Note 3 – Securities

The fair values of Securities Available-for-Sale are as follows:

| | September 30, 2007 | December 31, 2006 | |
|---|-----------------------|----------------------|--|
| U.S. Treasury Securities and Obligations of | | | |
| U.S. Government Corporations and Agencies | 25,473 | \$ 28,133 | |
| Obligations of State and Political Subdivisions | 12,717 | 19,928 | |
| Asset-/Mortgage-backed Securities | 100,092 | 123,859 | |
| Equity Securities | 7,208 | 7,302 | |
| Total | 145,490 | \$ 179,222 | |

Net unrealized gains on the securities available-for-sale portfolio totaled approximately \$126 at September 30, 2007 while net unrealized losses totaled approximately \$90 at December 31, 2006.

Securities are written down to fair value when a decline in fair value is not considered temporary. In estimating other-than-temporary losses, management considers the length of time and extent that fair value has been less than cost, the financial condition and near term prospects of the issuer, and the Company's ability and intent to hold the security for a period sufficient to allow for any anticipated recovery in fair value. The Company had the intent and ability to hold these securities for the foreseeable future, and the decline in fair value was largely due to changes in market interest rates, therefore, the Company does not consider these securities to be other-than-temporarily impaired.

The total carrying values and fair values of Securities Held-to-Maturity are as follows:

| | C | Fair Value | |
|---|----|---------------|-------|
| September 30, 2007: | | | |
| Obligations of State and Political Subdivisions | \$ | 4,464 \$ | 4,505 |

Note 6 – Segment Information

The Company's operations include three primary segments: core banking, trust and investment advisory services, and insurance operations. The core banking segment involves attracting deposits from the general public and using such funds to originate consumer, commercial, commercial real estate, and residential mortgage loans, primarily in the Company's local markets. The core banking segment also involves the sale of residential mortgage loans in the secondary market. The trust and investment advisory services segment involves providing trust, investment advisory, and brokerage services to customers. The insurance segment offers a full range of personal and corporate property and casualty insurance products, primarily in the affiliate banks' local markets.

The core banking segment is comprised by the Company's banking subsidiary, German American Bancorp, which operates through six community banking affiliates with 30 retail banking offices. Net interest income from loans and investments funded by deposits and borrowings is the primary revenue for the core-banking segment. The trust and investment advisory services segment's revenues are comprised primarily of fees generated by German American Financial Advisors & Trust Company ("GAFA"). These fees are derived by providing trust, investment advisory, and brokerage services to its customers. The insurance segment consists of German American Insurance, Inc., which provides a full line of personal and corporate insurance products as agent under six distinctive insurance agency names from six offices; and German American Reinsurance Company, Ltd. ("GARC"), which reinsures credit insurance products sold by the Company's affiliate banks. Commissions derived from the sale of insurance products are the primary source of revenue for the insurance segment.

The following segment financial information has been derived from the internal financial statements of German American Bancorp, Inc., which are used by management to monitor and manage the financial performance of the Company. The accounting policies of the three segments are the same as those of the Company. The evaluation process for segments does not include holding company income and expense. Holding company amounts are the primary differences between segment amounts and consolidated totals, and are reflected in the column labeled "Other" below, along with amounts to eliminate transactions between segments.
