**November 7, 2005 4 p.m.**

The Board of Directors decided to authorize the company to present to Banco Santander a new binding proposal for the purchase by Cemig, together with White Martins Gases Industriais Ltda., of 100% of the shares of Gás Brasileiro Distribuidora S.A. GBD.

COMPANHIA ENERGÉTICA DE MINAS GERAIS - CEMIG

Listed Company Taxpayer No. 17.155.730/0001-64

Extract from the minutes of the 348th meeting of the Board of Directors.

Date, time and place: Feb. 2, 2005, at 1:00 p.m., at the head offices, at Av. Barbacena, 1.200 18 floor, Belo Horizonte-MG.

Presiding officers: Chairman - Wilson Nélio Brumer / Secretary Anamaria Pugedo Frade Barros.

Summary of events: I- The Board approved: a) the proposal of the Member of the Board Alexandre Heringer Lisboa, for the members of the Board of Directors to authorize their Chairman to call an Extraordinary GSM to be held on February 18, 2005; and also, if the minimum compulsory quorum was not achieved, the Chairman would be authorized to proceed to the second call of shareholders in the legal period; and, b) the minutes of this meeting. II- The Board authorized: a) the signing of the amendments to the Contracts for the Setting up of the Aimorés, Funil, Porto Estrela, Queimado and Igarapava Hydroelectric Plant Consortia, with the companies comprising same, and with the express consent of Cemig GT, in accordance with Authorizing Resolution no. 407/2004 of the National Electric Power Agency (ANEEL), dealing with the assignment to Cemig GT of Cemig's rights and obligations resulting therefrom; b) the termination, as of December 31, 2004, of the Operating Agreement existing between Cemig and the companies forming the Guilman-Amorim Hydroelectric Plant consortium, comprising the following: 1- authorization for the signing of the Contracts for Use of Distribution and Transmission Systems, with the companies in the consortium, on the side of the loads, and of the Guilman-Amorim Hydroelectric Plant, according to the legislation in force, canceling for all purposes the Transaction Contract for Electric Power Transmission, signed between Cemig and the companies in the consortium; 2- in the event the National Electric Power Agency (ANEEL) does not give its opinion regarding the request contained in letter UHE-088/2004 or if it is contrary to the transfer to Cemig, via tariff, of the difference between the regulated tariff and the amount paid by same as provided in the Operative Agreement and the Transaction Contracts for Transmission, as from September 10, 2005, Cemig and the companies in the consortium shall submit the matter to a technical appraisal by experts, who shall issue their opinion as to whether there was any loss for Cemig in the period between April 8, 2004 and December 31, 2004. In relation to the period between April 8, 2003 and April 7, 2004, the parties agree to await ANEEL's position, this period not being the subject of the appraisal. The technical appraisal shall be carried out by three experts, one being appointed by the companies in the consortium, another by Cemig and the third, by the other two experts. Cemig and the companies in the consortium agree to accept the final decision reached by the experts; 3- in the event any reimbursement is owed by said companies to Cemig as the result of the appraisal, limited to the April 8, 2004 to December 31, 2004 period, payment shall be made within thirty days after same is concluded; 4- in the event the experts conclude that the difference in dispute is owed by the companies in the consortium and the latter have already effected reimbursement of the corresponding amount to Cemig, and if ANEEL later issues its opinion in favor

of the transfer requested, CEMIG undertakes to return to the companies in the consortium the amount paid within thirty days after ANEEL issues such opinion; 5- once the obligations described in above item are fulfilled, the parties shall give acquittance, by means of a specific document, for all obligations they had taken on, up to December 31, 2004, within the sphere of the Operative Agreement and the Transaction Contracts for Transmission, excepting only any difference in relation to power transportation and charges in the period between April 7, 2003 and December 31, 2004, in accordance with items 1, 2 and 3; 6- the Contracts for Use and Connection to the Transmission and Distribution Systems, on the side of the loads and the Guilman-Amorim Hydroelectric Plant, with effect from January 1, 2005, shall be formalized by the companies in the consortium, in accordance with the legislation in force. Cemig shall demand payment of the portion referring to charges (relating to self-produced energy) only of the grid system CCC (fuel consumption quotas), in the same manner as is done today, in accordance with SRT/ANEEL notice no. 082/2004. The parties agree that this procedure shall be maintained up to September 10, 2005, when same shall also be examined by the experts, with observance of item 2 above; 7- measures for the transfer of the Guilman-Amorim Hydroelectric Plant assets to the companies in the consortium shall be taken at the Electric Power Trading Chamber (CCEE). Cemig shall wait for the list of the necessary documentation to be sent by the companies in the consortium, to be duly sent on to the CCEE. The documentation relating to the modeling of loads of the consumer units of the companies in the consortium has already been sent; and, 8- the present O&M contract, signed between the Guilman-Amorim Hydroelectric Plant Consortium and Cemig, shall be maintained until the companies in the consortium decide, within the maximum period of six months starting on January 1, 2005, to sign a new contract with third parties; Cemig undertakes, for this period of time, to continue the operation and maintenance of said hydroelectric plant; and, c) the signing by Cemig of the Arbitration Convention of the Electric Power Trading Chamber (CCEE), which is intended to establish the procedures for the solution of any disagreements among CCEE Agents, by an Arbitration Chamber, as provided by Law 9307/1996 and Law 10848/2004. III- The Board granted remunerated annual leave to the Generation and Transmission Director, for the periods from April 25 to 30, 2005, from July 18 to 29, 2005 and from January 2 to 13, 2006; and to the Planning, Project and Construction Director for the periods from March 14 to 23, 2005, from May 30 to June 9, 2005 and from September 8 to 16, 2005. IV- The Board submitted the following proposals to the Extraordinary GSM: 1- to ratify the transfer, from Cemig to Cemig Geração e Transmissão S.A., of the debt referring to the two issues of debentures subscribed by the State of Minas Gerais, whose funds were invested in the construction of the Irapé Hydroelectric Plant; 2- to ratify the maintenance of the counter-guarantee offered by the State of Minas Gerais to the Federal Government for Cemig's debts under contracts with the KfW (finance for the Vale do Jequitinhonha Transmission Project) and the IBD (contract IBD 176 BR), and for the debt resulting from the restructuring of the foreign debt arising from the Debt Admission and Consolidation Contract signed under Senate Resolution no. 98/1992, transferred to Cemig Geração e Transmissão S.A. and to Cemig Distribuição S.A.; and, 3- to ratify the approval of the transfers which were the object of the Extraordinary GSM held on December 30, 2004, and whose individual amounts are equal to or higher than twenty times the minimum limit established by the by-laws for authorization by this Board. V- The matter regarding the auction referring to the Charrua-Nueva Temuco Transmission Line was

withdrawn from the agenda, the Chairman having informed that the Company intends to participate in the tender offer, together with Furnas and Alusa, for the award of the concession for the construction, operation and maintenance of said transmission line, which is being effected by the Economic Load Dispatch Center for the Central Grid System, in Chile. As a result, the matter shall again be submitted for discussion by this Board of Directors. VI- The Chairman declared: a) that, at a meeting held at the beginning of this morning, the Board of Directors of Cemig Geração e Transmissão S.A. authorized the inclusion of a clause providing for the reciprocal acquittance of pending commercial matters among the contracting parties, in the First Amendment to the Funil Hydroelectric Utilization Implementation Contract, to be signed between the Funil Consortium and the Funil Hydroelectric Utilization Consortium; the other decisions comprising CRCA-143/2004 remaining unchanged; and, b) that the Board of Directors, at the meeting held on December 13, 2004, had authorized the initiation of a Public Tender Administrative Process, as well as the signing of the respective contract, for group life insurance for active and retired employees and members of the Executive Committee, the Boards of Directors and the Statutory Audit Committees of the Companies belonging to the Cemig Group, for a twelve-month period that may be extended up to the maximum of sixty months; as a result of the deverticalization process and the allocation of employees in companies of the Cemig Group, the public tender will be carried out with distribution of annual costs, but without altering the value approved by this Board, among the companies Cemig, Cemig GT, Cemig D, Sá Carvalho S.A. and Rosal Energia S.A. VII- The Chairman; the Vice-Chairman; the Members of the Board Andréa Paula Fernandes, Antônio Luiz Barros de Salles, Carlos Augusto Leite Brandão, Haroldo Guimarães Brasil and José Augusto Pimentel Pessôa; Director Celso Ferreira, Superintendent Ayres Augusto Álvares da Silva Mascarenhas, Director's Assistant João Batista Zolini Carneiro and Manager Tarcísio Feichas Cabral, all commented on general matters and business of interest to the Company. Participants: Members of the Board Wilson Nélio Brumer, Djalma Bastos de Morais, Aécio Ferreira da Cunha, Alexandre Heringer Lisboa, Andréa Paula Fernandes, Antônio Luiz Barros Salles, Carlos Augusto Leite Brandão, Francelino Pereira dos Santos, Haroldo Guimarães Brasil, José Augusto Pimentel Pessôa, José Luiz Alquéres, Maria Estela Kubitschek Lopes, Nilo Barroso Neto and Evandro da Veiga Negrão de Lima; Marcus Eolo de Lamounier Bicalho, member of the Statutory Audit Committee; and Anamaria Pugedo Frade Barros, Secretary.

**COMPANHIA ENERGÉTICA DE MINAS GERAIS - CEMIG**

**CNPJ 17.155.730/0001-64**

**ANALYSIS OF CONSOLIDATED RESULTS FROM JANUARY TO SEPTEMBER 2005,**

**COMPARED TO JANUARY TO SEPTEMBER 2004**

**Belo Horizonte, Brazil, October 31, 2005** Companhia Energética de Minas Gerais CEMIG (BOV: CMIG4, CMIG3; NYSE: CIG and LATIBEX: XCMIG), the leading electricity concessionaire in Brazil and its subsidiaries ( CEMIG Companies ), today announced third-quarter 2005 results, with net income of R\$ 1,487 million in the period from January to September 2005, compared to net income of R\$ 935 million from January to September 2004, or R\$ 9.18 per lot of one thousand shares. In the third quarter of 2005, net income was R\$ 446 million, compared to R\$ 378 million in the third quarter of 2004, or R\$ 2.75 per lot of one thousand shares.

The Chairman of the Board of Directors, Dr. Wilson Nélio Brumer, said that the results for the quarter follow the trend of the last two years, of fast of growth in profitability as a result of the implementation of the Strategic Plan published last year. Also, we are in the final phase of negotiation of the new CRC contract, which will enable this contract to be securitized, and consequently we will distribute this extraordinary income as dividends to our stockholders. Also, by decision of Governor Aécio Neves, as a way of consolidating the Strategic Plan - which provides the bases that sustain the new CRC contract - we will propose to the General Meeting of Stockholders that the main targets should be included in the bylaws, principally those that refer to debt and financial performance.

The Chief Executive Officer, Dr. Djalma Bastos de Moraes, commented: finally we are concluding the negotiations with Eletrobrás on the funds necessary for continuation of the *Luz Para Todos* program, which will enable us to meet the targets for universalization of service in accordance with a timetable negotiated with ANEEL. Our results are the outcome of measures taken with the objective of serving the long-term interests of our stockholders.

The Chief Financial and Investor Relations Officer, Dr. Flávio Decat de Moura, added: We have successfully concluded the renegotiation of the debt that had maturities in 2005. The highlights of our negotiations with the creditor banks are the new tenors and the lower cost - which aim to satisfy the basic requirements of our Strategic Plan. We are now seeking to conclude the negotiations for acquisition of assets that will provide us with rapid growth in our profitability over the coming years.

**Income increased a substantial 59%.**

**EBITDA margin was R\$2,371 million.**

#### **EBITDA**

CEMIG's EBITDA for January to September 2005 was R\$ 2,371 million, compared to R\$ 1,704 million in the same period of the prior year, a 39% increase.

The 16% reduction of EBITDA in the third quarter of 2005 in relation to the second quarter was due to the 19% increase in operating expenses (R\$ 1,594 million in the third quarter of 2005 compared to R\$ 1,341 million in the second quarter of 2005), which was partially offset by the increase in net operating revenues of 6% (R\$ 2,131 million in the third quarter compared to R\$ 2,007 million in the second quarter).

EBITDA growth was largely due to the tariff adjustments in April 2004 and 2005, and to revenues from the deferred tariff adjustment registered in September 2005. The stronger performance in 2005 was reflected in the EBITDA margin, which rose from 33% at the end of the third quarter in 2004, to 37% in the same period of 2005.

**Gross electricity supply increased 3.4%.**

#### **Gross Electricity Supply**

Revenues from gross electricity supply were R\$ 6,698 million from January to September 2005, compared to R\$ 6,348 million from January to September 2004, a 6% increase.

This result was basically due to the:

Average tariff adjustment of 14.0% as of April 8, 2004 (full effect in the results of fiscal year 2005);

Average tariff adjustment of 23.88% as of April 8, 2005.

For purposes of comparison, it should be noted that as of January 2005, a large group of large industrial consumers became free consumers. Thus the charges that refer to distribution network use ( DNU ) by those free consumers are now charged separately, and registered in the line Revenues from Network Usage, with a third-quarter amount of R\$ 864 million. In 2004, the DNU values were part of total revenues with energy supply. If we add the DNU values to revenues from electricity supply, revenues grew 19%.

The amount of energy sold to final consumers grew 1.2%, or 28,197,612 MWh from January to September 2005, compared to 27,876,126 MWh in the same period of 2004. Among the main consumption classes, residential and commercial showed increases of 0.9% and 6.9%, respectively, while industrial fell 0.4%.

Total gross electricity supply increased 3.4% from January to September 2005 (29,177,354 MWh) in relation to the same period of 2004 (28,224,189 MWh).

Revenues from supply (including transactions with free energy on the CCEE/MAE)

Due to the higher volume of energy commercialized on the CCEE, revenues from energy supply increased R\$ 30 million from January to September 2004, to R\$ 160 million from January to September 2005.

**The 44.41 % retroactive readjustment positively impacted results.**

**Deferred Tariff Adjustment**

In April 2005, the result of CEMIG's periodic tariff revision was released retroactive to April 2003, indicating a right to a 44.41% recomposition in the tariffs.

The average adjustment applied to the tariffs on April 8, 2003, was 31.53%. To compensate CEMIG for the lower revenues billed from April 2003 to April 2005, ANEEL will include an additional percentage in the tariff readjustments through 2007.

The difference between the tariff adjustment to which CEMIG has a right and the tariff effectively charged consumers in 2005 was recognized as a regulatory asset of R\$ 591 million, offsetting the year's fiscal result.

The amount registered in 2004 is due to the provisory result from CEMIG's tariff revision, indicating a 37.86% readjustment in the tariffs. As a result, CEMIG recognized revenues of R\$ 329 million in the 2004 results.

**Revenues from DNU in 2005 were R\$ 864 million.**

*Revenues from network usage*

Revenues from network usage rose 528%, or R\$ 966 million (R\$ 1,149 million in 2005 compared to R\$ 183 million in 2004).

## Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

This increase was basically due to DNU revenues in Cemig Distribuição of R\$864 million, arising from the charges to free consumers for energy sold by Cemig Geração and Transmissão.

Also forming part of this revenue amount are revenues from use of installations that comprise CEMIG's basic transmission network by electricity generators and distributors that are part of Brazil's interconnected system, in conformance with amounts defined through ANEEL Resolution (R\$ 285 million in 2005, compared with R\$ 183 million in 2004).

**Fixed costs were the main items responsible for the higher operating costs.**

### **Operating Costs and Expenses (excluding financial result)**

Operating costs and expenses (excluding financial result) were R\$4,406 million from January to September 2005, compared to R\$ 3,380 million from January to September 2004, an increase of 15%.

This result is mainly due to the variation in fixed costs that were passed through to the tariff as energy purchased for resale, CDE, CCC and network usage charges.

As of October 26, 2001, the differences between the sum of fixed costs (also called CVA ) used as a reference in the calculation of the tariff adjustment and the expenses effectively made, are offset in subsequent tariff adjustments, and registered in Current Assets and Long-Term Assets as anticipated expenses.

The increase in operating costs and expenses (excluding financial results) in the third quarter of 2005 compared to the other three quarters is basically due to higher expenses for energy purchased for resale.

The amounts for personnel and energy purchased for resale in the last two quarters and in the third quarter of 2004 are detailed below.

**Personnel** Values in millions of *reais*

The increase in the third quarter of 2005 in relation to the third quarter of 2004 was due to the average adjustment of 7% in the salaries of CEMIG employees in November 2004, and to the lower expenses for personnel transferred to cost of works in progress.

	<b>302</b>	<b>451</b>	<b>366</b>

Expenses for electricity purchased for resale in the third quarter of 2005 increased 49% compared to the second quarter of 2005. In the second quarter of 2005, CEMIG adjusted the amount of energy purchased for resale that was transferred to the CVA account (retroactive to December 2004), which justifies the lower reported result.

The increase in amounts registered in relation to the initial contracts is due to the make-up of the CVA.

Below we comment on the main items affecting operating expenses.

**Operating expenses rose 15% and operating revenues grew 24%.**

The main variations in expenses are described below:

Personnel

Personnel expenses from January to September 2005 were R\$ 632 million, compared to R\$ 604 million from January to September 2004, a 5% increase. This result is mainly due to the average adjustment of 7% in the salaries of CEMIG employees in November 2004, offsetting the reduction in 2005 of expenses for personnel transferred to the cost of work in progress.

Electricity Purchased for Resale

The expense for energy purchased for resale was R\$ 1,188 million from January to September 2005, compared to R\$ 1,075 million from January to September 2004, an increase of 11%. This is a fixed cost, and the expense recognized in the results corresponds to the amount effectively passed through to the tariff.

Depreciation and Amortization

The depreciation and amortization expense did not vary significantly between the periods; R\$ 444 million from January to September 2005, compared to R\$ 435 million from January to September 2004, a variation of 2% due mainly to the coming on line of new networks and distribution lines, and of the Queimado plant.

Post-Employment Obligations

Post-Employment Obligation expenses were R\$ 115 million from January to September 2005, compared to R\$ 80 million from January to September 2004, an increase of 44%. These expenses essentially represent the interest on CEMIG's actuarial obligations, net of income expected from the plan assets, which were estimated by an outside actuary. The change on December 31, 2004 of the discount rate of future obligations, of 8% to 6%, resulted in an increase in the present value of actuarial obligations, which justifies the increase in expenses in 2005.

Operating Provisions

Operating provisions were R\$ 116 million from January to September 2005, compared to R\$ 90 million from January to September 2004, an increase of 29%. This increase in the provisions is mainly due to the following:

Reversal of the provisions for worker lawsuits in 2005 in the amount of R\$ 5 million, compared to a provision of R\$ 15 million in 2004.

Provision for legal contingencies – civil suits in 2005 in the amount of R\$ 58 million, compared to a R\$ 1 million provision in 2004.

Fuel Consumption Account – CCC

The CCC expense was R\$ 305 million from January to September 2005, compared to R\$ 219 million from January to September 2004, an increase of 39%. It is related to the operating costs of thermal plants on Brazil's interconnected and isolated systems, and is doled out among the electricity concessionaires by ANEEL resolution. This is a fixed cost, and the expense recognized in the results corresponds to the amount effectively passed through to the tariff.

Charges for Transmission Network Use

The expense for charges for transmission network use was R\$ 556 million from January to September 2005, compared to R\$ 339 million from January to September 2004, a variation of 39%. This expense refers to the charges due by electricity generation and distribution agents for use of the installations and components of the basic network as defined by ANEEL resolution. This is a fixed cost, and the expense recognized in the results corresponds to the amount effectively passed through to the tariff.

Gas Purchased for Resale

## Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

The cost for gas purchased for resale was R\$ 116 million from January to September 2005, compared to R\$ 216 million from January to September 2004, a 46% decrease. This result is basically due to alteration in GASMIG's consolidation criteria. Due to the sale of 40% of its capital to Petrobras and signature of the shareholder agreement, CEMIG's 55% share of GASMIG was consolidated proportionally.

Energy Development Account - CDE

The CDE expense was R\$ 220 million from January to September 2005, compared to R\$ 165 million from January to September 2004, a 33% increase. Payments are defined through an ANEEL resolution. This is a fixed cost, and the expense recognized in the results corresponds to the amount effectively passed through to the tariff.

Other Operating Expenses

The other operating expenses were R\$ 163 million from January to September 2005, compared to R\$ 134 million from January to September 2004, a 22% increase. This increase was mainly due to the amount of R\$ 26 million registered in the third quarter that referred to the Railway Dominion Tax for 2005.

**Net financial result in the period was an expense of R\$ 20 million.**

**The 16.3% devaluation of the dollar against the *real* positively impacted the financial result.**

**We had an exchange rate gain of R\$ 187 million.**

**Financial Revenues (Expenses)**

The financial result from January to September 2005 was a net financial expense of R\$ 20 million, compared to a net financial expense of R\$ 148 million from January to September of 2004. The main factors that impacted the financial result are the following:

Monetarily updated revenues and interest on accounts receivable from the state of Minas Gerais, net of the loss provision, in the amount of R\$ 128 million from January to September 2005, compared to R\$ 196 million from January to September 2004, a 35% reduction. This reduction is due to the lower variation in the IGP-DI, the contract's indexer, (0.2% from January to September 2005 and 10.1% in the same period of 2004).

Revenues with monetary variation and interest on the Deferred Tariff Adjustment in the amount of R\$ 186 million, compared to R\$ 62 million from January to September 2004. This result is due to the new tariff revision values of Cemig Distribuição.

Increase of loan and financing costs in the country due to the criteria of rolling over the Company's debt, substituting the various debt contracts in foreign currency for domestic currency as of the second half of 2004.

Fines and ICMS interest on electricity transport paid retroactively from 2000 to 2005, in the amount of R\$ 46 million.

Net gains from exchange rate variations from January to September of 2005, in the amount of R\$ 187 million, compared to net gains of R\$ 15 million from January to September 2004, basically because of loans and financing in foreign currency. From January to September 2005, the *real* appreciated 16.3% against the U.S. dollar, compared to a 1.1% appreciation in the same period of 2004.

Net loss from derivative instruments used in hedge operations from January to September 2005 of R\$ 158 million, compared to a net loss of R\$ 100 million from January to September 2004. This variation is due to the *real's* appreciation against the U.S. dollar mentioned in the previous item.

The Company recorded the destination of interest on own capital in substitution of the dividend of fiscal year 2005 as a financial expense of R\$ 283 million.

**We reported a fiscal gain of R\$ 96 million.**

#### **Income Tax and Social Contribution**

From January to September 2005, CEMIG reported expenses for Income Tax and Social Contribution of R\$ 665 million in relation to income of R\$ 1,868 before taxes of 36%. From January to September 2004, the Company reported expenses for Net Income and Social Contribution in the amount of R\$ 474 million in relation to income of R\$ 1,108 million, before taxes of 43%.

In 2005, CEMIG had a fiscal gain of R\$ 96 million due to the destination of interest on own capital to be paid to shareholders in substitution of the minimum obligatory dividend for fiscal year 2005.

**Investment Program**

Our investment program, laid out in the following table, seeks to expand CEMIG's generation park and its transmission and distribution networks to the limits permitted by the current regulation of the national electricity sector, as established in the Director Plan. In the coming years, we plan to make investments of more than R\$ 1 billion per year, in addition to the Light for Everyone Program (Luz para Todos), which forecasts an annual volume of approximately R\$ 700 million in 2005 and 2006.

**MATERIAL ANNOUNCEMENT**

Cemig (Companhia Energética de Minas Gerais), a company holding a public service concession and listed on the stock exchanges of São Paulo, New York and Madrid, in accordance with its commitment to implement the best corporate governance practices, and in accordance with CVM Instructions 358 of 3 January 2002 and 359 of 22 January 2002, hereby informs its stockholders and the public that the meeting of its Board of Directors held on December 7, 2005, decided as follows:

1. To sign the Fourth Amendment to the Contract to Assign the Outstanding Credit Rights Balance on the CRC ( Results Compensation ) Account ( the CRC Contract ), between Cemig and the state of Minas Gerais, in accordance with the company Strategic Plan for the years 2005 /2035.
2. To authorize: (i) the assignment, by Cemig, to the Receivables Investment Fund (FIDC) being structured by Banco ITAU BBA ( the Fund ), of the credits made up of the installments owed by the State of Minas Gerais under the CRC Contract, for an amount to be established by a valuation opinion approved by the auditor contracted by the Fund, such assignment being subject to the agreement of the State of Minas Gerais; and also (ii) subscription by Cemig of the total of the subordinated units of the Fund, for the amount of the difference between the value of the credits and the value of the total of the senior units.
3. To declare extraordinary dividends, in the amount of R\$ 897 million, corresponding to R\$ 5.534143888 per thousand shares, to be paid on December 29, 2005, to be paid in a single payment to stockholders whose names are in the Nominal Share Registry on December 22, 2005, for the purposes of Clause 205 of Law 6404/76. We draw attention to the fact that the making of this payment is conditional on homologation, by the Extraordinary General Meeting of Stockholders to be held on December 23, 2005, of the Fourth Amendment to the Contract to Assign the Outstanding Credit Rights Balance on the CRC (Results Compensation) Account, between Cemig and the state of Minas Gerais.
4. To call an Extraordinary General Meeting of Stockholders to be held on December 23, 2005, at 10 a.m., to decide on the signature of the Fourth Amendment to the Contract to Assign the Outstanding Credit Rights Balance on the CRC (Results Compensation) Account, between Cemig and the state of Minas Gerais.
