The Fund invests primarily in debt securities issued by California municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at December 31, 2007, 84.5% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 5.2% to 23.2% of total investments.

 Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.

A summary of obligations under these financial instruments at December 31, 2007 is as follows:
