CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited consolidated financial statements for the interim periods have been prepared in accordance with Generally Accepted Accounting Principles in the United States of America (GAAP) for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the financial information and footnotes required by GAAP for complete financial statements, although we believe the disclosures are adequate to make the information presented not misleading. It is suggested that these consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in our latest shareholders' annual report on Form 10-K. The operating results for the interim periods presented are not necessarily indicative of the results expected for the full year or for any other interim period. In our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included.

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. In preparing these consolidated financial statements, we have made our best estimates and judgments of certain amounts included in the consolidated financial statements, giving due consideration to materiality. Changes in the estimates and assumptions used by us could have a significant impact on our financial results, since actual results could differ from those estimates.

Principles of Consolidation

The consolidated financial statements include the accounts of Nortech Systems Incorporated and its wholly owned subsidiary, Manufacturing Assembly Solutions of Monterrey, Inc. All significant intercompany accounts and transactions have been eliminated.

Revenue Recognition

We recognize revenue upon shipment of manufactured products to customers, when title has passed, all contractual obligations have been satisfied and collection of the resulting receivable is reasonably assured. We also provide engineering services separate from the manufacture of a product. Revenue for engineering services is recognized upon completion of the engineering process, providing standalone fair value to our customers. Our engineering services are short-term in nature. In addition, we have another separate source of revenue that comes from short-term repair services, which are recognized upon completion of the repairs and shipment of product back to the customer. Shipping and handling costs charged to our customers are included in net sales, while the corresponding shipping expenses are included in cost of goods sold.

Table of Contents**Stock Options**

Following is the status of all stock options as of September 30, 2010, including changes during the nine-month period then ended:

	Shares		Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Contractual Term (in years)		Aggregate Intrinsic Value
Outstanding - January 1, 2010	736,750	\$	7.20

Exercisable - September 30, 2010	291,250	\$	7.37	4.42	\$	

The total intrinsic value of options exercised during the three and nine months ended September 30, 2010 was \$0 and \$20, respectively. Cash received from option exercises during the three and nine months ended September 30, 2010 was \$0 and \$12,500, respectively. There were no options exercised during the three and nine months ended September 30, 2009.

Stock Options with Time-Based Vesting

Total compensation expense related to stock options with time-based vesting for the three months ended September 30, 2010 and 2009 was \$7,932 and \$31,296, respectively. Total compensation expense related to stock options with time-based vesting for the nine months ended September 30, 2010 and 2009 was \$23,796 and \$93,888, respectively. At September 30, 2010 we had 315,250 time-based options outstanding.

As of September 30, 2010 there was approximately \$35,000 of unrecognized compensation expense related to unvested option awards that we expect to recognize over a weighted-average period of 1.10 years.

Segment Reporting Information

For the three and nine months ended September 30, 2010 and 2009 all of our operations fall under the Contract Manufacturing segment within the Electronic Manufacturing Services industry. We strategically direct production between our various manufacturing facilities based on a number of considerations to best meet our customers' requirements. We share resources for sales, marketing, cash and risk management, banking, credit and collections, human resources, payroll, internal control, audit, taxes, SEC reporting and corporate accounting. Consolidated financial information is available that is evaluated regularly by the chief operating decision maker in assessing performance and allocating resources. Export sales represented 6% and 5% of consolidated net sales for the three and nine months ended September 30, 2010, respectively and 4% of consolidated net sales for the three and nine months ended September 30, 2009.

Inventories

Inventories are stated at the lower of cost (first-in, first-out method) or market (based on the lower of replacement cost or net realizable value). Costs include material, labor, and overhead required in the warehousing and production of our products. Inventory reserves are maintained for the estimated

NOTE 2. CONCENTRATION OF CREDIT RISK AND MAJOR CUSTOMERS

Financial instruments that potentially subject us to concentrations of credit risk consist principally of cash and cash equivalents and accounts receivable. With regard to cash and cash equivalents, we maintain our excess cash balances in checking accounts at one high-credit quality financial institution. This account may at times exceed federally insured limits. We do not require collateral on our accounts receivable.

One customer accounted for 10% or more of our net sales for the three and nine months ended September 30, 2010. Two customers accounted for 10% or more of our sales for the three and nine months ended September 30, 2009. G.E.'s Medical Division accounted for 17% and 18% of net sales for the three and nine months ended September 30, 2010, respectively and 19% and 14% of net sales for the three and nine month periods ended September 30, 2009, respectively. GE's Transportation Division accounted for 6% and 8% of net sales for the three and nine months ended September 30, 2010, respectively and 18% and 14% for the three and nine month periods ended September 30, 2009, respectively. GE's Medical and Transportation Divisions combined accounted for 23% and 27% of net sales for the three and nine month periods ended September 30, 2010, respectively and 37% and 28% of net sales for the three and nine month periods ended September 30, 2009, respectively. Accounts receivable from G.E.'s Medical and Transportation Divisions represented 14% of total accounts receivable at September 30, 2010. Additionally, Northrop Grumman Corp. accounted for 9% and 12% of net sales for the three and nine month periods ended September 30, 2009, respectively.

NOTE 3. FINANCING ARRANGEMENTS

On May 27, 2010 we entered into a third amended and restated credit agreement with Wells Fargo Bank (WFB), which provides for a line of credit arrangement of \$12 million, which expires if not renewed, on May 31, 2013. The credit arrangement also has a real estate term note with a maturity date of May 31, 2012. Both the line of credit and real estate term note are subject to variations in LIBOR rates. The line of credit and real estate term note with WFB contain certain covenants which, among other things, require us to adhere to regular reporting requirements, abide by annual shareholder dividend limitations, maintain certain financial performance, and limit the amount of annual capital expenditures. On September 30, 2010, we had an outstanding balance of \$6.3 million under the line of credit, unused availability of \$3.1 million supported by our borrowing base and were in compliance with all covenants.

NOTE 4. DERIVATIVE INSTRUMENTS AND HEDGING STRATEGIES

We are exposed to interest rate risk associated with fluctuations in the interest rates on our variable interest rate debt. In order to manage some of the risk, we have entered into an interest rate swap agreement with a notional amount of \$1.4 million with a goal to effectively convert our industrial revenue bond debt from a variable rate to a fixed rate of 4.07% for five years, maturing on June 28, 2011. We do not use this interest rate swap for speculative purposes. The fair value of the swap of approximately \$26,000 and \$46,000 was recorded in other long-term liabilities at September 30, 2010 and December 31, 2009 respectively. The change in fair value of \$20,000 and \$13,000 for the nine-month periods ended September 30, 2010 and 2009, respectively, was recorded as a component of interest expense.

Table of Contents

NOTE 5. NET INCOME (LOSS) PER COMMON SHARE

For the three and nine months ended September 30, 2010 and 2009, the effect of all stock options is antidilutive either due to the net loss incurred in 2009 or because to include them would be antidilutive in 2010. Therefore, no outstanding options were included in the computation of per-share amounts.

NOTE 6. INCOME TAXES

On a quarterly basis, we estimate what our effective tax rate will be for the full fiscal year and record a quarterly income tax provision based on the anticipated rate. As the year progresses, we refine our estimate based on the facts and circumstances by each tax jurisdiction. The effective tax rates for the quarters ended September 30, 2010 and 2009 were approximately 42% and 38%, respectively. The year-to-date effective tax rates for the nine months ending September 30, 2010 and 2009 were 52% and 38%, respectively. The increase in the quarterly tax rate is primarily due to the increased FIN 48 reserve. The increase in the nine month effective tax rate from 2009 to 2010 relates primarily to the true-up of our net operating loss (NOL) carryback which resulted in additional tax expense of approximately \$103,000.

At September 30, 2010 we had \$102,750 of net uncertain tax benefit positions recorded in other long-term liabilities that would reduce our effective income tax rate if recognized. The \$12,250 decrease from December 31, 2009 relates primarily to the NOL carryback which resulted in the loss of domestic production deductions.

NOTE 7. COMPREHENSIVE INCOME (LOSS)

Comprehensive income (loss) is comprised of net income (loss) and other comprehensive income (loss). Other comprehensive income (loss) includes gains and losses resulting from foreign currency translations. The details of comprehensive income (loss) are as follows:

	Three Months Ended September 30		Nine Months Ended September 30	
	2010	2009	2010	2009
Net Income (Loss)	\$ 127,318	\$ (853,694)	\$ 369,714	\$ (3,689,694)
Other Comprehensive Loss:				
Currency Translation Adjustment	2,625	30,312	1,068	3,978
Comprehensive Income (Loss)	\$ 129,943	\$ (823,382)	\$ 370,782	\$ (3,685,716)

NOTE 8. RESTRUCTURING AND IMPAIRMENT CHARGES

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

To better align our cost structure with changes in customer demand, our Board of Directors approved a restructuring plan in the second quarter of fiscal year 2009. This restructuring resulted in the closing of our Garner, Iowa facility at the end of August 2009 with production moving to Merrifield, Minnesota and closing our Fairmont Aerospace assembly production facilities and moving these activities to Blue Earth, Minnesota. One building in Fairmont was sold and another is held for sale at September 30, 2010 and is included in Other Assets on the balance sheet. As a result of these decisions, we recognized approximately \$0.4 million and \$1.0 million of restructuring and impairment charges for the three and nine months ended September 30, 2009, respectively, in Income (Loss) from Operations. Total cash paid during the three and nine months ended September 30, 2010 related to

Table of Contents

this restructuring was \$0 and \$16,000, respectively. All accrued liabilities relating to the restructuring were paid as of September 30, 2010.

NOTE 9. ACQUISITION

On May 4, 2010, we acquired all of the intellectual property and assets, excluding cash and receivables, of Trivirix Corporation, Milaca, MN for \$403,000 which consisted of \$303,000 in inventory and \$100,000 in property and equipment. This operation specializes in design, manufacturing and post-production services of complex electronic and electromechanical medical devices for diagnostic, analytical and other life-science applications. This acquisition expands our capabilities and expertise serving medical electronics manufacturers.

The acquisition has been accounted for as a purchase and results of operations for Milaca since the date of acquisition are included in the consolidated financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview:

We are a Wayzata, Minnesota based full-service Electronics Manufacturing Services (EMS) contract manufacturer of wire and cable assemblies, printed circuit board assemblies, higher-level assemblies and box builds for a wide range of industries. We provide value added services and technical support including design, testing, prototyping and supply chain management to customers mainly in the Aerospace and Defense, Medical, and Industrial Equipment markets. We maintain manufacturing facilities in Baxter, Bemidji, Blue Earth, Fairmont, Merrifield, and Milaca, Minnesota; Augusta, Wisconsin; and Monterrey, Mexico.

Summary of Results:

For the quarter ended September 30, 2010, we reported net sales of \$26.0 million compared to \$18.7 million reported in the same quarter of 2009, a 39% improvement. Net sales of \$72.4 million for the first nine months of 2010 increased 20% over the \$60.1 million reported for the first nine months of 2009. We continue to see increased confidence by our customers. Our 90-day backlog increased to \$23.5 million as of September 30, 2010 compared to \$14.2 million for the same period last year and \$21.3 million at the start of the quarter.

Our gross margin in the third quarter of 2010 was 11.1% compared to 8.7% in the third quarter of 2009. The volume increase, cost controls and continuous improvement programs favorably impacted our third quarter gross margin results.

Net Sales:

We reported net sales of \$26.0 million and \$18.7 million for the three months ended September 30, 2010 and 2009, respectively. Sales for the nine months ended September 30, 2010 and 2009 were \$72.4 million and \$60.1 million, respectively. The Milaca medical device operation acquired in May 2010 accounted for \$1.4 million and \$2.3 million of net sales for the three and nine months ended September 30, 2010. Net sales by industry markets for the three and nine-month periods ended September 30, 2010 and 2009 are as follows:

(in thousands)	Three Months Ended September 30			Nine Months Ended September 30		
	2010 \$	2009 \$	% Change	2010 \$	2009 \$	% Change

to see significant increases as the overall economy stabilized and we began to see more new business opportunities and improved buying confidence from our existing customer base.

Backlog:

Our 90-day order backlog as of September 30, 2010 was approximately \$23.5 million, compared to approximately \$21.3 million at the beginning of the quarter and \$14.2 million at September 30, 2009. During the quarter we continued to see increased customer activity along with increased levels of quoting from both new and existing customers. Our Aerospace and Defense quarter end backlog is beginning to show signs of recovery with an increase of 2% over the start of the quarter. The Milaca medical device operation acquired in May 2010 accounted for \$1.1 million of the 90 day medical and total backlog at September 30, 2010. Backlog by industry market is shown below.

(in thousands)	Backlog as of the Quarter Ended			% Change	
	September 30 2010		June 30 2010		
Aerospace and Defense	\$	4,668	\$	4,559	2
Medical		6,969		6,537	7

Gross Profit:

Gross profit percentage for the three months and nine months ended September 30, 2010 was 11.1% and 11.9% of net sales, respectively. Gross profit percentage for the three and nine months ended September 30, 2009 was 8.7% and 5.9%, of net sales, respectively. We continue to see gross profit improvement year over year due to higher volumes and increased absorption of our fixed overhead costs, along with our continuous improvement programs. Our quarter over quarter gross profit percentage was down from the 12.6% reported in the second quarter due to the re-instatement of wages, merit increases, 401K matching and incentive programs on July 1, 2010.

Selling Expense:

We had selling expenses of \$0.8 million or 3.0% of net sales and 2.3 million or 3.2% of net sales for the three and nine months ended September 30, 2010, respectively. Selling expenses for the three and nine months ended September 30, 2009 were \$1.0 million or 5.5% of net sales and \$3.6 million or 5.9% of net sales, respectively. Selling expenses are down as a result of lower spending, lower commissionable sales, and reduced payroll related expenses.

General and Administrative Expense:

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

General and administrative expenses as a percent of net sales remained relatively flat for the three and nine-month periods ended September 30, 2010 and 2009. Our general and administrative expenses were \$1.9 million or 7.5% of net sales and \$5.4 million or 7.4% of net sales for the three and nine months ended September 30, 2010, respectively. General and administrative expenses for the three and nine months ended September 30, 2009 were \$1.4 million or 7.4% of net sales and \$4.5 million or 7.5% of net sales, respectively. The increase in general and administrative expense in 2010 is related to the re-instatement of wages, merit increases, 401K matching and incentive programs on July 1, 2010.

Other Income (Expense):

Other income for the three months ended September 30, 2010 was \$54,128 while other expense for the three months ended September 30, 2009 was \$227,443. Other expense for the nine months ended September 30, 2010 and 2009 was \$209,228 and \$506,253, respectively. In the three months ended September 30, 2010 we experienced favorable interest expense along with miscellaneous income from research consulting activities.

Income Taxes:

Income tax expense for the three and nine months ended September 30, 2010 was \$93,000 and \$398,000 or approximately 42% and 52%, respectively. The projected annual effective tax rate for 2010 is expected to be approximately 37% without regard for discrete items. The increase in the nine month effective tax rate over the expected annual effective rate is primarily the result of a true up of our federal tax refund which resulted in additional tax expense of approximately \$103,000 in the third quarter. The income tax benefit for the three and nine months ended September 30, 2009 was \$523,000 and \$2,309,000 or approximately 38%. The annual effective rate for 2009 was 37% without regard for discrete items.

Liquidity and Capital Resources:

We have satisfied our liquidity needs over the past several years through revenue generated from operations and an operating line of credit through WFB. Both the line of credit and real estate term note are subject to fluctuations in the LIBOR rates. The line of credit and real estate term note with WFB contain certain covenants which, among other things, require us to adhere to regular reporting requirements, abide by annual shareholder dividend limitations, maintain certain financial performance, and limit the amount of annual capital expenditures. The availability under our line is subject to borrowing base requirements, and advances are at the discretion of the lender. The line of credit is secured by substantially all of our assets. On September 30, 2010, we had an outstanding balance of \$6.3 million under the line of credit and unused availability of \$3.1 million supported by our borrowing base. We believe our financing arrangements and cash flows provided by operations will be sufficient to satisfy our future working capital needs.

The following unaudited ratios are not required under the SEC guidelines or accounting principles generally accepted in the United States of America, however, we believe they are meaningful measures and are useful to readers of our consolidated financial statements.

Table of Contents

Our working capital of \$12.8 million as of September 30, 2010 decreased from \$13.2 million at December 31, 2009 partially due to the decrease in income taxes receivable of \$2.2 million, higher accounts payable of \$1.6 million and higher accrued payroll and benefits of \$1.7 million, which were partially offset by increases in inventories of \$2.2 million and accounts receivables of \$2.8 million during the first nine months of 2010.

Net cash provided by operations for the nine months ended September 30, 2010 was \$1.6 million. The cash flow provided by operations for the nine months ended September 30, 2010 is the result of net income of \$0.4 million, adjusted for noncash adjustments including depreciation, amortization, and stock-based compensation expense which combined totaled \$1.6 million in positive adjustments. In addition, the increases in inventories of \$2.2 million and accounts receivable of \$2.8 million were partially offset by increases in accounts payable and accruals of \$2.6 million and a decrease in prepaids and income taxes receivable of \$2.2 million. The inventories and accounts receivable increases are related to increased net sales and customer orders in the first nine months of 2010.

Net cash used in investing activities of \$0.9 million for the nine months ended September 30, 2010 is comprised of \$0.4 million in property and equipment purchases to support the business and \$0.4 million for the Milaca operation acquisition (see Note 9).

Net cash used in financing activities for the nine months ended September 30, 2010 was \$1.0 million, due to principal debt payments of \$1.8 million, partially offset by the increase in borrowing on the line of credit of \$0.8 million.

Critical Accounting Policies and Estimates

Our significant accounting policies and estimates are summarized in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2009. There have been no significant changes in these critical accounting policies since December 31, 2009. Some of our accounting policies require us to exercise significant judgment in selecting the appropriate assumptions for calculating financial estimates. Such judgments are subject to an inherent degree of uncertainty. These judgments are based on our historical experience, known trends in our industry, terms of existing contracts and other information from outside sources, as appropriate. Actual results could differ from these estimates.

Forward-Looking Statements:

Those statements in the foregoing report that are not historical facts are forward-looking statements made pursuant to the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements generally will be accompanied by words such as anticipate, believe, estimate, expect, forecast, intend, possible, potential, predict, project, or other similar words that convey the uncertainty of future outcomes. Although we believe these forward-looking statements are reasonable, they are based upon a number of assumptions concerning future conditions, any or all of which may ultimately prove to be inaccurate. Forward-looking statements involve a number of risks and uncertainties. Important factors that could cause actual results to differ materially from the forward-looking statements include, without limitation:

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

- Volatility in the marketplace which may affect market supply and demand for our products;
- Increased competition;
- Changes in the reliability and efficiency of operating facilities or those of third parties;
- Risks related to availability of labor;
- Increase in certain raw material costs such as copper;

- Commodity and energy cost instability;
- General economic, financial and business conditions that could affect our financial condition and results of operations;
- Additional impairment or restructuring charges;
- Potential costs or issues association with the integration of the Milaca acquisition

The factors identified above are believed to be important factors (but not necessarily all of the important factors) that could cause actual results to differ materially from those expressed in any forward-looking statement made by us. Unpredictable or unknown factors not discussed herein could also have material adverse effects on forward-looking statements. All forward-looking statements included in this Form 10-Q are expressly qualified in their entirety by the forgoing cautionary statements. We undertake no obligations to update publicly any forward-looking statement (or its associated cautionary language) whether as a result of new information or future events.

Please refer to forward-looking statements and risks as previously disclosed in our report on Form 10-K for the fiscal year ended December 31, 2009.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures:

In accordance with Rule 13a-15(b) of the Securities Exchange Act of 1934 (the Exchange Act), as of the end of the period covered by this Quarterly Report on Form 10-Q, our management evaluated, with the participation of our Chief Executive Officer and Executive Vice President and Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act). Based upon their evaluation of these disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures were effective as of the date of such evaluation in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting:

There was no change in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
