Item 2.02. Disclosure of Results of Operations and Financial Condition.

On July 27, 2005, we issued a press release in which we announced our financial results for the three and six months ended June 30, 2005. The full text of the press release issued in connection with the announcement is furnished as Exhibit 99.1 to this Current Report on Form 8-K.

The Company reports its financial results in accordance with generally accepted accounting principles (GAAP). However, management believes that certain non-GAAP financial measures used in managing the Company s business may provide users of this financial information with additional meaningful comparisons between current results and prior reported results. Certain of the information set forth in the attached press release constitutes non-GAAP financial measures within the meaning of Regulation G adopted by the Securities and Exchange Commission. We have presented below a reconciliation of these measures to the most directly comparable GAAP financial measure. The presentation of this additional information is not meant to be considered in isolation or as a substitute for comparable amounts determined in accordance with generally accepted accounting principles in the United States.

These non-GAAP financial measures are discussed below.

1. Free Cash Flow is measured as GAAP net income, plus depreciation and amortization of intangible assets, less capital expenditures, all as reported in our consolidated statements of operations and/or cash flows. The following table reconciles Free Cash Flow to the most comparable GAAP measure, net income.
