AGREE REALTY CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016

(Unaudited)

Note 1 – Organization

Agree Realty Corporation, a Maryland corporation, is a fully integrated real estate investment trust (“REIT”) primarily focused on the ownership, acquisition, development and management of retail properties net leased to industry leading tenants. We were founded in 1971 by our current Executive Chairman, Richard Agree, and listed on the New York Stock Exchange (“NYSE”) in 1994.

Our assets are held by, and all of our operations are conducted through, directly or indirectly, Agree Limited Partnership (the “Operating Partnership”), of which we are the sole general partner and in which we held a 98.4% interest as of March 31, 2016. Under the partnership agreement of the Operating Partnership, we, as the sole general partner, have exclusive responsibility and discretion in the management and control of the Operating Partnership.

The terms “Agree Realty,” the “Company,” “we,” “our” or “us” refer to Agree Realty Corporation and all of its consolidated subsidiaries, including the Operating Partnership.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting and Principles of Consolidation

The accompanying unaudited consolidated financial statements for the three months ended March 31, 2016 have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for audited financial statements. The unaudited consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the results for the interim period presented. Operating results for the three months ended March 31, 2016 may not be indicative of the results that may be expected for the year ending December 31, 2016. Amounts as of December 31, 2015 included in the consolidated financial statements have been derived from the audited consolidated financial statements as of that date. The unaudited consolidated financial statements, included herein, should be read in conjunction with the consolidated financial statements and notes thereto, as well as Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Form 10-K for the year ended December 31, 2015.

The unaudited consolidated financial statements include the accounts of the Company, the Operating Partnership and its wholly-owned subsidiaries. All material intercompany accounts and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America GAAP requires management to make estimates and assumptions that affect the reported amounts of (1) assets and liabilities at the date of the financial statements and (2) revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassification

Certain reclassifications or prior period amounts have been made in the consolidated financial statements and footnotes in order to conform to the current presentation. As a result of the adoption of ASU 2015-03, unamortized debt issuance cost is presented as a direct deduction from the carrying amount of the debt liability; in previously filed reports the unamortized debt issuance cost was classified on the Balance Sheets as an Unamortized Deferred Expense.

Segment Reporting

We are in the business of acquiring, developing and managing retail real estate which we consider one reporting segment. The Company has no other reporting segments.

AGREE REALTY CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016

(Unaudited)

Real Estate Investments

The Company records the acquisition of real estate at cost, including acquisition and closing costs. For properties developed by the Company, all direct and indirect costs related to planning, development and construction, including interest, real estate taxes and other miscellaneous costs incurred during the construction period, are capitalized for financial reporting purposes and recorded as property under development until construction has been completed. Properties classified as “held for sale” are recorded at the lower of their carrying value or their fair value less anticipated selling costs.

Accounting for Acquisitions of Real Estate

The acquisition of property for investment purposes is typically accounted for as an asset acquisition. The Company allocates the purchase price to land, building and identified intangible assets and liabilities, based in each case on their relative estimated fair values and without giving rise to goodwill. Intangible assets and liabilities represent the value of in-place leases and above- or below-market leases. In making estimates of fair values, the Company may use a number of sources, including data provided by independent third parties, as well as information obtained by the Company as a result of its due diligence, including expected future cash flows of the property and various characteristics of the markets where the property is located.

In allocating the fair value of the identified intangible assets and liabilities of an acquired property, in-place lease intangibles are valued based on the Company’s estimate of costs related to tenant acquisition and the carrying costs that would be incurred during the time it would take to locate a tenant if the property were vacant, considering current market conditions and costs to execute similar leases at the time of the acquisition. Above and below market lease intangibles are recorded based on the present value of the difference between the contractual amounts to be paid pursuant to the leases at the time of acquisition of the real estate and management’s estimate of current market lease rates for the property, measured over a period equal to the remaining non-cancelable term of the lease.

The fair value of identified intangible assets and liabilities acquired is amortized to depreciation and amortization over the remaining term of the related leases.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents consist of cash and money market accounts. The account balances periodically exceed the Federal Deposit Insurance Corporation ("FDIC") insurance coverage, and as a result, there is a concentration of credit risk related to amounts on deposit in excess of FDIC insurance coverage. We had \$2.7 million and \$1.7 million as of March 31, 2016 and December 31, 2015, respectively, in excess of the FDIC insured limit.

Accounts Receivable – Tenants

The Company reviews its rent receivables for collectability on a regular basis, taking into consideration changes in factors such as the tenant's payment history, the financial condition of the tenant, business conditions in the industry in which the tenant operates and economic conditions in the area where the property is located. In the event that the collectability of a receivable with respect to any tenant is in doubt, a provision for uncollectible amounts will be established or a direct write-off of the specific rent receivable will be made. For accrued rental revenues related to the straight-line method of reporting rental revenue, the Company performs a periodic review of receivable balances to assess the risk of uncollectible amounts and establish appropriate provisions.

Sales Tax

The Company collects various taxes from tenants and remits these amounts, on a net basis, to the applicable taxing authorities.

Unamortized Deferred Expenses

Deferred expenses include debt financing costs, leasing costs and lease intangibles and are amortized as follows: (i) debt financing costs on a straight-line basis to interest expense over the term of the related loan; (ii) leasing costs on a straight-line basis to depreciation and amortization over the term of the related lease entered into; and (iii) lease intangibles on a straight-line basis to depreciation and amortization over the remaining term of the related lease acquired.

AGREE REALTY CORPORATION**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****March 31, 2016****(Unaudited)**

The following schedule summarizes the Company's amortization of deferred expenses for the three months ended March 31, 2016 and 2015, respectively:

Earnings per Share

Earnings per share have been computed by dividing net income by the weighted average number of common shares outstanding. Diluted earnings per share is computed by dividing net income by the weighted average common and potential dilutive common shares outstanding in accordance with the treasury stock method.

The following is a reconciliation of the denominator of the basic net earnings per common share computation to the denominator of the diluted net earnings per common share computation for each of the periods presented:

Income Taxes

The Company has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended. As a REIT, the Company generally will not be subject to federal income tax provided it continues to satisfy certain tests concerning the Company's sources of income, the nature of its assets, the amounts distributed to its stockholders, and the ownership of Company stock. Management believes the Company has qualified and will continue to qualify as a REIT. Notwithstanding the Company's qualification for taxation as a REIT, the Company is subject to certain state and local taxes on its income and real estate.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016

(Unaudited)

The Company has established taxable REIT subsidiaries (“TRS”) pursuant to the provisions of the Internal Revenue Code. The Company’s TRS entities are able to engage in activities resulting in income that would be non-qualifying income for a REIT. As a result, certain activities of the Company which occur within its TRS entities are subject to federal and state income taxes. As of March 31, 2016 and December 31, 2015, the Company had accrued a deferred income tax amount of \$705,000. In addition, the Company recognized income tax expense of \$0 and \$3,317 for the three months ended March 31, 2016 and 2015, respectively.

Fair Values of Financial Instruments

The Company’s estimates of fair value of financial and non-financial assets and liabilities are based on the framework established in the fair value accounting guidance. The framework specifies a hierarchy of valuation inputs which was established to increase consistency, clarity and comparability in fair value measurements and related disclosures. The guidance describes a fair value hierarchy based upon three levels of inputs that may be used to measure fair value, two of which are considered observable and one that is considered unobservable. The following describes the three levels:

Level 1 – Valuation is based upon quoted prices in active markets for identical assets or liabilities.

Level 2 – Valuation is based upon inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include option pricing models, discounted cash flow models and similar techniques.

Recent Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board issued ASU No. 2016-09 “Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting.” The ASU includes

multiple provisions intended to simplify various aspects of the accounting for share-based payments. While aimed at reducing the cost and complexity of the accounting for share-based payments, the amendments are expected to impact net income, earnings per share, and the statement of cash flows. ASU No. 2016-09 is effective for annual reporting periods (including interim periods with those periods) beginning after December 15, 2016. Early adoption is permitted. We are still in the process of determining the impact that the implementation of ASU 2016-09 will have on the Company's financial statements.

In March 2016, the Financial Accounting Standards Board issued ASU No. 2016-05 "Derivatives and Hedging (Topic 815): "Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships". ASU 2016-05 addresses the impact on hedge accounting due to a change in a counterparty to a derivative instrument that has been designated as a hedging instrument under Topic 815. The amendments in this Update apply to all reporting entities for which there is a change in the counterparty to a derivative instrument that has been designated as a hedging instrument under Topic 815. The amendments in this Update clarify that a change in the counterparty to a derivative instrument that has been designated as the hedging instrument under Topic 815 does not, in and of itself, require dedesignation of that hedging relationship provided that all other hedge accounting criteria (including those in paragraphs 815-20-35-14 through 35-18) continue to be met. For public business entities, the amendments in this Update are effective for financial statements issued for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. We have reviewed ASU 2016-05 in the context of our hedge accounting and determined that it has no impact.

In February 2016, the Financial Accounting Standards Board issued ASU No. 2016-02 "Leases." The new standard creates Topic 842, Leases, in FASB *Accounting Standards Codification* (FASB ASC) and supersedes FASB ASC 840, *Leases*. ASU 2016-02 requires a lessee to recognize the assets and liabilities that arise from leases (operating and finance). However, for leases with a term of 12 months or less, a lessee is permitted to make an accounting policy election not to recognize lease assets and lease liabilities. The main difference between the existing guidance on accounting for leases and the new standard is that operating leases will now be recorded in the statement of financial position as assets and liabilities. Current U.S. GAAP requires only capital (finance) leases to be recognized in the statement of financial position and amounts related to operating leases largely are reflected in the financial statements as rent expense on the income statement and in disclosures to the financial statements. ASU No. 2016-02 is effective for annual reporting periods (including interim periods within those periods) beginning after December 15, 2018. Early adoption is permitted. We are still in the process of determining the impact that the implementation of ASU 2016-02 will have on the Company's financial statements.

In April 2015, the Financial Accounting Standards Board issued ASU No. 2015-03 "Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs." The objective of ASU 2015-03 is to identify, evaluate, and improve areas of GAAP for which cost and complexity can be reduced while maintaining or improving the usefulness of the information provided to users of financial statements. To simplify presentation of debt issuance costs, the amendments require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments. ASU No. 2015-03 is effective for annual reporting periods (including interim periods within those periods) beginning after December 15, 2015. Early adoption is permitted. The Company has adopted the new guidance and determined the resulting impact on the statements was a reclassification of certain deferred financing costs from other assets to notes payable.

AGREE REALTY CORPORATION**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****March 31, 2016****(Unaudited)**

In May 2014, the Financial Accounting Standards Board issued ASU No. 2014-09 “Revenue from Contracts with Customers” (Topic 606). ASU No. 2014-09 was developed to enable financial statement users to better understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The update’s core principle is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Companies are to use a five-step contract review model to ensure revenue is recognized, measured and disclosed in accordance with this principle. ASU 2014-09 was to be effective for fiscal years and interim periods beginning after December 15, 2016. In August 2015, the Financial Accounting Standards Board issued ASU No. 2015-14 to defer the effective date of ASU No. 2014-09 for one year. As a result, ASU No. 2014-09 is now effective for fiscal years and interim periods beginning after December 15, 2017. In March 2016, the Financial Accounting Standards Board issued ASU No. 2016-08 “Revenue from Contracts with Customers: Principal versus Agent Considerations”. The amendments in this Update do not change the core principle of the guidance in Topic 606. The amendments clarify the implementation guidance on principal versus agent considerations. The amendments in this update will be applied retrospectively either to each prior reporting period presented or to disclose the cumulative effect recognized at the date of initial application. We are still in the process of determining the impact that the implementation of ASU 2014-09 will have on the Company’s financial statements.

| Lease Intangible Asset, net | \$ 76,650,860 | \$ 76,552,316 |

Investments

During the three months ended March 31, 2016, the Company purchased 12 retail net lease assets for approximately \$33.3 million, including acquisition and closing costs. These properties are located in nine states and are leased to 13 different tenants operating in nine diverse retail sectors for a weighted average lease term of approximately 6.9 years. The underwritten weighted average capitalization rate on the Company's acquisitions was approximately 7.9%.

AGREE REALTY CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016

(Unaudited)

The aggregate first quarter 2016 acquisitions were allocated \$10.4 million to land, \$21.1 million to buildings and improvements, and \$1.8 million to lease intangibles. The acquisitions were all cash purchases and there was no contingent consideration associated with these acquisitions.

None of the Company's acquisitions during the first three months of 2016 caused any new or existing tenant to comprise 10% or more of its total assets or generate 10% or more of its total annualized base rent at March 31, 2016.

The Company calculates the underwritten weighted average capitalization rate on its acquisitions by dividing annual expected net operating income derived from the properties by the total investment in the properties. Annual expected net operating income is defined as the straight-line rent for the base term of the lease less property level expenses (if any) that are not recoverable from the tenant.

Note 4 – Debt

In April 2015, FASB issued ASU 2015-03, which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the gross carrying amount of that debt liability, consistent with debt discounts. We adopted ASU 2015-03 effective as of the three months ended March 31, 2016 and appropriately retrospectively applied the guidance to our Mortgage Notes Payable, Unsecured Term Loans and Senior Unsecured Notes for all periods presented. Unamortized debt issuance costs of approximately \$2.6 million and \$2.7 million are now included as of March 31, 2016 and December 31, 2015, respectively (previously included in Unamortized Deferred Expenses on our Consolidated Balance Sheets.)

As of March 31, 2016, the Company had total gross indebtedness of \$352.3 million including (i) \$92.3 million of mortgage notes payable; (ii) \$100.0 million of unsecured term loans; (iii) \$100.0 million of senior unsecured notes; and (iv) \$60.0 million of borrowings under its Credit Facility.

Mortgage Notes Payable

As of March 31, 2016, the Company had total gross mortgage indebtedness of \$92.3 million which was collateralized by related real estate with an aggregate net book value of \$118.1 million. Including mortgages that have been swapped to a fixed interest rate, the weighted average interest rate on the Company's mortgage notes payable was 4.85%.

In March 2016, the Company prepaid a mortgage note payable with an outstanding balance of \$8.6 million. The fully-amortizing loan carried a 6.56% interest rate and the final monthly payment was due in June 2016.

| Unamortized debt issuance costs | (579,298) | (843,849) |
| Total | \$ 99,420,702 | \$ 99,156,151 |

The Company has in place a \$250.0 million senior unsecured revolving credit and term loan facility (the “Revolving Credit and Term Loan Facility”) consisting of (i) a \$150.0 million revolving credit facility (the “Credit Facility”); (ii) a \$65.0 million seven-year unsecured term loan facility (the “2021 Term Loan”); and (iii) a \$35.0 million unsecured term loan facility due 2020 (the “2020 Term Loan”).

The Credit Facility is due July 21, 2018, with an additional one-year extension at the Company’s option, subject to customary conditions. Borrowings under the Credit Facility are priced at LIBOR plus 135 to 200 basis points, depending on the Company’s leverage. As of March 31, 2016, \$60 million was outstanding under the Credit Facility bearing a weighted average interest rate of approximately 1.6% and \$90 million was available for borrowing.

The 2021 Term Loan matures on July 21, 2021. Borrowings under the 2021 Term Loan are priced at LIBOR plus 165 to 225 basis points, depending on the Company’s leverage, and the Company entered into interest rate swaps to fix LIBOR at 2.09% until maturity. As of March 31, 2016, \$65.0 million was outstanding under the 2021 Term Loan bearing an all-in interest rate of 3.74%.

The 2020 Term Loan matures on September 29, 2020. Borrowings under the 2020 Term Loan are priced at LIBOR plus 165 to 225 basis points, depending on the Company's leverage, and the Company entered into interest rate swaps to fix LIBOR at 2.20% until maturity. As of March 31, 2016, \$35.0 million was outstanding under the 2020 Term Loan bearing an all-in interest rate of 3.85%.

The Revolving Credit and Term Loan Facility contain customary covenants, including, among others, financial covenants regarding debt levels, total liabilities, tangible net worth, fixed charge coverage, unencumbered borrowing base properties and permitted investments. The Company was in compliance with the covenant terms at March 31, 2016.

Note 5 – Common Stock

On May 6, 2015, the Company implemented a \$100.0 million at-the-market equity program (“ATM program”) by entering into multiple equity distribution agreements through which the Company may, from time to time, sell shares of common stock. The Company uses the proceeds generated from its ATM program for general corporate purposes including funding our investment activity, the repayment or refinancing of outstanding indebtedness, working capital and other general purposes.

During the three months ended March 31, 2016, the Company issued 53,886 shares of common stock under its ATM program at an average price of \$38.38, realizing gross proceeds of approximately \$2.1 million. The Company has approximately \$57.9 million remaining under the ATM program as of March 31, 2016.

During the year ended December 31, 2015, the Company issued 1,318,812 of common stock under its ATM program at an average price of \$30.31, realizing gross proceeds of approximately \$40 million.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016

(Unaudited)

On March 27, 2015, the Securities and Exchange Commission declared effective a shelf registration statement previously filed by the Company. The securities covered by this registration statement, which expires March 27, 2018, cannot exceed \$500.0 million in the aggregate and include common stock, preferred stock, depositary shares and warrants. The Company may periodically offer one or more of these securities in amounts, prices and on terms to be announced when and if these securities are offered. The specifics of any future offerings, along with the use of proceeds of any securities offered, will be described in detail in a prospectus supplement, or other offering materials, at the time of any offering.

We completed a follow-on offering of 1,725,000 shares of common stock in December 2015. The offering, which included the full exercise of the overallotment option by the underwriters, raised net proceeds of approximately \$53.0 million after deducting the underwriting discount. The proceeds from the offering were used to pay down amounts outstanding under the Credit Facility and for general corporate purposes.

Note 6 – Dividends and Distribution Payable

On March 1, 2016, the Company declared a dividend of \$0.465 per share for the quarter ended March 31, 2016. The holders of limited partnership interests in the Operating Partnership (“OP Units”) were entitled to an equal distribution per OP Unit held as of March 31, 2016. The dividends and distributions payable were recorded as liabilities on the Company's consolidated balance sheet at March 31, 2016. The dividend has been reflected as a reduction of stockholders' equity and the distribution has been reflected as a reduction of the limited partners' non-controlling interest. These amounts were paid on April 15, 2016.

Note 7 – Derivative Instruments and Hedging Activity

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risk, including interest rate, liquidity and credit risk primarily by managing the amount, sources and duration of its debt funding and, to a limited extent, the use of derivative instruments.

The Company's objective in using interest rate derivatives is to manage its exposure to interest rate movements and add stability to interest expense. To accomplish this objective, the Company uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable rate amounts from a counterparty in exchange for the Company making fixed rate payments over the life of the agreement without exchange of the underlying notional amount.

In April 2012, the Company entered into a forward starting interest rate swap agreement to hedge against changes in future cash flows resulting from changes in interest rates on \$22.3 million in variable-rate borrowings. Under the terms of the interest rate swap agreement, the Company receives from the counterparty interest on the notional amount based on one-month LIBOR and pays to the counterparty a fixed rate of 1.92%. This swap effectively converted \$22.3 million of variable-rate borrowings to fixed-rate borrowings from July 1, 2013 to May 1, 2019.

In December 2012, the Company entered into interest rate swap agreements to hedge against changes in future cash flows resulting from changes in interest rates on \$25.0 million in variable-rate borrowings. Under the terms of the interest rate swap agreement, the Company receives from the counterparty interest on the notional amount based on one-month LIBOR and pays to the counterparty a fixed rate of 0.89%. This swap effectively converted \$25.0 million of variable-rate borrowings to fixed-rate borrowings from December 6, 2012 to April 4, 2018.

In September 2013, the Company entered into an interest rate swap agreement to hedge against changes in future cash flows resulting from changes in interest rates on \$35.0 million in variable-rate borrowings. Under the terms of the interest rate swap agreement, the Company receives from the counterparty interest on the notional amount based on one-month LIBOR and pays to the counterparty a fixed rate of 2.20%. This swap effectively converted \$35.0 million of variable-rate borrowings to fixed-rate borrowings from October 3, 2013 to September 29, 2020.

(Unaudited)

In July 2014, the Company entered into interest rate swap agreements to hedge against changes in future cash flows resulting from changes in interest rates on \$65.0 million in variable-rate borrowings. Under the terms of the interest rate swap agreement, the Company receives from the counterparty interest on the notional amount based on one-month LIBOR and pays to the counterparty a fixed rate of 2.09%. This swap effectively converted \$65.0 million of variable-rate borrowings to fixed-rate borrowings from July 21, 2014 to July 21, 2021.

Companies are required to recognize all derivative instruments as either assets or liabilities at fair value on the balance sheet. The Company has designated these derivative instruments as cash flow hedges. As such, changes in the fair value of the derivative instrument are recorded as a component of other comprehensive income (loss) ("OCI") for the three months ended March 31, 2016 to the extent of effectiveness. The ineffective portion of the change in fair value of the derivative instrument is recognized in interest expense. For the three months ended March 31, 2016, the Company has determined these derivative instruments to be effective hedges.

The Company does not use derivative instruments for trading or other speculative purposes and did not have any other derivative instruments or hedging activities as of March 31, 2016.

Note 8 – Discontinued Operations

The Company elected to early adopt ASU 2014-08 "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity" in the first quarter of 2014.

There were no properties classified as discontinued operations for the three months ended March 31, 2016 and 2015.

Note 9 – Fair Value Measurements

The table below sets forth the Company's fair value hierarchy for assets and liabilities measured or disclosed at fair value as of March 31, 2016.

| Liability: | Level 1 | Level 2 | Level 3 | Carrying Value |
|---------------------------|---------|--------------|----------------|----------------|
| Interest rate swaps | \$ - | \$6,138,222 | \$- | \$ 6,138,222 |
| Mortgage notes payable | \$ - | \$- | \$94,526,385 | \$ 92,284,189 |
| Unsecured term loans | \$ - | \$- | \$ 100,008,610 | \$ 100,000,000 |
| Senior unsecured notes | \$ - | \$- | \$99,685,161 | \$ 100,000,000 |
| Revolving credit facility | \$ - | \$60,000,000 | \$- | \$ 60,000,000 |

The carrying amounts of the Company's short-term financial instruments, which consist of cash, cash equivalents, receivables, and accounts payable, approximate their fair values. The fair value of the interest rate swaps were derived using estimates to settle the interest rate swap agreements, which are based on the net present value of expected future cash flows on each leg of the swap utilizing market-based inputs and discount rates reflecting the risks involved. The fair value of fixed rate debt was derived using the present value of future payments based on estimated current market interest rates. The fair value of variable rate debt is estimated to be equal to the face value of the debt because the interest rates are floating and is considered to approximate fair value.

Note 10 – Equity Incentive Plan

The Company estimates the fair value of restricted stock grants at the date of grant and amortizes those amounts into expense on a straight line basis or amount vested, if greater, over the appropriate vesting period.

As of March 31, 2016, there was \$6.6 million of total unrecognized compensation costs related to the outstanding restricted stock, which is expected to be recognized over a weighted average period of 3.7 years. The Company used 0% for both the discount factor and forfeiture rate for determining the fair value of restricted stock. The Company has deemed historical forfeitures insignificant and does not consider discount rates to be material.

The holder of a restricted stock award is generally entitled at all times on and after the date of issuance of the restricted shares to exercise the rights of a stockholder of the Company, including the right to vote the shares and the right to receive dividends on the shares.

AGREE REALTY CORPORATION**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****March 31, 2016****(Unaudited)**

Restricted stock activity is summarized as follows:

| | Shares Outstanding | Weighted Average Grant Date Fair Value |

| Restricted stock granted | 83,458 | \$ 36.65 |
| Restricted stock vested | (68,324) | \$ 26.89 |
| Restricted stock forfeited | - | \$ - |
| Unvested restricted stock at March 31, 2016 | 228,077 | \$ 32.50 |

Note 11 – Subsequent Events

In connection with the preparation of its financial statements for the three months ended March 31, 2016, the Company has evaluated events that occurred subsequent to March 31, 2016 through the date on which these financial statements were available to be issued to determine whether any of these events required disclosure in the financial statements. The Company is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following should be read in conjunction with the Interim Consolidated Financial Statements of Agree Realty Corporation (the "Company"), including the respective notes thereto, which are included in this Quarterly Report on Form 10-Q.

Cautionary Note Regarding Forward-Looking Statements

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Securities Exchange Act"). The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and include this statement for purposes of complying with these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations, are generally identifiable by use of the words "anticipate," "estimate," "should," "expect," "believe," "intend," "may," "will," "seek," "could," "project," or similar. Forward-looking statements in this report include information about possible or assumed future events, including, among other things, discussion and analysis of our future financial condition, results of operations, our strategic plans and objectives, occupancy and leasing rates and trends, liquidity and ability to refinance our indebtedness as it matures, anticipated expenditures of capital, and other matters. You should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and which could materially affect actual results, performances or achievements. Factors which may cause actual results to differ materially from current expectations, include, but are not limited to: the global and national economic conditions and changes in general economic, financial and real estate market conditions; changes in our business strategy; risks that our acquisition and development projects will fail to perform as expected; the potential need to fund improvements or other capital expenditures out of operating cash flow; financing risks, such as the inability to obtain debt or equity financing on favorable terms or at all; the level and volatility of interest rates; our ability to re-lease space as leases expire; loss or bankruptcy of one or more of our major tenants; a failure of our properties to generate additional income to offset increases in operating expenses; our ability to maintain our qualification as real estate investment trust ("REIT") for federal income tax purposes and the limitations imposed on our business by our status as a REIT; and legislative or regulatory changes, including changes to laws governing REITs. The factors included in this quarterly report, including the documents incorporated by reference, and documents the Company subsequently files with the SEC and incorporates by reference, are not exhaustive and additional factors could adversely affect its business and financial performance. For a discussion of additional risk factors, see the factors included under the caption "Risk Factors" in the Company's most recent Annual Report on Form 10-K. All forward-looking statements are based on information that was available, and speak only, as of the date on which they were made. Except as required by law, the Company disclaims any obligation to review or update these forward-looking statements to reflect events or circumstances as they occur.

Overview

The Company is a fully integrated REIT primarily focused on the ownership, acquisition, development and management of retail properties net leased to industry leading tenants. The Company was founded in 1971 by its current Executive Chairman, Richard Agree, and listed on the New York Stock Exchange (“NYSE”) in 1994. The Company’s assets are held by, and all of its operations are conducted through, directly or indirectly, Agree Limited Partnership (the “Operating Partnership”), of which the Company is the sole general partner and in which it held a 98.4% interest as of March 31, 2016.

As of March 31, 2016, the Company’s portfolio consisted of 291 properties located in 42 states and totaling approximately 5.4 million square feet of gross leasable area. As of March 31, 2016, the portfolio was approximately 99.5% leased and had a weighted average remaining lease term of approximately 11.2 years. Substantially all of the Company’s tenants are subject to net lease agreements. A net lease typically requires the tenant to be responsible for minimum monthly rent and property operating expenses including property taxes, insurance and maintenance.

First Quarter 2016 Highlights

During the three months ended March 31, 2016, the Company purchased 12 retail net lease assets for approximately \$33.3 million, including acquisition and closing costs. These properties are located in nine states and are 100% leased to 13 different tenants operating in nine diverse retail sectors for a weighted average lease term of approximately 6.9 years. The underwritten weighted average capitalization rate on the Company’s first quarter 2016 acquisitions was approximately 7.9%.

During the three months ended March 31, 2016, the Company completed the development of a previously announced Hobby Lobby in Springfield, Ohio. Hobby Lobby is subject to a new 15-year lease and rent commenced in the first quarter of 2016. The total project cost was approximately \$5.0 million.

Recent Accounting Pronouncements

Refer to Note 2 to the March 31, 2016, Interim Consolidated Financial Statements.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires the Company’s management to use judgment in the application of accounting policies, including making estimates and assumptions. Management bases estimates on the best information available at the time, its experience, and on various other assumptions believed to be reasonable under the circumstances. These estimates affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. If management’s judgment or interpretation of the facts and circumstances relating to various transactions or other matters had been different, it is possible that different accounting would have been applied, resulting in a different presentation of the interim consolidated financial statements. From time to time, the Company may re-evaluate its estimates and assumptions. In the event estimates or assumptions prove to be different from actual results, adjustments are made in subsequent periods to reflect more current estimates and assumptions about matters that are inherently uncertain. A summary of the Company’s critical accounting policies is included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015. The Company has not made any material changes to these policies during the periods covered by this quarterly report.

Results of Operations

Comparison of Three Months Ended March 31, 2016 to Three Months Ended March 31, 2015

Minimum rental income increased \$3,937,000, or 27%, to \$18,491,000 in 2016, compared to \$14,554,000 in 2015. Approximately \$4,397,000 of the increase was due to the acquisition of additional net lease properties and approximately \$144,000 was due to the development of new net lease properties. These increases were partially offset by a reduction in minimum rental income of approximately \$601,000 relating to properties that were sold.

Percentage rents increased \$173,000 to \$183,000 in 2016, compared to \$10,000 in 2015. The increase was the result of earlier recognition of percentage rent in the first quarter of 2016, compared to the recognition of percentage rent that took place in the second quarter of 2015.

Operating cost reimbursements increased \$411,000, or 35%, to \$1,589,000 in 2016, compared to \$1,178,000 in 2015. Operating cost reimbursements increased primarily due to higher levels of recoverable property operating expenses, including real estate taxes, acquisition, disposition and development activity. The portfolio recovery rate increased to 94% in 2016 compared to 88% in 2015.

Other income decreased by \$40,000 in 2016 from \$1,200 in 2015. The primary driver of the decrease was the reversal of revenue recognized in the fourth quarter of 2015.

Real estate taxes increased \$360,000, or 47%, to \$1,123,000 in 2016, compared to \$763,000 in 2015. The increase was due to the ownership of additional properties in the first quarter of 2016 compared to the first quarter of 2015 for which we remit real estate taxes and are subsequently reimbursed by tenants.

Property operating expenses increased \$2,000, or 0%, to \$573,000 in 2016, compared to \$571,000 in 2015.

Land lease payments increased \$31,000, or 24%, to \$163,000 in 2016, compared to \$132,000 for 2015. The increase is the result of properties acquired after the first quarter of 2015 that are subject to land leases.

General and administrative expenses increased \$377,000, or 23%, to \$2,045,000 in 2016, compared to \$1,668,000 in 2015. The increase is primarily the result of increased employee and professional costs. General and administrative expenses as a percentage of total revenue decreased to 10.1% for 2016 from 10.6% in 2015.

Depreciation and amortization increased \$1,531,000, or 43%, to \$5,085,000 in 2016, compared to \$3,554,000 in 2015. The increase was primarily the result of recent acquisition and development activity.

The Company recorded no impairment charges during the first quarter of 2016.

Interest expense increased \$1,187,000, or 48%, to \$3,648,000 in 2016, compared to \$2,461,000 for 2015. The increase in interest expense is primarily a result of the \$100,000,000 senior unsecured notes issued in May 2015.

The Company recognized no gain or loss on sale of real estate during the first quarter of 2016. As compared to a gain of \$79,000 in 2015.

Net income attributable to the Company increased \$1,093,000, to \$7,461,000 in 2016, from \$6,368,000 in 2015 as a result of the foregoing factors.

Liquidity and Capital Resources

The Company's principal demands for funds include payment of operating expenses, payment of principal and interest on its outstanding indebtedness, distributions to its shareholders and future property acquisitions and development.

The Company expects to meet its short term liquidity requirements through cash provided from operations and borrowings under its \$150.0 million unsecured revolving credit facility (the "Credit Facility"). As of March 31, 2016, \$60.0 million was outstanding on the Credit Facility and \$90.0 million was available for future borrowings. The Company anticipates funding its long term capital needs through cash provided from operations, borrowings under the Credit Facility, the issuance of long term debt or the issuance of common or preferred equity or other instruments convertible into or exchangeable for common or preferred equity.

We continually evaluate alternative financing and believe that we can obtain financing on reasonable terms. However, there can be no assurance that additional financing or capital will be available, or that the terms will be acceptable or

advantageous to us.

Capitalization

As of March 31, 2016, the Company's total market capitalization was approximately \$1.2 billion. Market capitalization consisted of \$811.8 million of common equity (based on the March 31, 2016 closing price on the NYSE of \$38.47 per common share and assuming the conversion of operating partnership units in the Operating Partnership ("OP units")) and \$352.3 million of total debt, including (i) \$92.3 million of mortgage notes payable; (ii) \$100.0 million of unsecured term loans; (ii) \$100.0 million of senior unsecured notes; and (iii) \$60.0 million of borrowings under our Credit Facility. Our ratio of total debt to total market capitalization was 30.3% at March 31, 2016.

At March 31, 2016, the non-controlling interest in the Operating Partnership represented ownership of 1.7% of the Operating Partnership. The OP Units may, under certain circumstances, be exchanged for shares of common stock on a one-for-one basis. The Company, as sole general partner of the Operating Partnership, has the option to settle exchanged OP Units held by others for cash based on the current trading price of its shares. Assuming the exchange of all OP Units, there would have been 21,101,883 shares of common stock outstanding at March 31, 2016.

Debt

Revolving Credit and Term Loan Facility

The Company has in place a \$250.0 million senior unsecured revolving credit and term loan facility (the "Revolving Credit and Term Loan Facility") consisting of (i) a \$150.0 million Credit Facility; (ii) a \$65.0 million seven-year unsecured term loan facility (the "2021 Term Loan"); and (iii) a \$35.0 million unsecured term loan facility due 2020 (the "2020 Term Loan").

The Credit Facility is due July 21, 2018, with an additional one-year extension at the Company’s option, subject to customary conditions. Borrowings under the Credit Facility are priced at LIBOR plus 135 to 200 basis points, depending on the Company’s leverage. As of March 31, 2016, \$60.0 million was outstanding under the Credit Facility bearing a weighted average interest rate of approximately 1.6% and \$90.0 million was available for borrowing.

The 2021 Term Loan matures on July 21, 2021. Borrowings under the 2021 Term Loan are priced at LIBOR plus 165 to 225 basis points, depending on the Company’s leverage, and the Company entered into interest rate swaps to fix LIBOR at 2.09% until maturity. As of March 31, 2016, \$65.0 million was outstanding under the 2021 Term Loan bearing an all-in interest rate of 3.74%.

The 2020 Term Loan matures on September 29, 2020. Borrowings under the 2020 Term Loan are priced at LIBOR plus 165 to 225 basis points, depending on the Company’s leverage, and the Company entered into interest rate swaps to fix LIBOR at 2.20% until maturity. As of March 31, 2016, \$35.0 million was outstanding under the 2020 Term Loan bearing an all-in interest rate of 3.85%.

The Revolving Credit and Term Loan Facility contains customary covenants, including, among others, financial covenants regarding debt levels, total liabilities, tangible net worth, fixed charge coverage, unencumbered borrowing base properties, and permitted investments. The Company was in compliance with the covenant terms at March 31, 2016.

Senior Unsecured Notes

As of March 31, 2016, the Company had outstanding \$100.0 million principal amount of senior unsecured notes (the “Senior Unsecured Notes”) consisting of two series, including \$50.0 million of 4.16% notes due May 30, 2025 and \$50.0 million of 4.26% notes due May 30, 2027. The weighted average term of the Senior Unsecured Notes is 11 years and the weighted average interest rate is 4.21%.

Mortgage Notes Payable

As of March 31, 2016, the Company had total mortgage indebtedness of \$92.3 million. Including our mortgages that have been swapped to a fixed interest rate, our weighted average interest rate on mortgage debt was 4.85%. The following table summarizes our mortgage notes payable as of March 31, 2016 (in thousands):

| | Interest | | Principal Amount Outstanding |

(1) *Fixed rates, including the effect of interest rate swaps.*

(2) *Mortgage secured by three Wawa Locations was paid off on March 11, 2016 in the amount of \$8,580,000*

(3) *The note matures May 14, 2017 and may be extended, at the Company's election, for a two-year term to May 14, 2019, subject to certain conditions.*

The mortgage loans encumbering our properties are generally non-recourse, subject to certain exceptions for which we would be liable for any resulting losses incurred by the lender. These exceptions vary from loan to loan, but generally include fraud or a material misrepresentation, misstatement or omission by the borrower, intentional or grossly negligent conduct by the borrower that harms the property or results in a loss to the lender, filing of a bankruptcy petition by the borrower, either directly or indirectly, and certain environmental liabilities. At March 31, 2016, the mortgage loan of \$20.7 million was partially recourse to us and secured by a limited guaranty of payment and performance for approximately 50% of the loan amount.

We have entered into mortgage loans which are secured by multiple properties and contain cross-default and cross-collateralization provisions. Cross-collateralization provisions allow a lender to foreclose on multiple properties in the event that we default under the loan. Cross-default provisions allow a lender to foreclose on the related property in the event a default is declared under another loan.

Contractual Obligations

The following table summarizes our contractual obligations as of March 31, 2016 (in thousands):

| | Total | Remainder of 2016 | 2017-2018 | 2019-2020 | Thereafter |
|--|-----------|-------------------------|------------|-----------|------------|
| Mortgage Notes Payable | \$92,284 | \$ 2,234 | \$ 50,031 | \$ 6,618 | \$ 33,401 |

| Total | \$453,299 | \$ 12,232 | \$ 134,470 | \$ 61,771 | \$ 244,826 |

Estimated interest payments are based on (i) the stated rates for mortgage notes payable, including the effect of interest rate swaps; (ii) the stated rates for unsecured term loans, including the effect of interest rate swaps and assuming the interest rate in effect for the most recent quarter remains in effect through the respective maturity dates; and (iii) the stated rates for senior unsecured notes.

Dividends

During the quarter ended March 31, 2016, we declared a quarterly dividend of \$0.465 per share. The cash dividend was paid on April 15, 2016 to holders of record on March 31, 2016.

Inflation

The Company's leases typically contain provisions to mitigate the adverse impact of inflation on its results of operations. Tenant leases generally provide for limited increases in rent as a result of fixed increases or increases in the consumer price index. Certain of the Company's leases contain clauses enabling it to receive percentage rents based on tenants' gross sales, which generally increase as prices rise. During times when inflation is greater than increases in rent, rent increases will not keep up with the rate of inflation.

Substantially all of the Company's properties are leased to tenants under long-term, net leases which require the tenant to pay certain operating expenses for a property, thereby reducing the Company's exposure to operating cost increases resulting from inflation. Inflation may have an adverse impact on the Company's tenants.

Funds from Operations

Funds from Operations (“FFO”) is defined by the National Association of Real Estate Investment Trusts, Inc. (NAREIT) to mean net income computed in accordance with GAAP, excluding gains (or losses) from sales of property, plus real estate related depreciation and amortization and any impairment charges on a depreciable real estate asset, and after adjustments for unconsolidated partnerships and joint ventures. Management uses FFO as a supplemental measure to conduct and evaluate the Company’s business because there are certain limitations associated with using GAAP net income by itself as the primary measure of the Company’s operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, management believes that the presentation of operating results for real estate companies that use historical cost accounting is insufficient by itself.

FFO should not be considered as an alternative to net income as the primary indicator of the Company’s operating performance, or as an alternative to cash flow as a measure of liquidity. Further, while the Company adheres to the NAREIT definition of FFO, its presentation of FFO is not necessarily comparable to similarly titled measures of other REITs due to the fact that all REITs may not use the same definition.

Adjusted Funds from Operations (“AFFO”) is a non-GAAP financial measure of operating performance used by many companies in the REIT industry. AFFO further adjusts FFO for certain non-cash items that reduce or increase net income in accordance with GAAP and for non-recurring items that are not reflective of ongoing operations. Management considers AFFO a useful supplemental measure of the Company’s performance, however, AFFO should not be considered an alternative to net income as an indication of the Company’s performance, or to cash flow as a measure of liquidity or ability to make distributions. The Company’s computation of AFFO may differ from the methodology for calculating AFFO used by other equity REITs, and therefore may not be comparable to such other REITs. Note that, during the year ended December 31, 2015, the Company adjusted its calculation of AFFO to exclude non-recurring capitalized building improvements and to include non-real estate related depreciation and amortization. Management believes that these changes provide a more useful measure of operating performance in the context of AFFO.

The following table provides a reconciliation of FFO and net income for the three ended March 31, 2016 and 2015:

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to interest rate risk primarily through borrowing activities. There is inherent roll-over risk for borrowings as they mature and are renewed at current market rates. The extent of this risk is not quantifiable or predictable because of the variability of future interest rates and our future financing requirements.

Our interest rate risk is monitored using a variety of techniques. The table below presents the principal payments and the weighted average interest rates on outstanding debt, by year of expected maturity, to evaluate the expected cash flows and sensitivity to interest rate changes.

The fair value (in thousands) is estimated at \$94,526, \$100,009 and \$99,685 for mortgage notes payable, unsecured term loans and senior unsecured notes, respectively, as of March 31, 2016.

The table above incorporates those exposures that exist as of March 31, 2016; it does not consider those exposures or positions which could arise after that date. As a result, our ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during the period and interest rates.

We seek to limit the impact of interest rate changes on earnings and cash flows and to lower the overall borrowing costs by closely monitoring our variable rate debt and converting such debt to fixed rates when we deem such conversion advantageous. From time to time, we may enter into interest rate swap agreements or other interest rate hedging contracts. While these agreements are intended to lessen the impact of rising interest rates, they also expose

us to the risks that the other parties to the agreements will not perform, we could incur significant costs associated with the settlement of the agreements, the agreements will be unenforceable and the underlying transactions will fail to qualify as highly-effective cash flow hedges under GAAP guidance.

In April 2012, we entered into a forward starting interest rate swap agreement to hedge against changes in future cash flows resulting from changes in interest rates on \$22.3 million in variable-rate borrowings. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and pay to the counterparty a fixed rate of 1.92%. This swap effectively converted \$22.3 million of variable-rate borrowings to fixed-rate borrowings from July 1, 2013 to May 1, 2019. As of March 31, 2016, this interest rate swap was valued as a liability of \$687,954.

In December 2012, we entered into interest rate swap agreements to hedge against changes in future cash flows resulting from changes in interest rates on \$25.0 million in variable-rate borrowings. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and pay to the counterparty a fixed rate of 0.89%. This swap effectively converted \$25.0 million of variable-rate borrowings to fixed-rate borrowings from December 6, 2012 to April 4, 2018. As of March 31, 2016, this interest rate swap was valued as a liability of \$100,240.

In September 2013, we entered into an interest rate swap agreement to hedge against changes in future cash flows resulting from changes in interest rates on \$35.0 million in variable-rate borrowings. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and pay to the counterparty a fixed rate of 2.20%. This swap effectively converted \$35.0 million of variable-rate borrowings to fixed-rate borrowings from October 3, 2013 to September 29, 2020. As of March 31, 2016, this interest rate swap was valued as a liability of \$1,901,506.

In July 2014, we entered into interest rate swap agreements to hedge against changes in future cash flows resulting from changes in interest rates on \$65.0 million in variable-rate borrowings. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and pay to the counterparty a fixed rate of 2.09%. This swap effectively converted \$65.0 million of variable-rate borrowings to fixed-rate borrowings from July 21, 2014 to July 21, 2021. As of March 31, 2016, this interest rate swap was valued as a liability of \$3.4 million.

We do not use derivative instruments for trading or other speculative purposes and we did not have any other derivative instruments or hedging activities as of March 31, 2016.

As of March 31, 2016, a 100 basis point increase in interest rates on the portion of our debt bearing interest at variable rates would result in an increase in interest expense of approximately \$600,000.

ITEM 4. Controls and Procedures

Disclosure Controls and Procedures

At the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

Changes in Internal Control over Financial Reporting
