**HEXCEL CORPORATION AND SUBSIDIARIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

(Unaudited)

**Note 1 Significant Accounting Policies**

In these notes, the terms Hexcel, the Company, we, us, or our mean Hexcel Corporation and subsidiary companies. The accompanying condensed consolidated financial statements are those of Hexcel Corporation. Refer to Note 1 to the consolidated financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2013 for a discussion of our significant accounting policies.

*Basis of Presentation*

The accompanying Condensed Consolidated Financial Statements have been prepared from the unaudited accounting records of Hexcel pursuant to rules and regulations of the Securities and Exchange Commission ( SEC ) and in accordance with accounting principles generally accepted in the United States of America ( GAAP ) for interim financial information. Certain information and footnote disclosures normally included in financial statements have been omitted pursuant to rules and regulations of the SEC.

In the opinion of management, the Condensed Consolidated Financial Statements include all normal recurring adjustments as well as any non-recurring adjustments necessary for a fair presentation of financial position, results of operations and cash flows for the interim periods presented. The Condensed Consolidated Balance Sheet as of December 31, 2013 was derived from the audited 2013 consolidated balance sheet. Interim results are not necessarily indicative of results expected for any other interim period or for the full year. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our 2013 Annual Report on Form 10-K filed with the SEC on February 5, 2014.

*Investments in Affiliated Companies*

We have a 50% equity ownership investment in an Asian joint venture Aerospace Composites Malaysia Sdn. Bhd. (formerly Asian Composites Manufacturing Sdn. Bhd.). We have determined that this investment is not a variable interest entity. As such, we account for our share of the earnings of this affiliated company using the equity method of accounting.

*Recent Accounting Pronouncements*

Edgar Filing: HEXCEL CORP /DE/ - Form 10-Q

In May 2014, the Financial Accounting Standards Board issued Update No. 2014-09, *Revenue from Contracts with Customers*. The update clarifies the principles for recognizing revenue and develops a common revenue standard for all industries. The new guidance is effective for the first quarter of 2017. Early application is not permitted. We are currently evaluating the impact of adopting this prospective guidance on our consolidated results of operations and financial condition.

**Note 2 Net Income per Common Share**

Table of Contents

	June 30, 2014	December 31, 2013
<b>Amounts recognized on the balance sheet:</b>		
Noncurrent asset	\$ 7.8	\$ 2.7
Accrued liabilities	\$ 1.9	\$ 0.4
Other non-current liabilities	17.3	15.7
Total accrued benefit	\$ 19.2	\$ 16.1

*Contributions*

We generally fund our U.S. non-qualified defined benefit retirement plans when benefit payments are incurred. Under the provisions of these non-qualified plans, we expect to contribute \$25.9 million in 2014 to cover unfunded benefits. We contributed \$0.3 million to our U.S. non-qualified defined benefit retirement plans during the 2013 fiscal year.

We contributed \$1.7 million and \$1.3 million to our European defined benefit retirement plans in the second quarters of 2014 and 2013. Contributions to the defined benefit retirement plans were \$3.1 million and \$2.7 million for the six months ended June 30, 2014 and 2013. We plan to contribute approximately \$3.8 million during 2014 to these European plans. We contributed \$5.9 million to our European plans during the 2013 fiscal year.

Postretirement Health Care and Life Insurance Benefit Plans

Net periodic benefit costs of our postretirement health care and life insurance benefit plans for the quarters and six months ended June 30, 2014 and 2013 were immaterial.

	June 30, 2014	December 31, 2013
<b>Amounts recognized on the balance sheet:</b>		
Accrued liabilities	\$ 0.6	\$ 0.6
Other non-current liabilities	5.6	5.8
Total accrued benefit	\$ 6.2	\$ 6.4

In connection with our postretirement plans, we contributed \$0.2 million during both of the six-month periods ended June 30, 2014 and 2013, respectively. Contributions during the second quarters of 2014 and 2013 were both \$0.1 million. We periodically fund our postretirement plans to pay covered expenses as they are incurred. Based on six months of activity, we expect to contribute approximately \$0.3 million in 2014 to cover unfunded benefits. We contributed \$0.3 million to our postretirement plans during the 2013 fiscal year.

**Note 5 Debt**

(In millions)		June 30, 2014		December 31, 2013
Working capital line of credit	China	\$	2.8	\$ 3.0
Short-term borrowings			2.8	3.0
Senior secured credit facility	revolving loan due 2018		395.0	292.0
Long-term debt			395.0	292.0
Total debt		\$	397.8	\$ 295.0

## Note 6 Derivative Financial Instruments

### *Interest Rate Swap Agreements*

As of June 30, 2014 the Company had two agreements to swap \$75 million of floating rate obligations for fixed rate obligations at an average of 0.959% and 0.754% against LIBOR in U.S. dollars. Of the total of \$150 million of swaps outstanding at June 30, 2014, \$50 million matures each of March 2016, September 2016, and March 2017. All of the swaps were accounted for as cash flow hedges of our floating rate bank loans. To ensure the swaps were highly effective, all the principal terms of the swaps matched the terms of the bank loans. The fair value of the interest rate swaps was a liability of \$0.6 million at June 30, 2014.

### *Foreign Currency Forward Exchange Contracts*

A number of our European subsidiaries are exposed to the impact of exchange rate volatility between the U.S. dollar and the subsidiaries functional currencies, being either the Euro or the British Pound sterling. We entered into contracts to exchange U.S. dollars for Euros and British Pound sterling through December 2016. The aggregate notional amount of these contracts was \$160.5

Table of Contents

million and \$187.1 million at June 30, 2014 and December 31, 2013, respectively. The purpose of these contracts is to hedge a portion of the forecasted transactions of European subsidiaries under long-term sales contracts with certain customers. These contracts are expected to provide us with a more balanced matching of future cash receipts and expenditures by currency, thereby reducing our exposure to fluctuations in currency exchange rates. The effective portion of the hedges, gains of \$0.9 million and of \$1.7 million, were recorded in other comprehensive income ( OCI ) for the three months and six months ended June 30, 2014, respectively, and gains of \$2.7 million and losses of \$5.0 million for the three-and six-month periods ended June 30, 2013, respectively. The \$9.2 million carrying amount of these contracts was classified in other assets and \$0.2 million in other liabilities on the condensed consolidated balance sheets at June 30, 2014 and \$11.5 million in other assets and \$0.6 million classified in other liabilities at December 31, 2013. During the three months ended June 30, 2014 and 2013, we recognized net gains of \$1.9 million and net losses of \$0.8 million, respectively, recorded in gross margin. During the six months ended June 30, 2014 and 2013, we recognized net gains of \$3.4 million and net losses of \$0.7 million, respectively, recorded in gross margin. For the quarters ended June 30, 2014 and 2013, hedge ineffectiveness was immaterial.

In addition, we enter into foreign exchange forward contracts which are not designated as hedges. These are used to provide an offset to transactional gains or losses arising from the remeasurement of non-functional monetary assets and liabilities such as accounts receivable. The change in the fair value of the derivatives is recorded in the statement of operations. There are no credit contingency features in these derivatives. During the quarters ended June 30, 2014 and 2013, we recognized net foreign exchange losses of \$0.1 million and net foreign exchange gains of \$2.1 million, respectively, in the condensed consolidated statements of operations. During the six-month periods ended June 30, 2014 and 2013, we recognized net foreign exchange losses of \$0.3 million and of \$2.5 million respectively, in the Consolidated Statements of Operations. The net foreign exchange impact recognized from these hedges offset the translation exposure of these transactions. The carrying amount of the contracts for asset and liability derivatives not designated as hedging instruments was \$0.8 million classified in other assets and \$0.6 million in other liabilities and \$2.6 million classified in other assets and \$0.1 million in other liabilities on the June 30, 2014 and December 31, 2013 Condensed Consolidated Balance Sheets, respectively.

The change in fair value of our foreign currency forward exchange contracts under hedge designations recorded net of tax within accumulated other comprehensive income for the quarters and six months ended June 30, 2014 and 2013 was as follows:

(In millions)	Quarter Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Unrealized gains (losses) at beginning of period, net of tax	\$ 6.7	\$ (3.8)	\$ 7.2	\$ 2.4
(Gains) losses reclassified to net sales	(1.3)	0.7	(2.3)	0.6
Increase (decrease) in fair value	0.7	2.2	1.2	(3.9)
Unrealized gains (losses) at end of period, net of tax	\$ 6.1	\$ (0.9)	\$ 6.1	\$ (0.9)

We expect to reclassify \$4.8 million of unrealized gains into earnings over the next twelve months as the hedged sales are recorded.

**Note 7 Income Taxes**

The income tax provisions for the quarter and six months ended June 30, 2014 were \$22.9 million and \$45.7 million, respectively. The effective tax rate for both periods was 31.3%. The income tax provisions for the quarter and six months ended June 30, 2013 were \$20.6 million and \$38.5 million, respectively. The first half of 2013 benefitted from the extension of the 2012 and 2013 U.S. Research & Development tax credits that was enacted in January 2013. The full retroactive benefit from 2012 was taken in the first quarter of 2013 for a benefit of \$0.6 million. The

effective tax rate for both 2013 periods was approximately 30%.

**Note 8 Fair Value Measurements**

The authoritative guidance for fair value measurements establishes a hierarchy for observable and unobservable inputs used to measure fair value, into three broad levels, which are described below:

- Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.
- Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.
- Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

Table of Contents

In determining fair value, we utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as consider counterparty credit risk in our assessment of fair value.

We do not have any significant assets or liabilities that utilize Level 3 inputs. In addition, we have no assets or liabilities that utilize Level 1 inputs. For derivative assets and liabilities that utilize Level 2 inputs, we prepare estimates of future cash flows of our derivatives, which are discounted to a net present value. The estimated cash flows and the discount factors used in the valuation model are based on observable inputs, and incorporate non-performance risk (the credit standing of the counterparty when the derivative is in a net asset position, and the credit standing of Hexcel when the derivative is in a net liability position). The fair value of these assets and liabilities was approximately \$10.0 million and \$1.4 million, respectively at June 30, 2014. In addition, the fair value of these derivative contracts, which are subject to a master netting arrangement under certain circumstances, is presented on a gross basis in the consolidated balance sheet.

Below is a summary of valuation techniques for all Level 2 financial assets and liabilities:

- Interest rate swap valued using LIBOR yield curves at the reporting date. Fair value was a liability of \$0.6 million at June 30, 2014.
- Foreign exchange derivative assets and liabilities valued using quoted forward foreign exchange prices at the reporting date. Fair value of assets and liabilities at June 30, 2014 was \$10.0 million and \$0.8 million, respectively.

Counterparties to the above contracts are highly rated financial institutions, none of which experienced any significant downgrades in the three months ended June 30, 2014 that would reduce the receivable amount owed, if any, to the Company.

**Note 9 Segment Information**

The financial results for our operating segments are prepared using a management approach, which is consistent with the basis and manner in which we internally segregate financial information for the purpose of assisting in making internal operating decisions. We evaluate the performance of our operating segments based on operating income, and generally account for intersegment sales based on arm's length prices. Corporate and certain other expenses are not allocated to the operating segments, except to the extent that the expense can be directly attributable to the business segment.

Financial information for our operating segments for the quarters and six months ended June 30, 2014 and 2013 is as follows:

(In millions)	(Unaudited)			Total
	Composite Materials	Engineered Products	Corporate & Other (a)	

Edgar Filing: HEXCEL CORP /DE/ - Form 10-Q

<b>Second Quarter 2014</b>								
Net sales to external customers	\$	361.6	\$	108.5	\$		\$	470.1
Intersegment sales		18.2		0.5		(18.7)		
Total sales		379.8		109.0		(18.7)		470.1

Table of Contents

---

(a) We do not allocate corporate expenses to the operating segments.

(b) Includes other operating expense for the three and six months ended June 30, 2014 reflects an increase in environmental reserves related to a former manufacturing facility in Lodi, New Jersey.

*Goodwill and Intangible Assets*

The carrying amount of gross goodwill and intangible assets by segment is as follows:

(In millions)	June 30, 2014	December 31, 2013
Composite Materials	\$ 45.1	\$ 45.0
Engineered Products	16.0	16.0
Goodwill and intangible assets	\$ 61.1	\$ 61.0

No impairments have been recorded against these amounts.

**Note 10 Other Operating Expense**

The second quarter and the six-month period ended June 30, 2014 include a pre-tax charge of \$6.0 million for additional environmental reserves primarily related to a former manufacturing facility in Lodi, New Jersey (see note 12).

**Note 11 Other Non-Operating Expense**

In June 2013, the Company entered into a new \$600 million senior secured revolving credit facility that matures in 2018. As a result of the refinancing, we accelerated certain unamortized financing costs of the credit facility being replaced and the deferred expense on related interest rate swaps incurring a pretax charge of \$1.0 million in the second quarter of 2013.

**Note 12 Commitments and Contingencies**

## Edgar Filing: HEXCEL CORP /DE/ - Form 10-Q

We are involved in litigation, investigations and claims arising out of the normal conduct of our business, including those relating to commercial transactions, environmental, employment, and health and safety matters. We estimate and accrue our liabilities when a loss becomes probable and estimable. These judgments take into consideration a variety of factors, including the stage of the proceeding; potential settlement value; assessments by internal and external counsel; and assessments by environmental engineers and consultants of potential environmental liabilities and remediation costs. Such estimates are not discounted to reflect the time value of money due to the uncertainty in estimating the timing of the expenditures, which may extend over several years.

While it is impossible to ascertain the ultimate legal and financial liability with respect to certain contingent liabilities and claims, we believe, based upon our examination of currently available information, our experience to date, and advice from legal counsel, that the individual and aggregate liabilities resulting from the ultimate resolution of these contingent matters, after taking into consideration our existing insurance coverage and amounts already provided for, will not have a material adverse impact on our consolidated results of operations, financial position or cash flows.

Table of Contents

*Environmental Matters*

We are subject to various U.S. and international federal, state and local environmental, and health and safety laws and regulations. We are also subject to liabilities arising under the Federal Comprehensive Environmental Response, Compensation and Liability Act ( CERCLA or Superfund ), the Clean Air Act, the Clean Water Act, the Resource Conservation and Recovery Act, and similar state and international laws and regulations that impose responsibility for the control, remediation and abatement of air, water and soil pollutants and the manufacturing, storage, handling and disposal of hazardous substances and waste.

We have been named as a potentially responsible party ( PRP ) with respect to several hazardous waste disposal sites that we do not own or possess, which are included on, or proposed to be included on, the Superfund National Priority List of the U.S. Environmental Protection Agency ( EPA ) or on equivalent lists of various state governments. Because CERCLA allows for joint and several liability in certain circumstances, we could be responsible for all remediation costs at such sites, even if we are one of many PRPs. We believe, based on the amount and nature of our waste, our existing insurance coverage, the amounts already provided for and the number of other financially viable PRPs, that our liability in connection with such matters will not be material.

*Lodi, New Jersey Site*

Pursuant to the New Jersey Industrial Site Recovery Act, Hexcel entered into an Administrative Consent Order for the environmental remediation of a manufacturing facility we own and formerly operated in Lodi, New Jersey. We have been remediating this site in accordance with a State approved plan and continue to do so under the New Jersey Licensed Site Remediation Professional program. Hexcel has completed all primary remediation activities and is now entering into the final phase of clean-up, which includes testing of local bedrock, confirmation that no offsite contamination migration has occurred and remediation of contaminated areas near the river embankment. We have accrued charges of \$3.7 million this quarter for this additional work and for costs to decommission the site. Upon completion of active remediation, a petition for Monitored Natural Attenuation status will be filed with the State. The accrual balance is \$3.6 million as of June 30, 2014 and was \$1.7 million at December 31, 2013.

*Lower Passaic River*

Hexcel and a group of approximately 72 other PRPs comprise the Lower Passaic Cooperating Parties Group (the CPG ). Hexcel and the CPG are subject to a May 2007 Administrative Order on Consent ( AOC ) to perform a Remedial Investigation/Feasibility Study ( RI/FS ) of environmental conditions in the Lower Passaic River watershed. We were included in the CPG based on our operations at our former manufacturing site in Lodi, New Jersey.

In June 2007, the EPA issued a draft Focused Feasibility Study ( FFS ) that considers interim remedial options for the lower eight miles of the river, in addition to a no action option. On April 11, 2014, the EPA issued a revised FFS, which proposes several alternatives, including the bank to bank dredging of the lower eight miles of the river at an expected cost ranging from \$0.8 billion to \$3.25 billion, according to the EPA, but also includes a no action option. The revised FFS is subject to public comment until August 30, 2014 and a final decision is not expected for several months thereafter. Hexcel is not currently subject to any obligation to undertake the work contemplated by the FFS, nor have we determined our allocable share of any remediation alternatives. However, based on a review of the Company's position, and as no point within

the range is a more probable outcome than any other point, the Company recorded the lower end of the expected range, which resulted in an increase in the accrual of \$2.3 million in the second quarter of 2014. Despite the issuance of the revised FFS, there are many uncertainties associated with the final agreed upon remediation and the Company's allocable share of the remediation. Given those uncertainties, the amounts accrued may not be indicative of the amounts for which the Company is ultimately responsible and will be refined as events in the remediation process develop.

*Kent, Washington Site*

We were party to a cost-sharing agreement regarding the operation of certain environmental remediation systems necessary to satisfy a post-closure care permit issued to a previous owner of our Kent, Washington site by the EPA. Under the terms of the cost-sharing agreement, we were obligated to reimburse the previous owner for a portion of the cost of the required remediation activities. The previous owner, who also continues to own an adjacent site, has installed certain remediation and isolation technologies on its upgradient site and is operating those pursuant to an order agreed with the State of Washington. We and the Washington Department of Ecology have reached an agreed order to perform certain cleanup activities on our site by certain deadlines, and we are in full compliance with the order. The Department of Ecology has recently approved a reduced number of wells and a reduced pumping volume for Hexcel's wells on its property. The total accrued liability related to this matter was \$0.6 million at June 30, 2014 and \$0.8 million at December 31, 2013.

Table of Contents

*Omega Chemical Corporation Superfund Site, Whittier, California*

We are a PRP at a former chemical waste site in Whittier, California. The PRPs at Omega have established a PRP Group, the Omega PRP Group, and are currently investigating and remediating soil and groundwater at the site pursuant to a Consent Decree with the EPA. The Omega PRP Group has attributed approximately 1.07% of the waste tonnage sent to the site to Hexcel. In addition to the Omega site specifically, the EPA is investigating the scope of regional groundwater contamination in the vicinity of the Omega site and issued a Record of Decision; the Omega PRP Group members have been noticed by the EPA as PRPs who will be required to be involved in the remediation of the regional groundwater contamination in that vicinity as well. As a member of the Omega PRP group, Hexcel will incur costs associated with the investigation and remediation of the Omega site and the regional groundwater remedy, although our ultimate liability, if any, in connection with this matter cannot be determined at this time, we have accrued \$0.6 million relating to potential liability for both the Omega site and regional groundwater remedies.

*Summary of Environmental Reserves*

Our estimate of liability as a PRP and our remaining costs associated with our responsibility to remediate the Lodi, New Jersey; Kent, Washington; and other sites are accrued in the consolidated balance sheets. As of June 30, 2014, our aggregate environmental related accruals were \$7.2 million, of which \$5.3 million was included in accrued liabilities with the remainder included in non-current liabilities. As of December 31, 2013, our aggregate environmental related accruals were \$3.9 million, of which \$3.4 million was included in accrued liabilities with the remainder included in non-current liabilities. As related to certain environmental matters, except for the Lodi site, the accrual was estimated at the low end of a range of possible outcomes since no amount within the range is a better estimate than any other amount. If we had accrued at the high end of the range of possible outcomes for those sites where we are able to estimate our liability, our accrual would have been \$28 million higher. These accruals can change significantly from period to period due to such factors as additional information on the nature or extent of contamination, the methods of remediation required, changes in the apportionment of costs among responsible parties and other actions by governmental agencies or private parties, or the impact, if any, of being named in a new matter.

Environmental remediation spending charged to our reserve balance for the quarter ended June 30, 2014 and 2013 was \$1.7 million and \$1.0 million, respectively, and \$2.7 million and \$1.8 million for the six months ended June 30, 2014 and 2013. In addition, our operating costs relating to environmental compliance charged to expense were \$3.7 million and \$3.3 million for the quarters ended June 30, 2014 and 2013, respectively and \$7.2 million and \$6.5 million for the six-month periods ended June 30, 2014 and 2013, respectively. Capital expenditures for environmental matters were \$1.1 million and \$0.8 million for the quarters ended June 30, 2014 and 2013, respectively and \$2.2 million and \$1.5 million for the six-month periods ended June 30, 2014 and 2013, respectively.

*Product Warranty*

We provide for an estimated amount of product warranty expense at the time revenue is recognized. This estimated amount is provided by product and based on historical warranty experience. In addition, we periodically review our warranty accrual and record any adjustments as deemed appropriate. Warranty expense for the quarter ended June 30, 2014, and accrued warranty cost, included in accrued liabilities in the condensed consolidated balance sheets at June 30, 2014 and December 31, 2013, was as follows:

(In millions)		Product Warranties
<b>Balance as of December 31, 2013</b>	\$	4.5
Warranty expense		0.5
Deductions and other		(0.7)
<b>Balance as of March 31, 2014</b>		<b>4.3</b>
Warranty expense		<b>1.9</b>
Deductions and other		<b>(1.0)</b>
<b>Balance as of June 30, 2014</b>	\$	<b>5.2</b>

**Note 13 Stock Repurchase Plan**

In July 2013, our Board authorized us to repurchase \$150 million of our outstanding common stock ( 2013 Repurchase Plan ). During the quarter the Company completed the 2013 Repurchase Plan. In June 2014, our Board authorized an additional plan to repurchase \$150 million of our outstanding common stock ( 2014 Repurchase Plan ). During the first six months of 2014, the Company spent \$114.5 million to repurchase 2,764,576 shares of common stock under the approved plans. At June 30, 2014, there is \$145 million remaining authorized under the 2014 Repurchase Plan.

In December 2012, our Board authorized us to repurchase up to \$50 million of our outstanding common stock ( 2012 Repurchase Plan ). During the six-month period ended June 30, 2013, the Company repurchased a total of 1,573,588 shares at a cost of \$50 million and completed the 2012 Repurchase Plan.

Table of Contents

**ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

**Business Overview**

We develop, manufacture, and market lightweight, high-performance composites, including carbon fibers, specialty reinforcements, prepregs and other fiber-reinforced matrix materials, adhesives, honeycomb, engineered honeycomb and composite structures, for use in Commercial Aerospace, Space & Defense and Industrial Applications. Our products are used in a wide variety of end applications, such as commercial and military aircraft, space launch vehicles and satellites, wind turbine blades, automotive, recreational products and a variety of other industrial applications.

We serve international markets through manufacturing facilities, sales offices and representatives located in the Americas, Asia Pacific, Europe and Russia. We are also an investor in a joint venture in Malaysia, which manufactures composite structures for Commercial Aerospace applications.

Hexcel has two segments, Composite Materials and Engineered Products. The Composite Materials segment is comprised of our carbon fiber, specialty reinforcements, resins, prepregs and other fiber-reinforced matrix materials, and honeycomb core product lines. The Engineered Products segment is comprised of lightweight high strength composite structures, molded components and specialty machined honeycomb product lines.

Net sales for the quarter were \$470.1 million, 11.2% higher (10.2% in constant currency) than the \$422.6 million reported for the second quarter of 2013. Year to date net sales were 10.0% higher in constant currency. The growth was led by the commercial aerospace market, which accounts for 66% of our year to date sales.

Commercial aerospace sales of \$308.2 million increased 14.1% for the quarter (13.6% in constant currency) as compared to the second quarter of 2013 and increased 13.5% (12.8% in constant currency) for the six-month period as compared to 2013. Combined revenues attributed to new aircraft programs (A380, B747-8, B787, A350, A320neo, and B737 Max) increased nearly 20% versus the second quarter last year with the A350 and B787 shipments leading the growth. Sales for Airbus and Boeing legacy aircraft were up about 9% compared to the second quarter of 2013 and were about the same level as the first quarter of 2014.

Sales to other commercial aerospace, which includes regional and business aircraft customers, were over 20% higher compared to the second quarter of 2013 and were about the same level as the last two quarters.

Space & Defense sales of \$92.1 million decreased 4.8% (5.8% in constant currency) for the quarter as compared to the second quarter of 2013. The first half sales are down 3.6% in constant currency. Our top 15 programs account for about two-thirds of our Space & Defense sales and aggregate sales from these programs in the first half of 2014 were just above sales from these programs in the first half of 2013, as the growth in new programs has offset the reductions from programs that are winding down or reducing in build rates. In total we are involved with more than 100 programs and the decline in sales has come from the rest of these programs which have historically had less predictable ordering patterns.

Total Industrial sales of \$69.8 million for the second quarter of 2014 were 24.9% higher (21.2% in constant currency) than the second quarter of 2013. Sales for the first half of 2014 were up 20.0% in constant currency over the first half of 2013. The increases were across the board, including wind energy sales which for the first half of 2014 were up over 20% in constant currency as compared to the first half of 2013.

Gross margin for the second quarter was 27.5% as compared to 27.6% in the second quarter of 2013, as both periods reflect strong operating performance. The second quarter of 2014 was unfavorably impacted from exchange rates by about 30 basis points as compared to 2013. Selling, general and administrative ( SG&A ) expenses were 6.6% higher than the second quarter of 2013 (4.0% in constant currency). Research and technology ( R&T ) expenses in the second quarter of 2014 of \$10.9 million were \$0.8 million higher than the comparable 2013 period.

Free cash flow (defined as cash provided by operating activities less capital expenditures) resulted in a use of \$9 million in the first half of 2014 versus a source of \$16 million in 2013, as cash used for capital expenditures was \$119 million as compared to \$92 million in the first half of 2013. Accrual basis additions to capital expenditures were \$104.8 million in the first half of 2014 as compared to \$82.1 million during the first half of 2013. We expect accrual basis capital expenditures to be \$225 million to \$250 million in 2014, as we continue to expand capacity to meet the planned needs of our customers.

Table of Contents**Financial Overview****Results of Operations**

(In millions, except per share data)	Quarter Ended June 30,			Six Months Ended June 30,		
	2014	2013	% Change	2014	2013	% Change

<i>As a percentage of net sales</i>	<i>17.3%</i>	<i>17.0%</i>		<i>16.7%</i>	<i>16.1%</i>	
Adjusted net income	\$ 54.5	\$ 49.1	11.0%	\$ 104.6	\$ 92.7	12.8%
<i>Adjusted diluted earnings per share</i>	<i>\$ 0.55</i>	<i>\$ 0.48</i>		<i>\$ 1.05</i>	<i>\$ 0.91</i>	

The Company's performance measurements include operating and net income adjusted for special items, both of which are non-GAAP measures. Management believes these non-GAAP measurements are meaningful to investors because they provide a view of Hexcel with respect to ongoing operating results. Special items represent significant charges or credits that are important to understanding Hexcel's overall operating results in the periods presented. Such non-GAAP measurements are not recognized in accordance with generally accepted accounting principles and should not be viewed as an alternative to GAAP measures of performance. The following is a reconciliation from GAAP to non-GAAP amounts.

(In millions, except per share data)	Quarter Ended June 30,			Six Months Ended June 30,		
	2014	2013		2014	2013	
Operating income	\$ 75.1	\$ 71.9		\$ 149.7	\$ 134.9

Non-operating expense, net of tax (b)		0.6			0.6	
Adjusted net income	\$ 54.5	\$ 49.1		\$ 104.6	\$ 92.7	

(In millions)	Six Months Ended June 30,		
	2014		2013
Net cash provided by operating activities	\$ 110.3		\$ 108.2
Less: Capital expenditures	(119.2)		(92.0)
Free cash flow (Non-GAAP)	\$ (8.9)		\$ 16.2

(a) Other operating expense for the three and six months ended June 30, 2014 reflects an increase in environmental reserves related to a former manufacturing facility in Lodi, New Jersey.

(b) Non-operating expense in 2013 is the accelerated amortization of deferred financing costs related to our previous senior secured credit facility and the recognition of the deferred expense on related interest rate swaps

Table of ContentsNet Sales

The following table summarizes net sales to third-party customers by segment and end market for the quarters and six months ended June 30, 2014 and 2013:

(In millions)	Quarter Ended June 30,			Six Months Ended June 30,			% Change
	2014	2013	% Change	2014	2013	% Change	
<b>Consolidated Net Sales</b>	\$ 470.1	\$ 422.6	11.2%	\$ 931.8	\$ 839.1	11.0%	
Commercial Aerospace	308.2	270.0	14.1%	611.4	538.9	13.5%	
Space & Defense	92.1	96.7	(4.8)%	187.7	192.7	(2.6)%	
Industrial	69.8	55.9	24.9%	132.7	107.5	23.4%	
<b>Composite Materials</b>	\$ 361.6	\$ 324.7	11.4%	\$ 717.9	\$ 649.5	10.5%	
Commercial Aerospace	225.5	200.7	12.4%	450.3	402.4	11.9%	
Space & Defense	66.8	70.3	(5.0)%	135.4	143.1	(5.4)%	
Industrial	69.3	53.7	29.1%	132.2	104.0	27.1%	
<b>Engineered Products</b>	\$ 108.5	\$ 97.9	10.8%	\$ 213.9	\$ 189.6	12.8%	
Commercial Aerospace	82.7	69.3	19.3%	161.1	136.5	18.0%	
Space & Defense	25.3	26.4	(4.2)%	52.3	49.6	5.4%	
Industrial	0.5	2.2	(77.3)%	0.5	3.5	(85.7)%	

**Sales by Segment**

**Composite Materials:** Net sales of \$361.6 million in the second quarter of 2014 increased \$36.9 million over the \$324.7 million in the prior year driven by a 12.4% increase in Commercial Aerospace sales. Space and Defense sales declined 5.0% from 2013 and Industrial sales increased to \$69.3 million or 29.1% compared to the second quarter in 2013. The increase of 10.5% in net sales to \$717.9 million for the first half of 2014, was also driven by Commercial Aerospace and Industrial, partially offset by a slight decline in Space and Defense sales.

**Engineered Products:** Net sales of \$108.5 million in the second quarter of 2014 increased \$10.6 million over the \$97.9 million for 2013 driven by a 19.3% increase in Commercial Aerospace sales, partially offset by a 4.2% decline in Space & Defense sales. The increase of 12.8% in net sales to \$213.9 million for the first half of 2014 was also driven by Commercial Aerospace. Sales in Space & Defense declined as sales for helicopter programs in the Americas have less predictable ordering patterns and the C-17 program continued to wind down. There are not significant sales to the Industrial market from this segment.

**Sales by Market**

**Commercial Aerospace:** Net sales increased \$38.2 million, or 14.1% (13.6% on a constant currency basis), to \$308.2 million for the second quarter of 2014. Net sales for the six months ended June 30, 2014 increased \$72.5 million or 13.5% (12.8% on a constant currency basis) to \$611.4 million. For the quarter, new aircraft programs (A380, B747-8, B787, A350, A320neo, and B737 Max) increased nearly 20% versus the second quarter last year with the A350 and B787 shipments leading the growth. Sales for Airbus and Boeing legacy aircraft were up about the

## Edgar Filing: HEXCEL CORP /DE/ - Form 10-Q

same level as the first quarter of 2014, resulting in a 9% increase for the quarter and a 7% increase for the first half of 2014, over the comparable periods in 2013. Sales to other commercial aerospace, which includes regional and business aircraft customers, were over 20% higher than the comparable periods of 2013 and were about the same level as the last two quarters.

**Space & Defense:** Net sales decreased \$4.6 million, or 4.8% (5.8% on a constant currency basis), to \$92.1 million for the second quarter of 2014. Net sales of \$187.7 million for the six months ended June 30, 2014 decreased \$5.0 million or 2.6% (3.7% on a constant currency basis), below the prior year level. Our top 15 programs account for about two-thirds of our Space & Defense sales and aggregate sales from these programs in the first half of 2014 were just above sales from these programs in the first half of 2013, as the growth in new programs has offset the reductions from programs that are winding down or reducing in rates. In total we are involved with more than 100 programs and the decline in sales have come from the rest of these programs which have historically had less predictable ordering patterns.

**Industrial:** Net sales for the second quarter of 2014 increased \$13.9 million, or 24.9% (21.2% on a constant currency basis) as compared to the second quarter of 2013. Net sales for the six months ended June 30, 2014 increased \$25.2 million or 23.4% (20.0% on constant currency basis) to \$132.7 million over the first half of 2013. Wind energy sales in the second quarter and first half of 2014 were up more than 20% over the comparable periods in 2013.

Table of ContentsGross Margin

(In millions)	Quarter Ended June 30,			Six Months Ended June 30,		
	2014	2013	% Change	2014	2013	% Change
Gross margin	\$ 129.1	\$ 116.8	10.5%	\$ 258.3	\$ 228.8	12.9%
<i>Percentage of sales</i>	27.5%	27.6%		27.7%	27.3%	

We achieved a gross margin percentage of 27.5% in the second quarter and 27.7% in the first six months of 2014. The benefit of higher volume combined with good cost control led to the margin growth. Foreign exchange rates had about a 30 basis point and 20 basis point unfavorable impact for the quarter and first half of 2014, respectively, as compared to 2013.

Operating Expenses

(In millions)	Quarter Ended June 30,			Six Months Ended June 30,		
	2014	2013	% Change	2014	2013	% Change
SG&A expense	\$ 37.1	\$ 34.8	6.6%	\$ 78.1	\$ 72.8	7.3%
<i>Percentage of sales</i>	7.9%	8.2%		8.4%	8.7%	
R&T expense	\$ 10.9	\$ 10.1	7.9%	\$ 24.5	\$ 21.1	16.1%
<i>Percentage of sales</i>	2.3%	2.4%		2.6%	2.5%	

SG&A and R&T expenses in the second quarter and first six months of 2014 were 6.6% and 7.3%, respectively, higher than the comparable 2013 periods, to support a more than 10% growth in sales. Higher R&T expenses also reflect the increased spending on new product and process development costs.

Operating Income

(In millions)	Quarter Ended June 30,			Six Months Ended June 30,		
	2014	2013	% Change	2014	2013	% Change
<b>Consolidated operating income</b>	<b>\$ 75.1</b>	<b>\$ 71.9</b>	<b>4.5%</b>	<b>\$ 149.7</b>	<b>\$ 134.9</b>	<b>11.0%</b>
<i>Operating margin</i>	16.0%	17.0%		16.1%	16.1%	
Composite Materials	79.8	71.2	12.1%	155.7	139.1	11.9%
<i>Operating margin</i>	21.0%	20.8%		20.6%	20.3%	
Engineered Products	17.6	15.1	16.6%	34.0	28.5	19.3%
<i>Operating margin</i>	16.1%	15.3%		15.9%	14.9%	
Corporate & Other	(22.3)	(14.4)	(54.9)%	(40.0)	(32.7)	(22.3)%

Operating income in the second quarter and six months ended June 30, 2014 included a \$6.0 million charge for additional environmental reserves primarily for remediation of a former manufacturing facility, attributed to Corporate and Other. Excluding the charge, operating margins would have been 17.3% of sales for the second quarter of 2014 and 16.7% for the 2014 six month period.

Interest Expense, Net

(In millions)	Quarter Ended June 30,			Six Months Ended June 30,		
	2014	2013	% Change	2014	2013	% Change
Interest expense, net	\$ 2.0	\$ 2.1	(4.8)%	\$ 3.8	\$ 3.8	0%

Interest expense for the quarter and six months ended June 30, 2014 remained flat with the comparable periods of 2013 as increases in debt have been offset by lower interest rates due to refinancings.

Provision for Income Taxes

(In millions)	Quarter Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Income tax expense	\$ 22.9	\$ 20.6	\$ 45.7	\$ 38.5
Effective tax rate	31.3%	29.9%	31.3%	29.6%

Table of Contents

The 31.3% effective tax rate for the six months ended June 30, 2014 is in line with our expected rate for the year. The 29.6% effective tax rate for the six months ended June 30, 2013 reflects a \$0.6 million benefit primarily from the extension of the 2012 and 2013 U.S. Research & Development tax credits that was enacted in January 2013. Excluding this benefit, the rate would have been 30.1%. Mix of income by country accounted for the increase in the tax rate.

**Financial Condition**

**Liquidity:** As of June 30, 2014, we had cash and cash equivalents of \$43.8 million and our total debt, net of cash, was \$354.0 million, as compared to \$229.5 million at December 31, 2013. At June 30, 2014, total borrowings under the \$600 million Senior Secured Credit Facility (the Facility) were \$395 million. The Facility permits us to issue letters of credit up to an aggregate amount of \$40.0 million. Outstanding letters of credit reduce the amount available for borrowing under our revolving loan. As of June 30, 2014, we had issued letters of credit under the Facility totaling \$1.8 million, resulting in undrawn availability under the Facility as of June 30, 2014 of \$203.2 million. In addition, we borrowed \$2.8 million from the credit line established in China associated with our operations there. The increase in debt in the first half of 2014 primarily reflects the \$114.5 million repurchase of stock.

The Facility contains financial and other covenants, including, but not limited to, restrictions on the incurrence of debt and the granting of liens, as well as the maintenance of an interest coverage ratio and a leverage ratio. In accordance with the terms of the Facility, we are required to maintain a minimum interest coverage ratio of 3.50 (based on the ratio of EBITDA, as defined in the credit agreement, to interest expense) and may not exceed a maximum leverage ratio of 3.50 (based on the ratio of total debt to EBITDA) throughout the term of the Facility. In addition, the Facility contains other terms and conditions such as customary representations and warranties, additional covenants and customary events of default. As of June 30, 2014, we were in compliance with all debt covenants and expect to remain in compliance.

We expect to meet our short-term liquidity requirements (including capital expenditures) through net cash from operating activities, cash on hand and the Facility. As of June 30, 2014, long-term liquidity requirements consist primarily of obligations under our long-term debt obligations. We do not have any significant required debt repayments until June 2018 when the Facility expires.

**Operating Activities:** Net cash provided by operating activities was \$110.3 million in the first six months of 2014, as compared to net cash provided by operating activities of \$108.2 million in the first six months of 2013. The increase in earnings was offset by an increase in working capital, primarily increased accounts receivable due to the higher sales.

**Investing Activities:** Net cash used for investing activities of \$119.2 million and \$92.0 million in the first six months of 2014 and 2013, respectively, was for capital expenditures.

**Financing Activities:** Financing activities used \$12.2 million of net cash in the first six months of 2014 compared to a source of \$9.0 million in the same period of 2013. The increases in borrowings were used for stock repurchases as described below:

## Edgar Filing: HEXCEL CORP /DE/ - Form 10-Q

In July 2013, our Board authorized us to repurchase \$150 million of our outstanding common stock ( 2013 Repurchase Plan ). During this quarter the Company completed the 2013 Repurchase Plan. In June 2014, our Board authorized an additional plan to repurchase \$150 million of our outstanding common stock ( 2014 Repurchase Plan ). During the first six months of 2014, the Company spent \$114.5 million to repurchase 2,764,576 shares of common stock under the approved plans. At June 30, 2014, there is \$145 million remaining authorized under the 2014 Repurchase Plan.

In December 2012, our Board authorized us to repurchase up to \$50 million of our outstanding common stock ( 2012 Repurchase Plan ). During the six-month period ended June 30, 2013, the Company repurchased a total of 1,573,588 shares at a cost of \$50 million and completed the 2012 Repurchase Plan.

**Financial Obligations and Commitments:** As of June 30, 2014, current maturities of notes payable (our foreign credit line) were \$2.8 million. The next significant scheduled debt maturity will not occur until 2018, the year the senior secured credit facility matures. Certain sales and administrative offices, data processing equipment and manufacturing facilities are leased under operating leases.

### Critical Accounting Estimates

Our Condensed Consolidated Financial Statements are prepared in accordance with U.S. GAAP. In connection with the preparation of our financial statements, we are required to make assumptions and estimates about future events, and apply judgments that affect reported amounts of assets, liabilities, revenues, expenses and related disclosures. We base our assumptions, estimates and

Table of Contents

judgments on historical experience, current trends and other factors management believes to be relevant at the time our condensed consolidated financial statements are prepared. On a regular basis, management reviews accounting policies, assumptions, estimates and judgments to ensure our financial statements are presented fairly and in accordance with U.S. GAAP. However, because future events and their effects cannot be determined with certainty, actual results may differ from our assumptions and estimates, and such differences could be material.

We describe our significant accounting policies and critical accounting estimates in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013. There were no significant changes in our accounting policies and estimates except as described below:

*Commitments and Contingencies*

We are involved in litigation, investigations and claims arising out of the normal conduct of our business, including those relating to commercial transactions, environmental, employment and health and safety matters. We estimate and accrue our liabilities resulting from such matters based upon a variety of factors, including the stage of the proceeding; potential settlement value; assessments by internal and external counsel; and assessments by environmental engineers and consultants of potential environmental liabilities and remediation costs. We believe we have adequately accrued for these potential liabilities; however, facts and circumstances may change, such as new developments, or a change in approach, including a change in settlement strategy or in an environmental remediation plan, that could cause the actual liability to exceed the estimates, or may require adjustments to the recorded liability balances in the future.

Our estimate of liability as a PRP and our remaining costs associated with our responsibility to remediate the Lodi, New Jersey; Lower Passaic River in New Jersey; Kent, Washington; and other sites are accrued in the consolidated balance sheets. In the second quarter of 2014, we increased our accrual for the Lodi, New Jersey site by \$3.7 million for post-primary remedial activities and accrued an additional \$2.3 million related to the Lower Passaic River. See page 12 of this Form 10-Q for additional discussion. As of June 30, 2014, our aggregate environmental related accruals were \$7.2 million, of which \$5.3 million was included in accrued liabilities, with the remainder included in non-current liabilities. As related to certain environmental matters, except for the Lodi site, the accrual was estimated at the low end of a range of possible outcomes since no amount within the range is a better estimate than any other amount. If we had accrued, for those sites where we are able to estimate our liability, at the high end of the range of possible outcomes, our accrual would have been \$28 million higher. These accruals can change significantly from period to period due to such factors as additional information on the nature or extent of contamination, the methods of remediation required, changes in the apportionment of costs among responsible parties and other actions by governmental agencies or private parties, or the impact, if any, of being named in a new matter.

**Forward-Looking Statements**

Certain statements contained in Management's Discussion and Analysis of Financial Condition and Results of Operations, constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to analyses and other information that are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to future prospects, developments and business strategies. These forward-looking statements are identified by their use of terms and phrases such as anticipate, believe, could, would, estimate, expect, intend, may, plan, predict, project, should, will, and similar terms and references to assumptions. Such statements are based on current expectations, are inherently uncertain, and are subject to changing assumptions.

## Edgar Filing: HEXCEL CORP /DE/ - Form 10-Q

Such forward-looking statements include, but are not limited to: (a) the estimates and expectations based on aircraft production rates made publicly available by Airbus and Boeing; (b) the revenues we may generate from an aircraft model or program; (c) the impact of the possible push-out in deliveries of the Airbus and Boeing backlog and the impact of delays in new aircraft programs or the final Hexcel composite material content once the design and material selection has been completed; (d) expectations of composite content on new commercial aircraft programs and our share of those requirements; (e) expectations of growth in revenues from space and defense applications, including whether certain programs might be curtailed or discontinued; (f) expectations regarding growth in sales for wind energy, recreation and other industrial applications, including whether certain programs might be curtailed or discontinued; (g) expectations regarding working capital trends and expenditures; (h) expectations as to the level of capital expenditures and when we will complete the construction and qualification of capacity expansions; (i) our ability to maintain and improve margins in light of the ramp-up of capacity and the current economic environment; (j) the outcome of legal matters; (k) our projections regarding the realizability of net operating loss and tax credit carryforwards; and (l) the impact of various market risks, including fluctuations in interest rates, currency exchange rates, environmental regulations and tax codes, commodity prices, and in the market price of our common stock; the impact of work stoppages or other labor disruptions and the impact of the above factors on our expectations of 2014 financial results. In addition, actual results may differ materially from the results anticipated in the forward

Table of Contents

looking statements due to a variety of factors, including but not limited to changing market conditions, increased competition, product mix, inability to achieve planned manufacturing improvements and cost reductions, supply chain disruptions and conditions in the financial markets.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results to be materially different. Such factors include, but are not limited to, the following: changes in general economic and business conditions; changes in current pricing and cost levels; changes in political, social and economic conditions and local regulations; foreign currency fluctuations; changes in aerospace delivery rates; reductions in sales to any significant customers, particularly Airbus, Boeing or Vestas; changes in sales mix; changes in government defense procurement budgets; changes in military aerospace programs technology; industry capacity; competition; disruptions of established supply channels, particularly where raw materials are obtained from a single or limited number of sources and cannot be substituted by unqualified alternatives; manufacturing capacity constraints; unforeseen vulnerability of our network and systems to interruptions or failures; and the availability, terms and deployment of capital.

If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, actual results may vary materially from those expected, estimated or projected. In addition to other factors that affect our operating results and financial position, neither past financial performance nor our expectations should be considered reliable indicators of future performance. Investors should not use historical trends to anticipate results or trends in future periods. Further, our stock price is subject to volatility. Any of the factors discussed above could have an adverse impact on our stock price. In addition, failure of sales or income in any quarter to meet the investment community's expectations, as well as broader market trends, can have an adverse impact on our stock price. We do not undertake an obligation to update our forward-looking statements or risk factors to reflect future events or circumstances.

**ITEM 3. Quantitative and Qualitative Disclosures about Market Risk**

There are no material changes in market risk from the information provided in the Company's 2013 Annual Report on Form 10-K.

**ITEM 4. Controls and Procedures**

**Evaluation of Disclosure Controls and Procedures**

Our Chief Executive Officer and Chief Financial Officer have evaluated our disclosure controls and procedures as of June 30, 2014 and have concluded that these disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. These disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports we file or submit is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Our Chief Executive Officer and Chief Financial Officer have concluded that there have not been any changes in our internal control over financial reporting during the second quarter of 2014 that have materially affected, or are reasonably likely to materially affect, our internal

control over financial reporting.

## **PART II. OTHER INFORMATION**

### **ITEM 1. Legal Proceedings**

The information required by Item 1 is contained within Note 12 on pages 11 through 13 of this Form 10-Q and is incorporated herein by reference.

### **ITEM 1A. Risk Factors**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2013, which could materially affect our business, financial condition or future results. In addition, future uncertainties may increase the magnitude of these adverse effects or give rise to additional material risks not now contemplated.

Table of Contents**ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds**

(c)

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
April 1 April 30, 2014	454,000	\$ 42.22	454,000(1)	\$ 41,293,110
May 1 May 31, 2014	1,048,450	40.58	1,048,450	0
June 1 June 30, 2014	110,908	40.71	110,908(2)	\$ 145,484,499
Total	1,613,358	\$ 41.05	1,613,358	\$ 145,484,499

(1) In July 2013, our Board authorized us to repurchase \$150 million of our outstanding common stock. Previously, the Company spent \$88.3 million to repurchase 2,047,871 shares of common stock under the plan. In the second quarter of 2014, the Company spent \$61.7 million to repurchase 1,502,450 shares and completed the 2013 Repurchase Plan.

(2) In June 2014, our Board authorized us to repurchase an additional \$150 million of our outstanding common stock. The Company spent \$4.5 million to repurchase 110,908 shares of common stock during June 2014.
