CAUTIONARY STATEMENT FOR PURPOSES OF THE “SAFE HARBOR” PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This interim report may contain, in addition to historical information, “forward-looking statements” within the meaning of the “safe harbor” provisions of the U.S. Private Securities Litigation Reform Act of 1995 and Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. These forward-looking statements are based on SMIC’s current assumptions, expectations and projections about future events. SMIC uses words like “believe”, “anticipate”, “intend”, “estimate”, “expect”, “project” and similar expressions to identify forward looking statements, although not all forward-looking statements contain these words. These forward-looking statements are necessarily estimates reflecting judgment of SMIC’s senior management and involve significant risks, both known and unknown, uncertainties and other factors that may cause SMIC’s actual performance, financial condition or results of operations to be materially different from those suggested by the forward-looking statements including, among others, risks associated with cyclical and market conditions in the semiconductor industry, intense competition, timely wafer acceptance by SMIC’s customers, bad debt risk, timely introduction of new technologies, SMIC’s ability to ramp new products into volume, supply and demand for semiconductor foundry services, industry overcapacity, shortages in equipment, components and raw materials, availability of manufacturing capacity and financial stability in end markets.

Except as required by law, SMIC undertakes no obligation and does not intend to update any forward- looking statement, whether as a result of new information, future events or otherwise.

All references in this interim report to silicon wafer quantities are to 8-inch wafer equivalents, unless otherwise specified. Conversion of quantities of 12-inch wafers to 8-inch wafer equivalents is achieved by multiplying the number of 12-inch wafers by 2.25. When we refer to the capacity of wafer fabrication facilities, we are referring to the installed capacity based on specifications established by the manufacturers of the equipment used in those facilities. References to key process technology nodes, such as 0.35 micron, 0.25 micron, 0.18 micron, 0.15 micron, 0.13 micron, 90 nanometer, 65 nanometer, 45 nanometer and 28 nanometer include the stated resolution of the process technology, as well as intermediate resolutions down to but not including the next key process technology node of finer resolution. For example, when we state “0.25 micron process technology,” that also includes 0.22 micron, 0.21 micron, 0.20 micron and 0.19 micron technologies and “0.18 micron process technology” also includes 0.17 micron and 0.16 micron technologies. The financial information presented in this interim report has been prepared in accordance with IFRS.

LETTER TO SHAREHOLDERS

DEAR SHAREHOLDERS,

The Company recorded total revenue of approximately US\$1.722 billion for the first half of this year, representing an increase of 11.5% over the corresponding period of last year. Gross profit amounted to US\$438.0 million, representing an increase of approximately 5.6% over the corresponding period of last year. In general, wafer shipments for the first half of this year increased 11.0% as compared with that of the corresponding period of last year. Revenue from the PRC (excluding technology licensing revenue) increased 23.9% as compared with that of the corresponding period of last year. Revenue from North America-region decreased 14.0% as compared with that of the corresponding period of last year as a result of the inventory adjustment by major customers. We target to achieve high single-digit revenue growth for this year.

We have made significant breakthroughs in the research and development of advanced technology, which demonstrated noteworthy improvement in the efficiency of our research and development (“R&D”) efforts. We have completed the development of 28nm HKC+ and the first generation of FinFET technology, and have begun customer engagement. We would like to express our heartfelt gratitude to all of the members of our R&D team for their round the clock hard-work and dedication during the past quarters, enabling us to successfully accomplish these goals.

The Company also experienced changes in the composition of its Board of Directors. Mr. Lip-Bu Tan and Ms. Carmen I-Hua Chang retired as Independent Non-executive Directors of the Company upon the conclusion of the annual general meeting held in June this year. Dr. Tzu-Yin Chiu also resigned as Non- executive Director and Vice Chairman of the Company. The Board would like to express our heartfelt gratitude to these three Directors for their dedication and valuable contributions to the Company during their terms as Directors of SMIC. We are also pleased to welcome Professor Lawrence Juen-Yee Lau and Mr. Fan Ren Da Anthony as new members of the Board of SMIC.

During the first half of 2018, we were clearly aware of the slowing growth of the smartphone market, increasingly fierce competition in mature process technology and much greater pricing pressure than originally expected, as well as the increasingly complicated economic environments both at home and abroad. SMIC is now undergoing a critical period of new development, in which both challenges and opportunities exist at the same time. We continue our efforts and increase investment into R&D activities so as to achieve further breakthroughs in research and development as quickly as possible through parallel R&D activities, striving to become a leading world-class semiconductor foundry. We remain committed to diligently and carefully execute our business plan for the best interests of all of our shareholders. We would like to again express our sincere gratitude to our shareholders, customers, suppliers, and employees for their continued care and support of SMIC.

4 SMIC INTERIM REPORT 2018

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Board of Directors (the “Board”) of Semiconductor Manufacturing International Corporation (the “Company” or “SMIC”) would like to announce the unaudited interim results of operations of the Company and its subsidiaries (hereinafter collectively referred to as the “Group”) for the six months ended June 30, 2018, and would like to express its gratitude to the shareholders and its staff for their support for the Group.

SALES

Sales increased by 11.5% from US\$1,544.3 million for the six months ended June 30, 2017 to US\$1,721.8 million for the six months ended June 30, 2018. Excluding the recognition of technology licensing revenue, sale increased from US\$1,544.3 million for the six months ended June 30, 2017 to US\$1,561.3 million for the six months ended June 30, 2018, primarily due to an increase in wafer shipments during this period. The number of wafer shipments increased by 11.0% from 2,109,919 8-inch wafer equivalents for the six months ended June 30, 2017 to 2,341,966 8-inch wafer equivalents for the six months ended June 30, 2018. The technology licensing revenue of US\$160.4 million for the six months ended June 30, 2018 internally developed and not capitalized was authorized to Semiconductor Manufacturing Electronics (Shaoxing) Corporation (an associate of the Group) with no related cost of sales recognized by the Group.

COST OF SALES AND GROSS PROFIT

Cost of sales increased by 13.7% from US\$1,129.3 million for the six months ended June 30, 2017 to US\$1,283.7 million for the six months ended June 30, 2018, primarily due to an increase in wafer shipment and product-mix change during this period.

The Group had gross profit of US\$438.0 million for the six months ended June 30, 2018 compared to gross profit of US\$415.0 million for the six months ended June 30, 2017, representing an increase of 5.6%. Gross margin decreased to 25.4% for the six months ended June 30, 2018 from 26.9% for the six months ended June 30, 2017. Excluding the recognition of technology licensing revenue, gross margin decreased to 17.8% for the six months ended June 30, 2018 from 26.9% for the six months ended June 30, 2017, primarily due to product-mix change and lower average selling price during this period.

PROFIT FOR THE PERIOD FROM OPERATIONS

Profit from operations decreased from US\$99.0 million for the six months ended June 30, 2017 to US\$61.4 million for the six months ended June 30, 2018 primarily due to an increase of research and development expenses in the first half of 2018.

Research and development expenses increased by 23.4% from US\$219.0 million for the six months ended June 30, 2017 to US\$270.2 million for the six months ended June 30, 2018. The increase was mainly due to the increase of advanced technology research and development activities.

General and administrative expenses increased by US\$6.7 million from US\$93.6 million for the six months ended June 30, 2017 to US\$100.3 million for the six months ended June 30, 2018.

Sales and marketing expenses decreased by US\$3.2 million from US\$19.8 million for the six months ended June 30, 2017 to US\$16.7 million for the six months ended June 30, 2018.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Other operating incomes were US\$10.5 million and US\$16.4 million for the six months ended June 30, 2018 and 2017, respectively. The decrease was mainly due to less government funding received in the first half of 2018.

PROFIT FOR THE PERIOD

The Group had a profit of US\$58.7 million for the six months ended June 30, 2018, compared to US\$97.5 million for the six months ended June 30, 2017 mainly due to the net impact of 1) the factors described above, 2) more interest income, 3) increased foreign exchange gain, and 4) less gains on investment and disposal of equities.

FUNDING SOURCES FOR MATERIAL CAPITAL EXPENDITURE IN THE COMING YEAR

In 2018, the Group plans to spend approximately US\$2.3 billion in capital expenditures for foundry operations which are subject to adjustment based on market conditions. The capital expenditures are mainly for 1) the expansion of capacity in our majority-owned Beijing 300mm fab, Tianjin 200mm fab and Shanghai 300mm fab, and 2) research and development equipment, mask shops and intellectual property acquisition.

In addition, the Group budgeted approximately US\$136.7 million in 2018 as capital expenditures for non- foundry operations. This is mainly for the construction of employee's living quarters.

The Group's actual expenditures may differ from its planned expenditures for a variety of reasons, including changes in its business plan, market conditions, equipment prices, or customer requirements. The Group will monitor the global economy, the semiconductor industry, the demands of its customers, and its cash flow from operations and will adjust its capital expenditures plans as necessary.

The primary sources of capital resources and liquidity include cash generated from operations, bank borrowings and debt or equity issuances and other forms of financing. Future acquisitions, mergers, strategic investments, or other developments also may require additional financing. The amount of capital required to meet the Group's growth and

development targets is difficult to predict in the highly cyclical and rapidly changing semiconductor industry.

LIQUIDITY AND CAPITAL RESOURCES

For the six months ended June 30, 2018, the Group incurred capital expenditures of US\$880.9 million, compared to US\$1,508.7 million for the six months ended June 30, 2017. The Group financed its capital expenditures primarily from cash flows generated from operating and financing activities.

The Group had US\$1,414.3 million in cash and cash equivalent as of June 30, 2018. These cash and cash equivalent are held in the form of United States Dollars, Japanese Yen, Euro and Chinese Renminbi.

Net cash from operating activities decreased from US\$392.1 million for the six months ended June 30, 2017 to US\$205.4 million for the six months ended June 30, 2018, primarily due to 1) decreased gross margin excluding the recognition of technology licensing revenue, 2) increased research and development activities, and 3) less government funding received.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Net cash used in investing activities was US\$1,611.6 million for the six months ended June 30, 2018, primarily attributable to 1) purchases of plant and equipment mainly for the fabs in Shanghai, Beijing and Tianjin, 2) the net result of proceeds from selling and payments for financial assets at amortized cost and financial assets at fair value through profit or loss, and 3) payments for acquiring long-term investment. Net cash used in investing activities was US\$1,850.3 million for the six months ended June 30, 2017, primarily attributable to 1) purchases of plant and equipment mainly for the fabs in Shanghai, Beijing and Shenzhen, 2) the net result of proceeds from selling and payments for acquiring financial assets, 3) payments for acquiring long-term investment, and 4) the net proceeds from disposal of property, plant and equipment and assets classified as held for sale.

Net cash generated from financing activities was US\$968.0 million for the six months ended June 30, 2018, which was primarily 1) the net result of proceeds from new financing and repayments of bank borrowings, 2) the proceeds from issuance of perpetual subordinated convertible securities and new shares, and 3) the proceeds from the capital contribution of non-controlling interests. Net cash generated from financing activities was US\$206.9 million for the six months ended June 30, 2017, which was primarily 1) the net result of proceeds from new financing and repayments of bank borrowings, and 2) the repayment of short-term notes.

As of June 30, 2018, the Group's outstanding long-term liabilities primarily consisted of US\$539.3 million in secured bank loans, US\$1,446.3 million in unsecured bank loans, US\$410.8 million in convertible bonds and US\$497.6 million in USD bonds of which, US\$452.9 million was classified as the current portion of long-term loans.

2013 USD loan (SMIC Shanghai)

In August 2013, Semiconductor Manufacturing International (Shanghai) Corporation ("SMIS" or "SMIC Shanghai") entered into a loan facility in the aggregate principal amount of US\$470.0 million which is unsecured with a syndicate of financial institutions based in the PRC. This seven-year bank facility was used to finance the planned expansion for SMIS' 300mm fab. As of June 30, 2018, SMIS had drawn down US\$260.0 million and repaid US\$259.1 million on this loan facility. The outstanding balance of US\$0.9 million is repayable in advance on August 2018. The interest rate on this loan facility ranged from 5.96% to 6.61% in 2018.

2015 CDB RMB loan I (SMIC Shanghai)

In December 2015, SMIS entered into a loan facility in the aggregate principal amount of RMB1,000.0 million with China Development Bank, which is guaranteed by SMIC. This fifteen-year bank facility was used for new SMIS'

300mm fab. As of June 30, 2018, SMIS had drawn down RMB1,000.0 million (approximately US\$151.1 million) on this loan facility. The outstanding balance is repayable from November 2021 to November 2030. The interest rate on this loan facility was 1.20% in 2018.

2015 CDB RMB loan II (SMIC Shanghai)

In December 2015, SMIS entered into a loan facility in the aggregate principal amount of RMB475.0 million with China Development Bank, which is guaranteed by SMIC. This ten-year bank facility was used to expand the capacity of SMIS' 300mm fab. As of June 30, 2018, SMIS had drawn down RMB475.0 million (approximately US\$71.8 million) on this loan facility. The outstanding balance is repayable from December 2018 to December 2025. The interest rate on this loan facility was 1.20% in 2018.

In June 2014, LFoundry entered into a loan facility in the aggregate principal amount of JPY480.0 million with Citizen Finetech Miyota Co. Ltd. This five-year facility was used to finance the expansion of LFoundry's 200mm fab. The facility is secured by the manufacturing equipment located in LFoundry's 200mm fab. As of June 30, 2018, LFoundry had drawn down JPY480.0 million on this loan facility and repaid JPY58.0 million. The outstanding balance of JPY439.0 million (its present value is JPY411.0 million, approximately US\$3.6 million) including principal amount of JPY422.0 million and interest cash flow of JPY17.0 million is repayable from July 2018 to December 2019. The interest rate on this loan facility is 4.04% per annum in 2018.

2017 Banca del Mezzogiorno loan (LFoundry)

In June 2017, LFoundry entered into a soft loan facility in the aggregate principal amount of EUR1.2 million with Banca del Mezzogiorno, which is unsecured. This nine-year facility was in relation to the admission of LFoundry to

the benefits of the European Project called Horizon. As of June 30, 2018, LFoundry had drawn down EUR1.2 million (approximately US\$1.5 million) on this loan facility. The principal amount is repayable from December 2018 to June 2026. The interest rate on this loan facility is 0.8% per annum in 2018

2018 Unicredit S.p.A. loan (LFoundry)

In June 2018, LFoundry entered into a loan facility in the aggregate principal amount of EUR2.0 million with Unicredit S.p.A. Bank, which is unsecured. This two-year facility was in order to perform an advanced payment to secure the raw wafers purchase commitment. As of June 30, 2018, LFoundry had drawn down EUR2.0 million (approximately US\$2.3 million) on this loan facility. The principal amount is repayable from July 2018 to July 2020. The annual interest rate on this loan facility is 3 months Euribor rate, plus 0.9% per annum in 2018.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Finance lease payables

In 2016, a leasing contract entered into by the Group with one of its suppliers for the construction and installation of gas generation equipment. This transaction was accounted for a finance leasing with remaining lease term of five years. As at June 30, 2018, the total net finance lease payables were US\$5.3 million.

Loans from non-controlling interests shareholders

In 2016, LFoundry entered into a loan facility in the aggregate principal amount of EUR15.0 million with non-controlling interests shareholders of LFoundry. This seven-year facility was in relation to the construction of the new co-generation. LFoundry had drawn down EUR10.6 million on this loan facility. The outstanding balance of EUR10.6 million (approximately US\$12.3 million) is repayable from March 2019 to December 2023. The interest rate on this loan facility was 3.5% in 2018.

Sales and leaseback borrowings

As of June 30, 2018, the three arrangements of sales and leaseback borrowings amounted to US\$477.2 million (December 31, 2017: US\$487.7 million) which were entered into by the Group and third-party financing companies in 2016 in the form of a sale and leaseback transaction with a repurchase option. A batch of production equipment of the Group was sold and leased back under the arrangements. As the repurchase prices are set at below US\$1.00, which are minimal compared to the expected fair value and the Group is certain that it will exercise the repurchase options, the above arrangements were accounted for as collateralized borrowings of the Group.

Short-term credit agreements

As of June 30, 2018, the Group had 31 short-term credit agreements that provided total credit facilities of up to US\$2,267.6 million on a revolving basis. As of June 30, 2018, the Group had drawn down US\$328.2 million under these credit agreements. The outstanding borrowings under these credit agreements are unsecured. The interest rate ranges from 1.93% to 3.13% per annum in 2018.

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

MATERIAL INVESTMENTS, ACQUISITIONS AND DISPOSALS

Capital contribution in Semiconductor Manufacturing South China Corporation (“SMSC”)

On January 30, 2018, SMIC Holdings Corporation (“SMIC Holdings”), SMIC Shanghai, China Integrated Circuit Industry Investment Fund Co., Ltd (“China IC Fund”) and Shanghai Integrated Circuit Industry Investment Fund Co., Ltd (“Shanghai IC Fund”) entered into the joint venture agreement and the capital contribution agreement pursuant to which SMIC Holdings, China IC Fund and Shanghai IC Fund agreed to make cash contribution to the registered capital of SMSC in the amount of US\$1.5435 billion, US\$946.5 million and US\$800.0 million, respectively. As a result of the capital contribution: (i) the registered capital of SMSC will increase from US\$210.0 million to US\$3.5 billion; (ii) the Company’s equity interest in SMSC, through SMIC Holdings and SMIC Shanghai, will decrease from 100% to 50.1%; and (iii) SMSC will be owned as to 27.04% and 22.86% by China IC Fund and Shanghai IC Fund, respectively.

The principal business of SMSC includes wafer manufacturing, wafer probing and bumping, technology development, design service, mask manufacturing, assembly and final testing of integrated circuits and sales of self-manufactured products. SMSC is expected to establish and build up large-scale manufacturing capacity focusing on 14 nanometer and below process and manufacturing technologies and aims to reach a manufacturing capacity of 35,000 wafers per month. The Group believes that the investment in SMSC is attractive and able to generate sustainable and attractive returns in the near future.

Equity transfer and capital contribution in Ningbo Semiconductor International Corporation (“NSI”)

On March 22, 2018, NSI, SMIC Holdings and China IC Fund entered into the equity transfer agreement, pursuant to which SMIC Holdings has agreed to sell the equity interest to China IC Fund. Upon the completion of the equity transfer, the shareholding of SMIC Holdings in NSI will decrease from approximately 66.76% to 38.59%, and NSI will cease to be a subsidiary of the Company and its financial results will cease to be consolidated with the Group’s results. There is no gain or loss expected to accrue to the Company as a result of the equity transfer. The equity transfer has been completed in April, 2018 and the Group recorded its ownership interest of NSI as investment in associate.

On March 23, 2018, NSI, SMIC Holdings, China IC Fund, Ningbo Senson Electronics Technology Co., Ltd, Beijing Integrated Circuit Design and Testing Fund, Ningbo Integrated Circuit Industry Fund and Infotech National Emerging

Fund entered into the capital increase agreement, pursuant to which (i) SMIC Holdings has agreed to make further cash contribution of RMB565.0 million (approximately US\$89.4 million) into the registered capital of NSI. Its shareholding in NSI will decrease from approximately 38.59% to approximately 38.57%; (ii) China IC Fund has agreed to make further cash contribution of RMB500.0 million (approximately US\$79.2 million) into the registered capital of NSI. Its shareholding in NSI will increase from approximately 28.17% to approximately 32.97%. The all above parties' performance of the Capital Contribution obligations will lead to an increase in the registered capital from RMB355 million to RMB1.82 billion (approximately US\$56.2 million to US\$288.1 million).

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Capital contribution in IPV Capital Global Technology Fund (the “IPV Fund”)

On May 2, 2018, IPV Global Technology Management Limited as the general partner and China IC Fund, China IC Capital Co., Ltd (“China IC Capital”, a wholly-owned investment fund company of SMIC) and other investor as the limited partners entered into the partnership agreement in relation to the establishment and management of the IPV Fund. The IPV Fund will be established in the PRC as a limited partnership for the purpose of equity investments, investment management and other activities, in order to maximize the profit of all partners. Pursuant to the partnership agreement, the total capital commitment to the IPV Fund is RMB1,616.2 million (approximately US\$244.3 million) of which RMB800.0 million (approximately US\$120.9 million) is to be contributed by China IC Fund and RMB165.0 million (approximately US\$24.9 million) is to be contributed by China IC Capital. As of the date of this report, China IC Capital has contributed to RMB49.5 million (approximately US\$7.5 million).

COMMITMENTS

As of June 30, 2018, the Group had commitments of US\$307.4 million for facilities construction obligations in connection with the Company’s Shanghai, Beijing, Tianjin, Shenzhen and Jiangyin facilities, US\$705.1 million to purchase machinery and equipment mainly for the Shanghai, Beijing, Shenzhen and Jiangyin fabs and US\$3.7 million to purchase intellectual property.

As of June 30, 2018, the Group had total future minimum lease payments under non-cancellable operating leases amounted to US\$249.0 million.

CAPITAL MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximizing the return to stakeholders through the optimization of the capital structure. The capital structure of the Group consists of net debt and equity of the Group.

Where the entity manages its capital through issuing/repurchasing shares and raising/repayment of debts. The Group reviews the capital structure on a semi-annual basis. As part of this review, the Group considers the cost of capital and the risks associates with each class of capital. The Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt or the redemption of existing debt.

DEBT TO EQUITY RATIO

As of June 30, 2018, the Group's debt to equity ratio was approximately 45.3%, which was calculated by dividing the sum of the short-term and long-term borrowings, medium-term notes, convertible bonds and corporate bonds by total shareholders' equity. The net debt to equity ratio was approximately 9.7%, which was calculated by dividing the total debt minus cash and cash equivalents, current financial assets at fair value through profit or loss and financial assets at amortised cost by total shareholders' equity.

FOREIGN EXCHANGE RATE FLUCTUATION RISK

The Group's revenue, expense, and capital expenditures are primarily transacted in U.S. dollars. The Group also enters into transactions in other currencies. The Group is primarily exposed to changes in exchange rates for the Euro, Japanese Yen and RMB.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

To minimize these risks, the Group purchases foreign-currency forward exchange contracts with contract terms normally lasting less than twelve months to protect against the adverse effect that exchange rate fluctuation may have on foreign-currency denominated activities. These forward exchange contracts are principally denominated in RMB, Japanese Yen or Euros and do not qualify for hedge accounting in accordance with IFRS.

Outstanding foreign exchange contracts

As of June 30, 2018, the Group had outstanding foreign currency forward exchange contract with notional amounts of US\$29.8 million, which will mature in 2018. As of June 30, 2018, the fair value of foreign currency forward exchange contracts was approximately US\$(0.8) million, which was recorded in derivative financial instruments in current liabilities.

As of December 31, 2017, the Group had outstanding foreign currency forward exchange contract with notional amounts of US\$98.4 million, which matured in 2018. The Group does not enter into foreign currency exchange contracts for speculative purposes.

CROSS CURRENCY SWAP FLUCTUATION RISK

The Group entered into several RMB denominated loan facility agreements and issued RMB notes (hereinafter collectively referred to as the “RMB Debts”). As a result, the Group was primarily exposed to changes in the exchange rate for the RMB. To minimize the currency risk, the Group entered into cross currency swap contracts with a contract term fully matching the repayment schedule of the whole part of these RMB Debts to protect against the adverse effect of exchange rate fluctuations arising from the RMB Debts.

Outstanding cross currency swap contracts

As of June 30, 2018, the Group had outstanding cross currency swap contracts with notional amounts of RMB8,937.0 million (approximately US\$1,350.7 million). Notional amounts are stated in the U.S. dollar equivalents at spot exchange rates as of the respective dates. As of June 30, 2018, the fair value of cross currency swap contracts was approximately US\$18.9 million, of which approximately US\$23.5 million was recorded in derivative financial instruments in assets and approximately US\$(4.6) million was recorded in derivative financial instruments in liabilities. The cross currency swap contracts will mature during the period 2018 to 2023.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As of December 31, 2017, the Group had outstanding cross currency swap contracts with notional amounts of RMB6,398.0 million (approximately US\$979.2 million). Notional amounts are stated in the U.S. dollar equivalents at spot exchange rates as of the respective dates. As of December 31, 2017, the fair value of cross currency swap contracts was approximately US\$19.7 million, of which approximately US\$(2.7) million was recorded in other financial liabilities and approximately US\$22.3 million was recorded in other financial assets. The cross currency swap contracts will mature during the period 2018 to 2022.

EMPLOYEES EQUITY INCENTIVE PLAN

Save as disclosed in this interim report, there is no material change to the information disclosed in the 2017 annual report of the Group in relation to the number and remuneration of employees, remuneration policies, bonus and share option schemes of employees.

PROSPECTS AND FUTURE PLANS

In the first half of 2018, the Group made encouraging progress in advancing technology, building up technology platforms, and forging partnerships. At the same time, annual revenue is targeted to grow in the high-single digit percentage in 2018 when compared to 2017, which is in line with the foundry industry growth rate. The Group also targets a positive annual net profitability attributable to shareholders. In addition, SMIC targets a “high teens” percentage gross margin, when excluding the technology license revenue.

SMIC achieved significant progress on 14nm FinFET development. The R&D for SMIC's first version of FinFET technology is ready for business engagement. SMIC is currently in the process of customer assessment, IP alignment, and reliability verification. SMIC's FinFET technology is on target to start risk production in the first half of next year. In addition to 28nm PolySiON and HKC, HKC+ technology development is also completed. 28nm HKC continues to ramp up, as its yield meets industry benchmark. As 28nm HKC+ R&D was completed, the Group targets pilot production by the end of this year. Moreover, the Group will continue to expand and enhance both mature and advanced technology platforms to provide comprehensive and competitive services.

CORPORATE GOVERNANCE REPORT

The Company is committed to remaining an exemplary corporate citizen and maintaining a high level of corporate governance in order to protect the interests of its shareholders.

CORPORATE GOVERNANCE PRACTICES

The Corporate Governance Code (the “CG Code”) as set out in Appendix 14 to the Hong Kong Stock Exchange Listing Rules contains code provisions (the “Code Provisions”) which an issuer, such as the Company, is expected to comply with or advise as to reasons for deviations from and recommends best practices which an issuer is encouraged to implement (the “Recommended Practices”). The Company has adopted a set of Corporate Governance Policy (the “CG Policy”) since January 25, 2005 as its own code of corporate governance, which is amended from time to time to comply with the CG Code. The CG Policy, a copy of which can be obtained on the Company’s website at www.smics.com under “Investor Relations > Corporate Governance > Policy and Procedures”, substantially incorporates Code Provisions and the Recommended Practices of the CG Code. The Company will seek to comply with the Code Provisions of the CG Code whenever practicable. In addition, the Company has adopted or put in place various policies, procedures, and practices in compliance with the provisions of the CG Policy.

Code Provision A.4.2 of the CG Code requires that all directors appointed to fill a casual vacancy should be subject to election by shareholders at the first general meeting after appointment. According to Article 126 of the Articles of Association of the Company, any Director appointed by the Board to fill a casual vacancy or as an addition to the existing Directors shall hold office only until the next following annual general meeting of the Company after appointment and shall then be eligible for re-election at that meeting.

Save as the aforesaid and in the opinion of the Directors, the Company had complied with all Code Provisions set out in the CG Code during the six months ended June 30, 2018.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LIST ISSUERS

The Company has adopted an Insider Trading Compliance Program (the “Insider Trading Policy”) which encompasses the requirements of the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 to the Hong Kong Stock Exchange Listing Rules (the “Model Code”). The Company, having made specific enquiry of all Directors, confirms that all Directors have complied with the Insider Trading Policy and the Model Code

throughout the six months ended June 30, 2018. The senior management of the Company as well as all officers, directors, and employees of the Company and its subsidiaries are also required to comply with the provisions of the Insider Trading Policy.

THE BOARD

The Board has a duty to the Company's shareholders to direct and oversee the affairs of the Company in order to maximize shareholder value. The Board, acting by itself and through its various committees, actively participates in and is responsible for the determination of the overall strategy of the Company, the establishment and monitoring of the achievement of corporate goals and objectives, the oversight of the Company's financial performance and the preparation of the accounts, the establishment of corporate governance practices and policies, and the review of the Company's system of internal controls. The management of the Company is responsible for the implementation of the overall strategy of the Company and its daily operations and administration. The Board has access to the senior management of the Company to discuss enquiries on management information.

CORPORATE GOVERNANCE REPORT

The Board consists of fourteen Directors as at the date of this interim report. Directors may be elected to hold office until the expiration of their respective term upon a resolution passed at a duly convened shareholders' meeting by holders of a majority of the Company's issued shares being entitled to vote in person or by proxy at such meeting. The Board is divided into three classes with one class of Directors eligible for re-election at each annual general meeting of the Company. Each class of Directors (including all non-executive Directors) serves a term of three years.

The following table sets forth the names, classes and categories of the Directors as at the date of this interim report:

Professor Lawrence Juen-Yee Lau, whose initial appointment as Director took effect from June 22, 2018, shall retire from office at the 2019 AGM pursuant to Article 126 of the Company's Articles of Association. Professor (1) Lau will, being eligible, offer himself for re-election as a Class II Director at the 2019 AGM to hold office until the 2021 AGM.

Mr. Fan Ren Da Anthony, whose initial appointment as Director took effect from June 22, 2018, shall retire from (2) office at the 2019 AGM pursuant to Article 126 of the Company's Articles of Association. Mr. Fan will, being eligible, offer himself for re-election as a Class II Director at the 2019 AGM to hold office until the 2021 AGM.

As of the date of this interim report, the roles of Chairman and Co-Chief Executive Officers are segregated. The role of Chairman is performed by Dr. Zhou Zixue and the roles of Co-Chief Executive Officers are performed by Dr. Zhao Haijun and Dr. Liang Mong Song.

On an annual basis, each independent non-executive Director confirms his independence to the Company, and the Company considers these Directors to be independent as such term is defined in the Hong Kong Stock Exchange Listing Rules. There are no relationships among members of the Board, including between the Chairman of the Board and the Co-Chief Executive Officer.

The Board meets at least four times a year at approximately quarterly intervals and on such other occasions as may be required to discuss and vote upon significant issues affecting the Company. The schedule of Board meetings for a given year is planned in the preceding year. The joint company secretaries of the Company (the “Joint Company Secretaries”) assist the Chairman in preparing the agenda for the Board meetings and also assist the Board in complying with applicable laws, rules and regulations. The relevant papers for the Board meetings are dispatched to Board members in accordance with the CG Code. Directors may include matters for discussion in the agenda if the need arises. Upon the conclusion of the Board meeting, minutes are circulated to all Directors for their review and comments prior to their approval of the minutes at the following or subsequent Board meeting. Transactions in which any Directors are considered to have a conflict of interest which the Board has determined to be material are dealt with by physical Board meetings rather than written resolutions and the interested Directors are not counted in the quorum of such Board meetings and abstain from voting on the relevant matters.

CORPORATE GOVERNANCE REPORT

All Directors have access to the Joint Company Secretaries, who are responsible for assisting the Board in complying with applicable procedures regarding compliance matters. Every Board member is entitled to have access to documents tabled at the Board meeting or filed into the Company's minutes book. Furthermore, the Board has established the procedures pursuant to which a Director, upon reasonable request, may seek independent professional advice at the Company's expense in order for such Director to discharge his duties. The Joint Company Secretaries continuously update all Directors on the latest development of the Hong Kong Stock Exchange Listing Rules and other applicable regulatory requirements to ensure the Company's compliance with and maintenance of good corporate governance practices. Each new Director is provided with training with respect to his responsibilities under the Hong Kong Stock Exchange Listing Rules and other regulatory requirements and the Company's corporate governance policies and practices.

Procedure regarding the appointment of Directors

The standard procedure regarding the appointment of Directors, which was adopted by the Board on September 22, 2005, sets forth the process by which individuals are appointed as members of the Board. Under the policy, the Board will consider, among other factors, (i) the skills, qualifications and experience of the nominee, including other directorships held in listed public companies in the last three years and other major appointments; (ii) the nominee's shareholding in the Company; (iii) the independence of the nominee under New York Stock Exchange and/or Hong Kong Stock Exchange listing rules; and (iv) the impact with respect to the Company's status as a "foreign private issuer" under the United States securities laws. The Board then decides whether to appoint such nominee to fill a casual vacancy on the Board or to add the nominee to the existing Directors and to appoint such nominee into one of the three classes of Directors as stipulated in the Articles of Association of the Company.

BOARD COMMITTEE

The Board has established the following principal committees to assist it in performing its functions. Each of these committees consists of a majority of independent non-executive Directors who have been invited to serve as members. The committees are governed by their respective charters setting out clear terms of reference. The updated charters of the Board committees are available on the websites of the Company and the Hong Kong Stock Exchange.

Audit Committee

As of the date of this interim report, the Company's Audit Committee (the "Audit Committee") consisted of three members, namely Mr. Fan Ren Da Anthony (who was appointed as Chairman of Audit Committee on June 22, 2018), Mr. Zhou Jie and Mr. William Tudor Brown. None of the members of the Audit Committee has been an executive

officer or employee of the Company or any of its subsidiaries.

• establishing procedures for the treatment of complaints received by the Company regarding financial reporting, internal control or possible improprieties in other matters; and

• obtaining and reviewing reports from management, the Company's internal auditor and the Company's independent auditor regarding compliance with applicable legal and regulatory requirements.

CORPORATE GOVERNANCE REPORT

The Audit Committee reports its work, findings and recommendations to the Board regularly.

The Audit Committee meets at least four times a year on a quarterly basis and on such other occasions as may be required to discuss and vote upon significant issues. The meeting schedule for a given year is planned in the preceding year. The Joint Company Secretaries assist the chairman of the Audit Committee in preparing the agenda for meetings and also assists the Audit Committee in complying with the relevant rules and regulations. The relevant papers for the Audit Committee meetings are dispatched to the Audit Committee in accordance with the CG Code. Members of the Audit Committee may include matters for discussion in the agenda if the need arises. Within reasonable time after an Audit Committee meeting is held, minutes are circulated to the members of the Audit Committee for their comment and review prior to their approval of the minutes at the following or a subsequent Audit Committee meeting.

At each quarterly Audit Committee meeting, the Audit Committee reviews with the Chief Financial Officer and the Company's independent auditor the financial statements for the financial period and the financial and accounting principles, policies and controls of the Company and its subsidiaries. In particular, the Committee discusses (i) the changes in accounting policies and practices, if any; (ii) the going concern assumptions; (iii) compliance with accounting standards and applicable rules and other legal requirements in relation to financial reporting; and (iv) the internal controls of the Company and the accounting and financial reporting systems. Upon the recommendation of the Audit Committee, the Board approves the financial statements.

Compensation Committee

As of the date of this interim report, the members of the Company's Compensation Committee (the "Compensation Committee") are Mr. William Tudor Brown (Chairman of Compensation Committee), Mr. Zhou Jie, Dr. Chiang Shang-yi, Dr. Tong Guohua and Professor Lau Lawrence Juen-Yee ("Professor Lau"). Professor Lau was appointed as a member of the Compensation Committee of the Company on June 22, 2018. None of these members of the Compensation Committee has been an executive officer or employee of the Company or any of its subsidiaries.

The responsibilities of the Compensation Committee include, among other things:

approving and overseeing the total compensation package for the Company's executive officers and any other officer, evaluating the performance of and determining and approving the compensation to be paid to the Company's Co-Chief Executive Officer and reviewing the results of the Co-Chief Executive Officer's evaluation of the performance of the Company's other executive officers;

- determining the compensation packages of executive Directors and making recommendations to the Board with respect to non-executive Directors' compensation, including equity-based compensation;

administering and periodically reviewing and making recommendations to the Board regarding the long-term incentive compensation or equity plans made available to the Directors, employees and consultants;

- reviewing and making recommendations to the Board regarding executive compensation philosophy, strategy and principles and reviewing new and existing employment, consulting, retirement and severance agreements proposed for the Company's executive officers; and

CORPORATE GOVERNANCE REPORT

ensuring appropriate oversight of the Company's human resources policies and reviewing strategies established to fulfill the Company's ethical, legal, and human resources responsibilities.

The Compensation Committee reports its work, findings and recommendations to the Board periodically but no fewer than four times per year.

The Compensation Committee meets at least four times per year and on such other occasions as may be required to discuss and vote upon significant issues affecting the compensation policy of the Company. The meeting schedule for a given year is planned in the preceding year. The Joint Company Secretaries assist the chairman of the Compensation Committee in preparing the agenda for meetings and also assists the Compensation Committee in complying with the relevant rules and regulations. The relevant papers for the Compensation Committee meeting are dispatched to Compensation Committee members in accordance with the CG Code. Members of the Compensation Committee may include matters for discussion in the agenda if the need arises. Within reasonable time after a Compensation Committee meeting is held, minutes are circulated to the members of the Compensation Committee for their comment and review prior to their approval of the minutes at the following or a subsequent Compensation Committee meeting.

Nomination Committee

As of the date of this interim report, the Company's Nomination Committee (the "Nomination Committee") comprised Dr. Zhou Zixue (Chairman of Nomination Committee), Mr. Lu Jun, Mr. William Tudor Brown, Professor Lau Lawrence Juen-Yee ("Professor Lau") and Mr. Fan Ren Da Anthony ("Mr. Fan"). Professor Lau and Mr. Fan were appointed as members of the Nomination Committee of the Company on June 22, 2018.

The responsibilities of the Nomination Committee include:

reviewing the structure, size and composition (including the skills, knowledge and experience, as well as diversity of perspectives) of the Board at least annually and making recommendations on any proposed changes to the Board to complement the Company's corporate strategy;

monitoring the implementation of Board Diversity Policy (including any measurable objectives and the progress in achieving those objectives), and ensuring that appropriate disclosures are made regarding board diversity in the Corporate Governance Report set out in the Company's Annual Report;

identifying individuals suitably qualified to become Board members, consistent with criteria approved by the Board, and making recommendations to the Board on the selection of individuals nominated for directorships;

assessing the independence of independent non-executive Directors; and

making recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors, in particular the Chairman of the Board and the Co-Chief Executive Officers.

CORPORATE GOVERNANCE REPORT

The Nomination Committee meets at least once a year and on such other occasions as may be required to discuss and vote upon significant issues relating to Board composition. The Joint Company Secretaries assist the chairman of the Nomination Committee in preparing the agenda for meetings and also assists the Nomination Committee in complying with the relevant rules and regulations. The relevant papers for the Nomination Committee meetings are dispatched to Nomination Committee members in accordance with the CG Code. Members of the Nomination Committee may include matters for discussion in the agenda if the need arises. Within reasonable time after a Nomination Committee meeting is held, minutes are circulated to the Nomination Committee members for their comment and review prior to their approval of the minutes at the following or a subsequent Nomination Committee meeting.

Strategic Advisory Committee

As of the date of this interim report, the members of the Company's Strategic Advisory Committee ("Strategic Advisory Committee") are Dr. Chen Shanzhi (Chairman of Strategic Advisory Committee), Mr. Ren Kai, Mr. William Tudor Brown and Professor Lau Lawrence Juen-Yee.

The purpose of the Strategic Advisory Committee is to assist the Board and the management of the Company to evaluate and consider various strategic alternatives.

The responsibilities of the Strategic Advisory Committee include, among other things:

- to evaluate and consider any strategic alternative;
- to contribute and participate in discussions with potential strategic partners with respect to strategic alternative; and
- to make recommendations to the Board and the management of the Company with respect to strategic alternative.

Internal Audit

Internal Audit works with and supports the Group's management team and the Audit Committee to evaluate the effectiveness of and contribute to the improvement of risk management, internal control, and corporate governance systems. On an annual basis, the risk-based audit plan and resources are reviewed and approved by the Audit Committee. In addition to its agreed plan, the Internal Audit audits areas of concern identified by senior management

or conducts reviews and investigations on an ad hoc basis. Audit results are reported to the Chairman of the Board, the Co-Chief Executive Officers and relevant management of audited departments. A summary of audit reports is quarterly reported to the Audit Committee.

Based on this annual audit plan, the Internal Audit audits the practices, procedures, and internal controls in the Group. The scope of the audit includes:

- reviewing management's controls to ensure the reliability and integrity of financial and operating information and the means used to identify, measure, classify, and report such information;

- reviewing the systems established or to be established to ensure compliance with policies, plans, procedures, laws, and regulations that could have a significant impact on operations and reports, and determining whether the Group is in compliance;

CORPORATE GOVERNANCE REPORT

• reviewing the means of safeguarding assets and, when appropriate, verifying the existence of assets;

• appraising the economy and efficiency with which resources are employed;

• identifying significant risks, including fraud risks, to the ability of the Group to meet its business objectives, communicating them to management and ensuring that management has taken appropriate action to guard against those risks; and

• evaluating the effectiveness of controls supporting the operations of the Group and providing recommendations as to how those controls could be improved.

In conducting these audits, the Internal Audit has free and full access to all necessary functions, records, properties and personnel.

After completing an audit, the Internal Audit furnishes the Group's management team with analysis, appraisals, recommendations, counsel, and information concerning the activities reviewed. Appropriate managers of the Group are notified of any deficiencies cited by the Internal Audit, which will follow up with the implementation of audit recommendations. In addition, the Internal Audit reports their findings directly to the Audit Committee on at least a quarterly basis.

The Internal Audit has direct access to the Board through the chairman of the Audit Committee and may meet privately with the Audit Committee, without the presence of members of the Group's management or the independent accounting firm upon request.

CODE OF BUSINESS CONDUCT AND ETHICS

The Board has adopted a code of business conduct and ethics (the "Code of Conduct") which provides guidance about doing business with integrity and professionalism. The Code of Conduct addresses issues including among others, fraud, conflicts of interest, corporate opportunities, protection of intellectual property, transactions in the Company's securities, use of the Company's assets, and relationships with customers and third parties. Any violation of the Code of Conduct is reported to the Company's Compliance Office, which will subsequently report such violation to the

Audit Committee.

U.S. CORPORATE GOVERNANCE PRACTICES

Companies listed on the New York Stock Exchange must comply with certain corporate governance standards under Section 303A of the New York Stock Exchange Listed Company Manual, or the NYSE Standards. Because the Company's American Depositary Shares are registered with the United States Securities and Exchange Commission and are listed on the New York Stock Exchange, the Company is also subject to certain U.S. corporate governance requirements, including many provisions of the Sarbanes-Oxley Act of 2002. However, because the Company is a "foreign private issuer", the Company is permitted to follow corporate governance practices in accordance with Cayman Islands law and the Hong Kong Stock Exchange Listing Rules in lieu of certain corporate governance standards contained in the NYSE Standards.

Set forth below is a brief summary of the significant differences between our corporate governance practices and the corporate governance standards applicable to U.S. domestic companies listed on the NYSE, or U.S. domestic issuers:

CORPORATE GOVERNANCE REPORT

No requirement for majority of independent directors

NYSE Section 303A.01 requires a NYSE-listed U.S. domestic company to have a majority of independent directors on the board of directors. We have elected to follow the Hong Kong Stock Exchange Listing Rules, which require a company's board to include at least one-third (but not less than three) of the members of a company's board to be independent non-executive directors. The laws of the Cayman Islands do not contain definition or requirements relating to "independent directors" nor require any member of a company's board be independent.

Different standards to evaluate director independence

NYSE Section 303A.02 provides detailed tests that NYSE-listed U.S. domestic issuers must use for determining independence of directors. While we may not specifically apply the NYSE tests, our Board, through its nomination committee, assesses independence in accordance with Hong Kong Stock Exchange Listing Rules, and in accordance with Rule 10A-3 under the Exchange Act in the case of audit committee members, and considers whether there are any relationships or circumstances that are likely to affect such director's independence from management.

Executive sessions

NYSE Section 303A.03 requires the non-executive directors of a NYSE-listed U.S. domestic company to meet in regularly scheduled executive sessions or closed-door sessions without management at least once a year. Our non-executive directors and independent directors meet with the Chairman of the Board, who is an executive director, at least once a year. Our executive directors and management are not present at these meetings.

No nominating/corporate governance committee composed entirely of independent directors

NYSE Section 303A.04 requires NYSE-listed U.S. domestic issuers to have a nominating/corporate governance committee composed entirely of independent directors. The nominating/corporate governance committee must have a written charter that sets out its purpose and certain minimum responsibilities required under NYSE Section 303A.04 (b)(i) and provides for an annual performance evaluation of the committee.

Instead of a nominating/corporate governance committee, our Board has established a nomination committee with five members. Three members are independent non-executive directors while one member is an executive director and one is a non-executive director. We are not required under the laws of the Cayman Islands or the Hong Kong Stock Exchange Listing Rules to have a nominating/corporate governance committee composed entirely of independent directors. The nomination committee is tasked to review the structure, size and composition (including the skills,

knowledge and experience) of the Board at least annually, make recommendations on any proposed changes to the Board to complement our corporate strategy, identify individuals suitably qualified to become Board members consistent with criteria approved by the Board, assess the independence of independent non-executive Directors, make recommendations to the Board on the selection of individuals nominated for directorships, and make recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors, in particular the chairman of the Board and the Chief Executive Officer. The Board also adopted a Board Diversity Policy on August 8, 2013 that sets out diversity criteria considered by the Board in identifying candidates. However, such nomination committee is not responsible for developing and recommending to the Board a set of corporate governance guidelines applicable to the Company and overseeing the evaluation of the Board and management.

CORPORATE GOVERNANCE REPORT

No compensation governance committee composed entirely of independent directors NYSE Section 303A.05 require NYSE-listed U.S. domestic issuers to have a compensation committee composed entirely of independent directors. The compensation committee must have a written charter that sets out its purpose and certain minimum responsibilities and provides for an annual performance evaluation of the committee.

Our Board has established a compensation committee with five members. Three members are independent non-executive directors while two members are non-executive directors. We have elected to follow the Hong Kong Stock Exchange Listing Rules, which require that a majority of the members of the compensation committee be independent non-executive directors. The laws of the Cayman Islands do not define or contain requirements relating to “independent directors” nor require a Cayman Islands exempted company to have a compensation committee.

We believe that the composition of our compensation committee and its duties and responsibilities, as described in our annual report for the relevant year, are generally responsive to the relevant NYSE Standards applicable to NYSE-listed U.S. domestic issuers. However, the charter of our compensation committee does not address all aspects of NYSE Section 303A.05. For example, NYSE Section 303A.05(c) and Item 407(e)(5) of Regulation S-K under the Securities Act require compensation committees of NYSE-listed U.S. domestic issuers to produce a compensation committee report annually and include such report in their annual proxy statements or annual reports on Form 10-K. We have not addressed this in our compensation committee charter as we are not required under the laws of the Cayman Islands to have a compensation committee, or under the Hong Kong Stock Exchange Listing Rules to have such a compensation committee report, though we are required to disclose certain corporate governance matters in relation to the compensation committee in our annual report filed with the Hong Kong Stock Exchange. We disclose the amounts of compensation of our directors on a named basis, remuneration payable to members of the senior management by band, and remuneration payable to the five highest individuals on an aggregate basis in our annual report in accordance with the requirements of the Hong Kong Stock Exchange Listing Rules.

No audit committee composed entirely of independent directors

NYSE Sections 303A.07(a) requires NYSE-listed U.S. domestic issuers to have an audit committee composed entirely of independent directors. We have elected to follow the Hong Kong Stock Exchange Listing Rules, which require that a majority of the members of the audit committee be independent non-executive directors. Our Board has established an audit committee with three members. Two members are independent non-executive directors while the third is a non-executive director. The laws of the Cayman Islands do not define or contain requirements relating to “independent directors” nor require a Cayman Islands exempted company to have an audit committee.

CORPORATE GOVERNANCE REPORT

Audit committee requirements

NYSE Sections 303A.06 and 303A.07 require NYSE-listed U.S. domestic issuers to have an audit committee that satisfies the requirements of Rule 10A-3 under the Exchange Act, whose members meet certain requirements such as financial literacy and capacity for service in an audit committee, and have a written charter that sets out its purpose and certain minimum responsibilities.

We believe that the composition of our audit committee and its duties and responsibilities, as described in our annual report for the relevant year, are generally responsive to the relevant NYSE Standards applicable to NYSE-listed U.S. domestic issuers. However, the charter for our audit and compensation committees may not address all aspects of NYSE Section 303A.06 and Rule 10A-3 under the Exchange Act. For example, NYSE Section 303A.07(a) requires the Board to evaluate the capacity of an audit committee member if he or she is simultaneously a member of the audit committee of more than three public companies. NYSE Section 303A.07(b)(iii)(G) requires an audit committee to draft clear policies for hiring external auditor's employees. Our audit committee has not drafted explicit policies regarding these matters, although our nomination committee continually evaluates the qualifications and capacity of directors and candidates for director (including audit committee members). Further, our audit committee pre-approves the hiring of any employee or former employee of the Company's independent auditor who was a member of the audit team during the three years preceding such hiring and the hiring of any employee or former employee of the independent auditor for senior positions regardless of whether that person was a member of the Company's audit team.

Internal audit requirements

NYSE Section 303A.07(c) requires NYSE-listed U.S. domestic issuers to have an internal audit function that provides ongoing assessments on the company's risk management processes and internal control system. Our Company has established an Internal Audit Department whose findings, as well as our Company's internal controls in general, are reviewed by our audit committee and has substantially the same functions as those contemplated by NYSE Section 303A.07(c).

No shareholder vote on equity compensation plans

NYSE Section 303A.08 requires that shareholders must be given the opportunity to vote on all equity compensation plans and material revisions to those plans. We comply with the requirements of Cayman Islands law and the Hong Kong Stock Exchange Listing Rules in determining whether shareholder approval is required, and we do not take into consideration the NYSE's detailed definition of what are considered "material revisions".

No explicit requirement for Board self-evaluation and succession planning

NYSE Section 303A.09 requires the board of directors of a NYSE-listed U.S. domestic issuer to conduct a self-evaluation at least annually to determine whether it and its committees are functioning effectively and draft succession planning policies which should include policies and principles for CEO selection and performance review, as well as policies regarding succession in the event of an emergency or the retirement of the CEO.

Neither the requirements of Cayman Islands law nor the Hong Kong Stock Exchange Listing Rules require explicit procedures for these matters, although our Board continually evaluates its performance and the performance of its committees, and reviews the professional development of directors and senior management.

CORPORATE GOVERNANCE REPORT

Code of Business Conduct and Ethics

NYSE Section 303A.10 requires a NYSE-listed U.S. domestic issuer to adopt and disclose a code of business conduct and ethics for directors, officers and employees, and promptly disclose any waivers of the code for directors or executive officers. We have adopted a Code of Business Conduct and Ethics, which is available on the Company website, whose scope is similar but not identical to what is required under NYSE Section 303A.10.

No explicit requirement for corporate governance certification

NYSE Section 303A.12(a) requires the CEO of a NYSE-listed U.S. domestic issuer to certify to the NYSE each year that he or she is not aware of any violation by the listed company of NYSE corporate governance listing standards, qualifying the certification to the extent necessary. NYSE Section 303A.12(b) requires the CEO of a NYSE-listed U.S. domestic issuer to promptly notify the NYSE in writing after any executive officer of the listed company becomes aware of any non-compliance with any applicable provision of NYSE Section 303A.

Neither the requirements of Cayman Islands law nor the Hong Kong Stock Exchange Listing Rules require such certifications. However, our CEO is required to certify in the Company's 20-F annual report that, to his or her knowledge the information contained therein fairly represents in all material respects the financial condition and results of operation of the Company.

COMPLIANCE WITH LAWS AND REGULATIONS

For the six months ended June 30, 2018, the Group has complied with the substantial laws and regulations promulgated by the Chinese government in relation to the integrated circuit industry in China which have a significant impact on the Group.

Preferential industrial policies relating to ICPEs (“Integrated Circuit Production Enterprises”)

SMIC Shanghai, SMIC Beijing, SMIC Tianjin, SMIC Shenzhen, Semiconductor Manufacturing North China (Beijing) Corporation (“SMNC”) and SJ Semiconductor (Jiangyin) Corporation (“SJ Jiangyin”) are entitled to the preferential industrial policies described below.

Pursuant to the Interim Provisions on Promoting Industrial Structure Adjustment, or the Interim Provisions, issued by the State Council on December 2, 2005, and the Catalogue for the Guidance of Industrial Structure Adjustment, or the Guidance Catalogue, which is the basis and criteria for implementing the Interim Provisions, issued by the National Development and Reform Commission and all the State Council Institutions on March 27, 2011 and amended on February 16, 2013 and March 10, 2015, the Chinese government encourages (1) the design of integrated circuits, (2) the production of integrated circuits with a line width of less than 0.11 micron (including 0.11 micron), and (3) the advanced packaging and testing of BGA, PGA, CSP and MCM.

Under the Interim Provisions, imported equipment that is used for a qualifying domestic investment project and that falls within such project's approved total investment amount is exempt from custom duties except for such equipment listed in the Catalogue of Import Commodities for Domestic Investment Projects Not Entitled to Tax Exemptions, as stipulated by the State Council and amended in 2006, 2008 and 2012, as well as in the General Administration of Customs' announcement on the relevant matters arising from the implementation of the Industrial Restructuring Guidance Catalogue (2011) by the customs (Announcement No. 36 [2011] of the General Administration of Customs) and in the Notice of the State Council on Adjusting the Taxation Policies for Imported Equipment (Guo Fa [1997] No. 37).

CORPORATE GOVERNANCE REPORT

Environmental regulations

Our Chinese subsidiaries are subject to a variety of Chinese environmental laws and regulations promulgated by the central and local governments, and our majority-owned Italian subsidiary (LFoundry) is subject to a variety of Italian and European Union environmental laws and regulations promulgated by the central and local governments, concerning examination and acceptance of environmental protection measures in construction projects, the use, discharge and disposal of toxic and hazardous materials, the discharge and disposal of waste water, solid waste, and waste gases, control of industrial noise and fire prevention. These laws and regulations set out detailed procedures that must be implemented throughout a project's construction and operation phases.

A key document that must be submitted for approval of a project's construction is an environmental impact assessment report that is reviewed by the relevant environmental protection authorities. Upon completion of construction, and prior to commencement of operations, an additional examination and acceptance by the relevant environmental authority of such project is also required. After receiving approval of the environmental impact assessment report, a semiconductor manufacturer is required to apply to and register with (in Italy, it also includes a declaration to) the competent environmental authority of the types and quantities of liquid, solid and gaseous wastes it plans to discharge, the manner of discharge or disposal, as well as the level of industrial noise and other related factors. If the above wastes and noise are found by the authorities to have been managed within regulatory levels, renewable discharge registrations for the above wastes and noise are then issued for a specified period of time. SMIC Shanghai, SMIC Beijing, SMIC Tianjin, SMIC Shenzhen, SMNC and SJ Jiangyin have all received approval with respect to their relevant environmental impact assessment reports and discharge registrations. LFoundry has received approval with respect to its discharge registrations.

From time to time during the operation of our Chinese subsidiaries and our majority-owned Italian subsidiary, and also prior to renewal of the necessary discharge registrations, the relevant environmental protection authority will monitor and audit the level of environmental protection compliance of these subsidiaries. Discharge of liquid, solid or gaseous waste over permitted levels may result in imposition of fines or penalties, imposition of a time period within which rectification must occur or even suspension of operations.

Preferential taxation policies

The Company is incorporated in the Cayman Islands and not currently subject to taxation in the Cayman Islands. The subsidiaries of the Company are subject to different preferential taxation policies. For details, please refer to Note 11 to the consolidated financial statement.

Under the Law of the People's Republic of China (the "PRC") on Enterprise Income Tax, or the EIT Law (became effective on January 1, 2008), the profits of a foreign invested enterprise arising in 2008 and beyond that distributed to its immediate holding company who is a non-PRC tax resident will be subject to a withholding tax rate of 10%. A lower withholding tax rate may be applied if there is a favorable tax treaty between mainland China and the jurisdiction of the foreign holding company. For example, holding companies in Hong Kong that are also tax residents in Hong Kong (which should have commercial substance and proceed the formal treaty benefit application with in-charge tax bureau) are eligible for a 5% withholding tax on dividends under the Tax Memorandum between China and the Hong Kong Special Administrative Region.

CORPORATE GOVERNANCE REPORT

The EIT law applies a uniform 25% enterprise income tax rate to both tax resident enterprise and non-tax resident enterprise, except where a special preferential rate applies. In addition, according to the law of Italy on enterprise income tax, LFoundry income tax (“IRES”) rate is 24%.

Pursuant to Caishui Circular [2008] No. 1 (“Circular No. 1”) promulgated on February 22, 2008, integrated circuit production enterprises whose total investment exceeds RMB8,000 million (approximately US\$1,095 million) or whose integrated circuits have a line width of less than 0.25 micron are entitled to a preferential tax rate of 15%. Enterprises with an operation period of more than 15 years are entitled to a full exemption from income tax for five years starting from the first profitable year after utilizing all prior years’ tax losses and 50% reduction of the tax for the following five years. Pursuant to Caishui Circular [2009] No. 69 (“Circular No. 69”), the 50% reduction should be based on the statutory tax rate of 25%.

On January 28, 2011, the State Council of China issued Guofa [2011] No. 4 (“Circular No. 4”), the Notice on Certain Policies to Further Encourage the Development of the Software and Integrated Circuit Industries which reinstates the EIT incentives stipulated by Circular No. 1 for the software and integrated circuit enterprises.

On April 20, 2012, State Tax Bureau issued CaiShui [2012] No. 27 (“Circular No. 27”), stipulating the income tax policies for the development of integrated circuit industry. Circular No. 1 was partially abolished by Circular No. 27 and the preferential taxation policy in Circular No. 1 was replaced by Circular No. 27.

On July 25, 2013, State Tax Bureau issued [2013] No. 43 (“Circular No. 43”), clarifying that the accreditation and preferential tax policy of integrated circuit enterprise established before December 31, 2010, is applied pursuant to Circular No. 1.

On May 4, 2016, State Tax Bureau, Ministry of Finance and other joint ministries issued Caishui [2016] No. 49 (“Circular No. 49”), which highlights the implementation of the record-filing system, clarification on certain criteria for tax incentive entitlement and establishment of a post-record filing examination mechanism and enhancement of post-administration.

On March 28, 2018, State Tax Bureau, Ministry of Finance and other joint ministries issued Caishui [2018] No. 27 (“2018 Circular No. 27”), which further announced the tax encouragement for integrated circuit production enterprises

established before and after January 1, 2018 and also updated the certain criteria for tax incentive entitlement. Circular No. 49 is partially abolished by 2018 Circular 27.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended June 30, 2018

1. GENERAL INFORMATION

Semiconductor Manufacturing International Corporation (the “Company” or “SMIC”) was established as an exempted company incorporated under the laws of the Cayman Islands on April 3, 2000. The address of the principal place of business is 18 Zhangjiang Road, Pudong New Area, Shanghai, China, 201203. The registered address is at P.O. Box 2681, Cricket Square, Hutchins Drive, Grand Cayman KY1-1111, Cayman Islands. SMIC is an investment holding company. SMIC and its subsidiaries (hereinafter collectively referred to as the “Group”) are mainly engaged in the computer-aided design, manufacturing, testing, packaging, trading of integrated circuits and other semiconductor services, as well as designing and manufacturing semiconductor masks.

2. BASIS OF PREPARATION

The unaudited condensed consolidated financial statements of the Group have been prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting” issued by the International Accounting Standards Board (the “IASB”) as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. The interim condensed consolidated financial statements should be read in conjunction with the Group’s annual financial statements for the year ended December 31, 2017, which have been prepared in accordance with IFRSs.

3. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values.

Except for the adoption of IFRS 9 and IFRS 15 on January 1, 2018, the accounting policies and methods of computation used in the condensed consolidated financial statements as of and for the six months ended June 30, 2018 are the same as those followed in the preparation of the Group’s annual financial statements as of and for the year ended December 31, 2017.

New and revised standards, amendments and interpretations to existing standards have been issued and relevant to the Group but are not effective for the financial year beginning on January 1, 2018:

New or revised IFRS	Effective date
IFRS 16 — Lease	On or after January 1, 2019
IFRS 17 — Insurance Contracts	On or after January 1, 2021
Amendments to IFRS 10 and IAS 28 — Sale or contribution of assets between an investor and its association or joint venture	Not yet determined
IFRIC 23 — Uncertainty over Income Tax Treatments	On or after January 1, 2019

The Group is yet to assess the impact of the above new and revised standards, amendments and interpretations to existing standards on the Group's condensed consolidated financial statements.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended June 30, 2018

4. ESTIMATES

The preparation of condensed consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the consolidated financial statements for the year ended December 31, 2017.

5. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The condensed consolidated financial statements do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at December 31, 2017.

There have been no changes in the risk management department since December 31, 2017 or in any risk management policies since December 31, 2017.

6. SEGMENT INFORMATION

The Group is engaged principally in the computer-aided design, manufacturing and trading of integrated circuits. The Group's chief operating decision makers have been identified as the Co-Chief Executive Officers, who review consolidated results when making decisions about resources allocation and assessing performance of the Group. The Group operates in one segment. The measurement of segment profits is based on profit from operations as presented

in the statements of profit or loss and other comprehensive income.

The Group operates in three principal geographical areas — United States, Europe, and Asia Pacific. The Group’s operating revenue from customers, based on the location of their headquarters, is detailed below.

Including the recognized technology licensing revenue of US\$160.4 million for six months ended June 30, 2018.

(1) The technology licensing internally developed and not capitalized was authorized to Semiconductor Manufacturing Electronics (Shaoxing) Corporation ("SMEC", an associate of the Group) with no related cost of sales recognized by the Group.

The Group's business is characterized by high fixed costs relating to advanced technology equipment purchases, which result in correspondingly high levels of depreciation expenses. The Group will continue to incur capital expenditures and depreciation expenses as it equips and ramps-up additional fabs and expands its capacity at the existing fabs. The following table summarizes property, plant and equipment of the Group by geographical location.

Expected volatility	39.82	%	43.38	%
Risk-free interest rate	2.83	%	1.91	%
Expected life of share options	5 years		6 years	

The risk-free rate for periods within the contractual life of the options is based on the yield of the US Treasury Bond. The expected term of options granted represents the period of time that options granted are expected to be outstanding. Expected volatilities are based on the average volatility of the Company's stock prices with the time period commensurate with the expected term of the options. The dividend yield is based on the Group's intended future dividend plan.

The valuation of the options is based on the best estimates from the Group by taking into account a number of assumptions and is subject to limitation of the valuation model. Changes in variables and assumptions may affect the fair value of these options.

In the current interim period, share option of the Subsidiary Plan was granted on March 13, 2018. The fair value of the share option of the Subsidiary Plan determined at the date of grant using the Black-Scholes Option Pricing model was US\$0.36.

The range of exercise prices for share options of the Subsidiary Plan outstanding at the end of the period was from US\$0.05 to US\$0.36 (six months ended June 30, 2017: US\$0.05 to US\$0.31).

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**For the six months ended June 30, 2018****23. CASH FLOW HEDGES**

To protect against volatility of future cash flows caused by the changes in exchange rates associated with outstanding debt denominated in a currency other than the US dollar, the Group entered into several cross currency swap contracts, which were designated as hedging instruments since October 2016. Any gains or losses arising from changes in fair value of these hedging instruments are taken directly to the statement of profit or loss, except for the effective portion of cash flow hedges, which is recognized in other comprehensive income (loss) and later reclassified to profit or loss when the hedged item affects profit or loss.

The hedging reserve is used to record gains or losses on derivatives designated and qualified as cash flow hedges that are recognized in other comprehensive income (loss). Amounts will be reclassified to profit or loss when the associated hedged transaction affects profit or loss.

24. PERPETUAL SUBORDINATED CONVERTIBLE SECURITIES

On December 14, 2017, the Company issued the perpetual subordinated convertible securities (the "PSCS") at a par value of US\$250,000 each in the principal amount of US\$65.0 million and the net book value of PSCS amounted to US\$64.1 million after the deduction of issue expenses of US\$0.9 million.

On June 29, 2018, the Company issued the PSCS at a par value of US\$250,000 each in the principal amount of US\$200.0 million.

The PSCS are included in equity in the Group's consolidated financial statements as the Group does not have a contractual obligation to deliver cash or other financial assets arising from the issue of the PSCS. The PSCS will remain as equity reserve until the PSCS are converted, in which case, the balance recognized in equity will be transferred to ordinary shares and share premium.

As of June 30, 2018, the net book value of PSCS amounted to US\$264.1 million.

For the six months ended June 30, 2018, no PSCS have been converted into ordinary shares of the Company and the Company paid the distribution amounted to US\$0.7 million.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**For the six months ended June 30, 2018****25. BORROWINGS (CONTINUED)**

As of June 30, 2018, property, plant and equipment with carrying amount of approximately US\$212.9 million (December 31, 2017: US\$362.3 million) have been pledged to secure borrowings of the Group (Note 14).

As at June 30, 2018, other borrowings represented US\$477.2 million (December 31, 2017: US\$487.7 million) of borrowings under three arrangements entered into by the Group with third-party financing companies in 2016 in the form of a sale and leaseback transaction with a repurchase option. A batch of production equipment of the Group was sold and leased back under the financing arrangement. As the repurchase prices are set at below US\$1.00, which are minimal compared to the expected fair value and the Group is certain that it will exercise the repurchase options, the above arrangements were accounted for as collateralized borrowings of the Group.

26. CONVERTIBLE BONDS**Issue of US\$450.0 million zero coupon convertible bonds due 2022**

On July 7, 2016, the Company issued zero coupon convertible bonds at a par value of US\$250,000 each with an aggregate principal amount of US\$450.0 million (the “2016 Convertible Bonds”). The issue price was 100% of the aggregate principal amount of the 2016 Convertible Bonds. The 2016 Convertible Bonds issued is a compound instrument included a liability component and an equity component. There are embedded derivatives in respect of the early redemption features of the 2016 Convertible Bonds, which are deemed to be clearly and closely related to the host contract and therefore, do not need to be separately accounted for. The fair value of the liability component of the 2016 Convertible Bonds was approximately US\$387.9 million and the equity component was approximately US\$52.9 million, determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole.

Trattamento di Fine Rapporto (“TFR”, termination payments) relates to the amounts that employees in Italy are entitled to receive when they leave the Group and is calculated based on the period of employment and the taxable earnings of each employee. Under certain conditions, the entitlement may be partially advanced to an employee during the employee’s working life.

The Group operates defined benefit pension plans in Italy under broadly similar regulatory frameworks, which is an unfunded plan where the Group meets the benefit payment obligation as it falls due. This plan is final salary pension plan, which provides benefits to members in the form of a guaranteed level of pension payable for life. The level of benefits provided depends on members’ length of service and their salary in the final years leading up to retirement. The TFR in payment are generally updated in line with the retail price index.

⁽²⁾ Long-term payables for the purchased tangible and intangible assets were classified into the non-current and current liabilities respectively amounted to US\$53.7 million and US\$45.1 million as of June 30, 2018.

The group had contingent consideration in respect of a potential cash compensation accrued at about US\$12.5 million in 2017 that may be incurred depending on the profit of Changjiang Xinke during the three years of 2017, 2018 and 2019. Contingent consideration was reclassified from other liabilities to other financial liabilities as of January 1, 2018, compliment with IFRS 9 (Note 33).

⁽⁴⁾

Others included the unrealized gain on the transaction of technology licensing revenue with SMEC, amounted to US\$44.5 million from SMEC as of June 30, 2018.

31. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Group considers that the carrying amounts of financial assets and financial liabilities recognized in the condensed consolidated financial statements approximate their fair values.

Valuation techniques and assumptions applied for the purposes of measuring fair value

The fair value of financial instruments based on quoted market prices in active markets, valuation techniques that use observable market-based inputs or unobservable inputs that are corroborated by market data. Pricing information the Group obtains from third parties is internally validated for reasonableness prior to use in the condensed consolidated financial statements. When observable market prices are not readily available, the Group generally estimates the fair value using valuation techniques that rely on alternate market data or inputs that are generally less readily observable from objective sources and are estimated based on pertinent information available at the time of the applicable reporting periods. In certain cases, fair values are not subject to precise quantification or verification and may fluctuate as economic and market factors vary and the Group's evaluation of those factors changes.

Fair value measurements recognized in the consolidated statement of financial position

The following tables provide an analysis of financial instruments that are measured at fair value on a recurring basis subsequent to initial recognition, grouped into Levels 1 to 3 based on the degree to which the fair value is observable. There is no transfer within different levels of the fair value hierarchy in the period ended June 30, 2018.

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities;

Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);

Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

33. CHANGES IN ACCOUNTING POLICIES (CONTINUED)

(2) IFRS 9 Financial Instruments — Accounting policies applied from January 1, 2018

IFRS 9 replaces the provisions of IAS 39 that relate to the recognition, classification and measurement of financial assets and financial liabilities, derecognition of financial instruments, impairment of financial assets and hedge accounting.

(a) Investments and other financial assets Classification

From January 1, 2018 the Group classifies its financial assets in the following measurement categories:

those to be measured subsequently at fair value (through profit or loss), and

those to be measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will be recorded in profit or loss.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Group classifies its debt instruments:

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in other gains or losses, together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

FVPL: Assets that do not meet the criteria for amortized cost or fair value through other comprehensive income are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognized in profit or loss and presented net within other gains or losses in the period in which it arises.

33. CHANGES IN ACCOUNTING POLICIES (CONTINUED)

(2) **IFRS 9 Financial Instruments — Accounting policies applied from January 1, 2018** (CONTINUED)

(a) Investments and other financial assets (CONTINUED)

Equity instruments

The Group subsequently measures all equity investments at fair value. Changes in the fair value of financial assets at FVPL are recognized in other gains or losses in the statement of profit or loss as applicable.

Impairment

From January 1, 2018, the Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

(b) Derivatives and hedging

The Group has made the accounting policy choice to continue applying hedge accounting under IAS 39.

(c) Impact of adoption

The adoption of IFRS 9 Financial Instruments from January 1, 2018 resulted in changes in accounting policies and adjustments to the amounts recognized in the financial statements. In accordance with the transitional provisions in IFRS 9, comparative figures have not been restated.

On January 1, 2018 (the date of initial application of IFRS 9), the Group's management has assessed which business models apply to the financial assets held by the Group and has classified its financial instruments into the appropriate IFRS 9 categories.

(i) Reclassification from available-for-sale to FVPL

Certain equity investments were reclassified from available-for-sale to financial assets at FVPL (US\$24.8 million as at January 1, 2018). They do not meet the IFRS 9 criteria for classification at amortized cost, because their cash flows do not represent solely payments of principal and interest.

Related fair value gains of US\$16.5 million were transferred from the available-for-sale financial assets reserve to retained earnings on January 1, 2018. In the six months to June 30, 2018, net fair value losses of US\$0.6 million relating to these investments were recognized in profit or loss.

(2) **IFRS 9 Financial Instruments — Accounting policies applied from January 1, 2018**
(CONTINUED)

(c) Impact of adoption (CONTINUED)

(ii) Reclassification from other financial assets to FVPL

Certain investments in financial products sold by banks were reclassified from other financial assets to financial assets at FVPL (US\$117.9 million as at January 1, 2018). They do not meet the IFRS 9 criteria for classification at amortized cost, because their cash flows do not represent solely payments of principal and interest.

(iii) Reclassification from other financial assets to amortized cost

Certain investments in over 3 months bank deposits were reclassified from other financial assets to amortized cost (US\$559.0 million as at January 1, 2018). At the date of initial application the Group's business model is to hold these investments for collection of contractual cash flows, and the cash flows represent solely payments of principal and interest on the principal amount. There was no impact on retained earnings at January 1, 2018.

(3) IFRS 15 Revenue from Contracts with Customers

The new IFRS 15 standard establishes a single revenue recognition framework. The core principle of the framework is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. IFRS 15 supersedes existing revenue recognition guidance including IAS 18 Revenue, IAS 11 Construction Contracts and related interpretations.

IFRS 15 requires the application of a 5 steps approach to revenue recognition:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to each performance obligation

Step 5: Recognize revenue when each performance obligation is satisfied

IFRS 15 includes specific guidance on particular revenue related topics that may change the current approach taken under IFRS. The standard also significantly enhances the qualitative and quantitative disclosures related to revenue.

The standard permits either a full retrospective method to each prior reporting period presented or a modified retrospective approach with the cumulative effect of initially applying the guidance recognized at the date of initial application. The Group has performed a detailed assessment on the impact of the adoption of IFRS 15 and decided to adopt a full retrospective approach. The expected changes in accounting policies will not have any significant impact on the Group's financial statements.

(3) IFRS 15 Revenue from Contracts with Customers (CONTINUED)

(a) Sale of goods

The Group manufactures semiconductor wafers for its customers based on the customers' designs and specifications pursuant to manufacturing agreements and/or purchase orders. The Group also sells certain semiconductor standard products to customers.

Revenue from the sale of goods is recognized when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

• the Group has transferred to the buyer the control of the goods;

• the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;

• the amount of revenue can be measured reliably;

• it is probable that the economic benefits associated with the transaction will flow to the Group; and

• the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Customers have the right of return within one year pursuant to warranty provisions. The Group typically performs tests of its products prior to shipment to identify yield rate per wafer. Occasionally, product tests performed after shipment identify yields below the level agreed with the customer. In those circumstances, the customer arrangement may provide for a reduction to the price paid by the customer or for the costs to return products and to ship replacement products to the customer. The Group estimates the amount of sales returns and the cost of replacement products based on the historical trend of returns and warranty replacements relative to sales as well as a consideration of any current information regarding specific known product defects at customers that may exceed historical trends.

(b) Impact of adoption

The Group has adopted IFRS 15 Revenue from Contracts with Customers from January 1, 2018 which resulted in changes in accounting policies and adjustments to the amounts recognized in the financial statements. In accordance with the transition provisions in IFRS 15, the Group has adopted the new rules retrospectively and has restated comparatives for the 2017 financial year. Contract liabilities has been presented in the balance sheet to reflect the terminology of IFRS 15, in relation to advance payment received from customers were previously included in trade and other payables (US\$43.0 million as at January 1, 2018).

34. SUBSEQUENT EVENTS

(i) Sale and leaseback agreements with Sino IC Leasing

In July 2018, there were four arrangements in consideration of US\$306.8 million entered into by the Group with Xinhe Leasing (Tianjin) Co., Ltd. (a majority-owned subsidiary of Sino IC Leasing) in the form of a sale and leaseback transaction with a repurchase option. A batch of production equipment of the Group was sold and leased back under the arrangements. As the repurchase prices were set at the expected fair value and the Group is not reasonably certain that it will exercise the repurchase options, the above transactions were accounted for a disposal of property, plant and equipment followed with an operating lease.
