Dear Fellow Stockholder:

It is a pleasure to invite you to the 2018 Columbus McKinnon Corporation annual meeting of stockholders. The meeting will be held at 10:00 a.m., Chicago time, on Monday, July 23, 2018 at the Four Seasons Hotel Chicago, 120 East Delaware Place, Chicago, Illinois. The attached Notice of Annual Meeting of Stockholders and Proxy Statement discuss the items scheduled for a vote by stockholders at the meeting.

The Securities and Exchange Commission rules allow companies to furnish proxy materials to their stockholders over the Internet. As a result, most of our stockholders will receive in the mail a notice regarding availability of the proxy materials for the annual meeting on the Internet instead of paper copies of those materials. The notice contains instructions on how to access the proxy materials over the Internet and instructions on how stockholders can receive paper copies of the proxy materials, including a proxy or voting instruction form. This process expedites stockholders receipt of proxy materials and lowers the cost of our annual meeting.

The Board of Directors has fixed the close of business on June 1, 2018, as the record date for the determination of shareholders entitled to receive notice of and to vote at the Annual Meeting.

It is important that your shares be represented and voted at the Annual Meeting. Whether or not you plan to attend, please sign, date and return the enclosed proxy card in the enclosed postage-paid envelope or vote by telephone or using the internet as instructed on the enclosed proxy card. If you attend the Annual Meeting, you may vote your shares in person if you wish.

Please vote your shares as soon as possible. This is your annual meeting, and your participation is important.

Board Leadership Structure

The roles of the Company's Chairman of the Board and President and Chief Executive Officer have been served by separate individuals since 1998. This leadership structure supports our belief that it is the President and Chief Executive Officer's responsibility to manage the Company and the Chairman's responsibility to manage the Board. Since Mr. Verebelyi's election as our Chairman of the Board in

August 2005, that position has been filled by an independent Director. As directors continue to have more oversight responsibilities than ever before, we believe it is beneficial to have an independent Chairman whose sole job is leading

the Board. We believe our President and Chief Executive Officer and Chairman of the Board have had an excellent working relationship.

CORPORATE GOVERNANCE POLICY

By separating the roles of the Chairman of the Board and President and Chief Executive Officer positions, we ensure there is no duplication of effort between them. We believe this provides strong leadership for our Board of Directors, while also positioning our President and Chief Executive Officer as the leader of the Company in the eyes of our customers, employees and other stakeholders.

As part of our annual Board of Directors self-evaluation process, we evaluate our leadership structure to ensure that it continues to provide the optimal structure for our Company and shareholders. A Chair rotation and succession schedule is reviewed and updated annually by the Board in addition to the Chairman conducting individual reviews with the Directors on their interests and thoughts around Chair candidates, rotation and succession. We believe our current leadership structure is the optimal structure for our Company at this time.

Board Composition and Diversity

Our Corporate Governance and Nomination Committee is responsible for developing the general criteria, subject to approval by our Board of Directors, for use in identifying, evaluating and selecting qualified candidates for election or re-election to the Board. The Governance and Nomination Committee annually reviews the appropriate skills and characteristics required of Board members in the context of the current composition of the Board including, reviewing and updating a Board competency skills matrix for each Director. The Corporate Governance and Nomination Committee, in recommending candidates for election or re-election to the Board, seeks to create a Board that is strong in its collective knowledge and has a diversity of skills and experience with respect to accounting and finance, management and leadership, vision and strategy, business operations, business judgment, industry knowledge, corporate governance and global markets. When the Corporate Governance and Nomination Committee review a potential new candidate, it looks specifically at the candidate's qualifications in light of the needs of the Board and the Company at that time, given the attributes of the existing Directors.

The charter of the Corporate Governance and Nomination Committee includes as a statement of responsibility that the Committee assure that the composition of the Board of Directors includes appropriate breadth, depth and diversity of experience and capabilities. In identifying candidates for Director, the Corporate Governance and Nomination Committee and the Board of Directors take into account (i) the comments and recommendations of Directors made in connection with the Board's annual self-evaluation regarding the qualifications and effectiveness of the existing Board of Directors or additional qualifications that may be required when selecting new board members, (ii) the requisite expertise and sufficiently diverse backgrounds of the Board of Directors overall composition, (iii) the independence of outside Directors and other possible conflicts of interest of existing and potential members of the Board of Directors and (iv) all other factors it considers appropriate. Our current board has a rich mixture of educational, professional, experiential, gender, and global diversity and we will continue to consider these and the other mentioned factors when considering future directors.

Board of Directors Independence

Our Board of Directors has determined that each of its current members, other than Mr. Morelli, is independent within the meaning of the NASDAQ Stock Market, Inc., listing standards as currently in effect. In addition, each member of the Audit

Committee, the Corporate Governance and Nominating Committee and the Compensation and Succession Committee is independent.

Board Meetings and Attendance

The Board of Directors and its committees meet regularly throughout the year and also hold special meetings and act by written consent from time to time as appropriate. All Directors are expected to attend each meeting of the Board of Directors and the committees on which he or she serves, and are also invited, but not required, to attend the Annual Meeting. Agendas for meetings of the Board of Directors include executive sessions for the independent Directors to meet without the management Director present. During the fiscal

year ended March 31, 2018, our Board of Directors held five (5) meetings. Each Director, other than Ms. Roedel who joined the Board in October, 2017, and Mr. Aghili who joined the Board in May, 2018 has attended at least 75% of the aggregate number of meetings of our Board of Directors and meetings held by all committees of our Board of Directors on which he or she served and attended the 2017 Annual Shareholder Meeting.

Code of Ethics

Our Board of Directors adopted a Code of Ethics which governs all of our Directors, officers and employees, including our Chief Executive Officer and other executive officers. This Code of Ethics is posted on the Corporate Governance section of the Company’s website at www.cmworks.com. The Company will disclose on its website any amendment to this

Code of Ethics or waiver of a provision of this Code of Ethics, including the name of any person to whom the waiver was granted. Our Chief Compliance Officer has responsibility to implement and maintain an effective ethics and

Risk Oversight

Our Board of Directors oversees an enterprise-wide approach to risk management, designed to support the achievement of organizational objectives, including strategic objectives, to improve long-term organizational performance and enhance shareholder value. A fundamental part of the Company's risk management is not only understanding the risks it faces and what steps management is taking to manage those risks, but also understanding what level of risk is appropriate for the Company. The involvement of the full Board of Directors in setting the Company's business strategy is a key part of its assessment of management's appetite for risk and also a determination of what constitutes an appropriate level of risk for the Company.

While the Board of Directors has the ultimate oversight responsibility for the risk management process, various

committees of the Board also have responsibility for risk management. In particular, the Audit Committee oversees the Company's enterprise risk management process, as well as focuses on financial and fraud risks, including internal controls, and receives an annual risk assessment report from the Company's General Counsel and internal auditors. The Company's General Counsel and his staff also assist the Board of Directors in fulfilling its oversight responsibility with respect to regulatory compliance and legal issues that affect the Company. In addition, in setting compensation, the Compensation Committee strives to create incentives that encourage a level of appropriate risk-taking behavior consistent with the Company's business strategy and goals.

Our Corporate Governance and Nomination Committee is responsible for (i) evaluating the composition, skills, organization and governance of our Board of Directors and its committees, (ii) monitoring compliance with our system of corporate governance and (iii) developing criteria, researching and making recommendations with respect to candidates for membership on our Board of Directors.

Each member of the Corporate Governance and Nomination Committee is an independent Director under the NASDAQ Stock Market, Inc., rules currently in effect. Our Corporate Governance and Nomination Committee does not solicit direct nominations from our shareholders, but will give due consideration to written recommendations for nominees from our shareholders for election as directors that are submitted in accordance with our By-Laws. CORPORATE GOVERNANCE POLICY

Director Stock Ownership Guidelines

Our General Corporate Governance Policy contains a guideline whereby all Directors are asked to beneficially own not less than 10,000 shares of our common stock within five years of becoming a Director. Any Restricted Stock Units granted to a Director pursuant to the Columbus McKinnon Corporation 2016 Long Term Incentive Plan (the Omnibus Plan) or any successor plan are included in determining the number of shares owned by such Director for these purposes. All Directors are in compliance with this Policy.

We maintain a nonqualified deferred compensation plan offered to our Directors. The plan is an unfunded plan intended to help participants supplement their retirement income while providing them an opportunity to invest a portion of their cash compensation. Under the plan, each Director who receives cash compensation for board service may elect to defer all or a portion of his or her cash compensation in a calendar year. Mr. Verebelyi has elected to defer cash compensation in 2018 under this plan. We do not anticipate making any changes to this plan in 2018.

Officer Stock Ownership Guidelines

Consistent with our objective of aligning management's interests with shareholders, we have established stock ownership requirements for all corporate and operating officers to maintain or accumulate minimum ownership levels of the Company's Common Stock. Executives are required to retain a portion of their equity compensation upon vesting of shares or exercise of options. The portion that each executive must continue to hold is described as the retention ratio which is

applied to the after-tax shares received by the executive. If the value of shares held by an executive exceeds a specified multiple of base salary, the executive is no longer subject to the retention ratio requirement with respect to additional after-tax shares received by the executive. Each NEO is currently subject to the retention ratio requirement. The following table summarizes the ownership guidelines, as well as the respective retention ratio, for executives.

Position / Title	Multiple of Base Salary	Retention Ratio

Chief Financial Officer	4X	50%

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our Directors and executive officers, and persons who own more than 10% of a registered class of our equity securities, to file with the Securities and Exchange Commission and NASDAQ initial reports of ownership and reports of changes in ownership of our common stock and other equity securities. Our executive officers, Directors and greater than 10% shareholders are required to furnish us with copies of all Section 16(a) forms they file. To our knowledge, based solely on our review of the copies of such reports furnished to us and written representations that no other reports were required, we are in compliance with all Section 16(a) filing requirements applicable to our executive officers, Directors and greater than 10% beneficial owners during the fiscal year ended March 31,

2018, except for the late filing of the Form 4 in connection with the vesting of Ms. Goodspeed's restricted stock units on May 31, 2017, the late filing of the Form 4 in connection with Mr. Buer's sale of 5,147 shares on June 7, 2017, the late filing of the Form 4's in connection with the vesting of restricted stock units on July 18, 2017 for Messrs. Fleming, McCarthy, Mitts, Pinchuk, Rabinowitz, Trumbull and Verebleyi, the late filing of the Form 4 in connection with Mr. Tevens's sale of 24,913 shares on August 9, 2017, the late filing of the Form 4 in connection with Mr. Korman's sale of 500 shares on December 13, 2017, and the late filing of Mr. Stewart's Form 3. The late Form 4 filings were due primarily to employee turnover and the timing of information received from external brokers.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

The Audit Committee reviews and makes recommendations where appropriate to the Board of Directors with respect to all related party transactions and relationships. Pursuant to Regulation S-K 404, a related person includes (among others) an officer, director and, by reference to S-K 403(a), a party who beneficially owns more than 5% of any class of the Company's voting securities, or a person known by the Company to be an immediate family member of any of the foregoing, who is a party to a transaction with the Company in which the payment for a fiscal year exceeds \$120,000. Any

such related party transaction is required to be on terms no less favorable to the Company than could be obtained from an unaffiliated third party. The Company has a separate Related Person Transaction Policy, as well as other various policies and procedures, including the Company's Global Legal Ethics and Business Compliance Manual and the annual directors' and officers' questionnaires that require disclosure of transactions or relationships that may constitute conflicts of interest or require disclosures or affect an independence determination under applicable SEC rules.

Overview, Philosophy and Objectives

We are a leading worldwide designer, manufacturer and marketer of material handling products, systems and services, which efficiently and ergonomically move, lift, position and secure materials. Key products include hoists, cranes, actuators, rigging tools and digital power and motion control systems. We are focused on commercial and industrial applications that require the safety and quality provided by our superior design and engineering know-how.

The successful execution of our business strategy depends on our ability to attract, motivate, reward and retain executive talent with the skills to foster innovative product and service development and grow the business in developing markets with the greatest opportunity. Our executive compensation program is guided by the following objectives:

- Our compensation program should be comprehensive, consisting of base salary, annual incentives, long-term incentives and benefits, designed to support our objective of providing superior value to shareholders and customers;
- Our compensation program should be designed to motivate and reward our executives for sustained superior performance through the use of variable compensation tied to short, intermediate and long term results; and
- Our business success depends on our ability to attract and retain executive talent by providing competitive compensation opportunities.

Overview of Fiscal Year 2018 Business Results and Performance-Based Compensation

For fiscal year 2018, our priorities centered on increasing shareholder value by driving profitable growth. Accordingly, our Annual Incentive Plan for fiscal year 2018 was designed to focus on increasing consolidated operating income, targeted regional operating income and free cash flow for paying down debt. Our results in fiscal year 2018 were significant and above plan. Accordingly, actual Annual Incentive Plan compensation earned by the Named Executive Officers (NEOs) for fiscal year 2018 averaged approximately 196.52% of the target annual incentive compensation opportunities established for each NEO at the start of the fiscal year.

Our NEOs received one-third of their fiscal year 2018 long-term incentive compensation in the form of performance restricted stock units which are contingent upon consolidated revenue results for the two year measurement period of fiscal years 2018 and 2019. Therefore, no fiscal year 2018 performance stock awards were earned during fiscal 2018.

Further details regarding fiscal year 2018 performance can be found in the Components of Compensation section.

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation and Succession Committee's Role

The Compensation Committee establishes performance objectives for the Chief Executive Officer (CEO) based on our annual business plan and long term strategic goals approved by the Board of Directors. Progress against these goals is monitored by the Compensation Committee on a quarterly basis. The Compensation Committee evaluates the CEO's performance against these goals annually, with input to the evaluation from all independent Directors. The Compensation Committee also considers market data validated by our independent consultant, comparisons of our performance to our peers, strategic achievements during the year, such as acquisitions and their integration into our business and value-creating divestitures. Based on these factors, the Compensation Committee makes recommendations concerning base salary increases, annual incentive award targets and payments under the Annual Incentive Plan and targets and awards under our long-term incentive program. The Compensation Committee has regularly-scheduled executive sessions to discuss CEO performance and compensation and other matters without any executive officers present. All aspects of the CEO's compensation are approved by our

full Board of Directors upon recommendations made by the Compensation Committee, which is comprised totally of independent Directors.

Except for the CEO and Chief Financial Officer (CFO), the Compensation Committee reviews and approves base salary increases, Annual Incentive Plan targets and awards, long-term incentive program targets and awards and similar arrangements for the other NEOs in the Summary Compensation Table below after receiving recommendations from our CEO with input from the Chief Human Resource Officer (CHRO) and our independent consultant. The Compensation Committee makes the final decision and approves compensation decisions for all NEOs, as well as all other executive officers, except for the CEO and CFO. All aspects of the CEO's and CFO's compensation are finally approved by our full Board of Directors.

The Compensation Committee's composition is described in more detail in this proxy statement under the section above entitled Corporate Governance - Compensation and Succession Committee.

Compensation Committee Advisors

The Compensation Committee has the authority under its charter to engage the services of outside consultants to determine the scope of the consultants' services and to terminate such consultants' engagement. In fiscal year 2018, the Compensation Committee continued its engagement of Exequity LLP (Exequity), an independent compensation consulting firm, to advise the Compensation Committee on certain matters related to executive compensation including:

- Our compensation program should be comprehensive, consisting of base salary, annual incentives, long-term incentives and benefits, designed to support our objective of providing superior value to shareholders and customers;
- Our compensation program should be designed to motivate and reward our executives for sustained superior performance through the use of variable compensation tied to short, intermediate and long term results; and
- Our business success depends on our ability to attract and retain executive talent by providing competitive compensation opportunities.

In fiscal year 2018, Exequity reviewed market data based upon the Company's target labor market for executive talent, presented market trends, proposed compensation and consulted on compliance issues. Additionally, Exequity attended in person or by telephone all Compensation Committee meetings.

Management's Role in the Compensation-Setting Process

Our management is involved in the following executive compensation processes: (a) The Chief Human Resources Officer (CHRO) develops and oversees the creation of background and supporting materials for distribution to the Compensation Committee prior to its meetings; (2) The CEO and CHRO attend all Compensation Committee meetings, except the executive sessions of the meetings; (3) The CEO and CHRO annually present and make recommendations to the Compensation Committee relating to annual incentives and long-term incentive plan designs and changes, if warranted;

(4) The CEO recommends to the Compensation Committee base salary, target annual incentive and target long term incentive adjustments for all executives, excluding the CEO; (5) The CHRO receives executive session decisions, actions and underlying rationale for implementation, as appropriate, following the Committee s executive sessions; and (6) The CHRO regularly consults with and briefs the Compensation Committee chairman between scheduled Compensation Committee meetings.

Severance	Provide severance protection equal to one week of salary for every year of service	Designed to be competitive in the market and allow for the attraction of talented candidates

Executive Compensation Policies and Practices

In administering the compensation program, the Compensation Committee relies on market information provided periodically by its independent consultant. For evaluating compensation, the Compensation Committee reviews compensation data for industrial companies of comparable size, which reflect the types of companies with which we compete for talent. Here, we use a broader industrial market reference because the number of direct product and service market competitors is limited. Many of the companies that provide similar products and services are either privately held, headquartered overseas, or part of a larger enterprise; therefore, executive compensation

data may be either unavailable or of limited applicability to the U.S. labor market in which we principally compete. Historically, we have used a peer group for evaluating compensation. The peer group incorporates companies that we consider to be primary competitors for talent and capital. The peers consist of industrial companies of comparable size to us (generally one-half to twice our size in terms of revenue), which typically have significant associate populations in manufacturing, product engineering and sales. The compensation peer group for fiscal year 2018 consisted of the

following 23 companies:

Fiscal Year 2018 Peer Group

Alamo Group Inc.	Albany International Corp.	Altra Industrial Motion Corp.
Barnes Group Inc.	Chart Industries, Inc.	CIRCOR International, Inc.
Commercial Vehicle Group, Inc.	EnPro Industries, Inc.	ESCO Technologies Inc.

Graco Inc.	Haynes International, Inc.	Kadant Inc.

The consultant reviewed the market data for the peer group with members of management and the CEO to obtain their views on the relative value of each position and differences in responsibilities between our jobs and those in the comparator groups.

In addition, we also consider data from compensation surveys published by leading compensation consultants and advisory

firms including Mercer and Willis Towers Watson. The survey analysis targets companies of comparable size in the manufacturing sector, supplemented with general industry data as needed. The analysis of both the peer group and published surveys includes review of target and actual base salary, annual bonus, long term compensation and total compensation.

Our Target Pay Mix

The total compensation package for our executive officers consists of base salary, annual incentives, long-term incentives and benefits. In determining both the target level of compensation and mix of compensation elements, we consider market practice, business objectives, expectations of our shareholders and our own subjective assessment of individual executives' performance, growth and future potential. We have chosen a target mix of base salary, annual incentives and long term incentives that generally reflects our peer industrial companies, with actual pay mix based on the performance of our Company and of the individual. Peer company practices

will continue to be monitored as one reference point as we make decisions regarding target pay mix. However, we will also continue to make strategic decisions based on our unique business objectives and circumstances, which may differ from peer company practices and circumstances. We believe the current target pay mix achieves several important objectives: it supports a strong pay-for-performance culture; it balances the focus on annual and long-term objectives in support of our business strategy; it satisfies the need for flexibility to motivate and reward exceptional performance.

Factors Considered in Making Compensation Decisions

Actual compensation levels are a function of Company and individual performance as described under each specific compensation element below. When making pay decisions, the Compensation Committee considers the competitiveness of individual elements of compensation, as well as the aggregate sum of base salary, annual incentives and the expected value of long-term incentives (determined at grant) for an executive officer. Awards are generally prorated if a NEO is promoted during the year, based on the timing of the promotion. The Compensation Committee may also consider salary increase history, past incentive awards and past equity awards as context in understanding year-to-year changes in compensation and retention effect of prior awards. Under the Annual Incentive Plan and Performance RSU grant, initial

awards are determined based upon target values established for each of the NEOs and then adjusted upon comparison of actual performance to pre-established criteria. The Compensation Committee retains the discretion to decrease the size of individual awards in situations where an executive officer's individual performance falls below expectations. Final decisions on any major element of compensation, as well as total compensation for executive officers, are made by the Compensation Committee or the Board of Directors. Our Compensation Committee is comprised entirely of independent Directors and our CEO does not participate in discussions related to his compensation when presented to the Board of Directors.

The Compensation Committee's Position on Compensation and Excessive Risk

In establishing the structure and levels of executive compensation, the Compensation Committee has been mindful of the potential for risk taking by management to achieve certain target or above target incentives. The Compensation Committee has sought to balance fixed and variable compensation, short-term and long-term compensation, the performance metrics used in determining incentive compensation and the level of in-service and post-retirement benefits to mitigate unnecessary or excessive risk taking.

Additionally, the Company has adopted policies and programs which encourage management not to take excessive risks including:

- A minimum Earnings before Interest and Taxes (EBIT) trigger, which must be satisfied before any payouts can be made under the Annual Incentive Plan;
- Stock Ownership guidelines for all officers; and
- A comprehensive Clawback Policy.

COMPENSATION DISCUSSION AND ANALYSIS

Components of Compensation**Base Salary**

Base salary provides a fixed amount of compensation appropriate to attract and retain key executives and to underpin the cyclic nature of our business that can cause fluctuations in variable compensation from year to year. The Compensation Committee reviews base salaries on an annual basis, recommends adjustments to the CEO's and CFO's salaries to the Board of Directors and approves adjustments for other NEOs. Salary adjustments are based on an assessment of the individual executive's performance and our goal of achieving market parity with the salaries of executives in the competitive market, recognition of promotion or other increases in responsibility, the scope of the executive's role relative to our other executives and the general economic environment impacting the Company. History of salary increases may also be reviewed and considered. Mid-year adjustments are considered when there is a significant change in the executive's role or responsibility.

The Compensation Committee has recommended that any adjustments to salary for an executive officer will depend upon a formal annual review of job performance, accomplishments and progress toward individual and/or overall goals and objectives for each segment of our business that such executive officer oversees, as well as his or her contributions to our overall direction. Long term growth in shareholder value is an important factor. The results of executive officers' performance evaluations, as well as their demonstration and support of the Company's values, including strong ethics, leadership and sound corporate governance, form a part of the basis of the Compensation Committee's decision to approve, at its discretion, or recommend to the Board for the CEO and CFO, future adjustments in base salaries of our executive officers.

The Committee approved the following base salary adjustments effective April 1, 2018 for our NEOs:

Annual Incentive Plan

The purpose of the Annual Incentive Plan is to attract, motivate, reward and retain highly qualified executives on a competitive basis and provide financial incentives that promote Company success.

At the beginning of each fiscal year, our Compensation Committee recommends, and our Board approves, the key measures or Drivers for the Annual Incentive Plan. The Annual Incentive Plan focuses on the short-term goals that are most important to our success over the fiscal year and that are generally within the control of the participants. It is the policy and ongoing intention of our Board of Directors to establish targeted performance levels for each Driver at the

beginning of the fiscal year or the start of the respective performance period. Targeted performance levels are generally set for our Company as a whole, but may also encompass individual business units, groups, divisions, or individual performance levels, as appropriate. Drivers and targeted performance levels are based on the Board of Directors' assessment of our priorities, outlook, current and projected economic conditions and other pertinent factors, and are intended to be challenging, but achievable with significant and effective effort.

The Board of Directors reviews audited year-end results to determine whether targeted performance levels have been

met. The Board of Directors retains discretion to cap, reduce, or eliminate payments under the Annual Incentive Plan. The Board of Directors also determines the weighting to be assigned to each Driver. For most Drivers, goals are set at threshold, target and maximum levels. Payouts for these

Drivers are determined by multiplying the appropriate weighting by the percentages outlined in the table below; linear interpolation is used to determine percentages when performance falls between levels. The aggregate payout to any NEO may not exceed 200% of target.

Fiscal Year 2018 Annual Incentive Plan Design

The Annual Incentive Plan (AIP) for fiscal year 2018 was designed to help us focus on increasing profitability while managing our strategic priorities to position the Company for longer term profitable growth. For fiscal 2018, fifty percent (50%) of our NEOs' target was based on EBIT at the consolidated level, and fifty percent (50%) was based on consolidated Free Cash Flow. Drivers and associated

weightings for fiscal year 2018, which were established by the Board of Directors for each executive officer, are shown below. Our CEO has the ability to assign an individual performance factor to each of the individual NEOs, other than CEO, of up to 25% up or down based upon his evaluation of their individual performance. Lastly, no AIP will be earned unless Consolidated EBIT is positive.

- Better align key associates with our business strategies and with our shareholders' interests; and
- Provide opportunity for long term compensation that is competitive with peer companies and sufficient to attract and retain executive talent to effectively manage our business objectives.

In developing target levels for long term incentive compensation for NEOs in conjunction with our current equity-based compensation strategy, the following factors were considered:

- A competitive analysis;
- The impact of the NEOs' roles within our Company; and
- The cost and share usage associated with the proposed plan.

(1) Grant represents target value for fiscal year 2018 and was granted on May 22, 2017.

Stock Options and RSUs

Stock options are included to align management and shareholder interest by encouraging decisions and actions that result in long term stock appreciation and ownership interest for management. In order to support retention and align executives with our stock performance over a longer horizon, grants generally vest 25% per year commencing on the first anniversary of the grant date and remain exercisable for 10 years from the date of grant.

RSUs are designed to support executive retention and share ownership. In order to support retention and align executives with our stock performance over a longer horizon, RSUs vest 25% annually over the 1st through 4th anniversary from the grant date of awards.

Performance Restricted Stock Units

Grants of performance RSUs are made annually, with vesting dependent upon performance achieved. Fiscal year 2018 performance is based upon the two year Consolidated Net Revenue performance with final vesting of the award on the third anniversary of the grant. Actual vesting of the awards and their ultimate value will be determined by Consolidated Net Revenue results.

For fiscal year 2018, performance shares are subject to adjustment based on the performance and payout relationship as illustrated in the table below:

Driver Performance Level	FY18-19 Consolidated Net Revenue Targets	Percentage of Target
Exceed Target by 10% in Fiscal Years 2018 & 2019	\$1,758,900,000	150%

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

Meet Target in Fiscal Years 2018 & 2019	\$1,599,000,000	100%
Meet Target in Fiscal Years 2019 & 2020	\$1,599,000,000	75%
Goal reached in greater than 3 years		0%

The performance adjusted amounts are reflected in the Outstanding Equity Awards at Fiscal Year-End table contained in this proxy. The long term incentive strategy is designed to support our business strategy and the interests of our shareholders. Where possible, the program has been designed

such that long term incentives can qualify as performance-based compensation so that the expense associated with the program can be fully deductible for federal income tax purposes. Stock options and performance RSUs are expected to qualify as performance-based compensation.

COMPENSATION DISCUSSION AND ANALYSIS

Stock Option Granting Practices

The exercise price for any stock option is equal to the fair market value on the date of grant, which is an average of the high and low price on the date of grant. The date of grant is the date of the Board of Directors meeting at which the award is approved.

Retirement and Deferred Compensation

Retirement benefits provided to eligible U.S.-based NEOs are the same as those provided to our other full-time, salaried U.S.-based associates. Retirement programs are designed to provide a competitive benefit to associates while allowing the Company to manage costs. The Columbus McKinnon Corporation Monthly Retirement Benefit Plan, a qualified defined benefit pension plan (the Pension Plan), provides an annual benefit at age 65 equal to the product of (i) 1% of the participant's final average earnings (which is generally equal to the higher of (a) the average 12-consecutive month earnings during the last consecutive 60 months prior to retirement or (b) the average 12-consecutive month earnings during any 60-consecutive month period within the last 120 months prior to retirement) plus 0.5% of that part, if any, of final average earnings in excess of social security covered compensation, multiplied by (ii) such participant's years of credited service, limited to 35 years. Effective March 31, 2012, the Pension Plan was frozen to new entrants and to participants with less than 65 combined age and service points. Participants who had attained 65 combined age and service points at March 31, 2012 continued to accrue benefits. Subsequent to this, the Pension Plan was frozen to all participants as of December 31, 2017.

In calendar 2017, we maintained a 401(k) retirement savings plan covering non-union U.S.-based associates. Highly compensated associates were eligible to contribute up to approximately 9% of annual cash compensation (base salary and payments under the Annual Incentive Plan), subject to limits set by the Internal Revenue Code. The Company matching contribution for partial year within fiscal 2018 was between 25% and 100% of associate contributions up to

6% based on years of service. Associates who were not grandfathered in the Pension Plan were also eligible for a core contribution equal to 2% of eligible wages. As of 1/1/2018, we changed our 401(k) to a Safe Harbor 401(k) retirement savings plan covering non-union U.S.-based associates. Associates may now contribute 100% of eligible annual cash compensation, subject to limits set by the Internal Revenue Code. The match is now standard for all associates, with 100% of the first 4% matched and all associates receiving a core contribution of 2% of eligible wages.

We maintain an Employee Stock Ownership Plan for the benefit of our U.S.-based, non-union associates including our U.S.-based NEOs. This Plan is considered a retirement benefit by the Company in conjunction with its defined benefit pension and 401(k) retirement savings plans. Effective January 1, 2012, this Employee Stock Ownership Plan was closed to new participants. The final ESOP allocation was made on March 31, 2015. All participants are 100% vested and no future contributions will be made to the plan.

We maintain a non-qualified deferred compensation plan (the NQDC Plan) under which eligible participants (including our Directors and U.S.-based NEOs) may elect to defer a portion of their cash compensation. The NQDC Plan offers a company match and core contributions consistent with the benefits each individual is eligible for in our qualified 401(k) plan. Participants may defer up to 75% of their base salary and up to 100% of annual short-term and long-term incentive cash compensation. Payment of balances will occur in accordance with Internal Revenue Code Section 409A requirements.

Employment Agreements

With the exception of Mr. Morelli, the Company has no employment agreements with its NEOs, but does provide the NEOs with eligibility for severance benefits under our general severance policy upon delivery of an acceptable release of legal claims.

Mr. Morelli's agreement, entered into in February 2017, has a fixed term of three years and is then automatically renewed annually on the anniversary date for an additional one-year term unless the Company gives Mr. Morelli written notice prior to the anniversary date of its intention not to extend the term. Mr. Morelli's salary may be reviewed from time to time by the Board but shall not be less than \$675,000 per year.

Mr. Morelli participates in our Annual Incentive Plan in an amount to be set by the Board but his Target Annual Bonus shall not be less than 100% of his base salary. Additionally, Mr. Morelli participates in our Long Term Incentive Program at the discretion of the Company but the annual Long Term Incentive opportunity shall be no less than 175% of his base salary. Mr. Morelli's agreement also contains various restrictive covenants relating to non-competition, non-solicitation, and the protection of confidential information and non-disclosure. Finally, in the event of a termination of Mr. Morelli's employment by the Company without Cause or by Mr. Morelli for Good Reason during the Employment Period, as such

terms are defined in his Employment Agreement, Mr. Morelli is entitled to receive, (a) his Base Salary through the Date of Termination, to the extent not previously paid, (b) reimbursement for any unreimbursed business expenses incurred by Mr. Morelli prior to the Date of Termination, (c) accrued but unused paid time off as of the Date of Termination, and (d) if Mr. Morelli executes and delivers a Release and Discharge of All Claims substantially in a form approved by the Company, he shall be entitled to the following payments and benefits: (i) two times (2x) the sum of (x) his Base Salary, and (y) the Target Annual Bonus for the year of termination, (ii) a pro rata bonus amount of

Annual Bonus for the year of termination, (iii) a cash payment equal to twenty-four (24) months times the monthly cost Mr. Morelli would incur if he elected to receive COBRA coverage under all Company group health care plans under which he is receiving coverage at the time of termination, (iv) automatic vesting in all employee welfare and benefit plans in which he is participating as of the Date of Termination, and (v) unless otherwise provided in an equity award agreement, full vesting as of the Date of Termination in any and all equity awards held by Mr. Morelli immediately prior to the Date of Termination.

Change-In-Control Agreements

We have entered into change-in-control agreements with our NEOs and certain other of our officers and associates. The intent of these agreements is to provide executive officers with financial security in the event of a change-in-control to facilitate a transaction which may benefit shareholders but result in job loss to executives. With the exception of Mr. Morelli's change-in-control agreement, the change-in-control agreements provide for an initial term of one-year, which, absent delivery of notice of termination, is automatically renewed annually for an additional one year term. Mr. Morelli's change-in-control Agreement, entered into in February 2017, has an initial term through October 2020, and is then automatically renewed annually on November 1st for an additional one-year term, absent delivery of notice from the Company.

Generally, each of the NEOs is entitled to receive, upon termination of employment within six months preceding or 24 months after a change-in-control of our Company (unless such termination is because of death, disability, for cause or by the officer or associate other than for good reason, as defined in the change-in-control agreements), (i) a lump sum severance payment up to three times the sum of (a) his or her

annual salary and (b) the greater of (1) the annual target incentive under the Annual Incentive Plan in effect on the date of termination and (2) the annual target incentive under the Annual Incentive Plan in effect immediately prior to the change-in-control, (ii) a lump sum payment, in cash, equal to thirty-six (36) times the monthly cost of continued coverage if COBRA is elected under the Company group health plans, (iii) a lump sum payment equal to the actuarial equivalent of the pension payment which he or she would have accrued under our tax-qualified retirement plans had he or she continued to be employed by us for three additional years, (iv) unless otherwise provided in an equity award agreement, all options, restricted shares or units and performance shares or units become fully vested and (v) certain other specified payments. The events that trigger a change-in-control under these agreements include (i) the acquisition of 20% or more of our outstanding common stock by certain persons, (ii) certain changes in the membership of our Board of Directors, (iii) certain mergers or consolidations, (iv) certain sales or transfers of substantially all of our assets and (v) the approval by our shareholders of a plan of dissolution or liquidation.

Clawback Policy

In October 2009, the Compensation Committee adopted a Clawback Policy applicable to our executive officers and certain other associates. Under the policy, in the event of (i) a material restatement of our consolidated financial

statements, other than any restatement required pursuant to a change in applicable accounting rules or (ii) a violation of a confidentiality, non-solicitation, non-competition, or similar restrictive covenant or (iii) a covered person engages in willful fraud that causes harm to our Company, (collectively (i), (ii) and (iii) is referred to as Detrimental Conduct), which Detrimental Conduct occurs either during employment with our Company or after such employment terminates for any reason, our Board of Directors or the Compensation Committee may, to the extent permitted by law and to the

extent it determines that it is in our best interests to do so, in addition to all other remedies available, require reimbursement or payment by the covered person of Any amount (whether in cash or property) paid, payable or realized (including, but not limited to option exercises) under any plan or program providing for incentive compensation, equity compensation or performance-based compensation (Covered Plans) received by any covered person on or after October 19, 2009 that would not have been received had the consolidated financial statements that are the subject of such restatement been correctly stated (except that the Board or Compensation Committee shall have the right to require reimbursement of the entire amount of any such amount referenced above from any covered person whose fraud or other intentional

misconduct, in the Board's or Committee's judgment, alone or with others caused such restatement); and any amount (whether in cash or property) paid, payable or realized (including, but not limited to, option exercises) by a covered person under a Covered Plan if the Board or Compensation Committee determines that covered person engaged in detrimental conduct even in the absence of a subsequent restatement of our financial statements.

The Board or the Compensation Committee has sole and absolute discretion not to take action upon discovery of Detrimental Conduct, and its determination not to take action in any particular instance shall not in any way limit its authority to terminate participation of a covered person in a plan.

Tax and Accounting Considerations

We generally do not consider accounting and tax issues in setting compensation levels or in establishing the particular elements of compensation. As discussed below, however, when our compensation committee grants awards under our long-term incentive program, the committee does consider the accounting for various stock-based incentives under FASB ASC Topic 718 and the tax treatment of such incentive awards under Section 162(m) of the Internal Revenue Code. However, on December 22, 2017, the Tax Cuts and Jobs Act (the "Tax Act") became law, significantly amending Section 162(m). The Tax Act eliminated the performance-based compensation exception with respect to tax years beginning January 1, 2018, but included a transition rule with respect to compensation that is provided pursuant to a written binding contract in effect on November 2, 2017 and not materially modified after that date. Accordingly, commencing in 2018,

the company's tax deduction with regard to compensation of covered employees generally will be limited to \$1 million per taxable year for each officer. We will generally seek to preserve the deductibility of performance-based compensation by meeting the requirements of Section 162(m), as amended by the Tax Act, in accordance with the transition rule applicable to binding contract in effect on November 2, 2017, to the extent practicable and in the best interests of the Company and its stockholders.

Additionally, Section 409A of the Internal Revenue Code generally imposes a tax on non-qualified deferred compensation arrangements which do not meet guidelines established by regulations under the Internal Revenue Code. The Company's non-qualified deferred compensation arrangements are intended to comply with Section 409A.

- The amounts shown in this column reflect the aggregate grant date fair value for restricted stock units and performance shares granted in the year indicated under our Long Term Incentive Plan. However, for purposes of this table, estimates of forfeitures have been removed. The grant date fair value for each restricted stock unit is
- (1) equal to the market price of our common stock on the date of grant. The assumptions used in valuing the performance shares are described in Note 15 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended March 31, 2018 filed with the Securities and Exchange Commission on May 30, 2018. The maximum amount that may be earned is equal to target.
 - (2) The amounts shown in this column reflect the aggregate grant date fair value for non-qualified stock options to purchase our common stock granted in the year indicated under our Long Term Incentive Plan. However, for purposes of this table, estimates of forfeitures have been removed. A Black-Scholes valuation approach has been chosen for these calculations. The assumptions used in valuing these grants are described in Note 15 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended March 31, 2018 filed with the Securities and Exchange Commission on May 30, 2018.

Morelli and Rustowicz
 - (4) are not covered by a Company-sponsored pension plan. In addition, the Company sponsors a non-qualified defined contribution plan of deferred compensation. Participation is detailed in the Non-Qualified Deferred Contribution Plan table.
 - (5) Consists of matching contributions under the Columbus McKinnon Thrift 401(k) plan. For Mr. McCormick, represents matching contributions under the Magnetek 401(k) plan.

- (1) The grant date is the date on which the equity awards were approved by our Board of Directors.

(2) Represents the potential payout range under the Annual Incentive Plan discussed above. The final fiscal year 2018 payout can be found in the Summary Compensation Table in the column entitled Non-Equity Incentive Plan Compensation.

(3) Represents the potential payout range related to performance shares awarded to NEOs on the grant date, subject to achievement of performance targets. The performance shares are earned based upon the consolidated net revenue performance for the period beginning April 1, 2017 and ended March 31, 2019. Each performance share will be settled in a share of our common stock.

(4) Represents per-share exercise price of the options and is equal to the average of the high and low price on the grant date.

(5) Amounts in this column reflect the aggregate grant date fair value of the equity awards. The grant date fair value for each performance share and restricted stock unit is equal to the average of the high and low market price of our common stock on the date of grant. A Black-Scholes valuation approach has been utilized for valuing the options. The assumptions used in valuing these awards are described in Note 15 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended March 31, 2018 filed with the Securities and Exchange Commission on May 30, 2018.

(6) Represents RSUs granted under the fiscal year 2018 long-term incentive program which vest at a rate of 25% per year beginning one year from the date of grant, except that RSUs may vest earlier in the event of death, disability, retirement, or change-in-control.

(7) Represents the number of shares of our common stock underlying options awarded to the NEOs on the grant date. The options vest at a rate of 25% per year beginning one year from the date of grant, except that options may vest earlier in the event of death, disability, retirement or change-in-control. They expire 10 years from the date of grant, or earlier in the event of death, disability or retirement. The grant date fair value of option awards is \$7.66 per share based on the Black Scholes valuation as described in Note 15 to our consolidated financial statements included in our Annual Report in Form 10-K for the year ended March 31, 2018 filed with the Securities and Exchange Commission on May 30, 2018.

CEO Pay Ratio			

We believe executive pay must be market competitive and internally fair and equitable to motivate our associates to create shareholder value. The Compensation and Succession Committee monitors the relationship between the pay our executive officers receive and the pay of our associates to ensure we remain competitive, fair and equitable. The Compensation and Succession Committee reviewed the CEO pay total from the Summary Compensation Table to the pay of our median employee's compensation for fiscal year 2018.

The compensation of our CEO in fiscal year 2018 was approximately 52:1 times the median pay of our employees.

Our CEO to median employee pay ratio is calculated in accordance with the SEC's 2018 proxy statement requirements pursuant to Item 402(u) of Regulations S-K. We determined

the median employee through examination of the calendar year 2017 annual total compensation for all associates, excluding the CEO who were actively employed on December 31, 2017, the final day of the calendar year. We included all employees by applying a recognized test as defined by labor law. We annualized the pay of any associates that were absent without pay or newly hired during the fiscal year. We believe the use of annual total compensation for all associates consistently applies the measure globally.

After identifying the median employee based on annual total compensation we calculated this associates annual total compensation using the same methodology used for our named executive officers as set for the in the 2018 Summary Compensation Table.
