Notes to Consolidated Financial Statements

Note 1. Unaudited Financial Statements

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States (GAAP) for complete consolidated financial statements. In the opinion of management, all adjustments (consisting only of normal recurring accruals, unless otherwise indicated) considered necessary for a fair presentation of the interim financial data have been included. Operating results for the three and six month periods ended December 31, 2008 are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2009.

The accompanying unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Farmer Bros. Co. annual report on Form 10-K for the fiscal year ended June 30, 2008.

Coffee Brewing Equipment and Service

The Company has reclassified its reporting for expenses related to coffee brewing equipment provided to customers. These costs include the cost of the equipment, depreciation on capitalized equipment as well as the cost of servicing that equipment (including service employees salaries and the cost of supplies and parts). Accordingly, such costs are reported as cost of sales in the accompanying financial statements for the fiscal quarters ended December 31, 2008 and 2007, in the amounts of \$2.2 million and \$5.1 million respectively, and for the six month periods ended December 31, 2008 and 2007, in the amounts of \$4.5 million and \$10.2 million, respectively. In prior periods, these costs were presented as selling expenses. This change impacts reported gross profit in the periods presented by these amounts. The change reduces gross profit but has no impact on net income, total assets, or cash flows in period.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results may differ from those estimates.

Net Loss per Share

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

Net loss per share has been computed in accordance with Statement of Financial Accounting Standards No. 128, *Earnings per Share* excluding unallocated shares held by the Company's Employee Stock Ownership Plan. Net loss per share is computed by dividing income available to common stockholders by the number of weighted average shares outstanding. For purposes of computing earnings per share, all potentially dilutive instruments are anti-dilutive because of the net loss presented for all periods.

New Accounting Pronouncements

In March 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (SFAS 161) which amends and expands Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities*. SFAS 161 requires tabular disclosure of the fair value of derivative instruments and their gains and losses. This Statement also requires disclosure regarding the credit risk related contingent features in derivative agreements, counterparty credit risk, and strategies and objectives for using derivative instruments. The Company is required to adopt SFAS 161 in the third quarter of fiscal 2009. The Company does not currently believe that adopting SFAS 161 will have a material impact on its consolidated financial statements.

Effective July 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 159, *The Fair Value for Financial Assets and Financial Liabilities - Including an Amendment of FASB Statement No. 115* (SFAS 159). SFAS 159 allows companies the option to irrevocably elect, on a contract by contract basis, fair value as the initial and subsequent measurement for certain financial assets and financial liabilities. The Company has not elected

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

the option for fair value measurement under SFAS 159 for any additional financial assets or financial liabilities that were not previously recognized at fair market value.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), *Business Combinations* (SFAS 141R). SFAS 141R significantly changes the accounting for business combinations in a number of areas, including the treatment of contingent consideration, pre-acquisition contingencies, transaction costs, in-process research and development and restructuring costs. In addition, under SFAS 141R, changes in an acquired entity's deferred tax assets and uncertain tax positions after the measurement period will impact income tax expense. SFAS 141R is effective for fiscal years beginning after December 15, 2008. The Company will adopt SFAS 141R beginning in the first quarter of fiscal 2010. SFAS 141R will change the Company's accounting treatment for business combinations on a prospective basis.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51* (SFAS 160). SFAS 160 changes the accounting and reporting for minority interests, which will be re-characterized as non-controlling interests and classified as a component of equity. This new consolidation method significantly changes the accounting for transactions with minority interest holders. SFAS 160 is effective for fiscal years beginning after December 15, 2008. The Company will adopt SFAS 160 beginning in the first quarter of fiscal 2010. The Company does not currently believe that adopting SFAS 160 will have a material impact on its consolidated financial statements.

In April 2008, the FASB issued FASB Staff Position (FSP) SFAS No. 142-3 *Determination of the Useful Life of Intangible Assets* (FSP SFAS 142-3). FSP SFAS 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognizable intangible asset under Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets* (SFAS 142). FSP SFAS 142-3 is intended to improve the consistency between the useful life of a recognizable intangible asset under SFAS 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS 142. FSP SFAS 142-3 is effective for fiscal years beginning after December 15, 2008. The Company will adopt FSP SFAS 142-3 beginning in the first quarter of fiscal 2010. FSP SFAS 142-3 will change the Company's determination of useful lives for intangible assets on a prospective basis.

Note 2. Investments and Derivative Instruments

The Company purchases various derivative instruments as investments or to create economic hedges of its interest rate risk and commodity price risk. At December 31, 2008 and June 30, 2008, derivative instruments are not designated as accounting hedges as defined by Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities*. The fair value of derivative instruments is based upon broker quotes. The Company records unrealized gains and losses on trading securities and changes in the market value of certain coffee contracts meeting the definition of derivatives in Other, net (expense) income.

The Company adopted Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157) on July 1, 2008. SFAS 157 defines fair value and expands disclosure for each major asset and liability category measured at fair value on either a recurring or nonrecurring basis. Under SFAS 157, the Company groups its assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1 Valuation is based upon quoted prices for identical instruments traded in active markets.

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

- Level 2 Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.
- Level 3 Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

The Company's preferred stock has been grouped as follows at December 31, 2008 (in thousands, unaudited):

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

	Total		Level 1		Level 2		Level 3
Preferred stock	\$ 42,976	\$	10,419	\$	32,557	\$	

Investments, consisting of marketable debt and equity securities and money market instruments, are held for trading purposes and are stated at fair value.

Investments are as follows (in thousands):

	December 31, 2008		June 30, 2008
	(Unaudited)		
Trading securities at fair value			
U.S. Treasury Obligations	\$		\$ 54,517
Preferred Stock		42,976	58,204
Futures, options and other derivatives		996	565
	\$	43,972	\$ 113,286

Gains and losses, both realized and unrealized, are included in Other, net (expense) income. Net realized and unrealized gains and losses are as follows (unaudited):

	December 31, 2008		December 31, 2007
Net realized gains (losses)	\$ 238	\$	(2,537)
Net unrealized losses		(11,030)	(5,525)
	\$	(10,792)	\$ (8,062)

Note 3. Inventories

December 30, 2008		Processed		Unprocessed		Total
(Unaudited)				(In thousands)		
Coffee	\$	10,808	\$	18,119	\$	28,927
Allied products		13,845		4,856		18,701
Coffee brewing equipment		1,883		6,361		8,244
	\$	26,536	\$	29,336	\$	55,872

June 30, 2008		Processed		Unprocessed		Total
				(In thousands)		
Coffee	\$	9,929	\$	16,933	\$	26,862
Allied products		14,440		4,601		19,041
Coffee brewing equipment		1,883		6,467		8,350
	\$	26,252	\$	28,001	\$	54,253

Inventories are valued at the lower of cost or market. Costs of coffee and allied products are determined on the last in, first out (LIFO) basis. Costs of coffee brewing equipment manufactured are accounted for on the first in, first out (FIFO) basis. An actual valuation of inventory under the LIFO method is made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

calculations must necessarily be based on management's estimates of expected year-end inventory levels and costs. Because these estimates are subject to many forces beyond management's control, interim results are subject to the final year-end LIFO inventory valuation.

Note 4. Employee Benefit Plans

The Company provides pension plans for most full time employees. Generally the plans provide benefits based on years of service and/or a combination of years of service and earnings. Retirees are also eligible for medical and life insurance benefits.

Company Pension Plans

The Company has a defined benefit plan for all employees not covered under a collective bargaining agreement (Farmer Bros. Co. Plan) and defined benefit pension plan (Brewmatic Co. Plan) for certain hourly employees covered under a collective bargaining agreement. The net periodic benefit costs for the defined benefit plans are as follows (unaudited):

Components of net periodic benefit cost

	Three months ended December 31,		Six months ended December 31,	
	2008	2007	2008	2007
	(In thousands)		(In thousands)	
Service cost	\$ 615	\$ 589	\$ 1,230	\$ 1,178
Interest cost	1,477	1,278	2,954	2,556
Expected return on plan assets	(1,769)	(2,017)	(3,538)	(4,034)
Amortization of net (gain)/loss*	145	2	290	4
Amortization of transition (asset)/obligation*				
Amortization of prior service cost/(credit)*	50	15	101	30
Net periodic benefit (credit) cost	\$ 518	\$ (133)	\$ 1,037	\$ (266)

* These amounts represent the estimated portion of the net (gain)/loss, transition (asset)/obligation, and net prior service cost/(credit) remaining in accumulated other comprehensive income that is expected to be recognized as a component of net periodic benefit cost over the current fiscal year.

Weighted-average assumptions used to determine net periodic benefit cost

	FY 2009	FY 2008
Discount rate	6.80%	6.00%
Expected long-term rate of return	8.25%	8.25%
Rate of compensation increase	3.00%	3.00%

Basis used to determine expected long-term return on plan assets

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

Historical and future expected rates of return of multiple asset classes were analyzed to develop a risk-free real rate of return and risk premiums for each asset class. The overall rate for each asset class was developed by combining a long-term inflation component, the risk-free real rate of return, and the associated risk premium. A weighted average rate of return was developed based on those overall rates of return and the target asset allocations of the plans.

Note 5. Stock-Based Compensation

On August 23, 2007, the Company's Board of Directors approved the Farmer Bros. Co. 2007 Omnibus Plan (the Plan), which was approved by stockholders on December 6, 2007. Prior to adoption of the Plan the Company had no stock-based compensation plan. Initial awards under the Plan were made in the third quarter of fiscal 2008, and additional awards under the Plan were made in the second quarter of fiscal 2009. Awards issued under the Plan may

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

take the form of stock options, stock appreciation rights, restricted stock, restricted stock units, dividend equivalents, performance-based awards, stock payments, cash-based awards or other incentives payable in cash or shares of stock, or any combination thereof. Each award will be set forth in a separate agreement with the person receiving the award and will indicate the type, terms and conditions of the award. The maximum number of shares of common stock as to which awards may be granted under the Plan is 1,000,000, subject to adjustment as provided in the Plan.

The Company accounts for stock-based compensation in accordance with Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment* (SFAS 123R), and related SEC rules included in Staff Accounting Bulletin No. 107 which require the measurement and recognition of compensation expense for all stock-based payment awards made under the Plan based on estimated fair values.

Stock Options

SFAS 123R requires companies to estimate the fair value of stock-based payment awards on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods in the Company's Consolidated Statement of Operations. Prior to fiscal 2008 the Company did not have stock-based compensation.

Stock-based compensation expense recognized during the period is based on the value of the portion of stock-based payment awards that is ultimately expected to vest during the period. Compensation expense recognized for all stock option awards granted is recognized using the straight-line method over the vesting period of three years. The stock-based compensation expense recognized in the Company's consolidated statement of operations for the three and six month periods ended December 31, 2008 is based on awards ultimately expected to vest. Currently, management estimates that there will be no forfeitures based on the Company's historical turnover. SFAS 123R requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

The Company uses the Black-Scholes option valuation model, which requires management to make certain assumptions for estimating the fair value of stock options at the date of the grant. The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because the Company's stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimates, in management's opinion the existing models may not necessarily provide a reliable single measure of the fair value of the Company's stock options. Although the fair value of stock options is determined in accordance with SFAS 123R using an option valuation model, that value may not be indicative of the fair value observed in a willing buyer/willing seller market transaction.

The following are the weighted average assumptions used in the Black-Scholes valuation model for the six months ended December 31, 2008:

	FY 2009	
Average fair value of options	\$	6.68
Risk-free interest rate		5.45%
Dividend yield		2.2%
Expected life		5 years
Expected stock price volatility		32.4%

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

The following table summarizes stock option activity from adoption of the Plan through December 31, 2008:

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

	Number of Stock Options (in thousands)	Weighted Average Exercise Price	Weighted Average Remaining Life (Years)	Aggregate Intrinsic Value (in thousands)
Outstanding at July 1, 2008	118	\$ 22.62	\$ 6.60	\$
Activity:				
Granted	114	21.76	6.46	
Forfeited				
Exercised				
Expired				
Outstanding at December 31, 2008	232	\$ 21.98	\$ 6.53	\$ 629
Exercisable at December 31, 2008		\$	\$	\$

On December 11, 2008, the Company granted 114,000 options with an exercise price of \$21.76 per share to eligible employees, officers and directors under the Plan. The aggregate intrinsic value in the table above represents the total pretax intrinsic value, based on the Company's closing stock price of \$24.94 at December 31, 2008, the last trading day of the quarter, which would have been received by award holders had all award holders exercised their awards that were in-the-money as of that date. As of December 31, 2008, there was approximately \$1,260,000 of unrecognized compensation cost related to stock options. Compensation expense recognized in general and administrative expense for the three and six month periods ended December 31, 2008 was \$60,000 and \$139,000, respectively.

Restricted Stock

On December 11, 2008, the Company granted 26,000 shares of restricted stock, with a weighted average grant date fair value of \$21.76 per share to eligible employees, officers and directors under the Plan. Shares of restricted stock vest at the end of three years from the grant date. Compensation expense is recognized on a straight-line basis over the service period based on the estimated fair value of the restricted stock. Compensation expense recognized in general and administrative expense for the three and six month periods ended December 31, 2008 was \$48,000 and \$108,000, respectively. As of December 31, 2008, there was approximately \$952,000 of unrecognized compensation cost related to restricted stock.

The following table summarizes the status of the Company's restricted stock as of December 31, 2008:

	Restricted Stock Grants (in thousands)	Weighted Average Grant Date Fair Value
Outstanding at July 1, 2008	25	\$ 22.67
Activity:		
Granted	26	21.76
Forfeited		
Exercised		
Expired		
Outstanding at December 31, 2008	51	\$ 22.22
Exercisable at December 31, 2008		\$

Note 6. Income Taxes

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

In September 2008, the Internal Revenue Service (IRS) completed an examination of the Company s U.S. income tax returns for the fiscal years ended June 30, 2004, 2005 and 2006. The Company and the IRS reached a settlement on certain issues which resulted in a decrease to the Company s total unrecognized tax benefits of \$421,000 (excluding interest and penalties). Of this amount, \$266,000 has been realized as income in the current fiscal year.

California notified the Company in January 2008 of their intent to conduct a state examination upon the finalization of the IRS examination. The California examination has not commenced as of December 31, 2008. The Company believes it is reasonably possible that a portion of its total unrecognized tax benefits will decrease in the next 12 months upon the conclusion of this, and other ongoing state examinations. However, it is premature to assess the range of the reasonably possible changes to the Company's unrecognized tax benefits.

As of June 30, 2008 and December 31, 2008, the Company had not recognized the following tax benefits in its consolidated financial statements:

(in thousands, unaudited)	December 31, 2008	June 30, 2008
Total unrecognized tax benefits*	\$ 387	\$ 808
Unrecognized tax benefits that would affect the Company's effective tax rate, if recognized*	\$ 255	\$ 668

* Not including interest and penalties

The Company's effective tax rate of 45.9% primarily consists of its statutory federal and state combined rate of 38.9% (benefit) plus a 5.9% (benefit) related to the Company's dividends received deduction. The federal and state rates represent a benefit in the current year because the Company is in a loss position.

During the quarter ended December 31, 2008, the Company established a valuation allowance of \$427,000 against a portion of its deferred tax assets related to capital loss carry forwards. The Company has capital loss carry forwards that will expire in the future if they are not used. These losses may only be offset against realized capital gains. Due to the recent unrealized losses incurred in the Company's investment portfolio and general downturn in market conditions, the Company has concluded that a valuation allowance is required under Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*, as it is not more likely than not that sufficient capital gains will be realized before the expiration of the capital losses.

Note 6. Pending Acquisition

Pursuant an Asset Purchase Agreement (the Purchase Agreement) with Sara Lee Corporation and its affiliate (collectively, the Seller), the Company will purchase certain assets used in connection with the Seller's DSD Coffee Business, which generally consists of manufacturing and selling coffee, tea and related products through a network of facilities and vehicles. This business also includes the distribution, sale and service of brewed and liquid coffee equipment. The assets to be purchased include manufacturing plants in Houston, Texas and Oklahoma City Oklahoma, approximately 61 leased warehouses and one owned warehouse, approximately 445 vehicles, and all DSD Coffee Business inventory, trademarks and trade names; the most well known being SUPERIOR®, MCGARVEY®, CAIN S®, IRELAND®, JUSTIN LLOYD®, METROPOLITAN® and PREBICA®. The Company anticipates hiring approximately 800 employees associated with Seller's DSD business. At closing, the Company will assume certain liabilities, including obligations under contracts, environmental liabilities with respect to the transferred facilities, pension liabilities, advertising and trade promotion accruals, and accrued vacation as of the closing for hired personnel.

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

The purchase price is \$45.4 million, subject to certain adjustments, including the amount of inventory and prepaid expenses at closing, as well as additional amounts associated with (i) certain accounting costs and costs to provide the Company with information technology to operate the purchased assets, which costs will be shared by the parties; and (ii) reimbursement by the Company of certain accrued vacation associated with the hired personnel. The transaction is expected to close by February 28, 2009. In connection with the closing, the Seller and the Company will enter into certain operational agreements, including trademark and formula license agreements, co-pack agreements, a liquid coffee distribution agreement, a transition services agreement, and a green coffee and tea purchase agreement. The transaction is subject to customary closing conditions, as well as completion of the information technology carve-out and delivery of historical financial statements of the DSD Business. The Purchase Agreement also includes customary indemnification obligations of the parties.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

Certain statements contained in this quarterly report on Form 10-Q regarding the risks, circumstances and financial trends that may affect our future operating results, financial position and cash flows are not based on historical fact and are forward-looking statements within the meaning of federal securities laws and regulations. These statements are based on management's current expectations, assumptions, estimates and observations of future events and include any statements that do not directly relate to any historical or current fact. These forward-looking statements can be identified by the use of words like anticipates, feels, estimates, projects, expects, plans, believes, intends, will, other words of similar meaning. Owing to the uncertainties inherent in forward-looking statements, actual results could differ materially from those set forth in forward-looking statements. A forward-looking statement is neither a prediction nor a guarantee of future events or circumstances, and those future events or circumstances may not occur. Users should not place undue reliance on the forward-looking statements, which speak only as of the date of this report. The Company undertakes no obligation to update or alter any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by the federal securities laws. Factors that could cause actual results to differ materially from those in forward-looking statements include, but are not limited to, fluctuations in availability and cost of green coffee, competition, organizational changes, the impact of a weaker economy, business conditions in the coffee industry and food industry in general, the Company's continued success in attracting new customers, variances from budgeted sales mix and growth rates, and weather and special or unusual events, as well as other risks described in this report and other factors described from time to time in the Company's filings with the SEC.

Pending Acquisition

As described in the Company's current report on Form 8-K filed with the SEC on December 8, 2008, Farmer Bros. Co. has entered into an Asset Purchase Agreement (the "Purchase Agreement") with Sara Lee Corporation and its affiliate (collectively, the "Seller").

Pursuant to the Purchase Agreement, the Company will purchase certain assets used in connection with the Seller's DSD Coffee Business, which generally consists of manufacturing and selling coffee, tea and related products through a network of facilities and vehicles. This business also includes the distribution, sale and service of brewed and liquid coffee equipment.

The assets to be purchased include manufacturing plants in Houston, Texas and Oklahoma City Oklahoma, approximately 61 leased warehouses and one owned warehouse, approximately 445 vehicles, and all DSD Coffee Business inventory, trademarks and trade names; the most well known being SUPERIOR®, MCGARVEY®, CAIN S®, IRELAND®, JUSTIN LLOYD®, METROPOLITAN® and PREBICA®. The Company anticipates hiring approximately 800 employees associated with Seller's DSD business.

At closing, the Company will assume certain liabilities, including obligations under contracts, environmental liabilities with respect to the transferred facilities, pension liabilities, advertising and trade promotion accruals, and accrued vacation as of the closing for hired personnel.

The purchase price is \$45.4 million, subject to certain adjustments, including the amount of inventory and prepaid expenses at closing, as well as additional amounts associated with (i) certain accounting costs and costs to provide the Company with information technology to operate the

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

purchased assets, which costs will be shared by the parties; and (ii) reimbursement by the Company of certain accrued vacation associated with the hired personnel. The transaction is expected to close by February 28, 2009. We have capitalized approximately \$1.1 million of expenses associated with the pending acquisition of the DSD assets of Sara Lee Corporation.

In connection with the closing, the Seller and the Company will enter into certain operational agreements, including trademark and formula license agreements, co-pack agreements, a liquid coffee distribution agreement, a transition services agreement, and a green coffee and tea purchase agreement.

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

The transaction is subject to customary closing conditions, as well as completion of the information technology carve-out and delivery of historical financial statements of the DSD Business. The Purchase Agreement also includes customary indemnification obligations of the parties.

The foregoing description of the Purchase Agreement does not purport to be complete and is qualified in its entirety by reference to the Purchase Agreement, a copy of which is filed as an exhibit to this Company's quarterly report on Form 10-Q.

Liquidity and Capital Resources

The Company expects to fund the purchase price for the assets described above with cash and debt. The Company expects to make an additional investment (above the purchase price) of approximately \$15 million to finance working capital in fiscal 2009, and not more than \$20 million to finance integration expenses, transaction costs and capital expenditures from operations, cash and debt in future years.

The continued weakness in the economy during fiscal 2009 and the sustained decline in the U.S. housing market kept pressure on the financial markets and have reduced the value and liquidity of the preferred stock we hold. As a result, we are negotiating with a commercial bank for a line of credit to provide sufficient liquidity to enable the Company to achieve its goals and provide time for the financial markets to recover. In the event we have not secured acceptable financing with a bank or other commercial lender prior to closing the acquisition, a portion of the purchase price may include a \$20 million secured promissory note in favor of the Seller.

During the fiscal quarter ended December 31, 2008 we incurred approximately \$4 million to substantially complete CBI's new plant. Planned spending in fiscal 2009 includes \$10 million investment in our Torrance plant, most of which will occur in the second half of fiscal 2009, to provide more roasting and packaging flexibility and to further reduce material handling. We have over 60% of our branches operating on the new mobile sales software and hardware installation and the remaining branch sales locations are expected to be installed by the end of the fourth quarter of fiscal 2009 at an estimated cost of approximately \$1.6 million.

Our working capital is composed of the following (unaudited, in thousands):

	December 31, 2008	December 31, 2007
Current assets	\$ 192,607	\$ 231,031
Current liabilities	25,919	27,019
Working capital	\$ 166,688	\$ 204,012
Capital expenditures	\$ 22,522	\$ 6,166
Dividends paid	\$ 3,551	\$ 3,216

At December 31, 2008 we had no material commitments for capital expenditures other than those described above.

Results of Operations

The Company's net sales in the second quarter of fiscal 2009 increased 7%, or \$5,170,000, to \$76,530,000 as compared to \$71,359,000 in the second quarter of fiscal 2008; units sold increased 4% in this period as compared to the same period in the prior year. Net sales for the first half of fiscal 2009 increased 8%, or \$10,751,000, to \$143,053,000 from \$132,302,000 in the same period of fiscal 2008, primarily due to higher selling prices, reflecting increased product costs, offset by a 2% decrease in units sold. We expect weakness in the general economy and reduced consumer spending will have a continued impact on our sales through the remainder of fiscal 2009.

Cost of goods sold in the second quarter of fiscal 2009 increased 5% to \$39,212,000 or 51% of sales as compared to \$37,183,000, or 52% of sales, in the second quarter of fiscal 2008. Gross profit in the second quarter of fiscal 2009 increased \$3,142,000 to \$37,318,000, or 49% of sales, as compared to \$34,176,000, or 48% of sales, in the second quarter of fiscal 2008. Cost of goods sold for the first six months of fiscal 2009 increased \$5,386,000 to \$74,785,000 as compared to \$69,399,000 in the same period of fiscal 2008. Gross profit in the first half of 2009 increased \$5,366,000 to \$68,269,000, or 48% of sales, as compared to \$62,903,000, or 48% of sales, in the same

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

period of fiscal 2008. Higher commodity prices and higher fuel costs have kept pressure on our profit margins in the first half of fiscal 2009 as compared to the same period of fiscal 2008. While we make every effort to pass these higher costs through to our customers, competition restricts our ability to do so. We cannot predict whether the current profit margins can be maintained.

Operating expenses in the second quarter of fiscal 2009 increased \$3,719,000 to \$37,105,000 from \$33,386,000 in the second quarter of fiscal 2008, largely because of increased selling expenses. Selling expenses for the three months ended December 31, 2008 increased \$4,708,000, or 39% of sales, to \$30,193,000 from 36% of sales or \$25,485,000 in the same period of fiscal 2008. Selling expenses for the first half of fiscal 2009 increased to \$58,197,000, or 41% of sales, from \$48,840,000, or 37% of sales, in the same period of fiscal 2008. This increase is primarily the result of higher sales and a \$1.8 million (19%) increase in freight costs in the first two quarters of fiscal 2009.

Our income from operations in the second quarter of fiscal 2009 was \$213,000 as compared to income from operations of \$790,000 in the same quarter of fiscal 2008. Loss from operations in the first half of fiscal 2009 was (\$4,042,000) as compared to (\$1,739,000) in the same period of fiscal 2008.

Total other income (expense) in the second quarter of fiscal 2009 was \$551,000 as compared to an expense of (\$3,153,000) in the second quarter of fiscal 2008. Total other (expense) in the first half of fiscal 2009 was (\$7,775,000) as compared to (\$3,761,000) in the first half of fiscal 2008. These changes are primarily the result of changes in Other, net (expense) income, which reflects realized and unrealized losses (gains) in our preferred stock portfolio. Financial market conditions described in our Form 10-K for the year ended June 30, 2008 have continued into the first half of fiscal 2009. The downturn in the housing market combined with real estate financing and liquidity issues have put pressure on the valuations of the preferred stocks we hold. The Company has no direct exposure to sub-prime mortgages, but financial companies compose approximately 85% of the universe of preferred stocks. Selling pressure from leveraged investors who need liquidity and a new supply of preferred issues taking advantage of lower dividend rates have resulted in a downward pressure on values.

Investor demand for the safety of U.S. Treasury instruments has flattened the U.S. Treasury yield curve and widened spreads between preferred stocks and U.S. Treasury instruments. We believe that preferred stocks are currently priced cheaper to U.S. Treasury bond yields than they have ever traded. Although aggressive easing of interest rates by the world's central banks and other economic stimulus actions by governments may eventually have positive effects on this situation, we expect little improvement until the housing market stabilizes.

As a result of the forgoing factors, net loss for the second quarter of fiscal 2009 was (\$106,000), or (\$0.01) per share, as compared to a net loss of (\$228,000), or (\$0.02) per share, in the second quarter of fiscal 2008. Net loss for the first two quarters of fiscal 2009 was (\$6,190,000), or (\$0.42) per share as compared to (\$1,180,000), or (\$0.08) per share, in the same period of fiscal 2008.

Item 3. Qualitative and Quantitative Disclosures About Market Risk**Interest Rate Risk**

We are exposed to market value risk arising from changes in interest rates on our securities portfolio. Our portfolio of investment grade money market instruments can include at any given time: discount commercial paper, medium term notes, federal agency issues and treasury securities. As of December 31, 2008, over 90% of these funds were invested in a money market fund which invests in investment grade commercial paper and U.S. Treasury securities. The funds are available on demand, and are currently covered under the U.S. Treasury Department Guarantee Program for Money Market Funds. As a result the funds have been classified as cash equivalents.

From time to time, our portfolio of preferred securities includes investments in derivatives that provide a natural economic hedge of interest rate risk. We review the interest rate sensitivity of these securities and (a) enter into short positions in futures contracts on U.S. Treasury securities or (b) hold put options on such futures contracts in order to reduce the impact of certain interest rate changes on such preferred stocks. Specifically, we attempt to manage the risk arising from changes in the general level of interest rates. We do not transact in futures contracts or put options for speculative purposes.

The following table demonstrates the impact of varying interest rate changes based on the preferred stock holdings, futures and options positions, and market yield and price relationships at December 31, 2008. This table is predicated on an instantaneous change in the general level of interest rates and assumes predictable relationships between the prices of preferred securities holdings, the yields on U.S. Treasury securities and related futures and options.

The number and type of futures and options contracts entered into depends on, among other items, the specific maturity and issuer redemption provisions for each preferred stock held, the slope of the U.S. Treasury yield curve, the expected volatility of U.S. Treasury yields, and the costs of using futures and/or options.

As of December 31, 2008 there were no futures or options contracts in place as an interest rate hedge.

Interest Rate Changes	Market Value at December 31, 2008			Changes in Market Value of Total Portfolio
	Preferred Securities	Futures and Options	Total Portfolio	
			(In thousands)	
-150 basis points	\$ 43,542	\$	\$ 43,542	\$ 566
-100 basis points	\$ 43,419	\$	\$ 43,419	\$ 443
Unchanged	\$ 42,976	\$	\$ 42,976	\$
+100 basis points	\$ 42,046	\$	\$ 42,046	\$ (930)
+150 basis points	\$ 41,134	\$	\$ 41,134	\$ (1,842)

Commodity Price Risk

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

We are exposed to commodity price risk arising from changes in the market price of green coffee. We price our coffee inventory on the LIFO basis. In the normal course of business we hold a large green coffee inventory and enter into forward commodity purchase agreements with suppliers. We are subject to price risk resulting from the volatility of green coffee prices. Volatile price increases cannot, because of competition and market conditions, always be passed on to our customers. From time to time the Company will hold a mix of futures contracts and options to help hedge against volatile green coffee price changes. Gains and losses on these derivative instruments are realized immediately in Other, net (expense) income. At December 31, 2008 the potential change in fair value of commodity derivatives assuming a 10% change in the price of green coffee was approximately \$400,000.

Item 4. Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported, within the time periods specified in the rules and forms of the SEC. Disclosure controls and procedures include, without limitation, controls and

procedures designed to ensure that information we are required to disclose in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures.

As of December 31, 2008, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures pursuant to Rule 13(a)-15(e) promulgated under the Exchange Act. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of December 31, 2008, our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

Management has determined that there has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) promulgated under the Exchange Act) during our fiscal quarter ended December 31, 2008, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 4. Submission of Matters to a Vote of Security Holders

On December 11, 2008 the Company held its Annual Meeting. Of the 16,100,280 shares of common stock outstanding and entitled to vote at the Annual Meeting, 15,012,581 were represented at the meeting, or a 93% quorum.

At the Annual Meeting, stockholders:

1. Elected each of the following two (2) individuals to the Board of Directors to serve a three-year term as Class II directors until the Annual Meeting of Stockholders in 2011 and until their successors have been duly elected and qualified:

Director Nominee	Votes Cast For	Votes Withheld
Guenter W. Berger	14,778,798	233,783
Thomas A. Maloof	14,793,861	218,720

The other directors whose term of office as a director continued after the meeting are: Roger M. Lavery III; Martin A. Lynch; James J. McGarry; John H. Merrell; and Carol Farmer Waite.

Edgar Filing: FARMER BROTHERS CO - Form 10-Q

2. Ratified the selection of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending June 30, 2009. There were 14,861,387 votes for the appointment, 118,438 votes against the appointment, 32,756 abstentions and no broker non-votes.

Item 6. Exhibits

See Exhibit Index.
