China Automotive Systems, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
Three Months and Six Months Ended June 30, 2009 and 2008

1. Organization and Business

China Automotive Systems, Inc., “China Automotive”, was incorporated in the State of Delaware on June 29, 1999 under the name Visions-In-Glass, Inc. China Automotive, including, when the context so requires, its subsidiaries and the subsidiaries’ interests in the Sino-foreign joint ventures described below, is referred to herein as the “Company”. The Company is primarily engaged in the manufacture and sale of automotive systems and components, as described below.

Great Genesis Holdings Limited, a company incorporated on January 3, 2003 under The Companies Ordinance in Hong Kong as a limited liability company, “Genesis”, is a wholly-owned subsidiary of the Company.

Henglong USA Corporation, “HLUSA”, incorporated on January 8, 2007 in Troy, Michigan, is a wholly-owned subsidiary of the Company, and mainly engages in marketing of automotive parts in North America, and provides after sales service and research and development support accordingly.

The Company owns the following aggregate net interests in eight Sino-foreign joint ventures organized in the PRC as of June 30, 2009 and 2008.

Name of Entity	Percentage Interest	
	June 30, 2009	June 30, 2008
Shashi Jiulong Power Steering Gears Co., Ltd., “Jiulong”	81.00%	81.00%
Jingzhou Henglong Automotive Parts Co., Ltd., “Henglong”	80.00%	80.00%
Shenyang Jinbei Henglong Automotive Steering System Co., Ltd., “Shenyang”	70.00%	70.00%
Zhejiang Henglong & Vie Pump-Manu Co., Ltd., “Zhejiang”	51.00%	51.00%
Universal Sensor Application Inc., “USAI”	83.34%	75.90%
Wuhan Jielong Electric Power Steering Co., Ltd., “Jielong”	85.00%	85.00%
Wuhu HengLong Automotive Steering System Co., Ltd., “Wuhu”	77.33%	77.33%
Jingzhou Hengsheng Automotive System Co., Ltd., “Hengsheng”	100.00%	100.00%

Jiulong was established in 1993 and mainly engages in the production of integral power steering gear for heavy-duty vehicles.

Henglong was established in 1997 and mainly engages in the production of rack and pinion power steering gear for cars and light duty vehicles.

On March 31, 2008, the Company’s wholly-owned subsidiary, Genesis, and Wiselink Holdings Limited, “Wiselink”, both controlled by Hanlin Chen and his family, entered into an equity transfer agreement, the “Henglong Agreement”, pursuant to which Wiselink transferred and assigned its 35.5% equity interest in Jingzhou Henglong, one of the Company’s currently consolidated subsidiaries, to Genesis for a total consideration of US\$32,090,000. The Company now holds an 80% equity interest in Jingzhou Henglong.

Under the terms of the Henglong Agreement, Genesis is deemed to be the owner of Jingzhou Henglong commencing from January 1, 2008. The Henglong Acquisition is considered as a business combination of companies under common control and is being accounted for in a manner of pooling of interests.

Shenyang was established in 2002 and focuses on power steering parts for light duty vehicles.

Zhejiang was established in 2002 to focus on power steering pumps.

USAI was established in 2005 and mainly engages in production and sales of sensor modulars. In 2008, Genesis and Shanghai Hongxi Investment Inc., “Hongxi”, the other shareholder of USAI, agreed to increase USAI’s capital to \$2,600,000 from \$1,800,000. The increased capital was wholly funded by Genesis. Therefore, the capital contributed by Genesis in USAI increased to \$2,166,900 from \$1,366,900, accounting for 83.34% of the total capital; while the capital contributed by Hongxi remained unchanged, accounting for 16.66% of the total capital.

Jielong was established in 2006 and mainly engages in production and sales of electric power steering, “EPS”.

Wuhu was established in 2006 and mainly engages in production and sales of automobile steering systems.

Hengsheng was established in 2007 and mainly engages in production and sales of automobile steering systems.

2. Basis of Presentation and Significant Accounting Policies

Basis of Presentation - For the three months and six months ended June 30, 2009 and 2008, the accompanying unaudited consolidated financial statements include the accounts of the Company and its subsidiaries. The subsidiaries include eight Sino-foreign Joint-ventures mentioned in Note 1. Significant inter-company balances and transactions have been eliminated upon consolidation. The unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America.

Foreign Currencies - The Company maintains its books and records in Renminbi, "RMB", the currency of the PRC, its functional currency. Foreign currency transactions in RMB are reflected using the temporal method. Under this method, all monetary items are translated into the functional currency at the rate of exchange prevailing at the balance sheet date. Non-monetary items are translated at historical rates. Income and expenses are translated at the rate in effect on the transaction dates. Transaction gains and losses, if any, are included in the determination of net income for the period.

In translating the financial statements of the Company from its functional currency into its reporting currency in United States dollars, balance sheet accounts are translated using the closing exchange rate in effect at the balance sheet date and income and expense accounts are translated using an average exchange rate prevailing during the reporting period. Adjustments resulting from the translation, if any, are included in cumulative other comprehensive income (loss) in stockholders' equity.

Income Per Share - Basic income per share is calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted income per share is calculated based on the treasury stock method, assuming the issuance of common shares, if dilutive, resulting from the exercise of warrants. The dilutive effect of convertible securities is reflected in diluted earnings per share by application of the "if converted" method.

The calculations of diluted income per share were:

	Three Months Ended June 30,	
	2009	2008
Numerator:		
Net income attributable to common shareholders	\$ 6,076,349	\$ 4,744,355
Add: interest expenses of convertible notes payable	262,500	262,500
Add: Amortization for discount of convertible notes payable	384,638	81,879
	\$ 6,723,487	\$ 5,088,734
Denominator:		
Weighted average shares outstanding	26,983,244	24,880,071
Effect of dilutive securities	4,483,158	3,954,309
	31,466,402	28,834,380
Net income per common share- diluted	\$ 0.21	\$ 0.18

	Six Months Ended June 30,	
	2009	2008
Numerator:		
Net income attributable to common shareholders	\$ 8,335,161	\$ 9,174,529
Add: interest expenses of convertible notes payable	546,875	393,750
Add: Amortization for discount of convertible notes payable	506,985	181,328
	\$ 9,389,021	\$ 9,749,607
Denominator:		
Weighted average shares outstanding	26,983,244	24,422,429
Effect of dilutive securities	4,736,233	2,971,963
	31,719,477	27,394,392
Net income per common share- diluted	\$ 0.29	\$ 0.36

During the three months and six months ended June 30, 2009, the options and warrants outstanding have not been included in the computation of diluted income per share, except the 298,850 options issued on December 10, 2008, because such inclusion would have had an anti-dilutive effect. The shares issuable upon conversion of Convertible Notes have been included in the computation.

Stock-Based Compensation - The Company may periodically issue shares of common stock for services rendered or for financing costs. Such shares will be valued based on the market price on the transaction date. The Company may periodically issue stock options to employees and stock options or warrants to non-employees in non-capital raising transactions for services and for financing costs.

In July 2004, the Company adopted a stock incentive plan. The maximum number of common shares for issuance under this plan is 2,200,000 with a period of 10 years. The stock incentive plan provides for the issuance, to the Company's officers, directors, management and employees, of options to purchase shares of the Company's common stock. Since the adoption of the stock incentive plan, the Company has issued 411,350 stock options under this plan, and there remain 1,788,650 stock options issuable in the future. As of June 30, 2009, the Company had 388,850 stock options outstanding.

The Company has adopted Statement of Financial Accounting Standards ("SFAS") No. 123R, "Accounting for Stock-Based Compensation", which establishes a fair value method of accounting for stock-based compensation plans. In accordance with SFAS No. 123R, the cost of stock options and warrants issued to employees and non-employees is measured on the grant date based on the fair value. The fair value is determined using the Black-Scholes option pricing model. The resulting amount is charged to expense on the straight-line basis over the period in which the Company expects to receive benefit, which is generally the vesting period.

Comprehensive Income - The Company has adopted the provisions of Statement of Financial Accounting Standards No. 130, "Reporting Comprehensive Income" ("SFAS No. 130"). SFAS No. 130 establishes standards for the reporting and display of comprehensive income, its components and accumulated balances in a full set of general purpose financial statements. SFAS No. 130 defines comprehensive income to include all changes in equity except those resulting from investments by owners and distributions to owners, including adjustments to minimum pension liabilities, accumulated foreign currency translation, and unrealized gains or losses on marketable securities.

Estimation - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Financial instruments - Derivative financial instruments, as defined in Financial Accounting Standard No. 133, Accounting for Derivative Financial Instruments and Hedging Activities (FAS 133), consist of financial instruments or other contracts that contain a notional amount and one or more underlying, e.g. interest rate, security price or other variable, require no initial net investment and permit net settlement. Derivative financial instruments may be free-standing or embedded in other financial instruments. Further, derivative financial instruments are initially, and subsequently, measured at fair value and recorded as liabilities or, in rare instances, assets.

The Company generally does not use derivative financial instruments to hedge exposures to cash-flow, market or foreign-currency risks. However, the Company has entered into certain other financial instruments and contracts, such as debt financing arrangements that embody features that are either (i) not afforded equity classification, (ii) embody risks not clearly and closely related to host contracts, or (iii) may be net-cash settled by the counterparty. As required by FAS 133, these instruments are required to be carried as derivative liabilities, at fair value, in the Company's financial statements.

Registration Payment Arrangements - The Company has entered into registration payment arrangements with certain investors that provide for the payment of damages for failures to register common shares underlying the investor's financial instruments. FASB Staff Position 00-19-2, Accounting for Registration Payment Arrangements, provides for the exclusion of registration payments, such as the liquidated damages, from the consideration of classification of financial instruments. Rather, such registration payments would be accounted for pursuant to Financial Accounting Standard No. 5 Accounting for Contingencies, which is the Company's current accounting practice. That is, all registration payments will require recognition when they are both probable and reasonably estimable. The Company does not currently believe that damages are probable.

Fair Value Measurements - Effective January 1, 2008, the Company adopted the provisions of FAS 157, Fair Value Measurements, except as it applies to those nonfinancial assets and nonfinancial liabilities as noted in proposed FSP FAS 157-b. The partial adoption of FAS 157 did not have a material impact on the Company's consolidated financial position, results of operations or cash flows. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This statement does not require any new fair value measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information. In February 2008, the FASB issued FASB Staff Position ("FSP") 157-2, Effective Date of FASB Statement No. 157, which delays the effective date of SFAS No. 157 for all nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually).

Noncontrolling Interests in Consolidated Financial Statements - In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements-reported in equity", which was effective for the fiscal year beginning on or after December 15, 2008. The objective of SFAS No. 160 is to improve the relevance, comparability and transparency of the financial information that a reporting entity provides in its consolidated financial statements by establishing additional accounting and reporting standards. Effective January 1, 2009, the Company adopted the provisions of SFAS No. 160, the noncontrolling interests are reported in the equity currently.

Comments - The accompanying interim condensed consolidated financial statements are unaudited, but in the opinion of the Company's management, contain all adjustments, which include normal recurring adjustments, necessary to present fairly the financial position, the results of operations and cash flows for the six months ended June 30, 2009 and 2008 respectively.

The consolidated balance sheet as of December 31, 2008 is derived from the Company's audited financial statements.

Certain information and footnote disclosures normally included in financial statements that have been prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission, although the Company's management believes that the disclosures contained in these financial statements are adequate to make the information presented therein not misleading. For further information, refer to the financial statements and the notes thereto included in the Company's 2008 Annual Report on Form 10-K, as filed with the Securities and Exchange Commission.

The results of operations for the six months ended June 30, 2009 are not necessarily indicative of the results of operations to be expected for the full fiscal year ending December 31, 2009.

3. Pledged cash deposits

Pledged as guarantee for its notes payable, the Company regularly pays some of its suppliers by bank notes. The Company has to deposit a cash deposit, equivalent to 10%- 40% of the face value of the relevant bank note, at a bank in order to obtain the bank note.

4. Accounts and notes receivable

The Company's accounts receivable at June 30, 2009 (unaudited) and December 31, 2008 are summarized as follows:

	June 30, 2009	December 31, 2008
Accounts receivable	\$ 84,268,008	\$ 60,345,494

9. Deferred Income Tax Assets

Deferred income taxes are provided for temporary differences between amounts of assets and liabilities for financial reporting purposes and the basis of such assets and liabilities as measured by tax laws and regulations, as well as net operating loss, tax credit and other carryforwards. Additionally, deferred taxes have been provided for the purpose of repatriating earnings from consolidated foreign subsidiaries. Statement of Financial Accounting Standards No. 109 ("SFAS 109"), "Accounting for Income Taxes," requires that deferred tax assets be reduced by a valuation allowance if, based on all available evidence, it is considered more likely than not that some portion or all of the recorded deferred tax assets will not be realized in future periods.

The components of estimated deferred income tax assets at June 30, 2009 (unaudited) and December 31, 2008 were as follows:

	June 30, 2009	December 31, 2008
Losses carryforward (U.S.)	\$ 3,843,496	\$ 2,300,322

Valuation allowance *	(6,552,142)	(4,864,866)
Total deferred tax assets	\$ 2,637,462	\$ 2,383,065

*As of June 30, 2009, valuation allowance was \$6,552,142, including \$3,843,496 and \$2,708,646 allowance for the Company's deferred tax assets in the U.S. and allowance for the Company's non-U.S. deferred tax assets. As of December 31, 2008, valuation allowance was \$4,864,866, including \$2,300,322 allowance for the Company's deferred tax assets in the U.S. and \$2,564,544 allowance for the Company's non-U.S. deferred tax assets. Based on the Company's current operations in the U.S., the management believes that the deferred tax assets in the U.S. are not likely to be realized in the future. For the non-U.S. deferred tax assets, pursuant to certain tax laws and regulations in China, the management believes such amount will not be utilized to offset future taxable income.

10. Bank loans

At June 30, 2009, the Company, through its Sino-foreign joint ventures, had outstanding fixed-rate short-term bank loans of \$8,782,330, with weighted average interest rate at 5.64% per annum. These loans are secured with some of the property and equipment of the Company, and are repayable within one year.

At December 31, 2008, the Company, through its Sino-foreign joint ventures, had outstanding fixed-rate short-term bank loans of \$7,315,717, with weighted average interest rate at 6.17% per annum. These loans are secured with some of the property and equipment of the Company and are repayable within one year.

11. Accounts and notes payable

The Company's accounts and notes payable at June 30, 2009 (unaudited) and December 31, 2008 are summarized as follows:

	June 30, 2009	December 31, 2008
Accounts payable	\$ 54,780,624	\$ 38,595,446
Notes payable	24,132,438	20,650,597
Balance at the end of the period	\$ 78,913,062	\$ 59,246,043

Notes payable represent accounts payable in the form of bills of exchange whose acceptances and settlements are handled by banks.

The Company has pledged cash deposits, notes receivable and certain property plant and machinery to secure trade financing granted by banks.

12. Convertible notes payable

In February 2008, the Company sold to two accredited institutional investors \$35 million of convertible notes, the "Convertible Notes", with a scheduled maturity date of February 15, 2013. The Convertible Notes, including any accrued but unpaid interest, are convertible into common shares of the Company at a conversion price of \$8.8527 per share, subject to adjustment upon the occurrence of certain events.

The Convertible Notes bear annual interest rates of 3%, 3.5%, 4%, 4.5% and 5% for each year of 2008, 2009, 2010, 2011 and 2012. The interest on the Convertible Notes shall be computed commencing from the issuance date and will be payable in cash in arrears semi-annually on January 15, and July 15 of each year with the first interest payable date being July 15, 2008. From and after the occurrence and during the continuance of an Event of Default defined in the relevant Convertible Note agreements, the interest rate then in effect shall be increased by two percent (2%) until the event of default is remedied.

The holders of the Convertible Notes will be entitled to convert any portion of the conversion amount into shares of common stock at the conversion price at any time or times on or after the thirtieth (30th) day after the issuance date and prior to the thirtieth (30th) Business Day prior to the expiry date of the Convertible Notes. A damage penalty will be paid if share certificates are not delivered timely after any conversion.

The Company will have the right to require the Convertible Note holders to convert all or any portion of the conversion amount then remaining under the Convertible Note obligation into shares of common stock, "Mandatory Conversion", if at any time during a six-month period, the beginning day of each such six-month period, a "Mandatory Conversion Period Start Date", the arithmetic average of the weighted average price of the common stock for a period of at least thirty (30) consecutive trading days following the Mandatory Conversion Period Start Date equals or exceeds the percentage of \$8.8527 set forth in the chart below as applicable to the indicated six month period:

0-6 months:	125%
6-12 months:	125%
12-18 months:	135%
18-24 months:	135%
24-30 months:	145%
30-36 months:	145%
36-42 months:	155%
42-48 months:	155%

On each six month anniversary of the issuance date beginning August 15, 2008, the conversion price will be adjusted downward to the Reset Reference Price, as defined below, if the weighted average price for the twenty (20) consecutive trading days immediately prior to the applicable six month anniversary, the "Reset Reference Price", is less than 95% of the conversion price in effect as of such applicable six month anniversary date. The foregoing notwithstanding, the conversion price will not be reduced via such reset provision to less than \$7.0822. The conversion price is also subject to weighted-average antidilution adjustments, but in no event will the conversion price be reduced to less than \$6.7417. If and whenever on or after the issuance date, the Company issues or sells its shares of Common Stock or other convertible securities, except for certain defined exempt issuances, for a consideration per share less than a price equal to the conversion price in effect on the issuance date immediately prior to such issue or sale, the original conversion price then in effect shall be adjusted by a weighted-average antidilution formula, but in no event to a new conversion price less than \$6.4717.

The Company will not effect any conversion of the Convertible Notes, and each holder of the Convertible Notes will not have the right to convert any portion of the Convertible Notes to the extent that after giving effect to such conversion, such holders would beneficially own in excess of 4.99% of the number of shares of Common Stock outstanding immediately after giving effect to such conversion.

The Company will not effect a Mandatory Conversion of more than twelve percent (12%) of the original principal amount of the Convertible Notes, with the applicable accrued but unpaid interest, in any six month period or twenty-four percent (24%) of the original principal amount of the Convertible Notes, with the applicable accrued but unpaid interest, in any twelve (12) month period.

Upon the occurrence of an event of default with respect to the Convertible Notes, the Convertible Note holders may require the Company to redeem all or any portion of the Convertible Notes. Each portion of the Convertible Notes subject to redemption by the Company will be redeemed by the Company at a price equal to the sum of (i) the conversion amount to be redeemed and (ii) the Other Make Whole Amount. The "Other Make Whole Amount" will mean a premium to the conversion amount such that the total amount received by the Convertible Note holder upon redemption represents a gross yield to the Convertible Note holders on the original principal amount as of the redemption date equal to thirteen percent (13%), with interest computed on the basis of actual number of days elapsed over a 360-day year. The events of default includes the Company's failure to cure a conversion failure by delivery of the required number of shares of Common Stock, the Company's failure to pay to the Convertible Note holder any amount of principal, interest, late charges or other amounts when and as due under the Convertible Notes and other events as defined in the Convertible Note agreements.

Upon the consummation of a change of control as defined in the Convertible Note agreements, the Convertible Note holder may require the Company to redeem all or any portion of the Convertible Notes. The portion of the Convertible Notes subject to redemption shall be redeemed by the Company in cash at a price equal to the sum of the conversion amount of being redeemed and the Other Make Whole Amount as defined above.

On each of February 15, 2010 and February 15, 2011, the Convertible Note holders will have the right, in their sole discretion, to require that the Company redeem the Convertible Notes in whole but not in part, by delivering written notice thereof to the Company. The portion of this Convertible Note subject to redemption pursuant to this annual redemption right will be redeemed by the Company in cash at a price equal to the sum of the conversion amount being redeemed and the Annual Redemption Make Whole Amount. The "Annual Redemption Make Whole Amount" will mean a premium to the conversion amount such that the total amount received by the Convertible Note holder upon any annual redemption represents a gross yield on the original principal amount of eleven percent (11%), with interest computed on the basis of actual number of days elapsed over a 360-day year.

In the event that the Company has not completed the necessary filings to list the conversion shares on its principal market by the date that is ninety (90) days after the issuance date or has not so listed the conversion shares by the date that is ninety (90) days after the issuance date or the shares of the Company's common stock are terminated from registration under the Securities Act of 1933, the Convertible Note holders will have the right, in its sole discretion, to require that the Company redeem all or any portion of the Convertible Notes. The portion of the Convertible Notes subject to redemption in connection with this listing default will be redeemed by the Company in cash at a price equal to the sum of the conversion amount being redeemed and the Other Make Whole Amount as mentioned above.

At any time following February 15, 2009, if the Weighted Average Price (WAP) for twenty (20) consecutive trading days is less than 45% of the Conversion Price in effect on the Issuance Date, as adjusted, namely \$3.187, the Convertible Note holder shall have the right, in its sole discretion, to require that the Company redeem all or any portion of the Convertible Notes. The portion of this Convertible Note subject to redemption in connection with the share price change of the underlying common stock will be redeemed by the Company in cash at a price equal to the sum of the conversion amount being redeemed and the Other Make Whole Amount as mentioned above.

Since the Company's stock Weighted Average Price for twenty (20) consecutive trading days ended on March 16, 2009 was below \$3.187, which is less than 45% of the Conversion Price in effect of the Issuance Date, as adjusted, the "WAP Default", each Convertible Note holder shall have the right, at its sole discretion, to require that the Company redeem all or any portion of the Convertible Notes by delivering written redemption notice to the Company within five (5) business days after the receipt of the Company's notice of the WAP Default.

On March 17, 2009, the Company delivered two WAP Default notices to the Convertible Note holders. On March 27, 2009, the Company received a letter from YA Global, one of the Convertible Note holders, electing to require the Company to redeem all the three Convertible Notes it held in the total principal amount of \$5,000,000, together with interest, late charges, if any, and the Other Make Whole Amount as defined in Section 5(d) of the Convertible Notes. After negotiation, the Company and YA Global reached a settlement agreement on April 8, 2009 whereby the Company would pay a redemption amount of \$5,041,667 to YA Global and YA Global waived its entitlement to the Other Make Whole Amount. Under the terms of the settlement agreement, on April 15, 2009, the Company paid YA Global \$5,041,667 for the total principal amount, together with interest and late charges, if any. YA Global has waived its entitlement to the Other Make Whole Amount.

Following the WAP Default notices, the Company received a letter from the provisional liquidator acting on behalf of Lehman Brothers Commercial Corporation Asia Limited, the "LBCCA Liquidator", the other Convertible Note holder, requesting that it be granted an extension of time until April 24, 2009 to consider its rights under the Convertible Notes. The Company has granted an extension to April 15, 2009. The LBCCA Liquidator further requested another extension to April 24, 2009. On April 24, 2009, LBCCA's lawyers sent three Holder Redemption Notices via fax electing to redeem the entire outstanding principal of \$30,000,000, together with interest, late charges, if any, and the Other Make Whole Amount, to be paid on July 23, 2009. The Company has discussed settlement with the LBCCA Liquidator, and on or about July 22, 2009, the Company and the LBCCA Liquidator reached an agreement to extend the applicable holder mandatory redemption date for two months from July 23, 2009 to September 23, 2009 in order to give more time to the Company and the LBCCA Liquidator to pursue settlement discussion.

In connection with the Convertible Notes, the Company issued 1,317,864 detachable warrants, the "Warrants," to purchase from the Company shares of common stock of the Company at the exercise price of \$8.8527 per share. The Warrants are exercisable immediately and expired on February 15, 2009. The Warrants require net cash settlement in the event that there is a fundamental transaction, contractually defined as a merger, sale of substantially all assets, tender offer or share exchange. Due to this contingent redemption provision, the warrants require liability classification under SFAS 150 and must be recorded at fair value each reporting period. As of the issuance date, i.e., February 15, 2008, the fair value of warrants was \$798,626, which was determined using the Black-Scholes option pricing model.

The Company has evaluated the convertible notes for terms and conditions that are not clearly and closely associated with the risks of the debt-type host instrument. Generally, such features require separation from the host contract and treatment as derivative financial instruments. Certain features, such as the conversion option, were found to be exempt. Other features, such as puts and redemption features, were found to require bifurcation and recognition as derivative liabilities. These derivative liabilities are recognized initially at fair value, using forward cash-flow valuation techniques. As of February 15, 2008, the compound derivative value amounted to \$1,703,962. This derivative will be adjusted to its estimated fair value at the completion of each reporting period until the debt arrangement is ultimately settled, converted or paid.

When a financial instrument contains embedded derivatives that require bifurcation, such as the redemption put, and freestanding instruments that are recorded at fair value each period, such as the warrants, the accounting is to record the embedded derivative and the freestanding instruments at fair value on inception and the residual proceeds are allocated to the debt instrument. Based on this premise, upon inception of the debt instruments, the Company recorded the redemption put at fair value \$1,703,962 and the Company recorded the warrants at fair value \$798,626. The remaining proceeds were then allocated to the debt instrument.

As indicated above, according to the terms of the convertible notes, the conversion price was reset to \$7.0822 as of August 15, 2008 based on the weighted average price of the stock on that date. In accordance with EITF 00-27, a contingency feature that cannot be measured at inception of the instrument, should be recorded when the contingent event occurs. Therefore, on the date of the reset, the difference in the number of indexed shares prior to the reset was compared to the indexed shares subsequent to the reset and this incremental number of shares was multiplied by the commitment date stock price to determine the incremental intrinsic value that resulted from the adjustment to the conversion price. This difference was recorded in equity as a beneficial conversion feature ("BCF") and the related discount reduced the carrying value of the note and is being amortized over the remaining life of the instrument.

The Financing Agreements embody a contingent conversion feature (reset conversion price). EITF 98-5 provides that the beneficial conversion feature, if any, embodied in a convertible debt instrument requires recognition and reclassification to stockholders' equity in an amount "not to exceed" the financing basis. For purposes of calculating the beneficial conversion feature, EITF 00-27, provides that the contractual conversion rate should give effect to the allocation of proceeds to other financial instruments, as required by APB 14. Accordingly, the "effective" conversion rate is calculated as the basis allocated to the debt instruments divided by the number of indexed shares. The reset conversion price was a contingent conversion price that was not known at inception of the agreement. Under the guidance of EITF 98-5, the beneficial conversion feature should be recalculated once the contingent conversion feature is known. The reset conversion feature was determined to be \$7.0822 on August 15, 2008. The BCF was then calculated as if the reset amount was known at inception of the agreement in order to determine what the APB 14 allocation would have been using a conversion price of \$7.0822.

Issue 7 (EITF 00-27) states that "the number of shares that would be received upon conversion based on the adjusted conversion price would be compared to the number that would have been received prior to the occurrence of the contingent event. The excess number of shares multiplied by the commitment date stock price equals the incremental intrinsic value that results from the resolution of the contingency and the corresponding adjustment to the conversion price." The guidance in Issue 7 does not specify whether the contingent BCF should only be calculated if the contingent conversion feature is below the market price of the stock and would have intrinsic value. The Company is of an opinion that the Issue 7 approach was not intended to override the intrinsic value method addressed in EITF Topic D-60, EITF 98-5 and EITF 00-27, and that the BCF should be calculated as the intrinsic spread between the adjusted effective conversion price and the market price at the commitment date.

As of August 15, 2008, the number of indexed shares was 3,953,596 and 4,941,967 at the inception conversion price and reset conversion price, respectively. At the commitment date, the stock price was \$6.09, and the “effective” conversion price was \$6.93. Accordingly, since the effective conversion price is higher than the market value of the stock, the debt instruments are not considered “in the money” and no beneficial conversion feature is present.

On the date of inception, allocation of basis in the financing arrangement to the warrants and derivative liability has resulted in an original issue discount to the face value of the convertible notes in the amount of \$2,502,588, which amount is subject to amortization over the Convertible Note’s term using the effective method. As of June 30, 2009, the amortization expense balance recorded by the Company was \$931,650, including unamortized discount on the YA Global convertible note \$276,448, which has been written off after its redemption. As the YA Global convertible note has been elected by its holder to be redeemed, the unamortized discount on the convertible note has been written off as expense on the redemption date.

13. Derivative liabilities

The Company has evaluated the convertible notes for terms and conditions that are not clearly and closely associated with the risks of the debt-type host instrument (see Note 12). Generally, such features require separation from the host contract and treatment as derivative financial instruments. Certain features, such as the conversion option, were found to be exempt. Other features, such as puts and redemption features were found to require bifurcation and recognition as derivative liabilities. These derivative liabilities are recognized initially at fair value, using forward cash-flow valuation techniques. As of February 15, 2008, the compound derivative value amounted to \$1,703,962. This derivative will be adjusted to its estimated fair value at the completion of each reporting period until the debt arrangement is ultimately settled, converted or paid. As of June 30, 2009, the compound derivative value amounted to \$4,042,857. The income from adjustment of fair value of compound derivative has been recorded in the income statement as gain or loss on change in fair value of derivative. (See note 12 and 24)

14. Accrued expenses and other payables

The Company’s accrued expenses and other payables at June 30, 2009 (unaudited) and December 31, 2008 are summarized as follows:

	June 30, 2009	December 31, 2008
Accrued expenses	\$ 2,866,016	\$ 2,441,352
Other payables	1,553,456	1,690,046

Liabilities in connection with warrants**	-	1,977
Balance at the end of the period	\$ 13,312,169	\$ 12,460,784

*The Company provides for the estimated cost of product warranties when the products are sold. Such estimates of product warranties were based on, among other things, historical experience, product changes, material expenses, service and transportation expenses arising from the manufactured product. Estimates will be adjusted on the basis of actual claims and circumstances.

For the six months ended June 30, 2009 (unaudited) and the year ended December 31, 2008, the warranties activities were as follows:

	June 30, 2009	December 31, 2008
Balance at the beginning of period	\$ 6,335,613	\$ 4,919,491
Additions during the period-	3,490,290	5,861,782
Settlement within period, by cash or actual material	(2,240,620)	(4,797,457)
Foreign currency translation gain	2,882	351,797
Balance at end of period	\$ 7,588,165	\$ 6,335,613

**In connection with the Convertible Notes, the Company issued 1,317,864 of detachable warrants, "Warrants," to purchase from the Company shares of common stock at the exercise price of \$8.8527 per share, subject to adjustments upon certain events occurring. The Warrants are exercisable immediately and expired on February 15, 2009.

The exercise price or the number of shares to be converted by the Warrant will be adjusted in the event of no effective Registration Statement or delayed effectiveness of the Registration Statement. In addition, a damage penalty will be paid if the delivery of share certificates occurs upon the Warrants conversion.

The Company will not effect any conversion of a Warrant, and each holder of any Warrant will not have the right to convert any portion of such Warrant to the extent that after giving effect to such conversion, each of these two holders would beneficially own in excess of 4.99% of the number of shares of Common Stock outstanding immediately after giving effect to such conversion.

If and whenever on or after the issuance date, the Company issues or sells its shares of common stock or other convertible securities for a consideration per share less than a price equal to the exercise price of a Warrant in effect on the issuance date immediately prior to such issue or sale, the exercise price of such Warrant then in effect will be adjusted.

The warrants issued in connection with the financial arrangement were derivative instruments. The warrants require net cash settlement in the event that there is a fundamental transaction, contractually defined as a merger, sale of substantially all assets, tender offer or share exchange.

As a result of FASB Staff Position (FSP) FAS 150-5, it appears that the warrants require liability classification due to the possible cash redemption upon the event of an all cash acquisition. The FSP clarifies that warrants that contain any redemption features, including contingent redemption features, must be recorded as liabilities and marked to fair value each reporting period. As of the issuance date, i.e., February 15, 2008, the fair value of warrants was \$798,626. Such warrant liabilities will be adjusted to its estimated fair value at the completion of each reporting period until the maturity of February 15, 2009.

The warrant agreements contain strike price adjustment provisions. In accordance with Section 8(iii), if the rate at which any Convertible Instruments are convertible into changes at any time, the warrant exercise price in effect at the time of the change will be adjusted based on the formula provided in Section 8(a) of the warrant agreement. Accordingly, the warrants will be valued at the exercise price of \$8.55 as of August 15, 2008 and thereafter.

As of August 15, 2008, the Company valued the warrant using conversion price at inception and reset respectively. The fair value of the warrant is \$489,719 at the inception conversion price of \$8.8527, and \$551,131 at the reset conversion price of \$8.5500, respectively. Such difference resulting from using the reset conversion price has increased warrant liabilities by \$61,412.

As of June 30, 2009, the fair value of warrant was \$0 because it was not exercised on its expiration date, February 15, 2009. The income from adjustment of fair value of liabilities in connection with warrants amount of gain has been recorded in the income statement as gain or loss on change in fair value of derivative. (see note 24)

15. Accrued pension costs

Since the Company's operations are all located in China, all the employees are located in China. The Company records pension costs and various employment benefits in accordance with the relevant Chinese social security laws, which is substantially based on a total of 31% of base salary as required by local governments. Base salary levels are the average salary determined by the local governments.

The activities in the Company's pension account during the six months ended June 30, 2009 (unaudited) and the year ended December 31, 2008 are summarized as follows:

	June 30, 2009	December 31, 2008
Balance at beginning of the period	\$ 3,806,519	\$ 3,622,729
Amounts provided during the period	1,304,012	2,311,049

16. Taxes payable

The Company's taxes payable at June 30, 2009 (unaudited) and December 31, 2008 are summarized as follows:

	June 30, 2009	December 31, 2008
Value-added tax payable	\$ 7,212,380	\$ 6,279,089
Income tax payable	1,325,852	(652,865)
Other tax payable	85,528	91,214
Balance at end of the period	\$ 8,623,760	\$ 5,717,438

17. Amounts due to shareholders/ directors

The activities in the amounts due to shareholders/directors at June 30, 2009 (unaudited) and December 31, 2008 are summarized as follows:

	June 30, 2009	December 31, 2008
Balance at the beginning of period	\$ 337,370	\$ 304,601
Increase during the period	226,717	2,415
Foreign currency translation gain	203	30,354
Balance at end of period	\$ 564,290	\$ 337,370

The amounts due to shareholders/directors were unsecured, interest-free and repayable on demand.

18. Advances payable

The amounts mainly represent advances made by the Chinese government to the Company as subsidy on interest on loans related to production facilities expansion.

The balances are unsecured, interest-free and will be repayable to the Chinese government if the usage of such advance does not continue to qualify for the subsidy (see notes 22).

19. Share Capital and Additional paid-in capital

The activities in the Company's share capital and additional paid-in capital account during the six months ended June 30, 2009 (unaudited) and the year ended December 31, 2008 are summarized as follows:

	Share Capital		Additional paid-in capital

* On March 31, 2008, Wiselink Holdings Limited, "Wiselink", Great Genesis Holdings Limited, "Genesis", a wholly-owned subsidiary of China Automotive Systems, Inc., "the Company" and other parties entered into an equity transfer transaction, the "Acquisition", documented by an Equity Transfer Agreement, the "Agreement", pursuant to which Wiselink agreed to transfer and assign a 35.5% equity interest in Jingzhou Henglong Automotive Parts Co. Ltd., "Henglong" to Genesis for a total consideration of \$32,090,000, the "Consideration".

Under the terms of the Agreement, the Consideration is to be paid as follows: \$10,000,000 cash was paid by Genesis to Wiselink on April 30, 2008, and the balance of the purchase price (\$22,090,000) was paid by issuance of 3,023,542 shares of common stock of the Registrant, in its capacity as the 100% parent company of Genesis.

** Under the terms of the above agreement, Genesis is deemed to be the owner of the equity concerned commencing from January 1, 2008. In accordance with FASB 141 and APB 14, the above acquisition is considered as a business combination of companies under common control and is being accounted for in a manner similar to that of pooling of interests.

On April 22 and June 30, 2008, the Company issued 1,170,000 and 1,853,542 shares of common stock, respectively, at an issuance price of \$7.3060, par value of \$0.0001. The difference between issuance price and par value was credited into additional paid-in capital.

As of January 1, 2008, the net book value of 35.5% equity of Henglong was \$6,177,079. The difference between the acquisition consideration of \$32,090,000 and 35.5% equity of Henglong, which was \$25,912,921, has been debited to additional paid-in capital.

*** In July 2004, the Company adopted a stock incentive plan. The maximum number of common shares for issuance under this plan is 2,200,000 with a period of 10 years. The stock incentive plan provides for the issuance, to the Company's officers, directors, management and employees, of options to purchase shares of the Company's common stock. Since the adoption of the stock incentive plan, the Company has issued 411,350 stock options under this plan, and there remain 1,788,650 stock options issuable in future. As of June 30, 2009, the Company had 388,850 stock options outstanding.

The Company issued 312,350 common stock options to independent directors and management, and the fair value of the options at the grant date was \$845,478, for the year of 2008, which was calculated based on Black-Scholes option pricing model. The fair value was credited in additional paid-in capital, debited in operating expenses using straight line method over the expected beneficiary period. As of June 30, 2009, the Company has amortized \$470,439 and the remaining 149,425 stock options, valued at \$375,039, are reflected as deferred stock compensation under shareholders' equity in the balance sheet.

20. Deferred stock compensation

The Company issued 312,350 common stock options to independent directors and management, and the fair value of the options at the grant date was \$845,478, for the year of 2008, which was calculated based on Black-Scholes option pricing model. As of June 30, 2009, the Company has amortized \$470,439 and the remaining 149,425 stock options, valued at \$375,039, are reflected as deferred stock compensation under shareholders' equity in the balance sheet.

21. Non-controlling interests

The Company's activities in respect of the amounts of the non-controlling interests' equity at June 30, 2009 (unaudited) and December 31, 2008 are summarized as follows:

	June 30, 2009	December 31, 2008
Balance at beginning of the period	\$ 23,222,566	\$ 23,166,270

* On March 31, 2008, the Company's wholly-owned subsidiary, Genesis and Wiselink, both controlled by Hanlin Chen and his family, entered into an equity transfer agreement, pursuant to which Wiselink agreed to transfer and assign its 35.5% equity interest in Jingzhou Henglong, one of the Company's currently consolidated subsidiaries, to Genesis for a total consideration of \$32,090,000.

Under the terms of the above agreement, Genesis is deemed to be the owner of the equity concerned commencing from January 1, 2008. In accordance with FASB 141 and APB 14, the acquisition is considered as a business combination of companies under common control and is being accounted for in a manner of pooling of interests.

On January 1, 2008, the net book value of 35.5% equity of Henglong, which was transferred from non-controlling shareholders, was \$6,177,079.

22. Other Income

During the three months and six months ended June 30, 2009, there was no other income in the Company. During the three months and six months ended June 30, 2008, other income was \$199,459, mainly from Government subsidies.

Government subsidies represent refunds by the Chinese Government of interest paid to banks by companies entitled to such subsidies. This applies only to interest on loans related to production facilities expansion. The Company recorded the refunded interest on projects which achieved their goals into Other income, and refunded interest on projects which have not achieved their goals into advances payable.

23. Financial income (expenses)

During the three months and six months ended June 30, 2009 (unaudited) and 2008, the Company recorded financial income (expenses) which is summarized as follows:

28. Commitments and contingencies

Legal Proceedings - The Company is not currently a party to any threatened or pending legal proceedings, other than incidental litigation arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

The following table summarizes the Company's major contractual payment obligations and commitments as of June 30, 2009 (unaudited):

	Payment Obligations by Period					
	2009 (a)	2010	2011	2012	Thereafter	Total

(a) Remaining 6 months in 2009

29. Off-balance sheet arrangements

At June 30, 2009 and 2008, the Company did not have any transactions, obligations or relationships that could be considered off-balance sheet arrangements.

30. Segment reporting

The accounting policies of the product sectors are the same as those described in the summary of significant accounting policies except that the disaggregated financial results for the product sectors have been prepared using a management approach, which is consistent with the basis and manner in which management internally disaggregates financial information for the purposes of assisting them in making internal operating decisions. Generally, the Company evaluates performance based on stand-alone product sector operating income and accounts for inter segment sales and transfers as if the sales or transfers were to third parties, at current market prices.

During the three months and six months ended June 30, 2009 and 2008 (unaudited), the Company had nine product sectors, five of them were principal profit makers, which were reported as separate sectors which engaged in the production and sales of power steering (Henglong), power steering (Jiulong), power steering (Shenyang), power pumps (Zhejiang), and power steering (Wuhu). The other four sectors which were established in 2005, 2006 and 2007 respectively, engaged in the production and sales of sensor modular (USAI), electronic power steering (Jielong), power steering (Hengsheng), and provider of after sales and R&D services (HLUSA). Since the revenues, net income and net assets of these four sectors are less than 10% of its segment in the consolidated financial statements, the Company incorporated these four sectors into “other sectors”.

The Company’s product sectors information is as follows:

ITEM 2.MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Statement Pursuant to Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995:

This Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2009 contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Generally, the words “believes”, “anticipates,” “may,” “will,” “should,” “expect,” “intend,” “estimate,” “continue,” and similar expressions or the negative thereof or comparable terminology are intended to identify forward-looking statements which include, but are not limited to, statements concerning the Company’s expectations regarding its working capital requirements, financing requirements, business prospects, and other statements of expectations, beliefs, future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts. Such statements are subject to certain risks and uncertainties, including the matters set forth in this Quarterly Report or other reports or documents the Company files with the Securities and Exchange Commission from time to time, which could cause actual results or outcomes to differ materially from those projected. Undue reliance should not be placed on these forward-looking statements which speak only as of the date hereof. The Company undertakes no obligation to update these forward-looking statements. In addition, the forward-looking statements in this Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2009 involve known and unknown risks, uncertainties and other factors that could cause the actual results, performance or achievements of the Company to differ materially from those expressed in or implied by the forward-looking statements contained herein. Please see the discussion on risk factors in Item 1A of Part II of this quarterly report on Form 10-Q.

GENERAL OVERVIEW:

China Automotive Systems, Inc., including, when the context so requires, its subsidiaries and the subsidiaries' interests in the Sino-foreign joint ventures described below, is referred to herein as the "Company". The Company, through its Sino-foreign joint ventures, engages in the manufacture and sales of automotive systems and components in the People's Republic of China, the "PRC" or "China", as described below.

Great Genesis Holdings Limited, a company incorporated on January 3, 2003 under The Companies Ordinance in Hong Kong as a limited liability company, "Genesis", is a wholly-owned subsidiary of the Company.

Henglong USA Corporation, "HLUSA", incorporated on January 8, 2007 in Troy, Michigan, is a wholly-owned subsidiary of the Company, and mainly engages in marketing of automotive parts in North America, and provides after sales service and research and development support accordingly.

The Company owns the following aggregate net interests in eight Sino-foreign joint ventures organized in the PRC as of June 30, 2009 and 2008.

Name of Entity	Percentage Interest	
	June 30, 2009	June 30, 2008
Shashi Jiulong Power Steering Gears Co., Ltd., "Jiulong"	81.00%	81.00%
Jingzhou Henglong Automotive Parts Co., Ltd., "Henglong"	80.00%	80.00%
Shenyang Jinbei Henglong Automotive Steering System Co., Ltd., "Shenyang"	70.00%	70.00%
Zhejiang Henglong & Vie Pump-Manu Co., Ltd., "Zhejiang"	51.00%	51.00%
Universal Sensor Application Inc., "USAI"	83.34%	75.90%
Wuhan Jielong Electric Power Steering Co., Ltd., "Jielong"	85.00%	85.00%
Wuhu HengLong Automotive Steering System Co., Ltd., "Wuhu"	77.33%	77.33%
Jingzhou Hengsheng Automotive System Co., Ltd, "Hengsheng"	100.00%	100.00%

Jiulong was established in 1993 and mainly engages in the production of integral power steering gear for heavy-duty vehicles.

Henglong was established in 1997 and mainly engages in the production of rack and pinion power steering gear for cars and light duty vehicles.

On March 31, 2008, the Company's wholly-owned subsidiary, Genesis, and Wiselink Holdings Limited, "Wiselink", both controlled by Hanlin Chen and his family, entered into an equity transfer agreement, the "Henglong Agreement", pursuant to which Wiselink agreed to transfer and assign its 35.5% equity interest in Jingzhou Henglong, one of the Company's currently consolidated subsidiaries, to Genesis for a total consideration of US\$32,090,000. The Company now holds an 80% equity interest in Jingzhou Henglong.

Under the terms of the Henglong Agreement, Genesis is deemed to be the owner of Jingzhou Henglong commencing from January 1, 2008. The Henglong Acquisition is considered as a business combination of companies under common control and is being accounted for in a manner of pooling of interests.

Shenyang was established in 2002 and focuses on power steering parts for light duty vehicles.

Zhejiang was established in 2002 to focus on power steering pumps.

USAI was established in 2005 and mainly engages in production and sales of sensor modulars. In 2008, Genesis and Shanghai Hongxi Investment Inc., "Hongxi", the other shareholder of USAI, agreed to increase USAI's capital to \$2,600,000 from \$1,800,000. The increased capital was wholly funded by Genesis. Therefore, the capital contributed by Genesis in USAI increased to \$2,166,900 from \$1,366,900, accounting for 83.34% of the total capital; while the capital contributed by Hongxi remained unchanged, accounting for 16.66% of the total capital.

Jielong was established in 2006 and mainly engages in production and sales of electric power steering, "EPS".

Wuhu was established in 2006 and mainly engages in production and sales of automobile steering systems.

Hengsheng was established in 2007 and mainly engages in production and sales of automobile steering systems.

CRITICAL ACCOUNTING POLICIES:

The Company prepares its condensed consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Management periodically evaluates the estimates and judgments made. Management bases its estimates and judgments on historical experience and on various factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates as a result of different assumptions or conditions. The following critical accounting policies affect the more significant judgments and estimates used in the preparation of the Company's condensed consolidated financial statements.

The Company considers an accounting estimate to be critical if:

- It requires the Company to make assumptions about matters that were uncertain at the time the Company was making the estimate, and
- Changes in the estimate or different estimates that the Company could have selected would have had a material impact on its financial condition or results of operations.

The table below presents information about the nature and rationale for the Company critical accounting estimates:

Balance Sheet Caption	Critical Estimate Item	Nature of Estimates Required	Assumptions/Approaches Used	Key Factors
Accrued liabilities and other long-term liabilities	Warranty Obligations	Estimating warranty requires the Company to forecast the resolution of existing claims and expected future claims on products sold. VMs are increasingly seeking to hold suppliers responsible for product warranties, which may impact the Company's exposure to these costs.	The Company bases its estimate on historical trends of units sold and payment amounts, combined with its current understanding of the status of existing claims and discussions with its customers.	<ul style="list-style-type: none"> • VM (Vehicle Manufacturer) sourcing • VM policy decisions regarding warranty claims VMs
Property, plant and equipment, intangible assets and other long-term assets	Valuation of long-lived assets and investments	The Company is required from time-to-time to review the recoverability of certain of its assets based on projections of anticipated future cash flows, including future profitability assessments of various product lines.	The Company estimates cash flows using internal budgets based on recent sales data, independent automotive production volume estimates and customer commitments.	<ul style="list-style-type: none"> • Future Production estimates • Customer preferences and decisions
Accounts and notes receivables	Provision for doubtful accounts and notes receivable	Estimating the provision for doubtful accounts and notes receivable require the Company to analyze and monitor each customer's credit standing and financial condition regularly. The Company grants credit to its customers, generally on an open account basis. It will have material adverse effect on the Company's cost disclosure if such assessment were improper.	The Company grants credit to its customers for three to four months based on each customer's current credit standing and financial data. The Company assesses an allowance on an individual customer basis, under normal circumstances; the Company does not record any provision for doubtful accounts for those accounts receivable amounts which were in credit terms. For those receivables out of	<ul style="list-style-type: none"> • Customers' credit standing and financial condition

credit terms, certain proportional provision, namely 25% to 100%, will be recorded based on respective overdue terms.

Deferred income taxes	Recoverability of deferred tax assets	The Company is required to estimate whether recoverability of the Company's deferred tax assets is more likely than not based on forecasts of taxable earnings in the related tax jurisdiction.	The Company uses historical and projected future operating results, based upon approved business plans, including a review of the eligible carryforward period, tax planning opportunities and other relevant considerations.	<ul style="list-style-type: none">• Tax law changes• Variances in future projected profitability, including by taxing entity
-----------------------	---------------------------------------	---	---	---

In addition, there are other items within the Company's financial statements that require estimation, but are not as critical as those discussed above. These include the allowance for reserves for excess and obsolete inventory. Although not significant in recent years, changes in estimates used in these and other items could have a significant effect on the Company's consolidated financial statements.

THREE MONTHS ENDED JUNE 30, 2009 AND 2008:

NET SALES:

Net sales were \$62,484,279 for the three months ended June 30, 2009, as compared to \$46,508,340 for the three months ended June 30, 2008, an increase of \$15,975,939, or 34.4%, due to the following factors:

(1) Increases in the income of Chinese residents and the growth of consumption led to an increase in the sales of passenger vehicles and an increase in the Company's sales of steering gear and pumps. As a result, sales of steering gear and pumps for domestic passenger vehicles for the three months ended June 30, 2009 were \$41,752,681 and \$5,990,956, as compared to \$28,742,480 and \$4,037,146 for the same period of 2008, an increase of \$13,010,201 and \$1,953,810, or 45.3% and 48.5%, respectively.

(2) As a result of huge government investment, China's economy began to grow, which led to an increase in the sales of commercial vehicles and the resultant increase in the Company's sales of steering gear and accessories. For the three months ended June 30, 2009, sales of steering gear and accessories for commercial vehicles was \$14,638,400 as compared to \$13,564,407 for the same period of 2008, an increase of \$1,073,993, or 7.9%.

(3) The Company has raised the technological contents in, and production efficiency of, its products as a result of technological improvement to its production lines, allowing the Company to reduce costs and, correspondingly, its sales prices which led to increased sales volumes.

GROSS PROFIT

For the three months ended June 30, 2009, gross profit was \$18,501,732, as compared to \$14,463,004 for the three months ended June 30, 2008, an increase of \$4,038,728, or 27.9%.

The increase of sales volume contributed to an increase of \$5,730,143 in gross profit, the decrease of selling prices contributed to a decrease of \$3,012,209 in gross profit, while the decrease in unit cost resulted in an increase of \$1,320,794 in gross profit.

Gross margin was 29.6% for the three months ended June 30, 2009, a decrease of 1.5% from 31.1% for the same period of 2008, primarily due to a decrease in unit selling price. The Company plans to take the following measures in the remaining six months of 2009 to increase gross profit level and to meet its yearly gross margin target of not less than 28%.

1. Reduce manufacturing costs by optimizing product design and production techniques. During 2009, the Company's technical personnel will improve product design and production techniques to reduce wastage in the production process and improve manufacturing efficiency, thus reduce costs. The Company estimates its manufacturing costs will be reduced by 20% as compared to 2008 as a result of the optimized product design and production techniques.

2. Reduce purchase costs by decreasing materials price. During 2009, the Company projects to reduce materials price by 5% to 10%.

GAIN ON OTHER SALES

Gain on other sales consists of net amount retained from sales of materials and other assets. For the three months ended June 30, 2009, gain on other sales was \$172,747, as compared to \$117,710 for the same period of 2008, an increase of \$55,037, or 46.8%, mainly due to increased sales of materials.

SELLING EXPENSES

Selling expenses were \$3,816,301 for the three months ended June 30, 2009, as compared to \$2,936,835 for the same period of 2008, an increase of \$879,466, or 29.9%. Material increases were transportation expenses, warranty and rent expenses.

The increase in transportation expenses was due to an increase in China's gasoline price and a substantial increase in sales volumes.

The increase in warranty expenses was due to a substantial increase in sales volumes, accordingly, the Company accrued more warranty expenses.

The increase in rental expenses was due to a substantial increase in sales volumes, which led to an increase in product warehouses and offices.

GENERAL AND ADMINISTRATIVE EXPENSES

General and administrative expenses were \$2,246,330 for the three months ended June 30, 2009, as compared to \$4,151,633 for the same period of 2008, a decrease of \$1,905,303, or 45.9%. Material decreases were supplies expenses, listing expenses and reversal of bad debt provision.

The decrease in supplies expenses was due to large expenses incurred in the three month period ending June 30, 2008 in preparation for building a new subsidiary, and there was no corresponding amount in the same period of 2009.

The Company accrues provisions for bad debts according to the aging of its accounts receivables. For the three months ended June 30, 2009, the aging of the accounts receivable was improved over the similar period in 2008.

The decrease in listing expenses was a result of the worldwide financial turmoil as the Company decreased its investing and financing activities during the three months ended June 30, 2009. As a result, there were less attorney and consulting fees. Compared to the same period of 2008, the Company paid more attorney and consulting fees for issuance of its \$35,000,000 convertible notes, and its acquisition of 35.5% equity of Henglong, one of the Company's Joint-ventures.

RESEARCH AND DEVELOPMENT EXPENSES

Research and development expenses were \$444,226 for the three months ended June 30, 2009, as compared to \$563,295 for the three months ended June 30, 2008, a decrease of \$119,069, or 21.1%. Affected by bankruptcy and reorganization of automobile corporations, such as Chrysler and GM, the Company temporarily reduced a number of its research and development programs.

DEPRECIATION AND AMORTIZATION EXPENSE

For the three months ended June 30, 2009, the depreciation and amortization expense, excluding those recorded in cost of sales, was \$507,341, as compared to \$1,451,064 for the three months ended June 30, 2008, a decrease of \$943,723, or 65.0%, as a result of the fact that certain fixed assets of the Company have been fully depreciated.

INCOME FROM OPERATIONS

Income from operations was \$11,600,281 for the three months ended June 30, 2009, as compared to \$5,477,887 for the three months ended June 30, 2008, an increase of \$6,182,394, or 112.9%, as a result of an increase of \$4,038,728, or 27.9%, in gross profit, an increase of \$55,037, or 46.8%, in gain on other sales, and a decrease of \$2,088,629, or 22.9%, in operating expenses.

FINANCIAL EXPENSES

Financial expenses were \$478,228 for the three months ended June 30, 2009, as compared to \$459,140 for the three months ended June 30, 2008, an increase of \$19,088, primarily due to an increase of foreign currency exchange gain, a decrease in convertible note interest expense, and an increase in convertible note discount amortization.

LOSS ON CHANGE IN FAIR VALUE OF DERIVATIVE

Loss on change in fair value of derivative was \$977,435 for the three months ended June 30, 2009, as compared to a gain of \$995,153 for the same period of 2008, an increase of \$1,972,588.

As a result of the recent worldwide financial turmoil, the Company's stock Weighted Average Price (WAP) for twenty (20) consecutive trading days ended on March 16, 2009 was below \$3.187, which is less than 45% of the Conversion Price in effect of the Issuance Date, as adjusted, the "WAP Default" (see Note 12), thus led to more interest and penalty connected to convertible note payable by the Company, which resulted in an increase of the fair value of derivative liabilities.

INCOME BEFORE INCOME TAXES

Income before income taxes was \$10,204,618 for the three months ended June 30, 2009, as compared to \$6,013,900 for the three months ended June 30, 2008, an increase of \$4,190,718, or 69.7%, including an increase in income from operations of \$6,182,394, an increase in financial expenses of \$19,088 and an increase in loss on change in fair value of derivative of \$1,972,588.

INCOME TAXES

Income tax expenses was \$1,474,618 for the three months ended June 30, 2009, as compared to \$415,458 of income tax income for the three months ended June 30, 2008, an increase of \$1,890,076, mainly because of:

1. Increased income before income taxes resulted in increased income tax expenses of \$685,141.
2. Decrease in average income tax rate resulted in decreased income tax expenses of \$304,814.
3. The Company has received an income tax refund of \$1,631,591 for domestic equipment purchased during the three months ended June 30, 2008, and there was no such tax refund in the same period of 2009.
4. China tax law adjustment caused a decrease in income tax expenses by \$514,292.
5. Increase of accrued valuation allowance for the deferred tax assets caused an increase in income tax by \$392,450.

NET INCOME

Net income was \$8,730,000 for the three months ended June 30, 2009, as compared to \$6,429,358 for the three months ended June 30, 2008, an increase of \$2,300,642, or 35.8%, including an increase in income before income taxes of \$4,190,718, or 69.7%, and an increase in income taxes expenses of \$1,890,076.

NET INCOME ATTRIBUTABLE TO NONCONTROLLING INTERESTS

Minority interests in the earnings of the Sino-foreign Joint-ventures amounted to \$2,653,651 for the three months ended June 30, 2009, as compared to \$1,685,003 for the three months ended June 30, 2008, an increase of \$968,648, or 57.5%.

The Company owns different equity interests in eight Sino-foreign joint ventures, through which it conducts its operations. All the operating results of these eight Sino-foreign joint ventures were consolidated in the Company's financial statements as of June 30, 2009 and 2008. The Company records the non-controlling interests' share in the earnings of the respective Sino-foreign joint ventures for each period.

In 2009, non-controlling interests increased significantly as compared to 2008, primarily due to the increase in Sino-foreign joint ventures' net income.

NET INCOME ATTRIBUTABLE TO COMMON SHAREHOLDERS

Net income was \$6,076,349 for the three months ended June 30, 2009, as compared to a net income of \$4,744,355 for the three months ended June 30, 2008, an increase of \$1,331,994, or 28.1%, mainly due to the increase in Sino-foreign joint ventures' net income.

SIX MONTHS ENDED JUNE 30, 2009 AND 2008:

NET SALES:

Net sales were \$107,181,725 for the six months ended June 30, 2009, as compared to \$87,975,383 for the six months ended June 30, 2008, an increase of \$19,206,342, or 21.8%, due to the following factors:

(1) Increases in the income of Chinese residents and the growth of consumption led to an increase in the sales of passenger vehicles and an increase in the Company's sales of steering gear and pumps. As a result, sales of steering gear and pumps for domestic passenger vehicles for the six months ended June 30, 2009 were \$71,062,195 and \$11,413,767, as compared to \$55,175,547 and \$7,761,943 for the same period of 2008, an increase of \$15,886,648 and \$3,651,824, or 28.8% and 47.0%, respectively.

(2) As a result of the global financial crisis, although China's economy began to grow commencing April 2009, the cumulative economic decline from January to March exceeded such growth from April to June, leading to a decrease in sales of commercial vehicles and the resultant decrease in the Company's sales of steering gear and accessories. For the six months ended June 30, 2009, sales of steering gear and accessories for commercial vehicles was \$24,402,962, as compared to \$24,834,399 for the same period of 2008, a decrease of \$431,437, or 1.7%.

(3) The Company has raised the technological contents in, and production efficiency of, its products as a result of technological improvement to its production lines, allowing the Company to reduce costs and, correspondingly, its sales prices which led to increased sales volumes.

GROSS PROFIT

For the six months ended June 30, 2009, gross profit was \$30,699,563, as compared to \$26,675,374 for the six months ended June 30, 2008, an increase of \$4,024,189, or 15.1%.

The increase of sales volume contributed to an increase of \$7,402,181 in gross profit, the decrease of selling prices contributed to a decrease of \$5,262,035 in gross profit, while the decrease in unit cost resulted in an increase of \$1,884,043 in gross profit.

Gross margin was 28.6% for the six months ended June 30, 2009, a decrease of 1.7% from 30.3% for the same period of 2008, primarily due to a decrease in unit selling price. The Company plans to take the following measures in the remaining six months of 2009 to increase gross profit levels and to meet its yearly gross margin target of not less than 28%.

1. Reduce manufacturing costs by optimizing product design and production techniques. During 2009, the Company's technical personnel will improve product design and production techniques to reduce wastage in the production process and improve manufacturing efficiency, thus reducing costs. The Company estimates its manufacturing costs will be reduced by 20% as compared to 2008 as a result of the optimized product design and production techniques.
2. Reduce purchase costs by decreasing materials price. During 2009, the Company projects to reduce materials price by 5% to 10%.

GAIN ON OTHER SALES

Gain on other sales consists of net amount retained from sales of materials and other assets. For the six months ended June 30, 2009, gain on other sales was \$239,626, as compared to \$251,900 for the same period of 2008, a decrease of \$12,274, or 4.9%, mainly due to decreased sales of materials.

SELLING EXPENSES

Selling expenses were \$6,175,467 for the six months ended June 30, 2009, as compared to \$5,412,176 for the same period of 2008, an increase of \$763,291, or 14.1%. Material increases were transportation expenses, warranty and rental expenses.

The increase in transportation expenses was due to an increase in China's gasoline price and a substantial increase in sales volumes.

The increase in warranty expenses was due to a substantial increase in sales volumes. Accordingly, the Company accrued more warranty expenses.

The increase in rental expenses was due to a substantial increase in sales volumes, which led to an increase in product warehouses and offices.

GENERAL AND ADMINISTRATIVE EXPENSES

General and administrative expenses were \$4,048,032 for the six months ended June 30, 2009, as compared to \$5,767,783 for the same period of 2008, a decrease of \$1,719,751, or 29.8%. Material decreases were supplies expenses, listing expenses and reversal of bad debts provision.

The decrease in supplies expenses was due to large expenses incurred in the six month period ending June 30, 2008 in preparation for building a new subsidiary, and there was no corresponding amount in the same period of 2009.

The Company accrues provisions for bad debts according to the aging of its accounts receivables. For the six months ended June 30, 2009, the aging of the accounts receivable was improved over the similar period in 2008.

The decrease in listing expenses was a result of the worldwide financial turmoil as the Company decreased its investing and financing activities during the six months ended June 30, 2009. As a result, there were less attorney and consulting fees. Compared with the same period of 2008, the Company paid more attorney and consulting fees for issuance of its \$35,000,000 convertible notes, and its acquisition of 35.5% equity of Henglong, one of the Company's Joint-ventures.

RESEARCH AND DEVELOPMENT EXPENSES

Research and development expenses were \$884,148 for the six months ended June 30, 2009, as compared to \$738,973 for the six months ended June 30, 2008, an increase of \$145,175, or 19.6%, as a result of the commencement of certain new product research and development programs early in 2009 and more R&D personnel required.

DEPRECIATION AND AMORTIZATION EXPENSE

For the six months ended June 30, 2009, the depreciation and amortization expense, excluding those recorded in cost of sales, was \$1,078,754, as compared to \$2,745,791 for the six months ended June 30, 2008, a decrease of \$1,667,037, or 60.7%, as a result of the fact that certain fixed assets of the Company have been fully depreciated.

INCOME FROM OPERATIONS

Income from operations was \$18,752,788 for the six months ended June 30, 2009, as compared to \$12,262,551 for the six months ended June 30, 2008, an increase of \$6,490,237, or 52.9%, including an increase of \$4,024,189, or 15.1%, in gross profit, a decrease of \$12,274, or 4.9%, in gain on other sales, and a decrease of \$2,478,322, or 16.9%, in operating expenses.

OTHER INCOME

Other income was \$199,459 for the six months ended June 30, 2008, primarily attributable to government subsidies. There was no such income in the same period in 2009.

Whether or not a government subsidy can be classified as other income depends on whether the company's technological improvement has achieved its expected goal of production expansion and quality enhancement.

FINANCIAL EXPENSES

Financial expenses were \$917,708 for the six months ended June 30, 2009, as compared \$438,447 for the six months ended June 30, 2008, an increase of \$479,261, primarily due to a decrease of foreign currency exchange gain, a decrease in convertible note interest expense, and an increase in amortization for discount of convertible note.

LOSS ON CHANGE IN FAIR VALUE OF DERIVATIVE

Loss on change in fair value of derivative was \$2,538,283 for the six months ended June 30, 2009, as compared to a gain of \$995,153 for the same period of 2008, an increase of \$3,533,436.

As a result of the recent worldwide financial turmoil, the Company's stock Weighted Average Price(WAP) for twenty (20) consecutive trading days ended on March 16, 2009 was below \$3.187, which is less than 45% of the Conversion Price in effect of the Issuance Date, as adjusted, the "WAP Default" (see Note 12), thus led to more interest and penalty connected to convertible note payable by the Company, which resulted in an increase of the fair value of derivative liabilities.

INCOME BEFORE INCOME TAXES

Income before income taxes was \$15,296,797 for the six months ended June 30, 2009, as compared to \$13,018,716 for the six months ended June 30, 2008, an increase of \$2,278,081, or 17.5%, including an increase in income from operations of \$6,490,237, a decrease in other income of \$199,459, an increase in financial expenses of \$479,261 and netting off against the increase in loss on change in fair value of derivative of \$3,533,436.

INCOME TAXES

Income tax expenses was \$2,924,288 for the six months ended June 30, 2009, as compared to \$408,937 for the six months ended June 30, 2008, an increase of \$2,515,351, mainly because of:

1. Increased income before income taxes resulted in increased income tax expenses of \$370,105.
2. Decreases in average income tax rates resulted in decreased income tax expenses of \$711,438.
3. The Company has received an income tax refund of \$1,899,435 for domestic equipment purchased during the six months ended June 30, 2008, and there was no such tax refund in the same period of 2009.
4. China tax law adjustment caused a decrease in income tax expenses by \$156,493.
5. Increase of accrued valuation allowance for the deferred tax assets caused an increase in income tax by \$1,113,742.

NET INCOME

Net income was \$12,372,509 for the six months ended June 30, 2009, as compared to a net income of \$12,609,779 for the six months ended June 30, 2008, a decrease of \$237,270, or 1.9%, including an increase in income before income taxes of \$2,278,081, and an increase in income taxes expenses of \$2,515,351.

NET INCOME ATTRIBUTABLE TO NONCONTROLLING INTERESTS

Minority interests in the earnings of the Sino-foreign Joint-ventures amounted to \$4,037,348 for the six months ended June 30, 2009, as compared to \$3,435,250 for the six months ended June 30, 2008, an increase of \$602,098, or 17.5%.

The Company owns different equity interests in eight Sino-foreign joint ventures, through which it conducts its operations. All the operating results of these eight Sino-foreign joint ventures were consolidated in the Company's financial statements as of June 30, 2009 and 2008. The Company records the non-controlling interests' share in the earnings of the respective Sino-foreign joint ventures for each period.

In 2009, non-controlling interests increased significantly as compared to 2008, primarily due to the increase in Sino-foreign joint ventures' net income.

NET INCOME ATTRIBUTABLE TO COMMON SHAREHOLDERS

Net income was \$8,335,161 for the six months ended June 30, 2009, as compared to \$9,174,529 for the six months ended June 30, 2008, a decrease of \$839,368, or 9.1%, mainly due to the increase in loss in fair value of derivative.

LIQUIDITY AND CAPITAL RESOURCES

Capital resources and use of cash

The Company has historically financed its liquidity requirements from a variety of sources, including short-term borrowings under bank credit agreements, bankers' acceptance, issuances of capital stock and notes and internally generated cash. As of June 30, 2009, the Company had cash and cash equivalents of \$39,555,309, as compared to \$28,431,206 as of June 30, 2008, an increase of \$11,124,103, or 39.1%.

The Company had working capital of \$48,706,834 as of June 30, 2009, as compared to \$69,960,683 as of June 30, 2008, a decrease of \$21,253,849, or 30.4%.

Financing activities:

For the Company's bank loans and banker's acceptance bill facilities, the Company's banks require the Company to sign documents to repay such facilities within one year. On the condition that the Company can provide adequate mortgage security and has not violated the terms of the line of credit agreement, it can extend such one year facilities for another year.

The Company had bank loans maturing in less than one year of \$8,782,330 and bankers' acceptances of \$24,132,438 as of June 30, 2009.

The Company currently expects to be able to obtain similar bank loans and bankers' acceptance bills in the future if it can provide adequate mortgage security following the termination of the above mentioned agreements (See the table in section (a) Bank loan). If the Company is not able to do so, it will have to refinance such debt as it becomes due or repay that debt to the extent it has cash available from operations or from the proceeds of additional issuances of capital stock. Owing to depreciation, the value of the mortgages securing the above-mentioned bank loans and banker's acceptance bills will be devalued by approximately \$7,552,179. If the Company wishes to obtain the same amount of bank loans and banker's acceptance bills, it will have to provide \$7,552,179 additional mortgages as of the mature date of such agreements (See the table in section (a) Bank loan). The Company still can obtain a reduced line of credit with a reduction of \$3,643,419, which is 48% (the mortgage rates) of \$7,552,179, if it cannot provide additional mortgages. The Company expects that the reduction of bank loans will not have a material adverse effect on its liquidity.

On February 15, 2008, the Company issued \$35,000,000 of convertible notes to Lehman Brothers Commercial Corporation Asia Limited, LBCCA, and YA Global Investments, L.P., YA Global, maturing in 5 years. According to the terms of the Senior Convertible Notes (as described in Note 12), convertible notes may be required to be repaid in cash on or prior to their maturity. For example, Convertible Note holders are entitled to require the Company redeem all or any portion of the Convertible Notes in cash, if the Weighted Average Price (WAP) for twenty (20) consecutive trading days is less than \$3.187 at any time following February 15, 2009, the "WAP Default", by delivering written redemption notice to the Company within five (5) business days after the receipt of the Company's notice of the WAP Default.

As a result of the recent worldwide financial turmoil, the Company's stock's WAP for twenty (20) consecutive trading days ended on March 16, 2009 was below \$3.187. On March 17, 2009, the Company delivered two WAP Default notices to the Convertible Note holders. On March 27, 2009, the Company received a letter dated March 26, 2009 via fax from YA Global, one of the Convertible Note holders, electing to require the Company to redeem all the three Convertible Notes it held in the total principal amount of \$5,000,000, together with interest, late charges, if any, and the Other Make Whole Amount as defined in Section 5(d) of the Convertible Notes. After negotiation, on April 15, 2009, the Company paid YA Global \$5,041,667 for the total principal amount (\$5,000,000), together with interest and late charges, if any. YA Global has waived its entitlement to the Other Make Whole Amount.

Following the WAP Default notices, the Company received a letter from the provisional liquidator acting on behalf of LBCCA, the "LBCCA Liquidator", requesting that it be granted an extension of time until April 24, 2009 to consider its rights under the Convertible Notes. The Company has granted an extension to April 15, 2009. The LBCCA Liquidator further requested another extension to April 24, 2009. On April 24, 2009, LBCCA's lawyers sent three Holder Redemption Notices via fax electing to redeem the entire outstanding principal of \$30,000,000, together with interest, late charges, if any, and the Other Make Whole Amount, to be paid on July 23, 2009. The Company has discussed settlement with the LBCCA Liquidator, and on or about July 22, 2009, the Company and the LBCCA Liquidator reached an agreement to extend the applicable holder mandatory redemption date for two months from July 23, 2009 to September 23, 2009 in order to give more time to the Company and the LBCCA Liquidator to pursue settlement discussion.

The Company's ability to redeem the Convertible Notes and meet its payment obligations depends on its cash position and its ability to refinance or generate significant cash flow, which is subject to general economic, financial and competition factors and other factors beyond the Company's control. The Company cannot assure you that it has sufficient funds available or will be able to obtain sufficient funds to meet its payment obligations under the Convertible Notes, and the Company's redemption of the Convertible Notes would result in a material adverse effect on its liquidity and capital resources, business, results of operations or financial condition.

(a) Bank loans

As of June 30, 2009, the principal outstanding under the Company's credit facilities and lines of credit was as follows:

The Company may request banks to issue notes payable or bank loans within its credit line using a 364-day revolving line.

The Company refinanced its short-term debt during early 2009 at annual interest rates of 4.86% to 6.66%, and for terms of six to twelve months. Pursuant to the refinancing arrangement, the Company pledged \$30,567,846 of equipment, \$5,334,489 of land use rights and \$3,177,816 of buildings as security for its comprehensive credit facility with the Bank of China; pledged \$2,105,054 of land use rights and \$11,392,532 of buildings as security for its comprehensive credit facility with Shanghai Pudong Development Bank; pledged \$5,863,884 of land use rights and \$7,455,433 of equipment as security for its revolving comprehensive credit facility with Jingzhou Commercial Bank; pledged \$1,575,707 of land use rights and \$1,064,522 of buildings as security for its comprehensive credit facility with Industrial and Commercial Bank of China; pledged \$1,463,143 of accounts receivable, \$7,034,062 of land use rights and \$3,660,990 of buildings as security for its comprehensive credit facility with China Construction Bank; pledged \$2,985,764 of land use rights and \$4,252,217 of buildings as security for its comprehensive credit facility with China CITIC Bank; pledged \$3,465,792 of land use rights and \$1,920,101 of buildings as security for its comprehensive credit facility with China Merchants Bank; pledged \$4,151,801 of land use rights and \$2,341,907 of buildings as security for its comprehensive credit facility with Bank of Communications Co., Ltd.; pledged \$1,463,722 of accounts receivable as security for its comprehensive credit facility with Guangdong Development Bank.

(b) Financing from investors:

On February 15, 2008, the Company sold \$30,000,000 and \$5,000,000 convertible notes to Lehman Brothers Commercial Corporation Asia Limited, LBCCA, and YA Global Investments, L.P., YA Global, respectively, with a scheduled maturity date of February 15, 2013 and an initial conversion price for conversion into the Company's common stock of \$8.8527 per share.

On April 15, 2009, the Company has paid YA Global \$5,041,667 for the total principal amount (\$5,000,000), together with interest, late charges, if any. YA Global has waived its entitlement to the Other Make Whole Amount.

On April 24, 2009, the provisional liquidator acting on behalf of Lehman Brothers Commercial Corporation Asia Limited, the "LBCCA Liquidator", the other Convertible Note holder, notified the Company to redeem the entire outstanding principal of \$30,000,000, together with interest, late charges, if any, and the Other Make Whole Amount, to be paid on July 23, 2009. The Company has discussed settlement with the LBCCA Liquidator, and on or about July 22, 2009, the Company and the LBCCA Liquidator reached an agreement to extend the applicable holder mandatory redemption date for two months from July 23, 2009 to September 23, 2009 in order to give more time to the Company and the LBCCA Liquidator to pursue settlement discussion.

The Company's ability to redeem the Convertible Notes and meet its payment obligations depends on its cash position and its ability to refinance or generate significant cash flow, which is subject to general economic, financial and competition factors and other factors beyond the Company's control. If the aforementioned convertible notes must be repaid in cash at or before scheduled maturity, and if at that time the Company cannot issue new notes or stock to refinance, or acquire enough bank loans, or cannot extend the maturity dates of such notes, the Company's liquidity and capital resources will be adversely affected.

Cash Requirements:

The following table summarizes the Company's expected cash outflows resulting from financial contracts and commitments. The Company has not included information on its recurring purchases of materials for use in its manufacturing operations. These amounts are generally consistent from year to year, closely reflecting the Company's levels of production, and are not long-term in nature being less than three months.

	Payment Due Dates				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Short-term bank loan	\$ 8,782,330	\$ 8,782,330	\$ -	\$ -	\$ -
Notes payable	24,132,438	24,132,438	-	-	-
Convertible notes payable	30,000,000	30,000,000	-	-	-
Other contractual purchase commitments, including information technology	7,913,877	6,069,775	1,734,102	110,000	-
Total	\$ 70,828,645	\$ 68,984,543	\$ 1,734,102	\$ 110,000	\$ -

Short-term bank loans:

The following table summarizes the contract information of short-term borrowings between the banks and the Company as of June 30, 2009:

Bank	Purpose	Borrowing Date	Borrowing Term (Year)	Annual Percentage Rate	Date of Interest Payment	Date of Payment	Amount Payable on Due Date
Bank of China	Working Capital	31-Oct-08	1	6.66 %	Pay monthly	31-Oct-09	\$ 2,195,582
China Construction Bank	Working Capital	29-Dec-08	1	5.31 %	Pay monthly	29-Dec-09	2,927,444
China Merchants Bank	Working Capital	5-May-09	0.9	5.31 %	Pay monthly	5-Apr-10	2,195,582
Guangdong Development Bank	Working Capital	24-Apr-09	0.5	4.86 %	Pay monthly	24-Oct-09	1,463,722
Total							\$ 8,782,330

The Company must use the loans for the purposes described in the table. If the Company fails, it will be charged a penalty interest at 100% of the specified loan rate. The Company has to pay interest at the interest rate described in the table on the 20th of each month. If the Company fails, it will be charged a compound interest at the specified rate. The Company has to repay the principal outstanding on the specified date in the table. If it fails, it will be charged a penalty interest at 50% of the specified loan rate. Management believes that the Company had complied with such financial covenants as of June 30, 2009, and will continue to comply with them.

The following table summarizes the contract information of issuing notes payable between the banks and the Company as of June 30, 2009:

Purpose	Term (Month)	Due Date	Amount Payable on Due Date
Working Capital	3-6	Jul-09	\$ 3,195,304
Working Capital	3-6	Aug-09	2,908,269
Working Capital	3-6	Sep-09	6,262,679
Working Capital	3-6	Oct-09	3,564,602
Working Capital	3-6	Nov-09	5,056,778
Working Capital	3-6	Dec-09	3,144,806
Total			\$ 24,132,438

The Company must use the loan for the purposes described in the table. If it fails, the banks will no longer issue the notes payable, and it may have an adverse effect on the Company's liquidity and capital resources. The Company has to deposit sufficient cash in the designated account of the bank on the due date of notes payable for payment to the suppliers. If the bank has advanced payment to the Company, it will be charged a penalty interest at 150% of the specified loan rate. Management believes that the Company had complied with such financial covenants as of June 30, 2009, and will continue to comply with them.

The Company had approximately \$7,583,877 of capital commitments as of June 30, 2009, arising from equipment purchases for expanding production capacity. The Company intends to disperse \$5,959,775 in the remaining six months of 2009 using its working capital. Management believes that it will not have a material adverse effect on the Company's liquidity.

Cash flows:

(a) Operating activities

Net cash generated from operations during the six months ended June 30, 2009 was \$15,763,414, compared to \$2,753,149 for the same period of 2008, an increase of \$13,010,265.

Similar to the same period of 2008, the cash outflows from operating activities were primarily due to increases in accounts receivable.

During the six months ended June 30, 2009, cash outflow increased by about \$18,980,000 owing to increased accounts receivable, mainly due to increased sales volumes in the three months ended June 30, 2009, compared to the same period of 2008, an increased of 34.4%. The credit terms on sale of goods between customers and the Company generally range from 3 - 4 months, which resulted in increased accounts receivable as sales increased. This is a normal capital circulation and the Company believes that it will not have a material adverse effect on future cash flows.

(b) Investing activities

The Company expended net cash of \$6,259,142 in investment activities during the six months ended June 30, 2009, compared with \$17,987,138 during the same period of 2008, a decrease of \$11,727,996, mainly due to:

During the six months ended June 30, 2008, the Company paid \$10,000,000 cash to purchase minority shareholder's equity of Henglong, but there were no such activity in the same period of 2009.

Similar to 2008, the Company invested cash for equipment purchases and building facility to expand production to meet market needs. Cash used for equipment purchases and building facility during the six months ended June 30, 2009 and 2008 were \$6,341,035 and \$7,573,715, respectively.

(c) Financing activities

During the six months ended June 30, 2009, the Company expended net cash of \$7,076,945 in financing activities, as compared to obtaining net cash of \$22,655,046 through financing activities for the same period of 2008, a decrease of \$29,731,991 as a result of the following factors:

During the six months ended June 30, 2008, the Company sold \$30,000,000 and \$5,000,000 of convertible notes to Lehman Brothers Commercial Corporation Asia Limited, and YA Global Investments, L.P., respectively. During the same period in 2009, there is no such financing activity.

The Company repaid YA Global \$5,000,000 for its convertible notes during the six months ended June 30, 2009.

The Company acquired bank loans of \$1,465,006 during the six months ended June 30, 2009, compared to the six months ended June 30, 2008 where the Company repaid bank loans of \$7,564,564.

OFF-BALANCE SHEET ARRANGEMENTS

At June 30, 2009 and 2008, the Company did not have any transactions, obligations or relationships that could be considered off-balance sheet arrangements.

COMMITMENTS AND CONTINGENCIES

The following table summarizes the Company's contractual payment obligations and commitments as of June 30, 2009:

	2009 (a)	2010	Payment Obligations by Period				Total
			2011	2012	Thereafter		
Obligations for service agreements	\$ 110,000	\$ 110,000	\$ 110,000	\$ -	\$ -	\$ -	\$ 330,000

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4T CONTROLS AND PROCEDURES

(a) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports the Company files with the SEC under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

The Company's management carried out an evaluation, under the supervision and with the participation of the CEO and the CFO, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of June 30, 2009. Based upon that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective.

(b) CHANGES IN INTERNAL CONTROLS

There were no changes in the Company's internal control over financial reporting during the quarter ended June 30, 2009 that have materially effected, or are reasonably likely to materially effect, the Company's internal control over financial reporting.

PART II.— OTHER INFORMATION

ITEM 1

LEGAL PROCEEDINGS

The Company is not currently a party to any threatened or pending legal proceedings, other than incidental litigation arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

ITEM 1A

RISK FACTORS

Any investment in the Company's securities involves a high degree of risk. You should carefully consider the risks described below, together with the information contained elsewhere in this prospectus, before you make a decision to invest in the Company. The Company's business, financial conditions and results of operations could be materially and adversely affected by many risk factors. Because of these risk factors, actual results might differ significantly from those projected in any forward-looking statements. Factors that might cause such differences include, among others, the following:

Risks Related to the Company's Business and Industry

Because the Company is a holding company with substantially all of its operations conducted through its subsidiaries, its performance will be affected by the performance of its subsidiaries.

The Company has no operations independent of those of Genesis and its subsidiaries, and its principal assets are its investments in Genesis and its subsidiaries. As a result, the Company is dependent upon the performance of Genesis and its subsidiaries and will be subject to the financial, business and other factors affecting Genesis as well as general economic and financial conditions. As substantially all of the Company's operations are and will be conducted through its subsidiaries, the Company will be dependent on the cash flow of its subsidiaries to meet its obligations.

Because virtually all of the Company's assets are and will be held by operating subsidiaries, the claims of its stockholders will be subordinate to all existing and future liabilities and obligations, and trade payables of such subsidiaries. In the event of the Company's bankruptcy, liquidation or reorganization, the Company's assets and those of its subsidiaries will be available to satisfy the claims of its stockholders only after all of its and its subsidiaries' liabilities and obligations have been paid in full.

The Senior Convertible Notes are the Company's unsecured obligations, but are not obligations of its subsidiaries. In addition, the Company's secured commercial debt is senior to the Senior Convertible Notes.

With the automobile parts markets being highly competitive and many of the Company's competitors having greater resources than it does, the Company may not be able to compete successfully.

The automobile parts industry is a highly competitive business. Criteria for the Company's customers include:

- Quality;
- Price/cost competitiveness;
- System and product performance;
- Reliability and timeliness of delivery;

- New product and technology development capability;
- Excellence and flexibility in operations;
- Degree of global and local presence;
- Effectiveness of customer service; and
- Overall management capability.

The Company's competitors include independent suppliers of parts, as well as suppliers formed by spin-offs from its customers, who are becoming more aggressive in selling parts to other vehicle manufacturers. Depending on the particular product, the number of the Company's competitors varies significantly. Many of its competitors have substantially greater revenues and financial resources than the Company does, as well as stronger brand names, consumer recognition, business relationships with vehicle manufacturers, and geographic presence than the Company has. The Company may not be able to compete favorably and increased competition may substantially harm its business, business prospects and results of operations.

Internationally, the Company faces different market dynamics and competition. The Company may not be as successful as its competitors in generating revenues in international markets due to the lack of recognition of its products or other factors. Developing product recognition overseas is expensive and time-consuming and the Company's international expansion efforts may be more costly and less profitable than it expects. If the Company is not successful in its target markets, its sales could decline, its margins could be negatively impacted and it could lose market share, any of which could materially harm the Company's business, results of operations and profitability.

The cyclical nature of automotive production and sales could result in a reduction in automotive sales, which could adversely affect the Company's business and results of operations.

The Company's business relies on automotive vehicle production and sales by its customers, which are highly cyclical and depend on general economic conditions and other factors, including consumer spending and preferences and the price and availability of gasoline. They also can be affected by labor relations issues, regulatory requirements, and other factors. In addition, in the last two years, the price of automobiles in China has generally declined. As a result, the volume of automotive production in China has fluctuated from year to year, which gives rise to fluctuations in the demand for the Company's products. Any significant economic decline that results in a reduction in automotive production and sales by the Company's customers would have a material adverse effect on its results of operations. Moreover, if the prices of automobiles do not remain low, then demand for automobile parts could fall and result in lower revenues and profitability.

Increasing costs for manufactured components and raw materials may adversely affect the Company's profitability.

The Company uses a broad range of manufactured components and raw materials in its products, including castings, electronic components, finished sub-components, molded plastic parts, fabricated metal, aluminum and steel, and resins. Because it may be difficult to pass increased prices for these items on to the Company's customers, a significant increase in the prices of its components and materials could materially increase the Company's operating costs and adversely affect its profit margins and profitability.

Pricing pressure by automobile manufacturers on their suppliers may adversely affect the Company's business and results of operations.

Recently, pricing pressure from automobile manufacturers has been prevalent in the automotive parts industry in China. Virtually all vehicle manufacturers seek price reductions each year, including requiring suppliers to pay a "3-R Guarantees" service charge for repair, replacement and refund in an amount equal to one percent of the total amount of parts supplied. Although the Company has tried to reduce costs and resist price reductions, these reductions have impacted its sales and profit margins. If the Company cannot offset continued price reductions through improved operating efficiencies and reduced expenditures, price reductions will have a material adverse effect on the Company's results of operations.

The Company's business, revenues and profitability would be materially and adversely affected if the Company loses any of its large customers.

As of June 30, 2009, approximately 10.6% of the Company's sales were to Zhejiang Geely Holding Co., Ltd, approximately 10.5% were to Brilliance China Automotive Holdings Limited, approximately 13.0% were to Xi'an BYD Electric Car Co., Ltd.; approximately 12.9% were to Chery Automobile corporation Limited and approximately 12.1% were to Beiqi Foton Motor Co., Ltd, the Company's five largest customers. The loss of, or significant reduction in purchases by, one or more of these major customers could adversely affect the Company's business.

The Company may be subject to product liability and warranty and recall claims, which may increase the costs of doing business and adversely affect its financial condition and liquidity.

The Company may be exposed to product liability and warranty claims if its products actually or allegedly fail to perform as expected or the use of its products results, or is alleged to result, in bodily injury and/or property damage. The Company started to pay some of its customers' increased after-sales service expenses due to consumer rights protection policies of "recall" issued by the Chinese Government in 2004, such as the recalling flawed vehicles policy. Beginning in 2004, automobile manufacturers unilaterally required their suppliers to pay a "3-R Guarantees" service charge for repair, replacement and refund in an amount equal to one percent of the total amount of parts supplied. Accordingly, the Company has experienced and will continue to experience higher after sales service expenses. Product liability, warranty and recall costs may have a material adverse effect on the Company's financial condition.

The Company is subject to environmental and safety regulations, which may increase its compliance costs and may adversely affect its results of operation.

The Company is subject to the requirements of environmental and occupational safety and health laws and regulations in China. It cannot provide assurance that it has been or will be at all times in full compliance with all of these requirements, or that it will not incur material costs or liabilities in connection with these requirements. Additionally, these regulations may change in a manner that could have a material adverse effect on the Company's business, results of operations and financial condition. The capital requirements and other expenditures that may be necessary to comply with environmental requirements could increase and become a material expense of doing business.

Non-performance by the Company's suppliers may adversely affect the Company's operations by delaying delivery or causing delivery failures, which may negatively affect demand, sales and profitability.

The Company purchases various types of equipment, raw materials and manufactured component parts from its suppliers. The Company would be materially and adversely affected by the failure of its suppliers to perform as expected. The Company could experience delivery delays or failures caused by production issues or delivery of non-conforming products if its suppliers failed to perform, and it also faces these risks in the event any of its suppliers

becomes insolvent or bankrupt.

The Company's business and growth may suffer if it fails to attract and retain key personnel.

The Company's ability to operate its business and implement its strategies effectively depends on the efforts of its executive officers and other key employees. The Company depends on the continued contributions of its senior management and other key personnel. The Company's future success also depends on its ability to identify, attract and retain highly skilled technical staff, particularly engineers and other employees with electronics expertise, and managerial, finance and marketing personnel. The Company does not maintain a key person life insurance policy on Mr. Hanlin Chen or Mr. Qizhou Wu. The loss of the services of any of its key employees or the failure to attract or retain other qualified personnel could substantially harm the Company's business.

The Company's management controls approximately 82.9% of its outstanding common stock and may have conflicts of interest with its minority stockholders.

Members of the Company's management beneficially own approximately 82.9% of the outstanding shares of its common stock. As a result, these majority stockholders have control over decisions to enter into any corporate transaction and have the ability to prevent any transaction that requires the approval of stockholders, which could result in the approval of transactions that might not maximize stockholders' value. Additionally, these stockholders control the election of members of the Company's board, have the ability to appoint new members to its management team and control the outcome of matters submitted to a vote of the holders of its common stock. The interests of these majority stockholders may at times conflict with the interests of the Company's other stockholders. The Henglong Acquisition was a transaction involving the Company and a counterparty controlled by Mr. Hanlin Chen, the Company's Chairman and controlling stockholder. The Company regularly engages in transactions with entities controlled by one of more of its officers and directors.

Covenants contained in the Securities Purchase Agreement and the Senior Convertible Notes may restrict the Company's operating flexibility.

There is a limited public float of the Company's common stock, which can result in its stock price being volatile and prevent the realization of a profit on resale of the Company's common stock or derivative securities.

There is a limited public float of the Company's common stock. Of the Company's outstanding common stock, approximately 17.1% is considered part of the public float. The term "public float" refers to shares freely and actively tradable on the NASDAQ GlobalMarket and not owned by officers, directors or affiliates, as such term is defined under the Securities Act. As a result of the limited public float and the limited trading volume on some days, the market price of the Company's common stock can be volatile, and relatively small changes in the demand for or supply of the Company's common stock can have a disproportionate effect on the market price for its common stock. This stock price volatility could prevent a securityholder seeking to sell the Company's common stock or derivative securities from being able to sell them at or above the price at which the stock or derivative securities were bought, or at a price which a fully liquid market would report.

The Company faces early redemption from Convertible Note Holders and if it is not able to settle or raise capital quickly to redeem, it may result in a material adverse effect on the Company's liquidity, capital resources, business, results of operations or financial condition.

In February 2008, the Company sold to two accredited institutional investors, Lehman Brothers Commercial Corporation Asia Limited and YA Global Investments, L.P., YA Global, \$35,000,000 of convertible debt, the "Convertible Notes", with a scheduled maturity date of February 15, 2013. Pursuant to the terms of the Convertible Notes, among others, if the Weighted Average Price (WAP) for twenty (20) consecutive trading days is less than \$3.187 at any time following February 15, 2009, the "WAP Default", the Convertible Note holders, at their sole discretion, can require the Company redeem all or any portion of their Convertible Notes by delivering written redemption notice to the Company within five (5) business days after the receipt of the Company's notice of the WAP Default. As a result of the recent worldwide financial turmoil, the Company's stock's WAP for twenty (20) consecutive trading days ended on March 16, 2009 was below \$3.187. On March 17, 2009, the Company delivered the WAP Default notice to the Convertible Note holders.

On March 27, 2009, the Company received a letter from YA Global, one of the Convertible Note holders, electing to require the Company to redeem all the three Convertible Notes it held in the total principal amount of \$5,000,000, together with interest, late charges, if any, and the Other Make Whole Amount as defined in Section 5(d) of the Convertible Notes. After negotiation, the Company and YA Global reached a settlement agreement on April 8, 2009 whereby the Company paid a redemption amount of \$5,041,667 for the total principal amount, together with interest and late charges, if any to YA Global on April 15, 2009 and YA Global waived its entitlement to the Other Make Whole Amount.

Following the WAP Default notices, the Company received a letter from the provisional liquidator acting on behalf of Lehman Brothers Commercial Corporation Asia Limited, the "LBCCA Liquidator", the other Convertible Note holder, requesting that it be granted an extension of time until April 24, 2009 to consider its rights under the Convertible Notes. The Company has granted an extension to April 15, 2009. The LBCCA Liquidator further requested another extension to April 24, 2009. On April 24, 2009, LBCCA's lawyers sent three Holder Redemption Notices via fax electing to redeem the entire outstanding principal of \$30,000,000, together with interest, late charges, if any, and the Other Make Whole Amount, to be paid on July 23, 2009. The Company has discussed settlement with the LBCCA Liquidator, and on or about July 22, 2009, the Company and the LBCCA Liquidator reached an agreement to extend the applicable holder mandatory redemption date for two months from July 23, 2009 to September 23, 2009 in order to give more time to the Company and the LBCCA Liquidator to pursue settlement discussion.

The Company's ability to settle or redeem the LBCCA Notes and meet its payment obligations depends on its cash position and its ability to refinance or generate significant cash flow, which is subject to general economic, financial and competition factors and other factors beyond its control. It is uncertain whether the Company can raise sufficient capital to redeem via borrowing or issuance of additional stock as the world economic and financial conditions remain unsettled. The Company cannot assure you that it has sufficient funds available or will be able to obtain sufficient funds to meet its payment obligations under the LBCCA Convertible Notes, and the Company's redemption would result in a material adverse effect on its liquidity, capital resources, business, results of operations or financial condition.

Provisions in the Company's certificate of incorporation and bylaws and the General Corporation Law of Delaware may discourage a takeover attempt.

Provisions in the Company's certificate of incorporation and bylaws and the General Corporation Law of Delaware, the state in which it is organized, could make it difficult for a third party to acquire the Company, even if doing so might be beneficial to its stockholders. Provisions of the Company's certificate of incorporation and bylaws impose various procedural and other requirements, which could make it difficult for stockholders to effect certain corporate

actions and possibly prevent transactions that would maximize stockholders' value.

The Company does not pay cash dividends on its common stock.

The Company has never paid common stock cash dividends and does not anticipate doing so in the foreseeable future. In addition, the Securities Purchase Agreement prohibits the Company from paying cash dividends on common stock without the approval of the holders of the Senior Convertible Notes.

Risks Related to Doing Business in China and Other Countries Besides the United States

Because the Company's operations are all located outside of the United States and are subject to Chinese laws, any change of Chinese laws may adversely affect its business.

All of the Company's operations are outside the United States and in China, which exposes the Company to risks, such as exchange controls and currency restrictions, currency fluctuations and devaluations, changes in local economic conditions, changes in Chinese laws and regulations, exposure to possible expropriation or other Chinese government actions, and unsettled political conditions. These factors may have a material adverse effect on the Company's operations or on its business, results of operations and financial condition.

The Company's international expansion plans subject it to risks inherent in doing business internationally.

The Company's long-term business strategy relies on the expansion of its international sales outside China by targeting markets, such as the United States. Risks affecting the Company's international expansion include challenges caused by distance, language and cultural differences, conflicting and changing laws and regulations, foreign laws, international import and export legislation, trading and investment policies, foreign currency fluctuations, the burdens of complying with a wide variety of laws and regulations, protectionist laws and business practices that favor local businesses in some countries, foreign tax consequences, higher costs associated with doing business internationally, restrictions on the export or import of technology, difficulties in staffing and managing international operations, trade and tariff restrictions, and variations in tariffs, quotas, taxes and other market barriers. These risks could harm the Company's international expansion efforts, which could in turn materially and adversely affect its business, operating results and financial condition.

The Company faces risks associated with currency exchange rate fluctuations; any adverse fluctuation may adversely affect its operating margins.

Although the Company is incorporated in the United States (Delaware), the majority of the Company's current revenues are in Chinese currency. Conducting business in currencies other than US dollars subjects us to fluctuations in currency exchange rates that could have a negative impact on the Company's reported operating results. Fluctuations in the value of the US dollar relative to other currencies impact the Company's revenues, cost of revenues and operating margins and result in foreign currency translation gains and losses. Historically, the Company has not engaged in exchange rate hedging activities. Although the Company may implement hedging strategies to mitigate this risk, these strategies may not eliminate its exposure to foreign exchange rate fluctuations and involve costs and risks of their own, such as ongoing management time and expertise requirements, external costs to implement the strategy and potential accounting implications.

If relations between the United States and China worsen, the Company's stock price may decrease and the Company may have difficulty accessing the U.S. capital markets.

At various times during recent years, the United States and China have had disagreements over political and economic issues. Controversies may arise in the future between these two countries. Any political or trade controversies between the United States and China could adversely affect the market price of the Company's common stock and its ability to access US capital markets.

The Chinese Government could change its policies toward private enterprise, which could adversely affect the Company's business.

The Company's business is subject to political and economic uncertainties in China and may be adversely affected by China's political, economic and social developments. Over the past several years, the Chinese Government has pursued economic reform policies including the encouragement of private economic activity and greater economic decentralization. The Chinese Government may not continue to pursue these policies or may alter them to the Company's detriment from time to time. Changes in policies, laws and regulations, or in their interpretation or the imposition of confiscatory taxation, restrictions on currency conversion, restrictions or prohibitions on dividend payments to stockholders, devaluations of currency or the nationalization or other expropriation of private enterprises could have a material adverse effect on the Company's business. Nationalization or expropriation could result in the total loss of the Company's investment in China.

The economic, political and social conditions in China could affect the Company's business.

All of the Company's business, assets and operations are located in China. The economy of China differs from the economies of most developed countries in many respects, including government involvement, level of development, growth rate, control of foreign exchange, and allocation of resources. The economy of China has been transitioning from a planned economy to a more market-oriented economy. Although the Chinese Government has implemented measures recently emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets and the establishment of sound corporate governance in business enterprises, a substantial portion of productive assets in China is still owned by the Chinese Government. In addition, the Chinese Government continues to play a significant role in regulating industry by imposing industrial policies. It also exercises significant control over China's economic growth through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies. Therefore, the Chinese Government's involvement in the economy could adversely affect the Company's business operations, results of operations and/or financial condition.

The Chinese Government's macroeconomic policies could have a negative effect on the Company's business and results of operations

The Chinese Government has implemented various measures from time to time to control the rate of economic growth. Some of these measures benefit the overall economy of China, but may have a negative effect on us.

Government control of currency conversion and future movements in exchange rates may adversely affect the Company's operations and financial results.

The Company receives substantially all of its revenues in Renminbi, the currency of China. A portion of such revenues will be converted into other currencies to meet the Company's foreign currency obligations. Foreign exchange transactions under the Company's capital account, including principal payments in respect of foreign currency-denominated obligations, continue to be subject to significant foreign exchange controls and require the approval of the State Administration of Foreign Exchange in China. These limitations could affect the Company's ability to obtain foreign exchange through debt or equity financing, or to obtain foreign exchange for capital expenditures.

The Chinese Government controls its foreign currency reserves through restrictions on imports and conversion of Renminbi into foreign currency. Although the exchange rate of the Renminbi to the US dollar has been stable since January 1, 1994, and the Chinese Government has stated its intention to maintain the stability of the value of Renminbi, there can be no assurance that exchange rates will remain stable. The Renminbi could devalue against the US dollar. The Company's financial condition and results of operations may also be affected by changes in the value of certain currencies other than the Renminbi in which its earnings and obligations are denominated. In particular, a devaluation of the Renminbi is likely to increase the portion of the Company's cash flow required to satisfy its foreign currency-denominated obligations.

Because the Chinese legal system is not fully developed, the Company's and the securityholders' legal protections may be limited.

The Chinese legal system is based on written statutes and their interpretation by the Supreme People's Court. Although the Chinese government introduced new laws and regulations to modernize its business, securities and tax systems on January 1, 1994, China does not yet possess a comprehensive body of business law. Because Chinese laws and regulations are relatively new, interpretation, implementation and enforcement of these laws and regulations involve uncertainties and inconsistencies and it may be difficult to enforce contracts. In addition, as the Chinese legal system develops, changes in such laws and regulations, their interpretation or their enforcement may have a material adverse effect on the Company's business operations. Moreover, interpretative case law does not have the same precedential value in China as in the United States, so legal compliance in China may be more difficult or expensive.

It may be difficult to serve the Company with legal process or enforce judgments against the Company's management or the Company.

All of the Company's assets are located in China and three of its directors and officers are non-residents of the United States, and all or substantial portions of the assets of such non-residents are located outside the United States. As a result, it may not be possible to effect service of process within the United States upon such persons to originate an action in the United States. Moreover, there is uncertainty that the courts of China would enforce judgments of U.S. courts against the Company, its directors or officers based on the civil liability provisions of the securities laws of the United States or any state, or an original action brought in China based upon the securities laws of the United States or any state.
