Item 7.01. Regulation FD Disclosure.

On May 11, 2016, Consolidated Water Co. Ltd. (the “Company”) held an investor conference call (the “Conference Call”) to discuss its operating results from the first quarter ended March 31, 2016 and other topics of interest. As previously reported, the Company through its majority-owned subsidiary, N.S.C. Agua, S.A. de C.V. (“NSC”), is pursuing a project (the “Project”) encompassing the construction, operation and minority ownership of a seawater reverse osmosis desalination plant to be located in northern Baja California, Mexico and accompanying pipelines to deliver water to the Mexican potable water system. The Company has acknowledged since the inception of the Project that, due to the amount of capital the Project requires, NSC will ultimately need an equity partner or partners for the Project and would maintain a minority ownership position in the company that would build and own the Project (“NewCo”). During the Conference Call, Frederick W. McTaggart, the Company’s President and Chief Executive Officer, stated that NSC would hold a 15% (or less) equity interest in the Project. The Company is hereby correcting such statement, as follows:

In the tender for the Project submitted to the State of Baja California (the “State”), NSC is proposed to hold a 25% ownership interest in NewCo. Such ownership interest has been determined based upon the requirements of the tender, negotiations to date with NSC’s proposed partners in NewCo and various assumptions made about available financing for NewCo should it be awarded the Project. However, assuming the State ultimately awards the Project to NewCo, the actual ownership percentage that NSC would hold of NewCo will be dependent upon several factors including, but not limited to, the actual terms of the final contract negotiated for the Project with the State, the final determination of the scope and cost of the Project, and the final determination of the amount, composition and cost of the debt financing necessary to complete the Project. While the Company continues to believe that NSC would maintain a minority ownership position in NewCo, it cannot provide definitive guidance at this time as to what percentage of ownership of NewCo that NSC would ultimately hold.

The filing of this Current Report on Form 8-K shall not be deemed an admission as to the materiality of any information herein that is required to be disclosed solely by reason of Regulation FD.
