HUGHES TELEMATICS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1) Description of Business

HUGHES Telematics, Inc. (together with our consolidated subsidiaries, we, us and our) is a telematics services company that provides a suite of real-time voice and data communications services and applications. These services and applications are enabled through a state-of-the-art communications center designed with flexibility to connect various mobile devices with content, services and call centers. Within the automotive industry, our communications center allows for two way voice and data communications to vehicles and supports, among other things, critical safety and security services as well as location-based services and remote diagnostics. Since November 16, 2009, we have been the exclusive telematics service provider in the United States for new vehicles sold by Mercedes-Benz USA, LLC (Mercedes-Benz), as well as the preferred provider of telematics services for Mercedes-Benz vehicles purchased prior to November 16, 2008. These services are marketed under the mbrace brand. In addition, our in-Drive product offers services to consumers or other third parties through a hardware component that we have developed and which we intend to distribute through relationships with companies and organizations with large customer or membership bases for installation in existing vehicles. Additionally, through Networkfleet, Inc. (Networkfleet), our wholly-owned subsidiary, we currently offer remote vehicle monitoring and other data services through after-market hardware that is purchased separately and installed in fleets of vehicles.

(2) Merger with Polaris Acquisition Corp.

On March 31, 2009, pursuant to the terms of the Agreement and Plan of Merger dated June 13, 2008 (as amended and restated on November 10, 2008 and March 12, 2009, the Merger Agreement), Hughes Telematics, Inc. (Old HTI), a privately held company, and Polaris Acquisition Corp. (Polaris), a publicly held blank check company, consummated the merger (the Merger) whereby Old HTI merged with and into a wholly owned direct subsidiary of Polaris with Old HTI as the surviving corporation, and immediately thereafter, Old HTI merged with and into Polaris, with Polaris as the surviving corporation. In connection with the Merger, Polaris changed its name from Polaris Acquisition Corp. to HUGHES Telematics, Inc. Upon closing of the Merger, the outstanding equity securities of Old HTI were exchanged for an aggregate of 77,102,149 shares of our common stock, comprised of 19,854,018 initial shares and 57,248,131 earn-out shares. In addition, all options exercisable for Old HTI common stock issued and outstanding immediately prior to the Merger were exchanged for options exercisable for an aggregate of 2,274,935 shares of our common stock, which includes 1,751,859 earn-out options. The earn-out shares, which were issued into escrow, will be released to the Old HTI stockholders and the earn-out options will be eligible to be exercised, according to their terms, by the optionholders, each in three tranches, upon the trading share price of our common stock reaching at least \$20.00, \$24.50 and \$30.50 (as may be adjusted or amended in accordance with the escrow agreement) within certain measurement periods over the five-year period following the closing of the Merger. The Old HTI stockholders placed 5,782,661 shares of our common stock, comprised of 1,489,053 initial shares and 4,293,608 earn-out shares, in escrow until June 30, 2010 to indemnify us for the payment of indemnification claims that may be made as a result of breaches of Old HTI s covenants, representations and warranties in the Merger Agreement. Pursuant to the Merger Agreement, the Polaris founders agreed to deposit an aggregate of 1,250,000 shares of our common stock into escrow at closing with such shares being released upon the achievement of the first share price target between the first and fifth anniversary of closing. Upon consummation of the Merger, the Polaris founders also transferred an aggregate of 168,000 shares of common stock to us with such shares to be cancelled.

In order to consummate the Merger, we agreed to purchase an aggregate of 7,439,978 shares of our common stock from a limited number of institutional shareholders in separate and privately negotiated transactions which were executed prior to the conclusion of the special meeting in which Polaris shareholders voted on the Merger. On April 2, 2009, we consummated these purchases using approximately \$74.4 million of the approximately \$97.2 million of cash received from Polaris in connection with the Merger.

Notwithstanding the legal form of the transaction, the Merger has been accounted for under the purchase method of accounting as a reverse acquisition, equivalent to a recapitalization, through the issuance of stock by Old HTI for the net monetary assets of Polaris. The determination of Old HTI as the accounting acquirer was made based on consideration of all quantitative and qualitative factors of the Merger, including significant consideration given to the fact that following consummation of the Merger (i) the stockholders of Old HTI controlled a majority of our voting power, (ii) the controlling stockholder of Old HTI prior to the Merger, together with its affiliates, controlled approximately 70% of our voting power after the merger and had the right to select a majority of the members of our board of directors and (iii) the management of Old HTI continued in all executive officer and other senior management positions and, accordingly, had day-to-day authority to carry out the business plan after the Merger. Accordingly, our historical financial statements prior to March 31, 2009 are the historical financial statements of

Edgar Filing: HUGHES Telematics, Inc. - Form 10-Q

Old HTI. The consolidated financial statements of Old HTI have been retroactively restated to reflect the recapitalization of Old HTI with the 77,102,149 shares of common stock issued to Old HTI equity holders in connection with the Merger.

Table of Contents**(3) Basis of Presentation**

We have prepared the accompanying condensed consolidated financial statements in accordance with United States generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X and include our accounts and the accounts of our wholly-owned subsidiary Networkfleet. Accordingly, the accompanying condensed consolidated financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments, consisting only of those of a normal recurring nature, necessary for a fair presentation of our financial position, results of operations and cash flows at the dates and for the periods indicated. While we believe that the disclosures presented are adequate to make the information not misleading, these condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2009 and the related notes thereto which have been included in our annual report on Form 10-K filed with the Securities and Exchange Commission (the SEC) on March 16, 2010. The results of the three months ended March 31, 2010 are not necessarily indicative of the results to be expected for the full year. All intercompany balances and transactions have been eliminated. Certain prior period amounts have been reclassified to conform to current presentation.

During the three months ended March 31, 2010 and the years ended December 31, 2009, 2008 and 2007, we incurred a net loss of approximately \$22.7 million, \$163.7 million, \$57.5 million and \$32.3 million, respectively, and used cash in operations of approximately \$10.0 million, \$47.2 million, \$39.1 million and \$23.6 million, respectively. As of March 31, 2010, we had unrestricted cash, cash equivalents and short-term investments of approximately \$16.0 million and an accumulated deficit of \$380.3 million. As a result of our historical net losses and our limited capital resources, our independent registered public accounting firm's report on our financial statements as of and for the year ended December 31, 2009 includes an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. We cannot assure you that our net losses and negative cash flow will not surpass our expectations, and thus, we may be required to raise additional capital in the future or to reduce our operating expenditures. This additional financing may take the form of loans under a new credit facility, the issuance of bonds or other types of debt securities, the issuance of equity securities or a combination of the foregoing. Any such financing must either comply with the covenants of our existing credit facilities, or we will need to obtain waivers from the lenders. Our credit facilities contain covenants that restrict our ability to incur debt and will require mandatory prepayments from the proceeds of an equity financing. Any debt financing obtained may impose various restrictions and additional covenants on us which could limit our ability to respond to market conditions, provide for unanticipated capital investments or take advantage of business opportunities and may subject us to significant interest expense. Additional equity financing may be obtained on terms that are dilutive to the interests of existing stockholders. We have been successful in the past raising capital to address our liquidity needs; however, debt or additional equity financing may not be available when needed in the future on terms favorable to us or at all, and the failure to attract a sufficient amount of additional debt or equity capital may impair our ability to execute on our business plan. Such additional capital may be provided by, among other things, the cash proceeds from the exercise of the outstanding warrants to purchase shares of our common stock. There is no assurance that we will be successful in obtaining additional financing, if needed, or that we will be able to reduce our operating expenditures. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

(4) Recent Accounting Pronouncements*Recently Adopted Pronouncements*

In June 2009, the Financial Accounting Standards Board (FASB) issued new accounting guidance which amends the evaluation criteria to identify the primary beneficiary of a variable interest entity (VIE), and requires ongoing reassessment of whether an enterprise is the primary beneficiary of the VIE. The new guidance significantly changes the consolidation rules for VIEs including the consolidation of common structures, such as joint ventures, equity method investments and collaboration arrangements. The guidance is applicable to all new and existing VIEs and became effective for us on January 1, 2010. The adoption did not have a material effect on our financial position, results of operations or cash flows.

Recently Issued Pronouncements

In September 2009, the Emerging Issues Task Force (EITF) issued revised guidance governing revenue arrangements with multiple deliverables, which provides a greater ability to separate and allocate arrangement consideration in a multiple element revenue arrangement. The revised guidance requires the use of an estimated selling price to allocate arrangement consideration, and eliminates the residual method of allocation. This guidance will be effective for us on January 1, 2011 and is not expected have a material effect on our financial position, results of operations or cash flows.

In September 2009, the EITF issued revised guidance governing certain revenue arrangements that include software elements, which amends the scope of existing guidance to exclude tangible products that include software and non-software components that function together to deliver the

Edgar Filing: HUGHES Telematics, Inc. - Form 10-Q

product's essential functionality. This guidance will be effective for us on January 1, 2011 and is not expected have a material effect on our financial position, results of operations or cash flows.

Table of Contents**(5) Fair Value**

The accounting guidance for fair value measurements defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants and requires that certain assets and liabilities be measured at fair value at the balance sheet date using a defined fair value hierarchy consisting of three levels of inputs used to measure fair value:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability, such as the use of a Black-Scholes or other accepted valuation or pricing model.

During the three months ended March 31, 2010, we acquired various short-term investments that are required to be measured using the fair value provisions in the accounting guidance. These investments are held-to-maturity and are summarized by level in the fair value hierarchy in the table below:

	Level	Fair Value as of March 31, 2010 (in thousands)
Short-term investments	1	\$ 2,857
Short-term investments	2	500
		\$ 3,357

Assets valued using Level 1 inputs represent government agency bonds, municipal bonds, treasury securities with observable market prices in actively traded markets, and bank certificates of deposits which are cash equivalents. Assets using Level 2 inputs represent bank commercial paper, whose valuation inputs include broker and dealer quotes.

(6) Long-Term Debt

The components of long-term debt were as follows:

	March 31, 2010	December 31, 2009
	(in thousands)	
Senior secured term indebtedness	\$ 68,266	\$ 65,181
Second lien secured term indebtedness	17,227	9,608
Senior unsecured promissory note	8,282	8,316
Senior subordinated unsecured promissory notes	10,238	16,351
Total indebtedness	104,013	99,456
Less current portion	(8,282)	(8,316)
Total long-term debt, net of current portion	\$ 95,731	\$ 91,140

Senior Secured Term Indebtedness

On March 31, 2008, we entered into a credit agreement (as amended and restated, the *First Lien Credit Agreement*) pursuant to which we issued in multiple tranches during the year ended December 31, 2008 for aggregate consideration of \$60.0 million, senior secured term indebtedness due March 31, 2013 with an original principal amount of \$60.0 million and warrants to purchase the equivalent of 4,801,112 shares of our common stock, comprised of 1,103,922 initial shares and 3,697,190 earn-out shares, at an equivalent exercise price of less than \$0.01 per share.

As of each issuance date, we ascribed value to the senior secured term indebtedness and the related warrants based on their relative fair values. As such, an aggregate of \$46.9 million was allocated to the senior secured term indebtedness and an aggregate of \$12.1 million was allocated to the warrants. The resulting discount from the face value of the senior secured term indebtedness resulting from the ascribed value to the warrants is being amortized as additional interest expense over the term of the senior secured term indebtedness using the effective interest rate method. As of March 31, 2010, the fair value of the senior secured indebtedness approximated carrying value.

Second Lien Term Indebtedness

On December 17, 2009, we entered into a credit agreement (the *Second Lien Credit Agreement*) with PLASE HT, LLC (*PLASE HT*), as administrative agent, collateral agent and original lender, pursuant to which we issued indebtedness due October 1, 2013 with an original principal amount of \$15.0 million and warrants to purchase 3,000,000 shares of common stock at an exercise price of \$6.00 per share. PLASE HT is an affiliate of Apollo Global Management LLC (*Apollo*) and of our controlling stockholder, Communications Investors, LLC (*Communications LLC*). The loans under the *Second Lien Credit Agreement* bear interest at

Table of Contents

9.00% per annum, payable-in-kind, and are guaranteed by all of our existing and future domestic subsidiaries. The loans are secured by a second priority lien on substantially all of our tangible and intangible assets, including the equity interests of our subsidiaries. The liens granted in connection with the Second Lien Credit Agreement are expressly subject and subordinated to the liens securing our obligations under the First Lien Credit Agreement.

We ascribed value to the indebtedness issued in connection with the Second Lien Credit Agreement and the related warrants based on their relative fair values. As such, approximately \$9.6 million of the proceeds was allocated to the indebtedness and the remaining approximately \$5.4 million was allocated to the warrants. The resulting discount from the face value of the indebtedness resulting from the ascribed value to the warrants will be amortized as additional interest expense over the term of the indebtedness using the effective interest rate method. As of March 31, 2010, the fair value of the indebtedness approximated carrying value.

Senior Unsecured Promissory Note

On December 18, 2009, we issued to Hughes Network Systems, LLC (HNS), a wholly-owned subsidiary of HUGHES Communications, Inc. (HCI), a senior unsecured promissory note with a principal amount of approximately \$8.3 million through the conversion of a trade accounts payable balance of approximately \$6.0 million and the approximately \$2.3 million outstanding balance on the equipment financing arrangement owed to HNS. The promissory note accrues interest at a rate of 12.00% per annum, compounded annually, and becomes due and payable on December 31, 2010. We are required to make scheduled principal payments of approximately \$0.8 million on April 15, 2010 and \$1.5 million on each of July 15, 2010 and October 15, 2010. In addition, subject to all restrictions in the First Lien Credit Agreement and Second Lien Credit Agreement and certain other limitations, to the extent we sell any capital equipment purchased by us (or purchased by HNS on our behalf) for use in connection with the Telematics Agreement between the parties, but no longer needed by us, we are required to make payments on the promissory note equal to the proceeds from the sale of such capital equipment (net of any selling costs). As of March 31, 2010, we had paid approximately \$0.1 million on the senior unsecured promissory note using proceeds from the sale of the capital equipment. Subsequent to March 31, 2010, we paid an additional approximately \$1.2 million on the senior unsecured promissory note, consisting of the scheduled principal payment of approximately \$0.8 million and \$0.4 million using proceeds from the sale capital equipment.

Senior Subordinated Unsecured Promissory Notes

On March 31, 2008, we issued to Communications LLC a senior subordinated unsecured promissory note with a principal amount of \$12.5 million and a maturity date of October 1, 2013. The note bears interest at a rate of 15.00% per annum which is compounded and added to the principal amount annually and is payable at maturity. In connection with the issuance of the note, we recorded a deemed capital contribution of approximately \$2.4 million related to the difference between (i) the fair value of the note using an estimated interest rate we would have paid an unrelated third party on a similar note and (ii) the fair value of the note using the 15.00% stated interest rate. The discount from the face value of the note resulting from the deemed capital contribution will be amortized as additional interest expense over the term of the note using the effective interest rate method.

On December 12, 2008, we issued to Apollo Investment Fund V (PLASE) LP (AIF V PLASE) an additional senior subordinated unsecured promissory note with a principal amount of \$3.5 million and a maturity date of October 1, 2013. The note bears interest at 15.00% per annum which is compounded and added to the principal amount annually and is payable at maturity.

In connection with the issuance of the note, we recorded an additional deemed capital contribution of approximately \$2.4 million related to the difference between (i) the fair value of the note using an estimated interest rate we would have paid an unrelated third party on a similar note and (ii) the fair value of the note using the 15.00% stated interest rate. The discount from the face value of the note resulting from the deemed capital contribution will be amortized as additional interest expense over the term of the note using the effective interest rate method.

At the time of issuance of each promissory note, we determined the estimated fair value amount by using available market information and commonly accepted valuation methodologies. However, considerable judgment is required in interpreting market data to develop estimates of fair value. Accordingly, the fair value estimates presented herein is not necessarily indicative of the amount that we or holders of the instruments could realize in a current market exchange. The use of different assumptions and/or estimation methodologies may have a material effect on the estimated fair value. As of March 31, 2010, the fair value of the senior subordinated unsecured promissory notes approximated carrying value.

(7) Capital Lease Obligations

We lease certain assets under capital lease arrangements expiring at various times through 2014. The assets and liabilities under capital leases are recorded at the lower of the present values of the minimum lease payments or the fair values of the assets. The interest rates pertaining to

Edgar Filing: HUGHES Telematics, Inc. - Form 10-Q

these capital leases range from 8.7% to 15.3% (weighted average is 12.2%).

Minimum future lease payments under the capital leases are:

Table of Contents**(8) Share-Based Compensation**

In accordance with the applicable accounting guidance governing share-based payments, we record compensation expense for all share-based awards issued. For the three months ended March 31, 2010 and 2009, we recorded approximately \$0.6 million and \$0.1 million of compensation expense, respectively, related to share-based grants. Such compensation expense is included in research and development, sales and marketing and general and administrative expense in the accompanying condensed consolidated statements of operations.

Stock Options

The following table reflects stock option activity:

	Number of Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value (in thousands)
Outstanding at December 31, 2009	3,520,629	\$ 3.33

Outstanding at March 31, 2010

528,000 \$ 4.55

For restricted stock awards outstanding as of March 31, 2010, we expect to record approximately \$1.7 million of additional compensation expense over the remaining average service period of approximately 1.5 years.

Table of Contents**(9) Loss Per Common Share**

Basic loss per common share is computed by dividing net loss attributable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted loss per common share reflects the potential dilution from the exercise or conversion of securities into common stock. During all periods presented, we had potential common shares, including shares issuable upon the exercise of outstanding stock options and warrants and shares held in escrow pending satisfaction of a contingency, which could potentially dilute basic loss per common share in the future but have been excluded from the computation of diluted loss per common share as the effect would have been anti-dilutive. For the three months ended March 31, 2010 and 2009, there were 83,623,560 and 81,762,119 potential common shares, respectively, excluded from the computation of diluted loss per share, consisting of shares (i) issuable upon the exercise of outstanding stock options and warrants, (ii) held in escrow to be released to the Old HTI stockholders upon achievement of the specified price targets and (iii) held in escrow to indemnify us for the payment of indemnification claims that may be made as a result of breaches of Old HTI's covenants, representations and warranties in the Merger Agreement. In addition, for the three months ended March 31, 2009, we excluded the 7,439,978 shares of common stock, which we repurchased following consummation of the Merger from the calculation of the weighted average number of common shares outstanding during such period.

(10) Comprehensive Loss

Comprehensive loss is defined as the change in equity during a period from transactions and other events and circumstances from nonowner sources. Our comprehensive loss for each of the three month periods ended March 31, 2010 and 2009 equaled our net loss.

(11) Related Party Transactions*Apollo Global Management, LLC*

Communications LLC, AIF V PLASE and PLASE HT are each affiliated with Apollo. As of March 31, 2010, Apollo, through these entities, owned approximately 66% of our outstanding common stock. HCI, also an affiliate of Apollo, owned an additional approximately 4% of our outstanding common stock.

As of March 31, 2010, the affiliates of Apollo, not including HNS which is discussed below, collectively held an aggregate face value and accrued interest of \$5.9 million of senior secured notes, \$20.7 million of senior subordinated unsecured notes and \$15.4 million of second lien secured notes, bearing interest at rates between 9.0% and 15.0%. The principal and interest for all notes held by Apollo affiliates are due on October 1, 2013.

Hughes Network Systems, LLC

For the three months ended March 31, 2010 and 2009, HNS, a wholly-owned subsidiary of HCI and an affiliate of Apollo, provided approximately \$0.3 million and \$8.3 million of services, respectively, to us. As of March 31, 2010 and December 31, 2009, we had an outstanding balance, not including a promissory note discussed below, of approximately \$0.1 million and \$0.2 million, respectively, payable to HNS.

In December 2009, we issued to HNS a senior unsecured promissory note with a principal amount of approximately \$8.3 million through the conversion of a trade accounts payable balance of approximately \$6.0 million and the approximately \$2.3 million outstanding balance on an equipment financing arrangement owed to HNS. The promissory note accrues interest at a rate of 12.00% per annum, compounded annually, and becomes due and payable on December 31, 2010. We are required to make scheduled principal payments of approximately \$0.8 million on April 15, 2010 and \$1.5 million on each of July 15, 2010 and October 15, 2010. In addition, subject to all restrictions in the First Lien Credit Agreement and Second Lien Credit Agreement and certain other limitations, to the extent we sell any capital equipment purchased by us (or purchased by HNS on our behalf) for use in connection with the Telematics Agreement between the parties, but no longer needed by us, we are required to make payments on the promissory note equal to the proceeds from the sale of such capital equipment (net of any selling costs). As of March 31, 2010, we had paid approximately \$0.1 million on the senior unsecured promissory note using proceeds from the sale of the capital equipment. Subsequent to March 31, 2010, we paid an additional approximately \$1.2 million on the senior unsecured promissory note, consisting of the scheduled principal payment of approximately \$0.8 million and \$0.4 million using proceeds from the sale capital equipment.

Trivergance Business Resources, LLC

Edgar Filing: HUGHES Telematics, Inc. - Form 10-Q

For the three months ended March 31, 2010 and 2009, Trivergance Business Resources, LLC (TBR), an affiliate of a member of our board of directors, provided approximately \$0.4 million and \$0.4 million of services, respectively, to us.

(12) Contingencies and Commitments

Contractual Payment Obligations

We have a long-term contract with an automaker pursuant to which the automaker agreed to install telematics devices in its vehicles and permit us to exclusively provide telematics services to its new customers. This contract also required us to pay the automaker for certain non-recurring costs associated with the initiation of telematics services. Pursuant to the contract, we are currently committed to pay \$4.0 million to the automaker in 2010.

Table of Contents*Litigation and Claims*

On May 7, 2009, Networkfleet was served with a complaint in a patent infringement case titled Innovative Global Systems LLC vs. Turnpike Global Technologies L.L.C. et al. that was filed in the Eastern District of Texas. The case sought damages from Networkfleet and five other defendants for allegedly infringing on five patents held by the plaintiffs. On May 7, 2010, the parties executed an agreement to settle the matter.

Additionally, from time to time, we are subject to litigation in the normal course of business. We are of the opinion that, based on information presently available, the resolution of any such legal matters will not have a material adverse effect on our financial position, results of operations or its cash flows.

(13) Segment Information

We present our segment information along the same lines that our chief executive officer reviews our operating results in assessing performance and allocating resources. Accordingly, our operations have been classified into two business segments: (i) HUGHES Telematics and (ii) Networkfleet. The HUGHES Telematics segment provides and is further developing our telematics service offering for automotive manufacturers and our in-Drive product offering and includes our corporate expenses. The Networkfleet segment provides an aftermarket wireless fleet management solution targeted to the local fleet market.

The following table presents certain financial information on our reportable segments:

Substantially all of our assets are located within the United States. As of each of March 31, 2010 and December 31, 2009, we included the \$5.2 million of goodwill in the total assets of the Networkfleet segment.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations are based upon financial statements which have been prepared in accordance with GAAP and should each be read together with our condensed consolidated financial statements and the notes to those condensed consolidated financial statements included elsewhere in this report. This report contains forward-looking statements that involve risks and uncertainties, including statements regarding our capital needs, business strategy, expectations and intentions within the meaning of Private Securities Litigation Reform Act of 1995 which represent our expectations or beliefs concerning future events. We urge you to consider statements that use the terms believe, do not believe, anticipate, expect, plan, may, estimate, strive, intend, will, should, and variations of these words or similar expressions are intended to identify forward-looking statements. These statements reflect our current views with respect to future events and because our business is subject to numerous risks, and uncertainties, our actual results could differ materially from those anticipated in the forward-looking statements, including those set forth below under this Item 2. Management's Discussion and

Analysis of Financial Condition and Results of Operations and elsewhere in this report. All forward-looking statements speak only as of the date of this report. Actual results will most likely differ from those reflected in these forward-looking statements and the differences could be substantial. We disclaim any obligation to update these forward-looking statements or disclose any difference, except as may be required by securities laws, between our actual results and those reflected in these statements. Although we believe that our plans, intentions and expectations reflected in or suggested by the forward-looking statements in this report are reasonable, we can give no assurance that such plans, intentions or expectations will be achieved. The terms HUGHES Telematics, we, us and our refer to the business, operations and financial results of (i) Old HTI prior to the closing of the Merger and (ii) HUGHES Telematics, Inc. subsequent to the closing of the Merger, as the context requires.

Overview

We are a telematics services company that provides a suite of real-time voice and data communications services and applications. These services and applications are enabled through a state-of-the-art communications center designed with flexibility to connect various mobile devices with content, services and call centers. Within the automotive industry, our communications center allows for two way voice and data communications to vehicles and supports, among other things, critical safety and security services as well as location-based services and remote diagnostics. Since November 16, 2009, we have been the exclusive telematics services provider in the United States for new vehicles sold by Mercedes-Benz, as well as the preferred provider of telematics services for Mercedes-Benz vehicles purchased prior to November 16, 2008. These services are marketed under the mbrace brand. In addition, our in-Drive product offers services to consumers or other third parties through a hardware component that we have developed and which we intend to distribute through relationships with companies and organizations with large customer or membership bases for installation in existing vehicles.

Through our wholly-owned subsidiary, Networkfleet, we currently offer remote vehicle monitoring and other data services with sales generated through a combination of distribution arrangements with large fleet management service providers, a network of resellers and direct sales. Unlike our service offerings enabled through factory-installed hardware, Networkfleet's service offerings are enabled by an aftermarket hardware device that is sold by Networkfleet for installation in vehicles. Owners and operators of a fleet of vehicles use these services to monitor driver performance for unauthorized or unsafe vehicle usage, as well as analyze data such as the current location of a vehicle, fuel consumption, mileage, emissions status and diagnostic trouble codes. From our inception through the three months ended March 31, 2010, substantially all of our consolidated revenues were earned through the sale of Networkfleet's products and services.

Although Networkfleet has been our primary source of revenue to date, we expect to derive our revenue increasingly from the telematics services provided to Mercedes-Benz vehicles, vehicles manufactured by automakers to which we are currently marketing our services and vehicles which will have our in-Drive aftermarket hardware device installed. We expect a significant portion of our future revenues to be generated from subscriptions for consumer service offerings, as well as from transaction or pre-paid package fees, automaker and dealer service offerings and from strategic relationships with third parties who are expected to develop applications for our services and product offerings.

Merger with Polaris Acquisition Corp.

On March 31, 2009, Old HTI and Polaris consummated the Merger. Upon closing of the Merger, the outstanding equity securities of Old HTI were exchanged for an aggregate of 77,102,149 shares of our common stock, comprised of 19,854,018 initial shares and 57,248,131 earn-out shares. In addition, all options exercisable for Old HTI common stock issued and outstanding immediately prior to the Merger were exchanged for options exercisable for an aggregate of 2,274,935 shares of our common stock, which includes 1,751,859 earn-out options. The earn-out shares, which were issued into escrow, will be released to the Old HTI stockholders and the earn-out options will be eligible to be exercised, according to their terms, by the optionholders, each in three tranches, upon the trading share price of our common stock reaching at least \$20.00, \$24.50 and \$30.50 (as may be adjusted or amended in accordance with the escrow agreement) within certain measurement periods over the five-year period following the closing of the Merger. The Old HTI stockholders placed 5,782,661 shares of common stock, comprised of 1,489,053 initial shares and 4,293,608 earn-out shares, in escrow until June 30, 2010 to indemnify us for the payment of indemnification claims that may be made as a result of breaches of Old HTI's covenants, representations and warranties in the Merger Agreement. Pursuant to the Merger Agreement, the Polaris founders agreed to deposit an aggregate of 1,250,000 shares of their common stock into escrow at closing with such shares being released upon the achievement of the first share price target between the first and fifth anniversary of closing. Upon consummation of the Merger, the Polaris founders also transferred an aggregate of 168,000 shares of common stock to us with such shares cancelled upon receipt.

In order to consummate the Merger, we agreed to purchase an aggregate of 7,439,978 shares of our common stock from a limited number of institutional shareholders in separate and privately negotiated transactions which were executed prior to the conclusion of the special meeting in which our shareholders voted on the Merger. In order to consummate these private purchases following the Merger, we used funds released from the trust account and funds received from the sale of Series B Preferred Stock. In addition, stockholders holding an aggregate of 4,499,337 shares of common stock exercised their right to convert their stock into a pro rata share of the funds held in the Polaris trust account.

Table of Contents

Immediately prior to the consummation of the Merger, Old HTI extinguished its outstanding shares of Series A Preferred Stock through (i) the exercise by Communications LLC of outstanding warrants to purchase Old HTI common stock using shares of Series A Preferred Stock with an aggregate face value of \$55.0 million and (ii) the exchange of shares of Series A Preferred Stock with an aggregate face value of \$20.0 million for shares of Old HTI common stock. In connection with the Merger, all outstanding shares of Series B Preferred Stock were exchanged for an aggregate of 12,500,000 shares of our common stock, comprised of 5,000,000 initial shares and 7,500,000 earn-out shares.

Notwithstanding the legal form of the transaction, the Merger has been accounted for under the purchase method of accounting as a reverse acquisition, equivalent to a recapitalization, through the issuance of stock by Old HTI for the net monetary assets of Polaris. The determination of Old HTI as the accounting acquirer was made based on consideration of all quantitative and qualitative factors of the Merger, including significant consideration given to the fact that following consummation of the Merger (i) the stockholders of Old HTI controlled a majority of our voting power, (ii) the controlling stockholder of Old HTI prior to the Merger, together with its affiliates, controlled approximately 72% of our voting power and had the right to select a majority of the members of our board of directors and (iii) the management of Old HTI continued in all executive officer and other senior management positions and, accordingly, had day-to-day authority to carry out the business plan after the Merger. Accordingly, our historical financial statements prior to March 31, 2009 are the historical financial statements of Old HTI. The consolidated financial statements of Old HTI have been retroactively restated to reflect the recapitalization of Old HTI with the 77,102,149 shares of common stock issued to Old HTI equity holders in connection with the Merger.

Selected Segment Data

We classify our operations into two principal business segments: (i) the HUGHES Telematics segment, which provides and is further developing the telematics solution which is being marketed to automakers and other parties and includes the operations relating to the contract with Mercedes-Benz and our in-Drive product offering; and (ii) the Networkfleet segment, which provides an aftermarket fleet management solution targeted to the local fleet market. Substantially all of our historical consolidated revenues have been earned through the sale of Networkfleet's products and services. The following tables set forth revenues and operating loss by operating segments:

Results of Operations for the Three Months Ended March 31, 2010 Compared to the Three Months Ended March 31, 2009*Revenues*

For the three months ended March 31, 2010 and 2009, we earned substantially all of our revenues through the sale of Networkfleet's products and services. Hardware revenues consist principally of the sale of Networkfleet's telematics device. Service revenues reflect the consideration received for monitoring and tracking services, which are recognized as revenue when earned. The following table sets forth information related to revenue for the three months ended March 31, 2010 and 2009:

Three Months Ended March 31,
2010 **2009**

Edgar Filing: HUGHES Telematics, Inc. - Form 10-Q

	(in thousands)	
Services	\$ 6,056	\$ 5,320
Hardware	2,111	2,229
Total revenues	\$ 8,167	\$ 7,549

Total revenues for the three months ended March 31, 2010 increased to approximately \$8.2 million, an 8% increase from the approximately \$7.5 million for the three months ended March 31, 2009. This increase was primarily due to the increase in Networkfleet's service revenues, which increased by 14% during the three months ended March 31, 2010 compared to the three

Table of Contents

months ended March 31, 2009. Units active on Networkfleet's network increased to approximately 105,000 as of March 31, 2010, a 17% increase from the approximately 90,000 units active as of March 31, 2009. As Networkfleet continues to sell additional hardware devices, service revenues are expected to continue to increase in future periods. In addition, service revenues generated by the HUGHES Telematics segment are expected to significantly increase in future periods as (i) we continue to transition paying subscribers to the Mercedes-Benz service formerly marketed as Tele Aid to our service platform and (ii) we convert subscribers to the mbrace service from a trial to a paying subscription.

Networkfleet's hardware sales decreased to approximately 6,500 units in the three months ended March 31, 2010, a 4% decrease from the approximately 6,800 units sold in the three months ended March 31, 2009 due to weak general economic conditions which are causing our customer base to postpone previously planned purchases. As the domestic economy recovers, we expect unit sales to return to historical levels.

Cost of Revenues

Cost of services includes per-unit monthly charges from various wireless, mapping, and roadside assistance providers, the salaries and related benefits for employees who support the call centers and manage the data centers and depreciation of the software and equipment which support the provision of services. Cost of hardware sold consists primarily of the cost of direct materials required to produce Networkfleet's telematics device, the cost of shipping and installing devices and the amortization of certain intangibles acquired in connection with the acquisition of Networkfleet. The following table sets forth information related to cost of revenues for the three months ended March 31, 2010 and 2009:

	Three Months Ended March 31,	
	2010	2009
	(in thousands)	
Cost of services	\$ 5,793	\$ 1,623
Cost of hardware sold	1,922	1,774
Total cost of revenues	\$ 7,715	\$ 3,397

Cost of revenues increased to approximately \$7.7 million for the three months ended March 31, 2010 from \$3.4 million for the three months ended March 31, 2009, an increase of \$4.3 million or 127%. Cost of services for the three months ended March 31, 2010 consisted of approximately \$3.4 million of costs related to the provision of the mbrace service to owners and lessees of Mercedes-Benz vehicles, approximately \$1.8 million of costs related to the provision of Networkfleet's service offerings and approximately \$0.6 million related to the anticipated shortfall below a contractual minimum payment. The cost of services related to the provision of mbrace services, which was launched in November 2009, is incurred without the benefit of substantial related revenues because an introductory trial of six months is offered to the purchasers or lessees of new Mercedes-Benz vehicles. Cost of services related to the provision of Networkfleet's service offerings increased approximately \$0.2 million in the three months ended March 31, 2010 compared to the three months ended March 31, 2009 due to the increased number of active units on the network. Networkfleet's cost of revenues as a percentage of total revenues was approximately 45% in each of the three months ended March 31, 2010 and March 31, 2009. We expect Networkfleet's cost of revenues as a percentage of total revenue to decrease as the proportion of service revenues, which earn higher gross margins than hardware revenues, increases as further units are added to Networkfleet's network.

Research and Development Expense

Research and development expense consists primarily of salaries and related benefits for employees associated with engineering and product development activities, fees and expenses paid to third parties who provided services to us in connection with the development of our hardware devices and the infrastructure related to the provision of services to vehicles, depreciation of property and equipment used in the development effort and amortization of certain intangible assets acquired in connection with the acquisition of Networkfleet. Research and development expense for the three months ended March 31, 2010 decreased to \$2.8 million from \$9.0 million for the three months ended March 31, 2009, a decrease of \$6.2 million or 69%. This decrease was due to an approximately \$6.5 million decrease in amounts paid to third parties related to the development efforts, an approximately \$0.2 million decrease in depreciation expense due to the impairment or disposal of certain assets used in the development effort, partially offset by a \$0.5 million increase in labor costs as we dedicated additional internal resources to the further development and testing of our telematics system, including the development of our in-Drive products and services.

Sales and Marketing Expense

Edgar Filing: HUGHES Telematics, Inc. - Form 10-Q

Sales and marketing expense consists primarily of (i) salaries, commissions and related benefits for employees engaged in maintaining and augmenting our automaker relationships, Networkfleet's sales initiatives and other marketing activities, (ii) certain amounts paid to Mercedes-Benz and its dealers, (iii) the costs associated with direct marketing campaigns, (iv) trade shows and other forms of advertising, (v) depreciation of software applications used in marketing activities and (vi) the amortization of certain intangible assets acquired in connection with the acquisition of Networkfleet. Sales and marketing expense for the three months ended March 31, 2010 increased to \$5.7 million from \$2.3 million for the three months ended March 31, 2009, an increase of \$3.4 million or 142%. This increase relates primarily to a \$2.6 million increase in marketing costs incurred relating to our mbrace service offering,

Table of Contents

which was launched in November 2009, including certain amounts paid to Mercedes-Benz and its dealers; and increase of \$0.4 million in depreciation expense; an increase of \$0.2 million in professional fees due to services performed by TBR related to the development and execution of our marketing and customer retention platform; and an increase of approximately \$0.2 million in salaries and related benefits as the number of employees dedicated to sales and marketing activities grew in the three months ended March 31, 2010 as we continued to develop our relationship with Mercedes-Benz and its dealers and pursued relationships with other automakers.

General and Administrative Expense

General and administrative expense consists primarily of facilities costs, finance, accounting, legal, information technology, human resources and other corporate costs, as well as the salaries and related employee benefits for those employees that support such functions. General and administrative expenses for the three months ended March 31, 2010 increased to \$9.4 million from \$7.6 million for the three months ended March 31, 2009, an increase of \$1.8 million or 23%. This increase is due primarily to a \$1.4 million increase in compensation and benefits and contractor labor, and a related \$1.2 million increase in administrative costs related to the additional personnel and resources necessary to support our operations, an approximately \$0.8 million increase in depreciation and amortization due to the deployment of the necessary systems and software during the second half of 2009, partially offset by a decrease in professional fees of \$1.6 million as the professional fees in the three months ended March 31, 2009 included fees incurred in connection with the Merger.

Interest Expense, Net

Interest expense, net for the three months ended March 31, 2010 increased to \$5.2 million from \$3.5 million for the three months ended March 31, 2009, an increase of \$1.7 million. Interest expense, net for the three months ended March 31, 2010 consisted of \$3.4 million of accrued interest, discount amortization and debt issuance cost amortization related to senior secured term indebtedness, \$0.9 million of accrued interest and discount amortization related to the senior subordinated unsecured term promissory notes, \$0.7 million of accrued interest, discount amortization and debt issuance cost amortization related to our second lien indebtedness, \$0.2 million of accrued interest related to our senior unsecured promissory note, \$0.1 million of accrued interest related to capital leases and vendor financing, partially offset by \$0.1 million of interest that was capitalized. Interest expense, net for the three months ended March 31, 2009 consisted of \$3.1 million of accrued interest, discount amortization and debt issuance cost amortization related to senior secured term indebtedness, \$0.6 million of accretion on the Series A Preferred Stock, \$0.7 million of interest and discount amortization related to the senior subordinated unsecured term promissory notes and \$0.1 million of interest on capital lease obligations and vendor financing partially offset by approximately \$1.0 million of interest that was capitalized.

Liquidity and Capital Resources

As of March 31, 2010, we had unrestricted cash, cash equivalents and short-term investments of approximately \$16.0 million and an accumulated deficit of \$380.3 million. As a result of our historical net losses and our limited capital resources, our independent registered public accounting firm's report on our financial statements as of and for the year ended December 31, 2009 includes an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. We cannot assure you that our net losses and negative cash flow will not surpass our expectations, and thus, we may be required to raise additional capital in the future or to reduce our operating expenditures. This additional financing may take the form of loans under a new credit facility, the issuance of bonds or other types of debt securities, the issuance of equity securities or a combination of the foregoing. Any such financing must either comply with the covenants of our existing credit facilities, or we will need to obtain waivers from the lenders. Our credit facilities contain covenants that restrict our ability to incur debt and will require mandatory prepayments from the proceeds of an equity financing. Any debt financing obtained may impose various restrictions and additional covenants on us which could limit our ability to respond to market conditions, provide for unanticipated capital investments or take advantage of business opportunities and may subject us to significant interest expense. Additional equity financing may be obtained on terms that are dilutive to the interests of existing stockholders. We have been successful in the past raising capital to address our liquidity needs; however, debt or additional equity financing may not be available when needed in the future on terms favorable to us or at all, and the failure to attract a sufficient amount of additional debt or equity capital may impair our ability to execute on our business plan. Such additional capital may be provided by, among other things, the cash proceeds from the exercise of the outstanding warrants to purchase shares of our common stock. There is no assurance that we will be successful in obtaining additional financing, if needed, or that we will be able to reduce our operating expenditures. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Operating Activities

For the three months ended March 31, 2010, cash used in operating activities was approximately \$10.0 million, consisting primarily of a net loss of \$22.7 million, partially offset by \$3.8 million of interest accrued on long-term indebtedness, of which \$3.5 million related to long-term indebtedness which was paid in kind with such accrued interest being added to the outstanding principal balance of the debt, \$3.5 million of depreciation and amortization, \$3.3 million of net changes in operating assets and liabilities, \$1.5 million of discount and debt issuance cost

and liabilities, \$2.0 million of interest accrued on long-term debt which will be paid in kind with such accrued interest being added to the outstanding principal balance of the long-term debt, \$1.9 million of depreciation and amortization, \$1.1 million of amortization of debt issuance costs and other discounts on the long-term debt, \$0.5 million of non-cash interest expense related to the Series A Preferred Stock and \$0.1 million of share-based compensation expense.

Investing Activities

For the three months ended March 31, 2010, cash used in investing activities was approximately \$4.3 million, consisting primarily of \$3.4 million used to purchase short-term investments, \$1.0 million of capitalized software costs related to Networkfleet's operations, an increase in restricted cash of \$0.2 million and \$0.2 million of capital expenditures related primarily to infrastructure necessary for our operations, partially offset by \$0.5 million of proceeds received from the disposal of certain available-for-sale assets. For the three months ended March 31, 2009, cash used in investing activities was approximately \$2.3 million, consisting primarily of \$3.8 million of capital expenditures and \$3.9 million of capitalized software costs, partially offset by the release of \$5.3 million of restricted cash that was previously held for the benefit of the lenders of the senior secured term indebtedness.

Financing Activities

For the three months ended March 31, 2010, cash used in financing activities was approximately \$1.5 million, consisting of \$1.4 million of payments on capital lease obligations and \$0.1 million of payments on long-term debt. For the three months ended March 31, 2009, cash provided by financing activities was approximately \$131.9 million, consisting of the \$97.2 million of net cash provided by the Merger and the \$37.0 million of cash proceeds from the issuance and sale of Series B Convertible Preferred Stock, partially offset by \$1.8 million in fees and expenses paid in connection with the issuance of the Series B Convertible Preferred Stock and \$0.5 million of payments on capital lease obligations.

Critical Accounting Policies

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States. These accounting principles require management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, as well as the reported amounts of income and expense during the periods presented. Although these estimates are based on management's knowledge of current events and actions we may undertake in the future, actual results may differ from estimates. For a complete description of our critical accounting policies, refer to Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K filed with the SEC on March 16, 2010.

Recent Accounting Pronouncements

See Item 1 of Part I of this Quarterly Report on Form 10-Q, Financial Statements Note 3 Recent Accounting Pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

As of March 31, 2010, we had approximately \$16.8 million of cash, cash equivalents, short-term investments and restricted cash. This cash, cash equivalents, short-term investments and restricted cash is subject to market risk due to changes in interest rates. In accordance with our investment policy, we diversify our investments among United States Treasury securities and other high credit quality debt instruments that we believe to be low risk. We are averse to principal loss and seek to preserve our invested funds by limiting default risk and market risk.

We may suffer from fluctuating interest rates, which may adversely impact our consolidated results of operations and cash flows. As of March 31, 2010, we had outstanding debt with an aggregate face amount, including interest which has been paid in kind, of approximately \$121.2 million, which included variable rate borrowings of approximately \$76.9 million. As of March 31, 2010, the hypothetical impact of a one percentage point increase in interest rates related to our outstanding variable rate debt would be to increase annual interest expense by approximately \$0.8 million.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Vice President Finance and Treasurer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Vice President Finance and Treasurer, have concluded that, as of the end of such period, our disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports that we file or submit under the Exchange Act.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

On May 7, 2009, Networkfleet was served with a complaint in a patent infringement case titled Innovative Global Systems LLC vs. Turnpike Global Technologies L.L.C. et al. that was filed in the Eastern District of Texas. The case sought damages from Networkfleet and five other defendants for allegedly infringing on five patents held by the plaintiffs. On May 7, 2010, the parties executed an agreement to settle the matter.

Item 1A. Risk Factors

In evaluating our common stock, you should carefully consider, in connection with other information in this report, the risks described in Item 1A of Part I in our Annual Report on Form 10-K for the year ended December 31, 2009 filed with the SEC on March 16, 2010. The risks and uncertainties described therein are not the only ones we face. Additional risks and uncertainties not presently known to us may also impair our operations and business. If we do not successfully address any of these risks, there could be a material adverse effect on our financial condition, operating results and business, and the trading price of our common stock may decline. We cannot assure you that we will successfully address these risks.

Bonuses and Non-Equity Incentive Plan Compensation. See the discussion on the determination of bonuses for our named executive officers, and non-equity incentive plan compensation for Mr. Garcia, under “Cash Bonuses” on page 14 of this proxy statement.

Victor M. Garcia. Mr. Garcia became our President and Chief Executive Officer in June 2011. Mr. Garcia previously served as our Senior Vice President and Chief Operating Officer from September 2010 to June 2011. We entered into an employment agreement with Mr. Garcia in April 2011 in connection with his promotion as our President and Chief Executive Officer. The employment agreement is effective until May 1, 2014 and automatically renews for an additional three-year period, unless the agreement is terminated earlier by us for death, disability, company insolvency or “cause,” by Mr. Garcia for “good reason,” as described further on page 17, or by either party with at least 90 days written notice prior to the end of the term. Pursuant to his employment agreement, Mr. Garcia is entitled to an annual bonus as described above under the heading “Cash Bonus” above.

Timothy B. Page. Mr. Page became our Chief Financial Officer in May 2011. We entered into an employment agreement with Mr. Page effective mid-May 2011 in connection with his appointment as our Chief Financial Officer. Pursuant to his employment agreement, Mr. Page's annual base salary was originally set at \$350,000, with annual increases to be at the discretion of the Board of Directors. Mr. Page is also eligible to receive an annual bonus targeted to 40% of his base salary subject to a discretionary evaluation of his performance and the Company's performance during the year. Mr. Page is also entitled to certain benefits upon his termination by us for cause or in connection with a change in control as described further on page 18.

2012 Outstanding Equity Awards at Fiscal Year-End Table

2012 Option Exercises and Stock Vested Table

No stock options were exercised by, and no restricted stock awards vested for, the named executive officers during 2012.

Potential Post-Employment or Change in Control Payments

Employment Agreements

Messrs. Garcia and Page are entitled to certain payments from us pursuant to their respective employment agreements in the event of their termination of employment or upon the occurrence of a "Change in Control."

Victor Garcia. In the event Mr. Garcia's employment is terminated for "Cause" or due to company insolvency, Mr. Garcia is entitled only to any accrued compensation and benefits through the effective date of his termination.

In the event Mr. Garcia's employment is terminated (i) by us without "Cause", (ii) due to his death or disability, (iii) for any reason, other than for "Cause", death or disability, within 24 months following a "Change in Control" or (iv) by him for "Good Reason," Mr. Garcia is entitled to receive the following payments and benefits:

any accrued compensation and benefits through the effective date of the termination;

a lump sum payment equal to 150% of the greater of (a) \$520,000 or (b) Mr. Garcia's base salary for the 12 months immediately preceding the date of termination;

COBRA health benefits for whichever of the following periods is shortest: (A) the longer of (i) the remaining term of Mr. Garcia's employment agreement or (ii) 18 months following the date of termination; or (B) until Mr. Garcia is no longer entitled to COBRA continuation coverage under our group health plans; and

so long as the date of termination is at least one month after the beginning of our latest fiscal year, the annual bonus set forth in his employment agreement, pro-rated based on the number of days Mr. Garcia was employed during the fiscal year.

Mr. Garcia's employment agreement also provides that if he becomes entitled to receive or if he receives any payments that would be characterized as "excess parachute payments" within the meaning of Section 280G of the Internal Revenue Code, the payments will be reduced to the highest amount that may be paid to him without having any portion of any payment treated as an "excess parachute payment," but only if the effect of the reduction is that he would receive a greater amount of payments, as determined on an after-tax basis. If, on an after-tax basis, the payments Mr. Garcia would receive would be greater without any reduction, then these payments will not be reduced.

"Cause" is generally defined as (a) a failure by the executive to substantially perform his or her material duties under such executive's employment agreement which is not cured within thirty (30) days after notice from us; (b) an act by the executive of material dishonesty, fraud, misrepresentation, or other act(s) of moral turpitude; (c) an intentional act by the executive (other than one constituting a business judgment that was reasonable at the time or which was previously approved by the Board of Directors), or gross misconduct by the executive, which in either case, is seriously injurious to us; (d) a material breach by the executive of his or her employment agreement which is not cured within thirty (30) days after notice from us; or (e) a material and willful violation of a federal or state law or regulation applicable to our business.

"Change of Control" is generally defined as any of the following transactions: (a) a merger or consolidation with or into any other company or other entity, if (after giving effect to the merger or consolidation) our stockholders prior to the merger or consolidation would not be able to elect a majority of our Board of Directors immediately following the merger or consolidation; (b) a sale in one transaction or a series of transactions undertaken with a common purpose of all or a controlling portion of our outstanding voting securities or such amount of our outstanding voting securities as would enable the purchaser to obtain the right to appoint a majority of our Board of Directors; (c) a sale, lease, exchange or other transfer in one transaction or a series of related transactions undertaken with a common purpose of all or substantially all of our assets; or (d) as otherwise may constitute a Change in Control under our Amended and Restated 2007 Equity Incentive Plan; provided, however, a transaction involving a sale of stock beneficially owned by Mr. Ogawa, his spouse or his children shall not constitute a Change in Control unless (after giving effect thereto) a single party (or group of related parties) obtains control of us as a result of such transaction.

"Good Reason" is generally defined as the occurrence of any of the following events, without the consent of the executive: (a) any diminution in the executive's base salary, except as part of a program whereby the salaries of all of our executive officers are reduced for economic reasons; (b) any material diminution of the executive's authority, duties, reporting or responsibilities; (c) any action or inaction that constitutes a material breach by us of the executive's employment agreement; or (d) a material change in the geographic location at which the executive must perform his duties under his or her employment agreement, except for office relocation within the San Francisco Bay area; provided that the executive acknowledges and agrees that he or she may be required to travel extensively in connection with the performance of his or her duties under such executive's employment agreement and that any such travel requirement will not constitute a material change in the geographic location at which the executive must perform his or her duties under such executive's employment agreement.

Timothy Page. In the event we undergo a Change in Control within 24 months of commencement of Mr. Page's employment and he is terminated without cause within 24 months following the Change in Control, Mr. Page is entitled to receive a lump sum payment equal to twelve months of his base salary immediately preceding the date of termination. The definition of "Change of Control" under Mr. Page's employment agreement is substantially similar to the definition under Mr. Garcia's employment agreement as defined above.

Equity Compensation Plan

Under our Amended and Restated 2007 Equity Incentive Plan, all awards under the plan, including shares subject to stock options and restricted stock, that have not vested will become fully vested and exercisable in the event of a “change of control” or other “company transaction,” each as defined below, unless, in the event of a company transaction, the options or stock awards are assumed by the successor company. A “change of control” is generally defined as an acquisition of 50% or more of our voting power, or a change in the composition of our Board of Directors in a two-year period, without the approval of the Incumbent Board (as defined in the plan), that results in fewer than a majority of the Incumbent Board remaining in office. A “company transaction” is generally defined as the completion of a merger or consolidation with or into another company or entity, a sale in one or more transactions with the common purpose of all of our outstanding voting securities, or a sale in one or more transactions with the common purpose of all or substantially all of our assets. The Compensation Committee may also, in the event of a change of control, allow the holder of an award to surrender the award in exchange for a cash payment, or, in the event of a company transaction, terminate awards under the plan in exchange for a cash payment, each calculated by a formula set forth in the plan.

The following table describes the potential payments upon a termination or change of control for our named executive officers, assuming that the triggering event occurred on December 31, 2012. In the case of stock options, the value of the acceleration was determined based on the difference between (i) the exercise price of the shares for which vesting was accelerated and (ii) the \$21.95 closing price on December 31, 2012.

(1)Ms. Teixeira resigned as Vice President, International Legal Affairs effective September 19, 2012. In connection with her resignation, we entered into a release and separation agreement with Ms. Teixeira pursuant to which we agreed to pay a retainer of \$23,205 to Ms. Teixeira each month for consulting and legal services, and allowed for her options to continue to vest until she no longer provided any consulting services to us.

2012 Director Compensation Table

The following table sets forth information regarding compensation for each of our nonemployee directors for fiscal 2012. Our nonemployee director compensation program is comprised of: cash compensation, consisting of annual retainer fees, including amounts associated with chairing Board of Directors committees; meeting fees and equity compensation, consisting of stock option grants. Each of these components is described in more detail below.

Name	Fees Earned or Paid in Cash (\$ (1))	Option Awards (\$ (2))	All Other Compensation (\$)	Total (\$)
Marvin Dennis	76,000	80,860	—	156,860
William Liebeck	72,000	80,860	—	152,860
Maasaki (John) Nishibori	49,000	—	26,969 (3)	75,969
Hiromitsu Ogawa	110,323	—	26,969 (3)	137,292
David G. Remington	72,000	80,860	—	152,860
Gary Sawka	64,000	80,860	—	144,860

(1) Includes all annual retainer fees, committee and chairmanship fees and meeting fees.

(2) These amounts reflect the aggregate grant date fair value for stock options computed in accordance with FASB ASC Topic 718 “Compensation—Stock Compensation,” excluding the effect of any estimated forfeitures. For information on the method and assumptions used to calculate the compensation costs, see Note 8 to our audited consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2012. As of December 31, 2012, the aggregate number of shares underlying outstanding option awards for each nonemployee director was: Mr. Dennis—60,000 shares; Mr. Liebeck—60,000 shares; Mr. Nishibori—359,980 shares; Mr. Ogawa—no shares; Mr. Remington—32,500 shares; and Mr. Sawka—60,000 shares

(3) Other compensation for 2012 consists of health and dental insurance premiums paid by the Company for the benefit of the director.

Narrative Disclosure to Director Compensation Table

Hiromitsu Ogawa. Mr. Ogawa served as Chief Executive Officer until November 1, 2006 when he became our Executive Chairman. On June 5, 2009, Mr. Ogawa retired as our Executive Chairman and remained our Chairman of the Board of Directors. On June 5, 2009, Mr. Ogawa signed a compensation agreement with the Company under which Mr. Ogawa is entitled to an annual retainer fee of \$100,000, payable each calendar quarter in increments of \$25,000. The annual retainer fee will be increased by at least 4% on July 1 of each subsequent year that the agreement is in effect. Mr. Ogawa’s annual retainer fee was increased to \$104,000 on July 1, 2010, \$108,160 on July 1, 2011, and \$112,486 on July 1, 2012. The compensation under this agreement is in lieu of the retainer and meeting fees that are payable to other members of the Board of Directors who are not also our employees. In addition to the annual retainer fee, Mr. Ogawa will continue to receive the fringe benefits that he was receiving prior to his retirement as an executive officer of the Company. The agreement is effective for as long as Mr. Ogawa serves as Chairman of the Board of Directors or for a period of three years from the date of the agreement.

Masaaki (John) Nishibori. Mr. Nishibori retired as our President and Chief Executive Officer effective June 3, 2011. Effective June 3, 2011, we entered into a Continuing Services Agreement with Mr. Nishibori in connection with his retirement. Pursuant to the Continuing Services Agreement, among other things, (i) as long as Mr. Nishibori continues as a member of the Board of Directors, he and his spouse are eligible to participate in our health insurance plans to the extent permitted under such plans, (ii) Mr. Nishibori’s continued service as a Director is deemed to constitute “continuous service” such that the stock option grants that have been previously granted to Mr. Nishibori pursuant to our Amended and Rested 2007 Equity Incentive Plan will continue to vest so long as he remains a Director, and (iii) following vesting in full of Mr. Nishibori’s currently-held stock options, Mr. Nishibori will be eligible to receive annual stock option grants that may be awarded to other outside members of the Board. Mr. Nishibori also receives the standard cash compensation for directors as outlined below.

Other Director Compensation. Directors who are also our employees receive no additional compensation for their services as directors. Directors who are not our employees, other than Mr. Ogawa, receive cash compensation and equity compensation as described below. All directors are also reimbursed for reasonable and necessary travel, communications, and other out-of-pocket business expenses incurred in connection with their attendance at meetings, while on corporate business or for continuing education related to their board service. In addition, we indemnify our directors for liability they may incur for serving in that capacity to the maximum extent permitted under the laws of the state of Delaware. We also advance expenses to our directors in connection with this indemnification.

Cash Compensation. Each nonemployee director, other than Hiromitsu Ogawa, receives an annual cash retainer of \$25,000. The chair of the Audit Committee receives an additional annual cash retainer of \$12,000. Other committee chairs receive an additional annual cash retainer of \$8,000. Each annual retainer is paid quarterly in advance. In addition, directors, other than Hiromitsu Ogawa, receive a fee of \$2,000 for each meeting of the Board of Directors attended, members of the Audit Committee receive a fee of \$1,500 for each meeting of the Audit Committee attended, and members of other committees receive a fee of \$1,000 for each other committee meeting attended.

Equity Compensation. In addition to cash retainers and Board of Directors and committee meeting attendance fees, each nonemployee director, other than Messrs. Ogawa and Nishibori, is granted an option to purchase 12,500 shares upon the director's initial election to the Board of Directors, and is granted an option to purchase 10,000 shares at each annual meeting of our stockholders. All options have a ten-year term, an exercise price equal to the fair market value of a share of our common stock on the date of grant and vest in full on the first anniversary of the date of grant.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

None of the members of the Compensation Committee was at any time during the fiscal year ended December 31, 2012 or at any other time (i) an officer or employee of CAI or (ii) had any relationship requiring disclosure under Item 404 of Regulation S-K. No executive officer of CAI served as a member of the Compensation Committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire Board of Directors) of another entity, or as a director of another entity, where one of the other entity's executive officers served on the Compensation Committee of CAI or as a director of CAI.

COMPENSATION COMMITTEE REPORT

The Compensation Committee consists of four independent directors. The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management and, based on that review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in CAI's Annual Report on Form 10-K for the fiscal year ended December 31, 2012 and CAI's proxy statement relating to its 2013 Annual Meeting of Stockholders.

AUDIT COMMITTEE REPORT

The Audit Committee appoints, determines funding for, oversees and evaluates the independent registered public accounting firm with respect to accounting, internal controls over financial reporting and other matters, and makes other decisions with respect to audit and finance matters. The Audit Committee also pre-approves the retention of the independent registered public accounting firm and fees for all audit and permitted non-audit services provided by the independent registered public accounting firm, and determines whether the provision of non-audit services is compatible with maintaining the independence of the independent registered public accounting firm. All members of the Audit Committee are able to read and understand financial statements and have experience in finance and accounting that provides them with financial sophistication.

Duties and Responsibilities

The Audit Committee operates under a written charter approved by the Board of Directors. Pursuant to authority delegated by the Board of Directors and the Audit Committee's written charter, the Audit Committee assists the Board of Directors in fulfilling its oversight responsibilities with respect to:

the integrity of CAI's financial statements;

CAI's compliance with legal and regulatory requirements;

CAI's systems of internal control over financial reporting as established by management;

the independent registered public accounting firm's qualifications and independence;

the performance by CAI's independent registered public accounting firm;

CAI's internal audit activities and processes;

risk assessment and risk management;

CAI's auditing, accounting and financial reporting processes generally; and

compliance with CAI's ethical standards for senior financial officers and all personnel.

In fulfilling its duties, the Audit Committee maintains free and open communication with the Board of Directors, the independent registered public accounting firm, financial management and all employees.

In connection with these responsibilities, the Audit Committee met with management to review and discuss CAI's audited financial statements. The Audit Committee also discussed with the independent registered public accounting firm the matters required by Statement on Auditing Standards No. 61, as amended, Communication With Audit Committees, and PCAOB AU Section 380, Communications with Audit Committees. The Audit Committee also received from the independent registered public accounting firm the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public accounting firm's communications with the audit committee concerning independence, and has discussed with its independent registered public accounting firm that firm's independence.

Fiscal 2012 Audit

Edgar Filing: HUGHES Telematics, Inc. - Form 10-Q

Based on the reviews and discussions described above, the Audit Committee recommended that the Board of Directors include the audited financial statements in CAI's Annual Report on Form 10-K filed with the SEC for the year ended December 31, 2012.

PROPOSAL NO. 2 – RATIFICATION OF APPOINTMENT OF

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has selected KPMG LLP, an independent registered public accounting firm, to audit our financial statements for fiscal year 2013, and recommends that the stockholders vote to ratify such appointment.

KPMG LLP has audited our financial statements since the year ended December 31, 2006. Stockholder approval of the selection of KPMG LLP as our independent registered public accounting firm is not required by our bylaws or otherwise. The Sarbanes-Oxley Act of 2002 requires the Audit Committee to be directly responsible for the appointment, compensation and oversight of the audit of our financial statements and the independent registered public accounting firm. The Audit Committee will consider the results of the stockholder vote and in the event of a negative vote will reconsider its selection of KPMG LLP. Even in the event of an affirmative stockholder vote, the Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in our best interests.

Representatives of KPMG LLP are expected to be present at the Annual Meeting and will have the opportunity to make a statement if they so desire. The representatives also are expected to be available to respond to appropriate questions from stockholders.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS
A VOTE FOR RATIFICATION OF THE APPOINTMENT OF KPMG LLP AS THE COMPANY’S INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM FOR FISCAL YEAR 2013.

Independent Registered Public Accounting Firm Fees and Services

Fees billed to CAI by KPMG LLP for 2012 and 2011 were approximately as follows:

Services Rendered	2012	2011
Audit Fees (1)	\$858,800	\$790,000
Audit-Related Fees (2)	176,500	21,450
Tax Fees (3)	30,000	14,200
Total Fees	\$1,065,300	\$825,650

(1) Audit Fees consist of fees for professional services rendered for the audit of our 2012 and 2011 consolidated annual financial statements and review of the interim consolidated financial statements included in quarterly reports and services that are normally provided by KPMG LLP in connection with regulatory filings.

(2) Audit-Related Fees consist of fees billed for assurance and related services primarily related to the filing of a Registration Statement on Forms S-3 with the SEC as well as services provided in connection with an equity offering made thereunder, and not reported under “Audit Fees.”

(3) Tax Fees consist of fees billed for professional services rendered in 2012 and 2011 for tax compliance relating to our domestic and foreign subsidiaries.

Pre-Approval Policy

The Audit Committee pre-approves all audit and permissible audit-related and non-audit services provided to the Company by our independent registered public accounting firm and the associated fees for these services. All services and fees for 2012 and 2011 were pre-approved by the Audit Committee. Engagements must be separately pre-approved by the Audit Committee.

**PROPOSAL NO. 3 – ADVISORY RESOLUTION TO APPROVE THE COMPENSATION OF
OUR NAMED EXECUTIVE OFFICERS**

We are asking our stockholders to approve an advisory resolution to approve the compensation of our named executive officers as reported in this proxy statement, and as required by Section 14A of the Exchange Act. Our current policy is to provide stockholders with an opportunity to approve the compensation of our named executive officers each year at the annual meeting of stockholders until the next required vote on the frequency of such votes.

The Compensation Committee establishes, recommends and governs all of the compensation and benefits policies and actions for the Company’s executives, whose compensation is reported in the 2012 Summary Compensation Table above. Additional information regarding the Compensation Committee and its role is described above in the “Compensation Discussion and Analysis” section of this proxy statement and the related tables and narrative disclosure. Consistent with the Company’s compensation philosophy, our executive compensation program has been designed to provide competitive compensation packages that enable us to attract and retain talented executives and motivate named executive officers to achieve our short- and long-term business strategies.

The Compensation Committee and our Board of Directors believe that the policies and procedures articulated in the “Compensation Discussion and Analysis” are effective in achieving our goals and that the compensation of our named executives reported in this proxy statement has contributed to the Company’s recent and long-term success. In accordance with Section 14A of the Exchange Act, and as a matter of good corporate governance, we are asking stockholders to approve the following advisory resolution at the 2013 Annual Meeting of Stockholders:

RESOLVED, that the stockholders of CAI International, Inc. (the “Company”) approve, on an advisory basis, the compensation of the Company’s named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including in the Compensation Discussion and Analysis, the compensation tables, notes and narrative in the Proxy Statement for the Company’s 2013 Annual Meeting of Stockholders.

While the resolution is non-binding, the Board of Directors values the opinions that stockholders express in their votes and in any additional dialogue. It will consider the outcome of the vote and those opinions when making future compensation decisions.

RELATED PERSON TRANSACTIONS

Transactions with Related Persons

There were no transactions with related persons during the year ended December 31, 2012 required to be disclosed pursuant to Item 404(a) of Regulation S-K.

Policies and Procedures for Approving Transactions with Related Persons

Our Audit Committee, in executing the responsibilities delegated to it, reviews a summary of CAI's transactions with its directors and officers and with firms that employ our directors, as well as any other material related party transactions, periodically, but no less frequently than annually. The Audit Committee consists entirely of disinterested, nonemployee directors.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires our executive officers, directors and holders of more than 10% of our common stock to file reports of ownership and changes in ownership with the SEC. To our knowledge, based solely on a review of copies of such reports and written representations from our executive officers and directors that no other reports were required, we believe that during the fiscal year ended December 31, 2012, all reports required under Section 16(a) were timely filed.
