INTRODUCTION

Except where the context otherwise requires and for purposes of this annual report only:

we, us, our company, the company, our refer to China Finance Online Co. Limited, or CFO Hong Kong and its subsidiaries, and, in the context of describing our operations include our PRC-incorporated affiliates;

shares and ordinary shares refer to our ordinary shares, preferred shares refers to our preferred shares, all of which were converted into our ordinary shares upon the completion of our initial public offering on October 20, 2004, ADSs refers to our American depositary shares, each of which represents five ordinary shares, and ADRs refers to the American depositary receipts which evidence our ADSs;

China or PRC refers to the People's Republic of China, excluding Taiwan, Hong Kong and Macau;

Hong Kong refers to the Hong Kong Special Administrative Region of the People's Republic of China; and

all references to Renminbi, RMB or yuan are to the legal currency of China, all references to U.S. dollars, dollars, \$ or US\$ are to the legal currency of the United States and all references to Hong Kong dollars or HK\$ are to the legal currency of Hong Kong. Any discrepancies in any table between totals and sums of the amounts listed are due to rounding.

We and certain selling shareholders of our company completed the initial public offering of 6,200,000 American Depositary Shares, each representing five of our ordinary shares, par value HK\$0.001 per share on October 20, 2004. On October 15, 2004, we listed our ADSs on the Nasdaq Global Market (known as the Nasdaq National Market prior to July 1, 2006), or Nasdaq, under the symbol JRJC.

FORWARD-LOOKING INFORMATION

This annual report on Form 20-F contains forward-looking statements that are based on our current expectations, assumptions, estimates and projections about us and our industry. All statements other than statements of historical fact in this annual report are forward-looking statements. These forward-looking statements can be identified by words or phrases such as may, will, expect, anticipate, estimate, plan, believe, is /are likely to or other similar expressions. The forward-looking statements included in this annual report relate to, among others:

our goals and strategies, including how we effect our goals and strategies;

our future business developments, business prospects, financial condition and results of operations;

our future pricing strategies or policies;

our plans to expand our service offerings;

our plans to use acquisitions and strategic investments as part of our corporate strategy;

competition in the PRC financial data and information services industry;

performance of China's securities markets;

performance of Hong Kong's securities markets;

growth in our subscriber base;

PRC governmental policies relating to taxes and how they will impact our business;

PRC governmental policies relating to the Internet and Internet content providers;

Table of Contents

PRC governmental policies relating to the distribution of content, especially the distribution of financial content over the Internet; and

PRC governmental policies relating to mobile value-added services.

These forward-looking statements involve various risks, assumptions and uncertainties. Although we believe that our expectations expressed in these forward-looking statements are reasonable, we cannot assure you that our expectations will turn out to be correct. Our actual results could be materially different from and worse than our expectations. Important risks and factors that could cause our actual results to be materially different from our expectations are generally set forth in Item 3.D of this annual report, Key information Risk Factors and elsewhere in this annual report.

This annual report on Form 20-F also contains data related to the online financial data and information services market and the Internet. This market data includes projections that are based on a number of assumptions. The online financial data and information services market may not grow at the rates projected by market data, or at all. The failure of these markets to grow at the projected rates may have a material adverse effect on our business and the market price of our ADSs. In addition, the relatively new and rapidly changing nature of the online financial data and information services industry subjects any projections or estimates relating to the growth prospects or future condition of our markets to significant uncertainties. Furthermore, if any one or more of the assumptions underlying the market data turns out to be incorrect, actual results may differ from the projections based on these assumptions.

The forward-looking statements made in this annual report relate only to events or information as of the date on which the statements are made in this annual report. You should not place undue reliance on these forward-looking statements and you should read these statements in conjunction with the risk factors disclosed in Item 3.D of this annual report, Key Information Risk Factors. We undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date on which the statements are made or to reflect the occurrence of unanticipated events.

(1) For the results of operations for a specified period, all translations from Renminbi to U.S. dollars were calculated by using the average of the exchange rates on each day during the period. All translations from Renminbi to U.S. dollars were calculated for the periods listed below at the corresponding rates

For the years ended December 31,	RMB per US\$1.00
2003	8.2770
2004	8.2780
2005	8.1472
2006	7.9693
2007	7.6072
2008	6.9477

For consolidated balance sheet data, all translations from Renminbi

to U.S. dollars were calculated at the exchange rate at the end of that year. The exchange rates were as set forth below as of the corresponding dates:

As at December 31,	RMB per US\$1.00
2003	8.2769
2004	8.2765
2005	8.0702
2006	7.8087
2007	7.2946
2008	6.8225

- (2) Each ADS represents five ordinary shares.
- (3) Current working capital is the difference between total current assets and total current liabilities.
- (4) In 2006, the Company changed its method of accounting for stock-based compensation to conform to Statement of Financial Accounting Standard No. 123 (revised 2004), Share-Based Payment , effective on January 1, 2006.

Income
Taxes-An
Interpretation of
FASB
Statement
No. 109.

Table of Contents**Exchange Rate Information**

We have published our financial statements in U.S. dollars. Our business is primarily conducted in China and denominated in Renminbi. Periodic reports will be made to shareholders and will be expressed in U.S. dollars using the then-current exchange rates. The conversion of Renminbi into U.S. dollars in this annual report is based on the noon buying rate in The City of New York for cable transfers of Renminbi as certified for customs purposes by the Federal Reserve Bank of New York. Unless otherwise noted, all translations from Renminbi to U.S. dollars in this annual report were made at \$1.00 to RMB6.8225, which was the prevailing rate on December 31, 2008. The prevailing rate on May 15, 2009 was \$1.00 to RMB6.8247. We make no representation that any Renminbi or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or Renminbi, as the case may be, at any particular rate, the rates stated below, or at all. The PRC government imposes controls over its foreign currency reserves in part through direct regulation of the conversion of Renminbi into foreign exchange and through restrictions on foreign trade.

The People's Bank of China sets and publishes daily a base exchange rate. Until July 21, 2005, the People's Bank of China set this rate with reference primarily to the supply and demand of Renminbi against the U.S. dollar in the market during the prior day. Beginning on July 21, 2005, the People's Bank of China has set this rate with reference primarily to the supply and demand of Renminbi against a basket of currencies in the market during the prior day. The People's Bank of China also takes into account other factors such as the general conditions existing in the international foreign exchange markets. Although governmental policies were introduced in the PRC in 1996 to reduce restrictions on the convertibility of Renminbi into foreign currency for current account items, conversion of Renminbi into foreign exchange for capital items, such as foreign direct investment, loans or security, requires the approval of the State Administration for Foreign Exchange and other relevant authorities.

The following table sets forth various information concerning exchange rates between the Renminbi and the U.S. dollar for the periods indicated. These rates are provided solely for your convenience and are not necessarily the exchange rates that we used in this annual report or will use in the preparation of our periodic reports or any other information to be provided to you. The source of these rates is the Federal Reserve Bank of New York.

	Average(1)	High	Low	Period-end
		<i>(RMB per U.S.\$1.00)</i>		
December 31, 2004	8.2768	8.2774	8.2764	8.2765
December 31, 2005	8.1472	8.2765	8.0702	8.0702
December 31, 2006	7.9693	8.0705	7.8051	7.8087
December 31, 2007	7.5806	7.8127	7.2946	7.2946
December 31, 2008	6.9193	7.2946	6.7800	6.8225
Most recent six months:				
November 2008	6.8281	6.8373	6.8220	6.8254

Risks relating to our business

Table of Contents***The unprecedented global financial crisis and economic downturn could adversely affect the our business.***

Our business can be adversely affected by the general environment-economic, securities market and financial developments all could significantly influence the overall interests and engagement of Chinese investors in the stock market. If the global financial crisis and economic downturn continue or deteriorate further, we expect Chinese investors to become more cautious in making investments in Chinese stock markets, which in turn may have adverse impact in our results of operation and business.

Negative changes in China s securities markets, economic conditions, inflation, regulatory policies, interests rates and other factors that could affect investors interests in investing in China s securities markets could have an adverse effect on our business.

We believe that the level of public interest in investing in China s securities market could significantly influence the demand for market intelligence on China s securities markets and our products. Such demand could be affected by the level of trading activity in China s securities markets. During the past several years, China s securities markets have experienced significant volatility. The benchmark Shanghai Stock Exchange A-Share Index surged 124.33% between the start of 2006 and the market peak in October, 2007, despite of the severe corrections on February 27, 2007 and May 30, 2007, when China stock market declined approximately 9% and 7% on a single trading day, respectively. Then the Shanghai Stock Exchange A-Share Index declined 43% from late October, 2007 till the end of March, 2008. Primarily due to the impact of global economic crisis, the benchmark Shanghai Composite Index ended 2008 down a record 65% after reaching an all-time high on October 16, 2007. Any factors that lead to prolonged weakness or intensified volatility in China s securities markets in the future may diminish investors interest in China s securities markets, and our business could be adversely affected accordingly.

China s securities market is further limited by a lack of hedging instruments that would assist investors in hedging against market volatility. For example, investors are not permitted to sell short in China s securities markets. Because our business is dependent on investors interest in China s securities markets, our business could be materially and adversely affected if market volatility and the lack of hedging instruments continue to affect China s securities markets and dampen investors interest in China s securities markets.

In response to the increased inflation rate during 2004, the Chinese government announced measures to restrict lending and investment in China in order to reduce inflationary pressure on China s economy. In 2006 and 2007, the People s Bank of China announced a series of basic interest rate increases and other measures to reduce inflationary pressure. However, in response to the slowdown of China s economy as a result of the global financial crisis, the Central Bank of China cut interest rates by more than a full percentage point in November, 2008, the largest rate reduction since 1998, with the intention to encourage lending and investment. The change in inflation on interest rates in China could have a significant impact on Chinese investors general engagement and interests in China s stock market, which will in turn affect our business. Any measures adopted by the Chinese Central Bank, such as an interest rate increase to reduce an inflation rate, may have an adverse effect on China s securities markets, which could adversely impact our business.

Downturns, disruptions and volatility in Hong Kong securities markets and negative developments in the business, economic, and market conditions that could affect investors interests in investing in Hong Kong securities markets could have adverse impact on our business in the future.

Following the acquisition of Daily Growth Securities Limited, or Daily Growth Securities, a licensed securities brokerage firm incorporated in Hong Kong, in 2007, which is now a subsidiary of Daily Growth Financial Holdings Limited, or Daily Growth Holdings, we provide a diversified portfolio of brokerage and informational service to our clients in connection with their investment in Hong Kong securities market. Lower trading volumes and price levels of securities transactions in Hong Kong securities market may affect investors interests in investing in Hong Kong securities markets and have adverse impact on our business in the future. Historically, securities trading volume and price level in Hong Kong have fluctuated considerably. After reaching its all-time high on October 30, 2007, the Hang Seng index lost approximately 30% from October 30, 2007 through March 9, 2008. On October 27, 2008, the Hang Seng index fell to 10,676 points, having fallen nearly two-thirds from its all-time peak mainly due to the global financial crisis. These fluctuations may result from regional and global economic, political and market conditions, broad trends in business and finance that are out of our control.

Our securities brokerage, futures trading and wealth management business in Hong Kong operate in a highly regulated industry and compliance failures could adversely affect our business.

7

Table of Contents

Daily Growth Securities provides a diversified portfolio brokerage and other related services to our customers who invest in stocks listed on the Hong Kong Stock Exchange. Daily Growth Futures Limited, or Daily Growth Futures, a licensed futures trading firm incorporated in Hong Kong, intends to commence futures contract trading business in 2009. The securities brokerage and futures trading business and operations in Hong Kong are subject to extensive regulations by the Hong Kong Stock Exchange and Hong Kong Securities and Futures Commission, which may increase our cost of doing business and may be a limiting factor on the operations and development of our securities brokerage and futures trading business. The regulation on securities broker-dealer and futures trading business is also an ever-changing area of law and is subject to modification by government, regulatory and judicial actions. As our business has expanded into the securities brokerage and futures trading areas in Hong Kong, we devote more time to regulatory matters. Failure to comply with any of the laws, rules or regulations applicable to our securities brokerage and futures trading business could lead to adverse consequences including, without limitation, investigations, fines, law suits and other penalties from regulatory agencies. Any of these consequences could adversely affect our securities broker-dealer and futures trading business.

Our business could be materially and adversely affected if new features and new research tools are not accepted by users.

We currently offer to our subscribers a limited number of service packages with different features and functionalities. If we introduce a new feature or a new research tool that is not favorably received, our current subscribers may not continue to use our service as frequently as before. New subscribers could also choose a competitive or different service offering over ours. We may also experience difficulties that could delay or prevent us from introducing new research tools or features. Furthermore, these research tools or features may contain errors that are discovered after the services are introduced. We may need to significantly modify the design of these research tools or features to correct these errors. Our business could be materially and adversely affected if we experience difficulties or delays in introducing new features and research tools or if these new features and research tools are not accepted by users.

We may not be able to successfully implement our growth strategies, which could materially and adversely affect our business, financial condition and results of operations.

We are pursuing a number of growth strategies, which will require us to expand our data and information content and service offerings through internal development efforts and through partnerships, joint ventures and acquisitions. Some of these strategies relate to new service offerings for which there are no established markets in China, or relate to service offerings in which we lack experience and expertise. We cannot assure you that we will be able to deliver new service offerings on a commercially viable basis or in a timely manner, or at all.

In addition, online advertising business strategies may be developed in addition to our subscription-based service offerings. However, since we regard subscription-based services as our current core business and allocate a significant portion of the advertising inventories of our websites, namely, www.jrj.com and www.stockstar.com, to promote our subscription-based service offerings, to date, our current online advertising business has been limited. We cannot assure you that we will be able to efficiently or effectively implement and grow our online advertising business, or that online advertising on our websites will not detract from our users' experience and thereby adversely affect our brand name or our subscription-based service offerings.

If we are unable to successfully implement our growth strategies, our revenue and profitability will not grow as we expect, if at all, and our competitiveness may be materially and adversely affected.

We face significant competition which could adversely affect our business, financial condition and results of operations.

The online financial data and information services market in China is relatively new, has few substantial barriers to entry and is competitive and rapidly changing. More broadly, the number of financial news and information sources competing for consumers' attention and spending has increased since we commenced operations and we expect that competition will continue to intensify. We currently compete, directly and indirectly, for paying subscribers and viewers with companies in the business of providing financial data and information services, including publishers and distributors of traditional media, Internet portals providing information on business, finance and investing, dedicated financial information websites, personal stock research software vendors and stock brokerage companies, especially stock brokerage companies with online trading capabilities. Some of the sponsors with whom we currently maintain

sponsorship arrangements could also become our competitors in the future.

Table of Contents

Many of our existing competitors, as well as a number of potential new competitors, have longer operating histories, greater name recognition, larger customer bases and significantly greater financial, technical and marketing resources than we do. This may allow them to adopt our business model and devote greater resources than we can to the development and promotion of service offerings similar to or more advanced than our own. These competitors may also engage in more extensive research and development, undertake more far-reaching marketing campaigns, adopt more aggressive pricing policies and offer products and services that achieve greater market acceptance than ours. They may also undercut us by making more attractive offers to our existing and potential employees, content providers and sponsors. New and increased competition could result in price reductions for our research tools, reduced margin or loss of market share, any of which could materially and adversely affect our business, results of operations and financial condition.

In addition to us, many companies in China offer stock quotes, economic and company-specific news, historical stock performance statistics, online chatting regarding individual securities and other features for free over the Internet. If users determine that the information available for free over the Internet is sufficient for their investing needs, they would be unlikely to pay for subscription to our services, thus reducing our revenues and net income and forcing us to develop a new business model. Furthermore, the amount and quality of information available for free over the Internet may expand in the future, reducing the attractiveness of our services and forcing us to spend additional money to develop more sophisticated services in order to compete. There can be no assurance that we would be successful in developing a new business model or more advanced services in response to either of the above challenges. Failure to do so would lead to significant declines in our number of subscribers, revenues and net income.

Our business could be materially and adversely affected if the stock exchanges from which we receive data and information fail to deliver us reliable data and price quotes or other trading related information, or if we cannot maintain our current business relationships with our historical data providers on commercially reasonable terms.

We depend on three securities data providers associated with the Shanghai, Shenzhen and Hong Kong stock exchanges to provide us with real-time stock, bond and mutual fund quotes and other trading related information. We primarily rely on contractual arrangements with Shanghai Stock Exchange Information Network Co., Ltd., which is associated with the Shanghai Stock Exchange, and with Shenzhen Securities Information Co., Ltd., which is associated with the Shenzhen Stock Exchange, HKEx Information Services Limited, which is associated with the Hong Kong Stock Exchange, pursuant to which we pay fixed service fees in exchange for receiving real-time price quotes and other trading related information through satellite communication. In June 2006, we are certified by Shanghai Stock Exchange Information Network Co., Ltd. to develop service packages based on Level II quotes (which provide insight into stock price movements and provide faster and more comprehensive trading data), and upgrade the features and functions of our current products. The definitive agreement is contemplated to continue through July 31, 2009. In January 2008, we entered into a license agreement with Shanghai Stock Exchange Information Network Co., Ltd. to distribute TopView which is a series of trading data and statistics for stocks listed on the Shanghai Stock Exchange. Among other things, TopView reveals valuable statistics, such as trading volume and prices of various types of trading accounts, which give investors insight into major market participants' trading activities in specific stocks and help investors make more informed decisions. The agreement authorizes us to use TopView to enhance features and functionalities of our existing products and develop new product offerings. The definitive agreement is contemplated to continue through December 12, 2008. We began to distribute TopView data early in 2008, and have integrated TopView to some of our products. On December 12, 2008, Shanghai Stock Exchange Information Network Co., Ltd, informed us that it will no longer provide TopView market data to third-party vendors, including us, effective January 1, 2009. As such, we will discontinue TopView series of market data analysis products effective January 1, 2009. Although we are continuing to design and improve new and existing products as substitutes for TopView, the termination of TopView products is likely to have a material impact on our business in 2009. Any disruption in our ability to secure data, price quotes or other trading related information on timely basis either through technical issues or through our inability to maintain and renew our contracts with the Shanghai and Shenzhen Stock Exchanges will have a material adverse effect on our business.

We have also transitioned the primary source of historical data and information on listed companies, bonds and mutual funds to Shenzhen Genius Information Technology Co. Ltd., or CFO Genius, which we acquired in

September 2006. Starting from May 2007, CFO Genius has become our primary provider of historical data and information, thereby mitigating our reliance on third-party backup providers of such historical data and information. Though we maintain raw data provision contracts with Financial China Information & Technology Co., Ltd. and Shanghai Gildata Service Co., Ltd. as alternative sources of historical data and information, any problems arising in or any disruption to CFO Genius as the primary provider of historical data and information will have a material adverse effect on our business.

Table of Contents

We cannot assure you that we will be able to enter into business arrangements with either of the two securities data providers associated with the Shanghai and Shenzhen Stock Exchanges on commercially reasonable terms, or at all, after our current contracts expire. We cannot assure you that the two securities data providers will not charge us service fees substantially higher than the service fees we are currently paying. Our business, financial condition and results of operations could be materially and adversely affected if either of our two securities data providers imposes on us service fees substantially higher than the service fees we are currently paying. Even if we are able to maintain our current business arrangements for data on commercially reasonable terms, either of the two securities data providers may fail to deliver us reliable price quotes or other trading related information. In either case, it would be difficult for us to receive reliable real-time price quotes and other trading related information from a different source, which could materially and adversely affect our business.

Additionally, we cannot assure you that we will be able to enter into or maintain our business arrangements with our current data providers on commercially reasonable terms or at all. In this case, it could take time for us to locate alternative providers of comprehensive historical data and information on commercially reasonable terms, which could cause disruptions to our operations and adversely affect our business. Even if we are able to find alternative data providers, they may fail to deliver to us reliable and comprehensive data and information in accordance with our specifications and requirements, which could materially and adversely affect our business.

Our business would be adversely affected if we do not continue to expand and maintain an effective telemarketing and customer support force.

We market our service offerings through our websites, as well as through our telemarketing and customer service centers in Beijing, Shanghai and Shenzhen. In addition to sales and marketing functions, we depend on our customer support force to explain our service offerings to our existing and potential subscribers and resolve our subscribers technical problems. Many of our telemarketing and customer support personnel have only worked for us for a short period of time, and some of them may not have received sufficient training or gained sufficient experience to effectively serve our customers. In addition, we will need to further increase the size of our customer support force as our business continues to grow. We may not be able to hire, retain, integrate or motivate additional customer support personnel without any short-term disruptions of our operations. As a result, our business could be adversely affected if we do not continue to expand and maintain an effective customer support force.

Acquisitions present many risks, and we may not realize the financial and strategic goals that were contemplated at the time of the acquisitions.

An active acquisition program is an important element of our corporate strategy. For example, we acquired CFO Genius, a financial information database provider mainly serving Chinese domestic institutional customers, in September 2006. In October 2006, we acquired Stockstar Information Technology (Shanghai) Co., Ltd., or CFO Stockstar, a leading finance and securities website in China. In November 2007, we acquired Daily Growth Securities, a licensed securities brokerage firm incorporated in Hong Kong. In October 2008, Fortune Software (Beijing) Co., Ltd, or CFO Software, one subsidiary of the Company acquired Shenzhen Newrand Securities Advisory and Investment Co., Ltd., or CFO Newrand, which is a licensed security consulting firm, and CFO Software also acquired Zhongcheng Futong Co., Ltd., or CFO Zhongcheng & CFO Futong. We may not be able to achieve all of the benefits of the business combinations or to successfully integrate the operation of CFO Stockstar, CFO Genius, Daily Growth Securities, CFO Newrand, CFO Zhongcheng and CFO Futong operations into ours. CFO Newrand, CFO Zhongcheng and CFO Futong did not commence business operations in 2008. While CFO Stockstar, CFO Genius and Daily Growth Securities contributed positive operating cash flows on a collective basis in 2008, we cannot assure you that they will continue to do so. Moreover, we expect to continue to acquire companies, products, services and technologies. Risks we may encounter in acquisitions include:

the acquisition may not further our business strategy, or we may pay more than it is worth;

we may not realize the anticipated increase in our revenues if we are unable to sell the acquired company's products to our customer base, or the acquired contract models of acquired contract models companies;

we may have difficulty identifying suitable acquisition opportunities and integrating acquired companies with our existing operations or their products and services with our existing products and services;

we may have higher than anticipated costs in continuing support and development of acquired products;

Table of Contents

we may have multiple and overlapping product lines that are offered, priced and supported differently, which could cause customer confusion and delays;

our due diligence process may fail to identify problems, such as issues with unlicensed use of intellectual property;

we may have legal and tax exposures or lose anticipated tax benefits as a result of unforeseen difficulties in our legal entity integration activities;

we may face contingencies related to intellectual property, financial disclosures and accounting practices or internal controls;

our ongoing business may be disrupted and our management's attention may be diverted by transition or integration issues; and

to the extent that we issue a significant amount of equity securities in connection with future acquisitions, existing ADS holders and shareholders may be diluted and earnings per share may decrease.

These factors could have a material adverse effect on our business, results of operations, financial condition or cash flows, particularly in the case of a larger acquisition or multiple concurrent acquisitions.

Our plan to make strategic investments may negatively affect our business due to the poor financial condition and operating performance of those companies we invest in and other risks.

As part of our business strategy, we may also make strategic investments intended to facilitate the introduction of new service offerings as well as to add capabilities that we do not currently have. For example, we invested in Moloon International, Inc., or Moloon, a Chinese wireless technology and service provider, in December 2005. However, the financial condition and operating results of companies we invest in such as Moloon could negatively affect our business and financial condition. Government regulations may adversely affect the business of companies we invest in, which could have a material and adverse impact on our business. For example, following an independent valuation of our cost method investment in Moloon, it was determined that a decline in value had occurred and we recorded a non-cash investment impairment of \$11.13 million in 2007, reducing the carrying balance of such investment from \$12.61 million to \$1.48 million, 88% off the book value. In the future, we may also consider further strategic investments and partnerships with companies that specialize in non-exchange traded financial products in order to acquire their expertise in that area which we believe are difficult to obtain otherwise.

Our ability to successfully make strategic investments will depend on the availability of suitable candidates at an acceptable cost, our ability to compete effectively to attract and reach agreement with strategic partners on commercially reasonable terms, the availability of financing to complete larger acquisitions or joint ventures, as well as our ability to obtain any required governmental approvals. In addition, the benefits of a partnership or joint venture transaction may take considerable time to develop, and we cannot assure you that any particular partnership or joint venture will produce the intended benefits. For example, we may experience difficulties in integrating acquisitions with our existing operations and personnel. The identification and completion of these transactions may require significant management time and resources. Moreover, the partnership and joint venture strategies we pursue could also cause earnings or ownership dilution to our shareholders' interests, which could result in losses to investors.

Our business could be materially and adversely affected if increased usage strains our server systems or if we suffer from other system malfunctions.

In the past, our websites have experienced significant increases in traffic when there are significant business developments, financial news and activities, or stock market trading activities. In addition, the number of our users has continued to increase over time and we are seeking to further increase our user base. Therefore, our website must accommodate a high volume of traffic to meet peak user demand and deliver frequently updated information. Our websites have in the past experienced and may in the future experience slower response time or login delays for a variety of reasons. It is essential to our success that our websites are able to accommodate our users in an efficient manner so that our users' experience with us is viewed favorably and without frequent delays.

We also depend on other Internet content providers, such as other financial information websites, to provide data and information to our website on a timely basis. Our websites could experience disruptions or interruptions in service

Table of Contents

due to the failure or delay in the transmission or receipt of this information. In addition, our users depend on Internet service providers, online service providers and other website operators for access to our website. Each of them has experienced significant outages in the past, and could experience outages, delays and other difficulties due to system failures unrelated to our systems. These types of occurrences could cause users to perceive our website as not functioning properly and therefore cause them to use other methods to obtain the financial data and information services they need.

If we are not able to respond successfully to technological or industry developments, our business may be materially and adversely affected.

The online financial data and information services market is characterized by rapid advancements in technology, evolving industry standards and changes in customer needs. New services or technologies may render our existing services or technologies less competitive or obsolete. Responding and adapting to technological developments and standard changes in our industry, the integration of new technologies or industry standards or the upgrading of our networks may require substantial time, effort and capital investment. In the event that we are unable to respond successfully to technological industry developments, this may materially and adversely affect our business, results of operations and competitiveness.

We may be subject to, and may expend significant resources in defending against claims based on the content and services we provide through our website and our research tools.

Due to the manner in which we obtain, collect, categorize and integrate content for our website, and because our services, including our online bulletin boards and discussion forums, may be used for the distribution of information and expression of opinions, claims may be filed against us for defamation, subversion, negligence, copyright or trademark infringement or other violations due to the nature and content of such information. For example, our bulletin boards and online forums reflect the statements and views of persons we do not control and we cannot be assured that such information is true and correct and is not misleading. These persons may also have conflicts of interest in relation to their statements or views regarding securities or other financial matters. Liability insurance for these types of claims is not currently available in the PRC. While we do not take responsibility for statements or views presented on our website, we may incur significant costs investigating and defending these types of claims even if they do not result in liability. Any such claim may also damage our reputation if our users and subscribers do not view this content as reliable or accurate, which could adversely affect our business.

We may be subject to intellectual property infringement claims, which may force us to incur substantial legal expenses and, if determined adversely against us, may materially disrupt our business.

We cannot be certain that our website content, online services and our research tools do not or will not infringe upon patents, valid copyrights or other intellectual property rights held by third parties. We may become subject to legal proceedings and claims from time to time relating to the intellectual property of others in the ordinary course of our business. If we are found to have violated the intellectual property rights of others, we may be enjoined from using such intellectual property, and we may incur licensing fees or be forced to develop alternatives. In addition, we may incur substantial expenses in defending against these third party infringement claims, regardless of their merit. Successful infringement or licensing claims against us may result in substantial monetary liabilities, which may materially and adversely affect our business.

Unauthorized use of our intellectual property by third parties, and the expenses incurred in protecting our intellectual property rights, may adversely affect our business.

We regard our copyrights, trademarks, trade secret and other intellectual property as critical to our success. Unauthorized use of the intellectual property used in our business may adversely affect our business and reputation. We rely on trademark and copyright law, trade secret protection and confidentiality agreements with our employees, customers, business partners and others to protect our intellectual property rights. Despite our precautions, it may be possible for third parties to obtain and use our intellectual property without authorization. The validity, enforceability and scope of protection of intellectual property in Internet-related industries are uncertain and still evolving. In particular, the laws and enforcement procedures in the PRC do not protect intellectual property rights to the same extent as do the laws and enforcement procedures in the United States. Moreover, litigation may be necessary in the future to enforce our intellectual property rights. Future litigation could result in substantial costs and diversion of our

resources, and could disrupt our business, as well as have a material adverse effect on our financial condition and results of operations.

Table of Contents***We depend on our key personnel and our business and growth prospects may be severely disrupted if we lose their services.***

Our future success is dependent upon the continued service of our key executives and employees. We rely on their expertise in our business operations. If one or more of our key executives were unable or unwilling to continue in their present positions, or if they joined a competitor or formed a competing company in violation of their employment agreements, we may not be able to replace them easily. As a result, our business may be significantly disrupted and our financial condition and results of operations may be materially and adversely affected.

Furthermore, since our industry is characterized by high demand and intense competition for talent, we may need to offer higher compensation and other benefits in order to attract and retain key personnel in the future. Prior to January 1, 2008, our employees were required to enter into one-year employment agreements with us. Starting from January 1, 2008, our employees are required to enter into at a minimum two-year employment agreements with us to be in compliance with the PRC Labor Contract Law becoming effective January 1, 2008. We cannot assure you that we will be able to attract or retain the key personnel that we will need to achieve our business objectives. We do not maintain key-man life insurance for any of our key personnel.

Recent changes in the PRC's labor law restrict our ability to reduce our workforce in the PRC in the event of an economic downturn and may increase our labor costs.

In June 2007, the National People's Congress of the PRC enacted the Labor Contract Law, which became effective on January 1, 2008. To clarify certain details in connection with the implementation of the Labor Contract Law, the State Council promulgated the Implementing Rules for the Labor Contract Law, or the Implementing Rules, on September 18, 2008 which came into effect immediately. The Labor Contract Law provides various rules regarding employment contracts that will likely have a substantial impact on employment practices in China. The Labor Contract Law imposes severe penalties on employers that fail to timely enter into employment contracts with employees. The employer is required to pay a double salary to the employee if it does not enter into a written contract with the employee within one month of the employment, and a non-fixed-term contract is assumed if a written contract is not executed after one year of the employment. Additionally, the Labor Contract Law sets a limit of two fixed-term contracts regardless of the length of each term, after which the contract must be renewed on a non-fixed-term basis should the parties agree to a further renewal unless otherwise required by the respective employee. This requirement curtails the common practice of continuously renewing short-term employment contracts. The Implementing Rules appear to further tighten this rule by suggesting that an employee has the right to demand a non-fixed-term contract upon the completion of the second fixed term regardless of whether the employer agrees to a contract renewal. A non-fixed-term contract does not have a termination date and it is generally difficult to terminate such a contract because termination must be based on limited statutory grounds. The employer can no longer supplement such statutory grounds through an agreement with the employee. In addition, the Labor Contract Law requires the payment of statutory severance upon the termination of an employment contract in most circumstances, including the expiration of a fixed-term employment contract.

Under the Labor Contract Law, employers can only impose a post-termination non-competition provision on employees who have access to their confidential information for a maximum period of two years. If an employer intends to maintain the enforceability of a post-termination non-competition provision, the employer has to pay the employee compensation on a monthly basis post-termination of the employment. Under the Labor Contract Law, a mass layoff is defined as termination of more than 20 employees or more than 10% of the workforce. The Labor Contract Law expands the circumstances under which a mass layoff can be conducted, such as when the company undertakes a restructuring pursuant to the PRC Enterprise Bankruptcy Law, suffers serious difficulties in business operations, changes its line of business, performs significant technology improvements, changes operating methods, or where there has been a material change in the objective economic circumstances relied upon by the parties at the time of the conclusion of the employment contract, thereby making the performance of such employment contract impractical. The employer must follow specific procedures in conducting a mass layoff. There is little guidance on what penalties an employer will suffer if it fails to follow the procedural requirements in conducting the mass layoff. Finally, the Labor Contract Law requires that the employer discuss the company's internal rules and regulations that directly affect the employees' material interests (such as employees' salary, work hours, leave, benefits, and training,

etc.) with all employees or employee representative assemblies and consult with the trade union or employee representatives on such matters before making a final decision.

All of our employees based exclusively within the PRC are covered by the new laws. As there has been little guidance and precedents as to how the Labor Contract Law and its Implementing Rules will be enforced by the relevant PRC authorities, there remains uncertainty as to their potential impact on our business and results of

Table of Contents

operations. The implementation of the Labor Contract Law and its Implementing Rules may increase our operating expenses, in particular our personnel expenses and labor service expenses. If we want to maintain the enforceability of any of our employees' post-termination non-competition provisions, the compensation and procedures required under the Labor Contract Law may add substantial costs and cause logistical burdens to us. Prior to the new law such compensation was often structured as part of the employee's salary during employment, and was not an additional compensation cost. In the event that we decide to terminate employees or otherwise change our employment or labor practices, the Labor Contract Law and its Implementing Rules may also limit our ability to effect these changes in a manner that we believe to be cost-effective or desirable, which could adversely affect our business and results of operations. In particular, our ability to adjust the size of our operations when necessary in periods of recession or less severe economic downturns such as the recent financial turmoil may be affected. In addition, during periods of economic decline when mass layoffs become more common, local regulations may tighten the procedures by, among other things, requiring the employer to obtain approval from the relevant local authority before conducting any mass layoff. Such regulations can be expected to exacerbate the adverse effect of the economic environment on our results of operations and financial condition.

Undetected programming errors or defects in our research tools could materially and adversely affect our business, financial condition and results of operations.

Our research tools may contain programming errors or other defects that our internal testing did not detect, which are commonly referred to as programming bugs. The occurrence of undetected errors or defects in our research tools could disrupt our operations, damage our reputation and detract from the experience of our users. As a result, such errors and defects could materially and adversely affect our business, financial condition and results of operations.

If tax benefits currently available to us in PRC were no longer available under the new Enterprise Income Taxes (EIT) law which became effective on January 1, 2008, our effective income tax rates for our PRC operations could increase.

Prior to January 1, 2008, under applicable PRC tax laws, companies established in China were generally subject to an enterprise income tax, or EIT, at the statutory rate of 33%. However, certain types of foreign-invested enterprises, high and new technology enterprises and software enterprises were entitled to preferential tax treatments provided by either the PRC government or its local agencies or bureaus. Under the then applicable PRC tax laws, China Finance Online (Beijing) Co., Ltd., or CFO Beijing, had been granted preferential EIT treatment based on its status as a foreign-invested Software Enterprise which had the effect of providing us a preferential state income tax rate of 12% from 2005 to 2007. CFO Software had received tax incentives based on its status as a foreign invested high-technology company which has the effect of:

exempting CFO Software from enterprise income tax from 2005 to 2007; and

providing CFO Software a preferential enterprise income tax rate of 7.5% from 2008 to 2010, and 15% for taxable years thereafter.

Furthermore, prior to January 1, 2008 CFO Stockstar, Zhengning Information & Technology (Shanghai) Co., Ltd., or CFO Zhengning CFO Genius, and Jujin Software (Shenzhen) Co., Ltd., or CFO Jujin, each enjoys a preferential enterprise income tax rate of 15% rather than the enterprise income tax rate of 33% applicable to domestic PRC companies generally.

In the absence of these incentives, our operating subsidiaries incorporated in the PRC would be subject to the enterprise income tax rate of 33% applicable to domestic PRC companies generally prior to January 1, 2008. If our PRC incorporated subsidiaries had not received these preferential tax treatments and were required to pay enterprise income tax at the same rate as domestic PRC companies, our business would be adversely affected.

The newly enacted PRC Enterprise Income Tax Law, or the EIT Law, and the implementation regulations to the EIT Law issued by the PRC State Council, became effective as of January 1, 2008. Under the EIT Law, China adopted a uniform tax rate of 25% for all enterprises (including domestically-owned enterprises and foreign-invested enterprises) and revoked the previous tax exemption, reduction and preferential treatments applicable to foreign-invested enterprises. However, there is a five- year transitional period, during which certain enterprises are allowed to continue to enjoy existing preferential tax treatments provided by the then applicable tax laws and

administrative regulations. Enterprises that were subject to an enterprise income tax rate lower than 25% prior to January 1, 2008 may continue to enjoy the lower rate and gradually transition to the new tax rate within five years after the effective date of the EIT Law. CFO Stock Star, CFO Jujin and CFO Newrand are entitled to enjoy a reduced

Table of Contents

tax rate of 18%, 20%, 22% and 24% for the year 2008, 2009, 2010 and 2011 respectively and eventually transition to the standard 25% in 2012.

Under the new EIT law and its implementing rules, preferential tax treatments may continue to be granted to industries and projects that are strongly supported and encouraged by the state. Enterprises otherwise classified as High and New Technology Enterprises strongly supported by the state, such as CFO Software, Shanghai Meining Computer Software Co., Ltd., or CFO Meining and CFO Genius, are entitled to preferential EIT rate which has the effect of

providing CFO Software tax exemption for the year 2007 and a reduced tax rate of 7.5% for the years 2008, 2009 and 2010; and

Providing CFO Meining and CFO Genius a reduced tax rate of 15% for the years 2008, 2009 and 2010.

Under the new EIT law and its implementing rules, enterprises that are classified as New Software Manufacture Enterprises are entitled to be exempted from EIT tax for the first two profit-making years and enjoy a preferential 12.5% tax rate, which is half of the standard EIT rate of 25% for the three years thereafter. Fortune (Beijing) Success technology Co., Ltd., or CFO Success and CFO Zhengning based on their status as Newly Software Manufacture Enterprise are entitled to enjoy preferential tax treatments, which has the effect of

providing CFO Success tax exemption for the years 2008 and 2009 and a preferential EIT rate of 12.5% for the years 2010, 2011 and 2012.

Providing CFO Zhengning tax exemption for the year 2008 and a preferential EIT rate of 12.5% for the years 2009, 2010 and 2011.

The continued qualification as High and New Technology Enterprise or New Software Manufacture Enterprise will be subject to reevaluation in 2011 by the relevant government authority in China. We cannot assure that our above PRC incorporated subsidiaries or affiliates will continue to qualify as High and New Technology Enterprise or New Software Manufacture Enterprises for the year 2011 and thereafter.

In addition, with respect to revenue generated from the sale of certain online subscription, including our service packages, CFO Beijing, CFO Software, Fortune (Beijing) Wisdom Technology Co., Ltd., or CFO Wisdom, CFO Success, CFO Zhengning, CFO Meining, CFO Genius and CFO Jujin currently all obtain value-added-tax, or VAT, refunds that reduce their effective VAT rates from 17% to 3%.

We cannot assure you that we will continue to enjoy any of these preferential tax treatments in the future. We expect we will no longer enjoy the reduced VAT rate in 2010 due to the recent Chinese VAT reform. The discontinuation of any of these preferential tax treatments could materially and adversely affect our financial condition. Any significant increase in our income tax expenses may have a material adverse effect on our profit for the year. Reduction or elimination of the VAT refund or preferential tax treatments we have enjoyed or imposition of additional taxes on us or our combined entities in China may significantly increase our income tax expenses and materially reduce our net income, which could have a material adverse effect on our business, prospects, results of operations and financial condition.

Dividends we receive from our operating subsidiaries located in the PRC may be subject to PRC withholding tax.

The newly enacted PRC Enterprise Income Tax Law, or the EIT Law, and the implementation regulations for the EIT Law issued by the PRC State Council, became effective as of January 1, 2008. The EIT Law provides that a maximum income tax rate of 20% may be applicable to dividends payable to non-PRC investors that are non-resident enterprises, to the extent such dividends are derived from sources within the PRC, and the State Council has reduced such rate to 10% through the implementation regulations unless any such non-PRC investor's jurisdiction of incorporation has a tax treaty with China that provides for a different withholding arrangement. We are a Hong Kong incorporated company and substantially all of our income may be derived from dividends we receive from our operating subsidiaries located in the PRC. According to Mainland and Hong Kong Special Administrative Region Arrangement on Avoiding Double Taxation or Evasion of Taxation on Income agreed between the Mainland and Hong Kong Special Administrative Region in August 2006, dividends payable by subsidiary located in the PRC to the company in Hong Kong who directly holds at least 25% of the equity interests in the subsidiary will be subject to a no

more than 5% withholding tax. Since the preferential withholding tax is subject to the approval from competent taxation authorities in PRC, it remains uncertain whether our company in Hong Kong

Table of Contents

actually would be able to enjoy preferential withholding taxes for dividends distributed by our subsidiaries in China. If we are not able to enjoy the preferential withholding taxes for dividends distributed by our subsidiaries, it will materially and adversely affect the amount of dividends, if any, we may pay to our shareholders and ADS holders.

We may be deemed a PRC resident enterprise under the EIT Law and be subject to the PRC taxation on our worldwide income.

The EIT Law also provides that enterprises established outside of China whose de facto management bodies are located in China are considered resident enterprises and are generally subject to the uniform 25% enterprise income tax rate as to their worldwide income. Under the implementation regulations for the EIT Law issued by the PRC State Council, de facto management body is defined as a body that has material and overall management and control over the manufacturing and business operations, personnel and human resources, finances and treasury, and acquisition and disposition of properties and other assets of an enterprise. Although substantially all of our operational management is currently based in the PRC, it is unclear whether PRC tax authorities would require (or permit) us to be treated as a PRC resident enterprise. If we are treated as a resident enterprise for PRC tax purposes, we will be subject to PRC tax on our worldwide income at the 25% uniform tax rate, which could have an impact on our effective tax rate and an adverse effect on our net income and results of operations, although dividends distributed from our PRC subsidiaries to us could be exempt from Chinese dividend withholding tax, since such income is exempted under the new EIT Law to a PRC resident recipient.

Dividends payable by us to our foreign investors and gain on the sale of our ADSs or ordinary shares may become subject to taxes under PRC tax laws.

Under the EIT Law and implementation regulations issued by the State Council, PRC income tax at the rate of 10% is applicable to dividends on post 2007 earnings payable to investors that are non-resident enterprises, which do not have an establishment or place of business in the PRC, or which have such establishment or place of business but the relevant income is not effectively connected with the establishment or place of business, to the extent such dividends have their sources within the PRC. Similarly, any gain realized on the transfer of ADSs or shares by such investors is also subject to 10% PRC income tax if such gain is regarded as income derived from sources within the PRC. If we are considered a PRC resident enterprise, it is unclear whether dividends we pay with respect to our ordinary shares or ADSs, or the gain you may realize from the transfer of our ordinary shares or ADSs, would be treated as income derived from sources within the PRC and be subject to PRC tax. If we are required under the EIT Law to withhold PRC income tax on dividends payable to our non-PRC investors that are non-resident enterprises, or if you are required to pay PRC income tax on the transfer of our ordinary shares or ADSs, the value of your investment in our ordinary shares or ADSs may be materially and adversely affected.

We may become a passive foreign investment company, or PFIC, which could result in adverse U.S. tax consequences to U.S. investors.

Based in part on our estimate of the composition of our income and our estimates of the value of our assets, we do not expect to be a passive foreign investment company, or PFIC, for U.S. federal income tax purposes for our current taxable year or in the foreseeable future. However, the application of the PFIC rules is subject to ambiguity in several respects, and, in addition, PFIC status is tested each taxable year and will depend on the composition of our assets and income and the value of our assets (including, among others, goodwill and equity investments in less than 25% owned entities) from time to time. Because we currently hold, and expect to continue to hold, a substantial amount of cash and other passive assets and, because the value of our assets is likely to be determined in large part by reference to the market prices of our ADSs and ordinary shares, which is likely to fluctuate, we may be a PFIC for any taxable year. If we are treated as a PFIC for any taxable year during which a U.S. investor held our ADSs or ordinary shares, certain adverse U.S. federal income tax consequences would apply to the U.S. investor. For more information on the U.S. tax consequences to you that would result from our classification as a PFIC, please see Item 10.E. Additional Information Taxation United States Federal Income Taxation Passive Foreign Investment Company.

Because there is limited business insurance coverage in China, any business disruption or litigation we experience might result in our incurring substantial costs and the diversion of resources.

The insurance industry in China is still at an early stage of development. Insurance companies in China offer limited business insurance products and do not, to our knowledge, offer business liability insurance. While business

disruption insurance is available to a limited extent in China, we have determined that the risks of disruption, cost of such insurance and the difficulties associated with acquiring such insurance make having such insurance impractical for us.

Table of Contents**Risks relating to our industry*****The Internet infrastructure in China, which is not as well developed as in the United States or other more developed countries, may limit our growth.***

The Internet infrastructure in China is not as well developed as in the United States or other more developed countries. In particular, we depend significantly on the PRC government and fixed line telecommunications operators in China to establish and maintain a reliable Internet infrastructure to reach a growing base of Internet users in China. We cannot assure you that the Internet infrastructure in China will support the demands associated with the continued growth of the Internet industry in China. If the necessary infrastructure standards or protocols, or complementary products, services or facilities are not developed in China on a timely basis or at all by these enterprises, our business, financial condition and results of operations could be materially adversely affected.

The limited use of personal computers in China and the relatively high cost of Internet access with respect to per capita gross domestic product may limit the development of the Internet in China and impede our growth.

Although the use of personal computers in China has increased in recent years, the penetration rate for personal computers in China is much lower than in the United States. In addition, despite a decrease in the cost of Internet access in China due to a decrease in the cost of personal computers and the introduction and expansion of broadband access, the cost of Internet access remains relatively high in comparison to the average per capita income in China. The limited use of personal computers in China and the relatively high cost of Internet access may limit the growth of our business. Furthermore, any Internet access or telecommunications fee increase could reduce the number of users that use our online services. Any fee or tariff increase could further decrease our user traffic and our ability to derive revenues from transactions over the Internet, which could have a material adverse effect on our business, financial condition and results of operations.

We depend largely on the infrastructure of the telecommunications operators in China, and any interruption of their network infrastructure may result in severe disruptions to our business.

Although private Internet service providers exist in China, substantially all access to the Internet in China is maintained through the telecommunications operators, under the administrative control and regulatory supervision of the Ministry of Industry and Information, or MII. In addition, local networks connect to the Internet through a government-owned international gateway. We rely on this infrastructure and to a lesser extent, certain other Internet data centers in China to provide data communications capacity primarily through local telecommunications lines. In the event of a large-scale infrastructure disruption or failure, we may not have access to alternative networks and services, on a timely basis or at all.

We may not be able to lease additional bandwidth from the telecommunications operators in China on acceptable terms, on a timely basis or at all. In addition, we may not have means of getting access to alternative networks and services on a timely basis or at all in the event of any disruption or failure of the network.

Unexpected network interruptions, security breaches or computer virus attacks could have a material adverse effect on our business, financial condition and results of operations.

We have limited backup systems and have previously experienced system failures, which have disrupted our operations. Any failure to maintain the satisfactory performance, reliability, security and availability of our network infrastructure may cause significant harm to our reputation and our ability to attract and maintain users. Major risks involved in such network infrastructure include:

Any break-downs or system failures resulting in a sustained shutdown of all or a material portion of our servers, including failures which may be attributable to sustained power shutdowns, or efforts to gain unauthorized access to our systems causing loss or corruption of data or malfunctions of software or hardware; and

Any disruption or failure in the national backbone network, which would prevent our users from logging on to our website or accessing our services.

Our network systems are also vulnerable to damage from fire, flood, power loss, telecommunications failures, computer virus, hackings and similar events. Any network interruption or inadequacy that causes interruptions in the availability of our services or deterioration in the quality of access to our services could reduce our user satisfaction

Table of Contents

and competitiveness. In addition, any security breach caused by hackings, which involve efforts to gain unauthorized access to information or systems, or to cause intentional malfunctions or loss or corruption of data, software, hardware or other computer equipment, and the inadvertent transmission of computer viruses could cause our users to question the safety or reliability of our website and our services and could have a material adverse effect on our business, financial condition and results of operations. In addition, unauthorized access by third parties to our network could result in theft of personal user information, which could have an adverse effect on our reputation.

Concerns about the security and confidentiality of information on the Internet may increase our costs, reduce the use of our website and impede our growth.

A significant barrier to confidential communications over the Internet has been the need for security. To date, there have been several well-publicized compromises of security as a result of global virus outbreaks. We may incur significant costs to protect against the threat of security breaches or to alleviate problems caused by these breaches. If unauthorized persons are able to penetrate our network security, they could misappropriate proprietary information, including personal information regarding our subscribers, or cause interruptions in our services. As a result, we may be required to incur substantial costs and divert our other resources to protect against or to alleviate these problems. Security breaches could have a material adverse effect on our reputation, business, financial condition and results of operations.

Risks relating to regulation of our business and to our structure

We primarily rely on contractual arrangements with CFO Fuhua, Beijing Glory Technology Co., Ltd., or CFO Glory, Beijing Premium Technology Co., Ltd., or CFO Premium, and CFO Newrand, HuiFu Jinyuan Co., Ltd., or CFO HuiFu, CFO Zhongcheng, Shanghai Shangtong Co., Ltd., or CFO Shangtong and Shanghai Chongzhi Co., Ltd., or CFO Chongzhi, our PRC-incorporated affiliates, and their shareholders for our China operations, which may not be as effective in providing operational control as direct ownership. If the affiliates fail to perform their obligations under these contractual arrangements or PRC laws impair the enforceability of these contracts, our business, financial condition and results of operations may be materially and adversely affected.

Because PRC regulations restrict our ability to provide Internet content directly in China, we rely on contractual arrangements with CFO Fuhua, our PRC-incorporated affiliate over which we have no direct ownership, and its shareholders for operating our website and conducting our advertising business. These contractual arrangements may not be as effective in providing us with control over Beijing Fuhua Innovation Technology Investment Co., Ltd., or CFO Fuhua as direct ownership.

If we had direct ownership of CFO Fuhua, we would be able to exercise our rights as shareholders to effect changes in the board of directors, which in turn could effect changes, subject to any applicable fiduciary obligations, at the management level. However, under the current contractual arrangements, as a legal matter, if CFO Fuhua fails to perform its obligations under these contractual arrangements, we may have to (i) incur substantial costs and resources to enforce such arrangements, and (ii) rely on legal remedies under PRC law, which we cannot be sure would be effective. In addition, we cannot be certain that the individual equity owners of CFO Fuhua will always act in the best interests of China Finance Online, especially if they leave the company.

In 2007 and 2008, we entered into contractual arrangements with CFO Glory and CFO Premium, CFO Shangtong, CFO Chongzhi, CFO HuiFu, and CFO Zhongcheng, our PRC-incorporated affiliates over which we have no direct ownership, with the intention of using these companies as vehicles to acquire PRC domestic companies to operate business, which we are restricted from conducting directly by PRC regulations. In 2008, we entered into contractual arrangements with CFO Newrand, a licensed securities investment advisory firm, incorporated in the PRC to operate our securities investment advisory business. Under the contractual arrangements, these PRC-incorporated affiliates will pay us service fees in return for our strategic consulting and technology support services. These contractual arrangements may not be as effective in providing us with control over the PRC affiliates as direct ownership. These contractual arrangements are governed by PRC law and provide for the resolution of disputes through either arbitration or litigation in the PRC. Accordingly, these contracts would be interpreted in accordance with PRC law and any disputes would be resolved in accordance with PRC legal procedures. If any of CFO Fuhua, CFO Glory, CFO Premium, CFO Shangtong, CFO Chongzhi, CFO HuiFu, CFO Zhongcheng or CFO Newrand fails to perform its obligations under these contractual arrangements, we may have to rely on legal remedies under PRC law, including

seeking specific performance or injunctive relief, and claiming damages, which we cannot be sure would be effective. In addition, the legal environment in the PRC is not as developed as in other jurisdictions, such as the United States. As a result, uncertainties in the PRC legal system could limit our ability to enforce these contractual arrangements. In

Table of Contents

the event that we are unable to enforce these contractual arrangements, our business, financial condition and results of operations could be materially and adversely affected.

If the PRC government finds that the agreements that establish the structure for operating our China business do not comply with PRC government restrictions on foreign investment in the online financial data and information service industry, we could be subject to severe penalties.

PRC regulations currently limit foreign ownership of companies that provide Internet content services, which include operating financial data and information services through the Internet, to be no more than 50%. Accordingly, foreign and wholly foreign-owned enterprises are currently not able to apply for the required licenses for operating such services in China. We are a Hong Kong company. We conducted our operations in China solely through CFO Beijing, our wholly owned subsidiary from April 2000 to December 2004. In late 2006, we acquired CFO Stockstar and CFO Genius, and currently conduct our operations in China primarily through CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, CFO Wisdom and CFO Success.

We are a foreign enterprise and each of our subsidiaries, CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, CFO Wisdom and CFO Success is a wholly foreign-owned enterprise under PRC law, and accordingly, neither we, CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, CFO Wisdom and CFO Success is eligible to apply for licenses to operate our website. In order to comply with foreign ownership restrictions, we operate our website in China through CFO Fuhua and its wholly owned subsidiary CFO Meining, both of which hold the licenses required to be an Internet information content provider under the relevant PRC laws. Zhiwei Zhao, our chief executive officer, and Jun Wang, our chief financial officer, hold 45% and 55% of the equity interests in CFO Fuhua, respectively. We have been and are expected to continue to be dependent on CFO Fuhua and its wholly owned subsidiary CFO Meining to host our websites, *www.jrj.com* and *www.stockstar.com*. We have entered into contractual arrangements with CFO Fuhua, pursuant to which we provide operational support to CFO Fuhua. In addition, we have entered into agreements with CFO Fuhua and Zhiwei Zhao and Jun Wang, the shareholders of CFO Fuhua, which provide us with the substantial ability to control CFO Fuhua. Wu Chen, a financial manager at International Data Group China Ltd., a PRC company affiliated with IDG Technology Venture Investment, Inc. and IDG Technology Venture Investments, LP, two of our principal shareholders, transferred his holdings in CFO Fuhua to Jun Wang, our current chief financial officer, in October 2007. As a result, Jun Wang replaced Wu Chen as a party to all of the agreements we entered into with Wu Chen in connection with his holdings in CFO Fuhua and the operation of CFO Fuhua.

There are, however, substantial uncertainties regarding the interpretation and application of current or future PRC laws and regulations. Accordingly, we cannot assure you that the PRC regulatory authorities will not ultimately take a view that our arrangements with CFO Fuhua comply with PRC law.

If we, CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, CFO Wisdom, CFO Success, CFO Fuhua, and CFO Meining are found to be in violation of any existing or future PRC laws or regulations or fail to obtain or maintain any of the required permits or approvals, the relevant PRC regulatory authorities would have broad discretion in dealing with such violations, including:

Revoking business and operating licenses of CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, CFO Wisdom, CFO Success, CFO Fuhua or CFO Meining;

Discontinuing or restricting our operations or those of CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, CFO Wisdom, CFO Success, CFO Fuhua or CFO Meining;

Imposing conditions or requirements with which we, CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, CFO Wisdom, CFO Success, CFO Fuhua or CFO Meining;

Requiring us, CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, CFO Wisdom, CFO Success, CFO Fuhua or CFO Meining to restructure the relevant ownership structure or operations;

Restricting or prohibiting our use of the proceeds of our initial public offering in 2004 to finance our business and operations in China; or

Table of Contents

Taking other regulatory or enforcement actions, including levying fines that could be harmful to our business. Any of these actions could cause our business, financial condition and results of operations to suffer and the price of our ADSs to decline.

Contractual arrangements we have entered into with our PRC-incorporated affiliates may be subject to scrutiny by the PRC tax authorities and a finding that we or our PRC-incorporated affiliates owe additional taxes could substantially reduce our consolidated net income.

Under PRC laws and regulations, arrangements and transactions among related parties may be subject to audit or challenge by the PRC tax authorities. We could face material and adverse tax consequences if the PRC tax authorities determine that the contractual arrangements among our PRC-incorporated subsidiaries and PRC-incorporated affiliates, do not represent an arm's length price and adjust the income of our PRC-incorporated subsidiaries or that of our PRC-incorporated affiliates in the form of transfer pricing adjustments. Transfer pricing adjustments could, among other things, result in a reduction, for PRC tax purposes, of expense deductions recorded by our PRC incorporated subsidiaries or affiliates, which could in turn increase their respective tax liabilities. In addition, the PRC tax authorities may impose late payment fees and other penalties on our PRC-incorporated subsidiaries or affiliates for underpayment of taxes. Our consolidated net income may be materially and adversely affected if our PRC-incorporated subsidiaries or affiliates' tax liabilities increase or if they are found to be subject to late payment fees or other penalties.

We rely principally on dividends and other distributions on equity paid by our wholly owned operating subsidiaries to fund any cash and financing requirements we may have.

We are a holding company, and we rely principally on dividends and other distributions on equity paid by Daily Growth Holdings, CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, Juda Software (Shenzhen) Co., Ltd., or CFO Juda, CFO Jujin, CFO Wisdom and CFO Success, for our cash requirements, including the funds necessary to service any debt we may incur. If any of Daily Growth Holdings, CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, CFO Juda, CFO Jujin, CFO Wisdom or CFO Success incurs debt on its own behalf in the future, the instruments governing the debt may restrict such entity's ability to pay dividends or make other distributions to us. In addition, PRC tax authorities may require us to amend the contractual arrangements between CFO Beijing and CFO Fuhua, CFO Software and CFO Shangtong, and between CFO Software and CFO Chongzhi in a manner that would materially and adversely affect the ability of CFO Beijing and CFO Software to pay dividends and other distributions to us. Furthermore, PRC legal restrictions permit payments of dividends by CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, CFO Juda, CFO Jujin, CFO Wisdom or CFO Success only out of their net income, if any, determined in accordance with PRC accounting standards and regulations. Under PRC law, CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, CFO Juda, CFO Jujin, CFO Wisdom and CFO Success are also required to set aside a portion of their net income each year to fund specified reserve funds. These reserves are not distributable as cash dividends. Any limitation on the ability of our subsidiaries and PRC affiliates discussed above to make dividends to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our businesses, pay dividends, or otherwise fund and conduct our business.

The PRC government may prevent us from distributing, and we may be subject to liability for, content that it believes is inappropriate.

China has enacted laws and regulations governing Internet access and the distribution of news, information or other content, as well as products and services, through the Internet. In the past, the PRC government has stopped the distribution of information through the Internet that it believes violates PRC law. The Ministry of Industry and Information, or MII, the General Administration of Press and Publication and the Ministry of Culture has promulgated regulations which prohibit information from being distributed through the Internet if it contains content that is found to, among other things, propagate obscenity, gambling or violence, instigate crimes, undermine public morality or the cultural traditions of the PRC, or compromise State security or secrets.

In addition, the MII has published regulations that subject website operators to potential liability for content included on their websites and the actions of users and others using their systems, including liability for violations of PRC laws prohibiting the distribution of content deemed to be socially destabilizing. The PRC's Ministry of Public Security has the authority to order any local Internet service provider, or ISP, to block any Internet website maintained outside

China at its sole discretion. Periodically, the Ministry of Public Security has stopped the

Table of Contents

distribution over the Internet of information which it believes to be socially destabilizing. The PRC's State Secrecy Bureau, which is directly responsible for the protection of State secrets of the PRC government, is authorized to block any website it deems to be leaking State secrets or failing to meet the relevant regulations relating to the protection of State secrets in the distribution of online information.

Under applicable PRC regulation, we may be held liable for any content we offer or will offer through our website, including information posted on bulletin boards and online forums which we host and maintain on our website. Furthermore, we are required to delete any content we transmit through our website if such content clearly violates PRC laws and regulations. Where any content is considered suspicious, we are required to report such content to PRC governmental authorities.

It may be difficult to determine the type of content that may result in liability for us. If any financial data and information services we offer or will offer through our website were deemed to have violated any of such content restrictions, we would not be able to continue such offerings and could be subject to penalties, including confiscation of income, fines, suspension of business and revocation of licenses for operating online financial data and information services, which would materially and adversely affect our business, financial condition and results of operations. Moreover, if any information posted on our bulletin boards or online forums were deemed to have violated any of the content restrictions, we could be subject to similar penalties that materially and adversely affect our business, financial condition and results of operations.

Risks relating to the People's Republic of China

Substantially all of our assets are located in China and substantially all of our revenues are derived from our operations in China. Accordingly, our business, financial condition, results of operations and prospects are subject, to a significant extent, to economic, political and legal developments in China.

The PRC's economic, political and social conditions, as well as government policies, could affect the financial markets in China and our business.

The PRC economy differs from the economies of most developed countries in many respects, including the amount of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. While the PRC economy has experienced significant growth in the past twenty years, growth has been uneven, both geographically and among various sectors of the economy. The PRC government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures benefit the overall PRC economy, but may also have a negative effect on us. For example, our financial condition and results of operations may be adversely affected by government control over capital investments or changes in tax regulations that are applicable to us.

The PRC economy has been transitioning from a planned economy to a more market-oriented economy. Although the PRC government has implemented measures since the late 1970s emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets and the establishment of improved corporate governance in business enterprises, a substantial portion of productive assets in China is still owned by the PRC government. In addition, the PRC government continues to play a significant role in regulating industry development by imposing industrial policies. The PRC government also exercises significant control over China's economic growth through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies. These actions, as well as future actions and policies of the PRC government, could materially affect the financial markets in China and our business and operations.

The PRC legal system embodies uncertainties which could limit the legal protections available to you and us.

The PRC legal system is a civil law system based on written statutes. Unlike common law systems, it is a system in which decided legal cases have little precedential value. In 1979, the PRC government began to promulgate a comprehensive system of laws and regulations governing economic matters in general. The overall effect of legislation over the past 28 years has significantly enhanced the protections afforded to various forms of foreign investment in China. Our PRC operating subsidiaries, CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujing, CFO Zhengning, CFO Wisdom and CFO Success, respectively, are wholly foreign-owned enterprises, which are enterprises incorporated in China and wholly owned by foreign investors. Our wholly foreign-owned

enterprises are subject to laws and regulations applicable to foreign investment in China in general and laws and regulations applicable to wholly foreign-owned enterprises in particular. However, these laws, regulations and legal

21

Table of Contents

requirements are constantly changing, and their interpretation and enforcement involve uncertainties. These uncertainties could limit the legal protections available to us and other foreign investors, including you. In addition, we cannot predict the effect of future developments in the PRC legal system, particularly with regard to the Internet, including the promulgation of new laws, changes to existing laws or the interpretation or enforcement thereof, or the preemption of local regulations by national laws.

Restrictions on currency exchange may limit our ability to utilize our revenues effectively.

Substantially all of our revenues and operating expenses are denominated in Renminbi. Renminbi is currently convertible under the current account, which includes dividends, trade and service related foreign exchange transactions, but not under the capital account, which includes foreign direct investment and loans. Currently, each of our PRC subsidiaries and affiliates may purchase foreign exchange for settlement of current account transactions, including payment of dividends to us and payment of license fees and service fees to foreign licensors and service providers, without the approval of the State Administration for Foreign Exchange. Each of our PRC subsidiaries and affiliates may also retain foreign exchange in their current accounts to satisfy foreign exchange liabilities or to pay dividends. However, we cannot assure you that the relevant PRC governmental authorities will not limit or eliminate our ability to purchase and retain foreign currencies in the future. Since a significant amount of our future revenues will be in the form of Renminbi, the existing and any future restrictions on currency exchange may limit our ability to utilize revenues generated in Renminbi to fund our business activities outside China, if any, or expenditures denominated in foreign currencies.

Fluctuations in exchange rates could result in foreign currency exchange losses.

Because substantially all of our revenues and expenditures are denominated in Renminbi and the net proceeds from our initial public offering were denominated in U.S. dollars, fluctuations in the exchange rate between the U.S. dollars and Renminbi affect the relative purchasing power of these proceeds and our balance sheet and earnings per ADS in U.S. dollars. In addition, we report our financial results in U.S. dollars, and appreciation or depreciation in the value of the Renminbi relative to the U.S. dollar would affect our financial results reported in U.S. dollars terms without giving effect to any underlying change in our business or results of operations. Fluctuations in the exchange rate will also affect the relative value of any dividend we issue that will be exchanged into U.S. dollars and earnings from and the value of any U.S. dollar-denominated investments we make in the future.

Since July 2005, the Renminbi has no longer been pegged to the U.S. dollar. Although currently the Renminbi exchange rate versus the U.S. dollar is restricted to a rise or fall of no more than 0.5% per day and the People's Bank of China regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate, the Renminbi may appreciate or depreciate significantly in value against the U.S. dollar in the medium- to long-term. Moreover, it is possible that in the future, PRC authorities may lift restrictions on fluctuations in the Renminbi exchange rate and lessen intervention in the foreign exchange market.

Very limited hedging transactions are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedging transactions may be limited and we may not be able to successfully hedge our exposure at all. In addition, our currency exchange losses may be magnified by PRC exchange control regulations that restrict our ability to convert Renminbi into foreign currency.

Risks relating to our shares and ADSs

Stock prices of Internet-related companies, particularly companies with business operations primarily in China, have fluctuated widely in recent years, and the trading prices of our ADSs are likely to be volatile, which could result in substantial losses to investors.

The trading prices of our ADSs have been volatile and could fluctuate widely in response to factors beyond our control. Since the completion of our initial public offering in October 2004, the trading prices of our ADSs have ranged between a high of \$47.68 per ADS to a low of \$3.95 per ADS. During the twelve-month period ended December 31, 2008, the price of our ADSs on the NASDAQ Global Market has ranged from a low of \$4.48 to a high of \$28.04 per ADS. The market prices of the securities of Internet-related companies have generally been especially volatile.

Table of Contents

In particular, the performance and fluctuation of the market prices of other technology companies with business operations mainly in China that have listed their securities in the U.S. may affect the volatility in the price of and trading volumes for our ADSs. Some of these companies have experienced significant volatility, including significant price declines in connection with their initial public offerings and as a result of the global financial crisis. The trading performances of these Chinese companies' securities at the time of or after their offerings may affect the overall investor sentiment towards PRC companies listed in the U.S. and consequently may impact the trading performance of our ADSs. Changes in the US stock market generally or as it concerns the Company's industry, as well as geopolitical, economic, and business factors unrelated to the Company, may also affect the market price and volatility of our ADSs, regardless of our actual operating performance.

In addition to market and industry factors, the price and trading volume for our ADSs may be highly volatile for business specific reasons. Factors such as variations in our revenue, earnings and cash flow, announcements of new investments, cooperation arrangements or acquisitions, and fluctuations in market prices for our services could cause the market price for our ADSs to change substantially. The global financial crisis may have substantial negative impact on our financial and business performance. Any of these factors may result in large and sudden changes in the volume and price at which our ADSs will trade. We cannot give any assurance that these factors will not occur in the future.

If we grant employee share options and other share-based compensation in the future, our net income could be materially and adversely affected.

We adopted the 2004 Stock Incentive Plan, or the Plan, in January 2004, and amended the Plan in September 2004 and August 2006. As of December 31, 2008, we had granted options under the Plan with the right to purchase a total of 18,060,328 ordinary shares, of which 2,669,400 unvested options had been returned to the pool of our ungranted options as a result of resignation from employment by a few former employees. We had also granted share options to purchase up to 6,829,500 ordinary shares in January 2004, under option agreements that were independent of the Plan, to other consultants and business advisors of the company. In July, 2007, we granted restricted stock awards covering 10,558,493 ordinary shares of the Company under our 2007 Equity Incentive Plan to our employees who are eligible for the 2007 Equity Incentive Plan. Based on the Company's operating performance during 2008, 8,139,542 shares were activated and vested as of December 31, 2008. Until December 31, 2005 we accounted for options granted to our directors and employees and restricted stock granted to our employees in accordance with Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, or APB 25, and its related interpretations, which require us to recognize compensation expenses for share options we grant where the exercise price is less than the deemed fair value of our ordinary shares on the date of the grant. However, the Financial Accounting Standards Board, or the FASB, has issued Statement No. 123 (Revised 2004), Share-Based Payments, or SFAS 123(R), which requires all companies to recognize, as an expense, the fair value of share options and other share-based compensation to employees at the beginning of the first annual or interim period after June 15, 2005. As a result, beginning on January 1, 2006, we account for compensation costs for all share options including share options granted to our directors and employees and nonvested shares granted to our employees using a fair-value based method and recognize expenses in our consolidated statement of operations in accordance with the relevant rules under the Generally Accepted Accounting Principles in the United States (U.S. GAAP), which may have a material and adverse effect on our reported earnings. Moreover, the additional expenses associated with share-based compensation may reduce the attractiveness of such incentive plan to us. However, if we reduce the scope of the 2004 Stock Incentive Plan and 2007 Equity Incentive Plan, we may not be able to attract and retain key personnel, as share options and nonvested shares are an important employee recruitment and retention tool. If we grant employee share options or other share-based compensation in the future, our net income could be adversely affected.

The sale or availability for sale of substantial amounts of our ADSs could adversely affect their market price.

Sales of substantial amounts of our ADSs in the public market in the future, or the perception that these sales could occur, could adversely affect the market price of our ADSs and could materially impair our future ability to raise capital through offerings of our ADSs.

There were 110,014,433 of our ordinary shares including 16,896,231 ADSs (representing 84,481,155 of those ordinary shares) outstanding as of December 31, 2008. In addition, there are outstanding options to purchase an

additional 10,294,978 ordinary shares, including options to purchase 1,145,000 ordinary shares that are vested and immediately exercisable. Their ordinary shares, once issued, are exchangeable for our ADSs for trading in the public market. The 82,837,921 ordinary shares that were outstanding prior to our initial public offering are restricted

Table of Contents

securities as defined in Rule 144 and may not be sold in the absence of registration other than in accordance with Rule 144 under the Securities Act or another exemption from registration. These restricted securities are available for sale subject to volume and other restrictions as applicable under Rule 144 of the Securities Act. To the extent ordinary shares are sold to the market, the market price of our ADSs could decline.

A significant percentage of our outstanding ordinary shares are held by a small number of our shareholders, and these shareholders may have significantly greater influence on us and our corporate actions by nature of the size of their shareholdings relative to our public shareholders.

As of December 31, 2008, six of our existing shareholders, including IDG Technology Venture Investments, LP, IDG Technology Venture Investment, Inc., Vertex Technology Fund (III) Ltd., C&F International Holdings Limited, Ling Zhang and Jianping Lu, beneficially owned, collectively, approximately 55.77% of our outstanding ordinary shares. As of December 31, 2008, IDG Technology Venture Investments, LP and IDG Technology Venture Investment, Inc. together have one board representative on our five-director board, and beneficially own, collectively, approximately 24.82% of our outstanding ordinary shares. Accordingly, these shareholders have had, and may continue to have, significant influence in determining the outcome of any corporate transaction or other matter submitted to the shareholders for approval, including mergers, consolidations and the sale of all or substantially all of our assets, election of directors and other significant corporate actions. In addition, without the consent of these shareholders, we could be prevented from entering into transactions that could be beneficial to us.

Provisions in our charter documents and Hong Kong law, and change in control agreements we have entered into with each of our chief executive officer and chief financial officer, may discourage our acquisition by a third party, which could limit your opportunity to sell your shares at a premium.

Our constituent documents and Hong Kong law include provisions that could limit the ability of others to acquire control of us, modify our structure or cause us to engage in change in control transactions, including, among other things, the following:

Our articles of association provide for a staggered board, which means that our directors, excluding our chief executive officer, are divided into two classes, with half of our board, excluding our chief executive officer, standing for election every two years. Our chief executive officer will at all times serve as a director, and will not retire as a director, so long as he remains our chief executive officer. This means that, with our staggered board, at least two annual shareholders meetings, instead of one, are generally required in order to effect a change in a majority of our directors. Our staggered board can discourage proxy contests for the election of our directors and purchases of substantial blocks of our shares by making it more difficult for a potential acquirer to take control of our board in a relatively short period of time.

Hong Kong law permits shareholders of a company to remove directors by a shareholders resolution. Our articles of association require any shareholder who wishes to remove a director in this way to give us at least 120 days notice of the resolution, making it more difficult and time consuming for a potential acquirer who has accumulated a substantial voting position to obtain control of our board by removing opposing directors.

Our articles of association provide that our board can have no less than five and no more than nine directors. Our board currently has five directors. Any increase in the maximum number of directors on our board beyond nine directors can only be accomplished by amending our articles of association, which under Hong Kong law requires a shareholders supermajority vote of 75% and at least 21 days notice. These restrictions can make it more difficult for a potential acquirer who has accumulated a majority of our shares to take control of us by promptly increasing the size of our board and appointing new directors that are its nominees.

Hong Kong does not have merger laws that permit Hong Kong companies to merge in the same way as U.S. companies could in the U.S. However, the Hong Kong Companies Ordinance has provisions that facilitate arrangements for the reconstruction and amalgamation of companies. The arrangement must be approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made, representing three-fourths in value of each such class of shareholders or creditors that are present and voting

either in person or by proxy at meetings convened by the High Court of Hong Kong. The arrangements must be sanctioned by the High Court of Hong Kong after shareholders or creditors approve it at the court-convened meeting.

Table of Contents

Our shareholders have authorized our board of directors, without any further action by shareholders, to issue additional shares. Under Hong Kong law, the authority granted by our shareholders will remain valid until the conclusion of our next annual general meeting, or the time when our next annual general meeting is required to be held. For as long as this approval remains effective, or is renewed, our board of directors will have the power to issue additional ordinary shares (including ordinary shares represented by ADSs) and preference shares without any further action by shareholders.

We are a Hong Kong company and because the legal and procedural protections afforded minority shareholders under Hong Kong law differ from those under U.S. law, you may have difficulty protecting your interests as our shareholder relative to shareholders of corporations organized in the U.S.

We are a Hong Kong company and are subject to the laws of Hong Kong. The fiduciary responsibilities of our directors, and the ability of minority shareholders to take successful legal action in Hong Kong against us or our directors, are governed by the laws and court procedures of Hong Kong. Shareholders of a Hong Kong company would not be able to bring class action lawsuits against that company or its directors in a Hong Kong court in the same way that shareholders of a U.S. corporation might be able to bring such lawsuits in a U.S. court. In addition, professional conduct rules applicable to Hong Kong lawyers generally prohibit Hong Kong lawyers from accepting contingency fee arrangements, where a lawyer representing the plaintiffs is paid a fee only if the lawsuit is successful. Without contingency fee arrangements or the ability to bring class action lawsuits, our shareholders may find it more costly and difficult to take legal action against us or our directors in the Hong Kong courts. The Hong Kong courts are also unlikely:

to recognize or enforce against us judgments of courts of the United States based on the civil liability provisions of U.S. securities laws; or

to allow original actions brought in Hong Kong, based on the civil liability provisions of U.S. securities laws that are penal in nature.

In addition, there is no automatic statutory recognition in Hong Kong of judgments obtained in the United States. Moreover, Hong Kong companies may not have standing to initiate a shareholder derivative action in a federal court of the United States.

As a result of all of the above, minority public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, directors or controlling shareholders than they would as minority public shareholders of a U.S. corporation. Moreover, substantially all of our assets are located outside of the United States and all of our current operations are conducted in the PRC. In addition, most of our directors and officers are nationals and residents of countries other than the United States. All or a substantial portion of the assets of these persons are located outside the United States. As a result, it may be difficult for you to effect service of process within the United States upon these persons.

The voting rights of holders of ADSs must be exercised in accordance with the terms of the deposit agreement, the American depositary receipts, and the procedures established by the depositary. The process of voting through the depositary may involve delays that limit the time available to you to consider proposed shareholders' actions and also may restrict your ability to subsequently revise your voting instructions.

A holder of ADSs may exercise its voting rights with respect to the underlying ordinary shares only in accordance with the provisions of the deposit agreement and the American depositary shares. We do not recognize holders of ADSs representing our ordinary shares as our shareholders, and instead we recognize the ADS depositary as our shareholder.

When the depositary receives from us notice of any shareholders meeting, it will distribute the information in the meeting notice and any proxy solicitation materials to you. The depositary will determine the record date for distributing these materials, and only ADS holders registered with the depositary on that record date will, subject to applicable laws, be entitled to instruct the depositary to vote the underlying ordinary shares. The depositary will also determine and inform you of the manner for you to give your voting instructions, including instructions to give discretionary proxies to a person designated by us. Upon receipt of voting instructions of a holder of ADSs, the depositary will endeavor to vote the underlying ordinary shares in accordance with these instructions. Although Hong

Kong law requires us to call annual shareholders meetings by not less than 21 days notice in writing, and all other shareholders meeting by not less than 14 days notice in writing, these minimum notice requirements can be shortened or completely waived by the consent of all holders of our ordinary shares entitled to attend and vote (in the

Table of Contents

case of annual shareholders meetings) or a majority in number of the holders of our ordinary shares representing at least 95% in nominal value of the shares giving the right to attend and vote (in the case of all other shareholders meetings). If the minimum notice periods are shortened or waived, you may not receive sufficient notice of a shareholders meeting for you to withdraw your ordinary shares and cast your vote with respect to any proposed resolution, as a holder of our ordinary shares. In addition, the depositary and its agents may not be able to send materials relating to the meeting and voting instruction forms to you, or to carry out your voting instructions, in a timely manner. We cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depositary to vote your shares. The additional time required for the depositary to receive from us and distribute to you meeting notices and materials, and for you to give voting instructions to the depositary with respect to the underlying ordinary shares, will result in your having less time to consider meeting notices and materials than holders of ordinary shares who receive such notices and materials directly from us and who vote their ordinary shares directly. If you have given your voting instructions to the depositary and subsequently decide to change those instructions, you may not be able to do so in time for the depositary to vote in accordance with your revised instructions.

Furthermore, the depositary has deemed any holders who do not send in voting instructions at all or in time as having instructed the depositary to give a discretionary voting proxy to the person(s) designated by us to receive voting proxies, with full power to exercise such holder's (or holders') voting rights under the ADSs underlying ordinary shares in the manner as the proxy holder deems fit. Accordingly, matters that favor the incumbent board of directors and management will have a higher likelihood of passing than would otherwise be the case.

The depositary and its agents will not be responsible for any failure to carry out any instructions to vote, for the manner in which any vote is cast or for the effect of any such vote.

You may not receive distributions on our ordinary shares or any value for them if such distribution is illegal or if any required government approval cannot be obtained in order to make such distribution available to you.

The depositary of our ADSs has agreed to pay to you the cash dividends or other distributions (which may include securities or rights distributions) it or the custodian for our ADSs receives on our ordinary shares or other deposited securities after deducting its fees and expenses. You will receive these distributions in proportion to the number of our ordinary shares your ADSs represent. However, the depositary is not responsible to make a distribution available to any holders of ADSs if it decides that it is unlawful to make such distribution. For example, it would be unlawful to make a distribution to holder of ADSs if it consisted of securities that required registration under the Securities Act but that were not properly registered or distributed pursuant to an applicable exemption from registration. The depositary is not responsible for making a distribution available to any holders of ADSs if any government approval or registration required for such distribution cannot be obtained after reasonable efforts made by the depositary. We have no obligation to take any other action to permit the distribution of our ADSs, ordinary shares, rights or anything else to holders of our ADSs. This means that you may not receive the distributions we make on our ordinary shares or any value for them if it is unlawful or unreasonable from a regulatory perspective for us to make them available to you. These restrictions may have a material adverse effect on the value of your ADSs.

You may be subject to limitations on transfer of your ADSs.

Your ADSs represented by American Depositary Shares are transferable on the books of the depositary. However, the depositary may close its books at any time or from time to time when it deems expedient in connection with the performance of its duties. The depositary may close its books from time to time for a number of reasons, including in connection with corporate events such as a rights offering, during which time the depositary needs to maintain an exact number of ADS holders on its books for a specified period. The depositary may also close its books in emergencies, and on weekends and public holidays. The depositary may refuse to deliver, transfer or register transfers of our ADSs generally when the books of the depositary are closed, or at any time if we or the depositary thinks it is advisable to do so because of any requirement of law or any government or governmental body, or under any provision of the deposit agreement, or for any other reason.

Your right as a holder of ADSs to participate in any future rights offerings may be limited, which may cause dilution to your holdings.

We may from time to time distribute rights to our shareholders, including rights to acquire our securities. However, we cannot make rights available to our ADS holders in the United States unless we register the rights and the

securities to which the rights relate under the Securities Act or an exemption from the registration requirements is available. In addition, the deposit agreement provides that the depository bank will not make rights available to you unless the distribution to ADS holders of both the rights and any related securities are either registered under the

Table of Contents

Securities Act or exempted from registration under the Securities Act. We are under no obligation to file a registration statement with respect to any such rights or securities or to endeavor to cause such a registration statement to be declared effective. Moreover, we may not be able to establish an exemption from registration under the Securities Act. Accordingly, ADS holders may be unable to participate in our rights offerings and may experience dilution in their holdings.

In addition, if the depositary is unable to sell rights that are not exercised or not distributed or if the sale is not lawful or reasonably practicable, it will allow the rights to lapse, in which case you will receive no value for these rights.

ITEM 4. INFORMATION ON THE COMPANY

A. History and development of the company.

China Finance Online Co., Ltd. was incorporated in Hong Kong in November 1998. Prior to April 2000, we did not conduct any business operations. In April 2000, we purchased all of the equity interests of Fortune Software (Beijing) Limited and renamed it China Finance Online (Beijing) Co., Ltd., or CFO Beijing, whereby we acquired our website, *www.jrj.com.cn*, and commenced our online financial and listed company data and information operations. In October 2004, we purchased another domain name, *www.jrj.com*, and commenced operating our business under this domain name in March 2005. We maintain the same content under both domain names.

Since we commercially launched our service offerings in April 2001, we have conducted substantially all of our operations in China through our wholly owned subsidiary, CFO Beijing until December 2004. In December 2004, we incorporated a new wholly foreign-owned enterprise, Fortune Software (Beijing) Co., Ltd., or CFO Software. As wholly foreign-owned enterprises, CFO Beijing and CFO Software are not permitted under PRC law to provide Internet information content, which requires special licenses from the Ministry of Industry and Information or its local branches. In order to comply with foreign ownership restrictions, we operate our website in China through Beijing Fuhua Innovation Technology Development Co., Ltd., or CFO Fuhua, which holds the licenses required to be an Internet information content provider under the relevant PRC laws. Zhiwei Zhao, our chief executive officer, and Jun Wang, our chief financial officer, hold 45% and 55% of the equity interests in CFO Fuhua, respectively.

In October 2004, we completed the initial public offering of our ADSs, each of which represents five of our ordinary shares, and listed our ADSs on Nasdaq.

On September 21, 2006 China Finance Online entered into an agreement to acquire all the equity interest in CFO Genius, CFO Genius engages in the business of constructing and maintaining financial information databases and providing networked information solution. It was the first company of its kind in China to provide such services for domestic securities and investment firms at the time of its establishment in 1994. The acquisition is expected to strengthen the Company's position in the industry and provide future opportunities to develop database products. CFO Genius is a financial information database provider primarily serving domestic securities and investment firms, for a total cash consideration of \$1,040,081, including \$40,081 in transaction costs.

In October 2006, we closed the acquisition of CFO Stockstar and CFO Meining, a related company of CFO Stockstar that operates *www.stockstar.com*. Under the definitive agreements, we and one of our affiliates paid US\$6.5 million and RMB12 million, respectively, for an aggregate consideration of approximately US\$8 million, in exchange for 100% of the equity of CFO Stockstar and 100% of the equity of CFO Meining. Established in 1996, *www.stockstar.com* is one of the leading finance and securities websites in China.

In October 2007, we formed a strategic alliance with China Center for Financial Research (CCFR) of Tsinghua University, one of the most reputable universities in China, primarily in the area of financial database development. We receive exclusive technical advice and support from CCFR on the development of financial database and analytics. We also cooperate with CCFR on other areas including training, product development, investor education, etc. This collaboration enables us to further solidify our leading position in providing financial information, data and analytics in China.

In November 2007, we successfully completed the acquisition of Daily Growth Securities (formerly known as Daily Growth Investment Company Limited), a licensed securities brokerage firm incorporated in Hong Kong with a history of over 35 years. Under the definitive agreement, China Finance Online acquired 85% equity interest of Daily Growth Securities for approximately \$3.6 million. By acquiring and fully integrating Daily Growth Securities, with our existing resources, particularly the investor base of our premium websites *jrj.com* and *stockstar.com*, our

Table of Contents

long-term goal is to provide a diversified portfolio of brokerage and informational services to our users and improve the monetization rate of our website user base by capitalizing our users' growing interest in investing in Hong Kong-listed securities. In 2008, we raised the authorized and issued share capital of Daily Growth Securities; consequently, the total percentage of beneficial ownership by CFO Hong Kong increased from 85% to 100%. The equity interests of Daily Growth Securities, Daily Growth Futures, a licensed futures contract trading firm incorporated in Hong Kong, and Daily Growth Wealth Management Limited, or Daily Growth Wealth Management, a company incorporated in Hong Kong, to be engaged in wealth management business in future, are now 100% held by Daily Growth Holding, which is wholly owned by CFO Hong Kong. We intend that all the equity interests held or to be held by CFO Hong Kong in financial service related business will be integrated into Daily Growth Holding, and thereby making Daily Growth Holding our platform to develop financial service related business outside China.

In January 2008, we entered into a strategic alliance with China Telecom, the largest telecommunications services provider in China, with a purpose to deliver a variety of financial information services to China Telecom's more than 40 millions of broadband subscribers and over 200 millions fixed line users. Under the agreement, the two parties will establish and maintain a co-branded finance channel on China Telecom's broadband portal Vnet.cn, a website owned by China Telecom that also serves as the payment platform for its broadband subscribers for various internet value-added services. China Telecom will distribute our products and services through Vnet.cn as well as its business halls in China, and the two parties will share revenues generated from such products and services according to the agreed-upon scheme under the alliance agreement. We believe that this strategic alliance will further solidify our leading position in providing financial information, data and analytics in China and also bring us a unique opportunity to further enhance our brand awareness among tens of millions of potential users.

In September 2008, we entered into a series of contractual arrangements with CFO Newrand and its shareholders. CFO Newrand is a CSRC licensed investment advisory firm, which also wholly owns a Shengzhen Bureau of Education licensed securities investment training center providing professional training opportunities in the areas of finance, investment, wealth management and risk management. As a result of the contractual arrangements, we obtained substantial control and became the primary beneficiary of CFO Newrand and accordingly we consolidate the results of operations of CFO Newrand in our financial statements. The net cash consideration for the beneficial interests we have obtained in CFO Newrand is RMB15.75 million or US\$2.31 million. As a result of the contractual arrangements with CFO Newrand, we also indirectly own the investment advisory license and investment education license of CFO Newrand Training issued by the Shenzhen Bureau of Education, which would enable us to offer investment research and advisory services to individual and institutional clients, and provide a wide range of investor education services to our customers in the future. We believe that these areas represent significant growth opportunities given the vast user base on our websites www.jrj.com and www.stockstar.com. The arrangements with CFO Newrand are part of China Finance Online's strategic roadmap to become a comprehensive financial service provider in the long run.

Our principal executive offices are currently located at 9th Floor of Tower C, Corporate Square, No. 35 Financial Street, Xicheng District, Beijing 100140, People's Republic of China and our telephone number is (8610) 5832-5288.

B. Business overview.

We are one of the leading companies that specialize in providing online financial and listed company data and information in China. We offer subscription-based services on a single information platform that integrates data and information from multiple sources with features and functions such as data and information search, retrieval, delivery, storage and analysis. We deliver these features and functions using software tools that we have developed, which we refer to as research tools. Our research tools combine:

financial analysis tools that permit users to calculate and analyze quantitatively financial data;

current and historical financial data and information for China's listed company stocks, bonds and mutual funds;

categorized news and research reports; and

online forums and bulletin boards.

Table of Contents

With our screen layout and menu options, we display our research tools in a manner designed for ease of use. The content and technology comprising our integrated information platform is also designed to be adaptable so that as we develop new research tools and adopt new content and features, these new research tools, content and features can be easily integrated with our existing platform.

Our service offerings permit users to subscribe to several of the service packages that we offer. These offerings are broadly divided into three categories: Securities Market Information, Technical Analysis, and Fundamental Analysis. Each service package contains one or more research tools. Our research tools include a number of features and functions that, we believe, are innovative and are not widely available in the Chinese financial markets. Our service offerings can be accessed using our research tools and through our websites at www.jrj.com or www.stockstar.com.

JRJ is the abbreviation of Jin Rong Jie, which means financial industry in Chinese. As of December 31, 2008, we had a total of approximately 11.3 million registered user accounts, and approximately 116,200 active paying individual subscribers. Our registered users are Internet users who maintain a registered account with either www.jrj.com or www.stockstar.com. Active paying individual subscribers refer to registered user who subscribe to a fee to one of our subscription-based services offered by either www.jrj.com or www.stockstar.com by download or through mobile devices.

Our service offerings to users are used by and targeted at a broad range of investors in China, including individual investors managing their own money, professional investors such as institutional investors managing large sums of money on behalf of their clients and high net worth individuals, other financial professionals such as investment bankers, stock analysts and financial reporters, and middle class individuals. Most, if not all, all of our research tools are designed for and tailored toward investors in China, allowing them to make informed investment decisions with respect to all of China's listed company stocks, bonds and mutual funds according to specifications and analyses determined by the investors.

Our website users are not charged for visiting our websites and obtaining basic financial information such as real-time quotes and historical financial information for all of China's listed company stocks, bonds and mutual funds, and financial news. Our integrated information platform, which allows users to select from a range of downloadable and web-based research tools, is available only through subscription. We categorize, process and, through our subscription-based research tools and our website content, present data and research results to our subscribers, allowing them to make informed investment decisions. Our service offerings are designed to enhance our users' and subscribers' experience due to the following characteristics:

Comprehensive.

We offer a broad range of data and information regarding China's listed company stocks, bonds and mutual funds. We offer more than basic financial data such as price and trading information and provide our subscribers with breaking economic and financial news, detailed historical data and information, financial analysis tools, market coverage and listed company analysis and online forums that facilitate our subscribers' own investment analysis efforts. We believe we have built a comprehensive database of historical financial data and information on China's listed companies, bonds and mutual funds with data and information dating back to December 1990, when the Shanghai and Shenzhen Stock Exchanges first opened for trading.

Integrated.

Our information platform integrates data and information from multiple sources with features and functions such as data and information search, retrieval, delivery, storage and analysis. Our platform integrates all of the research tools, data and other information we have developed or gathered and, together with our screen layout and menu options, displays them in a manner designed for ease of use. The content and technology comprising our integrated information platform is also designed to be adaptable so that as we develop new research tools, content and features, these new research tools, content and features can be easily integrated with our existing platform. Depending on the service package chosen by the subscriber, a subscriber can have different levels of access privileges to financial analysis tools, real-time and historical data, news, research reports and online forums.

Interactive.

We have established online bulletin boards and discussion forums where users can share with each other views on stocks and trends in the financial markets in China. In addition, we have introduced stock alert services that send messages to our users' mobile phones alerting them of changes in stock prices and other trading related information

Table of Contents

of their interest, according to their pre-set query parameters, allowing them to extend their experience with our services beyond the Internet.

Timely.

We provide our subscribers and users access to real-time stock quotes, breaking news and updated research reports to allow them to stay current with the latest market developments. We receive real-time stock, bond and mutual fund quotes and other trading related information directly from the Shanghai and Shenzhen Stock Exchanges. During an average trading day, we update our research tools within three seconds of receipt of new data and information from the stock exchanges. We also receive current news headlines from financial news websites and publishers and distributors of traditional media. We also have provided our subscribers and users with up-to-date personal finance news and wealth management products that we received from banks, trust companies, insurance companies and other financial institutions.

Unbiased.

Our website presents third-party content, analysis and commentary, and computer generated quantitative analysis to provide our subscribers and users with a broad view of the financial markets in China. We do not formulate or publish views on this content, analysis or commentary. Because we are not motivated to convince them to buy or sell any securities or to invest in any specific investments, we believe our subscribers and users view us as an unbiased provider of financial information.

Easy to use.

Our research tools and our website are designed with a screen layout, menu options and displays that we believe any user familiar with a computer will find easy to use. From our basic web page, our users can choose a variety of financial data and information topics that interest them. Through our research tools, our subscribers have access to a large pool of historical financial data and information, which they can categorize and analyze as they determine. We have a product development team directed at working closely with our customer support personnel to update and develop information and presentation formats that our subscribers view as enhancing ease of use and increasing the informative power of our research tools and our website. Our website is also designed to accommodate low bandwidth access to the Internet.

To assist us in the delivery of comprehensive, timely and easy to use service offerings, we have developed a technology platform that utilizes the capabilities of the Internet. Our technology platform allows us to retrieve real-time stock quotes from both the Shanghai and Shenzhen Stock Exchanges, historical financial data and information on listed companies, bonds and mutual funds from data providers, research reports from securities advisory companies, futures companies and securities brokerage companies licensed to provide securities advisory services, commentaries from licensed individual securities advisors and news feeds from news publishers and media companies.

A substantial portion of our revenue is derived from annual subscription fees for our service offerings. For subscription services provided to individual investors, our current core business, we receive subscription fees at the beginning of the subscribers' subscription periods. Revenues from the subscription fees are deferred and recognized ratably over the service period.

Growth Strategy

We are combining our own capability of organic growth with strategic acquisition and partnership.

Our own organic growth is achieved from:

- increase our sales force scale and improve efficiency by recruiting more telemarketing sales personnel and training them with better sales skills;

- increase our subscriber base by expanding distribution channels such as banks, mutual funds and brokerage firms;

- build our customer database by better understanding and in depth mining registered users;

Table of Contents

upgrade our existing service offerings and expand our present service offerings to include data and information relating to other financial instruments such as mutual funds, currencies, futures and commodities; and

continue to encourage our subscribers to migrate to newer, more comprehensive and higher priced service offerings.

On the other hand, strategic acquisition and partnership is achieved by:

acquire strategic resources and capabilities in order to strength entry barriers, expand business scale, diverse revenue resources and monetize registered user base; and

get access to complementary resources and capabilities through strategic partnership that enables to penetrate into a bigger market in order to solidify our leading position and enhance our brand awareness.

Our Subscription Services

We collect, process and, through our research tools and our website content, provide to our subscribers financial analysis tools, real-time and historical data, news, research reports and online forums in one integrated information platform, allowing them to make informed investment decisions with respect to all of China's listed company stocks, bonds and mutual funds according to specifications and analyses determined by them.

Our features

Through our integrated information platform, our subscribers have access to and can make use of each of our main content features: financial analysis tools, real-time and historical data, news, research reports and online forums.

Financial analysis tools.

Our financial analysis tools are research tools that provide subscribers with the ability to quantitatively calculate and analyze financial data, which include:

Fundamental analysis tools, which are designed to enable investors to analyze data based on company fundamentals; and

Technical analysis tools, which are designed to enable investors to analyze data based on trends formulated by historical trading data.

These tools allow our subscribers to perform fundamental and technical analysis on companies, bonds and mutual funds listed on the Shanghai and Shenzhen Stock Exchanges, based on current and historical financial data and information, trading volumes and other user specifications.

Real-time and historical data.

Our integrated information platform offers subscribers interactive charts, quotes, reports and indicators on over 2,000 securities, including company stocks, bonds, warrants and mutual funds, listed on China's Shanghai and Shenzhen Stock Exchanges. Users can search by company name or ticker symbol for real-time stock quotes of these securities. Trading data is provided to us on a real-time basis by each of the Shanghai and Shenzhen Stock Exchanges. We collect, categorize, organize and index trading data provided to us to allow searches, sorting and analysis by user specification and allow our subscribers to access and analyze the data, using our financial analysis tools and other research tools.

We also offer our subscribers detailed historical data and information on listed companies, mutual funds and bonds. This information is available for our subscribers to download from our website and is available on compact diskettes but are not accessible to general viewers. We collect historical data and information, process this information and, through our research tools, allow our subscribers to retrieve critical data and information they select.

News.

Table of Contents

Our news feature allows users to search and view breaking economic and financial news and information from China and around the world. We do not report news ourselves. We have a team of editorial staff who compile on daily basis economic and financial news and information reported by other public sources that are relevant to China's financial markets. Our editorial staff further indexes them according to topics and categories for the convenience of our users. Through our research tools and website content, our subscribers can access timely and customized financial information and reports, categorized and integrated into topics and sub-topics that they select, based on their investment and analysis needs. The financial data and information presented on our website or through our research tools is gathered from other financial information content providers and intermediaries with whom we have contractual arrangements.

Research reports.

Through our integrated information platform, our users can view financial news letters and analytical reports from a number of China's prominent securities professionals. We draw market research reports and commentaries from securities advisory companies, futures companies and securities brokerage companies licensed to provide securities advisory services, commentaries from licensed individual securities advisors. For our subscribers, we categorize these reports and commentaries based on topics, industry sector and other customary categorizations.

Online forums.

We host several online bulletin boards on our websites by which Chinese licensed securities advisors offer their views on a variety of topics ranging from macroeconomic conditions to performance of individual stocks, bonds and mutual funds. We do not support, comment on or advocate any views presented by any such securities advisors. We also maintain several online forums on our website, enabling our users to participate in the discussions on specific financial topics we believe will be of interest to them. The online forums are moderated by third party moderators approved by us. We believe the online bulletin boards and discussion forums enhance our users' experience and, through our active monitoring, allow us to better understand our users' behavior and needs.

Our websites

Our website content and our research tools are the key components of our information platform. Our websites have four primary functions:

- to attract visitors and market our subscription based service offerings;
- to store content and serve as an integral part of our information platform;
- to serve as download platforms for our service offerings; and
- to display online advertisements.

In order to attract visitors to our websites, we offer a significant portion of our website content free of charge. This free content includes real-time stock quotes, trading volumes, pricing indicators for listed companies in China and market news from the Shanghai and Shenzhen Stock Exchanges. Through our websites, users can also participate in online forum discussions and bulletin boards. Our websites also have an important marketing function for our subscription based service offerings. We provide examples to our visitors on our websites of the various premium content and features they can access and receive by becoming a subscriber to our service offerings.

Our premium content and features are accessible through our research tools, some of which are web-based and others are computer-based. Subscribers to our web-based research tools are required to register and maintain personal accounts with our websites. These subscribers can store important information they viewed and analytical results they obtained in their personal accounts maintained at our websites, and later review that information and results using the same screen layouts and menu options our websites provide.

Subscribers to computer-based research tools can download from our website the packages they selected to their computers.

We believe our websites are designed for ease of use and accommodate low bandwidth access to the Internet. In addition, we have also historically derived some revenue from online advertising.

Our research tools

Through our research tools we have developed, our subscribers can access and analyze our content, including our real-time and historical data, news and research reports, in one integrated platform, allowing our subscribers to make informed investment decisions with respect to all of China's listed company stocks, bonds and mutual funds according to specifications and analyses determined by them. Some of our research tools are web-based and others require download from our website and are computer-based. Our subscribers pay us a subscription fee for the use of our subscription services over a specified period of time, typically 12 months. .

We offer subscribers a variety of research tools designed to provide information and analysis, including financial analysis, as well as the ability to search and sort out data and information, based on subscribers' needs and preferences. For example, we make available services that permit subscribers to analyze our content using some or all of the following research tools:

Categorized macro information. This feature allows subscribers to search and sort up-to-date and comprehensive news and information relating to the broader financial markets or a specific financial topic or industry sector. We have a dedicated team of professional editors who collect, organize, categorize and index macro-economic and financial market information on a daily basis, according to user feedback and classification methods that we believe are accepted practice in securities markets in China.

Industry sector analysis. Many investors in China seek to distinguish between listed companies with investment potential and those prone to financial trouble by analyzing listed companies' financial data published in their financial statements and comparing such data among companies within the same industry sector. We collect and process listed company financial data and information according to classification methods set by relevant PRC regulatory authorities, and allow subscribers to view the relative standings of listed companies in the same industry sector or geographical locations based on market accepted performance parameters such as price-to-earnings ratios and profit margins.

Fundamental analysis. Historical and real-time financial information are important to investors because they provide insight into company fundamentals. This research tool integrates the historical and real-time trading information we maintain in our database, as well as fundamental financial information such as earnings-per-share, shareholdings and other related data and information. Our subscribers can receive fundamental financial and trading information organized by their specifications and display these results on a graphical interface that we designed to be easy to visualize and navigate.

Mutual fund analysis. Our mutual fund research tool focuses on categorizing information relating to the portfolio holdings of mutual funds. This feature allows subscribers to study the collective effect of large market players on individual stocks. This feature also offers information relating to the performance of individual mutual funds, allowing subscribers to assess the risks and rewards of investing in mutual funds.

Technical analysis. This feature allows investors interested in trends formulated by historical trading data to perform technical analysis on listed companies. With over 60 markets accepted technical indicators and a complete database of historical data and information on all of China's listed company stocks, our subscribers can perform extensive chart analysis and pattern recognition on any stock listed on China's stock exchanges.

We currently offer different service packages incorporating some or all of our research tools to our users. Our service packages provide research tools focused around three main areas: securities market data, technical analysis, and fundamental analysis. We expect that as we introduce data and information on commodities, we would include a separate research tool for that purpose. We view the migration of existing subscribers and the attraction of new subscribers to our service offerings with more comprehensive research tools as one of our most important growth strategies.

Our securities service packages. Our service packages focus on the following three main areas:

Securities Market Data. Our Securities Market Data service packages are developed on the basis of Level II quotes and TopView data licensed from Shanghai Stock Exchange. On June 15, 2006, we entered into an agreement with Shanghai Stock Exchange Information Network Co., Ltd., (SSEINC) which is associated with the Shanghai Stock Exchange, or SSE. Under the definitive agreement, we are certified by SSE to develop service

Table of Contents

packages based on Level II quotes, and upgrade the features and functions of our current products. The definitive agreement is contemplated to continue through April 30, 2009.

Level II quotes give investors unique insight into a stock's price movement, which, we believe, is of great value to Chinese investors. In addition, Level II quotes provide faster and more comprehensive trading data and statistical information on market transactions.

In January 2008, we were certified by SSEINC to distribute TopView, a series of trading data and statistics for stocks listed on SSE. Among other things, TopView reveals valuable statistics, such as trading volume and price patterns of various types of trading accounts, which give investors unique insight to identify and analyze major market participants' trading activities in specific stocks and thereby help investors make informed decisions. In addition, we are also authorized to use TopView data to enhance and upgrade features and functionalities of our existing products and develop new products. On December 31, 2008, SSEINC terminated the provision of TopView data to us, among other third-party software vendors. We subsequently terminated the offering of TopView products to our customers.

Technical Analysis. Technical Analysis involves researching historical price and volume data, patterns and trends to predict the performance of a given stock. This type of analysis focuses on chart formations and formulas to identify major and minor trends to recognize buying opportunities and exit points.

Fundamental Analysis. Fundamental Analysis involves examining the company's financials and operations, especially sales, earnings, growth potential, assets, debt, management, products, and competition. Fundamental Analysis takes into consideration only those variables that are directly related to the company itself, rather than the overall state of the market or technical analysis data.

Pricing policy

We price our service packages based on the research tools included and their level of comprehensiveness, as well as on market demand. Each of the securities service packages has multiple versions ranging from low end to high end with different levels of comprehensiveness in terms of features and functionality which target various levels of customer demand for fundamental analysis. Therefore, we focus on enhancing and upgrading the available features and functions of our research tools and continue to introduce updated versions of our service packages. We encourage all of our users to upgrade to newer versions of our service packages or more comprehensive service packages. We may, from time to time, offer discounts or promotions, depending on our perceived need in accordance with our pricing policy. Any of such discounts or promotions could apply to new or repeat subscribers as we may determine.

Our brokerage services

With the acquisition of Daily Growth Securities in November 2007, a licensed securities brokerage firm with a history of 36 years, we provide a diversified portfolio of brokerage and other related services to our customers who invest in stocks listed on Hong Kong Stock Exchange. Daily Growth Securities is regulated by Hong Kong Securities and Futures Commission and Hong Kong Stock Exchange. In 2008, brokerage and related services provided by Daily Growth Securities represented less than 1% of our total net revenues, and such services were not part of our core business in 2008.

Our online advertisement services

Our websites www.jrj.com and www.stockstar.com are among the most popular financial information websites in China. Although we believe our internet community is an attractive demographic target for advertisers because it represents an affluent, educated and technically sophisticated market, in 2008, we continued to allocate most of our advertising inventory to promote our subscription-based software offerings. In 2008, revenues from advertising-related services represented approximately 5% of our total net revenues, and online advertising was not part of our core business in 2008.

Customer support

Table of Contents

Our customer support center provides our subscribers real-time and personal support. Our customer support center currently operates from 8:00 a.m. to 10:00 p.m. on weekdays and 9:30 a.m. to 8:30 p.m. on weekends and holidays. Our customer support personnel, in addition to their sales and marketing functions, help our existing and prospective subscribers to resolve any technical problems they may have. We have an in-house training program for our customer support personnel, which include training courses on China's securities markets, our service features and functionalities, technical problem solving skills in respect of our research tools and general customer service guidelines.

Our content providers

We draw content from the Shanghai and Shenzhen Stock Exchanges, which provide us with real-time stock, bond and mutual fund pricing and other information, and our data providers, which provide us with historical financial data and information on listed companies, bonds and mutual funds, according to our parameters, specifications and requirements. We also draw content from securities advisory companies, futures companies and securities brokerage companies licensed to provide securities advisory services, licensed individual securities advisors, and news publishers and media companies, as well as financial institutions, such as banks, trust companies and insurance companies.

Shanghai and Shenzhen Stock Exchanges

We receive real-time stock, bond and mutual fund quotes and other trading related information directly from the Shanghai and Shenzhen Stock Exchanges. We have entered into an information service agreement with each of the stock exchanges pursuant to which we pay the stock exchanges fixed service fees in exchange for receiving real-time price quotes and other trading related information through satellite communication. We also have cable links to both exchanges to serve as back-ups to satellite communication data feeds. During an average trading day, we update our web pages within five seconds of receipt of new data and information from the stock exchanges.

Our agreement with Shanghai Stock Exchange Information Network Co., Ltd., which is associated with the Shanghai Stock Exchange, allows us to develop service packages based on Level II quotes and upgrade the features and functions of our current products. Level II quotes give investors unique insight into a stock price's movement and provide faster and more comprehensive trading data. We also have an agreement with Shanghai Stock Exchange Information Network Co., Ltd. to distribute TopView. Among other things, TopView reveals valuable statistics, such as trading volume and prices of various types of trading accounts, which give investors unique insight to identify and analyze major market participants' trading activities in specific stocks and help investors make more informed investment decisions. In addition, we are also authorized to use TopView to enhance and upgrade features and functionalities of our existing products and develop new products. On December 31, 2008, SSEINC terminated the provision of TopView data to third-party software vendors, including China Finance Online. We subsequently terminated the offering of TopView products to our customers.

Our agreement with Shenzhen Securities Information Co., Ltd., associated with the Shenzhen Stock Exchange, is in the process of being renewed. Under these agreements, we may distribute the financial data and information we receive to our users, but not to other vendors or distributors. Each of these two data providers can terminate its respective agreement with us if we breach the terms of the relevant agreement, such as fail to pay or delay our payment of fees to these providers.

Data providers

We acquired CFO Genius in September 2006. Starting from May 2007, CFO Genius has become our primary provider of historical data and information on listed companies, bonds and mutual funds for input into our information platform. We are able to obtain information in accordance with designated parameters, specifications and requirements. This information includes historical financial information for listed companies, significant corporate events such as mergers and acquisitions and significant changes in the shareholdings of listed companies, information concerning major shareholders of listed companies, biographical information for directors and management of listed companies, as well as financial news and other data and information. The updates provided by CFO Genius range from several times a day to once a month depending on the type of information. In addition, we have raw data provision contracts with Financial China Information & Technology Co., Ltd. and Shanghai Gildata Service Co., Ltd as alternative sources of historical data and information.

Table of Contents

Financial Institutions, securities advisors and stock brokerages

We have entered into cooperation contracts with various financial institutions, including banks, insurance and trust companies. According to these contracts, they will provide the personal finance information and product updates directly to us. We have also entered into cooperation arrangements with securities advisory companies, futures companies and securities brokerage companies, each licensed to provide securities advisory services. Under these arrangements, we have the right to extract market commentary and research notes taken from their websites, and to store, reproduce, market and deliver such information to our customers by means of our information platforms. We upload financial content from these websites on a regular basis. In addition, we have entered into cooperation arrangements with licensed individual securities advisors to receive through email and other means their published articles and commentaries covering a range of topics from macroeconomic conditions to performance of individual stocks, bonds and mutual funds. Many of these individual securities advisors have dedicated columns or bulletin boards maintained on our website for which they are responsible for maintenance. In September 2008, we entered into a series of contractual arrangements with CFO Newrand and its shareholders. CFO Newrand is a CSRC licensed investment advisory firm. Shenzhen Newrand Securities Training Center, or CFO Newrand Training, a wholly owned subsidiary of CFO Newrand is a licensed securities investment training center which provides professional training opportunities in the areas of finance, investment, wealth management and risk management. As a result of the contractual arrangements, we obtained substantial control and became the primary beneficiary of CFO Newrand and accordingly we consolidate the results of operations of CFO Newrand in our financial statements. Through the contractual arrangements with CFO Newrand, we also indirectly own the investment advisory license and investment education license of CFO Newrand Training issued by the Shenzhen Bureau of Education, which would enable us to offer investment research and advisory services to individual and institutional clients, and provide a wide range of investor education services to our customers in the future.

News and media conglomerates

We also draw content in the form of breaking headlines and other news information from publishers and distributors of traditional media.

Chinese news publishers and media companies

We are permitted under these arrangements to extract financial news, reports and information taken from their print publication channels, and to store, reproduce, market and deliver such information to our users through our website. We rely on our editorial staff to compile, for publication on our website, publicly available financial news, reports and information received from these sources that are relevant to China's financial markets.

Sales and marketing

We market our service offerings through our websites, as well as through customer support personnel at our telemarketing and customer service centers. Our websites provide detailed descriptions of our service offerings while our customer support personnel are available to explain to callers the various features of our offerings and to resolve our subscribers' technical problems. We also market our service offerings through banks, mutual funds and stock brokerage firms.

We charge our subscribers a subscription fee for the use of our service packages over an agree-upon service period, typically one year. Our subscribers either pay us by cash, by money order via post, by online bank transfer or by direct wiring of cash. Upon receipt of payment, we promptly activate our subscribers' accounts with us. Since we accept cash as the only payment method, we do not take any credit risk of our subscribers. The refunds in 2008 represented approximately 2.43% of cash revenues received from individual subscribers, primarily due to Shanghai Stock Exchange Information Network Co., Ltd., no longer provide TopView market data to third-party vendors, including us, since January 1, 2009.

Product development

We place significant emphasis on refining and upgrading our information platform, and on creating new and innovative features to meet the changing needs of our customers and utilizing the latest in technology and innovation. We believe that we are one of the few online financial information service providers in China that have solid in-house software development capabilities. Our ability to develop software internally allows us to broaden our service offerings and enhance our competitiveness, while keeping development costs at a minimum.

Table of Contents

Our product development team works as an integral part of our overall service offering efforts. For example, we require our product development team to conduct frequent meetings with our sales and marketing team to discuss the feasibility of new service offerings and the progress of existing product development efforts. Our product development team also works closely with our customer support team to develop features and content that is based on feedback we received from our subscribers and users.

We expect product development to remain an important part of our business as the online financial data and information services industry in China becomes increasingly sophisticated. In order to remain competitive, we expect to continue to expand our product development efforts:

- to increase the breadth of our service offerings through the addition of new features and functions to our service packages;

- to enhance our subscribers' experience by improving the quality of our research tools and website;

- to develop additional research tools, features and content specifically targeting the high-end subscribers; and

- to design and build new financial instrument service products that fit our strategies.

Technology and infrastructure

Our internally developed technology infrastructure is designed to maximize the number of concurrent users we can serve, while minimizing information retrieval time for our users. We deliver electronically real-time and historical financial data and analysis tools to our users through our internally developed technology platform, which is designed specifically for our web-based and computer-based software services. Our technology platform, which consists of web server technology, database technology and a data aggregation engine, enables us to enhance performance, reliability and scalability in handling bursts of high-volume data requests during peak time, allowing users to quickly retrieve the information that they search for even during periods of high concurrent use. We own all of our servers. Our servers are capable of accommodating three times the number of peak-hour concurrent users and four times our required bandwidth as measured during peak hours for the twelve months ended December 31, 2008

Web server technology.

Our web server technology enables us to quickly develop and deploy information services dynamically. Our web server technology includes features that are designed to optimize the performance of our online services. For example, we developed a special feature that maximizes the time during which client-server connections are kept open, based on current server load, thereby increasing user navigation and website access speed.

Database technology.

We have developed database technology to address the specific requirements of our information services. Our database design and search techniques allow for efficient data retrieval within the unique operating parameters of the Internet. For example, our dynamic index traversal technology utilizes users' inputted search parameters to determine the appropriate database index (from among multiple indices) in parallel, thereby efficiently locating the data requested. Further, we use an index compression mechanism to achieve an efficient balance between disk space and compression/decompression for various database activities.

Remote data aggregation engine.

Our remote data aggregation engine allows us to retrieve, process and present data as a single virtual database result from a variety of sources, either in real-time or at predetermined intervals. We developed a template-driven profiling system that catalogs the data on each source site. We also store data results internally in order to reduce network traffic and deliver the results to our users as quickly as possible.

Competition

The online financial data and information service market in China is relatively new, has few substantial barriers to entry and is competitive and rapidly changing. The number of online financial news and information sources competing for users' attention and spending has increased since we commenced operations and we expect that

Table of Contents

competition will continue to intensify. More broadly, we also compete, directly and indirectly, for users and subscribers with companies in the business of providing financial data and information services, including:
publishers and distributors of traditional media, including print, radio and television as well as radio and television programs and news focused on financial news and information;

internet portals providing information on business, finance and investing;

financial information web pages offered by websites;

personal stock research software vendors, especially those that develop and market stock research software through stock brokerage companies; and

stock brokerage companies, especially stock brokerage companies with online trading capabilities.

Our ability to compete depends on many factors, including the comprehensiveness, timeliness and trustworthiness of our content, the market acceptance, pricing and sophistication of our analytical tools, the ease of use of our information platform and the effectiveness of our sales and marketing efforts.

Many of our existing competitors, as well as a number of potential new competitors, have longer operating histories, greater name recognition, larger customer bases and significantly greater financial, technical and marketing resources than we do. This may allow them to adopt our business model and devote greater resources than we can to the development and promotion of products and services similar to or better than our own. These competitors may also engage in more extensive research and development, undertake more far-reaching marketing campaigns, and adopt more aggressive pricing policies and offer products and services that achieve greater market acceptance than ours. They may also undercut us by making more attractive offers to our existing and potential employees, content providers and sponsors. New and increased competition could result in price reductions for our service packages, reduced margin or loss of market share, any of which could materially adversely affect our business, results of operations and financial condition.

Intellectual property

Our intellectual property is an essential element of our business operations. We rely on copyright, trademark, trade secret and other intellectual property law, as well as non-competition, confidentiality and license agreements with our employees, suppliers, business partners and others to protect our intellectual property rights. Our employees are generally required to sign agreements to acknowledge that all inventions, trade secrets, works of authorship, developments and other processes generated by them on our behalf are our property, and to assign to us any ownership rights that they may claim in those works. Despite our precautions, it may be possible for third parties to obtain and use intellectual property that we own or license without consent.

Our PRC subsidiaries, CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Wisdom, CFO Success, CFO Jujin, CFO Zhengning and CFO Meining, are the registered owners of 47 software copyrights, each of which has been registered with the National Copyright Administration of the PRC.

We have registered two key domain names relating to our websites, www.jrj.com and www.stockstar.com, with the Internet Corporation for Assigned Names and Numbers, or ICANN, an internationally organized, non-profit corporation. We have also registered one domain name relating to our website, www.jrj.com.cn, with the China Internet Network Information Center, a domain name registration service in the PRC. We currently have 11 trademarks registered with the China Trademark Office, owned by CFO Meining and CFO Genius. Our applications for trademark registration of Financial Street Fuhua in Chinese and three other Chinese variations of Financial Street Fuhua with the Trademark Bureau of the State Administration for Industry and Commerce of China are still in the approval process.

Regulation

We operate our business primarily in the People's Republic of China under a legal regime that consists of the State Council, which is the highest authority of the executive branch of the PRC central government, and several ministries and agencies under its leadership, including:

Table of Contents

the China Securities Regulatory Commission;

the Ministry of Culture;

the General Administration of Press and Publication (National Copyright Administration);

the State Administration of Industry and Commerce;

the Ministry of Public Security; and

the Ministry of Commerce.

The State Council and these ministries and agencies have issued a series of rules that regulate a number of different substantive areas of our business, which are discussed below.

Foreign ownership restriction on Internet content provision businesses

PRC regulations currently limit foreign ownership of companies that provide Internet content services, including our business of providing financial information and data to Internet users, to 50%. In order to comply with this foreign ownership restriction, we operate our website in China through CFO Fuhua, which is wholly owned by Zhiwei Zhao, our chief executive officer, and Jun Wang, our chief financial officer, who are both PRC citizens. Under PRC law, we cannot hold the licenses and approvals necessary to operate our website because those licenses and approvals can not be held by foreign entities or majority foreign-owned entities. We, as a company incorporated in Hong Kong, SAR, are a foreign entity for this purpose.

There are, however, substantial uncertainties regarding the interpretation and application of current or future PRC laws and regulations. Accordingly, we cannot assure you that the PRC regulatory authorities will not ultimately take a view that is contrary to the opinion of our PRC legal counsel. If the PRC government finds that the agreements that establish the structure of our operations in China do not comply with PRC government restrictions on foreign investment in our industry, we could be subject to severe penalties.

Licenses and permits

There are a number of aspects of our business which require us to obtain licenses from a variety of PRC and Hong Kong regulatory authorities.

In order to host our website, CFO Fuhua and CFO Meining are required to hold an Internet content provider, or ICP, license issued by the Ministry of Industry and Information or its local offices. CFO Fuhua and CFO Meining currently holds an ICP license issued respectively by Beijing Communications Administration and Shanghai Communications Administration, local offices of the Ministry of Industry and Information.

According to Measures for the Administration of Securities and Futures Investment Consultancy promulgated by the State Council and CSRC, only qualified entities and persons may engage in certain securities and futures investment consultancy business. Our PRC Affiliate, CFO Newrand, holds the Securities Investment and Consultancy Business Qualification Certificate, which allows CFO Newrand to provide direct or indirect paid-for consultancy services for securities and futures investor or clients with securities and futures analyses, forecasts or proposals and other services. A regulation issued by the Ministry of Industry and Information requires short message, or SMS, content providers to obtain an SMS license from the Ministry of Industry and Information or its local offices. We have obtained the required SMS license for the delivery of our financial short message content.

Furthermore, the Ministry of Industry and Information has promulgated rules requiring ICP license holders that provide online bulletin board services to register with, or obtain an approval from, the relevant telecommunications authorities. CFO Fuhua and CFO Meining have obtained such approval from Beijing Communications Administration and Shanghai Communications Administration, respectively, the government agency in charge of this matter.

Daily Growth Securities, regulated by Hong Kong Stock Exchange and Hong Kong Securities and Futures Commission hold a type 1 license, which allows it to engage in securities trading and brokerage business in Hong

Table of Contents

Kong. Daily Growth Futures, regulated by Hong Kong Securities and Futures Commission has obtained a type 2 license, which allows it to engage in futures contract trading business.

CFO Newrand, regulated by the CSRC, holds an investment advisory license which allows it to provide analytical report, strategic consulting and investment advisory services relating to securities market, share-holding system reform and market regulatory matters to its individual and corporate clients including domestic and overseas securities investors and securities trading and brokerage firms. CFO Newrand Training owns a private school license issued by Shenzhen Bureau of Education.

Regulation of Internet content

The PRC government has promulgated measures relating to Internet content through a number of ministries and agencies, including the Ministry of Industry and Information, the Ministry of Culture and the General Administration of Press and Publication. These measures specifically prohibit Internet activities, which include provision of financial information through the Internet, that result in the publication of any content which is found to, among other things, propagate obscenity, gambling or violence, instigate crimes, undermine public morality or the cultural traditions of the PRC, or compromise State security or secrets. If an ICP license holder violates these measures, the PRC government may revoke its ICP license and shut down its websites.

CFO Fuhua and CFO Meining's ICP licenses expressly state that, in relation to their Internet content provision and among other things, they are not allowed to publish general news on politics, society or culture, or establish a news column, or provide such information under express heading of news. Specifically, the Press Office of Beijing People's Government, the government authority regulating news publication, confirmed with us that so long as we do not provide general news, we are not required to obtain a license to publish financial or economic related news content. However, on September 25, 2005, the Press Office of the State Council and the Ministry of Industry and Information jointly promulgated the Provisions for the Administration of Internet News Information Services, in which the authorities provided an applicable definition of internet news information services and require that internet content providers that provide internet news information services within such definition must apply for a license. CFO Fuhua and CFO Meining are planning to procure such a license.

Regulation of information security

Internet content in China is also regulated and restricted by the PRC government to protect State security. The National People's Congress, China's national legislative body, has enacted a law that may subject to criminal punishment in China any effort to: (1) gain improper entry into a computer or system of strategic importance; (2) disseminate politically disruptive information; (3) leak State secrets; (4) spread false commercial information; or (5) infringe intellectual property rights.

The Ministry of Public Security has promulgated measures that prohibit use of the Internet in ways which, among other things, result in a leakage of State secrets or a spread of socially destabilizing content. The Ministry of Public Security has supervision and inspection rights in this regard, and we may be subject to the jurisdiction of the local security bureaus. If an ICP license holder violates these measures, the PRC government may revoke its ICP license and shut down its websites.

Intellectual property rights

The State Council and the National Copyright Administration have promulgated various regulations and rules relating to protection of software in China. Under these regulations and rules, software owners, licensees and transferees should register their rights in software with the National Copyright Administration or its local offices and obtain software copyright registration certificates. Although such registration is not mandatory under PRC law, software owners, licensees and transferees are encouraged to go through the registration process and registered software rights may receive better protections. We have registered all of our self-developed software with the National Copyright Administration.

PRC law requires owners of Internet domain names to register their domain names with qualified domain name registration agencies approved by the Ministry of Industry and Information and obtain a registration certificate from such registration agencies. A registered domain name owner has an exclusive use right over its domain name. Unregistered domain names may not receive proper legal protections and may be misappropriated by unauthorized third parties. We have registered our domain names, *www.jrj.com* and *www.stockstar.com*, with the Internet

Table of Contents

Corporation for Assigned Names and Numbers, or ICANN, and obtained a certificate for this domain name. ICANN is an internationally organized, non-profit corporation that has responsibility for Internet Protocol (IP) address space allocation, protocol identifier assignment, generic (gTLD) and country code (ccTLD) Top-Level Domain name system management, and root server system management functions.

Website name

A PRC law published in September 2000 requires entities and individuals operating commercial websites to register their website names with the Beijing Municipal Administration of Industry and Commerce, or Beijing AIC, which is authorized by the State Administration of Industry and Commerce, or the SAIC, as the only official registration authority in China during trial period. If any entity or individual operates a commercial website without obtaining such certificate, it may be charged a fine or imposed other penalties by the Beijing AIC. We have registered our website name, JRJ Investment and Finance Network and Stockstar with, and received commercial website name registration certificates from Beijing AIC.

Privacy protection

PRC law does not prohibit Internet content providers from collecting and analyzing personal information from their users. We require our users to accept a user agreement whereby they agree to provide certain personal information to us. PRC law prohibits Internet content providers from disclosing to any third parties any information transmitted by users through their networks unless otherwise permitted by law. If an Internet content provider violates these regulations, the Ministry of Industry and Information or its local offices may impose penalties and the Internet content provider may be liable for damages caused to its users.

Advertising regulation

PRC law requires entities conducting advertising activities to obtain an advertising permit from the SAIC's local offices. Entities conducting advertising activities without such permit may be charged a fine or imposed other penalties by the SAIC's local offices. We hold our advertising permits through CFO Fuhua, a PRC domestic company wholly owned by Zhiwei Zhao and Jun Wang, and CFO Meining, a subsidiary wholly owned by CFO Fuhua.

C. Organizational structure.

We conduct substantially our business through our wholly owned subsidiaries in China, which are CFO Beijing, CFO Software, CFO Stockstar, CFO Genius, CFO Jujin, CFO Zhengning, CFO Wisdom and CFO Success. CFO Jujin, CFO Zhengning, CFO Wisdom and CFO Success are the wholly owned subsidiaries of Danford (H. K) Limited, or CFO Danford, which is a wholly owned by Giant Bright International Holdings Limited, or CFO Giant Bright, in which CFO Hong Kong has 100% equity interests. We are dependent on CFO Fuhua and CFO Meining, a wholly owned subsidiary of CFO Fuhua, to host our websites. In 2007, we acquired Daily Growth Securities (formerly known as Daily Growth Investment Company Limited) to provide securities brokerage services for stocks listed on Hong Kong Stock Exchange. In 2008, we raised the authorized and issued share capital of Daily Growth Securities so the total percentage of beneficial ownership by CFO Hong Kong increases from 85% to 100%. In addition, in 2008 we established Daily Growth Futures and Daily Growth Wealth Management. Daily Growth Securities, Daily Growth Futures and Daily Growth Wealth Management are wholly owned by Daily Growth Holdings, which is wholly owned by CFO Hong Kong. In addition, in 2007 and 2008, we established CFO Glory and CFO Premium, CFO Shangtong, CFO Chongzhi, CFO Huifu, and CFO Zhongcheng in anticipation of using these companies to acquire PRC domestic companies whose business are those which we are restricted from conducting directly by PRC regulations. In 2008, we entered into contractual arrangements with CFO Newrand, a licensed securities investment consultancy company incorporated in China.

The following table sets forth the details of our principle subsidiaries and PRC-incorporated affiliates as of December 31, 2008:

Table of Contents

Name	Jurisdiction of Incorporation	Percentage of Beneficial Ownership Interest

Table of Contents

PRC regulations currently limit foreign ownership of companies that provide Internet content provider services, or ICP services, which include our business of providing financial information and data to Internet users, to 50%. We are a Hong Kong company and we conduct our operations solely in China through our wholly owned subsidiaries. We are a foreign enterprise and the wholly owned subsidiaries are all foreign invested enterprises under PRC law and accordingly, neither we, or wholly owned subsidiaries is eligible for a license to operate ICP services or provide online advertising services. In order to comply with foreign ownership restrictions, we operate our online business in China through CFO Fuhua. We have entered into a series of contractual arrangements with CFO Fuhua and its shareholders, including contracts relating to the leasing of equipment, the licensing of our domain name, the provision of technical support services and strategic consulting and certain shareholder rights and corporate government matters in 2004. Upon the transfer of Jun Ning and Wu Chen's holdings in CFO Fuhua to Zhiwei Zhao and Jun Wang in November 2007 and October 2007, respectively, Zhiwei Zhao and Jun Wang replaced Jun Ning and Wu Chen, respectively, as a party to each of the contractual arrangements we had entered into with Jun Ning and Wu Chen with respect to their holdings in CFO Fuhua and the operation of CFO Fuhua.

Loan Agreements. We entered into a loan agreement with Zhiwei Zhao effective November 30, 2006 to extend to Mr. Zhao a loan in the amount of \$163,000, for the sole purpose of financing his acquisition of the equity interests of CFO Fuhua from Jun Ning. The initial term of these loans is 10 years which may be extended upon the parties agreement. Zhiwei Zhao can only repay the loans by transferring all of his interest in CFO Fuhua to us or a third party designated by us. When Zhiwei Zhao transfers his interest in CFO Fuhua to us or our designee, if the actual transfer price is higher than the principal amount of the loans, the amount exceeding the principal amount of the loans will be deemed as interest accrued on such loans and repaid by Zhiwei Zhao to us. While Hong Kong law limits the maximum interest payment chargeable under a loan to 60% of the outstanding principal amount per annum, this limitation would only be relevant if, at the time of a future transfer to us of the interest in CFO Fuhua held by Zhiwei Zhao, the actual value of CFO Fuhua were to have increased at an average annual rate greater than 60%. CFO Fuhua's assets currently consist primarily of registered capital and licenses to provide Internet content and advertising related services, and its operations are primarily limited to operating our free website and providing advertising related services on behalf of CFO Beijing. In addition, we do not expect CFO Fuhua to continue to provide advertising related services once CFO Beijing obtains necessary permits to do so. Accordingly, we do not believe this limitation will have a material effect on our business and operations, or will result in a material amount being paid to the shareholders of CFO Fuhua if and when they are permitted to transfer their interest in CFO Fuhua to us.

We entered into a loan agreement with Jun Wang in October 2007 to extend to Mr. Wang a loan in the amount of \$199,000 for the sole purpose of financing his acquisition of the equity interests of CFO Fuhua from Wu Chen subject to the same terms and conditions as the loan agreement we entered into with Zhiwei Zhao as discussed above.

Purchase Option Agreement. Pursuant to a purchase option and cooperation agreement, or the purchase option agreement, entered into among us, CFO Beijing, Jun Ning, Wu Chen and CFO Fuhua on May 27, 2004, its subsequent amendments on November 20, 2006 upon the transfer of shares by Jun Ning to Zhiwei Zhao, and a purchase option and cooperation agreement entered into among us, CFO Beijing, Zhiwei Zhao, Jun Wang and CFO Fuhua on October 18, 2007 upon the transfer of shares by Wu Chen to Jun Wang, Zhiwei Zhao and Jun Wang jointly granted us an exclusive option to purchase all or any portion of their equity interest in CFO Fuhua, and CFO Fuhua granted us an exclusive option to purchase all of its assets if and when (1) such purchase is permitted under applicable PRC law, and (2) to the extent permitted by law, when Zhiwei Zhao and/or Jun Wang ceases to be a director or employee of CFO Fuhua, or either Zhiwei Zhao or Jun Wang desires to transfer his equity interest in CFO Fuhua to a party other than the existing shareholders of CFO Fuhua. We may purchase such interest or assets ourselves or designate another party to purchase such interest or assets.

The exercise price of the option will equal the total principal amount of the loan lent by us to Zhiwei Zhao and Jun Wang under their loan agreements to purchase their respective equity interest in CFO Fuhua, or the price required by relevant PRC law or government approval authority if such required price is higher than the total principal amount of the loans lent by us to Zhiwei Zhao and Jun Wang. We may choose to pay the purchase price payable to Zhiwei Zhao and Jun Wang by canceling our loans to Zhiwei Zhao and Jun Wang.

Following any exercise of the option, the parties will enter into a definitive share or asset purchase agreement and other related transfer documents within 30 days after written notice of exercise is delivered by us. Pursuant to the

Table of Contents

purchase option agreement, at all times before we or any party designated by us acquire 100% of CFO Fuhua's shares or assets, CFO Fuhua may not (1) sell, transfer, assign, dispose of in any manner or create any encumbrance in any form on any of its assets unless such sale, transfer, assignment, disposal or encumbrance is related to the daily operation of CFO Fuhua or has been disclosed to and consented to in writing by us; (2) enter into any transaction which may have a material effect on CFO Fuhua's assets, liabilities, operations, equity or other legal interest unless such transaction relates to the daily operation of CFO Fuhua or has been disclosed to and consented to in writing by us; or (3) distribute any dividends to its shareholders in any manner, and Zhiwei Zhao and Jun Wang may not cause CFO Fuhua to amend its articles of association to the extent such amendment may have a material effect on CFO Fuhua's assets, liabilities, operations, equity or other legal interest except for pro rata increases of registered capital required by law.

Voting arrangement. Upon Zhiwei Zhao's receipt of Jun Ning's holdings in CFO Fuhua on November 20, 2006, and Jun Wang's receipt of Wu Chen's holdings in CFO Fuhua on October 18, 2007, each of Zhiwei Zhao and Jun Wang delivered an executed proxy substantially identical to the proxy executed by Jun Ning and Wu Chen, respectively, with respect to their voting rights as shareholders of CFO Fuhua.

Share Pledge Agreement. Pursuant to a share pledge agreement, dated May 27, 2004, Jun Ning and Wu Chen have pledged all of their equity interest in CFO Fuhua to CFO Beijing to secure the payment obligations of CFO Fuhua under the equipment leasing agreement, the technical support agreement and the amended and restated strategic consulting agreement between CFO Beijing and CFO Fuhua. Upon Zhiwei Zhao's receipt of Jun Ning's holdings in CFO Fuhua on November 20, 2006, and Jun Wang's receipt of Wu Chen's holdings in CFO Fuhua on October 18, 2007, Zhiwei Zhao and Jun Wang replaced Jun Ning and Wu Chen, respectively, as a party to the share pledge agreement. Under this agreement entered into by and among Zhiwei Zhao, Jun Wang and CFO Beijing, each of Zhiwei Zhao and Jun Wang have agreed not to transfer, assign, pledge or in any other manner dispose of his interest in CFO Fuhua or create any other encumbrance on his interest in CFO Fuhua which may have a material effect on CFO Beijing's interest without the written consent of CFO Beijing, except the transfer of their interest in CFO Fuhua to us or the third-party assignee designated by us according to the purchase option agreement. Pursuant to a share pledge agreement, dated March 3, 2008, each of Zhiwei Zhao and Jun Wang have pledged all of his equity interest in CFO Fuhua to CFO Beijing on the same terms as described above.

We entered into contractual arrangements with CFO Premium, CFO Glory, CFO Newrand, CFO Shangtong, CFO Chongzhi, CFO Huifu and CFO Zhongcheng and their shareholders similar to agreements we had entered into with CFO Fuhua and its shareholders. As a result of these contractual arrangements we obtained substantial control and became the primary beneficiary of our PRC-incorporated affiliates, and accordingly we consolidate the results of operations of our PRC-incorporated affiliates in our financial statements.

D. Property and equipment.

Our principal executive offices as well as our subsidiaries, CFO Beijing and CFO Software, CFO Fuhua, CFO Wisdom, CFO Success, CFO Glory and CFO Premium are currently located in Beijing, leasing approximately 3,420 square meters. CFO Stockstar, CFO Meining and CFO Zhengning are located in Shanghai, leasing approximately 3,500 square meters. CFO Genius and Jujin both are located in Shenzhen, leasing approximately 2,000 square meters. Daily Growth Securities, located in Hong Kong, leases approximately 500 square meters. We intend to seek additional office space as required for our operations as needed on commercially reasonable terms. We believe that we will be able to obtain adequate facilities, principally through the leasing of appropriate properties, to accommodate our future expansion plans.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion of our financial condition and results of operations is based upon and should be read in conjunction with our consolidated financial statements and their related notes included in this annual report on Form 20-F. This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including, without limitation, statements regarding our expectations, beliefs, intentions or future strategies that are signified by the words "expect", "anticipate", "intend", "believe" or similar language. All forward-looking statements included in this annual report are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. Actual results

could differ materially from those projected in the forward looking statements. In evaluating our business, you should carefully consider the information provided under the caption Risk Factors in this annual report on Form 20-F. We caution you that our businesses and financial performance are subject to substantial risks and uncertainties.

Table of Contents

A. Operating Results

We are one of the leading companies that specialize in providing online financial and listed company data and information in China. We offer subscription-based services based on a single integrated information platform that combines financial analysis tools, real-time and historical data, news, research reports and online forums. Our service offerings can be accessed using our research tools and through our websites *www.jrj.com* and *stockstar.com*. Our service offerings are used by and targeted at a broad range of investors in China, including individual investors managing their own money, professional investors such as institutional investors managing large sums of money on behalf of their clients and high net worth individuals, other financial professionals such as investment bankers, stock analysts and financial reporters, and middle class individuals.

Our net revenues increased by 117% to \$56.2 million in 2008 from \$25.9 million in 2007. Our net income was \$19.0 million in 2008. For subscription services provided to individual investors, we receive subscription fees at the beginning of the subscribers' subscription periods. Revenues from the subscription fees are deferred and recognized ratably over the subscription periods. Our deferred revenues were \$37.0 million as of December 31, 2008, compared to \$25.1 million as of December 31, 2007.

Our principal capital expenditures for 2006, 2007 and 2008 consisted of primarily purchases of servers, workstations, computers, computer software, and other items related to our network infrastructure for a total of approximately \$1.0 million, \$3.8 million and \$5.0 million, respectively.

Key factors affecting our operating results and financial condition

Some of the key factors affecting our operating results and financial condition include the following:

performance of China's securities markets, and user demand for market intelligence on China's securities markets, as well as the overall performance of China's economy;

termination of our TopView series of market data analysis products. On December 31, 2008, SSEINC terminated the provision of TopView data to third party software vendors, including us. We subsequently terminated the offering of TopView products to our customers. We expect material impact to our 2009 operating results from the TopView termination;

contribution of alternative revenue resources such as revenues from online advertising;

seasonality associated with the level of activity of our users and subscribers and the trading activities of China's securities markets;

tax refund from the PRC tax authorities for value-added-taxes we are required to pay on the sale of subscriptions to our service packages;

other tax incentives we receive from PRC tax authorities resulting from CFO Success, CFO Zhengning and CFO Jujin being the New Software Manufacture Enterprises and CFO Meining and CFO Genius being the High and New Technology companies;

our cost structure, including, in particular, our cost for raw data;

the desirability of our service packages relative to other products and offerings available in the market;

our ability to benefit from the acquisition of CFO Stockstar, CFO Genius, Daily Growth Securities and the contractual arrangements with CFO Newrand, CFO Huifu and CFO Zhongcheng, CFO Shangtong and CFO Chongzhi; and

PRC telecommunication and regulatory policies.

We derive revenues primarily from annual subscription fees from subscribers to our financial data and information services. The level of public interests in investing in China's securities market could significantly influence the demand for market intelligence on China's securities markets and our products. Such demand could be affected by

Table of Contents

the level of trading activity in China's securities markets. During the past several years, China's securities markets have experienced sizable volatility.

To a lesser extent, we also derive revenues through advertisement sales on our website, which contributed \$2.9 million in 2008, representing a 81% increase from the \$1.6 million contributed in 2007. Revenues from advertising accounted for 5.0% of our net revenues in 2008. We allocated most of our advertising inventories to promote our subscription-based software offerings, and hence online advertising was not considered a core service line of our business in 2008.

Our gross revenues also include the benefit of a refund from the PRC tax authorities for value-added-taxes, or VAT, which we are required to pay on the sale of subscriptions to our service packages. We receive these refunds from the PRC tax authorities as part of the PRC government's policy of encouraging software development in the PRC. There is generally a one-month lapse between the time we complete a sale and pay the VAT on that sale and the time we receive the refund. We recognized approximately \$4.8 million in revenue for VAT refunds in 2008.

Gross revenues

We generate subscription fee revenues mostly from the sales of the service packages we currently offer, which are comprised of downloadable and web-based research tools. In general, a subscription permits the subscriber to use the selected service package for a one-year period.

The most significant factors that affect our subscription revenues are:

the number of registered user accounts on our websites;

the number of active paying individual subscribers; and

the service packages selected by our subscribers.

Although users of our website are not charged for visiting our website and obtaining basic financial information, such as real-time stock quotes and historical financial information for all of China's listed company stocks, bonds and mutual funds, financial news and research reports, these users are our primary source of existing and potential subscribers. As users frequent our website and rely on our offerings, we expect that a number of them will opt to purchase our subscription services. A substantial portion of our revenues are currently derived from our subscription services. Registered user accounts refer to user accounts registered by individuals with either *www.jrj.com* or *www.stockstar.com*. Active paying individual subscribers refer to registered users who subscribe for a fee to one of our subscription-based services offered by either *www.jrj.com* or *www.stockstar.com* by download or through the mobile devices. We view increase in the number of active paying individual subscribers as a measure of market acceptance and customer loyalty to our service offerings.

We generally encourage our subscribers to migrate to newer, more comprehensive and higher priced service offerings. We price our service packages based on the research tools included and their level of comprehensiveness, as well as on market demand. From time to time, we may offer discounts to and promotional rates for our service packages, which may be offered to new subscribers or repeat subscribers.

Net revenues

Our net revenues reflect a deduction from our gross revenues for business taxes and related surcharges incurred in connection with our China operations. The gross revenues of PRC entities from sales that are not subject to VAT are subject to a business tax at a rate ranging from 3% to 5%. We expect to pay business tax in the PRC on revenues from advertising-related business and from mobile value added services we expect to generate in the future.

We derive revenue from external customers for each of the following services during the years presented:

	Years ended December 31,		
	2006	2007	2008
Subscription fees	\$ 5,075,830	\$ 22,712,043	\$ 49,551,711
Advertising revenue	1,337,630	1,560,194	2,946,389
SMS revenue	298,232	1,339,321	1,047,218

Table of Contents

	Years ended December 31,		
	2006	2007	2008
Brokerage service revenue		80,896	956,549
Others	416,386	210,620	1,740,901
	\$ 7,128,078	\$ 25,903,074	\$ 56,242,768

Revenue recognition

We charge our subscribers a subscription fee for the right to use our service packages for, in general, a one-year period. For subscription services provided to individual investors, our subscription fee is paid in full prior to the delivery of our service packages. Therefore, we do not take any credit risk with respect to our individual subscribers. Upon receipt of payment in full, we activate our subscriber's account, marking the start of the subscription period, and promptly provide the subscriber with an account access code. We begin to recognize subscription fees as revenue upon activation of the subscriber's account and then ratably over the service period. Subscription fees that have been paid but not yet recognized are accounted for as deferred revenue on our balance sheets. Deferred revenue is reduced proportionately as revenue is recognized ratably over the service period.

We derive advertising fees from advertising sales on our website principally for fixed periods of time, which are generally less than one year. We recognize advertising fees ratably over the periods during which the advertisements are displayed on our website.

We also derive commission from brokerage services provided by Daily Growth Securities, which buys or sells securities on their customers' behalf. The commission income is recognized on a trade date basis as securities transactions occur.

Cost of revenues

Our cost of revenues consists of expenses directly related to the offering of our software subscription services. Our cost of revenues primarily consists of cost of raw data, cost of bandwidth, salary and compensation, depreciation and rent. Cost of revenues accounted for 17% of our net revenues in each of 2007 and 2008, although the absolute amount of cost of revenue experienced a sizable increase in 2008 compared with that of 2007. We believe the absolute increase will partly be attributable to contribution from increase in website maintenance and development expenses of \$4.6 million in 2008, compared to \$2.9 million from 2007, which consists of rent, cost of raw data, salary and compensation, server depreciation expenses, bandwidth costs, and content expenses for our jrj.com and stockstar.com websites. As we began to provide Topview products in early 2008, the Topview cost was \$3.3 million in 2008, representing 35% of cost of revenues. We expect our cost of revenues is likely to decrease in absolute amount of our net revenues in 2009, as a result of the termination of providing TopView products.

Rent. Rent attributable to cost of revenues reflects that portion of our rent expense that we believe is directly used in the provision of our web content and database services. We allocate rent to cost of revenues to the extent the space is occupied by our web content and database personnel. Our rent is the largest component of our cost of revenues, constituting 21% of our cost of revenues in 2008.

Cost of raw data. Our cost of raw data consists of bandwidth fees, which we pay to Internet Data Center (IDC) and fees we pay to the stock exchanges and our other data providers pursuant to our commercial agreements with those parties. These contracts are typically for a fixed rate, without regard to the level of use, for a term, typically between one and three years, depending on the provider. Our cost of raw data is likely to be our most variable element of cost of revenues. Our cost of raw data is expected to increase:

if we enter into additional commercial agreements for purchasing data from new sources or if we obtain different or additional data from existing sources or

due to rate increases we may experience in the future upon renewal of our existing agreements.

Salary and compensation. Salary and compensation expenses include wages, bonuses and other benefits, including welfare benefits. Salary and compensation included in our cost of revenues relate to our web content and database personnel. We expect that our salary and compensation expenses will increase in the future as we intend to increase our customer service performance as our business further grows and expands.

Table of Contents

Depreciation. Depreciation consists of depreciation of property and equipment, primarily our network and servers. We include depreciation within cost of revenues when the relevant assets are directly related to the provision of our web content and database services.

Operating expenses

Our operating expenses consist of general and administrative expenses, product development expenses, and sales and marketing expenses. Stock-based compensation expenses are reported within each of the cost of revenue and operating expense financial statement line items, as appropriate. The decrease in the ratio of operating expenses to net revenues in 2008 is primarily due to the increase in net revenues greater than the increase in operating expenses. The increase in absolute amount of operating expenses is primarily due to the expansion of our business scale and the increase in the salary and compensation for our personnel, stock-based compensation, cost of professional services and other related costs associated with our being publicly listed in the U.S. The most significant factors affecting our operating expenses are:

salary and compensation for our employees, particularly our sales and marketing personnel and our management team;

stock- based compensation expenses for the grant of the performance-based restricted stock and for new grants issued in 2007; and

professional services and other related costs associated with being publicly listed in the United States; and We expect our operating expenses will continue to increase for the foreseeable future, but the rate of such increase will depend primarily on our personnel needs, our advertising needs and our computer, network and server capacity, including efforts we may undertake to expand our online advertising business.

General and administrative expenses. General and administrative expenses primarily consist of salary and compensation for our general management, finance and administrative personnel, stock-based compensation expenses, rent, professional expenses and other expenses, including travel and other general business expenses, office supplies and depreciation for general office furniture and equipment. We expect our general and administrative expenses to increase in 2009 and for the foreseeable future.

Product development expenses. Our product development expenses primarily consist of salary and compensation expenses of personnel engaged in the research, development and implementation of our new service offerings, rent and depreciation of equipment attributable to our product development efforts. We expect that our product development expenditures will increase for the next twelve months.

Sales and marketing expenses. Our sales and marketing expenses primarily consist of salary and compensation for our sales and marketing personnel, as well as the marketing promotion fees. The increase is largely due to compensation expenses as a result of increased sales force. We expect to continue to increase our sales and marketing efforts in the foreseeable future.

Stock option plan and option agreements

We adopted the 2004 Stock Incentive Plan, or the Plan, in January 2004. The Plan is intended to promote our success and to increase shareholder value by providing an additional means to attract, motivate, retain and reward selected directors, officers, employees and other eligible persons. We amended the Plan in September 2004 to increase the total number of ordinary shares issuable under the Plan to 10,688,488. We granted options under the Plan with the right to purchase up to 5,688,488 ordinary shares (including 90,000 options to eligible individual consultants and advisors) in 2004, of which 627,000 unvested options had been returned to the pool of our ungranted options as a result of resignation from employment by a few former employees as of December 31,2008. In 2005, we granted to selected directors, officers, employees, individual consultants and advisors under the Plan options with the right to purchase up to 5,003,000 ordinary shares, of which 899,640 unvested options had been returned to the pool of our ungranted options as a result of resignation from employment by a few former employees. In July 2006, we granted options to purchase up to 700,000 ordinary shares to selected officers under the Plan. We amended the Plan again in December 2006 to increase the total number of ordinary shares reserved for issuance under the Plan to 15,688,488. In 2007, we granted to selected directors, officers, employees, individual consultants and advisors under the Plan options

with the right to purchase up to 3,848,000 ordinary shares, of which 172,760 unvested options had been returned to the pool of our ungranted options as a result of resignation from employment by a few former employees.

Table of Contents

In 2008, we granted to selected directors, officers, employees, individual consultants and advisers under the Plan options with right to purchase up to 2,820,840 ordinary shares, of which 970,000 unvested options have been returned to the pool of our ungranted options as a result of resignation from employment by a few former employees. As of December 31, 2008, options to purchase 297,560 ordinary shares were available for future grant.

The 700,000 options we granted in July 2006 have an exercise price of \$1.07 per share and will expire on July 4, 2016. The 3,272,000 options we granted in January 2007 under the Plan have an exercise price of \$0.96 per share and will expire on January 17, 2017. The 100,000 and 150,000 options we granted in April and May, 2007 have exercise prices of \$1.25 and \$1.318 per share respectively, and will expire on April 4, 2017 and May 9, 2017 respectively. The 323,000 and 3,000 options we granted in August and September 2007 have exercise prices of \$2.03 and 2.188 per share, respectively, and will expire on August 26, 2017 and September 3, 2017 respectively. The 390,000 and 100,000 options we granted in January and March, 2008 respectively have exercise prices of \$2.44 and \$2.70 per share respectively, and will expire on January 21, 2018 and March 18, 2018 respectively. The 480,000 and 1,850,840 options we granted in June and December, 2008 have exercise prices of \$3.134 and \$1.26 per share respectively, and will expire on June 26, 2018 and November 30, 2018 respectively.

Options granted under the Plan generally do not vest unless the grantee remains under our employment or in service with us on the given vesting date. However, in circumstances where there is a death or disability of the grantee, or a change in the control of our company, the vesting of options will be accelerated to permit immediate exercise of all options granted to a grantee. Generally, to the extent an outstanding option granted under the Plan has not vested by the date the grantee's employment or service with us terminates, the option will terminate and become unexercisable. Our board of directors may amend, alter, suspend, or terminate the Plan at any time, provided, however, that our board of directors must first seek the approval of our shareholders and, if such amendment, alteration, suspension or termination would adversely affect the rights of an optionee under any option granted prior to that date, the approval of such optionee. Under the Plan, as of December 31, 2008, we have a total number of 6,295,098 options that are currently vested and exercisable for ordinary shares.

We also granted share options to purchase up to 6,829,500 ordinary shares in January 2004, under option agreements that were independent of the Plan, to other consultants and business advisors of the company, 5,684,500 ordinary shares have been exercised as of December 31, 2008.

On July 2, 2007, we granted restricted stock awards covering 10,558,493 ordinary shares of the Company under our 2007 Equity Incentive Plan to our employees who are eligible for the 2007 Equity Incentive Plan. The vesting of the restrictive stock is subject to us achieving certain financial performance targets stated in the 2007 Equity Incentive Plan. In order to bind the employees together in achieving the common goal, the ordinary shares are held by C&F International Holdings Limited for the benefit of the whole group of eligible employees. Pursuant to the 2007 Equity Incentive Plan and the restricted stock issuance and allocation agreement effective as of July, 2, 2007, we issued 10,558,493 ordinary shares to C&F International Holdings Limited, a company incorporated in British Virgin Islands, which holds the ordinary shares on behalf of and exclusively for the benefit of the group of employees eligible for the 2007 Equity Incentive Plan. C&F International Holdings Limited is 100% owned by C&F Global Limited, a British Virgin Islands Company, which is in turn owned by the grantees. As of December 31, 2007, 10,558,493 ordinary shares have been issued and allotted to selected employees pursuant to the 2007 Equity Incentive Plan. Based on the Company's operating performance during 2008, 4,329,024 shares were vested as of December 31, 2008.

Critical accounting policies

We prepare our financial statements in conformity with U.S. GAAP, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the financial reporting period. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates. Some of our accounting policies require higher degrees of judgment than others in their application. We consider the policies discussed below to be critical to an understanding of our financial statements as their application places the most significant demands on our management's judgment.

Income taxes. Deferred income taxes are recognized for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements, net operating loss carry forwards and credits by applying enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax

Table of Contents

assets will not be realized. Current income taxes are provided for in accordance with the laws of the relevant taxing authorities.

Stock-based compensation. Effective January 1, 2006, we adopted the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) No. 123 (revised 2004), Share-Based Payment (SFAS 123(R)), using the modified prospective transition method. Under this method, stock-based compensation expense recognized beginning January 1, 2006 includes: (a) compensation expense for all stock-based compensation awards granted prior to, but not yet vested as of January 1, 2006 based on the fair market value as of the grant date, measured in accordance with SFAS 123, and (b) compensation expense for all stock-based compensation awards granted on or subsequent to January 1, 2006, based on grant-date fair value estimated in accordance with the provisions of SFAS 123(R). We recognize stock-based compensation costs on a graded-vesting attribution method over the requisite service period which is generally the vesting period.

For options vested prior to January 1, 2006, we accounted for share-based compensation plans in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees , as amended (APB 25). Accordingly, we recognized compensation expense only when options were granted with a discounted exercise price. The compensation expense was recognized ratably over the requisite service period, which was generally the vesting period of the options.

Cost method investment. In December 2005, we purchased 9,800,000 Series B preferred shares in a private company, Moloon International Inc., (Moloon) for \$15,000,000, which represents a 25% interest in Moloon on an if-converted basis. The investment in these preferred shares is not in-substance common stock, and accordingly, the investment has been recorded as a cost method investment. As Moloon does not have readily determinable fair value, we carry the investment at cost and only adjusted for other-than-temporary declines in fair value and distributions of earnings. The management regularly evaluates the impairment of the cost method investment based on performance and the financial position of the investee as well as other evidence of market value. Such evaluation includes, but is not limited to, reviewing the investee's cash position, recent financings, projected and historical financial performance, cash flow forecasts and financing needs. An impairment loss is recognized in earnings equal to the difference between the investment's cost and its fair value at the balance sheet date of the reporting period for which the assessment is made. The fair value of the investment would then become the new cost basis of the investment. We recorded an other-than-temporary impairment charge totaling \$1,322,000 during the year ended December 31, 2006, and \$11,127,000 during the year ended December 31, 2007. No impairment charges were recorded during the year ended December 31, 2008.

Goodwill. The excess of the purchase price over the fair value of net assets acquired is recorded on the consolidated balance sheet as goodwill.

We test goodwill annually following a two-step process in accordance with SFAS No. 142, Goodwill and Other Intangible Assets . The first step compares the fair values of each reporting unit to its carrying amount, including goodwill. If the fair value of each reporting unit exceeds its carrying amount, goodwill is not considered to be impaired and the second step will not be required. If the carrying amount of a reporting unit exceeds its fair value, the second step compares the implied fair value of goodwill to the carrying value of a reporting unit's goodwill. The implied fair value of goodwill is determined in a manner similar to accounting for a business combination with the allocation of the assessed fair value determined in the first step to the assets and liabilities of the reporting unit. The excess of the fair value of the reporting unit over the amounts assigned to the assets and liabilities is the implied fair value of goodwill. An impairment loss is recognized for any excess in the carrying value of goodwill over the implied fair value of goodwill.

We perform goodwill impairment tests annually on December 31 by comparing the book value to the fair value of each reporting unit. Based on our assessment, there was no impairment of goodwill for the years ended December 31, 2006, 2007 and 2008.

Impairment of long-lived assets. We review our long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may no longer be recoverable. When these events occur, we measure impairment by comparing the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to result from the use of the assets and our eventual disposition. If the sum of the expected

undiscounted cash flow is less than the carrying amount of the assets, we would recognize an impairment loss based on the fair value of the assets. There were no impairment losses in the years ended December 31, 2006, 2007 and 2008.

Table of Contents**Results of operations**

The following table sets forth certain information relating to our results of operations, and our consolidated statements of operations as a percentage of net revenues, for the periods indicated:

For the year ended December 31,

(in thousands of U.S. dollars, except
as % of net revenues)(1)

Year ended December 31, 2008 compared to year ended December 31, 2007**Revenues**

Our gross revenues increased by 115% from \$26.6 million in 2007 to \$57.1 million in 2008. For our subscription business, individual customers pay the entire subscription fee upfront in cash for services to be received over a specified period of time, typically 12 months. Such subscription fees are recognized as net revenues ratably over the service period, and those that have not been rendered at the end of a reporting period are recorded as deferred revenue in the balance sheet. Deferred revenue at the end of 2008 is \$37.0 million, compared to \$25.1 million at the end of 2007. The significant increase in deferred revenue as of December 31, 2008 is due to our strong performance in the subscription business and such increase in deferred revenue will be recorded as net revenues over the next several quarters.

Our net revenues derived from online advertising sales, which were not a sizable portion of our business in 2008, increased to \$2.9 million in 2008 from \$1.6 million in 2007.

Our net revenues derived from brokerage income were \$957,000 in 2008, representing 1.7% of total net revenues for the year.

Our business taxes attributable to our gross revenues increased from \$667,000 in 2007 to \$903,000 in 2008, primarily due to the increase in the volume of in the subscription and advertising businesses. After taking into account

Table of Contents

business taxes attributable to our gross revenues, our net revenues increased by 117% to \$56.2 million in 2008 from \$25.9 million in 2007.

Cost of revenues

Our cost of revenues in 2008 increased by 112% to \$9.4 million from \$4.4 million in 2007 partly because our website maintenance and development expenses increased to \$4.6 million in 2008 from \$2.9 million in 2007, which consists of bandwidth costs, salary and compensation, server depreciation expenses, rent, cost of raw data and content expenses for our jrj.com and stockstar.com websites. Other fees include the raw data fee of \$3.3 million for TopView that we began to purchase early in 2008. As discussed in this Annual Report on Form 20-F, effective January 1, 2009, we have terminated the offering of TopView products to our customers.

Gross profit

As a result of the foregoing, our gross profit increased by 118% to \$46.9 million in 2008 from \$21.5 million in 2007.

Operating expenses

Our operating expenses increased by 103% to \$34.5 million in 2008 from \$17.0 million in 2007. The increase in our operating expenses was primarily due to expansion in operating scale, including headcount, operation locations, as well as an increase in commission and bonus expenses in line with strong core business results, stock-based compensation expenses and an increase in professional service fees as a result of being a U.S. listed public company. Operating expenses as a percentage of net revenues decreased to 61.4% in 2008 from 65.5% in 2007 because our net revenues grew at a faster rate than the rate of increase in our operating expenses.

General and administrative. Our general and administrative expenses increased by 97% to \$15.4 million in 2008 from \$7.8 million in 2007 due primarily to an increase of \$1.2 million in our employee headcount, and an increase in stock-based compensation of \$5.1 million primarily due to the performance-based restricted stock awards granted in the third quarter of 2007. Our general and administrative expenses as a percentage of net revenues decreased to 27.3% in 2008 from 30.0% in 2007.

Product development. Our product development expenses increased by 148% to \$5.6 million in 2008 from \$2.3 million in 2007, primarily due to the increase in headcounts and depreciation expenses. Our product development expenses increased as a percentage of net revenues to 10% in 2008 from 8.8% in 2007.

Sales and marketing. Our sales and marketing expenses increased by 95% to \$13.5 million in 2008 from \$6.9 million in 2007. This was primarily due to an increase in compensation expenses, particularly commissions and bonus, to our sales and marketing personnel of 1.3 million, and an increase in advertising fees and marketing promotion expense of 4.0 million. Our sales and marketing expenses as a percentage of net revenues decreased to 24% in 2008 from 26.7% in 2007.

Income from operations

Our income from operations was \$12.8 million compared to operating income of \$4.6 million in 2007, and our operating margin increased to 22.7% in 2008 from 17.9% in 2007.

Interest income

Our interest income increased by 46% to \$1.6 million in 2008 from \$1.1 million in 2007 due to an increase in our cash balances derived primarily from an increase in our subscription fees in 2008.

Loss from impairment of cost method investment

In December 2005, we purchased 9,800,000 Series B preferred shares in Moloon for \$15,000,000, which represents a 25% interest in Moloon on an if-converted basis. We do not exert significant influence over the operating and financial activities of Moloon, and, accordingly, the investment has been recorded as a cost method investment. Moloon is a Chinese wireless technology and service provider. During the second half of 2006, China Mobile Communication Corporation announced policy changes which, among others, required mobile value-added service, or MVAS, providers to extend free trial periods for customers prior to subscriptions and to send reminders to

Table of Contents

customers confirming new and existing subscriptions. These policy changes had a substantial negative impact on Moloon's MVAS business. Consequently, following an independent valuation prepared by American Appraisal China Limited, we determined that our investment in Moloon was impaired and recorded an impairment loss of \$1,322,000 in the accompanying consolidated statements of operations for 2006.

Since late 2006 Moloon has taken measures to become a leading provider of mobile gaming services in China. However, despite the new strategies, Moloon's financial conditions deteriorated. Following an independent valuation of our cost method investment in Moloon prepared by American Appraisal China Limited, we recorded a non-cash investment impairment of \$11,127,000 in the accompanying consolidated statements of operations for 2007, reducing the carrying balance of such investment from \$12.61 million to \$1.48 million, 88% off the book value. The Company fully relied on the valuation prepared by American Appraisal China Limited of the Group's cost method investment in Moloon, there was no impairment presented for the year ended December 31, 2008.

We do not expect the impairment charge against our investment in Moloon, or disposal of this investment in the future if possible, to have any adverse impact on our core business.

Income tax benefit

Our wholly owned subsidiaries, CFO Zhengning and CFO Success, enjoy preferential tax treatments in China. CFO Success enjoys exemption from enterprise income tax for 2008 and 2009, and a preferential enterprise income tax rate of 12.5% from 2010 to 2012. CFO Zhengning enjoys exemption from enterprise income tax for 2008, and a preferential enterprise income tax rate of 12.5% from 2009 to 2011. In addition, CFO Software, CFO Genius and CFO Meining classified as High and New Technology Enterprises. CFO Software enjoys a preferential tax rate of 7.5% from 2008 to 2010. CFO Genius and CFO Meining enjoy preferential tax treatment and a preferential enterprise income tax rate of 15%. Furthermore, CFO Stockstar, CFO Jujin and CFO Newrand are entitled to enjoy a reduced tax rate of 18%, 20%, 22% and 24% for the year 2008, 2009, 2010 and 2011 respectively and eventually transition to the standard 25% in 2012. In addition, deferred tax assets and liabilities are recognized for expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and tax credit carryforwards. Accordingly we recognized an income tax benefit of \$2.6 million for 2008.

Net income/(loss)

Our net income was \$19.0 million in 2008 compared to a net loss of \$4.1 million in 2007, and our net margin increased to 33.8% in 2008 from -15.9% in 2007.

Year ended December 31, 2007 compared to year ended December 31, 2006***Revenues***

Our gross revenues increased by 264% from \$7.3 million in 2006 to \$26.6 million in 2007. For our subscription business, individual customers pay the entire subscription fee upfront in cash for services to be received over a specified period of time, typically 12 months. Such subscription fees are recognized as net revenues ratably over the service period, and those that have not been rendered at the end of a reporting period are recorded as deferred revenue in the balance sheet. Deferred revenue at the end of 2007 is \$25.1 million, compared to \$6.4 million at the end of 2006. The significant increase in deferred revenue as of December 31, 2007 is due to our strong performance in the subscription business and such increase in deferred revenue will be recorded as net revenues over the next several quarters.

Our revenues derived from online advertising sales, which were not a sizable business of the Company in 2007, increased to \$1.6 million in 2007 from \$1.3 million in 2006.

Our revenues derived from brokerage income were \$81,000 in 2007, representing 0.3% of total revenues for the year. Our business taxes attributable to our gross revenues increased from \$209,000 in 2006 to \$667,000 in 2007, primarily due to increase in business taxes associated with our increase in subscription and advertising businesses. After taking into account business taxes attributable to our gross revenues, our net revenues increased by 265% to \$25.9 million in 2007 from \$7.1 million in 2006.

Cost of revenues

Table of Contents

Our cost of revenues in 2007 increased by 193% to \$4.4 million from \$1.5 million in 2006 primarily because our website maintenance and development expenses increased to \$2.9 million in 2007 from \$943,000 in 2006, which consists of bandwidth costs, salary and compensation, server depreciation expenses, rent, cost of raw data and content expenses for our jrj.com and stockstar.com websites.

Gross profit

As a result of the foregoing, our gross profit increased by 277% to \$21.5 million in 2007 from \$5.7 million in 2006.

Operating expenses

Our operating expenses increased by 166% to \$17.0 million in 2007 from \$6.4 million in 2006. The increase in our operating expenses was primarily due to expansion in operating scale, including headcount, operation locations, associated with the acquisitions of CFO Stockstar and CFO Genius and Daily Growth Securities, as well as increase in commission and bonus expenses in line with strong core business results, stock-based compensation expenses and the increase in professional service fees as a result of being a U.S. listed public company. Operating expenses as a percentage of net revenues decreased to 65.5% in 2007 from 89.3% in 2005 because our net revenues grew at a faster rate than the rate of increase in our operating expenses.

General and administrative. Our general and administrative expenses increased by 160% to \$7.8 million in 2007 from \$3.0 million in 2006 due primarily to an increase in our employee headcount, an increase in stock-based compensation of \$1.8 million primary due to the performance-based restricted stock awards granted in the third quarter of 2007, the increase in compensation expenses of \$1.0 million, and the increase in professional service fees with the amount of \$717,000. Our general and administrative expenses as a percentage of net revenues decreased to 30.1% in 2007 from 41.5% in 2006.

Product development. Our product development expenses increased by 210% to \$2.3 million in 2007 from \$743,000 in 2006 due primarily to increase in headcount, particularly through the acquisition of CFO Genius. Our product development expenses decreased as a percentage of net revenues to 8.8% in 2007 from 10.4% in 2006.

Sales and marketing. Our sales and marketing expenses increased by 156% to \$6.9 million in 2007 from \$2.7 million in 2006. This primarily due to an increase in compensation expenses, particularly commissions and bonus, to our sales and marketing personal by 336% to \$4.9 million in 2007 from \$1.1 million in 2006. Our sales and marketing expenses as a percentage of net revenues decreased to 26.7% in 2007 from 37.4% in 2006.

Income/(loss) from operations

Our income from operations was \$4.6 million compared to operating loss of \$704,000 in 2006, and our operating margin improved to 17.9% in 2007 from -9.9% in 2006.

Interest income

Our interest income increased by 10% to \$1.1 million in 2007 from \$1.0 million in 2006 due to an increase in our cash balances derived primarily from the increase in our subscription fees in 2007.

Loss from impairment of cost method investment

In December 2005, we purchased 9,800,000 Series B preferred shares in Moloon for \$15,000,000, which represents a 25% interest in Moloon on an if-converted basis. We do not exert significant influence over the operating and financial activities of Moloon, and accordingly, the investment has been recorded as a cost method investment. Moloon is a Chinese wireless technology and service provider. During the second half of 2006, China Mobile Communication Corporation announced policy changes which, among others, required mobile value added service, or MVAS, providers to extend free trial periods for customers prior to subscriptions and to send reminders to customers confirming new and existing subscriptions. These policy changes had a substantial negative impact on Moloon's MVAS business. Consequently, following an independent valuation prepared by America Appraisal China Limited, we determined that its investment in Moloon was impaired and recorded an impairment loss of \$1,322,000 in the accompanying consolidated statements of operations for 2006.

Table of Contents

Since late 2006 Moloon has taken measures to become a leading provider of mobile gaming services in China. However, despite the new strategies Moloon's financial conditions deteriorated and, following an independent valuation of the our cost method investment in Moloon, it was determined that we should record a non-cash investment impairment of \$11,127,000 in the accompanying consolidated statements of operations for 2007, reducing the carrying balance of such investment from \$12.61 million to \$1.48 million, 88% off the book value.

The Company does not expect the impairment charge against its investment in Moloon, or disposal of this investment in the future if possible, to have any adverse impact on its core business.

Income tax benefit

Our wholly owned subsidiary, CFO Beijing, enjoys preferential tax treatments in China, including exemption from enterprise income tax for 2003 and 2004 and a preferential enterprise income tax rate of 12% from 2005 to 2007. CFO Software enjoys preferential tax treatments in China, including exemption from enterprise income tax from 2005 to 2007. CFO Meining, CFO Stockstar and CFO Zhengning, which are wholly foreign owned enterprise registered in Shanghai enjoy preferential tax treatment, preferential enterprise income tax rate of 15%. CFO Genius and CFO Jujin, which are wholly foreign owned enterprise registered in Shenzhen enjoy preferential tax treatment and a preferential enterprise income tax rate of 15%. [In addition, deferred tax assets and liabilities are recognized for expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and tax credit carryforwards.] Accordingly we recognized an income tax benefit of \$809,000 for 2007.

Net loss

As a result of the \$12.61 million non-cash impairment in Moloon, our net loss was \$4.1 million in 2007 compared to net loss \$600,000 in 2006, and our net margin decreased to -15.9% in 2007 from -8.4% in 2006.

B. Liquidity and capital resources.**Cash flows and working capital**

As of December 31, 2008, we had approximately \$97.5 million in cash and cash equivalents. As of the same date, we did not have any outstanding debt. Our cash and cash equivalents primarily consist of cash on hand. We generally deposit our excess cash in interest bearing bank accounts.

The following table shows our cash flows with respect to operating activities, investing activities and financing activities in 2006, 2007 and 2008:

(in thousands of U.S. dollars)	For the year ended December 31		
	2006	2007	2008
Net cash provided by operating activities	\$ 5,892	\$28,426	\$27,849
Net cash used in investing activities	(8,202)	(4,830)	(7,410)
Net cash (used in) provided by financing activities	76	3,226	573
Net (decrease) increase in cash and cash equivalents	(1,213)	29,773	22,815
Cash and cash equivalents at beginning of year	46,168	44,956	74,729
Cash and cash equivalents at end of year	\$44,956	\$74,729	\$97,544

Net cash provided by operating activities was \$27.9 million in 2008 compared to \$28.4 million in 2007. The decrease was primarily due to the prepaid advertising expenses in 2008.

Net cash used in investing activities was \$7.5 million in 2008, compared to net cash used in investing activities of \$4.8 million in 2007.

Net cash provided by financing activities was \$573,000, mainly due to the proceeds from exercise of stock options by our employees and consultants. Net cash used in financing activities in 2007 was \$3.2 million. We currently intend to retain all available funds and any future earnings for use in the operation and expansion of our business and do not anticipate paying any cash dividends on our ordinary shares, or indirectly on our ADSs, for the foreseeable future.

Capital resources

Table of Contents

Our principal capital expenditures for 2006, 2007 and 2008 consisted of primarily purchases of servers, workstations, computers, computer software, and other items related to our network infrastructure for a total of approximately \$1.0 million, \$3.8 million and \$5.0 million, respectively.

Capital expenditures in 2007 and 2008 have been, and our 2009 capital expenditures are expected to continue to be, funded through operating cash flows and through our existing capital resources. We believe that our current cash and cash equivalents, and cash flow from operations will be sufficient to meet our anticipated cash needs, including for our working capital and capital expenditure needs, for the foreseeable future. We may, however, require additional cash resources due to changes in business conditions or other future developments. If these sources are insufficient to satisfy our cash requirements, we may seek to sell debt securities or additional equity securities or obtain a credit facility. The sale of convertible debt securities or additional equity securities could result in additional dilution to our shareholders. The incurrence of indebtedness would result in debt service obligations and could result in operating and financial covenants that would restrict our operations. We cannot assure you that financing will be available in amounts or on terms acceptable to us, if at all.

From time to time, we also evaluate possible investments, acquisitions or divestments and may, if a suitable opportunity arises, make an investment or acquisition or conduct a divestment.

Restricted net assets

Relevant PRC laws and regulations permit payments of dividends by our PRC subsidiary and affiliate only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. In addition, the statutory general reserve fund, which requires annual appropriations of 10% of net after-tax income should be set aside prior to payment of any dividends. As a result of these and other restrictions under PRC laws and regulations, our PRC subsidiary and affiliate are restricted in their ability to transfer a portion of their net assets to us either in the form of dividends, loans or advances, restricted portion amounted to approximately \$56 million, or 57.98%, of our total consolidated net assets as of December 31, 2008.

Even though we currently do not require any such dividends, loans or advances from our PRC subsidiary and affiliate, we may in the future require additional cash resources from our PRC subsidiary and affiliate due to changes in business conditions, to fund future acquisitions or developments, or merely to declare and pay dividends or distributions to our shareholders, although we currently have no intention to do so.

C. Research and development.

Our research and development efforts consist of continuing to:

- increase the breadth of our service offerings through the addition of new features and functions to our service packages;

- enhance our subscribers' experience by improving the quality of our research tools and website; and

- develop additional research tools, features and content specifically targeting the high-end subscribers.

D. Trend information.

Other than as disclosed elsewhere in this annual report, we are not aware of any trends, uncertainties, demands, commitments or events for the period from January 1, 2008 to December 31, 2008 that are reasonably likely to have a material effect on our net revenues, income, profitability, liquidity or capital resources, or that caused the disclosed financial information to be not necessarily indicative of future operating results or financial conditions.

E. Off-balance sheet arrangements.

We do not have any outstanding derivative financial instruments, off-balance sheet guarantees, interest rate swap transactions or foreign currency forward contracts. We do not engage in trading activities involving non-exchange traded contracts.

F. Tabular disclosure of contractual obligations.

Table of Contents

We have entered into arrangements relating to office premises leasing and data purchase agreement. The following sets forth our known contractual obligations as of December 31, 2008 and as of the types that are specified below:

	Office Premises	Data Purchase <i>(in U.S. dollars)</i>	Total
Less than 1 year	1,905,425	501,026	2,406,451
1 - 3 years	1,801,015	35,116	1,836,131
3 - 5 years			

Apart from such premises, as of December 31, 2008, we did not have any long-term debt obligations, capital (finance) lease obligations, purchase obligations or any other long-term liabilities reflected on our balance sheets with durations to maturity as are set forth in the chart directly above.

G. Quantitative and qualitative disclosures about market risk.**Interest rate risk**

Our exposure to market rate risk for changes in interest rates relates primarily to the interest income generated by excess cash invested in short term money market accounts and certificates of deposit. We have not used derivative financial instruments in our investment portfolio. Interest earning instruments carry a degree of interest rate risk. We have not been exposed nor do we anticipate being exposed to material risks due to changes in interest rates. However, our future interest income may fall short of expectations due to changes in interest rates.

Foreign currency risk

Substantially all our revenues and expenses are denominated in Renminbi and a substantial portion of our cash is kept in Renminbi, but as noted above, a portion of our cash is also kept in U.S. dollars. Although we believe that, in general, our exposure to foreign exchange risks should be limited, the value of our American Depositary Shares, or ADSs, will be affected by the foreign exchange rate between U.S. dollars and Renminbi. For example, to the extent that we need to convert U.S. dollars into Renminbi for our operational needs and the Renminbi appreciates against the U.S. dollar at that time, our financial position and the price of our ADSs may be adversely affected. Conversely, if we decide to convert our Renminbi into U.S. dollars for the purpose of declaring dividends on our ADSs or otherwise and the U.S. dollar appreciates against the Renminbi, the U.S. dollar equivalent of our earnings from our subsidiaries and controlled entities in China would be reduced.

We have recorded foreign exchange gains of \$1.5 million in net income in 2008, due to the recent revaluation of RMB against the U.S. dollar by Chinese government. On July 21, 2005, the Chinese government changed its policy of pegging the value of the Renminbi to that of U.S. dollar. Under the new policy, the Renminbi has fluctuated within a narrow and managed band against a basket of certain foreign currencies. As a result, the Renminbi appreciated approximately 6.6% and 6.5% against the U.S. dollar in 2007 and 2008, respectively, and may appreciate or depreciate significantly in value against the US dollar or other foreign currencies in the long term. Since we have not engaged in any hedging activities, we may experience economic loss as a result of any foreign currency exchange rate fluctuations.

H. Recent accounting standards.

In September 2006, FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). Effective January 1, 2008, the Group adopted the measurement and disclosure other than those requirements related to nonfinancial assets and liabilities in accordance with guidance from FASB Staff Position 157-2, Effective Date of FASB Statement No. 157, which delayed the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), until the beginning of fiscal year 2009. The Group does not believe that the adoption of SFAS 157 for nonfinancial assets and liabilities would have a significant effect on its consolidated financial position or results of operations.

In December 2007, the FASB issued SFAS No. 141(Revised 2007), Business Combination (SFAS 141(R)), to improve consistency in the accounting and financial reporting of business combinations. The standard requires the acquiring entity in a business combination to recognize all (and only) the assets acquired and liabilities assumed in the transaction; establishes the acquisition-date fair value as the measurement objective for all assets acquired and

liabilities assumed; and requires the acquirer to disclose to investors and other users all of the information they need

Table of Contents

to evaluate and understand the nature and financial effect of the business combination. SFAS 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. An entity may not apply it before that date. The Group does not believe that the adoption of SFAS 141(R) would have a significant effect on its consolidated financial position or results of operations.

On April 1, 2009, the FASB issued a FASB Staff Position (FSP) No. 141(R)-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies*. This FSP amends and clarifies SFAS 141(R) to address application issues on initial recognition and measurement, subsequent measurement and accounting, and disclosure of assets and liabilities arising from contingencies in a business combination. FSP FAS 141(R)-1 shall be effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Group does not believe that the adoption of FSP FAS 141(R)-1 would have a significant effect on its consolidated financial position or results of operations.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements (SFAS 160)* to improve the relevance, comparability, and transparency of financial information provided to investors by requiring all entities to report noncontrolling (minority) interests in subsidiaries in the same way as required in the consolidated financial statements. Moreover, SFAS 160 eliminates the diversity that currently exists in accounting for transactions between an entity and noncontrolling interests by requiring they be treated as equity transaction. SFAS 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited. The Group does not believe that the adoption of SFAS 160 would have a significant effect on its consolidated financial position or results of operations.

In April 2008, the FASB issued FASB Staff Position FAS 142-3, *Determination of the Useful Life of Intangible Assets*. This FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under FASB Statement No. 142, *Goodwill and Other Intangible Assets*. This FSP is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is prohibited. The guidance for determining the useful life of a recognized intangible asset in this FSP shall be applied prospectively to intangible assets acquired after the effective date. The Group does not believe that the adoption of FASB Staff Position FAS142-3 would have a significant effect on its consolidated financial position or results of operations.

At the November 24, 2008 meeting, the FASB ratified the consensus reached by the Task Force in Issue No. 08-6, *Equity Method Investment Accounting Considerations (EITF 08-6)*. Because of the significant changes to the guidance on subsidiary acquisitions and subsidiary equity transactions and the increased use of fair value measurements as a result of SFAS No. 141R and SFAS No. 160, questions have arisen regarding the application of that accounting guidance to equity method investments. EITF 08-6 provides guidance for entities that acquire or hold investments accounted for under the equity method. EITF 08-6 is effective for transactions occurring in fiscal years and interim periods beginning on or after December 15, 2008. Early adoption is not permitted. The Group does not believe that the adoption of EITF 08-6 would have a significant effect on its consolidated financial position or results of operations.

At the June 25, 2008 meeting, the FASB ratified the consensus reached by the Task Force in Issue EITF No. 07-5, *Determining Whether an Instrument (or Embedded Feature) Is Indexed to an Entity's Own Stock (EITF 07-5)*. EITF 07-5 provides guidance for determining whether an equity-linked financial instrument (or embedded feature) is indexed to an entity's own stock. This Issue's fixed-for-fixed, plus fair value inputs model is largely consistent with current interpretations of the phrase indexed to an entity's own stock. However, in certain circumstances, EITF 07-5 may result in changes to those accounting conclusions and may have impact on issuers of equity-linked financial instruments (e.g., options or forward contracts) or instruments containing embedded features (e.g., embedded conversion options in a convertible instrument) that have (1) exercise or settlement contingency provisions, (2) a strike price that is subject to adjustment, or (3) a strike price that is denominated in a currency other than the entity's functional currency. It is applied to outstanding instruments as of January 1, 2009. The Group does not believe that the adoption of EITF 07-5 would have a significant effect on its consolidated financial position or results of operations.

In November 2008 the FASB ratified EITF Issue No. 08-7, *Accounting for Defensive Intangible Assets*, (EITF 08-7). EITF 08-7 applies to defensive intangible assets, which are acquired intangible assets that the acquirer does not intend to actively use but intends to hold to prevent its competitors from obtaining access to them. As these assets

Table of Contents

are separately identifiable, EITF 08-7 requires an acquiring entity to account for defensive intangible assets as a separate unit of accounting which should be amortized to expense over the period the asset diminished in value. Defensive intangible assets must be recognized at fair value in accordance with SFAS 141(R) and SFAS 157. EITF 08-7 is effective for financial statements issued for fiscal years beginning after December 15, 2008. The Group does not believe that the adoption of EITF 08-7 would have a significant effect on its consolidated financial position or results of operations.

In November, 2008, the Task Force affirmed as a consensus that EITF Issue No.08-8, Accounting for an Instrument (or an Embedded Feature) with a Settlement Amount That Is Based on the Stock of an Entity's Consolidated Subsidiary (EITF 08-8) shall be effective for fiscal years beginning on or after December 15, 2008, and interim periods within those fiscal years. Under EITF 08-8, freestanding financial instruments(or embedded features) that are indexed to, in whole or in part, the stock of a consolidated subsidiary are considered indexed to the entity's own stock in the consolidated financial statements if (1) the requirements of Issue 07-5 are met and (2) the subsidiary is a substantive entity. The Group does not believe that the adoption of EITF 08-8 would have a significant effect on its consolidated financial position or results of operations.

On April 9, 2009, the FASB issued FASB Staff Position (FSP) No. FAS 107-1 and APB 28-1, Interim Disclosures about Fair Value of Financial Instruments . This FSP amends FASB Statement No. 107, Disclosures about Fair Value of Financial Instruments , to require disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. This FSP also amends APB Opinion No. 28, Interim Financial Reporting , to require those disclosures in summarized financial information at interim reporting periods. This FSP will be effective on April 1, 2009. This FSP does not require disclosures for earlier periods presented for comparative purposes at initial adoption. In periods after initial adoption, this FSP requires comparative disclosures only for periods ending after initial adoption. The Group does not believe that the adoption of this FSP would have a significant effect on its consolidated financial position or results of operations.

On April 9, 2009, the FASB issued FSP No. FAS 115-2 and FAS 124-2, Recognition and Presentation of Other-Than-Temporary Impairments . This FSP amends the other-than-temporary impairment guidance in U.S. GAAP for debt securities to make the guidance more operational and to improve the presentation and disclosure of other-than-temporary impairments on debt and equity securities in the financial statements. This FSP does not amend existing recognition and measurement guidance related to other-than-temporary impairments of equity securities. The FSP will be effective on April 1, 2009. This FSP does not require disclosures for earlier periods presented for comparative purposes at initial adoption. In periods after initial adoption, this FSP requires comparative disclosures only for periods ending after initial adoption. The Group does not believe that the adoption of this FSP would have a significant effect on its consolidated financial position or results of operations.

On April 9, 2009, the FASB issued FSP No. FAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly . This FSP provides additional guidance for estimating fair value in accordance with FASB Statement No. 157, Fair Value Measurements , when the volume and level of activity for the asset or liability have significantly decreased. This FSP also includes guidance on identifying circumstances that indicate a transaction is not orderly. This FSP emphasizes that even if there has been a significant decrease in the volume and level of activity for the asset or liability and regardless of the valuation technique(s) used, the objective of a fair value measurement remains the same. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. This FSP will be effective on April 1, 2009 and will be applied prospectively. This FSP does not require disclosures for earlier periods presented for comparative purposes at initial adoption. In periods after initial adoption, this FSP requires comparative disclosures only for periods ending after initial adoption. The Group does not believe that the adoption of this FSP would have a significant effect on its consolidated financial position or results of operations.

ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES**A. Directors and senior management.**

The following table sets forth the name, age and position of each director and executive officer of our company as of December 31, 2008.

Table of Contents

Name	Age	Position
Zhiwei Zhao	45	Chief Executive Officer and a member of the Board of Directors
Hugo Shong	52	Chairman of the Board of Directors
Kheng Nam Lee(1)	61	Director
Ling Wang(1)(2)(3)	46	Director
Fansheng Guo(1)(2)(3)	53	Director
Jun (Jeff) Wang	38	Chief Financial Officer
Caogang Li	43	Chief Operating Officer
Zuoli Xu	39	Chief Strategy Officer

(1) Member, audit committee

(2) Member, compensation committee

(3) Member, nominations committee

The address of each of our executive officers and directors is 9th Floor of Tower C, Corporate Square, No. 35 Financial Street, Xicheng District, Beijing, China 100140.

Mr. Zuoli Xu, was named Chief Strategy Officer with effect from May 12, 2008.

Biographical Information

Hugo Shong has served as our director since May 2004. He was elected as the Chairman of our Board of Directors as of July 25, 2005 and has been in that position since then. Mr. Shong has been an executive vice president of International Data Group, Inc., or IDG, since 2001, the president of IDG Asia since 1995, a director of IDG Technology Venture Investment, Inc., or IDGVC Partners, since 1994, and a member of IDG Technology Venture Investments, LLC, the general partner of IDG Technology Venture Investments, LP, since 2000. Mr. Shong has headed a number of operations for IDG including in information technology, publishing, market research and tradeshows in the Asia Pacific region. Mr. Shong graduated from Hunan University with a Bachelor of Arts degree in English, followed by a Master of Science degree from the Boston University College of Communications.

Zhiwei Zhao has served as our Chief Executive Officer since June 21, 2005 and our director since July 25, 2005.

Mr. Zhao was the Chairman of the Board of Directors of Abitcool Inc before joining us. Abitcool is a company that provides broadband internet services in China. It boasts the largest private Internet Data Center in China. From 1998 to 2005, he served as the General Manager of Huatong International Development Limited in Hong Kong. Mr. Zhao graduated with a Bachelor of Science degree from Huazhong University of Science and Technology.

Kheng Nam Lee has served as our director since May 2004. Mr. Lee was the president of Vertex Management (II) Pte Ltd, a management company for venture capital funds, from March 1995 to February 2004 and was also a director of Vertex Venture Holdings Ltd (VVH) from December 1997 to February 2004, both of which are affiliates of Vertex Technology Fund (III) Ltd. He has since rejoined the Board of VVH and has been appointed as Chairman from 1 September 2008. Mr. Lee is a director of Creative Technology Ltd and has served as a director of ActivCard Corp, Centillium Communications Inc., Creative Lab Inc., GRIC Communications Inc., Gemplus International SA and Semiconductor Manufacturing International Corporation. Mr. Lee holds a Bachelor of Science degree in mechanical engineering, with first class honors, from Queen's University, Canada and a Master of Science degree in operations research and systems analysis from the U.S. Naval Postgraduate School.

Ling Wang has served as our director since May 2004. Mr. Wang is the chairman and chief executive officer of GCTech Company Limited, a company that provides systems integration and software development services to the telecommunications industry, which he founded in 1994. Since 2003, he has been a director of Tiantian Online Co., Ltd., a provider of broadband Internet audio-visual programs (or Internet TV) in the PRC. Mr. Wang graduated with a Bachelor of Science degree in Mathematics from the University of Science and Technology of China, and also has a Master of Science degree in automation control from the Beijing Institute of Information Control.

Fansheng Guo has served as our director since May 2004. Mr. Guo is the chairman, chief executive officer and president of HC International, Inc., a Hong Kong listed company that provides business information services in the PRC, which he founded in 1990. Mr. Guo obtained a Bachelor of Arts degree in Industrial Economics from Renmin University of China.

Jun (Jeff) Wang has served as our Chief Financial Officer since August 15, 2006, and joined our company as Vice President of Finance in May 2006. Mr. Wang was a Senior Manager in the Tax and Business Advisory Services at

Table of Contents

Deloitte Beijing Office before joining us. From 2002 to 2005 Jun Wang was founder and president of Miracle Professional Services Inc., a company that provided training and consulting services to finance professionals. Prior to that Mr. Wang worked in Deloitte's Beijing, London and New York offices, providing tax and business advisory and management consulting services. Mr. Wang obtained his Master of Business Administration from New York University's Leonard N. Stern School of Business, his Master of Economics in accounting from Beijing Technology and Business University and his B.A. degree from Shandong University. Mr. Wang is a CFA charterholder, and a Certified Management Accountant.

Dr. Caogang Li has served as our Chief Operating Officer since March 3, 2008, and joined our company as Vice President of Sales and Marketing in August 2005. Before joining us, Dr. Li was the corporate vice president of China Asset Management Co., Ltd., the largest mutual fund management firm in China in terms of asset under management. Prior to that, Dr. Li was in charge of the brokerage business at China Securities Ltd., which, now merged with CITIC Securities, was one of the leading securities firms in China. Dr. Li holds an MBA from University of Missouri, a Ph. D. in Management and a Master's degree in Economics from Nanjing University.

Zuoli (Alex) Xu has served as our Chief Strategy Officer since May 12, 2008. Mr. Xu has over 10 year of experience in finance and information technology, including 6 years investment research and capital market in New York at Brean Murray, Bank of America Securities and UBS. Mr. Xu is a CFA charter holder, and received his MBA from Cornell University.

B. Compensation of directors and executive officers.

In 2008, we paid aggregate cash compensation of approximately \$529,500 to our directors and executive officers as a group. In 2007, we granted to selected directors and officers to acquire 2,200,000 and 10,558,493 ordinary shares under the 2004 Stock Incentive Plan and the performance based 2007 Equity Incentive Plan, respectively. We have no service contracts with any of our directors or executive officers that provide benefits to them upon termination, except for change in control agreements we entered into with each of our chief executive officer and chief financial officer.

The change in control agreements provide that if after a change-of-control of our company has occurred, the chief executive officer or chief financial officer is terminated without cause or resigns for good reason, we are obligated to provide severance benefits to the chief executive or chief financial officer.

All of our current directors and executive officers have entered into indemnification agreements in which we agree to indemnify, to the fullest extent allowed by Hong Kong law, our charter documents or other applicable law, our directors and executive officers from any liability or expenses, unless the liability or expense arises from the director or executive officer's own willful negligence, intentional malfeasance, bad faith act, or other transactions from which the director or executive officer may not be relieved of liability under applicable law. The indemnification agreements also specify the procedures to be followed with respect to indemnification.

Directors and officers liability insurance

We have renewed directors' and officers' liability insurance on behalf of our directors and officers that will expire in January 2010.

Employee's stock option plan

We adopted the 2004 Stock Incentive Plan, or the Plan, in January 2004. The Plan is intended to promote our success and to increase shareholder value by providing an additional means to attract, motivate, retain and reward selected directors, officers, employees and other eligible persons. We amended the Plan in September 2004 to increase the total number of ordinary shares issuable under the Plan to 10,688,488. In July 2006, we granted options to purchase up to 700,000 ordinary shares to selected officers under the Plan. We amended the Plan again in December 2006 to increase the total number of ordinary shares reserved for issuance under the Plan to 15,688,488. In 2007, we granted to selected directors, officers, employees, individual consultants and advisors under the Plan options with the right to purchase up to 3,848,000 ordinary shares, of which 172,760 unvested options had been returned to the pool of our ungranted options as a result of resignation from employment by a few former employees. In 2008, we granted to selected directors, officers, employees, individual consultants and advisors under the Plan options with a right to purchase up to 2,820,840 ordinary shares, of which 970,000 unvested options has returned to the pool of our ungranted options as a result of resignation from employment by several former employees. As of December 31, 2008 we may grant options to purchase up to an additional 297,560 ordinary shares under the Plan.

Table of Contents

The options we granted in January and February of 2004 have an exercise price of \$0.16 per share and will expire on March 5, 2009. The options we granted in June 2004 have an exercise price of \$1.04 per share and will expire on March 5, 2009. The options we granted in February 2005 have an exercise price of \$1.31 per share and will expire on February 18, 2015. The exercise price for the 400,000 and 200,000 options we granted in November 2005 were \$1.12 and \$1.16 per share respectively. The 700,000 options we granted in July 2006 have an exercise price of \$1.07 per share and will expire on July 4, 2016. The 3,272,000 options we granted in January 2007 under the Plan have an exercise price of \$0.96 per share and will expire on January 17, 2017. The 100,000 and 150,000 options we granted in April and May, 2007 have exercise prices of \$1.25 and \$1.318 per share, respectively, and will expire on April 4, 2017 and May 9, 2017, respectively. The 323,000 and 3,000 options we granted in August and September 2007 have exercise prices of \$2.03 and 2.188 per share, respectively, and will expire on August 26, 2017 and September 3, 2017, respectively. The 390,000 and 100,000 options we granted in January and March, 2008, respectively, have exercise prices of \$2.44 and \$2.70 per share, respectively, and will expire on January 21, 2018 and March 18, 2018, respectively. The 100,000 and 150,000 options we granted in June and December, 2008, respectively, have exercise prices of \$3.134 and \$1.26 per share respectively, and will expire on June 26, 2018 and November 30, 2018, respectively.

Options granted under the Plan generally do not vest unless the grantee remains under our employment or in service with us on the given vesting date. However, in circumstances where there is a death or disability of the grantee, or a change in the control of our company, the vesting of options will be accelerated to permit immediate exercise of all options granted to a grantee. Generally, to the extent an outstanding option granted under the Plan has not vested by the date the grantee's employment or service with us terminates, the option will terminate and become unexercisable. Our board of directors may amend, alter, suspend, or terminate the Plan at any time, provided, however, that our board of directors must first seek the approval of our shareholders and, if such amendment, alteration, suspension or termination would adversely affect the rights of an optionee under any option granted prior to that date, the approval of such optionee. Under the Plan, as of December 31, 2008, we have a total number of 6,295,098 options that are currently vested and exercisable for ordinary shares.

The table below sets forth the option grants made to our directors and executive officers pursuant to the Plan:

	Number of ordinary Shares to be issued upon exercise of options	Exercise price per ordinary share	Date of grant	Date of expiration
Zhiwei Zhao	400,000	\$ 1.120	November 15, 2005	November 15, 2015
	400,000	\$ 1.070	July 5, 2006	July 5, 2016
	800,000	\$ 0.960	January 18, 2007	January 17, 2017
Hugo Shong	*	\$ 0.160	January 5, 2004	March 5, 2009
	*	\$ 1.040	June 15, 2004	March 5, 2009
	*	\$ 1.314	February 18, 2005	February 18, 2015
	*	\$ 0.960	January 18, 2007	January 17, 2017
Kheng Nam Lee	*	\$ 0.160	February 18, 2004	March 5, 2009
	*	\$ 1.040	June 15, 2004	March 5, 2009
	*	\$ 1.314	February 18, 2005	February 18, 2015
	*	\$ 0.960	January 18, 2007	January 17, 2017
Fansheng Guo	*	\$ 0.160	January 5, 2004	March 5, 2009
	*	\$ 1.040	June 15, 2004	March 5, 2009
	*	\$ 1.314	February 18, 2005	February 18, 2015
	*	\$ 0.960	January 18, 2007	January 17, 2017
Ling Wang	*	\$ 0.160	January 5, 2004	March 5, 2009

Edgar Filing: China Finance Online Co. LTD - Form 20-F

	*	\$ 1.040	June 15, 2004	March 5, 2009
	*	\$ 1.314	February 18, 2005	February 18, 2015
	*	\$ 0.960	January 18, 2007	January 17, 2017
Jun (Jeff) Wang	*	\$ 1.070	July 5, 2006	July 5, 2016
	*	\$ 0.960	January 18, 2007	January 17, 2017
Caogang Li	*	\$ 1.158	November 30, 2005	November 30, 2015
	*	\$ 0.96	January 18, 2007	January 17, 2017
Zuoli Xu	*	\$ 1.26	December 1, 2008	November 30, 2018

* Upon exercise of all options granted, would beneficially own less than 1% of our outstanding ordinary shares.

Table of Contents**Equity Incentive Plan**

On July 2, 2007, we granted restricted stock awards covering 10,558,493 ordinary shares of the company under our 2007 Equity Incentive Plan to our employees who are eligible for the 2007 Equity Incentive Plan. The vesting of the restrictive stock are subject to us achieving certain financial performance targets stated in the 2007 Equity Incentive Plan. In order to bind the employees together in achieving the common goal, the ordinary shares are held by C&F International Holdings Limited for the benefit whole group of eligible employees. Pursuant to the 2007 Equity Incentive Plan and the restricted stock issuance and allocation agreement effective as of July, 2, 2007, we issued 10,558,493 ordinary shares to C&F International Holdings Limited, a company incorporated in British Virgin Islands, which holds the ordinary shares on behalf of and exclusively for the benefit of the group of employees eligible for the 2007 Equity Incentive Plan. C&F International Holdings Limited is 100% owned by C&F Global Limited, a British Virgin Islands Company, which is in turn owned by the grantees. As of December 31, 2007, 10,558,493 ordinary shares have been issued and allotted to selected employees pursuant to the 2007 Equity Incentive Plan. Based on the Company's operating performance during 2008, 4,329,024 shares were vested as of December 31, 2008.

The table below sets forth the nonvested shares issued and allotted to selected employees pursuant to the Plan:

Name	Number	Percent
Selected Employees		
Zhiwei Zhao	8,958,493	8.16%
Jun (Jeff) Wang	*	*
Caogang Li	*	*
All executive officers as a group (3 persons)	10,558,493	9.62%

C. Board practices.

In 2008, our directors met in person or passed resolutions by unanimous written consent eight times. No director attended fewer than 75% of all the meetings of our board and its committees on which he served after becoming a member of our board. No director is entitled to any severance benefits upon termination of his directorship with us. Our board of directors has also concluded that Mr. Kheng Nam Lee meets the criteria for an audit committee financial expert as established by the SEC.

Board committees

Our board of directors has established an audit committee, a compensation committee and a nominations committee. *Audit committee.* Our audit committee currently consists of Kheng Nam Lee, Ling Wang and Fansheng Guo. Our board of directors has determined that all of our audit committee members are independent directors within the meaning of Nasdaq Marketplace Rule 4200(a)(15) and meet the criteria for independence set forth in Section 10A(m)(3) of the U.S. Securities Exchange Act of 1934, or the Exchange Act. Our audit committee is responsible for, among other things:

recommending to our shareholders, if appropriate, the annual re-appointment of our independent registered public accounting firm and pre-approving all auditing and non-auditing service fees permitted to be performed by the independent registered public accounting firm;

annually reviewing an independent registered public accounting firm's report describing the independent registered public accounting firm's internal quality-control procedures, any material issues raised by the most recent internal quality control review, or peer review, of the independent registered public accounting firm and all relationships between the independent registered public accounting firm and our company;

setting clear hiring policies for employees or former employees of the independent registered public accounting firm;

reviewing with the independent registered public accounting firm any audit problems or difficulties and management's response;

reviewing and approving all proposed related-party transactions, as defined in Item 404 of Regulation S-K under the U.S. securities laws;

Table of Contents

discussing the annual audited financial statements with management and the independent registered public accounting firm;

discussing with management and the independent registered public accounting firm major issues regarding accounting principles and financial statement presentations; reviewing reports prepared by management or the independent auditors relating to significant financial reporting issues and judgments;

reviewing reports prepared by management or the independent registered public accounting firm relating to significant financial reporting issues and judgments;

discussing earnings press releases, as well as financial information and earnings guidance provided to analysts and rating agencies;

reviewing with management and the independent registered public accounting firm the effect of regulatory and accounting initiatives, as well as off-balance sheet structures on our financial statements;

discussing policies with respect to risk assessment and risk management;

reviewing major issues as to the adequacy of our internal controls and any special audit steps adopted in light of material control deficiencies;

timely reviewing annual reports from the independent registered public accounting firm regarding all critical accounting policies and practices to be adopted by our company, all alternative treatments of financial information within U.S. GAAP that have been discussed with management and all other material written communications between the independent registered public accounting firm and management;

establishing procedures for the receipt, retention and treatment of complaints received from our employees regarding accounting, internal accounting controls or auditing matters and the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters;

annually reviewing and reassessing the adequacy of our audit committee charter;

such other matters that are specifically delegated to our audit committee by our board of directors from time to time;

meeting separately, periodically, with management and the independent registered public accounting firm; and

reporting regularly to the full board of directors.

Compensation committee. Our current compensation committee consists of Ling Wang and Fansheng Guo. Our board of directors has determined that all of our compensation committee members are independent directors within the meaning of Nasdaq Marketplace Rule 4200(a)(15). Our compensation committee is responsible for:

determining and recommending the compensation of our senior management;

reviewing and making recommendations to our board of directors regarding our compensation policies and forms of compensation provided to our directors and officers;

reviewing and determining bonuses for our officers and other employees;

reviewing and determining stock-based compensation for our directors, officers, employees and consultants;

administering our equity incentive plans in accordance with the terms thereof; and

such other matters that are specifically delegated to the compensation committee by our board of directors from time to time.

Table of Contents

Nominations committee. Our current nominations committee consists of Ling Wang and Fansheng Guo. Our board of directors has determined that all of our nominations committee members are independent directors within the meaning of Nasdaq Marketplace Rule 4200(a)(15). Our nominations committee is responsible for, among other things, selecting and recommending the appointment of new directors to our board of directors.

Corporate governance

Our board of directors has adopted a code of ethics, which is applicable to our senior executive and financial officers. In addition, our board of directors has adopted a code of conduct, which is applicable to all of our directors, officers and employees. Our code of ethics and our code of conduct are publicly available on our website.

In addition, our board of directors has adopted a set of corporate governance guidelines. The guidelines reflect certain guiding principles with respect to our board's structure, procedures and committees. The guidelines are not intended to change or interpret any law, or our memorandum and articles of association.

Duties of directors

Under Hong Kong law, our directors have a duty of loyalty to act honestly in good faith with a view to our best interests. Our directors also have a duty to exercise the care, diligence and skills that a reasonable person with that director's qualifications and experience would exercise in comparable circumstances. In fulfilling their duty of care to us, our directors must ensure compliance with our memorandum and articles of association.

The functions and powers of our board of directors include, among others:

convening shareholders' meetings and reporting its work to shareholders at such meetings;

implementing shareholders' resolutions;

determining our business plans and investment proposals;

formulating our profit distribution plans and loss recovery plans;

determining our debt and finance policies and recommending proposals for the increase or decrease in our share capital and the issuance of debentures;

formulating our major acquisition and disposition plans, and plans for consolidation, division or dissolution;

proposing amendments to our articles of association; and

exercising any other powers conferred at shareholders' meetings or under our memorandum and articles of association.

Terms of directors and executive officers

We have a staggered board, which means our directors, excluding our chief executive officer, are divided into two classes, with half of our board, excluding our chief executive officer, standing for election every two years. Our chief executive officer will at all times be a director, and will not retire as a director, so long as he remains as the chief executive officer. Accordingly, our directors, excluding our chief executive officer, hold office until the second annual meeting of shareholders following their election, or until their successors have been duly elected and qualified. Our board has adopted a policy providing that no director may be nominated for re-election or re-appointment to our board after reaching 70 years of age, unless our board concludes that such person's continued service as our director is in our best interest. Officers are elected by and serve at the discretion of the board of directors.

D. Employees. Most of our full-time employees are located in Beijing, Shanghai, Shenzhen and Hong Kong with the remainder in miscellaneous locations. 533 are located in Beijing; 509 are located in Shanghai; 270 are located in Shenzhen; and 23 are located in Hong Kong as of Dec. 31, 2008.

We believe we maintain a good working relationship with our employees.

Table of Contents

China enacted a new Labor Contract Law, which became effective on January 1, 2008. We have updated our employment contracts and employee handbook and is in compliance with the new law. We will work with the employees to insure that the employees obtain the full benefit of the new Labor Contract Law and its implementary rules. We do not anticipate that changes in the law will materially impact our balance sheet or cash flow.

E. Share ownership.

As of December 31, 2008, 110,014,433 of our ordinary shares were outstanding, excluding shares issuable upon exercise of outstanding options. On that date, a total of 16,896,231 of our ADSs were outstanding.

The following table sets forth information with respect to the beneficial ownership, within the meaning of Section 13(d)(3) of the U.S. Securities Exchange Act of 1934, as amended, or the Exchange Act, of our ordinary shares by:

each person known to us to own beneficially more than 5% of our ordinary shares; and

each of our directors and executive officers who beneficially own any of our ordinary shares.

Beneficial ownership includes voting or investment power with respect to the securities. Except as indicated below, and subject to applicable community property laws, the persons named in the table have sole voting and investment power with respect to all ordinary shares shown as beneficially owned by them. Percentage of beneficial ownership is based on 110,014,433 ordinary shares outstanding.

* Unless otherwise noted, the address of each shareholder is China Finance Online (Beijing) Co., Ltd., 9th Floor of Tower C, Corporate Square, No.35 Financial Street, Xicheng District, Beijing, China 100140.

A. Major shareholders.

Please refer to Item 6. Directors, Senior Management and Employees Share Ownership

B. Related party transactions.

Contractual arrangements with CFO Fuhua and its shareholders.

PRC law currently limits foreign equity ownership of companies that provide internet content business. To comply with these foreign ownership restrictions, we operate our online business in China through CFO Fuhua. We entered into a series of contractual arrangements with CFO Fuha and its shareholders in 2004, including contracts relating to the leasing of equipment, the licensing of our domain name, the provision of technical support services and strategic consulting and certain shareholder rights and corporate government matters. Upon the transfer of Jun Ning and Wu Chen's holdings in CFO Fuhua to Zhiwei Zhao and Jun Wang in November 2007 and October 2007, respectively, Zhiwei Zhao and Jun Wang replaced Jun Ning and Wu Chen, respectively, as a party to each of the contractual

Table of Contents

arrangements that we had entered into with Jun Ning and Wu Chen with respect to their holdings in CFO Fuhua and the operation of CFO Fuhua.

Loan Agreements. We entered into a loan agreement with Zhiwei Zhao effective November 30, 2006 to extend to Mr. Zhao a loan in the amount of \$163,000, for the sole purpose of financing his acquisition of the equity interests of CFO Fuhua from Jun Ning. The initial term of these loans is 10 years which may be extended upon the parties agreement. Zhiwei Zhao can only repay the loans by transferring all of his interest in CFO Fuhua to us or a third party designated by us. When Zhiwei Zhao transfers his interest in CFO Fuhua to us or our designee, if the actual transfer price is higher than the principal amount of the loans, the amount exceeding the principal amount of the loans will be deemed as interest accrued on such loans and repaid by Zhiwei Zhao to us. While Hong Kong law limits the maximum interest payment chargeable under a loan to 60% of the outstanding principal amount per annum, this limitation would only be relevant if, at the time of a future transfer to us of the interest in CFO Fuhua held by Zhiwei Zhao, the actual value of CFO Fuhua were to have increased at an average annual rate greater than 60%. CFO Fuhua's assets currently consist primarily of registered capital and licenses to provide Internet content and advertising related services, and its operations are primarily limited to operating our free website and providing advertising related services on behalf of CFO Beijing. In addition, we do not expect CFO Fuhua to continue to provide advertising related services once CFO Beijing obtains the necessary permits to do so. Accordingly, we do not believe this limitation will have a material effect on our business and operations, or will result in a material amount being paid to the shareholders of CFO Fuhua if and when they are permitted to transfer their interest in CFO Fuhua to us.

We entered into a loan agreement with Jun Wang in October 2007 to extend to Mr. Wang a loan in the amount of \$199,000 for the sole purpose of financing his acquisition of the equity interests of CFO Fuhua from Wu Chen subject to the same terms and conditions as the loan agreement we entered into with Zhiwei Zhao as discussed above.

Purchase Option Agreement. Pursuant to a purchase option and cooperation agreement, or the purchase option agreement, entered into among us, CFO Beijing, Jun Ning, Wu Chen and CFO Fuhua on May 27, 2004, its subsequent amendments on November 20, 2006 upon the transfer of shares by Jun Ning to Zhiwei Zhao, and a purchase option and cooperation agreement entered into among us, CFO Beijing, Zhiwei Zhao, Jun Wang and CFO Fuhua on October 18, 2007 upon the transfer of shares by Wu Chen to Jun Wang, Zhiwei Zhao and Jun Wang jointly granted us an exclusive option to purchase all or any portion of their equity interest in CFO Fuhua, and CFO Fuhua granted us an exclusive option to purchase all of its assets if and when (1) such purchase is permitted under applicable PRC law, and (2) to the extent permitted by law, when Zhiwei Zhao and/or Jun Wang ceases to be a director or employee of CFO Fuhua, or either Zhiwei Zhao or Jun Wang desires to transfer his equity interest in CFO Fuhua to a party other than the existing shareholders of CFO Fuhua. We may purchase such interest or assets ourselves or designate another party to purchase such interest or assets.

The exercise price of the option will equal the total principal amount of the loan lent by us to Zhiwei Zhao and Jun Wang under their loan agreements to purchase their respective equity interest in CFO Fuhua, or the price required by relevant PRC law or government approval authority if such required price is higher than the total principal amount of the loans lent by us to Zhiwei Zhao and Jun Wang. We may choose to pay the purchase price payable to Zhiwei Zhao and Jun Wang by canceling our loans to Zhiwei Zhao and Jun Wang.

Following any exercise of the option, the parties will enter into a definitive share or asset purchase agreement and other related transfer documents within 30 days after written notice of exercise is delivered by us. Pursuant to the purchase option agreement, at all times before we or any party designated by us acquire 100% of CFO Fuhua's shares or assets, CFO Fuhua may not (1) sell, transfer, assign, dispose of in any manner or create any encumbrance in any form on any of its assets unless such sale, transfer, assignment, disposal or encumbrance is related to the daily operation of CFO Fuhua or has been disclosed to and consented to in writing by us; (2) enter into any transaction which may have a material effect on CFO Fuhua's assets, liabilities, operations, equity or other legal interest unless such transaction relates to the daily operation of CFO Fuhua or has been disclosed to and consented to in writing by us; or (3) distribute any dividends to its shareholders in any manner, and Zhiwei Zhao and Jun Wang may not cause CFO Fuhua to amend its articles of association to the extent such amendment may have a material effect on CFO Fuhua's assets, liabilities, operations, equity or other legal interest except for pro rata increases of registered capital required by law.

Voting arrangement. Upon Zhiwei Zhao's receipt of Jun Ning's holdings in CFO Fuhua on November 20, 2006, and Jun Wang's receipt of Wu Chen's holdings in CFO Fuhua on October 18, 2007, each of Zhiwei Zhao and Jun Wang delivered an executed proxy substantially identical to the proxy executed by Jun Ning and Wu Chen respectively, with respect to their voting rights as shareholders of CFO Fuhua.

Table of Contents

Share Pledge Agreement. Pursuant to a share pledge agreement, dated May 27, 2004, Jun Ning and Wu Chen have pledged all of their equity interest in CFO Fuhua to CFO Beijing to secure the payment obligations of CFO Fuhua under the equipment leasing agreement, the technical support agreement and the amended and restated strategic consulting agreement between CFO Beijing and CFO Fuhua. Upon Zhiwei Zhao's receipt of Jun Ning's holdings in CFO Fuhua on November 20, 2006, and Jun Wang's receipt of Wu Chen's holdings in CFO Fuhua on October 18, 2007, Zhiwei Zhao and Jun Wang replaced Jun Ning and Wu Chen, respectively, as a party to the share pledge agreement. Under this agreement entered into by and among Zhiwei Zhao, Jun Wang and CFO Beijing, each of Zhiwei Zhao and Jun Wang have agreed not to transfer, assign, pledge or in any other manner dispose of his interest in CFO Fuhua or create any other encumbrance on his interest in CFO Fuhua which may have a material effect on CFO Beijing's interest without the written consent of CFO Beijing, except the transfer of his interest in CFO Fuhua to us or the third-party assignee designated by us according to the purchase option agreement. Pursuant to a share pledge agreement, dated March 3, 2008, each of Zhiwei Zhao and Jun Wang have pledged all of his equity interest in CFO Fuhua to CFO Beijing on the same terms as described above.

Financing support. Pursuant to the purchase option agreement, we have agreed to provide or designate one of our affiliates to provide financing to CFO Fuhua in a way permitted by relevant laws in the event CFO Fuhua requires such financing. If CFO Fuhua is unable to repay the financing due to its losses, we agree to waive or cause other relevant parties to waive all recourse against CFO Fuhua with respect to the financing.

Indemnifications. Pursuant to the purchase option agreement, CFO Beijing has agreed to provide necessary support to and to indemnify Zhiwei Zhao and Jun Wang to the extent that they are subject to any legal or economic liabilities as a result of performing their obligations pursuant to their agreements with us or CFO Beijing.

Contractual Arrangements with CFO Premium and its shareholders

In August, 2007, we entered into a series of contractual arrangements with CFO Premium and its individual shareholders. The following is a summary of the material provisions of these agreements.

Strategic Consulting Service Agreement. CFO Software provides CFO Premium exclusive strategic consulting and related services for CFO Premium's business, including (1) valuation of new products/services; (2) industry investigation and survey; (3) marketing and promotion strategies; (4) staff training; and (5) other services relating to CFO Premium's business. The term of this agreement is 20 years. As consideration for the foregoing services provided by CFO Software, CFO Premium pays CFO Software annual service fees in the amount equivalent to 30% of CFO Premium's profit for the respective year, which will be determined by CFO Software and CFO Premium on quarterly basis in writing and paid by CFO Premium within three months after the accounting date.

Technical Support Agreement. CFO Software provides CFO Premium with exclusive technical support services for the maintenance of CFO Premium's servers, networks and other equipment, software and systems. As consideration for the foregoing services provided by CFO Software, CFO Premium pays CFO Software annual service fees in the amount equivalent to 30% of CFO Premium's profit for the respective year, which will be determined by CFO Software and CFO Premium on quarterly basis in writing and paid by CFO Premium within three months after the accounting date.

Operation Agreement. CFO Software will, according to operational needs of CFO Premium provide support for the business operation of CFO Premium, including (1) acting as the guarantor to guarantee CFO Premium's performance of its obligations under the contracts, agreements or transactions entered into between CFO Premium and third parties in relation to the business operation of CFO Premium; (2) making recommendations to CFO Premium individuals to be appointed as directors or senior management personnel of CFO Premium; and (3) provision of guidance and recommendations on the policy daily operation, financial management and human resource. Without obtaining the written consent of CFO Software in advance, CFO Premium shall not engage in any activities that could seriously affect the assets, rights, obligations or operations of CFO Premium, including without limitation (i) borrowing loans from a third party or undertake any debt liability; (ii) selling to or receiving from a third party any assets or rights; and (iii) pledging its own assets to provide guarantees for a third party. As consideration for the foregoing operation support provided by CFO Software, CFO Premium will pay CFO Software annual service fees in the amount equivalent to 40% of CFO Premium's profit for the respective year, which will be determined by CFO Software and CFO Premium on quarterly basis in writing and paid by CFO Premium within three months after the accounting date.

CFO Premium shall not, without the written consent of CFO Software, transfer its rights and obligations under the agreement to a third party, whereas, CFO Software, if necessary, may transfer its rights and obligations under the agreement to a third party without the consent of CFO Premium. The terms of the agreement is 10 years.

Table of Contents

Loan Agreements. We entered into a loan agreement with Wei Xiong, our director of the department of human resource and administration and Zhenfei Fan, our financial manager, to extend each of Wei Xiong and Zhifei Fan a loan with the amount of \$77,000 and \$63,000, respectively, for the sole purpose of financing their investments in CFO Premium as CFO Premium's registered capital. The initial term of these loans in each case is 10 years which may be extended upon the parties' agreement. Wei Xiong and Zhifei Fan can only repay the loans by transferring all of their interest in CFO Premium to us or a third party designated by us. When Wei Xiong or Zhifei Fan transfer their interest in CFO Premium to us or our designee, if the actual transfer price is higher than the principal amount of the loans, the amount exceeding the principal amount of the loans will be deemed as interest accrued on such loans and repaid by Wei Xiong and Zhifei Fan to us.

Purchase Option Agreement. We entered into a purchase option agreement with each of Wei Xiong and Zhifei Fan. The terms of these agreements are similar to the terms of the purchase option agreement we entered into with CFO Fuhua and its shareholders described above.

Voting Arrangement. Pursuant to two proxies executed and delivered by Wei Xiong and Zhifei Fan to CFO Software, Wei Xiong and Zhifei Fan have granted CFO Software the power to exercise all their voting rights as shareholders of CFO Premium, including the right to appoint directors, the general manager and other senior managers of CFO Premium. The term of the proxies is 20 years which will be automatically renewed for another one year term upon the expiration of each term unless we notify Wei Xiong and Zhifei Fan of our intention not to renew 30 days before the relevant term expires. Under the purchase option agreement, Wei Xiong and Zhifei Fan have agreed that they will only revoke the proxies granted to CFO Software when CFO Software deliver a written notice to Wei Xiong and Zhifei Fan requesting such revocation.

Share Pledge Agreement. Pursuant to the share pledge agreement, each of Wei Xiong and Zhenfei Fan have pledged all of his equity interest in CFO Premium to CFO Software to secure the payment obligations of CFO Premium under the technical support agreement and the strategic consulting agreement between CFO Beijing and CFO Premium. Each of Xiong Wei and Zhenfei Fan have agreed not to transfer, assign, pledge or in any other manner dispose of his interest in CFO Premium or create any other encumbrance on his interest in CFO Premium which may have a material effect on CFO Software's interest without the written consent of CFO Software, except the transfer of his interest in CFO Premium to us or the third party assignee designated by us according to the purchase option agreement.

Contractual Arrangements with CFO Glory and its individual shareholders

In September, 2007, we entered into a series of contractual arrangements with CFO Glory and its individual shareholders Zhiwei Zhao and Jun Wang. The terms of these contractual arrangements are similar to the terms of our contractual arrangements with CFO Premium. Our contractual arrangements with CFO Glory include:

- a strategic consulting service agreement between CFO Software and CFO Glory;

- a technical support agreement between CFO Software and CFO;

- an operation agreement between CFO Software and CFO Glory;

Loan agreements with Wu Chen, Zhiwei Zhao and Jun Wang. On September 1, 2007, we entered into a loan agreement with Wu Chen and Zhiwei Zhao, the shareholders of CFO Glory, to extend to each of Wu Chen and Zhiwei Zhao a loan in the amount of \$77,000 and \$63,000, respectively, for the sole purpose of financing their investments in CFO Glory as CFO Glory's registered capital. On September 10, 2007, we entered into a loan agreement with Jun Wang to extend to Jun Wang a loan in the amount of \$77,000 for the sole purpose of financing Jun Wang to acquire Wu Chen's entire holdings in CFO Glory;

- a purchase option agreement among CFO Software, CFO Glory, Zhiwei Zhao and Jun Wang;

- voting arrangements with each of Jun Wang and Zhiwei Zhao regarding their voting rights in CFO Glory; and

- a share pledge agreement among CFO Software, Zhiwei Zhao and Jun Wang.

Contractual Arrangements with CFO Shangtong and its individual shareholders

70

Table of Contents

In May, 2008, we entered into a series of contractual arrangements with CFO Shangtong and its individual shareholders, Shaoming Shi and Lin Yang. The terms of these contractual arrangements are similar to the terms of our contractual arrangements with CFO Premium. Our contractual arrangements with CFO Shangtong include:

a strategic consulting service agreement between CFO Software and CFO Shangtong;

a technical support agreement between CFO Software and CFO Shangtong;

an operation agreement between CFO Software and CFO Shangtong;

a loan agreement with Shaoming Shi and Lin Yang. We entered into a loan agreement with Shaoming Shi and Lin Yang to extend to each of them a loan in the amount of \$80,615 and \$65,958, respectively, for the sole purpose of financing their investments in CFO Shangtong as CFO Shangtong's registered capital;

a purchase option agreement among CFO Software, CFO Shangtong, Lin Yang and Shaoming Shi;

voting arrangements with each of Shaoming Shi and Lin Yang regarding their voting rights in CFO Shangtong; and

a share pledge agreement among CFO Software, Lin Yang and Shaoming Shi.

Contractual Arrangements with CFO Chongzhi and Its Individual Shareholders

In May, 2008, we entered into a series of contractual arrangements with CFO Chongzhi and its individual shareholders, Xun Zhao and Zhenfei Fan. CFO Chongzhi is primarily engaged in an internet operation business in China. The terms of these contractual arrangements are similar to the terms of our contractual arrangements with CFO Premium. Our contractual arrangements with CFO Chongzhi include:

a strategic consulting service agreement between CFO Software and CFO Chongzhi;

a technical support agreement between CFO Software and CFO Chongzhi;

an operation agreement between CFO Software and CFO Chongzhi;

a loan agreement with Xun Zhao and Zhenfei Fan. We entered into a loan agreement with Xun Zhao and Zhenfei Fan to extend to them a loan in the amount of \$65,958 and \$80,615, respectively, for the sole purpose of financing their acquisition of equity interests in CFO Chongzhi;

a purchase option agreement among CFO Software, CFO Chongzhi, Xun Zhao and Zhenfei Fan;

voting arrangements with each of Xun Zhao and Zhenfei Fan regarding their voting rights in CFO Shangtong; and

a share pledge agreement among CFO Software, Xun Zhao and Zhenfei Fan.

Contractual Arrangements with CFO Huifu and Its Individual Shareholders

In August and September of 2008, we entered into a series of contractual arrangements with CFO Huifu and its individual shareholders, Shaoming Shi and Lin Yang. The terms of these contractual arrangements are similar to the terms of our contractual arrangements with CFO Premium. Our contractual arrangements with CFO Huifu include:

a strategic consulting service agreement between CFO Software and CFO Huifu;

a technical support agreement between CFO Software and CFO Huifu;

an operation agreement between CFO Software and CFO Huifu;

Table of Contents

a loan agreement with Shaoming Shi and Lin Yang. We entered into a loan agreement with Shaoming Shi and Lin Yang to extend to each of them a loan in the amount of \$49,835 and \$74,752, respectively, for the sole purpose of financing their acquisition of equity interests in CFO Huifu;

a purchase option agreement among CFO Software, CFO Huifu, Shaoming Shi and Lin Yang;

voting arrangements with each of Shaoming Shi and Lin Yang regarding their voting rights in CFO Huifu; and

a share pledge agreement among CFO Software, Shaoming Shi and Lin Yang.

Contractual Arrangements with CFO Zhongcheng and Its Individual Shareholders

In August and September of 2008, we entered into a series of contractual arrangements with CFO Zhongcheng and its individual shareholders, Shaoming Shi and Lin Yang. The terms of these contractual arrangements are similar to the terms of our contractual arrangements with CFO Premium. Our contractual arrangements with CFO Zhongcheng include:

a strategic consulting service agreement between CFO Software and CFO Zhongcheng;

a technical support agreement between CFO Software and CFO Zhongcheng;

an operation agreement between CFO Software and CFO Zhongcheng;

a loan agreement with Shaoming Shi and Lin Yang. We entered into a loan agreement with Shaoming Shi and Lin Yang to extend to each of them a loan in the amount of \$6,595 and \$124,587, respectively, for the sole purpose of financing their acquisition of equity interests in CFO Huifu;

a purchase option agreement among CFO Software, CFO Zhongcheng, Shaoming Shi and Lin Yang;

voting arrangements with each of Shaoming Shi and Lin Yang regarding their voting rights in CFO Zhongcheng; and

a share pledge agreement among CFO Software, Shaoming Shi and Lin Yang.

Contractual Arrangements with CFO Newrand

Information and technology support agreement. In October 2009, each of CFO Zhengning, CFO Meining, CFO Wisdom, CFO Fuhua and CFO Success has entered into an information and technology support agreement with CFO Newrand. According to the agreement, CFO Newrand is the exclusive provider of the following services for us: (i) providing analysis, making forecasts and recommendations to us regarding the trend of securities market and the feasibility of securities investment through oral and written communications, computer network or other methods permitted by the CSRC; (ii) upon our request, organizing seminars, symposium, salon or other meetings and conventions in relation to securities investment and consulting activities; (iii) preparing articles, comments and reports relating to securities and futures investment consultancy; (iv) providing securities and futures investment consulting services for us through telephone, facsimile, computer network and other telecommunication methods; (v) providing securities and futures investment consulting services according to our operation needs through radio, TV and other public media; (vi) providing other securities and futures investment consulting services entrusted by us; and (vii) providing other services agreed to by the parties. In consideration for the provision of the above services, we will pay CFO Newrand certain service fees, the amount of which will be determined by the operating costs and other reasonable expenses incurred by CFO Newrand for providing the services. The service fees will be paid within three months after the accounting date.

Loans to Lin Yang and Linghai Ma. On October 17, 2008, CFO Software entered into a loan agreement with Lin Yang, to extend to Lin Yang a loan in the amount of \$620,587 for the sole purpose of financing his acquisition of 17.5% of the equity interests in CFO Newrand. The terms of the agreement is similar to the one we entered into with Wei Xiong and Zhenfei Fan with respect to financing their investment in CFO Premium. On October 17, 2008, CFO

Success and CFO Software entered into a loan agreement with Linghai Ma. Under the loan agreement, each of CFO Success and CFO Software agreed to extend to Linghai Ma a loan in the amount of \$2,080,474 and \$845,151, respectively, for the sole purpose of financing his acquisition of 82.5% of the equity interests in CFO Newrand. The

Table of Contents

terms of the agreement is similar to the one we entered into with Wei Xiong and Zhenfei Fan with respect to financing their investment in CFO Premium.

Purchase option agreement. CFO Software entered into a purchase option agreement with Lin Yang on October 17, 2008. In addition, on the same date, Linghai Ma entered into a purchase option agreement with CFO Software and CFO Success. The terms of these two agreements are similar to the purchase option agreement entered into among CFO Software, Wei Xiong and Zhenfei Fan in respect of their equity interests in CFO Premium. Furthermore, under the purchase option agreements, each of Lin Yang and Linghai Ma is required to issue a proxy to the satisfaction of CFO Software (and CFO Success in case of Linghai Ma). The proxy shall grant CFO Software or CFO Success or its designee, who shall be a PRC citizen, the power to exercise Lin Yang's or Linghai Ma's voting rights as a shareholder of CFO Newrand, including the right to appoint directors, the general manager and other senior managers of CFO Newrand.

2007 Equity Incentive Plan

On July 2, 2007, we granted restricted stock awards covering 10,558,493 ordinary shares of the Company under our 2007 Equity Incentive Plan to our employees who are eligible for the 2007 Equity Incentive Plan. The vesting of the restrictive stock are subject to us achieving certain financial performance targets stated in the 2007 Equity Incentive Plan. In order to bind the employees together in achieving the common goal, the ordinary shares are held by C&F International Holdings Limited for the benefit whole group of selected employees. Pursuant to the 2007 Equity Incentive Plan and the restricted stock issuance and allocation agreement effective as of July 2, 2007, we issued 10,558,493 ordinary shares to C&F International Holdings Limited, a company incorporated in British Virgin Islands, which holds the ordinary shares on behalf of and exclusively for the benefit of the group of employees eligible for the 2007 Equity Incentive Plan. C&F International Holdings Limited is 100% owned by C&F Global Limited, a British Virgin Islands Company, which is in turn owned by the selected employees. As of December 31, 2007, 10,558,493 ordinary shares have been issued and allotted to selected employees pursuant to the 2007 Equity Incentive Plan. Based on our operating performance during 2008, 8,139,542 shares were activated and vested as of December 31, 2008.

Other related party transactions*Shareholders Agreement*

Our investors under the shareholders agreement are IDG Technology Venture Investment, Inc. and Vertex Technology Fund (III) Ltd. Investors to the shareholders agreement or their permitted assignees that hold at least 15% of our registrable securities may require us to effect a registration statement on Form F-3 (or any successor form or any comparable form for a registration in a jurisdiction other than the United States) for a public offering of registrable securities so long as the reasonably anticipated aggregate price to the public (net of selling expenses) would be at least \$1 million and we are entitled to use Form F-3 (or a comparable form) for such offering.

Holders of registrable securities may demand a registration on Form F-3 on unlimited occasions, although we are not obligated to affect more than two such registration in any twelve month period. Holders of registrable securities are also entitled to piggyback registration rights, which may require us to register all or any part of the registrable securities then held by such holders when we register any of our ordinary shares.

Registrable securities are ordinary shares not previously sold to the public and issued or issuable to IDG Technology Venture Investment, Inc. and Vertex Technology Fund (III) Ltd., who are holders of our preference shares, including (1) ordinary shares issued upon conversion of our preferred shares, (2) ordinary shares issued or issuable upon exercise of their options or warrants to purchase ordinary shares, and (3) ordinary shares issued pursuant to stock splits, stock dividends and similar distributions to holders of our preference shares. Under certain circumstances, such demand registration may also include ordinary shares other than registrable securities.

If any of the offerings involves an underwriting, the managing underwriter of any such offering has certain rights to limit the number of shares included in such registration. However, the number of registrable securities included in an underwritten public offering subsequent to our initial public offering pursuant to piggyback registration rights may not be reduced to less than 10% of the aggregate securities included in such offering without the consent of a majority of the holders of registrable securities who have requested their shares to be included in the registration and underwriting. We are generally required to bear all of the registration expenses incurred in connection with one demand registration on a form other than Form F-3, and unlimited Form F-3 and piggyback registrations. The

Table of Contents

foregoing demand, Form F-3 and piggyback registration rights will terminate, with respect to any holder of registrable securities, on the earliest of:

the fifth anniversary of the consummation of our initial public offering;

upon such holder holding less than 1% of our outstanding ordinary shares after our initial public offering; and

upon such holder becoming eligible to sell all of such holder's registrable securities pursuant to Rule 144 under the Securities Act within any three-month period without volume limitations, under Rule 144(k), or under any comparable securities law of a jurisdiction other than the United States for sale of registrable securities in such jurisdiction.

ITEM 8. FINANCIAL INFORMATION

A. Consolidated financial statements and other financial information.

We have appended consolidated financial statements filed as part of this annual report.

Legal Proceedings

On December 10, 2007, Mr. Fei Ruan, our employee, filed a complaint against CFO Meijing at the Shanghai No.1 Intermediate People's Court alleging copyright violation. The plaintiff sought indictment and compensation of approximately \$141,000. We filed the answer to the complaint on March, 2008. On July 28, 2008, Shanghai No. 1 Intermediate People's Court ruled in favor of the company. Mr. Fei Ruan did not elect to appeal to a higher court.

Dividend Policy

We currently intend to retain all available funds and any future earnings for use in the operation and expansion of our business and do not anticipate paying any cash dividends on our ordinary shares, or indirectly on our ADSs, for the foreseeable future. Investors seeking cash dividends should not purchase our ADSs. Future cash dividends, if any, will be at the discretion of our board of directors and will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors as our board of directors may deem relevant. In addition, we can pay dividends only out of our profit or other distributable reserves. Any dividend we declare will be paid to the holders of ADSs, subject to the terms of the deposit agreement, to the same extent as holders of our ordinary shares, less the fees and expenses payable under the deposit agreement. Other distributions, if any, will be paid by the depository to holders of our ADSs in any means it deems legal, fair and practical. Any dividend will be distributed by the depository, in the form of cash or additional ADSs, to the holders of our ADSs. Cash dividends on our ADSs, if any, will be paid in U.S. dollars.

B. Significant changes since December 31, 2007.

None.

ITEM 9. THE OFFER AND LISTING

A. Offering and listing details.

Our ADSs, each representing five of our ordinary shares, have been listed on the Nasdaq Global Market (known as the Nasdaq National Market prior to July 1, 2006) since October 15, 2004. Our ADSs trade under the symbol JRJC. The following table provides the high and low trading prices for our ADSs on Nasdaq for (1) the years 2004, 2005, 2006, 2007 and 2008, (2) each of the quarters since the first quarter in 2007 and (3) each of the six months since November 2008.

Table of Contents

We incorporate by reference into this Annual Report the description of our amended and restated memorandum of association contained in our registration statement on Form F-1 (File No. 333-119166) filed with the Commission on October 14, 2004. Our shareholders adopted our amended and restated memorandum and articles of association at an extraordinary shareholder meeting on October 14, 2004.

C. Material contracts.

We have not entered into any material contracts other than in the ordinary course of business and other than those described in Item 4, Information on the Company or elsewhere in this annual report on Form 20-F.

D. Exchange controls.

China's government imposes control over the convertibility of RMB into foreign currencies. Under the current unified floating exchange rate system, the People's Bank of China publishes a daily exchange rate for RMB, or the PBOC Exchange Rate, based on the previous day's dealings in the inter-bank foreign exchange market. Financial institutions authorized to deal in foreign currency may enter into foreign exchange transactions at exchange rates within an authorized range above or below the PBOC Exchange Rate according to market conditions.

Pursuant to the Foreign Exchange Control Regulations issued by the State Council on January 29, 1996 and effective as of April 1, 1996 (and amended on January 14, 1997) and the Administration of Settlement, Sale and Payment of Foreign Exchange Regulations which came into effect on July 1, 1996 regarding foreign exchange control, or the Regulations, conversion of Renminbi into foreign exchange by foreign investment enterprises for current account items, including the distribution of dividends and profits to foreign investors of joint ventures, is permissible upon the proper production of qualified commercial vouchers or legal documents as required by the Regulations. Foreign investment enterprises are permitted to remit foreign exchange from their foreign exchange bank account in China upon the proper production of, inter alia, the board resolutions declaring the distribution of the dividend and payment of profits. Conversion of RMB into foreign currencies and remittance of foreign currencies for capital account items, including direct investment, loans, security investment, is still subject to the approval of the State Administration of Foreign Exchange, or SAFE, in each such transaction. On January 14, 1997, the State Council amended the Foreign Exchange Control Regulations and added, among other things, an important provision, as Article 5 provides that the State shall not impose restrictions on recurring international payments and transfers under current accounts.

Under the Regulations, foreign investment enterprises are required to open and maintain separate foreign exchange accounts for capital account items (but not for other items). In addition, foreign investment enterprises may only buy, sell and/or remit foreign currencies at those banks authorized to conduct foreign exchange business upon the production of valid commercial documents and, in the case of capital account item transactions, document approval from SAFE.

Currently, foreign investment enterprises are required to apply to SAFE for foreign exchange registration certificates for foreign investment enterprises. With such foreign exchange registration certificates (which are granted to foreign investment enterprises, upon fulfilling specified conditions and which are subject to review and renewal by SAFE on an annual basis) or with the foreign exchange sales notices from the SAFE (which are obtained on a transaction-by-transaction basis), foreign-invested enterprises may open foreign exchange bank accounts and enter into foreign exchange transactions at banks authorized to conduct foreign exchange business to obtain foreign exchange for their needs.

E. Taxation.

Hong Kong taxation

Profits tax. No tax is imposed in Hong Kong in respect of capital gains from the sale of property, such as the ordinary shares underlying our ADSs. However, trading gains from the sale of property by persons carrying on a trade, profession or business in Hong Kong where such gains are derived from or arise in Hong Kong from such trade, profession or business will be chargeable to Hong Kong profit tax. Liability for Hong Kong profits tax would therefore arise in respect of trading gains from the sale of ADSs or the underlying ordinary shares realized by persons in the course of carrying on a business of trading or dealing in securities in Hong Kong. For the year of assessment 2006/2007, the charging rate for profits tax is 17.5% for corporations and 16% for unincorporated businesses. For the current year of assessment 2007/2008, the profits tax for corporations decreased to 16.5% and 15% for unincorporated businesses.

Table of Contents

In addition, Hong Kong does not impose withholding tax on gains derived from the sale of stock in Hong Kong companies and does not impose withholding tax on dividends paid outside of Hong Kong by Hong Kong companies. Accordingly, investors will not be subject to Hong Kong withholding tax with respect to a disposition of their ADSs or with respect to the receipt of dividends on their ADSs, if any. No income tax treaty relevant to the acquiring, withholding or dealing in the ADSs or the ordinary shares underlying our ADSs exists between Hong Kong and the U.S.

Estate duty. Estate duties are imposed upon the value of properties situated or deemed to be situated in Hong Kong that pass to a person's estate upon his or her death. Our ordinary shares are Hong Kong property under Hong Kong law, and accordingly may be subject to estate duty on the death of the beneficial owner of such ordinary shares, regardless of the place of the owner's residence, citizenship or domicile. We cannot assure you that the Hong Kong Inland Revenue Department will not treat the ADSs as Hong Kong property that may be subject to estate duty on the death of the beneficial owner of the ADSs, notwithstanding that the ADRs representing such ADSs may be situated outside Hong Kong at the date of such death. Hong Kong estate duty is currently imposed on a progressive scale from 5% to 15%, which rate and threshold has been adjusted on a fairly regular basis in the past. No estate duty is payable when the aggregate value of the dutiable estate does not exceed HK\$7.5 million, and the maximum rate of 15% applies when the aggregate value of the dutiable estate exceeds HK\$10.5 million. By virtue of the Revenue (Abolition of Estate Duty) Ordinance 2005, commenced with effect from estates of persons who passed away on or after 11 February 2006 will not be subject to estate duty.

Stamp duty. Hong Kong stamp duty is generally payable on the transfer of shares in companies incorporated in Hong Kong. The stamp duty is payable both by the purchaser on every purchase and by the seller on every sale of such shares at the ad valorem rate of HK\$1.00 per HK\$1,000 or part thereof, on the higher of the consideration for or the value of the shares transferred. In addition, a fixed duty, currently of HK\$5, is payable on an instrument of transfer of such shares. Where one party to the sale is a non-resident of Hong Kong and does not pay the required stamp duty, the stamp duty not paid will be assessed on the instrument of transfer of such shares (if any), and the purchaser will be liable for payment of such stamp duty. A withdrawal of ordinary shares upon the surrender of ADSs, and the issuance of ADSs upon the deposit of ordinary shares, will also require payment of Hong Kong stamp duty at the rate described above for sale and purchase transactions, unless such withdrawal or deposit does not result in a change in the beneficial ownership of shares under Hong Kong law. The issuance of the ADSs upon the deposit of ordinary shares issued directly to the depository or for the account of the depository does not require payment of stamp duty. In addition, no Hong Kong stamp duty is payable upon the transfer of ADSs effected outside Hong Kong.

United States federal income taxation

This discussion describes the material U.S. federal income tax consequences of the purchase, ownership and disposition of our ADSs. This discussion does not address any aspect of U.S. federal gift or estate tax, or the state, local or foreign tax consequences of an investment in our ADSs. This discussion applies to you only if you hold and beneficially own our ADSs as capital assets for tax purposes. This discussion does not apply to you if you are a member of a class of holders subject to special rules, such as:

dealers in securities or currencies;

traders in securities that elect to use a mark-to-market method of accounting for securities holdings;

banks or other financial institutions;

insurance companies;

tax-exempt organizations;

partnerships and other entities treated as partnerships for U.S. federal income tax purposes or persons holding ADSs through any such entities;

persons that hold ADSs as part of a hedge, straddle, constructive sale, conversion transaction or other integrated investment;

U.S. Holders (as defined below) whose functional currency for tax purposes is not the U.S. dollar;

Table of Contents

persons liable for alternative minimum tax; or

persons who actually or constructively own 10% or more of the total combined voting power of all classes of our shares (including ADSs) entitled to vote.

This discussion is based on the U.S. Internal Revenue Code of 1986, as amended, which we refer to in this discussion as the Code, its legislative history, existing and proposed regulations promulgated thereunder, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis. In addition, this discussion relies on our assumptions regarding the value of our shares and the nature of our business over time. Finally, this discussion is based in part upon the representations of the depositary and the assumption that each obligation in the deposit agreement and any related agreement will be performed in accordance with its terms. For U.S. federal income tax purposes, as a holder of ADSs, you are treated as the owner of the underlying ordinary shares represented by such ADSs.

You should consult your own tax advisor concerning the particular U.S. federal income tax consequences to you of the purchase, ownership and disposition of our ADSs, as well as the consequences to you arising under the laws of any other taxing jurisdiction.

For purposes of the U.S. federal income tax discussion below, you are a U.S. Holder if you beneficially own ADSs and are:

a citizen or resident of the United States for U.S. federal income tax purposes;

a corporation, or other entity taxable as a corporation, that was created or organized in or under the laws of the United States or any political subdivision thereof;

an estate the income of which is subject to U.S. federal income tax regardless of its source; or

a trust if (a) a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (b) the trust has a valid election in effect to be treated as a U.S. person.

If you are not a U.S. person, please refer to the discussion below under Non-U.S. Holders.

For U.S. federal income tax purposes, income earned through a foreign or domestic partnership or other flow-through entity is attributed to its owners. Accordingly, if a partnership or other flow-through entity holds ADSs, the tax treatment of the holder will generally depend on the status of the partner or other owner and the activities of the partnership or other flow-through entity.

U.S. Holders

Dividends on ADSs

We do not anticipate paying dividends on our ordinary shares or indirectly on our ADSs, in the foreseeable future. See Dividend policy.

Subject to the Passive Foreign Investment Company discussion below, if we do make distributions and you are a U.S. Holder, the gross amount of any distributions you receive on your ADSs will generally be treated as dividend income if the distributions are made from our current or accumulated earnings and profits, calculated according to U.S. federal income tax principles. Dividends will generally be subject to U.S. federal income tax as ordinary income on the day you actually or constructively receive such income. However, if you are an individual and have held your ADSs for a sufficient period of time, dividend distributions on our ADSs will generally constitute qualified dividend income taxed at a preferential rate (generally 15% for dividend distributions before January 1, 2009) as long as our ADSs continue to be readily tradable on Nasdaq and certain other conditions apply. You should consult your own tax adviser as to the rate of tax that will apply to you with respect to dividend distributions, if any, you receive from us.

We do not intend to calculate our earnings and profits according to U.S. tax accounting principles. Accordingly, distributions on our ADSs, if any, will generally be taxed to you as dividend distributions for U.S. tax purposes. Even

Table of Contents

if you are a corporation, you will not be entitled to claim a dividends-received deduction with respect to distributions you receive from us. Dividends generally will constitute foreign source passive income for U.S. foreign tax credit limitation purposes.

Sales and other dispositions of ADSs

Subject to the *Passive Foreign Investment Company* discussion below, when you sell or otherwise dispose of ADSs, you will generally recognize capital gain or loss in an amount equal to the difference between the amounts realized on the sale or other disposition and your adjusted tax basis in the ADSs, both as determined in U.S. dollars. Your adjusted tax basis will generally equal the amount you paid for the ADSs. Any gain or loss you recognize will be long-term capital gain or loss if your holding period in our ADSs is more than one year at the time of disposition. If you are an individual, any such long-term capital gain will be taxed at preferential rates. Your ability to deduct capital losses will be subject to various limitations.

Passive Foreign Investment Company

We believe that we were not a PFIC for the taxable year 2008. However, there can be no assurance that we will not be a PFIC for the taxable year 2009 and/or later taxable years, as PFIC status is re-tested each year and depends on the facts in such year. For example, we would be a PFIC for the taxable year 2009 if the sum of our average market capitalization, which is our share price multiplied by the total amount of our outstanding shares, and our liabilities over that taxable year is not more than twice the value of our cash, cash equivalents, and other assets that are readily converted into cash. In particular, we currently deposit a substantial portion of our net proceeds from our initial public offering in interest-bearing bank accounts, as well as the substantial portion of cash generated from our core business, both of which we book as cash and cash equivalents, but the value of our stock is likely to fluctuate over time. If the value of our outstanding stock were to adversely decrease for an extended period of time in which we hold substantial cash and cash equivalents, we would likely become a PFIC. We could also be a PFIC for any taxable year if the gross income that we and our subsidiaries earn from investing the portion of the cash raised in our initial public offering in 2004 that exceeds the immediate capital needs of our active online business is substantial in comparison with the gross income from our business operations.

If we were a PFIC, you would generally be subject to additional taxes and interest charges on certain *excess distributions* we make and on any gain realized on the disposition or deemed disposition of your ADSs, regardless of whether we continue to be a PFIC in the year in which you receive an *excess distribution* or dispose of or are deemed to dispose of your ADSs. Distributions in respect of your ADSs during a taxable year would generally constitute *excess distributions* if, in the aggregate, they exceed 125% of the average amount of distributions in respect of your ADSs over the three preceding taxable years or, if shorter, the portion of your holding period before such taxable year. To compute the tax on *excess distributions* or any gain, (1) the *excess distribution* or the gain would be allocated ratably to each day in your holding period, (2) the amount allocated to the current year and any tax year before we became a PFIC would be taxed as ordinary income in the current year, (3) the amount allocated to other taxable years would be taxable at the highest applicable marginal rate in effect for that year, and (4) an interest charge at the rate for underpayment of taxes for any period described under (3) above would be imposed with respect to any portion of the *excess distribution* or gain that is allocated to such period. In addition, if we were a PFIC, no distribution that you receive from us would qualify for taxation at the preferential rate discussed in the *Dividends on ADSs* section above. If we were a PFIC in any year, as a U.S. Holder, you would be required to make an annual return on IRS Form 8621 regarding your ADSs. However, we do not intend to generate, or share with you, information that you might need to properly complete IRS Form 8621. You should consult with your own tax adviser regarding reporting requirements with regard to your ADSs.

If we were a PFIC in any year, you would generally be able to avoid the *excess distribution* rules described above by making a timely so-called *mark-to-market election* with respect to your ADSs provided our ADSs are *marketable*. Our ADSs will be *marketable* as long as they remain regularly traded on a national securities exchange, such as Nasdaq. If you made this election in a timely fashion, you would generally recognize as ordinary income or ordinary loss the difference between the fair market value of your ADSs on the first day of any taxable year and their value on the last day of that taxable year. Any ordinary income resulting from this election would generally be taxed at ordinary income rates and would not be eligible for the reduced rate of tax applicable to qualified dividend income. Any

ordinary losses would be limited to the extent of the net amount of previously

79

Table of Contents

included income as a result of the mark-to-market election, if any. Your basis in the ADSs would be adjusted to reflect any such income or loss. You should consult with your own tax adviser regarding potential advantages and disadvantages to you of making a mark-to-market election with respect to your ADSs. Separately, if we were a PFIC in any year, you would be able to avoid the excess distribution rules by making a timely election to treat us as a so-called Qualified Electing Fund or QEF. You would then generally be required to include in gross income for any taxable year (1) as ordinary income, your pro rata share of our ordinary earnings for the taxable year, and (2) as long-term capital gain, your pro rata share of our net capital gain for the taxable year. However, we do not intend to provide you with the information you would need to make or maintain a QEF election and you will, therefore, not be able to make or maintain such an election with respect to your ADSs.

Non-U.S. Holders

If you beneficially own ADSs and are not a U.S. Holder for U.S. federal income tax purposes (a Non-U.S. Holder), you generally will not be subject to U.S. federal income tax or withholding on dividends received from us with respect to ADSs unless that income is considered effectively connected with your conduct of a U.S. trade or business and, if an applicable income tax treaty so requires as a condition for you to be subject to U.S. federal income tax with respect to income from your ADSs, such dividends are attributable to a permanent establishment that you maintain in the United States. You generally will not be subject to U.S. federal income tax, including withholding tax, on any gain realized upon the sale or exchange of ADSs, unless:

that gain is effectively connected with the conduct of a U.S. trade or business and, if an applicable income tax treaty so requires as a condition for you to be subject to U.S. federal income tax with respect to income from your ADSs, such gain is attributable to a permanent establishment that you maintain in the United States; or

you are a nonresident alien individual and are present in the United States for at least 183 days in the taxable year of the sale or other disposition and either (1) your gain is attributable to an office or other fixed place of business that you maintain in the United States or (2) you have a tax home in the United States.

If you are engaged in a U.S. trade or business, unless an applicable tax treaty provides otherwise, the income from your ADSs, including dividends and the gain from the disposition of ADSs, that is effectively connected with the conduct of that trade or business will generally be subject to the rules applicable to U.S. Holders discussed above. In addition, if you are a corporation, you may be subject to an additional branch profits tax at a rate of 30% or any lower rate under an applicable tax treaty.

U.S. information reporting and backup withholding rules

In general, dividend payments with respect to the ADSs and the proceeds received on the sale or other disposition of those ADSs may be subject to information reporting to the IRS and to backup withholding (currently imposed at a rate of 28%). Backup withholding will not apply, however, if you (1) are a corporation or come within certain other exempt categories and, when required, can demonstrate that fact or (2) provide a taxpayer identification number, certify as to no loss of exemption from backup withholding and otherwise comply with the applicable backup withholding rules. To establish your status as an exempt person, you will generally be required to provide certification on IRS Form W-9, W-8BEN or W-8ECI, as applicable. Any amounts withheld from payments to you under the backup withholding rules will be allowed as a refund or a credit against your U.S. federal income tax liability, provide that you furnish the required information to the IRS.

HOLDERS OF OUR ADSs SHOULD CONSULT WITH THEIR OWN TAX ADVISORS REGARDING THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES RESULTING FROM PURCHASING, HOLDING OR DISPOSING OF THE ADSs, INCLUDING THE APPLICABILITY AND EFFECT OF THE TAX LAWS OF ANY STATE, LOCAL OR FOREIGN JURISDICTION AND INCLUDING ESTATE, GIFT, AND INHERITANCE LAWS.

H. Documents on display.

We have previously filed with the Commission our registration statement on Form F-1, as amended, and our prospectus under the Securities Act of 1933, with respect to our ordinary shares.

We are subject to the periodic reporting and other informational requirements of the Securities Exchange Act of 1934, as amended, or the Exchange Act. Under the Exchange Act, we are required to file reports and other information with the Securities and Exchange Commission. Specifically, we are required to file annually a Form 20-F no later than six months after the close of each fiscal year, which is December 31. Copies of reports and other information, when so filed, may be inspected without charge and may be obtained at prescribed rates at the public reference facilities maintained by the Securities and Exchange Commission at Judiciary Plaza, 450 Fifth Street, N.W., Washington, D.C. 20549, and at the regional office of the Securities and Exchange Commission located at Citicorp Center, 500 West Madison Street, Suite 1400, Chicago, Illinois 60661. The public may obtain information regarding the Washington, D.C. Public Reference Room by calling the Commission at 1-800-SEC-0330. The SEC also maintains a Web site at *www.sec.gov* that contains reports, proxy and information statements, and other information regarding registrants that make electronic filings with the SEC using its EDGAR system. As a foreign private issuer, we are exempt from the rules under the Exchange Act prescribing the furnishing and content of quarterly reports and proxy statements, and officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions contained in Section 16 of the Exchange Act.

Our financial statements have been prepared in accordance with U.S. GAAP.

We will furnish our shareholders with annual reports, which will include a review of operations and annual audited consolidated financial statements prepared in conformity with U.S. GAAP.

I. Subsidiaries information.

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Please refer to Item 5, Operating and Financial Review and Prospects; Quantitative and qualitative disclosures about market risk.

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES

Not Applicable.

PART II

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

Not Applicable.

ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

The rights of securities holders have not been materially modified.

ITEM 15. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of Zhiwei Zhao, our chief executive officer, and Jun Wang, our chief financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or Exchange Act, as of the end of the fiscal year covered by this report. Based on such evaluation, our chief executive officer and chief financial officer have concluded that, as of the end of the fiscal year covered by this report, our disclosure controls and

Table of Contents

procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports that we file or submit under the Exchange Act.

There have not been any change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal year covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Annual Report on Internal Control over Financial Reporting

The management of China Finance Online Co. Limited, or the Company, is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) promulgated under the Securities Exchange Act of 1934, as amended.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company's management, with the participation of the Company's principal executive and principal financial officers, assessed the effectiveness of the Company's internal control over financial reporting as of end of the most recent fiscal year, December 31, 2008. In making this assessment, the Company's management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework. Based on its assessment, management concluded that, as of the end of the Company's most recent fiscal year, December 31, 2008, the Company's internal control over financial reporting is effective based on those criteria.

The Company's independent registered public accounting firm, who audited the financial statements included in Form 20-F, has issued an attestation report on management's assessment of the effectiveness of the Company's internal control over financial reporting.

Report of the Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of China Finance Online Co. Limited.

We have audited the internal control over financial reporting of China Finance Online Co. Limited and its subsidiaries and its variable interest entities (collectively, the Group) as of December 31, 2008, based on the criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Group's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Group's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of director, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely

detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are

Table of Contents

subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Group maintained, in all material respects, effective internal control over financial reporting as of December 31, 2008, based on the criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule included in Schedule I as of and for the year ended December 31, 2008 of the Group and our report dated May 20, 2009, expressed an unqualified opinion on those consolidated financial statements and financial statement schedule and included an explanatory paragraph, effective on January 1, 2007, regarding the Group's adoption of the recognition and measurement methods under Financial Accounting Standards Board (FASB) Interpretation No. 48 – Accounting for Uncertainty in Income Taxes – An Interpretation of FASB Statement No. 109, and effective on January 1, 2006, change of its method of accounting for stock-based compensation to conform to FASB Statement No. 123 (revised 2004), Share-Based Payment.

Deloitte Touche Tohmatsu CPA Ltd.

Beijing, the People's Republic of China

May 20, 2009

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT

See Item 6.C. of this annual report, Directors, Senior Management and Employees – Board Practices.

Our board of directors has concluded that Mr. Kheng Nam Lee, a member of our audit committee, meets the criteria for an audit committee financial expert as established by the U.S. Securities and Exchange Commission.

Mr. Kheng Nam Lee will not be deemed an expert for any purpose, including, without limitation, for purposes of section 11 of the U.S. Securities Act of 1933, as amended, as a result of being designated or identified as an audit committee financial expert. The designation or identification of Mr. Kheng Nam Lee as an audit committee financial expert does not impose on him any duties, obligations or liability that are greater than the duties, obligations and liability imposed on him as a member of the audit committee and board of directors in the absence of such designation or identification. The designation or identification of Mr. Kheng Nam Lee as an audit committee financial expert does not affect the duties, obligations or liability of any other member of the audit committee or board of directors.

ITEM 16B. CODE OF ETHICS

See Item 6.C. of this annual report, Directors, Senior Management and Employees – Board Practices.

Our board of directors has adopted a code of ethics, which is applicable to our senior executive and financial officers and any other persons who perform similar functions for us. We have posted the text of our code of ethics on our Internet website at www.chinafinanceonline.com/investor/governance.asp.

ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The following table sets forth the aggregate fees by category specified below in connection with certain professional services rendered by Deloitte Touche Tohmatsu CPA Ltd., our independent registered public accounting firm, for the periods indicated. We did not pay any other fees to our independent registered public accounting firm during the periods indicated below.

	For the Year Ended December 31,		
	2008	2007	2006
Audit Fees ⁽¹⁾	US\$ 735,000	US\$ 635,000	US\$ 257,000
Tax Fees ⁽²⁾	119,737	22,278	

- (1) Audit Fees means the aggregate fees in each of the

fiscal years listed for professional services rendered by Deloitte Touche Tohmatsu CPA Ltd. for the audit of our annual financial statements, review of interim financial statements and attestation services that are provided in connection with statutory and regulatory filings or engagements.

- (2) Tax Fees means the aggregate fees billed in each of the fiscal years listed for professional tax services rendered by Deloitte Touche Tohmatsu CPA Ltd.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
TO THE BOARD OF DIRECTORS AND SHAREHOLDERS OF
CHINA FINANCE ONLINE CO. LIMITED**

We have audited the accompanying consolidated balance sheets of China Finance Online Co. Limited and its subsidiaries and variable interest entities (the Group) as of December 31, 2007 and 2008 and the related consolidated statements of operations, shareholders' equity and comprehensive income, and cash flows for each of the three years in the period ended December 31, 2008, and the related financial statement schedule included in Schedule I. These financial statements are the responsibility of the Group's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of China Finance Online Co. Limited and its subsidiaries and variable interest entities as of December 31, 2007 and 2008, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2008, in conformity with accounting principles generally accepted in the United States of America. As described in Note 2 to the consolidated financial statements, 1) effective on January 1, 2007, the Group adopted the recognition and measurement methods under Financial Accounting Standards Board Interpretation No. 48,

Accounting for Uncertainty in Income Taxes – An Interpretation of FASB Statement No.109; 2) effective on January 1, 2006, the Group changed its method of accounting for stock-based compensation to conform to Statement of Financial Accounting Standard No. 123 (revised 2004), Share-Based Payment.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Group's internal control over financial reporting as of December 31, 2008, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated May 20, 2009 expressed an unqualified opinion on the Group's internal control over financial reporting.

1. ORGANIZATION AND PRINCIPAL ACTIVITIES continued

PRC regulations prohibit direct foreign ownership of business entities providing certain services in PRC, such as internet content service. China Finance Online and its wholly owned subsidiaries, CFO Beijing and CFO software are foreign or foreign invested enterprise under PRC law and accordingly are ineligible for certain operations. In order to comply with these regulations, the Group established CFO Fuhua, CFO Premium, CFO Glory, CFO Chongzhi and CFO Shangtong, five variable interest entities (VIE), as VIE is defined by the Financial Accounting Standards Board (FASB) Interpretation No. 46 (revised) (FIN 46(R)) through designated equity owners who are PRC citizens and legally own the VIEs. In 2008, the Group also acquired three VIEs, CFO Zhongcheng, CFO Huifu and CFO Newrand through a series of contractual arrangements (see Note 3).

CFO Fuhua

In 2000, the Company established CFO Fuhua, through two equity owners who are PRC citizens designated by the Company and legally own CFO Fuhua.

In 2004, China Finance Online signed a series of agreements with CFO Fuhua and its shareholders that provide the Group with the substantial ability to control CFO Fuhua. Pursuant to these contractual arrangements with CFO Fuhua, China Finance Online provides equipment, services and a domain name license to CFO Fuhua in exchange for fees. China Finance Online has the right to determine the amount of these fee and they are intended to transfer substantially all of the economic benefits of CFO Fuhua to the Company. The principal equipment lease, services and domain name license agreements that the Group has entered into with CFO Fuhua include:

- an equipment leasing agreement, pursuant to which CFO Fuhua leases a substantial majority of its operating assets from CFO Beijing;

- a technical support agreement, pursuant to which CFO Beijing provides technical support for CFO Fuhua s operations;

- an amended and restated strategic consulting agreement, pursuant to which CFO Beijing provides strategic consulting services to CFO Fuhua, including consulting services in relation to CFO Fuhua s online advertising business; and

- a domain name licensing agreement, pursuant to which CFO Beijing licenses to CFO Fuhua its domain name, www.jrj.com.cn.

As a result of a Ministry of Information Industry circular issued in 2006 regulating among other things the ownership of domain names by foreign invested value-added telecommunications businesses (including Internet and wireless content providers), China Finance Online and CFO Beijing transferred ownership of the domain names, www.jrj.com and www.jrj.com.cn, to CFO Fuhua and terminated its licensing arrangements regarding www.jrj.com.cn.

1. ORGANIZATION AND PRINCIPAL ACTIVITIES continued

CFO Fuhua continued

China Finance Online has the right to determine the amount of these fees and they are intended to transfer substantially all of the economic benefits of CFO Fuhua to the Company.

In addition, China Finance Online has entered into agreements with CFO Fuhua and its shareholders that provide CFO Beijing with the substantial ability to control CFO Fuhua. Pursuant to these contractual arrangements: the shareholders of CFO Fuhua have granted China Finance Online or individuals designated by China Finance Online an irrevocable proxy to exercise all their voting rights as shareholders of CFO Fuhua, including the right to appoint directors, the general manager and other senior management of CFO Fuhua;

CFO Fuhua will not enter into any transaction that may materially affect its assets, liabilities, equity or operations without China Finance Online's prior written consent;

CFO Fuhua will not distribute any dividends;

China Finance Online may purchase the entire equity interest in, or all the assets of, CFO Fuhua at a price equal to the total principal amount of the loan lent by the Company to the owners of CFO Fuhua when and if such purchase is permitted by PRC law or the current shareholders of CFO Fuhua cease to be directors or employees of CFO Fuhua;

the shareholders of CFO Fuhua have pledged their equity interest in CFO Fuhua to CFO Beijing to secure the payment obligations of CFO Fuhua under the equipment leasing agreement, the technical support agreement and the amended and restated strategic consulting agreement between CFO Beijing and CFO Fuhua; and

the shareholders of CFO Fuhua will not transfer, sell, pledge, dispose of or create any encumbrance on their equity interest in CFO Fuhua without the prior written consent of CFO Beijing.

Each of the contractual arrangement with CFO Fuhua and its shareholders can only be amended with the approval of our audit committee or another independent body of China Finance Online's board of directors.

1. ORGANIZATION AND PRINCIPAL ACTIVITIES continued

CFO Fuhua continued

China Finance Online made a loan to each of two owners of CFO Fuhua solely for the purposes of capitalizing CFO Fuhua. Pursuant to the loan agreements, these loans can only be repaid by transferring all of their interests in CFO Fuhua to China Finance Online or a third party designated by China Finance Online. While Hong Kong law limits the maximum interest payment chargeable under a loan to 60% of the outstanding principal amount per annum, China Finance Online does not believe this limitation will have a material adverse effect on its business and operations, or will result in a material amount being paid to the shareholders of CFO Fuhua if and when they are permitted to transfer their interests in CFO Fuhua to China Finance Online. China Finance Online does not regard the shareholders of CFO Fuhua as having any interest in CFO Fuhua.

China Finance Online made a loan to CFO Fuhau in 2006 to finance its acquisition of RMB12,000,000.

In April 2008, the CEO, who is the designated owner of CFO Fuhua, injected further capital of \$1,020,542 (equivalent to RMB7,000,000) which was loaned by CFO Beijing.

CFO Premium, CFO Glory, CFO Shangtong, CFO Chongzhi, CFO Huifu, CFO Zhongcheng and CFO Newrand

In August and September 2007, the Group established CFO Premium and CFO Glory through equity owners who are PRC citizens designated by the Company and own CFO Premium and CFO Glory.

In June 2008, the Group established CFO Shangtong and CFO Chongzhi through equity owners who are PRC citizens designated by the Group and own CFO Shangtong and CFO Chongzhi.

In August and September of 2008, the Group acquired CFO Huifu and CFO Zhongcheng through equity owners who are PRC citizens designated by the Group and own CFO Huifu and CFO Zhongcheng (note 3).

In October 2008, the Group acquired CFO Newrand through equity owners who are PRC citizens designated by the Group and own CFO Newrand (note 3).

CFO Premium, CFO Glory, CFO Shangtong, CFO Chongzhi, CFO Huifu, CFO Zhongcheng and CFO Newrand
continued

CFO Software has entered into a series of contractual arrangements with CFO Premium, CFO Glory, CFO Shangtong, CFO Chongzhi, CFO Huifu, CFO Zhongcheng and CFO Newrand (the seven VIEs) and their individual shareholders, respectively, which provide CFO Software with the substantial ability to control the seven VIEs. Pursuant to these similar contractual arrangements, CFO Software provides services to the seven VIEs in exchange for fees. The principal services agreements that CFO Software has entered into with the seven VIEs include:

strategic consulting services agreement, pursuant to which the amount of the fee to be charged is 30% of each of the seven VIEs' income before tax;

technical support services agreement, pursuant to which the amount of the fee to be charged is 30% of each of the seven VIEs' income before tax;

operating support services agreement, pursuant to which the amount of the fee to be charged is 40% of each of the seven VIEs' income before tax;

CFO Software has the right to receive substantially all of the economic benefits of the seven VIEs to the Group.

In addition, CFO Software has entered into agreements with the seven VIEs and their shareholders that provide CFO Software with the substantial ability to control the seven VIEs. Pursuant to these contractual arrangements: the shareholders of the seven VIEs have granted CFO Software or individuals designated by CFO Software an irrevocable proxy to exercise all their voting rights as shareholders of the seven VIEs, including the right to appoint directors, the general manager and other senior management of the seven VIEs;

the seven VIEs will not enter into any transaction that may materially affect its assets, liabilities, equity or operations without CFO Software's prior written consent;

the seven VIEs will not distribute any dividends;

CFO Software may purchase the entire equity interest in, or all the assets of the seven VIEs at a price equal to the total principal amount of the loan lent by the Group to the owners of the seven VIEs when and if such purchase is permitted by PRC law or the current shareholders of the seven VIEs cease to be directors or employees of the seven VIEs;

continued

the shareholders of the seven VIEs will not transfer, sell, pledge, dispose of or create any encumbrance on their equity interest in the seven VIEs without the prior written consent of CFO Software.

CFO Software also made loans to the shareholders of the seven VIEs solely for the purposes of capitalizing the seven VIEs, respectively. Pursuant to the loan agreements, these loans can only be repaid by transferring all of their interests in the seven VIEs to CFO Software or a third party designated by CFO Software.

Through the contractual agreements described above, CFO Fuhua, CFO Premium, CFO Glory CFO Shangtong, CFO Chongzhi, CFO Huifu, CFO Zhongcheng and CFO Newrand are VIEs in accordance with FIN 46R because the equity owners (1) lack the right to receive the expected residual returns of the VIEs, (2) lack the ability to make decisions about the VIEs activities that have a significant effect on their success, and (3) substantially all of the VIEs businesses are conducted on behalf of the Group. The Group is the primary beneficiary of the VIEs because it holds all the variable interests in the VIEs. As a result, the accounts and operations of the VIEs are included in the accompanying consolidated financial statements effective as of the date of the above agreements.

The VIEs and the following financial statement amounts and balances were included in the accompanying consolidated financial statements as of and for the years ended December 31:

	Year ended December 31,	
	2007	2008
Total assets	\$ 17,671,647	\$ 75,142,761
Total liabilities	18,056,122	71,209,109

	Year ended December 31,		
	2006	2007	2008
Net revenue	1,286,614	1,022,735	3,712,343
Net income (loss)	(4,999)	(1,021,290)	227,474

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The consolidated financial statements of the Group have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Basis of consolidation

The consolidated financial statements include the financial statements of China Finance Online, its subsidiaries and its variable interest entities. All inter-company transactions and balances have been eliminated upon consolidation.

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and highly liquid investments which are unrestricted as to withdrawal or use, and which have remaining maturities of three months or less when purchased.

Fair value

The Group adopted Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements (SFAS 157) on January 1, 2008 for all financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

SFAS 157 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Group considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

SFAS 157 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument s categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. SFAS 157 establishes three levels of inputs that may be used to measure fair value:

Level 1

Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Table of Contents

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

Fair value continued

Level 2

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices included within Level 1 that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

The Group has no financial assets and liabilities subject to SFAS 157 disclosure as of December 31, 2008.

Trust bank balances held on behalf of customers

CFO Daily Growth receives fund from customers for purpose of buying or selling securities on behalf of its customers and deposits the fund in its interest-bearing bank account. Such bank balance represents an asset of the Group for the amounts due to customers for the trust bank balance held on their behalf and payable to customers on demand. The Group also recognizes a corresponding liability.

Advance to employees

The Group has made advances to certain individuals to enable them to participate in stock trading in the Stock Exchange Campaign which was launched by the Group for marketing purposes. The Stock Exchange Campaign was ended in year 2008. The balances represent \$1,672,575 and \$160,837 as of December 31, 2007 and 2008 and are repayable to the Group on demand.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenue and expenses in the financial statements and accompanying notes. Significant accounting estimates reflected in the Group's financial statements include collectibility of account receivable, valuation allowance for deferred tax assets, fair value of stock option and nonvested shares, useful lives and impairment of property and equipment, and impairment of cost method investment and goodwill. Actual results could differ from those estimates.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continuedProperty and equipment, net

Property and equipment, net are carried at cost less accumulated depreciation. Depreciation is calculated on a straight-line basis over the following estimated useful lives:

Technology infrastructure	5 years
Computer equipment	5 years
Furniture, fixtures and equipment	5 years
Motor vehicle	5 years
Leasehold improvements	Shorter of the lease term or 5 years

Acquired intangible assets, net

Acquired intangible assets consist of intangible assets other than goodwill acquired through various acquisitions as described in Note 3 and are amortized on a straight-line basis over their expected useful economic lives.

If an intangible asset is determined to have an indefinite useful life, it should not be amortized until its useful life is determined to be no longer indefinite. The Group reviews intangible assets remaining useful lives in each reporting period. If such an asset is later determined to have a finite useful life, that asset will then be amortized prospectively over its estimated remaining useful life.

The Group evaluates the recoverability of identifiable intangible assets with determinable useful lives whenever events or changes in circumstances indicate that an intangible asset's carrying amount may not be recoverable. The Group measures the carrying amount of an intangible asset against the estimated undiscounted future cash flows associated with it. Impairment exists when the sum of the expected future net cash flows is less than the carrying value of the asset being evaluated. Impairment loss is calculated as the amount by which the carrying value of the asset exceeds its fair value. Fair value is estimated based on various valuation techniques, including the discounted value of estimated future cash flows. The evaluation of asset impairment requires the Group to make assumptions about future cash flows over the life of the asset being evaluated. These assumptions require significant judgment and actual results may differ from assumed and estimated amounts. During the years ended December 31, 2006, 2007 and 2008, the Group did not record any impairment losses associated with intangible assets.

An intangible asset that is not subject to amortization is tested for impairment at least annually if events or changes in circumstances indicate that the asset might be impaired. Such impairment test consists of a comparison of the fair values of the assets with their carrying amounts and an impairment loss is recognized if and when the carrying amounts exceed the fair values.

Table of Contents

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

Acquired intangible assets, net continued

The estimates of fair values of intangible assets not subject to amortization are determined using various discounted cash flow valuation methodologies. Significant assumptions are inherent in this process, including estimates of discount rates. Discount rate assumptions are based on an assessment of the risk inherent in the respective intangible assets. During the years ended December 31, 2006, 2007 and 2008, the Group did not record any impairment losses associated with intangible assets.

Impairment of long-lived assets

The Group reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may no longer be recoverable. When these events occur, the Group measures impairment by comparing the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to result from the use of the assets and their eventual disposition. If the sum of the expected undiscounted cash flow is less than the carrying amount of the assets, the Group would recognize an impairment loss based on the fair value of the assets. There were no impairment losses in the years ended December 31, 2006, 2007 and 2008.

Goodwill

The excess of the purchase price over the fair value of net assets acquired is recorded on the consolidated balance sheet as goodwill.

The Group tests goodwill annually following a two-step process in accordance with SFAS No. 142, *Goodwill and Other Intangible Assets*. The first step compares the fair values of each reporting unit to its carrying amount, including goodwill. If the fair value of each reporting unit exceeds its carrying amount, goodwill is not considered to be impaired and the second step will not be required. If the carrying amount of a reporting unit exceeds its fair value, the second step compares the implied fair value of goodwill to the carrying value of a reporting unit's goodwill. The implied fair value of goodwill is determined in a manner similar to accounting for a business combination with the allocation of the assessed fair value determined in the first step to the assets and liabilities of the reporting unit. The excess of the fair value of the reporting unit over the amounts assigned to the assets and liabilities is the implied fair value of goodwill. An impairment loss is recognized for any excess in the carrying value of goodwill over the implied fair value of goodwill.

The Group performs goodwill impairment tests annually on December 31 by comparing the carrying value to the fair value of each reporting unit. Based on the Group's assessment, there was no impairment of goodwill for the years ended December 31, 2006, 2007 and 2008.

Table of Contents

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

Revenue recognition

The Group generates revenue primarily from annual subscription fees from subscribers to their financial data and information services including their downloadable proprietary research tools. The Group recognizes revenues when all of the following criteria are met: (1) persuasive evidence of an arrangement exists, (2) delivery has occurred, (3) the fee is fixed or determinable and (4) collectibility is probable. Upon receipt of the upfront cash payments from the subscriber, the Group will activate the subscriber's account and provide the subscriber the access code. This will commence a certain subscription period according to the customer demand and the full payment will be deferred and recognized ratably over the subscription period. Since the Group does not have sufficient vendor specific objective evidence to allocate revenue to the various elements of the arrangement, the Group recognizes revenue ratably over the life of the arrangement.

The Group provides short messaging services (SMS) which are delivered primarily through intermediary companies licensed to provide SMS services on behalf of mobile phone service providers. The Group evaluates the criteria outlined in EITF No. 99-19, Reporting Revenue Gross as Principal Versus Net as an Agent, in determining whether it is appropriate to record the gross amount of revenues and related costs or the net amount earned after deducting service and network fees paid to the mobile phone service providers. The Group records the gross amounts billed to its customers as the Group is the primary obligor in these transactions based on the following criteria: it has latitude in establishing prices; is involved in the determination of the service specifications; and has the right to select suppliers. When recording the gross revenue, the Group measures its revenues based on the total amount paid by its customers, for which the mobile phone service provider bills and collects on the Group's behalf. Accordingly, the 15% service fee paid to the mobile phone service provider is included in the cost of revenues.

The Group derives its advertising fees from advertising sales on their website principally for a fixed period of time, generally less than one year. Revenues from advertising arrangements are recognized ratably over the period the advertising is displayed.

The Group also derives commission from its brokerage services provided by the newly acquired subsidiary, CFO Daily Growth, which buys or sells securities on its customers' behalf. The commission income is recognized on a trade date basis as securities transactions occur.

Table of Contents

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

Business taxes and value added taxes

Revenue is recorded net of business taxes when incurred. The Group is subject to business taxes of approximately 5% on taxable services provided to its customers. During the years ended December 31, 2006, 2007, and 2008, business taxes totaled \$208,559, \$667,400, and \$903,330 respectively.

The Group's PRC subsidiaries are subject to value added tax at a rate of 17% on subscription-based revenue. Value added tax payable on subscription-based revenue is computed net of value added tax paid on purchases. In respect of subscription-based revenue, however, if the net amount of value added tax payable exceeds 3% of subscription-based revenue, the excess portion of value added tax can be refunded immediately. The Group therefore is subject to an effective net value added tax burden of 3% from subscription-based revenue and records value added tax on a net basis. Net amount of value added tax is recorded either in the line item of other current liabilities or prepaid expenses and other current assets on the face of consolidated balance sheet.

Subscription-based revenue includes the benefit of the rebate of value added taxes on sale of the downloadable software received from the Chinese tax authorities as part of the PRC government policy of encouraging software development in the PRC. In 2006, 2007 and 2008, the Group recognized \$516,773, \$2,233,528, and \$4,834,336, respectively, in value added tax refunds.

Government subsidies

The Group records government subsidies when granted by local government authority and are not subject to future return or reimbursement. The government subsidies include R&D subsidy, business tax refund, innovation fund and high-tech company subsidy. Government subsidies granted totaled \$nil, \$135,834 and \$436,946 for the years ended December 31, 2006, 2007 and 2008, respectively.

Deferred revenue

Payments received in advance of service are recorded as deferred revenue until earned and when the relevant revenue recognition requirements have been met.

Table of Contents

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

Cost method investment

In December 2005, the Group purchased 9,800,000 Series B preferred shares in a private company, Moloon International Inc., (Moloon) for \$15,000,000, which represents a 25% interest in Moloon on an if-converted basis. China Finance Online's investment in these preferred shares is not in-substance common stock, and accordingly, the investment has been recorded as a cost method investment. As Moloon does not have readily determinable fair value, the Group carries the investment at cost and only adjusted for other-than-temporary declines in fair value and distributions of earnings. The management regularly evaluates the impairment of the cost method investment based on performance and the financial position of the investee as well as other evidence of market value. Such evaluation includes, but is not limited to, reviewing the investee's cash position, recent financings, projected and historical financial performance, cash flow forecasts and financing needs. An impairment loss is recognized in earnings equal to the difference between the investment's cost and its fair value at the balance sheet date of the reporting period for which the assessment is made. The fair value of the investment would then become the new cost basis of the investment. The Group recorded an other-than-temporary impairment charge totaling \$1,322,000 during the year ended December 31, 2006, and \$11,127,000 during the year ended December 31, 2007. No impairment charges were recorded during the year ended December 31, 2008.

Foreign currency translation

The functional currency of China Finance Online's significant subsidiaries and variable interest entities is Renminbi (RMB) except CFO Daily Growth, CFO DG Futures and CFO DG Wealth Management, of which the functional currency is Hong Kong dollar. Monetary assets and liabilities denominated in other currencies are translated into the applicable functional currencies at rates of exchange in effect at the balance sheet date. Nonmonetary assets and liabilities are remeasured into the applicable functional currencies at historical exchange rates and transactions denominated in other currencies are translated using the average rate for the year. Exchange gains and losses are recorded in the consolidated statement of operations.

China Finance Online uses the U.S. dollar as its functional and reporting currency. Accordingly assets and liabilities are translated using the exchange rates in effect on the balance sheet date. Transactions in currencies other than the U.S. dollar are translated using the average exchange rate prevailing in the period when transactions occurred. Translation adjustments are reported as cumulative transition adjustments and are shown as a separate component of other comprehensive income (loss) in the accompanying consolidated statements of shareholders' equity and comprehensive income (loss).

Table of Contents

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

Foreign currency risk

The RMB is not a freely convertible currency. The State Administration for Foreign Exchange, under the authority of the People's Bank of China, controls the conversion of Renminbi into foreign currencies. The value of the RMB is subject to changes in central government policies and to international economic and political developments affecting supply and demand in the China Foreign Exchange Trading System market. Cash and cash equivalents of the Group included aggregate amounts of \$51,150,706 and \$79,921,228 at December 31, 2007 and 2008 which were denominated in RMB.

Cost of raw data

Cost of raw data is expensed as incurred and is recorded in cost of revenues.

Product development expenses

Costs of product development, including database technology, are expensed as incurred until technological feasibility has been established, at which time any additional costs would be capitalized. To date, the Group has essentially completed its development concurrently with the establishment of technological feasibility, and, accordingly, no costs have been capitalized.

Advertising costs

The Group expenses advertising costs as incurred. Total advertising expenses were \$921,365, \$158,631, and \$1,102,779 for the years ended December 31, 2006, 2007 and 2008, respectively, and have been included as part of sales and marketing expenses.

Income taxes

Deferred income taxes are recognized for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements, net operating loss carry forwards and credits by applying enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Current income taxes are provided for in accordance with the laws of the relevant tax authorities.

(In U.S. dollars)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

Income taxes continued

In June 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 . FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 is effective for fiscal years beginning after December 15, 2006, with early adoption permitted. The Group adopted FIN 48 on January 1, 2007. The adoption of FIN 48 did not result in a cumulative adjustment on January 1, 2007 and had no significant impact on the Group s accounting for income taxes for the year ended December 31, 2007 and 2008. The Group did not incur any interest and penalties related to potential underpaid income tax expenses. The management does not expect to have a significant increase or decrease on the unrecognized tax benefits within 12 months from December 31, 2008.

Comprehensive income

Comprehensive income includes net income (loss) and foreign currency translation adjustments. Comprehensive income is reported as a component of the consolidated statements of shareholders equity and comprehensive income.

Fair value of financial instruments

Financial instruments include cash and cash equivalents, accounts receivable, and accounts payable. The carrying values of cash and cash equivalents, accounts receivable and accounts payable approximate their fair value due to their short-term maturities. The Group does not use derivative instruments to manage risks.

Concentrations of credit risk

Financial instruments that potentially expose the Group to concentrations of credit risk consist principally of cash and cash equivalents and accounts receivable. The Group places its cash and cash equivalents with financial institutions with high-credit ratings and quality.

The Group conducts ongoing credit evaluations of its customers and generally does not require collateral or other security from its customers. The Group manages its credit risk by collecting up-front fee from its customers and billing at regular intervals during the contract period. The Group assesses the adequacy of allowance for doubtful accounts primarily based upon the age of the receivables and factors surrounding the credit risk of specific customers.

There were no customers with 10% or more of the Group s revenues and accounts receivable during 2006, 2007, or 2008.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

Stock-based compensation

Effective January 1, 2006, the Group adopted the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) No. 123 (revised 2004), Share-based Payment (SFAS 123(R)) which requires that share-based payment transactions with employees be measured based on the grant-date fair value of the equity instrument issued and recognized as compensation expense over the requisite service period, The Group recognizes stock-based compensation costs over the requisite service period during which an employee is required to provide service in exchange for the award, which generally is the vesting period.

The Group accounted for share-based compensation awards issued to non-employees in accordance with the provisions of SFAS 123(R) and EITF Issue No. 96-18, Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services (EITF 96-18). Under SFAS 123(R) and EITF 96-18, the Group uses the Black-Scholes Option Pricing Model to measure the value of options granted to non-employees at the earlier of the commitment date or the date at which the non-employee s performance is complete. Prior to the measurement date, non-employee share-based compensation is remeasured at its fair value at each financial reporting date with any changes in the fair value recorded in the consolidated statements of operations.

Income (loss) per share

Basic income (loss) per share is computed by dividing net income (loss) by the weighted average number of ordinary shares outstanding during the period. Diluted income (loss) per ordinary share reflects the potential dilution that could occur if securities or other contracts to issue ordinary shares were exercised or converted into ordinary shares, the dilutive effect of the stock options and nonvested shares is computed using treasury stock method.

Recent accounting standards

In September 2006, FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). Effective January 1, 2008, the Group adopted the measurement and disclosure other than those requirements related to nonfinancial assets and liabilities in accordance with guidance from FASB Staff Position 157-2, Effective Date of FASB Statement No. 157, which delayed the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), until the beginning of fiscal year 2009. The Group does not believe that the adoption of SFAS 157 for nonfinancial assets and liabilities would have a significant effect on its consolidated financial position or results of operations.

(In U.S. dollars)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

Recent accounting standards continued

In December 2007, the FASB issued SFAS No. 141(Revised 2007), *Business Combination* (SFAS 141(R)), to improve consistency in the accounting and financial reporting of business combinations. The standard requires the acquiring entity in a business combination to recognize all (and only) the assets acquired and liabilities assumed in the transaction; establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed; and requires the acquirer to disclose to investors and other users all of the information they need to evaluate and understand the nature and financial effect of the business combination. SFAS 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. An entity may not apply it before that date. The Group does not believe that the adoption of SFAS 141(R) would have a significant effect on its consolidated financial position or results of operations.

On April 1, 2009, the FASB issued a FASB Staff Position (FSP) No. 141(R)-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies* . This FSP amends and clarifies SFAS 141(R) to address application issues on initial recognition and measurement, subsequent measurement and accounting, and disclosure of assets and liabilities arising from contingencies in a business combination. FSP FAS 141(R)-1 shall be effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Group does not believe that the adoption of FSP FAS 141(R)-1 would have a significant effect on its consolidated financial position or results of operations.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements* (SFAS 160) to improve the relevance, comparability, and transparency of financial information provided to investors by requiring all entities to report noncontrolling (minority) interests in subsidiaries in the same way as required in the consolidated financial statements. Moreover, SFAS 160 eliminates the diversity that currently exists in accounting for transactions between an entity and noncontrolling interests by requiring they be treated as equity transaction. SFAS 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited. The Group does not believe that the adoption of SFAS 160 would have a significant effect on its consolidated financial position or results of operations.

(In U.S. dollars)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

Recent accounting standards continued

In April 2008, the FASB issued FASB Staff Position FAS142-3, *Determination of the Useful Life of Intangible Assets*. This FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under FASB Statement No. 142, *Goodwill and Other Intangible Assets*. This FSP is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is prohibited. The guidance for determining the useful life of a recognized intangible asset in this FSP shall be applied prospectively to intangible assets acquired after the effective date. The Group does not believe that the adoption of FASB Staff Position FAS142-3 would have a significant effect on its consolidated financial position or results of operations.

At the November 24, 2008 meeting, the FASB ratified the consensus reached by the Task Force in Issue No. 08-6, *Equity Method Investment Accounting Considerations* (EITF 08-6). Because of the significant changes to the guidance on subsidiary acquisitions and subsidiary equity transactions and the increased use of fair value measurements as a result of SFAS No. 141R and SFAS No. 160, questions have arisen regarding the application of that accounting guidance to equity method investments. EITF 08-6 provides guidance for entities that acquire or hold investments accounted for under the equity method. EITF 08-6 is effective for transactions occurring in fiscal years and interim periods beginning on or after December 15, 2008. Early adoption is not permitted. The Group does not believe that the adoption of EITF 08-6 would have a significant effect on its consolidated financial position or results of operations.

At the June 25, 2008 meeting, the FASB ratified the consensus reached by the Task Force in Issue EITF No. 07-5, *Determining Whether an Instrument (or Embedded Feature) Is Indexed to an Entity's Own Stock* (EITF 07-5). EITF 07-5 provides guidance for determining whether an equity-linked financial instrument (or embedded feature) is indexed to an entity's own stock. This Issue's fixed-for-fixed, plus fair value inputs model is largely consistent with current interpretations of the phrase indexed to an entity's own stock. However, in certain circumstances, EITF 07-5 may result in changes to those accounting conclusions and may have impact on issuers of equity-linked financial instruments (e.g., options or forward contracts) or instruments containing embedded features (e.g., embedded conversion options in a convertible instrument) that have (1) exercise or settlement contingency provisions, (2) a strike price that is subject to adjustment, or (3) a strike price that is denominated in a currency other than the entity's functional currency. It is applied to outstanding instruments as of January 1, 2009. The Group does not believe that the adoption of EITF 07-5 would have a significant effect on its consolidated financial position or results of operations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continuedRecent accounting standards continued

In November 2008 the FASB ratified EITF Issue No. 08-7, *Accounting for Defensive Intangible Assets*, (EITF 08-7). EITF 08-7 applies to defensive intangible assets, which are acquired intangible assets that the acquirer does not intend to actively use but intends to hold to prevent its competitors from obtaining access to them. As these assets are separately identifiable, EITF 08-7 requires an acquiring entity to account for defensive intangible assets as a separate unit of accounting which should be amortized to expense over the period the asset diminished in value. Defensive intangible assets must be recognized at fair value in accordance with SFAS 141(R) and SFAS 157. EITF 08-7 is effective for financial statements issued for fiscal years beginning after December 15, 2008. The Group does not believe that the adoption of EITF 08-7 would have a significant effect on its consolidated financial position or results of operations.

In November, 2008, the Task Force affirmed as a consensus that EITF Issue No.08-8, *Accounting for an Instrument (or an Embedded Feature) with a Settlement Amount That Is Based on the Stock of an Entity's Consolidated Subsidiary* (EITF 08-8) shall be effective for fiscal years beginning on or after December 15, 2008, and interim periods within those fiscal years. Under EITF 08-8, freestanding financial instruments(or embedded features) that are indexed to, in whole or in part, the stock of a consolidated subsidiary are considered indexed to the entity's own stock in the consolidated financial statements if (1) the requirements of Issue 07-5 are met and (2) the subsidiary is a substantive entity. The Group does not believe that the adoption of EITF 08-8 would have a significant effect on its consolidated financial position or results of operations.

On April 9, 2009, the FASB issued FASB Staff Position (FSP) No. FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*. This FSP amends FASB Statement No. 107, *Disclosures about Fair Value of Financial Instruments*, to require disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. This FSP also amends APB Opinion No. 28, *Interim Financial Reporting*, to require those disclosures in summarized financial information at interim reporting periods. This FSP will be effective on April 1, 2009. This FSP does not require disclosures for earlier periods presented for comparative purposes at initial adoption. In periods after initial adoption, this FSP requires comparative disclosures only for periods ending after initial adoption. The Group does not believe that the adoption of this FSP would have a significant effect on its consolidated financial position or results of operations.

On April 9, 2009, the FASB issued FSP No. FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments*. This FSP amends the other-than-temporary impairment guidance in U.S. GAAP for debt securities to make the guidance more operational and to improve the presentation and disclosure of other-than-temporary impairments on debt and equity securities in the financial statements. This FSP does not amend existing recognition and measurement guidance related to other-than-temporary impairments of equity securities. The FSP will be effective on April 1, 2009. This FSP does not require disclosures for earlier periods presented for comparative purposes at initial adoption. In periods after initial adoption, this FSP requires comparative disclosures only for periods ending after initial adoption. The Group does not believe that the adoption of this FSP would have a significant effect on its consolidated financial position or results of operations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

Recent accounting standards continued

On April 9, 2009, the FASB issued FSP No. FAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly . This FSP provides additional guidance for estimating fair value in accordance with FASB Statement No. 157, Fair Value Measurements , when the volume and level of activity for the asset or liability have significantly decreased. This FSP also includes guidance on identifying circumstances that indicate a transaction is not orderly. This FSP emphasizes that even if there has been a significant decrease in the volume and level of activity for the asset or liability and regardless of the valuation technique(s) used, the objective of a fair value measurement remains the same. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. This FSP will be effective on April 1, 2009 and will be applied prospectively. This FSP does not require disclosures for earlier periods presented for comparative purposes at initial adoption. In periods after initial adoption, this FSP requires comparative disclosures only for periods ending after initial adoption. The Group does not believe that the adoption of this FSP would have a significant effect on its consolidated financial position or results of operations.

3. ACQUISITIONS

To expand its market share during 2006, 2007 and 2008, China Finance Online made a number of acquisitions of businesses. Each acquisition has been recorded using the purchase method of accounting, and accordingly the acquired assets and liabilities were recorded at their fair values on the dates of acquisitions and the results of their operations have been included in the Group's results of operations since the dates of their acquisitions. The fair values of the assets and liabilities acquired were estimated using a combination of valuation methods, such as income approach , market approach and cost approach method, considering, among other factors, forecasted financial performance of the acquired business, market performance, and market potential of the acquired business in China.

3. ACQUISITIONS continued*Acquisition of CFO Genius*

On September 21, 2006, China Finance Online entered into an agreement to acquire all the equity interest in CFO Genius for a total cash consideration of \$1,040,081, including \$40,081 in transaction costs. CFO Genius engages in the business of constructing and maintaining financial information databases and providing networked information solutions. It was the first company in China to provide such services for domestic securities and investment firms at the time of its establishment in 1994. The acquisition is expected to strengthen the Group's position in the industry and provide future opportunities to develop database products.

		Amortization period

4. PREPAID EXPENSES AND OTHER CURRENT ASSETS continued

Notes:

- (1) The advertising deposit represents amounts of deposit paid to advertising agent, which is expected to be refunded within a year.
- (2) According to various license agreements with Shanghai Stock Exchange Information Network Co., Ltd., the Company was entitled to receive certain rebate as incentive, which was calculated based on the volume of raw data used by the Company in the provision of subscription services.
- (3) On December 12, 2008, Shanghai Stock Exchange Information Network Co., Ltd, terminated one of the license agreements and would no longer provide certain raw data to third party vendors, including the Company, effective January 1, 2009. As a result, the Company would not be able to continue to provide the subscription services based such raw data, which were subscribed by the customers before the termination of this license agreement. Therefore, the prepaid royalty fee according to this agreement is expected to be refunded by Shanghai Stock Exchange Information Network Co., Ltd..
- (4) As of December 31, 2007, \$685,439 was held by the CEO, who is the designated owner of CFO Fuhua, for the additional capital injected to CFO Fuhua in year 2008.

5. COST METHOD INVESTMENT

In December 2005, the Group purchased 9,800,000 Series B preferred shares in Moloon for \$15,000,000, which represents a 25% interest in Moloon on an if-converted basis. China Finance Online's investment in these preferred shares is not in-substance common stock, and accordingly, the investment has been recorded as a cost method investment.

In April 2006, the Group sold part of its investment in Moloon to a third party for a cash consideration of \$1,187,500, resulting in a gain of \$116,071 which has been recorded as a non operating income in the accompanying consolidated statements of operations. As a result of this disposal, the Group's investment in Moloon's preferred shares decreases to 9,100,000 shares.

Moloon is a Chinese wireless technology and service provider. During the second half of 2006, China Mobile Communication Corporation announced policy changes which, among others, required providers of mobile value added service, or MVAS to extend free trial periods for customers prior to subscriptions and to send reminders to customers confirming new and existing subscriptions. These policy changes had a substantial negative impact on Moloon's MVAS business. Consequently, following an independent valuation prepared by American Appraisal China Limited, the Group determined that its investment in Moloon was impaired and recorded an impairment loss of \$1,322,000 in the accompanying consolidated statements of operations for 2006.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)

5. COST METHOD INVESTMENT continued

Thereafter, Moloon adopted new strategies to transform itself into a provider of mobile online gaming services in China. However, despite the new strategies Moloon's financial conditions have deteriorated and, following an independent valuation prepared by American Appraisal China Limited, the Group determined that its investment in Moloon was further impaired and recorded an additional impairment loss of \$11,127,000 in 2007, reducing the carrying balance of such investment to \$1,479,571.

The Company fully relied on the valuation prepared by American Appraisal China Limited of the Group's cost method investment in Moloon, there was no impairment presented for the year ended December 31, 2008.

6. PROPERTY AND EQUIPMENT, NET

Property and equipment, net consisted of:

	December 31,	
	2007	2008
Technology infrastructure	\$ 3,360,909	\$ 5,954,777
Computer equipment	1,036,325	1,574,533
Furniture, fixtures and equipment	894,783	1,955,792
Motor vehicle	129,636	432,940
Leasehold improvements	1,268,731	1,807,211
	6,690,384	11,725,253
Less: accumulated depreciation	(1,235,526)	(3,136,562)
	\$ 5,454,858	\$ 8,588,691

Depreciation expense for the years ended December 31, 2006, 2007, and 2008 were \$230,552, \$680,702, and \$1,794,368, respectively.

8. GOODWILL continued

SFAS No. 142 requires that the goodwill impairment assessment be performed at the reporting unit level. During the year ended December 31, 2008, the Group tested its goodwill at its four reporting units level.

Southern China CFO Jujin was established after the acquisition of CFO Genius, and CFO Newrand was acquired in year 2008. For goodwill allocation purposes, CFO Jujin, CFO Genius and CFO Newrand have been identified as a reporting unit (Southern China). CFO Jujin and CFO Genius provide similar financial data subscription service to the subscribers located in Southern China and the Group regards this area as regional subscription service provision center for management efficiency, and CFO Newrand provides security consulting service for CFO Jujin and CFO Genius. The goodwill arising from related acquisition is fully allocated to this reporting unit.

Eastern China CFO Zhengning, CFO Zhengtong, CFO Zhengyong, CFO Shangtong and CFO Chongzhi were established after the acquisition of CFO Meining and CFO Stockstar. For goodwill allocation purposes, they have been identified as a single reporting unit (Eastern China), which provides similar financial data subscription service to the subscribers located in Eastern China and the Group regards this area as regional subscription service provision center for management efficiency. The goodwill arising from related acquisition is fully allocated to this reporting unit.

Northern China All of the subsidiaries and VIEs located in Beijing are identified as a single reporting unit (North China), which provides similar financial data subscription service to the subscribers located in Northern China. The Group regards this area as regional subscription service provision center for management efficiency. The goodwill arising from related acquisition is fully allocated to this reporting unit.

Hong Kong CFO DG Futures and CFO DG Wealth Management were established after the acquisition of CFO Daily Growth. CFO Daily Growth, CFO DG Futures and CFO DG Wealth Management have been identified as a reporting unit (Hong Kong) as they provide similar brokerage services. The goodwill arising from related acquisition is fully allocated to this reporting unit.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)

8. GOODWILL continued

During its annual goodwill impairment test, the fair values of the reporting units were estimated primarily using the income approach valuation methodology that includes the discounted cash flow method, taking into consideration the market approach and certain market multiples as a validation of the values derived using the discounted cash flow methodology. The discounted cash flows for each reporting unit were based on discrete five year financial forecasts developed by management for planning purposes. Cash flows beyond the five year and discrete forecast were estimated using a terminal value calculation, which incorporated historical and forecasted financial trends for each reporting unit and considered long-term earnings growth rates for publicly traded peer companies. For the four reporting units, Northern China and CFO Newrand were newly acquired in the end of 2008 and there were no goodwill impairment indicators at the end of December 2008. The Company evaluated the goodwill impairment at its annual goodwill impairment test on Southern China, Eastern China and Hong Kong in December 2008. Specifically, the income approach valuations included estimated reporting units cash flow discounted rates of approximately 21%, 22% and 25%, and terminal value growth rate at 3%, 3% and 3% for Southern China, Eastern China and Hong Kong respectively. Publicly available information regarding the market capitalization of the Group was also considered in assessing the reasonableness of the fair values of our reporting units. As results of the goodwill impairment test, the Group determined that there was no goodwill impairment as of December 31, 2008.

9. ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

Accrued expenses and other current liabilities consist of:

	December 31,	
	2007	2008
Accrued bonus	\$ 1,956,670	\$ 1,079,265
Accrued professional service fees	1,188,163	295,152
Withholding individual income tax-option exercise	1,139,110	171,158
Value added taxes payable	936,625	908,699
Other taxes payable	440,149	313,201

Notes:

- (1) Sales return to customers represents the amounts of sales return resulting from termination of license agreement with Shanghai Stock Exchange Information Network Co., Ltd. for certain information provision. (see Note 4(3)).

10. STOCK OPTIONS AND NONVESTED SHARES

As of December 31, 2008, the Company has two share-based compensation plans, which are described below. The compensation cost that has been charged against income for those plans was \$1,183,662, \$2,946,340, and \$8,040,150 for 2006, 2007, and 2008, respectively.

2004 Stock incentive plan

In January 2004, the Company adopted the 2004 stock incentive plan (the 2004 Plan) which allows the Company to offer a variety of incentive awards to employees, directors, officers and other eligible persons in the Group. Options to purchase 5,688,488 ordinary shares are authorized under the Plan. In September 2004 and December 2006, the Company increased the total number of ordinary shares available for issuance under the 2004 Plan by an additional 5,000,000 shares, respectively, resulting in a total of 15,688,488 options to purchase ordinary shares under the Plan. Options are generally granted at a price equal to the fair market value of the Company's shares at the date of grant. As of December 31, 2008, options to purchase 11,439,978 shares of ordinary shares are outstanding. All of the options granted under the Plan to our directors and managers have vesting period of one to four years, while options granted under the Plan to our other employees vest over a period of three to five years. The options we granted to consultants and advisers vested immediately upon grant or from two to three years after grant. A specified portion of the shares subject to each option vests at the end of the first year and the balance vests each quarter thereafter. The amortization of options granted is based on the graded vesting schedule.

Options to employees

In February 2005, the Company granted 4,053,000 stock options to directors, officers and employees at an exercise price that equaled the trading price of the stock upon the stock option grant. These options vest over 3 years. In November 2005, the Company granted 400,000 stock options to the Company's CEO and 200,000 stock options to the Company's Vice President. The Company accounted for these options under APB 25, Accounting for Stock Issued to Employees . These options vest over 2 years.

In July 2006, the Company granted an additional 400,000 stock options to the Company's CEO and 300,000 stock options to the Chief Financial Officer. The exercise prices equaled the trading price of the stock at the grant date of the option. These options vest over 2 years.

(In U.S. dollars)

10. STOCK OPTIONS AND NONVESTED SHARES continued**2004 Stock incentive plan continued**Options to employees continued

During 2007, the Company granted totaling 3,848,000 stock options to directors, officers and employees at an exercise price that equaled the trading price of the stock upon the stock option grant. These options vest over 3 years except the 400,000 shares granted to the four directors in January 2007 which vest over 2 years.

In 2008, the Company granted totaling 2,820,840 stock options to directors, officers and employees at an exercise price that equaled the trading price of the stock upon the stock option grant. These options vest over 3 years. The fair value of employee options is estimated on the basis of the Black-Scholes Option Pricing model with the following assumptions:

	Years ended December 31,	
	2007	2008
Weighted average risk free rate of return	4.71%	2.14%
Weighted average expected option life	5.96 years	5.98 years
Expected volatility rate	59.92%	61.87%
Dividend yield		
(1) Expected volatility		

The volatility of the underlying ordinary shares during the life of the options was estimated based on the historical stock price volatility of the Company and listed comparable companies over a period comparable to the expected term of the options.

(2) Risk-free interest rate

Risk-free interest rate was estimated based on the yield to maturity of treasury bonds of the United States with a maturity period close to the expected term of the options.

(3) Expected option life

The Group used the simplified method defined in Staff Accounting Bulletin No. 107 to estimate the expected life.

(4) Dividend yield

The dividend yield was estimated by the Company based on its expected dividend policy over the expected term of the options.

(In U.S. dollars)**

10. STOCK OPTIONS AND NONVESTED SHARES continued

2004 Stock incentive plan continued

Options to employees continued

In October and December 2008, ten employees of the Company waived their rights to purchase in total of 970,000 ordinary shares of the Company pursuant to the 2004 Plan, and the Company accepted such waivers. On December 1, 2008, the Company granted new options which will vest in 3 years pursuant to the 2004 Plan. The foregoing is accounted for as a modification of the terms of cancelled award. The incremental compensation cost of \$76,200 arising from the grant of new options was measured as the excess of the fair value of the new options at the grant date over the fair value of the options waived by the ten employees at the date of waiver. The total compensation cost is the remaining unrecognized share based compensation cost of \$1,046,161 plus the incremental cost resulting from the waiver and the new grant, which is amortized over the required service period under the newly granted option awards.

Options to non-employees

In 2004, the Company granted stock options to purchase up to 6,829,500 ordinary shares outside of the 2004 Plan, which vested immediately and 90,000 options to purchase ordinary shares under the 2004 Plan to consultants and strategic advisors, which vested over 2 years. The Company also granted 350,000 options under the 2004 Plan to consultants and strategy advisors in 2005. The fair value of non-employee options is estimated using the Black-Scholes Option Pricing model as such method provided a more accurate estimate of the fair value of services provided by the consultants and strategic advisors. The fair value of the stock options is remeasured as of the end of each reporting period until the services of these non-employees are complete under the service contracts.

All of the options which we granted to non-employees have been vested as of December 31, 2008.

10. STOCK OPTIONS AND NONVESTED SHARES continued

2004 Stock incentive plan continued

Summary of stock options to employees and non-employees continued

As of December 31, 2008, options to purchase 297,560 ordinary shares were available for future grant. The Company recognized share-based compensation expenses of \$1,183,662, \$1,803,107 and \$1,217,980 for stock option in the years ended December 31, 2006, 2007 and 2008, respectively.

The Company recognizes the compensation costs net of a forfeiture rate. The estimate of forfeitures will be adjusted over the requisite service period to the extent that actual forfeitures differ or are expected to differ, from such estimate. Changes in estimated forfeitures will be recognized through a cumulative catch-up adjustment in the period of change and will also impact the amount of stock compensation expense to be recognized in the future periods.

2007 Equity incentive plan

In July 2007, the Company adopted the 2007 Equity incentive plan (the 2007 Plan) and granted nonvested shares covering 10,558,493 ordinary shares of the Company to the employees who are eligible for the 2007 Plan. The vesting of the nonvested shares are subject to achieving certain financial performance targets and rendering service to the Company for the requisite service period stated in the 2007 Plan.

The grant date fair value of a nonvested share is measured at the quoted market price of the Company's equity shares. The nonvested shares shall become vested during the three years following the grant date based on the Company's certain annual operating performance goals for the years 2008 and 2009. Based on the Company's operating performance during 2008, 4,329,024 shares were vested as of December 31, 2008. The Company recognized a compensation expense of \$1,143,233 and \$6,822,170 for the nonvested shares in 2007 and 2008, respectively.

10. STOCK OPTIONS AND NONVESTED SHARES continued**2007 Equity incentive plan continued**

A summary of the status of the nonvested shares as of December 31, 2007 and 2008, and changes during the year ended December 31, 2008 is presented below.

Nonvested shares	Shares	Weighted- average grant date fair value	Aggregate intrinsic value
At the beginning of year 2007			
Granted	10,558,493	1.84	
Vested			
Forfeited			
At the end of year 2007	10,558,493	1.84	46,246,199
Granted			
Vested	(4,329,024)		
Forfeited			
At the end of year 2008	6,229,469	1.84	8,758,633

As of December 31, 2008, there was \$8.0 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under the 2007 Plan. That cost is expected to be recognized over a weighted-average period of 1.5 years.

11. INCOME TAXES

China Finance Online, Daily Growth Futures, Daily Growth Wealth Management, CFO Asiaciti, CFO Kingford, CFO Team Gear, CFO Kinco and CFO Danford have not recorded tax provision for Hong Kong profits tax as these companies have no assessable profits arising in or derived from Hong Kong. CFO Daily Growth is subject to Hong Kong Profits Tax at a rate of 16.5%. For the year ended 2008, income tax benefit \$20,972 for CFO Daily Growth has been made in the consolidated financial statements.

Table of Contents

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)**

11. INCOME TAXES continued

Daily Growth Holdings, CFO Giant Bright, CFO Mainfame, CFO Manca and CFO Mount First are tax-exempted companies incorporated in the British Virgin Islands.

Under the new EIT law and its implementing rules, preferential tax treatments may continue to be granted to industries and projects that are strongly supported and encouraged by the state. Enterprises otherwise classified as High and New Technology Enterprises strongly supported by the state, such as CFO Software, CFO Meining and CFO Genius, are entitled to preferential EIT rate which has the effect of

providing CFO Software tax exemption for the year 2007 and a reduced tax rate of 7.5% for the years 2008, 2009 and 2010; and

Providing CFO Meining and CFO Genius a reduced tax rate of 15% for the years 2008, 2009 and 2010.

Under the new EIT law and its implementing rules, enterprises that are classified as New Software Manufacture Enterprises are entitled to be exempted from EIT tax for the first two profit-making years and enjoy a preferential 12.5% tax rate, which is half of the standard EIT rate of 25% for the three years thereafter. CFO Success and CFO Zhengning based on their status as New Software Manufacture Enterprise are entitled to enjoy preferential tax treatments, which has the effect of

providing CFO Success tax exemption for the years 2008 and 2009 and a preferential EIT rate of 12.5% for the years 2010, 2011 and 2012.

Providing CFO Zhengning tax exemption for the year 2008 and a preferential EIT rate of 12.5% for the years 2009, 2010 and 2011.

CFO Stockstar, CFO Jujin, CFO Newrand and CFO Newrand Training are entitled to enjoy a reduced tax rate of 18%, 20%, 22% and 24% for the year 2008, 2009, 2010 and 2011 respectively and eventually transition to the standard 25% in 2012.

CFO Beijing, CFO Wisdom, CFO Fuhua, CFO Premium, CFO Glory, CFO Zhengtong, CFO Zhengyong, CFO Chongzhi, CFO Shangtong, CFO Huifu, CFO Zhongcheng, and CFO Juda are subject to a uniform tax rate of 25%. The taxable income of CFO Chongzhi and CFO Zhongcheng are treated as 10% of their gross revenues.

On March 16, 2007, the National People's Congress adopted the Enterprise Income Tax Law (the EIT Law), which became effective on January 1, 2008 and replaced the existing separate income tax laws for domestic enterprises and foreign-invested enterprises, by adopting unified income tax rate of 25% for most enterprises.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)

11. INCOME TAXES continued

In accordance with the implementation rules of the New Income Tax Law, the Group's various PRC subsidiaries such as CFO Software and CFO Meining that previously qualified for high and new technology enterprise (hereafter "HNTE") and were granted the preferential tax treatments may not continue to qualify as HNTE strongly supported by the State under the new rules. However, in 2008 the Group's three PRC subsidiaries, including CFO Software, CFO Meining and CFO Genius have been newly announced as HNTE by the PRC tax authority, and therefore they are still subject to the income tax rate of 15%. CFO Software was subject to half tax rate of 7.5%. The HNTE status would allow qualified China based enterprises to use a 15% tax rate for three years. At the conclusion of the three year period, the qualified enterprises have the option to renew for an additional three years through a simplified application process if the company's business operations continue to qualify for HNTE status. After the first six years, enterprises would have to go through a new application process in order to renew their HNTE status.

The EIT Law includes a provision specifying that legal entities organized outside of China will be considered residents for Chinese income tax purposes if their place of effective management or control is within China. If legal entities organized outside China were considered residents for Chinese income tax purpose, they would become subject to the EIT Law on their worldwide income. This would cause any income legal entities organized outside China earned to be subject to China's 25% EIT. The Implementation Rules to the EIT Law provide that non-resident legal entities will be considered China residents if substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, etc. occurs within China. Pursuant to the additional guidance released by the Chinese government on April 22, 2009, management does not believe that the legal entities organized outside China should be characterized as China tax residents for EIT Law purposes.

Under the PRC tax laws effective prior to January 1, 2008, dividends paid to foreign investors by foreign-invested enterprises, such as dividends paid to the overseas holding companies by the PRC subsidiaries, were exempt from PRC withholding tax. Under the EIT Law and its implementation rules which became effective on January 1, 2008, dividends generated after January 1, 2008 and payable by a foreign-invested enterprise in China to its foreign investors who are non-resident enterprises is subject to the withholding tax of 10% and in the case of subsidiary 25% or more directly owned by the resident in Hong Kong, the withholding tax would be 5%.

Aggregate undistributed earnings of the Group's subsidiaries located in PRC that are taxable upon distribution to the Group are considered to be indefinitely reinvested under APB opinion No. 23, Accounting for Income Taxes-Special Areas, because the Group does not have any present plan to pay any cash dividends on its ordinary shares in the foreseeable future and intends to retain most of its available funds and any future earnings for use in the operation and expansion of its business. Accordingly, no deferred tax liability has been accrued for the Chinese dividend withholding taxes that would be payable upon the distribution of those amounts to the Company as of December 31, 2008.

FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)

11. INCOME TAXES continued

Income tax (provision) benefit was as follows:

	2006	December 31, 2007	2008
Current	\$ 626	\$ 70,913	\$ (153,261)
Deferred	40,081	737,712	3,200,390
Total	\$ 40,707	\$ 808,625	\$ 3,047,129

The principal components of deferred income taxes were as follows:

	December 31, 2007	2008
Current deferred tax assets:		
Deferred revenue current	\$ 841,315	\$ 1,873,600
Accrued expenses and other liability	288,200	50,706
Net operating loss carrying forwards		601,217
Total current deferred tax assets	\$ 1,129,515	\$ 2,525,523
Non-current deferred tax liabilities:		
Intangible assets	(321,816)	(622,005)
Property and equipment	(30,457)	(794)
Total non-current deferred tax liabilities	(352,273)	\$ (622,799)
Non-current deferred tax assets:		
Deferred revenue non-current	\$ 14,382	\$ 1,167,931
Net operating loss carrying forwards	1,136,729	1,367,919
Less: valuation allowance	(1,136,729)	(781,716)
Total non-current deferred tax assets, net	\$ 14,382	\$ 1,754,134

A valuation allowance of \$1,136,729 and \$781,716 were established as of December 31, 2007 and 2008, respectively, for the entities that have incurred losses because the Group believes that it is more likely than not that the related deferred tax assets will not be realized in the future. At December 31, 2008, tax loss carry forwards includes approximately \$6.7 million which will expire by 2013, and \$3.6 million which will carry forward indefinitely.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS continued
FOR THE YEARS ENDED DECEMBER 31, 2006, 2007 AND 2008
(In U.S. dollars)

11. INCOME TAXES continued

During the years ended December 31, 2006, 2007 and 2008, if the China Finance Online's subsidiaries in the PRC were neither in the tax holiday period nor had they been specifically allowed special tax concessions, they would have recorded additional income tax expense of \$786,385, \$4,414,697 and \$11,660,280 respectively. The basic income per share would have been (\$0.01), (\$0.09) and \$0.07, and the diluted income per share would have been (\$0.01), (\$0.09) and \$0.07 for the years ended December 31, 2006, 2007 and 2008, respectively.

The decrease in valuation allowance from 2007 to 2008 was primarily due to the reversal of valuation allowance arising from net operating loss carrying forward that the Group's management believes are realizable in the near future.

A reconciliation between the statutory PRC enterprise income tax rate of 25% and the effective tax rate is as follows:

	Years ended December 31,		
	2006	2007	2008
	%	%	%
Statutory tax rate in PRC	(33.0)	(33.0)	25.0
Effect of tax holiday	(92.1)	(91.8)	(73.0)
Non-deductible expenses	139.9	99.7	39.0
Non-taxable income	(54.8)	(16.7)	(7.9)
Effect on deferred taxes due to changes in tax rates under the new law for certain subsidiaries		18.5	
Change in valuation allowance	33.7	7.0	(2.2)
Effective tax rate	(6.3)	(16.3)	(19.1)

(In U.S. dollars)

12. SHAREHOLDERS EQUITY

In October 2005, the Group issued 2,000,000 ordinary shares to its American Depositary Receipt bank and in exchange received 400,000 American depositary shares (ADSs) for purposes of future exercise of share options by employees.

As of December 31, 2006, all 400,000 ADSs had been issued to employees who exercised their options. In January 2006, the Group issued 3,000,000 ordinary shares to its American Depositary Receipt bank and in exchange received 600,000 ADSs for purposes of future exercise of share options by employees.

As of December 31, 2007, 905,256 ADSs had been issued to employees and the remaining 94,744 ADSs continued to be held by the Group for future exercises. These 94,744 ADSs represent 473,720 ordinary shares of the Group, which are considered as issued and outstanding as of December 31, 2007.

As of December 31, 2008, the remaining ADS carried from year 2007 were used for option exercise. No ADS is outstanding for potential exercising of option.

Repurchased shares

In 2005, the Group repurchased 10,708,030 ordinary shares at prices ranging from \$1.13 to \$1.41 per share, including brokerage commission, for a total consideration of \$13,200,394. In 2007, the Group granted 10,558,493 nonvested shares to BVI companies out of the repurchased shares. Therefore there were 149,537 repurchased shares at the end of 2007. In 2008, 95,950 repurchased shares were used for option exercised by employees. Therefore the number of the remaining repurchased share as of December 31, 2008 is 53,587 shares.

13. OTHER (EXPENSES) INCOME, NET

Other (expenses) income, net consisted of:

	2006	2007	2008
Gain on partial disposal of an investment in Moloon (see Note 5)	116,071		
Others	(1,498)	8,731	(168,536)
	\$ 114,573	\$ 8,731	\$ (168,536)

(In U.S. dollars)

14. INCOME (LOSS) PER SHARE

The following table sets forth the computation of basic and diluted income (loss) per share for the years indicated:

	Years ended December 31,		
	2006	2007	2008
Net income (loss) attributable to ordinary shareholders, basic and diluted	\$ (600,633)	\$ (4,129,704)	\$ 19,020,115
Weighted average ordinary shares outstanding used in computing basic net income per share	93,650,653	94,500,529	98,957,993
Plus: Incremental shares from assumed conversions of stock options and nonvested shares			14,026,539
Weighted average ordinary shares outstanding used in computing diluted net income per share (note)	93,650,653	94,500,529	112,984,532
Net income (loss) per share-basic	\$ (0.01)	\$ (0.04)	\$ 0.19
Net income (loss) per share-diluted	\$ (0.01)	\$ (0.04)	\$ 0.17

Actual ordinary shares issued and upon exercises of options are included when calculating weighted average ordinary shares outstanding used in computing basic net income per share.

Note:

- (1) In 2006, the Company transferred 3,000,000 ordinary shares to its depository bank representing 750,000 ADSs to be issued to employees and non-employees upon the exercise of their vested share options. As of December 31, 2007, 2,526,280 shares out of such shares had

been issued to the employees and non-employees upon exercise of their share options and 473,720 shares remained available for future issuances. As a result, 473,720 ordinary shares were excluded in computing basic net income per share. As of December 2008, all the remaining shares have been issued to the employees for exercise of option.

- (2) In July 2007, the Company granted nonvested shares covering 10,558,493 ordinary shares of the Company to the employees who are eligible for the 2007 Plan. The vesting of the nonvested shares is subject to achieving certain financial performance targets stated in the 2007 Plan. Nonvested shares are not included in the computation of basic earnings

per share as such
shares may be
returned to the
Company if the
employee does
not render the
requisite service,
the shares are
returned to the
Company.

(In U.S. dollars)

14. INCOME (LOSS) PER SHARE continued

Note: continued

- (3) The Group has options and nonvested shares outstanding which could potentially dilute basic net income/(loss) per share, but which were excluded from the computation of diluted net income/(loss) per share for the year ended December 31, 2006, 2007 and 2008, as their effects would have been anti-dilutive. Such outstanding options and nonvested shares consist of 15,950,488 options for the year ended December 31, 2006, 18,691,688 options and 10,558,493 nonvested shares for the year ended December 31, 2007, and 1,491,776 options and zero of nonvested share for the year ended December 31, 2008.

15. MAINLAND CHINA CONTRIBUTION PLAN AND PROFIT APPROPRIATION

Full time employees of the Group in the PRC participate in a government-mandated multi-employer defined contribution plan pursuant to which certain pension benefits, medical care, unemployment insurance, employee housing fund and other welfare benefits are provided to employees. Chinese labor regulations require the Group to accrue for these benefits based on certain percentages of the employees' salaries. The total provisions for such employee benefits were \$270,576, \$948,100 and \$1,913,046 for the years ended December 31, 2006, 2007 and 2008 respectively.

16. COMMITMENTS

The Group leases certain office premises and purchases data under non-cancelable leases. The office lease expires in 2012. Rent expense under operating leases for 2006, 2007 and 2008 were \$520,590, \$1,057,624 and \$2,038,449, respectively.

Future minimum lease payments under non-cancelable operating leases and data purchase agreements were as follows:

Year ending	
2009	2,406,451
2010	1,359,962
2011	451,702
2012	24,467
Total	\$ 4,242,582

(In U.S. dollars)

17. SEGMENT AND GEOGRAPHIC INFORMATION

The Group has two principal operating segments (1) online financial data subscription service and other related services, (2) brokerage service. These operating segments were determined based on the nature of the services offered. Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision-maker in deciding how to allocate resources and in assessing performance. The Group's chief executive officer and chief operating officer have been identified as the chief operating decision makers. The Group's chief operating decision makers direct the allocation of resources to operating segments based on the profitability and cash flows of each respective segment.

The Group evaluates performance based on several factors, including net revenue, cost of revenue, operating expenses, income from operation. The accounting policies of the business segments are the same as those described in Note 2: Summary of Significant Accounting Policies. The following tables show the operations of the Group's operating segments:

For the year ended December 31, 2008

	Subscription services and other related services	Brokerage services	Consolidated
Net revenue	\$ 55,286,219	\$ 956,549	\$ 56,242,768

(In U.S. dollars)**

18. RESTRICTED NET ASSETS

PRC legal restrictions permit payments of dividends by China Finance Online's PRC subsidiaries only out of their retained earnings, if any, determined in accordance with PRC accounting standards and regulations. The general reserve, which requires annual appropriations of 10% of after-tax profit should be set aside prior to the payment of dividends. As a result of these PRC laws and regulations, the Group's PRC subsidiaries and variable interest entities are restricted in their abilities to transfer a portion of their net assets to the Group. As of December 31, 2008, the amount of restricted net assets was approximately \$56,206,769.

Pursuant to the laws applicable to the PRC's Foreign Investment Enterprises, the Group's subsidiaries in the PRC must make appropriations from after-tax profit to non-distributable reserves as determined by the board of directors of these subsidiaries. These reserves include a (i) general reserve, (ii) enterprise expansion reserve, and (iii) staff bonus and welfare reserve. Subject to certain cumulative limits, the general reserve requires annual appropriations of 10% of after-tax profit (as determined under PRC GAAP at each year-end); amounts to be appropriated for the other two reserves are determined at the board of directors' discretion. These reserves can only be used for specific purposes and are not distributable as cash dividends. Appropriation to the general reserve amounted to \$nil, \$3,709,549 and \$3,335,073 in 2006, 2007 and 2008, respectively. There were no appropriations to the staff welfare and bonus reserve or the general reserve during 2006, 2007 and 2008.

19. SUBSEQUENT EVENT

In January, 2009, CFO Software acquired 100% of the equity interest in Guangzhou Boxin Consulting Co., Ltd (CFO Boxin) through two PRC citizens, respectively. CFO Software signed a series of contractual agreements with CFO Boxin and its shareholders that provide the Group with the substantial ability to control CFO Boxin. For the acquisition, the total cash consideration was \$585,146, of which, \$555,889 was paid in 2009 with the remaining consideration of \$29,257 to be paid within the next twelve months.
