CONCORD CAMERA CORP. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

March 29, 2003
(Unaudited)

Note 1 - Basis of Presentation:

General

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month period ended March 29, 2003 ("Third Quarter Fiscal 2003") are not necessarily indicative of the results that may be expected for the fiscal year ending June 28, 2003 ("Fiscal 2003"). The balance sheet at June 29, 2002 has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. Concord Camera Corp. and subsidiaries (the "Company") manage their business on the basis of one reportable segment. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended June 29, 2002 ("Fiscal 2002").

Foreign Currency Transactions

The Company operates on a worldwide basis and its results may be adversely or positively affected by fluctuations of various foreign currencies against the U.S. Dollar, specifically, the Canadian Dollar, European Euro, British Pound Sterling, People's Republic of China Renminbi, Hong Kong Dollar and Japanese Yen. Each of the Company's foreign subsidiaries purchases the majority of its finished goods inventories in U.S. Dollars and the majority of the Company's net sales are in U.S. Dollars. Accordingly, the U.S. Dollar is the functional currency. Certain net sales to customers and purchases of certain components and services are transacted in local currency, including Japanese Yen, thereby creating an exposure to fluctuations in foreign currency exchange rates. The remeasurement from the applicable currencies to U.S. Dollars is performed for balance sheet accounts using current exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. Gains or losses resulting from foreign currency transactions and remeasurement are included in "Other (income), net" in the accompanying condensed consolidated statements of operations.

Hedging Activities

As of March 29, 2003, the Company was not engaged in any hedging activities and there were no forward exchange contracts outstanding.

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

Short-term Investments

At March 29, 2003, the Company's "Short-term investments", as classified in the accompanying condensed consolidated balance sheets, consisted of fixed income funds that invest in debt securities and are considered available-for-sale securities. Investments in marketable securities not classified as held-to-maturity or trading are classified as available-for-sale. Available-for-sale securities are carried at fair value, with the unrealized gains and losses, net of tax, reported as a component of other comprehensive income (loss). Realized gains and losses, interest and dividends are included in investment income (loss) which is included in "Other (income), net" in the accompanying condensed consolidated statements of operations. As of March 29, 2003, the gross cost, unrealized holding loss, and fair value of the investments were \$50.0 million, \$0.1 million, and \$49.9 million, respectively. Dividend income of \$0.2 million was included in "Other (income), net" for the quarter and nine months ended March 29, 2003.

6

Comprehensive Income (Loss)

Comprehensive income (loss) which is included as a component of accumulated other comprehensive income (loss) reported in the accompanying condensed consolidated balance sheets, consists of unrealized gains and losses on marketable securities, which are classified as available-for-sale investments. Such gains and losses are excluded from net income (loss). As of March 29, 2003, amounts classified as "Accumulated other comprehensive loss" in the accompanying condensed consolidated balance sheets consisted solely of gross unrealized losses on available-for-sale securities of \$102,000, less taxes of \$36,000, for a net loss of \$66,000. See Note 1 - Short-term Investments.

Income Taxes

The Company estimates its effective tax rate base upon the projected consolidated annual effective income tax rate. This rate is largely a function of the amounts of income and loss attributed to both domestic and foreign operations, the application of their respective statutory tax rates and the anticipated utilization of available net operating loss carryforwards used to reduce taxable income. During the quarter and nine months ended March 29, 2003, a significant portion of the Company's income has been generated in Hong Kong, where the statutory tax rate is 8%.

Historically, the Company has recorded a full valuation allowance on deferred tax assets related to net operating loss carryforwards in certain European jurisdictions. This valuation allowance was based upon management's assessment as to their realizability. Based upon these European operations' ability to generate taxable income during Fiscal 2003, management anticipates utilizing a portion of these net operating loss carryforwards. As these European operations generate taxable income, the Company effectively reduces a portion of the valuation allowance based upon management's assessment of the ultimate realizability of the deferred tax assets.

Reclassifications

Certain amounts in the prior year have been reclassified to conform to the current year presentation. See Note 2 - Recently Issued Accounting Pronouncements, below.

Note 2 - Recently Issued Accounting Pronouncements:

In January 2003, the Financial Accounting Standards Board ("FASB") issued Interpretation No. 46, "Consolidation of Variable Interest Entities." FASB Interpretation No. 46 requires consolidation of a variable interest entity if a company's variable interest absorbs a majority of the entity's losses or receives a majority of the entity's expected residual returns, or both. Because the Company does not have any variable interest entities, no additional disclosures are required and FASB Interpretation No. 46 will not have a material impact on the Company's condensed consolidated financial statements.

On December 31, 2002, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure" which amends SFAS No. 123, "Accounting for Stock-Based Compensation" to provide for alternative methods of transition for an entity that changes to the fair value method of accounting for employee stock-based compensation. In addition, SFAS No. 148 amends the disclosure provisions of SFAS No. 123 to require expanded disclosure including significant interim period disclosures of the effects of an entity's accounting policy with respect to stock-based employee compensation. SFAS No. 148 which became effective in the Third Quarter Fiscal 2003 is not expected to have a material impact on its consolidated financial statements, as the Company has not adopted the fair value method for employee stock-based compensation. See Note 6 - Stock Option Plans.

In November 2002, the FASB issued Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" which requires guarantors to make significant new disclosures and requires certain guarantees to be recorded at fair value. FASB Interpretation No. 45 disclosure requirements are effective for periods ending after December 15, 2002 and for guarantees issued or modified after December 31, 2002. Because the Company has no material guarantees, no additional disclosures are required and FASB Interpretation No. 45 is not expected to have a material impact on the Company's consolidated financial statements.

7

In April 2002, the FASB issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Correction. SFAS No. 145 rescinds SFAS No. 4, "Reporting Gains and Losses from Extinguishment of Debt" and other existing authoritative pronouncements to make various technical corrections, clarify meanings, or describe their applicability under changed conditions. Per SFAS No.145, a gain or loss from the extinguishment of debt should not be classified as extraordinary if it does not meet the criteria for classification as an extraordinary item under APB Opinion No. 30, "Reporting the Results of Operations-Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." SFAS No. 145 is effective for financial statements issued after May 15, 2002. Accordingly, the Company has recorded a loss of \$0.3 million associated with the write-off of deferred finance costs on the repurchase of its Senior Notes under the caption "Interest expense" in the accompanying condensed consolidated statement of operations for the nine months ended March 29, 2003. See Note 4 - Senior Notes.

Note 3 - Inventories:

Inventories consist of the following:
(amounts in thousands)

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

	March 29, 2003 -----	June 29, 2002 -----
Raw materials, components, and work-in-process	\$17,265	\$16,197
Finished goods	17,090 -----	6,288 -----
Total inventories	\$34,355 =====	\$22,485 =====

Note 4 - Senior Notes:

On August 15, 2002, the Company repurchased its \$15 million, 11% Senior Notes. The Company paid slightly below par to repurchase and cancel the Senior Notes. At the time of repurchase, the Company incurred \$0.3 million of expenses associated with the write-off of deferred finance costs related to the Senior Notes, which was included in interest expense in the accompanying condensed consolidated statements of operations for the nine months ended March 29, 2003.

Note 5 - Exchange Offer:

On August 28, 2001, the Company initiated an offer to exchange outstanding stock options with an exercise price of more than \$7.00 per share for new options to purchase 75% of the shares subject to the outstanding options at an exercise price of \$5.97 per share (the closing price of the Common Stock as reported on the Nasdaq National Market on the date the Board of Directors approved the exchange offer.) The exchange offer expired on October 16, 2001. Options to purchase 1,375,876 shares of Common Stock were tendered in the exchange offer and accepted by the Company for cancellation and new options to purchase 1,031,908 shares of no par value common stock ("Common Stock") were issued in exchange therefor. As a result of the exchange offer, the Company is required to apply variable accounting to these stock options until they are exercised, cancelled or expired. For the third quarter and nine months ended March 29, 2003, the Company did not record any variable stock-based compensation expense in the accompanying condensed consolidated statements of operations because the Company's ending Common Stock price on March 29, 2003 was below the exercise price of the repriced stock options. For the quarter and nine months ended March 30, 2002, the Company incurred \$1.2 million and \$2.8 million, respectively, of variable stock-based compensation expense.

8

Note 6 - Stock Option Plans:

For purposes of pro forma disclosures under SFAS No. 123 as amended by SFAS No. 148, the estimated fair value of the equity awards is amortized to expense over the options' vesting period. The following table illustrates the effect on net income (loss) and earning (loss) per share if the fair value based method had been applied to all outstanding and unvested awards in each period (in thousands, except per share amounts):

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

	For the quarter ended		For the
	March 29, 2003	March 30, 2002	March 29 2003
Net income (loss), as reported	\$ 1,257	\$ (3,348)	\$ 4,73
Add: variable stock-based compensation expenses, net of related tax effects, included in the determination of net income (loss) as reported	--	987	--
Deduct: total stock-based compensation expense determined under fair value based method for all awards, net of related tax effects	(586)	(462)	(1,36)
Pro forma net income (loss)	\$ 671	\$ (2,823)	\$ 3,37
Earnings (loss) per share:

Basic - pro forma	\$ 0.02	\$ (0.10)	\$ 0.1
Diluted - as reported	\$ 0.04	\$ (0.12)	\$ 0.1
Diluted - pro forma	\$ 0.02	\$ (0.10)	\$ 0.1

Note 7 - Other Items:

During the fourth quarter of Fiscal 2001, the Company announced a restructuring and cost containment initiative ("Restructuring Initiative"), which consisted of facilities consolidation, the closure of the Company's single use camera short run labeling facility in the United States, and the termination of approximately 71 employees primarily employed in manufacturing, engineering, sales and marketing and administration functions. The Restructuring Initiative was fully implemented by the end of Fiscal 2002. During the quarter and nine months ended March 30, 2002, the Company implemented elements of its Restructuring Initiative and incurred approximately \$0.2 million and \$0.8 million, respectively, in payments related to personnel redundancy costs and facilities consolidation.

During the third quarter of Fiscal 2003, the Company favorably resolved a disputed claim with a design and manufacturing services ("DMS") customer. Over the course of a 30 month DMS supply agreement, which expired in January 2002, the Company recorded certain accrued assets and liabilities. The favorable resolution resulted in a reversal of these accrued assets and liabilities with a corresponding reduction of cost of products sold of \$2.2 million recorded in the accompanying condensed consolidated statements of operations for the quarter and nine months ended March 29, 2003.

During the third quarter of Fiscal 2002, the Company recognized a provision for inventory of approximately \$2.3 million principally related to the rationalization of sub-one megapixel digital inventory comprised of components and finished goods. The Company recorded the provision for inventory in cost of products sold in the accompanying condensed consolidated statements of operations for the quarter and nine months ended March 30, 2002.

During the first quarter of Fiscal 2002, the Company recognized a provision related to accounts receivable of \$1.6 million, and a provision related to inventory of \$1.8 million. Both of these provisions related to Polaroid Corporation ("Polaroid"), which filed for protection under Chapter 11 of the U.S. Bankruptcy Code on October 12, 2001, and were included in general and administrative expenses and cost of products sold, respectively, in the accompanying condensed consolidated statements of operations for the nine months ended March 30, 2002. As a result of inventory sales to Polaroid, in the third quarter of Fiscal 2002, the Company recorded approximately \$0.8 million of income by reducing part of the \$1.8 million provision. In the first quarter of Fiscal 2003, in settlement of Concord's outstanding claims related to the Polaroid bankruptcy, we recorded as a reduction of general and administrative expenses a \$0.5 million payment.

During the second quarter of Fiscal 2002, the Company recorded a \$1.0 million accounts receivable provision related to Kmart Corporation which filed for protection under Chapter 11 of the U.S. Bankruptcy Code on January 22, 2002. In the third quarter of Fiscal 2002, the Company recorded a recovery of approximately \$0.3 million associated with the sale to a third party of the Kmart accounts receivable. The initial provision for doubtful accounts recorded in the second quarter of Fiscal 2002 and subsequent recovery in the third quarter of Fiscal 2002 were included in general and administrative expenses in the accompanying statements of operations.

Note 8 - (Recovery) of Operating Expenses, Net:

In April 2002, the Company uncovered a fraudulent scheme including check forgery by a former employee, which resulted in the embezzlement of approximately \$1.3 million over an eighteen-month period ending in April 2002, the preponderance of which occurred in Fiscal 2002. The Company's investigation confirmed that the former employee acted alone and the misappropriated funds have been identified. The Company expects to recover the full amount of the embezzlement from a combination of insurance proceeds and assets secured and to be recovered from the individual. Accordingly, the Company has recorded accrued receivables, net of cash recoveries, of approximately \$1.0 million and \$1.2 million in prepaid and other current assets in the accompanying condensed consolidated balance sheets as of March 29, 2003 and June 29, 2002, respectively. In addition, the Company recorded under the caption "(Recovery) of operating expenses, net" in the accompanying condensed consolidated statement of operations for Fiscal 2002, approximately \$1.2 million related to the recovery, which is net of approximately \$0.1 million of expenses related to the investigation and recovery efforts. The entire amount of the recovery was recorded in the third quarter of Fiscal 2002 due to the fact that it was impractical to determine the impact on Fiscal 2002 quarterly periods. The embezzled amounts relating to the prior fiscal year were not significant.

Note 9 - Litigation:

In July 2002, a class action complaint was filed against the Company and certain of its officers in the United States District Court for the Southern District of Florida by individuals purporting to be shareholders of the Company. The Company filed a motion to dismiss the lawsuit on August 30, 2002. The complaint was dismissed by the Court in December 2002 in response to the motion to dismiss

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

filed by the Company. In January 2003, an amended class action complaint was filed adding certain of the Company's current and former directors as defendants. The lead plaintiffs in the amended complaint seek to act as representatives of a class consisting of all persons who purchased the Company's Common Stock (i) issued pursuant to the Company's September 26, 2000 secondary offering (the "Secondary Offering") or (ii) during the period from September 26, 2000 through June 22, 2001, inclusive (the "Class Period"). The amended complaint asserts, among other things, that the Company made untrue statements of material fact and omitted to state material facts necessary to make statements made not misleading in the Registration Statement and Prospectus issued in connection with the Secondary Offering, in periodic reports it filed with the Securities and Exchange Commission and in press releases it made to the public regarding its operations and financial results. The allegations are centered around claims that the Company failed to disclose that the transaction with then customer, KB Gear Interactive, Inc. ("KB Gear"), was a highly risky transaction, claims that throughout the Class Period the Company failed to disclose that a large portion of its accounts receivable was represented by a delinquent and uncollectible balance due from then customer, KB Gear, and claims that such failures artificially inflated the price of the Common Stock. The amended complaint seeks unspecified damages, interest, attorneys' fees, costs of suit and unspecified other and further relief from the court. The Company intends to vigorously defend the lawsuit and filed a motion to dismiss the amended complaint on April 18, 2003. The lawsuit is in the earliest stage and discovery has not yet commenced. Although the Company believes this lawsuit is without merit, its outcome cannot be predicted, and if adversely determined, the ultimate liability of the Company, which could be material, cannot be ascertained. On September 17, 2002, the Company was advised by the staff of the Securities and Exchange Commission that it is conducting an informal inquiry related to the matters described above. On October 15, 2002, the staff of Nasdaq requested certain information and materials related to the matters described above and as to matters related to the previously reported embezzlement of Company funds by a former employee, uncovered in April 2002.

10

In April 2002, a patent infringement complaint was filed by the Massachusetts Institute of Technology and Electronics for Imaging, Inc. against 214 defendants, including the Company, in the United States District Court for the Eastern District of Texas. The complaint asserts that the defendants have offered for sale and sold products that infringe United States Patent No. 4,500,919, entitled Color Reproduction System, which patent expired on May 4, 2002. The complaint seeks unspecified damages, interest, attorneys' fees, costs of suit and unspecified other and further relief from the court. Although the Company believes this lawsuit is without merit, its outcome cannot be predicted, and if adversely determined, the ultimate liability of the Company, which could be material, cannot be ascertained.

In December 2002, a patent infringement complaint was filed by Alfred B. Levine against the Company in the United States District Court for the District of Maryland. The complaint asserts that the Company has manufactured, marketed and sold products that infringe United States Patent No. 4,588,282, entitled Multiplexed Photocopier System With Portable Scanner, and United States Patent No. 4,751,583, entitled Off Line Photocopying System Using Portable Electronic Camera, Visual Previewing and Image Processing. The complaint seeks unspecified damages, attorneys' fees, costs of suit and unspecified other and further relief from the court. Although the Company believes this lawsuit is without merit, its outcome cannot be predicted, and if adversely determined, the ultimate liability of the Company, which could be material, cannot be ascertained.

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

The Company is involved from time to time in routine legal matters incidental to its business. In the opinion of our management, the resolution of such matters will not have a material adverse effect on its financial position or results of operations.

Note 10 - Commitments and Contingencies:

On August 26, 2002, the Company announced it entered into two trademark licensing agreements with the entity that purchased the assets of Polaroid in an asset purchase transaction approved by the U.S. Bankruptcy Court supervising the Polaroid reorganization. The two license agreements provide for the exclusive, worldwide use by the Company of the Polaroid brand trademark in connection with the manufacture, distribution, promotion and sale of single use cameras and traditional film based cameras, including zoom cameras, and certain related accessories. The licenses do not include instant or digital cameras. Each license includes an initial term of three and a half years and may be renewed under the same economic terms at the Company's option, for an additional three-year period. Each license agreement includes provisions for the payment of \$3.0 million of minimum royalties, or \$6.0 million in total, which will be fully credited against percentage royalties. In August 2002, the Company paid a total of \$4.0 million, which represented \$2.0 million for each license agreement, as partial payment of the minimum royalties. Additionally, the Company recorded the remaining \$2.0 million minimum royalty liability as a non-cash transaction.

In May 2003, the Company received notification from a third party alleging that certain of the Company's digital products, as well as those of other companies, infringe upon their patents. The letter requests the Company to engage in discussions regarding the alleged infringement and a licensing arrangement. Discussions have not yet commenced and consequently it is premature to ascertain the legitimacy or materiality of the alleged infringement.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the fiscal year ended June 29, 2002 ("Fiscal 2002") consolidated financial statements, and the related notes thereto, of Concord Camera Corp. and subsidiaries ("Concord" or the "Company"). Except for historical information contained herein, the matters discussed below are forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements involve risks and uncertainties, including but not limited to economic, governmental, political, competitive and technological factors affecting Concord's operations, markets, products, prices and other factors discussed elsewhere in this report and other reports filed by the Company with the Securities and Exchange Commission ("SEC"). These factors may cause results to differ materially from the statements made in this report or otherwise made by or on behalf of Concord.

Critical Accounting Policies

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Our application of accounting policies affects these estimates and assumptions. Actual results could differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect our more significant estimates and assumptions used in the preparation of our condensed consolidated financial statements and accompanying notes:

Provision for Doubtful Accounts

The provision for doubtful accounts is based on our assessment of the collectibility of specific customer accounts and the aging of accounts receivable. If there is a deterioration of a major customer's credit worthiness or actual defaults are higher than our historical experience, our estimates of the recoverability of amounts owed to us could be adversely affected.

Inventory

Inventory purchases and commitments are based upon future demand forecasts. If there is a sudden and significant decrease in demand for our products, or there is a higher rate of inventory obsolescence because of rapidly changing technology and customer requirements, we may be required to increase our inventory provisions. This would result in lower of cost or market inventory valuation adjustments and our gross profit could be adversely affected.

Deferred Taxes

The deferred tax valuation allowance is based on our assessment of the realizability of our deferred tax assets on an ongoing basis and may be adjusted from time to time as necessary. In determining the valuation allowance, we have considered future taxable income and the feasibility of tax planning initiatives. Should we determine that it is more likely than not that we will realize certain of our deferred tax assets in the future, an adjustment would be required to reduce the existing valuation allowance and increase income. On the contrary, if we determine that we would not be able to realize our recorded deferred tax asset, an adjustment to increase the valuation allowance would be charged to the results of operations in the period such conclusion was made. Such charge could have an adverse effect on our provision for income taxes included in our results of operations.

Sales Returns

A provision for sales returns is established based on historical product returns data and trends. If future returns are higher than we estimated, our net sales and gross profits could be adversely affected.

Variable Stock-Based Compensation Accounting for Repriced Stock Options

As a result of an exchange offer that was consummated in October 2001, we are now required to apply variable stock-based compensation accounting for these new options issued in the exchange until they are exercised, cancelled or expired. Because the determination of variable stock-based compensation expense associated with these stock options is significantly dependent upon our closing stock price at the end of each prospective reporting period, it is not possible to determine its future impact, either favorable or unfavorable, on our

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

consolidated financial statements. See Note 5 - Exchange Offer in the accompanying Notes to Condensed Consolidated Financial Statements.

Recently Issued Accounting Pronouncements

For a discussion of recently issued accounting pronouncements, see Note 2 - Recently Issued Accounting Pronouncements in the accompanying Notes to Condensed Consolidated Financial Statements.

Risk of Severe Acute Respiratory Syndrome (SARS)

Since the Company has significant operations in Hong Kong and China, we have taken several preventive measures to help ensure the safety of our employees from contracting or spreading SARS. At this time, we are not aware of any employee having SARS. We believe we have taken all reasonably prudent actions to protect our employees and our Company, but there can be no assurance our business will not be materially adversely affected if the SARS outbreak becomes more widespread.

Results of Operations

Quarter Ended March 29, 2003 Compared to the Quarter Ended March 30, 2002

Net Sales

Net sales for the third quarter of Fiscal 2003 were \$36.2 million, an increase of \$9.8 million, or 37.2%, as compared to net sales for the third quarter of Fiscal 2002. Our net sales for the third quarter set a Company record by exceeding net sales in any prior third quarter, which is historically the Company's weakest quarter. The increase in sales was in large part due to new single use and traditional cameras sold in both our retail sales and distribution ("RSD") and design and manufacturing services ("DMS") businesses. Additionally, our net sales of digital cameras for the third quarter of Fiscal 2003 were \$6.3 million compared to \$3.6 million for the same period last year, an increase of \$2.7 million or 75.5%. RSD sales were \$23.1 million for the third quarter this year, an increase of \$5.4 million, or 30.8%, as compared to the third quarter last year, and accounted for 63.9% of total net sales. The growth in RSD net sales was mostly due to new digital product sales, sales of Polaroid branded single use and traditional cameras, new customers and organic growth from existing customers due to sell through and new product introductions. DMS net sales were \$13.1 million in our third quarter of Fiscal 2003, an increase of \$4.4 million, or 50.2%, as compared to the same period last year, and accounted for 36.1% of total net sales. The increase in DMS net sales was primarily due to a new single use camera being manufactured for Eastman Kodak Company ("Kodak") under a new supply agreement entered into in September 2002.

Net sales of the Company's operations in the People's Republic of China (the "PRC") and Hong Kong (collectively, "Asia") for the third quarter of Fiscal 2003, were \$12.6 million, an increase of \$3.8 million, or 43.9%, as compared to the third quarter of Fiscal 2002. The increase was attributed entirely to our DMS business.

RSD net sales of the Company's operations in the United States, Latin America and Canada (the "Americas"), for the third quarter of Fiscal 2003, were \$16.4 million, an increase of \$3.7 million, or 28.8%, as compared to the same quarter last year. The increase in RSD net sales was due to new digital product sales

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

and sales of Polaroid branded single use and traditional cameras to new and existing customers as a result of increased market penetration, and organic growth from existing customers due to sell through and new product introductions.

13

RSD net sales of the Company's operations in the United Kingdom, Germany and France ("Europe") for this year's fiscal third quarter were \$7.2 million, an increase of \$2.3 million, or 47.1%, as compared to the third quarter of Fiscal 2002. This increase was primarily attributable to offering new digital products to new and existing customers.

Gross Profit

Gross profit for the third quarter of Fiscal 2003 was \$8.4 million, or 23.2% of net sales, versus \$1.8 million, or 6.8% of net sales in the same quarter last year. During the third quarter of Fiscal 2003, gross profit was positively impacted by a favorable resolution of a previously disclosed disputed claim with a DMS customer. Over the course of a thirty month DMS supply agreement which expired in January 2002, the Company recorded certain accrued assets and liabilities related to product costs. The favorable resolution resulted in a reduction to cost of products sold of \$2.2 million, or 6.2% of net sales. In last year's fiscal third quarter, we incurred a net inventory provision of \$1.5 million, or 5.7% of net sales. Gross profit, in both dollars and as a percentage of net sales, improved over last year's fiscal third quarter due to significantly higher sales and efficiency gains in our manufacturing processes at our vertically integrated world class manufacturing facility located in the PRC. We continue to invest in new product engineering, design, and development, primarily focusing on digital technologies and products. Product engineering, design and development costs for the third quarter of Fiscal 2003 and Fiscal 2002, in dollars and as a percentage of net sales, were \$2.2 million (6.0%) and \$1.8 million (6.8%), respectively.

Operating Expenses

Selling expenses for the third quarter of Fiscal 2003 were \$1.9 million, or 5.2% of net sales. This compares to \$1.4 million, or 5.4% of net sales for the third quarter last year. The increase in absolute dollars was primarily due to additional sales and marketing personnel, higher variable costs including freight and handling costs, and royalties related to the Polaroid licenses, all of which are attributable to the Company's sales growth.

General and administrative ("G&A") expenses for the third quarter of Fiscal 2003 were \$5.4 million, or 14.8% of net sales. This compared to \$4.1 million, or 15.4% of net sales, for the third quarter last year. The increase in G&A expenses was primarily due to additional staffing, non-reimbursed legal expenses associated with defending the Company's class action litigation, certain intellectual property related legal costs, insurance costs and some increased costs associated with the Company's growth. Last year's G&A expenses included \$0.3 million relating to a bad debt recovery for Kmart Corporation.

There was no recovery of operating expenses, net in the Fiscal 2003 third quarter as compared to last year which included \$(1.2) million. See Note 8 - (Recovery) of Operating Expenses, Net in the accompanying Notes to Condensed Consolidated Financial Statements.

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

There were no variable stock-based compensation expenses in the Fiscal 2003 third quarter as compared to the same quarter last year which included \$1.2 million. See Note 5 - Exchange Offer in the accompanying Notes to Condensed Consolidated Financial Statements.

Interest expense for the third quarter of Fiscal 2003 was \$0.2 million compared to \$0.6 million in the same quarter last year. The decrease of \$0.4 million was attributable to the repurchase of the Senior Notes in August 2002 and the related reduction of interest expense.

Other (Income), Net

Other (income), net was \$(0.5) million and \$(0.3) million for the third quarter of Fiscal 2003 and Fiscal 2002, respectively. The increase of \$0.2 million related primarily to foreign exchange gains.

Income Taxes

The Company's provision for income taxes was \$0.1 million for the third quarter of Fiscal 2003 compared to a benefit of \$0.6 million for the third quarter of Fiscal 2002. The Company estimates its effective income tax rate based upon the projected consolidated annual effective income tax rate. In general, the Company's annual effective income tax rate is largely a function of the amounts of income and loss attributed to both domestic and foreign operations, the application of their respective statutory tax rates, and the utilization of available net operating loss carryforwards to reduce taxable income. See Note 1- Basis of Presentation in the accompanying Notes to Condensed Consolidated Financial Statements.

Net Income (Loss)

As a result of the matters described above, the Company had net income of \$1.3 million, or \$0.04 per diluted share, for the third quarter of Fiscal 2003 as compared to a net loss of \$(3.3) million, or \$(0.12) per share, for the third quarter of Fiscal 2002.

Nine Months Ended March 29, 2003 Compared to the Nine Months Ended March 30, 2002

Net Sales

Net sales for the nine months ended March 29, 2003 ("Fiscal 2003 YTD") were \$128.3 million, an increase of \$29.7 million, or 30.1%, as compared to net sales for the nine months ended March 30, 2002 ("Fiscal 2002 YTD"). RSD sales for Fiscal 2003 YTD were \$97.8 million, an increase of \$28.7 million, or 41.7%, as compared to Fiscal 2002 YTD, and accounted for 76.3% of total net sales. This growth was in large part due to new digital product sales, sales of Polaroid branded single use and traditional cameras, new accounts and organic growth from existing accounts due to sell through and new product introductions. During the first three quarters of Fiscal 2003, we offered for sale thirteen Concord branded digital product models ranging from simple VGA to four megapixel products. Accordingly, our sales of digital products for the first three

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

quarters of Fiscal 2003 have increased \$40.1 million over the same period in Fiscal 2002, from \$8.5 million to \$48.6 million in Fiscal 2003. Digital product sales represented the primary contributing factor to our 30% net sales increase over the same period in Fiscal 2002. DMS sales were \$30.5 million, an increase of \$1.0 million, or 3.1%, as compared to Fiscal 2002 YTD, and accounted for 23.7% of total sales. The increase was due in part to digital product sales to a Fuji Photo Film Co., Ltd. subsidiary, Legend Group Limited in the PRC, and Visioneer, Inc.; sales of a new single use camera being manufactured for Kodak under a new supply agreement entered into September 2002; and other sales to existing customers, partially offset by the previously disclosed expiration of certain DMS contracts.

Net sales of the Company's operations in Asia for Fiscal 2003 YTD were \$32.4 million, an increase of \$2.2 million, or 7.4%, as compared to Fiscal 2002 YTD. DMS sales comprised \$30.5 million of the \$32.4 million sales in Asia. The remaining \$1.9 million were comprised of RSD sales that were primarily attributable to digital product sales to new customers.

RSD net sales of the Company's operations in the Americas for Fiscal 2003 YTD were \$68.2 million, an increase of \$18.6 million, or 37.5%, as compared to the same period last year. The increase in RSD net sales was due in large part to new digital product sales, sales of Polaroid branded single use and traditional cameras, new accounts and organic growth from existing accounts due to sell through and new product introductions.

RSD net sales of the Company's operations in Europe for Fiscal 2003 YTD were \$27.7 million, an increase of \$8.9 million, or 47.0% as compared to Fiscal 2002 YTD. This increase was primarily attributable to the introduction of new digital products to new and existing RSD customers.

Gross Profit

Gross profit for Fiscal 2003 YTD was \$25.6 million, or 19.9% of net sales, versus \$14.9 million, or 15.1% of net sales in Fiscal 2002 YTD. This year included the \$2.2 million, or 1.7% of net sales, benefit of the favorable dispute resolution in the third quarter partially offset by \$0.8 million, or 0.6% of net sales, of additional air-freight costs in the second quarter due to the West Coast dock workers' labor dispute, while last year included \$3.3 million, or 3.3% of net sales, of net inventory provisions. Fiscal 2003 YTD gross profit, both in absolute dollars and as a percentage of net sales improved over last year due to significantly higher sales and efficiency gains in manufacturing. Product engineering, design and development costs for Fiscal 2003 YTD and Fiscal 2002 YTD, in dollars and as a percentage of net sales, were \$6.1 million (4.8%) and \$5.8 million (5.9%), respectively.

Our product mix, which historically consisted almost entirely of traditional and single use cameras, has changed significantly during the first nine months of Fiscal 2003 wherein digital products contributed almost 40% of total net sales. Digital products, as compared to traditional and single use cameras, sell at significantly higher unit prices but typically generate lower gross profit margins. However, digital products generate greater gross profit dollars per unit than traditional and single use cameras. Consequently, as digital products increase as a percentage of our sales mix, we expect to experience a lower overall gross profit margin percentage and higher revenue and gross profit dollars per unit sold.

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

In addition, as we manufacture more digital products, we increase the risk of gross profit fluctuations due to digital component availability and increased costs. Since component availability can fluctuate and is subject to possible procurement delays and other constraints, it could negatively impact net profits, net sales and gross margins. Digital camera products are also subject to relatively more rapid technological changes, price erosion and obsolescence than traditional camera products. Because of highly competitive markets and rapid technological changes, the market prices of some of our digital camera products may decline relatively rapidly and some of our digital products may become obsolete. We record inventory provisions which value our inventories at the lower of cost or market value based on prevailing market prices.

Operating Expenses

Selling expenses for Fiscal 2003 YTD were \$5.9 million, or 4.6% of net sales. For the same period last year, selling expenses were \$4.6 million, or 4.7% of net sales. The increase was primarily due to additional sales and marketing personnel, higher freight and handling costs, and royalties related to the Polaroid brand licenses, all of which are attributable to the Company's year over year sales growth.

General and administrative expenses for Fiscal 2003 YTD were \$14.9 million, or 11.6% of net sales. This compared to \$16.3 million, or 16.5% of net sales last year. Fiscal 2002 YTD G&A expenses included a \$1.6 million accounts receivable provision due to the Polaroid bankruptcy, a \$1.1 million charitable contribution for victims of the September 11, 2001 terrorist attack, and a net \$0.7 million provision due to the Kmart bankruptcy. Fiscal 2003 YTD G&A expenses included a \$0.5 million reduction in expense due to a payment from Polaroid in settlement of Concord's outstanding Polaroid claims related to the Polaroid bankruptcy filing. The remaining elements of G&A expenses increased year over year by approximately \$2.5 million primarily due to additional staffing, professional and insurance costs, and other costs associated with the Company's growth.

There was no recovery of operating expenses, net in Fiscal 2003 YTD as compared to last year which included \$(1.2) million. See Note 8 - (Recovery) of Operating Expenses, Net in the accompanying Notes to Condensed Consolidated Financial Statements.

There were no variable stock-based compensation expenses in Fiscal 2003 YTD as compared to last year which included \$2.8 million. See Note 5 - Exchange Offer in the accompanying Notes to Condensed Consolidated Financial Statements.

Interest expense for Fiscal 2003 YTD was \$1.0 million, versus \$1.9 million last year, a decrease of \$0.9 million. The decrease in interest expense was due to the Senior Notes repurchase described herein.

Other (Income), Net

Other (income), net was \$(1.4) million and \$(2.7) million for Fiscal 2003 YTD and Fiscal 2002 YTD, respectively, resulting in a decrease of \$1.3 million. Last year included a \$1.2 million arbitration award and also included higher investment income. This was partially offset by higher foreign currency gains this year.

Income Taxes

The Company's provision for income taxes was \$0.4 million for Fiscal 2003 YTD compared to a benefit of \$0.6 million for Fiscal 2002 YTD. The Company estimates its effective income tax rate based upon the projected consolidated annual

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

effective income tax rate. In general, the Company's effective income tax rate is largely a function of the amounts of income and loss attributed to both domestic and foreign operations, the application of their respective statutory tax rates, and the utilization of available net operating loss carryforwards to reduce taxable income. See Note 1 - Basis of Presentation in the accompanying Notes to Condensed Consolidated Financial Statements.

16

Net Income (Loss)

As a result of the matters described above, the Company had net income of \$4.7 million, or \$0.16 per diluted share, for Fiscal 2003 YTD as compared to a net loss of \$(6.2) million, or \$(0.23) per share, for Fiscal 2002 YTD.

Liquidity and Capital Resources

On January 22, 2002, the SEC issued an interpretive release on disclosures related to liquidity and capital resources. This release requires us to disclose factors that are likely to affect our liquidity trends. We are not aware of factors that are reasonably likely to adversely affect liquidity trends, other than those factors summarized under the caption "Risk Factors" in the Company's Annual Report on Form 10-K for Fiscal 2002. We do not have, nor do we engage in, transactions with any special purpose entities or variable interest entities. We are not engaged in hedging activities and had no forward exchange contracts outstanding at March 29, 2003. In the ordinary course of business, we enter into operating lease commitments, purchase commitments and other contractual obligations. These transactions are recognized in our financial statements in accordance with generally accepted accounting principles in the United States, and are more fully discussed below.

We believe that our cash and cash equivalents, anticipated cash flow from operations, and amounts available under our credit facilities provide sufficient liquidity and capital resources for our anticipated short-term working capital and capital expenditure requirements as well as our anticipated long-term working capital and capital expenditure requirements for the foreseeable future.

Working Capital - At March 29, 2003, we had working capital of \$115.4 million compared to \$128.4 million at June 29, 2002, a decrease of \$13.0 million. The decrease was primarily attributed to the change in cash and cash equivalents and short-term investments, which together, decreased by \$20.2 million from \$103.9 million at June 29, 2002 to \$83.7 million at March 29, 2003, partially offset by favorable changes to certain other working capital accounts. The decrease of \$20.2 million was primarily attributable to (i) the August 2002 repurchase of our \$15.0 million Senior Notes at slightly below par, without penalty, (ii) pre-paying \$4.0 million in conjunction with the Polaroid license agreements, and (iii) purchases of property, plant and equipment of \$3.9 million. Accounts receivable, net decreased by \$10.0 million during the third quarter and decreased \$3.6 million during Fiscal 2003 YTD. Working capital was impacted by inventory increasing \$11.9 million from \$22.5 million at June 29, 2002 to \$34.4 million at March 29, 2003.

Cash Used in Operations - Cash used in operations during Fiscal 2003 YTD was \$1.8 million, which compared unfavorably to cash provided by operations of \$0.8 million for the comparable period during Fiscal 2002 YTD. The change in cash used in operating activities for Fiscal 2003 YTD was primarily attributable to an increase in inventories in anticipation of sales in the fourth quarter of

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

Fiscal 2003.

Cash Used in Investing Activities - Purchases of property, plant and equipment for Fiscal 2003 YTD and Fiscal 2002 YTD were \$3.9 million and \$1.4 million, respectively. The increase was primarily a result of higher expenditures on plant and equipment purchases for our manufacturing facility in the PRC. We anticipate capital expenditures will increase substantially over Fiscal 2002 due to increased investments in plant and equipment at our manufacturing facility in the PRC in anticipation of increased net sales in Fiscal 2003. The decrease in cash provided from investing activities during Fiscal 2003 YTD resulted from the Company purchasing short-term investments during that period, whereas in Fiscal 2002, the Company received cash proceeds when certain short-term investments made in Fiscal 2001 matured in Fiscal 2002 YTD.

Cash Used in Financing Activities - Cash used in financing activities for Fiscal 2003 YTD was \$14.4 million. This resulted from the repurchase of the Senior Notes partially offset by proceeds received from the exercise of stock options and warrants. Cash used by financing activities for Fiscal 2002 YTD was \$0.2 million, which was primarily attributable to the repayment of certain capital leases partially offset by proceeds from the exercise of stock options.

17

Operating Leases - We entered into operating leases in the ordinary course of business (e.g., warehouse facilities, office space and equipment) where the economic profile was favorable. The effects of outstanding leases are not material to us in terms of either annual cash flow or total future minimum payments.

Purchase Commitments - As part of the ordinary course of our business, we enter into and have purchase commitments for materials, supplies, services, and property, plant and equipment. In the aggregate, such commitments are not at prices in excess of current market and typically do not exceed one year.

Other Contractual Obligations - We do not have any material financial guarantees or other contractual commitments that are reasonably likely to adversely affect liquidity. See Hong Kong Financing Facilities for information about our financial guarantees.

Hong Kong Financing Facilities - Our Hong Kong subsidiary, Concord Camera HK Limited, ("Concord HK"), has various financing and revolving credit facilities in place providing an aggregate of \$23.5 million in borrowing capacity. Certain of the revolving credit facilities are denominated in Hong Kong Dollars. Since 1983 the Hong Kong Dollar has been pegged to the United States Dollar. The revolving credit facilities are comprised of 1) an approximate \$11.0 million Import Facility, 2) an approximate \$2.6 million Packing Credit and Export Facility, 3) an approximate \$1.9 million Foreign Exchange Facility and 4) an \$8.0 million Accounts Receivable Financing Facility (collectively the "Hong Kong Financing Facilities"). The \$8.0 million Accounts Receivable Financing Facility is secured by certain accounts receivable of Concord HK. Concord Camera Corp. guarantees the Hong Kong Financing Facilities. Availability under the Accounts Receivable Financing Facility is subject to advance formulas based on Eligible Accounts Receivable and all the credit facilities are subject to certain financial ratios and covenants. The revolving credit facilities bear interest at variable rates. At March 29, 2003, there were no amounts outstanding under the Hong Kong Financing Facilities.

United Kingdom Credit Facility - In November 1999, our United Kingdom ("UK") subsidiary obtained a credit facility from a UK financial institution (the "UK

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

Facility") that is secured by substantially all of our UK subsidiary's assets. The UK Facility bears interest at 1.5% above the UK prime lending rate and allows borrowings of up to approximately \$1.1 million. At March 29, 2003, there were no amounts outstanding under the UK Facility.

Senior Notes - See Note 4 - Senior Notes, in the accompanying Notes to Condensed Consolidated Financial Statements.

License Agreement - See Note 10 - Commitments and Contingencies, in the accompanying Notes to Condensed Consolidated Financial Statements.

Alleged Patent Infringement - See Note 10 - Commitments and Contingencies, in the accompanying Notes to Condensed Consolidated Financial Statements.

Outlook

For the fourth quarter of Fiscal 2003, we anticipate net sales in the approximate range of \$50 to \$55 million and net income in the approximate range of \$0.9 to \$1.8 million, or \$0.03 to \$0.06 per share, before non-cash variable stock option expense.

Growth Opportunities

We are evaluating various growth opportunities that could require significant funding commitments. We have from time to time held, and will continue to hold, discussions and negotiations with (i) companies that represent potential acquisition or investment opportunities, (ii) potential strategic and financial investors who have expressed an interest in making an investment in or acquiring us, (iii) potential joint venture partners looking toward formation of strategic alliances that would broaden our product base or enable us to enter new lines of business and (iv) potential new and existing DMS customers where the design, development and production of new products, including certain new technologies, would enable us to expand our existing business, and enter new markets including new ventures focusing on new technologies. However, there can be no assurance that any definitive agreement will be reached regarding any of the foregoing, nor does management believe that such agreements are necessary for the successful implementation of our strategic plans.

Forward-Looking Statements

The statements contained in this report that are not historical facts are "forward-looking statements" (as such term is defined in the Private Securities Litigation Reform Act of 1995), which can be identified by the use of forward-looking terminology such as: "estimates," "projects," "anticipates," "expects," "intends," "believes," "plans," or the negative thereof or other variations thereon or comparable terminology, or by discussions of strategy that involve risks and uncertainties. The Company's actual results could differ materially from those anticipated in such forward-looking statements as a result of certain factors. For a discussion of some of the factors that could cause actual results to differ, see the discussion under "Risk Factors" contained in the Company's most recent Annual Report filed with the SEC on Form 10-K for

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

Fiscal 2002 and subsequently filed reports. Management wishes to caution the reader that these forward-looking statements, such as statements regarding the development of the Company's business, the Company's anticipated revenues or capital expenditures, projected profits and other statements contained in this report regarding matters that are not historical facts, are only estimates or predictions. No assurance can be given that future results will be achieved. Actual events or results may differ materially as a result of risks facing the Company or actual results differing from the assumptions underlying such statements. In particular, anticipated revenues could be adversely affected by production difficulties or economic conditions negatively affecting the market for the Company's products. Obtaining the results expected from the introduction of the Company's new products will require timely completion of development, successful ramp-up of full-scale production on a timely basis and customer and consumer acceptance of those products. In addition, the Company's DMS agreements require an ability to meet high quality and performance standards, successful implementation of production at greatly increased volumes and an ability to sustain production at greatly increased volumes, as to all of which there can be no assurance. There also can be no assurance that products under development will be successfully developed or that once developed such products will be commercially successful. Any forward-looking statements contained in this report represent the Company's estimates only as of the date of this report, or as of such earlier dates as are indicated herein, and should not be relied upon as representing its estimates as of any subsequent date. While the Company may elect to update forward-looking statements at some point in the future, it specifically disclaims any obligation to do so, even if its estimates change.

19

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a result of our global operating and financial activities, we are exposed to changes in interest rates and foreign currency exchange rates that may adversely affect our results of operations and financial position. In seeking to minimize the risks and/or costs associated with such activities, we manage exposures to changes in interest rates and foreign currency exchange rates through our regular operating and financing activities.

At March 29, 2003, our exposure to changes in interest rates was minimal, since we had no long-term or short-term debt outstanding. However, we do borrow from time to time under our credit facilities. These borrowings are of a short-term nature typically subject to variable interest rates based on a prime rate or LIBOR plus or minus a margin. Since we have no debt outstanding, we do not deem interest rate risk to be significant or material to our financial position or results of operations. We do not presently use derivative instruments to adjust our interest rate risk profile. We do not utilize financial instruments for trading or speculative purposes, nor do we utilize leveraged financial instruments.

Each of our foreign subsidiaries purchases the majority of their finished goods inventories in U.S. Dollars and certain of their sales are in foreign currency, thereby creating an exposure to fluctuations in foreign currency exchange rates. We purchase certain components, raw materials and services needed to manufacture our products in foreign currencies including Japanese Yen. The impact of foreign exchange transactions is reflected in our statements of operations. As of March 29, 2003, we were not engaged in any hedging activities and we had no forward exchange contracts outstanding. See Note 1 - Basis of Presentation, in the accompanying Notes to Condensed Consolidated Financial Statements.

Item 4. CONTROLS AND PROCEDURES

CEO and CFO Certifications. Immediately following the "Signatures" section of this quarterly report are the certifications of the CEO and the CFO required by Rules 13a-14 and 15d-14 the Securities Exchange Act of 1934 (the "Certifications"). This section of the quarterly report contains the information concerning the evaluation of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 (c) and 15d-14 (c)) ("Disclosure Controls") and changes to Internal Controls referred to in the Certifications and this information should be read in conjunction with the Certifications for a more complete understanding of the topics presented.

Disclosure Controls and Internal Controls. Disclosure Controls are controls and other procedures that are designed for the purpose of ensuring that information required to be disclosed in the Company's reports filed under the Securities Exchange Act of 1934 (such as this quarterly report), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Internal Controls are designed for the purpose of providing reasonable assurance that the Company's transactions are properly authorized, recorded and reported and that the Company's assets are safeguarded from improper use to permit the preparation of the Company's financial statements in conformity with generally accepted accounting principles.

Limitations on the Effectiveness of Controls. The Company's management, including the CEO and CFO, does not expect that the Company's Disclosure Controls or Internal Controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. Further, the design of any control system is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Because of these inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Changes to Internal Controls. In accordance with the SEC's requirements, the CEO and the CFO note that, since the date of their last evaluation, there have been no significant changes in Internal Controls or in other factors that could significantly affect Internal Controls, including any corrective actions with regard to significant deficiencies and material weaknesses.

20

Conclusions regarding Disclosure Controls. Within the 90 days prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of management, including the CEO and CFO, of the effectiveness of the design and operation of the Company's Disclosure Controls. Based upon that evaluation, the CEO and CFO have concluded that, subject to the limitations noted above, the Company's Disclosure Controls are effective to ensure that material information relating to the Company and its consolidated subsidiaries is made known to management, including the CEO and CFO, particularly during the period when the Company's periodic reports are being prepared.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

See Note 9 -- Litigation, in the accompanying Notes to Condensed Consolidated Financial Statements.

Item 4. Submission of Matters to a Vote of Security Holders

The Company's Annual Meeting of Shareholders was held on January 21, 2003. The following is a summary of the matters voted on at that meeting.

The shareholders elected each of the Company's nominees to the Board of Directors. The persons elected to the Board of Directors, and the number of votes cast for and withheld for each nominee for director, were as follows:

Director	For	Withheld
Ira B. Lampert	21,144,541	4,767,194
Ronald S. Cooper	24,281,604	1,630,131
Morris H. Gindi	24,887,275	1,024,460
J. David Hakman	24,267,901	1,643,834
William J. Lloyd	24,956,076	955,659
William J. O'Neill, Jr	24,284,006	1,627,729

The shareholders ratified the appointment of Ernst & Young LLP as the Company's independent auditors for Fiscal 2003 by the following vote: 25,709,096 votes "For", 188,996 votes "Against"; and 13,643 abstentions.

Item 6. Exhibits and Reports on Form 8-K

CERTIFICATION

I, Ira B. Lampert, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Concord Camera Corp. (the "registrant");

2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;

3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;

4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:

a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;

b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and

c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on

Edgar Filing: CONCORD CAMERA CORP - Form 10-Q

our evaluation as of the Evaluation Date;

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):

a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and

b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
