Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2012

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 001-32185

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

(Exact name of registrant as specified in its charter)

Maryland
(State or other jurisdiction
of incorporation or organization)

36-3953261
(I.R.S. Employer Identification No.)

2901 Butterfield Road, Oak Brook, Illinois
(Address of principal executive offices)

60523
(Zip code)

Registrant's telephone number, including area code: **630-218-8000**

N/A

(Former name, former address and former fiscal
year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check One):

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
(do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 8, 2012, there were 89,276,032 shares of common stock outstanding.

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

September 30, 2012 (unaudited)

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. Readers of this Quarterly Report should refer to the audited financial statements of Inland Real Estate Corporation (the Company) for the year ended December 31, 2011, which are included in the Company s 2011 Annual Report, as certain footnote disclosures contained in such audited financial statements have been omitted from this Report on Form 10-Q. In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation have been included in this Quarterly Report.

(1) Organization and Basis of Accounting

Inland Real Estate Corporation (the Company), a Maryland corporation, was formed on May 12, 1994. The Company is a publicly held real estate investment trust (REIT) that owns, operates and develops (directly or through its unconsolidated entities) open-air neighborhood, community and power shopping centers and single tenant retail properties located primarily in Midwest markets. Through wholly-owned subsidiaries, Inland Commercial Property Management, Inc. and Inland TRS Property Management, Inc., the Company manages all properties it owns interests in and properties managed for certain third party and related party entities.

All amounts in these footnotes to the consolidated financial statements are stated in thousands with the exception of per share amounts, square foot amounts, and number of properties.

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

The accompanying consolidated financial statements of the Company include the accounts of its wholly-owned subsidiaries and consolidated joint ventures. These entities are consolidated because the Company is the primary beneficiary of a variable interest entity (VIE). The primary beneficiary is the party that has a controlling financial interest in the VIE, which is defined by the entity having both of the following characteristics: 1) the power to direct the activities that, when taken together, most significantly impact the VIE s performance, and 2) the obligation to absorb losses and right to receive the returns from the VIE that would be significant to the VIE. The third parties interests in these consolidated entities are reflected as noncontrolling interest in the accompanying consolidated financial statements. All inter-company balances and transactions have been eliminated in consolidation.

The consolidated results of the Company include the accounts of Inland Ryan LLC, Inland Ryan Cliff Lake LLC and IRC-IREX Venture II, LLC. The Company has determined that the interests in these entities are noncontrolling interests to be included in permanent equity, separate

from the Company's shareholders' equity, in the consolidated balance sheets and statements of equity. Net income or loss related to these noncontrolling interests is included in net income or loss in the consolidated statements of operations and comprehensive income.

Recent Accounting Principles

The Financial Accounting Standards Board (FASB) issued ASU 2011-05 (the ASU) aimed at increasing the prominence of comprehensive income in financial statements by requiring comprehensive income to be reported in either a single statement or in two consecutive statements reporting net income and comprehensive income. The ASU eliminates the option to report comprehensive income and its components in the statement of changes in stockholder's equity. However, the ASU does not change the U.S. GAAP reporting requirements to report reclassification of items from comprehensive income to net income on the face of the financial statements. The ASU requires retrospective application. This guidance was required to be implemented by the Company beginning January 1, 2012. The impact of the pronouncement did not have a significant impact on the Company's consolidated financial statements as the Company has always disclosed the components of comprehensive income in a single statement along with net income.

Table of Contents**INLAND REAL ESTATE CORPORATION****Notes to Consolidated Financial Statements****September 30, 2012 (unaudited)****(2) Investment Securities**

At September 30, 2012 and December 31, 2011, investment in securities includes \$7,740 and \$11,075, respectively, of perpetual preferred securities and common securities classified as available-for-sale securities, which are recorded at fair value. In addition, \$1,000 in each period of preferred securities are recorded at cost. The Company determined that these securities should be held at cost because the fair value is not readily determinable and there is no active market for these securities.

Unrealized holding gains and losses on available-for-sale securities are excluded from earnings and reported as a separate component of comprehensive income until realized. The Company has recorded a net unrealized gain of \$858 and \$996 on the accompanying consolidated balances sheets as of September 30, 2012 and December 31, 2011, respectively. Realized gains and losses from the sale of available-for-sale securities are determined on a specific identification basis. Sales of investment securities available-for-sale during the three and nine months ended September 30, 2012 resulted in gains on sale of \$305 and \$1,396, respectively, and during the three and nine months ended September 30, 2011, these gains were \$30 and \$1,264, respectively. These gains are included in other income in the accompanying consolidated statements of operations and comprehensive income. Dividend income is recognized when received.

The Company evaluates its investments for impairment quarterly. The Company's policy for assessing near term recoverability of its available for sale securities is to record a charge against net earnings when the Company determines that a decline in the fair value of a security drops below the cost basis and it believes it to be other than temporary. No impairment losses were required or recorded for the three and nine months ended September 30, 2012 and 2011.

Gross unrealized losses on investment securities and the fair value of the related securities, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, at September 30, 2012 were as follows:

Description of Securities	Less than 12 months		12 months or longer		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
REIT Stock	\$ 148	(2)	211	(21)	359	(23)
Non-REIT Stock	\$ 300	(148)			300	(148)

(3) Unconsolidated Joint Ventures

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Unconsolidated joint ventures are those where the Company does not have a controlling financial interest in the joint venture or is not the primary beneficiary of a variable interest entity. The Company accounts for its interest in these ventures using the equity method of accounting. The Company's profit/loss allocation percentage and related investment in each joint venture is summarized in the following table.

Joint Venture Entity	Company's Profit/Loss Allocation Percentage at September 30, 2012	Investment in and advances to unconsolidated joint ventures at September 30, 2012	Investment in and advances to unconsolidated joint ventures at December 31, 2011

- (c) Joint venture with Pine Tree Institutional Realty, LLC (Pine Tree)
- (d) Joint venture with PGGM Private Real Estate Fund (PGGM)
- (e) Joint venture with Inland Private Capital Corporation (IPCC). Investment in balance represents the Company s share of the tenant in common (TIC) or Delaware Statutory Trust (DST) interests.
- (f) The Company s profit/loss allocation percentage varies based on the ownership interest it holds in the entity that owns a particular property that is in the process of selling ownership interests to outside investors.
- (g) The Company s investment in this joint venture was written off in a prior year; however, the joint venture still owns property, which is encumbered.

On June 7, 2010, the Company formed a joint venture with PGGM, a leading Dutch pension fund administrator and asset manager. In conjunction with the formation, the joint venture established two separate REIT entities to hold title to the properties included in the joint venture. In April 2012, the Company substantially completed the overall acquisition goals of this joint venture. Pursuant to the joint venture agreement, the Company contributed assets from its consolidated portfolio and PGGM contributed their share of the equity of the properties contributed by the Company and equity for new acquisitions that were identified. The equity contributed by PGGM, related to properties contributed by the Company, was held in the joint venture and used as the Company s equity contribution towards new acquisitions.

As of September 30, 2012, PGGM s remaining commitment was approximately \$7,100 and the Company s was approximately \$5,700. The table below presents investment property contributions to and acquisitions by the joint venture during the nine months ended September 30, 2012 and the years ended December 31, 2011 and 2010.

Date	Property	City	State	Gross Value	PGGM s Contributed Equity	Company s Contributed Equity

				\$ 466,718	\$ 122,861	\$ 150,344

(a) These properties were acquired by the joint venture.

(b) These properties were contributed to the joint venture by the Company.

Table of Contents**INLAND REAL ESTATE CORPORATION****Notes to Consolidated Financial Statements****September 30, 2012 (unaudited)**

Subsequent to September 30, 2012, the Company and PGGM entered into a First Amendment (the "Amendment") to the Limited Partnership Agreement. Subject to the terms and conditions of the Amendment, the partners increased the maximum contribution obligations to allow for the acquisition of an additional \$400,000 of grocery-anchored and community retail centers located in Midwestern U.S. markets. The Amendment increases the Company's maximum total contribution from approximately \$160,000 to \$280,000. PGGM's maximum total equity contribution has been increased from approximately \$130,000 to \$230,000.

As properties are contributed to the Company's joint venture with PGGM, the net assets are removed from the consolidated financial statements. The table below reflects those properties that became unconsolidated during the nine months ended September 30, 2012 and 2011.

	September 30, 2012	September 30, 2011
Net investment properties	\$ (50,845)	(33,289)
Acquired lease intangibles, net	(149)	(606)
Deferred costs, net	(1,120)	(421)
Other assets	(1,675)	(761)
Mortgages payable	20,891	20,500
Acquired below market lease intangibles, net		294
Other liabilities	193	2
Net assets contributed	\$ (32,705)	(14,281)

PGGM owns a forty-five percent equity ownership interest and the Company owns a fifty-five percent interest in the venture. The Company is the managing partner of the venture, responsible for the day-to-day activities and earns fees for asset management, property management, leasing and other services provided to the venture. The Company determined that this joint venture was not a VIE because it did not meet the VIE criteria. Both partners have the ability to participate in major decisions, as detailed in the joint venture agreement, and therefore, neither partner is deemed to have control of the joint venture. Therefore, this joint venture is unconsolidated and accounted for using the equity method of accounting.

In June 2012, the Company and NYSTRS entered into an amendment to their joint venture agreement dated as of October 8, 2004. The amendment extends the joint venture for a ten-year term through June 30, 2022. No other changes were made to the original joint venture agreement.

During the three and nine months ended September 30, 2012, the Company completed land condemnations for three investment properties held through its joint venture with NYSTRS. In conjunction with these condemnations, the joint venture recorded a gain of approximately \$792, of which the Company's pro rata share of \$396 is included in equity in earnings (loss) of unconsolidated joint ventures on the accompanying statements of operations and comprehensive income.

During the nine months ended September 30, 2012, the Company, on behalf of the joint venture, negotiated with the lender of the North Aurora Town Center development properties to repay the mortgage payable, which matured in July 2011, at a discount. The Company contributed \$10,000 to repay the entire \$30,537 outstanding mortgage, resulting in a gain on the extinguishment of debt in the amount of \$20,537. In conjunction with this debt repayment, the joint ventures previously established to develop these properties were dissolved and the development properties and remaining indebtedness were consolidated by the Company. The Company valued these properties utilizing information obtained from third party sources and internal valuation calculations, comprised of a discounted cash flow model, including discount rates and capitalization rates applied to the expected future cash flows of the property. The consolidation resulted in a gain to the Company of \$1,043 for the nine months ended September 30, 2012. The Company estimated the fair value of the remaining debt by discounting the future cash flows of the instrument at rates currently offered for similar debt instruments (Level 2). The gain from the change in control transaction is reflected as gain (loss) from change in control of investment properties on the accompanying consolidated statements of operations and comprehensive income.

Table of Contents**INLAND REAL ESTATE CORPORATION****Notes to Consolidated Financial Statements****September 30, 2012 (unaudited)**

During the nine months ended September 30, 2011, the Company took control of Orchard Crossing, a property previously held through its joint venture with Pine Tree. The Company valued the property utilizing information obtained from third party sources and internal valuation calculations, comprised of a discounted cash flow model, including discount rates and capitalization rates applied to the expected future cash flows of the property. The consolidation resulted in a net loss to the Company of \$1,400 for the nine months ended September 30, 2011. The Company estimated the fair value of debt by discounting the future cash flows of the instrument at rates currently offered for similar debt instruments. The loss from the change in control transaction is reflected as gain (loss) from change in control of investment properties on the accompanying consolidated statements of operations and comprehensive income.

Prior to these change in control transactions, the Company accounted for its investment in these properties as equity method investees.

The change in control transactions of North Aurora Town Center and Orchard Crossing were accounted for as business combinations, which required the Company to record the assets and liabilities of each the property at their fair values, which were derived using Level 3 inputs.

The following table summarizes the estimated fair values of the assets consolidated and liabilities assumed at the date of acquisition:

	North Aurora Town Center September 30, 2012	Orchard Crossing September 30, 2011
Investment properties	\$ 7,515	19,800
Construction in progress	7,970	
Other assets	74	299
Total assets acquired	15,559	20,099
Mortgages payable	4,300	14,800
Other liabilities	85	294
Net assets acquired	\$ 11,174	5,005

The following table summarizes the investment in North Aurora Town Center and Orchard Crossing:

	North Aurora Town Center	Orchard Crossing
Investments in and advances to unconsolidated joint ventures prior to change in control transaction	\$	6,597

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Investments in and advances to unconsolidated joint ventures activity	10,131	282
Gain (loss) from change in control of investment properties	1,043	(1,400)
Cash received		(499)
Closing credits		25
Net assets acquired	\$ 11,174	5,005

In April 2009, Inland Exchange Venture Corporation (I EVC), a taxable REIT subsidiary (TRS) of the Company, entered into a limited liability company agreement with IPCC. IPCC was formerly known as Inland Real Estate Exchange Corporation and is a wholly-owned subsidiary of The Inland Group, Inc. (TIGI). The resulting joint venture was formed to continue the Company s joint venture relationship with IPCC that began in 2006 and to provide replacement properties for investors wishing to complete a tax-deferred exchange through private placement offerings, using properties made available to the joint venture by IEVC. These offerings are structured to sell TIC interests or DST interests, together the ownership interests, in the identified property. IEVC coordinates the joint venture s acquisition, property management and leasing functions, and earns fees for providing these services to the joint venture. The Company will continue to earn property management and leasing fees on all properties acquired for this venture, including after all ownership interests have been sold to the investors.

Table of Contents**INLAND REAL ESTATE CORPORATION****Notes to Consolidated Financial Statements****September 30, 2012 (unaudited)**

The joint venture was determined to be a VIE under ASC Topic 810 and is consolidated by the Company. Prior to the sale of any ownership interests, the joint venture owns 100% of the ownership interests in the property and controls the major decisions that affect the underlying property; and therefore upon initial acquisition, the joint venture consolidates the property. At the time of first sale of an ownership interest, the joint venture no longer controls the underlying property as the activities and decisions that most significantly impact the property's economic performance are now subject to joint control among the co-owners or lender; and therefore, at such time, the property is deconsolidated and accounted for under the equity method (unconsolidated). Once the operations are unconsolidated, the income is included in equity in earnings (loss) of unconsolidated joint ventures until all ownership interests have been sold. The table below reflects those properties that became unconsolidated during the nine months ended September 30, 2012 and 2011, and therefore no longer represent the consolidated assets and liabilities of the VIE.

	September 30, 2012	September 30, 2011
Investment properties	\$ (45,145)	(109,069)
Acquired lease intangibles	(8,458)	(16,143)
Below market lease intangibles	3,524	2,503
Mortgages payable	28,196	70,413
Net change to investment in and advances to unconsolidated joint ventures	\$ (21,883)	(52,296)

During the nine months ended September 30, 2012, the joint venture with IPCC acquired twelve investment properties. During the three and nine months ended September 30, 2012 and 2011, the Company earned acquisition and management fees from this venture which are included in fee income from unconsolidated joint ventures on the accompanying consolidated statements of operations and comprehensive income. Additionally, in conjunction with the sales, the Company recorded gains of approximately \$112 and \$176 for the three and nine months ended September 30, 2012, respectively, as compared to \$360 and \$913 for the three and nine months ended September 30, 2011. These gains are included in gain on sale of joint venture interests on the accompanying consolidated statements of operations and comprehensive income.

The Company's proportionate share of the earnings or losses related to its unconsolidated joint ventures is reflected as equity in earnings (loss) of unconsolidated joint ventures on the accompanying consolidated statements of operations and comprehensive income. Additionally, the Company earns fees for providing property management, leasing and acquisition activities to these ventures. Acquisition fees are earned on the IPCC joint venture properties as the interests are sold to the investors. The Company recognizes fee income equal to the Company's joint venture partner's share of the expense or commission in the accompanying consolidated statements of operations and comprehensive income. During the three and nine months ended September 30, 2012, the Company earned \$1,486 and \$3,554, respectively, in fee income from its unconsolidated joint ventures, as compared to \$1,740 and \$4,240 for the three and nine months ended September 30, 2011, respectively.

The operations of properties contributed to the joint ventures by the Company are not recorded as discontinued operations because of the Company's continuing involvement with these investment properties. Differences between the Company's investment in the joint ventures and the amount of the underlying equity in net assets of the joint ventures are due to basis differences resulting from the Company's equity investment recorded at its historical basis versus the fair value of certain of the Company's contributions to the joint venture. Such differences are amortized over depreciable lives of the joint venture's property assets. During the three and nine months ended September 30, 2012, the

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Company recorded \$888 and \$2,590 respectively, of amortization of this basis difference, as compared to \$509 and \$1,475 during the three and nine months ended September 30, 2011, respectively.

Table of Contents**INLAND REAL ESTATE CORPORATION****Notes to Consolidated Financial Statements****September 30, 2012 (unaudited)**

The unconsolidated joint ventures had total outstanding debt in the amount of \$451,504 (total debt, not the Company's pro rata share) at September 30, 2012 that matures as follows:

Joint Venture Entity	2012 (a)	2013	2014	2015	2016	Thereafter	Total
IN Retail Fund LLC	\$ 6,600	31,794	11,578	22,000	8,000	100,509	180,481
PTI Boise LLC (b)	2,700						2,700
PTI Westfield LLC (c)	7,050						7,050
TDC Inland Lakemoor LLC (d)	22,105						22,105
INP Retail LP	7,000			5,800		198,193	210,993
IRC/IREX Venture II LLC						28,175	28,175
Total unconsolidated joint venture debt	\$ 45,455	31,794	11,578	27,800	8,000	326,877	451,504

(a) The joint ventures will soon be in discussions with various lenders to extend or restructure this joint venture debt although there is no assurance that the Company, or its joint venture partners, will be able to restructure this debt on terms and conditions the Company find acceptable, if at all.

(b) This loan matured in October 2012. In September 2009, the Company purchased the mortgage from the lender at a discount and became a lender to the joint venture, while at the same time securing a mortgage in the same amount with an alternate lender. Subsequent to September 30, 2012, the Company repaid its loan and is currently working on executing an extension on the financing to the joint venture.

(c) This loan matures in December 2012. The Company has guaranteed approximately \$900 of this outstanding loan.

(d) This loan matured in October 2012. The Company has guaranteed approximately \$9,000 of this outstanding loan. Subsequent to September 30, 2012, the joint venture negotiated with the lender a discounted payoff of the loan in the amount of \$11,000, which agreement remains subject to final documentation and execution by the parties. The Company expects to make an equity contribution of this amount to the joint venture in order to repay the note during the fourth quarter of 2012, assuming execution of the final documents has occurred.

The Company has guaranteed approximately \$10,000 of unconsolidated joint venture debt as of September 30, 2012. The guarantees on two mortgage loans are in effect for the entire term of the respective loan as set forth in the loan documents. The Company is required to pay on a guarantee upon the default of any of the provisions in the respective loan documents, unless the default is otherwise waived. The Company is required to estimate the fair value of these guarantees and, if material, record a corresponding liability. The Company has determined that the fair value of such guarantees are immaterial as of June 30, 2012 and accordingly has not recorded a liability related to these guarantees on the accompanying consolidated balance sheets.

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

When circumstances indicate there may have been a loss in value of an equity method investment, the Company evaluates the investment for impairment by estimating its ability to recover its investments from future expected cash flows. If the Company determines the loss in value is other than temporary, the Company will recognize an impairment charge to reflect the investment at its fair value, which was derived using Level 3 inputs. The total impairment loss is recorded at the joint venture level. The Company's pro rata share of the loss is included in equity in earnings (loss) of unconsolidated joint ventures on the accompanying consolidated statements of operations and comprehensive income. No impairment adjustments were required or recorded during the three months ended September 30, 2012 and 2011 and the nine months ended September 30, 2012. Impairment losses for the nine months ended September 30, 2011 are presented in the table below.

Joint Venture Entity	Nine months ended September 30, 2011	
	Total impairment	Company's pro rata share
NARE/Inland North Aurora I	\$ 7,371	3,317
NARE/Inland North Aurora II	1,200	540
NARE/Inland North Aurora III	8,816	3,967
	\$ 17,387	7,824

Additionally, during the nine months ended September 30, 2011, the Company determined that, based on the fair value of the related properties, the investments in certain development joint ventures were not recoverable. Therefore, the following impairment losses were recorded to reflect the investments at fair value, which were derived using Level 3 inputs and are included in provision for asset impairment for the nine months ended September 30, 2011 on the accompanying consolidated statements of operations and comprehensive income.

Table of Contents**INLAND REAL ESTATE CORPORATION****Notes to Consolidated Financial Statements****September 30, 2012 (unaudited)**

Joint Venture Entity	Nine months ended September 30, 2011
NARE/Inland North Aurora I	\$ 382
NARE/Inland North Aurora II	1,535
NARE/Inland North Aurora III	3,306
	\$ 5,223

Summarized financial information for the unconsolidated joint ventures is as follows:

Balance Sheet:	September 30, 2012	December 31, 2011
Assets:		
Investment in real estate, net	\$ 824,759	702,178
Other assets	78,974	92,271

09/26/12	Walgreens	New Bedford	MA	10,350	2,650
	Total			658,522	\$ 176,783

- (a) This property was sold to the Company's joint venture with PGGM in April 2012.
- (b) These properties became unconsolidated during the nine months ended September 30, 2012 as a result of sales of ownership interests to investors.
- (c) The portfolio includes two properties leased to CVS and one property leased to Walgreens.
- (d) The portfolio includes one property leased to CVS and three properties leased to Walgreens.

During the nine months ended September 30, 2012, consistent with the Company's growth initiative, the Company acquired the investment properties listed above, which were initially consolidated on the Company's consolidated financial statements. The Company acquired 100% of the voting rights of each property for an aggregate purchase price of \$176,783.

The following table presents certain additional information regarding the Company's acquisitions during the nine months ended September 30, 2012. The amounts recognized for major assets acquired and liabilities assumed as of the acquisition date were as follows:

Property	Land	Other Assets
-----------------	-------------	---------------------

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

		Building and Improvements	Acquired Lease Intangibles	Acquired Below Market Lease Intangibles	
Woodbury Commons	\$	4,866	2,774	3,044	384

Total	\$	41,923	118,917	29,334	346
					13,737

-
- (a) The portfolio includes two properties leased to CVS and one property leased to Walgreens.
- (b) The portfolio includes one property leased to CVS and three properties leased to Walgreens.

(5) Fair Value Disclosures

In some instances, certain of the Company's assets and liabilities are required to be measured or disclosed at fair value according to a fair value hierarchy pursuant to relevant accounting literature. This hierarchy ranks the quality and reliability of the inputs used to determine fair values, which are then classified and disclosed in one of three categories. The three levels of the fair value hierarchy are:

Table of Contents**INLAND REAL ESTATE CORPORATION****Notes to Consolidated Financial Statements****September 30, 2012 (unaudited)**

- Level 1 quoted prices in active markets for identical assets or liabilities.
- Level 2 quoted prices in active markets for similar assets or liabilities; quoted prices in markets that are not active; and model-derived valuations whose inputs are observable.
- Level 3 model-derived valuations with unobservable inputs that are supported by little or no market activity

Assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their classifications within the fair value hierarchy levels.

For assets and liabilities measured at fair value on a recurring basis, quantitative disclosure of the fair value for each major category of assets and liabilities is presented below:

Description	Fair value measurements at September 30, 2012 using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Available for sale securities	\$ 7,740		
Total assets	\$ 7,740		
Derivative interest rate instruments liabilities (a)		\$ 10,265

Total liabilities	\$	8,396	698,193

-
- (a) The Company entered into this interest rate swap as a requirement under a mortgage loan closed in 2010.
- (b) The disclosure is included to provide information regarding the inputs used to determine the fair value of the outstanding debt, in accordance with existing accounting guidance and is not presented in the accompanying consolidated balance sheets at fair value.

The fair value of debt is the amount at which the instrument could be exchanged in a current transaction between willing parties. The Company estimates the fair value of its total debt by discounting the future cash flows of each instrument at rates currently offered for similar debt instruments of comparable maturities by the Company's lenders. The Company has not elected the fair value option with respect to its debt. The Company's financial instruments, principally escrow deposits, accounts payable and accrued expenses, and working capital items, are short term in nature and their carrying amounts approximate their fair value at September 30, 2012 and December 31, 2011.

Table of Contents**INLAND REAL ESTATE CORPORATION****Notes to Consolidated Financial Statements****September 30, 2012 (unaudited)****(6) Mortgages and Notes Receivable**

In April 2012, the Company entered into a loan agreement with a developer of the Warsaw Commons Shopping Center in Warsaw, Indiana. The loan provides construction financing to the developer to complete the development of 87,377 square feet of rentable space. The loan accrues interest at a rate of 7.0% per annum and is added to the balance of the loan on a monthly basis. The maximum loan amount under the agreement is \$11,545. The total outstanding balance, plus accrued interest is due upon the May 31, 2013 maturity date. In conjunction with this loan agreement, the Company earned a fee of \$115, equal to 1.0% of the maximum allowed under the loan. As of September 30, 2012, the outstanding balance on this note receivable was \$7,063 and total interest income earned during the nine months ended September 30, 2012 was \$174. Upon completion of the development, the Company has the obligation to acquire the property at a pre-determined price, expected to be approximately \$13,000. Due to the Company's purchase obligation, the loan fee and interest income earned has not been reflected as income in the accompanying consolidated statements of operations and comprehensive income and the balance of the outstanding note is reflected as \$6,774 on the accompanying consolidated balance sheet as of September 30, 2012.

In May 2012, the Company, through its TRS, paid approximately \$3,969 to acquire the notes on two properties which were in default. The loans were acquired at a discount to the outstanding balance. The TRS acquired for \$1,800, the \$3,720 note encumbering the Geneva Road Shopping Center, located in Winfield, Illinois and acquired for \$2,169, the \$4,500 note encumbering the Eola Commons Shopping Center located in Aurora, Illinois. The TRS intends to obtain title to each of these properties through foreclosure proceedings and will then hold these properties for investment purposes or sell them to a third party at the fair market value at the time of the sale.

(7) Transactions with Related Parties

The Company pays affiliates of TIGI for real estate-related brokerage services, investment advisory services and various administrative services, including, but not limited to, payroll preparation and management, data processing, insurance consultation and placement, property tax reduction services and mail processing. These TIGI affiliates provide these services at cost, with the exception of the investment advisor fees and the broker commissions. The investment advisor fees are charged as a percentage of total assets under management and the broker commissions are charged as a percentage of the gross transaction amount. TIGI, through its affiliates, beneficially owns approximately 12.8% of the Company's outstanding common stock. Daniel L. Goodwin, one of our directors, owns a controlling amount of the stock of TIGI.

Amounts paid to TIGI and/or its affiliates for services and office space provided to the Company are set forth below.

During the nine months ended September 30, 2012 and 2011, the Company paid a total of \$292 and \$40 respectively, in mortgage brokerage fees to Grubb & Ellis Company (Grubb & Ellis). No mortgage brokerage fees were paid to Grubb & Ellis during the three months ended September 30, 2012 and 2011. Thomas P. D Arcy, one of the Company's independent directors, served as the president, chief executive officer and a member of the board of directors of Grubb & Ellis until April 2012. Mr. D Arcy did not participate in these transactions and did not have a material interest in them. Joel Simmons, one of the Company's directors, had an indirect personal interest as a broker in these transactions. Mr. Simmons served as an executive vice president of Grubb & Ellis until April 2012. Currently, Mr. Simmons is the Executive Managing Director of BGC Partners, a global provider of real estate services. The Company paid mortgage brokerage fees to BGC Partners of \$223 for the three and nine months ended September 30, 2012. No mortgage brokerage fees were paid to BGC Partners during the three and nine months ended September 30, 2011.

(8) Discontinued Operations

During the nine months ended September 30, 2012 and 2011, the Company sold a total of five investment properties. The following table summarizes the properties sold, date of sale, approximate sales proceeds (net of closing costs), gain on sale, whether the sale qualified as part of a tax deferred exchange and applicable asset impairments.

Property Name	Date of Sale	Sales Proceeds (net of closing costs)	Gain on Sale	Tax Deferred Exchange	Provision for Asset Impairment
Schaumburg Golf Road Retail	February 14, 2011	2,090	197	No	
Park Center Plaza (partial)	August 18, 2011	2,977	358	No	
Grand Traverse Crossings	June 7, 2012	1,018		No	123
Riverplace Center	June 15, 2012	4,067		No	356
Walgreens Jennings, MO	August 1, 2012	2,134	349	No	

If the Company determines that an investment property meets the criteria to be classified as held for sale, it suspends depreciation on the assets held for sale, including depreciation for tenant improvements and additions, as well as on the amortization of acquired in-place leases and customer relationship values. The assets and liabilities associated with those assets would be classified separately on the consolidated balance sheets for the most recent reporting period. As of September 30, 2012, there was one property classified as held for sale, 10th Street Center, located in Indianapolis, Indiana.

On the accompanying consolidated balance sheets at September 30, 2012 and December 31, 2011, the Company has recorded \$2,098 and \$260, respectively, of assets related to discontinued operations and \$210 and \$66, respectively of liabilities related to discontinued operations. These amounts are reflected as a component of other assets and other liabilities on the accompanying consolidated balance sheets. Additionally, for the three months ended September 30, 2012, the Company has recorded income from discontinued operations of \$331, and for the nine months ended September 30, 2012, the Company has recorded a loss from discontinued operations of \$112, including gains on sale of \$349 during each

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

period. Two investment properties sold during the nine months ended September 30, 2012 were sold at prices below their current carrying value and as a result, a provision for asset impairment totaling \$479 was recorded. Additionally, for the three and nine months ended September 30, 2011, the Company has recorded income from discontinued operations of \$1,028 and \$1,785, respectively, including gains on sale of \$358 and \$555, respectively.

(9) **Operating Leases**

Certain tenant leases contain provisions providing for stepped rent increases. U.S. GAAP requires the Company to record rental income for the period of occupancy using the effective monthly rent, which is the average monthly rent for the entire period of occupancy during the term of the lease. The accompanying consolidated financial statements include increases of \$106 and \$616 for the three and nine months ended September 30, 2012, respectively and \$577 and \$1,423 for the three and nine months ended September 30, 2011, respectively of rental income for the period of occupancy for which stepped rent increases apply and \$20,249 and \$19,633 in related accounts receivable as of September 30, 2012 and December 31, 2011, respectively. The Company anticipates collecting these amounts over the terms of the leases as scheduled rent payments are made.

(10) Income Taxes

The Company is qualified and has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (the Code), for federal income tax purposes commencing with the tax year ended December 31, 1995. Since the Company qualifies for taxation as a REIT, the Company generally is not subject to federal income tax on taxable income that is distributed to stockholders. A REIT is subject to a number of organizational and operational requirements, including a requirement that it distribute at least 90% of its taxable income to stockholders, subject to certain adjustments. If the Company fails to qualify as a REIT in any taxable year, without the benefit of certain relief provisions, the Company will be subject to federal and state income tax on its taxable income at regular corporate tax rates. Even if the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local taxes on its income, property or net worth and federal income and excise taxes on its undistributed income.

The Company engages in certain activities through Inland Venture Corporation (IVC) and IEVC, wholly-owned TRS entities. These entities engage in activities that would otherwise produce income that would not be REIT qualifying income. The TRS entities are subject to federal and state income and franchise taxes from these activities.

The Company had no uncertain tax positions as of September 30, 2012. The Company expects no significant increases or decreases in uncertain tax positions due to changes in tax positions within one year of September 30, 2012. The Company has no material interest or penalties relating to income taxes recognized in the consolidated statements of operations and comprehensive income for the three and nine months ended September 30, 2012 and 2011 or in the consolidated balance sheets as of September 30, 2012 and December 31, 2011. As of September 30, 2012, returns for the calendar years 2008 through 2011 remain subject to examination by U.S. and various state and local tax jurisdictions.

Income taxes have been provided for on the asset and liability method, as required by existing guidance. Under the asset and liability method, deferred income taxes are recognized for the temporary differences between the financial reporting basis and the tax basis of assets and liabilities.

(11) Secured and Unsecured Debt

Total Debt Maturity Schedule

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

The following table presents the principal amount of total debt maturing each year, including amortization of principal, based on debt outstanding at September 30, 2012:

	2012 (a)	2013 (a)	2014	2015	2016	Thereafter	Total	Fair Value (b)
Fixed rate debt	\$ 13,940	3,721	163,485(c) (d)	20,282	958	216,404	418,790	433,295
Weighted average interest rate	5.27%		5.27%	6.50%		5.20%	5.29%	
Variable rate debt	\$ 37,723(e)	14,800(f)	6,200		55,000(g)	225,000(h)(i)	338,723	339,205
Weighted average interest rate	4.02%	3.22%	0.58%		2.20%	2.49%	2.61%	

(a) Approximately \$65,000 of the Company's mortgages payable mature prior to October 2013. Subsequent to September 30, 2012, the Company repaid \$12,500 of debt maturing in 2012 using available cash and a \$10,000 draw on its line of credit facility. The Company is in discussions with the lender to refinance the remaining debt maturing in 2012, which it currently expects to be at a rate less than the current debt. The Company will soon be in discussions with the lenders to refinance the 2013 maturing debt or will use available cash and / or borrowings under its unsecured line of credit facility to repay this debt.

(b) The fair value of debt is the amount at which the instrument could be exchanged in a current transaction between willing parties. The Company estimates the fair value of its debt by discounting the future cash flows of each instrument at rates currently offered to the Company for similar debt instruments of comparable maturities by its lenders (Level 3).

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

September 30, 2012 (unaudited)

(c) Included in the debt maturing in 2014 are the Company's convertible notes issued during 2010, which mature in 2029. They are included in 2014 because that is the earliest date these notes can be redeemed or the note holders can require the Company to repurchase their notes. The total for convertible notes above reflects the total principal amount outstanding, in the amount of \$29,215. The consolidated balance sheets at September 30, 2012 reflect the value of the notes including the remaining unamortized discount of \$1,004.

(d) The Company has agreed through a guaranty and a separate indemnification agreement to be liable upon a default under the Algonquin Commons mortgage loan documents. The maturing debt includes the Company's total potential liability under the guaranty and the indemnity agreement, which is approximately \$18,600.

(e) The Company has guaranteed a mortgage for \$2,700, included in the maturing debt and would be required to make a payment on this guarantee upon the default of any of the provisions in the loan document, unless the default is otherwise waived.

(f) The Company has guaranteed approximately \$7,400 of this mortgage and would be required to make a payment on this guarantee upon the default of any of the provision in the loan document, unless the default is otherwise waived.

(g) Included in the debt maturing during 2016 is the Company's unsecured line of credit facility, totaling \$55,000. The Company pays interest only during the term of this facility at a variable rate equal to a spread over LIBOR, in effect at the time of the borrowing, which fluctuates with the Company's leverage ratio. As of September 30, 2012, the weighted average interest rate on outstanding draws on the line of credit facility was 2.20%. This credit facility requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of September 30, 2012, the Company was in compliance with these financial covenants.

(h) Included in the thereafter column is the Company's \$175,000 term loan which matures in August 2017. The Company pays interest only during the term of this loan at a variable rate equal to a spread over LIBOR, in effect at the time of the borrowing, which fluctuates with the Company's leverage ratio. As of September 30, 2012, the weighted average interest rate on the term loan was 2.20%. This term loan requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of September 30, 2012, the Company was in compliance with these financial covenants.

(i) Included in the thereafter column is the Company's \$50,000 term loan which matures in November 2018. The Company pays interest only during the term of this loan at a variable rate, with an interest rate floor of 3.50%. As of September 30, 2012, the interest rate on this term loan was 3.50%. This term loan requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of September 30, 2012, the Company was in compliance with these financial covenants.

Mortgages Payable

The Company's mortgages payable are secured by certain of the Company's investment properties. Mortgage loans outstanding as of September 30, 2012 were \$448,298 and had a weighted average interest rate of 5.07%. Of this amount, \$389,575 had fixed rates ranging from 4.35% to 6.50% and a weighted average fixed rate of 5.31% as of September 30, 2012. The remaining \$58,723 of mortgage debt represented variable rate loans with a weighted average interest rate of 3.45% as of September 30, 2012. As of September 30, 2012, scheduled maturities for the Company's outstanding mortgage indebtedness had various due dates through September 2022. The majority of the Company's mortgage loans

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

require monthly payments of interest only, although some loans require principal and interest payments, as well as reserves for taxes, insurance and certain other costs.

On July 1, 2010, the Company entered into a loan modification agreement with the special servicer of the loan on one phase of the Algonquin Commons investment property. The original loan required monthly payments of principal and interest. The modification changed the monthly payments to interest only, for a period of two years, which expired June 1, 2012. The purpose of the modification was to reduce the cash required to service the debt and redeploy the capital to partially fund the costs of new leases entered into during the past two years. However, due to ongoing vacancies and certain co-tenancy issues, which allowed certain tenants to reduce the monthly rents paid, the property is not generating sufficient cash flow to resume paying both principal and interest payments on the outstanding debt.

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

September 30, 2012 (unaudited)

In an effort to trigger discussions with the special servicer, the Company ceased paying the monthly debt service on the loans for both phases. As a result, and as expected, the lender issued a notice of default under the loan documents. The total outstanding balance of the debt on both phases of the property, which is in default, is \$90,200, of which \$71,600 is non-recourse and approximately \$18,600 has been guaranteed by the Company. As of the date of this report, the amount in arrears, equal to unpaid principal, interest and late charges is approximately \$3,800. The Company has had discussions with the special servicer, but has not yet been able to reach an agreement to resolve the issue. The lender has opted to attempt to sell the notes. Although the Company intends to participate in the note sale and submit a bid to purchase the notes, there is no assurance it will be successful. If the notes are sold to another bidder, there is no assurance that the purchasing bidder will work with the Company to reach an agreeable solution. The lender may attempt to enforce its rights under the loan documents and has several non-exclusive options available to it, including, without limitation, declaring all or any portion of the debt immediately due and payable, initiating foreclosure proceedings or suing the borrower. If the borrower is sued or the parties otherwise fail to reach an agreement, the Company's obligation under its aforementioned guarantee would likely be triggered. The Company cannot currently estimate what the impact to the consolidated financial statements will be until a final outcome has been reached. If the Company is required to fulfill its obligations under its partial guarantee of the loan, fulfilling those guarantee obligations could have a material adverse effect on the Company's consolidated statements of operations and comprehensive income for the period and the year in which the payment would be made. The Company believes that fulfilling its guarantee obligations would not have a material impact on its consolidated balance sheets.

Derivative Instruments and Hedging Activities

Risk Management Objective of Using Derivatives

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risk, including interest rate, liquidity and credit risk primarily by managing the amount, sources, and duration of its debt funding and, to a limited extent, the use of derivative instruments.

Specifically, the Company has entered into derivative instruments to manage exposures that arise from business activities that result in the payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative instruments, described below, are used to manage differences in the amount, timing, and duration of the Company's known or expected cash payments principally related to certain of the Company's borrowings.

Cash Flow Hedges of Interest Rate Risk

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

The Company's objective in using interest rate derivatives is to manage exposure to interest rate movements and add stability to interest expense. To accomplish this objective, the Company uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

The Company currently has one interest rate swap outstanding that is used to hedge the variable cash flows associated with its variable-rate debt. The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in comprehensive income (expense) and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivatives, if any, is recognized directly in earnings. The Company has entered into one interest rate swap contract as a requirement under a secured mortgage and the hedging relationship is considered to be perfectly effective as of September 30, 2012.

Table of Contents**INLAND REAL ESTATE CORPORATION****Notes to Consolidated Financial Statements****September 30, 2012 (unaudited)**

Amounts reported in comprehensive income (expense) related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. The Company estimates that an additional \$2,072 will be reclassified from comprehensive income (expense) as an increase to interest expense over the next twelve months.

As of September 30, 2012 and December 31, 2011, the Company had the following outstanding interest rate derivative that is designated as a cash flow hedge of interest rate risk:

Interest Rate Derivative	Notional	
Interest Rate Swap	\$	60,000

The table below presents the fair value of the Company's derivative financial instrument as well as its classification on the consolidated balance sheets as of September 30, 2012 and December 31, 2011.

	Liability Derivatives As of September 30, 2012		Liability Derivatives As of December 31, 2011	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
	Derivatives designated as cash flow hedges:			
Interest rate swaps	Other liabilities	\$ 10,265	Other liabilities	\$ 8,396

The table below presents the effect of the Company's derivative financial instruments on comprehensive income for the three and nine months ended September 30, 2012 and 2011.

	Three months ended September 30, 2012	Three months ended September 30, 2011	Nine months ended September 30, 2012	Nine months ended September 30, 2011

Unrealized loss on derivative	\$	(602)	(5,321)	(1,869)	(5,976)
-------------------------------	----	-------	---------	---------	---------

Credit-risk-related Contingent Features

Derivative financial investments expose the Company to credit risk in the event of non-performance by the counterparties under the terms of the interest rate hedge agreements. The Company believes it minimizes the credit risk by transacting with major creditworthy financial institutions.

The Company has an agreement with its derivative counterparty that contains a provision which provides that if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligation.

As of September 30, 2012, the fair value of derivatives in a liability position related to this agreement was \$10,265. If the Company breached any of the contractual provisions of the derivative contract, it would be required to settle its obligation under the agreement at its termination value of \$11,268.

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

September 30, 2012 (unaudited)

Unsecured Credit Facilities

In 2011, the Company entered into amendments to its existing unsecured line of credit facility and term loan, together the Credit Agreements. Under the term loan agreement, the Company borrowed, on an unsecured basis, \$150,000. The aggregate commitment of the Company's line of credit facility is \$250,000, which includes a \$100,000 accordion feature. The access to the accordion feature is at the discretion of the current lending group. If approved, the terms for the funds borrowed under the accordion feature would be current market terms and not the terms of the existing line of credit facility. The lending group is not obligated to approve access to the additional funds.

Obligations under the Credit Agreements were scheduled to mature on June 21, 2014. Borrowings under the Credit Agreements bore interest at a base rate applicable to any particular borrowing (e.g., LIBOR) plus a graduated spread that varies with the Company's leverage ratio.

On August 21, 2012, the Company entered into amendments to the Credit Agreements to, among other things, (1) extend the maturity date of the line of credit facility to August 20, 2016 and of the term loan to August 20, 2017; (2) increase the amount borrowed under the term loan to \$175,000 and increase the aggregate commitment of the Company's line of credit facility to \$275,000, which includes the \$100,000 accordion feature; and (3) reduce the graduated spread that varies with the Company's leverage ratio. In conjunction with these amendments, the Company paid approximately \$2,280 in fees and costs.

The Company pays interest only, on a monthly basis during the term of the Credit Agreements, with all outstanding principal and unpaid interest due upon termination of the Credit Agreements. The Company is also required to pay, on a quarterly basis, an amount less than 1% per annum on the average daily funds remaining under this line. As of September 30, 2012 and December 31, 2011, the outstanding balance on the line of credit facility was \$55,000 and \$80,000, respectively. As of September 30, 2012, the Company had up to \$120,000 available under its line of credit facility, not including the accordion feature. Availability under the line of credit facility may be limited due to covenant compliance requirements in the Credit Agreements.

On November 15, 2011, the Company entered into an unsecured loan agreement with Wells Fargo Bank, National Association as lender pursuant to which the company received \$50,000 of loan proceeds. The loan matures on November 15, 2018. The Company pays interest only, on a monthly basis, with all outstanding principal and unpaid interest due upon the maturity date. The loan will accrue interest at an effective rate calculated in accordance with the loan documents, provided, however, that in no event will the interest rate on the outstanding principal balance be less than 3.5% per annum. The Company may not prepay the loan in whole or in part prior to November 15, 2014. On or after that date, the Company may prepay the loan in its entirety or in part, together with all interest accrued and may incur a prepayment penalty in conjunction with such prepayment.

Convertible Notes

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

In August 2010, the Company issued \$29,215 in face value of 5.0% convertible senior notes due 2029 (the Notes), all of which remained outstanding at September 30, 2012.

Interest on the Notes is payable semi-annually. The Notes mature on November 15, 2029 unless repurchased, redeemed or converted in accordance with their terms prior to that date. The earliest date holders of the Notes may require the Company to repurchase their Notes in whole or in part is November 15, 2014. Prior to November 21, 2014, the Company may not redeem the Notes prior to the date on which they mature except to the extent necessary to preserve its status as a REIT. However, on or after November 21, 2014, the Company may redeem the Notes, in whole or in part, subject to the redemption terms in the Note. Following the occurrence of certain change in control transactions, the Company may be required to repurchase the Notes in whole or in part for cash at 100% of the principal amount of the Notes to be repurchased plus accrued and unpaid interest.

Table of Contents**INLAND REAL ESTATE CORPORATION****Notes to Consolidated Financial Statements****September 30, 2012 (unaudited)**

Holders of the Notes may convert their Notes into cash or a combination of cash and common stock, at the Company's option, at any time on or after October 15, 2029, but prior to the close of business on the second business day immediately preceding November 15, 2029, and also following the occurrence of certain events. Subject to certain exceptions, upon a conversion of Notes the Company will deliver cash and shares of its common stock, if any, based on a daily conversion value calculated on a proportionate basis for each trading day of the relevant 30 day trading period. The conversion rate as of September 30, 2012, for each \$1 principal amount of Notes was 102.8807 shares of the Company's common stock, subject to adjustment under certain circumstances. This is equivalent to a conversion price of approximately \$9.72 per share of common stock.

At September 30, 2012 and December 31, 2011, the Company has recorded \$548 and \$183, respectively of accrued interest related to the convertible notes. This amount is included in accounts payable and accrued expenses on the Company's consolidated balance sheets.

The Company accounts for its convertible notes by separately accounting for the debt and equity components of the notes. The value assigned to the debt component is the estimated fair value of a similar bond without the conversion feature, which results in the debt being recorded at a discount. The debt is subsequently accreted to its par value over the conversion period with a rate of interest being reflected in earnings that reflects the market rate at issuance. The Company initially recorded \$9,412 to additional paid in capital on the accompanying consolidated balance sheets, to reflect the equity portion of the convertible notes. The debt component is recorded at its fair value, which reflects an unamortized debt discount. The following table sets forth the net carrying values of the debt and equity components included in the consolidated balance sheets at September 30, 2012 and December 31, 2011.

	September 30, 2012	December 31, 2011
Equity Component (a)	\$ 9,345	9,321
Debt Component	\$ 29,215	29,215
Unamortized Discount (b)	(1,004)	(1,352)
Net Carrying Value	\$ 28,211	27,863

(a) The equity component is net of unamortized equity issuance costs of \$67 and \$91 at September 30, 2012 and December 31, 2011, respectively.

(b) The unamortized discount will be amortized into interest expense on a monthly basis through November 2014.

Total interest expense related to the convertible notes for the three and nine months ended September 30, 2012 and 2011 was calculated as follows:

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

	Three months ended September 30, 2012	Three months ended September 30, 2011	Nine months ended September 30, 2012	Nine months ended September 30, 2011
Interest expense at coupon rate	\$ 368	1,299	1,104	3,898
Discount amortization	116	363	348	1,090
Total interest expense	\$ 484(a)	1,662(b)	1,452(a)	4,988(b)

(a) The effective interest rate of these convertible notes is 7.0%, which is the rate at which a similar instrument without the conversion feature could have been obtained in August 2010.

(b) Included in the three and nine months ended September 30, 2011 are the notes previously issued in 2006 with an effective interest rate of 5.875%, the rate at which a similar instrument without the conversion feature could have been obtained in November 2006. These notes were paid in full during the year ended December 31, 2011.

Table of Contents**INLAND REAL ESTATE CORPORATION****Notes to Consolidated Financial Statements****September 30, 2012 (unaudited)****(12) Earnings per Share**

Basic earnings (loss) per share (EPS) is computed by dividing net income (loss) by the basic weighted average number of common shares outstanding for the period (the common shares). Diluted EPS is computed by dividing net income (loss) by the common shares plus shares issuable upon exercise of existing options or other contracts. As of September 30, 2012 and December 31, 2011, options to purchase 83 and 77 shares of common stock, respectively, at exercise prices ranging from \$6.85 to \$19.96 per share were outstanding. Convertible notes are included in the computation of diluted EPS using the if-converted method, to the extent the impact of conversion is dilutive. The options and convertible notes were not included in the computation of basic or diluted EPS as the effect would be immaterial or anti-dilutive.

As of September 30, 2012, 271 shares of common stock issued pursuant to employment agreements were outstanding, of which 124 have vested. Additionally, the Company issued 87 shares pursuant to employment incentives of which 48 have vested and six have been cancelled. The unvested shares are excluded from the computation of basic EPS but reflected in diluted EPS unless the effect would be immaterial or anti-dilutive.

The following is a reconciliation between weighted average shares used in the basic and diluted EPS calculations, excluding amounts attributable to noncontrolling interests:

	Three months ended September 30, 2012	Three months ended September 30, 2011	Nine months ended September 30, 2012	Nine months ended September 30, 2011
Numerator:				
Income (loss) from continuing operations	\$ 1,328	1,671	7,334	(10,710)
Income (loss) from discontinued operations	331	1,028	(112)	1,785
Net income (loss)	1,659	2,699	7,222	(8,925)
Net (income) loss attributable to the noncontrolling interest	28	(46)	103	(111)
Net income (loss) attributable to Inland Real Estate Corporation	1,687	2,653	7,325	(9,036)
Dividends on preferred shares	(2,185)		(5,663)	
Net income (loss) attributable to common stockholders	\$ (498)	2,653	1,662	(9,036)
Denominator:				
Denominator for net income (loss) per common share basic:				
Weighted average number of common shares outstanding	89,049	88,754	88,973	88,426
Effect of dilutive securities:				
Unvested restricted shares		(a) 116(b)	136(b)	(c)

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Denominator for net income (loss) per common share diluted:

Weighted average number of common and common equivalent shares outstanding	89,049	88,870	89,109	88,426
--	--------	--------	--------	--------

(a) Unvested restricted shares of common stock, the effect of which would be anti-dilutive, were 180 for the three months ended September 30, 2012. These shares were not included in the computation of diluted EPS as a loss from continuing operations was reported after subtracting dividends on preferred shares.

(b) Unvested restricted shares of common stock have a dilutive impact, although it is not material to the periods presented.

(c) Unvested restricted shares of common stock, the effect of which would be anti-dilutive, were 98 for the nine months ended September 30, 2011. These shares were not included in the computation of diluted EPS as a loss from continuing operations was reported.

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

September 30, 2012 (unaudited)

In November 2009, the Company entered into a three-year Sales Agency Agreement with BMO Capital Markets Corp. (BMO) to offer and sell shares of its common stock having an aggregate offering amount of up to \$100 million from time to time through BMO, acting as sales agent. Offers and sales of shares of its common stock, if any, may be made in privately negotiated transactions (if the Company and BMO have so agreed in writing) or by any other method deemed to be an at the market offering as defined in Rule 415 under the Securities Act, including sales made directly on the New York Stock Exchange or to or through a market maker. The Company has referred to this arrangement with BMO in this report on Form 10-Q as its ATM issuance program. As of September 30, 2012, the Company has issued an aggregate of approximately 3,816 shares of its common stock through the ATM issuance program, since inception. The Company received net proceeds of approximately \$31,691 from the issuance of these shares, which reflects approximately \$32,504 in gross proceeds, offset by approximately \$813 in commissions and fees. The Company used the proceeds from shares issued through the program for general corporate purposes, which included repayment of mortgage indebtedness secured by its properties, acquiring real property through wholly-owned subsidiaries or through the Company's investment in one or more joint venture entities and repaying amounts outstanding on the unsecured line of credit facility, among other things. As of September 30, 2012, approximately \$67,496 remained available for sale under this issuance program. The Sales Agency Agreement for the program expires on November 9, 2012. The Company is currently negotiating an extension of the ATM issuance program.

In February 2012, the Company issued 2,400 shares of 8.125% Series A Cumulative Redeemable Preferred Stock (Series A Preferred Stock) at a public offering price of \$25.3906 per share, for net proceeds of approximately \$59,000, after deducting the underwriting discount but before expenses. The Company used the net proceeds of the offering to purchase additional investment properties to be owned by the Company and its unconsolidated joint ventures. As of September 30, 2012, the Company had no cumulative preferred stock dividends in arrears.

The Series A Preferred Stock rank senior to the common shares of beneficial interest with respect to payment of distributions; the Company will not pay any distributions, or set aside any funds for the payment of distributions, on its common stock unless it has also paid (or set aside for payment) the full cumulative distributions on the Series A Preferred Stock for the current and all past dividend periods. The outstanding Series A Preferred Stock does not have any maturity date, and is not subject to mandatory redemption. The difference between the carrying value and the redemption amount of the Series A Preferred Stock is the offering costs. In addition, the Company is not required to set aside funds to redeem the Series A Preferred Stock. The Company may not optionally redeem the Series A Preferred Stock prior to October 6, 2016, except in limited circumstances relating to the Company's continuing qualifications as a REIT or as discussed below. After that date, the Company may, at its option, redeem the Series A Preferred Stock, in whole or from time to time in part, by payment of \$25.00 per share, plus any accumulated, accrued and unpaid distributions to and including the date of redemption. In addition, upon the occurrence of a change of control (as defined in the Company's charter), the result of which the Company's common stock and the common securities of the acquiring or surviving entity are not listed on the New York Stock Exchange, the NYSE Amex Equities or the NASDAQ Stock Market, or any successor exchanges, the Company may, at its option, redeem the Series A Preferred Stock in whole or in part within 120 days after the change of control occurred, by paying \$25.00 per share, plus any accrued and unpaid distributions to and including the date of redemption. If the Company does not exercise its right to redeem the Series A Preferred Stock upon a change of control, the holders of the Series A Preferred Stock have the right to convert some or all of their shares into a number of the Company's shares of common stock based on a defined formula subject to a cap of 27,600 shares of common stock.

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

September 30, 2012 (unaudited)

(13) Segment Reporting

Guidance regarding the disclosures about segments of an enterprise and related information requires disclosure of certain operating and financial data with respect to separate business activities within an enterprise. The Company owns and acquires well located open air retail centers. The Company currently owns investment properties located in the States of Florida, Idaho, Illinois, Indiana, Kansas, Kentucky, Massachusetts, Minnesota, Missouri, Nebraska, New York, Ohio, Tennessee, Texas, Utah, Virginia and Wisconsin. These properties are typically anchored by grocery and drug stores, complemented with additional stores providing a wide range of other goods and services.

The Company assesses and measures operating results on an individual property basis for each of its investment properties based on property net operating income. Management internally evaluates the operating performance of the properties as a whole and does not differentiate properties by geography, size or type. The Company aggregates its properties into one reportable segment since all properties are open air retail centers. Accordingly, the Company has concluded that it has a single reportable segment.

(14) Commitments and Contingencies

The Company is subject, from time to time, to various legal proceedings and claims that arise in the ordinary course of business. While the resolution of these matters cannot be predicted with certainty, management believes, based on currently available information, that the final outcome of such matters will not have a material adverse effect on the financial statements of the Company.

(15) Subsequent Events

On October 5, 2012, the Company acquired, through an installment contract, vacant land in Lincolnshire, Illinois, a suburb of Chicago, on which a Fresh Market grocery store will be built. The total purchase price of the land is \$1,400 and as of November 8, 2012, the Company has made two installment payments, totaling \$570.

On October 9, 2012, the Company sold Hartford Plaza, located in Naperville, Illinois to an unaffiliated third party for \$4,520, a price above its current carrying value.

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

On October 15, 2012, the Company paid a cash distribution of \$0.169271 per share on the outstanding shares of its Series A Preferred Stock to stockholders of record at the close of business on October 1, 2012.

On October 15, 2012, the Company announced that it had declared a cash distribution of \$0.169271 per share on the outstanding shares of its Series A Preferred Stock. This distribution is payable on November 15, 2012 to the stockholders of record at the close of business on November 1, 2012.

On October 17, 2012, the Company paid a cash distribution of \$0.0475 per share on the outstanding shares of its common stock to stockholders of record at the close of business on October 1, 2012.

On October 17, 2012, the Company announced that it had declared a cash distribution of \$0.0475 per share on the outstanding shares of its common stock. This distribution is payable on November 19, 2012 to the stockholders of record at the close of business on October 31, 2012.

On October 30, 2012, the Company's joint venture with IPCC purchased two single tenant investment properties from an unaffiliated third party for approximately \$2,185. The properties are located in Cisco, Texas and Lorain, Ohio, and contain a total of 16,400 square feet of leasable area and are each 100% leased by Family Dollar.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain statements in this Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this Quarterly Report on Form 10-Q (including documents incorporated herein by reference) constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Federal Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that do not reflect historical facts and instead reflect our management's intentions, beliefs, expectations, plans or predictions of the future. Forward-looking statements can often be identified by words such as believe, expect, anticipate, intend, estimate, may, will, should and could. Examples of forward-looking statements include, but are not limited to, statements that describe or contain information related to matters such as management's intent, belief or expectation with respect to our financial performance, investment strategy or our portfolio, our ability to address debt maturities, our cash flows, our growth prospects, the value of our assets, our joint venture commitments and the amount and timing of anticipated future cash distributions. Forward-looking statements reflect the intent, belief or expectations of our management based on their knowledge and understanding of the business and industry and their assumptions, beliefs and expectations with respect to the market for commercial real estate, the U.S. economy and other future conditions. These statements are not guarantees of future performance, and investors should not place undue reliance on forward-looking statements. Actual results may differ materially from those expressed or forecasted in forward-looking statements due to a variety of risks, uncertainties and other factors, including but not limited to the factors listed and described under Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the Securities and Exchange Commission (the SEC) on February 27, 2012 as they may be revised or supplemented by us in subsequent Reports on Form 10-Q and other filings with the SEC. Among such risks, uncertainties and other factors are market and economic challenges experienced by the U.S. economy or real estate industry as a whole, including dislocations and liquidity disruptions in the credit markets; the inability of tenants to continue paying their rent obligations due to bankruptcy, insolvency or a general downturn in their business; competition for real estate assets and tenants; impairment charges; the availability of cash flow from operating activities for distributions and capital expenditures; our ability to refinance maturing debt or to obtain new financing on attractive terms; future increases in interest rates; actions or failures by our joint venture partners, including development partners; and factors that could affect our ability to qualify as a real estate investment trust. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results.

In this report, all references to we, our and us refer collectively to Inland Real Estate Corporation and its consolidated subsidiaries. All amounts in this Form 10-Q are stated in thousands with the exception of per share amounts, per square foot amounts, number of properties, and number of leases.

Executive Summary

We are a self-managed, publicly traded real estate investment trust (REIT) that owns and operates neighborhood, community, power and single tenant retail centers. We also may construct or develop properties or render services in connection with construction or development. Through wholly-owned subsidiaries, Inland Commercial Property Management, Inc. and Inland TRS Property Management, Inc., we manage all properties we own interests in and properties managed for certain third party and related party entities. Our investment properties are typically anchored by grocery, drug or discount stores, which provide everyday goods and services to consumers, rather than stores that sell discretionary items. We seek to acquire properties with high quality tenants and attempt to mitigate our risk of tenant defaults by maintaining a diversified tenant base. As of September 30, 2012, no single tenant accounted for more than approximately 7.5% of annual base rent in our total portfolio.

We are incorporated under Maryland law and have qualified and elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (the Code), for federal income tax purposes commencing with the tax year ended December 31, 1995. Since we qualify for taxation as a REIT, we generally are not subject to federal income tax on taxable income that is distributed to stockholders; however, we are subject to a

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

number of organizational and operational requirements, including a requirement that we distribute at least 90% of our taxable income to our stockholders, subject to certain adjustments. Moreover, we may be subject to certain state and local taxes on our income, property or net worth and federal income and excise taxes on our undistributed income. If we fail to qualify as a REIT in any taxable year, without the benefit of certain relief provisions of the Code we will be subject to federal and state income taxes on our taxable income at regular corporate tax rates.

We engage in certain activities through our wholly owned taxable REIT subsidiaries (TRS entities), Inland Venture Corporation (IVC) and Inland Exchange Venture Corporation (IEVC). TRS entities engage in activities that would otherwise produce income that would not be REIT qualifying income, such as managing properties owned through our joint ventures. TRS entities are subject to federal and state income and franchise taxes.

Table of Contents

Our largest expenses relate to the operation of our properties as well as the interest expense on our mortgages payable and other debt obligations. Our property operating expenses include, but are not limited to, real estate taxes, regular maintenance, landscaping, snow removal and periodic renovations to meet tenant needs. Pursuant to lease agreements, most tenants are required to reimburse us for some or all of their pro rata share of the real estate taxes and operating expenses of the property.

To measure our operating results against those of other retail real estate owners/operators, we compare occupancy percentages and our rental rates to the average rents charged by our competitors in similar centers. To measure our operating results against those of other REITs, we compare company-wide growth in net income and FFO, growth in same store net operating income and general and administrative expenses as a percentage of total revenues and total assets.

As of September 30, 2012, we owned interests in 150 investment properties, including 42 properties that we owned indirectly through our unconsolidated joint ventures but not including our development joint venture properties, as the latter had not reached what we believe to be a stabilized occupancy rate.

Strategies and Objectives

Current Strategies

Our primary business objective is to enhance the performance and value of our investment properties through management strategies that address the needs of an evolving retail marketplace. Our success in operating our centers efficiently and effectively is, we believe, a direct result of our expertise in the acquisition, management, leasing and development/re-development, either directly or through a joint venture, of our properties.

Our focus for 2012 is to continue to grow assets under management through our joint ventures. In April 2012, we substantially completed the overall acquisition goals of our joint venture with PGM Private Real Estate Fund (PGM) and, subsequent to the end of the third quarter, we entered into an amendment to this joint venture agreement to increase the maximum contributions of each partner. Additionally, we formalized a 10-year extension of our joint venture agreement with New York State Teachers Retirement System (NYSTRS), which required no additional capital commitment to the joint venture from either partner. Finally, we look to continue to acquire properties through our joint venture with Inland Private Capital Corporation (IPCC) to provide additional acquisition fee income as well as ongoing management fee income. We will continue to explore opportunities to grow our assets under management including acquiring investment properties for our wholly-owned portfolio and exploring the opportunity to form new joint ventures.

Acquisition Strategies

We seek to selectively acquire well-located open air retail centers that meet our investment criteria. We will, from time to time, acquire properties either without financing contingencies or by assuming existing debt to provide us with a competitive advantage over other potential purchasers requiring financing or financing contingencies. Additionally, we concentrate our property acquisitions in areas where we have a

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

large market concentration. In doing this, we believe we are able to attract new retailers to the area and possibly lease several locations to them. Additionally, we have been successful in leasing additional space to some existing tenants in our current investment properties.

Joint Ventures

We have formed joint ventures to acquire stabilized retail properties as well as properties to be redeveloped and vacant land to be developed. We structure these ventures to earn fees from the joint ventures for providing property management, asset management, acquisition and leasing services. We will continue to receive management and leasing fees for those investment properties under management, however acquisition fees may decrease as we acquire fewer investment properties through these ventures.

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Table of Contents

Additionally, we have formed a joint venture to acquire properties that are ultimately sold to investors through a private offering of tenant-in-common (TIC) interests or interests in Delaware Statutory Trusts (DST). We earn fees from the joint venture for providing property management, acquisition and leasing services. We will continue to receive management and leasing fees for those properties under management; even after all of the TIC or DST interests have been sold.

Operations

We actively manage costs to minimize operating expenses by centralizing all management, leasing, marketing, financing, accounting and data processing activities to provide operating efficiencies. We seek to improve rental income and cash flow by aggressively marketing rentable space. We emphasize regular maintenance and periodic renovation to meet the needs of tenants and to maximize long-term returns. We maintain a diversified tenant base consisting primarily of retail tenants providing consumer goods and services. We proactively review our existing portfolio for potential re-development opportunities.

Acquisitions and Dispositions

The table below presents investment property acquisitions during the nine months ended September 30, 2012 and the year ended December 31, 2011.

Date	Property	City	State	GLA Sq.Ft.	Purchase Price	Cap Rate (a)	Financial Occupancy at time of Acquisition

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

- (a) The Cap Rate disclosed is as of the time of acquisition and is calculated by dividing the forecasted net operating income (NOI) by the purchase price. Forecasted NOI is defined as forecasted net income for the twelve months following the acquisition of the property, calculated in accordance with U.S. GAAP, excluding straight-line rental income, amortization of lease intangibles, interest, depreciation, amortization and bad debt expense, less a vacancy factor to allow for potential tenant move-outs or defaults.
- (b) These properties were acquired through our joint venture with IPCC.
- (c) This portfolio includes one CVS store and three Walgreens stores, located in Nampa, Idaho; St. George, Utah; Lee s Summit, Missouri and McPherson, Kansas.
- (d) This portfolio includes two CVS stores and one Walgreens store, located in Newport News, Virginia; McAllen, Texas and Dunkirk, New York.
- (e) The purchase price of this property includes approximately 6,700 square feet subject to a ground lease. Ground lease square footage is not included in our GLA.
- (f) The purchase price of this property includes approximately 229,000 square feet subject to ground leases. Ground lease square footage is not included in our GLA.
- (g) These properties were acquired through our joint venture with PGGM.
- (h) The purchase price of this property includes approximately 6,600 square feet subject to a ground lease. Ground lease square footage is not included in our GLA.
- (i) This property was sold to our joint venture with PGGM on April 13, 2012.
- (j) The purchase price of this property includes approximately 6,200 square feet subject to a ground lease. Ground lease square footage is not included in our GLA.
- (k) The purchase price of this property includes approximately 154,000 square feet subject to ground leases. Ground lease square footage is not included in our GLA.
- (l) This portfolio includes six Walgreens stores, located in Normal, Illinois Spokane, Washington; Villa Rica, Georgia; Waynesburg, Pennsylvania; Somerset, Massachusetts and Gallup, New Mexico. The cap rates for the various properties ranged from 7.10% to 7.22%.

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Table of Contents

(m) This portfolio includes 16 properties, triple net leased to various tenants. These properties are located in Portland, Oregon; Apopka, Florida; Crestview, Florida; San Antonio, Texas; Lawrenceville, Georgia; Brandon, Florida; Columbia, South Carolina; Lewisville, Texas; Houston, Texas; St. Louis, Missouri; Monroe, North Carolina; Milwaukee, Wisconsin; Fort Worth, Texas; Eagan, Minnesota; Port St. Lucie, Florida and San Antonio, Texas. The purchase price includes a 4,700 square foot ground lease with Bank of America and a 5,300 square foot ground lease with Capital One. Ground lease square footage is not included in our GLA. The cap rates for the various properties ranged from 6.00% to 7.95%.

The table below presents investment property dispositions, including properties disposed of by our unconsolidated joint ventures, during the nine months ended September 30, 2012 and the year ended December 31, 2011.

(a) This property is included as a disposition because all of the TIC or DST interests have been sold through our joint venture with IPCC. No gain or loss is reflected in this table because the disposition of these properties is not considered a property sale, but rather a sale of ownership interest in the properties. The gains from these properties are included in gain from sale of joint venture interests on the accompanying consolidated statements of operations and comprehensive income.

(b) This portfolio includes six Walgreens stores, located in Normal, Illinois; Spokane, Washington; Villa Rica, Georgia; Waynesburg, Pennsylvania; Somerset, Massachusetts and Gallup, New Mexico.

(c) This portfolio includes 16 properties, triple net leased to various tenants. These properties are located in Portland, Oregon; Apopka, Florida; Crestview, Florida; San Antonio, Texas; Lawrenceville, Georgia; Brandon, Florida; Columbia, South Carolina; Lewisville, Texas; Houston, Texas; St. Louis, Missouri; Monroe, North Carolina; Milwaukee, Wisconsin; Fort Worth, Texas; Eagan, Minnesota; Port St. Lucie, Florida and San Antonio, Texas.

(d) This portfolio includes a CVS store in Elk Grove, California; a Walgreens store in Island Lake, Illinois; Harbor Square Plaza in Port Charlotte, Florida and Coppes in Sun Prairie, Wisconsin.

Critical Accounting Policies

Disclosures discussing all critical accounting policies are set forth in our Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the Securities and Exchange Commission on February 27, 2012, under the heading Critical Accounting Policies. We note no significant changes have been made to the critical accounting policies subsequent to December 31, 2011.

Liquidity and Capital Resources

Our most liquid asset is cash and cash equivalents which consists of cash and short-term investments. Cash and cash equivalents at September 30, 2012 and December 31, 2011 were \$10,865 and \$7,751, respectively. See our discussion of the statements of cash flows for a description of our cash activity during the nine months ended September 30, 2012 and 2011.

We consider all demand deposits, money market accounts and investments in certificates of deposit and repurchase agreements purchased with a maturity of three months or less, at the date of purchase, to be cash equivalents. We maintain our cash and cash equivalents at financial institutions. The combined account balances at one or more institutions could periodically exceed the Federal Depository Insurance Corporation (FDIC) insurance coverage and, as a result, there is a concentration of credit risk related to amounts on deposit in excess of FDIC insurance coverage. However, we do not believe the risk is significant based on our review of the rating of the institutions where our cash is deposited. In 2008, FDIC insurance coverage was increased to \$250,000 per depositor at each insured bank. This increase will be in place until December 31, 2013, at which time it is expected to return to \$100,000 per depositor, unless coverage is further extended. All funds in a noninterest-bearing transaction account are insured in full by the FDIC from December 31, 2010, through December 31, 2012. This temporary unlimited coverage is in addition to, and separate from, the coverage of at least \$250,000 available to depositors under the FDIC s general deposit insurance rules.

Table of Contents

Income generated from our investment properties is the primary source from which we generate cash. Other sources of cash include amounts raised from the sale of securities, including shares of our common stock sold under our DRP and ongoing ATM issuance program, draws on our unsecured line of credit facility, which may be limited due to covenant compliance requirements, proceeds from financings secured by our investment properties, earnings we retain that are not distributed to our stockholders and fee income received from our unconsolidated joint venture properties. As of September 30, 2012, we were in compliance with all financial covenants applicable to us. We had up to \$120,000 available under our \$175,000 line of credit facility and an additional \$100,000 available under an accordion feature. The access to the accordion feature requires approval of the lending group. If approved, the terms for the funds borrowed under the accordion feature would be current market terms and not the terms of the other borrowings under the line of credit facility. The lending group is not obligated to approve access to the additional funds. We use our cash primarily to pay distributions to our stockholders, for operating expenses at our investment properties, for interest expense on our debt obligations, for purchasing additional investment properties and capital commitments at existing investment properties, to meet joint venture commitments, to repay draws on the line of credit facility and for retiring mortgages payable.

In November 2009, we entered into a three-year Sales Agency Agreement with BMO Capital Markets Corp. (BMO) to offer and sell up to \$100 million of our common stock from time to time through BMO, acting as sales agent. Offers and sales of shares of our common stock may be made in privately negotiated transactions (if we and BMO have so agreed in writing) or by any other method deemed to be an at the market offering as defined in Rule 415 under the Securities Act, including sales made directly on the New York Stock Exchange or to or through a market maker. We have referred to the arrangement with BMO in this report on Form 10-Q as our ATM issuance program. As of September 30, 2012, we have issued an aggregate of approximately 3,816 shares of our common stock through the ATM issuance program, since inception. We received net proceeds of approximately \$31,691 from the issuance of these shares, comprised of approximately \$32,504 in gross proceeds, offset by approximately \$813 in commissions and fees. We used the proceeds from shares issued through the program for general corporate purposes, which included repayment of mortgage indebtedness secured by our properties, acquiring real property through wholly-owned subsidiaries or through our investment in one or more joint venture entities and repaying amounts outstanding on our unsecured line of credit facility, among other things. As of September 30, 2012, shares representing approximately \$67,496 remained available for sale under this issuance program. The Sales Agency Agreement for the program expires on November 9, 2012. We are currently negotiating an extension of the ATM issuance program.

We also own marketable securities of other entities, including REITs. These investments are generally liquid and could be sold to generate liquidity. These investments in available-for-sale securities totaled \$7,740 at September 30, 2012, consisting of preferred and common stock investments. At September 30, 2012, we had recorded an accumulated net unrealized gain of \$858 on these investment securities. Realized gains and losses from the sale of available-for-sale securities are specifically identified and determined. During the three and nine months ended September 30, 2012, we realized gains on sale of \$305 and \$1,396, respectively, as compared to \$30 and \$1,264 during the three and nine months ended September 30, 2011, respectively.

In the aggregate, our investment properties are currently generating sufficient cash flow to pay our operating expenses, monthly debt service requirements and current distributions. Monthly debt service requirements are primarily interest although certain of our secured mortgages require monthly principal amortization.

Reference is made to the Total Debt Maturity Schedule in Note 11, Secured and Unsecured Debt to the accompanying consolidated financial statements for a discussion of our total debt outstanding as of September 30, 2012, which is incorporated into this Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Approximately \$50,200 of consolidated debt matures prior to the end of 2012. Subsequent to September 30, 2012, we repaid \$12,500 of this maturing debt using available cash and a \$10,000 draw on our line of credit facility. We are in discussions with the lender to refinance the remaining maturing debt, which we currently expect to be at a rate less than the current weighted average rate of 4.0% on the maturing debt.

Table of Contents

Subsequent to September 30, 2012, we entered into a First Amendment (the Amendment) to the Limited Partnership Agreement of our joint venture with PGGM. Subject to the terms and conditions of the Amendment, the partners increased the maximum contribution obligations to allow for the acquisition of an additional \$400,000 of grocery-anchored and community retail centers located in Midwestern U.S. markets. The Amendment increases our maximum total contribution from approximately \$160,000 to \$280,000. PGGM's maximum total equity contribution has been increased from approximately \$130,000 to \$230,000. The Amendment allows for a two-year investment period. We will fund our equity commitment with draws on our line of credit facility, proceeds from sales of investment properties, proceeds from financing unencumbered properties or the sale of preferred and/or common stock.

On July 1, 2010, we entered into a loan modification agreement with the special servicer of the loan on one phase of the Algonquin Commons investment property. The original loan required monthly payments of principal and interest. The modification changed the monthly payments to interest only, for a period of two years, which expired June 1, 2012. The purpose of the modification was to reduce the cash required to service the debt and redeploy the capital to partially fund the costs of new leases entered into during the past two years. However, due to ongoing vacancies and certain co-tenancy issues, which allowed certain tenants to reduce the monthly rents paid, the property is not generating sufficient cash flow to resume paying both principal and interest payments on the outstanding debt.

In an effort to trigger discussions with the special servicer, we ceased paying the monthly debt service on the loans for both phases. As a result, and as expected, the lender issued a notice of default under the loan documents. The total outstanding balance of the debt on both phases of the property, which is in default, is \$90,200, of which \$71,600 is non-recourse and approximately \$18,600 has been guaranteed by us. As of the date of this report, the amount in arrears, equal to unpaid principal, interest and late charges is approximately \$3,800. We have had discussions with the special servicer, but have not yet been able to reach an agreement to resolve the issue. The lender has opted to attempt to sell the notes. Although we intend to participate in the note sale and submit a bid to purchase the notes, there is no assurance we will be successful. If the notes are sold to another bidder, there is no assurance that the purchasing bidder will work with us to reach an agreeable solution. The lender may attempt to enforce its rights under the loan documents and has several non-exclusive options available to it, including, without limitation, declaring all or any portion of the debt immediately due and payable, initiating foreclosure proceedings or suing the borrower. If the borrower is sued or the parties otherwise fail to reach an agreement, our obligation under our aforementioned guarantee would likely be triggered. We cannot currently estimate what the impact to the consolidated financial statements will be until a final outcome has been reached. If we are required to fulfill our obligations under our partial guarantee of the loan, fulfilling those guarantee obligations could have a material adverse effect on our consolidated statements of operations and comprehensive income for the period and the year in which the payment would be made. We believe that fulfilling our guarantee obligations would not have a material impact on our consolidated balance sheets.

Statements of Cash Flows

The following table summarizes our consolidated statements of cash flows for the nine months ended September 30, 2012 and 2011:

	2012	2011
Net cash provided by operating activities	\$ 44,223	47,896
Net cash used in investing activities	\$ (155,139)	(73,327)
Net cash provided by financing activities	\$ 114,030	19,425

2012 Compared to 2011

Net cash provided by operating activities was \$44,223 for the nine months ended September 30, 2012, as compared to \$47,896 for the nine months ended September 30, 2011. The decrease in cash provided by operating activities was due primarily to a decrease in cash from property operations as a result of property contributions to our joint venture with PGGM during 2011 and 2012. The contribution of investment properties to our joint ventures has the effect of decreasing operating cash flow but increasing cash flows from investing activity through distributions from our joint ventures. See our discussion of results of operations for an explanation related to property operations.

Table of Contents

Net cash used in investing activities was \$155,139 for the nine months ended September 30, 2012, as compared to \$73,327 for the nine months ended September 30, 2011. The primary reason for the increase in cash used in investing activities was the use of \$176,116 to purchase investment properties and \$18,105 in additions to investment properties during the nine months ended September 30, 2012, as compared to the use of \$99,756 to purchase investment properties and \$30,095 in additions to investment properties during the nine months ended September 30, 2011. Additionally, we used net cash of \$10,228 to fund a construction loan and to purchase notes encumbered by operating properties at a discount, invested an additional \$11,591 in our unconsolidated joint ventures to acquire investment properties and we received \$9,816 in proceeds from the sale of property ownership interests in connection with our joint venture with IPCC during the nine months ended September 30, 2012, as compared to the receipt of \$48,398 from the sale of property ownership interests during the nine months ended September 30, 2011. This decrease was due to the timing of the sale of property ownership interests, which typically vary from period-to-period and year-to-year. Partially offsetting this increase in cash used in investing activities was the return of capital invested in our unconsolidated joint ventures as financing was placed on certain of the investment properties and cash flow distributions from our joint ventures during the nine months ended September 30, 2012, and the receipt of \$17,519 of sales proceeds from the sale of investment properties during the nine months ended September 30, 2012, as compared to \$5,103 during the nine months ended September 30, 2011.

Net cash provided by financing activities was \$114,030 for the nine months ended September 30, 2012, as compared to \$19,425 during the nine months ended September 30, 2011. The primary reason for the increase in cash received from financing activities was the receipt of \$59,410 from the issuance of preferred shares, net of offering costs, during the nine months ended September 30, 2012, as compared to \$7,484 from the issuance of common shares during the nine months ended September 30, 2011. Additionally, we received \$101,883 in loan proceeds, net of loan payoffs and \$25,000 from our amended term loan during the nine months ended September 30, 2012, as compared to receiving \$34,980 during the nine months ended September 30, 2011. Partially offsetting this increase in cash provided by financing activities was a decrease in cash related to the net repayment of proceeds under our line of credit facility in the amount of \$25,000 during the nine months ended September 30, 2012, as compared to net proceeds received during the nine months ended September 30, 2011 of \$15,000.

Results of Operations

This section describes and compares our results of operations for the three and nine months ended September 30, 2012 and 2011, respectively. At September 30, 2012, we had ownership interests in 29 single-user retail properties, 61 Neighborhood Centers, 23 Community Centers, 36 Power Centers and 1 Lifestyle Center. We generate almost all of our net operating income from property operations. In order to evaluate our overall portfolio, management analyzes the net operating income of properties that we have owned and operated for the same three and nine month periods during each year, referred to herein as same store properties. Property net operating income is a non-GAAP measure that allows management to monitor the operations of our existing properties for comparable periods to measure the performance of our current portfolio and determine the effects of our new acquisitions on net income. Net operating income is also meaningful as an indicator of the effectiveness of our management of properties because net operating income excludes certain items that are not reflective of management, such as depreciation and interest expense.

A total of 96 of our investment properties were same store properties during the periods presented in this report. These properties comprise approximately 8.7 million square feet. In the table below, other investment properties consists of net operating income generated by properties acquired during the nine months ended September 30, 2012 and the year ended December 31, 2011, one property in which we took over ownership control from our joint venture partner, one property held for sale, properties contributed to our joint ventures and activity from properties owned through our joint venture with IPCC while they were consolidated. Results of operations from properties acquired through the joint venture with IPCC are consolidated until the first sale of ownership interest to investors by the joint venture. Once the operations are unconsolidated, the income is included in equity in earnings (loss) of unconsolidated joint ventures in the accompanying consolidated statements of operations and comprehensive income. The same store investment properties represent 92% of the square footage of our consolidated portfolio at September 30, 2012. The following table presents the net operating income, broken out between same store and other investment properties, prior to straight-line rental income, amortization of lease intangibles, interest, depreciation, amortization and bad debt expense for the three and nine months ended September 30, 2012 and 2011 along with reconciliation to net income (loss) attributable to common stockholders, calculated in accordance with U.S. GAAP.

Net income(loss) attributable to Inland Real Estate Corporation	1,687	2,653	7,325	(9,036)
Dividends on preferred shares	(2,185)		(5,663)	
Net income (loss) attributable to common stockholders	\$ (498)	2,653	1,662	(9,036)

On a same store basis, (comparing the results of operations of the investment properties owned during the three and nine months ended September 30, 2012 with the results of the same investment properties during the three and nine months ended September 30, 2011), property net operating income increased \$1,209 with total rental and additional rental income increasing \$1,145 and total property operating expenses decreasing \$64 for the three months ended September 30, 2012, as compared to the three months ended September 30, 2011. Property net operating income increased \$3,260 with total rental and additional rental income increasing \$1,176 and total property operating expenses decreasing \$2,084 for the nine months ended September 30, 2012, as compared to the nine months ended September 30, 2011.

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Table of Contents

Net income (loss) attributable to common stockholders decreased \$3,151 and increased \$10,698 for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011. In addition to the items discussed below, net income (loss) attributable to common stockholders was negatively impacted by dividends declared to preferred stockholders.

Rental income increased \$890 and \$1,866, on a same store basis, for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011, respectively, primarily due to the effect of income from leases signed during 2011 and early 2012 and the end of any associated rent abatement periods. Total rental income decreased \$47 and \$2,025, for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011, respectively, reflecting a decrease in rental income from our other investment properties. This decrease is primarily due to the contribution of properties to our joint venture with PGM during 2011 and 2012. This decrease is partially offset by properties acquired during these same periods.

Tenant recovery income increased \$191 and decreased \$1,093, on a same store basis, for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011. Total tenant recovery income decreased \$655 and \$4,758 for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011. The primary reason for the decrease in tenant recovery income is a corresponding decrease in the amount of property operating and real estate tax expenses, both of which are recoverable under tenant leases.

Property operating expenses decreased \$453 and \$2,559 on a same store basis, for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011. Total property operating expenses decreased \$611 and \$3,751 for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011, respectively. The decrease in property operating expenses during the nine month period is due primarily to decreased snow removal costs. Additionally, the decrease in property operating expenses is a result of the contribution of properties to our joint venture with PGM during 2011 and 2012.

Real estate tax expense increased \$389 and \$475, on a same store basis, for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011, respectively. Total real estate tax expense decreased \$512 and \$2,380 for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011, respectively. The change in real estate tax expense is a result of changes in the assessed values of our investment properties or the tax rates charged by the various taxing authorities. Additionally, the decrease in total real estate tax expense is a result of the contribution of properties to our joint venture with PGM during 2011 and 2012.

Other income decreased \$30 and increased \$675 for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011, respectively. The increase during the nine months ended September 30, 2012, as compared to the nine months ended September 30, 2011 is due to the settlement of an outstanding obligation with a former seller and increased gains on the sale of investment securities.

Fee income from unconsolidated joint ventures decreased \$254 and \$686 for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011. The decrease is due in most part to a decrease in acquisition fees earned on sales of interests through our joint venture with IPCC. This decrease was offset by increased management fees from our unconsolidated joint ventures due to an increased number of properties under management during the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011.

Table of Contents

During the nine months ended September 30, 2012, we negotiated, on behalf of the joint venture, with the lender of the North Aurora Town Center development properties to repay the mortgage payable, which matured in July 2011, at a discount. We contributed \$10,000 to repay the entire \$30,537 outstanding mortgage, resulting in a gain on the extinguishment of debt in the amount of \$20,537. In conjunction with this debt repayment, the joint ventures previously established to develop these properties were dissolved and the development properties and remaining indebtedness were consolidated by us. We valued these properties utilizing information obtained from third party sources and internal valuation calculations, comprised of a discounted cash flow model, including discount rates and capitalization rates applied to the expected future cash flows of the property. The consolidation resulted in a gain to us of \$1,043 for the nine months ended September 30, 2012. We estimated the fair value of the remaining debt by discounting the future cash flows of the instrument at rates currently offered for similar debt instruments. The gain from the change in control transaction is reflected as gain (loss) from change in control of investment properties on the accompanying consolidated statements of operations and comprehensive income.

During the nine months ended September 30, 2011, we took control of Orchard Crossing, a property previously held through our joint venture with Pine Tree. We valued the property utilizing information obtained from third party sources and internal valuation calculations, comprised of a discounted cash flow model, including discount rates and capitalization rates applied to the expected future cash flows of the property. The consolidation resulted in a net loss to us of \$1,400 for the nine months ended September 30, 2011. We estimated the fair value of debt by discounting the future cash flows of the instrument at rates currently offered for similar debt instruments. The loss from the change in control transaction is reflected as gain (loss) from change in control of investment properties on the accompanying consolidated statements of operations and comprehensive income.

Gain on sale of joint venture interest decreased \$248 and \$737 for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011 due to decreased gains on sale in connection with sales of interest in properties through our joint venture with IPCC.

Bad debt expense increased \$28 and decreased \$939 for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011, respectively. The decrease in bad debt expense is due to fewer tenant bankruptcies and tenant failures.

Depreciation and amortization increased \$937 and \$4,989 for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011, respectively, due to depreciation expense recorded on newly acquired investment properties and the write off of tenant improvement assets, as a result of early lease terminations.

General and administrative expenses increased \$979 and \$2,464 for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011. The increase is due to an increase in payroll and related items as a result of additional staff. This increase during the nine months September 30, 2012, as compared to the nine months ended September 30, 2011 is due to additional costs incurred for the acquisition of investment properties.

Interest expense decreased \$1,345 and \$5,253 for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011, respectively. The decrease is primarily due to a decrease of approximately \$1,179 during the three month period and approximately \$3,536 during the nine month period of interest expense and the related discount amortization that we eliminated by repurchasing our convertible notes during 2011. Interest expense on our mortgages payable decreased approximately \$190 during the three month periods and approximately \$1,598 during the nine months periods due in most part to the contribution of investment properties to our joint venture with PGGM during 2011 and 2012. Additionally, the weighted average interest rate on total consolidated debt was 4.09% as of September 30, 2012, as compared to 4.55% as of September 30, 2011. These decreases were partially offset by increased interest on our

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

unsecured term loan due in most part to nine months of interest in 2012 for the new \$50,000 term loan and no interest in the nine months ended September 30, 2011.

Table of Contents

During the nine months ended September 30, 2012, we recorded a provision for asset impairment of \$479 related to two investment properties that were sold at prices below our current carrying value and required adjustments. This impairment adjustment is included in income (loss) from discontinued operations on the accompanying consolidated statements of operations and comprehensive income. During the nine months ended September 30, 2011, we recorded a provision for asset impairment of \$5,223 to record our investment in three development joint ventures at fair value.

Equity in earnings (loss) of unconsolidated joint ventures increased \$829 and \$9,952 for the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011, respectively. During the nine months ended September 30, 2011, we recorded a total \$17,387 of impairment losses related to our development joint ventures. Our pro rata share of this loss, equal to \$7,824, is included in this line item on the accompanying consolidated statements of operations and comprehensive income.

Portfolio Activity

During the nine months ended September 30, 2012, we executed 36 new, 118 renewal and 40 non-comparable leases (expansion square footage or spaces for which no former tenant was in place for one year or more), aggregating approximately 683,000 square feet on our consolidated portfolio. The 36 new leases comprise approximately 189,000 square feet with an average rental rate of \$14.44 per square foot, a 21.6% increase over the average expiring rate. The 118 renewal leases comprise approximately 331,000 square feet with an average rental rate of \$17.02 per square foot, a 7.5% increase over the average expiring rate. The 40 non-comparable leases comprise approximately 163,000 square feet with an average base rent of \$12.80 per square foot. The calculations of former and new average base rents are adjusted for rent abatements. For leases signed during the prior 24 months, the average leasing commission was approximately \$5 per square foot, the average cost for tenant improvements was approximately \$20 per square foot and the average period given for rent concessions was three to five months. Leasing commission, tenant improvement costs and average rent concession periods in leases signed during the three and nine months ended September 30, 2012 are consistent with these 24-month averages.

During the remainder of 2012, 60 leases, comprising approximately 160,000 square feet and accounting for approximately 2.1% of our annualized base rent, will be expiring in our consolidated portfolio. None of the expiring leases is deemed to be material to our financial results. The weighted average expiring rate on these leases is \$15.55 per square foot. We will continue to attempt to renew expiring leases and re-lease those spaces that are vacant, or may become vacant, at more favorable rental rates to increase revenue and cash flow.

Supervalu, Inc., the largest tenant in our total portfolio based on percentage of annual base rent and square footage, recently announced its intention to explore strategic alternatives for the company, primarily the sale of all or some its assets. As of September 30, 2012, Supervalu represented approximately 7.5% of annual base rent and approximately 8.4% of gross leasable area in our total portfolio. Supervalu is the third largest grocer in the nation, and operates multiple regional grocery chains, licensed grocery operations and a grocery distribution business. Supervalu is a tenant in both the Minneapolis/St Paul and Chicagoland markets under the Cub Foods and Jewel-Osco brands, respectively. We believe that Cub Foods and Jewel-Osco represent two of the strongest and well established brands in the Supervalu group of grocery operators and should maintain their relevance as grocery operators.

Occupancy as of September 30, 2012, June 30, 2012, and September 30, 2011 for our consolidated, unconsolidated and total portfolios is summarized below:

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Consolidated Occupancy (a)	As of September 30, 2012	As of June 30, 2012	As of September 30, 2011
Leased Occupancy (b)	90.8%	90.7%	93.4%
Financial Occupancy (c)	88.4%	88.0%	87.5%
Same Store Financial Occupancy	89.2%	88.4%	87.2%

Unconsolidated Occupancy (a) (d)	As of September 30, 2012	As of June 30, 2012	As of September 30, 2011
Leased Occupancy (b)	97.1%	96.7%	95.9%
Financial Occupancy (c)	94.4%	94.6%	94.4%
Same Store Financial Occupancy	94.9%	95.4%	93.3%

Table of Contents

Total Occupancy	As of September 30, 2012	As of June 30, 2012	As of September 30, 2011
Leased Occupancy (b)	93.1%	92.9%	94.1%
Financial Occupancy (c)	90.6%	90.4%	89.4%
Same Store Financial Occupancy	90.5%	90.1%	88.7%
Financial Occupancy excluding properties held through the joint venture with IPCC (e)	90.4%	90.1%	89.2%

(a) All occupancy calculations exclude seasonal tenants.

(b) Leased Occupancy is defined as the percentage of gross leasable area for which there is a signed lease, regardless of whether the tenant is currently obligated to pay rent under their lease agreement.

(c) Financial Occupancy is defined as the percentage of total gross leasable area for which a tenant is obligated to pay rent under the terms of its lease agreement, regardless of the actual use or occupation by that tenant of the area being leased, excluding tenants in their abatement period.

(d) Unconsolidated occupancy includes 100% of the square footage of the related properties.

(e) Due to the occupancy fluctuations produced by the temporary ownership of the properties within this joint venture, we disclose occupancy rates excluding these properties. We believe the additional disclosure allows investors to evaluate the occupancy of the portfolio of properties we expect to own longer term.

Captive Insurance

We are a member of a limited liability company formed as an insurance association captive (the Captive), which is owned in equal proportions with three other REITs sponsored by an affiliate of The Inland Group, Inc. (TIGI), Inland American Real Estate Trust, Inc., Retail Properties of America, Inc. (formerly known as Inland Western Retail Real Estate Trust, Inc.), Inland Diversified Real Estate Trust, Inc. and us. The Captive is serviced by Inland Risk and Insurance Management, Inc., also an affiliate of TIGI. This entity is considered a variable interest entity (VIE) and we are not considered the primary beneficiary. This investment is accounted for using the equity method of accounting.

Joint Ventures

Consolidated joint ventures are those in which we have a controlling financial interest in the joint venture or are the primary beneficiary of a variable interest entity. The primary beneficiary is the party that has a controlling financial interest in the VIE, which is defined as having both of the following characteristics: 1) the power to direct the activities that, when taken together, most significantly impact the VIE's performance, and 2) the obligation to absorb losses and right to receive the returns from the VIE that would be significant to the VIE. The third parties interests in these consolidated entities are reflected as noncontrolling interest in the accompanying consolidated financial statements. All inter-company balances and transactions have been eliminated in consolidation.

Off Balance Sheet Arrangements

Unconsolidated Real Estate Joint Ventures

Reference is made to Note 3, *Unconsolidated Joint Ventures* to the accompanying consolidated financial statements for a discussion of our unconsolidated joint ventures as of September 30, 2012, which is incorporated into this Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*.

Development Joint Ventures

Our development joint ventures with four independent partners were designed to take advantage of what we believe are the unique strengths of each development team, while potentially diversifying our risk. Our development partners identified opportunities, assembled and completed the entitlement process for the land, and gauged national big box retailer interest in the location before bringing the project to us for consideration. We contributed financing, leasing, and property management expertise to enhance the productivity of the new developments and are typically entitled to earn a preferred return on our portion of invested capital.

Table of Contents

Within the prevailing economic environment, a number of retailers have delayed new store openings until market conditions substantially improve. In light of this marketplace reality, we have extended delivery dates for these projects and we will not have the ability to estimate the project completion dates until activity resumes. As a result of the project delays, we were required to record significant impairment losses related to these projects in prior years. In conjunction with these impairment losses, we were required to write down our investment in certain projects to zero as we determined that it was not likely we would recover our invested capital from future cash flows of each project.

During the nine months ended September 30, 2012, we dissolved our joint venture with NARE for all phases of the North Aurora Town Center development in conjunction with a negotiated discounted payoff of the debt encumbering the property, for which we put in the equity. As a result of the dissolution of this joint venture, the property became a consolidated, non-operating property which has been recorded at its fair value.

To provide clarity as to the current status of our remaining development projects, we have divided them into two categories; active projects and land held for future development.

The projects considered active projects are Savannah Crossing in Aurora, Illinois and Southshore Shopping Center in Boise, Idaho. Construction is essentially complete at Savannah Crossing and Southshore Shopping Center is a redevelopment of an existing building.

The remaining development properties are categorized as land held for future development. These include Shops at Lakemoor in Lakemoor, Illinois, and Lantern Commons in Westfield, Indiana.

We will deploy capital for construction or improvements to development properties only when we have signed commitments from retailers and cannot be sure of their exact nature or amounts until that time.

Table of Contents**Non-GAAP Financial Measures**

We consider FFO a widely accepted and appropriate measure of performance for a REIT. FFO provides a supplemental measure to compare our performance and operations to other REITs. Due to certain unique operating characteristics of real estate companies, NAREIT has promulgated a standard known as FFO, which it believes more accurately reflects the operating performance of a REIT such as ours. As defined by NAREIT, FFO means net income computed in accordance with U.S. GAAP, excluding gains (or losses) from sales of operating property, plus depreciation and amortization and after adjustments for unconsolidated entities in which the REIT holds an interest, which NAREIT has further elaborated to exclude impairment write-downs of depreciable real estate or of investments in unconsolidated entities that are driven by measurable decreases in the fair value of depreciable real estate. We have adopted the NAREIT definition for computing FFO. We adjust FFO for the impact of non-cash impairment charges, net of taxes recorded in comparable periods, in order to present the performance of our core portfolio operations. Management uses the calculation of FFO and FFO adjusted for several reasons. FFO is used in certain employment agreements we have with our executives to determine a portion of incentive compensation payable to them. Additionally, we use FFO and FFO adjusted to compare our performance to that of other REITs in our peer group. The calculation of FFO may vary from entity to entity since capitalization and expense policies tend to vary from entity to entity. Items that are capitalized do not impact FFO whereas items that are expensed reduce FFO. Consequently, our presentation of FFO may not be comparable to other similarly titled measures presented by other REITs. FFO does not represent cash flows from operations as defined by U.S. GAAP, it is not indicative of cash available to fund cash flow needs and liquidity, including our ability to pay distributions and should not be considered as an alternative to net income, as determined in accordance with U.S. GAAP, for purposes of evaluating our operating performance. The following table reflects our FFO and FFO adjusted for the periods presented, reconciled to net income (loss) attributable to common stockholders for these periods:

	Three months ended September 30, 2012	Three months ended September 30, 2011	Nine months ended September 30, 2012	Nine months ended September 30, 2011
Net income (loss) attributable to common stockholders	\$ (498)	2,653	1,662	(9,036)
Gain on sale of investment properties	(722)	(358)	(722)	(555)
(Gain) loss from change in control of investment properties			(1,043)	1,400
Impairment of depreciable operating property			479	
Equity in depreciation and amortization of unconsolidated joint ventures	6,839	3,713	18,023	10,393
Amortization on in-place lease intangibles	2,690	1,869	6,925	5,247
Amortization on leasing commissions	372	333	1,357	1,050
Depreciation, net of noncontrolling interest	10,716	11,121	34,683	32,017
Funds From Operations attributable to common stockholders	19,397	19,331	61,364	40,516
Provision for asset impairment				5,223
Provision for asset impairment included in equity in earnings (loss) of unconsolidated joint ventures				7,824
Other non-cash adjustments	90	331	296	842
Provision for income taxes				
Income tax adjustments			(4,810)	(1,368)
Funds From Operations attributable to common stockholders, adjusted	\$ 19,487	19,662	56,850	53,037
Net income (loss) attributable to common stockholders per weighted average common share basic and diluted	\$ (0.01)	0.03	0.02	(0.10)

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Funds From Operations attributable to common stockholders, per weighted average common share and diluted	\$	0.22	0.22	0.69	0.46
Funds From Operations attributable to common stockholders, adjusted, per weighted average common share basic and diluted	\$	0.22	0.22	0.64	0.60

Distributions declared, common	\$	12,721	12,668	38,104	37,911
Distributions per common share	\$	0.14	0.14	0.43	0.43

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Table of Contents

EBITDA is defined as earnings (losses) from operations excluding: (1) interest expense; (2) income tax benefit or expenses; (3) depreciation and amortization expense; and (4) gains (loss) on non-operating property. We believe EBITDA is useful to us and to an investor as a supplemental measure in evaluating our financial performance because it excludes expenses that we believe may not be indicative of our operating performance. By excluding interest expense, EBITDA measures our financial performance regardless of how we finance our operations and capital structure. By excluding depreciation and amortization expense, we believe we can more accurately assess the performance of our portfolio. Because EBITDA is calculated before recurring cash charges such as interest expense and taxes and is not adjusted for capital expenditures or other recurring cash requirements, it does not reflect the amount of capital needed to maintain our properties nor does it reflect trends in interest costs due to changes in interest rates or increases in borrowing. EBITDA should be considered only as a supplement to net earnings and may be calculated differently by other equity REITs.

We believe EBITDA is an important supplemental non-GAAP measure. We utilize EBITDA to calculate our interest expense coverage ratio, which equals EBITDA divided by total interest expense. We believe that using EBITDA, which excludes the effect of non-operating expenses and non-cash charges, all of which are based on historical cost and may be of limited significance in evaluating current performance, facilitates comparison of core operating profitability between periods and between REITs, particularly in light of the use of EBITDA by a seemingly large number of REITs in their reports on Forms 10-Q and 10-K. We believe that investors should consider EBITDA in conjunction with net income and the other required U.S. GAAP measures of our performance to improve their understanding of our operating results. We adjust EBITDA for the impact of non-cash impairment charges in comparable periods in order to present the performance of our core portfolio operations.

	Three months ended September 30, 2012	Three months ended September 30, 2011	Nine months ended September 30, 2012	Nine months ended September 30, 2011
Net income (loss)	\$ 1,659	2,699	7,222	(8,925)
Net (income) loss attributable to noncontrolling interest	28	(46)	103	(111)
Gain on sale of investment properties	(722)	(358)	(722)	(555)
(Gain) loss from change in control of investment properties			(1,043)	1,400
Income tax (benefit) expense of taxable REIT subsidiaries	334	(209)	(4,347)	(1,154)
Interest expense	9,155	10,500	27,193	32,446
Interest expense associated with discontinued operations				88
Interest expense associated with unconsolidated joint ventures	3,023	2,295	8,572	6,354
Depreciation and amortization	13,787	12,850	42,819	37,830
Depreciation and amortization associated with discontinued operations	5	209	161	631
Depreciation and amortization associated with unconsolidated joint ventures	6,839	3,713	18,023	10,393
EBITDA	34,108	31,653	97,981	78,397
Provision for asset impairment			479	5,223
Provision for asset impairment included in equity in earnings (loss) of unconsolidated joint ventures				7,824
Other non-cash adjustments	90	331	296	842
EBITDA, adjusted	\$ 34,198	31,984	98,756	92,296
Total Interest Expense	\$ 12,178	12,795	35,765	38,888
EBITDA: Interest Expense Coverage Ratio	2.8 x	2.5 x	2.7 x	2.0 x

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

We may enter into derivative financial instrument transactions in order to mitigate our interest rate risk on a related financial instrument. We may designate these derivative financial instruments as hedges and apply hedge accounting, as the instrument to be hedged will expose us to interest rate risk, and the derivative financial instrument is designed to reduce that exposure. Gains or losses related to the derivative financial instrument would be deferred and amortized over the terms of the hedged instrument. If a derivative terminates or is sold, the gain or loss is recognized. As of September 30, 2012, we have one interest rate swap contract, which was entered into as a requirement under a secured mortgage.

Our exposure to market risk for changes in interest rates relates to the fact that some of our long-term debt consists of variable interest rate loans. These variable rate loans are based on LIBOR, therefore, fluctuations in LIBOR will have an impact on our consolidated financial statements. We seek to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs by closely monitoring our variable rate debt and converting this debt to fixed rates when we deem such conversion advantageous.

Our interest rate risk is monitored using a variety of techniques, including periodically evaluating fixed interest rate quotes on all variable rate debt and the costs associated with converting the debt to fixed rate debt. Also, existing fixed and variable rate loans which are scheduled to mature in the next year or two are evaluated for possible early refinancing or extension based on our view of the current interest rate environment.

Reference is made to the Total Debt Maturity Schedule in Note 11, Secured and Unsecured Debt to the accompanying consolidated financial statements for a discussion of our total debt outstanding as of September 30, 2012, which is incorporated into this Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our ultimate exposure to interest rate fluctuations depends on the amount of indebtedness that bears interest at variable rates, the time at which the interest rate is adjusted, the amount of the adjustment, our ability to prepay or refinance variable rate indebtedness, fixed rate debt that matures and needs to be refinanced and hedging strategies used to reduce the impact of any increases in rates.

At September 30, 2012, approximately \$338,723, or 45%, of our debt has variable interest rates averaging 2.61%. An increase in the variable interest rates charged on debt containing variable interest rate terms, constitutes a market risk. A 1.0% annualized increase in interest rates would have increased our interest expense by approximately \$2,540 for the nine months ended September 30, 2012.

Equity Price Risk

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

Equity price risk is the risk that we will incur economic losses due to adverse changes in equity prices. Our exposure to changes in equity prices is a result of our investment in securities. At September 30, 2012, our investment in securities, classified as available for sale, totaled \$7,740. The carrying values of investments in securities subject to equity price risks are based on quoted market prices as of the date of the consolidated balance sheets. Market prices are subject to fluctuation and, therefore, the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Fluctuation in the market price of a security may result from any number of factors including perceived changes in the underlying fundamental characteristics of the issuer, the relative price of alternative investments and general market conditions. Additionally, amounts realized in the sale of a particular security may be affected by the relative quantity of the security being sold. We do not engage in derivative or other hedging transactions to manage our equity price risk.

We believe that our investments will continue to generate dividend income and, as the stock market recovers, we have begun to recognize gains on sale.

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures to ensure that material information relating to the Company, including our consolidated subsidiaries, is made known to the officers who certify our financial reports and to the members of senior management and the Board of Directors.

Based on management's evaluation as of September 30, 2012, our chief executive officer and chief financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) were effective as of the date of evaluation to ensure that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

Changes in Internal Control over Financial Reporting

There were no changes to our internal control over financial reporting (as defined in Rules 13a-15(f) and 15(d)-15(f) under the Exchange Act) during the three months ended September 30, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II - Other Information

Item 1. Legal Proceedings

We are not party to, and none of our properties is subject to, any material pending legal proceedings.

Item 1A. Risk Factors

The Company has stopped making payments on the debt encumbering the Algonquin Commons investment property, which is a default under the loan documents; if the Company is required to fulfill its obligations under its partial guarantee of the loan, paying the guarantee could have a material adverse effect on the Company's consolidated statements of operations and comprehensive income for the period and the year in which the payment would be made. The Company ceased paying the monthly debt service on the loans for both phases of the investment property known as Algonquin Commons, which is owned by a wholly owned subsidiary of the Company, because the property is not generating sufficient cash flow to resume paying both principal and interest payments on the outstanding debt. The total outstanding balance of the debt on both phases of the property is \$90,200, of which \$71,600 is non-recourse and approximately \$18,600 has been guaranteed by the Company. The lender is attempting to sell the notes but has other non-exclusive options under the loan documents, including, but not limited to, declaring all or any portion of the debt immediately due and payable, initiating foreclosure proceedings or suing the borrower. The Company cannot currently estimate what the impact to the consolidated financial statements would be and may not be able to do so until a final outcome has been determined. If the Company is required to fulfill its obligations under its partial guarantee of the loan, paying the guarantee could have a material adverse effect on the Company's consolidated statements of operations and comprehensive income for the period and the year in which the payment would be made. The Company believes that fulfilling its guarantee obligations would not have a material impact on its consolidated balance sheets.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not Applicable.

Item 3. Defaults Upon Senior Securities

Information on a note default is set forth in the second and third paragraphs under the caption "Mortgages Payable" in Note 11 to the consolidated financial statements in Part I of this Form 10-Q, and incorporated by reference into this Item 3.
