NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2014

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

Line of Business: New England Realty Associates Limited Partnership (NERA or the Partnership) was organized in Massachusetts in 1977. NERA and its subsidiaries own 24 properties which include 16 residential buildings; 4 mixed use residential, retail and office buildings; 3 commercial buildings and individual units at one condominium complex. These properties total 2,412 apartment units, 19 condominium units and 108,043 square feet of commercial space. Additionally, the Partnership also owns a 40-50% interest in 9 residential and mixed use properties consisting of 793 apartment units, 12,500 square feet of commercial space and a 50 car parking lot. The properties are located in Eastern Massachusetts and Southern New Hampshire.

Basis of Presentation: The preparation of the financial statements, in conformity with accounting principles generally accepted in the United State of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Accordingly, actual results could differ from those estimates.

Principles of Consolidation: The consolidated financial statements include the accounts of NERA and its subsidiaries. NERA has a 99.67% to 100% ownership interest in each subsidiary except for the nine limited liability companies (the Investment Properties or Joint Ventures) in which the Partnership has a 40 - 50% ownership interest. The consolidated group is referred to as the Partnership. Minority interests are not recorded, since they are insignificant. All significant intercompany accounts and transactions are eliminated in consolidation. The Partnership accounts for its investment in the above-mentioned Investment Properties using the equity method of consolidation. (See Note 14: Investments in Unconsolidated Joint Ventures).

The Partnership accounts for its investments in joint ventures using the equity method of accounting. These investments are recorded initially at cost, as Investments in Unconsolidated Joint Ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions. Generally, the Partnership would discontinue applying the equity method when the investment (and any advances) is reduced to zero and would not provide for additional losses unless the Partnership has guaranteed obligations of the venture or is otherwise committed to providing further financial support for the investee. If the venture subsequently generates income, the Partnership only recognizes its share of such income to the extent it exceeds its share of previously unrecognized losses. In 2013, the carrying value of an investment fell below zero. We intend to fund our share of the investments future operating deficits should the need arise. However, we have no legal obligation to pay for any of the liabilities of such investments nor do we have any legal obligation to fund operating deficits. (See Note 14: Investment in Unconsolidated Joint Ventures.)

Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

The authoritative guidance on consolidation provides guidance on the identification of entities for which control is achieved through means other than voting rights (variable interest entities or VIEs) and the determination of which business enterprise, if any, should consolidate the VIE (the primary beneficiary). Generally, the consideration of whether an entity is a VIE applies when either (1) the equity investors (if any) lack one or more of the essential characteristics of a controlling financial interest, (2) the equity investment at risk is insufficient to finance that equity s activities without additional subordinated financial support or (3) the equity investors have voting rights that are not proportionate to their economic interests and the activities of the entity involve or are conducted on behalf of an investor with a disproportionately small voting interest. The primary beneficiary is defined by the entity having both of the following characteristics: (1) the power to direct the activities that, when taken together, most significantly impact the variable interest entity s performance; and (2) the obligation to absorb losses and rights to receive the returns from VIE that would be significant to the VIE.

Impairment: On an annual basis management assesses whether there are any indicators that the value of the Partnership s rental properties or investments in unconsolidated subsidiaries may be impaired. In addition to identifying any specific circumstances which may affect a property or properties, management considers other criteria for determining which properties may require assessment for potential impairment. The criteria considered by management include reviewing low leased percentages, significant near term lease expirations, recently acquired properties, current and historical operating and/or cash flow losses, near term mortgage debt maturities or other factors that might impact the Partnership s intent and ability to hold property. A property s value is impaired only if management s estimate of the aggregate future cash flows

Table of Contents

(undiscounted and without interest charges) to be generated by the property is less than the carrying value of the property. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the property over the fair value of the property. The Partnership's estimates of aggregate future cash flows expected to be generated by each property are based on a number of assumptions that are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and costs to operate each property. As these factors are difficult to predict and are subject to future events that may alter management's assumptions, the future cash flows estimated by management in its impairment analyses may not be achieved.

Revenue Recognition: Rental income from residential and commercial properties is recognized over the term of the related lease. For residential tenants, amounts 60 days in arrears are charged against income. The commercial tenants are evaluated on a case by case basis. Certain leases of the commercial properties provide for increasing stepped minimum rents, which are accounted for on a straight-line basis over the term of the lease. Contingent rent for commercial properties are received from tenants for certain costs as provided in the lease agreement. The costs generally include real estate taxes, utilities, insurance, common area maintenance and recoverable costs. Rental concessions are also accounted for on the straight-line basis.

Above-market and below-market lease values for acquired properties are initially recorded based on the present value (using a discount rate which reflects the risks associated with the leases acquired) of the differences between (i) the contractual amounts to be paid pursuant to each in-place lease and (ii) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the initial term plus the term of any below-market fixed-rate renewal options for below-market leases. The capitalized above-market lease values for acquired properties are amortized as a reduction of base rental revenue over the remaining term of the respective leases, and the capitalized below-market lease values are amortized as an increase to base rental revenue over the remaining initial terms plus the terms of any below-market fixed-rate renewal options of the respective leases.

Rental Properties: Rental properties are stated at cost less accumulated depreciation. Maintenance and repairs are charged to expense as incurred; improvements and additions which improve or extend the life of the assets are capitalized. When assets are retired or otherwise disposed of, the cost of the asset and related accumulated depreciation is eliminated from the accounts, and any gain or loss on such disposition is included in income. Fully depreciated assets are removed from the accounts. Rental properties are depreciated by both straight-line and accelerated methods over their estimated useful lives. Upon acquisition of rental property, the Partnership estimates the fair value of acquired tangible assets, consisting of land, building and improvements, and identified intangible assets and liabilities assumed, generally consisting of the fair value of (i) above and below market leases, (ii) in-place leases and (iii) tenant relationships. The Partnership allocated the purchase price to the assets acquired and liabilities assumed based on their fair values. The Partnership records goodwill or a gain on bargain purchase (if any) if the net assets acquired/liabilities assumed exceed the purchase consideration of a transaction. In estimating the fair value of the tangible and intangible assets acquired, the Partnership considers information obtained about each property as a result of its due diligence and marketing and leasing activities, and utilizes various valuation methods, such as estimated cash flow projections utilizing appropriate discount and capitalization rates, estimates of replacement costs net of depreciation, and available market information. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant.

Other intangible assets acquired include amounts for in-place lease values and tenant relationship values, which are based on management's evaluation of the specific characteristics of each tenant's lease and the Partnership's overall relationship with the respective tenant. Factors to be considered by management in its analysis of in-place lease values include an estimate of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases at market rates during the expected lease-up periods, depending on local market conditions. In estimating costs to execute similar leases, management considers leasing commissions, legal and other related expenses. Characteristics considered by management in valuing tenant relationships include the nature and extent of the Partnership's existing business relationships with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals. The value of in-place leases are amortized to expense over the remaining initial terms of the respective leases. The value of tenant relationship intangibles are amortized to expense over the anticipated life of the relationships.

In the event that facts and circumstances indicate that the carrying value of a rental property may be impaired, an analysis of the value is prepared. The estimated future undiscounted cash flows are compared to the asset's carrying value to determine if a write-down to fair value is required.

Table of Contents

Financing and Leasing Fees: Financing fees are capitalized and amortized, using the interest method, over the life of the related mortgages. Leasing fees are capitalized and amortized on a straight-line basis over the life of the related lease. Unamortized balances are expensed when the corresponding fee is no longer applicable.

Income Taxes: The financial statements have been prepared on the basis that NERA and its subsidiaries are entitled to tax treatment as partnerships. Accordingly, no provision for income taxes have been recorded (See Note 13).

Cash Equivalents: The Partnership considers cash equivalents to be all highly liquid instruments purchased with a maturity of three months or less.

Segment Reporting: Operating segments are revenue producing components of the Partnership for which separate financial information is produced internally for management. Under the definition, NERA operated, for all periods presented, as one segment.

Comprehensive Income: Comprehensive income is defined as changes in partners' equity, exclusive of transactions with owners (such as capital contributions and dividends). NERA did not have any comprehensive income items in 2014 or 2013 other than net income as reported.

Income Per Depositary Receipt: Effective January 3, 2012, the Partnership authorized a 3-for-1 forward split of its Depositary Receipts listed on the NYSE Amex and a concurrent adjustment of the exchange ratio of Depositary Receipts for Class A Units of the Partnership from 10-to-1 to 30-to-1, such that each Depositary Receipt represents one-thirtieth (1/30) of a Class A Unit of the Partnership. All references to Depositary Receipts in the report are reflective of the 3- for-1 forward split.

Income Per Unit: Net income per unit has been calculated based upon the weighted average number of units outstanding during each period presented. The Partnership has no dilutive units and, therefore, basic net income is the same as diluted net income per unit (see Note 7).

Concentration of Credit Risks and Financial Instruments: The Partnership's properties are located in New England, and the Partnership is subject to the general economic risks related thereto. No single tenant accounted for more than 5% of the Partnership's revenues in 2014 or 2013. The Partnership makes its temporary cash investments with high-credit quality financial institutions. At June 30, 2014, substantially all of the Partnership's cash and cash equivalents were held in interest-bearing accounts at financial institutions, earning interest at rates from 0.01% to 0.35%. At June 30, 2014 and December 31, 2013, respectively approximately \$13,551,000 and \$15,275,000 of cash and cash equivalents, and security deposits included in prepaid expenses and other assets exceeded federally insured amounts.

Advertising Expense: Advertising is expensed as incurred. Advertising expense was \$56,662 and \$16,167 for the six months ended June 30, 2014 and 2013, respectively.

Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

Discontinued Operations and Rental Property Held for Sale: When significant assets are identified by management as held for sale, the Partnership discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. If, in management's opinion, the net sales price of the assets which have been identified as held for sale is less than the net book value of the assets, a valuation allowance is established. Properties identified as held for sale and/or sold are presented in discontinued operations for all periods presented.

If circumstances arise that previously were considered unlikely and, as a result, the Partnership decides not to sell a property previously classified as held for sale, the property is reclassified as held and used. A property that is reclassified is measured and recorded individually at the lower of (a) its carrying amount before the property was classified as held for sale, adjusted for any depreciation (amortization) expense that would have been recognized had the property been continuously classified as held and used, or (b) the fair value at the date of the subsequent decision not to sell.

Interest Capitalized: The Partnership follows the policy of capitalizing interest as a component of the cost of rental property when the time of construction exceeds one year. During the six months ended June 30, 2014 and 2013 there was no capitalized interest.

Extinguishment of Debt: When existing mortgages are refinanced with the same lender and it is determined that the refinancing is substantially different, then they are recorded as an extinguishment of debt. However if it is determined that the refinancing is substantially the same, then they are recorded as an exchange of debt. All refinancing qualify as extinguishment of debt.

Reclassifications: Certain reclassifications have been made to prior period amounts in order to conform to current period presentation.

NOTE 12. FAIR VALUE MEASUREMENTS

Fair Value Measurements on a Recurring Basis

At June 30, 2014 and December 31, 2013, we do not have any significant financial assets or financial liabilities that are measured at fair value on a recurring basis in our consolidated financial statements.

Financial Assets and Liabilities not Measured at Fair Value

At June 30, 2014 and December 31, 2013 the carrying amounts of certain of our financial instruments, including cash and cash equivalents, accounts receivable, and note payable, accounts payable and accrued expenses were representative of their fair values due to the short-term nature of these instruments or, the recent acquisition of these items.

At June 30, 2014 and December 31, 2013, we estimated the fair value of our mortgages payable and other notes based upon quoted market prices for the same (Level 1) or similar (Level 2) issues when current quoted market prices are available. We estimated the fair value of our secured mortgage debt that does not have current quoted market prices available by discounting the future cash flows using rates currently available to us for debt with similar terms and maturities (Level 3). The differences in the fair value of our debt from the carrying value are the result of differences in interest rates and/or borrowing spreads that were available to us at June 30, 2014 and December 31, 2013, as compared with those in effect when the debt was issued or acquired. The secured mortgage debt contain pre-payment penalties or yield maintenance provisions that could make the cost of refinancing the debt at lower rates exceed the benefit that would be derived from doing so.

Table of Contents

The following methods and assumptions were used by the Partnership in estimating the fair value of its financial instruments:

- For cash and cash equivalents, accounts receivable, other assets, investment in partnerships, accounts payable, advance rents and security deposits: fair value approximates the carrying value of such assets and liabilities.
- For mortgage notes payable: fair value is generally based on estimated future cash flows, which are discounted using the quoted market rate from an independent source for similar obligations. Refer to the table below for the carrying amount and estimated fair value of such instruments.

The following table reflects the carrying amounts and estimated fair value of our debt.

	Carrying Amount	Estimated Fair Value
Mortgage Notes Payable		
Partnership Properties		
At June 30, 2014	\$ 195,634,372	\$ 203,344,074
At December 31, 2013	\$ 198,520,478	\$ 196,059,827
Investment Properties		
At June 30, 2014	\$ 137,026,261	\$ 147,317,566
At December 31, 2013	\$ 137,875,515	\$ 147,975,521

Disclosure about fair value of financial instruments is based on pertinent information available to management as of June 30, 2014 and December 31, 2013. Although management is not aware of any factors that would significantly affect the fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since June 30, 2014 and current estimates of fair value may differ significantly from the amounts presented herein.

NOTE 13. TAXABLE INCOME AND TAX BASIS

Taxable income reportable by the Partnership and includable in its partners' tax returns is different than financial statement income because of tax free exchanges, accelerated depreciation, different tax lives, and timing differences related to prepaid rents, allowances and intangible assets at significant acquisitions. Taxable income was approximately \$4,300,000 less than statement income for the year ended December 31, 2013. The primary reason for the decrease is due to tax free exchanges of approximately \$3,700,000 from the sale of Nashoba and accelerated tax depreciation of approximately \$1,100,000 at the related acquisition of Hamilton Green and other depreciation timing difference and accelerated depreciation in prior years. The cumulative tax basis of the Partnership's real estate at December 31, 2013 is approximately \$4,800,000, less than the statement basis. The primary reasons for the lower tax basis are tax free exchanges, and accelerated depreciation. The Partnership's tax basis in its joint venture investments is approximately \$1,300,000 less than statement basis because of accelerated depreciation.

Certain entities included in the Partnership's consolidated financial statements are subject to certain state taxes. These taxes are not significant and are recorded as operating expenses in the accompanying consolidated financial statements.

Allowable accelerated depreciation deductions have expired for 2014. This may result in higher taxable income in future years. Future tax law changes may significantly affect taxable income.

The Partnership adopted the amended provisions related to uncertain tax provisions of ASC 740, Income Taxes. As a result of the implementation of the guidance, the Partnership recognized no material adjustment regarding its tax accounting treatment. The Partnership expects to recognize interest and penalties related to uncertain tax positions, if any, as income tax expense, which would be included in general and administrative expense.

In the normal course of business the Partnership or one of its subsidiaries is subject to examination by federal, state and local jurisdictions in which it operates, where applicable. As of June 30, 2014, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2007 forward.

Table of Contents**NOTE 15. IMPACT OF RECENTLY-ISSUED ACCOUNTING STANDARDS**

In April 2014, the Financial Accounting Standards Board issued Accounting Standards Update No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. This update changes the criteria for reporting a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. Only disposals representing a strategic shift in operations should be presented as discontinued operations. This accounting standard update is effective for annual filings beginning on or after December 15, 2014. Early adoption is permitted. The impact of the adoption of ASU 2014-08 on the Partnership's results of operations, financial position, cash flows and disclosures will be based on the Partnership's future disposal activity.

NOTE 16. DISCONTINUED OPERATIONS AND SALES OF REAL ESTATE

The following tables summarize income from discontinued operations and the related realized gain on sale of rental property for the six months ended June 30, 2014 and 2013:

	2014	2013
Total Revenues	\$	\$ 193,274
Operating and other expenses		171,290
Depreciation and amortization		2,111

Income from discontinued operations	\$	\$ 19,873

NOTE 17 SUBSEQUENT EVENTS**Depository Receipts**

From July 1, 2014 through August 5, 2014, the Partnership purchased a total of 5,049 Depository Receipts. The average price was \$48.81 per receipt or \$1,464.30 per unit. The total cost was \$253,274. The Partnership is required to repurchase 40.0 Class B Units and 2.1 General Partnership Units at a cost of \$58,532 and \$3,081 respectively.

Refinancing

On July 11, 2014, the Partnership refinanced the property owned by Westgate Apartments Burlington, LLC. The new mortgage is \$2,500,000; the interest rate is 4.31%; interest only, payable in 10 years. Approximately \$2,010,000 of loan proceeds were used to pay off the existing mortgage. The balance of the funds is approximately \$435,000 after closing costs. The costs associated with the refinancing were approximately \$90,000.

Line of Credit

On July 31, 2014, the Partnership entered into an agreement for a \$25,000,000 revolving line of credit. The term of the line is three years with a floating interest rate equal to a base rate of the greater of (a) the Prime Rate (b) the Federal Funds Rate plus one-half of one percent per annum, or (c) the LIBOR Rate for a period of one month plus 1% per annum, plus an applicable margin of 2.5% to 3.5%. As of August 5, 2014, no funds have been drawn on this credit line.

The line of credit may be used for acquisition, refinancing, improvements, working capital and other needs of the Partnership. The line may not be used to pay dividends, make distributions or acquire equity interests of the Partnership.

The line of credit is collateralized by varying percentages of the Partnership's ownership interest in 23 of its subsidiary properties and joint ventures. Pledged interests range from 49% to 100% of the Partnership's ownership interest in the respective entities.

The Partnership paid fees to secure the line of credit. Any unused balance of the line of credit is subject to a fee ranging from 15 to 20 basis points per annum.

The line of credit agreement contains several covenants including, but not limited to, providing cash flow projections and compliance certificates, as well as other financial information. Additional covenants include certain restrictions on additional encumbrances of Partnership assets, limitations on debt, maintenance of leverage ratios, minimum tangible net worth, limitations on total aggregate indebtedness, minimum ratio of net operating income to total indebtedness debt service, disposition of properties, and other items.

See Form 8-K filed on August 6, 2014 for additional information.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

Certain information contained herein includes forward looking statements, which are made pursuant to the safe harbor provisions of the Private Securities Liquidation Reform Act of 1995 (the "Act"). Forward looking statements in this report, or which management may make orally or in written form from time to time, reflect management's good faith belief when those statements are made, and are based on information currently available to management. Caution should be exercised in interpreting and relying on such forward looking statements, the realization of which may be impacted by known and unknown risks and uncertainties, events that may occur subsequent to the forward looking statements, and other factors which may be beyond the Partnership's control and which can materially affect the Partnership's actual results, performance or achievements for 2014 and beyond. Should one or more of the risks or uncertainties mentioned below materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. We expressly disclaim any responsibility to update our forward looking statements, whether as a result of new information, future events or otherwise. Accordingly, investors should use caution in relying on past forward looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Since the Partnership's long-term goals include the acquisition of additional properties, a portion of the proceeds from the refinancing and sale of properties is reserved for this purpose. If available acquisitions do not meet the Partnership's investment criteria, the Partnership may purchase additional depository receipts. The Partnership will consider refinancing existing properties if the Partnership's cash reserves are insufficient to repay existing mortgages or if the Partnership needs additional funds for future acquisitions.

As anticipated, the Partnership's occupancy levels for the six months ended June 30, 2014 were on par with the first six months of 2013. For the coming quarters, Management expects both the urban and suburban portfolio occupancy levels to exceed last year's levels. Revenue gains adopted last year in September continue to reveal themselves in the operating statement. Based upon current leasing activity, Management expects continued revenue gains for the balance of the calendar year for the entire portfolio. Local employment gains coupled with the portfolio's curb appeal and locations combine for improving top line gains for 2014 and 2015. Increases in same store revenue were 6.2% and same store operating expenses were up 2.4% resulting in a 9.5% increase in same store Net Operating Income (NOI - income less operating expenses excluding depreciation). Rising real estate taxes, insurance and utility costs made up for the majority of the operating cost increases.

The Partnership has successfully closed on its two scheduled refinancings for 2014. Hamilton on Main, one of the unconsolidated joint ventures, will be refinanced in the fourth quarter. With the current terms committed, the expected total additional funds raised by the partnership will be over \$2 million. However, interest expense will decline by approximately \$84,000. Coupled with the 10 years of no principal amortization, the net cash flow will improve by over \$350,000 annually or \$3,500,000 for the next 10 years.

Since the first of the year Management has used existing cash reserves to purchase 15,931 Depository Receipts and anticipates a steady purchase of receipts, per its trading plan, for the balance of the year.

On July 31, 2014, the Partnership executed a \$25 million line of credit. The credit line has a three year term and can be used for acquisitions, capital improvements and to retire debt. The credit line is subject to certain covenants. (See Note 17 - Subsequent Events to the consolidated

Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

financial statements). As of August 5, 2014 no funds have been drawn from this credit line. Management believes that the credit line and the Partnership's cash reserves put the Partnership in position to capitalize on investment opportunities should they reveal themselves in the near future.

In February 2014, the Partnership paid off the mortgages on Linewt in the amount of approximately \$1,466,000 and Linhart in the amount of approximately \$1,926,000. There were no prepayment penalties. The Partnership's cash reserves were used to pay off these mortgages.

On June 11, 2014, the Partnership refinanced the property owned by NERA Dean Street Associates, LLC. The new mortgage is \$5,687,000; the interest rate is 4.22%, interest only payable in 10 years. Approximately \$5,077,000 of the loan proceeds were used to pay off the existing mortgage. The mortgage matures in June 2024. The costs associated with the refinancing were approximately \$99,000.

The Stock Repurchase Program that was initiated in 2007 has purchased 1,258,822 Depositary Receipts through June 30, 2014 or 30% of the outstanding Class A Depositary Receipts. During the second quarter, the Partnership repurchased 9,418 Class A Depositary Receipts, 75 Class B units, and 4 General Partnership Units at a cost of approximately

Table of Contents

\$452,000, \$105,000 and \$5,500 respectively for a total cost of \$562,500. This purchase of receipts is in line with the Partnership's trading plan.

At August 1, 2014, Harold Brown, his brother Ronald Brown and the President of Hamilton, Carl Valeri, collectively own approximately 40% of the Depositary Receipts representing the Partnership Class A Units (including Depositary Receipts held by trusts for the benefit of such persons family members). Harold Brown also controls 75% of the Partnership's Class B Units, 75% of the capital stock of NewReal, Inc. (NewReal), the Partnership's sole general partner, and all of the outstanding stock of Hamilton. Ronald Brown also owns 25% of the Partnership's Class B Units and 25% of NewReal's capital stock. In addition, Ronald Brown is the President and director of NewReal and Harold Brown is NewReal's Treasurer and a director. The 75% of the issued and outstanding Class B units of the Partnership, controlled by Harold Brown, are owned by HBC Holdings LLC, an entity of which he is the manager.

In addition to the Management Fee, the Partnership Agreement further provides for the employment of outside professionals to provide services to the Partnership and allows NewReal to charge the Partnership for the cost of employing professionals to assist with the administration of the Partnership's properties. Additionally, from time to time, the Partnership pays Hamilton for repairs and maintenance services, legal services, construction services and accounting services. The costs charged by Hamilton for these services are at the same hourly rate charged to all entities managed by Hamilton, and management believes such rates are competitive in the marketplace.

Residential tenants sign a one year lease. During the six months ended June 30, 2014, tenant renewals were approximately 66% with an average rental increase of approximately 4.3%, new leases accounted for approximately 34% with rental rate increases of approximately 7.2%. During the six months ended June 30, 2014, leasing commissions were approximately \$73,000 compared to approximately \$22,000 for the six months ended June 30, 2013, an increase of approximately \$51,000 (231.8%) from 2013. Tenant concessions were approximately \$14,000 in for the six months ended June 30, 2014, compared to approximately \$19,000 for the six months ended June 30, 2013, a decrease of approximately \$5,000 (27.0%). Tenant improvements were approximately \$1,029,000 for the six months ended June 30, 2014, compared to approximately \$826,000 for the six months ended June 30, 2013, an increase of approximately \$203,000 (24.6%).

Hamilton accounted for approximately 5.3% of the repair and maintenance expense paid for by the Partnership during the six months ended June 30, 2014 and 6.0% during the six months ended June 30, 2013. Of the funds paid to Hamilton for this purpose, the great majority was to cover the cost of services provided by the Hamilton maintenance department, including plumbing, electrical, carpentry services, and snow removal for those properties close to Hamilton's headquarters. Several of the larger Partnership properties have their own maintenance staff. Those properties that do not have their own maintenance staff and are located more than a reasonable distance from Hamilton's headquarters in Allston, Massachusetts are generally serviced by local, independent companies.

Hamilton's legal department handles most of the Partnership's eviction and collection matters. Additionally, it prepares most long-term commercial lease agreements and represents the Partnership in selected purchase and sale transactions. Overall, Hamilton provided approximately \$99,000 (79.0%) and approximately \$106,000 (74.6%) of the legal services paid for by the Partnership during the six months ended June 30, 2014 and 2013, respectively.

Additionally, as described in Note 3 to the consolidated financial statements, The Hamilton Company receives similar fees from the Investment Properties.

Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

The Partnership requires that three bids be obtained for construction contracts in excess of \$15,000. Hamilton may be one of the three bidders on a particular project and may be awarded the contract if its bid and its ability to successfully complete the project are deemed appropriate. For contracts that are not awarded to Hamilton, Hamilton charges the Partnership a construction supervision fee equal to 5% of the contract amount. Hamilton's architectural department also provides services to the Partnership on an as-needed basis. During the six months ended June 30, 2014, Hamilton provided the Partnership approximately \$43,000 in construction and architectural services, compared to approximately \$34,000 for the six months ended June 30, 2013.

Hamilton's accounting staff perform bookkeeping and accounting functions for the Partnership. During the six months ended June 30, 2014, Hamilton charged the Partnership \$62,500 for bookkeeping and accounting services. For more information on related party transactions, see Note 3 to the Consolidated Financial Statements.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of the consolidated financial statements, in accordance with accounting principles generally accepted in the United States of America, requires the Partnership to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. The Partnership regularly and continually evaluates its estimates, including those related to acquiring, developing and assessing

Table of Contents

the carrying values of its real estate properties and its investments in and advances to joint ventures. The Partnership bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. However, because future events and their effects cannot be determined with certainty, the determination of estimates requires the exercise of judgment. The Partnership's critical accounting policies are those which require assumptions to be made about such matters that are highly uncertain. Different estimates could have a material effect on the Partnership's financial results. Judgments and uncertainties affecting the application of these policies and estimates may result in materially different amounts being reported under different conditions and circumstances. See Note 1 to the Consolidated Financial Statements, Principles of Consolidation.

Revenue Recognition: Rental income from residential and commercial properties is recognized over the term of the related lease. For residential tenants, amounts 60 days in arrears are charged against income. The commercial tenants are evaluated on a case by case basis. Certain leases of the commercial properties provide for increasing stepped minimum rents, which are accounted for on a straight-line basis over the term of the lease. Concessions made on residential leases are also accounted for on the straight-line basis.

Discontinued Operations and Rental Property Held for Sale: When significant assets are identified by management as held for sale, the Partnership discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. If, in management's opinion, the net sales price of the assets which have been identified as held for sale is less than the net book value of the assets, a valuation allowance is established. Properties identified as held for sale and/or sold are presented in discontinued operations for all periods presented.

If circumstances arise that previously were considered unlikely and, as a result, the Partnership decides not to sell a property previously classified as held for sale, the property is reclassified as held and used. A property that is reclassified is measured and recorded individually at the lower of (a) its carrying amount before the property was classified as held for sale, adjusted for any depreciation (amortization) expense that would have been recognized had the property been continuously classified as held and used, or (b) the fair value at the date of the subsequent decision not to sell.

Rental Properties: Rental properties are stated at cost less accumulated depreciation. Maintenance and repairs are charged to expense as incurred; improvements and additions are capitalized. When assets are retired or otherwise disposed of, the cost of the asset and related accumulated depreciation is eliminated from the accounts, and any gain or loss on such disposition is included in income. Fully depreciated assets are removed from the accounts. Rental properties are depreciated by both straight-line and accelerated methods over their estimated useful lives. Upon acquisition of rental property, the Partnership estimates the fair value of acquired tangible assets, consisting of land, building and improvements, and identified intangible assets and liabilities assumed, generally consisting of the fair value of (i) above and below market leases, (ii) in-place leases and (iii) tenant relationships. The Partnership allocated the purchase price to the assets acquired and liabilities assumed based on their fair values. The Partnership records goodwill or a gain on bargain purchase (if any) if the net assets acquired/liabilities assumed exceed the purchase consideration of a transaction. In estimating the fair value of the tangible and intangible assets acquired, the Partnership considers information obtained about each property as a result of its due diligence and marketing and leasing activities, and utilizes various valuation methods, such as estimated cash flow projections utilizing appropriate discount and capitalization rates, estimates of replacement costs net of depreciation, and available market information. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant.

Intangible assets acquired include amounts for in-place lease values above and below market leases and tenant relationship values, which are based on management's evaluation of the specific characteristics of each tenant's lease and the Partnership's overall relationship with the respective tenant. Factors to be considered by management in its analysis of in-place lease values include an estimate of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases at market rates during the expected lease-up periods, depending on local market conditions. In estimating costs to execute similar leases, management considers leasing commissions, legal and other related expenses. Characteristics considered by management in valuing tenant relationships include the nature and

Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

extent of the Partnership's existing business relationships with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals. The value of in-place leases are amortized to expense over the remaining initial terms of the respective leases. The value of tenant relationship intangibles are amortized to expense over the anticipated life of the relationships.

In the event that facts and circumstances indicate that the carrying value of a rental property may be impaired, an analysis of the value is prepared. The estimated future undiscounted cash flows are compared to the asset's carrying value to determine if a write-down to fair value is required.

Impairment: On an annual basis management assesses whether there are any indicators that the value of the Partnership's rental properties may be impaired. A property's value is impaired only if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property is less than the carrying value of the property. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying

Table of Contents

amount of the property over the fair value of the property. The Partnership's estimates of aggregate future cash flows expected to be generated by each property are based on a number of assumptions that are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and costs to operate each property. As these factors are difficult to predict and are subject to future events that may alter management's assumptions, the future cash flows estimated by management in its impairment analyses may not be achieved. The Partnership has not recognized an impairment loss during the first six months of 2014.

Investments in Joint Ventures: The Partnership accounts for its investments in joint ventures using the equity method of accounting. These investments are recorded initially at cost, as Investments in Unconsolidated Joint Ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions. Generally, the Partnership would discontinue applying the equity method when the investment (and any advances) is reduced to zero and would not provide for additional losses unless the Partnership has guaranteed obligations of the venture or is otherwise committed to providing further financial support for the investee. If the venture subsequently generates income, the Partnership only recognizes its share of such income to the extent it exceeds its share of previously unrecognized losses. In 2013, the carrying value of an investment fell below zero. We intend to fund our share of the investments' future operating deficits should the need arise. However, we have no legal obligation to pay for any of the liabilities of such investments nor do we have any legal obligation to fund operating deficits. (See Note 14: Investment in Unconsolidated Joint Ventures.)

The authoritative guidance on consolidation provides guidance on the identification of entities for which control is achieved through means other than voting rights (variable interest entities or VIEs) and the determination of which business enterprise, if any, should consolidate the VIE (the primary beneficiary). Generally, the consideration of whether an entity is a VIE applies when either (1) the equity investors (if any) lack one or more of the essential characteristics of a controlling financial interest, (2) the equity investment at risk is insufficient to finance that entity's activities without additional subordinated financial support or (3) the equity investors have voting rights that are not proportionate to their economic interests and the activities of the entity involve or are conducted on behalf of an investor with a disproportionately small voting interest. The primary beneficiary is defined by the entity having both of the following characteristics: (1) the power to direct the activities that, when taken together, most significantly impact the variable interest entity's performance; and (2) the obligation to absorb losses and rights to receive the returns from VIE that would be significant to the VIE.

With respect to investments in and advances to the Investment Properties, the Partnership looks to the underlying properties to assess performance and the recoverability of carrying amounts for those investments in a manner similar to direct investments in real estate properties. An impairment charge is recorded if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property is less than the carrying value of the property.

Legal Proceedings: The Partnership is subject to various legal proceedings and claims that arise, from time to time, in the ordinary course of business. These matters are frequently covered by insurance. If it is determined that a loss is likely to occur, the estimated amount of the loss is recorded in the financial statements. Both the amount of the loss and the point at which its occurrence is considered likely can be difficult to determine.

Rental income from continuing operations for the three months ended June 30, 2014 was approximately \$10,440,000, compared to approximately 8,905,000 for the three months ended June 30, 2013, an increase of approximately \$1,535,000 (17.2%). The factors which can be attributed to this increase are as follows: the acquisition of the Hamilton Green Apartments in July 2013 resulted in an increase in rental income of approximately \$1,001,000 and rental rate increases of approximately 6.2% in 2014. The Partnership Properties with the most significant increases in rental income include, 62 Boylston Street, Hamilton Cypress, 1144 Commonwealth Avenue, Hamilton Oaks, Westgate Woburn, School Street and Westside Colonial with increases of approximately \$78,000, \$75,000, \$62,000, \$55,000, \$42,000, \$36,000 and \$34,000, respectively. Included in rental income is contingent rentals collected on commercial properties. Contingent rentals include such charges as bill

backs of common area maintenance charges, real estate taxes, and utility charges.

Operating expenses from continuing operations for the three months ended June 30, 2014 were approximately \$7,836,000 compared to approximately \$6,114,000 for the three months ended June 30, 2013, an increase of approximately \$1,722,000 (28.2%). The operating expenses associated with Hamilton Green are approximately \$1,747,000 for the three months ended June 30, 2014. Excluding Hamilton Green's operating expenses, there is a net decrease of approximately \$34,000 in operating expenses from continuing operations for the three months ended June 30, 2014. The factors contributing to this net decrease, which are unrelated to Hamilton Green, are a decrease in administrative expenses of approximately \$174,000, due primarily to a decrease in financial costs; a decrease in repairs and maintenance expenses of approximately \$65,000 due to less demand for repairs to the properties; an increase in operating expenses of approximately \$99,000 due to increases in utility costs; an increase in taxes and insurance of approximately \$35,000 due to increases in real estate taxes; and an increase in renting expenses of approximately \$62,000, due to an increase in rental commissions.

Table of Contents

Interest expense for the three months ended June 30, 2014 was approximately \$2,381,000 compared to approximately \$1,763,000 for the three months ended June 30, 2013, an increase of approximately \$618,000 (35.1%). Approximately \$449,000 of this increase represents the interest on the mortgage on Hamilton Green. In addition, the Partnership refinanced four properties in 2013 which resulted in a higher average level of debt in the first six months of 2014 compared to 2013.

At June 30, 2014, the Partnership has between a 40% and 50% ownership interests in nine different Investment Properties. See a description of these properties included in the section titled Investment Properties as well as Note 14 to the Consolidated Financial Statements for a detail of the financial information of each Investment Property.

As described in Note 14 to the Consolidated Financial Statements, the Partnership's share of the net loss from the Investment Properties was approximately \$62,000 for the three months ended June 30, 2014, compared to approximately \$336,000 for the three months ended June 30, 2013, a decrease in the loss of approximately \$274,000 (81.5%). This decrease is primarily due to a gain of approximately \$248,000 on the sale of four units at Hamilton Bay LLC. Included in the loss for the three months ended June 30, 2014 is depreciation and amortization expense of approximately \$883,000. The allocable loss for the three months ended June 30, 2014 associated with the October 2009 investment in Dexter Park is approximately \$132,000 of which approximately \$539,000 is depreciation and amortization.

As a result of the changes discussed above, net income for the three months ended June 30, 2014 was approximately \$282,000 compared to income of approximately \$4,469,000 for the three months ended June 30, 2013, a decrease in income of approximately \$4,187,000 (93.7%). The decrease in net income is primarily due to the gain on the sale of Nashoba Apartments in 2013 and the loss of approximately \$1.2 million from Hamilton Green.

Six Months Ended June 30, 2014 Compared to Six Months Ended June 30, 2013

The Partnership and its subsidiary Partnerships earned income before other income and discontinued operations of approximately \$5,289,000 for the six months ended June 30, 2014, compared to approximately \$5,928,000 for the six months ended June 30, 2013, a decrease of approximately \$639,000 (10.8%). The following is a summary of the Partnership's operations for the six months ended June 30, 2014 and 2013:

Rental income from continuing operations for the six months ended June 30, 2014 was approximately \$20,954,000 compared to approximately \$17,829,000 for the six months ended June 30, 2013, an increase of approximately \$3,125,000 (17.5%). Rental income from Hamilton Green acquired in July 2013 represents approximately \$2,044,000 of this increase. Rental income has increased at a number of other properties due to increased demand and increases in rental rates. The following properties experienced rental income increases: 62 Boylston Street, Hamilton Oaks, 1144 Commonwealth Avenue, Hamilton Cypress, Westgate Apartments, 9 School Street, and Westside Colonial, with increases of approximately \$185,000, \$127,000, \$123,000, \$87,000, \$83,000, \$82,000 and \$52,000 respectively.

Expenses from continuing operations for the six months ended June 30, 2014 were approximately \$15,889,000 compared to approximately \$12,094,000 for the six months ended June 30, 2013, an increase of approximately \$3,795,000 (31.4%). The operating expenses associated with Hamilton Green were approximately \$3,499,000 for the six months ended June 30, 2014. Excluding Hamilton Green's operating expenses, there is a net increase in operating expenses of approximately \$296,000 from continuing operations for the six months ended June 30, 2014. The factors contributing to this increase which are unrelated to Hamilton Green are an increase in operating expenses of approximately \$243,000, primarily due to an increase in utility costs; an increase in taxes and insurance of approximately \$134,000 due to an increase in both real estate taxes and insurance, partially offset by a decrease in administrative costs of approximately \$124,000, primarily due to a decrease in financial costs.

Interest expense for the six months ended June 30, 2014 was approximately \$4,767,000 compared to approximately \$3,604,000 for the six months ended June 30, 2013, an increase of approximately \$1,163,000 (32.3%). Approximately \$899,000 of this increase represents the interest on the mortgage on Hamilton Green. In addition, the Partnership refinanced four properties in 2013 which resulted in a higher average level of

Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

debt in the first six months of 2014 compared to 2013.

At June 30, 2014, the Partnership has between a 40 - 50% ownership interest in nine Investment Properties. See a description of these properties included in Note 14 to the Consolidated Financial Statements for a detail of the financial information of each Investment Property.

Table of Contents

As described in Note 14 to the Consolidated Financial Statements, the Partnership's share of loss from these Investment Properties was approximately \$271,000 for the six months ended June 30, 2014 compared to a loss of approximately \$653,000 for the six months ended June 30, 2013, a decrease of approximately \$382,000. The decrease is primarily due to a gain of approximately \$301,000 on the sale of five rental units at the property of Hamilton Bay, LLC. Included in the loss for the six months ended June 30, 2014 is depreciation and amortization of approximately \$1,763,000 compared to approximately \$1,848,000 in 2013. The allocable loss for the six months ended June 30, 2014 associated with the October 2009 investment in Dexter Park is approximately \$293,000 of which approximately \$1,078,000 is depreciation and amortization.

In May 2013, the Partnership sold the Nashoba Apartments in Acton, Massachusetts. The sale price was \$4,300,000. The net proceeds of approximately \$2,100,000 were transferred to Investment Property Exchange Services, Inc. a Qualified Intermediary. These funds were held by the intermediary in order to maintain the Partnership's ability to structure a tax free exchange in accordance with the Internal Revenue Service's rules under Sec. 1031. The gain on the sale is approximately \$3,679,000 and is included in income from discontinued operations.

As a result of the changes discussed above, net income for the six months ended June 30, 2014 was approximately \$252,000 compared to net income of \$5,371,000 a decrease of approximately \$5,119,000 (95.3%). The decrease in net income is primarily due to the gain on the sale of Nashoba Apartments in 2013, and the loss of approximately \$2.4 million from Hamilton Green.

LIQUIDITY AND CAPITAL RESOURCES

The Partnership's principal source of cash during the first six months of 2014 was the collection of rents. The Partnership's principal source of cash in 2013 was the collection of rents, proceeds on the sale and refinancing of real estate. The majority of cash and cash equivalents of \$12,613,346 at June 30, 2014 and \$14,013,380 at December 31, 2013 were held in interest bearing accounts at creditworthy financial institutions.

The decrease in cash of \$1,400,034 at June 30, 2014 is summarized as follows:

	Six Months Ended June 30,	
	2014	2013
Cash provided by operating activities	\$ 5,357,638	\$ 5,128,887
Cash (used in) investing activities	(792,788)	(1,942,773)
Cash (used in) financing activities	(3,088,023)	(4,526,252)
Repurchase of Depositary Receipts, Class B and General Partner Units	(941,477)	(399,487)
Distributions paid	(1,935,384)	(1,950,596)
Net (decrease) in cash and cash equivalents	\$ (1,400,034)	\$ (3,690,221)

The increase in cash provided by operating activities is primarily due to an increase in rent collections and a decrease in cash operating expenses. The decrease in cash used in investing activities is due to a decrease in the improvements to rental properties in 2014 compared to the same period in 2013. The change in cash used in financing activities is due to the refinancing of the mortgages which required more cash contributions in 2013 compared to 2014.

Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

During the six months ended June 30, 2014, the Partnership purchased 15,931 Depositary Receipts for an average price of \$46.26 for a total cost of \$757,246; 126 Class B Units for a cost of \$175,019 and 7 General Partnership Units for a cost of \$9,212 for a total cost of \$941,477.

During 2014, the Partnership and its Subsidiary Partnerships completed improvements to certain of the Properties at a total cost of approximately \$1,643,000. These improvements were funded from cash reserves. These sources have been adequate to fully fund improvements. The most significant improvements were made at Redwood Hills, 1137 Commonwealth, Hamilton Green, Westgate Woburn, and Westside Colonial, at a cost of approximately \$220,000, \$177,000, \$162,000, \$156,000, and \$141,000 respectively. The Partnership plans to invest approximately \$1,667,000 in additional capital improvements in 2014.

Table of Contents

On June 11, 2014, the Partnership refinanced the property owned by NERA Dean Street Associates, LLC. The new mortgage is \$5,687,000; the interest rate is 4.22%, interest only, payable in 10 years. Approximately \$5,077,000 of the loan proceeds were used to pay off the existing mortgage. The mortgage matures in June 2024. The costs associated with the refinancing were approximately \$99,000. Approximately \$610,000 in cash was received from this refinancing.

In February 2014, the Partnership paid off the mortgages on Linewt in the amount of approximately \$1,466,000 and Linhart in the amount of approximately \$1,926,000.

On July 15, 2013, the Partnership, purchased Windsor Green at Andover, a 193 unit apartment complex located in Andover, Massachusetts. The purchase price was \$62,500,000. To fund this purchase, the Partnership obtained short term financing of approximately \$40,000,000, used the funds of approximately \$2,100,000 from the sale of the Nashoba Apartments, and the balance from the Partnership's cash reserves. The original mortgage matured in November 2013. On December 20, 2013, the Partnership refinanced the mortgage on Hamilton Green. The new mortgage is \$38,500,000, interest is fixed at 4.67% for 15 years, interest only for 2 years and the mortgage is amortized over 30 years. This refinancing required additional capital of approximately \$1,846,000 from the Partnership.

During the six months ended June 30, 2014 and 2013 the Partnership received distributions of approximately \$968,000 and \$2,206,000 from the investment properties respectively. Included in these distributions is the amount from Dexter Park of \$530,000 and \$600,000 for the six months ended June 30, 2014 and 2013 respectively. The Partnership received distributions of approximately \$1,463,000 from 345 Franklin Street LLC in the first six months of 2013, primarily due to the refinancing of the property.

In 2014, the Partnership approved distributions of \$7.50 per unit (\$0.25 per receipt) payable on March 31, 2014, June 30, 2014, and September 30, 2014.

The Partnership anticipates that cash from operations and interest bearing accounts will be sufficient to fund its current operations, pay distributions, make required debt payments and to finance current improvements to its properties. The Partnership may also sell or refinance properties. The Partnership's net income and cash flow may fluctuate dramatically from year to year as a result of the sale or refinancing of properties, increases or decreases in rental income or expenses, or the loss of significant tenants.

Off-Balance Sheet Arrangements Joint Venture Indebtedness

As of June 30, 2014, the Partnership had a 40%-50% ownership interest in nine Joint Ventures, all of which have mortgage indebtedness. We do not have control of these partnerships and therefore we account for them using the equity method of consolidation. At June 30, 2014, our proportionate share of the non-recourse debt related to these investments was approximately \$59,826,000. See Note 14 to the Consolidated Financial Statements.

Contractual Obligations

See Notes 5 and 14 to the Consolidated Financial Statements for a description of mortgage notes payable. The Partnerships has no other material contractual obligations to be disclosed.

Factors That May Affect Future Results

Along with risks detailed in Item 1A and from time to time in the Partnership's filings with the Securities and Exchange Commission, some factors that could cause the Partnership's actual results, performance or achievements to differ materially from those expressed or implied by forward looking statements include but are not limited to the following:

- The Partnership depends on the real estate markets where its properties are located, primarily in Eastern Massachusetts, and these markets may be adversely affected by local economic market conditions, which are beyond the Partnership's control.
- The Partnership is subject to the general economic risks affecting the real estate industry, such as dependence on tenants' financial condition, the need to enter into new leases or renew leases on terms favorable to tenants in order to generate rental revenues and our ability to collect rents from our tenants.
- The Partnership is also impacted by changing economic conditions making alternative housing arrangements more or less attractive to the Partnership's tenants, such as the interest rates on single family home mortgages

Table of Contents

and the availability and purchase price of single family homes in the Greater Boston metropolitan area.

- The Partnership is subject to significant expenditures associated with each investment, such as debt service payments, real estate taxes, insurance and maintenance costs, which are generally not reduced when circumstances cause a reduction in revenues from a property.
- The Partnership is subject to increases in heating and utility costs that may arise as a result of economic and market conditions and fluctuations in seasonal weather conditions.
- Civil disturbances, earthquakes and other natural disasters may result in uninsured or underinsured losses.
- Actual or threatened terrorist attacks may adversely affect our ability to generate revenues and the value of our properties.
- Financing or refinancing of Partnership properties may not be available to the extent necessary or desirable, or may not be available on favorable terms.
- The Partnership properties face competition from similar properties in the same market. This competition may affect the Partnership's ability to attract and retain tenants and may reduce the rents that can be charged.
- Given the nature of the real estate business, the Partnership is subject to potential environmental liabilities. These include environmental contamination in the soil at the Partnership's or neighboring real estate, whether caused by the Partnership, previous owners of the subject property or neighbors of the subject property, and the presence of hazardous materials in the Partnership's buildings, such as asbestos, lead, mold and radon gas. Management is not aware of any material environmental liabilities at this time.
- Insurance coverage for and relating to commercial properties is increasingly costly and difficult to obtain. In addition, insurance carriers have excluded certain specific items from standard insurance policies, which have resulted in increased risk exposure for the Partnership. These include insurance coverage for acts of terrorism and war, and coverage for mold and other environmental conditions. Coverage for these items is either unavailable or prohibitively expensive.
- Market interest rates could adversely affect market prices for Class A Partnership Units and Depositary Receipts as well as performance and cash flow.

Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

- Changes in income tax laws and regulations may affect the income taxable to owners of the Partnership. These changes may affect the after-tax value of future distributions.
- The Partnership may fail to identify, acquire, construct or develop additional properties; may develop or acquire properties that do not produce a desired or expected yield on invested capital; may be unable to sell poorly- performing or otherwise undesirable properties quickly; or may fail to effectively integrate acquisitions of properties or portfolios of properties.
- Risk associated with the use of debt to fund acquisitions and developments.
- Competition for acquisitions may result in increased prices for properties.
- Any weakness identified in the Partnership's internal controls as part of the evaluation being undertaken could have an adverse effect on the Partnership's business.
- Ongoing compliance with Sarbanes-Oxley Act of 2002 may require additional personnel or systems changes.

The foregoing factors should not be construed as exhaustive or as an admission regarding the adequacy of disclosures made by the Partnership prior to the date hereof or the effectiveness of said Act. The Partnership expressly disclaims any obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the exposure to loss resulting from changes in interest rates and equity prices. In pursuing its business plan, the primary market risk to which the Partnership is exposed is interest rate risk. Changes in the general level of interest rates prevailing in the financial markets may affect the spread between the Partnership's yield on invested assets and cost of funds and, in turn, its ability to make distributions or payments to its investors.

As of June 30, 2014, the Partnership, its Subsidiary Partnerships and the Investment Properties collectively have approximately \$332,661,000 in long-term debt, substantially all of which require payment of interest at fixed rates. Accordingly, the fair value of these debt instruments is affected by changes in market interest rates. This long term debt matures through 2028. For information regarding the fair value and maturity dates of these debt obligations, See Note 5 to the Consolidated Financial Statements Mortgage Notes Payable, Note 12 to the Consolidated Financial Statements Fair Value Measurements and Note 14 to the Consolidated Financial Statements Investment in Unconsolidated Joint Ventures.

For additional disclosure about market risk, see Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Factors That May Affect Future Results .

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures. The Partnership's management, with the participation of the Partnership's principal executive officer and principal financial officer, has evaluated the effectiveness of the Partnership's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, the Partnership's principal executive officer and principal financial officer have concluded that, as of the end of such period, the Partnership's disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Partnership in the reports that it files or submits under the Exchange Act.

Changes in Internal Control over Financial Reporting. There were no changes in our internal control over financial reporting during the second quarter of 2014 that materially affected or are reasonably likely to materially affect our internal control over financial reporting.
