- \* Non-income producing security.
- (a) Security is valued in good faith at fair value in accordance with procedures approved by the Board of Directors (See Note 1).
- (b) Illiquid security.
- (c) Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010.
- (d) Security is exempt from registration under Rule 144A of the Securities Act of 1933. This security may be resold in transactions that are exempt from registration, normally to qualified institutional buyers. This security has been deemed liquid pursuant to guidelines approved by the Board of Directors, unless otherwise noted.
- (e) The coupon payment on these securities is currently in default as of September 30, 2010.
- (f) Security has no maturity date. The date shown represents the next call date.
- (g) This security is traded on a to-be-announced ( TBA ) basis (See Note 1).
- (h) All or a portion of this security is held at the broker as collateral for open futures contracts.
- # Aggregate cost for federal income tax purposes is substantially the same.

Abbreviations used in this schedule:

ADR - American Depositary Receipt  
ARM - Adjustable Rate Mortgage

**Notes to Schedule of Investments (unaudited)**

**1. Organization and Significant Accounting Policies**

LMP Capital and Income Fund Inc. (the Fund) was incorporated in Maryland on November 12, 2003 and is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Board of Directors authorized 100 million shares of \$0.001 par value common stock. The Fund's investment objective is total return with an emphasis on income. The Fund pursues its investment objective by investing at least 80% of its assets in a broad range of equity and fixed income securities of both U.S. and foreign issuers.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP).

**(a) Investment Valuation.** Equity securities for which market quotations are available are valued at the last reported sales price or official closing price on the primary market or exchange on which they trade. Debt securities are valued at the mean between the last quoted bid and asked prices provided by an independent pricing service, which are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded. Fair valuing of securities may be also determined with the assistance of a pricing service using calculations based on indices of domestic securities and the appropriate indicators, such as prices of relevant American depository receipts (ADRs) and futures contracts. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund values these securities at fair value as determined in accordance with procedures approved by the Fund's Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

The Fund has adopted Financial Accounting Standards Board Codification Topic 820 (ASC Topic 820). ASC Topic 820 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

## Edgar Filing: LMP CAPITAL & INCOME FUND INC. - Form N-Q

The Fund uses valuation techniques to measure fair value that are consistent with the market approach and/or income approach, depending on the type of security and the particular circumstance. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable securities. The income approach uses valuation techniques to discount estimated future cash flows to present value.

**Notes to Schedule of Investments (unaudited) (continued)**

The following is a summary of the inputs used in valuing the Fund's assets and liabilities carried at fair value:

| DESCRIPTION                                  | QUOTED<br>PRICES<br>(LEVEL 1) | OTHER<br>SIGNIFICANT<br>OBSERVABLE<br>INPUTS<br>(LEVEL 2) | SIGNIFICANT<br>UNOBSERVABLE<br>INPUTS<br>(LEVEL 3) | TOTAL          |

| Transfers out of Level 3  |    | (0)*   |    |        |    | (0)*   |
| Balance as of September 30, 2010  | \$ | 37,347 | \$ | 19,352 | \$ | 2      |
| Net change in unrealized appreciation<br>(depreciation) for investments in securities still<br>held at September 30, 2010 (1) |    |        | \$ | 19,352 | \$ | 2      |
|   |    |        |    |        |    | 19,354 |

\* Value is less than \$1.

(1) Change in unrealized appreciation (depreciation) includes net unrealized appreciation (depreciation) resulting from changes in investment values during the reporting period and the reversal of previously recorded unrealized appreciation (depreciation) when gains or losses are realized.

**(b) Repurchase Agreements.** The Fund may enter into repurchase agreements with institutions that its investment adviser has determined are creditworthy. Each repurchase agreement is recorded at cost. Under the terms of a typical repurchase agreement, the Fund acquires a debt security subject to an obligation of the seller to repurchase, and of the Fund to resell, the security at an agreed-upon price and time, thereby determining the yield during the Fund's holding period. When entering into repurchase agreements, it is the Fund's policy that its custodian or a third party custodian, acting on the Fund's behalf, take possession of the underlying collateral securities, the market value of which, at all times, at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that

**Notes to Schedule of Investments (unaudited) (continued)**

any repurchase transaction maturity exceeds one business day, the value of the collateral is marked to market and measured against the value of the agreement in an effort to ensure the adequacy of the collateral. If the counterparty defaults, the Fund generally has the right to use the collateral to satisfy the terms of the repurchase transaction. However, if the market value of the collateral declines during the period in which the Fund seeks to assert its rights or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

**(c) Written Options.** When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability, the value of which is marked to market daily to reflect the current market value of the option written. If the option expires, the premium received is recorded as a realized gain. When a written call option is exercised, the difference between the premium received plus the option exercise price and the Fund's basis in the underlying security (in the case of a covered written call option), or the cost to purchase the underlying security (in the case of an uncovered written call option), including brokerage commission, is recognized as a realized gain or loss. When a written put option is exercised, the amount of the premium received is subtracted from the cost of the security purchased by the Fund from the exercise of the written put option to form the Fund's basis in the underlying security purchased. The writer or buyer of an option traded on an exchange can liquidate the position before the exercise of the option by entering into a closing transaction. The cost of a closing transaction is deducted from the original premium received resulting in a realized gain or loss to the Fund.

The risk in writing a covered call option is that the Fund may forego the opportunity of profit if the market price of the underlying security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the underlying security decreases and the option is exercised. The risk in writing a call option is that the Fund is exposed to the risk of loss if the market price of the underlying security increases. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market.

**(d) Futures Contracts.** The Fund may use futures contracts to gain exposure to, or hedge against, changes in the value of equities, interest rates or foreign currencies. A futures contract represents a commitment for the future purchase or sale of an asset at a specified price on a specified date.

Upon entering into a futures contract, the Fund is required to deposit cash or cash equivalents with a broker in an amount equal to a certain percentage of the contract amount. This is known as the initial margin and subsequent payments (variation margin) are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. For certain futures, including foreign denominated futures, variation margin is not settled daily, but is recorded as a net variation margin payable or receivable. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded.

Futures contracts involve, to varying degrees, risk of loss. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market.

**(e) Swap Agreements.** The Fund may invest in swaps for the purpose of managing its exposure to interest rate, credit or market risk, or for other purposes. The use of swaps involves risks that are different from those associated with ordinary portfolio transactions.

## Edgar Filing: LMP CAPITAL & INCOME FUND INC. - Form N-Q

Swap contracts are marked to market daily and changes in value are recorded as unrealized appreciation (depreciation). Gains or losses are realized upon termination of the swap agreement. Collateral, in the form of restricted cash or securities, may be required to be held in segregated accounts with the Fund's custodian in compliance with the terms of the swap contracts. Securities posted as collateral for swap contracts are identified in the Schedule of Investments.

### *Interest Rate Swaps.*

The Fund may enter into interest rate swap contracts. Interest rate swaps are agreements between two parties to exchange cash flows based on a notional principal amount. The Fund may elect to pay a fixed rate and receive a floating rate, or, receive a fixed rate and pay a floating rate on a notional principal amount. Interest rate swaps are marked to market daily based upon quotations from market makers. When a swap contract is terminated early, the Fund records a realized gain or loss equal to the difference between the original cost and the settlement amount of the closing transaction.

The risks of interest rate swaps include changes in market conditions that will affect the value of the contract or changes in the present value of the future cash flow streams and the possible inability of the counterparty to fulfill its obligations under the agreement. The Fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to be received from the counterparty over the contract's remaining life, to the extent that that amount is positive. This risk is mitigated by the posting of collateral by the counterparty to the Fund to cover the Fund's exposure to the counterparty.

**Notes to Schedule of Investments (unaudited) (continued)**

**(f) Inflation-Indexed Bonds.** Inflation-indexed bonds are fixed-income securities whose principal value or interest rate is periodically adjusted according to the rate of inflation. As the index measuring inflation changes, the principal value or interest rate of inflation-indexed bonds will be adjusted accordingly. Repayment of the original bond principal upon maturity (as adjusted for inflation) is guaranteed in the case of U.S. Treasury inflation-indexed bonds. For bonds that do not provide a similar guarantee, the adjusted principal value of the bond repaid at maturity may be less than the original principal.

**(g) Securities Traded on a To-Be-Announced Basis.** The Fund may trade securities on a to-be-announced ( TBA ) basis. In a TBA transaction, the Fund commits to purchasing or selling securities which have not yet been issued by the issuer and for which specific information, such as the face amount, maturity date and underlying pool of investments in U.S. government agency mortgage pass-through securities, is not announced. Securities purchased on a TBA basis are not settled until they are delivered to the Fund. Beginning on the date the Fund enters into a TBA transaction, cash, U.S. government securities or other liquid high-grade debt obligations are segregated in an amount equal in value to the purchase price of the TBA security. These securities are subject to market fluctuations and their current value is determined in the same manner as for other securities.

**(h) Mortgage Dollar Rolls.** The Fund may enter into mortgage dollar rolls in which the Fund sells mortgage-backed securities for delivery in the current month, realizing a gain or loss, and simultaneously contracts to repurchase substantially similar (same type, coupon and maturity) securities to settle on a specified future date.

The Fund executes its mortgage dollar rolls entirely in the TBA market, whereby the Fund makes a forward commitment to purchase a security and, instead of accepting delivery, the position is offset by a sale of the security with a simultaneous agreement to repurchase at a future date. The Fund accounts for mortgage dollar rolls as purchases and sales.

The risk of entering into mortgage dollar rolls is that the market value of the securities the Fund is obligated to repurchase under the agreement may decline below the repurchase price. In the event the buyer of securities under a mortgage dollar roll files for bankruptcy or becomes insolvent, the Fund's use of the proceeds of the mortgage dollar roll may be restricted pending a determination by the counterparty, or its trustee or receiver, whether to enforce the Fund's obligation to repurchase the securities.

**(i) Foreign Currency Translation.** Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the respective dates of such transactions.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. dollar denominated transactions as a result of, among other factors, the possibility of lower levels of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

## Edgar Filing: LMP CAPITAL & INCOME FUND INC. - Form N-Q

**(j) Credit and Market Risk.** The Fund invests in high-yield and emerging market instruments that are subject to certain credit and market risks. The yields of high-yield and emerging market debt obligations reflect, among other things, perceived credit and market risks. The Fund's investment in securities rated below investment grade typically involve risks not associated with higher rated securities including, among others, greater risk related to timely and ultimate payment of interest and principal, greater market price volatility and less liquid secondary market trading. The consequences of political, social, economic or diplomatic changes may have disruptive effects on the market prices of investments held by the Fund. The Fund's investment in non-U.S. dollar denominated securities may also result in foreign currency losses caused by devaluations and exchange rate fluctuations.

**(k) Security Transactions.** Security transactions are accounted for on a trade date basis.

### 2. Investments

At September 30, 2010, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

|                               |    |              |
|-------------------------------|----|--------------|
| Gross unrealized appreciation | \$ | 42,950,153   |
| Gross unrealized depreciation |    | (12,517,182) |
| Net unrealized appreciation   | \$ | 30,432,971   |

**Notes to Schedule of Investments (unaudited) (continued)**

At September 30, 2010, the Fund had the following open futures contracts:

|   | NUMBER OF<br>CONTRACTS | EXPIRATION<br>DATE | BASIS<br>VALUE | MARKET<br>VALUE | UNREALIZED<br>GAIN (LOSS) |
|---|------------------------|--------------------|----------------|-----------------|---------------------------|
| <b>Contracts to Buy:</b>                      |                        |                    |                |                 |                           |
| U.S. Treasury 10-Year Notes                   | 95                     | 12/10              | \$ 11,909,379  | \$ 11,974,453   | \$ 65,074                 |
| U.S. Treasury 30-Year Bonds                   | 13                     | 12/10              | 1,734,261      | 1,738,344       | 4,083                     |
| U.S. Treasury Bonds                           | 2                      | 12/10              | 287,148        | 282,563         | (4,585)                   |
|   |                        |                    |                |                 | 64,572                    |
| <b>Contracts to Sell:</b>                     |                        |                    |                |                 |                           |
| 90-Day Eurodollar                             | 6                      | 12/10              | 1,490,306      | 1,494,600       | (4,294)                   |
| U.S. Treasury 5-Year Notes                    | 102                    | 12/10              | 12,218,544     | 12,328,454      | (109,910)                 |
|   |                        |                    |                |                 | (114,204)                 |
| Net unrealized loss on open futures contracts |                        |                    |                |                 | \$ (49,632)               |

During the period ended September 30, 2010, written option transactions for the Fund were as follows:

|   | Number of Contracts | Premiums |
|---|---------------------|----------|
| Written options, outstanding December 31, 2009  | 14                  | \$7,917  |
| Options written                                 | 25                  | 10,934   |
| Options closed                                  | (15)                | (8,154)  |
| Options exercised                               | (12)                | (5,611)  |
| Options expired                                 | (12)                | (5,086)  |
| Written options, outstanding September 30, 2010 |                     |          |

At September 30, 2010, the Fund had the following open swap contracts:

**INTEREST RATE SWAPS**

| SWAP COUNTERPARTY      | NOTIONAL<br>AMOUNT | TERMINATION<br>DATE | PAYMENTS<br>MADE BY THE<br>FUND | PAYMENTS<br>RECEIVED BY<br>THE FUND | UPFRONT<br>PREMIUMS<br>PAID<br>(RECEIVED) | UNREALIZED<br>(DEPRECIATION) |
|------------------------|--------------------|---------------------|---------------------------------|-------------------------------------|---|------------------------------|
| Barclay s Capital Inc. | \$ 20,000          | 7/26/40             | 3.707%<br>semi-annually         | 3-Month LIBOR                       |   | \$ (1,462)                   |

Percentage shown is an annual percentage rate.

At September 30, 2010, the Fund held TBA securities with a total cost of \$ 9,206,203.

**3. Derivative Instruments and Hedging Activities**

Financial Accounting Standards Board Codification Topic 815 requires enhanced disclosure about an entity's derivative and hedging activities.

The following is a summary of the Fund's investments categorized by risk exposure at September 30, 2010.

| Primary Underlying Risk Disclosure | Futures Contracts       |  |                         |  | Swap Contracts, at value | Total       |
|------------------------------------|-------------------------|--|-------------------------|--|--------------------------|-------------|
|                                    | Unrealized Appreciation |  | Unrealized Depreciation |  |                          |             |
| Interest Rate Contracts            | \$ 69,157               |  | \$ (118,789)            |  | \$ (1,462)               | \$ (51,094) |

**Notes to Schedule of Investments (unaudited) (continued)**

During the period ended September 30, 2010 the volume of derivative activity for the Fund was as follows:

|  |                  |
|--|------------------|
|  | Average          |
|  | Market Value     |
| Purchased options                            | \$ 4,959         |
| Written options                              | 6,648            |
| Forward foreign currency contracts (to sell) | 176,325          |
| Futures contracts (to buy)                   | 7,847,042        |
| Futures contracts (to sell)                  | 11,878,664       |
|  | Average          |
|  | Notional Balance |
| Interest rate swap contracts                 | \$ 6,000         |

At September 30, 2010, there were no open positions held in this derivative.

The Fund has several credit related contingent features that if triggered would allow its derivatives counterparties to close out and demand payment or additional collateral to cover their exposure from the Fund. Credit related contingent features are established between the Fund and its derivatives counterparties to reduce the risk that the Fund will not fulfill its payment obligations to its counterparties. These triggering features include, but are not limited to, a percentage decrease in the Fund's net assets and/or a percentage decrease in the Fund's Net Asset Value or NAV. The contingent features are established within the Fund's International Swap and Derivatives Association, Inc. master agreements which govern positions in swaps, over-the-counter options, and forward currency exchange contracts for each individual counterparty.

ITEM 2. CONTROLS AND PROCEDURES.

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act")) are effective as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the disclosure controls and procedures required by Rule 30a-3(b) under the 1940 Act and 15d-15(b) under the Securities Exchange Act of 1934.

(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant's last fiscal quarter that have materially affected, or are likely to materially affect the registrant's internal control over financial reporting.

ITEM 3. EXHIBITS.

Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940, as amended, are attached hereto.
