NEWS RELEASE

Enbridge Completes Environmental Screening Report for Ontario Wind Power Project

TORONTO, Ontario, April 19, 2006 Enbridge Ontario Wind Power L.P. today gave notice that the Environmental Screening has been completed for its 200 megawatt wind power project planned for the eastern shore of Lake Huron in Bruce County, Ontario.

The approximately \$400 million project is to consist of 121 wind turbine generators, each capable of producing 1,650 kilowatts, dispersed over a 35,000 acre area. The project, which would produce enough renewable energy to supply approximately 70,000 Ontario homes, would be built in a single stage, with construction starting in mid-2006 and an in-service date of early 2007. Enbridge has executed a 20-year electricity purchase agreement with the Ontario Power Authority for all of the power generated.

The Environmental Screening was prepared further to Ontario Ministry of the Environment environmental assessment requirements for electricity projects. The screening report, which evaluates the potential for environmental effects relating to the proposed wind energy generation facility, can be reviewed at:

Kincardine Municipal Office, 1475 Concession 5, R. R. #5, Kincardine

Town of Saugeen Shores Municipal Office, 600 Tomlinson Drive, Port Elgin

Bruce County Office, 30 Park Street, Walkerton

Kincardine Branch of the Bruce County Public Library, 727 Queen Street, Kincardine

Tiverton Branch of the Bruce County Public Library, 56 King Street, Tiverton

Port Elgin Library, 708 Goderich Street, Port Elgin

Written requests to the Ministry of the Environment to elevate the project to either an Environmental Review or an individual Environmental Assessment will be accepted until May 19, 2006.

This project is another example of Enbridge's ongoing commitment to renewable energy generation as an important part of our sustainable development strategy, said project manager Lisa Lawler. We're certainly looking forward to expanding our wind power generation business to Ontario, where we already operate major energy infrastructure, and helping address the need for new power sources in the Province.

Enbridge Inc., a Canadian company, is a leader in energy transportation and distribution in North America and internationally.
