Note 1 - Corporate Information for Sociedad Química y Minera de Chile S.A. and Subsidiaries

Historical Background

Sociedad Química y Minera de Chile S.A. and subsidiaries (collectively the “Company”) is a public corporation organized in accordance with the laws of the Republic of Chile, ID N° 93.007.000-9. The Company was constituted by public deed issued on June 17, 1968 by the Notary Public of Santiago Mr. Sergio Rodríguez Garcés. Its existence was approved by Decree No. 1,164 of the Ministry of Finance on June 22, 1968, and it was registered on June 29, 1968 in the Business Registry of Santiago, on page 4,537 N° 1,992. The parent company is located at El Trovador 4285, 6th Floor, Las Condes, Santiago, Chile. Its phone No. is (56-2) 425-2000.

The Company is registered with the Securities Registry of the Chilean Superintendence of Securities and Insurance (SVS) under No. 0184 dated March 18, 1983 and is subject to inspection by the SVS.

The Company’s operating segments are divided into six main categories, as follows:

Specialty plant nutrients: In this business line, the Company provides advice in practices for fertilization according to each type of crop, soil and climate. In this business category, potassium derivative products and especially potassium nitrate have played a leading role, given the contribution they make to developing crops, ensuring an improvement in post-crop life in addition to improving quality, flavor and fruit color. Potassium nitrate, which is sold in multiple formats and as a part of other specialty mixtures, is complemented by sodium nitrate, potassium sodium nitrate, and other mixtures.

Iodine: The Company is an important producer of iodine worldwide. Iodine is a product that is widely used in the pharmaceutical industry, in technology and in nutrition. Additionally, Iodine is also used in x-ray contrast media and polarizing film for LCD displays.

Lithium: The Company's Lithium is mainly used in rechargeable batteries for cell phones, cameras and laptops. Through the preparation of lithium-based products, the Company provides significant raw materials to face great challenges such as the efficient use of energy and raw material. Lithium is not only used for rechargeable batteries and in new technologies for electric vehicles, but is also used in industrial applications to lower melting temperatures and to help save costs and energy.

Industrial Chemicals: Industrial chemicals are products used as supplies for a number of production processes. The Company participates in this line of business, producing sodium nitrate, potassium nitrate, boric acid and potassium chloride. Industrial nitrates are also used as a means for the storage of thermal energy at solar energy plants, which are widely used in countries such as Spain and the United States in their search for decreasing CO2 emissions.

Potassium: Potassium is a primary essential macro-nutrient, and even though it does not form part of a plant's structure, it has a significant role in the development of its basic functions, validating the quality of a crop, increasing post-crop life, improving the crop flavor, its vitamin content and its physical appearance. Within this business line, the Company also produces potassium chlorate and potassium sulfate, both extracted from the salt layer located under the Atacama Salar (the Atacama Saltpeter Deposit).

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 1 - Corporate Information for Sociedad Química y Minera de Chile S.A. and Subsidiaries, continued

Other products and services: This segment includes those revenues derived from commodities, rendering of services, interests, royalties and dividends.

Note 2 - Basis of presentation for the consolidated financial statements and Summary of significant accounting policies

2.1

Periods covered

These consolidated financial statements cover the following periods:

- Consolidated classified statements of financial position as of December 31, 2011 and as of December 31, 2010.
- Consolidated statements of income by function for the periods ended December 31, 2011 and 2010.
- Consolidated statements of comprehensive income for the periods ended December 31, 2011 and 2010.
- Consolidated statements of cash flows for the periods ended December 31, 2011 and 2010.
- Consolidated statements of changes in equity for the periods ended December 31, 2011 and 2010.

2.2

Basis of preparation

The Company's annual consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (hereinafter "IFRS") and represent the integral adoption, explicit, and without reserves of the IFRS as issued by the International Accounting Standards Board (IASB).

These consolidated financial statements reflect fairly the Company's, financial position, results of its operations, comprehensive income, changes in equity and cash flows for the nine months periods ended December 31, 2011 and 2010.

IFRS establish certain alternatives for their application. Those alternative applied by the Company are detailed in this Note.

The accounting policies used in the preparation of these consolidated financial statements comply with each IFRS in force at their presentation date.

For the convenience of the reader, these consolidated financial statements and their accompanying notes have been translated from Spanish to English.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation for consolidated financial statements and Summary of significant accounting policies (continued)

2.2 Basis of preparation (continued)

a) Accounting pronouncements

As of the date of these consolidated financial statements, the following accounting pronouncements had been issued by the IASB, but their application was not mandatory, and they were not applied by the Company.

	New standards	Compulsory application as of
IAS 19	Employee Benefits	January 1, 2013
IAS 27	Separate Financial Statements	January 1, 2013
IFRS 9	Financial Instruments	January 1, 2013
		Deferred until 01de January 2015 as per amendment approved in December 2011
IFRS 10	Consolidated Financial Statements	January 1, 2013
IFRS 11	Joint Agreements	January 1, 2013
IFRS 12	Disclosure of Interests in Other Entities	January 1, 2013
IFRS 13	Fair Value Measurement	January 1, 2013

IAS 19 Reviewed “Employee Benefits”

Issued in June 2011, it replaces IAS 19 (1998). This reviewed standard modifies the recognition and measurement of expenses related to define benefit plans and termination benefits. In addition, it includes modifications to the disclosures of all employee benefits.

IAS 27 “Separate Financial Statements”

Issued in May 2011, it replaces IAS 27 (2008). The scope of this standard is restricted as of this change to only the separate financial statements, given that the matters related with the definition of control and consolidation were

removed and included in IFRS 10. Its early adoption is allowed jointly with IFRS 10, IFRS 11 and IFRS 12 and the amendment to IAS 28.

IFRS 9 “Financial Instruments”

Issued in December 2009, it amends the classification and measurement of financial assets.

Subsequently this standard was amended in November 2010 to include the treatment and classification of financial liabilities. Its early adoption is permitted.

IFRS 10 “Consolidated Financial Statements”

Issued in May 2011, it replaces SIC 12 “Consolidation of special purpose entities” and parts of IAS 27 “Consolidated Financial Statements.” It includes clarification and new parameters for the definition of control, as well as the principles for the preparation of Consolidated Financial Statements. Its early adoption is allowed jointly with IFRS 11, IFRS 12 and amendments to IAS 27 a 28.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation for consolidated financial statements and Summary of significant accounting policies (continued)

2.2 Basis of preparation (continued)

IFRS 11 “Joint Agreements”

Issued in May 2011, it replaces IAS 31 “Interests in Joint Ventures” y SIC 13 “Jointly Controlled Entities”. Among the amendments is included the elimination of the concept of jointly controlled assets and the possibility of proportional consolidation of entities under joint control. Its early adoption is allowed jointly with IFRS 10, IFRS 12 and the amendments to IAS 27 and 28.

IFRS 12 “Disclosure of Interests in Other Entities”

Issued in May 2011, it applies for those entities that hold investments in affiliates, joint ventures, associates. Its adoption is allowed jointly with IFRS 10, IFRS 11 and amendments to IAS 27 and 28

IFRS 13 “Fair value measurement”

Issued in May 2011, it consolidates in one standard the method to measure the fair value of assets and liabilities and the necessary disclosures on this, and incorporates new concepts and clarifications for its measurement.

Amendments and modifications	Compulsory application as of
IAS 1 Presentation Of Financial Statements	July 1, 2012
IAS 12 Income Taxes	January 1, 2012
IFRS 7 Financial Instruments: Disclosures	July 1, 2011
IAS 28 Investments in Associates and joint ventures	January 1, 2013

IAS 1 “Presentation Of Financial Statements”

Issued in June 2011. The main change of this amendment requires that the items of Other Comprehensive Income must be classified and grouped assessing whether they will be potentially reclassified to income in subsequent periods. Its early adoption is allowed.

IAS 12 “Income Taxes”

This amendment, issued in December 2010, grants one exception to the general principles of IAS 12 for the investment property that is measured using the fair value model contained under IAS 40 “Investment Property.” The exception also applies to Investment Property acquired as part of a business combination if after the business combination the buyer applies the fair value model contained in IAS 40. The amendment includes the assumption that the investment properties valued at fair value are realized upon their sale and therefore the temporary differences originated thereby have to be calculated using the tax rate applicable for the sale transactions. Its early adoption is allowed.

IFRS 7 “Financial Instruments: Disclosures”

Issued in October 2010, it increases the disclosure requirements for the transactions that imply transfers of financial assets.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation for consolidated financial statements and Summary of significant accounting policies (continued)

2.2

Basis of preparation (continued)

IAS 28 “Investments in Associates and Joint Ventures”

Issued in May 2011, it sets the standard for the accounting treatment of the investments through the application of the equity method. Its early adoption is allowed jointly with IFRS 10, IFRS 11 and IFRS 12 and the amendment to IAS 27.

The Company's management estimates that the adoption of standards, amendments and interpretations described above are under evaluation and it is expected that they will not have a significant impact on the Consolidated Financial Statements of the Company.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation for consolidated financial statements and Summary of significant accounting policies (continued)

2.3 Transactions in foreign currency

(a) Functional and presentation currency

The Company's consolidated financial statements are presented in United States dollars ("U.S. dollars" or "USD"), which is the Company's functional and presentation currency and is the currency of the main economic environment in which it operates.

Consequently, the term foreign currency is defined as any currency other than U.S. dollar.

The conversion of the financial statements of foreign companies with functional currency other than U.S. dollars is performed as follows:

- Assets and liabilities using the exchange rate prevailing on the closing date of the consolidated financial statements.
 - Statement of income account items using the average exchange rate for the year.
- Equity accounts are stated at the historical exchange rate prevailing at acquisition date (or at the average exchange rate for the period in which it was generated both for the case of retained earnings and for contributions made), as applicable.

Foreign currency translation differences which arise from the conversion of financial statements are recorded in the account "Foreign currency translation differences" within other comprehensive income.

(b) Basis of conversion

Domestic subsidiaries

Assets and liabilities denominated in Chilean pesos and other currencies other than the functional currency (U.S. dollar) as of December 31, 2011, and December 31, 2010, have been translated to U.S. dollars at the exchange rates prevailing at those dates. The corresponding Chilean pesos were converted at Ch\$519.20 per US\$1.00 as of December 31, 2011, and Ch\$468.01 per US\$1.00 as of December 31, 2010.

The values of the UF (a Chilean peso-denominated, inflation-indexed monetary unit) used to convert the UF denominated assets and liabilities as of December 31, 2011 amounted to Ch\$22,294.03 (US\$42.94), and as of December 31, 2010 amounted to Ch\$21,455.55 (US\$45.84).

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation for consolidated financial statements and Summary of significant accounting policies (continued)**2.3 Transactions in foreign currency, (continued)****(b) Basis of conversion, continued****Foreign subsidiaries**

The exchange rates used to translate the monetary assets and liabilities expressed in foreign currency at the closing date of each period in respect to the U.S. dollar are detailed as follows:

	12.31.2011	12.31.2010
	US\$	US\$
Brazilian Real	1.88	1.66
New Peruvian Sol	2.77	2.81
Argentinean Peso	4.30	3.98
Japanese Yen	77.74	81.49
Euro	0.77	0.75
Mexican Peso	13.98	12.38
Australian Dollar	1.03	1.01
Pound Sterling	0.64	0.64
South African Rand	8.10	6.63
Ecuadorian Dollar	1.00	1.00
Chilean Peso	519.20	468.01
UF	42.94	45.84

(c) Transactions and balances

Non-monetary transaction balances denominated in a currency other than the functional currency (U.S. dollar) are translated using the exchange rate in force for the functional currency at the transaction date. Monetary assets and liabilities denominated in a foreign currency are translated at the exchange rate of the functional currency prevailing at the closing date of the consolidated classified statement of financial position. All differences are taken to the statement of income with the exception of all monetary items that provide an effective hedge for a net investment in a foreign

operation. These items are recognized in other comprehensive income upon the disposal of the investment, at which time they are recognized in the statement of income. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation for consolidated financial statements and Summary of significant accounting policies (continued)

2.3 Transactions in foreign currency, continued

(d) Group entities

The profit or loss, assets and liabilities of all those entities with a functional currency other than the presentation currency are translated to the presentation currency as follows:

Assets and liabilities are translated at the closing date exchange rate as of the date of the consolidated statement of financial position.

- Revenue and expenses in each profit or loss account are translated at average exchange rates for the year.

All resulting foreign currency exchange differences are recognized as a component separate from other comprehensive income (the foreign currency translation difference reserve).

2.4 Basis of consolidation

(a) Subsidiaries

Subsidiaries are all those entities over which the Company has control to lead the financial and operating policies, which, in general, is accompanied by an interest of greater than half the voting rights. Subsidiaries are consolidated from the date on which control is transferred to the Company and are excluded from consolidation on the date that this control ceases to exist.

Sociedad Química y Minera de Chile S.A. and Subsidiaries**Note 2 - Basis of presentation for consolidated financial statements and Summary of significant accounting policies (continued)****2.4 Basis of consolidation (continued)****(a) Subsidiaries (continued)**

In order to recognize the acquisition of a subsidiary, the Company uses the acquisition method. Under this method, the acquisition cost is the fair value of assets delivered, of equity instruments issued and of liabilities incurred or assumed at the exchange date plus costs directly attributable to the acquisition. Identifiable assets acquired and identifiable liabilities and contingencies assumed in a business combination are initially stated at their fair value as of the acquisition date. For each business combination, the acquirer measures the non-controlling interests in the acquiree at fair value.

(**) As of December 31, 2010 the interest in Fertilizantes Naturales S.A. was of 66,67%. On December 14, 2011, Fertilizantes Naturales S.A. changed its company name to SQM Iberian S.A.

(***) This subsidiary was incorporated on April 7, 2011.

Subsidiaries are consolidated by including in the consolidated financial statements all of their assets, liabilities, revenues, expenses and cash flows upon making the respective adjustments and eliminations of intragroup operations.

The results from subsidiary companies acquired or disposed of during the year are included in consolidated statement of income accounts from the effective date of acquisition or up to the effective date of disposal, as applicable.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation for consolidated financial statements and Summary of significant accounting policies (continued)

2.4 Basis of consolidation (continued)

(a) Subsidiaries (continued)

Non-controlling interests represent the portion of subsidiary net assets and operating results not owned by the parent company.

2.5 Significant accounting judgments, estimates and assumptions

The information contained in these consolidated financial statements is the responsibility of the Company's management, who expressly indicate that they have applied all the principles and criteria included in IFRS, issued by the IASB.

In the accompanying consolidated financial statements, judgments and estimates have been made by management to quantify certain assets, liabilities, revenues, expenses and commitments recorded and or disclosed therein. Basically, these estimates include, but are not limited to, the following:

- The useful lives of tangible and intangible assets and their residual values.
- Impairment evaluations and resulting losses, if any.
- Assumptions used for the actuarial calculation of employee benefits.
- Provisions and contingent liabilities.
- Inventory provisions based on technical studies which cover the different variables affecting products in stock (density, humidity, among others) and allowances on slow-moving spare parts in inventory.
- Future costs for the closure of mining facilities.
- The determination of the fair value of certain financial and non-financial assets and derivative instruments.
- The determination and allocation of fair values in business combinations.

Although these estimates have been made considering information available as of the date of preparation of these consolidated financial statements, it is possible that events that may occur in the future could make their modification necessary in future years. Changes would be recorded prospectively, recognizing the effects of the change in estimates in the respective future consolidated financial statements.

2.6 Financial information by operating segment

IFRS 8 requires that companies adopt a “management approach” to disclose information on the operations generated by its operating segments. In general, this is the information that management uses internally for the evaluation of segment performance and making the decision on how to allocate resources for this purpose.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation for consolidated financial statements and Summary of significant accounting policies (continued)

2.6 Financial information by operating segment (continued)

An operating segment is a group of assets and operations responsible for providing products or services subject to risks and performance different from those of other business segments. A geographical segment is responsible for providing products or services in a given economic environment subject to risks and performance different from those of other segments that operate in other economic environments.

The following operating segments have been identified by the Company:

-	Specialty plant nutrients
-	Industrial chemicals
-	Iodine and derivatives
-	Lithium and derivatives
-	Potassium
-	Other products and services

The Company has not been able to allocate all assets and liabilities to each operating segment because the same productive plants and process are often related to more than one operating segment. Such assets and liabilities are classified as non-allocated in Note 26.

2.7 Property, plant and equipment

Tangible property, plant and equipment assets are stated at acquisition cost, net of the related accumulated depreciation, amortization and impairment losses that they might have experienced.

In addition to the price paid for the acquisition of tangible property, plant and equipment, the Company has considered the following concepts as part of the acquisition cost, as applicable:

Accrued interest expenses during the construction period which are directly attributable to the acquisition,
1. construction or production of qualifying assets, which are those that require a substantial period prior to being ready
for use. The interest rate used is that related to the project's specific financing or, should this not exist, the average
financing rate of the investor company.

27

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.7 Property, plant and equipment (continued)

² The present value of future costs that the Company will have to experience related to the closure of its facilities are included in the asset's cost.

Construction-in-progress is transferred to property, plant and equipment in operation once the assets are available for use and the related depreciation and amortization begins on that date.

Extension, modernization or improvement costs that represent an increase in productivity, ability or efficiency or an extension of the useful lives of property, plant and equipment are capitalized as a higher cost of the related assets. All the remaining maintenance, preservation and repair expenses are charged to expense as incurred.

Property, plant and equipment, net in the case of their residual values are depreciated using the straight-line method over its estimated useful lives. When portions of a property, plant and equipment item have different useful lives, these portions are recorded as separate items. The useful life is reviewed annually, and revised if necessary.

The useful lives used for the depreciation and amortization of assets included in property, plant and equipment are presented below.

Types of property, plant and equipment	Life	Life
Buildings	3	60
Plant and equipment	3	35
Information technology equipment	3	10
Fixed installations and accessories	3	35
Motor vehicles	5	10
Other property, plant and equipment	2	30

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.7 Property, plant and equipment (continued)

Gains or losses which are generated from the sale or disposal of property, plant and equipment are recognized as income (or loss) in the period and calculated as the difference between the asset's sales value and its net carrying value.

The Company obtains property rights and mining concessions from the Chilean State Government. Property rights are usually obtained without any initial cost (other than the payment of mining licenses and minor registration expenses) and when rights are obtained on these concessions, the Company retains them while it pays the related annual license fees. Such license fees, which are paid annually, are recorded as prepaid expenses and amortized over the following twelve month period. Amounts attributable to mining concessions acquired from other Governments or third parties, which are not from the Chilean State, are recorded at their acquisition cost in property, plant and equipment, and depreciated over their contractual lives.

2.8 Investment properties

The Company recognizes as investment properties the net values of land, buildings and other properties held which it intends to commercialize under lease agreements, or to obtain proceeds from their sale as a result of those increases generated in the future in the respective market prices. These assets are not used in the activities and are not destined for the Company's own use.

Investment properties are initially stated at acquisition cost, which includes the acquisition price or production cost plus directly assignable expenses. Subsequently, investment properties are stated at their acquisition cost less accumulated depreciation, and the possible accrued provisions for value impairment.

2.9 Inventory

The Company states inventory at the lower of cost or net realizable value. Cost includes direct costs of materials and; as applicable, labor costs, indirect costs incurred to transform raw materials into finished products, and general

expenses incurred in carrying inventory to their current location and conditions. The method used to determine the cost of inventory is weighted average cost method.

The net realizable value of inventory represents the estimate of the sales price less estimated finishing costs and costs that will be incurred in commercialization, sales and distribution processes.

Commercial discounts, rebates obtained and other similar entries are deducted in the determination of the acquisition price.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.9 Inventory (continued)

The valuation of obsolete, impaired or slow-moving products relates to their estimated net realizable value. The Company conducts an evaluation of the net realizable value of inventory at the end of each year, recording an estimate with a charge to expense when inventories are overstated. When the circumstances that previously gave rise to the write-down cease to exist, or when there is clear evidence of an increase in the net realizable value due to a change in the economic circumstances (or prices of primary raw materials), the estimate made previously is modified.

Provisions on the Company's inventory have been made based on a technical study which covers the different variables affecting products in stock (density, humidity, among others.)

2.10 Trade and other accounts receivable

Trade and other accounts receivable relate to non-derivative financial assets with fixed payments that can be determined and are not quoted in any active market. These arise from sales operations involving the products and/or services that the Company commercializes directly to its customers.

These assets are initially recognized at their fair value (which is equivalent to their face value, discounting implicit interest for installment sales) and subsequently at amortized cost according to the effective interest rate method less an accrual for impairment loss. When the face value of the account receivable does not significantly differ from its fair value, it is recognized at face value. An allowance for impairment loss is established for trade accounts receivable when there is objective evidence that the Company will not be able to collect all the amounts owed to it according to the original terms of accounts receivable.

Implicit interest in installment sales is recognized as interest income when interest is accrued over the term of the operation.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.11

Revenue recognition

Revenue includes the fair value of considerations received or receivable for the sale of goods and services during performance of the Company's activities. Revenue is presented net of value added tax, estimated returns, rebates and discounts and after the elimination of sales among subsidiaries.

Revenue is recognized when its amount can be stated reliably, it is possible that the future economic rewards will flow to the entity and the specific conditions for each type of activity -related revenue are complied with, as follows:

(a)

Sale of goods

Sales of goods are recognized when the Company has delivered products to the customer, the customer has total discretion on the distribution channel and the price at which products are sold and there is no obligation pending compliance that could affect the acceptance of products by the customer. The delivery does not occur until products have been shipped to the customer or confirmed as received by customers when the related risks of obsolescence and loss have been transferred to the customer and the customer has accepted products in accordance with the conditions established in the sale, the acceptance period has ended or there is objective evidence that those criteria required for acceptance have been met.

Sales are recognized in consideration of the price set in the sales agreement, net of volume discounts and estimated returns at the date of the sale. Volume discounts are evaluated in consideration of annual foreseen purchases and in accordance with the criteria defined in agreements.

(b)

Sales of services

Revenue associated with the rendering of services is recognized considering the degree of completion of the service as of the date of presentation of the consolidated classified statement of financial position, provided that the result from the transaction can be estimated reliably.

(c)

Interest income

Interest income is recognized when interest is accrued in consideration of the principal pending payment using the effective interest rate method.

(d)

Income from dividends

Income from dividends is recognized when the right to receive the payment is established.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.12 Investments recognized using the equity method

Interests in companies in which control is exercised together with another company (joint ventures) or in which the Company has significant influence (associated companies) are recorded using the equity method. Significant influence is assumed to exist when the Company has interest exceeding 20% of the investee's equity.

Under this method, the investment is recognized in the consolidated classified statement of financial position at cost plus changes subsequent to the acquisition in an amount proportional to the net associated company's equity using the ownership interest in the associate. The associated goodwill is included at the carrying value of the investee, and it is not subject to amortization. The debit or credit to profit or loss reflects the proportional amount in the associated companies' results for the reporting period.

Unrealized profit on transactions with associates and subsidiaries are eliminated in consolidation of the ownership percentage that the Company has on these entities.

Unrealized losses are also eliminated unless the transaction provided evidence of loss from impairment of the assets transferred.

Changes in equity of the associates are recognized proportionally with a debit or credit to "Other reserves" and classified according to their origin.

The associated companies and the Company's reporting dates and policies are similar for equivalent transactions and events under similar circumstances.

In the event that significant influence is lost or the investment is sold or is available-for-sale, the equity value method is discontinued, suspending the recognition of proportional income.

If the resulting amount according to the equity method is negative, the Company's equity interest is reduced to zero in the consolidated classified statement of financial position unless the Company has a contractual commitment to resolve the equity position. In this case, the respective provision for risks and expenses is recorded.

Dividends received in these companies are recorded by reducing the equity value and proportional profit or loss recognized in conformity with their interest, and are included in the consolidated statement of income under the caption "Equity in income (losses) of associates and joint ventures accounted for using the equity method".

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.13

Income Tax

Corporate income tax for the year is determined as the sum of current taxes from the different consolidated companies. Current taxes are based on the application of the various types of taxes attributable to taxable income for the year.

Differences between the book value of assets and liabilities and their tax basis generate the balance of deferred tax assets or liabilities, which are calculated using the tax rates expected to be applicable when the assets and liabilities are realized.

In conformity with current Chilean tax regulations, the provision for corporate income tax and taxes on mining activity is recognized on an accrual basis, presenting the net balances of accumulated monthly tax provisional payments for the fiscal period and associated credits. The balances of these accounts are presented in current income taxes recoverable or current taxes payable, as applicable.

Tax on companies and variations in deferred tax assets or liabilities that are not the result of business combinations are recorded in statement of income accounts or equity accounts in the consolidated classified statement of financial position, considering the origin of the gains or losses which have generated them.

As of the date of these consolidated financial statements, the carrying value of deferred tax assets has been reviewed and reduced to the extent their will not be sufficient taxable income to allow the recovery of all or a portion of the deferred tax assets. Likewise, as of the date of the consolidated financial statements, deferred tax assets that are not recognized are were evaluated and not recognized as it was not more likely than not that future taxable income will allow for recovery of the deferred tax asset.

With respect to deductible temporary differences associated with investments in subsidiaries, associated companies and interest in joint ventures, deferred tax assets are recognized solely provided that it is more likely than not that the temporary differences will be reversed in the near future and that there will be taxable income with which they may be

used.

The deferred income tax related to entries directly recognized in equity is recognized with an effect on equity and not with an effect on profit or loss.

Deferred tax assets and liabilities are offset if there is a legally receivable right of offsetting tax assets against tax liabilities and the deferred tax is related to the same tax entity and authority.

2.14

Earnings per share

The basic earnings per share amounts are calculated by dividing profit for the year attributable to ordinary owners of the parent by the weighted average number of ordinary shares outstanding during the year.

The Company has not conducted any type of operation of potential dilutive effect that assumes diluted earnings per share other than the basic earnings per share.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles, continued

2.15 Non-financial asset value impairment

Assets subject to depreciation and amortization are subject to impairment testing, provided that an event or change in the circumstances indicates that the amounts in the accounting records may not be recoverable. An impairment loss is recognized for the excess of the book value of the asset over its recoverable amount.

The recoverable amount of an asset is the higher between the fair value of an asset or cash generating unit (“CGU”) less costs of sales and its value in use, and is determined for an individual asset unless the asset does not generate any cash inflows that are clearly independent from other assets or groups of assets.

When the carrying value of an asset exceeds its recoverable amount, the asset is considered an impaired asset and is reduced to its net recoverable amount.

In evaluating value in use, estimated future cash flows are discounted using a discount rate before taxes which reflects current market evaluation on the time value of money and specific asset risks.

An appropriate valuation model is used to determine the fair value less selling costs. These calculations are confirmed by valuation multiples, quoted share prices for subsidiaries quoted publicly or other available fair value indicators.

Impairment losses are recognized as expense, except for properties reevaluated previously where the revaluation was taken to equity. In this case impairment is also recognized with a debit to equity up to the amount of any previous revaluation.

For assets other than acquired goodwill, an annual evaluation is conducted of whether there is impairment loss indicators recognized previously that might have already ceased to exist or decreased. The recoverable amount is estimated if such indicators exist. An impairment loss previously recognized is reversed only if there have been

changes in estimates used to determine the asset's recoverable amount from the last time in which an impairment loss was recognized. If this is the case, the carrying value of the asset is increased to its recoverable amount. This increased amount cannot exceed the carrying value that would have been determined net of depreciation if an asset impairment loss would have not been recognized in prior years. This reversal is recognized with a credit to profit or loss unless an asset is recorded at the revalued amount. Should this be the case, the reversal is treated as an increase in revaluation.

As of December 30, 2011, and December 31, 2010, the Company is not aware of any indicators of impairment with respect to its depreciated assets.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.16

Financial assets

The Company classifies its financial assets under the following categories: at fair value through profit or loss, loans and accounts receivable, financial assets held-to-maturity and financial assets available-for-sale. The classification depends on the purpose for which financial assets were acquired. Management determines the classification of its financial assets at the time of initial recognition.

The Company assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of assets is deemed to be impaired if and only if there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred “loss event”) and that loss event has an impact on the estimated future cash flow of the financial asset or the group of financial assets that can be reliably estimated.

(a) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if it is acquired mainly for the purpose of being sold in the short-term. Derivatives are also classified as acquired for trading unless they are designated as hedge accounts. Assets under this category are classified as current assets and variations generated in fair value are directly recognized in profit or loss.

(b) Loans and accounts receivable

Loans and accounts receivable are non-derivative financial assets with fixed payments or payments that can be determined and are not quoted in any active market. These are included in current assets, except for those with expiration dates exceeding 12 months from the closing date, which are classified as non-current assets. Loans and accounts receivable are included under the caption “Trade and other accounts receivable” in the consolidated classified statement of financial position and are stated at amortized cost. The subsequent measurement at amortized cost is calculated using the effective interest rate method less impairment.

(c) Financial assets held-to-maturity

Financial assets held-to-maturity are non-derivative financial assets with fixed payments or payments that can be determined and fixed expiration dates which management has the positive intention and ability of holding to maturity. If a significant amount of financial assets held to maturity were to be sold, the full category would be reclassified as available for sale. Assets in this category are stated at amortized cost.

(d) Financial assets available for sale

Financial assets available for sale are non-derivative instruments that have been designated in this category or are not classified in any of the other categories. They are included in non-current assets unless the Company intends to dispose of the investment in the 12 months following the closing date. These assets are stated at fair value, recognizing in other comprehensive income those variations in fair value.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.17

Financial liabilities

The Company classifies its financial liabilities under the following categories: at fair value through profit or loss, trade accounts payable, interest-bearing loans or derivatives designated as hedging instruments.

The Company's management determines the classification of its financial liabilities at the time of initial recognition.

Financial debt obligations are recorded at nominal value and as non-current when maturity is over twelve months and as current when maturity is less than twelve months. Interest expenses are recorded the year in which they are accrued under a financial approach.

In accordance with IAS 32 and 39, debt-related expenses are accounted for in the accompanying consolidated classified statements of financial position, deducting the associated debt and are imputed to the results of the year within the life of the debt using the effective interest rate method.

Financial liabilities are derecognized when the obligation is repaid, settled or it expires.

(a) Financial liabilities at fair value through profit or loss

Financial liabilities are classified at fair value when these are held for trading or designated in their initial recognition at fair value through profit or loss. This category includes derivative instruments not designated for hedge accounting.

(b) Trade accounts payable

Trade accounts payable to suppliers are subsequently stated at their amortized cost using the effective interest rate method.

(c)

Interest-bearing loans

Loans are subsequently stated at amortized cost using the effective interest rate method. Amortized cost is calculated considering any premium or discount from the acquisition and includes costs of transactions which are an integral part of the effective interest rate.

2.18

The environment

In general, the Company follows the criteria of considering amounts used in environmental protection and improvement as environmental expenses. However, the cost of facilities, machinery and equipment used for the same purpose are considered property, plant and equipment.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.19

Minimum dividend

According to the Corporations Act, a publicly traded corporation must pay dividends according to the policy deduced in the General Shareholders' Meeting of each year, with a minimum of 30% of the net income of the year if the corporation does not have retained losses from prior years, unless it is otherwise decided with the unanimous vote of the issued and subscribed shares.

2.20

Consolidated statement of cash flows

Cash equivalents relate to short-term, highly liquid investments that are readily convertible into known amounts of cash and are subject to low risk of change in value, and that expire in less than three months. This classification also applies to mutual funds classified as cash equivalents.

The statement of cash flows includes cash movements performed during the year, determined using the indirect method.

2.21

Obligations related to employee termination benefits and pension commitments

Obligations with the Company's employees are in accordance with that established in the collective bargaining agreements in force formalized through collective employment agreements and individual employment contracts. In the case of the United States employees, certain obligations are in accordance with the related pension plan, valid until the year 2002.

These obligations are valued using actuarial calculations, which consider such hypotheses as the mortality rate, employee turnover, interest rates, retirement dates, effects related to increases in employees' salaries, as well as the effects on variations in services derived from variations in the inflation rate.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.21 Obligations related to employee termination benefits and pension commitments (continued)

Actuarial losses and gains that may be generated by variations in previously defined obligations are directly recorded in consolidated statement of income.

Actuarial losses and gains have their origin in deviations between the estimate and the actual behavior of actuarial hypotheses or in the reformulation of established actuarial hypotheses.

The discount rate used by the Company for calculating the obligation was 6% for the periods ended December 31, 2011 and December 31, 2010.

The Company's affiliate SQM North America has established pension plans for its retired employees that are calculated by measuring the projected obligation using a net salary progressive rate net of adjustments for inflation, mortality and turnover assumptions, deducting the resulting amounts at present value using a 6.5% interest rate. The net balance of this obligation is presented in the category called non-current accruals for employee benefits.

2.22 Financial derivatives and hedge transactions

Derivatives are recognized initially at fair value as of the date in which the derivatives contract is signed and subsequently they are valued at fair value at each period end. The method for recognizing the resulting loss or gain depends on whether the derivative has been designated as an accounting hedge instrument and if so, it depends on the type of hedging, which may be as follows:

(a) Fair value hedge of assets and liabilities recognized (fair value hedges);

(b)

Hedging of a single risk associated with an asset or liability recognized or a highly possible foreseen transaction (cash flow hedge);

At the beginning of the transaction, the Company documents the relationship existing between hedging instruments and those entries hedged, as well as their objectives for risk management purposes and the strategy to conduct different hedging operations.

The Company also documents its evaluation both at the beginning and the end of each period of whether derivatives used in hedging transactions are highly effective to offset changes in the fair value or in cash flows of hedged entries.

The fair value of derivative instruments used for hedging purposes is shown in Note 8.3. Movements in the cash flow hedge reserve (other comprehensive income) are classified as a non-current asset or liability if the remaining expiration period of the hedged item is higher than 12 months and as a current asset or liability if the remaining expiration period of the entry is lower than 12 months.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.22 Financial derivatives and hedge transactions (continued)

Financial derivatives are classified as a current asset or liability, and the change in their fair value is recognized directly in profit or loss.

(a) Fair value hedge

The change in the fair value of a derivative is recognized with a debit or credit to profit or loss, as applicable. The change in the fair value of the hedged entry attributable to hedged risk is recognized as part of the carrying value of the hedged entry and is also recognized with a debit or credit to profit or loss.

For fair value hedging related to items recorded at amortized cost, the adjustment of the fair value is amortized against income during the period through maturity. Any adjustment to the carrying value of a hedged financial instrument for which the effective rate is used is amortized with a debit or credit to profit or loss at its fair value attributable to the risk being covered.

If the hedged entry is derecognized, the fair value not amortized is immediately recognized with a debit or credit to profit or loss.

(b) Cash flow hedges

The effective portion of gains or losses from the hedge instrument is initially recognized with a debit or credit to other comprehensive income, whereas any ineffective portion is immediately recognized with a debit or credit to income, as applicable.

Amounts taken to equity are transferred to profit or loss when the hedged transaction affects income for the year, as when the hedged interest income or expense is recognized when a forecasted sale occurs. When the hedged entry is the cost of a non-financial asset or liability, amounts taken to equity are transferred to the initial carrying value of the non-financial asset or liability.

Should the expected firm transaction or commitment no longer be expected to occur, the amounts previously recognized in other comprehensive income are transferred to income. If a hedge instrument expires, is sold, finished, and exercised without any replacement, or if a rollover is performed or if its designation as hedging is revoked, the amounts previously recognized in equity are maintained in shareholders' equity until the expected firm transaction or commitment occurs.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.23

Leases

(a)

Leases - Finance lease

Leases are classified as finance leases when the Company holds substantially all the risks and rewards derived from the ownership. Finance leases are capitalized at the beginning of the lease at the lower of the fair value of the leased asset or the present value of minimum lease payments.

Each lease payment is distributed between the liability and the interest expenses to obtain ongoing interest on the pending balance of the debt. The respective lease obligations, net of interest expense, are included in other non-current liabilities. The interest element of finance cost is debited in the consolidated statement of income during the lease period so that a regular ongoing interest rate is obtained on the remaining balance of the liability for each year. The asset acquired through a finance lease is subject to depreciation over the lesser value of its useful life or the life of the agreement.

(b)

Lease - Operating lease

Leases in which the lessor maintains a significant part of the risks and rewards derived from the ownership are classified as operating leases. Operating lease payments (net of any incentive received from the lessor) are debited to the statement of income or capitalized (as applicable) on a straight-line basis over the lease period.

2.24

Prospecting expenses

Those prospecting expenses associated with mineral reserves being exploited are included under Inventory and amortized according to the estimated mineral content reserves. Prospecting expenses associated with future mineral reserves are presented under other non-financial assets as and when minerals included in the future reserve have caliche ore-grade, which makes the mining property economically commercializable.

Those expenses incurred on mining properties in which the product has a low caliche ore-grade that is not economically commercializable, are directly charged to income.

2.25

Other provisions accrued expenses

Provisions are recognized when:

- * The Company has a present obligation as the result of a past event.
- * It is more likely than not that certain resources must be used, including benefits, to settle the obligation.
- * A reliable estimate can be made of the amount of the obligation.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.25 Other provisions accrued expenses (continued)

In the event that the provision or a portion of it is reimbursed, the reimbursement is recognized as a separate asset solely if there is certainty of income.

In the consolidated statement of income, the expense for any provision is presented net of any reimbursement.

Should the effect of the time value of money be significant, provisions are discounted using a discount rate before taxes that reflects the liability's specific risks. When a discount rate is used, the increase in the provision over time is recognized as a finance cost.

The Company's policy is maintaining accruals to cover risks and expenses based on a better estimate to deal with possible or certain and quantifiable responsibilities from current litigation, compensations or obligations, pending expenses for which the amount has not yet been determined, collaterals and other similar guarantees for which the Company is responsible. These are recorded at the time the responsibility or the obligation that determines the compensation or payment is generated.

The Company determines and recognizes the cost related to employee vacation on an accrual basis.

2.26 Compensation plans

Compensation plans implemented through benefits in share-based payments settled in cash, which have been provided, are recognized in the financial statements at their fair value, in accordance with International Financial Reporting Standard No. 2 "Share-based payments". Variations in the fair value of options granted are recognized with a charge to wages on a straight-line basis during the period between the date on which these options are granted and the

payment date. (See Note N°16).

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.27 Goods and service insurance expenses

Payments for the different insurance policies which the Company contracts are recognized in expenses considering the proportional amount related to the time that they cover, regardless of payment terms. Amounts paid and not consumed are recognized as prepaid expenses within current assets.

Costs of claims are recognized in profit or loss immediately after they become known, net of recoverable amounts from insurance companies. Recoverable amounts are recorded as a reimbursable asset from the insurance company under "Trade and other accounts receivable", calculated as established in the respective insurance policies.

2.28

Intangible assets

Intangible assets mainly relate to goodwill acquired, water rights, trademarks, and rights of way related to electric lines and development expenses, and computer software licenses.

(a)

Goodwill acquired

Goodwill acquired represents the excess in acquisition cost on the fair value of the Company's ownership of the net identifiable assets of the subsidiary on the acquisition date. Goodwill acquired related to acquisitions of subsidiaries is included in intangible assets, which is subject to value impairment tests annually and is stated at cost plus accumulated impairment losses. Gains and losses related to the sale of an entity include the carrying value of goodwill related to the entity sold.

This intangible asset is assigned to cash generating units with the purpose of testing impairment losses. It is allocated based on cash generating units expected to obtain benefits from the business combination from which the

aforementioned goodwill acquired arose.

(b)

Water rights

Water rights acquired by the Company relate to water from natural sources and are recorded at acquisition cost. Given that these assets represent rights granted on a perpetual basis to the Company, these are not amortized. However, they are subject to an impairment assessment on an annual basis.

(c)

Right of way for electric lines

As required for the operation of industrial plants, the Company has paid rights of way in order to install wires for the different electric lines in third party land. These rights are presented under Intangible assets. Amounts paid are capitalized at the date of the agreement and charged to income according to the life of the right of way.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 2 - Basis of presentation of consolidated financial statements and Summary of significant accounting principles (continued)

2.28 Intangible assets (continued)

(d) Computer software

Licenses for IT programs acquired are capitalized based on costs that have been incurred to acquire them and prepare them to use the specific program. These costs are amortized over their estimated useful lives.

Expenses related to the development or maintenance of IT programs are recognized as an expense as and when incurred. Costs directly related to the production of unique and identifiable IT programs controlled by the Group and which probably will generate economic benefits that are higher than costs during more than a year, are recognized as intangible assets. Direct costs include expenses incurred for employees who develop IT programs and an adequate percentage of general expenses.

The costs of development for IT programs recognized as assets are amortized over their estimated useful lives.

No impairment of intangible assets exists as of December 31, 2011 and December 31, 2010.

2.29 Research and development expenses

Research and development expenses are expensed in the period in which the disbursement is made, with the exception of property, plant and equipment acquired for use in research and development, which are recognized in the accounting under the respective item within property, plant and equipment.

2.30 Classification of balances as current and non-current

In the attached statement of financial position, balances are classified in consideration of their remaining recovery (maturity) dates; i.e., those maturing on a date equal to or lower than twelve months are classified as current and those with maturity dates exceeding the aforementioned period are classified as non-current.

The exception to the foregoing relates to deferred taxes, which are classified as non-current, regardless of the anticipated recovery date.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 3 - Financial Risk Management, Objectives and Policies

3.1

Risk management policy

The Risk Management Policy of the company is oriented towards safeguarding the stability and sustainability of Sociedad Química y Minera de Chile S.A. and Subsidiaries in relation to all such relevant financial uncertainty components.

The operations of the Company are subject to certain risk factors that may affect the financial position or results of the same. Among these risks, the most relevant are market risk, liquidity risk, foreign exchange rate risk, bad debt risk, and interest rate risk.

There may be additional risks that might also affect the commercial operations, the business, the financial position or the results of the Company, but at this time they are not significant.

The financial risk management structure includes identifying, determining, analyzing, quantifying, measuring and controlling these events. The Management, in particular the Finance Management, is responsible for constantly assessing the financial risk. The Company uses derivatives to cover a significant portion of these risks.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 3 - Financial Risk Management, Objectives and Policies (continued)

3.2 Risk factors

3.2.1 Market risk

Market risks are those uncertainties associated with fluctuations of market variables that affect the assets and liabilities of the Company, such as:

a) Country risk

The economic position of the countries where the Company has a presence may affect its financial position. For example, the sales carried out in emerging markets expose SQM to risks related to economic conditions and trends in those countries. On the other hand, inventories may also be affected by the economic situation of these countries and/or the global economy, amongst other probable economic impacts.

b) Price volatility risk

The prices of the products of the Company are affected by the fluctuations of international prices of fertilizers and chemical products and changes in productive capacities or market demand, all of which might affect the Company's business, financial condition and operational results.

c) Commodities price risk

The Company is exposed to changes in the prices of raw materials and energy which may have an impact on its production costs, thus giving rise to instability in the results.

At present, the Company has a direct annual expense close to US\$110 million on account of petrol, gas and equivalents and close to US\$ 50 million on account of electricity. Variations of 10% in the prices of energy the Company requires to operate, may involve in the short term movements in costs amounting to US\$16.5 million.

3.2.2 Doubtful accounts risk

A contraction of the global economy and the potentially negative effects in the financial position of our clients may extend the accounts receivable collection time for SQM, increasing the bad debt exposure. While measures have been taken in order to minimize risk, the global economy may trigger losses that might have a material adverse effect on the business, financial position or the results of the Company's operations.

As a way to mitigate these risks, SQM actively controls debt collection and uses measures such as, loan insurance, letters of credit, and prepayments with regard to some accounts receivable.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 3 - Financial Risk Management, Objectives and Policies (continued)

3.2 Risk factors (continued)

3.2.3 Foreign exchange risk

As a result of the influence in the price determination, of its relationship with sales costs and since a significant part of the business of the Company is carried out in that foreign currency, the functional currency of SQM is the United States dollar. However, the global business activities of the Company expose the same to the foreign exchange fluctuations of several currencies with respect to the US dollar. Therefore, SQM has hedge contracts to ensure its main mismatches (assets net of liabilities) in currencies other than the US dollar against the foreign exchange fluctuation. Those contracts are periodically up-dated depending upon the mismatch amount to be covered in these currencies.

A significant portion of the costs of the Company, particularly wages, is related to the Chilean peso. Therefore, an increase or decrease in the exchange rate against the dollar would affect the net income of MCS. Approximately US\$ 400 million cost of the Company are related to the Chilean peso. The effect of such obligations in the balance is covered by operations of derivative instruments that hedge the mismatch of balance in this currency.

At December 31, 2010, the Company had derivative instruments classified as hedging currency and interest rate associated with all the obligations denominated bonds both in Chilean pesos and UF, with a fair value of \$ 97,5 million. At December 31, 2011, this value amounts to US\$ 56.1 million, both for SQM.

On December 31, 2011, the Chilean peso to US dollar parity was of Ch\$ 519.20 for US\$ 1, and at December 31, 2010 it was of Ch\$ 468.01 for US\$ 1.

3.2.4 Interest rate risk

Interest rate fluctuations, due to the uncertain future behavior of markets, may have a material impact on the financial results of the Company.

The Company has short and long term debts valued at LIBOR plus a spread. The Company is partially exposed to fluctuations of said rate, as SQM currently holds hedging derivative instruments to hedge a portion of its liabilities subject to the LIBOR rate fluctuations.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 3 - Financial Risk Management, Objectives and Policies (continued)

3.2 Risk factors (continued)

3.2.4 Interest rate risk (continued)

As of December 31, 2011, approximately 28% of the Company's financial obligations included current portion valued at LIBOR, therefore significant increases in the rate may impact its financial position. A 100 point variation on this rate may trigger variations in the financial expenses close to US\$ 3.7 million. Notwithstanding, this effect is significantly counterbalanced by the returns of the Company's investments that also relate to LIBOR.

In addition, as of December 31, 2011, the Company's financial debt is mainly in the long-term, with 11% with maturities under 12 months which decreases the exposure to changes in the interest rates.

3.2.5 Liquidity risk

Liquidity risk is related to the fund requirements to comply with payment obligations. The object of the Company is to keep financial flexibility by comfortably balancing the fund requirements and the flows from the regular business conduct, bank loans, public bonds, short term investments, and negotiable instruments, amongst other.

The company has an important capital expense program which is subject to change over time.

On the other hand, world financial markets go through contraction and expansion periods that are not foreseeable in the long term and may affect SQM's access to financial resources. These factors may have a material adverse impact on the business, financial position, and operational results of the Company.

SQM constantly monitors that its obligations and investments match, taking care as part of its financial risk management strategy of the obligations and investments maturities from a conservative perspective. As of December 31, 2011, the Company had non-committed and available bank credit lines for a total of US\$ 611 million, in addition to committed bank lines for US\$ 40 million, available in case additional resources are needed.

The position in other cash and cash equivalents so generated by the Company is invested in highly liquid mutual funds which have an AAA risk rating.

3.3

Risk measurement

The Company has methods to measure the effectiveness and efficiency of risk strategies, both prospectively and retrospectively. Those methods are consistent with the risk management profile of the Group.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 4 - Changes in accounting estimates and policies (Uniformity)

4.1 Changes in accounting estimates

There are no changes in accounting estimates as of the closing date of the consolidated financial statements.

4.2 Changes in accounting policies

As of December 31, 2011, the Company's consolidated financial statements present no changes in accounting policies or estimates compared to the prior period or the transaction date.

The consolidated classified statements of financial position as of December 31, 2011 and as of December 31, 2010 and the statements of income, comprehensive income, equity and cash flows for the periods ended December 31, 2011 and December 31, 2010, have been prepared in accordance with IFRS, and accounting principles and criteria have been applied consistently.

Sociedad Química y Minera de Chile S.A. and Subsidiaries**Note 5 - Cash and cash equivalents****5.1 Types of cash and cash equivalents**

As of December 31, 2011 and December 31, 2010, cash and cash equivalents are detailed as follows:

Cash and cash equivalents	12.31.2011 ThUS\$	12.31.2010 ThUS\$
Cash on hand	73	83
Bank balances	37,950	24,267
Short-term time deposits	263,396	375,057
Other cash and cash equivalents	143,573	125,245
Cash and cash equivalents	444,992	524,652

5.2 Other cash and cash equivalents

As of December 31, 2011, and December 31, 2010, other cash and cash equivalents relate to mutual fund units for investments made in:

Institution	12.31.2011 ThUS\$	12.31.2010 ThUS\$
Legg Mason Western Asset Institutional Liquid Reserves	47,162	52,576
BlackRock Institutional cash series Plc	48,025	36,712
JP Morgan US dollar Liquidity Fund Institutional	48,386	35,957
Total	143,573	125,245

These other cash equivalents are highly liquid fund manager accounts that are basically invested in short-term fixed rate notes in the U.S. market.

Sociedad Química y Minera de Chile S.A. and Subsidiaries

Note 5 - Cash and cash equivalents (continued)

5.3 Information on cash and cash equivalents by currency

Cash and cash equivalents are classified by currency as follows:

Original currency	12.31.2011 ThUS\$	12.31.2010 ThUS\$
Chilean Peso	123,265	331,011
US Dollar	297,257	176,703
Euro	16,343	6,784
Mexican Peso	29	102
South African Rand	5,450	8,776
Japanese Yen	2,292	1,192
Peruvian Sol	16	13
Brazilian Real	21	21
Chinese Yuan	300	40
Indonesian rupee	5	5
Pound sterling	14	5
Totals	444,992	524,652

5.4 Amount of significant restricted (unavailable) cash balances

Cash on hand and in current bank accounts are available resources, and their carrying value is equal to their fair value.

As of December 31, 2011 and December 31, 2010, the Company has no significant cash balances with any type of restriction.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 5 - Cash and Cash Equivalents (continued)

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Nota 6 - Inventory

The composition of inventory is detailed as follows:

Type of inventory	12.31.2011 ThUS\$	12.31.2010 ThUS\$
Raw materials	10,111	7,120
Supplies for production	31,602	21,398
Products-in-progress	355,894	291,536
Finished products	346,795	285,047
Total	744,402	605,101

Inventory reserves recognized as of December 31, 2011 amount to ThUS\$58,220, as of December 31, 2010 amounted to ThUS\$63,597. Inventory reserves have been made based on a technical study that covers the different variables affecting products in stock (density, humidity, among others.) Additionally, reserves have been recognized for lower prices on the sale of products and inventory difference.

As of December 31, 2011 the sum registered as cost of sale related to inventory in the statement of income amounts to ThUS\$1,016,119 and as of December 31, 2010 to ThUS\$902,961.

The breakdowns of inventory reserves are detailed as follows:

Type of Inventory	12.31.2011 ThUS\$	12.31.2010 ThUS\$
Raw materials reserves	593	593
Supplies for production reserves	500	500
Products-in-progress reserves	33,811	43,115
Finished products reserves	23,316	19,389
Total	58,220	63,597

The Company has not delivered inventory as collateral for the periods indicated above.

Note 7 - Related Party Disclosures

7.1 Related party disclosures

Balances pending at each period-end are not guaranteed, accrue no interest and are settled in cash. No guarantees have been delivered or received for trade and other accounts receivable from related parties or trade and other accounts payable to related parties. For the period ended December 31, 2011, the Company has not recorded any impairment in accounts receivable related to amounts owed by related parties. This evaluation is conducted every year through an examination of the financial position of the related party in the market in which it operates.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 7 - Related Party Disclosures (continued)

7.2 Relationships between the parent company and the entity

According to the Company's by-laws, no shareholder can own more than 32% of the Company's voting shares.

Sociedad de Inversiones Pampa Calichera S.A., Potasios de Chile S.A., and Global Mining Investments (Chile) S.A., collectively the Pampa Group, are the owners of a number of shares that are equivalent to 31.97% of the current total amount of shares issued, subscribed and paid of the Company. In addition, Kowa Company Ltd., Inversiones La Esperanza (Chile) Limitada, Kochi S.A. and La Esperanza Delaware Corporation, collectively the Kowa Group, are the owners of a number of shares equivalent to 2.08% of the total amount of shares of SQM S.A. issued, subscribed and paid.

The Pampa Group and the Kowa Group have informed SQM S.A., the Chilean SVS and the pertinent stock exchanges in Chile and abroad that they are not and have never been related parties between them. In addition, this is regardless of the fact that both Groups on December 21, 2006 have subscribed an Agreement of Joint Action (*AAC as per its acronym in Spanish*) with regards to those shares. Consequently, the Pampa Group, by itself, does not concentrate more than 32% of the voting rights capital of SQM S.A., and the Kowa Group does not concentrate by itself more than 32% of the voting rights capital of SQM S.A.

Likewise, the Agreement of Joint Action has not transformed the Pampa Group and the Kowa Group into related companies. The agreement of Joint Action has only transformed the current controller of SQM S.A., composed of the Pampa Group, and the Kowa Group into related parties of SQM S.A.

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 7 - Related Party Disclosures (continued)

7.8 Board of directors and senior management

1) **Board of directors**

The Company is managed by a Board of Directors which is composed of eight regular directors who are elected for a three-year period. The present Board of Directors was elected by the shareholders at the Ordinary Shareholders' Meeting of April 28, 2011.

As of December 31, 2011, the Company has an Audit Committee made up of three members of the Board of Directors. This Committee performs those duties provided in Article 50 bis of Law No. 18,046.

During the periods covered by these consolidated financial statements, there are no pending balances receivable and payable between the Company, its directors or members of Senior Management other than those related to remuneration, fee allowances and profit participation. In addition, there were no transactions conducted between the Company, its directors or members of Senior Management.

2) **Directors' Compensation**

2.1 Compensation for 2011

2.1.1 Board of Directors

Directors' compensation is detailed as follows:

A payment of a monthly fixed gross amount of UF 300 in favor of the Chairman of the Company's Board of Directors and UF 50 in favor of the seven remaining board members regardless of their attendance at Board meetings or the number of meetings attended.

A payment in domestic currency in favor of the Chairman of the Company's Board of Directors consisting of a variable and gross amount equivalent to 0.35% of total net for the period effectively earned by the Company during fiscal year 2011.

A payment in domestic currency in favor of each Company's directors excluding the Chairman of the Board, consisting of a variable and gross amount equivalent to 0.04% of total net income for the year effectively earned by the Company during fiscal year 2011.

The fixed and variable amounts indicated above will not be subject to any charge between them, and those expressed as a percentage will be paid immediately after the shareholders at the respective Annual General Shareholders' Meeting of the Company approve the statement of financial position (balance sheet), the financial statements, the annual report, the report by the account inspectors and the report of external auditors for the fiscal year ending December 31, 2011.

Therefore, the remunerations and profit sharing paid to members of the Board of Directors and Audit Committee during 2011 amount to ThUS\$3,030.

60

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 7 - Related Party Disclosures (continued)

2) Directors' Compensation

2.1.2 Audit Committee

The remuneration of the Audit Committee is detailed as follows:

a) A payment of a monthly, fixed and gross amount of UF 17 in favor of each of the three Directors who are a part of the Company's Audit Committee regardless of the number of meetings conducted during the respective month.

b) A payment in domestic currency and in favor of each of the three Directors of a variable and gross amount equivalent to 0.013% of the Company's total net income for the year effectively earned by the Company during fiscal year 2011.

2.2 Compensation for 2010

2.2.1 Directors' Compensation and Committee

The remuneration of Directors is composed of:

a) A payment of a monthly fixed gross amount of UF 300 in favor of the Chairman of the Company's Board of Directors and UF 50 in favor of the seven remaining board members regardless of their attendance at Board meetings or the number of meetings attended during the related month.

b) A payment in domestic currency in favor of the Chairman of the Company's Board of Directors consisting of a variable and gross amount equivalent to 0.35% of total net income for the period effectively earned by the Company

during fiscal year 2010.

A payment in domestic currency in favor of each Company's directors excluding the Chairman of the Board, c) consisting of a variable and gross amount equivalent to 0.04% of total net income for the year effectively earned by the Company during fiscal year 2010.

The fixed and variable amounts indicated above will not be subject to any charge between them, and those expressed as a percentage will be paid immediately after the shareholders at the respective Annual General d) Shareholders' Meeting of the Company approve the statement of financial position (balance sheet), the financial statements, the annual report, the report by the account inspectors and the report of external auditors for the fiscal year ending December 31, 2010.

Therefore, the remunerations and profit sharing paid to members of the Board of Directors and Audit Committee e) during 2010 amount to ThUS\$ 2,869.

2.2.2 Audit Committee

The remuneration of Directors Committee is composed of:

a) A payment of a monthly, fixed and gross amount of UF 17 in favor of each of the three Directors who are a part of the Company's Audit Committee regardless of the number of meetings conducted during the respective month.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 7 - Related Party Disclosures (continued)

2.2.2 Directors Committee (continued)

A payment in domestic currency and in favor of each of the three Directors of a variable and gross amount b) equivalent to 0.013% of the Company's total net income for the year effectively earned by the Company during fiscal year 2010.

3) No guarantees have been constituted in favor of the Directors.

4) Senior Management remuneration

As of December 31, 2011, the global remuneration paid to the 114 main executives amounts to ThUS\$ 22,509 (ThUS\$ 21,809 as of December 31, 2010). This includes monthly fixed salary and variable performance bonuses.

The Company has a bonuses intermediate and bi-intermediate plan for compliance target and level of individual contribution to the Company's results. These benefits are structured in a minimum and maximum of gross remunerations which are paid once a year or every two years.

5) Additionally, the Company has retention bonuses for the Company's executives. The amount of these bonuses is linked to the price of the Company's share and is payable in cash between 2012 and 2016 (See Note 16).

6) No guarantees have been constituted in favor of the Company's management.

The Company's Managers and Directors do not receive or have not received any benefit during the period ended as 7) of December 31, 2011 or compensation for the concept of pensions, life insurance, paid time off, profit sharing, incentives, or benefits due to disability other than those mentioned in the preceding points.

One of the Company's Board of Directors is member of the Ultramar Group. During the period ended December 31, 2011, the amount of operations with this Group is approximately ThUS\$13,751 (ThUS\$ 11,532 as of December 31, 2010).

9) The Company currently maintains financial operations with BCI Bank (Banco de Crédito e Inversiones). A member of the Company's Board of Directors also belongs to the Board of Directors of BCI Bank.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Allowance for doubtful accounts	(18,673)	(18,882)
Receivables that are neither overdue or considered impaired in value	348,977	307,416

8.3 Assets and Liabilities Coverage

The balance represents derivative instruments measured at fair value which have been classified as hedges from exchange and interest rate risks related to the total obligations relating to bonds of the Company in Chilean pesos and UF. As of December 31, 2011 the nominal value of flows in Cross Currency Swap contracts agreed upon in US dollars amounted to ThUS\$ 405,486 as of December 31, 2010 such contracts amounted to ThUS\$ 410,618.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 8 - Financial Instruments (continued)

8.3 Assets and Liabilities Coverage (continued)

The balances in the effect on profit or loss column consider the interim effects of the contracts in force as of December 31, 2011 at December 31, 2010.

Derivative contract maturities are detailed as follows:

Series	Contract		
	Amount	Currency	Expiration Date
	ThUS\$		
C	76,972	UF	12.01.2026
G	33,673	Chilean peso	01.05.2014
H	146,360	UF	01.05.2013
I	56,041	UF	04.01.2014
J	92,440	Chilean peso	04.01.2014

The Company uses cross currency swap derivative instruments to hedge the possible financial risk associated with the volatility of the exchange rate associated with Chilean pesos and UF. The objective is to hedge the exchange rate financial risks associated with bonds payable. Hedges are documented and tested to measure their effectiveness.

Based on a comparison of critical terms, hedging is highly effective, given that the hedged amount is consistent with obligations maintained for bonds denominated in Chilean pesos and UF. Likewise, hedging contracts are denominated in the same currencies and have the same expiration dates of bond principal payments.

Hedge Accounting

The Company classifies derivative instruments as hedging that may include derivative or implicit derivatives either as fair value hedge derivative instruments, cash flow hedge derivative instruments, or hedge derivative instruments for net investment in a business abroad.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 8 - Financial Instruments (continued)

8.3 Assets and Liabilities Coverage (continued)

(a) Fair value hedges

Changes in fair values of derivative instruments classified as fair value hedge derivative instruments are accounted for in gains and losses immediately along with any change in the fair value of the covered item that is attributable to the risk that is covered.

The Company documents the relationship between hedge instruments and the covered entry along with the objectives of its risk management and strategy to carry out different hedge transactions. In addition, upon commencement of the period covered and then on a quarterly basis the Company documents whether hedge instruments have been efficient and met the objective to cover market fluctuations for which purpose we use the effectiveness test. A hedge instrument is deemed effective if the effectiveness test result is between 80 to 120%.

The hedge instruments are classified as effective or not effective on the basis of the effectiveness test results. To date, the effectiveness tests have defined them as effective.

(b) Cash flow hedges

Cash flow hedges cover exposure to the cash flow variations attributable to a risk associated with a specific transaction that is very likely to be executed, that may have material effects on the results of the Company.

8.4 Financial liabilities

As of December 31, 2011, and December 31, 2010, financial liabilities are detailed as follows:

Types of interest-bearing loans	12.31.2011 ThUS\$	12.31.2010 ThUS\$
Current interest-bearing loans

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 8 - Financial instruments (continued)

8.9 Estimated fair value of financial instruments and derivative financial instruments

As required by IFRS 7, the following information is presented for the disclosure of the estimated fair value of financial assets and liabilities.

Although inputs represent Management's best estimate, they are subjective and involve significant estimates related to the current economic and market conditions, as well as risk factors.

Methodologies and assumptions used depend on the risk terms and characteristics of each instrument, and include the following as a summary:

- Cash equivalents approximate fair value due to the short-term maturities of these instruments.
- Other current financial liabilities are considered at fair value equal to their carrying values.

For interest-bearing liabilities with an original maturity of more than a year, fair values are calculated by discounting contractual cash flows at their original current market with similar terms.

For forward and swap contracts, fair value is determined using quoted market prices of financial instruments with similar characteristics.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 8 - Financial instruments (continued)

8.9 Estimated fair value of financial instruments and derivative financial instruments (continued)

The Company's instruments, listed at carrying value and estimated fair value, are detailed as follows:

	12.31.2011		12.31.2010

Total other non-current financial liabilities	1,237,027	1,423,125	1,090,188	1,235,200

Fair value hierarchy

Fair value hierarchies correspond to:

Level 1 (L1): when only quoted (unadjusted) prices have been used in active markets,

Level 2 (L2) :when in a phase in the valuation process variables other than prices quoted in Level 1 have been used which are directly observable in markets,

Level 3 (L3): when in a phase in the valuation process, variables not based on observable market data have been used,

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 9 - Investments and disclosures on Investments in subsidiaries

9.1 Disclosures on investments in subsidiaries

a) Operations acquired in 2011

On April 7, 2011 was formed Sociedad Agrorama S.A. with ownership of the subsidiary Soquimich Comercial S.A. by 99,999% and Sociedad Productora de Insumos Agrícolas Ltda. by 0,001%. This new company will have a paid-in capital amounting to M\$100,000 (ThUS\$211), its duration will be indefinite and its main business objective will be the commercialization and distribution of fertilizers, pesticides and agricultural products or supplies.

On August 30, 2011, SQM Industrial S.A. made a capital contribution amounting to ThUS\$8,000 to its subsidiary SQMC México S.A. de CV.

During the month of September 2011, SQM Industrial S.A. made a capital contribution amounting to ThUS\$14,017 to its subsidiary SQMC México S.A. de CV, thereby increasing its share to 99.8739%.

During the month of September 2011, the subsidiary Soquimich European Holding B.V., purchases from its associate Nutrisi Holding N.V., 66.6% of the share it held in the subsidiary Fertilizantes Naturales S.A. for an amount of ThUS\$3.179.

On December 12, 2011 the subsidiary Comercial Agrorama Callegari Ltda., changed its company name to “Comercial Agrorama Limitada”.

On December 14, 2011, Fertilizantes Naturales S.A. changed its company name to SQM Iberian S.A.

During December 2011 the subsidiary Soquimich European Holding B.V. sold its 50% interest Nutrisi Holding N.V. for an amount of ThUS\$ 5,736

b) Operations acquired in 2010

On February 2, 2010, the subsidiary SQM Beijing Commercial Co. Ltd. was formed, to which SQM Industrial S.A. contributed capital of ThUS\$100, obtaining an equity interest of 100% in that entity.

Notes to the consolidated Financial Statements as of December 31, 2011

The Company does not have an interest in unrecognized losses in investments in associates.

The Company does not have any associates not accounted for using the equity method.

Note 11 - Joint Ventures

11.1 Policy for accounting for joint ventures in a Parent Company's separate financial statements

The method for the recognition of joint ventures in which equity interest is initially recorded at cost and subsequently adjusted considering changes after the acquisition in the portion of the entity's net assets which correspond to the investor. Profit for the year of the investor will receive the portion which belongs to it in profit or loss of the entity under joint control.

11.2 Disclosures on interest in joint ventures

a) Operations acquired in 2011

On January 27, 2011 the subsidiary SQM Industrial S.A. made a capital contribution of ThUS\$2.500 in Sichuan SQM Migao Chemical Fertilizer Co.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 11 - Joint Ventures (continued)

11.2 Disclosures on interest in joint ventures (continued)

b) Operations acquired in 2010

On March 4, 2010, SQM Industrial S.A. entered an agreement with Qingdao Star Plant Protection Technology Co. Ltd. by means of which the companies formed a joint venture, SQM Qingdao-Star Co. Ltd. Each party made a capital contribution of ThUS\$2,000 for an interest of 50%.

On June 24, 2010 SQM Industrial S.A. made a contribution of ThUS\$2,500 in SQM Migao Sichuan.

IT programs, net	Finite	823
Total		41,658

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 12 - Intangible assets and Goodwill (continued)

12.2 Disclosures on intangible assets and goodwill (continued)

a) Estimated useful lives or amortization rates used for finite identifiable intangible assets

Finite useful life measures the lifetime or the number of productive units or other similar factor that constitute its useful life.

The estimated useful life for software is three years. For other finite useful life assets, the period in which they are amortized relates to periods defined by contracts or the rights that generate them.

Indefinite useful life intangible assets mainly relate to water rights and rights of way, which were obtained as indefinite.

b) Method used to express the amortization of identifiable intangible assets (life or rate)

The method used to express amortization is useful life.

c) Minimum and maximum amortization lives or rates of intangible assets:

Estimated useful lives or amortization rate	Minimum life or rate	Maximum life or rate
Water rights	Indefinite	Indefinite
Rights of way	Indefinite	Indefinite
Industrial patents	1 year	16 years

Trademarks	1 year	5 years
IT programs	2 years	3 years

d) Disclosure on internally-generated assets

The Company has no internally-generated intangible assets.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 12 - Intangible assets and Goodwill (continued)

12.2 Disclosures on intangible assets and goodwill (continued)

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 13 - Property, plant and equipment (continued)

13.3 Detail of property, plant and equipment pledged as guarantee

There are no restrictions on titles or guarantees for the compliance with obligations which affect property, plant and equipment.

13.4 Additional Information

- 1) Leased property, plant and equipment

At December 31, 2011, the company has no assets in leasing. At December 31, 2010 the balance of assets in leasing amounted to ThUS\$ 1,373 and corresponded to 2 floors of the Las Americas building in Santiago Centro.

- 2) The investment properties at December 31, 2011 and at December 31, 2010 is as follows:

Description of assets	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
2 floors of the Las Americas Building, net	-	1,373
Total (net)	-	1,373

- 3) Interest capitalized in construction-in-progress

Capitalized interest amounted to ThUS\$ 22,249 as of December 31, 2011 and ThUS\$ 25,947 as of December 31, 2010.

Financing costs are not capitalized for periods that exceed the normal term of acquisition, construction or installation of the asset, such as in the case of delays, interruptions or temporary suspension of the project due to technical, financial or other issues that inhibit the asset's maintenance in good conditions for its use.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 14 - Leases

14.1 Disclosures on finance leases, lessee

The asset acquired under a finance lease relates to a contract that the Company, has with Inversiones La Esperanza S.A., which began in June 1992 and ends on June 31, 2011, The agreement entered into indicates 230 installments of UF 663,75 each, with an annual interest rate of 8,5%.

The Company held financial leases as a tenant until July 2011, and for this reason there are no quotas or restrictions to report.

The net book value at December 31, 2011 amounted to ThUS\$ 0 and at December 31, 2010 to ThUS\$ 1,373.

The reconciliation between the total gross investment and the present value is detailed as follows:

	12.31.2011			12.31.2010		
	ThUS\$			ThUS\$		
Minimum payments to be made	Gross investment	Deferred interest	Present value	Gross investment	Deferred interest	Present value
Not exceeding one year	-	-	-	213	(6)	207
Total	-	-	-	213	(6)	207

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 15 - Employee benefits

15.1 Accruals for employee benefits

Types of benefits and expenses by employee	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
Current		
Profit sharing and bonuses	30,074	44,011
Total	30,074	44,011
Non- current		
Profit sharing and bonuses	4,083	800
Severance indemnities	28,188	27,208
Pension Plan	1,413	702
Total	33,684	28,710

15.2 Policies on defined benefit plan

This policy is applied to all benefits received for services provided by the Company's employees.

Short-term benefits for active employees are represented by salaries, social welfare benefits, paid time off, sick leaves and other leaves, profit sharing and incentives and non-monetary benefits; e.g., healthcare services, housing, subsidized or free goods or services. These benefits will be paid over a term not exceeding twelve months.

The Company only has employee benefits for active employees, with the exception of SQM North America, as explained in 15.4 below.

For each incentive bonus delivered to the Company's employees, there will be a disbursement in the first quarter of the following year calculated based on the net income for the period, applying a factor obtained subsequent to the employee evaluation process.

Employee benefits include bonuses for officers of the Company according to the price per share of the Company and are paid in cash. The short-term portion is presented as the current employee benefits accrual while the long-term portion is presented as non-current.

The bonus provided to the Company's directors is calculated based on net income for the year at each year-end and will consider the application of a percentage factor.

The benefit relates to vacations (short-term benefits to employees) as provided in the Chilean Labor Code, which indicates that employees with more than a year of service will be entitled to annual holidays for a period of not less than fifteen paid business days. The Company provides the benefit of two additional vacation days.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 15 - Employee benefits (continued)

15.2 Policies on defined benefit plan (continued)

Employee termination benefits are agreed upon and payable based on the last salary for each year of service to the Company or with certain maximum limits in respect to the number of years to be considered or with respect to monetary terms. In general, this benefit is payable when the employee or worker ceases to provide his/her services to the Company, and the right to collect can be obtained for different causes, as indicated in the respective agreements; e.g., retirement, dismissal, voluntary retirement, incapacity or disability, death, etc.

Law No, 19,728 published on May 14, 2001 and effective since October 01, 2002 required “Compulsory Unemployment Insurance” in favor of all dependent employees regulated by the Chilean Labor Code, Article 5 of this law provided the financing of this insurance through monthly contribution payments by both the employee and the employer.

15.3 Other long-term benefits

Other long-term benefits relate to employee termination benefits and are recorded at their actuarial value.

	12.31.2011	12.31.2010
Employee termination benefits at actuarial value	ThUS\$	ThUS\$
Employee termination benefits, Chile	27,574	26,577
Other obligations in foreign companies	614	631
Total other non-current liabilities	28,188	27,208
SQM North America’s pension plan	1,413	702
Total post-employment obligations	1,413	702

Employee termination benefits have been calculated using the actuarial assessment method of the Company’s obligations with respect to employee termination benefits, which relate to defined benefit plans consisting of days of remuneration per year served at the time of retirement, under conditions agreed upon in the respective agreements

established between the Company and its employees.

Under the indemnity fund benefit plan, the Company retains the obligation for the payment of employee termination benefits related to retirements without establishing a separate fund with specific assets, which is referred to as not funded. The discount interest rate of flows expected to be used was 6%.

Benefit payment conditions

The employee termination benefit relates to remuneration days per year worked for the Company with no limit on salary or years of service to the Company, when employees cease to work for the Company due to turnover or death. In this case, the maximum age for men is 65 years and 60 years old for women, which are the usual ages for retirement due to achieving the senior citizen age according to the Chilean pension system provided in Decree Law 3,500 of 1980.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 15 - Employee benefits (continued)

15.3 Other long-term benefits (continued)

Methodology

The determination of the obligation for benefits under IAS 19, Projected Benefit Obligation (PBO) is described as follows:

To determine the Company's total liability, the Company used a mathematical simulation model that was programmed using a computer and processed the situation of each employee on an individual basis.

This model considered months as discrete time; i.e., the Company determined the age of each person and his/her salary on a monthly basis according to the growth rate, Thus, information on each person was simulated from the beginning of the life of his/her employment contract or when he/she started earning benefits up to the month in which the person reaches the normal retirement age, generating in each period the possible retirement according to the Company's turnover rate and the mortality rate according to the age reached, When he/she reaches retirement age, the employee finishes his/her service for the Company and receives indemnity related to retirement due to old age.

The methodology followed to determine the accrual for all employees covered by the agreements has considered turnover rates and the mortality rate RV-2010 established by the Chilean Superintendence of Securities and Insurance to calculate pension-related life insurance reserves in Chile according to the Accumulated Benefit Valuation or Accrued Cost of Benefit Method, This methodology is established in IAS 19 Retirement Benefit Costs.

15.4 Employee post-retirement obligations

Up to 2002, our subsidiary SQM North América, had agreed with its employees, a pension plan referred to as "SQM North America Retirement Income Plan", whose obligation is calculated by measuring the expected future forecasted

staff severance indemnity obligation using a net salary gradual rate of restatements for inflation, mortality and turnover assumptions discounting the resulting amounts at present value using the interest rate defined by the authority for 2011 and 2010.

Since 2003, SQM North America, offers its employees, benefits associated to pensions based on system 401-k, which generates no obligations to the Company.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 15 - Employee benefits (continued)**15.4 Employee post-retirement obligations, continued**

The table below establishes the status of the financing plan and the amounts recognized in the consolidated balance sheet:

	31.12.2011	31.12.2010
	ThUS\$	ThUS\$
Variation in projected benefit obligation (liability):		
Benefit liability at the beginning of year	6,548	6,792
Cost of service	1	1
Interest cost	413	427
Actuarial loss	(46) (374
Benefits paid	(297) (297
Benefit obligation (liability) at year-end	6,619	6,549
Change in the plan's assets:		
Fair value of the plan's assets at beginning of year	5,847	5,082
Contributions by the employer	189	192
Actual return (loss) on plan assets	(533) 869
Benefits paid	(297) (296
Fair value of the plan's assets at year-end	5,206	5,847
Accrued liability pension plan	(1,413) (702
Items not yet recognized as net regular pension-related cost elements:

Amortization during the period	84	155
Net gain or loss during the period	(927) 865
Adjustment made to recognize the minimum pension-related liability	(2,954) (2,036

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 15 - Employee benefits (continued)

15.4 Employee post-retirement obligations, continued

As of December 31, 2011 and December 31, 2010 the net regular pension-related expense was composed of the following elements:

	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
Costs or benefits of services earned during the period	1	1
Cost of interest in benefit liability	413	427
Actual return in plan's assets	(532) (869)
Amortization of loss from prior periods	84	154
Net gain for the period	973	492
Net regular pension-related expense	57	(205)

As of December 31, 2011 and December 31, 2010 distributions of the plan assets (SQM North America) by category are detailed as follows:

	12.31.2011		12.31.2010	
Growth securities (US instruments)	67	%	59	%
International securities (US instruments)	23	%	25	%
Taxable bonds (US instruments)	8	%	14	%
Money market funds (US instruments)	2	%	2	%
	100	%	100	%

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 15 - Employee benefits (continued)

15.5

Employee termination benefits

Severance pays calculated at actuarial value present the movements below:

	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
Initial balance	(27,208)	(28,682)
Cost of current service	(7,871)	(3,583)
Interest cost	(1,106)	(1,889)
Actuarial gains/ losses	(151)	88
Exchange rate difference	2,693	-
Benefits paid	5,455	6,858
Balance as of December 31	(28,188)	(27,208)

The severance pay liability is valued using the actuarial value method, for which purpose the company uses the following actuarial hypotheses:

	12.31.2011	12.31.2010
Mortality table	RV - 2010	RV - 2009
Real annual interest rate	6 %	6 %
Voluntary resignation turnover rate:		
Men	0,9 %	0,9 % annual
Women	1,53 %	1,53 % annual
Salary increase	3,0 %	3,0 % annual
Retirement age:		
Men	65	65 years
Women	60	60 years

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 16 - Executive compensation plan

The Company counts on a compensation plan for its executives, by means of the granting of payments based on the SQM share price change, paid in cash, and the executives may exercise their rights until the year 2016.

Characteristics of the plan

This compensation plan is related with the company performance through the price of the Series B SQM share (Santiago Stock Exchange).

Participants in this plan

This compensation plan includes 46 executives of the Company, who are entitled to this benefit, provided they stay with the Company during the dates these options are executed. The dates for exercising the options will be the first 7 calendar days of May corresponding to the fiscal year.

Compensation

The compensation for each executive is the differential between the average prices of the share during April of each year compared to the base price established by Company's management. The base price fixed by the Company for this compensation plan amounts to US\$ 50 per share.

The Company reserves the right to exchange that benefit by shares or share options.

The movement of the options in effect for the period, the average prices for the fiscal year of the options and the average contractual life of the options in effect as of December 31, 2011 and December 31, 2010 are the following:

Movement for the period	12.31.2011	12.31.2010
In effect as of January 1	3,370,025	1,150,025
Granted during the fiscal year	-	2,370,000
Exercised during the fiscal year	1,030,025	150,000
In circulation as of December 31	2,340,000	3,370,025
Average contractual life	48 months	60 months

The amounts accrued by the plan, as of December 31, 2011 and December 31, 2010, amount to:

Result effect	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
Amount accrued	11,200	22,782
Total accrued compensation	11,200	22,782

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 17 - Equity Disclosures

The detail and movements in the funds of equity accounts are shown in the consolidated statement of changes in equity.

17.1

Capital management

The main object of capital management relative to the administration of the Company's equity is to administer the capital of SQM group as follows:

- Ensure the regular conduct of operations and business continuity in the long term.
- Ensure financing of new investments in order to maintain steady growth.
- Have an adequate capital structure in accordance with the cycles of the economy that have an impact on the business and the nature of the industry.
- Maximize the value of SQM group in the mid and long term.

According to the foregoing, the capital requirements are included on the basis of the financing requirements of the group, with the constant intention of maintaining an adequate level of liquidity and in compliance with the financial safeguards established in the debt contracts in force. The Company manages its capital structure and makes adjustments on the basis of the predominant economic conditions so as to mitigate the risks associated with adverse market conditions and take advantage of the opportunities there may be to improve the liquidity position.

There have been no changes in the capital management objectives or policy within the years reported in this document.

17.2

Disclosures on preference share capital

Issued share capital is divided into 263,196,524 fully paid and subscribed shares with no par value composed of 142,819,552 Series "A" shares and 120,376,972 Series "B" shares, where both series are preferred shares.

The preferential voting rights for each series are detailed as follows:

Series "A":

If the election of the President of the Company results in a tie vote, the Company's directors may vote once again, without the vote of the director elected by the Series B shareholders.

Series "B":

- 1) A general or extraordinary shareholders' meeting may be called at the request of shareholders representing 5% of the Company's Series B shares.
- 2) An extraordinary meeting of the Board of Directors may be called with or without the agreement of the Company's President, at the request of the director elected by Series B shareholders.

As of December 31, 2011, December 31, 2010, the Group does not maintain shares in the parent company either directly or through its companies in which it has investments.

Notes to the consolidated Financial Statements as of December 31, 2011

17.3

Dividend policy

As required by Article 79 of the Chilean Shareholders' Company Act, unless otherwise decided by unanimous vote of the holders of issued and subscribed shares, the Company must pay dividends according to the policy agreed upon at each annual General Shareholders' Meeting for an amount equivalent to at least 30% of consolidated profit for the year ended December 31 unless and except to the extent that it has a deficit in retained earnings (losses not absorbed in prior years.)

The dividends policy defined by the General Shareholders' Meeting for year 2011 is the following:

- Distribution and payment in favor of each shareholder of a final dividend that will be equivalent to 50% of profit for the year obtained in 2011.

Distribution and payment during 2011, of an interim dividend which is recorded against the aforementioned final dividend. This interim dividend was paid (see below) during the last quarter of 2011, and its amount did not exceed 50% of the retained earnings for distribution obtained during 2011, which are reflected in the Company's financial statements as of September 30, 2011.

The distribution and payment by the Company of the remaining balance of the final dividend related to profit for the year for the 2011 fiscal year in up to two installments, which must be effectively paid and distributed prior to June 30, 2012.

An amount equivalent to the remaining 50% of the Company's profit for the year for 2011 will be retained and destined to the financing of operations of one or more of the Company's investment projects with no prejudice to the possible future capitalization of the entirety or a portion of this.

- The Board of Directors does not consider the payment of any additional or interim dividends.

The Board of Directors considers as necessary to indicate that the aforementioned Dividends Policy correspond to the intention or expectation of the Board regarding this matter, Consequently, the enforcement of such Policy Dividends is necessarily conditioned to net incomes finally obtained, to the results indicating the Company's regular forecasts or the existence of certain conditions that could affect them, Notwithstanding the above and to the extent that such policy dividend does not suffer a significant change, SQM S.A. will timely communicate its shareholders on this matter.

17.4

Interim dividends

On November 22, 2011, it was reported to the Superintendence of Securities and Insurance that the Board of Directors of Sociedad Química y Minera de Chile S.A. (SQM), in its meeting on November 22 of this year, unanimously agreed to pay and distribute the provisional dividend referred to in SQM's current "2011 Dividends Policy" which was informed to SQM's General Annual Ordinary Shareholders Meeting that was held on April 28 of this year. This, for the essential purpose of being able to pay and distribute as of December 19, 2011, a provisional dividend of US\$0.73329 per share –and which is approximately equivalent to the total amount of US\$193 million and the latter corresponds to 50% of the distributable net income of the fiscal year 2011 that has been accrued at September 30, 2011. The above, is charged against the net income of said fiscal year, in favor of the Shareholders who appeared registered in SQM's Shareholders Registry by the 5th working day prior to December 19th, 2011, and in its equivalent in Chilean pesos according to the value of the "Observed dollar" or "USA dollar" that appears published in the Official Gazette on December 13, 2011.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 17 - Shareholders' Equity Disclosures (continued)

17.4

Interim dividends (continued)

At the Annual Board of Directors meeting held on April 28, 2011, the Directors unanimously agreed to pay a final dividend of US\$0.7259 per share in relation to net profit for the year. Notwithstanding the above, US\$ 0.41794 per share was already paid as an interim dividend, and this amount should be subtracted from the final dividend detailed above, In line with this, the balance, amounting to US\$ 0.30798 per share, will be paid and distributed among shareholders of the Company who are registered with their respective shareholders registry as of the fifth business day prior to the day in which this dividend will be paid.

On November 23, 2010 the Board of the Company agreed to pay interim dividends amounting to ThUS\$ 110,000, payable from December 15, 2010.

At a Board of Directors meeting held on April 29, 2010, the Directors unanimously agreed to reduce its distribution of dividends. This means that a final dividend of US\$ 0.62131 per share will be paid in relation to net profit for the year. Notwithstanding the above, US\$ 0.37994 per share was already paid as an interim dividend, and this amount should be subtracted from the final dividend detailed above, In line with this, the balance, amounting to US\$ 0.24137 per share, will be paid and distributed among shareholders of the Company who are registered with their respective shareholders registry as of the fifth business day prior to the day in which this dividend will be paid.

Dividends presented deducted from equity are:

Note 18 - Provisions and other non-financial liabilities (continued)

18.5 Detail of main types of provisions and other non-financial liabilities

Legal expenses: This provision depends on the pending resolution of a legal lawsuit (incurred mainly in Brazil and U.S.A.).

Tax accrual in tax litigation: This accrual relates to lawsuits pending resolution related to taxes in Brazil for two of our subsidiaries, SQM Brazil and NNC.

CORFO (Economic Development Agency) Royalties agreement: Relates to the commercialization of mining properties that SQM Salar S.A. pays the Economic Development Agency for on a quarterly basis. The amount of the lease payable is calculated based on sales of products extracted from the Atacama Saltpeter deposit.

The settlement of the aforementioned amounts is performed on a quarterly basis.

Temporary closure of El Toco operation: The Company's Board of Directors unanimously agreed to approve the temporary closure of the Toco and Pampa Blanca mining sectors. The Company accrued a legal severance indemnity for the employees subject to this closure. Additional benefits that will be paid to employees will correspond to 2010 expenses.

Retirement plan: Corresponds to a benefit agreed upon with employees to retire from the Company. Those employees who invoked the agreed-upon plan signed their consent as of December 31, 2010. The effective retirement date was during 2010, but part of this benefit is pending for 2011.

Note 19 - Contingencies and restrictions

According to note 18.1 the Company has only registered a provision for those lawsuits in which the probability to lose is “more likely than not”, The Company is party to lawsuits and other relevant legal actions that are detailed as follows:

19.1 Lawsuits and other relevant events

1. Plaintiff : Compañía de Salitre y Yodo Soledad S.A.
Defendant : Sociedad Química y Minera de Chile S.A.
Date : December 1994
Court : Civil Court in Pozo Almonte
Reason : Nullity of mining concession Cesard 1 to 29
Status : Lower court decision in favor of SQM. Appellate court decision pending
Nominal value : ThUS\$ 211

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 19 - Contingencies and restrictions (continued)

19.1 Lawsuits and other relevant events (continued)

2. Plaintiffs : JB Comércio de Fertilizantes e Defensivos Agrícolas Ltda. (JB)
 Defendants : Nitratos Naturais do Chile Ltda. (NNC)
 Date : December 1995
 Court : MM 1ª, Vara Cível de Comarca de Barueri, Brasil.
 Reason : Compensation claim filed by JB against NNC for having appointed a distributor in a territory of Brazil for which JB had an exclusive contract.
 Status : Lower court ruling against Nitratos Naturais do Chile Ltda. and recourse of appeal pending resolution
 Nominal value : ThUS\$1,800
3. Plaintiff : Compañía Productora de Yodo y Sales S.A.
 Defendant : Sociedad Química y Minera de Chile S.A.
 Date : November 1999
 Court : Civil Court in Pozo Almonte
 Reason : Nullity of mining concession Paz II 1 to 25
 Status : First sentence in favor of SQM. Recourse of appeal pending resolution.
 Nominal value : ThUS\$ 162
4. Plaintiff : Compañía Productora de Yodo y Sales S.A.
 Defendant : Sociedad Química y Minera de Chile S.A.
 Date : November 1999
 Court : Civil Court in Pozo Almonte
 Reason : Nullity of mining concession Paz III 1 to 25
 Status : Lower court decision in favor of SQM. Appellate court decision pending
 Nominal value : ThUS\$ 204
5. Plaintiff : Nancy Erika Urrea Muñoz
 Defendants : Fresia Flores Zamorano, Duratec-Vinilit S.A. and SQM S.A. and their insurers
 Date : December 2008
 Court : 1st Civil Court of Santiago
 Reason : Labor Accident
 Status : Evidence
 Nominal value : ThUS\$ 550

6. Plaintiffs : Eduardo Fajardo Nuñez, Ana Maria Canales Poblete, Raquel Beltran Parra, Eduardo Fajardo Beltran
: and Martina Fajardo Beltran.
Defendants : SQM Salar S.A. and insured parties
Date : November 2009
Court : 20th Civil Court in Santiago
Reason : Labor accident
Status : Evidence
Nominal : ThUS\$ 1,880
value

Status : Pretrial audience
Nominal value : ThUS\$640

121

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 19 - Contingencies and restrictions (continued)

19.1 Lawsuits and other relevant events (continued)

The Company has been involved and will probably continue being involved either as plaintiffs or defendants in certain judicial proceedings that have been and will be heard by the Arbitral or Ordinary Courts of Justice that will make the final decision. Those proceedings that are regulated by the appropriate legal regulations are intended to exercise or oppose certain actions or exceptions related to certain mining claims either granted or to be granted and that do not or will not affect in an essential manner the development of the Company.

Soquimich Comercial S.A. has been involved and will probably continue being involved either as plaintiff or defendant in certain judicial proceedings through which it intends to collect and receive the amounts owed, the total nominal value of which is approximately ThUS\$ 700.

The Company has made efforts and continues making efforts to obtain payment of certain amounts that are still owed it on occasion of their activities. Such amounts will continue to be required using judicial or non-judicial means by the plaintiffs, and the actions and exercise related to these are currently in full force and effect.

The Company has not received legal notice of any claims other than those mentioned in paragraph I above. The claims detailed above seek to annul certain mining claims that were purchased by SQM S.A. and Subsidiaries, the proportional purchase value of which, with respect to the portion affected by the superimposition, exceeds the nominal and approximate amount of ThUS\$ 150. The claims seek payment of certain amounts allegedly owed by the Company due to its own activities, which exceed the approximate nominal and individual amount of ThUS\$ 150.

19.2 Restrictions

Bank loans of the Company have similar restrictions to the loans of a similar nature that have been valid at the appropriate times and that amongst others relate to maximum indebtedness and minimum equity. Save for the foregoing. The Company, is not exposed to other restrictions or limits on financial indicators relating to contracts and agreements with creditors.

19.3 Commitment

The subsidiary SQM Salar S.A. has signed a rental contract with the Economic Development Agency (CORFO), which establishes that this subsidiary will pay rent to CORFO for the concept of commercialization of certain mining properties owned by CORFO and for the products resulting from this commercialization. The annual rent stated in the aforementioned contract is calculated on the basis of sales of each type of product. The contract is in force until 2030, and rent began being paid in 1996 reflecting an expense amount of ThUS\$ 23,951 as of December 31, 2011 (ThUS\$ 18,717 as of December 31, 2010).

19.4 Restricted or pledged cash

The subsidiary Isapre Norte Grande Ltda. in compliance with that established by the Chilean Superintendence of Healthcare, which regulates the running of pension-related health institutions, maintains a guarantee in financial instruments, delivered in deposits, custody and administration to Banco de Chile.

This guarantee, according to the regulations issued by the Chilean Superintendence of Healthcare is equivalent to the total sum owed to its members and medical providers, Banco de Chile reports the present value of the guarantee to the Chilean Superintendence of Healthcare and Isapre Norte Grande Ltda. on a daily basis. As of December 31, 2011, the guarantee amounts to ThUS\$ 428.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 19 - Contingencies and restrictions (continued)

19.5 Collateral received from third parties

The main collateral received from third parties (distributors) to guarantee Soquimich Comercial S.A.'s compliance with obligations in contracts of commercial mandates for the distribution and sale of fertilizers amounted to ThUS\$4.467 as of December 31, 2011; as of December 31, 2010 these amounted to ThUS \$6,389 which is detailed as follows:

Entity name	12.31.2011 ThUS\$	12.31.2010 ThUS\$
Llanos y Wammes Soc. Com. Ltda	1,926	2,037
Fertglobal Chile Ltda.	1,541	3,352
Tattersall Agroinsumos S.A.	1,000	1,000

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 19 - Contingencies and restrictions (continued)

19.6 Indirect guarantees

Guarantees in which there is no pending balance indirectly reflect that the respective guarantees are in force and approved by the Company's Board of Directors and have not been used by the respective subsidiary.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 20 - Revenue

As of December 31, 2011 and 2010, revenue is detailed as follows:

	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
Sales of goods	2,138,264	1,823,843
Provision of services	7,022	6,570
Total	2,145,286	1,830,413

Note 21 - Earnings per Share

Basic earnings per share are calculated by dividing net income attributable to the Company's shareholders by the weighted average of the number of shares in circulation during that period,

As expressed, earnings per share are detailed as follows:

Earnings per share	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
Earnings attributable to owners of the parent	545,758	382,122

	12.31.2011	12.31.2010
	Units	Units
Number of common shares in circulation	263,196,524	263,196,524

	12.31.2011	12.31.2010
Basic and diluted earnings per share (US\$ per share)	2.0736	1.4519

The Company has not made any operation with a potential dilutive effect that assumes diluted earnings per share different from the basic earnings per share.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 22 - Loan costs

The cost of interest is recognized as expenses in the year in which it is incurred, except for interest that is directly related to the acquisition and construction of tangible property, plant and equipment assets and that complies with the requirements of IAS 23. As of December 30, 2011, total interest expenses incurred amount to ThUS\$39,335 (ThUS\$35,042 as of December 30, 2010).

The Company capitalizes all interest costs directly related to the construction or to the acquisition of property, plant and equipment, which require a substantial time to be suitable for use.

Costs of capitalized interest, property, plant and equipment

The cost of capitalized interest is determined by applying the average or weighted average of all financing costs incurred by the Company to the monthly end balances of works-in-progress meeting the requirements of IAS 23.

The rates and costs for capitalized interest of property, plant and equipment are detailed as follows:

	12.31.2011		12.31.2010	
Capitalization rate of costs for capitalized interest, property, plant and equipment	7	%	7	%
Amount of costs for interest capitalized in ThUS\$	22,249		25,947	

Note 23 - Effect of variations in the foreign currency exchange rates

a) **Foreign currency exchange differences recognized in profit or loss except for financial instruments measured at fair value through profit or loss**

Edgar Filing: CHEMICAL & MINING CO OF CHILE INC - Form 6-K

	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
Conversion foreign exchange gains (losses) recognized in the result of the year.	(25,307)	(5,807)
Conversion foreign exchange reserves attributable to the owners of the controlling entity.	(2,781)	296
Conversion foreign exchange reserves attributable to the non-controlling entity.	(109)	367

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 23 - Effect of variations in the foreign currency exchange rates (continued)

b) Reserves for foreign currency exchange differences

As of December 31, 2011 and December 31, 2010, foreign currency exchange differences are detailed as follows:

Detail	12.31.2011 ThUS\$	12.31.2010 ThUS\$
Changes in equity generated through the equity method

c) Functional and presentation currency

The functional currency in these companies corresponds to the currency of the country of origin of each entity, and its presentation currency is the US dollar.

d) Reasons to use one presentation currency and a different functional currency

- The total revenues of these subsidiaries are associated with the local currency.
- The commercialization cost structure of these companies is affected by the local currency.
- The equities of these companies are expressed in local currency (Chilean peso).

Note 24 - The environment

24.1 Disclosures of disbursements related to the environment

The Company is continuously concerned with protecting the environment both in its production processes and with respect to products manufactured. This commitment is supported by the principles indicated in the Company's Sustainable Development Policy. The Company is currently operating under an Environmental Management System (EMS) that has allowed it to strengthen its environmental performance through the effective application of the Company's Sustainable Development Policy.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 24 - The environment (continued)

24.1 Disclosures of disbursements related to the environment (continued)

Operations that use caliche as a raw material are carried out in desert areas with climatic conditions that are favorable for drying solids and evaporating liquids using solar energy. Operations involving the open-pit extraction of minerals, due to their low waste-to-mineral ratio, generate remaining deposits that slightly alter the environment. A portion of the ore extracted is crushed, a process in which particle emissions occur. Currently this operation is conducted only at the Pedro de Valdivia worksite and no ore crushing process is conducted in the Maria Elena sector.

Many of the Company's products are shipped in bulk at the Port of Tocopilla. In 2007 the city of Tocopilla was declared a zone Saturated with MP 10 Particles mainly due to the emissions from the electric power plants that operate in that city. In October 2010 the Decontamination Plan for Tocopilla was put in place. Accordingly, the Company has committed to taking several measures to mitigate the effects derived from bulk product movements in the port. These measures have been successfully implemented since 2007.

The Company carries out environmental follow-up and monitoring plans based on specialized scientific studies, and it also provides an annual training program in environmental matters to both its direct employees and its contractors' employees. Within this context, the Company entered into a contract with the National Forestry Corporation (CONAF) aimed at researching the activities of flamingo groups that live in the Salar de Atacama (Atacama Saltpeter Deposit) lagoons. Such research includes a population count of the birds, as well as breeding research. Environmental monitoring activities carried out by the Company at the Salar de Atacama and other systems in which it operates are supported by a number of studies that have integrated diverse scientific efforts from prestigious research centers, including Dictuc from the Pontificia Universidad Católica in Santiago and the School of Agricultural Science of the Universidad de Chile.

Furthermore, within the framework of the environmental studies which the Company is conducting, the Company performs significant activities in relation to the recording of Pre-Columbian and historical cultural heritage, as well as the protection of heritage sites, in accordance with current Chilean laws. These activities have been especially performed in the areas surrounding Maria Elena and the Nueva Victoria plants, This effort is being accompanied by cultural initiatives within the community and the organization of exhibits in local and regional museums.

As emphasized in its Sustainable Development Policy, the Company strives to maintain positive relationships with the communities surrounding the locations in which it carries out its operations, as well as to participate in communities' development by supporting joint projects and activities which help to improve the quality of life for residents. For this purpose, the Company has focused its efforts on activities involving the rescue of historical heritage, education and culture, as well as development, and in order to do so, it acts both individually and in conjunction with private and public entities.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 24 - The environment (continued)

24.2 Detail of information on disbursements related to the environment

The accumulated disbursements in which the Company incurred as of December 31, 2011 for the concept of investments in production processes, verification and control of compliance with ordinances and laws relative to industrial processes and facilities, including prior year disbursements related to these projects amounted to ThUS\$ 19,912 and are detailed as follows:

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 24 - The environment (continued)

24.3 Description of each project, indicating whether they are being implemented or completed

SQM Industrial S.A.

SQ7X: The purpose of this project is obtaining and recording information on compliments on final products of SQM in the ECHA database to comply with the requirements set forth by the REACH regulation of the European Union. The project is in execution.

ANMI: Compliance silver penny call and legal matters, and specific standards that are required with regards to warehouseing, signs, safety and the main factors related to materials, product and supplies that are handled in the works. In addition, improvement of the warehouse infrastructure will be implemented for the storage of dangerous chemical substances. The project is completed.

FNWR: Preparation and filing of the DIA of the project of discarding field Pampa Blanca. The project is in its closing stage.

FP55 – FPXA: These 2 projects about, final objective which consists in the installation of us see what her sucking system of 87 km from the Mejillones area to the SQM facilities in Pampa Blanca. the projected expenses correspond only to the filing of the EIA of the PB mine zone and the EIA of the PB expansion. Both projects are in execution stage.

JNTU: To perform the environmental assessment of the waters of San Isidro. The project is in its closing stage.

JPX9: This parade because of the final purpose to perform pilot tests of 2 processes to eliminate the perchlorate of a specific product, but the predicted expenses correspond only to the filing of the EID of the improvements to the plant

of granulation–prilation Coya Sur. The project is in execution.

MNYS: Preparation and execution of a project of geoglyphs conservation; editing and publishing a book and implementing a diffusion center. Construction of a collections warehouse. All these are compensation measures of the project Technological Change Maria Elena. The project is in execution stage.

MP17: A study and analysis of the current chlorination of water system in María Elena, Coya Sur and Pedro de Valdivia would be performed, in order to subsequently implement and start the operation of a water chlorination system according to the current legislation. The project is finished.

MP5W: Normalization of the fuel storage and distribution system in SQM installations. The project is in execution.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 24 - The environment (continued)

24.3 Description of each project, indicating whether they are being implemented or completed (continued)

MPIS: Improve the urban condition of María Elena by placing a stabilization tarmac in the streets applying an anti-dust treatment on the sidewalks. The project is finished.

MPL5: Improvement of part of the water and sewage infrastructure María Elena. The project is complete.

MPLS: Implement e-mail alerts of the concentration of particulate material in the information change in text files about that the base for the implementation of. The project is complete.

MQ51: The purpose of the project is to generate the reference terms for the implementation of the of the resolution set forth in RCA N°0076/2000 that grants the environmental approval of the EID of project María Elena. The project is in its closing stage.

PPNK: Project to ensure the control of the ammonia gas in the crystal plant stoppage. The project is being executed.

PPZU: The necessary actions to normalize and certify certified fuel tanks in the plants in María Elena, Coya Sur and Pedro de Valdivia we be performed. The project is being executed.

JQ8K: This project has the purpose of building a new drying plant in Coya Sur. The projected expenses correspond only to the environmental filing. The project is being executed.

IQ8G: This project contemplates the improvement of restrooms and the expansion of their capacity. In addition to water storage sector would be improved. The project is being executed.

MQ7P: This project will renew the sewerage caps in the town of María Elena, which currently are very old. The project is being executed.

JQB6: Preparation and filing of the EID of project NPT4 of Coya Sur, which increases the salt production capacity. The project is being executed.

TQ78: This project contemplates the purchase of sweeping trucks with a vacuum system in order to reduce the emissions of particulate material in the port of Tocopilla. The project is being executed.

MPQU: Construction of warehouses for dangerous chemicals in order to comply with the current regulation and decrease the chance of accidents with high potential.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 24 - The environment (continued)

24.3 Description of each project, indicating whether they are being implemented or completed (continued)

PPC1: Comply with environmental regulations and production continuity.

MQM8: Perform maintenance to structures and closing monitoring stations in María Elena.

MQAJ: Improve the water and sewerage network in Maria Elena for better operations.

Minera Nueva Victoria S.A.

IPMN: This project contemplates the expression of the sanitary capacity of the Iris camp. The project is being executed.

IPNW: This consists in the rear position of deteriorated sanitary artifacts to improve hygienic conditions. The project is finished.

IQ4C: Supply, construction and assembly of the osmosis and septic pits plant required to enable that Iris camp plant and other. The project is in its closing stage.

SIT S.A.

TPLR: The purpose of the project is to enable the disposal of wastewater into public sewerage system. The project is finished.

TPM7: This project involves purchasing mail that will be installed in fields number 3 and 4 to control dust emissions during dust-combing operations and to protect from definitions by the electric power plant. The project is being closed.

TPR8: This project pretends to increase the generation of industrial waste through the use of vacuum and no-washing technologies, through the implementation of a vacuum system that avoids the use of water and therefore the generation of liquid industrial waste. The project is being executed.

TPYX: To comply with the commitment of decreasing their mission of particulate material made to the city of Tocopilla. The project is being executed.

TQAV: Paving and maintenance of internal roads of the port of Tocopilla, to decrease pollution and to comply with the Supreme Decree related to the saturated zone. The project is being executed.

SQM Nitratos S.A.

IP6W: To design and build mud, water, oil decanting pits and one tank equipped with a pump to reuse water, and metallic tanks for the removal of mud. The project is in its closing stage.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 24 - The environment (continued)

24.3 Description of each project, indicating whether they are being implemented or completed (continued)

PP0V: Installation of a container to hold dangerous residues in maintenance and elimination of Likud the industrial water filters in the maintenance workshop María Elena, Pedro de Valdivia, Nueva Victoria and Pampa Blanca mines. The project is finished.

SQM S.A.

AQ0A: To enable the use of water rights that have been granted in several pits of the Conaf reservation Pampa del Tamarugal and to take them outside of the tamarugo forest and of the reservation, reducing the environmental impact of its exploitation. The project is being executed.

IPFT: The project contemplates the implementation of measures committed in projects in the area of the Nueva Victoria mine, update of operations in Nueva Victoria, evaporation ducts and pits in Iris. The project is being executed.

IPXE: To implement the plan of environment follow-up of Project Pampa Hermosa in Salar de Llamara. The project is being executed.

IPXF: To implement the environment plan follow-up of the project Pampa Hermosa in Pampa del Tamarugal. The project is being executed.

IQ08: The project considers the following works for the water reservoirs in Pampa del Tamarugal and Salar de Llamara: construction and enabling observation and monitoring pits, pumping tests, construction of roads over hard sand terrain and Salar crust. The project is being executed.

IQ0C: This project consists in implementing a program of adding value and area adyacent to route 5, which will enable the development of a self-guided tour of the area called Cantón de Lagunas in the context of the saltpeter history. The project is being executed.

IQ1K: Construction of the observation pits in Sur Viejo to comply with the environmental commitments proposed in the EIS of Pampa Hermosa and to be able to monitor the water reservoir near said pits. The project is being executed.

IQ1M: To implement environmental commitments included in the EIS of project “Pampa Hermosa” to safeguard the [puquío] zone that is in the Salar de Llamara water reservoir. The project is being executed.

IQ3S: Improvements in the storage installations of dangerous raw materials in Nueva Victoria. The project is being executed.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 24 - The environment (continued)

24.3 Description of each project, indicating whether they are being implemented or completed (continued)

IQ52: This project includes the enabling and expansion of the environment offices in Nueva Victoria. The project is being executed.

IQ53: To perform equity assay to the new location of the Soronal abduction trace Project Pampa Hermosa approved through N° 890/2010. The project is being executed.

IQ54: This corresponds to the implementation of environmental commitments acquired through the environment assessment of the project Pampa Hermosa (RCA N°890/2010). The project is being executed.

SCI6: This project has the purpose of obtaining environmental permits for the project of development in the region of Arica and Parinacota, included all the works related to environmental obligations that enable Operations to execute the construction and operation of the project. The environmental assessment to obtain the corresponding permit would be made to an EIS, that considers the preparation and filing of the document, and that also include activities of specific environmental studies (study of tamarugos in Llamara and Pampa Tamarugal, archeological mitigation measures, environment study of the Loa, hydrogeology studies). The project is in its closing stage.

IQ6M: Preparation and filing of the EID of the Project “Expansion of Mine Nueva Victoria”. The projected expenses only include the environment document filing. The project is being executed.

IQ9V: To support the development of agriculture and tourist industry in the location of Quillagua, in order to enhance the activity through productive measures, technical assistance and marketing. The project is being executed.

SQM Salar S.A.

CPTP: The project considers the change of the current industrial water network, for a drinking water network in order to comply with the current regulation set forth in DS 72. The project is finished.

CPZH: The purpose of the project is to recuperate in a quick and safe manner the cake of LiOH and the waste without dropping it on the floor and avoiding the spilling of nearby sectors, that would generate danger for the operators in the area. The project is being executed.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 24 - The environment (continued)

24.3 Description of each project, indicating whether they are being implemented or completed (continued)

LP5J: To perform analysis to define the hydrologic units of the Creek, quantified the recharge of the reservoir using environmental isotopic techniques. The project is being executed.

LP82: To support the development of demonstration lots, provide technical assistance for the improvement of agriculture practices such as watering. The project is being executed.

LPTF: To perform semi-annual reports, given that it is necessary to present improvements and optimizations at environmental control points, and the knowledge on geologic and hydrogeologic variables must be improved near Salar de Atacama. The project is being executed.

LPTJ: The plan considers the acquisition of stand equipment to ensure the operating continuity of the TAS and OR plants, the change in the current control system of TK's regarding the accumulation of drinking water, wastewater, and wastewater elevation chambers. The project is finished.

LQ38: This project has the purpose to comply with the current regulations and with observations raised by the SEREMI of Health. The project is being executed.

CQ8U: To improve the condition and capacity of the exchange rooms in Salar del Carmen. The project is being executed.

LQAK: The project considers the construction of the waste rooms in the MOP and SOP lunchrooms. This, in order to increase the capacity of waste storage. The project is being executed.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 25 - Other current and non-current non-financial assets

As of December 31, 2011, and December 31, 2010, the composition of other current and non-current assets is detailed as follows:

Other non-financial assets, current	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
Domestic Value Added Tax	46,243	30,795
Foreign Value Added Tax	5,879	4,167
Prepaid mining licenses	1,228	1,281
Prepaid insurance	6,979	4,575
Prepaid leases	33	30
Marine concessions	40	48
Other prepaid expenses	236	86
Other assets	3,154	3,460
Total	63,792	44,442

Other non-financial assets, non-current	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
Stain development expenses and prospecting expenses (1)	21,395	21,350
Income taxes recoverable	286	651
Guarantee deposits	428	514
Other assets	2,542	1,642
Total	24,651	24,157

Assets for the exploration or evaluation of mineral resources are amortized to the extent that the explored or evaluated area has been exploited. For this purpose, a variable rate is applied to extracted tons, which is determined based on the measured initial reserve and evaluation cost. The Company presents expenses associated with Exploration and Evaluation of Mineral Resources. Of these expenses, those that are under exploitation are included (1) under Inventory and are amortized according to the estimated ore reserves contained, and expenses associated with future reserves are presented under Other non-current assets. Those expenses incurred on properties with low ore grade that are not economically exploitable are directly charged to income. As of December 31, 2011 balances associated with the exploration and assessment of mineral resources is presented under Inventory for ThUS\$ 3,699 (ThUS\$ 1,723 as of December 31, 2010).

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 25 - Other current and non-current non-financial assets (continued)

Reconciliation of changes in assets for exploration and mineral resource evaluation, by type

Movements in assets for the exploration and evaluation of mineral resources as of December 31, 2011 and December 31, 2010:

Reconciliation	12.31.2011 ThUS\$	12.31.2010 ThUS\$
Assets for the exploration and evaluation of mineral resources, net, beginning balance	21,350	26,832
Changes in assets for exploration and assessment of mineral resources:		
Additions	3,777	-
Depreciation and amortization	(1,883)	(2,044)
Decrease due to transfers and other charges	(1,849)	(3,438)
Assets for exploration and assessment of mineral resources, net, final balance	21,395	21,350

As of the presentation date, no reevaluations of assets for exploration and assessment of mineral resources have been conducted.

Note 26 - Operating segments

26.1

Operating segments

The balance of each item presented in each operating segment is equal to that reported to the maximum authority who makes decisions regarding the operation, in order to decide on the allocation of resources to the defined segments and to assess its performance. The reported information in each segment is obtained from the consolidated financial statements of the company and, therefore, no consolidation is required between the abovementioned data and that reported in the corresponding operating segments, according to what is set forth in paragraph 28 of IFRS N° 8, “Operating Segments”.

Operating segments relate to the following groups of products that generate revenue and for which the Company incurs expenses and the result of which is regularly reviewed by the Company's maximum authority in the decision-making process:

1. - Specialty plant nutrients
2. - Iodine and its derivatives
3. - Lithium and its derivatives
4. - Industrial chemicals
5. - Potassium
6. - Other products and services

Information relative to assets, liabilities and profit and expenses that cannot be assigned to the segments indicated above, due to the nature of production processes, is included under the "Corporate Unit" category of disclosures.

The indicator used by management to performance measurement and resource allocation to each segment, is related to the margin of each segment.

Sales between segments are made in the same conditions as those made to third parties, and are consistently measures as presented in the income statement.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 26 - Operating segments (continued)**26.2 Statement of income classified by operating segments based on groups of products as of December 31, 2011:**

Items in the statement of income	Specialty plant nutrients ThUS\$	Iodine and its derivatives ThUS\$	Lithium and its derivatives ThUS\$	Industrial chemicals ThUS\$	Potassium ThUS\$	Other products and services ThUS\$	Corporate unit ThUS\$	Total segments and Corporate unit ThUS\$

26.9 Information on main customers

With respect to the degree of dependency of the Company on its customers, in accordance with paragraph N° 34 of IFRS N° 8, the Company has no external customers who individually represent 10% or more of its income from operating activities. Credit risk concentrations with respect to trade and other accounts receivable are limited due to the significant number of entities in the Company's portfolio and its worldwide distribution. The Company's policy requires guarantees (such as letters of credit, guarantee clauses and others) and/or to maintain insurance policies for certain accounts as deemed necessary by the Company's Management.

Note 28 - Income Taxes

As of December 31, 2011 and December 31, 2010, current income taxes recoverable are detailed as follows:

28.1	Current tax accounts receivable	
	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
Net monthly tax provisional payments, Chilean companies actual year	1,758	19,614
Net monthly tax provisional payments, Chilean companies prior year	-	2,158
Monthly tax provisional payments, foreign companies	857	562
Corporate tax credits (1)	394	1,111
Corporate tax absorbed by tax losses (2)	1,756	9,328
Total	4,765	32,773

(1): These credits are available to companies and relate to the corporate tax payment in April of the following year, These credits include, amongst others, training expense credits (SENCE) and property, plant and equipment acquisition credits that are equivalent to 4% of the property, plant and equipment purchases made during the year. In addition, some credits relate to the donations the Group has made during 2011 and 2010.

(2): This concept corresponds to the absorption of non-operating losses (NOL's) determined by the company at year end, which must be imputed or recorded in the Retained Taxable Profits Registry (FUT).

In accordance with the laws in force and as provided by article 31, No. 3 of the Income Tax Law, when profits recorded in the FUT that have not been withdrawn or distributed are totally or partially absorbed by NOL's, the corporate tax paid on such profits (20%, 17%, 16.5%, 16%, 15%, 10% depending on the year in which profits were generated) will be considered to be a provisional payment with respect to the portion representing the absorbed accumulated tax profits.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 28 - Income and deferred taxes (continued)

28.1 Current tax accounts receivable (continued)

Taxpayers are entitled to apply for a refund of this provisional tax payment on the absorbed profits recorded in the FUT registry via their tax returns (Form 22).

Therefore, the provisional payment for absorbed profits (PPAP) recorded in the FUT is in effect a recoverable tax, and as such the Company records it as an asset.

28.2 Current tax accounts payable

Taxes payable	12.31.2011 ThUS\$	12.31.2010 ThUS\$
Corporate tax and royalty	72,343	5,984
Foreign company income tax	3,068	1,105
Article 21 unique tax	7	24
Total	75,418	7,113

The income tax is determined on the basis of the determination of income tax that applies the tax rate currently in force in Chile 20%.

The provision of royalty is determined by applying the tax rate was determined for the Operational Net income (INO).

The royalty provision is determined by applying the tax rate that was determined to the Operational Net Income (ONI).

In conclusion, both concepts represent the estimated amount the company will have to pay on account of income tax and specific tax on mining.

28.3

Taxable earnings

As of December 31, 2011 and December 31, 2010, the Company and its subsidiaries have recorded the following consolidated balances for retained taxable earnings registry, income not constituting revenue subject to income tax, accumulated tax losses and credit for shareholders:

	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
Taxable profits with credit rights (1)	1,053,651	602,536
Taxable profits without credit rights (1)	150,234	86,920
Taxable losses	15,069	21,630
Credit for shareholders	242,143	123,322

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 28 - Income and deferred taxes (continued)

28.3 Taxable earnings (continued)

(1): The Retained Taxable Profits Registry (FUT) is a chronological registry where the profits generated and distributed by the company are recorded. The object of the FUT is to control the accumulated taxable profits of the company that may be distributed, withdrawn or remitted to the owners, shareholders or partners, and the final taxes that must be imposed, called in Chile Global Aggregate Tax (that levies persons resident or domiciled in Chile), or Withholding Tax (that levies persons “Not” resident or domiciled in Chile).

The FUT Register contains profits with credit rights and profits without credit rights, which arise out of the inclusion of the net taxable income determined by the company or the profits received by the company that may be dividends received or withdrawals made within the period.

Profits without credit rights represent the tax payable by the company within the year and filed the following year, therefore they will be deducted from the FUT Registry the following year.

Profits with credit rights may be used to reduce the final tax burden of owners, shareholders or partners, which upon withdrawal are entitled to use the credits associated with the relevant profits.

In summary, companies use the FUT Registry to maintain control over the profits they generate that have not been distributed to the owners and the relevant credits associated with such profits.

28.4

Income and deferred taxes

Assets and liabilities recognized in the consolidated classified statement of financial position are offset if and only if:

¹ The Company has legally recognized before the tax authority the right to offset the amounts recognized in these entries; and

2 Deferred income tax assets and liabilities are derived from income tax related to the same tax authority on:

(i) the same entity or tax subject; or

different entities or tax subjects who intend either to settle current fiscal assets and liabilities for their net amount, (ii) or to realize assets and pay liabilities simultaneously in each of the future periods in which the Company expects to settle or recover significant amounts of deferred tax assets or liabilities.

Deferred income tax assets recognized are those income taxes to be recovered in future periods, related to:

(a) deductible temporary differences;

(b) the offset of losses obtained in prior periods and not yet subject to tax deduction; and

(c) the offset of unused credits from prior periods.

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

(d)

Note 28 - Income and deferred taxes (continued)

28.4 Income and deferred taxes (continued)

The Company recognizes a deferred tax asset when there is certainty that these can be offset with fiscal income from subsequent periods, losses or fiscal credits not yet used, but solely as long as it is more likely than not that there will be tax earnings in the future against which to charge to these losses or unused fiscal credits.

Deferred tax liabilities recognized refer to the amounts of income taxes payable in future periods related to taxable temporary differences.

d.1 Income tax assets and liabilities as of December 31, 2011 are detailed as follows:

Description of deferred income tax assets and liabilities	Net position, assets		Net position, liabilities

Note 28 - Income and deferred taxes (continued)

28.4 Income and deferred taxes (continued)

d.3 Deferred income taxes related to benefits for tax losses

The Company's tax loss carryforwards (NOL carryforwards) were mainly generated by losses in Chile, which in accordance with current Chilean tax regulations have no expiration date.

As of December 31, 2011 and December 31, 2010, tax loss carryforwards (NOL carryforwards) are detailed as follows:

	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
Chile	1,046	2,748
Other countries	-	796
Balance at year-end	1,046	3,544

Tax losses as of December 31 correspond mainly to Servicios Integrales de Tránsitos y Transferencias S.A., Exploraciones Mineras e Isapre Norte Grande Ltda.

d.4 Unrecognized deferred income tax assets and liabilities

As of December 31, 2011 and December 31, 2010, unrecognized assets and liabilities are detailed as follows:

Edgar Filing: CHEMICAL & MINING CO OF CHILE INC - Form 6-K

	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
	Assets	Assets
	(liabilities)	(liabilities)
Tax losses (NOL's)	139	251
Doubtful accounts impairment	81	98
Inventory impairment	1,020	704
Pensions plan	(536)	266
Vacation accrual	29	29
Depreciation	(57)	(67)
Other	(19)	(17)
Balance at year-end	657	1,264

Tax losses mainly relate to the United States, which expire in 20 years,

Notes to the consolidated Financial Statements as of December 31, 2011

(Translation of consolidated financial statements originally issued in Spanish – see Note 2.2)

Note 28 - Income and deferred taxes (continued)

28.4 Income and deferred taxes (continued)

d.5 Movements in deferred tax liabilities

Movements in deferred tax liabilities as of December 31, 2011 and December 31, 2010 are detailed as follows:

	12.31.2011	12.31.2010
	ThUS\$	ThUS\$
	Liabilities	Liabilities
	(assets)	(assets)
Beginning balance of deferred income tax liabilities	100,416	52,932
Increase (decrease) in deferred income taxes in statement of income	(3,664)	47,735
Tax Recovery of first category credit absorbed by tax losses	1,756	-
Increase (decrease) in deferred income taxes in equity	(218)	(251)
Balance at year-end	98,290	100,416

d.6 Disclosures on income tax expense (income)

The Company recognizes current and deferred income taxes as income or expenses, and they are included in income, unless they arise from:

(a) a transaction or event recognized in the same period or in a different period, outside profit or loss either in other comprehensive income or directly in equity; or

(b) a business combination

Notes to the consolidated Financial Statements as of December 31, 2011

Note 28 - Income and deferred taxes (continued)

28.4 Income and deferred taxes (continued)

d.7 Equity interest in taxation attributable to investments recognized according to the equity method:

The Company does not recognize any deferred income tax liability in all cases of taxable temporary differences associated with investments in subsidiaries, branches and associated companies or interest in joint ventures, because as indicated in the standard, the following two conditions are jointly met:

(a) the parent company, investor or interest holder is able to control the time for reversal of the temporary difference; and

(b) It is more likely than not that the temporary difference is not reversed in the foreseeable future.

In addition, the Company does not recognize deferred income tax assets for all deductible temporary differences from investments in subsidiaries, branches and associated companies or interests in joint ventures because it is not possible to meet for the following requirements:

(a) Temporary differences are reversed in a foreseeable future; and

(b) The Company has tax earnings, against which temporary differences can be used.

d.8 Information on the tax effects of other comprehensive income components:

d.9 Explanation of the relationship between expense (income) for tax purposes and accounting income

In accordance with paragraph No. 81, letter c) of IAS 12, the Company has estimated that the method that discloses more significant information for the users of its financial statements is the reconciliation of tax expense (income) to the result of multiplying income for accounting purposes by the tax rate in force in Chile. This option is based on the fact that the Parent Company and its subsidiaries incorporated in Chile generate almost the total amount of tax expense (income) and the fact that amounts of subsidiaries incorporated in foreign countries have no relevant significance within the context of the total amount of tax expense (income.)

Reconciliation of numbers in income tax expenses (income) and the result of multiplying financial gain by the rate prevailing in Chile.

	12.31.2011		12.31.2010	
	ThUS\$		ThUS\$	
	Income		Income	
	(loss)		(loss)	
Consolidated income before taxes	733,829		493,300	
Income tax rate in force in Chile	20	%	17	%
Tax expense using the legal rate	(146,766)	(83,861)
Effect of royalty tax expense	(24,487)	(11,115)
Effect of non-taxable income	6,865		2,783	
Tax effect of rates in other jurisdictions	(2,548)	(1,360)
Tax effect of tax rates supported abroad	(3,173)	(3,996)
Effect on the tax rate arising from changes in the tax rate	-		(11,385)
Other effects from the reconciliation between carrying amount and the tax expense (income)	(9,601)	2,905	

Tax expense using the effective rate (179,710) (106,029)

d.10 Tax periods potentially subject to verification:

The Company is potentially subject to income tax audits by tax authorities in each country. These audits are limited to a number of annual tax periods, which, in general, when they elapse, give rise to the expiration of these inspections.

Tax audits, due to their nature, are often complex and may require several years. Below, we provide a summary of tax periods that are potentially subject to verification, in accordance with tax regulations in force in the country of origin:

a) Chile

According to article 200 of Decree Law No. 830, the tax authority shall review for any deficiencies in its settlement and taxes turn giving rise, by applying a requirement of 3 years term from the expiration of the legal deadline when payment should have been made. Besides, this requirement was extended to 6 years term for the revision of taxes subject to declaration, when such declaration was not been filed or has been presented maliciously false.

b) United States

In the United States, the tax authority may review tax returns for up to 3 years from the expiration date of the tax return. In the event that an omission or error is detected in the tax return of sales or cost of sales, the review can be extended for a period of up to 6 years.

c) Mexico

In Mexico, the tax authority can review tax returns up to 5 years from the expiration date of the tax return.

d) Spain

In Spain, the tax authority can review tax returns up to 4 years from the expiration date of the tax return.

e)

Belgium

In Belgium, the tax authority may review tax returns for up to 3 years from the expiration date of the tax return if no tax losses exist. In the event of detecting an omission or error in the tax return, the review can be extended for a period of up to 5 years.

f)

South Africa

In South Africa, the tax authority may review tax returns for up to 3 years from the expiration date of the tax return. In the event an omission or error in the tax return is detected, the review can be extended for a period of up to 5 years.

Note 28 - Income and deferred taxes (continued)

28.5 Amendments to the income tax law and specific tax on mining in Chile

a) Amendment to Corporate Tax

Law No. 20,455 was published in the Official Gazette of July 31, 2010. Article 1 of this law temporarily increases the Corporate Tax rate set forth in article 20 of the Income Tax Law (ITL), which levies incomes received or accrued within calendar years 2011 and 2012.

In accordance with that temporary increase, the referred-to rate of 17% increases to 20% for income received or accrued within calendar year 2011 (fiscal year 2012); and to 18,5% for income received or accrued within calendar year 2012 (fiscal year 2013).

b) Amendment to the specific tax on mining

Law No. 20,469 was published in the Official Gazette of October 21, 2010, dealing with the following matters:

a. Article 64 bis of the Income Tax Law, which establishes a specific tax on the operating income derived from mining activities earned by a foreign mine operator, was replaced;

b. It included a new article 64 ter, relating to the method to be used to determine the operating taxable income derived from mining activities that, prior to this amendment, were addressed in the replaced article 64 bis;

c. It amended article 11 ter of Decree Law 600/ 1974; and

d. It established transitory and optional regulations applicable to investments or companies subject to articles 7, 11 bis and 11 ter of DL 600/ 1974; transitory article 5 of Law 20,026, and companies included in the provisions set forth in transitory article 4, even when they are not the recipients of foreign investments.

SQM Salar S.A. on August 26, 2011 undersigned a contract with the Ministry of Economy, Development and Tourism that grants the fixed regime that is set forth in Article 4-Transitory of Law 20469 of 2010.

SQM Nitratos S.A. on December 22, 2011 undersigned a contract with the Ministry of Economy, Development and Tourism that grants the fixed regime that is set forth in Article 4-Transitory of Law 20469 of 2010.

This contract grants the benefit of fixed regime to SQM Salar S.A. and SQM Nitratos S.A. as of 2013 and for 5 years, to a fixed 5% rate as its Specific Mining Tax.
