Item 7.01 Regulation FD Disclosure**A. INTRODUCTION**

On December 6, 2004, Universal Compression Holdings, Inc. ("UCO") issued a press release announcing that it was negotiating a new \$650 million senior secured credit facility consisting of a five-year revolver and a seven-year term loan. On December 6, 2004, Wachovia Capital Markets, LLC and JP Morgan Securities Inc. (the "Joint Lead Arrangers") began distribution of a confidential information memorandum related to the new credit facility and dated December 2004 (the "confidential information memorandum"). UCO also announced that it intends to utilize the new credit facility to redeem the \$440 million of 8.875% BRL Notes, repay \$82 million of BRL term debt and \$50 million outstanding under its existing revolver, and utilize additional capacity for working capital needs and general corporate purposes.

The information contained in this Current Report on Form 8-K is neither an offer to sell nor a solicitation of an offer to buy any of the debt being issued under the new credit facility. The debt being issued under the new credit facility will not be registered under the Securities Act of 1933, as amended (the "Securities Act"), or applicable state securities laws and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act.

B. CERTAIN INFORMATION

The following sets forth certain information contained in the confidential information memorandum. Except as otherwise indicated in the supplemental information set forth below, or as the context may otherwise require, (i) the words "we", "our", "us", "Universal" and "the Company" refer to Universal Compression, Inc. and its subsidiaries, (ii) "Revolver" refers to the \$250 million senior secured revolving credit facility that is to be part of the Facilities, (iii) "Borrowers" refers to Universal, Universal Compression (Ontario) Ltd. and UCO, (iv) "BRL lease facility" refers to our lease facility pursuant to which we, as lessee, lease compression equipment from BRL Universal Equipment 2001 A, L.P., as lessor, (v) "Facilities" refers to the Revolver and the Term Loan, (vi) "ABS Facility" refers to our \$200 million asset-backed securitization lease facility with BRL Universal Compression Funding I 2002, L.P., (vii) "Term Loan" refers to the \$400 million senior secured term loan B that is to be part of the Facilities, and (viii) references to our fiscal years refer to the twelve month period ended March 31 of such years (for example, our fiscal 2004 is fiscal year ended March 31, 2004).

The following information is included in the confidential information memorandum:

1. Sources and Uses of Funds (\$ in millions):

5. Collateral Information:

The Company's extensive fleet of domestic compressors provides strong collateral coverage for this transaction. Additionally, lenders benefit from coverage provided by working capital assets and other PP&E, as well as the capital stock of both domestic and foreign subsidiaries. Based on book value of assets as of September 30, 2004, the collateral package provides coverage of over 1.4x the Term Loan and maximum Revolver usage of \$250 million. Based on projected Revolver usage of \$93.7 million at close, collateral coverage improves to approximately 1.9x. When using a 12.5% premium to book value to estimate fair market value, collateral coverage increases to over 1.6x the total commitment amount of \$650 million and approximately 2.1x the projected funding of \$493 million under the Facilities. New appraisals on the compression collateral are a condition precedent to the close of the Facilities. The chart below depicts the Company's collateral coverage of the Facilities (\$ in millions).

Balance Sheet (as of 9/30/2004)	Market Value U.S	Market Value Consolidated
Accounts Receivable, net (1)	\$ 60.1	\$ 93.1
Inventory, net	61.8	93.3
Working Capital Assets	121.9	186.6
Gas Compression equipment, net of ABS collateral (2)	838.3	1,044.8
Other PP&E, net of depreciation	75.7	92.6
Total Working Capital and Net PP&E	\$ 1,035.9	\$ 1,323.8
Maximum Revolver and Term Loan Usage	\$ 650.0	\$ 650.0
Asset Coverage of Total Commitment	1.6x	2.0x
Funded Portion of the Facilities	\$ 493.7	\$ 493.7
Asset Coverage of Funded Amount	2.1x	2.7x
Borrowing availability based on 1.25 coverage (3)	\$ 177.0	N/A

(1) A/R and Inventory are net of reserves. A/R excludes those receivables pledged to the ABS Facility.

(2) The ABS Facility is secured by domestic gas compressor assets only, using the historic 68% advance rate. Currently, the debt limit is temporarily set at 58% until the ABS Facility is refinanced in 2005, and is expected to return to the 68% level at that time.

(3) Based on the current market value of the compressor assets, Universal could fully fund the Revolver and add \$20 million in debt with no additional assets pledged and still maintain the 1.25x covenant.

6. Fleet Description at November 30, 2004:

As of November 30, 2004, the Company's fleet consisted of approximately 7,200 units and over 2.4 million of total horsepower, with an average of 337 horsepower per unit, as reflected in the following table:

Range of Horsepower per Unit	Number of Units	Aggregate Horsepower	% of Horsepower
0 - 99	2,369	176,800	7.3%
100 - 299	2,553	446,100	18.4%
300 - 599	962	369,000	15.2%
600 - 999	587	428,600	17.7%
1,000 and Over	727	1,005,200	41.4%
Total	7,198	2,425,700	100.0%

7. Spot Utilization Rate at November 30, 2004:

The spot utilization rate at November 30, 2004 was 89.7%.

8. Domestic Fleet Size at November 30, 2004:

As of November 30, 2004, the Company operated the second largest domestic fleet of compressors in terms of horsepower with approximately 6,500 units comprising approximately 1.9 million horsepower.

9. International Fleet Size at November 30, 2004:

The Company provides contract compression services internationally in Argentina, Australia, Brazil, Canada, Colombia, Indonesia, Mexico, Peru, Thailand and Venezuela. As of November 30, 2004, Universal had approximately 700 units comprising approximately 524,000 horsepower, in the aggregate, in these markets.

10. International Contract Compression Fleet by Geographic Area at November 30, 2004:

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 8-K

The amount of horsepower in our contract compression fleet at November 30, 2004 in Latin America, Canada and Asia Pacific was 339,000 horsepower, 122,000 horsepower and 63,000 horsepower, respectively.

11. Backlog:

The backlog as of December 2, 2004 was approximately \$74 million.

12. Canadian Acquisition:

On November 2, 2004, Universal purchased the contract compression fleet of Hanover Canada Corporation, a subsidiary of Hanover Compressor Company, for approximately \$57 million in cash. The acquisition added 83,000 horsepower.

The transaction is expected to generate annual revenue of \$15 million, generate annual EBITDA, as adjusted, of \$10 million and be accretive to EPS during the first year. The acquisition also adds scale to our existing Canadian contract compression fleet by tripling its horsepower and adding a significant number of larger horsepower units.

Edgar Filing: UNIVERSAL COMPRESSION HOLDINGS INC - Form 8-K

This transaction also has the potential to expand our existing customer base by introducing new and expanded customer relationships that can be carried over to our existing fabrication and aftermarket service operations.

As depicted in the table below, the acquisition significantly increased our presence in Canada.

	September 2004 (Pre-acquisition)	November 2004 (Post-acquisition)
Compressor Units	170	320
Horsepower	39,000	122,000
Utilization %	72%	73%

13. Reconciliation of EBITDA

EBITDA, as adjusted, is not a measure of financial performance under generally accepted accounting principles (GAAP) and should not be considered an alternative to operating income or net income as an indicator of our operating performance or to net cash provided by operating activities as a measure of our liquidity. Additionally, the EBITDA, as adjusted, computation used herein may not be comparable to other similarly titled measures of other companies. Management believes disclosure of EBITDA, as adjusted, a non-GAAP measure, provides useful information to investors because, when viewed with our GAAP results and accompanying reconciliations, it provides a more complete understanding of our performance than GAAP results alone. Management uses EBITDA, as adjusted, as a supplemental measure to review current period operating performance, a comparability measure, a performance measure for period to period comparisons and a valuation measure.
