This Annual Report on Form 10-KSB and the documents incorporated herein by reference contain forward-looking statements that have been made pursuant to the provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on current expectations, estimates and projections about our industry, management's beliefs, and assumptions made by management. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates," variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and assumptions that are difficult to predict; therefore, actual results and outcomes may differ materially from what is expressed or forecasted in any such forward-looking statements.

PART I

Item 1. Description of Business

General

OnScreen Technologies, Inc. (sometimes hereafter referred to as "OnScreen(TM)" or "the Company") is a Colorado corporation organized on April 21, 1998. The Company's principal place of business is located at 200 9th Avenue North, Suite 210, Safety Harbor, Florida 34695. The Company is primarily focused on the marketing and sale of its sign display platform products under the names RediAlert(TM), RediAd(TM), Ready Dispatch Emergency Sign(TM) (RDES), Living Window(TM) and RediDMS(TM).

Our product lines utilize the OnScreen(TM) direct view LED (light emitting diode) sign display technology (sometimes referred to as the "OnScreen(TM) LED architecture" or "OnScreen(TM) technology" or "OnScreen(TM) LED technology"). The OnScreen(TM) LED architecture, incorporates a variety of patent pending designs of a new generation of bright LED products that provide key design improvements in wind load, heat dissipation, weight and brightness of LED sign displays. The Company's plan is to focus all of its resources on the commercialization of the OnScreen(TM) technology.

Our LED products are specially designed to provide display solutions into vertical markets including commercial and government. The commercial market targets include, but are not limited to the automotive industry and retail point of purchase stores. The government market targets are the Department of Transportation, Homeland Security, Law Enforcement, Emergency Responders and FEMA.

The OnScreen(TM) LED architecture provides a platform for the production of LED display products in the current market that are lighter than competitive products and provides a corresponding reduction in wind loading. These architectural benefits yield products that could be easy to install, are portable and require less support infrastructure, which opens new markets for LED products. Two product lines focus on the company's Redi-Alert(TM) Rapid Dispatch Emergency Signs and Redi-Ad(TM) Rapid Dispatch Advertising Signs target

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

markets. These new lines of LED products provide the world's first truly portable LED products for Emergency Response and commercial advertising using the OnScreen(TM) LED sign technology. Powered and transported by any vehicle, these products give highly visible emergency information or advertising messages in less than five minutes of set up time. The RediAd(TM) Rapid Dispatch Advertising Signs product lines are specifically developed for special event advertising where message visibility is key and space for signage is at a premium.

4

A third product, focused on the commercial marketplace, is Living Window(TM); a unique display for commercial advertising that is both see-through and bright. The see-through capability allows outside light through the sign while not obstructing sight through the window from the inside. Because of the light weight and manner of installation, integrity of the building is not disturbed. As a featured option, all of the Company's products can be controlled and messages changed wirelessly from nearly any location within the continental United States.

INDUSTRY OVERVIEW

Utilizing bright LEDs in large and small scale products has been expanding over the past several years. LED's have become the technology of choice for products because they offer significant advantages in brightness, energy efficiency and longer product life over traditional illumination choices. Until the advent of high-brightness LED display technology, few options existed for videotext and motion displays to be viewed in direct sunlight.

Significant energy is required to illuminate an LED motion display in direct sunlight. Energy consumption has become a limiting factor in the advancement of outdoor LED displays. Also, significant heat is generated when powering LED's to brightness adequate to be seen in direct sunlight. Current LED packages and heat transfer mechanisms generally do not easily accommodate close pixel spacing on this generation of products - a limiting factor when viewed from any distance less than a couple hundred feet. It also means that previously a commercial product with real market potential, i. e., outdoor television and medium scale display advertising, up to now has been technically difficult and expensive to produce. The required pixel spacing for high resolution displays while limiting the corresponding heat transfer as with current display architectures has been difficult and expensive to achieve.

To date, the leading cause preventing a larger proliferation of large-scale LED products has been cost. The Company believes that a more cost effective display technology can result in a significantly deeper market penetration for these displays.

ONSCREEN(TM) LED TECHNOLOGY

OnScreen Technologies, Inc. has created a range of products with significant architectural benefits and brighter visibility than the current generation of sign displays. Our sign displays are visible in direct sunlight, avoiding many of the disadvantages associated with current displays, including sun-loading, wind-loading and excessive weight. The OnScreen(TM) LED technology is focused on delivering simple light weight, see-through arrays that eliminate the need for complex modules.

Basic OnScreen(TM) LED Architecture

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

In our products, LEDs are placed periodically on a porous metal screen or, in some applications, on a porous rigid material or in a configuration that encourages rapid heat transfer, is lightweight and encourages convective airflow cooling. The metal screen forms a grid (similar to a large-scale window screen) of electrical conductors to provide power for LED operation. In the rigid porous material application, the electrical conductors are imbedded in the rigid porous material in similar grid fashion to the metal screen model. The grid is composed of dielectrically coated metal wires that act as electrical, thermal and structural conductors. In addition, the grid serves to transfer heat from the LEDs to the local environment via airflow through and along the grid and the grid is intended to act as a tensile structural support element.

5

Materials and Manufacturing Cost

OnScreen Technologies, Inc. has developed an open system that permits nearly unobstructed flow of air through the LED screen that significantly reduces wind loading. This advantage reduces weight of the sign system as well as the cost of the structure that holds the sign system. These advantages are present in all OnScreen(TM) LED technology product lines. The RediAlert(TM) design is based on an arrangement of slats similar to Venetian blinds that provide structural integrity without sacrificing any of the other advantages. The Company developed the initial RediAd(TM) product using a thin, light-weight rigid support material as the principal structure that holds the LEDs, supplies the necessary circuitry, but yet permits the characteristic OnScreen(TM) LED "see through" display and lightweight design. The systematic elimination of support material results in a unique screen effect.

Structure Benefits

Wind loading is reduced because of the "porous design" that permits air to pass through the LED grid and, at the same time, the ambient fluid air dissipates the heat from the LEDs. Because of this lighter weight and the reduced wind loading of the OnScreen(TM) LED architecture, the foundation and support structure can be reduced in size and cost. In a typical large scale sign deployment, the cost allocation is 30% sign and 70% installation and infrastructure.

Storage, Shipping, Handling and Setup Cost

Our products are lightweight, lighter than current systems, and offer significant savings in storage, shipping, handling and installation costs because of the "foldable" feature of several models that can be shipped laid back-to-back with greatly decreased volume, weight and shipping expense.

Life Cycle Cost

Because of increasing LED junction temperature in traditional LED displays, LED lifetime, brightness, and efficiency degrade. Our products are designed to dramatically reduce the LED junction-to-environment thermal resistance resulting in a lower junction temperature for any given brightness. This yields higher brightness at lower power levels, thus reducing operating cost and increasing reliability.

Weight

The unique OnScreen(TM) LED architecture reduces the weight-per-unit area compared to current systems primarily due to efficient convective air cooling

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

that eliminates some of the heavy external cooling needed for traditional displays and the difference in our base architecture versus complex rigid solid circuit board modules in present LED displays.

Brightness

Greatly increased brightness can be achieved through the use of innovative optics that address spatial tuning, horizontal axis optics, angular aperture control and optical efficiency. While brightness resulting from the OnScreen(TM) LED architecture can be optimized through the use of our innovative pixel packages, standard off the shelf pixels are used as well, depending on the application

LED SIGN MARKET POTENTIAL

The Company believes that there are no new architectural developments in the area of LED sign technology that address the key limitations of current LED display systems. The Company is focusing its efforts towards further defining

6

the market environment, size, growth, trends, competitive analysis, product roadmap, partnering strategy and commercial sales program. Specific applications of the OnScreen(TM) LED technology include: billboards, store windows, large screen indoor and outdoor products, outdoor commercial and residential televisions, curved and complex shaped displays, artistic light displays, Amber Alert project, Homeland Security, roadway "intelligent transportation systems" (ITS) and see-through displays on buildings. An additional potential marketing strategy is directed toward licensing the OnScreen(TM) LED technology intellectual property to worldwide manufacturers of LED sign products and components.

OnScreen Technologies, Inc. is currently pursuing markets related to LED products that include:

- o Indoor, see through window, commercial advertising products, Living Window(TM). Our market focus is retail level such as automobile dealerships, restaurants and markets.
- o Outdoor, rapidly deployed, mobile, commercial advertising products, RediAd(TM). The primary commercial market objective is the short term, nonrecurring daily or weekly specials, initial retail openings, holiday/special events and sporting events.
- o Rapidly deployed, highly mobile, emergency response products, RediAlert(TM). This product is directed toward government emergency response and public safety matters such as homeland security, Amber alert, automobile accidents, natural calamity and traffic control.
- o Stationary or fixed highway signage designed to display both highway traffic and emergency messages as well as commercial advertising messages, RediDMS(TM). Although these products will be mounted along government roadways for the purpose of traffic control and emergency information, when the circumstances permit, these products can be used for roadway advertising which will defray the signage expense.
- o All of the products include an optional wireless modem capable of transmitting and receiving data to be displayed on the sign at a moments notice.

MARKET ANALYSIS

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

In August 2003, OnScreen Technologies, Inc. contracted with Principia Partners, an independent third party new product research consulting firm, for a comprehensive market analysis of standard LED display application programs to analyze and assist the Company in determining the saleable features and breadth of applications for the OnScreen(TM) LED technology and the viable options for generating returns via intellectual property licensing of the OnScreen(TM) LED technology. This market analysis was designed to accomplish the Company's objectives of increased revenue and profitability through sale or licensing of its OnScreen(TM) LED technology. Based upon the market segmentation analysis and assuming that there are no "technological breakthroughs" in direct competition with the OnScreen(TM) LED technology, the Company believes that there exists a directly addressable market of nearly \$1 billion for OnScreen(TM) LED technology-based products.

Market Segmentation.

The objective of market segmentation is to provide the Company with the requisite framework to effectively implement a licensing strategy for the OnScreen(TM) LED technology. The research consulting firm analyzed the market segments for the Company by compiling the market size, growth rate, potential licensees/competitors, estimated time-to-market, value proposition of the OnScreen(TM) LED technology and competing technologies within each application. The potential licensees/competitors within each application were assessed in accordance to their technical/manufacturing capabilities, financial position and domestic and international distribution capabilities.

7

The total addressable market in 2002 for the OnScreen(TM) LED technology in Large Screen Displays was approximately \$1.5 billion and the total market potential for our technology was nearly \$1 billion, as shown in the table below based on a study provided by the research consulting firm.

2002 Addressable and OnScreen Technologies, Inc. Market Potential
For Large Screen Displays by Market Segment

Market Segment	Addressable Market		OnScreen(TM) LED technology Potential	
	\$ Million	% of Total	\$ Million	% of Total
Retail/Signage/Billboards	\$432	29%	\$299	31%
Indoor Arenas	\$392	26%	\$155	16%
Transportation	\$258	17%	\$231	24%
Outdoor Events	\$200	13%	\$173	18%
Rental and Mobile	\$177	12%	\$82	9%
Financial Exchanges	\$24	2%	\$15	2%
Total	\$1,483	100%	\$956	100%

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

ONSCREEN TECHNOLOGIES, INC. BUSINESS STRATEGY

The implemented Company business strategy includes an expanding basis of innovative ideas and products based on the OnScreen(TM) LED technology. The Company continues to develop and purchase OnScreen(TM) LED architecture related new product ideas and enhance its current technology. Examples of potential areas to which the company will look to create market opportunity include: LED pixel packages, custom mounting hardware, ventilation support systems and electronic subsystems.

Licensing

The Company intends to implement a broad intellectual property licensing program for new products in order to commercialize various segments of the OnScreen(TM) LED technology on a larger scale than is possible with the financial resources currently available to the Company. The OnScreen(TM) LED technology will be exploited through the development of worldwide license and royalty agreements. This strategy has been adopted for several reasons:

- o It is considerably less capital intensive than developing manufacturing and marketing capabilities.
- o It provides revenue streams immediately through advance licensing fees.
- o It provides an opportunity to fund further research and to build/develop the intellectual property portfolio surrounding the Company.
- o It can provide continuous long-term revenue streams.
- o It provides a more rapid adaptation and proliferation of the OnScreen(TM) LED technology.
- o It expedites finding potential corporate "copartners".
- o It provides the opportunity for greater margins.

Manufacturing In-House or Outsource Manufacturing

The Company will outsource production to a manufacturer and resell the resulting components. The Company entered into an exclusive manufacturing agreement with SMTC Manufacturing Corporation for the manufacture and assembly of the

8

OnScreen(TM) LED technology product lines. The Company has begun the commercialization of the RediAd(TM), Living Window(TM) and RediAlert(TM) product lines and expects delivery of the initial products during 2005.

Current Products

The Company has developed a commercial product line that features a new generation of bright LED products specifically designed for retail point of purchase advertising markets. This new product line provides highly effective advertising to several different vertical markets with very different buying habits, such as auto dealerships, grocery stores, movie theaters, malls, and restaurants.

The first commercial product will be marketed under the name, "Living Window(TM)" and will enable retailers to communicate a bright three-to-six-line text message directly to its customers through a 15 to 30 square feet, lightweight, see-through sign that is lighter than most comparable products and which can be easily installed to any window or suspended in any environment.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

Living Window enables any business owner to send a message to one or multiple locations in a matter of seconds via a remote computer. One of the most appealing factors of Living Window is its revolutionary product design that does not interfere with the integrity of the building architecture. The transparent design allows ambient light to enter, customers to see in and employees to see out, all while a variety of text and graphics modes are being displayed and controlled by advertisers or retailers over the Internet through a wireless network.

As an added feature, this wireless controlled product has the ability to display Amber Alert and Emergency Messaging to this product in times of need.

The final design is being completed for the second product of the commercial product line, RediAd(TM). The RediAd(TM) is a compact portable signage system with the capability of displaying three lines of variable text for detailed advertising messaging. The RediAd(TM) sign can be placed wherever it is convenient to quickly deploy a temporary LED advertisement message. This highly mobile folding 3' x 5' illuminated screen is independently powered and can interface with an optional remote control. The RediAd(TM) products have been designed to collapse and fit into the trunk of automobiles and are capable of being deployed by a single person.

The Company expects to complete the first product in its government emergence response product line during 2005. The first of this product line is the RediAlert(TM), Rapid Dispatch Emergency Sign (RDES). The RediAlert(TM) RDES is a compact portable signage system with the capability of displaying three lines of variable text for detailed messaging at emergency response incidents where it is important to quickly convey a message to motorists and pedestrians. Independently powered and with optional remote control, this easily deployable, folding 3' x 5' illuminated screen will provide law enforcement and emergency management personnel with the latest in technology and equipment to assist in communicating with the public. The RediAlert(TM) products have been designed to collapse and fit into the trunk of emergency vehicles. These products are capable of being deployed by a single person and represent a significant new market for our company. Our target markets include the rapidly expanding Homeland Security effort, federal and state homeland defense, law enforcement, military, emergency response and traffic routing.

The third product line in process presently is the RediDMS(TM), Dynamic Message Signs (DMS). The RediDMS(TM) is a stationary sign capable of displaying variable text that can be remotely controlled by means of a wireless modem. The Company intends to outsource the manufacture of the RediDMS(TM) and initially market the

9

RediDMS(TM) through standard Department of Transportation (DOT) programs. Contractual relationships with established Department of Transportation contractors are presently being pursued by the Company. Although the RediDMS(TM) is intended to be used primarily as roadway information and emergency information, it is possible that part of the cost to the government could be defrayed by contracting with commercial advertisers to display their promotional messages in conjunction with the usage by the DOT for such necessary messaging relating to Amber Alert, Emergency Ahead, Homeland Security Warnings and other emergency warnings. The primary benefits of our RediDMS(TM) are associated with the reduced infrastructure because of the light weight of our product.

RIGHTS TO ONSCREEN(TM)

The following scenario describes the evolution of the license and ownership of

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

the OnScreen(TM) LED technology patent:

- o On or about July 23, 2001, the Company entered into a Contract and License Agreement (hereafter the "License Agreement") with the inventor of the OnScreen(TM) LED technology which agreement entitled the Company to 75% of the revenue generated from the direct view OnScreen(TM) LED sign technology with angular dimension greater than 30 inches and guaranteed the inventor a minimum royalty of \$50,000 the first year, \$100,000 the second year and \$250,000 each year thereafter as well as providing that if John "JT" Thatch were no longer employed with the Company, he be involved to his satisfaction with terms between the Company and himself to continue with the OnScreen(TM) project (hereafter "Thatch OnScreen Rights").
- o On or about August 28, 2002, the Company entered into an agreement with Fusion Three, LLC (hereafter "F3") whereby F3 paid the annual \$50,000 Company license fee in consideration for the Company's conveying to F3 5% of the Company's interest in the License Agreement. In December 2002 the Company and F3 entered into an addendum to the August 28, 2002 agreement whereby F3 paid the \$100,000 second year revenue guarantee in consideration for an additional 10% of the Company's interest in the License Agreement.
- o In July 2003 F3 entered into an Option Agreement with the inventor for F3 to purchase all of the inventor's contract rights, including all royalty rights, in the License Agreement in consideration for \$500,000 (hereafter the "Option Agreement"). This agreement was contingent on the Company's consenting to the terms of the Option Agreement.
- o January 14, 2004, the inventor agreed to accept \$175,000 in lieu of the \$250,000 third year annual revenue guarantee payment. The Company paid this sum.
- o January 15, 2004, the Company refused to consent to the July 2003 Option Agreement and entered into an agreement with the inventor wherein it was agreed that in consideration for the sum of \$400,000 to be paid to the inventor by March 31, 2004, the inventor will convey to the Company all of the inventor's license and contract rights, including all royalty rights, in the License Agreement. This \$400,000 sum was paid on March 23, 2004.
- o On February 3, 2004, John "JT" Thatch, CEO/President of the Company, agreed to relinquish all Thatch OnScreen Rights in consideration for 1% of all revenue derived from any licensing fees received by the Company in connection with the OnScreen(TM) LED technology. Effective March 2005, the CEO/President relinquished his entitlement to the said 1% of revenues.

10

- o On February 3, 2004, Fusion Three, LLC (hereafter "F3") and the Company reached a Master Settlement and Release Agreement whereby, in consideration for the exchange of mutual releases and F3 relinquishing any claim to any of the OnScreen(TM) technology (including the 11.25% license payments), the Company paid to F3 during June 2004 \$150,000 plus agreed to pay the following annually declining percentages of revenue derived from the commercialization of the direct view LED video display technology with angular dimension greater than 30 inches: 5% in 2005 declining to 2% in year 2008 and thereafter. In the event of a change of control of the Company, the percentage of revenue stated above shall terminate and a single payment transaction fee shall be paid by the Company to F3 party ranging from 10% of the OnScreen(TM) appraised value up to \$100,000,000, 7.5% for the appraised value between \$100,000,001 and

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

\$200,000,000, 5% of the appraised value between \$200,000,001 and \$300,000,000, and 4% of the appraised value between \$300,000,001 and \$400,000,000 and 3% for the appraised value between \$400,000,001 and \$500,000,000 and 2% for any appraised amounts between \$500,000,001 and \$600,000,000.

- o Dated February 15, 2005, the inventor/owner of the OnScreen(TM) LED technology patent conveyed ownership of the OnScreen(TM) patent to CH Capital, Inc. This conveyance is subject to the above stated license rights of the Company.
- o Dated February 16, 2005, in consideration for the payment of two hundred thousand dollars (\$200,000), CH Capital, Inc. conveyed to the Company the OnScreen(TM) patent rights. This conveyance now vests in the Company the ownership of the OnScreen(TM) LED technology patent subject to the revenue rights of F3 and John "JT" Thatch as described above.

INTELLECTUAL PROPERTY

We rely on various intellectual property laws and contractual restrictions to protect our proprietary rights in products and services. These include confidentiality, invention assignment and nondisclosure agreements with our employees, contractors, suppliers and strategic partners. The confidentiality and nondisclosure agreements with employees, contractors and suppliers are in perpetuity or for a sufficient length of time so as to not threaten exposure of proprietary information. In addition, we intend to pursue the registration of our trademarks and service marks in the U.S. and internationally.

A provisional patent was filed August 26, 2002 on the OnScreen(TM) LED technology. The patent was filed July 23, 2003 on the OnScreen(TM) LED technology that contains over 50 separate claims. The Company retained Knobbe, Martens, Olson & Bear, LLP and Banner & Witcoff, Ltd. to manage our current interests relative to the prosecution of the national and international patents.

A provisional patent application was prepared and filed by Banner & Witcoff, Ltd., Intellectual Property Attorneys, Washington, D.C. on behalf of the Company on March 15, 2004 in the U.S. Patent and Trademark Office regarding Rapid Dispatch Emergency Signs.

In 2004, patent applications were made to protect our intellectual property rights relating to the RediAlert(TM) and Living Window(TM) products. The applications will greatly increase the intellectual property portfolio of OnScreen.

On February 25, 2004, we were notified by the United States Patent and Trademark Office that the examining attorney reviewed the "OnScreen(TM)" trademark application and found no similar registered or pending mark registered under Trademark Act Section 2(d), U.S.C. Section 1052(d) TMEP sect 1105.01. We were, however, required to disclaim the unitary expression "onscreen technology" because the individual component words of a complete descriptive phrase are not registerable. This disclaimer does not impair the "OnScreen(TM)" trademark nor the "OnScreen(TM) technology" words when used in conjunction with the trademark.

We have recently filed applications for trademark registration relating to "RediAlert", "Ready Dispatch Emergency Sign", "RediAd", "Living Window" and "RediDMS" relating to our OnScreen(TM) LED architecture signage. These applications remain in process.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

The Company continuously reviews and updates the existing patent and trademark filings and files new documentation both nationally and internationally in a continuing effort to maintain up to date patent and trademark protection.

There is no assurance we will be successful in registering these marks. Furthermore, we are exposed to the risk that other parties may claim we infringe their rights on these marks, which could result in our ceasing use of these marks, licensing the marks or becoming involved in costly and protracted litigation.

EMPLOYEES

As of December 31, 2004, the Company had seventeen fulltime employees. None of our employees is represented by a labor union. We consider our relations with our employees to be good. We plan to add additional staff as needed to handle all phases of our business.

RISKS RELATED TO OUR BUSINESS

Our limited operating history makes evaluating our business and prospects difficult.

We have been involved in the LED based business since July 2001, but have only recently begun to direct all of our efforts to commercialization of the OnScreen(TM) technology. Our limited operating history in this industry and the unproven nature of the OnScreen(TM) technology makes an evaluation of our future prospects very difficult. To date we have not achieved profitability and we cannot be certain that we will sustain profitability on a quarterly or annual basis in the future. You should carefully consider our prospects in light of the risks and difficulties frequently encountered by early stage companies in new and rapidly evolving technology.

We have all the risks of a new product developer in the LED technology business.

The Company, as the owner of the OnScreen(TM) LED technology patents, assumed the responsibility for completing the development of the OnScreen(TM) technology as well as determining which products to commercialize utilizing the OnScreen(TM) technology. Because this is a new and unproven technology, there is a risk that the technology, operation and development could be unsuccessful or that the products, if any, developed with the OnScreen(TM) technology will not be marketable. Such failures would negatively affect our business, financial condition and results of operations.

There is no assurance we will achieve profitability.

To date we have not received any revenue from the OnScreen(TM) technology. We have narrowed our scope of operation from EyeCatcherPlus and traditional LED screens to the singular product line of the OnScreen(TM) LED sign technology. For the year ended December 31, 2004 we had a net loss of \$7,904,229. We will need to begin generating significant revenues from the OnScreen(TM) LED architecture product line to offset current operational and development losses if the Company is to cover its current overhead expenses and cover further development and marketing expenses. There is no assurance that we will achieve profitability.

During 2004 we funded our operations with proceeds of approximately \$5,707,194

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

we received from private offerings of our securities. The Company is adequately confident that equity financing or debt will be available to fund its operations until revenue streams are sufficient to fund operations; however, the terms and timing of such equity or debt cannot be predicted. Management expects the OnScreen(TM) LED technology to be commercialized during the first half of 2005 and to begin generating revenue from the patent protected OnScreen(TM) LED architecture product line by the late first half of 2005. The Company cannot assure that it will generate revenues by that date or that its revenues will be sufficient to cover all operating and other expenses of the Company. If revenues are not sufficient to cover all operating and other expenses, the Company will require additional funding.

We may be dependent on only a few customers for a substantial portion of our revenues.

Licensing of fabrication and marketing of the OnScreen(TM) LED technology through third-party manufacturers and distributors, will cause us to be dependent on the manufacturing and marketing expertise of a few customers rather than many end users. Because of this dependence, if there is a fault in any single manufacturer/distributor relationship the financial impact could have a materially adverse affect on the Company. Because of the competitive nature of our business and the uncertainty of success of new Company OnScreen(TM) LED architecture products, we may be unable to secure sufficient customers quickly enough to attain and sustain profitability.

We will be dependent on third parties and certain relationships to fulfill our obligations.

Because manufacturing of the OnScreen(TM) LED technology products is licensed to companies better equipped financially and technologically to fabricate and manufacture OnScreen(TM) LED technology end products, we are heavily dependent on these third parties to adequately and promptly provide the end product. The Company is dependent upon its ability to maintain the agreements with these manufacturers and other providers of raw materials and components who provide these necessary elements to fulfill our product delivery obligations at the negotiated prices.

We initially depend on commercial sales to the advertising market.

We initially intend to market OnScreen(TM) LED architecture related products to retail sales businesses such as new and used automobile dealerships, department stores, restaurants, drug stores, etc. Because our OnScreen(TM) LED architecture is innovative, it has yet to be presented to the retail advertising market; therefore, its acceptance at this time is not known. Principally, our RediAd(TM) product is designed for this purpose.

Our second marketing focus is on government agencies.

Our second marketing focus is to sell our products to government agencies, such as departments of transportation, police departments and other emergency personnel. Our RediAlert(TM) is our first product directed toward this market. Generally, the inspection, approval process and funding involved with government agencies can take many months and are subject to cancellation by the governmental agency without penalty. Our business could suffer if we are not successful in marketing our products to a significant number of governmental agencies or if contracts we enter into with such agencies are cancelled.

The market for LED signage is extremely competitive.

Because the LED signage industry is highly competitive, we cannot assure you that we will be able to compete effectively. We are aware of several other companies that offer LED products, although not identical to our OnScreen(TM)

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

LED technology. These competitors provide their services primarily to the billboard industry. All of these competitors have been in business longer than

13

we have and have significantly greater assets and financial resources than currently available to us. We expect competition to intensify as innovation in the LED industry advances and as current competitors expand their market into the portable, lightweight signage that is the initial market for the OnScreen(TM) LED architecture. We cannot assure you that we will be able to compete successfully against current or future competitors. Competitive pressures could force us to reduce our prices and may make it more difficult for us to attract new customers and retain current customers.

The use of portable emergency roadway signage is a recent development and the extent of customer acceptance is not yet known.

Portable emergency roadway signage is a relatively new and evolving industry. For the Company to be successful, government agencies must be willing to obtain government administrative approval and public results satisfaction. There is no way to be sure that a sufficient number of government agencies will utilize our product to enable us to remain profitable.

We depend on key personnel and will need to recruit new personnel as we grow.

As a small company we are currently dependent on the efforts of a limited number of management personnel. We believe that given the development stage of our business and the large amount of responsibility being placed on each member of our management team, the loss of the services of any member of this team at the present time would harm our business.

If we are successful in expanding our product and customer base, we will need to add additional key personnel as we continue to grow. If we cannot attract and retain enough qualified and skilled staff, the growth of our business may be limited. Our ability to provide services to customers and expand our business depends, in part, on our ability to attract and retain staff with professional experiences that are relevant to technology development and other functions we perform. Competition for personnel with these skills is intense. We may not be able to recruit or retain the caliber of staff required to carry out essential functions at the pace necessary to sustain or expand our business.

We believe our future success will depend in part on the following:

- o the continued employment and performance of our senior management,
- o our ability to retain and motivate our officers and key employees, and
- o our ability to identify, attract, hire, train, retain, and motivate other highly skilled technical, managerial, marketing and customer service personnel.

If we fail to adequately protect our trademarks and proprietary rights, our business could be harmed.

The steps we take to protect our proprietary rights may be inadequate. We regard our patents, trademarks, trade secrets and similar intellectual property as critical to our success. We rely on trademark and patent law, trade secret protection and confidentiality or license agreements with our employees, customers, partners and others to protect our proprietary rights. Despite these precautions, it may be possible for a third party to copy or otherwise obtain

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

and use our intellectual property without our authorization. Although we have been granted registration rights for our OnScreen(TM) trademark, there is no assurance our pending trademark applications for RediAlert, RediAd, Living Window, RDES or RediDMS will be approved. Effective trademark, patent and trade secret protection may not be available in every country in which we may in the future offer our products. Therefore, we may be unable to prevent third parties from infringement on or otherwise decreasing the value of our trademarks, patents and other proprietary rights.

14

If we are to remain competitive, we must be able to keep pace with rapid technological change.

Our future success will depend, in part, on our ability to develop or license leading technologies useful in our business, enhance the ease of use of existing products, develop new products and technologies that address the varied needs of our customers, and respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis. If we are unable, for technical, legal, financial or other reasons, to incorporate new technology in new features or products, we may not be able to adapt in a timely manner to changing market conditions or customer requirements.

We may infringe intellectual property rights of third parties.

Litigation regarding intellectual property rights is common in the software and technology industries. We may in the future be the subject of claims for infringement, invalidity or indemnification claims based on such claims of other parties' proprietary rights. These claims, with or without merit, could be time consuming and costly to defend or litigate, divert our attention and resources, or require us to enter into royalty or licensing agreements. There is a risk that such licenses would not be available on reasonable terms, or at all. Although we believe we have the ability to use our intellectual property to operate and market our existing products without incurring liability to third parties, there is a risk that our products infringe the intellectual property rights of third parties.

Third parties may infringe on our intellectual property rights

There can be no assurance that other parties will not claim infringement by us with respect to our current or future technologies. We expect that participants in our markets will be increasingly subject to infringement claims as the number of services and competitors in our industry segment grows. Any such claim, with or without merit, could be time-consuming, result in costly litigation, cause service upgrade delays or require us to enter into royalty or licensing agreements. Such royalty or licensing agreements might not be available on terms acceptable to us, or at all. As a result, any such claim of infringement against us could have a material adverse effect upon our business, results of operations and financial condition.

RISKS RELATED TO OUR COMMON STOCK

Our Common Stock price may be volatile, which could result in substantial losses for individual stockholders.

The market price for our Common Stock is volatile and subject to wide fluctuations in response to factors including the following, some of which are beyond our control, which means our market price could be depressed and could impair our ability to raise capital:

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

- o actual or anticipated variations in our quarterly operating results;
- o announcements of technological innovations or new products or services by us or our competitors;
- o changes in financial estimates by securities analysts;
- o conditions or trends relating to the LED industry;
- o changes in the economic performance and/or market valuations of other LED related companies;
- o additions or departures of key personnel;
- o fluctuations in the stock market as a whole.

15

Our Certificate of Incorporation limits director liability thereby making it difficult to bring any action against them for breach of fiduciary duty.

As permitted by Colorado law, the Company's Articles of Incorporation limits the liability of directors to the Company or its stockholders for monetary damages for breach of a director's fiduciary duty except for liability in certain instances. As a result of the Company's charter provisions and Colorado law, stockholders may have limited rights to recover against directors for breach of fiduciary duty.

We may be unable to meet our future capital requirements.

We are substantially dependent on receipt of additional capital to effectively execute our business plan. If adequate funds are not available to us on favorable terms we will not be able to develop new services or enhance existing services in response to competitive pressures, which would affect our ability to continue as a going concern. We do not anticipate issuing any additional shares of our Series A or Series B Convertible Preferred Stock as a source of capital. We cannot be certain that additional financing will be available to us on favorable terms when required, or at all. If we raise additional funds through the issuance of equity, equity-related or debt securities, such securities may have rights, preferences or privileges senior to those of the rights of our common stock and our stockholders may experience additional dilution.

Penny stock regulations may impose certain restrictions on marketability of our stock.

The Securities and Exchange Commission (the "Commission") has adopted regulations which generally define a "penny stock" to be any equity security that has a market price (as defined) of less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. As a result, our Common Stock is subject to rules that impose additional sales practice requirements on broker-dealers who sell such securities to persons other than established customers and accredited investors (generally those with assets in excess of \$1,000,000 or annual income exceeding \$200,000, or \$300,000 together with their spouse). For transactions covered by these rules, the broker-dealer must make a special suitability determination for the purchase of such securities and have received the purchaser's written consent to the transaction prior to the purchase. Additionally, for any transaction involving a penny stock, unless exempt, the rules require the delivery, prior to the transaction, of a risk disclosure document mandated by the Commission relating to the penny stock market. The broker-dealer must also disclose the commission payable to both the broker-dealer and the registered representative, current quotations for the securities and, if the broker-dealer is the sole market maker, the broker-dealer must disclose this fact and the broker-dealer's presumed control over the market. Finally, monthly statements must be sent disclosing recent

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

price information for the penny stock held in the account and information on the limited market in penny stocks. Consequently, the "penny stock" rules may restrict the ability of broker-dealers to sell our securities.

We have never paid dividends on our Common Stock and do not expect to pay any in the foreseeable future. We are subject to restrictions on our ability to pay dividends.

A potential purchaser should not expect to receive a return on their investment in the form of dividends on our Common Stock. We have never paid cash dividends on our Common Stock and we do not expect to pay dividends in the foreseeable future. Our ability to pay dividends on our Common Stock is restricted by the terms of our agreements with the holders of our Series A and Series B Convertible Preferred Stock. Holders of our Series A Preferred Stock are entitled to annual dividends of 10% (currently aggregating \$54,783 quarterly, assuming no conversion). Holders of our Series B Convertible Preferred Stock are entitled to annual dividends of \$1.00 per share. Currently all Series B Convertible Preferred Stock has been converted to common shares. To date, we have fulfilled our dividend obligations on the Series A Convertible Preferred Stock through the issuance of additional shares of our Series A Convertible Preferred Stock to the holders of our series A Preferred Stock as well as cash payments. We have accrued approximately \$18,000 regarding the Series B Convertible Preferred Stock dividends.

16

Substantial sales of our Common Stock could cause our stock price to rapidly decline.

The market price of our Common Stock may fall rapidly and significantly due to sales of our Common Stock from other sources such as:

- o The sale of Common Stock underlying the conversion rights of our Series A Convertible Preferred Stock and Series B Convertible Preferred Stock.
- o The sale of shares of our Common Stock underlying the exercise of outstanding options and warrants.
- o The sale of shares of our Common Stock, which are available for resale under Rule 144 or are otherwise freely tradable and which are not subject to lock-up restrictions.

Any sale of substantial amount of our Common Stock in the public market, or the perception that these sales might occur, whether as a result of the sale of Common Stock received by shareholders upon conversion of our Series A or Series B Convertible Preferred Stock, exercise of outstanding warrants or options or otherwise, could lower the market price of our Common Stock. Furthermore, substantial sales of our Common Stock by such parties in a relatively short period of time could have the effect of depressing the market price of our Common Stock and could impair our ability to raise capital through the sale of additional equity securities.

The covenants with our Series A and Series B Convertible Preferred Stock shareholders restrict our ability to incur debt outside the normal course, acquire other businesses, pay dividends on our Common Stock, sell assets or issue our securities without the consent of the Series A Convertible Preferred and Series B Convertible Preferred Stock Shareholders. Such arrangements may adversely affect our future operations or may require us to make additional concessions to the holders of the Series A Convertible Preferred Stock and Series B Convertible Preferred Stock in order to enter into transactions or take actions management deems beneficial and in our best interests of the holders of

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

our Common Stock.

The forward-looking information in this Form 10-KSB may prove inaccurate.

This Form 10-KSB contains forward-looking statements and information that are based on management's beliefs as well as assumptions made by, and information currently available to, management. When used in this prospectus, words such as "anticipate," "believe," "estimate," "expect," and, depending on the context, "will" and similar expressions, are intended to identify forward-looking statements. Such statements reflect our current views with respect to future events and are subject to certain risks, uncertainties and assumptions, including the specific risk factors described above. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, believed, estimated or expected. We do not intend to update these forward-looking statements and information.

ITEM 2. DESCRIPTION OF PROPERTY

OnScreen Technologies, Inc. owns no real estate. On March 29, 2001 the Company signed a lease with Safety Harbor Centre commencing May 1, 2001 for five years with an option for five additional years. The lease became effective August 27, 2001, the date that the Company first occupied the facility, at an initial monthly rental of \$10,972.24 (Common Area Maintenance and tax not included). Effective February 1, 2004, the Company negotiated with the lessor a reduction of the office rental space with a resulting monthly gross rent reduction of \$2,465.97. On October 15, 2004 the Company leased an additional office suite contiguous to the existing offices at a monthly rental of \$2,814 (Common Area Maintenance and tax not included).

17

ITEM 3. LEGAL PROCEEDINGS

On July 1, 2004, the Company filed a lawsuit against Mobile Magic Superscreen, Ltd. (breach of contract and civil conversion), Capitol City Trailers, Inc. (civil conversion) and another party (civil fraud) in the Court of Common Pleas of Franklin County, Ohio, Case Number 04 CVH 6884. This lawsuit relates to the 2001 contract with Mobile Magic Superscreen, Ltd. for the fabrication of a mobile LED superscreen that Mobile Magic failed to complete and deliver. Responses to the summons and complaint have been filed and the case is currently in the discovery process.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No items were submitted to a vote of security holders during the fourth quarter of 2004.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Market Value

Our Common Stock is traded on the OTC Bulletin Board (OTCBB) under the trading symbol "ONSC". The following table sets forth, the high and low bid prices of our Common Stock for the four quarters of 2003 and 2004 as reported by the National Quotation Bureau. The bid prices quoted on the OTCBB reflect inter-dealer prices without retail mark-up, markdown or commission and may not

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

represent actual transactions.

Year	Quarter	High Bid	Low Bid
----	-----	-----	-----
2003	First Quarter	.390	.320
	Second Quarter	.260	.180
	Third Quarter	.300	.240
	Fourth Quarter	1.050	.850
2004	First Quarter	1.090	.830
	Second Quarter	.950	.650
	Third Quarter	.920	.610
	Fourth Quarter	1.070	.620

Description of Securities

During the December 18, 2003 shareholders' meeting, the shareholders voted to amend the Company's Restated Articles of Incorporation to affect an increase in the number of \$0.001 par value common stock shares from 15,000,000 to 150,000,000 authorized common shares ("Common Stock"). The Company authorized 10,000,000 shares of \$0.001 par value Preferred Stock ("Preferred Stock"), issuable in series. The following description of our capital stock does not purport to be complete and is subject to and qualified in its entirety by our Articles of Incorporation and Bylaws, amendments thereto, including the Certificates of Designation for our Series A Convertible Preferred Stock, and Series B Convertible Preferred Stock and by the provisions of applicable Colorado law. Our transfer agent is Computershare Trust Company, Inc., 350 Indiana Street, Suite 800, Golden, Colorado 80401.

18

Common Stock

As of December 31, 2004, there were 63,680,020 shares of our Common Stock issued and outstanding and subject to 7,960,000 warrants and options that were issued principally in consideration for the offering of Units as discussed hereafter and consulting services rendered by others. The exercise prices range from \$0.001 to \$1.50 per share. As of December 31, 2004, we had in excess of 3,000 shareholders of record.

The holders of Common Stock are entitled to one vote per share for the election of directors and all other purposes and do not have cumulative voting rights. There is a restriction on the payment of any common stock dividends because any cumulative preferred stock dividends are required to be paid prior to the payment of any common stock dividends. Also, the retained earnings of the Company would be restricted upon an involuntary liquidation by the cumulative unpaid preferred dividends to the preferred stockholders and for the \$1.00 per share Series A and \$240 per share Series B liquidation preferences. Holders of our Common Stock do not have any pre-emptive or other rights to subscribe for or purchase additional shares of capital stock, no conversion rights, redemption, or sinking-fund provisions.

We have not paid any dividends on our common stock since inception. We expect to continue to retain all earnings generated by our operations for the development and growth of our business and do not anticipate paying any cash dividends to our common shareholders in the foreseeable future. The payment of future dividends on the common stock and the rate of such dividends, if any, will be determined by our Board of Directors in light of our earnings, financial condition, capital requirements and other factors.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

The Company entered into a stock purchase agreement on October 31, 2003 whereby the buyer agreed to purchase 1,000,000 shares of the Company's common stock for \$250,000 and also received warrants to purchase up to 1,000,000 shares of the Company's common stock at an exercise price of \$0.50 with an expiration date of February 28, 2004. Subsequent to year end, this subscription was not fulfilled and the warrants expired.

During 2004, the Company issued 50,000 shares of its common stock pursuant to the exercise of the rights of certain note holders granted under the default provisions of certain promissory notes. The issuance resulted in additional subscriptions receivable of \$1,250 for a total issuance price of \$1,250 or \$0.025 per share.

During 2004, warrants to purchase 1,420,736 shares of the Company's common stock were exercised. The Company received \$350,184 of cash and a note for the remaining \$150,000. The \$150,000 owed to the Company was not paid for the 300,000 shares that were recorded as issuable during 2004 and on October 11, 2004, the Company and investor agreed that they would not issue the 300,000 shares and would not collect the \$150,000 owed for those shares. The Company issued 1,120,736 shares of its common stock for the warrants that were exercised and paid.

As part of the October 11, 2004 agreement with a certain investor, the Company also agreed to issue 100,000 shares of stock to this party for the services they provided to the Company during the Company's negotiations with a third party which included the forgiveness by the third party of dividends that accrued on 114,343 shares of Series A Convertible Preferred Stock. These shares were valued at \$0.27 per share based on contemporaneous cash sales around the date of grant. The Company recorded the \$27,000 as general consulting expense.

19

During 2004, the Company granted and issued 100,000 shares of its common stock to a research and development provider. These shares were valued at \$0.27 per share based on contemporaneous cash sales around the date of grant. The \$27,000 was expensed to research and development costs

During 2004, a former employee exercised an option to purchase 5,000 shares of the Company's common stock at an exercise price of \$0.40 per share. The Company received \$2,000 for the exercise of this option.

During 2004, the Company issued 100,000 shares of its common stock to an individual for services. These shares were valued based upon the quoted market price of \$1.06 on the date of grant and the expense of \$106,000 was recorded during 2004.

During 2004, the Company issued 1,666,312 shares of its common stock to its President/CEO in accordance with his employment agreement. These shares were valued based upon the quoted market price of \$0.86 on the grant date and the expense of \$1,433,028 was recorded during 2004.

During 2004, the Company issued 450,000 shares of its common stock to the President of its OnScreen Products Division. The Company has a right to repurchase 300,000 of these shares from the employee for \$450 if the employee is terminated for cause or resigns. The amount of shares that can be repurchased by the Company declines by 150,000 shares each year, resulting in the shares being fully vested on November 1, 2006. The shares were valued at \$454,500 based upon the quoted market price of \$1.01 on the grant date.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

Certain notes were paid in full on March 12, 2004 by paying the note holders \$250,000 and issuing 12,500 shares of the Company's common stock. These shares were valued at \$11,500 based on the quoted market price of \$0.92 on the settlement date

During 2004, a note holder exercised the right to convert a \$215,861 note into 863,442 shares of the Company's common stock.

A creditor held a convertible promissory note for \$234,869 at 8% interest accruing from the note date of August 1999. The Company disputed the note; however, as a contingency, the Company recorded a total of \$328,058 in accrued expenses at December 31, 2003 related to this matter. On February 5, 2004, the Company satisfied this disputed note with 60,000 shares of the Company's common stock. These shares were valued at \$60,600 based upon the quoted market price of \$1.01 on the settlement date.

During 2004, the Company recorded a settlement loss of \$13,500 for 50,000 shares of its common stock that were issued to a third party. These shares were valued at \$0.27 per share based on contemporaneous cash sales.

Convertible Preferred Stock Series A

The Company designated 5,000,000 shares of preferred stock as new Series A Convertible Preferred Stock ("Series A"). The Series A is convertible to common shares on a four-for-one ratio, is due dividends at \$0.10 per share as authorized by the Board, has a liquidation value of \$1.00 per share and has equivalent voting rights as common shares on a share for share basis. As of December 31, 2004 there were 2,772,205 shares of our Series A Convertible Preferred Stock issued and outstanding.

20

During 2004, the Company sold and issued 25,000 shares of Series A Convertible Preferred Stock for cash at \$1.00 per share for total proceeds of \$25,000. Also, the Company received payment of \$50,000 for the Series A Convertible Preferred Stock subscription during 2003 and issued the 50,000 shares of Series A convertible preferred stock that was issuable at December 31, 2003.

During 2004, the Company issued 12,500 shares of its Series A Convertible Preferred Stock for consulting services totaling \$12,500. These shares were valued at \$1.00 per share based on contemporaneous cash sales.

During 2004, the Company issued 24,000 shares of Series A Convertible Preferred Stock for services totaling \$24,000 that was accrued as a liability at December 31, 2003. These shares were valued at \$1.00 per share based on contemporaneous cash sales.

During 2004, the Company issued 120,000 shares of its Series A Convertible Preferred Stock to its COO/CFO in accordance with his employment agreement. These 120,000 shares were valued at \$1.00 per share based on contemporaneous cash sales around the grant date. The total value of these shares of \$120,000 is being expensed over the three-year employment agreement with \$80,000 deferred and \$40,000 expensed as of December 31, 2004.

During 2004, the Company converted 98,375 shares of Series A Convertible Preferred Stock into 393,500 shares of the Company's common stock at the request of certain Series A Convertible Preferred Stock holders.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

During 2004, the Company recorded \$172,000 for the intrinsic value associated with the embedded beneficial convertible feature of the Series A Convertible Preferred Stock. This amount was computed as the difference between the conversion price and the fair value of the preferred stock, which was computed as the fair value of the common stock based on the quoted trading price at the preferred stock issuance dates, multiplied by the conversion ratio of four-for-one for Series A. This intrinsic value is limited to the amount of the proceeds allocated to the preferred stock. For financial statement purposes, this \$172,000 was recorded as a preferred stock dividend. Additionally during 2004, the Company recorded Series A convertible preferred stock dividends of \$270,583.

Convertible Preferred Stock Series B

On February 3, 2004, the Company's board of directors designated 30,000 shares of preferred stock as Series B Convertible Preferred Stock ("Series B"). The Series B is convertible to common shares on a one thousand-for-one ratio, is due dividends at \$1.00 per share, payable quarterly, as authorized by the Board and the dividends are cumulative. Series B has a liquidation value of \$240 per share and has voting rights of one thousand votes per Series B share. There were no shares of Series B Convertible Preferred Stock issued as of December 31, 2004. During 2004, the Company recorded 28,568 shares of Series B Convertible Preferred Stock as issuable. This is comprised of 23,203 Series B shares issuable to the private placement unit holders during 2003 and the exercise of certain warrants during 2004 and 5,365 Series B shares issuable to private placement shareholders during 2004. The 28,568 shares of Series B were converted to 28,568,240 shares of common stock during 2004

During 2004, the Company recorded \$28 for the intrinsic value associated with the embedded beneficial convertible feature of the Series B convertible preferred stock. This amount was computed as the difference between the conversion price and the fair value of the preferred stock, which was computed as the fair value of the common stock based on the quoted trading price at the

21

preferred stock issuance dates, multiplied by the conversion ratio of one thousand-for-one for Series B. This intrinsic value is limited to the amount of the proceeds allocated to the preferred stock. For financial statement purposes, this \$28 was recorded as a preferred stock dividend. Additionally during 2004, the Company recorded Series B convertible preferred stock dividends of \$17,901.

2003 Private Placement

During the fourth quarter of 2003, the Company had a private placement offering of common stock. From this offering, the Company received \$1,575,000 of cash proceeds and recorded a \$100,000 subscriptions receivable at December 31, 2003. The investors received 6,700,000 common stock shares, 6,700,000 common stock warrants with an exercise price of \$0.50 and an expiration date of February 28, 2004 and 3,350,000 common stock warrants with an exercise price of \$0.75 and an expiration date of May 30, 2004 (See Note 7H for details of warrants). The Company issued 5,900,000 shares of common stock during the first quarter of 2004 related to this private placement.

The remaining 800,000 shares from this private placement will not be issued because during July 2004, the Company and this party mutually terminated the subscription agreement and the Company paid back the \$100,000 originally paid, reduced the subscription receivable of \$100,000 to zero and did not issue the 800,000 shares that were recorded as issuable to this investor. The Company also

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

reduced its Series B convertible preferred stock issuable for the 1,433 shares of Series B related to this transaction. In addition, the Company paid \$68,121 as settlement of other amounts owed to this individual. The \$68,121 was recorded as a settlement loss during 2004.

On February 5, 2004, as part of the private placement the Company's Board of Directors authorized: a) 12,000 shares of Series B Convertible Preferred Stock to the private placement unit holders, b) 12,000 shares of Series B Convertible Preferred Stock upon the exercise of the \$0.50 warrant holders of the private placement and c) 6,000 shares of Series B Convertible Preferred Stock upon the exercise of the \$0.75 warrant holders of the private placement.

During 2004, warrants were exercised to purchase 6,700,000 shares of common stock from the private placement at \$0.50 per share and warrants were exercised to purchase 355,333 shares of common stock from the private placement at \$0.75 per share. The Company received \$3,616,500 of cash from the exercise of these warrants.

In conjunction with raising these funds, the Company paid in cash, offering costs of \$229,750 during 2003 and \$482,946 during 2004. The Company also issued 630,000 warrants during 2003 with an exercise price of \$0.001 per share that expire sixty days from their issuance valued at \$541,170, which cost is included in warrants granted for services in the additional paid-in capital (total offering costs of \$770,920 during 2003) (See Note 7H).

2004 Private Placement

During the third and fourth quarters of 2004, the Company sold some of its securities through a private placement. Each unit in the 2004 private placement was comprised of 666.67 shares of common stock and 1.194 shares of Series B Preferred Stock for each \$500 received. During the third and fourth quarters of 2004, the Company received \$2,246,456 of proceeds related to this 2004 private placement. The Company issued 2,995,274 shares of common stock and the 5,364.54 shares of series B convertible preferred stock were converted into common stock totaling 5,364,540 shares.

22

Investment Agreement

The Company had a prior agreement with Swartz Private Equity, LLC (Swartz) to provide certain funding to the Company based upon this agreement. If the Company did not meet certain requirements in the agreement the Company was also subject to a penalty of up to \$100,000 for each six month period and a \$200,000 penalty if the put agreement is terminated automatically or by the Company. At January 1, 2003, the Company owed \$200,000 of penalties and during 2003, the Company computed \$200,000 in penalties and \$300,000 in penalties was waived by Swartz which resulted in a \$100,000 accrued commitment penalty at December 31, 2003.

At January 1, 2003, Swartz had warrants to purchase 541,558 shares of the Company's common stock. During 2003, the Company and Swartz entered into an amendment to this agreement which extended the terms of each of the 541,558 warrants by two additional years. On October 22, 2003, Swartz exercised all of the 541,558 warrants in a cashless exercise transaction which resulted in Swartz being entitled to receive 379,907 shares of the Company's common stock.

On February 3, 2004, the Company and Swartz entered into a settlement and termination of investment agreement. The Company agreed to: i) pay \$10, ii) promptly issue the 379,907 shares of common stock from the cashless exercise of

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

the Swartz warrants of which Swartz agreed to limit its sales of these shares of Company stock to ten percent of the Company's trading volume for any calendar month, iii) Swartz shall retain the 100,000 shares of stock that had been issued during 2002 per the initial agreement and then were not valid as put shares as the put transaction was never executed, but the shares had been issued to Swartz and v) the investment agreement between the Company and Swartz shall terminate subject to the completion of items i - iv above. During February 2004, the Company issued the 379,907 shares of common stock (without any restrictive legends).

The 100,000 share were valued at \$104,000 using the quoted marked price of \$1.04 on the date of settlement. This \$104,000 settled the \$100,000 commitment payable that was owed to Swartz at December 31, 2003 and the remaining \$4,000 was recognized as a settlement loss.

Non-Employee Stock Warrants

During 2003, the Company reset the exercise price of warrants issued in a prior year to Swartz as follows: 25,478 warrants at \$0.20; and 200,000 warrants at \$0.25. The result under the variable accounting method was a net charge to commitment expense of \$12,349 during 2003. During 2003, the Company and Swartz entered into an amendment to their agreement which extended the terms of each of their 541,558 warrants by two additional years and the Company recorded an additional expense of \$53,777 related to these extensions.

During 2003, the Company granted warrants to purchase 2,105,000 shares of the Company's common stock to certain service providers at exercise prices ranging from \$0.001 to \$0.75. These warrants were valued at an aggregate of \$766,509. The Company recorded \$541,170 of the value of these warrants as offering costs during 2003 and the remainder of \$225,339 is recognized as consulting expense over the period of each consultants agreement. These warrants were valued using the Black-Schools Options Pricing Model using the following assumptions: expected life of 30 - 428 days, volatility of 161% - 253%, zero expected dividends and a discount rate of 0.91% to 1.2%. The expiration date of a warrant that was issued during 2003 for 50,000 shares was extended for one year during 2004. At December 31, 2004, 125,000 of these warrants are outstanding.

23

On November 12, 2003, the Company granted a warrant to purchase 50,000 shares of its common stock at an exercise price of \$0.25 with an expiration date of November 11, 2004 in conjunction with a settlement of monies owed. These warrants were valued at \$0.8214 per warrant, or \$41,070 using the Black-Schools Options Pricing Model using the following assumptions: expected life of 1 year, volatility of 209%, zero expected dividends and a discount rate of 0.94%. These warrants expired during 2004.

During 2003 the Company granted 300,000 warrants under the default provisions of certain notes payable which were valued at \$122,500 and charged to interest expense using the Black-Schools option pricing model with a 30 day expected life, volatility of 110% - 282%, zero expected dividends and a discount rate of 0.89% - 1.20%. All of these warrants were exercised during 2003.

During the fourth quarter of 2003, the Company had a private placement offering of common stock. In conjunction with this offering, the Company granted 6,700,000 common stock warrants with an exercise price of \$0.50 with a February 28, 2004 expiration date and 3,350,000 common stock warrants with an exercise price of \$0.75 with a May 30, 2004 expiration date. During May 2004, the Board of Directors extended the exercise date of the \$0.75 warrants from May 30, 2004

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

to June 30, 2004. At December 31, 2004, all of these warrants had been exercised. See Note 7H

On October 31, 2003, the Company granted a warrant to purchase up to 1,000,000 shares of its common stock at an exercise price of \$0.50 with an expiration date of February 28, 2004. These warrants were granted in conjunction with a stock purchase agreement dated October 31, 2003 to purchase 1,000,000 shares of the Company's common stock for \$0.25 per share. These warrants were expired at December 31, 2004.

During 2004 the Company granted warrants to purchase 1,395,736 shares of the Company's common stock to certain service providers at exercise prices ranging from \$0.25 to \$0.50. These warrants were valued at an aggregate of \$707,352 and are recognized as consulting expense over the period of each consultant's agreement. These warrants were valued using the Black-Schools Options Pricing Model using the following assumptions: expected life of 90 days - 3 years, volatility of 79% - 309%, zero expected dividends and a discount rate of 0.85% to 2.03%. At December 31, 2004, 725,000 of these warrants are outstanding.

During 2004 the Company granted warrants to purchase 50,000 shares of the Company's common stock under the default provisions of certain notes payable at an exercise price of \$0.025. These warrants were valued at \$46,500 and charged to interest expense using the Black-Schools option pricing model with a 30 day expected life, volatility of 74% - 100%, zero expected dividends and a discount rate of 0.85% - 0.92%. All of these warrants were exercised during 2004.

Employee Stock Options and Warrants

On June 26, 2000, the Company's Board of Directors adopted the OnScreen Technologies, Inc. 2000 Stock Option Plan (the "Plan"). The Plan provides for the issuance of incentive stock options (ISO's) to any individual who has been employed by the Company for a continuous period of at least six months. The Plan also provides for the issuance of Non Statutory Options (NSOs) to any employee who has been employed by the Company for a continuous period of at least six months, any director, or consultant to the Company. The Company may also issue reload options as defined in the plan. The total number of common shares of common stock authorized and reserved for issuance under the Plan is 600,000 shares. The Board shall determine the exercise price per share in the case of an

24

ISO at the time an option is granted and such price shall be not less than the fair market value or 110% of fair market value in the case of a ten percent or greater stockholder. In the case of an NSO, the exercise price shall not be less than the fair market value of one share of stock on the date the option is granted. Unless otherwise determined by the Board, ISO's and NSOs granted under the Plan have a maximum duration of 10 years.

The Company accounts for its stock-based compensation using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees"; accordingly, the differences between the exercise prices and the fair values of the common stock underlying the options on the dates of the grants are recorded as a compensation expense.

During the first quarter of 2004, the Company issued warrants to the COO/CFD and a director each to purchase 100,000 shares of the Company's common stock (200,000 in total). These warrants were valued at \$149,000 under the intrinsic value method of APB 25 based on quoted market prices and will be recorded as compensation expense over the service period.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

During 2004, a member of the Board of Directors was granted a five-year warrant to purchase 600,000 shares of common stock with an exercise price of \$0.25 for services provided.

During 2004, the COO was granted a five-year warrant to purchase 500,000 shares of common stock with an exercise price of \$0.25 for services provided.

For additional services to be provided, the President, OnScreen Products Division was granted a five-year warrant to purchase 2,000,000 shares of common stock with an exercise price of \$0.25 for services provided. This warrant can be exercised on or after November 1, 2006. The warrant expires if the employee does not complete his full employment term through October 31, 2006.

The Director of Administration was granted a five-year warrant to purchase 600,000 shares of common stock with an exercise price of \$0.25 for services provided.

During 2004, a total of 40,000 of stock options were granted to two employees. The exercise price exceeded the fair value of common stock based on contemporaneous common stock cash sales during 2004; therefore no compensation expense was recorded as there was no intrinsic value.

Certain Provisions of the Articles of Incorporation and Colorado Business Corporation Act

Our Articles of Incorporation provides that, "To the fullest extent permitted by Colorado Business Corporation Act as the same exists or may hereafter be amended, a director of the corporation shall not be liable to the corporation or its shareholders for monetary damages for breach of fiduciary duty as a director."

The Company shall indemnify and advance expenses to a director or officer in connection with a proceeding to the fullest extent permitted or required by or in accordance with the indemnification sections of the Colorado Business Corporation Act that provides that, "The corporation shall indemnify a person who was wholly successful, on the merits or otherwise, in the defense of any proceeding to which the person was a party because the person is or was a director, against reasonable expenses incurred by him or her in connection with the proceeding."

25

Shares Eligible for Future Sale

As of December 31, 2004, we had outstanding 63,680,020 shares of Common Stock. Of these shares, 12,173,665 shares are freely tradable without restriction or limitation under the Securities Act.

The 51,506,355 shares of Common Stock held by existing shareholders as of December 31, 2004 that are "restricted" within the meaning of Rule 144 adopted under the Securities Act (the "Restricted Shares"), may not be sold unless they are registered under the Securities Act or sold pursuant to an exemption from registration, such as the exemption provided by Rule 144 promulgated under the Securities Act. The Restricted Shares were issued and sold by us in private transactions in reliance upon exemptions from registration under the Securities Act and may only be sold in accordance with the provisions of Rule 144 of the Securities Act, unless otherwise registered under the Securities Act.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

As of December 31, 2004, we had issued and outstanding 2,772,205 shares of Series A Convertible Preferred Stock, all of which are "restricted" within the meaning of Rule 144 as noted above.

The possibility of future sales by existing stockholders under Rule 144 or otherwise will, in the future, have a depressive effect on the market price of our Common Stock, and such sales, if substantial, might also adversely affect our ability to raise additional capital.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS

Overview

OnScreen Technologies, Inc. is a publicly traded company (OTC-BB: ONSC) focused on commercializing its innovative technology to the world of visual communications. The company concentrates on motion display solutions and seeks to develop innovative approaches to visual communication and advertising products and delivery systems. The Company is focused on the design, development, licensing and sale of LED products manufactured with the OnScreen(TM) LED technology architecture.

The Company expects delivery of the initial products in the first half of 2005. Until the initial products are delivered, the Company does not expect to record any significant increase in revenues. Although the EyeCatcherPlus and the mobile LED jumbo screen truck are believed to be economically viable, management has assigned the rights to the EyeCatcherPlus screens to a third party for 5% of the revenues generated and continues to receive revenues from the mobile LED unit. The majority of management's focus is concentrated on the Company product development and marketing. Through licensing agreements and some established accounts, the Company expects to receive some revenue from its mobile LED truck and the motion display boards during 2005. The Company wrote-off the EyeCatcherPlus screens during 2004 as the revenue generated was not sufficient enough to support the value of the screens.

A priority of management during 2004 has been and is to raise the capital needed to continue to fund the development and marketing of the Company's products. During the year ended December 31, 2004, the Company received proceeds from sales of common stock totaling \$5,632,194 comprised of \$3,133,554, net of offering costs from the exercise of the \$0.50 and some of the \$0.75 warrants that were issued to the 2003 private placement unit holders, \$2,246,456 from the 2004 private placement, \$352,184 from other warrants and options exercised less \$100,000 that was paid back to an investor whose subscription agreement was terminated. During 2005, management is continuing to pursue private equity funding. These funds will enable the Company to develop its OnScreen(TM) LED technology products and continue the Company's operations until the Company brings the products to market.

26

During the year ended December 31, 2004, the Company continued to incur significant losses from operations. The Company incurred a net loss of \$7,904,229 for the year ended December 31, 2004. This net loss of \$7,904,229 includes non-cash charges of approximately \$4.3 million for equity given to employees and consultants for services provided.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

estimates and assumptions that have a significant impact on the results we report in the Company's financial statements. Some of the Company's accounting policies require us to make difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Actual results may differ from these estimates under different assumptions or conditions.

Asset Impairment

The Company reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset exceeds its fair value and may not be recoverable. In performing the review for recoverability, the Company estimates the future cash flows expected to result from the use of the asset and its eventual disposition. If the sum of the expected future cash flows (undiscounted and without interest charges) is less than the carrying amount of the asset, an impairment loss is recognized as the excess of the carrying amount over the fair value. Otherwise, an impairment loss is not recognized. Management estimates the fair value and the estimated future cash flows expected. Any changes in these estimates could impact whether there was impairment and the amount of the impairment.

Valuation of Non-Cash Capital Stock Issuances

The Company values its stock transactions based upon the fair value of the equity instruments. Various methods can be used to determine the fair value of the equity instrument. The Company may use the fair value of the consideration received, the quoted market price of the stock or a contemporaneous cash sale of the common or preferred stock. Each of these methods may produce a different result. Management uses the method it determines most appropriately reflects the stock transaction. If a different method was used it could impact the expense, deferred stock and equity stock accounts.

LIQUIDITY AND CAPITAL RESOURCES

General

The Company's cash and cash equivalents balance at December 31, 2004 is \$1,561,650 and its marketable securities available-for-sale is \$401,233. Its working capital balance at December 31, 2004 is \$1,465,819. The Company has funded its operations and investments in equipment through cash from operations, equity financings and borrowing from private parties as well as related parties. It has also funded its operations through stock paid to vendors, consultants and certain employees.

27

Cash used in operations

The Company's operating requirements generated a negative cash flow from operations of \$3,868,265 during 2004. This includes payments to settle several existing payables and accrued expenses, which reduced the payables and accruals by \$460,949 from December 31, 2003. The Company does not expect to have significant cash settlement payments during 2005.

During 2004, the Company has used stock and warrants as a form of payment to certain vendors, consultants and employees. The Company expensed approximately \$4.3 million related to these equity payments.

As the Company focuses on the OnScreen(TM) technology during 2004, it will

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

continue to fund research and development related to the Company's products as well as sales and marketing efforts related to these products. The Company does not expect to record much revenue and will continue to use cash in its operating activities until its product line is commercialized which is expected to be during the first half of 2005. The Company will outsource the production of its products during 2005.

Capital Expenditures

During the first quarter of 2004, the Company made payments of \$575,000, for the remaining OnScreen(TM) royalty payments and receipt of the inventor's contract rights, including all royalty rights in the License Agreement of which \$522,500 was recorded as an investment in technology rights and will be amortized over a 20-year life.

The Company capitalized \$48,657 of patent expenses during 2004. These costs will be amortized over the life of the patents once approved or expensed if not approved. The Company will continue to incur and capitalize costs associated with patenting its technology during 2005.

The Company invested approximately \$118,000 in equipment which was mainly computer equipment used for sales, marketing, research and development and administration and for two automobiles during 2004. The automobiles display signage advertising the Company's products and will be used to advertise the products of the Company at trade shows. During 2005, the Company anticipates that its capital expenditures will not significantly change. The Company plans to outsource the manufacture of its products.

Financing activities

During the fourth quarter of 2003 and into the first quarter of 2004, the Company undertook a private placement of investment Units, each investment Unit consisting of 4,000 shares of our common stock, a warrant to purchase 4,000 shares of common stock at a price of \$0.50 per share ("Warrant #1") and a warrant to purchase 2,000 shares of common stock at a price of \$0.75 per share ("Warrant #2"). Additionally, through a 2004 amendment to the private placement, purchasers of Units received an aggregate of 23,203 shares of our Series B Convertible Preferred Stock as follows:

10,567 shares pro-rata upon purchase of Units;
12,000 shares pro-rata to investors who exercised Warrant #1; and
636 shares pro-rata to investors who exercised Warrant #2.

During 2004, the Company received \$3,350,000 (\$2,867,054 net of cash offering costs) of cash, related to the exercise of the \$0.50 Warrants #1 and issued 6,700,000 shares of its common stock and the 12,000 shares of its Series B Preferred Stock was converted to 12,000,000 shares of common stock.

28

During 2004, the Company received \$266,500 of cash proceeds from the exercise of some of the \$0.75 Warrants #2 and issued 355,333 shares of its common stock and the 636 shares of its Series B Preferred Stock was converted to 636,402 shares of common stock.

During the second half of 2004, the Company received \$2,246,456 of cash proceeds from its 2004 private placement and issued 2,995,274 shares of its common stock and the 5,365 shares of its Series B Preferred Stock was converted to 5,364,536 shares of its common stock. This 2004 private placement was comprised of 666.67

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

shares of common stock and 1.194 shares of Series B Preferred Stock for each \$500 received.

Also during the third quarter of 2004, the Company paid an investor \$100,000 that was previously received for the purchase of common stock as the agreement with that investor was mutually terminated.

During the year ended December 31, 2004, the Company received \$352,184 from the exercise of other warrants and options.

During the first quarter of 2004, the company received \$75,000 from the sale of Series A Convertible Preferred Stock.

During the first quarter of 2004, the Company paid certain note holders in full on March 12, 2004 by paying the note holders \$250,000 and issuing 12,500 shares of the Company's common stock. Also, the Company satisfied notes of \$50,000 and \$2,511 during 2004.

The Company paid \$257,347 of Series A Convertible Preferred Stock dividends during 2004 and the Company will have Series A Convertible Preferred Stock dividend payments going forward.

Recap of liquidity and capital resources

The Company believes that the cash generated from the late 2003 and 2004 private placements and the cash generated from operations, should be sufficient to meet its working capital requirements for the next twelve months. However, the Company anticipates expanding and developing additional technology and product lines which may require additional funding. If additional funding is needed, the Company will attempt to raise these funds through borrowing instruments or issuing additional equity.

The Company is adequately confident that equity financing or debt will be available to fund its operations until revenue streams are sufficient to fund operations; however, the terms and timing of such equity or debt cannot be predicted. Management expects the OnScreen(TM) LED technology to be commercialized during the first half of 2005 and to begin generating revenue from the patent protected OnScreen(TM) LED architecture product line by the late first half of 2005. The Company cannot assure that it will generate revenues by that date or that its revenues will be sufficient to cover all operating and other expenses of the Company. If revenues are not sufficient to cover all operating and other expenses, the Company will require additional funding.

29

Off-Balance Sheet Arrangements

As of December 31, 2004, we have no off-balance sheet arrangements.

RESULTS OF OPERATIONS

The accompanying financial statements reflect the operations of the Company for the fiscal years ended December 31, 2004 and 2003.

Revenue

Revenue was lower during year ended December 31, 2004 compared to the same period in the prior year due to the assignment of EyeCatcherPlus displays and the current focus on the development of the OnScreenTM LED technology products.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

The revenue for the year ended December 31, 2004 was \$145,988 comprised mainly of LED truck revenue of \$83,580. The revenue for year ended December 31, 2003 was \$308,634 comprised mainly of \$62,700 from the sale of EyeCatcherPlus displays, \$93,058 from the rent revenue of the EyeCatcherPlus displays and \$115,204 from LED truck revenue.

During 2005, the Company may receive some indirect revenue from its assignment of the EyeCatcherPlus business. Although the Company is no longer seeking new EyeCatcherPlus customers because of the assignment of the EyeCatcherPlus business, the Company is still encouraging new business development for the mobile LED truck because it remains a source of revenue. Management does not expect the Company's revenue to increase until the shipment of the OnScreen(TM) LED technology product line during the late first half of 2005.

During 2004, 36% of revenues were derived from two customers at 25% and 11%.

Cost of revenue

There was cost of revenue of \$0 and \$125,021 for the years ended December 31, 2004 and 2003, respectively. The 2003 cost of sales comprised principally of \$49,112 Boards Shrinkage (damage, lost and stolen boards) and \$74,400 related to the EyeCatcherPlus displays.

Selling, General and Administrative Expenses

Selling, General and Administrative (SG&A) expenses includes such items as wages, consulting, general office expenses, business promotion expenses and costs of being a public company including legal and accounting fees, insurance and investor relations.

SG&A expenses increased from \$2,583,857 for year ended December 31, 2003 to \$6,936,155 for the same period during 2004. This increase of \$4,352,298 is primarily the result of increased consulting expenses of approximately \$1,711,000 and increased compensation expenses of approximately \$2,377,000.

The majority of the increase in the consulting expense for the year ended December 31, 2004 compared to 2003 was paid with the issuance of common stock and warrants. The total non-cash consulting expense for the year ended December 31, 2004 is approximately \$2,192,000.

The increase in compensation expense in 2004 compared to 2003 is the result of hiring the required talent to facilitate commercializing the OnScreen(TM) products and bringing these products to market by the first half of 2005 and includes compensation expense of \$1,433,028 related to the stock issued to the President/CEO in accordance with his employment contract. The total non-cash compensation expense for the year ended December 31, 2004 (including the \$1,433,028) is approximately \$2,090,000. At December 31, 2004, the company had \$438,282 remaining in its Deferred Stock Compensation Expense account which will be expensed over the remaining term of service for the employees.

30

The company anticipates its sales and marketing and its technology expenditures to increase during 2005 due to the commercialization and marketing of its OnScreen(TM) product by the first half of 2005 while the remaining general and administrative costs are anticipated to be similar to 2004.

Research and Development

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

The research and development costs are related to the OnScreen(TM) LED technology to which the Company acquired the licensing and patent rights. The \$839,935 increase in research and technology costs during 2004 compared to the same period in 2003 is a result of activities to further research and develop the OnScreen(TM) LED technology and products. The Company anticipates its expenditures in research and development costs will increase during 2005.

Commitment Penalty and Warrant Modification Expense - Swartz

At December 31, 2003, the commitment penalty expense - Swartz was \$266,126. The Company had an agreement with Swartz Private Equity, LLC (Swartz) to provide certain funding to the Company. If the Company did not meet certain requirements it was subject to a penalty of up to \$100,000 for each six-month period. During 2003, the Company computed \$200,000 in penalties. During 2003, the Company and Swartz entered into an amendment that extended the terms of their warrants by two additional years which resulted in an additional expense of \$66,126. During 2004, there were no commitment penalty and warrant modification expense.

Impairment Loss

During 2004, the impairment loss was \$195,398 compared to \$270,355 for the same period during 2003. During 2004, the Company wrote off the remaining balance of its EyeCatcherPlus displays which resulted in an impairment loss of \$195,398.

Prior to 2003, the Company incurred costs totaling \$520,355 for the development of a second LED Truck to be used to generate LED Truck rental revenues. The development of this second truck experienced technical problems and delays resulting in cost increases. At December 31, 2003, the Company had not taken possession of that truck as the truck did not meet the specifications the Company required, thus the truck had not been placed into service and accordingly, no depreciation has been taken on that truck. During 2002, management evaluated the recovery of the recorded value of this truck and determined there was an impairment loss of \$250,000 that was recorded in 2002. Management is currently in a dispute with the LED truck vendor and since the outcome is unknown as to whether the Company will receive the truck or any monetary recovery from the vendor, the Company wrote off the remaining balance and recorded an impairment loss of \$270,355 during 2003.

Bad Debt

Bad debt expense has decreased by \$120,205 from \$138,667 during 2003 to \$18,462 during 2004. During 2003 and 2004, the bad debt expense reflected an allowance for rent receivable and write off of uncollectible EyeCatcherPlus accounts.

Other Income

The Company recorded \$14,510 and \$49,198 of other income related primarily to bookkeeping services and rental income from a sublease to a related party during 2004 and 2003, respectively. This arrangement was cancelled during 2004.

31

Other Expense

During 2004, the Company recorded \$22,768 related to loss on disposal of certain fixed assets.

Investment Income

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

During 2004, in order for the Company to optimize its return on the equity funds it has raised, it invested in certain liquid marketable securities. The Company recorded \$20,969 of investment income related to these investments.

Settlement Gain

The settlement gain was \$335,465 for the year ended December 31, 2004 compared to \$314,192 for the same period in 2003. The main component of the 2004 gain was from the settlement of a disputed convertible promissory note in the principal amount of \$234,869 plus 8% interest accruing from the note date of August 1999. On February 5, 2004, the Company satisfied this disputed obligation with 60,000 shares of the Company's common stock. These shares were valued at \$60,600 and the Company recorded a settlement gain of \$267,458 in February 2004. The main component of the 2003 gain was the forgiveness of Swartz penalties of \$300,000.

Settlement Loss

The settlement loss was \$139,621 for the year ended December 31, 2004 and \$248,205 for the year ended December 31, 2003. During 2004, the Company paid approximately \$68,000 related to services provided by a consultant that was in dispute and accrued \$67,000 at December 31, 2004 related to a proposed settlement with another consultant. During 2003, settlement losses reflect the various issuances of capital stock as settlements of debt or accrued obligations or other matters where the value of the stock exceeded the recorded obligation

Interest Expense

The Company incurred \$64,071 and \$273,549 of interest expense during 2004 and 2003, respectively. The interest expense for the year ended December 31, 2004 includes \$46,500 of non-cash interest related to the value of options issued under default provisions of certain notes and \$17,571 of interest paid by the issuance of equity.

The interest expense for the year ended December 31, 2003 includes \$122,500 of non-cash interest related to the value of options issued under default provisions of certain notes and \$96,499 of interest paid by the issuance of equity.

Net Loss

The net loss increased \$4,465,722 for the year ended December 31, 2004 compared to the same period in 2003. The increase in net loss during 2004 compared to 2003 is the result of the redirection of the Company's business focus to the OnScreen(TM) technology and the related increase in research and development, consulting and general and administrative costs to facilitate commercializing the OnScreen(TM) products and bringing these products to market during 2005.

Preferred Stock Dividends

During the year ended December 31, 2004, the Company recorded \$172,000 and \$28 for the intrinsic value associated with the embedded beneficial convertible feature of the Series A Convertible Preferred Stock and Series B Convertible Preferred Stock, respectively. During 2003, the Company recorded \$951,765 for the intrinsic value associated with the embedded beneficial convertible feature of the Series A Convertible Preferred stock.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

embedded beneficial convertible feature of Series A and Series B Convertible Preferred Stock was recorded as a preferred stock dividend.

Additionally, during 2004, the Company recorded Series A Convertible Preferred Stock dividends of \$270,583 and Series B Convertible Preferred Stock dividends of \$17,901 and the Company recorded Series A Convertible Preferred stock dividends of \$102,835 during 2003.

ITEM 7. FINANCIAL STATEMENTS

The Financial Statements and the report of Salberg & Company, P.A. dated March 15, 2005 are attached hereto and incorporated herein by reference.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 8A. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operations of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of December 31, 2004. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective such that the material information required to be included in our Securities and Exchange Commission ("SEC") reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms relating to OnScreen Technologies, Inc. during the period when this report was being prepared.

Changes in internal controls over financial reporting.

In addition, there were no significant changes in our internal control over financial reporting that could significantly affect these controls during fiscal year ended December 31, 2004. We have not identified any significant deficiency or materials weaknesses in our internal controls, and therefore there were no corrective actions taken.

ITEM 8B. OTHER MATTERS

There are no matters to be reported under this Item.

PART III

ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(A) OF THE EXCHANGE ACT

33

The following are officers and directors of the Company.

Name	Age	Position
John Thatch	43	Chief Executive Officer, President and Director

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

Mark R. Chandler	50	Chief Operating Officer and Chief Financial Officer
Russell L. Wall	61	Director
Bradley J. Hallock	46	Director
Charles Baker	50	Director

Because we are a small company, we are currently dependent on the efforts of a limited number of management personnel. We believe that because of the large amount of responsibility being placed on each member of our management team, the loss of the services of any member of this team at the present time would harm our business. Each member of our management team supervises the operation and growth of one or more integral parts of our business.

All directors hold office until the next annual meeting of shareholders of the Company and until their successors are elected and qualified. Officers hold office until the first meeting of directors following the annual meeting of shareholders and until their successors are elected and qualified, subject to earlier removal by the Board of Directors.

BUSINESS EXPERIENCE OF EXECUTIVE OFFICERS AND DIRECTORS

John "JT" Thatch, President/CEO and Director

Mr. Thatch, age 43 years, has served as, Chief Executive Officer, President and a Director of the Company since January 2000 and was elected at the June 2004 shareholders' meeting to serve an additional two year term. His responsibility is to oversee all functions of the company, including day-to-day operations. Mr. Thatch was directly responsible for securing the OnScreen licensing rights for the Company and has been instrumental in securing talent and identifying opportunities associated with the technology. Mr. Thatch has over 15 years of entrepreneurial business experience that includes executive management positions in various companies that he has founded or managed. Mr. Thatch holds positions on various boards of directors ranging from private and public companies to non-profit organizations and is an active member of the CEO Council. Mr. Thatch attended Saint Petersburg College and holds a Bachelor of Arts Degree in Business Administration from Middleham University. He brings leadership, marketing and strong management skills to the company.

Mark R. Chandler, Chief Operating Officer and Chief Financial Officer

Mark R. Chandler - Mr. Chandler joined OnScreen in January 2004 after working 23 years with Sara Lee Corporation where he held several senior positions in finance, general management and operations. He most recently was the CEO of Business Development Europe and was a member of the Board of Directors of Sara Lee Apparel Europe. Previously, he was the Group Chief Financial Officer for the \$2 billion European apparel group for Sara Lee and responsible for all financial and administrative activities, IT, and strategic planning. Additionally, he led the organization and launch of a new technological breakthrough product for the European apparel market. Mr. Chandler has extensive and diversified international experience in finance, IT, strategic planning and implementation, operations and general management, treasury, business development and corporate development including acquisitions and divestments. Mr. Chandler began his career with American Express as an internal consultant and held several financial positions with General Foods. He moved to Playtex, Inc. in 1980 and actively participated in two leverage buyouts prior to the company being sold to Sara Lee in 1991. Mr. Chandler holds a Bachelor of Arts degree in mathematics

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

and economics from Whitman College in 1976 and a MBA in finance and marketing from Columbia University Graduate School of Business in 1978. Mr. Chandler is a member of the European Executive Council and is a Director of the non-profit Frontier Foundation.

Russell L. Wall, Director

Mr. Wall served on the Board of Directors since November 2003 and was elected at the June 2004 shareholders' meeting to serve an additional one year term. He also serves as Chairman of the Audit Committee. Mr. Wall holds a Bachelor of Science degree in Engineering from Iowa State University, a MBA degree in finance/marketing from University of Santa Clara and a Chartered Financial Analyst designation. Prior to his retirement in 2000, Mr. Wall was Chief Financial Officer for 12 years of a publicly traded company. His responsibilities included financial/accounting management, internal and external financial reporting, strategic planning and other operational duties. Mr. Wall brings 5 years experience in the financial securities industry as a consultant and portfolio manager with a Wall Street and a private investment management firm. He also brings 10 years Fortune 100 company experience in the engineering and construction industry with assignments as Analysis and Development Engineer, Planning and Control Manager and Project Manager.

Brad Hallock

Brad Hallock, age 46, was appointed to the Board of Directors in April 2004 and was elected at the June 2004 shareholders' meeting to serve an additional two year term. Mr. Hallock brings to the board over 25 years of corporate experience. Mr. Hallock was the founder and Chief Executive Officer of C and R, Ltd., a provider of wholesale services to the automobile industry with annual revenue in excess of \$10,000,000. For three years, Mr. Hallock served as a Senior Executive for First America Automotive, Inc. (FAA), an \$800,000,000 annual revenue company that was later acquired by Sonic Automotive, Inc. (NYSE:SAH). As a Senior Executive at FAA, he conceived and implemented the "Auto Factory" concept to vertically integrate used car operations across disparate retail franchises on a regional basis. He led the expansion of this concept into a \$100,000,000 annual revenue division of FAA resulting with industry leading profitability. During his tenure at FAA, Mr. Hallock was a key member of the merger and acquisition team, where he was instrumental in the successful acquisition and integration of over 50 new car retail franchises

Charles Baker, Director

Charles Baker was appointed to the Company Board of Directors, effective March 1, 2005. Mr. Baker is an experienced global business executive with a 25 year track record of building and implementing successful business strategies. Mr. Baker is currently the President of Vesta International, the premium provider of stored value, payment and fraud solutions. Prior to Vesta, Mr. Baker was CEO/Managing Director of Starbucks Coffee Company, Australia. He also spent several years at NIKE where, as Divisional Vice President/General Manager of NIKE Global Retail, he led the growth of a \$1.2 billion retail business in 16 countries. He was also a member of NIKE's Executive Leadership team which was responsible for leading the strategy of NIKE's \$12 billion worldwide. In addition, he was CEO of a leading Internet company, Family Wonder, which he successfully led through its acquisition by Sega, Inc. Earlier in his career, Mr. Baker was General Manager of Britches of Georgetowne, a leading apparel company.

Steven Velte, President of the OnScreen(TM) Products Division

Mr. Velte spent 18 years with Hewlett-Packard and the HP spin-off, Agilent

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

Technologies. He provided first customer market placement and design input for a variety of technologies including state-of-the-art Remote Fiber Test Systems deployed in the 1996 Atlanta Olympics, PC- based instrumentation and

35

Hewlett-Packard's "acceSS7" system. With Mr. Velte as a key team leader, "acceSS7" system sales grew from zero to over \$1 billion of installed base. For Agilent, Mr. Velte also spearheaded a variety of global partnering arrangements with companies providing leading edge solutions for telecommunications fraud and advanced telecom billing. He has been personally recognized by the CEO of Agilent for his contributions as an editor to the widely respected Telecommunications News and the creation of the first worldwide "acceSS7" User's Conference. Mr. Velte personally holds two US patents and received his electrical engineering degree from Virginia Polytechnic Institute in 1984.

AUDIT COMMITTEE

The Audit Committee is established pursuant to the Sarbanes-Oxley Act of 2002 for the purposes of overseeing the company's accounts and financial reporting processes and audits of its financial statements. An independent member of the Board of Directors, Russell L. Wall, was appointed as the Audit Committee's chairman. The Audit Committee is one of the three elements of financial reporting, with the other two being the CFO and the independent auditor. The Audit Committee's role includes oversight of the independent auditor, review of financial reporting, internal company processes of business/financial risk and applicable legal, ethical and regulatory requirements. The Audit Committee has established a procedure to receive complaints regarding accounts, internal controls and auditing issues.

ITEM 10. EXECUTIVE COMPENSATION

The following tables list the cash and option grant remuneration paid or accrued and option exercises during 2002, 2003 and 2004 to our officers, executives and directors who received compensation of \$100,000 or more in 2002, 2003 and 2004.

SUMMARY COMPENSATION TABLE

(a) Name and Principal Position	(b) Year	Annual Compensation			Long Term Compensation	
		(c) Salary (\$)	(d) Bonus (\$)	(e) Other Annual Compensation (\$)	(f) Restricted Stock Award(s)	(g) Awards Securities Underlying Options/ SA (#)
John Thatch, Pres./CEO	2004	155,000	--	10,000	1,666,312	--
	2003	140,000	--	10,000	311,777	--
	2002	120,000	--	10,000	156,706	--
Mark Chandler COO/CFO (1)	2004	155,000	--	--	120,000 (2)	600,000
	2003	--	--	--	--	--

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

	2002	--	--	--	--	--
Steven Velte	2004	155,000	--	--	450,000	2,000,000
Pres. of Products	2003	85,000	--	--	--	1,750,000
Division (3)	2002	--	--	--	--	--

- (1) Mr. Chandler joined the Company on January 1, 2004.
(2) Mr. Chandler was issued 120,000 of the Company's Series A Convertible Preferred Stock.
(3) Mr. Velte joined the Company on May 1, 2003.

36

OPTION GRANTS DURING FISCAL 2004

Name	Number of Securities Underlying Options Granted	Percent of Total Options Granted to Employees in Fiscal Year(3)	Exercise Price Per Share (\$/Sh)	Market Price on Date of Grant	Expiration
John Thatch	--	--	--	--	--
Mark Chandler	100,000 (1) 500,000 (1)	3% 13%	\$0.25 \$0.25	\$0.93 \$0.65	December 1 October 6
Steven Velte	2,000,000 (2)	51%	\$0.25	\$0.65	November 1

- (1) The options granted to Mr. Chandler were fully vested on the grant date.
(2) The options granted to Mr. Velte vest on November 1, 2006.
(3) During the year ended December 31, 2004, OnScreen granted employees options to purchase 3,940,000 shares of common stock.

AGGREGATED OPTION EXERCISES DURING FISCAL 2004
AND
FISCAL 2004 YEAR-END OPTION VALUES

The following table shows the number of shares underlying both exercisable and unexercisable stock options held by the executive officers named in the Summary Compensation Table as of the year ended December 31, 2004, and the values for exercisable and unexercisable options:

Name	Shares Acquired on Exercise (\$)	Value Realized (\$)	Number of Securities Underlying Unexercised Options at December 31, 2004		In-The-Money
			Exercisable	Unexercisable	

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

John Thatch	--	--	--	--	
Mark Chandler	--	--	600,000	--	
Steven Velte (2)	--	--	1,050,000	2,000,000	

- (1) Options are in the money if the market value per share of the shares underlying the options is greater than the option exercise price. This calculation is based on the fair market value at December 31, 2004 of \$0.83 per share, less the exercise price.
- (2) Mr. Velte assigned 700,000 of his common share warrants to others.

Director Compensation

 Other than as noted below, no Director is compensated for the performance of duties in that capacity or for his/her attendance at Director meetings.

37

In recognition for serving on the Company Board of Directors initially without the benefit of officers and directors liability insurance, which service is of benefit to the Company in connection with the Company's management and compliance with the Sarbanes-Oxley Act of 2002, the Board of Directors authorized issuance to Russell L. Wall a warrant to purchase 100,000 restricted common shares at a price of \$0.25 per share within 3 years after the date of issuance. In recognition for past services as a director of the Company, by August 23, 2004 Board of Directors resolution, the board authorized issuance to Russell L. Wall of a warrant to purchase 600,000 restricted common shares within five years from date of issuance at a per share price of \$0.25.

In recognition for services to be rendered by Charles Baker as a member of the Board of Directors, the Board of Directors authorized an honorarium issuance to Charles Baker of a Warrant to purchase 100,000 Corporation common shares at any time within three years from date of issuance at the per share price of \$0.75.

EMPLOYMENT AGREEMENTS

President/CEO

 In November 1999, the Company executed a three-year employment agreement with its president and CEO that was amended on June 2000. The agreement provides for a base salary of \$140,000 in year one and \$120,000 per year in years two and three, a non-accountable expense allowance of \$10,000 per year, a stock issuance equal to 10% of the outstanding common shares, and discretionary incentive compensation payments. It also provided that the President/CEO would receive incentive compensation payments which are not less than the highest such payments provided to any other senior executive of the Company. This agreement was renewed in late 2002 for another three-year term with the same provisions expiring December 31, 2005.

On February 3, 2004, a Second Addendum to the Employment Agreement was entered into pursuant to which the Company agreed to cap Mr. Thatch's entitlement to shares of common stock at 3,000,000 and pay him 1% of all revenue derived from any licensing fees received by the Company in connection with the OnScreen(TM) LED technology, provided that the Company consummates the Private Placement in its entirety and receives the portion of the Unit purchase price to which it is entitled. On February 10, 2004, the Company's board of directors approved increasing the President's salary to \$150,000 for the duration of his employment

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

agreement in compliance with the President's employment agreement that includes a provision that he would get paid equal compensation to any other senior executive of the Company (President of the OnScreen(TM) Products Division's salary is \$150,000). The President will receive \$120,000 in cash and the remaining \$30,000 will be accrued. By August 23, 2004 Board of Directors resolution, the annual salary of John "JT" Thatch was increased to \$180,000 beginning November 1, 2004.

On March 28, 2005, an addendum was made to the CEO/President's employment agreement. The term of the agreement was extended three years, expiring on December 31, 2008. The CEO/President is to receive an additional 2.1 million shares of the Company's common stock and the monthly vehicle allowance was increased from \$500 to \$1,500. The CEO/President relinquished his entire entitlement to any of the Company's revenue.

Chief Operating Officer and Chief Financial Officer

On December 16, 2003, the Company executed a three-year employment agreement that is effective January 1, 2004 with its Chief Operating Officer and Chief Financial Officer. The terms of this agreement are as follows: i) Base salary of \$120,000 during 2004, \$150,000 during 2005 and \$180,000 during 2006, ii) a sign-on bonus for \$10,000 payable before March 31, 2004 and eligible for the bonus plan as set up by the Company, iii) receive 120,000 shares of Series A

38

convertible preferred stock for each period of June 2004, January 2005 and June 2005 and iv) receive a warrant to purchase 100,000 shares of common stock at an exercise price of \$0.25 which expires on November 30, 2006. In the event of a change of control, the Series A Convertible Preferred stock shall immediately accelerate and be issued within 30 days of written notice from the employee.

By August 23, 2004 Board of Directors resolution, the annual salary of Mark R. Chandler was increased to \$150,000 retroactive from January 1, 2004 and Chandler's annual salary beginning November 1, 2004 was increased to \$180,000.

In recognition for past services rendered by Mark R. Chandler, by August 23, 2004 Board of Directors resolution, the board authorized issuance to Mark R. Chandler a warrant to purchase 500,000 restricted common shares within five years from date of issuance a per share price of \$0.25.

In recognition of continuing and additional services to be rendered by Mark R. Chandler, by August 23, 2004 Board of Directors resolution, the board authorized issuance to Mark R. Chandler three hundred seventy five thousand (375,000) Series A Convertible Preferred shares and one thousand five hundred (1,500) Series B Convertible Preferred shares in the following increments: 125,000 Series A shares and 500 Series B shares on or about January 1, 2006; 125,000 Series A shares and 500 Series B shares on or about July 1, 2006; and 125,000 Series A shares and 500 Series B shares on or about December 31, 2006. The said shares will be issued so long as Chandler has not terminated employment voluntarily before the above issue date.

President of the OnScreen(TM) Products Division

In May 2003, the Company executed a six-month employment agreement with the President of the OnScreen(TM) Products Division. The employee's compensation was for \$10,000 per month accrued, but payment deferred until such time the Company's technical division has sufficient cash on hand to pay the salary. At the employee's option, such accrued salary may be converted to common or

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

preferred shares of the Company at the current bid price. In addition, the employee was granted three-year warrants for 500,000 shares of the Company's common stock at an exercise price of \$0.25 per share; 750,000 shares at \$0.35 per share upon completion of Phase II prototype as defined in the Agreement; 500,000 shares at \$0.40 per share upon receipt by the Company of any Next Stage OnScreen funding in excess of \$150,000 as defined in the Agreement and 250,000 shares at \$0.50 per share upon receipt by the Company of payment for commercial orders in excess of \$200,000.

During 2003, the Company issued 1,750,000 of the warrants in accordance with the President of the OnScreen(TM) Products Division's agreement. The remaining 250,000 warrants were not issued at December 31, 2004, as the criteria for the shares to be issued had not been met.

The above agreement was extended with an effective date of November 1, 2003 for a three-year term. The salary will be \$150,000 in the first year, \$180,000 in the second year and \$240,000 in the third year. This employee has a right to 450,000 shares of the Company's common stock, these shares, if the employee is terminated for cause or resigns, may be repurchased from the employee for \$450. The amount of shares that can be repurchased by the Company declines by 150,000 shares each year, resulting in the shares being fully vested on November 1, 2006.

39

In recognition of continuing and additional services to be rendered by Stephen K. Velte, by August 23, 2004 Board of Directors resolution, the board authorized issuance to Stephen K. Velte a warrant to purchase 2,000,000 restricted common shares within five years from date of issuance at a per share price of \$0.25. It is a condition precedent for the vesting of the said warrant and issuance of the shares through the warrant that Velte is employed by the Company through the term of his current November 7, 2003 employment agreement.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information regarding beneficial ownership of our common stock as of the date of this filing by: (i) each shareholder known by us to be the beneficial owner of 5% or more of the outstanding common stock, (ii) each of our directors and executives and (iii) all directors and executive officers as a group. Except as otherwise indicated, we believe that the beneficial owners of the common stock listed below, based on information furnished by such owners, have sole investment and voting power with respect to such shares, subject to community property laws where applicable. Shares of common stock issuable upon exercise of options and warrants that are currently exercisable or that will become exercisable within 60 days of filing this document have been included in the table.

BENEFICIAL INTEREST TABLE

Name and Address of Beneficial Owner (1)	Common Stock		Series A Convertible Preferred Stock	
	Number	Percent of Class (2)	Number	Percent of Class (3)

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

Partners, LLC.

- (10) Mr. Wall's common stock shares include 700,000 shares he has the right to purchase pursuant to a warrant
- (11) Mr. Chandler's common stock shares include 600,000 shares he has the right to acquire pursuant to a warrant. Mr. Chandler's Series A Preferred shares include 250,000 shares owned by his IRA account.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Except as set forth above, none of our directors or officers, nor any proposed nominee for election as one of our directors or officers, nor any person who beneficially owns, directly or indirectly, shares carrying more than 10% of the voting rights attached to our outstanding shares, nor any relative or spouse of any of the foregoing persons has any material interest, direct or indirect, in any transaction in any presently proposed transaction which has or will materially affect the Company.

We have entered into employment agreements with all of our senior management. These employment contracts include provisions for the issuance of Common and Convertible Preferred shares as well as incremental salary increases. For description of these employment agreements and related rights to our stock options, see above Item 10, Executive Compensation, Employment Agreements.

41

ITEM 13. EXHIBITS AND REPORTS

Indemnification of Directors and Officers

The Colorado General Corporation Act provides that each existing or former director and officer of a corporation may be indemnified in certain instances against certain liabilities which he or she may incur, inclusive of fees, costs and other expenses incurred in connection with such defense, by virtue of his or her relationship with the corporation or with another entity to the extent that such latter relationship shall have been undertaken at the request of the corporation; and may have advanced such expenses incurred in defending against such liabilities upon undertaking to repay the same in the event an ultimate determination is made denying entitlement to indemnification. The Company's bylaws incorporate the statutory form of indemnification by specific reference. The Company has never acquired or applied for any policy of directors' and officers' liability insurance as a means of offsetting its obligation for indemnity.

Reports to Shareholders

We intend to voluntarily send annual reports to our shareholders, which will include audited financial statements. We are a reporting company, and file reports with the Securities and Exchange Commission (SEC), including this Form 10-KSB as well as quarterly reports under Form 10-QSB. The public may read and copy any materials filed with the SEC at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330. The company files its reports electronically and the SEC maintains an Internet site that contains reports, proxy and information statements and other information filed by the company with the SEC electronically. The address of that site is <http://www.sec.gov>.

The company also maintains an Internet site, which contains information about the company, news releases and summary financial data. The address of that site

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

is <http://www.onscreentech.com>.

The Company filed a Current Report on Form 8-K on March 3, 2005 in connection with the appointment of Charles Baker to the Board of Directors.

ITEM 14. PRINCIPAL ACCOUNTANTS FEES AND EXPENSES

Compensation of Auditors

Audit Fees. The financial statements of the Company, which are furnished herein as of December 31, 2004, have been audited by Salberg & Company, P.A., Boca Raton, Florida, Independent Registered Public Accounting Firm. Salberg & Company, P.A. billed the Company an aggregate of \$50,000 in fees and expenses for professional services rendered in connection with the audit of the Company's financial statements for the fiscal year ended December 31, 2004 and the reviews of the financial statements included in each of the Company's Quarterly Reports on Form 10-QSB during the fiscal year ended December 31, 2004. Salberg & Company, P.A. billed the Company an aggregate of \$46,200 in fees and expenses for professional services rendered in connection with the audit of the Company's financial statements for the fiscal year ended December 31, 2003 and the reviews of the financial statements included in each of the Company's Quarterly Reports on Form 10-QSB during the fiscal year ended December 31, 2003. Audit related fees for 2003 were \$4,800 and for 2004 were \$0.

The Company paid these sums.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed by the

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of:
Onscreen Technologies, Inc.:

We have audited the accompanying balance sheet of Onscreen Technologies, Inc. as of December 31, 2004, and the related statements of operations, changes in stockholders' equity (deficiency), and cash flows for the years ended December 31, 2004 and 2003. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position Onscreen Technologies, Inc. as of December 31, 2004 and the results of its operations and its cash flows for the years ended December 31, 2004 and 2003 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company has a net loss of \$7,904,229 and cash used in operations of \$3,868,265 in 2004 and an accumulated deficit of \$19,773,674 at December 31, 2004. These matters raise substantial doubt about its ability to continue as a going concern. Management's plans as to these matters are also described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

SALBERG & COMPANY, P.A.
Boca Raton, Florida

9

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

NOTE 1 NATURE OF OPERATIONS AND BASIS OF PRESENTATION

During the 2004 annual meeting of the shareholders, the shareholders voted to change the corporation name from New Millennium Media International Inc. to OnScreen Technologies, Inc. to reflect the main focus of the Company which is to market and license products utilizing the OnScreen(TM) technology.

OnScreen Technologies, Inc. (the Company) is commercializing its innovative OnScreen(TM) light emitting diode (LED) technology to the world of visual communications. The Company concentrates on motion display advertising and emergency/first responders solutions and seeks to develop innovative approaches to motion LED products and delivery systems. The Company is focused on the design, development and sale of LED sign displays based on the OnScreen(TM) architecture.

The accompanying financial statements have been prepared on the assumption that the Company will continue as a going concern. As reflected in the accompanying financial statements, the Company has a net loss of \$7,904,229 and cash used in operations of \$3,868,265 for the year ended December 31, 2004 and an accumulated deficit of \$19,773,674 at December 31, 2004. The ability of the Company to continue as a going concern is dependent on the Company's ability to bring the OnScreen(TM) products to market, generate increased sales, obtain positive cash flow from operations and raise additional capital. The financial statements do not include any adjustments that may result from the outcome of this uncertainty.

The Company continues to raise additional capital for the commercialization of its OnScreen(TM) technology product lines. The Company believes it will have sufficient cash to meet its funding requirements to bring the OnScreen(TM) technology product line into production during 2005. The Company has experienced negative cash flows from operations and incurred net losses in the past and there can be no assurance as to the availability or terms upon which additional financing and capital might be available, if needed.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates in 2004 and 2003 include estimates used to review the Company's long-lived assets for impairment and valuations of non-cash capital stock issuances.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

(B) CASH AND CASH EQUIVALENTS

For purposes of the cash flow statement, the Company considers all highly liquid investments with maturities of three months or less at the time of purchase to be cash equivalents.

(C) MARKETABLE SECURITIES AVAILABLE-FOR-SALE

In order for the Company to optimize its return on the equity funds it has raised, it invested in certain liquid marketable securities. The Company classifies these marketable securities as available-for-sale. The cost approximately equaled fair market value at December 31, 2004; therefore, no unrealized gain or loss was recorded during 2004 for these securities. The marketable securities are comprised of bonds which have maturities of less than one year.

(D) ACCOUNTS RECEIVABLE

Accounts receivable consist of the receivables associated with the revenue derived from the Company's LED truck. We record an allowance for doubtful accounts to allow for any amounts that may not be recoverable, which is based on an analysis of our prior collection experience, customer credit worthiness, and current economic trends. Based on management's review of accounts receivable, an allowance for doubtful accounts of \$-0- at December 31, 2004 is considered adequate. We determine receivables to be past due based on the payment terms of original invoices.

(E) CONCENTRATION OF CREDIT RISK

The Company maintains its cash in bank deposit and financial institution deposit accounts, which, at times, exceed federally insured limits. The Company has not experienced any losses in such accounts through December 31, 2004.

(F) PROPERTY AND EQUIPMENT

Property and equipment are recorded at the lower of fair value or cost, less accumulated depreciation and amortization. Major additions are capitalized. Minor additions and maintenance and repairs, which do not extend the useful life of an asset, are charged to operations when incurred. When property and equipment are sold or otherwise disposed of, the asset account and related accumulated depreciation account are relieved, and any gain or loss is included in operations. Depreciation is provided primarily using the straight-line method over the assets' estimated useful lives of three to seven years. Estimated useful lives are periodically reviewed and, where appropriate, changes are made prospectively.

(G) LONG-LIVED ASSETS

The Company periodically reviews its long-lived assets and certain identifiable assets related to those assets for impairment whenever circumstances and situations change such that there is an indication

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

that the carrying amounts may not be recoverable. If the non-discounted future cash flows of the enterprise are less than their carrying amount, their carrying amounts are reduced to fair value and an impairment loss is recognized. See Note 3 for the impairment amounts that were recorded during 2004 and 2003.

11

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

(H) IDENTIFIABLE INTANGIBLE ASSETS

At December 31, 2004, the Company had capitalized \$522,500 related to technology rights it had acquired. The Company is amortizing these technology rights over a one to twenty year life.

At December 31, 2004, the Company had capitalized \$48,657 of costs related to filing patent applications during 2004. When the patents are approved, the Company will then amortize these costs over the life of the patent. Any patents that are not approved will be expensed at that time. At December 31, 2004, all of the patents are pending approval.

(I) STOCK-BASED COMPENSATION

For the stock options, warrants and stock issued to employees, the Company has elected to apply the intrinsic value based method of accounting prescribed by Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. Under the intrinsic value based method, compensation cost is measured on the date of grant as the excess of the current market price of the underlying stock over the exercise price. For options, the compensation amounts are amortized over the respective vesting periods of the option grant. For stock compensation, the amounts are amortized over the period of service the award pertains to. The Company provides pro forma disclosures of net loss and pro forma loss per share as if the fair value based method of accounting had been applied, as required by SFAS No. 123, "Accounting for Stock-Based Compensation" and SFAS 148 "Accounting for Stock-Based Compensation" - transition and disclosure, an amendment of SFAS No. 123.

The following table illustrates the effect on net loss available to common stockholders and loss per common share had the Company applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation during 2004 and 2003:

	2004	2003
Net Loss Available to Common Stockholders:		
Net loss available to common stockholders as reported	\$ (8,364,741)	\$ (4,493,
Plus total stock-based employee compensation cost included in the net loss, net of related tax effects	142,468	295,
Less total stock-based employee compensation expenses determined under fair value based method		

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

for all awards, net of related tax effects	(665,710)	(765,
	-----	-----
Pro forma net loss	\$ (8,887,983)	\$ (4,962,
	=====	=====

As reported	\$ (0.23)	\$ (0
	=====	=====
Pro forma	\$ (0.25)	\$ (0
	=====	=====

12

ONSCREEN TECHNOLOGIES, INC.
 NOTES TO FINANCIAL STATEMENTS
 DECEMBER 31, 2004 AND 2003

See Note 7 I, for additional disclosure and discussion of the Company's employee stock plan and activity.

The Company accounts for services provided by non-employees who are issued equity instruments based on the fair value of the consideration received or the fair value of the equity instruments, whichever is more reliably measurable on the measurement date. The amount related to the value of the stock awards is amortized on a straight-line basis over the required service periods.

(J) REVENUE RECOGNITION

The Company operates as one segment. All internal analysis and financial reporting by management is performed as one segment. The Company's revenues are recognized as the services are completed and delivered and no additional performance is required by the Company. The Company's revenue recognition criteria includes assessing whether pervasive evidence of an arrangement exists, the sales price is fixed or determinable, and collectability is reasonably assured. Deferred revenue represents the unearned portion of payments received in advance of services being completed.

During 2004, the Company focused on development of its OnScreen(TM) technology and related products. The OnScreen(TM) products were in the prototype stage during 2004. In conjunction with this focus, the Company conveyed and assigned its right, title and interest relating to the EyeCatcherPlus displays to a third party during 2004. The Company retains ownership and a security interest in all assets conveyed and assigned. The third party will pay the Company five percent of the gross advertising sales revenue derived from these displays. During 2003, the EyeCatcherPlus Displays were placed in service for a fee and revenue was recognized over the placement period. On occasion, the EyeCatcherPlus Displays were sold on a special order basis. Revenue and cost of revenue from these special order basis sales of the EyeCatcherPlus Displays were recognized at the time the boards were shipped to the customer.

LED Truck rental revenue is recognized pro-rata as earned over the rental period which generally does not exceed 14 days.

Territory fees from exclusive distributors are recorded as a deferred revenue liability and then recognized over the term of the distributor contract.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

(K) ADVERTISING

In accordance with Accounting Standards Executive Committee Statement of Position 93-7, costs incurred for producing and communicating advertising of the Company are charged to operations as incurred. Advertising expense for the years ended December 31, 2004 and 2003 was \$19,422 and \$1,510, respectively.

13

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

(L) INCOME TAXES

Income taxes are accounted for under the asset and liability method of Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" ("SFAS 109"). Under SFAS 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized as income in the period that includes the enactment date.

Valuation allowances have been established against the Company's deferred tax assets due to uncertainties in the Company's ability to generate sufficient taxable income in future periods to make realization of such assets more likely than not. The Company has not recognized an income tax benefit for its operating losses generated during 2004 and 2003 based on uncertainties concerning the Company's ability to generate taxable income in future periods. There was no income tax receivable at December 31, 2004 and 2003. In future periods, tax benefits and related deferred tax assets will be recognized when management considers realization of such amounts to be more likely than not.

(M) LOSS PER SHARE

In accordance with Statement of Financial Accounting Standards No. 128, "Earnings per Share", basic net loss per share is computed by dividing the net loss available to common stockholders for the period by the weighted average number of common shares outstanding during the period. Diluted net loss per share is computed by dividing net loss available to common stockholders by the weighted average number of common and common equivalent shares outstanding during the period. Common equivalent shares outstanding as of December 31, 2004 and 2003, which consist of options, warrants, convertible notes and convertible preferred stock, have been excluded from the diluted net loss per common share calculations because they are anti-dilutive. Accordingly, diluted net loss per share is the same as basic net loss per share for 2004 and 2003. The following table summarizes the Company's common stock equivalents outstanding at December 31, 2004 which may dilute future earning per share.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

Convertible preferred stock	11,088,820
Warrants and options	7,960,000
Contingently returnable shares	200,000

	\$ 19,248,820
	=====

(N) FAIR VALUE OF FINANCIAL INSTRUMENTS

Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments," requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate that value. For purposes of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

14

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

The Company believes the carrying amounts of the short-term financial instruments, including accounts receivable, marketable securities available-for-sale and current liabilities reflected in the accompanying balance sheet approximate fair value at December 31, 2004 due to the relatively short-term nature of these instruments.

(O) RECENT ACCOUNTING PRONOUNCEMENTS

In November 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standard ("SFAS") No. 151, "Inventory Costs." The new statement amends Accounting Research Bulletin ("APB") No. 43, Chapter 4, "Inventory Pricing," to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material. This statement requires that those items be recognized as current-period charges and requires that allocation of fixed production overheads to the cost of conversion be based on the normal capacity of the production facilities. This statement is effective for fiscal years beginning after June 15, 2005. The Company does not expect adoption of this statement to have a material impact on its financial condition or results of operations.

In December 2004, the FASB issued SFAS No. 123 (revised 2004) ("SFAS 123(R)"), "Share-Based Payment." This statement replaces SFAS No. 123 "Accounting for Stock-Based Compensation," and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees." SFAS 123(R) will require the fair value of all stock option awards issued to employees to be recorded as an expense over the related vesting period. The statement also requires the recognition of compensation expense for the fair value of any unvested stock option awards outstanding at the date of adoption. The adoption of SFAS 123(R) will impact the Company by requiring it to use the fair-value based method of accounting for future and unvested employee stock transactions rather than the intrinsic method the Company currently uses. The Company will adopt this SFAS as of January 1, 2006. The Company does not expect the adoption of this SFAS 123(R) to have a material impact relating to outstanding options/warrants since a majority of the awards granted at

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

December 31, 2004 will be fully vested prior to our adoption.

In December 2004, the FASB issued SFAS No. 153 ("SFAS 153"), "Exchanges of Nonmonetary Assets—an amendment of APB Opinion No. 29". This statement amends APB 29 which is based on the principle that exchanges of nonmonetary assets should be measured based on the fair value of the assets exchanged. SFAS 153 eliminates the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. The Company adopted this FASB on January 1, 2005 and it did not have a material impact on its financial statements.

(P) RECLASSIFICATION

Certain 2003 amounts have been reclassified to conform to the 2004 presentation.

15

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

NOTE 3 PROPERTY AND EQUIPMENT, NET

Property and equipment is summarized as follows at December 31, 2004:

LED truck	\$ 450,000
Equipment	48,180
Furniture & fixtures	17,870
Computers and software	52,585
Vehicles	38,173
Leasehold improvements	10,988
Boards , net of impairment	--
LED Truck (under construction), net of impairment	--

	617,796
Less accumulated depreciation	(317,845)

	\$ 299,951
	=====

Depreciation expense for the years ended December 31, 2004 and 2003 amounted to \$169,205 and \$175,192, respectively.

During 2003, the Company wrote-off \$103,112 of fixed assets and \$54,000 of accumulated depreciation related to boards that could no longer be used or were no longer in the possession of the Company. The net impact of this shrinkage of \$49,112 was included in cost of sales. During 2004, management evaluated the recovery of the recorded value of the boards and determined since during 2004, the Company did not receive any revenue from these boards and the fair value of the boards was less than the net book value of the boards there was an impairment loss of \$195,398 which was included in impairment loss on the Statements of Operations.

Prior to 2003, the Company engaged a vender to build another LED truck. The development of this second truck experienced technical problems and delays resulting in cost increases. The Company has never taken possession of this truck as the truck did not meet the specifications the Company required; thus,

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

the truck had not been placed into service and no depreciation has been taken on this truck. Management is legally pursuing their rights in this dispute with the LED truck vendor and since the outcome is unknown as to whether the Company will receive the truck or any monetary recovery from the vendor, the Company wrote off the remaining balance and recorded an impairment loss of \$270,355 during 2003.

NOTE 4 TECHNOLOGY RIGHTS AND LICENSE AND ROYALTY AGREEMENTS

TECHNOLOGY RIGHTS UNDER LICENSE 1

During 2001, the Company, under a license agreement, obtained an exclusive license in a patent for the manufacture, sale, and marketing of direct view video displays with an angular dimension of greater than 30 inches. This agreement had certain minimum payment requirements. The product was in R&D stages, and no product was available for marketing or sale during 2003; therefore, the Company recorded a royalty expense of \$75,000 during 2003, included in selling, general and administrative in the statement of operations. On January 14, 2004, this licensor agreed to accept \$175,000 in lieu of the remaining \$250,000 minimum payment owed during 2004, which the Company paid on

16

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

January 15, 2004 and the licensor agreed to accept an additional \$400,000 which the Company paid on March 16, 2004. After this payment, there are no more royalty payments owed to this licensor. The Company recorded \$52,500 as a reduction in accrued royalty payments and the remaining \$522,500 of the \$575,000 payments as a technology right intangible asset which is amortized over the one- to twenty-year estimated life of the technology. The Technology Rights at December 31, 2004 were as follows:

Technology Rights	\$ 522,500
Accumulated Amortization	\$(130,833)

	391, 667

The amortization of the technology rights during 2004 was \$130,833. The estimated annual amortization expense is \$20,000 for each for the next five years.

LICENSE 2

On February 3, 2004, a third party and the Company reached a Master Settlement and Release Agreement whereby, in consideration for the exchange of mutual releases and the third party relinquishing any claim to any of the OnScreen technology (including the 11.25% license payments), the Company paid to this third party during June 2004 \$150,000 plus agreed to pay the following annually declining percentage of revenue derived from the commercialization of the direct view LED video display technology with angular dimension greater than 30 inches: 5% in 2005 declining to 2% in year 2008 and thereafter. The \$150,000 reduced the deferred gain on sale of future revenues recorded on the Company's balance sheet which the third party initially paid. In the event of a change of control of the Company, the percentage of revenue stated above shall terminate and a single payment transaction fee shall be paid by the Company to this third party ranging from 10% of the OnScreen appraised value up to \$100,000,000, 7.5% for the appraised value between \$100,000,001 and \$200,000,000, 5% of the appraised value between \$200,000,001 and \$300,000,000, and 4% of the appraised value between

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

\$300,000,001 and \$400,000,000 and 3% for the appraised value between \$400,000,001 and \$500,000,000 and 2% for any appraised amounts between \$500,000,001 and \$600,000,000.

EYECATCHERPLUS BOARDS

On February 3, 2004 (and amended June 15, 2004), the Company entered into an agreement with a third party whereby the Company conveyed and assigned its right, title and interest that the Company has relating to EyeCatcherPlus and Drive Time Network (except to its board assets) as well as the right for the third party to place the Company's EyeCatcherPlus boards. The Company retains ownership and a security interest in all assets conveyed and assigned. The third party will pay the Company five percent of the gross advertising sales revenue derived from these boards. The five percent fee will continue until the Company receives the pre-agreed total amount for the boards. The Company has not received any fees during 2004 related to this agreement. Given that the Company has not received any fees for these boards during 2004 and is not sure what fees, if any it will receive going forward, the Company decided the boards were impaired and wrote them to -0- during 2004 (see Note 3). The third party shall issue fifteen percent of its stock to the Company at the time of the agreement. The Company recorded this 15% investment at -0- during 2004. During second quarter 2004, the Company issued a warrant to purchase 200,000 shares of its common stock to this third party (See Note 7H). During the first six months of 2004 in accordance with the agreement, the Company contributed \$5,000 monthly for five months to this third party. This \$30,000 was expensed during 2004.

17

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

SETTLEMENT OF LICENSE AGREEMENT OF EYECATCHERPLUS BACK LIT BOARDS

On October 31, 2003 ("Settlement Date") a settlement was reached relating to royalties that were in dispute. In accordance with this settlement, the Company issued 150,000 shares of its common stock on October 31, 2003 and during November 2003 paid the first of four \$18,750 quarterly payments owed. The remaining \$56,250 was paid during 2004. The 150,000 shares of the Company's common stock were valued at the quoted trading price of \$0.90, or \$135,000, on the Settlement Date. The Company had accrued \$156,875 in royalty's payable as of the Settlement Date and recognized a settlement loss of \$53,125 during 2003.

NOTE 5 NOTES AND LOANS PAYABLE

The note holders with an original principal of \$250,000 had a right to purchase 50,000 additional common shares for January and February 2004 since the Company was not current on these notes during those months. The Company recorded the value of the right to buy the 50,000 shares of common stock using the Black-Scholes Options Pricing Model at \$46,500 (See Note 7). This amount was recorded as interest expense during the first quarter of 2004. These notes and accrued interest were paid in full on March 12, 2004 by paying the note holders \$250,000 and issuing 12,500 shares of the Company's common stock. These shares issued were valued at \$11,500 and after consideration of additional interest due for 2004 and a receivable of \$18,575 due from the note holders from option exercises, the Company recognized a gain of \$7,103 in 2004.

The note payable dated October 31, 2002, with a balance of \$50,000, was paid in full during the first quarter of 2004.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

During April 2004, a payment of \$2,511 was paid to a note holder which paid the note and accrued interest in full.

During May 2004, a note holder exercised the right to convert a \$215,861 note into 863,442 shares of the Company's common stock. (See Note 7)

NOTE 6 COMMITMENTS AND CONTINGENCIES

(A) LEGAL MATTERS

The Company may be involved in certain legal actions arising from the ordinary course of business. While it is not feasible to predict or determine the outcome of these matters, the Company does not anticipate that any of these matters or these matters in the aggregate will have a material adverse effect on the Company's business or its financial position or results of operations.

18

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

(B) ROYALTY AND LICENSE FEE AGREEMENTS

See Note 4-License and Royalty Agreements for a discussion of commitments owed under royalty and license fee agreements.

(C) EMPLOYMENT AGREEMENTS

President/Chief Executive Officer

The employment agreement, as amended, between the Company and its President/Chief Executive Officer (President/CEO) provides the President/CEO to be paid a base salary, a non-accountable expense allowance of \$10,000 per year and discretionary incentive compensation payments. It also provided that the President/CEO would receive incentive compensation payments which are not less than the highest such payments provided to any other senior executive of the Company. This agreement as amended expires on December 31, 2005.

On February 3, 2004, an addendum was made to this employment agreement whereby the President/CEO receives one percent of all revenue the Company derives from the commercialization of the direct view LED video display technology with angular dimension greater than 30 inches.

On October 31, 2004, the Compensation Committee of the Board of Directors approved an increase in the President/CEO's annual salary to \$180,000 effective November 1, 2004.

On March 28, 2005, an addendum was made to this employment agreement. See Note 12.

PRESIDENT OF THE ONSCREEN PRODUCTS DIVISION

The Company and its President of the OnScreen Products Division entered into an employment agreement that expires November 1, 2006. In accordance with his employment agreement, upon receipt by the Company of payment for commercial orders in excess of \$200,000, he will be

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

granted three-year warrants for 250,000 shares at \$0.50 per share.

In accordance with his employment agreement as amended, the President of the OnScreen Products Division's salary will be \$180,000 effective November 1, 2004 and \$240,000 effective November 1, 2005. This employee was issued 450,000 shares of the Company's common stock in accordance with his employment agreement. If the employee is terminated for cause or resigns, 300,000 of these shares may be repurchased from the employee for \$450 through November 1, 2005 and 150,000 of these shares may be repurchased from the employee for \$450 after November 1, 2005 until they are completely vested on November 1, 2006.

During 2004, the President of the OnScreen Products Division was granted a five-year warrant to purchase 2,000,000 shares of common stock with an exercise price of \$0.25 for additional services to be provided. This warrant can be exercised on or after November 1, 2006. The warrant expires if the employee does not complete his full employment term through October 31, 2006. This warrant is valued at \$40,000 under the intrinsic value method of APB 25 based on contemporaneous cash sales during 2004 of common stock and will be recorded to compensation expense through the vesting date of November 1, 2006.

19

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

CHIEF OPERATING OFFICER AND CHIEF FINANCIAL OFFICER

On December 16, 2003, the Company executed a three-year employment agreement that is effective January 1, 2004 with its Chief Operating Officer and Chief Financial Officer (COO/CFO). On October 6, 2004, the Compensation Committee of the Board of Directors authorized an increase in the COO/CFO's salary to \$150,000 retroactive to January 1, 2004 and an increase to \$180,000 effective November 1, 2004. In accordance with the employee agreement, the COO/CFO will receive 120,000 shares of Series A convertible preferred stock for each period of January 2005 and June 2005. In the event of a change of control, the Series A convertible preferred stock shall immediately accelerate and be issued within 30 days of written notice from the employee.

On October 6, 2004, the Compensation Committee of the Board of Directors also granted the COO/CFO 375,000 Series A Convertible Preferred shares and 1,500 Series B Convertible Preferred shares in the following increments: 125,000 Series A shares and 500 Series B shares on or about January 1, 2006; 125,000 Series A shares and 500 Series B shares on or about July 1, 2006, and 125,000 Series A shares and 500 Series B shares on or about December 31, 2006. These shares will be issued with the provision that the COO/CFO has not terminated his employment voluntarily prior to the issuance of the shares. The 375,000 shares of Series A Convertible Preferred Stock are valued at \$1.00 per share based on contemporaneous cash sales during 2004. The total value of these Series A shares is \$375,000 and will be expensed over the remaining term of the COO's employment agreement. The 1,500 shares of Series B Convertible Preferred Stock are valued at \$270 per share based on contemporaneous cash sales during 2004 of common stock multiplied times the conversion ratio of 1,000. The total value of these Series B shares is \$405,000 and will be expensed over the remaining term of the

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

COO/CFO's employment agreement.

DIRECTOR OF ADMINISTRATION

In accordance with the Director of Administration's employment agreement, he is paid an annual salary of \$75,000 and a stock bonus of the Company's registered common stock equal in value to \$25,000 within two and one-half months after the end of each year of employment during which he was employed by the Company. The employment agreement expires May 21, 2005.

(D) LEASES

The Company executed a non-cancelable 5-year office lease commencing May 1, 2001. With sixty days prior written notice, the Company has the right to renew this lease for an additional five years. During 2004, the Company needed additional space and executed an additional non-cancelable 5-year office lease commencing on December 1, 2004. The annual rent escalation for both leases is the greater of the CPI or 3%. Future minimum lease payments under these leases are as follows:

Year Ending December 31,	
2005	\$ 153,000
2006	76,000
2007	37,000
2008	37,000
2009	35,000

	\$ 338,000
	=====

20

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

Rental expense was \$142,766 and \$147,478 in 2004 and 2003, respectively, included in selling, general and administrative on the statement of operations.

During August 2003, the Company issued 200,000 shares of common stock as additional security for this office lease. For accounting purposes, according to FASB 128, the shares are not considered outstanding and not included in the computation of loss per share.

NOTE 7 STOCKHOLDERS' EQUITY

(A) CONVERTIBLE PREFERRED STOCK SERIES A

The Company designated 5,000,000 shares of preferred stock as new Series A Convertible Preferred Stock ("Series A"). The Series A is convertible to common shares on a four-for-one basis, is due dividends at \$0.10 per share as authorized by the Board, has a liquidation value of \$1.00 per share and has equivalent voting rights as common shares on a share for share basis.

During 2004, the Company sold and issued 25,000 shares of Series A convertible preferred stock for cash at \$1.00 per share for total proceeds of \$25,000. Also the Company received payment of \$50,000 for

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

the Series A Convertible Preferred Stock subscription recorded during 2003 and issued the 50,000 shares of Series A convertible preferred stock that was issuable at December 31, 2003.

During 2004, the Company issued 12,500 shares of its Series A convertible preferred stock for consulting services totaling \$12,500. These shares were valued at \$1.00 per share based on contemporaneous cash sales. The measurement date was the date at which the performance of the services had been completed.

During 2004, the Company issued 24,000 shares of Series A convertible preferred stock for services totaling \$24,000 that was accrued as a liability at December 31, 2003. These shares were valued at \$1.00 per share based on contemporaneous cash sales. The measurement date was the date at which the performance of the services had been completed.

During 2004, the Company issued 120,000 shares of its Series A Preferred Stock to its COO/CFO in accordance with his employment agreement. These 120,000 shares were valued at \$1.00 per share based on contemporaneous cash sales around the grant date. The total value of these shares of \$120,000 is being expensed over the three-year employment agreement with \$80,000 deferred and \$40,000 expensed as of December 31, 2004.

21

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

During 2004, the Company converted 98,375 shares of Series A convertible preferred stock into 393,500 shares of the Company's common stock at the request of certain Series A convertible preferred stock holders.

During 2004, the Company recorded \$172,000 for the intrinsic value associated with the embedded beneficial convertible feature of the Series A convertible preferred stock. This amount was computed as the difference between the conversion price and the fair value of the preferred stock, which was computed as the fair value of the common stock based on the quoted trading price at the preferred stock issuance dates, multiplied by the conversion ratio of four-for-one for Series A. This intrinsic value is limited to the amount of the proceeds allocated to the preferred stock. For financial statement purposes, this \$172,000 was recorded as a preferred stock dividend. Additionally during 2004, the Company recorded Series A convertible preferred stock dividends of \$270,583.

(B) CONVERTIBLE PREFERRED STOCK SERIES B

On February 3, 2004, the Company's board of directors designated 30,000 shares of preferred stock as Series B Convertible Preferred Stock ("Series B"). The Series B is convertible to common shares on a one thousand-for-one ratio, is due dividends at \$1 per share, payable quarterly, as authorized by the Board and the dividends are cumulative. Series B has a liquidation value of \$240 per share and has voting rights of one thousand votes per Series B share. During 2004, the Company recorded 28,568 shares of Series B Convertible Preferred Stock as issuable. This is comprised of 23,203 Series B shares issuable to

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

the private placement unit holders during 2003 and the exercise of certain warrants during 2004 and 5,365 Series B shares issuable to private placement shareholders during 2004. The 28,568 shares of Series B were converted to 28,568,240 shares of common stock during 2004

During 2004, the Company recorded \$28 for the intrinsic value associated with the embedded beneficial convertible feature of the Series B convertible preferred stock. This amount was computed as the difference between the conversion price and the fair value of the preferred stock, which was computed as the fair value of the common stock based on the quoted trading price at the preferred stock issuance dates, multiplied by the conversion ratio of one thousand-for-one for Series B. This intrinsic value is limited to the amount of the proceeds allocated to the preferred stock. For financial statement purposes, this \$28 was recorded as a preferred stock dividend. Additionally during 2004, the Company recorded Series B convertible preferred stock dividends of \$17,901.

(C) COMMON STOCK AUTHORIZED

During the December 18, 2003 shareholders' meeting, the shareholders voted to amend the Company's Restated Articles of Incorporation to affect an increase in the number of \$0.001 par value common stock shares from 15,000,000 to 150,000,000 authorized common shares.

There is a restriction on the common stock dividends as any cumulative preferred stock dividends are required to be paid prior to any common stock dividends being paid. Also, the retained earnings of the Company would be restricted upon an involuntary liquidation by the cumulative unpaid preferred dividends to the preferred stockholders and for the \$1 per share Series A and \$240 per share Series B liquidation preferences.

22

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

(D) 2003 PRIVATE PLACEMENT

During the fourth quarter of 2003, the Company had a private placement offering of common stock. From this offering, the Company received \$1,575,000 of cash proceeds and recorded a \$100,000 subscriptions receivable at December 31, 2003. The investors received 6,700,000 common stock shares, 6,700,000 common stock warrants with an exercise price of \$0.50 and an expiration date of February 28, 2004 and 3,350,000 common stock warrants with an exercise price of \$0.75 and an expiration date of May 30, 2004 (See Note 7H for details of warrants). The Company issued 5,900,000 shares of common stock during the first quarter of 2004 related to this private placement.

The remaining 800,000 shares from this private placement will not be issued because during July 2004, the Company and this party mutually terminated the subscription agreement and the Company paid back the \$100,000 originally paid, reduced the subscription receivable of \$100,000 to zero and did not issue the 800,000 shares that were recorded as issuable to this investor. The Company also reduced its Series B convertible preferred stock issuable for the 1,433 shares of Series B related to this transaction. In addition, the Company paid

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

\$68,121 as settlement of other amounts owed to this individual. The \$68,121 was recorded as a settlement loss during 2004.

On February 5, 2004, as part of the private placement the Company's Board of Directors authorized a) 12,000 shares of Series B Convertible Preferred Stock to the private placement unit holders, b) 12,000 shares of Series B Convertible Preferred Stock upon the exercise of the \$0.50 warrant holders of the private placement and c) 6,000 shares of Series B Convertible Preferred Stock upon the exercise of the \$0.75 warrant holders of the private placement.

During 2004, warrants were exercised to purchase 6,700,000 shares of common stock from the private placement at \$0.50 per share and warrants were exercised to purchase 355,333 shares of common stock from the private placement at \$0.75 per share. The Company received \$3,616,500 of cash from the exercise of these warrants.

In conjunction with raising these funds, the Company paid in cash, offering costs of \$229,750 during 2003 and \$482,946 during 2004. The Company also issued 630,000 warrants during 2003 with an exercise price of \$0.001 per share that expire sixty days from their issuance valued at \$541,170, which cost is included in warrants granted for services in the additional paid-in capital (total offering costs of \$770,920 during 2003) (See Note 7H).

(E) 2004 PRIVATE PLACEMENT

During the third and fourth quarters of 2004, the Company sold some of its securities through a private placement. Each unit in the 2004 private placement was comprised of 666.67 shares of common stock and 1.194 shares of Series B Preferred Stock for each \$500 received. During the third and fourth quarters of 2004, the Company received \$2,246,456 of proceeds related to this 2004 private placement. The Company issued 2,995,274 shares of common stock and the 5,364.54 shares of series B convertible preferred stock were converted into common stock totaling 5,364,540 shares.

23

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

(F) COMMON STOCK ISSUANCES

The Company entered into a stock purchase agreement on October 31, 2003 whereby the buyer agreed to purchase 1,000,000 shares of the Company's common stock for \$250,000 and also received warrants to purchase up to 1,000,000 shares of the Company's common stock at an exercise price of \$0.50 with an expiration date of February 28, 2004. The Company recorded \$1,000 in its common stock issuable equity account for the 1,000,000 shares which are to be issued upon receipt of payment. The Company recorded the purchase price of \$250,000 for the 1,000,000 shares of the Company's common stock in subscriptions receivable as the funds had not been received by the Company at December 31, 2003. Subsequent to year end, this subscription was not fulfilled and the warrants expired. Therefore, the Company reduced its subscription receivable for the \$250,000 and reduced the common stock issuable for the 1,000,000 shares.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

During 2004, the Company issued 50,000 shares of its common stock pursuant to the exercise of the rights of certain note holders granted under the default provisions of certain promissory notes. The issuance resulted in additional subscriptions receivable of \$1,250 for a total issuance price of \$1,250 or \$0.025 per share.

During 2004, warrants to purchase 1,420,736 shares of the Company's common stock were exercised. The Company received \$350,184 of cash and a note for the remaining \$150,000. The \$150,000 owed to the Company was not paid for the 300,000 shares that were recorded as issuable during 2004 and on October 11, 2004, the Company and investor agreed that they would not issue the 300,000 shares and would not collect the \$150,000 owed for those shares. The Company issued 1,120,736 shares of its common stock for the warrants that were exercised and paid.

As part of the October 11, 2004 agreement with a certain investor, the Company also agreed to issue 100,000 shares of stock to this party for the services they provided to the Company during the Company's negotiations with a third party which included the forgiveness by the third party of dividends that accrued on 114,343 shares of Series A Convertible Preferred Stock. These shares were valued at \$0.27 per share based on contemporaneous cash sales around the date of grant. The Company recorded the \$27,000 as general consulting expense and also recorded a settlement gain of \$12,093 related to the Series A dividends that were forgiven.

During 2004, the Company granted and issued 100,000 shares of its common stock to a research and development provider. These shares were valued at \$0.27 per share based on contemporaneous cash sales around the date of grant. The \$27,000 was expensed to research and development costs

24

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

During 2004, a former employee exercised an option to purchase 5,000 shares of the Company's common stock at an exercise price of \$0.40 per share. The Company received \$2,000 for the exercise of this option.

During 2004, the Company issued 100,000 shares of its common stock to an individual for services. These shares were valued based upon the quoted marked price of \$1.06 on the date of grant and the expense of \$106,000 was recorded during 2004.

During 2004, the Company issued 1,666,312 shares of its common stock to its President/CEO in accordance with his employment agreement. These shares were valued based upon the quoted market price of \$0.86 on the grant date and the expense of \$1,433,028 was recorded during 2004.

During 2004, the Company issued 450,000 shares of its common stock to the President of its OnScreen Products Division. The Company has a right to repurchase 300,000 of these shares from the employee for \$450 if the employee is terminated for cause or resigns. The amount of shares that can be repurchased by the Company declines by 150,000 shares each year, resulting in the shares being fully vested on

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

November 1, 2006. The shares were valued at \$454,500 based upon the quoted market price of \$1.01 on the grant date and will be recorded as an expense over the employee's three-year employment agreement.

Certain notes were paid in full on March 12, 2004 by paying the note holders \$250,000 and issuing 12,500 shares of the Company's common stock. These shares were valued at \$11,500 based on the quoted market price of \$0.92 on the settlement date and after consideration of additional interest due for 2004 and a receivable of \$18,575 due from the note holders from option exercises, the Company recognized a gain of \$7,103 in 2004.

During 2004, a note holder exercised the right to convert a \$215,861 note into 863,442 shares of the Company's common stock.

A plaintiff held a convertible promissory note for \$234,869 at 8% interest accruing from the note date of August 1999. The Company disputed the note; however, as a contingency, the Company recorded a total of \$328,058 in accrued expenses at December 31, 2003 related to this matter. On February 5, 2004, the Company satisfied this disputed note with 60,000 shares of the Company's common stock. These shares were valued at \$60,600 based upon the quoted market price of \$1.01 on the settlement date. The Company recorded a settlement gain of \$267,458 during 2004.

During 2004, the Company recorded a settlement loss of \$13,500 for 50,000 shares of its common stock that were issued to a third party. These shares were valued at \$0.27 per share based on contemporaneous cash sales.

(G) INVESTMENT AGREEMENT

The Company had a prior agreement with Swartz Private Equity, LLC (Swartz) to provide certain funding to the Company based upon this agreement. If the Company did not meet certain requirements in the agreement the Company was also subject to a penalty of up to \$100,000

25

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

for each six month period and a \$200,000 penalty if the put agreement is terminated automatically or by the Company. At January 1, 2003, the Company owed \$200,000 of penalties and during 2003, the Company computed \$200,000 in penalties and \$300,000 in penalties was waived by Swartz which resulted in a \$100,000 accrued commitment penalty at December 31, 2003.

At January 1, 2003, Swartz had warrants to purchase 541,558 shares of the Company's common stock. During 2003, the Company and Swartz entered into an amendment to this agreement which extended the terms of each of the 541,558 warrants by two additional years. On October 22, 2003, Swartz exercised all of the 541,558 warrants in a cashless exercise transaction which resulted in Swartz being entitled to receive 379,907 shares of the Company's common stock.

On February 3, 2004, the Company and Swartz entered into a settlement

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

and termination of investment agreement. The Company agreed to i) pay \$10, ii) promptly issue the 379,907 shares of common stock from the cashless exercise of the Swartz warrants of which Swartz agreed to limit its sales of these shares of Company stock to ten percent of the Company's trading volume for any calendar month, iii) Swartz shall retain the 100,000 shares of stock that had been issued during 2002 per the initial agreement and then were not valid as put shares as the put transaction was never executed, but the shares had been issued to Swartz and v) the investment agreement between the Company and Swartz shall terminate subject to the completion of items i - iv above. During February 2004, the Company issued the 379,907 shares of common stock (without any restrictive legends).

The 100,000 share were valued at \$104,000 using the quoted marked price of \$1.04 on the date of settlement. This \$104,000 settled the \$100,000 commitment payable that was owed to Swartz at December 31, 2003 and the remaining \$4,000 was recognized as a settlement loss.

(H) NON-EMPLOYEE STOCK WARRANTS

During 2003, the Company reset the exercise price of warrants issued in a prior year to Swartz as follows: 25,478 warrants at \$0.20; and 200,000 warrants at \$0.25. The result under the variable accounting method was a net charge to commitment expense of \$12,349 during 2003. During 2003, the Company and Swartz entered into an amendment to their agreement which extended the terms of each of their 541,558 warrants by two additional years and the Company recorded an additional expense of \$53,777 related to these extensions.

During 2003, the Company granted warrants to purchase 2,105,000 shares of the Company's common stock to certain service providers at exercise prices ranging from \$0.001 to \$0.75. These warrants were valued at an aggregate of \$766,509. The Company recorded \$541,170 of the value of these warrants as offering costs during 2003 and the remainder of \$225,339 is recognized as consulting expense over the period of each consultants agreement. These warrants were valued using the Black-Scholes Options Pricing Model using the following assumptions: expected life of 30 - 428 days, volatility of 161% - 253%, zero expected dividends and a discount rate of 0.91% to 1.2%. The expiration date of a warrant that was issued during 2003 for 50,000 shares was extended for one year during 2004 and the Company recorded an additional expense of \$4,424 related to this extension. At December 31, 2004, 125,000 of these warrants are outstanding.

26

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

On November 12, 2003, the Company granted a warrant to purchase 50,000 shares of its common stock at an exercise price of \$0.25 with an expiration date of November 11, 2004 in conjunction with a settlement of monies owed. These warrants were valued at \$0.8214 per warrant, or \$41,070 using the Black-Scholes Options Pricing Model using the following assumptions: expected life of 1 year, volatility of 209%, zero expected dividends and a discount rate of 0.94%. During 2003, the Company recorded a settlement loss of \$28,570 related to this settlement of monies owed. These warrants expired during 2004.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

During 2003 the Company granted 300,000 warrants under the default provisions of certain notes payable which were valued at \$122,500 and charged to interest expense using the Black-Scholes option pricing model with a 30 day expected life, volatility of 110% - 282%, zero expected dividends and a discount rate of 0.89% - 1.20%. All of these warrants were exercised during 2003.

During the fourth quarter of 2003, the Company had a private placement offering of common stock. In conjunction with this offering, the Company granted 6,700,000 common stock warrants with an exercise price of \$0.50 with a February 28, 2004 expiration date and 3,350,000 common stock warrants with an exercise price of \$0.75 with a May 30, 2004 expiration date. During May 2004, the Board of Directors extended the exercise date of the \$0.75 warrants from May 30, 2004 to June 30, 2004. At December 31, 2004, all of these warrants had been exercised. See Note 7H

On October 31, 2003, the Company granted a warrant to purchase up to 1,000,000 shares of its common stock at an exercise price of \$0.50 with an expiration date of February 28, 2004. These warrants were granted in conjunction with a stock purchase agreement dated October 31, 2003 to purchase 1,000,000 shares of the Company's common stock for \$0.25 per share. These warrants were expired at December 31, 2004.

During 2004 the Company granted warrants to purchase 1,395,736 shares of the Company's common stock to certain service providers at exercise prices ranging from \$0.25 to \$0.50. These warrants were valued at an aggregate of \$707,352 and are recognized as consulting expense over the period of each consultant's agreement. These warrants were valued using the Black-Scholes Options Pricing Model using the following assumptions: expected life of 90 days - 3 years, volatility of 79% - 309%, zero expected dividends and a discount rate of 0.85% to 2.03%. At December 31, 2004, 725,000 of these warrants are outstanding.

During 2004 the Company granted warrants to purchase 50,000 shares of the Company's common stock under the default provisions of certain notes payable at an exercise price of \$0.025. These warrants were valued at \$46,500 and charged to interest expense using the Black-Scholes option pricing model with a 30 day expected life, volatility of 74% - 100%, zero expected dividends and a discount rate of 0.85% - 0.92%. All of these warrants were exercised during 2004.

(I) EMPLOYEE STOCK OPTIONS AND WARRANTS

On June 26, 2000, the Company's Board of Directors adopted the OnScreen Technologies, Inc. 2000 Stock Option Plan (the "Plan"). The Plan provides for the issuance of incentive stock options (ISO's) to any individual who has been employed by the Company for a continuous period of at least six months. The Plan also provides for the issuance of Non

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

Statutory Options (NSO's) to any employee who has been employed by the Company for a continuous period of at least six months, any director, or consultant to the Company. The Company may also issue reload options as defined in the plan. The total number of common shares of common stock authorized and reserved for issuance under the Plan is 600,000

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

shares. The Board shall determine the exercise price per share in the case of an ISO at the time an option is granted and such price shall be not less than the fair market value or 110% of fair market value in the case of a ten percent or greater stockholder. In the case of an NSO, the exercise price shall not be less than the fair market value of one share of stock on the date the option is granted. Unless otherwise determined by the Board, ISO's and NSO's granted under the Plan have a maximum duration of 10 years.

The Company accounts for its stock-based compensation using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees"; accordingly, the differences between the exercise prices and the fair values of the common stock underlying the options on the dates of the grants are recorded as a compensation expense.

During the first quarter of 2004, the Company issued warrants to the COO/CFO and a director each to purchase 100,000 shares of the Company's common stock (200,000 in total). These warrants were valued at \$149,000 under the intrinsic value method of APB 25 based on quoted market prices and will be recorded as compensation expense over the service period.

During 2004, a member of the Board of Directors was granted a five-year warrant to purchase 600,000 shares of common stock with an exercise price of \$0.25 for services provided. This warrant is valued at \$12,000 under the intrinsic value method of APB 25 based on contemporaneous cash sales during 2004 of common stock and was recorded to compensation expense during 2004.

During 2004, the COO was granted a five-year warrant to purchase 500,000 shares of common stock with an exercise price of \$0.25 for services provided. This warrant is valued at \$10,000 under the intrinsic value method of APB 25 based on contemporaneous cash sales during 2004 of common stock and was recorded to compensation expense during 2004.

For additional services to be provided, the President, OnScreen Products Division was granted a five-year warrant to purchase 2,000,000 shares of common stock with an exercise price of \$0.25 for services provided. This warrant can be exercised on or after November 1, 2006. The warrant expires if the employee does not complete his full employment term through October 31, 2006. This warrant is valued at \$40,000 under the intrinsic value method of APB 25 based on contemporaneous cash sales during 2004 of common stock and will be recorded to compensation expense through the vesting date of November 1, 2006.

The Director of Administration was granted a five-year warrant to purchase 600,000 shares of common stock with an exercise price of \$0.25 for services provided. This warrant is valued at \$12,000 under the intrinsic value method of APB 25 based on contemporaneous cash sales during 2004 of common stock and was recorded to compensation expense during 2004.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

During 2004, a total of 40,000 of stock options were granted to two employees. The exercise price exceeded the fair value of common stock based on contemporaneous common stock cash sales during 2004; therefore no compensation expense was recorded as there was no intrinsic value.

A summary of the warrants and options issued to employees as of December 31, 2004 and 2003 and changes during the year are presented below:

	2004		2003
	Number of Warrants and Options	Weighted Average Exercise Price	Number of Warrants and Options
Balance at beginning of period	1,885,000	\$ 0.33	100,000
Granted	3,940,000	0.25	1,785,000
Exercised	(5,000)	0.35	--
Forfeited	(10,000)	0.35	--
Balance at end of period	5,810,000	\$ 0.28	1,885,000
Warrants and options exercisable at end of period	3,805,000	\$ 0.29	1,885,000
Weighted average fair value of warrants and options granted during the period		\$ 0.34	

The fair value of warrants granted during 2004 was estimated on the dates of the grants using the following approximate assumptions: dividend yield of 0%, expected volatilities of 166% - 312%, risk-free interest rates of .85% - 3.46%, and expected lives of 2 - 5 years. The fair value of warrants granted during 2003 was estimated on the dates of the grants using the following approximate assumptions: dividend yield of 0%, expected volatilities of 230% - 354%, risk-free interest rates of .91% - 2.18%, and expected lives of 3 years.

(J) DEFERRED CONSULTING AND COMPENSATION EXPENSE FROM STOCK AND WARRANT ISSUANCES

During 2003 and 2004, the Company entered into several consulting agreements with various consultants to provide services for the Company. The measurement date was typically the grant date for these agreements since the shares were contractually fully vested and nonforfeitable at the grant date. The Company amortizes the cost of each agreement over the contract term. At December 31, 2004, the Company had amortized all of the deferred consulting expense.

During 2004, the Company issued common stock, preferred stock and warrants to certain employees. The Company amortizes the cost of this equity compensation over the service period of the employee. At December 31, 2004, the Company had \$438,282 of deferred equity compensation.

NOTE 8 RELATED PARTY TRANSACTIONS

The Company subleases part of its corporate office space to another company, under common management, for \$4,800 per month under a one-year lease which expired January 31, 2003. The receivable from this Company of \$78,139 was fully reserved during 2003 due to the Company's assessment that the tenant does not have the current ability to pay. The total other income in 2003 from this affiliate was \$29,644. Later in 2003, the Company received property & equipment valued at \$40,480 as partial payment of the monies owed by this company. The gain on this transaction of \$40,480 was recorded in the additional paid in capital equity account since it resulted from a company under common control. During the first half of 2004, the Company leased space to this third party for a total of \$4,500, but the Company never received payment and this was fully reserved for at December 31, 2004.

The Company had loans payable including accrued interest to its President/CEO totaling \$303,657 at January 1, 2003. During 2003, the Company recorded interest expense of \$16,435, made loan payments of \$4,371 and converted the total loan and accrued interest of \$315,721 to Series A Convertible preferred Stock.

At January 1, 2003, the company had a short-term loan payable from its current President of the OnScreen Products Division totaling \$50,000. This loan was paid off in full during March 2004. The Company did not record any interest expense related to this loan.

Edgar Filing: ONSCREEN TECHNOLOGIES INC - Form 10KSB

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

On July 1, 2003, Orion One, LLC ("Orion") and the Company entered into a one-year consulting agreement whereby for the services provided, the Company would issue to Orion warrants to purchase 600,000 share of its common stock at an exercise price of \$0.25 to be exercised within six months (these lapsed) and a warrant to purchase 600,000 shares of its common stock at an exercise price of \$0.50 to be exercised within a year (warrant was exercised to purchase 300,000 shares for \$150,000. These warrants were recorded as consulting expense of \$186,600 during 2003. On April 15, 2004, Orion and the Company entered into a ninety day consulting agreement whereby as compensation for the services Orion was granted a warrant to purchase 600,000 shares of the Company's common stock at an exercise price of \$0.25 to be exercised within ninety days (warrant was exercised and 600,000 share issued for \$150,000). The warrant was recorded as a consulting expense of \$402,360 during 2004. On October 11, 2004, Orion and the Company entered into an agreement whereby Orion would provide services to the Company and for these services, the Company would issue 100,000 shares of its common stock which was valued at \$27,000. The President of our OnScreen Products Division is an investor in Orion.

On February 3, 2004, a third party and the Company reached a master settlement and release agreement whereby, in consideration for the exchange of mutual releases and the third party relinquishing any claim to any of the benefits of the OnScreen (including the 11.25% license payments), the Company agreed to pay to this third party \$150,000 within five days of receiving the \$7.2 million funding plus an annually declining percentage of revenue of 5% in 2005 declining to 2% in year 2008 and thereafter from the OnScreen revenues. In the event of a change of control of the Company, the percentage of revenue shall terminate and a single payment transaction fee shall be paid by the Company to this third party ranging from 10% of the OnScreen appraised value up to \$100,000,000, 7 1/2% for the appraised value between \$100,000,001 and \$200,000,000, 5% of the appraised value between \$200,000,001 and \$300,000,000, and 4% of the appraised value between \$300,000,001 and \$400,000,000 and 3% for the appraised value between \$400,000,001 and \$500,000,000 and 2% for any appraised amounts between \$500,000,001 and \$600,000,000. (See Note 4 - License 1). At the time of this agreement, the President of the OnScreen Products Division was the manager in this third party company.

NOTE 9 INCOME TAXES

The Company recognized losses for both financial and tax reporting purposes during each of the periods in the accompanying statements of operations. Accordingly, no provision for income taxes and/or deferred income taxes payable has been provided for in the accompanying financial statements.

At December 31, 2004, the Company has available net operating loss carry forwards of approximately \$11 million. These net operating loss carry forwards expire in various years through the year ending December 31, 2024; however, because the Company has incurred significant operating losses, utilization of the income tax loss carry forwards are not assured. As a result, the non-current deferred income tax asset arising from these net operating loss carry forwards and from other temporary differences are not recorded in the accompanying balance sheets because we established a valuation allowance to fully reserve such assets due to the uncertainty of the Company's realization of this benefit.

After consideration of all the evidence management has determined that a full valuation allowance is necessary to reduce the deferred tax assets to the amount that will more likely than not be realized.

ONSCREEN TECHNOLOGIES, INC.
 NOTES TO FINANCIAL STATEMENTS
 DECEMBER 31, 2004 AND 2003

The Company's tax expense differs from the "expected" tax expense for the periods ended December 31, 2004 and 2003, computed by applying the Federal Corporate tax rate of 34% to loss before taxes, as follows:

	2004	2003
	-----	-----
Computed "expected" tax benefit	\$(2,687,000)	(1,169,000)
State tax benefit, net of federal effect	(287,000)	(125,000)
Change in valuation allowance	1,523,000	500,000
Intrinsic value of convertible preferred stock	--	359,000
Equity instruments for services	1,451,000	435,000
	-----	-----
	\$ --	\$ --
	=====	=====

At December 31, 2004, the tax effects of temporary differences that gave rise to significant portions of deferred tax assets and liabilities are as follows:

	2004

Deferred tax assets:	
Net operating loss carry forwards	\$ 4,166,000
Difference between book and tax, fixed assets	212,000
Valuation allowance for deferred tax asset	(4,546,000)
Other	168,000

	\$ --
	=====

NOTE 10 OTHER SETTLEMENTS

During 2004, the Company settled several payables owed and recorded a settlement gain of \$48,811 during 2004 related to these settlements.

NOTE 11 CONCENTRATIONS

During 2004, 36% of revenues were derived from two customers at 25% and 11%. During 2003, 55% of revenues were derived from two customers at 32% and 23%.

The Company's major products are reliant upon the OnScreen(TM) technology which it has purchased the rights to and it has applied for several patents related to this technology.

NOTE 12 SUBSEQUENT EVENTS

On February 16, 2005, the inventor of the OnScreen technology, who licensed to the Company the rights of the direct view LED video display technology, conveyed to a third party company, all of the inventor's right, title and interest of the OnScreen technology. The Company purchased the right, title and interest of the OnScreen technology for \$200,000. The Company now owns all patent rights to the

ONSCREEN TECHNOLOGIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2004 AND 2003

OnScreen technology unencumbered subject to the rights of F3 relating to the percentages of revenue from commercialization of the direct view LED video display technology. One of the Company's board of directors has an interest in the third party company that conveyed these rights to the Company.

During late March 2005, the Company signed a \$1.5 million unsecured six-month promissory note. The interest rate is 15%, payable monthly. One of the Company's board of directors has an interest in the company that is the note holder.

On March 28, 2005, an addendum was made to the CEO/President's employment agreement. The term of the agreement was extended three years expiring on December 31, 2008. The CEO/President is to receive an additional 2.1 million shares of the Company's common stock and the monthly vehicle allowance was increased from \$500 to \$1,500. The CEO/President relinquished his entire entitlement to any of the Company's revenue.
