As announced on November 14, 2006, Fossil, Inc. (the Company) formed a committee made up of all independent members of its Board of Directors (the Special Committee) to voluntarily review the Company's historical equity granting practices. On May 7, 2007, the Company announced that the Special Committee had presented its final report to the Board of Directors on May 4, 2007. As a result of the findings of the report, the Company's management is currently working to revise certain incorrect measurement dates in accordance with Accounting Principals Board Opinion No. 25, Accounting for Stock Issued to Employees, for impacted stock option grants for fiscal years from 1993 to 2005 and SFAS 123R, Share-Based Payments, for grants made subsequent to fiscal year 2005. The Company anticipates restating its previously issued consolidated financial statements for fiscal years 2004 and 2005, for all fiscal quarters of 2005 and the first and second fiscal quarters of 2006. As a result of the restatement, the Company may also elect to record additional non-cash charges related to immaterial accounting adjustments previously not recorded by the Company. Accordingly, the Company is delaying the filing of its Quarterly Report on Form 10-Q for the quarter ended April 7, 2007 (the Form 10-Q) until after the Company completes its restatement. The Company does not currently expect that it will in a position to file the Form 10-Q on or before the fifth calendar day following the required filing date as prescribed by Rule 12b-25.

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

The Company announced certain financial results, primarily related to net sales, gross profit and selected balance sheet data, for the quarter ended April 7, 2007 in a press release dated May 15, 2007 that was furnished as Exhibit 99.1 to the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission (SEC) on May 15, 2007. On May 15, 2007, the Company also broadcast via teleconference and on the internet a conference call to discuss with investors the preliminary financial results for the quarter ended April 7, 2007. A replay of the conference call is available on the Company's website at www.fossil.com. Please refer to the Form 8-K filed with the SEC and the replay of the conference call on the Company's website regarding certain financial information for the quarter ended April 7, 2007. Because the restatement is not complete, the Company is unable to determine the impact of an adjustment, if any, to financial results. There can be no assurance that the Company will not have to adjust certain amounts provided in the press release and during the conference call until after the Company completes its restatement.

Certain matters discussed in this Notification of Late Filing on Form 12b-25, including those relating to the impact of the Special Committee's recommendations and findings, expectations as to the requirement for and the completion of the restatement (including any adjustments contained in such restatement) and timing of the filing of the quarterly report on Form 10-Q for the period ended April 7, 2007, constitute forward-looking statements. Actual results or events could differ materially from those stated or implied in these forward-looking statements. Among the factors that could cause such results or events to differ materially are the impact of the Special Committee's findings and recommendations with respect to the Company's equity granting practices as well as the other risks and uncertainties set forth in the Company's press release dated May 15, 2007 and the Company's SEC reports, which are available at the SEC's website at http://www.sec.gov. There can be no assurance concerning the results of the restatement or the timing of the filing of the Quarterly Report on Form 10-Q for the period ended April 7, 2007.
