PART I

ITEM 1.

FINANCIAL STATEMENTS

The unaudited financial statements of the Company for the periods covered by this report are included elsewhere in this report, beginning at page F/S-1. The unaudited financial statements have been prepared by the Company in accordance with generally accepted accounting principles for interim financial information with the instructions to Form 10-QSB and Item 310(b) of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of the Company's management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the nine month period ended September 30, 2001 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2001.

For further information refer to the financial statements and footnotes thereto in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2000 incorporated by reference herein.

ITEM 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cash decreased to \$493 for the current quarter compared to \$1,722 at the end of the last fiscal year and \$1,831 for the quarter ending September 30, 2000. Capital lease obligations declined from \$13,450 one year ago to \$8,919 in the current quarter because of lease payments made. During the quarter a royalty-work commitment for the Silver Strand mine was transferred from Trend Mining Co. to an affiliate, thus reducing any future potential problems with meeting the work commitments. Also, the Company acquired the Roughwater copper-gold-PGE property through an exchange of stock.

The Company currently leases the New Jersey mill and mine facilities to the largest shareholder. Should gold and silver prices rise from the current low levels, the Company may be able to resume financing activities. The Company would be able to end the lease arrangement with the current lessee and resume construction of the mineral processing plant, exploration, and mining activities. It is planned to meet cash requirements in the foreseeable future from royalty payments by the lessee and monthly payments due from the lessee of the CAMP project.

The company is involved in exploring for and developing gold, silver and base

Edgar Filing: NEW JERSEY MINING CO - Form 10-Q

metal ore resources in the Coeur d'Alene Mining District and nearby areas of northern Idaho. The Company has a portfolio of six mineral properties: the New Jersey mine, the Silver Strand mine, the Lost Eagle project, the CAMP project, the Wisconsin-Teddy project and the Roughwater project. The New Jersey mine and the Silver Strand mine are the Company's development stage properties while the other four properties are exploration stage properties. For a more complete description of the Company's properties refer to the Company's Annual Report on Form 10-KSB for the year ended December 31, 2000.

PART II

ITEM 1.

LEGAL PROCEEDINGS

The Company is not currently involved in any legal proceedings and is not aware of any pending or potential legal actions.

ITEM 2.

CHANGES IN SECURITIES

Neither the constituent instruments defining the rights of the registrant's security holders nor the rights evidenced by the registrant's outstanding common stock have been modified, limited or qualified.

ITEM 3.

DEFAULTS UPON SENIOR SECURITIES

The registrant has no outstanding senior securities.

ITEM 4.

SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of the registrant's security holders during the period covered by this report.

ITEM 5.

OTHER INFORMATION

None.

ITEM 6.

EXHIBITS AND REPORTS ON FORM 8-K

Exhibits
None

Reports on Form 8-K
No reports on Form 8-K were filed by the registrant during the period covered by this report.

NEW JERSEY MINING COMPANY

NOTES TO INTERIM FINANCIAL STATEMENTS - UNAUDITED

These unaudited financial statements have been prepared by the Company in accordance with generally accepted accounting principles for interim financial information with the instructions to Form 10-QSB and Item 310(b) of Regulation

Edgar Filing: NEW JERSEY MINING CO - Form 10-Q

S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of the Company's management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the nine month period ended September 30, 2001 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2001. For further information refer to the financials statements and footnotes thereto in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2000 incorporated by reference herein.

Note 1 - Form and Organization

New Jersey Mining Company (the company) is a corporation organized under the laws of the State of Idaho on July 18, 1996. The Company was dormant until December 31, 1996, when all of the assets and liabilities of the New Jersey Joint Venture (a partnership) were transferred to the Company in exchange for 10,000,000 shares of common stock. The New Jersey Joint Venture, a partnership, was formed in 1994 to develop the New Jersey mine.

Note 2 - Leases of Mining Claims

The Company has been assigned mining leases with Gold Run Gulch Mining Company and William Zanetti. The leases provide for the Company's exploration, development and mining of minerals on patented and unpatented claims through October 2008 and thereafter as long as mining operations are deemed continuous. The leases provide for production royalties of 5% of net sales of ores or concentrates. Additional production royalties of 1% to 5% are due if gold exceeds \$578 per troy ounce. Also, annual advance royalties totaling \$2,900 are required under the leases. The advance royalties, charged to expenses as incurred, are accumulated and will be credited against the production royalty obligations. The lesser may terminate the leases upon the Company's failure to perform under these terms of the leases. The Company may also terminate the leases at any time. Mine Systems Design, Inc., the majority shareholder of New Jersey Mining Company - 66.6%, has agreed to fulfill all mineral lease requirements necessary for mineral lease permits.
