and acquisitions costs, special charges and (gain) loss on sale or retirement of assets. As such, it eliminates the significant non-cash depreciation and amortization expense that results from the capital-intensive nature of our businesses as well as other non-cash or special items, and is unaffected by our capital structure or investment activities. 2) S-X Pro Forma Adjustments are (i) directly attributable to the Bright House transaction, (ii) factually supportable, and (iii) expected to have continuing impact on the combined results of pro forma Charter as permitted under regulation S-X. 38 Consumers will benefit from a broadband service that makes watching online video, gaming, etc., a great experience – including at peak times – for a great value • Charter’s slowest speed tier (60 Mbps downstream) is considerably faster and less expensive than TWC’s comparable tiers, with no data caps or usage-based pricing • Charter will bring these products and pricing to TWC and BHN customers, while embracing TWC’s and BHN’s rollouts of a 300 Mbps tier • Charter will continue to invest in interconnection to minimize likelihood of congestion • Regardless of Title II litigation, we have no plans to block, throttle or engage in paid prioritization because our customers demand an open Internet We will deliver superior customer care, adding U.S. jobs • Charter has added 7,000 new jobs since 2012, most of which have been in customer service fields • New Charter will bring TWC’s customer care jobs back from overseas, too, training new employees to provide superior service while adding jobs to the U.S. economy • New Charter will build on BHN’s reputation for quality customer service Regulatory Discussion

39 0 New Charter will increase facilities-based broadband competition • New Charter will expand its broadband offerings for consumers by investing significantly in out-of-home WiFi, building on what TWC and BHN have already accomplished • We will invest significantly in building out our optical network beyond our existing footprint to inject much needed competition in the commercial markets New Charter will not have market power in high speed broadband or video • Transaction does not reduce any competition in any market • The combined entities today are estimated to serve less than 30% of broadband customers receiving 25 Mbps or greater speeds nationwide • Similarly, New Charter will serve only about 17% of MVPD subscribers nationwide • Charter owns no interests in national programming • New Charter will have the largest cable presence in only 5 of the top 20 DMAs. The transaction does not change this metric, as TWC and BHN are already affiliated, and Charter isn't the largest operator in any of the top 20 DMAs. New Charter will be a strong competitor and a leader in developing open non-proprietary technical standards, prices and industry practices Regulatory Discussion
