Voting

Voting. You may vote in person at the special meeting or by proxy. We recommend you vote by proxy even if you plan to attend the special meeting. You can always change your vote at the special meeting.

If your shares are held in street name by a broker, bank or other nominee, you will receive instructions from the holder of record that you must follow in order for your shares to be voted.

If you properly give your proxy and submit your proxy card in time to vote, one of the individuals named as your proxy will vote your shares as you have directed. You may vote **for** or **against**, or **abstain** from voting with respect to each of the proposals. If you mark your proxy **abstain** with respect to any proposal, you will be in effect voting against the proposal. In addition, if you fail to send in your proxy and do not vote in person at the special meeting, this, too, will have the same negative effect with respect to the proposal to amend the certificate of incorporation of eXegenics.

How to Vote by Proxy

You may vote by mail by completing, signing and dating your proxy card and returning it in the enclosed, postage-paid and addressed envelope. If you mark your voting instructions on the proxy card, your shares will be voted:

-

as you instruct, and

-

Edgar Filing: eXegenics Inc - Form DEF 14A

according to the best judgment of the proxy holders if a proposal comes up for a vote at the special meeting or adjourned special meeting that is not on the proxy card.

If you submit your proxy but do not make specific choices, your proxy will follow the board of directors recommendations and vote your shares:

•

FOR: the sale of 19,440,491 shares of eXegenics common stock in the stock sale;

•

FOR: the amendment to the certificate of incorporation of eXegenics to increase the number of authorized shares of eXegenics common stock from 30,000,000 shares to 225,000,000 shares;

•

FOR: the grant of 50,000 shares of eXegenics common stock to each of John Paganelli and Robert Baron;

•

FOR: adjournment of the special meeting, if necessary, to solicit additional proxies; and

•

In his or their discretion as to any other business that may properly come before the special meeting or adjourned special meeting.

Revoking Your Proxy. You may change your vote at any time before your proxy is exercised, that is before your shares are voted, by:

- executing and delivering a timely and valid later-dated proxy to John A. Paganelli, secretary of eXegenics;
- giving written notice of revocation to eXegenics's secretary that you have revoked your proxy; or
- voting in person at the special meeting.

Voting in person. If you plan to attend the special meeting and wish to vote in person, we will give you a ballot at the special meeting. However, if your shares are held in the name of your broker, bank or other nominee, you must bring an account statement or letter from the nominee indicating that you are the beneficial owner of the shares on December 21, 2006, the record date for shares entitled to vote at the special meeting.

Proxy solicitation. The accompanying proxy is solicited by the board of directors of eXegenics. The cost of preparing, assembling, printing and mailing the notice of special meeting of stockholders, this Proxy Statement, the enclosed form of proxy and any additional materials, as well as the cost of soliciting the proxies will be borne by us, including reimbursement paid to brokers and other nominees for their reasonable expenses in delivering the proxy materials to you and getting your voting instructions.

In addition to this mailing, eXegenics employees may solicit proxies personally, electronically or by telephone. We will not pay additional compensation to our employees for their solicitation efforts, but we will reimburse them for any out-of-pocket expenses they may incur in their solicitation efforts. eXegenics may also retain firms or individuals to assist it in the solicitation of proxies and estimates that it may incur expenses of up to \$15,000 in connection with such engagements.

The extent to which these proxy soliciting efforts will be necessary depends entirely upon how promptly proxies are submitted. You should send in your proxy without delay.

Other Business; Adjournments

We are not currently aware of any other business to be acted upon at the special meeting. Under the laws of Delaware, where eXegenics is incorporated, no business other than procedural matters may be raised at the special meeting unless proper notice to the stockholders has been given. If, however, other matters are properly brought before the special meeting, or any adjourned meeting, your proxies will have discretion to vote or act on those matters according to their best judgment.

Adjournments may be made for the purpose of, among other things, soliciting additional proxies. If a quorum is present, the special meeting may be adjourned by approval of the holders of shares representing a majority of the shares present in person or by proxy at the special meeting and entitled to vote. In the absence of a quorum, the chairman of the board of directors of eXegenics may adjourn the special meeting. In either case, the special meeting may be adjourned, without further notice other than by an announcement made at the special meeting, unless the adjourned meeting is to another time more than 30 days from the special meeting, or if after the adjournment a new record date is fixed for the adjourned meeting. At the adjourned meeting eXegenics may transact the business which was to be transacted at the special meeting. eXegenics does not currently intend to seek an adjournment of the special

meeting.

SUMMARY

This summary highlights selected information from this Proxy Statement. It may not contain all of the information that is important to you. We urge you to read carefully this Proxy Statement and the documents attached to this Proxy Statement for a complete understanding of the matters to be considered by the stockholders at the special meeting. Certain items in this Summary include a page reference directing you to a more complete description of that item in this Proxy Statement.

Recommendation of the eXegenics board of directors (see pages 6, 13):

The eXegenics board of directors unanimously recommends that the eXegenics stockholders vote **FOR**:

- the sale of 19,440,491 shares of eXegenics common stock to the Investors, as defined and identified below;
- the amendment to the certificate of incorporation of eXegenics to increase the number of authorized shares of eXegenics common stock from 30,000,000 shares to 225,000,000 shares;
- the issuance of 50,000 shares of eXegenics common stock to each of Messrs. Paganelli and Baron pursuant to the Stock grants; and
- the adjournment of the special meeting, if necessary, to solicit additional proxies.

The Stock Purchase Agreement (see page 19)

The stock purchase agreement dated August 14, 2006 and as amended as of November 30, 2006 is attached as Annex A to this Proxy Statement. You are encouraged to read the stock purchase agreement as it is the legal document that governs the stock sale.

Purchase price per share of eXegenics common stock (see page 19)

Under the terms of the stock purchase agreement, in consideration of an initial aggregate purchase price of \$8,613,000 (or \$.44 per share of eXegenics common stock) eXegenics will sell and issue 19,440,491 shares of eXegenics common stock to the Investors. The aggregate purchase price to be paid by the Investors is subject to adjustment based on eXegenics' s stockholders' equity at the closing date of the stock sale and the outcome of disputes between eXegenics and Ronald L. Goode and eXegenics and Abdel Hakim Labidi. Subsequent to the execution of the stock purchase agreement, eXegenics settled its dispute with Ronald L. Goode on terms that will have no impact on the purchase price. The final aggregate purchase price to be paid by the Investors on the closing date of the stock sale is equal to eXegenics' s stockholders' equity at that date. At September 30, 2006, stockholders' equity was \$8.4 million.

Purchasers of eXegenics common stock

On the closing date of the stock sale, an aggregate of 19,440,491 shares of eXegenics common stock will be sold to the following purchasers (collectively, the Investors):

Owner	Number/percentage of shares to be sold (approximately)	Percentage of shares of eXegenics common stock owned immediately after the stock sale on a fully-diluted basis
Investment Group, LLC	15,490,546/80.0 %	
Valley, LLC	2,257,110/11.6 %	
Partners, LLC	225,711/1.16 %	
Holding LLC	112,856/ *	
Atlantic Fund, LLC	451,422/2.3 %	
E. and Diane DeLuca	282,139/1.5 %	
Sudack	112,856/ *	
Rosenstock	112,856/ *	
W. Wolf	394,995/2.0 %	

*

Less than 1%

(1)

Assumes the issuance of 1,667,017 shares of common stock upon conversion of outstanding Series A preferred stock, the issuance of stock bonuses and the exercise of outstanding options and warrants.

None of the Investors is currently an affiliate of eXegenics. The 19,440,491 shares of eXegenics common stock issued to the Investors will equal 51% of the outstanding capital stock of eXegenics on the closing date of the stock sale, on a fully-diluted basis.

The concentration of eXegenics capital stock ownership with the Investors, in particular The Frost Group LLC and New Valley, LLC will limit our current stockholders ability to influence corporate matters

After the closing of the stock sale, The Frost Group LLC and New Valley, LLC, together with the other Investors will own 51% of eXegenics common stock on a fully diluted basis, representing approximately 51% of the voting power of our outstanding capital stock. The Frost Group LLC and New Valley, LLC, together with the other Investors therefore will have significant influence over the management and affairs of eXegenics and over all matters requiring stockholder approval, including the election of directors and significant corporate transactions, such as a merger or other sale of eXegenics or its assets, for the foreseeable future. This concentrated control limits the ability of current eXegenics stockholders to influence corporate matters and, as a result, The Frost Group LLC and New Valley, LLC, together with the other Investors may take actions that eXegenics current stockholders do not view as beneficial.

Reasons for the stock sale (see pages 13, 26)

eXegenics is proposing the stock sale because, among other things, it believes the funds invested in eXegenics will provide eXegenics with working capital that can be used to create future operational and business opportunities.

Recommendation of, and factors considered by, the eXegenics board of directors as to the stock sale (see page 13)

After careful consideration, eXegenics' s board of directors, by unanimous vote, has determined the stock sale to be fair to the eXegenics stockholders and in their best interests and declared the stock sale advisable. The eXegenics' s board of directors approved the stock purchase agreement and recommends that the eXegenics stockholders approve the sale of shares of eXegenics common stock to the Investors pursuant to the stock purchase agreement.

The eXegenics board of directors approved the stock sale based on a number of factors, including, among other factors, the following:

- the infusion of additional capital will provide eXegenics with the ability to participate in business opportunities that might not otherwise be available to eXegenics because of its current limited capital resources and limited business, which is currently that of a holding company;
- the knowledge, management experience and reputation of Phillip Frost, M.D., who is the sole trustee of Frost Gamma Investment Trust, a member of The Frost Group LLC, an Investor who will purchase 15,490,546, or approximately 80%, of the shares of eXegenics common stock being sold. The eXegenics board of directors believes that eXegenics will highly benefit from Dr. Phillip Frost' s business acumen and his background and success in building successful operating companies, which will expose eXegenics to various business opportunities that it might not otherwise have had the opportunity to consider. Dr. Frost' s biographical information is included on page 14 of this Proxy Statement;
- the likelihood that eXegenics will, as a result of its receipt of the proceeds from the sale, have better opportunities for future growth; and

- the ability of eXegenics stockholders to continue to participate in potential business opportunities identified by eXegenics.

In considering the recommendation of the eXegenics board of directors with respect to the stock sale, eXegenics stockholders should be aware that certain directors of eXegenics have certain interests in the stock sale that are different from, or are in addition to, the interests of eXegenics stockholders generally. We encourage you to read the section titled *Interests of eXegenics Directors in the Stock Sale* at page 18 for a discussion of these interests.

In addition to the interests that certain directors of eXegenics might have in the stock sale, the board of directors also considered the fact that the stock sale will result in a change-in-control of eXegenics and does not represent any premium over book value for the shares of eXegenics common stock being purchased. However, the eXegenics board determined that the anticipated benefits, highlighted above and discussed in greater detail under *The Stock*

Sale General *Recommendations of the Board of Directors and Reasons for the Stock Sale*, of the stock sale necessitated a vote for and recommendation of the sale of eXegenics common stock to the Investors, pursuant to the stock purchase agreement.

Ownership of eXegenics after the stock sale (see page 25)

At the closing of the stock sale eXegenics will issue 19,440,491 shares of eXegenics common stock to the Investors. Immediately following the completion of the stock sale, the Investors will own 51% of the outstanding capital stock of eXegenics on a fully-diluted basis. This number assumes the conversion of all outstanding eXegenics Series A preferred stock, which are currently convertible on a share-for-share basis into shares of eXegenics common stock, the exercise of all outstanding options or warrants to purchase shares of eXegenics common stock and the issuance of 50,000 shares of eXegenics common stock to each of Mr. Paganelli and Mr. Baron immediately prior to the closing of the stock sale.

Current stockholders to experience immediate dilution as a result of the stock sale

As a result of the stock sale, the current stockholders' percentage ownership of eXegenics common stock will be diluted by more than 51%. Currently, there are a total of 18,558,118 shares of eXegenics common stock issued and outstanding on a fully diluted basis. If the stock sale is consummated, 19,440,491 shares of eXegenics common stock will be issued to the Investors and 50,000 shares of eXegenics common stock will be issued to each of Messrs. Paganelli and Baron and, as a result, the current 18,558,118 shares of eXegenics common stock will represent approximately 49% of the issued and outstanding common stock of eXegenics on a fully diluted basis after the stock sale.

Registration of the eXegenics common stock to be issued in the stock sale and to the directors (see pages 13, 26)

Neither the shares of eXegenics common stock to be issued in the stock sale, or the shares to be issued to Messrs. Paganelli and Baron will be registered under the Securities Act of 1933, as amended (the Securities Act). As a result these shares will be restricted securities within the meaning of the Securities Act and may not be resold in the public market place in the absence of a registration statement covering the shares, or an exemption from the registration requirements under the Securities Act and any applicable state securities laws.

Voting agreements (see page 24)

Voting agreements of directors and greater than 5% stockholders of eXegenics

As of December 21, 2006, the record date for the special meeting, the directors of eXegenics and beneficial owners of more than 5% of eXegenics common stock owned as a group approximately 20.45% of the shares of eXegenics common stock and approximately 3.9% of the shares of Series A preferred stock entitled to vote at the special meeting, or approximately 19.52% of the total voting power.

Each of our directors has entered into voting agreements, and eXegenics has agreed to use its commercially reasonable efforts to have Bruce Meyers and J. Morton Davis, each a beneficial owner of more than 5% of eXegenics capital stock entitled to vote at the special meeting, enter into voting agreements, pursuant to which they agree to vote their shares of eXegenics common stock:

-

in favor of the sale of shares of eXegenics common stock pursuant to the stock purchase agreement, and

-

in favor of the amendment to the certificate of incorporation of eXegenics to increase the number of authorized shares of eXegenics common stock to 225,000,000.

The total number of shares of eXegenics common stock held by eXegenics directors and subject to voting agreements represent, as of the record date, approximately 5.26% of the total voting power of shares of eXegenics capital stock entitled to vote at the special meeting. The total number of shares of eXegenics common stock held by Bruce Meyers and J. Morton Davis, each a beneficial owner of more than 5% of eXegenics common stock, represent, as of the record date, approximately 14% of the total voting power of shares of eXegenics capital stock entitled to vote at the special meeting. To the extent Messrs. Meyers and Davis enter into voting agreements covering their shares of eXegenics common stock, the total number of shares of eXegenics common stock subject to

voting agreements will represent, as of the record date, approximately 19.31% of the total voting power of shares of eXegenics capital stock entitled to vote at the special meeting.

Voting agreements of Investors post stock sale

Each of the Investors have agreed to enter into a voting agreement pursuant to which the Investors will agree to vote his, her or its shares of eXegenics common stock for the election of John Paganelli and Robert Baron as directors of eXegenics.

The total number of shares of common stock subject to the post-stock sale voting agreement represents approximately 51% of the total voting power of shares of eXegenics capital stock entitled to vote on matters requiring stockholder approval, including election of directors. This post-stock sale voting agreement will continue for a period of three years from consummation of the stock sale.

Resignation of current directors and new directors following the stock sale (see page 20)

Upon completion of the stock sale, Robert Benou and David Lee Spencer, M.D. will resign as directors of eXegenics, the size of the board of directors will be increased by one, and three designees of Dr. Phillip Frost will be appointed to fill the vacancies created. The directors will serve until eXegenics next annual meeting of stockholders. John Paganelli, who is currently chairman and interim chief executive officer and secretary of eXegenics, and Robert Baron, who is currently a director of eXegenics, will continue as directors of eXegenics until the next annual stockholders meeting.

The change in the size and composition of the eXegenics board of directors will result in current eXegenics directors representing a minority of the reconstituted eXegenics board of directors. As of the date of this Proxy Statement, the Frost designees had not been identified. Accordingly, stockholders of eXegenics considering the stock sale proposal are being asked to vote on this matter without knowledge of the names or experience or potential conflicts of three board members. Under the bylaws of eXegenics and pursuant to the Delaware General Corporation Law, the vote of the majority of the directors present at a meeting at which a quorum is present constitutes the act of the board of directors. The Frost designees will constitute a majority of the eXegenics board of directors.

Interest of certain persons in the stock sale (see page 18)

When you consider the recommendations of the eXegenics board of directors that the eXegenics stockholders approve the stock sale, you should be aware that the members of the management and board of directors identified in *The Stock Sale Interests of eXegenics Directors in the Stock Sale* may have interests in the stock sale that may be different from, or in addition to, the interests of the eXegenics stockholders. As noted above, two current directors of eXegenics will continue as directors of eXegenics upon the closing of the stock sale pursuant to the stock purchase agreement and the post-stock sale voting agreement. In addition, they are also entitled to receive shares of eXegenics common stock upon closing of the stock sale.

Conditions to the completion of the stock sale (see page 22)

The completion of the stock sale depends upon the satisfaction or waiver of a number of conditions, including the following:

- approval of the stock sale by the eXegenics stockholders;

-

approval of the amendment to the certificate of incorporation of eXegenics to increase the number of shares of common stock eXegenics is authorized to issue from 30,000,000 to 225,000,000;

-

absence of all legal prohibition on completion of the stock sale; and

-

obtaining all necessary consents and approvals.

The material obligations of each of the Investors is to enter into voting agreements.

In addition, the obligation of eXegenics to complete the stock sale is subject to, among other things, the satisfaction of the following conditions:

- performance by the Investors of their obligations required to be performed by them at or prior to closing to the extent specified in the stock purchase agreement; and

- accuracy as of closing of the representations and warranties made by the Investors to the extent specified in the stock purchase agreement.

In addition, the Investors' obligation to complete the stock sale is subject to, among other things, the satisfaction of the following conditions:

- performance by eXegenics of the obligations required to be performed by it at or prior to closing to the extent specified in the stock purchase agreement; and

- accuracy as of closing of the representations and warranties made by eXegenics to the extent specified in the stock purchase agreement.

The material obligations of eXegenics to a completion of the stock sale, are to: (i) recommend the approval and adoption by its stockholders of the stock sale and the amendment to its charter; (ii) operate its business in the ordinary course consistent with past practice and (iii) deliver executed voting agreements from each of its directors, and to use commercially reasonable efforts to have voting agreements executed by the beneficial owners of more than 5% of its capital stock.

Regulatory approvals

Neither eXegenics nor the Investors is aware of any government regulatory approval required to be obtained with respect to the consummation of the stock sale, except for the filing with the Securities and Exchange Commission (SEC) of this Proxy Statement and compliance with all applicable federal and state securities laws regarding the offering and sale of eXegenics common stock to the Investors and the filing of an amendment to the certificate of incorporation of eXegenics evidencing the increase in the number of authorized shares of eXegenics common stock with the Delaware Secretary of State.

Termination of the stock purchase agreement (see page 23)

The stock purchase agreement may be terminated by mutual written consent of eXegenics and the Investors. In addition, the stock purchase agreement may be terminated by either eXegenics or the Investors if:

- (1) subject to certain exceptions set forth in the stock purchase agreement, the stock sale has not been completed by March 31, 2007;

- (2) there is a permanent legal prohibition to closing the stock sale; or

(3)

eXegenics stockholders fail to approve the stock sale and the amendment to the certificate of incorporation of eXegenics at a duly held meeting.

The stock purchase agreement may be terminated by eXegenics if:

-

the Investors shall have breached their representations and warranties in the stock purchase agreement, or there has been a breach by the Investors of their covenants or agreements contained in the stock purchase agreement, which breach or failure to perform would cause failure of a condition to the closing of the stock sale and which is not cured or curable within ten days of notice to the Investors of such breach or failure to perform.

The stock purchase agreement may be terminated by the Investors if:

-

eXegenics shall have breached its representations and warranties in the stock purchase agreement, or there has been a breach by eXegenics of its covenants or agreements contained in the stock purchase agreement, which breach or failure to perform would cause failure of a condition to the closing of the stock sale and which is not cured or curable within ten days of notice to eXegenics of such breach or failure to perform.

Termination fees (see page 23)

eXegenics must pay the Investors a termination fee of \$300,000 in cash if the stock purchase agreement is terminated due to the failure to obtain the approval of the eXegenics stockholders, and the board of directors of

eXegenics shall have exercised its right under the stock purchase agreement, and in compliance with its fiduciary duties, to (i) not recommend to the stockholders of eXegenics that they give their approval of the stock sale and the amendment to the certificate of incorporation of eXegenics, or (ii) withdraw or modify in a manner materially adverse to the Investors its recommendation that the stockholders of eXegenics vote in favor of the stock sale and the amendment to the eXegenics charter.

Opinion of eXegenics Financial Advisor (see page 15)

In deciding to approve the stock sale, the eXegenics board of directors considered the opinion of its financial advisor, Empire Valuation Consultants, LLC, that, as of July 25, 2006, the consideration to be paid by the Investors to eXegenics in connection with the stock sale is fair to eXegenics and the holders of its common stock and Series A preferred stock from a financial point of view. This opinion is attached to this Proxy Statement as Annex B.

The approval of the amendment to the certificate of incorporation of eXegenics is required to consummate the stock sale (see page 25)

The amendment to the certificate of incorporation of eXegenics to increase the number of authorized shares of common stock from 30,000,000 to 225,000,000 is required to consummate the stock sale. Under the stock purchase agreement, eXegenics is required to sell and issue to the Investors that number of shares of eXegenics common stock equal to 51% of the outstanding capital stock of eXegenics on the closing date of the stock sale on a fully diluted basis. eXegenics currently has 30,000,000 shares of common stock authorized. As of September 30, 2006, 16,991,101 shares of common stock and 1,002,017 shares of Series A preferred stock were issued and outstanding and 1,567,017 shares of common stock were reserved for issuance upon conversion of outstanding Series A preferred stock and the exercise of outstanding options and warrants. This means that in order for eXegenics to satisfy its obligations under the stock purchase agreement, eXegenics must be authorized to issue, at least, approximately 38,000,000 shares of common stock, because in determining the number of shares of eXegenics common stock to be issued to the Investors so that the Investors will own 51% of the outstanding capital stock of eXegenics on the closing date on a fully diluted basis, eXegenics must assume that the 1,002,017 shares of Series A preferred stock have been converted into 1,002,017 shares of common stock, the options and warrants have been exercised and an aggregate of 100,000 shares of eXegenics common stock have been issued to Messrs. Paganelli and Baron in consideration of their respective stock grants.

In addition to increasing the number of authorized shares of eXegenics common stock to accommodate the stock sale, the board of directors has determined that it is in the best interests of eXegenics and its stockholders to have additional shares of common stock available for future issuance in connection with possible acquisitions, equity financing requirements and opportunities and other general corporate purposes. However, except for the issuance of shares of eXegenics common stock in connection with the stock sale, issuances in connection with the conversion of shares of eXegenics Series A preferred stock, issuances in connection with the exercise or conversion of outstanding warrants or options, and the issuance of eXegenics common stock to Messrs. Paganelli and Baron pursuant to the stock grants, eXegenics has no present commitments or agreements that will require or involve the future issuance of any additional shares of common stock.

If the charter amendment is not approved, eXegenics will not have a sufficient number of shares of eXegenics common stock authorized to consummate the stock sale and the stock sale will not close. If the stock sale does not close, there will not be a change-in-control transaction and Messrs. Paganelli and Baron will not be entitled to the shares of eXegenics common stock granted to each of them.

Stockholders must vote **FOR** both the amendment to the certificate of incorporation and the stock sale in order for the stock sale to close.

The approval of the stock sale does not constitute an approval of the stock grants. Stockholders may vote **FOR** the stock sale and **AGAINST** the stock grants.

QUESTIONS AND ANSWERS ABOUT THE SPECIAL MEETING

Q:

What will happen in the stock sale?

A:

In the stock sale, eXegenics will sell and issue an aggregate of 19,440,491 shares of eXegenics common stock to the Investors. As required by the stock purchase agreement, immediately following the completion of the stock sale, the Investors will own 51% of eXegenics outstanding capital stock on a fully-diluted basis. This number is based upon the outstanding shares of eXegenics common stock on June 30, 2006 and assumes the conversion of all outstanding eXegenics Series A preferred stock, which are currently convertible on a share-for-share basis into shares of eXegenics common stock, the exercise of all outstanding options or warrants to purchase shares of eXegenics common stock and the issuance of 50,000 shares of eXegenics common stock to each of Messrs. Paganelli and Baron immediately prior to the closing of the stock sale.

Q:

As a current stockholder of eXegenics will I receive any consideration in connection with the stock sale?

A:

No. The stock sale transaction involves the sale of shares of eXegenics common stock to the Investors. The current stockholders of eXegenics are not entitled to any compensation or other consideration in connection with the stock sale. In fact, if the stock sale is consummated, the issuance of 19,440,491 additional shares of eXegenics common stock to the Investors will have a dilutive effect on the current eXegenics stockholders, because as the number of shares of eXegenics common stock issued and outstanding increases, the percentage ownership interests of the current stockholders of eXegenics decreases.

Q:

Why are shares of eXegenics common stock being issued to John Paganelli and Robert Baron?

A:

In early 2004, the board of directors of eXegenics appointed Messrs. Paganelli and Baron to serve as the members of the Business Opportunities Search Committee to identify and negotiate strategic opportunities for eXegenics. In March of 2005, and in connection with the services rendered to the Business Opportunities Search Committee, the board awarded each a stock bonus of 50,000 shares, the issuance to be contingent upon a change of control transaction and stockholder approval of the grants. You should read the section titled *Interests of eXegenics Directors in the Stock Sale* at page 18 for a discussion of these interests and the interests of others in the stock sale.

Q:

What appraisal rights do stockholders have in connection with the matters before the special meeting?

A:

The holders of eXegenics common stock and Series A preferred stock do not have any right to an appraisal of the value of their shares in connection with any of the matters before the special meeting.

Q:

What happens if I do not return a proxy card or otherwise provide proxy instructions?

A:

The failure to return your proxy card could be a factor in establishing a quorum for the special meeting. In addition, if you fail to return your proxy card, the effect will be a vote against the amendment to the certificate of incorporation. If your shares of eXeGenics common stock and/or Series A preferred stock are held in street name, the failure to provide your broker with instructions on how to vote your shares on a proposal(s) requiring such instruction will result in a broker non-vote. Except as to proposal Item 2 Amendment to the Certificate of Incorporation of eXeGenics broker non-votes will have no effect and will not be counted towards the vote total; as to proposal Item 2, broker non-votes will have the same effect as votes against the proposal.

Q:

When do you expect the stock sale to be completed?

A:

Assuming approval of the amendment to the certificate of incorporation of eXeGenics to increase the number of authorized shares of eXeGenics common stock, we expect to complete the stock sale as soon as possible following the special meeting and the filing of the amendment to the certificate of incorporation of eXeGenics with the Delaware Secretary of State. However, the exact timing of completion of the stock sale cannot be determined yet because completion of the stock sale is subject to a number of conditions.

Q:

How many authorized but unissued shares of eXegenics common stock will exist after the closing of the stock sale?

A:

Following the closing of the stock sale and, assuming the charter amendment is approved to increase the authorized shares of eXegenics common stock from 30,000,000 to 225,000,000, there will be approximately 188,468,408 shares of eXegenics common stock authorized but unissued, 1,567,017 of which will be reserved for issuance upon conversion of Series A preferred stock or upon exercise of outstanding options and warrants.

Q:

Who do I call if I have questions about the special meeting?

A:

If you have any questions about the matters to be considered at the special meeting or about procedures for voting, or if you need additional copies of this Proxy Statement or the enclosed proxy card, you should contact:

THE STOCK SALE

This section of the Proxy Statement describes material aspects of the stock sale, including the stock purchase agreement and the voting agreements. While we believe that the description covers the material terms of the stock sale, this summary may not contain all of the information that is important to you. You should read this entire Proxy Statement and the other documents we refer to carefully for a more complete understanding of the stock sale.

General

Under the stock purchase agreement, at the closing of the transaction, eXegenics will issue 19,440,491 shares of common stock to the Investors identified in the stock purchase agreement in consideration of an initial aggregate purchase price of \$8,613,000. Immediately following the closing, the Investors will own, as a group, 51% of the issued and outstanding capital stock of eXegenics on a fully diluted basis, which means, for purposes of determining 51% of the capital stock of eXegenics on a fully diluted bases, the denominator includes all currently issued and outstanding shares of common stock, all Series A preferred stock as if converted on a share-for-share basis into shares of eXegenics common stock, shares of eXegenics common stock that may be issued upon the exercise or conversion of all outstanding warrants and options and the 100,000 shares of eXegenics common stock to be issued to Messrs. Paganelli and Baron.

The shares of common stock to be issued to the Investors pursuant to the stock purchase agreement are being offered and sold in reliance upon an exemption from registration under Section 4(2) of the Securities Act for transactions by an issuer not involving a public offering and Rule 506 of Regulation D of the Securities Act. Each of the Investors has represented to eXegenics that it is an accredited investor as defined in Rule 501(a) of Regulation D and has further represented, warranted and agreed that the shares of common stock may not be sold, transferred or otherwise disposed of in the absence of a registration statement covering the shares or the availability of an exemption from registration under the federal securities laws and applicable state securities laws.

Recommendations of the Board of Directors and Reasons for the Stock Sale

The board of directors of eXegenics has unanimously determined that the stock purchase agreement and the stock sale are fair and in the best interests of eXegenics and its stockholders. Accordingly, the board of directors has unanimously adopted and approved the stock purchase agreement and unanimously recommends that the holders of eXegenics common stock and Series A preferred stock vote **FOR** the sale of shares of eXegenics common stock pursuant to the stock purchase agreement. In evaluating and approving the stock sale, the board of directors considered the analysis provided by its financial advisor Empire Valuation Consultants, LLC, consulted with eXegenics's legal counsel and considered a number of factors, including the following:

-

the purchase price to be received by eXegenics for its shares of common stock in the context of a change-in-control transaction, which was determined by the board of directors to be fair;

-

the fact that the purchase price constituted a premium over the last sale price per share of eXegenics common stock (\$.39) quoted on the Over-the-Counter Bulletin Board (OTCBB) on July 25, 2006, the last transaction prior to the July 26, 2006 board of directors meeting;

-

the oral opinion of Empire Valuation Consultants, LLC, followed by its written opinion, with respect to its determination as to the fairness of the purchase price consideration, from a financial point of view, to eXegenics and its stockholders, and the analyses, methodologies and conclusions of Empire Valuation underlying its opinion;

-

the likelihood that the stock sale could be consummated, noting the timing of and conditions to the stock sale;

-

the terms and conditions set forth in the stock purchase agreement;

-

the fact that eXegenics had been in contact with several other potential strategic partners or acquirers and that such persons had been afforded ample opportunity to submit proposals for consideration by the board of directors; and

•

the business reputation and management experience of Phillip Frost, M.D., the sole trustee of Frost Gamma Investments Trust, a member of The Frost Group, LLC, one of the Investors, and the board of director's belief that Dr. Phillip Frost will assist in identifying business opportunities for eXegenics. Brief biographical information as to Dr. Phillip Frost follows.

Phillip Frost, M.D.

Phillip Frost, age 70, is the vice chairman of the board of directors of Teva Pharmaceutical Industries Limited. He served as chairman of the board of directors and chief executive officer of IVAX Corporation from 1987 to 2006, when it was acquired by Teva Pharmaceutical Industries Limited. He served as president of IVAX Corporation from July 1991 until January 1995. He was the chairman of the Department of Dermatology at Mt. Sinai Medical Center of Greater Miami, Miami Beach, Florida from 1972 to 1990. Dr. Frost was chairman of the board of directors of Key Pharmaceuticals, Inc. from 1972 to 1986. He also served as chairman of the board of directors of IVAX Diagnostics, Inc. (diagnostic reagent kits), a subsidiary of IVAX Corporation from 2001 to 2006. He is a director of Northrop Grumman Corporation (aerospace), Continucare Corporation (healthcare), Castle Brands, Inc. (spirits), Cellular Technical Services, Inc. (telecommunications) and chairman of the board of directors of Ladenburg Thalmann Financial Services Inc. (securities brokerage). He is on the Board of Regents of the Smithsonian Institution, a member of the Board of Trustees of the University of Miami and co-vice chairman of the Board of Governors of the American Stock Exchange.

Background as to the deliberations and considerations of the Board of Directors

Messrs. Paganelli and Baron, as the members of the Business Opportunities Search Committee, evaluated numerous potential acquisition or merger candidates for eXegenics. Based on those evaluations, they narrowed the field down to approximately twenty companies that warranted discussion with representatives of those target companies. With respect to those final candidates, which included companies in a diverse group of industries, including medical devices, entertainment, banking and software development, eXegenics engaged in preliminary discussions with representatives of the target companies. In each instance, prior to the discussions with Dr. Frost, the opportunities were abandoned, either because representatives of eXegenics concluded that the business prospects of the target companies were inadequate, or because the preliminary discussions made clear that agreement on valuation was not likely to be reached.

In the early part of April 2006, Mr. J. Morton Davis, a stockholder of eXegenics, contacted Mr. Paganelli, chairman of the eXegenics board of directors, and suggested that he contact Mr. Franklin N. Wolf to elicit his assistance in arranging a meeting with Dr. Phillip Frost, who had a track record of pursuing successful ventures, to explore a possible transaction between eXegenics and Dr. Phillip Frost. Messrs. Paganelli and Baron, together with Mr. Wolf, met with Dr. Phillip Frost and some of his associates on April 20, 2006 in Miami, Florida. That meeting led to a proposal by Dr. Phillip Frost related to an investment by certain investors in eXegenics. The principal terms of the proposal were those now set out in the stock purchase agreement, being the purchase by the investors of eXegenics common stock constituting 51% of the issued and outstanding shares of eXegenics capital stock in consideration for a purchase price reflecting the book value of eXegenics. In subsequent telephone conversations and electronic communications between the parties and their respective legal counsel, additional terms and conditions of the proposed transaction were reviewed. The only new term affecting the economics of the transaction related to the scope of a purchase price adjustment arising out of eXegenics' reserves relating to its disputes with Ronald L. Goode and Abdel Hakim Labidi. The terms of the stock purchase agreement relating to an adjustment to the aggregate purchase price for these matters are the product of these subsequent communications.

Following the initial meeting on April 20, 2006, Messrs. Paganelli and Baron had frequent telephone contact with Dr. Phillip Frost and/or his representatives during the period from April 20, 2006 through August 14, 2006, the date of

execution of the stock purchase agreement. In addition to the initial meeting on April 20, 2006, at which the parties introduced themselves and discussed a proposal relating to the purchase of shares of eXegenics common stock by Dr. Phillip Frost and his associated investors, Messrs. Paganelli and Baron and Dr. Phillip Frost and his representatives met on three other occasions to discuss how eXegenics would conduct its operations prior to a closing of the transaction and the types of opportunities eXegenics might pursue after closing of the transaction. At the second of such subsequent meetings, the parties also discussed a possible transaction that might be combined with the stock purchase transaction, although eXegenics ultimately determined that any further transactions would best be deferred unless and until a closing of the stock purchase transaction were to take place. At the final meeting, Dr. Spencer, a director of eXegenics, was introduced to Dr. Phillip Frost and certain of the other potential investors

and the parties continued their discussions about the operations of eXegenics through a closing of the stock purchase transaction and the conduct of business after a closing.

Messrs. Paganelli and Baron kept the other two members of the eXegenics board of directors informed by telephone with respect to the progress of their evaluations and negotiations.

When it became clear that a definitive agreement was likely in the transaction, Mr. Paganelli contacted Empire Valuation Consultants, LLC in late June of 2006 concerning the possible engagement of Empire Valuation to deliver a fairness opinion. On June 27, 2006, eXegenics retained the services of Empire Valuation for these purposes.

The board of directors met on July 26, 2006 and unanimously approved the transaction.

The materials considered by the eXegenics board of directors, in addition to the proposed agreements and the information furnished by Empire Valuation, consisted of background information concerning Dr. Phillip Frost and various companies with which Dr. Phillip Frost is or has been associated.

The amount of capital to be invested in eXegenics and the purchase price to be paid by the Investors were considered to be the most significant elements of the transaction by the eXegenics board.

The eXegenics board considered only two factors that weighed against completing the stock sale. First, the transaction would confer control to the Investors, so that the existing eXegenics stockholders would become minority owners. They also considered the fact that the purchase price proposed by the Investors did not include any premium above book value for any other assets of eXegenics, such as its ability to provide liquidity to investors in future capital raises or the possible continuing availability of net operating loss carryforwards for tax purposes. The eXegenics board concluded that the factors in favor of the transaction outweighed any negatives.

The description of the information and factors considered by the eXegenics board of directors above is not meant to be exhaustive. The board of directors did not quantify or attach any particular weight to the various factors that it considered in reaching its determination that the stock sale is fair to, and in the best interests of, eXegenics and the eXegenics stockholders. Rather, the eXegenics board of directors made its determination based on the total mix of information available to it, and the judgments of individual directors may have been influenced to a greater or lesser degree by different factors. In considering the recommendation of the eXegenics board of directors with respect to the stock sale, stockholders of eXegenics should be aware that the interests of certain directors and executive officers with respect to the stock sale may be different from or in addition to the interests of the eXegenics stockholders generally. Specifically, each of John A. Paganelli, interim chief executive officer, secretary and chairman of the board of directors, and Robert A. Baron, a director, is entitled to the issuance of 50,000 shares of eXegenics common stock, assuming approval by the eXegenics stockholders at the special meeting, in the event the stock sale is consummated, and each of Messrs. Paganelli and Baron are the subject of a voting agreement that the Investors have agreed to enter into pursuant to which the Investors will agree to vote their respective shares of eXegenics common stock for the election of Mr. Paganelli and Mr. Baron as directors of eXegenics for a period of three years from the closing of the stock sale. The board of directors was aware of these interests and took them into account in making its recommendation.

Although it is the expectation of the current board of directors of eXegenics that after completion of the closing of the stock sale that eXegenics will identify, investigate and possibly pursue one or business opportunities, the business opportunities, if any, actually identified, and the specific criteria and other factors that will be considered for purposes of identifying possible business opportunities will be determined by the board of directors of eXegenics after completion of the stock sale.

The board of directors unanimously recommends that the eXegenics stockholders vote FOR the sale of shares of eXegenics common stock pursuant to the stock purchase agreement.

Opinion of Financial Advisor

The eXegenics board of directors retained Empire Valuation Consultants, LLC to deliver an opinion to the board of directors as to the fairness of the purchase price to eXegenics and the eXegenics stockholders from a financial point of view. Empire Valuation was selected by eXegenics because of its knowledge, expertise and reputation. Empire Valuation was paid a fee of \$35,000, no portion of which was contingent upon the closing of the stock sale transaction. No limitations were imposed by the eXegenics board of directors on Empire Valuation with respect to the investigation made or the procedures followed by it in arriving at its opinion.

At the July 26, 2006 meeting of the eXegenics board of directors, during which the board of directors reviewed and considered the terms of the stock sale and stock purchase agreement, Empire Valuation provided orally to the board its opinion that, as of July 25, 2006, the purchase price for the shares of eXegenics common stock offered by the Investors to eXegenics was fair from a financial point of view to eXegenics and the holders of its common stock and Series A preferred stock. Empire Valuation's written opinion as to the forgoing was delivered to the eXegenics board of directors. The full text of that opinion is attached as Annex B and is incorporated into this Proxy Statement by reference. That opinion describes the procedures followed by Empire Valuation in arriving at its opinion, as well as certain assumptions made by Empire Valuation.

In arriving at its opinion, Empire Valuation performed a variety of financial analyses, including those summarized in this Proxy Statement. The preparation of a fairness opinion is a complex process that involves various determinations as to the most appropriate and relevant methods of financial analysis and the application of these methods to the particular circumstance. Therefore, such an opinion is not necessarily susceptible to partial analysis or summary description. Empire Valuation believes that its analyses must be considered as a whole and selecting portions thereof or portions of the factors considered by it, without considering all analyses and factors, could create an incomplete view of the evaluation process underlying its opinion. Empire Valuation considered the cessation of eXegenics operations and that its net assets consisted primarily of cash and cash equivalent securities, and determined, for purposes of its analysis that eXegenics was both a shell corporation and an investment holding company. Because eXegenics had no active operations or earnings, Empire Valuation focused primarily on the net asset value of eXegenics in applying its investment value methodologies described below. Empire Valuation also noted that eXegenics had formed a committee to identify potential business opportunities, including potential acquisition or merger partners. Empire Valuation considered the current general business, economic and capital market climate in the U.S. as these factors impact investment holding companies and noted that these factors were favorable to eXegenics and its short term goal. Further, Empire Valuation noted the doubling of eXegenics' investment portfolio through the infusion of cash from the proposed sale of eXegenics stock and eXegenics' association with Dr. Phillip Frost would enhance eXegenics' ability to identify an investment favorable to eXegenics' shareholders. It was noted that the broad macro factors, such as interest rates and inflations, that impact the U.S. economy and its capital markets were out of eXegenics control, however, eXegenics' conservative and defensive investment policy protection made eXegenics less susceptible to a short-term market change. In addition, Empire Valuation considered eXegenics management's observation that Dr. Phillip Frost had a track record of pursuing successful ventures, which would help eXegenics in its efforts to maximize its fair value. Any estimates contained in Empire Valuation's analyses are not necessarily indicative of actual values or future results, which may be significantly more or less favorable than suggested by such analyses.

Empire Valuation arrived at valuation ranges for the sale of stock to the Investors by considering three principal valuation methodologies: the investment value, market value and net asset value. Ultimately, due to eXegenics' lack of operations, investment opportunities and future income potential and Empire Valuation's determination that eXegenics was both a shell corporation and an investment holding company, Empire Valuation was not able to apply the investment value methodology in arriving at its opinion. The following is a brief summary of these analyses and the other factors considered by Empire Valuation and reviewed with our board in Empire Valuation's oral presentation on July 26, 2006.

Investment Value. The investment value, which is sometimes referred to as the income value or earnings value, establishes a range of values of a business based on various methods. One investment value method frequently used estimates the present value of an enterprise's future earnings or cash flow. Another recognized investment value method is to determine the level of current annual benefits (i.e., earnings, cash flow, dividends, etc.), and then capitalize one or more of the benefit types using an appropriate capitalization rate. Yet another method of calculating investment value is a cash flow analysis of the ability of an enterprise to service acquisition debt obligations (at a certain price level) while providing sufficient earnings for reasonable dividends and capital adequacy requirements. In connection with the cash flow analysis, the return on investment that would accrue to a prospective buyer at the transaction value is calculated.

eXegenics is currently a holding company with a portfolio of marketable securities. eXegenics, formerly known as Cytoclonal Pharmaceuticals Inc., was previously involved in the research, creation, and development of drugs for the treatment and/or prevention of cancer and infectious diseases. Prior to 2004, eXegenics had operated as a drug discovery company, exploiting new enabling technologies to advance and shorten the new drug development cycle. By the end of 2003, it had completed the termination of all research activities. All scientific staff and administrative positions were eliminated and all of its research and development activities were terminated. In 2006 year-to-date,

eXegenics' scaled down general and administrative costs have exceeded the net investment income earned from its investment portfolio. eXegenics' future investment value was dependent on management's ability to find a profitable investment opportunity. The capital infusion from the sale of stock to the Investors is expected to enhance eXegenics' ability to find a suitable investment. However, given the lack of a specific future investment for eXegenics, Empire Valuation was unable to directly apply a future income valuation analysis.

Market Value. Market value is generally defined as the price, established on an arms-length basis, at which knowledgeable, unrelated buyers and sellers would agree. The hypothetical market value for the stock of a corporation is normally determined by comparison of certain financial data of similarly situated publicly traded corporations, adjusting for significant differences in financial performance criteria and for any lack of marketability or liquidity. The market value in connection with the evaluation of control is determined by the sales of comparable companies.

Under the market approach, Empire Valuation, using publicly available information, compared eXegenics' price-to-net asset value (NAV) with similar data of selected publicly-traded companies engaged in businesses considered by Empire Valuation to be reasonably related to eXegenics, which included, closed-end investment companies investing in small capitalization securities and U.S. government obligations. However, Empire Valuation did not compare eXegenics to any specific closed end fund but to the universe of funds and multiple groupings of funds by asset type and investment strategy. Empire Valuation focused primarily on price to net asset value of closed-end investment holding companies, and did not compare eXegenics on a yield basis because eXegenics does not currently pay dividends or have positive earnings.

Empire Valuation advised the board of directors of eXegenics that these closed-end funds typically trade at a 5% to 15% discount to their published net asset values, and that, prior to the announcement of the proposed stock sale, eXegenics had been trading at a discount from its net asset value of between 17% and 23%. Empire Valuation compared eXegenics' pre-announcement current trading price per share (latest close \$0.39) and the transaction price of \$0.44 per share to eXegenics' estimated NAV per share relative to price-to-NAV of publicly traded closed end investment holding companies. Price-to-NAV for closed end funds, is the closing stock price on a given day divided by the NAV as reported by the fund. The funds report their NAV on a weekly basis in various financial publications. Next, Empire Valuation considered the fact that the Investors with a total 51% interest would be considered a control group under SEC regulations. As such, the Investors' eXegenics common stock would be restricted from sale in the public market under SEC Rule 144. Further, Empire Valuation considered the implied premium of the cash transaction purchase price per share of \$0.44 to the pre-announcement trading range of \$0.38 to \$0.43 per share before and after a discount for Rule 144 restrictions.

Net Asset Value. NAV is the value of the net equity of an entity, after adjusting the company's assets and liabilities from its stated cost basis to its estimated market value. Empire Valuation gave consideration to eXegenics' stock portfolio, prepaid expense, stock subscription receivable, net operating loss (NOL) carryforward, accounts payable, accrued expenses and its continued lawsuit with a former employee. In its analysis: eXegenics' stock portfolio was marked-to-market, so book value for purposes of the analysis was determined to be equal to net asset value; its prepaid expense and stock subscription receivable, were considered to be a reduction of the net asset value; eXegenics' NOL was given little-to-no value; and, its current liabilities were treated as a net against (reduction) in net asset value. Further, Empire Valuation considered, that to the extent eXegenics' reserve for the former employee lawsuit was not sufficient, eXegenics' net asset value would be further reduced by approximately \$0.02 a share of eXegenics common stock. Empire Valuation also gave consideration to the prospective market value of eXegenics as a shell corporation exclusive of its other assets and liabilities. The prospective market value of the shell is not captured and capitalized under GAAP accounting, so this would add to eXegenics' net asset value. The realization of the shell value would take place at some future date if eXegenics were to merge with an operating private company and would depend on the facts and circumstances at that time. Accordingly, the present value of the shell value, for purposes of Empire Valuation's analysis, was determined to equal its prospective future value discounted back to current time. Further, in the event eXegenics were to liquidate and terminate, the shell would actually be a net liability, that is, it would cost money to close down. Empire Valuation concluded that \$0.49 to \$0.50 per share, plus or minus \$0.02 was a

reasonable estimate of the net asset value per share of eXegenics common stock.

Conclusion. It is Empire Valuation's opinion that the aggregate cash purchase price of \$8,613,000 or \$0.44 per share for a 51% interest in eXegenics is fair from a financial perspective to the public shareholders. Empire Valuation arrived at its opinion based on its experience and judgment as an independent appraiser, subjectively weighed the values arrived at using the market value and net asset value appraisal methods previously summarized,

and concluded that each analysis independently supports Empire Valuation's ultimate opinion regarding the fairness of the transaction.

Interests of eXegenics Directors in the Stock Sale

In considering the recommendation of the eXegenics board of directors that the eXegenics stockholders vote **FOR** the sale of shares of eXegenics common stock pursuant to the stock purchase agreement, stockholders of eXegenics should be aware that certain members of the eXegenics board of directors and members of its management team have interests in the stock sale that differ from, or are in addition to, those of the eXegenics stockholders generally. The eXegenics board of directors was aware of these potential conflicts during its deliberations on the merits of the stock sale and in making its decision to approve the stock sale, the stock purchase agreement and the related transactions and, in determining to recommend to the stockholders of eXegenics that they vote **FOR** the sale of shares of eXegenics common stock pursuant to the stock purchase agreement.

eXegenics Board Membership

Pursuant to a voting agreement to be executed by the Investors, each of the Investors will agree, for a period of three years after the closing of the stock sale, to vote their shares of eXegenics common stock in favor of the election as directors of John A. Paganelli, interim chief executive officer, secretary and chairman of the board of directors, and Robert Baron, a director of eXegenics, to the board of directors of eXegenics.

Stock Bonus

Each of Mr. Paganelli and Mr. Baron were awarded in 2005 contingent stock bonuses of 50,000 shares of eXegenics common stock in connection with their services to the Business Opportunities Search Committee of the board of directors. These awards are contingent upon the consummation of a change-in-control transaction – the stock sale constitutes a change in control transaction – and approval by the eXegenics stockholders of the stock grants. One of the

proposals for consideration by the eXegenics stockholders at the special meeting is approval of the stock grants.

The benefits and amounts of the stock grants to Messrs. Paganelli and Baron are set forth in the below table.

	Dollar Value \$(1)	Number of Shares
	\$	50,000
John A. Paganelli	40,000	shares of common stock
	\$	50,000
Robert Baron	40,000	shares of common stock

(1)

Based on the closing price (\$0.80) of eXegenics common stock on the OTCBB on September 29, 2006.

The approval of the stock sale does not constitute an approval of the stock grants, and stockholders may vote **FOR** the stock sale and **AGAINST** the stock grants.

Purchase Price Adjustment

Not more than 60 days following the closing of the stock sale, eXegenics will prepare, and deliver to the Investors, a balance sheet, as of the closing date, which shall include a computation of stockholders' equity as of the closing date. If eXegenics' disputes with Ronald L. Goode and/or Abdel Hakim Labidi have not been resolved as of the closing of the stock sale, the closing balance sheet will include reserves reflecting the maximum potential liability of eXegenics in connection any such unresolved matter. A detailed description of eXegenics' disputes with Ronald L. Goode and Abdel Hakim Labidi is included in the Notes to Financial Statements to the audited financial statements of eXegenics for the fiscal year ended December 31, 2005 included with this Proxy Statement; specifically, Note G "Stockholders Equity - Subscription receivable, and Note I "Commitments and Other Matters - Legal Proceedings - Labidi Proceeding. After execution of the stock purchase agreement, eXegenics settled its dispute with Ronald L. Goode on terms that will have no impact on the purchase price.

Following the receipt by the Investors of eXegenics closing date balance sheet, the Investors will have 30 days to review and to reject the eXegenics closing date balance sheet. If the Investors reject the eXegenics closing date balance sheet, eXegenics and the Investors will have 10 days during which to resolve the dispute. If the Investors and eXegenics are unable to resolve the dispute within such 10 day period, the dispute will be referred to an independent certified public accounting firm reasonably acceptable to eXegenics and the Investors for resolution. The determination of the independent accounting firm will be binding on the parties. The fees and expenses of the independent accounting firm will be paid by the party found to be incorrect with regard to the objections. If both parties are found to be partially incorrect with regard to the objections, the fees and expenses of the independent accounting firm will be shared proportionately by the parties based upon the amount of the objections successfully contested by the Investors bears to the total of the objected amounts submitted to the independent accounting firm.

If the final determination of the stockholders' equity at the closing date is greater than the initial purchase price paid by the Investors at the closing, the Investors will pay the difference to eXegenics, and if the final stockholders' equity at the closing date is less than the initial purchase price, eXegenics will pay the difference to the Investors.

Further, under the terms of the stock purchase agreement, in the event the eXegenics closing balance sheet includes additional reserves for eXegenics' unresolved dispute with Abdel Hakim Labidi, and if, prior to December 31, 2006, eXegenics subsequently resolves this matter for an amount or amounts less than the amount reserved on the eXegenics closing date balance sheet, then the Investors will pay eXegenics, in the form of additional purchase price, an amount equal to the difference between the actual amount paid or incurred by eXegenics and the amount of the reserve in the eXegenics closing date balance sheet. At September 30, 2006, eXegenics had recorded a provision of \$350,000 related to the Abdel Hakim Labidi matter. That reserve would give rise to a \$100,000 decrease in the purchase price.

The Stock Purchase Agreement

The following summary of the stock purchase agreement is qualified by reference to the complete text of the stock purchase agreement, as amended as of November 30, 2006, which is incorporated by reference into this Proxy Statement and attached hereto as Annex A. The stock purchase agreement has been included to provide you with information regarding its terms. You are encouraged to read the entire stock purchase agreement.

Structure of the Stock Sale; Stock Sale Consideration

Under the stock purchase agreement, eXegenics will sell and issue 19,440,490 shares of its common stock to the Investors in consideration for an initial aggregate purchase price of \$8,613,000, reflecting eXegenics' stockholders equity as at June 30, 2006. The aggregate purchase price is subject to adjustment based on eXegenics' stockholders

equity at the closing date and in the event of resolution of eXegenics dispute with Abdel Hakim Labidi, as more fully described above. Initially, the aggregate purchase price was subject to adjustment based on the resolution of eXegenics dispute with Ronald L. Goode as well, however after execution of the stock purchase agreement, eXegenics settled its dispute with Ronald L. Goode on terms that will have no impact on the aggregate purchase price.

Immediately following the completion of the stock sale, the new Investors will own 51% of the outstanding capital stock of eXegenics on a fully-diluted basis. This number assumes the conversion of all outstanding eXegenics Series A preferred stock, which are currently convertible on a share-for-share basis into shares of eXegenics common stock, the exercise of all outstanding options or warrants to purchase shares of eXegenics common stock and the issuance of 50,000 shares of eXegenics common stock to each of Mr. Paganelli and Mr. Baron immediately prior to the closing of the stock sale.

Timing of Closing

Unless eXegenics and the Investors agree otherwise, the closing will occur on the next business day following the later of the special meeting or the day on which the last of the conditions set forth in the stock purchase agreement has been satisfied or waived, unless the stock purchase agreement has been terminated prior to such date. eXegenics expects that, immediately following the special meeting, assuming the eXegenics stockholders approve both the amendment to the certificate of incorporation of eXegenics and the stock sale, eXegenics will file the amendment with the Secretary of State of Delaware and, immediately following the filing of such amendment, close the stock sale.

eXegenics Board of Directors and Related Matters

eXegenics has agreed to take the necessary corporate actions so that, as of the closing of the stock sale:

- the size of the eXegenics board of directors is increased from four to five members;
- two of eXegenics current directors Robert Benou and David Lee Spencer, M.D. will resign from the board of directors; and
- three designees of Phillip Frost, M.D., to be identified prior to the closing, will become directors of eXegenics, to serve until their terms expire at eXegenics' s next annual stockholder meeting.

Each of eXegenics and the Investors has undertaken certain covenants in the stock purchase agreement. The following summarizes the most significant of these covenants.

eXegenics Board of Directors Covenant to Recommend. The eXegenics board of directors has agreed to recommend the approval and adoption by the stockholders of eXegenics of the stock sale and the amendment to the certificate of incorporation. However, the eXegenics board of directors is permitted to (i) not recommend approval and adoption of the stock sale and the charter amendment or (ii) withdraw or modify its recommendation in a manner materially adverse to the Investors, if the eXegenics board of directors determines in good faith, after consultation with outside legal counsel, that it is necessary to withdraw or modify its recommendation to comply with its fiduciary duties.

Interim Operations of eXegenics. eXegenics has undertaken a covenant that places restrictions on it until either the closing of the stock sale or until the stock purchase agreement is terminated. In general, eXegenics is required to conduct its business in the ordinary course consistent with past practice.

By mutual written agreement of eXegenics and the Investors.

(b)

the stock sale has not been completed by March 31, 2007, provided that the right to terminate the stock purchase agreement is not available to any party whose breach of any provision of or whose failure to perform any obligation under the stock purchase agreement was the cause of, or resulted in the failure of the stock sale to occur on or before March 31, 2007;

(ii)

Effect of Termination

If the stock purchase agreement is validly terminated, except as described in this paragraph and below under Termination Fees and Expenses , eXegenics and the Investors will have no continuing liabilities or obligations to one another, except that neither eXegenics nor the Investors will be relieved of or released from any liabilities or damages arising out of its or their material breach of or material failure to perform under the stock purchase agreement.

(ii) withdraw or modify in a manner materially adverse to the Investors its recommendation that the stockholders of eXegenics vote in favor of the stock sale and the amendment to the certificate of incorporation of eXegenics.

Voting Agreements

The directors of eXegenics and holders of more than 5% of eXegenics common stock own, as a group, as of the record date for the special meeting, approximately 20.45% of the shares of eXegenics common stock and 3.9% of the Series A preferred stock entitled to vote at the special meeting, or approximately 19.52% of the total voting power of eXegenics stockholders as of the record date. The affirmative vote of the majority of the shares present in person or by proxy at the special meeting and entitled to vote is required to approve the stock sale.

The directors of eXegenics have entered into voting agreements, and eXegenics has agreed to use its commercially reasonable efforts to have Bruce Meyers and J. Morton Davis, each a beneficial owner of more than 5% of eXegenics capital stock, enter into voting agreements, pursuant to which they agree to vote their shares of eXegenics common stock:

-

in favor of the stock sale; and

-

in favor of the amendment to the certificate of incorporation of eXegenics to increase the number of authorized shares of eXegenics common stock to 225,000,000.

The total number of shares of eXegenics common stock held by eXegenics directors and subject to voting agreements represent, as of the record date, approximately 5.26% of the total voting power of shares of eXegenics capital stock entitled to vote at the special meeting. The total number of shares of eXegenics common stock held by Bruce Meyers and J. Morton Davis, each a beneficial owner of more than 5% of eXegenics common stock, represent, as of the record date, approximately 14% of the total voting power of shares of eXegenics capital stock entitled to vote at the special meeting. To the extent Messrs. Meyers and Davis enter into voting agreements covering their shares of eXegenics common stock, the total number of shares of eXegenics common stock subject to voting agreements will represent, as of the record date, approximately 19.31% of the total voting power of shares of eXegenics capital stock entitled to vote at the special meeting.

Waivers and Amendments

Any provision of the stock purchase agreement may be amended or waived prior to closing if the amendment or waiver is in writing and signed, in the case of an amendment, by eXegenics and the Investors or, in the case of a waiver, by the party against whom the waiver is to be effective. Notwithstanding the ability of either eXegenics or the Investors to waive a condition to the closing of the stock sale, the approval by the stockholders of eXegenics of the amendment to the certificate of incorporation to increase the number of shares of eXegenics common stock to 225,000,000 is required under the Delaware General Corporation Law and cannot be waived.

Appraisal Rights

The holders of eXegenics common stock and Series A preferred stock are not entitled to exercise appraisal rights in connection with the stock sale under Section 262 of the Delaware General Corporation Law.

SPECIAL MEETING PROPOSALS

ITEM 1 STOCK SALE

For summary and detailed information regarding the stock sale, see *The Stock Sale* beginning on page 13.

Votes Required to Approve the Stock Sale

The affirmative vote of the majority of shares present in person or by proxy at the special meeting and entitled to vote will be required to approve the stock sale.

The eXegenics Board of Directors unanimously recommends a vote in favor of the sale of shares of eXegenics common stock to the Investors pursuant to the stock purchase agreement.

ITEM 2 AMENDMENT TO THE CERTIFICATE OF INCORPORATION OF EXEGENICS

At the special meeting, holders of eXegenics common stock and Series A preferred stock will be asked to approve an amendment to the certificate of incorporation of eXegenics. The amendment will increase the number of authorized shares of eXegenics common stock to 225,000,000.

To consummate the stock sale, the eXegenics board of directors unanimously adopted a resolution recommending that the certificate of incorporation of eXegenics be amended to increase the number of authorized shares of common stock from 30,000,000 shares to 225,000,000 shares. The board of directors further directed that the amendment be submitted for consideration and approval by stockholders at the special meeting. In the event the amendment is approved by the stockholders, eXegenics will thereafter submit a certificate of amendment to the Delaware Secretary of State for filing and the amendment to the certificate of incorporation will become effective on the date of such filing.

eXegenics's certificate of incorporation currently authorizes 30,000,000 shares of common stock and 10,000,000 shares of preferred stock. On September 30, 2006, 16,991,101 shares of eXegenics common stock and 1,002,017 shares of eXegenics Series A preferred stock were outstanding and another 1,567,017 shares of common stock reserved for issuance upon conversion of the outstanding Series A preferred stock and the exercise of outstanding options or warrants for shares of common stock.

Under the terms of the stock purchase agreement, upon consummation of the stock sale, the Investors are to own 51% of the capital stock of eXegenics on a fully diluted basis. Our shares of Series A preferred stock are currently convertible on a one-for-one basis into shares of eXegenics common stock. This means that, assuming conversion of all our outstanding shares of Series A preferred stock into shares of common stock, the exercise or conversion of all outstanding options and warrants and the issuance of 50,000 shares of common stock to each of John Paganelli and Robert Baron, the Investors must own 19,440,491 shares of common stock at the closing of the stock sale to own 51% of our capital stock, on a fully diluted basis.

For purposes of determining the number of shares of eXegenics common stock that must be issued to the Investors to insure that they receive, in the aggregate, 51% of the capital stock of eXegenics capital stock as at the closing (assuming the closing occurred on September 30, 2006), on a fully-diluted basis, the sum of columns (a), (b) and (c) below represents the fully-diluted stock and must be added to the 16,991,101 shares of eXegenics common stock issued and outstanding.

(a)

(b)

(c)

on of 1,002,017 shares of Series A + issuance of 565,000 shares of eXegenics + issuance of 100,000 shares of eXegenics

F eXegenics common stock, eXegenics options and warrants, Baron, assuming approval of the stock
tely prior to the closing of the immediately prior to the closing of the grant proposal, immediately prior to
e. stock. closing of the stock sale.

19,440,491 shares is equal to 51% of 38,098,609 ((a), (b), (c)) + 16,991,101 + 19,440,491 shares of common stock).

Following the closing of the stock sale, there will be approximately 188,468,408 shares of common stock authorized but unissued, 1,567,017 of which will be reserved for issuance upon conversion of Series A preferred stock or upon exercise of outstanding options and warrants.

There are not sufficient authorized yet unissued shares of eXegenics common stock to complete the stock sale and the amendment to eXegenics' s charter to increase the authorized eXegenics common stock is a condition to the completion of the stock sale.

eXegenics common stock is quoted on the Over-the-Counter Bulletin Board, under the trading symbol EXEG. eXegenics has never paid cash dividends to its holders of common stock and has no current plans to pay cash dividends on such shares in the foreseeable future. eXegenics intends to retain its earnings, if any.

eXegenics does not intend to register the shares of common stock to be issued to the Investors or the shares of common stock to be issued to Messrs. Paganelli and Baron. These shares will be restricted securities within the meaning of the Securities Act, which means, generally, that the shares cannot be sold or otherwise transferred in the public market in the absence of a registration statement filed with the Securities and Exchange Commission covering the shares, or the availability of an exemption from registration under the Securities Act and applicable state securities laws.

At present, eXegenics has no commitment to issue shares of its common stock for any purpose other than in connection with the stock sale and issuances in connection with the conversion of shares of eXegenics Series A preferred stock, issuances in connection with the exercise or conversion of outstanding warrants or options, and the issuance of eXegenics common stock to Messrs. Paganelli and Baron pursuant to the stock grants. However, Dr. Phillip Frost has indicated to eXegenics that if the stock sale is approved, he will investigate and possibly pursue one or more business combination opportunities he has identified. In addition, and whether or not any such business combinations are, in fact, consummated, the eXegenics board of directors believes it is also desirable to have additional shares available for other corporate purposes that might arise in the future, other than in the stock sale. For example, shares of eXegenics common stock could be issued from time to time for acquisitions or to raise capital. Under some circumstances, it is also possible for a company to use unissued shares for anti-takeover purposes, but eXegenics has no present intention to take any such action. Future issuances of shares of our capital stock would likely dilute the percentage ownership of the stockholders in eXegenics.

Whether or not any future issuance of shares unrelated to the stock sale would be submitted for stockholder vote depends upon whether stockholder approval would be required by applicable law and/or applicable stock exchange rules. The eXegenics board of directors intends to only seek approval of the eXegenics stockholders with respect to any future issuances of shares of eXegenics capital stock to the extent required by applicable law and/or applicable stock exchange rules.

In the event stockholders approve the amendment, the introductory paragraph of the **FOURTH** Article of the certificate of incorporation of eXegenics and paragraphs A. and B. of Article Fourth will be amended to read as follows:

FOURTH: The total number of shares of stock which the Corporation shall have authority to issue is Two Hundred Thirty Five Million (235,000,000) shares. The classes and the aggregate number of shares of stock of each class which the Corporation shall have the authority to issue are as follows:

A.

Two Hundred Twenty Five Million (225,000,000) shares of Common Stock, having a par value of \$.01 per share.

B.

OTHER INFORMATION ABOUT EXEGENICS

Business

Overview

eXegenics was formerly known as Cytoclonal Pharmaceuticals Inc. and was involved in the research, creation, and development of drugs for the treatment and/or prevention of cancer and infectious diseases. Historically, eXegenics has operated as a drug discovery company, exploiting new enabling technologies to advance and shorten the new drug development cycle. Commencing in 2003, eXegenics began terminating its research and related activities. Since then, all of our scientific staff and administrative positions have been eliminated and all of our research and development activities have been terminated. As such, we are a holding company with a portfolio of marketable securities.

Since the termination of operations, the board of directors of eXegenics and management has been focused on redeploying the remaining residual assets of eXegenics. The board established a committee the Business Opportunities Search Committee to study strategic direction and identify potential business opportunities. The objective of eXegenics is to redeploy its assets and actively pursue new business opportunities.

On June 29, 2005, eXegenics and David E. Riggs mutually agreed that Mr. Riggs would relinquish his duties as our president, chief executive officer and chief financial officer, and on June 29, 2005, then chairman of the board of directors, John A. Paganelli, assumed the role of interim chief executive officer. On July 1, 2005, David Hostelley was named chief financial officer. eXegenics recent activities have been confined to the evaluation of possible new business opportunities.

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with, and is qualified in its entirety by, the financial statements and the notes thereto included with this Proxy Statement. This Management's Discussion and Analysis of Financial Condition and Results of Operations section of this Proxy Statement contains certain forward-looking statements as that term is defined in the Private Securities Litigation Reform of 1995. Such statements are based on management's current expectations and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. When used herein, the words anticipate, believe, estimate, expect and similar expressions as they relate to our management or us are intended to identify such forward-looking statements. Our actual results, performance or achievements could differ materially from those expressed in, or implied by, these forward-looking statements. Historical operating results are not necessarily indicative of the trends in operating results for any future period.

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to investments, intangible assets, income taxes, contingencies and litigation. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Critical Accounting Policies

We believe the following critical accounting policies affect management's more significant judgments and estimates used in the preparation of our financial statements.

eXegenics considers all non-restrictive, highly liquid short-term investments purchased with an original maturity of three months or less to be cash equivalents. Investments consist of equity securities and are classified as available for sale and reported at their fair values. The realized gains and losses from these investments are reported in current earnings. Unrealized gains and losses from these securities are reported as a separate component of stockholders equity and excluded from current earnings.

eXegenics elected to continue to account for its stock-based compensation plans using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25) and provide pro forma net income and pro forma earnings per share disclosures for employee stock option grants as if the fair-value based method defined in Statement of Financial Accounting Standards, No. 123, Accounting for Stock Based Compensation had been applied. Under the provisions of APB No. 25, compensation cost for stock options is measured as the excess, if any, of the quoted market price of eXegenics common stock at the date of the grant over the

amount an employee must pay to acquire the stock.

eXegenics periodically evaluates the collectability of the subscription receivable and adjusts an allowance sufficient to ensure that the net balance is equal to the value of the underlying collateral.

We record a valuation allowance to reduce our deferred tax assets to the amount that is more likely than not to be realized. While we have considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for the valuation allowance, in the event we were to determine that we would be able

to realize deferred tax assets in the future in excess of its net recorded amount, an adjustment to the net deferred tax asset would increase income in the period such determination was made. Likewise, should we determine that we would not be able to realize all or part of our net deferred tax asset in the future, an adjustment to the net deferred tax asset would be charged to income in the period such determination was made.

Recent Development

On October 5, 2005, in the matter brought by Abdel Hakim Labidi (one of eXegenics' former employees) against eXegenics, a jury ruled in favor of Dr. Labidi and awarded Dr. Labidi a total of \$600,000. eXegenics is reviewing this matter to determine the validity of appealing the decision of the jury. The final amount due by eXegenics to Dr. Labidi under such judgment is likely to be between \$350,000 and \$750,000. eXegenics has recorded a provision of \$350,000 in the financial statements in September 30, 2006.

Results of Operations and Financial Condition of eXegenics for the three-and-nine month periods ended September 30, 2006 and 2005

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. However, management believes that the disclosures are adequate to make the information presented not misleading. These financial statements and the notes thereto should be read in conjunction with the financial statements and the notes thereto included in eXegenics' Annual Report on Form 10-K for the fiscal year ended December 31, 2005. The results for the interim periods are not necessarily indicative of the results for the full fiscal year.

Liquidity and Capital Resources

At December 31, 2005 we had cash, cash equivalents and investments of approximately \$8,901,000. During 2005, we used approximately \$1,000,000 to fund our operating activities. Restricted cash was pledged as collateral in support of leases of laboratory equipment. In connection with the termination of our drug discovery research programs, we repurchased equipment subject to a capital lease agreement. However, in 2003, when eXegenics was in the process of exiting from the drug discovery business, it was not able to terminate its contractual obligations; it was not able to terminate its lease obligations until August 2005. In August 2005, in conjunction with the return of remaining lease obligations, the lessor of this equipment released \$175,000 of the held collateral. In addition, in 2005 eXegenics received proceeds of approximately \$1,064,000 from the sale of shares of Javelin Pharmaceuticals, Inc common stock. The impact of maintaining its lease obligations through August 2005, was \$46,000 in 2005 and \$106,000 in 2004.

eXegenics faces potential liability of \$600,000 (exclusive of interest and legal fees, which have been requested by Dr. Labidi, but not yet determined by the Court) in 2006 in connection with the judgment rendered against eXegenics in the lawsuit filed by Dr. Labidi in 2002. In connection with this potential liability eXegenics recorded a reserve for \$250,000.

After taking into account the interest earned on our investments (\$25,000 to \$30,000 per month) it has been our expectation that we would use between \$40,000 and \$55,000 per month in 2006 in furtherance of these objectives. This calculation includes \$250,000 in the potential liability faced by us in the judgment rendered against us in the suit filed by Dr. Labidi. Our future capital needs are uncertain. We may or may not need additional financing in the future to fund operations. Such a determination would be made when eXegenics adopts a business strategy. As discussed in the Proxy Statement, our current business strategy is to obtain capital from the sale of shares of our common stock, and use the proceeds from such sale to, among other things, explore business and associated growth opportunities. We do not know whether additional financing will be available when needed, or that, if available, we will obtain financing on terms favorable to our stockholders.

Recent Accounting Pronouncement

We believe that the adoption of the following accounting standard will not have a material impact on our financial statements.

In December 2004, the FASB issued SFAS No. 123R, Share-based Payment. SFAS No. 123R is a revision of SFAS No. 123, Accounting for Stock Based Compensation, and supersedes APB 25. Among other items, SFAS 123R eliminates the use of APB 25 and the intrinsic value method of accounting, and requires companies to

recognize the cost of employee services received in exchange for awards of equity instruments, based on the grant date fair value of those awards, in the financial statements. The effective date of SFAS 123R was January 1, 2006, for calendar year companies.

SFAS 123R permits companies to adopt its requirements using either a modified prospective method, or a modified retrospective method. Under the modified prospective method, compensation cost recognized in the financial statements beginning with the effective date, based on the requirements of SFAS 123R for all share-based payments granted after that date, and based on the requirements of SFAS 123 for all unvested awards granted prior to the effective date of SFAS 123R. Under the modified retrospective method, the requirements are the same as under the modified prospective method, but also permits entities to restate financial statements of previous periods based on proforma disclosures made in accordance with SFAS 123.

Option Grants in Our Last Completed Fiscal Year

The following table shows grants of stock options that we made during the fiscal year ended December 31, 2005 to each of our executive officers named in the Summary Compensation Table, above.

Name	Individual Grants(1)			Expiration Date	Potential Realizable Value at Assumed Annual Rates of Stock Price Appreciation for Option Term(2)	
	Number of Securities Underlying Options Granted (#)	% of Total Options Granted to Employees in Fiscal Year	Exercise or Base Price (\$/Share)		5%	10%
John A. Paganelli	20,000	20 %	\$.40	Jan. 2015 thru Oct. 2015	\$ 13,031	\$ 20,750

(1)

The options are non-qualified stock options, granted pursuant to the eXegenics amended and restated 2000 stock option plan. Options to purchase 20,000 shares of common stock, at an average exercise price of \$0.40 per share, vest immediately on the grant date that ranges from January 1, 2005 through October 1, 2005. These options were granted to Mr. Paganelli as a member of the board of directors.

(2)

In accordance with the rules of the Securities and Exchange Commission, we show in these columns the potential realizable value over the term of the option (the period from the grant date to the expiration date). We calculate this assuming that the fair market value of our common stock on the date of grant appreciates at the indicated annual rate, 5% and 10% compounded annually, for the entire term of the option and that the option is exercised and sold on the last day of its term for the appreciated stock price. These amounts are based on assumed rates of appreciation and do not represent an estimate of our future stock price. Actual gains, if any, on stock option exercises will depend on the future performance of our common stock, the option holder's continued employment with us through the option exercise period, and the date on which the option is exercised.

Aggregated Option Exercises in Last Completed Fiscal Year and Fiscal Year-End Option Values December 31, 2005

The following table shows information regarding exercises of options to purchase our shares of common stock by each executive officer named in the Summary Compensation Table during the fiscal year ended December 31, 2005. The table also shows the aggregate value of options held by each executive officer named in the Summary Compensation Table as of December 31, 2005. The value of the unexercised in-the-money options at fiscal year end is based on a value of \$0.41 per share, the closing price of our stock on the OTC Bulletin Board on December 30, 2005 (the last trading day prior to the fiscal year end), less the per share exercise price.

Name

	Shares Value Acquired on Exercise	Realized	Number of Securities Underlying Unexercised Options at Fiscal Year-End		Value of the Unexercised In-The-Money Options at Fiscal Year-End	
			Exercisable	Unexercisable	Exercisable	Unexercisable

Paganelli, chairman of the board, receives an additional \$6,250 per quarter for assuming additional responsibilities for serving as interim chief executive officer.

Upon joining the eXegenics board, directors are issued 25,000 shares of common stock. The chairman of the board receives an additional 25,000 shares at the time he assumes this role. Members of the board of directors are granted an option to purchase 5,000 shares of eXegenics common stock on the first day of each calendar quarter, with an exercise price equal to the closing trading price of eXegenics common stock on the date of grant. Under the

On March 22, 2005 the board of directors of eXegenics approved the grant of 50,000 shares of eXegenics common stock to each of John P. Paganelli and Robert Baron contingent upon the closing of a change-in-control transaction, subject to approval by the stockholders of the stock grants and require that each recipient of the stock grant is a member of the eXegenics board of directors at the time of the change-in-control.

For the 12 months ended December 31, 2005 and December 31, 2004, stock options totaling 80,000 and 90,000 shares of common stock were granted to directors pursuant to resolutions of the eXegenics board of directors for services provided by directors, respectively.

Employment Contracts, Termination of Employment and Change-in-Control Arrangements

Effective June 30, 2005 eXegenics and Mr. Riggs mutually agreed that he would relinquish his duties as president, chief executive officer and chief financial officer. In July 2005, eXegenics and Mr. Riggs entered into a Separation Agreement. In connection with Mr. Riggs' separation from eXegenics, eXegenics paid Mr. Riggs severance in an amount equal \$117,500. In consideration of the payments made to him under the separation agreement, Mr. Riggs waived and released certain claims that he may have against eXegenics and its officers, directors, agents, attorneys, employees, successors or assigns.

On June 30, 2005, John A. Paganelli, our then chairman, assumed the role of interim chief executive officer.

On July 1, 2005 David F. Hostelley was named chief financial officer of eXegenics pursuant to the terms of a letter agreement between eXegenics and Contract CFO & Accounting, Inc. dated July 20, 2005. The letter agreement is a month-to-month agreement, and either party can terminate the agreement upon 3 business days notice. eXegenics pays Contract CFO & Accounting, Inc. \$2,500 a month in consideration for Mr. Hostelley's services to eXegenics, billed and payable on the first of each month. Further, in the event Mr. Hostelley is required to travel on behalf of eXegenics for any reason, eXegenics will be billed \$800 per day, plus out-of-pocket expenses. All travel to be pre-approved by the chairman of eXegenics board of directors.

NOTES TO FINANCIAL STATEMENTS

Note A The Company

eXegenics Inc., formerly known as Cytoclonal Pharmaceuticals Inc. (eXegenics or the Company), was previously involved in the research, creation, and development of drugs for the treatment and/or prevention of cancer and infectious diseases. During 2004, the Company completed the termination all research activities. All scientific staff and administrative positions were eliminated and all of the Company s research activities were terminated. Our objective continues to be to redeploy our assets and actively pursue new business opportunities.

Note B Summary of Significant Accounting Policies

Cash Equivalents, Restricted Cash

The Company considers all non-restrictive, highly liquid short-term investments purchased with an original maturity of three months or less to be cash equivalents. Cash equivalents, which amount to \$8,901,000 and \$8,734,000 at December 31, 2005 and 2004, respectively, consist principally of interest bearing cash deposits. Restricted cash, amounted to \$0 at December 31, 2005, and \$175,000 at December 31, 2004, consisted of certificates of deposits that are used as collateral for equipment leases.

The Company maintains cash and cash equivalents at several financial institutions which periodically may exceed federally insured amounts. The Company has not experienced any loss in such accounts and believes it is not exposed to any significant risk on cash and cash equivalents.

Marketable Securities

The Company accounts for marketable securities in accordance with Statement of Financial Accounting Standards No. 115 Accounting for Certain Investments in Debt and Equity Securities (SFAS 115). SFAS 115 establishes the accounting and reporting requirements for all debt securities and for investments in equity securities that have readily determinable fair values. All marketable securities must be classified as one of the following: held-to-maturity, available-for-sale, or trading. The Company classifies its marketable securities as available-for sale and, as such, carries the investments at fair value, with unrealized holding gains and losses reported in stockholders equity as a separate component of accumulated other comprehensive income. The cost of securities sold is determined based on the specific identification method. Realized gains and losses, and declines in value judged to be other than temporary, are included in investment income.

In 2001, the Company entered into a planned merger agreement that was subsequently terminated as a part of a negotiated settlement, it received a convertible subordinated promissory note in the amount of \$500,000. In September 2003, this note was converted to 339,736 shares of Innovative Drug Delivery System (IDDS) series C preferred stock and as of December 31, 2003, the Company had placed a full valuation allowance on the value of these securities. In late December 2004, the Company was informed that Intrac, Inc. acquired IDDS and all of the Company s shares in IDDS were to be converted to 345,991 shares of Intrac, Inc. common stock. As of December 31, 2004 the fair value of the Company s investment in these securities was equal to approximately \$1,124,000 and a corresponding unrealized gain is included as a component of other comprehensive income.

During 2005, the Company sold all of its marketable securities, realizing a gain on sale of approximately \$1,064,000. These securities consisted of equity securities (common stock) in Javelin Pharmaceuticals, Inc. (formally known as Intrac, Inc.) and were classified as available for sale and reported at their fair values. Realized gains and losses from the sale of investments are reported in current earnings. Unrealized gains and losses from these securities are reported

as a separate component of stockholders equity and excluded from current earnings. As of December 31, 2005 and December 31, 2004, the fair value of the Company's investments was equal to approximately \$0 and \$1,124,000 with corresponding unrealized gains in 2004 included as a component of other comprehensive income.

F-8

Equipment

Equipment is stated at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets, which range from 3 to 5 years. Repairs and maintenance that do not increase the economic useful life of the asset are charged to expense as incurred.

The Company reviews its capital assets for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. In performing the review, the Company uses the undiscounted cash flow method.

Revenue Recognition

Revenue from research support agreements is recognized ratably over the length of the agreements. Revenue resulting from contracts or agreements with milestones is recognized when the milestone is achieved. Amounts received in advance of services to be performed or the achievement of milestones are recorded as deferred revenue.

Research and Development

Research and development costs are charged to expense as incurred.

Loss per Common Share

Basic and diluted loss per common share is based on the net loss increased by dividends on preferred stock divided by the weighted average number of common shares outstanding during the year. No effect has been given to outstanding options, warrants or convertible preferred stock in the diluted computation, as their effects would be anti-dilutive. The number of potentially dilutive securities excluded from the computation of diluted loss per share was approximately 2,148,000, 2,325,000 and 3,739,000 for the years ended December 31, 2005, 2004 and 2003, respectively.

Stock-based Compensation

The Company accounts for stock-based compensation according to Accounting Principles Board Opinion No. 25 and the related interpretations under Financial Accounting Standards Board (FASB) Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation.

The Company adopted the required disclosure provisions under Statement of Financial Accounting Standards No. 148 and continues to use the intrinsic value method of accounting for stock-based compensation.

Comprehensive Income

SFAS No. 130, Reporting Comprehensive Income, establishes standards for the reporting and display of comprehensive income and its components within the financial statements. Other comprehensive income is comprised of charges to stockholders' equity, other than contributions from or distributions to stockholders, excluded from the determination of net income. The Company's other comprehensive income is comprised of unrealized gains on available for sale marketable securities.

Income Taxes

The Company has applied the provisions of SFAS No. 109, Accounting for Income Taxes, which requires the recognition of deferred income tax assets and liabilities for the consequences of temporary differences between amounts reported for financial reporting and income tax purposes, including net operating loss carryforwards. SFAS No. 109 requires recognition of a future tax benefit of net operating loss carryforwards and certain other temporary

differences to the extent that realization of such benefit is more likely than not; otherwise, a valuation allowance is applied.

Fair Value of Financial Instruments

The carrying value of cash equivalents, accounts payable and accrued expenses approximates their fair value due to the short period to maturity of these instruments.

F-9

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncement

In May 2005, the FASB issued Statement of Financial Statement Accounting Standards No. 154, *Accounting Changes and Error Corrections*-a replacement of APB Opinion No. 20 and FASB Statement No. 3 (SFAS 154). This Statement replaces APB Opinion No. 20, *Accounting Changes*, and FASB Statement No. 3, *Reporting Accounting Changes in Interim Financial Statements*. SFAS 154 requires retrospective application to prior periods' financial statements for changes in accounting principle, unless it is impractical to determine either the period-specific effects or the cumulative effect of the change. SFAS 154 also requires that a change in depreciation, amortization, or depletion method for long, non-financial assets be accounted for as a change in accounting estimate effected by a change in accounting principle. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Company believes that adoption of the provisions of SFAS 154 will not have a material effect on the Company's consolidated financial statements.

In December 2004, the FASB issued SFAS No. 123R, *Share-based Payment*. SFAS No. 123R is a revision of SFAS No. 123, *Accounting for Stock Based Compensation*, and supersedes APB 25. Among other items, SFAS 123R eliminates the use of APB 25 and the intrinsic value method of accounting, and requires companies to recognize the cost of employee services received in exchange for awards of equity instruments, based on the grant date fair value of those awards, in the financial statements. The effective date of SFAS 123R is January 1, 2006, for calendar year companies.

SFAS 123R permits companies to adopt its requirements using either a modified prospective method, or a modified retrospective method. Under the modified prospective method, compensation cost recognized in the financial statements beginning with the effective date, based on the requirements of SFAS 123R for all share-based payments granted after that date, and based on the requirements of SFAS 123 for all unvested awards granted prior to the effective date of SFAS 123R. Under the modified retrospective method, the requirements are the same as under the modified prospective method, but also permits entities to restate financial statements of previous periods based on proforma disclosures made in accordance with SFAS 123.

The Company currently utilizes a standard option pricing model (i.e., Black-Scholes) to measure the fair value of stock options granted to employees. While SFAS 123R permits entities to continue to use such a model, the standard also permits the use of a lattice model. The Company has not yet determined which model it will use to measure the fair value of employee stock options upon the adoption of SFAS 123R.

SFAS 123R also requires that the benefits associated with the tax deductions in excess of recognized compensation cost be reported as a financing cash flow, rather than as an operating cash flow as required under current literature. This requirement will reduce net operating cash flows and increase net financing cash flows in periods after the effective date. These future amounts cannot be estimated because they depend on, among other things, when employees exercise stock options.

Note C License Agreements

On September 8, 2004 the Company entered into an Intellectual Property Assignment Agreement to license the Company's QCT drug discovery technology to NLC Pharma, Inc. (a Delaware corporation based in Israel). Pursuant to the Agreement the Company will receive monies from royalties, licenses or the sale of QCT technology to third

parties that are generated by NLC Pharma Inc. The Company did not earn any revenue under this agreement during 2005, nor does it anticipate receiving any revenues from this agreement in future years.

Note G Stockholders Equity***Preferred Stock***

On January 6, 1992, the Board of Directors designated 4,000,000 shares of preferred stock as Series A convertible preferred stock. The holders of Series A preferred stock are entitled to (i) convert on a one-for-one basis to common stock subject to adjustment, as defined, (ii) voting rights equivalent to voting rights of common stockholders, (iii) receive dividends equal to \$.25 per share payable on or about January 15 each year in cash or newly-issued shares of Series A preferred or a combination thereof (iv) liquidation preferences of \$2.50 per preferred share. The Company, at its option, has the right to redeem all or any portion of the Series A convertible preferred stock at \$2.50 per share plus accrued and unpaid dividends.

During January 2003, the Company elected to pay the required yearly dividend on its Series A convertible preferred stock by issuing additional shares of Series A convertible preferred stock. The Company issued 82,834 shares of Series A convertible preferred stock to satisfy the 10% dividend. In addition, during 2003, 20,293 shares of Series A convertible preferred stock were converted into 20,293 shares of common stock.

During January 2004, the Company elected to pay the required yearly dividend by issuing additional shares of Series A convertible preferred. The Company issued 89,020 shares to satisfy the 10% dividend. In addition, during 2004,

44,252 shares of Series A convertible preferred were converted into 44,252 shares of common stock

During January 2005, the Company elected to pay the required yearly dividend by issuing additional shares of Series A convertible preferred. The Company issued 93,502 shares to satisfy the 10% dividend. In addition, during 2005, 75,995 shares of Series A convertible preferred were converted into 75,995 shares of common stock.

Common Stock

During the second quarter 2004, the Board of Directors adopted a resolution providing for the issuance of shares of the Company's common stock and the granting of stock options as part of compensation paid to directors for their

service to the Company. Upon joining the Board, directors are issued 25,000 shares of common stock. The chairman of the Board receives an additional 25,000 shares at the time he assumes this role. Members of the Board of Directors are granted an option to purchase 5,000 shares of the Company's common stock on the first day of each calendar quarter, with an exercise price equal to the closing trading price of the Company's common stock on the date of grant. In the second quarter 2004, the Chairman of the Board was issued 50,000 shares of common stock, Directors were issued 25,000 shares. In the aggregate, 150,000 shares of common stock were issued and recorded at their fair value on the date of grant. No common stock was issued to the Board of Directors in 2005.

Stockholder Rights Plan

On June 9, 2003, the then current Board of Directors adopted a shareholders rights plan. Under the plan, each holder of the Company's common stock as of the close of business on June 9, 2003 received, as a non-taxable dividend, one right for each share of common stock held. Each right entitles the holder to purchase from the Company one one-thousandth of a share of Series B Junior Participating Preferred Stock at an exercise price of \$4.50, subject to adjustment. If a person or group acquires beneficial ownership of 15 percent or more of the Company's common stock, each right will entitle its holder (other than the acquiring person or members of the acquiring group) to purchase, at the right's then current exercise price (initially \$4.50), a number of the Company's shares of common stock having a market value of twice such price (initially \$9.00).

In addition, if the Company is acquired in a merger or other business combination transaction after a person has acquired beneficial ownership of 15 percent or more of its common stock, each right will entitle its holder to purchase, at the rights' then current exercise price (initially \$4.50), a number of the acquiring company's shares of common stock having a market value of twice such price (initially \$9.00). Following the acquisition by a person or group of beneficial ownership of 15 percent of the Company's common stock and prior to an acquisition of beneficial ownership of 50 percent or more of its common stock the Board of Directors may exchange the rights (other than rights owned by such acquiring person or group, which will have become null and void and nontransferable), in whole or in part, at an exchange ratio of one share of common stock (or one-thousandth of a share of Series B Junior Participating Preferred Stock) per right. The Company may redeem the rights at a price of \$.001 per right at any time prior to the time a person has become the beneficial owner of 15% or more of the Company's outstanding common stock. The rights will expire on June 9, 2013, unless earlier exchanged or redeemed.

Subscriptions Receivable

In May 2001, we sold 100,000 shares of common stock to our former President and Chief Executive Officer, Ronald L. Goode, Ph.D., for a purchase price of \$3.25 per share, the fair market value at the time of the transaction. Dr. Goode paid the purchase price of \$325,000 with \$25,000 in cash and issued a \$300,000 five-year promissory note to us bearing interest at a rate of 4.71% per annum, with interest payable semi-annually. The 100,000 shares sold to Dr. Goode, serve as collateral to secure the note. The note provides that in the event of a default on the note, as defined in the agreement, Dr. Goode's obligation to the Company is limited to \$65,000 and proceeds from the public sale of the collateralizing stock. Through December 31, 2004, Dr. Goode has made \$86,000 in interest payments. A stock certificate for these shares was not issued to Dr. Goode until September 2003. In February 2004, Dr. Goode resigned, thereby terminating his employment agreement with the Company and in 2005 he has failed to make \$14,000 in interest payments. In the second quarter 2005, the Company recorded a reserve against the subscription receivable balance so that the net balance is approximately equal to Dr. Goode's obligation under the note.

Warrants

At December 31, 2005, outstanding warrants to acquire shares of the Company's common stock are as follows:

Exercise Price	Expiration Dates
-----------------------	-------------------------

Warrant Type				Number of Shares Reserved
-------------------------	--	--	--	--

Other	\$0.55 to \$1.00	July 2004	March 2008	290,000

On August 13, 2002 the Company issued warrants to purchase 125,000 shares of its common stock at a purchase price of \$1.00 per share, with an expiration date of August 13, 2007, and additional warrants to purchase 125,000 shares of our common stock at a purchase price of \$0.55 per share, with an expiration date of August 13,

F-12

2007 to Roan/Meyers Associates, L.P. in exchange for financial advisory services. In connection with this exchange, the Company recorded a charge of \$91,000 to operations during 2002 using the Black-Scholes option-pricing model.

In March 2003, the Company entered into an agreement with Petkevich & Partners, LLC whereby the Company issued warrants to purchase 40,000 shares of common stock at \$0.58 per share expiring on March 5, 2008. These warrants vested during 2003; the Company determined the fair value based on the Black-Scholes option pricing model of these warrants to be approximately \$5,000, which was charged to operations during 2003.

The Company did not incur any warrant related expenses in 2004 and 2005.

Stock Options

During 1996, the Board of Directors and the stockholders of the Company approved the 1996 Stock Option Plan (the 1996 Plan) that provides for the granting of incentive and nonstatutory options for up to 750,000 shares of common stock to officers, employees, directors and consultants of the Company. During 1998, the Board of Directors and the stockholders of the Company approved an amendment to the Plan to allow for the granting of an additional 750,000 options. At December 31, 2005 and 2004, 980,000 and 922,000, respectively, options were available for future grant under the 1996 Plan.

During 2000, the Board of Directors and the stockholders of the Company approved the 2000 Stock Option Plan (the 2000 Plan), which provides for the granting of incentive and nonstatutory options for up to 1,500,000 shares of common stock to officers, employees, directors, independent contractors, advisors and consultants of the Company. The Company subsequently amended the 2000 plan to increase the options available for future grants by 1,250,000 shares and to change the vesting period. At December 31, 2005 and 2004, 2,365,000 and 1,820,000, respectively, options are available for grant under the 2000 Plan.

Options granted under the Plans are exercisable for a period of up to 10 years from date of grant at an exercise price which is not less than the fair value of the common stock on date of grant, except that the exercise period of options granted to a stockholder owning more than 10% of the outstanding capital stock may not exceed five years and their exercise price may not be less than 110% of the fair value of the common stock at date of grant. For the 1996 Plan, options generally vest 40% after six months of employment and thereafter 20% annually on the anniversary date of the grant. For the 2000 Plan, as a result of an amendment approved by the stockholders in 2001, the vesting period changed from 50% annually on the anniversary date of the grant, to 33 1/3% annually on the anniversary date of the grant. Under the 2000 plan, the Board of Directors has authority to modify the vesting period. Non-employee director options are immediately exercisable on the date of grant.

Stock option activity under the Plans are summarized as follows:

Pro forma information regarding net income and earnings per share is required by SFAS No. 123, and has been determined as if we accounted for our stock option grants under the fair market value method as prescribed by such statement. The fair market value of our stock options was estimated at the date of grant using the Black-Scholes option-pricing model with the following assumptions.

	2005	2004	2003
Risk-free interest rates	3.6% to 4.3 %	2.9% to 3.6 %	2.5% to 3.5 %
Expected option life in years	5	5	5

The weighted average fair value at date of grant for options granted during 2005, 2004 and 2003 was \$0.40, \$0.81, and \$0.09 per option, respectively. The Company accounts for stock-based compensation according to Accounting Principles Board Opinion No. 25 and the related interpretations under Financial Accounting Standards Board (FASB) Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation. The Company adopted the required disclosure provisions under Statement of Financial Accounting Standards No. 148 and continues to use the intrinsic value method of accounting for stock-based compensation.

The Black-Scholes option valuation model was developed for use in estimating the fair market value of traded options that have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because our stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair market value estimates, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair market value of our stock options.

Note H Income Taxes

At December 31, 2005 and 2004, the Company had approximately \$53,080,000 and \$51,041,000 of net operating loss carry forwards and \$491,000 and \$521,000 of research and development credit carry forwards, respectively, for federal income tax purposes that expire in years 2006 through 2022.

At December 31, 2005 and 2004, the Company had a deferred tax asset of approximately \$18,541,000 and \$19,521,000 respectively, representing the benefits of its net operating loss and research and development credit carry forwards and certain expenses not currently deductible for tax purposes, principally related to the granting of stock options and warrants, and non-cash reorganization and merger expenses. The Company's deferred tax asset has been fully reserved by a valuation allowance since realization of its benefit is uncertain. The difference between the statutory tax rate of 34% and the Company's effective tax rate is principally due to the increase (decrease) in the valuation allowance of (\$980,000) (2005), \$644,000 (2004), and \$1,902,000 (2003). The Company's ability to utilize its carry forwards may be subject to an annual limitation in future periods pursuant to Section 382 of the Internal Revenue Code of 1986, as amended.

Note I Commitments and Other Matters

Leases

The Company leases office space from RFG Associates, an entity in which John A. Paganelli, chairman of the Board of Directors of the Company is an equity owner. The lease provides for a monthly rent of \$625 and is cancelable by either party upon thirty (30) days notice. Rent expense, prior to any reorganization expense, was approximately \$11,000, \$20,000, and \$238,000 for the years ended December 31, 2005, 2004 and 2003, respectively.

Legal Proceedings

Weiss Litigation.

On May 15, 2003, The M&B Weiss Family Limited Partnership of 1996 filed a lawsuit in the Delaware Court of Chancery, purportedly as a class action on behalf of all other similarly situated stockholders of the Company, against the Company, as a nominal defendant, and former directors: Joseph M. Davie, Robert J. Easton, Ronald L. Goode and Walter Lovenberg, (collectively referred to as the Individual Defendants), and purportedly as a derivative action on behalf of the Company against the Individual Defendants (the Weiss Litigation). On April 12, 2005 the judge, in a ruling from the bench, dismissed the matter with prejudice.

Labidi Proceeding.

On October 5, 2005, in the matter brought by Abdel Hakim Labidi (one of our former employees) against the Company, a jury ruled in favor of Dr. Labidi determining that the Company converted certain biological research materials owned by Dr. Labidi, and the Company committed theft of biological materials owned by Dr. Labidi. The jury awarded Dr. Labidi a total of \$600,000. The Company is reviewing this matter to determine the validity of appealing the decision of the jury. The final amount due by the Company to Dr. Labidi under such judgment is likely to be between \$250,000 and \$750,000, however the Company has recorded a provision of \$250,000 in the financial statements.

2110 Research Row, Ltd. Proceeding.

On December 31, 2003, the termination date of our lease agreement, we vacated 19,300 square feet of office and laboratory space that we occupied at 2110 Research Row, Dallas, Texas. 2110 Research Row, Ltd. (the Landlord) acquired this property in April 2002. The Landlord contends he is owed payments that we believe to be outside the terms of the lease agreement or waived by the previous landlord. In October 2003, we filed suit against the Landlord and 9000 Harry Hines, Inc., in a Dallas County District Court. The Company, as tenant, and the Landlord were parties to a lease agreement (Lease Agreement) dated October 1, 1991, as amended. On March 19, 2004, we entered into a settlement agreement with the Landlord, whereby we made a \$33,000 payment to the Landlord, dismissed the suit with prejudice and entered into a mutual release of any and all claims by all parties. On April 9, 2004, the Landlord and the Company filed an Agreed Order Of Dismissal With Prejudice in The District Court, 134th Judicial District,

Dallas County Texas.

eXegenics Inc.**NOTES TO FINANCIAL STATEMENTS****(1) Financial Statement Presentation**

The unaudited financial statements of eXegenics Inc., a Delaware corporation (the Company), included herein have been prepared in accordance with the rules and regulations promulgated by the Securities and Exchange Commission and, in the opinion of management, reflect all adjustments necessary to present fairly the results of operations for the interim periods presented. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. However, management believes that the disclosures are adequate to make the information presented not misleading. These financial statements and the notes thereto should be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2005. The results for the interim periods are not necessarily indicative of the results for the full fiscal year.

(2) Cash and Cash Equivalents

The Company considers all non-restrictive, highly liquid short-term investments purchased with an original maturity of three months or less to be cash equivalents. Cash and cash equivalents, which amount to \$8,591,000 and \$8,901,000 at September 30, 2006 and December 31, 2005, respectively, consist principally of interest-bearing cash deposits.

(3) Loss Per Common Share

Basic and diluted loss per common share is based on the net loss increased by dividends on preferred stock divided by the weighted average number of common shares outstanding during the period. No effect has been given to outstanding options, warrants or convertible preferred stock in the diluted computation, as their effect would be antidilutive.

(4) Share-Based Compensation

During the nine months ended September 30, 2006, the stock option activity under our 1996 Stock Option Plan and 2000 Stock Option Plan (collectively the Stock Option Plans), was as follows:

	Weighted Average Price	Number of Shares	Weighted Average Remaining Contractual Term (In Years)
Outstanding, January 1, 2006	\$ 3.37	905,000	
Granted	0.40	60,000

Outstanding, September 30, 2006	\$ 0.62	295,000	8.28
Options exercisable as of September 30, 2006		295,000	8.28

F-20

eXegenics Inc.**NOTES TO FINANCIAL STATEMENTS (Continued)****(4) Share-Based Compensation (continued)**

Under the Stock Option Plans, 3,955,000 shares of our Common Stock are available for issuance. Options outstanding and exercisable were granted at a stock option price, which was not less than the fair market value of our Common Stock on the date the option was granted and no option has a term in excess of ten years. Additionally, options vested and became exercisable either on the date of grant or commencing one or two years from the option grant date.

In December 2004, Financial Accounting Standards Board issued SFAS No. 123R, Share-Based Payment (SFAS No. 123R or the Statement). This Statement is a revision of SFAS No. 123, Accounting Principles Board Option No. 25, Accounting for Stock Issued to Employees (APB No. 25) and its related implementation guidance. On January 1, 2006, we adopted the provisions of SFAS No. 123R using the modified prospective method. SFAS No. 123R focuses primarily on accounting transactions in which an entity obtains employee or similar services in share-based payment transactions. The Statement requires entities to recognize compensation expense for awards of equity instruments to employees or employee equivalents based on the grant-date fair value of those awards (with limited exceptions). SFAS No. 123R also requires the benefits of tax deductions in excess of recognized compensation expense to be reported as financing cash flows, rather than as an operating cash flow as prescribed under the prior accounting rules. This requirement reduces net operating cash flows and increases net financing cash flows in periods after adoption. Total cash flow remains unchanged from what would have been reported under prior accounting rules.

Prior to the adoption of SFAS No. 123R, we followed the intrinsic value method in accordance with APB No. 25 to account for our employee stock options. Accordingly, no compensation expense was recognized for the issuance of stock options under any of our Stock Option Plans for periods ended prior to January 1, 2006. The adoption of SFAS No. 123R primarily resulted in a change in our method of recognizing the fair value of share-based compensation. Specifically, the adoption of SFAS No. 123R will result in our recording compensation expense for employee stock options.

The pre-tax share-based employee compensation expense recorded in the 2006 third quarter was approximately \$3,000. Such expense resulted solely from the estimated value to be recognized from the share-based payments of options granted to our board of directors. The options outstanding at December 31, 2005 did not and will not impact 2006 consolidated results of operations and financial positions since substantially all option-holders were fully vested in such options at December 31, 2005.

The fair market value of the shared-based payments made in the third quarter of 2006 was estimated using Black-Scholes option pricing model with the following weighted average assumptions:

Risk-free interest rate	5.1 %
Expected volatility	19.6 %
Weighted average expected life (in years)	5.0
Dividend yield	0 %

eXegenics Inc.**NOTES TO FINANCIAL STATEMENTS (Continued)****(4) Share-Based Compensation (continued)**

Results for 2005 third quarter have not been restated. Had compensation expense for employee stock options granted under our Stock Option Plans been determined based on fair value at the grant date consistent with SFAS No. 123, our net income and earnings per share for the 2005 first quarter would have been the pro forma amounts indicated below:

	Three Months Ended September 30 2005	Nine Months Ended September 30, 2005
Net income (loss) attributable to common stockholders as reported	\$ 871	\$ (88)
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(4)	(1)
Pro forma net income (loss)	\$ 867	\$ (89)
Earnings per share:		
Basic and diluted-as reported	\$ 0.05	\$ (0.01)
Basic-pro forma	\$ 0.05	\$ (0.01)

(5) Dividends

During the nine month periods ended September 30, 2006 and September 30, 2005, 10% preferred stock dividends were declared equal to \$238,000 and \$234,000 respectively. These dividends were paid through the issuance of 95,253 and 93,502 additional shares of Series A preferred stock, respectively.

(6) Subscriptions Receivable

In May, 2001, the Company entered into a limited recourse note and pledge agreement with a former President and Chief Executive Officer (Dr. Ronald Goode) in connection with a stock subscription arrangement. The amount of this note is \$300,000 plus 4.71% interest paid on a semi-annual basis. Dr. Goode failed to make the semi-annual interest payment since May 2005 and principal due May 2006. During the second quarter period ended June 30, 2005, the Company created a reserve and the subscription receivable balance on September 30, 2006 is presented net, equal to the value of the underlying collateral. On October 30, 2006, the Company reached agreement with Dr. Goode concerning the cancellation of the subscription agreement and note in consideration for the assignment to the Company of the 100,000 shares of common stock underlying the subscription.

(7) Recently Issued Accounting Standards

In May 2005, the FASB issued Statement of Financial Accounting Standards No. 154, Accounting Changes and Error Corrections—a replacement of APB Opinion No. 20 and FASB Statement No. 3 (SFAS 154). This Statement replaces APB Opinion No. 20, Accounting Changes, and FASB Statement No. 3, Reporting Accounting Changes in Interim Financial Statements. SFAS 154 requires retrospective application to prior periods' financial statements for changes in accounting principle, unless it is impractical to determine either the period-specific effects or the cumulative effect of the change. SFAS 154 also requires that a change in depreciation, amortization, or depletion method for long, non-financial assets be accounted for as a change in accounting estimate effected by a change in accounting principle. SFAS is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Company believes that adoption of the provisions of SFAS 154 will not have a material effect on the Company's financial statements.

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard (SFAS) No. 157, Fair Value Measurements. SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 is effective as of the beginning of the first fiscal year that begins after November 15, 2007. As such, the Company is required to adopt these provisions at the beginning of the fiscal year ended December 31, 2008. The Company is currently evaluating the impact of SFAS 157 on its financial statements.

A-2

Investors, and the Investors shall purchase from the Company, an aggregate of 19,440,491 shares of the Common Stock to be allocated among the Investors as provided in Exhibit A attached hereto. At the Closing, the Company will issue and deliver to each of the Investors a stock certificate registered in the name of the Investor representing the number of shares of the Common Stock, against payment of the Initial Purchase Price therefore, listed next to each such Investors name on Exhibit A hereto. The shares of Common Stock issued to the Investors will, in the aggregate, equal fifty-one percent (51%) of the outstanding capital stock of the Company on the Closing Date, on a fully-diluted basis, after giving effect to the conversion or exercise of all convertible instruments and securities. Without limitation, this calculation shall take into account any shares of Common Stock issuable upon conversion of outstanding shares of the Company's Series A Preferred Stock and any shares of Common Stock issuable upon the exercise of outstanding options or warrants to purchase shares of Common Stock.

2.2 Consideration for Common Stock. The purchase price for the Common Stock shall be the Stockholders' Equity of the Company at the Closing Date. The Investors shall pay to the Company, on the Closing Date, the Initial Purchase Price, and the Initial Purchase Price shall be subject to adjustment as set forth in Section 2.3. The Investors will pay the Initial Purchase Price by wire transfer of immediately available funds to an account designated in writing by the Company.

2.3 Adjustment to Purchase Price. The final purchase price will be in an amount equal to Stockholders' Equity at the Closing Date and will be determined as follows:

(a) The Company will prepare a balance sheet of the Company, in accordance with GAAP consistently applied, as of the Closing Date, including a computation of Stockholders' Equity as of the Closing Date (the *Closing Date Balance Sheet*) and will deliver the Closing Date Balance Sheet to the Investors within sixty (60) days after the Closing Date. Such Closing Date Balance Sheet shall, if the Labidi Matter and/or the Goode Matter have not been resolved, include reserves reflecting the maximum potential liability of the Company in connection with any such unresolved matter. If, within thirty days following delivery of the Closing Date Balance Sheet to the Investors, the Investors have not given the Company notice of their objection to the Closing Date Balance Sheet (such notice must contain a statement of the basis of the Investors' objection), then the Stockholders' Equity reflected in the Closing Date Balance Sheet will be used in determining the purchase price. If the Investors give such notice of objection, then the Investors and the Company shall use reasonable efforts to resolve any such dispute. If the Company and the Investors are unable to finally resolve such dispute within ten (10) days after the Company's receipt of the Investors' notice of objection, then the dispute shall be resolved by an independent certified public accounting firm that is reasonably acceptable to the Company and the Investors (the *Independent Accounting Firm*) considering recent past, current and anticipated future engagements. The Company and the Investors shall retain the Independent Accounting Firm within ten (10) days of the end of the ten (10) day period for the Company and Investors to resolve their dispute. The determination of the Independent Accounting Firm shall be made as promptly as practicable, but in no event more than 15 days after such matter(s) has been submitted to the Independent Accounting Firm, and shall be final and binding on the Company and the Investors. The fees and expenses of the Independent Accounting Firm shall be borne by the party found to be incorrect with regard to the objections. If both parties are found to be partially incorrect with regard to the objections, then the fees and expenses of the Independent Accounting Firm shall be shared proportionately by the parties based upon the amount the objections successfully contested by the Investors bears to the total of the objected amounts submitted to the Independent Accounting Firm.

(b) On the tenth business day following the final determination of the Stockholders' Equity at the Closing Date, if that amount is greater than the Initial Purchase Price, the Investors will pay the difference to the Company, and if the final Stockholders' Equity at the Closing Date is less than the Initial Purchase Price, the Company will pay the difference to the Investors, based on the portion of the aggregate purchase price paid for the Common Stock by each Investor (as set forth on Exhibit A). All payments must be made in immediately available funds.

(c) In the event that the Closing Date Balance Sheet included additional reserves for the Labidi Matter or the Goode Matter and if, prior to December 31, 2006, the Company subsequently resolves such matters for an amount or amounts

less than the amounts reserved on the Closing Date Balance Sheet, then the Investors shall pay to the Company, in the form of additional purchase price, an amount equal to the difference between the actual amount paid or incurred by the Company and the amount of the reserve in the Closing Date Balance Sheet, such payment to be made within ten (10) days of receipt of written notice from the Company.

The Company has no other equity securities of any class issued, reserved for issuance or outstanding. Except as set forth below, there are (x) no outstanding options, offers, warrants, conversion rights, contracts or other rights to subscribe for or to purchase from the Company, or agreements obligating the Company to issue, transfer, or sell (whether formal or informal, written or oral, firm or contingent), shares of capital stock or other securities of the Company (whether debt, equity, or a combination thereof) or obligating the Company to grant, extend, or enter into any such agreement and (y) no agreements or other understandings (whether formal or informal, written or oral, firm or contingent) which require or may require the Company to repurchase any of its Common Stock. This Agreement has been duly executed and delivered by the Investor and constitutes a valid and legally binding agreement of the Investor, enforceable in accordance with its terms, except as enforcement thereof may be limited by bankruptcy, insolvency, reorganization, moratorium or other similar laws, both state and federal, affecting the enforcement of creditors' rights or remedies in general from time to time in effect and the exercise by courts of equity powers or their application of principles of public policy.

4.3 *Rule 144.* Each of the Investors acknowledges that the Common Stock must be held indefinitely unless subsequently registered under the 1933 Act or unless an exemption from such registration is available. Each of the Investors is aware of the provisions of Rule 144 promulgated under the 1933 Act which permit limited resale of shares purchased in a private placement subject to the satisfaction of certain conditions, including, among other things, the availability of certain current public information about the Company, the resale occurring not less than one (1) year after a party has purchased and paid for the security to be sold, the sale being effected through a broker's transaction or in transactions directly with a market maker and the number of shares being sold during any three-month period not exceeding specified limitations.

5.1 *Commercially Reasonable Efforts*. practicable all documentation to effect all necessary applications, notices, petitions, filings, tax ruling requests and other documents and to obtain as promptly as practicable all consents, waivers, licenses, orders, registrations, approvals, permits, tax rulings and authorizations necessary or advisable to be obtained from any Person and/or any Governmental Authority in order to consummate any of the transactions contemplated by this Agreement, (ii) executing and delivering such other documents, instruments and agreements as any party hereto shall reasonably request, and (iii) taking all reasonable steps as may be necessary to obtain all such material consents, waivers, licenses, registrations, permits, authorizations, tax rulings, orders and approvals. In furtherance and not in limitation of the foregoing, each party hereto agrees to vigorously defend any lawsuits or other legal proceedings, whether judicial or administrative, challenging this Agreement or the transactions contemplated hereby, including seeking to have any stay or temporary restraining order entered by any Governmental Authority vacated or reversed. Notwithstanding the foregoing, in no event shall any party have any obligation, in order to consummate the transaction, to (a) take any action(s) that would result in a material adverse change in the benefits to the Company on the one hand or to the Investors on the other of this Agreement, or (b) dispose of any material assets or make any material change in its business, or (c) expend any material amount of funds or otherwise incur any material burden other than those contemplated by this Agreement.

5.2 Certain Filings; Cooperation in Receipt of Consents.

(a) As promptly as practicable after the date hereof, the Company shall prepare and file the Proxy Statement with the SEC. The Company shall mail the Proxy Statement to its stockholders as promptly as practicable after the SEC staff has completed its review thereof and, if necessary, after the Proxy Statement shall have been so mailed, promptly circulate amended, supplemental or supplemented proxy material and, if required in connection therewith, resolicit proxies. The Proxy Statement will not, at the date it is first mailed to the stockholders of the Company, contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary in order to make the statements therein, in light of the circumstances under which they are made, not misleading, except that no representation or warranty is made by the Company with respect to statements made or incorporated by reference therein based on information supplied by the Investors specifically for inclusion or incorporation by reference in the Proxy Statement.

(b) No filing of, or any amendment or supplement to, the Proxy Statement will be made by the Company without providing the Investors the opportunity to review and comment thereon. The Company will advise the Investors, promptly after it receives notice thereof, of any request by the SEC for amendment of the Proxy Statement or comments thereon and responses thereto or requests by the SEC for additional information. If, at any time prior to the Closing Date, it is determined that any information that is not included in the Proxy Statement should be included therein, or in an amendment or supplement thereto, so that the Proxy Statement, as amended or supplemented, would not include any misstatement of a material fact or omit to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, an appropriate amendment or supplement describing such information shall be promptly filed with the SEC and, to the extent required by law or regulation, disseminated to the stockholders of the Company.

(c) The Company and the Investors shall cooperate with one another in (i) determining whether any other action by or in respect of, or filing with, any Governmental Authority is required, or any actions, consents, approvals or waivers are required to be obtained from parties to any material contracts, in connection with the consummation of the transactions contemplated hereby, and (ii) taking or seeking any such other actions, consents, approvals or waivers or making any such filings, furnishing information required in connection therewith. Each party shall permit the other party to review any communication given by it to, and shall consult with each other in advance of any meeting or conference with, any Governmental Authority or, in connection with any proceeding by a private party, with any other Person, and to the extent permitted by the applicable Governmental Authority or other Person, give the other party the opportunity to attend and participate in such meetings and conferences, in each case in connection with the transactions contemplated hereby.

(d) The Company shall timely file all reports required to be filed by it pursuant to Section 13(a) of the 1934 Act and all other documents required to be filed by it with the SEC under the 1933 Act or the 1934 Act from the date of this Agreement to the Closing.

5.3 *Stockholder Meeting*. The Company shall cause a meeting of its stockholders to be duly called and held for the purposes of obtaining the Company Stockholder Approval as soon as reasonably practicable. Except as provided

in the next sentence, (a) the Board of Directors of the Company shall recommend approval and adoption by its stockholders of the proposed amendment to the Certificate of Incorporation and approval of the transaction contemplated by this Agreement (the *Company Recommendation*), and the (b) the Company shall use commercially reasonable efforts to solicit the Company Stockholder Approval. The Board of Directors of the Company shall be permitted to (i) not recommend to the Company's Stockholders that they give the Company Stockholder Approval, or (ii) withdraw or modify in a manner materially adverse to the Investors the Company Recommendation, only if the Board of Directors by a majority vote determines in its good faith judgment (after consultation with outside legal counsel) that it is necessary to withdraw or modify the Company Recommendation to comply with its fiduciary duties under applicable law.

5.4 Public Announcements. The parties shall consult with each other before issuing, and provide each other a reasonable opportunity to review and comment upon, any press release or public statement with respect to this Agreement and the transactions contemplated hereby and, except as may be required by applicable law, will not issue any such press release or make any such public statement prior to such consultation.

5.5 Access to Information; Notification of Certain Matters.

(a) From the date hereof to the Closing and subject to applicable law, the Company shall (i) give to each of the Investors, its counsel, financial advisors, auditors and other authorized representatives reasonable access to the offices, properties, books and records of the Company, and (ii) furnish or make available to each of the Investors, its counsel, financial advisors, auditors and other authorized representatives such financial and operating data and other information as such Persons may reasonably request.

(b) Each party hereto shall give notice to each other party hereto, as promptly as practicable after the event giving rise to the requirement of such notice, of:

(i) any communication received by such party from, or given by such party to, any Governmental Authority in connection with any of the transactions contemplated hereby;

(ii) any notice or other communication from any Person alleging that the consent of such Person is or may be required in connection with the transactions contemplated by this Agreement; and

(iii) any actions, suits, claims, investigations or proceedings commenced or, to its knowledge, threatened against, relating to or involving or otherwise affecting such party or any of its Affiliates that, if pending on the date of this Agreement, would have been required to have been disclosed, or that relate to the consummation of the transactions contemplated by this Agreement; provided, however, that the delivery of any notice pursuant to this Section 5.5(b) shall not limit or otherwise affect the remedies available hereunder to the party receiving such notice.

5.6 Anti-Takeover Provisions. The Company's Board of Directors will take such action as may be necessary to waive the applicability of the provisions of GCL 203 to the transactions contemplated by this Agreement.

5.7 Board of Directors. The Company agrees to set the size of its Board of Directors at five members, appoint three designees of Phillip Frost, M.D. to the Board at Closing and obtain any necessary resignations from members of the Board so that immediately after the Closing the Board of Directors shall consist of five members.

5.8 Interim Operations of the Company. During the period from the date of this Agreement to the Closing, the Company shall conduct its business only in the ordinary course of business consistent with past practice, except to the extent otherwise necessary to comply with the provisions hereof and with applicable laws and regulations. Additionally, during the period from the date of this Agreement to the Closing, except as required hereby in connection with this Agreement, the Company shall not, without the prior consent of a majority in interest of the Investors, (i) amend or otherwise change its Certificate of Incorporation or Bylaws, (ii) issue, sell or authorize for

issuance or sale (including, but not limited to, by way of stock split or dividend), shares of any class of its securities or enter into any agreements or commitments of any character obligating it to issue such securities, other than in connection with the conversion of shares of preferred stock or the exercise of outstanding warrants or outstanding stock options or bonuses granted to directors, officers or employees of the Company prior to the date of this Agreement; (iii) declare, set aside, make or pay any dividend or other distribution (whether in cash, stock or property) with respect to its common stock, (iv) redeem, purchase or otherwise acquire, directly or indirectly, any of its capital stock, (v) enter into any material contract or agreement or material transaction or make any material capital expenditure other than those relating to the transactions contemplated by this Agreement, (vi) create, incur,

A-9

assume, maintain or permit to exist any indebtedness except as otherwise incurred in the ordinary course of business, consistent with past practice, (vii) pay, discharge or satisfy claims or liabilities (absolute, accrued, contingent or otherwise) other than in the ordinary course of business consistent with past practice, (viii) cancel any material debts or waive any material claims or rights, (ix) make any loans, advances or capital contributions to, or investments in financial instruments of any Person, (x) assume, guarantee, endorse or otherwise become responsible for the liabilities or other commitments of any other Person, (xi) grant any increase in the compensation payable or to become payable by the Company to any of its employees, officers or directors or any increase in any bonus, insurance, pension or other employee benefit plan, payment or arrangement made to, for or with any such employees, officers or directors, (xii) enter into any employment contract or grant any severance or termination pay or make any such payment with or to any officer, director or employee of the Company, (xiii) alter in any material way the manner of keeping the books, accounts or records of the Company or the accounting practices therein reflected other than alterations or changes required by GAAP or applicable law, (xiv) enter into any indemnification, contribution or similar contract pursuant to which the Company may be required to indemnify any other Person or make contributions to any other Person, (xv) amend or terminate any existing contracts in any manner that would result in any material liability to the Company for or on account of such amendment or termination or (xvi) or change any existing or adopt any new tax accounting principle, method of accounting or tax election except as provided herein or agreed to in writing by the Investors. Among other things, the Company agrees to take such actions as may be necessary to suspend the automatic grants of stock options to directors.

5.9 Voting Agreements. Each Investor hereby agrees that he will enter into the Investor Voting Agreement and will deliver the Agreement to the Company at or prior to the Closing. Simultaneously with the execution of this Agreement, or within ten days thereof, each director of the Company will enter into the Stockholder Voting Agreement. The Company further agrees to use commercially reasonable efforts to have the Stockholder Voting Agreements executed by each director of the Company and each holder of more than 5% of the issued and outstanding stock of the Company.

SECTION 6. CONDITIONS.

SECTION 7. TERMINATION.

7.1 Termination. This Agreement may be terminated at any time prior to the Closing by written notice by the terminating party to the other party (except if such termination is pursuant to Section 7.1(a)), whether before or after the Company Stockholder Approval shall have been obtained:

(a) by mutual written agreement of the Investors and the Company;

(b) by either the Investors or the Company, if

(i) the transactions contemplated by this Agreement shall not have been consummated by January 31, 2007 (the *End Date*); provided, however, that the right to terminate this Agreement under this Section 7.1(b)(i) shall not be available to any party whose breach of any provision of or whose failure to perform any obligation under this Agreement has been the cause of, or has resulted in, the failure of the transactions to occur on or before the End Date;

(ii) a judgment, injunction, order or decree of any Governmental Authority having competent jurisdiction enjoining the Company or the Investors from consummating the transactions contemplated by this Agreement is entered and such judgment, injunction, judgment or order shall have become final and nonappealable and, prior to such termination, the parties shall have used their respective commercially reasonable efforts to resist, resolve or lift, as applicable, such judgment, injunction, order or decree; provided, however, that the right to terminate this Agreement under this Section 7.1(b)(ii) shall not be available to any party whose breach of any provision of or whose failure to perform any obligation under this Agreement has been the cause of such judgment, injunction, order or decree; or

(c) by the Company:

(i) if a breach of or failure to perform any representation, warranty, covenant or agreement on the part of the Investors set forth in this Agreement shall have occurred which would cause the conditions set forth in Sections 6.2(a) or 6.2(b) not to be satisfied, and either such condition shall be incapable of being satisfied by the End Date or such breach or failure to perform has not been cured within 10 days after notice of such breach or failure to perform has been given by the Company to the Investors.

(d) by the Investors:

(i) if a breach of or failure to perform any representation, warranty, covenant or agreement on the part of the Company set forth in this Agreement shall have occurred which would cause the conditions set forth in Sections 6.3(a) or 6.3(b) not to be satisfied, and either such condition is incapable of being satisfied by the End Date or such breach or failure to perform has not been cured within 10 days after notice of such breach or failure to perform has been given by the Investors to the Company.

7.2 Effect of Termination. If this Agreement is terminated pursuant to Section 7.1, except as set forth in Section 7.3 below, there shall be no liability or obligation on the part of the Investors or the Company, or any of their respective officers, directors, shareholders, agents or Affiliates, except that the provisions of this Section 7.2, Section 7.3 and Section 8 of this Agreement shall remain in full force and effect and survive any termination of this Agreement and except that, notwithstanding anything to the contrary contained in this Agreement, neither the Company nor the Investors shall be relieved of or released from any liabilities or damages arising out of its material breach of or material failure to perform its obligations under this Agreement.

(b) Notwithstanding anything to the contrary contained in this Agreement, the Company shall not be required to pay a termination fee to the Investors if at the time of termination of this Agreement one or more of the Investors are in material breach of this Agreement or has (have) materially failed to perform its/their obligations under this Agreement and such breach or failure to perform would give rise to a right on the part of the Company to terminate this Agreement pursuant to Section 7.1(c).

8.2 Entire Agreement. This Agreement (together with the Schedules and the Exhibits hereto) and the other agreements and instruments expressly provided for herein, together set forth the entire understanding of the parties hereto and supersede in their entirety all prior contracts, agreements, arrangements, communications, discussions, representations, and warranties, whether oral or written, among the parties with respect to the subject matter hereof.

Board of Directors of eXegenics Inc.
c/o John A. Paganelli, Chairman
1250 Pittsford Victor Rd
Pittsford, New York 14534

RE: Fairness opinion relative to the Sale of a 51% Common Stock Interest to an Investor Group headed by Phillip Frost, MD

To: The Board of Directors of eXegenics Inc.

As the Board of Directors (Board) of eXegenics Inc. (EXEG or the Company), you have asked Empire Valuation Consultants, LLC (Empire) to render our opinion to the Board as to whether the cash purchase price (the Purchase Price) to be paid by an Investor Group lead by Phillip Frost, MD to purchase a fully diluted 51% common stock interest in EXEG is fair to EXEG shareholders from a financial point of view. It is our understanding that this fairness opinion (Opinion) will be used to facilitate the closing of the prospective Transaction.

The Stock Purchase Agreement stipulates that an Investor Group will purchase for cash that number of authorized but unissued shares of common stock of EXEG as will constitute, on issuance, 51% of EXEG s common stock on a fully diluted basis. Without limitation the fully diluted calculation will take into account shares of common stock issuable upon conversion of the Company s Series A Preferred Stock and any shares issuable upon exercise of outstanding options or warrants to purchase Common Stock. The Purchase Price will be in an amount equal to EXEG s Stockholders Equity at the Closing Date. Stockholders Equity will be determined in accordance with Generally Accepted Accounting Principles (GAAP).

As of March 31, 2006, the Company reported to the Securities and Exchange Commission (SEC) in its Form 10-Q that its total stockholders equity was approximately \$8,680,000, which included \$8,851,000 of cash and cash equivalents. The Company currently has outstanding as of July 1, 2006, 16,891,101 common shares, 1,015,028 Class A Preferred shares, stock options to purchase 275,000 common shares issued under the 2000 stock option plan and warrants to purchase 290,000 common shares. The majority of these options and warrants are out of the money and EXEG s management indicated that they do not expect that any of the options or warrants will be exercised before the prospective transaction.

Due Diligence Review Process

In connection with our investigation and analysis, we researched and/or reviewed the materials and documents specifically outlined below:

(1)

Edgar Filing: eXegenics Inc - Form DEF 14A

Reviewed the Company's Securities and Exchange Commission (SEC) filings for the past five years through the present date as sourced through the SEC's Edgar database and through the Internet;

(2)

Reviewed the draft Stock Purchase Agreement between EXEG and the Investor Group;

(3)

Reviewed relevant market data from past sales of identified publicly-held shell companies; information principally sourced from the Internet;

(4)

Reviewed the historical trading prices, volumes and volatilities of EXEG's common stock. The trading range for the past couple months has been between \$0.38 and \$0.43 per share, the latest trade being at \$0.39 per share. The fully diluted book value per share pre-Transaction is approximately \$0.49 per share and the Purchase Price is approximately \$0.48 per share.

(5)

Visited EXEG's corporate office and held discussions with members of its Board of Directors, regarding EXEG's current financial condition, status and prospective outcomes of the Company's ongoing litigations, market value of EXEG's tangible and intangible assets and liabilities, and EXEG's business prospects with or without the prospective Transaction with the Investor Group; and

(6)

Considered such other information, financial studies, and analyses as we deemed relevant, and performed such analyses, studies, and investigations as we deemed appropriate.

Limiting Conditions

This letter is provided to the Board and to EXEG's common and preferred shareholders in connection with and for the purpose of its evaluation of the Purchase Price offered by the Investor Group. This Opinion is not intended for, nor should it be relied upon, by any other interested party to the prospective Transaction.

In connection with our analysis, we have relied upon and assumed, without independent verification, the accuracy and completeness of all financial or other information provided to us or publicly available. We have also relied on the assurance of EXEG that there have been no material adverse changes in the Company's financial conditions since the date of the last available financial statements, March 31, 2006.

We have not done an independent appraisal of any tangible or intangible assets of the Company. In addition, Empire expresses no opinion as to the price at which EXEG shares will trade subsequent to the Transaction. It is known that the Transaction will constitute a change of control and therefore it will reduce the prospective future utilization of the Company's existing net operating loss carryforwards for income tax purposes. Our Opinion is necessarily based on business, economic, market, and other conditions, as they exist as of the date of this letter; any change in such conditions would require a re-evaluation of this Opinion. Our opinion is limited to the fairness of the Purchase Price to EXEG's shareholders as of the date hereof, from a financial point of view.

Empire has authorized EXEG to include, or refer to, this opinion in any documents to be provided to the Company's common and preferred shareholders. In addition, the Company may provide this opinion to the SEC, or any other government agency reviewing the proposed transaction.

Fairness Opinion

Based upon the foregoing, and in reliance thereon, it is our opinion, as financial advisors to EXEG's Board, that the Purchase Price is fair to EXEG and to EXEG's common and preferred shareholders from a financial point of view.

Respectfully submitted,

Empire Valuation Consultants, LLC
