The Board

Edgar Filing: WHITE MOUNTAINS INSURANCE GROUP LTD - Form DEF 14A

The day-to-day management of the Company, including preparation of financial statements and short-term and long-term strategic planning, is the responsibility of management. The primary responsibility of the Board is to oversee and review management's performance of these functions in order to advance the long-term interests of the Company and its Members.

In fulfilling this responsibility, directors must exercise common sense business judgment and act in what they reasonably believe to be in the best interests of the Company and its Members. Directors are entitled to rely on the honesty and integrity of senior management and the Company's outside advisors and auditors. However, it is the Board's responsibility to establish that they have a reasonable basis for such reliance by ensuring that they have a strong foundation for trusting the integrity, honesty and undivided loyalty of the senior management team upon whom they are relying and the independence and expertise of outside advisors and auditors.

Mr. Barrette serves as Chairman of the Board and as CEO of the Company. The Board believes that the most effective leadership structure for the Company at the present time is for Mr. Barrette to serve in both roles. As CEO, Mr. Barrette is effective at overseeing the complex, decentralized operations of the Company. By virtue of his broad knowledge of the insurance industry and his long experience and track record with the Company, the Board believes Mr. Barrette is best suited to preside over the Board and set its agendas. The Board is composed of directors that, together, are knowledgeable and experienced in all aspects of the Company's business, and the Board is satisfied that the current structure provides strong oversight of the Company's affairs.

Table of Contents

Mr. Cochran, an independent director, serves as Deputy Chairman of the Board. At most regularly quarterly meetings of the Board, Mr. Cochran presides over a separate session of non-management directors without Company management present.

Director Independence

The Board has determined that a majority of the Company's current directors are independent, as defined in Section 303A of the New York Stock Exchange (NYSE) Listed Company Manual. Those directors determined to be independent are Messrs. Brouillette, Clark, Cochran, Frinquelli and Smith and Ms. Holiday. For a director to be independent, the Board must determine that the director has no relationship with the Company (other than being a director or shareholder of the Company) or has only immaterial relationships with the Company. The Company does not apply categorical standards as a basis for determining director independence. Accordingly, the Board considers all relevant facts and circumstances, on a case-by-case basis, in making an independence determination.

The Board notes no relationships (other than being directors or shareholders) with Messrs. Brouillette, Cochran, Frinquelli and Smith or Ms. Holiday. The Board notes a relationship with Mr. Clark, as disclosed herein under Transactions with Related Persons, Promoters and Certain Control Persons , that it concluded is immaterial and does not impair his independence. In making its independence determinations, the Board considers all such relationships in light of NYSE standards as well as the attributes it believes should be possessed by independent-minded directors. Those attributes include the relative impact of the transactions to the director's personal finances, the perceived degree of dependence by the director or the Company upon the relationship or transactions continuing in the future and whether the transactions were on terms that were reasonable and competitive. The Board concluded that Mr. Clark's relationship does not impair his independence.

The primary purposes of the Audit Committee are to: (1) assist Board oversight of: the integrity of the Company's financial statements; the qualifications and independence of the independent auditors; the performance of the internal audit function and the independent auditors; and the Company's compliance with legal and regulatory requirements; (2) provide an avenue of communication among the independent auditors, management, the internal auditors and the Board; (3) approve certain related or affiliated person transactions and review disclosures thereof and (4) prepare the Audit Committee Report (which appears on page 32). The primary purposes of the Finance Committee are to: (1) formulate and approve the Company's (including OneBeacon's) investment policy and investment guidelines; (2) review the performance and asset allocation of the Company's (including OneBeacon's) investment portfolio on a regular basis and (3) monitor the capital, debt, and corporate structure of the Company (including OneBeacon) and, in coordination with the Audit Committee, review the adequacy of management, including with respect to new business opportunities outside of traditional property and casualty insurance and reinsurance. The Finance Committee is currently comprised of Messrs. Frinquelli (as Chairman), Barrette, Brouillette, John Gillespie and Smith.

Risk Oversight

The Board, directly and through its Committees, plays an active role in the oversight of the Company's risk management. The subject of risk management is a recurring agenda item, for which the Board regularly receives reports from management on capital, investments, and operations, including the risks associated with each and the steps management is taking to manage those risks. The Board also discusses with management the Company's business strategy, risk appetite and appropriate levels of risk.

The Board's committees are assigned oversight responsibility for particular areas of risk. For example, the Audit Committee receives a report, at least annually, on company-wide risks which encompass operational, financial, legal, compliance and reputational risks. The Compensation Committee oversees risk related to executive compensation plans and implementation. The Finance Committee oversees the risks related to managing the Company's investment portfolio.

Shareholder Communications

Members, employees and others interested in communicating directly with the Board, any of the Board's Committees or any individual member of the Board should write to the addressee, c/o the Corporate Secretary, at the address presented under Available Information (which appears on page 38).

VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

Voting Rights of Members

As of April 4, 2011, there were 7,973,934 common shares outstanding. Members of record of common shares shall be entitled to one vote per common share, provided that if, and so long as, the votes conferred by Controlled common shares (as defined below) of any person constitute ten percent (10%) or more of the votes conferred by the outstanding common shares of the Company, each outstanding common share comprised in such Controlled common shares shall confer only a fraction of a vote that would otherwise be applicable according to the following formula:

$$[(T \text{ divided by } 10) - 1] \text{ divided by } C$$

Where: T is the aggregate number of votes conferred by all the outstanding common shares; and C is the number of votes conferred by the Controlled common shares of such person.

Controlled common shares in reference to any person means:

(1) all common shares directly, indirectly, or constructively owned by such person within the meaning of Section 958 of the Internal Revenue Code of 1986, as amended, of the United States; and

(2) all common shares directly, indirectly, or constructively owned by any person or group of persons within the meaning of Section 13(d)(3) of the Exchange Act and the rules and regulations promulgated thereunder; provided that this clause (ii) shall not apply to (a) any person (or any group that includes any person) that has been exempted from the provisions of this clause or (b) any person or group that the Board, by the affirmative vote of at least seventy-five percent (75%) of the entire Board, may exempt from the provisions of this clause.

The limitations set forth above do not apply to any Member which is a Byrne Entity (as defined below) for any matter submitted to the vote of Members, except with respect to the election of directors. Byrne Entity means Mr. Byrne and any foundation or trust established by any associate or affiliate of him (or any group of which he is a part), as defined under Section 13(d) of the Exchange Act.

If, as a result of giving effect to the foregoing provisions or otherwise, the votes conferred by the Controlled common shares of any person would otherwise represent 10% or more of the votes conferred by all the outstanding common shares, the votes conferred by the Controlled common shares of such person shall be reduced in accordance with the foregoing provisions. Such process shall

be repeated until the votes conferred by the Controlled common shares of each person represent less than 10% of the votes conferred by all common shares.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Philosophy

Our executive compensation policies are designed with the primary goal of maximizing shareholder value over long periods of time. We believe that this goal is best pursued by utilizing a pay-for-performance program that closely aligns the financial interests of management with those of our shareholders and encourages appropriate risk taking. We accomplish this by emphasizing variable long-term compensation, the value of which is tied to performance over a number of years rather than entitlements (such as base salary, pensions and employee benefits). To that end, the Compensation Committee (the Committee) has established base salaries and target annual bonuses for our executives that tend to be lower than those paid by comparable property and casualty insurers and reinsurers, while granting the bulk of an executive's target compensation as long-term incentive compensation.

We generally have structured our long-term incentive compensation as performance shares, restricted shares or performance units. At our parent company, long-term incentive compensation is typically in the form of WTM performance shares and restricted shares, which reward company-wide performance. The number of WTM common shares earned from a grant of performance shares, which can be from 0x to 2x the target number granted, is tied to our after-tax annual growth in intrinsic business value per share (as defined by the Committee) over the performance cycle. Performance shares, restricted shares and/or performance units are typically granted annually, and performance is tied to a three-year period.

Typically, we have set the performance target for a 100% payout of WTM performance shares at roughly 700 basis points above the risk-free rate, a level consistent with the risk premium that the market has demanded for investing in equities. To establish the risk-free rate, the Committee typically looks to the yield on the 10-year treasury at the beginning of the performance cycle. In general, no shares are earned if annual growth in intrinsic business value per share is less than the risk-free rate and 200% are earned if performance is 1,400 basis points above the risk-free rate. We use linear interpolation to determine the payout percentage for results in between.

Under our performance share system, at any given time an executive usually has three overlapping performance cycles running. This approach avoids cliffs that could foster a short-term outlook and also serves as an effective retention tool. Based on the Company's poor performance in 2008, no WTM performance shares were earned for the 2006-2008, 2007-2009 or 2008-2010 cycles. To reflect the loss of retention incentives for key employees during this time, at its February 2009 meeting, the Committee determined to bridge the gap to the next potential long-term incentive payout in early 2012 by issuing restricted common shares to selected executives other than Ray Barrette that vested at the end of 2010. Subsequently, the Committee decided to structure a portion of new long-term incentive grants as restricted shares to temper the effect of extreme events, good or bad. The Committee believes that the mix of long-term instruments that have been granted in the current running performance cycles of 2009-2011, 2010-2012 and 2011-2013 provide appropriate retention incentives.

In the case of our Chairman & CEO, Mr. Barrette, to induce him to rejoin the Company and to incent him as an owner, in January 2007 he was granted a package of 200,000 out of the money, escalating strike price options and 35,000 restricted shares, each of which vests in annual installments over five years. Mr. Barrette also received a tranche of 15,000 restricted shares that were structured to vest in the event of a change in control prior to January 20, 2012. As discussed below under Compensation for 2010 Long-Term Incentive Compensation CEO, last year shareholders approved modifications to Mr. Barrette's options and, in conjunction with those changes, the Compensation Committee amended the vesting terms of the tranche of 15,000 restricted shares so that those shares time vest in three equal annual installments beginning on January 20, 2013. Mr. Barrette does not receive other long-term incentive grants.

Table of Contents

Since OneBeacon's initial public offering in November 2006, its long-term compensation had been structured primarily in the form of OneBeacon performance shares, which reward OneBeacon's overall performance. Beginning with the 2009-2011 performance cycle, OneBeacon's long-term incentives were re-designed with the CEO and CFO receiving half in the form of performance units that are tied to underwriting performance and half in OneBeacon performance shares. Other OneBeacon executives receive a greater proportion or all of their long-term incentives in performance units, or in long-term cash awards that are tied to the results of their individual business units. The number of OneBeacon common shares earned from a performance share grant, which can be from 0x to 2x the target number granted, is tied to OneBeacon's after-tax annual growth in book value per share over the performance cycle. The payout earned from a OneBeacon performance unit grant, which also can be from 0x to 2x the target number granted, is tied to OneBeacon's combined ratio over the performance cycle.

At our major non-public operating subsidiaries, White Mountains Re and Esurance, long-term incentive compensation is typically in the form of performance units. Performance units reward the performance of the particular operating group. The number of units earned at the end of the performance cycle is tied to those elements of performance for which the operating group's management has primary responsibility. As an example, because the parent company keeps responsibility for investing the assets of our non-public operating subsidiaries, in calculating performance the operating subsidiaries are credited with a standard return on their investible assets. At WMRe, the number of units earned can be from 0x to 2x the target number granted. At Esurance, the number of performance units that are earned is calculated such that 10% of the value added over the risk-free hurdle is shared with Esurance management (assuming no forfeitures). In addition, for the most senior non-public operating group executives, including our Named Executive Officers at our wholly owned operating companies, in order to better align their interests with those of our shareholders, we typically denominate a portion of their long-term incentives in WTM performance shares.

In our long-term incentive compensation programs, we target sharing with management an aggregate of 13% to 17% of the value added above a risk-free return on our shareholders' equity. We take this approach because producing a rate of return equal to a risk free rate does not add value to the capital owners put in the business - our shareholders would be better off putting their money in U.S. treasuries and avoiding entirely the risk of owning a portion of a business. We target sharing 13% to 17% because we compete for talent and investment opportunities where such sharing is common and because we believe that this is a fair sharing of value between owners who put their capital at risk and employees who dedicate their time and talent. In addition, as an additional guideline, we generally limit annual share grants to less than 1% of the Company's outstanding shares.

Each year, the Committee compares the originally targeted sharing percentage to the actual sharing percentage that resulted from the most recently completed performance cycle. In addition, when making new grants, the Committee assesses the impact of different performance scenarios on the potential sharing percentage. Further, in order to test our beliefs about the size of the awards we make and their variability, annually the Committee has reviewed and considered a systematic analysis prepared by management of the public disclosures about compensation made by other property and casualty insurers and reinsurers and of the amount and variability of compensation at those companies at differing levels of performance. These analyses have supported the Committee's view that our compensation programs are appropriately sized and more variable than most other insurers and reinsurers, have fewer fixed elements of compensation and perquisites and do not lead to significant rewards for poor performance as can happen with long-term options granted with a fixed exercise price equal to the market price on the date of grant.

The Committee believes that the compensation structures that have been developed for the Company and its subsidiaries closely align the financial interests of management with those of our shareholders and encourage appropriate, but not excessive, risk taking. In the case of WMRe, given its exposure to catastrophic events, beginning in 2008 we implemented a catastrophe spreading mechanism with respect to both its performance units and annual bonus. This mechanism ensures that WMRe is charged with at least 50% of its expected annual catastrophe losses whether or not any catastrophe losses are actually incurred. Through this mechanism and WMRe's management of its aggregate exposure to very large catastrophic events through its maximum net financial impact underwriting limit, the Company's management and the Committee believe that WMRe's incentive plans are appropriate and do not encourage excessive risk taking.

Our Compensation Process

The Committee is responsible for approving our compensation practices that affect executive officers and it specifically approves all compensation for our executive officers and for any employee with target annual compensation in excess of \$1.5 million. Our CEO annually presents the Committee with his evaluation of our executives, their individual performances, responsibilities and the contributions they made to the Company's accomplishments over the past year as well as over the last long-term incentive plan cycle and his expectations for the future and succession plans. In connection with this evaluation, the CEO presents the Committee with his recommendations for establishing the compensation for these executives for its consideration. The Committee assesses the performance, responsibilities and contributions of the CEO, considers CEO succession plans, and sets the compensation of the CEO.

With the exception of significant promotions and new hires, compensation matters are usually addressed at the first meeting of the Committee each year (typically late February) following the availability of financial results for the prior year. This allows us to determine the results of prior period grants and to set targets for the current year and newest long-term performance cycle. Performance cycles for long-term compensation typically run for three years beginning on January 1st of the year of grant.

Following the OneBeacon initial public offering (the OB IPO) in November 2006, the Committee determined that it would fully delegate to the OneBeacon Compensation Committee (the OneBeacon Committee) authority for the compensation of OneBeacon's officers, including those who might be Named Executive Officers of the Company. Accordingly, compensation actions for OneBeacon personnel following the date of the OB IPO (including new annual and long-term incentives and approval of payouts on existing annual and long-term incentives) have been taken by the OneBeacon Committee (which is currently comprised of Lowndes Smith (Chair), Lois Grady and Kent Urness, who are independent directors of OneBeacon, and Mr. Barrette) and, to the extent necessary to comply with applicable regulations, a subcommittee that excludes Mr. Barrette.

Compensation for 2010

The principal elements of compensation for our executives are long-term incentive compensation, base salary, and annual incentive bonuses.

Long-Term Incentive Compensation

CEO. In late 2009 and early 2010, the Committee reviewed Mr. Barrette's compensation and the incentives created by his options. Given that the options were deeply out of the money and subject to continuing exercise price increases, the Committee determined that the existing incentives were no longer appropriate for performance and retention purposes. Mr. Barrette and the Committee agreed to amend the terms of the options, subject to the approval of the Company's shareholders, which was received at the May 2010 annual general meeting. The amendments to the options were as follows:

Edgar Filing: WHITE MOUNTAINS INSURANCE GROUP LTD - Form DEF 14A

- Extend the term by three years to January 20, 2017
- Freeze the exercise price at \$742, the exercise price on February 24, 2010, which was more than double stock price at the time
- Extinguish 75,000 of the 200,000 options
- Limit the potential in-the-money value of the options in excess of \$100 million to 50% of the amount in excess of \$100 million (for the options to be worth in excess of \$100 million, the share price will need to be in excess of \$1,540 by January 20, 2017)

In conjunction with the amendment of the option terms, the Committee also amended the vesting terms of the tranche of 15,000 restricted shares that were to vest if there was a change in control prior to January 20, 2012 so that those shares time vest in three equal annual installments beginning on January 20, 2013.

As of the end of 2010, 120,000 of the 125,000 outstanding options had vested, and 28,000 of the 50,000 restricted shares had vested.

Table of Contents

Named Executive Officers. In the case of Messrs. Foy, Campbell and Waters, in determining the amount of new long-term incentive compensation grants for 2010, the Committee assessed each executive's scope of authority and ability to impact the success of the Company. Based on the Committee's general experience and the recommendation of the CEO, the Committee established a grant level that it believed was appropriate to reflect each such executive's expected contribution to the Company over the next performance cycle. In addition, after reflecting on the impact of the financial crisis on past grants of long-term incentives, the Committee structured a portion of the incentives as restricted shares to temper the effect of extreme events, good or bad, and to have a more robust retention tool. Mr. Miller's level of compensation was established by the OneBeacon Committee.

For each recipient of a WTM performance share grant for the 2010-2012 performance cycle, the Committee established 11% annual growth in intrinsic business value per share as the performance target that would result in a payout of 100% of the target shares. Annual growth of 4% or less would result in a payout of 0% and annual growth of 18% or more would result in a payout of 200%. The targets were consistent with the Company's compensation philosophy described above as the yield on the 10-year treasury at the beginning of 2010 was 3.85%. To measure growth in intrinsic business value per share, the Committee looks to growth in economic value per share (weighted 50%) and growth in adjusted GAAP book value per share (weighted 50%), in each case including dividends.

In total, the WTM performance share and restricted share grants made to all employees of the Company for the 2010-2012 performance cycle totaled approximately 0.7% of the then outstanding shares, within the Committee's 1% guideline.

David Foy. Mr. Foy has been the CFO of the Company since 2003. Based on the Company's performance over the 2008-2010 performance cycle, there was no payout of WTM performance shares. Mr. Foy had 9,000 restricted shares that vested in 2010.

For the performance cycle from 2010-2012, Mr. Foy was granted 5,850 WTM performance shares and 3,150 restricted shares. The grant date value was approximately \$3.1 million. The number of performance shares that will be earned will be determined after the end of 2012 based on the Company's performance over the cycle compared to the target described above. The restricted shares will vest on December 31, 2012, subject to Mr. Foy's continued employment.

Reid Campbell. Mr. Campbell has been a Managing Director of White Mountains Capital since 2004 and has served in a variety of financial management positions with White Mountains since 1994. Based on the Company's performance over the 2008-2010 performance cycle, there was no payout of WTM performance shares. Mr. Campbell had 7,500 restricted shares that vested in 2010.

For the performance cycle from 2010-2012, Mr. Campbell was granted 3,900 WTM performance shares and 2,100 restricted shares. The grant date value was approximately \$2.0 million. The number of performance shares that will be earned will be determined after the end of 2012 based on the Company's performance over the cycle compared to the target described above. The restricted shares will vest on December 31, 2012, subject to Mr. Campbell's continued employment.

Allan Waters. Mr. Waters has been the CEO of White Mountains Re since 2007. In addition, from time to time Mr. Waters takes on responsibility for certain projects at the Company. Based on the Company's performance over the 2008-2010 performance cycle,

there was no payout of WTM performance shares. Mr. Waters had 1,200 restricted shares that vested in 2010. The payout of Mr. Waters' WMR performance units is calculated excluding any net adverse reserve development through the end of 2008 on reserves relating to business written in 2006 and prior. As a result, based on WMR's performance for the 2008-2010 performance cycle excluding net adverse development on old reserves, which was an annualized after-tax, levered underwriting return on deployed capital (UROC) of 13.2%, Mr. Waters received a payout of 117% of the WMR units granted to him for the 2008-2010 cycle at a value of \$1,451 per unit, which equaled approximately \$4.4 million.

Table of Contents

For the performance cycle from 2010-2012, Mr. Waters was granted 2,560 WMRe performance units, 2,275 WTM performance shares and 1,225 restricted shares. The grant date value was approximately \$3.8 million. The performance target for the WMRe units is an annual 12% UROC, with a UROC of 5% or less resulting on no payout and a UROC of 19% or more resulting in a 200% payout. The number of performance shares and units that will be earned will be determined after the end of 2012 based, respectively, on the Company's and WMRe's performance over the cycle compared to the targets described above. The restricted shares will vest on December 31, 2012, subject to Mr. Waters' continued employment.

T. Michael Miller. Mr. Miller has been the CEO of OneBeacon since 2005. For the 2008-2010 OneBeacon performance share cycle, Mr. Miller received a total combined payout of \$3.0 million from the OneBeacon performance shares he had been granted and a cash retention award that was put in place following the financial crisis in 2008/2009. The payout of Mr. Miller's OneBeacon performance shares was tied to weighted average annual growth in intrinsic business value per share (OB GIBVPS). This was calculated as the average of annual growth in adjusted book value per share and underwriting return on equity. Based on a weighted average OB GIBVPS of 8.8% over the cycle, the OneBeacon Committee approved a payout of 68.5% of the OneBeacon performance shares originally granted. This resulted in a payout of approximately \$2.3 million to Mr. Miller. In addition, Mr. Miller had a \$3 million retention award that vested in February 2011 which was reduced to \$0.7 million in order to offset the \$2.3 million paid to him for the 2008-2010 OneBeacon performance share cycle.

For the performance cycle from 2010-2012, the OneBeacon Committee granted Mr. Miller 25,000 OneBeacon performance units and 107,481 OneBeacon performance shares. The grant date value was approximately \$4.1 million. The number of performance units and performance shares that will be earned will be determined after the end of 2012 based on OneBeacon's performance over the cycle compared to the targets described below. The performance target for the performance units is 95% average adjusted combined ratio, with a combined ratio of 99% or more resulting in no payout and a combined ratio of 91% or less resulting in a 200% payout. The OneBeacon performance units have a fixed value of \$100 per unit. For the performance shares, the OneBeacon Committee set 12% annual growth in book value per share as target performance, with a range of 5% to 19%.

Base Salary

We pay our executive officers salaries that we believe to be below-market. In 2008, we limited base salaries to a maximum of \$500,000, which was the salary each of our Named Executive Officers received, other than Mr. Campbell, who received a salary of \$450,000. No changes to base salaries of the Named Executive Officers have been made since that time.

Annual Incentive Bonuses

We provide annual bonus opportunities to our executive officers. Each Named Executive Officer participates in the annual bonus pool of his respective business unit. The aggregate bonus pool size for each business unit could range from 0% to 200% of target, depending upon performance. Individual bonuses can vary widely around the pool average based on individual performance and no cap (other than the size of the pool) applies to any single individual. Typically, the head of a business unit receives the average bonus percentage applicable to his business unit.

Edgar Filing: WHITE MOUNTAINS INSURANCE GROUP LTD - Form DEF 14A

For the Named Executive Officers at the WTM level (Messrs. Barrette, Foy and Campbell), the Committee established target annual bonuses of 75% of salary for 2010. The Committee reduced the target amount of the long-term incentive compensation grants for Messrs. Foy and Campbell for the 2010-2012 performance cycle by the amount of the increase in their target annual bonus compared to the 50% target in 2008. The Committee took this action to moderately increase the percentage of total compensation provided by annual incentives. However, the bulk of each Named Executive Officer's compensation remains based on the long-term performance of the Company.

Table of Contents

For Messrs. Barrette, Foy and Campbell, their annual incentive bonuses are designed to reward company-wide performance. Based on the Company's performance in 2010, the Committee awarded a bonus pool of 65% of target taking into account the Company's 6% growth in adjusted book value per share, 7% growth in economic value per share, and its performance in achieving qualitative objectives over the course of the year. These qualitative objectives included pursuing appropriate investment opportunities, completing the transition of OneBeacon into a specialty company, maintaining a disciplined reinsurance operation, regaining growth momentum at Esurance, optimizing the runoff of Life Re, and pursuing opportunities while maintaining financial flexibility. Messrs. Barrette, Foy and Campbell received bonuses of \$243,750, \$232,500 and \$210,000, which represented 65%, 62% and 62% of target.

For our operating subsidiaries (including for our Named Executive Officers at operating subsidiaries), we design our annual incentives to reward performance of the applicable subsidiary operating group. Messrs. Waters and Miller, who participate in the WMRe and OneBeacon bonus pools, respectively, have annual bonus targets equal to 50% and 75% of base salary.

For White Mountains Re, including for Mr. Waters, the performance objective was the UROC. Based on a UROC of 11.3% compared to the target of 12%, the bonus pool was 90% of target. As CEO, Mr. Waters received the pool average of 90%, or \$225,000.

For OneBeacon, including for Mr. Miller, the primary performance objective required to achieve a bonus pool of 100% of target was the achievement of a combined ratio of 96% or better. OneBeacon's actual combined ratio was 100.7%. Other performance goals included the management of expenses in conjunction with OneBeacon's changing earned premium levels as a result of the sale of its personal lines business, optimizing capital management, ensuring smooth execution of the commercial lines renewal rights sale and the personal lines sale, and effective catastrophe management. Based on its assessment of OneBeacon's overall performance in 2010, the OneBeacon Committee established a bonus pool of 80% of target. It awarded Mr. Miller a cash bonus of \$281,300, which equaled 75% of target and was slightly below the overall pool percentage of 80% as more of the pool was allocated to specialty businesses that had strong performance during the year.

Special OneBeacon Bonus

Recognizing the transformational year at OneBeacon through the execution of the commercial lines renewal rights sale and the personal lines sale, along with the return of \$326 million to shareholders through dividends and share repurchases, the OneBeacon Committee awarded one-time discretionary bonuses totaling \$4.8 million to members of management responsible for effecting those transactions. Mr. Miller was awarded a discretionary bonus of \$1,000,000.

2011 Compensation Actions

New Long-term Incentive Grants and Annual Bonus Targets

Edgar Filing: WHITE MOUNTAINS INSURANCE GROUP LTD - Form DEF 14A

In February 2011, the Committee and the OneBeacon Committee made new long-term incentive grants to and established annual bonus target levels for the Named Executive Officers based on the same factors described above with respect to grants made in 2010.

In 2010, the new long-term incentive grants for White Mountains executives (other than Mr. Barrette and operating company executives) were allocated 65% as performance shares and 35% as restricted shares vesting on December 31, 2012. In 2011, the new long term incentive grants were allocated 50% as performance shares and 50% as restricted shares. The Committee made this adjustment to further reduce the impact of extreme events, good or bad, on compensation while maintaining good alignment with shareholders.

For each recipient of a WTM performance share grant for the 2011-2013 performance cycle, the Committee established 10% annual growth in intrinsic business value per share as the performance target that would result in a payout of 100% of the target shares. Annual growth of 3% or less would result in a payout of 0% and annual growth of 17% or more would result in a payout of 200%. To measure growth in intrinsic business value per share, the Committee looks to growth in economic value per share (weighted 50%) and growth in adjusted GAAP book value per share (weighted 50%), in each case including dividends.

OneBeacon Restricted Share Grant for Mr. Miller

The OneBeacon board has reached an agreement with Mr. Miller on incentives to secure his continued services for an extended period of time. In exchange for foregoing some future performance share allocations, the OneBeacon Committee has proposed to make a one-time grant of OneBeacon restricted shares to Mr. Miller equal to three times the foregone performance shares. The grant is subject to the approval of the shareholders of OneBeacon.

The proposed grant is comprised of 630,000 OneBeacon restricted shares, and Mr. Miller's OneBeacon performance share grants would be reduced by 35,000 shares per year for each of the next 6 years (i.e., 210,000 performance shares in total), retroactive to February 2011, if the proposal is approved by shareholders. 25% of the restricted shares will vest on each of February 22, 2014, 2015, 2016 and 2017. In the event of a change in control, the restricted shares would vest if Mr. Miller was terminated other than for cause, was demoted or suffered a material reduction in his compensation opportunity within 24 months of the change in control. In addition, the shares would vest following a change in control if Mr. Miller was required to commute to another office for more than 18 months or was required to relocate his principal residence. If Mr. Miller is terminated without cause, the restricted shares would vest pro-rata for time with a minimum vesting of 50%, taking into account already vested shares, in lieu of any severance payments. If he voluntarily terminates his employment or is terminated for cause, he would forfeit all unvested shares.

As a recipient of long-term incentive grants from OneBeacon, Mr. Miller is subject to a confidentiality and non-solicitation agreement. The agreement includes provisions that, for a period of 12 months following the termination of his employment for any reason, prohibit him from soliciting customers or certain potential customers of OneBeacon and from soliciting or hiring its employees.

Clawback Policy

In 2010, the Company adopted a clawback policy applicable to bonuses and long-term incentive awards. If the Company is required to restate any financial statement included in an SEC filing as a result of an employee's misconduct, the Board may, without prejudice to any other remedies available to the Company, seek reimbursement of any bonus or long-term incentive award received by such person that relates in whole or in part to any period for which such financial statements were restated. If the misconduct was fraud, then in addition to other actions, the Board mandatorily will seek such reimbursement.

Other Elements of Compensation

Retirement Benefits

We have no active U.S. pension plans. Benefit accruals under all our U.S. qualified pension plans and all our U.S. supplemental pension plans were frozen for all employees in 2002.

Our Named Executive Officers who are not employees of Bermuda-domiciled entities may participate in our voluntary non-qualified deferred compensation plans whereby they may defer all or a portion of their compensation. Investment options in these plans are those available in our 401(k) plans, including White Mountains common shares and OneBeacon common shares. None of the investment options offered under these plans provides an above-market rate of interest.

Our employees may participate in our qualified 401(k) plans and eligible employees can participate in a qualified employee stock ownership plan. We do not provide supplemental retirement benefits to any employees in connection with these plans.

Table of Contents

Perquisites

We review the perquisites that our senior management receives. The primary perquisites include housing allowances in special circumstances and personal use of corporate aircraft.

We allow our Named Executive Officers to use our corporate aircraft from time to time for personal reasons. The aggregate incremental cost to the Company is included, for proxy reporting purposes, as compensation to the Named Executive Officer. For tax purposes, we comply with IRS regulations. We do not gross-up our Named Executive Officers for their taxes associated with perquisites, including with respect to personal use of our aircraft.

Our Named Executive Officers also participate in our other benefit plans on the same terms as our other employees. These plans include medical and health insurance, company paid life insurance (which is currently capped at \$150,000 in coverage at our parent company) and charitable gift matching.

Certain Board Fees

Our Named Executive Officers do not receive director fees for serving on the Company's board of directors or for serving on the boards of directors of our wholly-owned or majority-owned subsidiaries. However, those Named Executive Officers who serve on the boards of directors of other companies in which we have a minority interest may receive director fees. We consider those board fees when evaluating the compensation of our Named Executive Officers.

Employment and Severance Agreements; Change in Control

We have no long-term employment agreements with our Named Executive Officers although, from time to time, we have entered into short-term arrangements with newly hired executives governing their compensation and severance during up to their first three years with the Company. No such arrangements are in effect with our Named Executive Officers.

At our parent company, severance benefits, if any, are determined by the Committee in its sole discretion. At our operating subsidiaries, our Named Executive Officers participate in the severance plans, if any, generally applicable at those companies.

If any of our most senior executives were to retire, in order to enable the Company to ensure a smooth transition, to receive a non-compete/non-solicit from the executive and to retain access to valuable knowledge, talents and relationships, we generally will consider entering into a one to three year consulting agreement with the executive, which would permit the executive to earn some or all of such executive's long-term incentive compensation then outstanding.

While the Company has no employment or severance agreement with Mr. Barrette, pursuant to the terms of his inducement grant discussed above under Philosophy , if Mr. Barrette is terminated without cause, any of these grants that are outstanding but unvested at that time would vest in such circumstance.

We have no standalone change in control agreements with our Named Executive Officers. However, under our long-term incentive plans, if a change in control of the Company (or a business unit, as applicable) were to occur, certain events, such as involuntary or constructive employment termination or amendments to our incentive plans which are materially adverse to its participants, may cause stock options to become fully exercisable, restricted shares to become immediately vested and performance shares and performance units to become payable in full or in part. Our plans do not provide for tax gross-ups for excess parachute payments that may result from a change in control.

The stock option and restricted share grants made to Mr. Barrette include provisions pursuant to which such grants vest upon the occurrence of a change in control. While the Company typically has double-trigger change in control provisions in its long-term incentive plans, when originally making the grant to Mr. Barrette, the Committee determined that, in light of the design of Mr. Barrette s grants and as an inducement to Mr. Barrette, immediate vesting upon a change in control was appropriate.

Tax Considerations

As a Bermuda-domiciled company, we do not receive a tax deduction for compensation paid to employees of White Mountains Insurance Group, Ltd. and, accordingly, the limitation of Section 162(m) of the Internal Revenue Code does not impact compensation paid to our Named Executive Officers who are employees of non-U.S. companies (Messrs. Barrette, Foy and Waters). However, in the case of Named Executive Officers who are employees of subsidiaries that are organized in the United States (Messrs. Miller and Campbell), Section 162(m) would limit the deductibility of their compensation to \$1,000,000 per individual to the extent that such compensation is not performance-based as defined in Section 162(m). The Company is cognizant of Section 162(m) and generally seeks to structure its long-term incentive programs to permit the deductibility of the bulk of such compensation paid to these Named Executive Officers. However, the Committee may approve compensation that will not meet the Section 162(m) requirements if, in the Committee's judgment, structuring compensation in such manner better promotes the Company's interests (such as with a grant of restricted shares).

Compensation Committee Report

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

The incremental fair value of the award modification calculated under ASC Topic 718 was \$889,177. For a discussion of the assumptions used in calculating the fair value of the awards under ASC Topic 718, see Note 11 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2010 as filed with the SEC on February 28, 2011 (Note 11).

Each unit is initially valued at \$1,000 and compounds in value based on White Mountains Re's uroc during the performance period. A uroc of 5% or less (Threshold) would result in no payout. A uroc of 12% would result in a target payout of 100%. A uroc of 19% or more (Maximum) would result in a 200% payout. Payouts for results in between are determined by linear interpolation.
- (d) On February 23, 2010, Mr. Miller was granted OB performance units for the 2010-2012 performance cycle granted under the OneBeacon Incentive Plan. Each unit has a fixed value of \$100. An OB adjusted combined ratio of 99% or more (Threshold) would result in no payout. An adjusted combined ratio of 95% would result in a target payout of 100%. An adjusted combined ratio of 91% or lower (Maximum) would result in a 200% payout. Payouts for results in between are determined by linear interpolation.
- (e) On February 24, 2010, Messrs. Foy, Waters and Campbell were granted WTM performance shares for the 2010-2012 performance cycle. Mr. Waters' grant was granted under the White Mountains Re Incentive Plan. Growth in WTM's intrinsic business value per share of 4% or less (Threshold) would result in no payout. Growth in intrinsic business value per share of 11% would result in a target payout of 100%. Growth in intrinsic business value per share of 18% or more (Maximum) would result in a payout of 200%. Payouts for results in between are determined by linear interpolation.
- (f) On February 23, 2010, Mr. Miller was granted OB performance shares for the 2010-2012 performance cycle granted under the OneBeacon Incentive Plan. Growth in OB's book value per share of 5% or less (Threshold) would result in no payout. Growth in book value per share of 12% would result in a target payout of 100%. Growth in book value per share of 19% or more (Maximum) would result in a payout of 200%. Payouts for results in between are determined by linear interpolation.
- (g) On February 24, 2010, Messrs. Foy, Waters and Campbell were granted WTM restricted shares that vest on December 31, 2012.
- (h) Represents the grant date fair value (based on a market price of \$340.60 for White Mountains and \$15.11 for OneBeacon) as determined in accordance with ASC Topic 718 without regard to forfeitures. Assuming a maximum 200% payout, the grant date fair value of the performance shares granted to Messrs. Foy, Waters, Miller and Campbell would be \$3,985,020, \$1,549,730, \$3,248,076 and \$2,656,680.

Nonqualified Deferred Compensation

Potential Payments Upon Termination or Change in Control

Employment and Severance Agreements

We have no long-term employment agreements with our Named Executive Officers although from time to time we have entered into short-term arrangements with newly hired executives governing their compensation and severance for a period of up to their first three years with the Company. With respect to Mr. Miller's cash retention award (see Compensation Discussion and Analysis), had he been terminated without cause on December 31, 2010, his award would have vested in an amount of up to \$3,000,000. This amount would be reduced by any amounts paid in respect of the 2008-2010 OB performance share cycle.

Long-Term Incentive Plans

Under our long-term incentive plans, certain events, such as retirement, death or disability, or the occurrence of both a change in control of the Company (or a business unit, as applicable) and an involuntary or constructive employment termination or materially adverse amendments to such plans, may result in unvested stock options becoming exercisable, WTM restricted shares becoming vested and performance shares and performance units becoming payable in full or in part. Below is a description of the payments to which each of our Named Executive Officers would be entitled assuming in each case that such events occurred on December 31, 2010.

Voluntary Termination of Employment

Had any of our Named Executive Officers voluntarily terminated their employment on December 31, 2010, their outstanding long-term incentive grants (other than vested stock options) would have been cancelled and payments, if any, in respect of those cancelled grants would be made at the sole discretion of the Compensation Committee.

Involuntary Termination of Employment

Had any of our Named Executive Officers (other than Mr. Barrette) been terminated without cause on December 31, 2010, their outstanding long-term incentive grants would have been cancelled and payments, if any, in respect of those cancelled grants would be made at the sole discretion of the Compensation Committee. In the case of Mr. Barrette, had he been terminated without cause on December 31, 2010, his unvested stock options would have vested and become fully exercisable and his unvested restricted shares would have immediately vested.

Retirement

Had any of our Named Executive Officers retired on December 31, 2010, their outstanding long-term incentive grants (other than vested stock options) would have been cancelled and payments, if any, in respect of those cancelled grants would be made at the sole discretion of the Compensation Committee.

Table of Contents

Death or Disability

Had any of our Named Executive Officers died or become disabled on December 31, 2010, they would have been entitled to pro rata vesting of their performance shares, full vesting of their restricted shares, pro rata vesting of their performance units and vesting of all or a portion of their unvested stock options. In addition, Mr. Miller would have been entitled to full vesting of his RSUs. Under this scenario, Messrs. Barrette, Foy, Waters, Miller and Campbell would have been entitled to receive \$9,732,400, \$9,331,410, \$11,096,932, \$7,557,084 and \$6,053,140, respectively.

For purposes of computing the amounts above, performance shares and Mr. Miller's RSUs were valued at the December 31, 2010 common share closing market price (\$335.60 for White Mountains and \$15.16 for OneBeacon) including cumulative dividends since grant. Restricted shares were valued at the December 31, 2010 common share closing market price. WMT performance units were valued at actual value as of December 31, 2010. OneBeacon performance units have a value of \$100 per unit. The WMT performance shares would vest pro-rated for time and at 100% of target. The OneBeacon performance shares would vest pro-rated for time and OneBeacon's actual performance through the end of 2010 (but at not less than 50%). The White Mountains Re performance units would vest pro-rated for time and White Mountains Re's actual performance through the end of 2010. The OneBeacon performance units would vest pro-rated for time and OneBeacon's actual performance through the end of 2010. None of the stock options held by our Named Executive Officers were in-the-money at December 31, 2010.

Change in Control

Had both a change in control of the Company (or a business unit, as applicable) and an involuntary termination, constructive termination or materially adverse amendments to our long-term incentive plans occurred on December 31, 2010, our Named Executive Officers would have been entitled to full vesting of their performance shares at up to 200% of target (except for Mr. Miller's OneBeacon performance shares that would vest on a pro rata basis and at 100% of target), full vesting of their restricted shares, pro rata vesting of their performance units at up to 200% of target (and at not less than target) and all or a portion of their unvested stock options. In addition, Mr. Miller would have been entitled to full vesting of his RSUs and total retention award of \$3,000,000. Under this scenario, Messrs. Barrette, Foy, Waters, Miller and Campbell would have been entitled to receive up to \$9,732,400, \$19,216,560, \$14,838,895, \$11,465,866 and \$12,643,240, respectively.

For purposes of computing the amounts above, performance shares and Mr. Miller's RSUs were valued at the December 31, 2010 common share closing market price (\$335.60 for White Mountains and \$15.16 for OneBeacon) including cumulative dividends since grant. Restricted shares were valued at the December 31, 2010 common share closing market price. White Mountains Re performance units were valued as of September 30, 2010. OneBeacon performance units have a value of \$100 per unit. The WMT performance shares are valued at 200% of target. The OneBeacon performance shares and performance units would vest pro-rated for time and at 100% of target. The White Mountains Re performance units would vest pro-rated for time and at actual performance through the end of 2010 (but at not less than 100%). None of the stock options held by our Named Executive Officers were in-the-money at December 31, 2010.

Our long-term incentive plans do not provide for tax gross-ups for excess parachute payments that may result from a change in control.

Prospector

Mr. John Gillespie is the founder and Managing Member of Prospector. Prospector serves as a discretionary adviser with respect to specified assets, primarily equity securities, managed by WM Advisors on behalf of White Mountains and other clients of WM Advisors.

Pursuant to an investment management agreement with WM Advisors (the WMA Agreement), Prospector charged WM Advisors fees based on the following schedule: 100 basis points on the first \$200 million of assets under management; 50 basis points on the next \$200 million; and 25 basis points on amounts over \$400 million. At December 31, 2010, Prospector managed a total of approximately \$282 million of assets for White Mountains (excluding any OneBeacon assets) under this arrangement.

Prospector has a separate investment management agreement with OneBeacon (the OneBeacon Agreement) pursuant to which Prospector supervises and directs specified assets, primarily equity securities, including assets in OneBeacon's defined benefit and defined contribution plans (the ERISA Assets). The fee schedule under the OneBeacon Agreement is identical to the WMA Agreement fee schedule. At December 31, 2010, Prospector managed approximately \$549 million of assets for OneBeacon under this arrangement, including \$245 million of ERISA Assets.

During 2010, Prospector earned \$7 million in total fees pursuant to the WMA Agreement and the OneBeacon Agreement.

Prospector also advises White Mountains on matters including capital management, asset allocation, private equity investments and mergers and acquisitions. Pursuant to a Consulting Agreement for those services, Prospector was granted 8,500 performance shares for the 2011-2013 performance cycle, 9,200 performance shares for the 2010-2012 performance cycle and 10,800 performance shares for the 2009-2011 performance cycle. In accordance with the terms of the WTM Incentive Plan, performance against target governing the performance shares will be confirmed by the Compensation Committee of the Board following the end of each performance cycle and the number of performance shares actually awarded at that time will range from 0% to 200% of the target number granted. Based on the Company's performance, Prospector received no payment with respect to 9,600 performance shares that had been granted for the 2008-2010 performance cycle. Unless and until the Consulting Agreement has been terminated, and subject to the approval of the Compensation Committee, at the beginning of each performance cycle Prospector is to be granted performance shares with a value of approximately \$4.5 million. The Compensation Committee establishes the performance target for such performance shares.

Edgar Filing: WHITE MOUNTAINS INSURANCE GROUP LTD - Form DEF 14A

Pursuant to a revenue sharing agreement, Prospector has agreed to pay White Mountains 6% of the revenues in excess of \$500,000 of certain of Prospector's funds in return for White Mountains having made a founding investment in 1997. During 2010, White Mountains earned \$0.7 million under this arrangement.

At December 31, 2010, White Mountains had \$110 million invested in limited partnership investment interests managed by Prospector. (This total includes \$43 million of OneBeacon assets.) In addition, Messrs. Barrette, Davis, George Gillespie, John Gillespie and Waters, each a director of the Company, and Mr. Campbell, an executive officer of the Company, owned limited partnership investment interests managed by Prospector as of such date.

Franklin Mutual Advisers

On January 7, 2011, the Company agreed to repurchase 140,000 WTM common shares from mutual funds managed by Franklin Mutual Advisers. The price per share was \$342.50, which was \$2.50 less than the market price at the time the agreement was reached.

Other relationships and transactions

Mr. Clark, a director of the Company, has been Vice Chairman of Barclays Capital since 2008. Barclays has, from time to time, provided various services to White Mountains including investment banking services, brokerage services, underwriting of debt and equity securities and financial consulting services.

Mr. George Gillespie, a director of the Company, serves as Special Counsel to CS&M. CS&M performs legal services for the Company.

Mr. John Gillespie, a director of the Company, indirectly through general and limited partnership interests holds a 33% interest in Dowling & Partners Connecticut Fund III, LP (Fund III). Two of the Company's indirect subsidiaries, OneBeacon Professional Insurance (OBPI) and White Mountains Specialty Underwriting, Inc. (WMSUI), had previously borrowed approximately \$8 million and \$7 million, respectively, from Fund III in connection with an incentive program sponsored by the State of Connecticut known as the Connecticut Insurance Reinvestment Act (the CIR Act). The CIR Act provides for Connecticut income tax credits to be granted for qualifying investments made by approved fund managers. Both loans were repaid in full during 2006. The loans were qualifying investments which generated tax credits to be shared equally between Fund III on the one hand and OBPI and WMSUI on the other. As a result of his interest in Fund III, during 2009, Mr. Gillespie generated approximately \$0.5 million in such tax credits.

Review, Approval or Ratification of Transactions with Related Persons

The Company's Audit Committee Charter states that the Audit Committee shall approve any related or affiliated person transactions and review disclosures thereof. In determining whether to approve or reject a related person transaction, the Audit Committee takes into account, among other factors it deems appropriate, whether the proposed transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the related persons' economic interest in the transaction. For purposes of Audit Committee approval, a related person transaction is defined as any transaction that is required to be reported under Item 404 of SEC Regulation S-K.

During 2010, the Audit Committee approved all Transactions with Related Persons occurring since the beginning of the Company's calendar year.

EQUITY COMPENSATION PLAN INFORMATION

The following table provides information as of December 31, 2010 with respect to the common shares that may be issued under White Mountains' existing incentive compensation plans. Performance shares awarded under the WTM Incentive Plan are typically paid in cash, though they may be paid in the Company's common shares at the election of the Board or a Committee of the Board. For that reason, these plans are listed in the Equity Compensation Plan Table below. Grants of phantom performance shares

Edgar Filing: WHITE MOUNTAINS INSURANCE GROUP LTD - Form DEF 14A

made under subsidiary incentive plans (which are payable in cash) and grants made under the OneBeacon Incentive Plan (which are payable in OneBeacon common shares) are excluded from this table.

	(1)	(2)	(3)
Plan category	Number of securities that may be issued upon exercise or vesting of outstanding options, warrants and rights at target	Weighted average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (1))
Equity compensation plans approved by security holders - WTM Incentive Plan:			498,200 (a)
Performance shares	149,997	\$ 0	

(a) Under NYSE rules, common shares remain available for issuance when the Company pays cash or establishes deferred compensation balances in the settlement of its performance share obligations (which is typically the case) rather than issuing common shares. However, the Compensation Committee has taken a more conservative approach by counting the number of performance shares granted at target against the WTM Incentive Plan inventory. Under the Company's approach, as of April 6, 2011, 192,104 common shares remained available for grant at target under the WTM Incentive Plan, which could result in up to 384,208 common shares being issued.

Based on these reviews and discussions, the Audit Committee determined that the non-audit fees billed by PwC for services performed in 2010 and 2009 (as presented herein) are compatible with maintaining their independence. Further, the Audit Committee recommended to the Board that the audited financial statements be included in the Annual Report on Form 10-K for filing with the SEC and for presentation to the Members at the 2011 Annual Meeting.

Management is responsible for the preparation, presentation and integrity of the Company's consolidated financial statements as well as for establishing and maintaining adequate internal control over financial reporting. In addition, PwC is responsible for expressing its opinion on the effectiveness of the Company's internal control over financial reporting. It is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with GAAP; that, as described above, is the responsibility of management and PwC. In giving its recommendation to the Board, the Audit Committee has relied on (1) management's representation that such financial statements have been prepared with integrity and objectivity and in conformity with GAAP and (2) the reports of PwC with respect to such financial statements.

The Audit Committee has established a Charter which outlines its primary duties and responsibilities. The Audit Committee Charter, which has been approved by the Board, is reviewed at least annually, is updated as necessary and is available for viewing at www.whitemountains.com.

PROPOSAL 8

ADVISORY RESOLUTION ON EXECUTIVE COMPENSATION

In accordance with recently adopted Section 14A of the Securities Exchange Act of 1934, we are seeking advisory shareholder approval of the compensation of the named executive officers as disclosed in the section of this proxy statement titled "Executive Compensation". You are being asked to vote on the following advisory resolution:

RESOLVED, that the compensation paid to the company's named executive officers, as disclosed in the company's proxy statement dated April 6, 2011, pursuant to Item 402 of Regulation S-K, including the Compensation Discussion & Analysis, compensation tables and narrative discussion, is hereby APPROVED.

The Board of Directors believes that the compensation policies and practices described in the Compensation Discussion & Analysis are effective in achieving the company's primary goal of maximizing shareholder value over long periods of time, as well as motivating and retaining our key executives. The compensation of our named executive officers is heavily weighted toward variable long-term compensation the value of which is tied to performance over a number of years.

We urge you to read the Compensation Discussion & Analysis, beginning on page 12 of this proxy statement, as well as the 2010 summary compensation table and related compensation tables and narrative, beginning on page 21, which provide detailed information on the company's compensation policies and practices and the compensation of our named executive officers.

Although the vote is non-binding, the Board of Directors and the Compensation Committee will review and consider the voting results when evaluating our executive compensation program.

The Board recommends a vote FOR Proposal 8 which calls for the approval of the advisory resolution on executive compensation.

PROPOSAL 9

ADVISORY VOTE ON THE FREQUENCY OF FUTURE ADVISORY VOTES ON EXECUTIVE COMPENSATION

Pursuant to recently adopted Section 14A of the Securities Exchange Act of 1934, in this Proposal 9 we are asking you to vote on whether future advisory votes on named executive officer compensation should occur every year, every two years or every three years. You are able to specify one of four choices on your proxy card: one year, two years, three years or abstain. You are not voting to approve or disapprove the Board's recommendation. This advisory vote on the frequency of future advisory votes on executive compensation is non-binding.

The Board understands that there are differing views as to what is an appropriate frequency for advisory votes on executive compensation. After carefully considering the alternatives, the Board is recommending that you vote for holding the advisory vote on executive compensation every three years. Because the primary goal of the Company's executive compensation policies and practices is to maximize shareholder value over long periods of time, the Board believes that bringing a multiyear perspective to an evaluation of the company's executive compensation policies and practices will allow a more meaningful assessment. Also, the bulk of executive compensation is tied to three-year performance periods, which align well with a vote every three years. An annual vote could lead to undue emphasis on annual changes in performance and compensation, rather than a longer term perspective, which the Board believes is more appropriate.

The Board recommends that you vote for the option 3 YRS for the frequency of future advisory votes on executive compensation.
