Asset Management and Advisory Business

Edgar Filing: Morningstar, Inc. - Form 8-K

1. *What has been driving the growth in the fee-based businesses (assets under management for managed portfolios, retirement accounts, and advisement for investment consulting)? How much of the growth has been market appreciation versus new clients/net inflows from existing clients?*

Edgar Filing: Morningstar, Inc. - Form 8-K

The growth in our fee-based assets in all three areas has been driven by new inflows from existing clients, although market appreciation has also contributed to asset growth. The table below shows total returns for Morningstar's U.S. Market Index, a broad market benchmark, versus the asset increases for Morningstar Managed Portfolios, managed retirement accounts, and Investment Consulting. In all three areas, the growth in assets has been substantially higher than overall market appreciation.

| | <u>% increase for year to date through September 30, 2007</u> |
|---|---|
| Morningstar U.S. Market Index | 10.8% |
| Morningstar Managed Portfolios | 37.5% |
| Managed retirement accounts (including Morningstar Associates and Ibbotson Associates) | 77.8% |
| Investment Consulting (including Morningstar Associates and Ibbotson Associates) | 92.0% |

2. *Do the fee-based businesses have higher margins than their respective segment operating margins?*

Yes. We don't disclose operating margins at the product level, but it would be fair to say that our fee-based businesses generally have higher margins.

Compensation Expense

3. *How much of your operating expense is compensation costs?*

Our business relies heavily on human capital, so compensation costs typically make up the largest component of our operating expense.

Changes to Discuss Area of Morningstar.com

4. *The changes made last year to the Discuss area of Morningstar.com seem to have caused a drop-off in the number of messages posted there. What effect has this had on advertising revenues and on the sale of premium memberships?*

We introduced a number of new features in the Discuss area of Morningstar.com in September 2007 that were designed to improve users experience and encourage growth in our community. Any product enhancements or changes from the status quo can cause heated reactions from a vocal minority (both positive and negative), and we did experience a temporary drop-off in the number of page views to this area. More recently, however, the number of page views to this area has been slightly higher than the comparable number a year ago. We haven't seen an impact on advertising revenue or Premium membership sales.

Financial Statements for Morningstar Japan K.K.

5. *How may I access annual and interim reports in English for Morningstar Japan K.K. (in Osaka ticker 4765)? I gather we retain a substantial minority stake in the company and its activities may affect the US corporate MORN reputation.*

Edgar Filing: Morningstar, Inc. - Form 8-K

Morningstar, Inc. owns approximately 35% of the outstanding shares of Morningstar Japan K.K. We include information on our investment in Morningstar Japan K.K. and our investments in other unconsolidated entities in our financial statements and in the accompanying notes. Because Morningstar Japan K.K. is incorporated and publicly traded in Japan, its financial statements aren't generally available in English. However, you may be able to obtain English language versions of Morningstar Japan K.K.'s financial statements by contacting Morningstar Japan directly at mstar@morningstar.co.jp.
