The following table sets forth the month-end Index Levels from January 31, 2001 through October 31, 2006. We obtained the Index Levels listed below from public sources and believe such information to be accurate.

Since its inception, the Index has experienced significant fluctuations. Any historical upward or downward trend in the Index Level during any period shown in the following table is not an indication that the Index Level is more or less likely to increase or decrease at any time during the term of the Notes. The historical Index Level during any period shown in the following table is not an indication of the future performance of the Index. The results shown should not be considered as a representation of the income, yield or capital gain or loss that may be generated by the Index in the future. The actual performance of the Index over the life of the Notes may bear little relation to the historical terms shown below.

SELECTED RISK CONSIDERATIONS

- Suitability of Notes for Investment** - A person should reach a decision to invest in the Notes after carefully considering, with his or her advisors, the suitability of the Notes in light of his or her investment objectives and the information set out in the Pricing Supplement. Neither the Issuer nor any dealer participating in the offering makes any recommendation as to the suitability of the Notes for investment.
- Possible Loss of Principal** - The Notes are not fully principal protected. If the Final Index Level is less than 85% of the Initial Index Level at maturity, you will receive less, and possibly up to 85% less, than the original public offering price of \$1,000 per Note. In this case, you will lose 1% of the original principal amount for each percentage point that the Index Return is below -15%. Accordingly, you may lose up to 85% of your initial investment in the Notes.
- Secondary Market** - Because the Notes will not be listed on any securities exchange, a secondary trading market is not expected to develop, and, if such a market were to develop, it may not be liquid. Bear, Stearns & Co. Inc. intends under ordinary market conditions to indicate prices for the Notes on request. However, there can be no guarantee that bids for outstanding Notes will be made in the future; nor can the prices of those bids be predicted.

- **No current income** — We will not pay any interest on the Notes. The yield on the Notes therefore may be less than the overall return you would earn if you purchased a conventional debt security at the same time and with the same maturity.
- **No dividend or other payments** — You will not receive any dividend payments or other distributions on the stocks underlying the Index, nor will such payments be included in the calculation of the Cash Settlement Value you will receive at maturity.
- **Equity market risks** — We expect that the Index Level will fluctuate in accordance with changes in the financial condition of the companies issuing the stocks comprising the Index, the value of the underlying stocks comprising the Index generally and other factors. The Index is susceptible to general equity market fluctuations and to volatile increases and decreases in value, as market confidence in and perceptions regarding the underlying stocks comprising the Index change. Investor perceptions regarding the companies issuing the stocks comprising the Index are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies, inflation and interest rates, economic expansion or contraction, and global or regional political, economic, and banking crises. The Index Level may be expected to fluctuate until the Maturity Date.

BEAR, STEARNS & CO. INC.

STRUCTURED PRODUCTS GROUP

- **Taxes** - The U.S. federal income tax consequences of an investment in the Notes are complex and uncertain. We intend to treat the Notes for all tax purposes as pre-paid cash-settled forward contracts linked to the value of the Index and, where required, to file information returns with the Internal Revenue Service in accordance with such treatment. Prospective investors are urged to consult their tax advisors regarding the U.S. federal income tax consequences of an investment in the Notes. Assuming the Notes are treated as pre-paid cash-settled forward contracts, you should be required to recognize capital gain or loss to the extent that the cash you receive on the Maturity Date or upon a sale or exchange of the Notes prior to the Maturity Date differs from your tax basis on the Notes (which will generally be the amount you paid for the Notes).

LICENSE AGREEMENT

We have entered into a non-exclusive license agreement with the Sponsor providing for the license to us, in exchange for a fee, of the right to use the Index, which is owned and published by the Sponsor, in connection with certain securities, including the Notes.

The license agreement between the Sponsor and us provides that the following language must be set forth in this pricing supplement.

“The Notes are not sponsored, endorsed, sold or promoted by the Sponsor. The Sponsor makes no representation or warranty, express or implied, to the owners of the Notes or any member of the public regarding the advisability of investing in securities generally or in the Notes particularly. The Sponsor’s only relationship to us is the licensing of certain trademarks, trade names and service marks of the Sponsor and of the Index, which is determined, composed and calculated by the Sponsor without regard to us or the Notes. The Sponsor has no obligation to take our needs or the needs of holders of the Notes into consideration in determining, composing, or calculating the Index. The Sponsor is not responsible for and has not participated in the determination of the timing of, prices at which Notes are sold, or quantities of the Notes to be issued or in the determination or calculation of the amount payable at maturity. The Sponsor has no obligation or liability in connection with the administration, marketing, or trading of the Notes.

The Sponsor does not guarantee the accuracy and/or the completeness of the Index or any data included therein and the Sponsor shall have no liability for any errors, omissions, or interruptions therein. The Sponsor makes no warranty, express or implied, as to results to be obtained by us, owners of the Notes, or any other person or entity from the use of the Index or any data included therein. The Sponsor makes no express or implied warranties, and expressly disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Index or any data included therein. Without limiting any of the foregoing, in no event shall the Sponsor have any liability for any lost profits or indirect, punitive, special, or consequential damages or losses, even if notified of the possibility thereof. There are no third party beneficiaries or any agreements or arrangements between the Sponsor and us.”
