## Notes to Consolidated Financial Statements (Unaudited)

(Millions, Except Share Amounts)

**NOTE A Basis of Presentation**

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three month period ended March 31, 2008 are not necessarily indicative of the results that may be expected for the year ended December 31, 2008. For further information, refer to the consolidated financial statements and footnotes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

PACCAR paid a 50% common stock dividend to stockholders in October 2007. All share and per share figures presented are adjusted for the effects of the dividend.

*Reclassifications:* Certain prior year amounts have been reclassified to conform to the 2008 presentation.

**NOTE B Inventories**

	<b>March 31 2008</b>	<b>December 31 2007</b>
Inventories at cost:		
Finished products	\$ 445.6	\$ 422.7
Work in process and raw materials	411.2	355.0
	<b>856.8</b>	777.7
Less LIFO reserve	(151.4)	(149.4)
	<b>\$ 705.4</b>	<b>\$ 628.3</b>

Under the LIFO method of accounting (used for approximately 39% of March 31, 2008 inventories), an actual valuation can be made only at the end of each year based on year-end inventory levels and costs. Accordingly, interim valuations are based on management's estimates of those year-end amounts.

The currency translation gains in 2008 and 2007 are primarily attributable to changes in the value of the U.S. dollar relative to the euro. The unrealized net losses on derivative contracts in 2008 and 2007 are primarily due to a decrease in market interest rates.

## Stock Compensation Plans

Stock-based compensation expense for the first quarter was \$3.0 in 2008 and \$3.8 in 2007. Realized tax benefits related to the excess of deductible amounts over expense recognized amounted to \$3.0 and \$9.4 for the first three months of 2008 and 2007, respectively, and have been classified as a financing cash flow.

**NOTE G Fair Value Measurements****Adoption of FAS 157**

The Company adopted Statement No.157, *Fair Value Measurements* (FAS 157) effective January 1, 2008 with no effect on the financial statements. FAS 157 defines fair value and establishes a three-level hierarchy for measuring fair value of certain financial instruments based on the source of information used to determine fair value. FAS 157 also expands disclosures about fair value measurements. The hierarchy of fair value measurements is described below.

**Level 1** Valuations are based on quoted prices that the Company has the ability to obtain in actively traded markets for identical assets or liabilities. Since valuations are based on quoted prices that are readily and regularly available in an active market or exchange traded market, valuation of these instruments does not require a significant degree of judgment.

**Level 2** Valuations are based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

**Level 3** Valuations are based on model-based techniques for which some or all of the assumptions are obtained from indirect market information that is significant to the overall fair value measurement and which require a significant degree of management judgment. The Company has no financial instruments requiring Level 3 valuation.

PACCAR's assets and liabilities subject to recurring fair value measurements are either Level 1 or Level 2 and include marketable debt securities and derivative contracts as follows:

At March 31, 2008	Level 1	Level 2	Total
<b>Assets:</b>			
Marketable debt securities	\$ 191.3	\$ 454.7	\$ 646.0
Foreign currency derivatives, net		30.9	30.9
<b>Liabilities:</b>			
Interest rate derivatives, net		105.5	105.5

The Company's marketable debt securities consist of municipal bonds, foreign government obligations and investment-grade corporate bonds.

## Edgar Filing: PACCAR INC - Form 10-Q

The fair value of municipal bonds is estimated using recent transactions, market price quotations, and pricing models that consider, where applicable, interest rates and other observable market information. These bonds are categorized as Level 2.

The fair value of foreign government obligations and foreign corporate bonds is based on quoted prices in active markets. These are categorized as Level 1.

The Company's derivative contracts consist of interest rate contracts and foreign currency exchange contracts. These derivative contracts are over the counter and their fair value is determined using modeling techniques that include market inputs such as interest rates, yield curves and currency exchange rates. These contracts are categorized as Level 2.

**NOTE H Employee Benefit Plans**

PACCAR has several defined benefit pension plans, which cover a majority of its employees. The Company also provides coverage of approximately 50% of medical costs for the majority of its U.S. employees from retirement until age 65.

The following information details the components of net periodic pension cost for the Company's defined benefit plans:

Three Months Ended March 31	2008	2007
<i>Components of Pension Expense:</i>		
Service cost	\$ 12.0	\$ 12.5
Interest on projected benefit obligation	18.5	16.5
Expected return on assets	(23.6)	(21.6)
Amortization of prior service costs	.7	.9
Curtailement charge		2.8
Recognized actuarial loss	.4	1.9
Net pension expense	\$ 8.0	\$ 13.0

During the first quarter of 2008, the Company contributed \$3.4 to its pension plans.

The following information details the components of net periodic retiree cost for the Company's unfunded postretirement medical and life insurance plans:

Three Months Ended March 31	2008	2007
<i>Components of Retiree Expense:</i>		
Service cost	\$ 1.1	\$ 1.4
Interest cost	1.4	1.3
Recognized actuarial loss	.1	.3
Recognized net initial obligation	.1	.1
Net retiree expense	\$ 2.7	\$ 3.1

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**RESULTS OF OPERATIONS:**

First quarter 2008 total net sales and revenues of \$3.94 billion were comparable to the \$3.98 billion in the first quarter of 2007. First quarter 2008 net income was \$292.3 million (\$.79 per diluted share) compared to \$365.6 million (\$.97 per diluted share) in the first quarter of 2007. Included in the first quarter 2007 net income was a \$14.7 million gain on sale of property in the United Kingdom. The translation effect of stronger foreign currencies, primarily the euro, increased first quarter 2008 sales and revenues by \$247.6 million and income before income taxes by \$32.4 million compared to the first quarter of 2007.

Truck segment net sales and revenues decreased to \$3.58 billion in the first quarter of 2008 from \$3.68 billion in the first quarter of 2007 due to lower truck sales in North America, mitigated somewhat by higher truck sales in Europe. Truck segment income before income taxes of \$335.3 million decreased from \$428.6 million in the prior year due to lower truck sales and margins in North America and higher research and development spending. First quarter gross margins were 15.0% in 2008 and 15.7% in 2007. Gross margins in 2008 were affected by the weak truck market in the U.S. and Canada, somewhat offset by stronger truck and parts demand in Europe. Research and development spending increased to \$82.9 million from \$37.4 million in the prior year reflecting investments in new vehicle and engine development programs.

Truck retail sales in the U.S. and Canada were dampened by higher fuel prices, lower housing starts, and lower auto production in the first quarter of 2008. Class 8 truck orders are being impacted as customers adjust their capacity due to lower freight demand and a slowing economy. The Company expects industry Class 8 heavy-duty retail sales for the year to be in the range of 165,000 - 185,000 trucks.

Truck demand in Europe, particularly in Central and Eastern Europe, and international markets remains strong. 2008 industry sales in Europe in the above 15 tonne truck market are expected to be at a record of 340,000 - 360,000 units.

Selling, general and administrative expense (SG&A) increased \$6.0 million compared to the first quarter of 2007 as a result of stronger foreign currencies. As a percent of sales, SG&A increased to 3.5% from 3.2%.

Financial Services segment revenues increased to \$317.4 million from \$264.0 million last year. Financial Services income before income taxes of \$67.3 million in the first quarter of 2008 increased from \$65.6 million earned in the first quarter of 2007, primarily due to higher finance margins resulting from portfolio growth in Europe, Mexico and Australia, somewhat offset by a higher provision for losses. The provision for losses was \$17.4 million in the first quarter of 2008 compared to \$14.9 million in the fourth quarter of 2007 and \$7.7 million in the first quarter last year. The effects of the slowing economy and higher fuel prices in the U.S. and Canada are negatively impacting truck operators and have resulted in higher past due accounts and increased credit losses. Financial Services segment 30+ days past due accounts were at 2.2% of portfolio balances as of March 31, 2008 compared to 2.0% as of December 31, 2007 and 1.4% as of March 31, 2007. Credit losses were \$15.3 million in the first quarter of 2008 up from \$9.4 million in the fourth quarter of 2007 and \$3.9 million in the first quarter last year.

The effective tax rate for the first quarter of 2008 was 31.0% compared to 32.0% last year. The lower effective tax rate reflects a higher proportion of income from foreign operations.

#### **LIQUIDITY AND CAPITAL RESOURCES:**

Total Truck and Other cash and marketable debt securities decreased \$202.3 million to \$2.31 billion at the end of the first quarter of 2008, primarily due to dividend payments, stock repurchases and capital investments offset by positive operating cash flow.

Cash provided by operations was \$367.0 million in the first quarter of 2008 compared to \$412.8 million in the first quarter of 2007 primarily due to lower net income.

At March 31, 2008, PACCAR's European finance subsidiary, PACCAR Financial Europe (PFE), had 605.8 million available for issuance under the 1.2 billion medium term-note program registered with the London Stock Exchange. PFE intends to renew this program (which is renewable annually through the filing of a new prospectus) during the second quarter of 2008.

The Company had line of credit arrangements of \$3.11 billion, of which \$3.08 billion was unused at the end of March 2008. Included in these arrangements is a \$2.7 billion bank facility, of which \$1.7 billion matures in June 2008 and \$1.0 billion matures in 2012. The Company intends to replace these credit facilities as they expire with facilities of similar amounts. These credit facilities are maintained primarily to provide backup liquidity for commercial paper borrowings and maturing medium term notes of the financial services companies.

During the first three months of 2008, PACCAR maintained its Standard & Poor's short- and long-term debt ratings of A-1+ and AA-, respectively. The Company believes its strong cash position and investment-grade credit ratings will continue to provide financial stability and access to public debt markets at competitive interest rates.

Other information on liquidity and sources of capital as presented in the 2007 Annual Report to Stockholders continues to be relevant.

#### **FORWARD-LOOKING STATEMENTS:**
