The Company s principal executive offices are located at 73-4460 Queen Kaahumanu Highway, Suite 102, Kailua Kona, HI 96740.

VOTING RIGHTS AND SOLICITATION

The enclosed proxy is being solicited on behalf of the Board of Directors of Cyanotech for use at the Annual Meeting.

The close of business on June 26, 2006 is the record date for stockholders entitled to notice of and to vote at the Annual Meeting. All holders of the Company s Common Stock outstanding on the record date are entitled to vote at the Annual Meeting. Each stockholder has one vote for each share so held. At June 26, 2006, Cyanotech had 20,928,265 shares of Common Stock, \$.005 par value per share, issued and outstanding. The presence in person or by proxy of the holders of record of a majority of the voting power of the outstanding shares entitled to vote constitutes a quorum. Directors are elected by a plurality of votes cast. For approval of all other matters to be voted on: when a quorum is present a matter is approved if the number of votes cast in favor of the action exceeds the number of votes cast in opposition to the action. Abstentions are counted only for purposes of determining whether a quorum is present. On all proposals a broker who holds shares in the name of a stockholder is entitled to vote these shares even if the broker receives no instructions from the stockholder. Broker non-votes are not treated as votes cast but are counted in determining the existence of a quorum.

Shares represented by proxies in the accompanying form which are properly executed and returned to Cyanotech will be voted at the Annual Meeting in accordance with the stockholder s instructions contained therein. In the absence of contrary instructions, shares represented by such proxies will be voted: a) **FOR** the election of each of the directors as described herein under Proposal One Election of Directors ; b) **FOR** ratification of the selection of the independent registered public accounting firm as described herein under Proposal Two Ratification of Selection of Independent Registered Public Accounting Firm. Management does not know of any matters to be presented at this Annual Meeting other than those set forth in this Proxy Statement and in the Notice accompanying this Proxy Statement. If other matters should properly come before the meeting, the proxy holders will vote on such matters in accordance with their best judgment.

The entire cost of soliciting the proxies will be borne by Cyanotech. Proxies will be solicited principally through the use of the mails, but, if deemed desirable, may be solicited personally or by telephone, e-mail, facsimile or letter by officers and regular Cyanotech employees who will receive no additional compensation. Arrangements may be made with brokerage houses and other custodians, nominees and fiduciaries to send proxies and proxy material to the beneficial owners of the Company s Common Stock, and such persons may be reimbursed for their expenses.

REVOCABILITY OF PROXIES

Any person giving a proxy pursuant to this solicitation has the power to revoke it at any time before it is voted. It may be revoked by filing with the Secretary of the Company at the Company's principal executive office, 73-4460 Queen Kaahumanu Hwy., Suite 102, Kailua-Kona, HI 96740, a written notice of revocation or a duly executed proxy bearing a later date, or it may be revoked by attending the meeting, notifying the Secretary of the Meeting of the revocation of the prior proxy, and voting in person. Attendance at the meeting will not, by itself, revoke a proxy.

PROPOSAL ONE:**Election of Directors****Board Nominees**

A board of six (6) directors is to be elected at the meeting. Unless otherwise instructed, the proxy holders will vote the proxies received by them **FOR** the election of the six Board nominees named below, all of whom are presently directors of the Company. Each nominee has consented to be named a nominee in this Proxy Statement and to continue to serve as a director if elected. If any nominee becomes unable or declines to serve as a director or if additional persons are nominated at the meeting, the proxy holders intend to vote all proxies received by them in such a manner as will assure the election of as many nominees listed below as possible (or, if new nominees have been designated by the Board of Directors, in such a manner as to elect such nominees) and the specific nominees to be voted for will be determined by the proxy holders. The Company is not aware of any reason that any nominee will be unable or will decline to serve as a director. Each director elected at this Annual Meeting will serve until the next Annual Meeting or until such director's successor has been elected and qualified. Required Vote

A plurality of the shares of the Common Stock cast at a meeting at which a quorum is present, is required for the election of directors.

The Board of Directors unanimously recommends that the stockholders vote FOR all of the above named director nominees. The enclosed Proxy will be voted for this proposal unless a contrary specification is made.

BOARD MEETINGS AND COMMITTEES

Board Meetings

During fiscal year 2006 the Board met two times. Each of our Directors attended 75 percent or more of the meetings of the Board and of Board Committees on which he served, except Michael A. Davis who attended 5 of his seven meetings and was prevented from attending one meeting by a failed telephone connection.

Director Nomination Process

Director Qualifications. The Nominating and Corporate Governance Committee has established guidelines in considering nominations to the Company's Board of Directors. These include: (a) personal characteristics, including such matters as integrity, education, diversity of background and experience, absence of potential conflicts of interest with the Company or its operations, and the availability and willingness to devote sufficient time to the duties of a director of the Company; (b) experience in corporate management, such as serving as an officer or former officer of a publicly held company; (c) experience in the Company's industry and with relevant social policy concerns; (d) experience as a board member of another company; (e) academic expertise in an area of the Company's operations; and (f) practical and mature business judgment. The criteria are not exhaustive and the Nominating and Corporate Governance Committee and the Board of Directors may consider other qualifications and attributes which the members believe are appropriate in evaluating the ability of an individual to serve as a member of the Board of Directors. The Nominating and Corporate Governance Committee's goal is to assemble a Board of Directors that brings to the Company a variety of perspectives and skills derived from high quality business and professional experience. In doing so the Committee also considers candidates with appropriate non-business backgrounds.

Identification and Evaluation of Nominees for Directors. The Board of Directors believes that, based on the Nominating and Corporate Governance Committee's knowledge of the Company's corporate governance principles and the needs and qualifications of the Board at any given time, the Nominating and Corporate Governance Committee is best equipped to select nominees that will result in a well-qualified and well-rounded board of directors. It is the general policy of the Nominating and Corporate Governance Committee not to accept unsolicited nominations from stockholders. In making its nominations, the Nominating and Corporate Governance Committee identifies nominees by first evaluating the current members of the Board willing to continue their service. Current members with qualifications and skills that are consistent with the committee's criteria for Board service are re-nominated. As to new candidates, the committee will generally poll the Board members and members of management for recommendations. The committee may also review the composition and qualification of the boards of directors of the Company's competitors, and may seek input from industry experts or analysts. The committee reviews the qualifications, experience and background of the candidates. Final candidates are interviewed by the independent directors and executive management. In making its determinations, the committee evaluates each individual in the context of the Board as whole, with the objective of assembling a group that can best represent stockholder interests through the exercise of sound judgment. After review of all pertinent data, and due deliberation by the committee, this slate of nominees is recommended to the Board of Directors

and the stockholders for election. Historically, the Board of Directors has not relied on third-party search firms to identify director nominees. The committee may in the future choose to engage third-party search firms in situations where particular qualifications are required or where existing contacts are not sufficient to identify an appropriate candidate.

Each of the nominees for election at the annual meeting is recommended by the Nominating and Corporate Governance Committee for election.

Independent Directors

The Board has determined that each of the nominees for director, other than Dr Cysewski, has no material relationship with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company) and is independent under NASDAQ Rule 4200(A). In making its determination, the Board considered transactions and relationships between each director (and any member of his immediate family) and the Company and its subsidiaries and relationships between the directors or their affiliates and members of the Company's senior management personnel and their affiliates.

The Independent Directors meet in executive session without the Chief Executive Officer or anyone from management attending, at least once annually. In fiscal year 2006 there were two such sessions. Independent Director John T. Waldron acted as the Lead Independent Director for such meetings and was responsible for the issues discussed. Any Independent Director may request an executive session of Independent Directors to discuss any matter of concern.

Stockholder Communication with Directors

Stockholders may, at any time, communicate in writing with any particular director, or the non-management directors as a group, by sending such written communication to Cyanotech Corporation Non-Management Directors, 73-4460 Queen Kaahumanu Highway, #102, Kailua Kona, Hawaii, 96740. Copies of written communications received at such address will be directed to the relevant director or the non-management directors as a group.

Code of Conduct and Ethics

The Company has established a Code of Conduct and Ethics that applies to its officers, directors and employees. The Code of Conduct and Ethics is posted on the Company's web-site www.cyanotech.com. A copy of the Nominating and Corporate Governance Committee Charter was filed as an exhibit to the 2004 Notice of Annual Meeting and Proxy Statement and is hereby incorporated by reference. The Nominating and Corporate Governance Committee's functions include (1) reviewing the background and qualifications of potential nominees for the Cyanotech Board of Directors presented by stockholders, directors and management, (2) recommending to the Board a slate of nominees to be submitted to the stockholders for election at the next Annual Meeting of Stockholders, (3) advising the Board with respect to matters of Board composition and procedures, and (4) overseeing the annual evaluation of the Board. Among the qualifications considered in the selection of candidates are knowledge, experience, skills, expertise, diversity, personal and professional integrity, character, business judgment, time availability, dedication and absence of conflicts of interest see caption Director Nomination Process above. All members of the Nominating and Corporate Governance Committee are independent directors under Nasdaq Market Rule 4200A. The Nominating and Corporate Governance Committee, which is comprised of independent directors Michael A. Davis (Chair), John T. Waldron and Paul C. Yuen, held one regularly scheduled meeting during fiscal year 2006.

The Compensation and Stock Option Committee operates and acts under a written charter, which was adopted and approved by the Cyanotech Board of Directors. A copy of the Compensation and Stock Option Committee Charter was filed as an exhibit to the 2004 Notice of Annual Meeting and Proxy Statement and is hereby incorporated by reference. The Compensation and Stock Option Committee reviews and makes recommendations to the Board concerning the Company's executive compensation policy, bonus plans and incentive option plans, and approves the grants of stock options to officers, employees and consultants. At least once a year, the Compensation and Stock Option Committee meets in executive session with the other independent directors of the Board to evaluate the Chief Executive Officer's (CEO) performance. All members of the Compensation and Stock Option Committee are independent directors as defined under Nasdaq Rule 4200A. The Compensation and Stock Option Committee, which is comprised of independent directors John T. Waldron (chair) and Paul C. Yuen, held one regularly scheduled meeting during fiscal year 2006.

A representative of KPMG LLP is expected to attend the annual meeting with the opportunity to make a statement and to respond to appropriate questions from stockholders present at the meeting.

OPTION GRANTS IN LAST FISCAL YEAR

The following table contains information concerning the grant of stock options made under the 2005 Plan for the 2006 fiscal year to the named executive officers. No stock appreciation rights (SARs) have been granted under the 2005 Stock Plan.

Name	Shares Underlying Options Granted(1)	% of Total Options Granted to Employees in Fiscal Year	Exercise Price Per Share	Expiration Date	Potential Realized Value at Assumed Annual Rates of Stock Price Appreciation For Option Term	
					5%	10%
William R. Maris(1)	20,000	100.0	\$ 0.65	01/02/2011	\$ 3,592	\$ 7,937

(1) The options were granted under the Company's 2005 Stock Plan on January 2, 2006, when he joined the Company, and are exercisable in four equal and cumulative annual installments over the optionee's period of service with the Company, beginning one year after the grant date. The option has a term of five (5) years. On March 23, 2006, in response to SFAS No. 123(R), the Compensation and Stock Option Committee of the Company's Board of Directors approved accelerating the vesting of all outstanding unvested employee incentive stock options under the provisions of APB Opinion No. 25, and related interpretations. See Note (4) to the table under Aggregated Option Exercises In Last Fiscal Year and Fiscal Year-End Option Values for a complete explanation.

**AGGREGATED OPTION EXERCISES IN LAST FISCAL YEAR
AND FISCAL YEAR-END OPTION VALUES**

The following table provides information with respect to the named executive officers concerning the exercise of options during the 2006 fiscal year and the number and value of unexercised options held at year end. No SARs have been granted under the Company's 2005 Stock Plan.

Name	Shares Acquired on Exercise (#)	Value Realized (\$)	Number of Shares of Common Stock Underlying Unexercised Options at FY End (#)		Value of Unexercised In-The-Money Options at FY End \$(1)	
			Exercisable(4)	Unexercisable	Exercisable	Unexercisable
Gerald R. Cysewski(2)	0	\$ 0	44,000 (2)		\$ 3,480	\$
Robert J. Capelli(2)	0	\$ 0	42,000 (2)		\$ 3,160	\$
William R. Maris(3)	0	\$ 0	20,000 (3)		\$ 1,400	\$

(1) Refers to the Market value of shares covered by in-the-money options on March 31, 2006 which was \$0.72, less the option exercise price. Options are in-the-money if the market value of the shares covered thereby is greater than the option exercise price.

(2) Options which remain exercisable granted under 1995 Stock Plan.

(3) Options which are exercisable granted under 2005 Stock Plan. The options were granted under the Company's 2005 Stock Plan on January 2, 2006, and were exercisable in four equal and cumulative annual installments over the optionee's period of service with the Company, beginning one year after the grant date. The option has a term of five years.

(4) As reported in the Company's 10-K filed June 28, 2006, on March 23, 2006, in response to SFAS No. 123(R), the Compensation and Stock Option Committee of the Company's Board of Directors approved accelerating the vesting of all outstanding unvested employee incentive stock options under the provisions of APB Opinion No. 25, and related interpretations. Options held by non-employees and directors were not included in the vesting acceleration since all such options were already fully vested. The decision to accelerate vesting of all outstanding unvested employee incentive stock options was made to avoid recognizing, pursuant to the Company's April 1, 2006 adoption of SFAS No. 123(R), the non-cash compensation cost related to unvested Employee Incentive Stock Options. These options would otherwise have been unvested as of March 31, 2006 and would have been reflected as a non-cash expense in future statements of operations.

Due to the Company's having fewer than 100 employees, it was deemed prudent to accelerate the vesting of all outstanding employee incentive stock options including those shown above. This resulted in the company recognizing non-cash compensation expense of approximately \$10,000 for the year ended March 31, 2006, representing the estimated benefit of accelerated vesting for those unvested incentive options with exercise prices less than the fair market value of the Company's stock on March 23, 2006. It is estimated that the total future compensation expense that will be avoided in future years is approximately \$78,000, before tax, based on the March 23, 2006 acceleration date. The foregoing amount would have primarily impacted fiscal years ending March 31, 2007 through March 31, 2009.

Report of the Compensation and Stock Option Committee of the Board of Directors

The Compensation and Stock Option Committee of the Board of Directors (the Committee) is composed of two or more Independent directors. During fiscal 2006 the Committee was composed of John T. Waldron (chair) and Paul C. Yuen.

The Committee is responsible for setting and administering the compensation policies, annual executive officers' compensation, making recommendations on potential bonus and stock option plans, granting bonuses and recommending to the Board of Directors grants of stock options to executive officers.

Compensation Philosophy

The goals of the compensation program are to align compensation with business objectives and performance, and to enable the Company to attract, motivate and retain executives of outstanding ability, potential, and drive commensurate with the size and development requirements of the Company. Key elements of this philosophy are:

- The Company pays competitively with comparable small companies with which the Company competes for talent. To ensure that pay is competitive, the Company compares its pay practices with these companies and sets its pay parameters based in part on this review.
- The Company maintains annual incentive opportunities sufficient to provide motivation to achieve specific operating goals and to generate rewards that bring total compensation to competitive levels.
- The Company provides significant equity-based incentives for executives to ensure that they are motivated over the long term to respond to the Company's business challenges.

The Committee endeavors to balance Company needs and values with the employees' needs and believes that it is important that the Committee maintain this relationship.

Cash Compensation

Base Salary. The base salaries of the executive officers are determined initially on the basis of one or more salary surveys conducted by third parties as well as surveys of biopharmaceutical companies both nationally and more specifically in the Western United States obtained from public information such as filings with the Securities and Exchange Commission. Based on such surveys, the executive officers' salaries are set within the ranges of the surveys targeted at the median; the exact level is determined after the Committee considers the experience and capability of the executive officer, the level of responsibility, and the needs of the Company.

Incentive Bonus Compensation. The Committee believes that, as a general rule, annual compensation in excess of base salaries should be dependent on the employee's performance and the Company's performance, and should be awarded based on recommendations of the Committee, and in the discretion of the Board. Accordingly, at the beginning of each fiscal year, the Committee establishes a Management Incentive Plan for executive officers and other key management personnel under which executive officers and other key management personnel may earn bonuses, in amounts ranging up to 100% of the annual salaries, provided the Company achieves or exceeds the pre-tax net income goal established for the year.

The net income goal is established in part on the basis of an annual operating plan developed by management and approved by the Board of Directors. The annual operating plan is designed to maximize profitability, within the constraints of economic and competitive conditions, some of which are outside the control of the Company, and is developed on the basis of: (i) the Company's performance in the prior year; (ii) estimates of sales revenue for the plan year based upon recent market conditions and trends and other

factors which, based on historical experience, are expected to affect the level of sales that can be achieved; (iii) historical operating cost and cost savings that management believes can be achieved; and (iv) competitive conditions faced by the Company. Taking all of these factors into account, as part of the operating plan, bonus awards are determined under the Management Incentive Plan, and are fixed at what is believed to be a realistic level so as to make the incentives meaningful to executives and to avoid penalizing executives and other key management personnel for conditions outside of their control.

In certain instances, bonuses under the Management Incentive Plan are awarded not only on the basis of the Company's overall profitability, but also on the achievement by an executive of specific objectives within his or her area of responsibility. For example, a bonus may be awarded for an executive's efforts in achieving greater than anticipated cost savings, or establishing new or expanded markets for the Company's products. Typically, the maximum bonus that may be awarded for achievement of specific objectives is determined at the beginning of the year to provide the requisite incentive for such performance.

As a result of this performance-based Management Incentive Plan, executive compensation, and the proportion of each executive's total cash compensation that is represented by incentive or bonus income, increases in those years in which the Company achieves the anticipated level of growth and profitability. On the other hand, in years in which the Company experiences less than anticipated profit growth, bonuses, and therefore also total executive compensation, should tend to be lower. No bonuses were paid during or for fiscal year 2006.

Long-Term Equity-Based Compensation

The Committee intends to make stock option grants on an annual basis. Each grant is designed to align the interests of the executive officers with those of the stockholders and provide each individual with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business. Each grant generally allows the executive officer to acquire shares of the Company's Common Stock at a fixed price per share (usually the market price on the grant date) over a specified period of time (up to 10 years), thus providing a return to the executive officer only if he or she remains in the employ of the Company and the market price of the shares appreciate over the option term. The size of the option grant to each executive officer generally is set at a level that is intended to create a meaningful opportunity for stock ownership based upon the individual's current position with the Company, but also taken into account are the size of comparable awards made to individuals in similar positions in the industry as reflected in external surveys, the individual's potential for future responsibility and promotion over the option term, the individual's personal performance in recent periods and the number of options held by the individual at the time of grant. Generally, as an executive officer's level of responsibility increases, a greater portion of his or her total compensation will be dependent upon Company performance and stock price appreciation rather than base salary. The relative weight given to these factors varies with each individual, in the sole discretion of the Committee.

Chief Executive Officer's Compensation

The Committee uses the same philosophy and procedures described above with respect to the other executive officers in setting the cash compensation and equity incentives for the Chief Executive Officer.

The compensation payable to Dr. Cysewski, the Company's Chief Executive Officer in fiscal 2006, was determined by the Committee. Dr. Cysewski's base salary was set at a level which the Board felt would be competitive with the base salary levels in effect for chief executive officers at similarly-sized companies within the industry. Based on Dr. Cysewski's performance and on the compensation policy summarized in this report, the Compensation Committee decided that Dr. Cysewski's salary would remain at its 2005 level of \$130,000.

Report of the Audit Committee of the Board of Directors

The Audit Committee, which met four times in fiscal 2006, reviewed and discussed the Company's audited financial statements with management. The Audit Committee discussed with KPMG LLP, the Company's independent registered public accounting firm, the matters required to be discussed by Statement of Auditing Standards No. 61, Communication with Audit Committees, which includes, among other items, matters related to the conduct of the audit of the Company's financial statements. The Audit Committee also received written disclosures and the letter from KPMG LLP required by Independence Standards Board Standard No. 1, which relates to the independent registered public accounting firm's independence from the Company and its related entities.

The Audit Committee is governed by the Audit Committee Charter adopted by the Board of Directors, a copy of which was attached as Exhibit A to the 2004 Proxy Statement and is available on the Company's website at www.cyanotech.com. Pursuant to the Charter, the Audit Committee has the following primary responsibilities:

- 1) Review the performance of the independent registered public accounting firm and make recommendations to the Board of Directors regarding the appointment or termination of the independent registered public accounting firm;
- 2) Confer annually with the independent registered public accounting firm concerning the scope of their examinations of the books and records of the Company and its subsidiaries; reviewing and approving the independent registered public accounting firm's annual engagement letter, and authorizing the independent registered public accounting firm to perform such supplemental reviews or audits as the Committee may deem desirable;
- 3) Review the range and cost of audit and non-audit services performed by the independent registered public accounting firm;
- 4) Review the Company's audited financial statements and the independent registered public accounting firm's opinion rendered with respect to such financial statements, including reviewing the nature and extent of any significant changes in accounting principles or the application thereof;
- 5) Review the adequacy of the Company's systems of internal controls.

The firm of KPMG LLP, an Independent Registered Public Accounting Firm, served as the Company's independent registered public accounting firm for the fiscal year ended March 31, 2006. As stated in Proposal Two, the Audit Committee has selected and the Board has approved KPMG LLP to serve as the Company's independent registered public accounting firm for the fiscal year ended March 31, 2007.

Audit services provided by KPMG LLP consisted of the examination of the Company's annual financial statements and services related to filings with the SEC as well as their review of the Company's quarterly financial statements. All fees paid to KPMG LLP were reviewed and considered for independence by the Audit Committee. In addition, the Audit Committee (i) discussed with KPMG the qualification of the partners and managers assigned to the Company's audit, (ii) reviewed with KPMG the quality control system for the US accounting and audit practice to provide reasonable assurance that the audit was conducted with professional standards, and (iii) confirmed with KPMG that there was appropriate continuity of personnel working on our audits and availability of national office consultation.

Based on the review and discussions referred to above, the Audit Committee recommended to the Company's Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2006.
