DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Annual Proxy Statement for the Annual Meeting of Stockholders to be held on September 23, 2004 are incorporated by reference into Part III.

EXPLANATORY NOTE

The Company has restated its consolidated balance sheet for the years ended May 31, 2003 and consolidated statements of operations, cash flows and retained earnings for the years ended May 31, 2003 and 2002 (the "2003 Restatement"). The restatement affects periods prior to 2002. The impact of the restatement on such prior periods was reflected as an adjustment to retained earnings June 1, 2001. The restatement is reported in this Annual Report on Form 10-K for the year ending May 31, 2004 and will be reported in amendments to our Quarterly Reports on Form 10-Q for its quarterly periods ended August 31, 2003, November 30, 2003 and February 29, 2004.

The restatement adjustment for years ended May 31, 2003 and 2002 resulted in a reduction in a previously reported net loss of approximately \$.5 million and a reduction in a previously reported net income of approximately \$.5 million respectively. Basic and diluted loss per share was reduced by \$.04 per share for fiscal 2003. Basic and diluted earnings per share declined \$.04 for fiscal year 2002. In addition, as a result of the cumulative effect of the restatement, retained earnings has been reduced by \$1.9 million and \$2.4 million as of May 31, 2003 and 2002 respectively. Also as the result of the cumulative effect of the restatement of periods prior to 2002, the cumulative effect was to reduce opening retained earnings June 1, 2001 by approximately \$1.9 million.

For a discussion of the individual restatement adjustments, see "Item 8. Financial Statements - Note 2. Restatement of Prior Period Financial Statements" (Years ended May 31, 2003 and 2002). Additionally, see "Item 7. Management's Discussion and Analysis of Financial Condition and Resulting Operations." For more information on the impact of the restatement on years 2001 and 2000, see "Item 6. Selected Financial Data" in Part II of this report. These restatement adjustments reflect a correction of the Company's accounting for accruals for

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

its vacation pay and self-insured health and casualty obligations. The Company determined that there had been an error in its accounting for self-insurance related liabilities. The adjustments required included recognition of previously unrecorded liabilities and reductions in amounts previously recognized as prepaid amounts to an employee benefit trust which was incorrect. The Company also determined that it had not recorded liabilities for earned vacation not yet taken as required by Generally Accepted Accounting Principles (GAAP).

The Company did not amend its Annual Report on Form 10-K or Quarterly Reports on Form 10-Q for periods affected by the restatement that ended prior to May 31, 2003, and the financial statements and related financial information contained in such reports should no longer be relied on.

All referenced amounts in this Annual Report for prior periods and prior period comparisons reflect the balances and amounts on a restated basis.

PART I

ITEM 1. - BUSINESS

Golden Enterprises, Inc. (the "Company") is a holding company which owns all of the issued and outstanding capital stock of Golden Flake Snack Foods, Inc., a wholly-owned operating subsidiary company ("Golden Flake"). Golden Enterprises is paid a fee by Golden Flake for providing management services for it.

The Company was originally organized under the laws of the State of Alabama as Magic City Food Products, Inc. on June 11, 1946. On March 11, 1958, it adopted the name Golden Flake, Inc. On June 15, 1963, the Company purchased Don's Foods, Inc. a Tennessee corporation which was merged into the Company on December 10, 1966. The Company was reorganized December 31, 1967 as a Delaware corporation without changing any of its assets, liabilities or business. On January 1, 1977, the Company, which had been engaged in the business of manufacturing and distributing potato chips, fried pork skins, cheese curls and other snack foods, spun off its operating division into a separate Delaware corporation known as Golden Flake Snack Foods, Inc. and adopted its present name of Golden Enterprises, Inc.

The Company owns all of the issued and outstanding capital stock of Golden Flake Snack Foods, Inc.

GOLDEN FLAKE SNACK FOODS, INC.

GENERAL

Golden Flake Snack Foods, Inc. ("Golden Flake") is a Delaware corporation with its principal place of business and home office located at One Golden Flake Drive, Birmingham, Alabama. Golden Flake manufactures and distributes a full line of salted snack items, such as potato chips, tortilla chips, corn chips, fried pork skins, baked and fried cheese curls, onion rings and buttered popcorn. These products are all packaged in flexible bags or other suitable wrapping material. Golden Flake also sells a line of cakes and cookie items, canned dips, pretzel, peanut butter crackers, cheese crackers, dried meat products and nuts packaged by other manufacturers using the Golden Flake label.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

No single product or product line accounts for more than 50% of Golden Flake's sales, which affords some protection against loss of volume due to a crop failure of major agricultural raw materials.

RAW MATERIALS

Golden Flake purchases raw materials used in manufacturing and processing its snack food products on the open market and under contract through brokers and directly from growers. A large part of the raw materials used by Golden Flake consists of farm commodities which are subject to precipitous change in supply and price. Weather varies from season to season and directly affects both the quality and supply available. Golden Flake has no control of the agricultural aspects and its profits are affected accordingly.

DISTRIBUTION

Golden Flake sells its products through its own sales organization and independent distributors to commercial establishments which sell food products in Alabama and in parts of Tennessee, Kentucky, Georgia, Florida, Mississippi, Louisiana, North Carolina, South Carolina, Arkansas and Missouri. The products are distributed by approximately 436 route salesmen who are supplied with selling inventory by the Company's trucking fleet which operates out of Birmingham, Alabama, Nashville, Tennessee, and Ocala, Florida. All of the route salesmen are employees of Golden Flake and use the direct store door delivery method. Golden Flake is not dependent upon any single customer, or a few customers, the loss of any one or more of which would have a material adverse effect on its business. No single customer accounts for more than 10% of its total sales. Golden Flake has a fleet of 866 company owned vehicles to support the route sales system, including 43 tractors and 123 trailers for long haul delivery to the various company warehouses located throughout its distribution areas, 632 store delivery vehicles and 68 cars and miscellaneous vehicles.

5

COMPETITION

The snack foods business is highly competitive. In the area in which Golden Flake operates, many companies engage in the production and distribution of food products similar to those produced and sold by Golden Flake. Most, if not all, of Golden Flake's products are in direct competition with similar products of several local and regional companies and at least one national company, the Frito Lay Division of Pepsi Co., Inc., which is larger in terms of capital and sales volume than is Golden Flake. Golden Flake is unable to state its relative position in the industry. Golden Flake's marketing thrust is aimed at selling the highest quality product possible and giving good service to its customers, while being competitive with its prices. Golden Flake constantly tests the quality of its products for comparison with other similar products of competitors and maintains tight quality controls over its products.

EMPLOYEES

Golden Flake employs approximately 1,095 employees. Approximately 643 employees are involved in route sales and sales supervision, approximately 306 are in production and production supervision, and approximately 146 are management and administrative personnel.

Golden Flake believes that the performance and loyalty of its employees are the most important factors in the growth and profitability of its business. Since labor costs represent a significant portion of Golden Flake's expenses,

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

employee productivity is important to profitability. Golden Flake considers its relations with its employees to be excellent.

Golden Flake has a 401(k) Profit Sharing Plan and an Employee Stock Ownership Plan designed to reward the long term employee for his loyalty. In addition, the employees are provided medical insurance, life insurance, and an accident and sickness salary continuance plan. Golden Flake believes that its employee wage rates are competitive with those of its industry and with prevailing rates in its area of operations.

OTHER MATTERS

The Company's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, and amendments to these reports, are available via the Company's website. The website address is www.goldenflake.com. All required reports are made available on the website as soon as reasonably practicable after they are electronically filed with the Securities and Exchange Commission.

ENVIRONMENTAL MATTERS

There have been no material effects of compliance with government provisions regulating discharge of materials into the environment.

RECENT DEVELOPMENTS

No significant changes have occurred in the kinds of products manufactured or in the markets of methods of distribution, and no material changes or developments have occurred in the business done and intended to be done by Golden Flake.

ITEM 2. - PROPERTIES

The headquarters of the Company are located at One Golden Flake Drive, Birmingham Alabama 35205. The properties of the subsidiary are described below.

7

GOLDEN FLAKE

MANUFACTURING PLANTS AND OFFICE HEADQUARTERS

The main plant and office headquarters of Golden Flake are located at One Golden Flake Drive, Birmingham, Alabama, and are situated on approximately 40 acres of land which is serviced by a railroad spur track. This facility consists of three buildings which have a total of approximately 300,000 square feet of floor area. The plant manufactures a full line of Golden Flake products. Golden Flake maintains a garage and vehicle maintenance service center from which it services, maintains, repairs and rebuilds its fleet and delivery trucks. Golden Flake has adequate employee and fleet parking.

Approximately 17 acres of the Birmingham property is undeveloped. This property is zoned for industrial use and is readily available for future use. Plans for the utilization of this property have not been finalized.

Golden Flake also has a manufacturing plant in Ocala, Florida. This plant was placed in service in November 1984. The plant consists of approximately 100,000 square feet, with allowance for future expansion, and is located on a 28-acre site on Silver Springs Boulevard. The Company manufactures corn chips, tortilla chips and potato chips from this facility.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

The manufacturing plants, office headquarters and additional lands are owned by Golden Flake free and clear of any debts.

DISTRIBUTION WAREHOUSES

Golden Flake owns branch warehouses in Birmingham, Montgomery, Midfield, Demopolis, Fort Payne, Muscle Shoals, Huntsville, Phenix City, Tuscaloosa, Mobile, Dothan and Oxford, Alabama; Gulfport and Jackson, Mississippi; Chattanooga, Knoxville, and Memphis, Tennessee; Decatur, Marietta, and Macon Georgia; Jacksonville, Panama City, Tallahassee and Pensacola, Florida; Baton Rouge and New Orleans, Louisiana; and Little Rock, Arkansas. The warehouses vary in size from 2,400 to 8,000 square feet. All distribution warehouses are owned free and clear of any debts.

VEHICLES

Golden Flake owns a fleet of 866 vehicles which includes 632 route trucks, 43 tractors, 123 trailers and 68 cars and miscellaneous vehicles. There are no liens or encumbrances on Golden Flake's vehicle fleet. Golden Flake also owns a 1987 Cessna Citation II aircraft.

ITEM 3. - LEGAL PROCEEDINGS

There are no material pending legal proceedings against the Company or its subsidiary other than ordinary routine litigation incidental to the business of the Company and its subsidiary.

ITEM 4. - SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not Applicable.

8

PART II

ITEM 5. - MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

GOLDEN ENTERPRISES, INC. AND SUBSIDIARY

MARKET AND DIVIDEND INFORMATION

The Company's common stock is traded in the over-the-counter market under the "NASDAQ" symbol, GLDC, and transactions are reported through the National Association of Securities Dealers Automated Quotation (NASDAQ) National Market System. The following tabulation sets forth the high and low sale prices for the common stock during each quarter of the fiscal years ended May 31, 2004 and 2003 and the amount of dividends paid per share in each quarter. The Company currently expects that comparable regular cash dividends will be paid in the future.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

QUARTER -----	MARKET PRICE -----	
	HIGH ----	LOW ---
FISCAL 2004		
First	\$2.890	\$2.150
Second	2.750	2.370
Third	3.500	2.340
Fourth	3.430	2.400
FISCAL 2003		
First	\$4.490	\$3.710
Second	5.530	2.760
Third	4.100	2.160
Fourth	2.500	1.640

As of August 6, 2004, there were approximately 1,500 shareholders of record.

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS.

The following table provides Equity Compensation Plan information under which equity securities of the Registrant are authorized for issuance:

EQUITY COMPENSATION PLAN INFORMATION

Plan category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights	(c) Number of securities available for future issuance under equity compensation plans (excluding securities already authorized for issuance as of the end of the period covered by this financial statement)

ITEM 7. - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

GOLDEN ENTERPRISES, INC. AND SUBSIDIARY

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Management's Discussion and Analysis of Financial Condition and Results of Operations set forth in this Item 7 has been revised to reflect the May 31, 2003 10-K/A Amendment No. 1 "Restatement."

The purpose of this discussion is to provide additional information about Golden Enterprises, Inc., its financial condition and the results of its operations. Readers should refer to the consolidated financial statements and other financial data presented throughout this report to fully understand the following discussion and analysis.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

RESTATEMENT

The Company has restated its consolidated balance sheet for the years ended May 31, 2003 and consolidated statements of operations, cash flows and retained earnings for the years ended May 31, 2003 and 2002 (the "2003" Restatement). The restatement affects periods prior to 2002. The impact of the restatement on such prior periods was reflected as an adjustment to retained earnings June 1, 2001. The restatement is reported in this Annual Report on Form 10-K for the year ending May 31, 2004 and will be reported in amendments to our Quarterly Reports on form 10-Q for its quarterly periods ended August 31, 2003, November 30, 2003 and February 29, 2004.

The restatement adjustment for years ended May 31, 2003 and 2002 resulted in a reduction in a previously reported net loss of approximately \$.5 million and a reduction in a previously reported net income of approximately \$.5 million respectively. Basic and diluted loss per share was reduced by \$.04 per share for fiscal 2003. Basic and diluted earnings per share declined \$.04 for fiscal year 2002. In addition, as a result of the cumulative effect of the restatement, retained earnings has been reduced by \$1.9 million and \$2.4 million as of May 31, 2003 and 2002 respectively. Also, as the result of the cumulative effect of the restatement of periods prior to 2002, the cumulative effect was to reduce opening retained earnings June 1, 2001 by approximately \$1.9 million. For a discussion of individual adjustment items, see "Item 8- Financial Statements- Note 2 Restatement."

OVERVIEW

The Company manufactures and distributes a full line of snack items, such as potato chips, tortilla chips, corn chips, fried pork skins, baked and fried cheese curls, onion rings and buttered popcorn. The products are all packaged in flexible bags or other suitable wrapping material. The Company also sells a line of cakes and cookie items, canned dips, pretzels, peanut butter crackers, cheese crackers, dried meat products and nuts packaged by other manufacturers using the Golden Flake label.

No single product or product line accounts for more than 50% of the Company's sales, which affords some protection against loss of volume due to a crop failure of major agricultural raw materials. Raw materials used in manufacturing and processing the Company's snack food products are purchased on the open market and under contract through brokers and directly from growers. A large part of the raw materials used by the Company consists of farm commodities which are subject to precipitous changes in supply and price. Weather varies from season to season and directly affects both the quality and supply available. The Company has no control of the agricultural aspects and its profits are affected accordingly.

12

The Company sells its products through its own sales organization and independent distributors to commercial establishments that sell food products primarily in the Southeastern United States. The products are distributed by approximately 436 route representatives who are supplied with selling inventory by the Company's trucking fleet. All of the route representatives are employees of the Company and use the Company's direct-store delivery system.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's discussion and analysis of its financial condition and

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

results of operations are based upon the Company's consolidated financial statements, the preparation of which in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that in certain circumstances affect amounts reported in the consolidated financial statements. In preparing these financial statements, management has made its best estimates and judgments of certain amounts included in the financial statements, giving due considerations to materiality. The Company does not believe there is a great likelihood that materially different amounts would be reported under different conditions or using different assumptions related to the accounting policies described below. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates.

Revenue Recognition

The Company recognizes sales and related costs upon delivery or shipment of products to its customers. Sales are reduced by returns and allowances to customers.

In November 2001, the Emerging Issues Task Force reached a consensus on Issue No. 01-09 Accounting for Consideration given by a Vendor to a Customer (Including a Reseller of the Vendor's Products) effective for annual or interim periods beginning after December 15, 2001. The issue addresses the recognition, measurement and income statement classification for certain sales incentives. The Company implemented this new accounting policy in the fourth quarter of fiscal 2002. The effect of this accounting change is to adopt this policy as of the beginning of the fiscal 2002 (June 1, 2001). Certain of these expenses, including slotting fees, previously classified as selling, general, and administrative expenses, are now characterized as offsets to net sales. Reclassifications have been made to prior period financial statements to conform to current year presentation. Total vendor sales incentives now characterized as reductions of net sales that previously would have been classified as selling, general and administrative expenses were approximately \$11.6 million, \$12.8 million and \$11.7 million for the years ended 2004, 2003 and 2002, respectively. There was no resulting impact on net operating results from adopting EITF 01-09.

Change in Accounting Policy

The Company changed its accounting policy in the fourth quarter of fiscal 2002 with regard to slotting fees. The effect of this accounting change was to adopt this policy as of the beginning of fiscal 2002 (June 1, 2001). Previously, slotting fees were expensed as incurred. The Company changed this accounting policy to capitalize and amortize such costs over the expected benefit period, which is generally one year. This change in accounting policy was made to more closely match the cost of the shelf space obtained with the slotting fees with the revenues produced by the shelf space. The cumulative effect of this change in accounting policy resulted in a non-cash cumulative adjustment of \$413,401 (\$0.03 per share), net of taxes. The accounting change also increased net income before the cumulative effect in 2002 by \$197,141 (\$0.02 per share).

Accounts Receivable

The Company records accounts receivable at the time revenue is recognized. Amounts for bad debt expense are recorded in selling, general and administrative expenses on the Consolidated Statements of Operations. The amount of the

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

allowance for doubtful accounts is based on management's estimate of the accounts receivable amount that is uncollectible. Management records a general reserve based on analysis of historical data. In addition, management records specific reserves for receivable balances that are considered high-risk due to known facts regarding the customer. The allowance for bad debts is reviewed quarterly, and it is determined whether the amount should be changed. Failure of a major customer to pay the Company amounts owed could have a material impact on the financial statements of the Company. At May 31, 2004 and 2003 the Company had accounts receivables in the amount of \$7.5 million and \$7.8 million, net of an allowance for doubtful accounts of \$0.2 million and \$0.2 million, respectively.

Inventories

Inventories are stated at the lower of cost or market. Cost is computed on the first-in, first out method.

Accrued Expenses

Management estimates certain material expenses in an effort to record those expenses in the period incurred. The most material accrued estimates relate to a salary continuation plan for certain key executives of the Company, and to insurance-related expenses, including self-insurance. Workers' compensation and general liability insurance accruals are recorded based on insurance claims processed as well as historical claims experience for claims incurred, but not yet reported. These estimates are based on historical loss development factors. Employee medical insurance accruals are recorded based on medical claims processed as well as historical medical claims experienced for claims incurred but not yet reported. Differences in estimates and assumption could result in an accrual requirement materially different from the calculated accrual.

OTHER MATTERS

Transactions with related parties, reported in Note 14 of the Notes to Consolidated Financial Statements, are conducted on an arm's-length basis in the ordinary course of business.

LIQUIDITY AND CAPITAL RESOURCES

Working capital was \$6.7 million at May 31, 2004 compared to \$8.3 million at May 31, 2003. Net cash provided by operations amounted to \$2.9 million in fiscal year 2004, \$4.6 million in fiscal year 2003 and \$1.9 million in fiscal year 2002. The decrease in net cash provided by operations is primarily related to changes in receivables, inventories and accounts payable offset by the net loss for fiscal year 2004 of \$45,846 compared to the net loss for fiscal year 2003 of \$927,765.

Additions to property, plant and equipment, net of disposals were \$0.8 million, \$0.3 million and \$3.8 million in fiscal years 2004, 2003 and 2002, respectively, and are expected to be about \$1.9 million in 2005.

Cash dividends of \$1.5 million, \$2.2 million and \$3.0 million were paid during fiscal years 2004, 2003, and 2002, respectively. The quarterly dividend was reduced to \$.03125 from \$.0625 in the third quarter of fiscal 2003 in response to a decrease in earnings.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

The amount of cash used to purchase treasury shares in fiscal 2004 was \$0.09 million. No cash was used to purchase treasury shares in fiscal 2003 and \$0.2 million was used in 2002.

During fiscal 2004, the company re-paid debt, net of borrowings, of \$1.4 million.

The following table summarizes the significant contractual obligations of the Company as of May 31, 2004:

CONTRACTUAL OBLIGATIONS	TOTAL	2005	2006-2007	2008-2009
-----	-----	-----	-----	-----
Long-Term Debt	\$ 999,562	\$ 477,980	\$ 521,582	\$ -0-
Purchase Commitment	2,096,000	1,491,000	605,000	-0-
Salary Continuation Plan	1,901,567	95,948	216,448	253,870
	-----	-----	-----	-----
Total Contractual Obligations	\$ 4,997,129	\$ 2,064,928	\$ 1,343,030	\$ 253,870
	=====	=====	=====	=====

Other Commitments

The Company had letters of credit in the amount of \$1,758,987 outstanding at May 31, 2004 to support the Company's commercial self-insurance program.

The Company has a line-of-credit agreement with a local bank that permits borrowing up to \$1 million. The line-of-credit is subject to the Company's continued credit worthiness and compliance with the terms and conditions of the advance application.

Long-term liabilities as a percentage of total capitalization was 12.3% at May 31, 2004. The Company's current ratio at year end was 1.84 to 1.00.

Available cash, cash from operations and available credit under the line of credit are expected to be sufficient to meet anticipated cash expenditures and normal operating requirements for the foreseeable future.

OPERATING RESULTS

Net sales increased by 1.0% in fiscal year 2004, decreased by 7.4% in fiscal year 2003, and increased by 1.5% in fiscal year 2002. The increase in fiscal 2004 was primarily due to less promotional payments to vendors that were subtracted from sales as required by EITF 01-9. The decrease in fiscal 2003 was due to a general sales weakness in the U.S. salty snacks category, particularly during the first part of the fiscal year.

Cost of sales as a percentage of net sales amounted to 52.5% in 2004, 52.5% in 2003, and 52.1% in 2002. Cost of sales stabilized in 2004 and the percentage increase in cost of sales for fiscal 2003 was caused by the lower sales volume and higher commodity prices and energy cost. The cost decrease in 2002 was due primarily to lower energy costs.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

Selling, general and administrative expenses were 47.7% of net sales in 2004, 49.4% in 2003, and 45.7% in 2002. The 1.7% decrease for fiscal 2004 is attributed to the increase in net sales and a decrease in vendor sales incentives. The higher percentage cost for fiscal 2003 was due to significant increases in employee medical, workers' compensation, general and auto liability insurance costs, and energy costs. The more favorable cost percentage for fiscal 2002 was primarily due to lower selling and delivery cost brought about by the exiting of the fringe sales regions in Central Florida as part of the fiscal 2000 restructuring plan.

The Company's effective tax rates for 2004, 2003, and 2002 were 221.3%, (27.9%) and 39.2%, respectively. Note 9 to the Consolidated Financial Statements provides additional information about the provision for income taxes.

15

OFF-BALANCE SHEET ARRANGEMENT

The Company entered into a five-year term product purchase agreement during the year ending May 31, 2001 with a supplier. Under the terms of the agreement the minimum purchase quantity and the purchase price were fixed resulting in a minimum first year commitment of approximately \$2,171,000. After the first year, the minimum purchase quantity was fixed and the purchase unit price, was negotiable based on the current market. The purchase product agreement as subsequently amended is described in more detail in Note 14 of the Notes to Consolidated Financial Statements.

MARKET RISK

The principal market risks (i.e. the risk of loss arising from adverse changes in market rates and prices) to which the Company is exposed are interest rates on its cash equivalents, investment securities and bank loans, and commodity prices affecting the cost of its raw materials.

The Company's cash equivalents consist of short-term marketable securities. Presently these are variable rate money market funds. Its bank loans also carry variable rates. Assuming year end 2004 variable rate investment levels and bank loan balances, a one-point change in interest rates would impact interest income by \$1,520 and interest expense by \$9,996.

The Company is subject to market risk with respect to commodities because its ability to recover increased costs through higher pricing may be limited by the competitive environment in which it operates. The Company purchases its raw materials on the open market, under contract through brokers and directly from growers. Futures contracts have been used occasionally to hedge immaterial amounts of commodity purchases, but none are presently being used.

INFLATION

Certain costs and expenses of the Company are affected by inflation, and the Company's prices for its products over the past several years have remained relatively flat. The Company will contend with the effect of further inflation through efficient purchasing, improved manufacturing methods, pricing, and by monitoring and controlling expenses.

ENVIRONMENTAL MATTERS

There have been no material effects of compliance with government provisions regulating discharge of materials into the environment.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

FORWARD-LOOKING STATEMENTS

This discussion contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results could differ materially from those forward-looking statements. Factors that may cause actual results to differ materially include price competition, industry consolidation, raw material costs and effectiveness of sales and marketing activities, as described in the Company's filings with Securities and Exchange Commission.

RECENT DEVELOPMENTS

The Company restated its previously issued financial statements for the three years ended May 31, 2003. The restatement affected periods prior to May 31, 2001. The impact of the restatement on such prior periods was reflected as an adjustment to opening retained earnings as of June 1, 2000. The restatement was reported in amendment No. 1 to the retained earnings as of June 1, 2000. The restatement was reported in amendment No. 1 to the Company's Annual Report on Form 10-K/A for the year ended May 31, 2003. The Company also restated the Company's Quarterly Reports on Form 10-Q/A for the quarterly periods ended August 31, 2003, November 30, 2003 and February 29, 2004 with restated comparative information for comparative periods of the previous year.

16

In connection with their audits of the restatement of previously issued annual financial statements and the consolidated financial statements for the year ended May 31, 2004, the Company's independent auditors identified and communicated to the Company and the Audit Committee "material weaknesses" (as defined under audit standards adopted by the Public Company Accounting Oversight Board) relating to the Company's accounting and public reporting of significant matters and management review and oversight of certain accounting matters.

In the past year, the Company undertook to review and analyze its internal audit program and has directed senior management to dedicate resources and take steps to strengthen controls. The company engaged the services of a third party consultant to assist in its review and analysis. The Company intends to identify and implement actions to improve the effectiveness of procedures and internal controls, including enhanced training with respect to financial reporting and disclosure responsibilities.

RECENT ISSUED ACCOUNTING PRONOUNCEMENTS

Effective June 1, 2002, the Company adopted SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets to be held and used, to be disposed of other than by sale and to be disposed of by sale. The adoption of this standard did not have a material impact on the Company's financial position, results of operations or cash flows.

In June 2002, the FASB issued SFAS No. 146, "Accounting for Cost Associated with Exit or Disposal Activities." SFAS No 146 requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. Costs covered by SFAS No. 146 includes lease termination costs and certain employee severance costs that are associated with a restructuring, discontinued operations, plant closing or other exit or disposal activity. SFAS No. 146 is effective for exit or disposal activities initiated after December 31, 2002. The Company adopted SFAS No. 146 on June 1, 2003 and the adoption of this standard did not have a

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

material impact on the Company's consolidated financial statements.

In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure - an amendment of FASB Statement No. 123." SFAS No. 148 amends SFAS No. 123, "Accounting for Stock-Based Compensation" to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS No. 148 amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company has adopted the disclosure requirements of SFAS No. 148 effective May 31, 2003 in its consolidated financial statements. The Company will continue to account for stock-based compensation using the methods detailed in the stock-based compensation accounting policy as described earlier.

In April 2003, the FASB issued SFAS No. 149 "Amendment of Statement 133 on Derivative Instruments and Hedging Activities." This statement amends and clarifies the accounting and reporting for derivative instruments, including embedded derivatives, and for hedging activities under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS No. 149 amends SFAS No. 133 to reflect the decisions made as part of the Derivatives Implementation Group and in other FASB projects or deliberations. SFA No. 149 is effective for contracts entered into or modified after June 30, 2003, and for hedging relationships designed after June 30, 2003 and did not have an impact on the Company.

In January 2003, the FASB issued FASB Interpretation No. 46 (FIN No. 46), "Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51." FIN No. 46 requires certain variable interest entities to be consolidated by the primary beneficiary of the entity if the equity investors in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN 46 became effective February 1, 2003 for variable interest entities created after January 31, 2003, and July 31, 2003 for variable interest entities created prior to February 1, 2003. In December 2003, the FASB issued a revised FIN 46. The revised standard, FIN 46R, modifies or clarifies various provisions of FIN 46 and incorporates many FASB Staff Positions previously issued by the FASB. This standard replaces the original FIN 46 that was issued in January 2003. The adoption of these new standards did not have an impact on the Company's financial position, results of operations or cash flows.

17

In December 2003, the FASB issued a revised SFAS No. 132, "Employers' Disclosures about Pensions and Other Postretirement Benefits." The revised SFAS No. 132 revised employers' disclosures about pension plans and other post retirement benefit plans. It did not change the measurement or recognition of those plans required by SFAS No. 87, "Employers' Accounting for Pensions," SFAS No. 88, "Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits," and SFAS No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions." The revised SFAS No. 132 retains the disclosure requirements contained in the original SFAS No. 132. It requires additional disclosures to those in the original SFAS No. 132 about the assets, obligations, cash flows, and net periodic benefit cost of defined benefit pension plans and other defined benefit postretirement plans. The adoption of this new standard did not have an impact on the Company's financial position, results of operations or cash flows.

In December 2003, the SEC released Staff Accounting Bulletin ("SAB") 104.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

SAB 104 revises or rescinds portions of the interpretative guidance included in SEC Topic 13, "Revenue Recognition," in order to make this interpretive guidance consistent with current authoritative accounting and auditing guidance and SEC rules and regulations. The principal revisions relate to the rescission of material no longer necessary because of private sector developments in U.S. generally accepted accounting principles. SAB 104 also rescinds the Revenue Recognition in Financial Statements Frequently Asked Questions and Answers document issued in conjunction with Topic 13. Selected portions of that document have been incorporated into Topic 13. The adoption of this new standard did not have an impact on the Company's financial position, results of operations or cash flows.

ITEM 7 A.- QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Included in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations- Market Risk beginning on page 16.

ITEM 8.- FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The consolidated financial statements of the registrant and its subsidiary for the year ended May 31, 2004, consisting of the following, are contained herein:

Consolidated Balance Sheets	- May 31, 2004 and 2003
Consolidated Statements of Operations	- Years ended May 31, 2004, 2003 and 2002
Consolidated Statements of Cash Flows	- Years ended May 31, 2004, 2003 and 2002
Consolidated Statements of Changes in Stockholders' Equity	-Years ended May 31, 2004, 2003 and 2002

Quarterly Results of Operations	- Years ended May 31, 2004, and 2003

18

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Stockholders and
Board of Directors of
Golden Enterprises, Inc.

We have audited the accompanying consolidated balance sheets of Golden Enterprises, Inc. and subsidiary as of May 31, 2004 and 2003, and the related consolidated statements of operations, changes in stockholders' equity and cash flows for each of the three years in the period ended May 31, 2004. Our audits also included the financial statement schedule listed at Item 16(a)2. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Golden Enterprises, Inc. and subsidiary as of May 31, 2004 and 2003, and the consolidated results of their operations and their cash flows for each of the three years in the period ended May 31, 2004, in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, such financial statement schedule, when considering in relation to the basic consolidated financial statements, taken as a whole, presents fairly, in all material respects, the information set forth therein.

As described in Note 2, Restatement of prior period financial statements, the Company has restated previously issued financial statements.

As discussed in Note 3 to the financial statements, effective June 1, 2001 the Company changed its accounting policy with respect to slotting fees.

GOLDEN ENTERPRISES, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
May 31, 2004, 2003 and 2002

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of Golden Enterprises, Inc. and subsidiary ("Company") conform to accounting principles generally accepted in the United States of America and to general principles within the snack foods industry. The following is a description of the more significant accounting policies:

NATURE OF THE BUSINESS

The Company manufactures and distributes a full line of snack items that are

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

sold through its own sales organization and independent distributors to commercial establishments that sell food products primarily in the Southeastern United States.

CONSOLIDATION

The consolidated financial statements include the accounts of Golden Enterprises, Inc. and its wholly-owned subsidiary, Golden Flake Snack Foods, Inc., (the "Company"). All significant intercompany transactions and balances have been eliminated.

REVENUE RECOGNITION

The Company recognizes sales and related costs upon delivery or shipment of products to its customers. Sales are reduced by returns and allowances to customers.

REVENUE CLASSIFICATION CHANGES

In November 2001, the Emerging Issues Task Force reached a consensus on Issue No. 01-09 Accounting for Consideration Given by a Vendor to a Customer (Including a Reseller of the Vendor's Products) effective for annual or interim periods beginning after December 15, 2001. The issue addresses the recognition, measurement and income statement classification for certain sales incentives. The Company implemented this new accounting policy in the fourth quarter of fiscal 2002. The effect of this accounting change is to adopt this policy as of the beginning of the fiscal 2002 (June 1, 2001). Certain of these expenses, including slotting fees, previously classified as selling, general, and administrative expenses, are now characterized as offsets to net sales. Reclassifications have been made to prior period financial statements to conform to current year presentation. Total vendor sales incentives now characterized as reductions of net sales that previously would have been classified as selling, general and administrative expenses were approximately \$11.6 million, \$12.8 million and \$11.7 million for the years ended 2004, 2003 and 2002, respectively. There was no resulting impact on net operating results from adopting EITF 01-09.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

INVENTORIES

Inventories are stated at the lower of cost or market. Cost is computed on the first-in, first-out method.

GOLDEN ENTERPRISES, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
May 31, 2004, 2003 and 2002

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost. For financial reporting purposes, depreciation and amortization have been provided principally on the straight-line method over the estimated useful lives of the respective assets. Accelerated methods are used for tax purposes.

Expenditures for maintenance and repairs are charged to operations as incurred; expenditures for renewals and betterments are capitalized and written off by depreciation and amortization charges. Property retired or sold is removed from

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

the asset and related accumulated depreciation accounts and any profit or loss resulting therefrom is reflected in the statements of operations.

SELF-INSURANCE

The Company is self-insured for certain losses relating to automobile liability, general liability, workers' compensation, property losses and medical claims. The Company also has stop loss coverage to limit the exposure arising from these claims. Self-insurance claims filed and claims incurred but not reported are accrued based upon management's estimates of the aggregate liability for uninsured claims incurred. Automobile liability, general liability, workers' compensation, and property losses costs are covered by letters of credit with the Company's claims administrators.

ADVERTISING

The Company expenses advertising costs as incurred. These costs are included in selling, general and administrative expenses in the Consolidated Statement of Operations. Advertising expense amounted to \$4,452,926, \$5,031,409 and \$4,371,719 for the fiscal years 2004, 2003 and 2002, respectively.

INCOME TAXES

Deferred income taxes are provided using the liability method to measure tax consequences resulting from differences between financial accounting standards and applicable income tax laws. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on date of enactment.

SEGMENT INFORMATION

The Company does not identify separate operating segments for management reporting purposes. The results of operations are the basis on which management evaluates operations and makes business decisions. The Company's sales are generated primarily within the Southeastern United States.

STOCK OPTIONS

The Company applies APB Opinion 25, "Accounting for Stock Issued to Employees," and related interpretations in accounting for all stock option plans. No stock-based compensation cost has been recognized in operations for stock options granted because the option exercise price was equal to or more than the market price of the underlying common stock on the date of grant.

SFAS No. 123, "Accounting for Stock-Based Compensation," as amended by SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure," requires the Company to provide pro forma information regarding net income (loss) as if the compensation cost for the Company's stock option plans had been determined in accordance with the fair value based method prescribed in SFAS No. 123. To provide the required pro forma information, the Company estimates the fair value of each stock option at the grant date by using the Black-Scholes option-pricing model.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

The following table represents the pro forma effect on net income (loss) and earnings (loss) per share as if the Company had applied the fair value based method recognition provisions of SFAS No 123 to stock-based employee compensation:

	Years Ended May 31,		
	2004	Restated 2003	Restated 2002
Net (loss) income as reported	\$ (45,846)	\$ (927,765)	\$ 2,532,1
Deduct: total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(12,291)	(12,660)	(52,2
Pro forma net (loss) income	\$ (58,137)	(940,425)	2,479,8
<hr/>			
(Loss) earnings per share:			
Basic - as reported	\$ --	\$ (0.08)	\$.
Basic - Pro forma	\$ --	\$ (0.08)	\$
Diluted - as reported	\$ --	\$ (0.08)	\$.
Diluted - Pro forma	\$ --	\$ (0.08)	\$.

SHIPPING AND HANDLING COSTS

Shipping and handling costs, which include salaries and vehicle operations expenses relating to the delivery of products to customers by the Company are classified as Selling, General and Administrative (SG&A) expenses. Shipping and handling costs classified as SG&A amounted to \$2.3 million, \$2.3 million and \$2.5 million for the fiscal years 2004, 2003 and 2002, respectively.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECENT ISSUED ACCOUNTING PRONOUNCEMENTS

In June 2001, the Financial Accounting Standards Board ("FASB") issued SFAS No. 143, "Accounting for Asset Retirement Obligations," which addresses financial accounting and reporting obligations associated with the retirement of tangible long-lived assets that result from the acquisition, construction, development or normal use of assets. The Company adopted SFAS No. 143 on June 1, 2003 and the adoption did not have a material impact on the Company's consolidated financial statements.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

GOLDEN ENTERPRISES, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED May 31, 2004, 2003 and 2002

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Effective June 1, 2002, the Company adopted SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets to be held and used, to be disposed of other than by sale and to be disposed of by sale. The adoption of this standard did not have a material impact on the Company's financial position, results of operations or cash flows.

In June 2002, the FASB issued SFAS No. 146, "Accounting for Cost Associated with Exit or Disposal Activities." SFAS No 146 requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. Costs covered by SFAS No. 146 includes lease termination costs and certain employee severance costs that are associated with a restructuring, discontinued operations, plant closing or other exit or disposal activity. SFAS No. 146 is effective for exit or disposal activities initiated after December 31, 2002. The Company adopted SFAS No. 146 on June 1, 2003 and the adoption of this standard did not have a material impact on the Company's consolidated financial statements.

In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure - an amendment of FASB Statement No. 123." SFAS No. 148 amends SFAS No. 123, "Accounting for Stock-Based Compensation" to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS No. 148 amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company has adopted the disclosure requirements of SFAS No. 148 effective May 31, 2003 in its consolidated financial statements. The Company will continue to account for stock-based compensation using the methods detailed in the stock-based compensation accounting policy as described earlier.

In April 2003, the FASB issued SFAS No. 149 "Amendment of Statement 133 on Derivative Instruments and Hedging Activities." This statement amends and clarifies the accounting and reporting for derivative instruments, including embedded derivatives, and for hedging activities under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS No. 149 amends SFAS No. 133 to reflect the decisions made as part of the Derivatives Implementation Group and in other FASB projects or deliberations. SFA No. 149 is effective for contracts entered into or modified after June 30, 2003, and for hedging relationships designed after June 30, 2003 and did not have an impact on the Company.

In January 2003, the FASB issued FASB Interpretation No. 46 (FIN No. 46), "Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51." FIN No. 46 requires certain variable interest entities to be consolidated by the primary beneficiary of the entity if the equity investors in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN 46 became effective February 1, 2003 for variable interest entities created after January 31, 2003, and July 31, 2003 for variable interest entities created prior to February 1, 2003. In December 2003, the FASB issued a revised FIN 46. The revised standard, FIN 46R, modifies or clarifies various provisions of FIN 46

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

and incorporates many FASB Staff Positions previously issued by the FASB. This standard replaces the original FIN 46 that was issued in January 2003. The adoption of these new standards did not have an impact on the Company's financial position, results of operations or cash flows.

29

GOLDEN ENTERPRISES, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED May 31, 2004, 2003 and 2002

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

In December 2003, the FASB issued a revised SFAS No. 132, "Employers' Disclosures about Pensions and Other Postretirement Benefits." The revised SFAS No. 132 revised employers' disclosures about pension plans and other postretirement benefit plans. It did not change the measurement or recognition of those plans required by SFAS No. 87, "Employers' Accounting for Pensions," SFAS No. 88, "Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits," and SFAS No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions." The revised SFAS No. 132 retains the disclosure requirements contained in the original SFAS No. 132. It requires additional disclosures to those in the original SFAS No. 132 about the assets, obligations, cash flows, and net periodic benefit cost of defined benefit pension plans and other defined benefit postretirement plans. The adoption of this new standard did not have an impact on the Company's financial position, results of operations or cash flows.

In December 2003, the SEC released Staff Accounting Bulletin ("SAB") 104. SAB 104 revises or rescinds portions of the interpretative guidance included in SEC Topic 13, "Revenue Recognition," in order to make this interpretive guidance consistent with current authoritative accounting and auditing guidance and SEC rules and regulations. The principal revisions relate to the rescission of material no longer necessary because of private sector developments in U.S. generally accepted accounting principles. SAB 104 also rescinds the Revenue Recognition in Financial Statements Frequently Asked Questions and Answers document issued in conjunction with Topic 13. Selected portions of that document have been incorporated into Topic 13. The adoption of this new standard did not have an impact on the Company's financial position, results of operations or cash flows.

RECLASSIFICATIONS

Certain items included in prior years' consolidated financial statements have been reclassified to conform to current year presentation.

NOTE 2 - RESTATEMENT OF PRIOR PERIOD FINANCIAL STATEMENTS

Prior period financial statements have been restated to reflect adjustments to the Company's financial information previously reported on Form 10-K for the years ended May 31, 2003, and 2002. The Company's 2003 quarterly information and comparative 2002 information has also been restated to reflect adjustments to the Company's previously reported financial information on Form 10-Q. The restatement affected periods prior to 2002. The impact of the restatement on such prior periods has reflected as an adjustment to retained earnings as of June 1, 2001. In addition, the restatement impacts the first, second and third quarters of 2004. The restated amounts for these quarters are presented in Note 16, Quarterly Results of Operations (Unaudited). Each of the restatement

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

adjustments is an "error" within the meaning of APB Opinion 20, Accounting Changes.

NOTE 2 -RESTATEMENT OF PRIOR PERIOD FINANCIAL STATEMENTS - CONTINUED

Self-Insurance liability: The Company determined that there had been an error in its accounting for self-insurance related liabilities. The adjustments required included recognition of previously unrecorded liabilities and reductions in amounts previously recognized as prepaid amounts to an employee trust which were incorrect.

Compensated absences: The Company determined that it had not recorded liabilities for earned vacation not yet taken as required by GAAP.

Other items: This category includes adjustments previously identified but deemed to be immaterial. Adjustments in this category change the timing of the items that were previously recognized.

Income tax adjustments: As a result of the restatement adjustments, the Company recognized an additional federal and state deferred valuation allowance of \$120,000 in 2003. The remaining amounts pertain to the tax effects of the error correction themselves.

The following table sets forth the effects of the restatement adjustments discussed above on the Consolidated Statement of Operations for each of the years ended May 31, 2003 and 2002.

	Year Ended May 31, 2003		Year Ended

NOTE 3 - CHANGE IN ACCOUNTING POLICY

The Company changed its accounting policy in the fourth quarter of fiscal 2002 with regard to slotting fees. The effect of this accounting change was to adopt this policy as of the beginning of fiscal 2002 (June 1, 2001). Previously, slotting fees were expensed as incurred. The Company changed this accounting policy to capitalize and amortize such costs over the expected benefit period, which is generally one year. This change in accounting policy was made to more closely match the cost of the shelf space obtained with the slotting fees with the revenues produced by the shelf space. The cumulative effect of this change in accounting policy resulted in a noncash cumulative adjustment of \$413,401 (\$0.03 per share), net of taxes. The accounting change also increased net income before the cumulative effect in 2002 by \$197,141 (\$0.02 per share).

NOTE 4 - NOTES RECEIVABLE

Notes receivable as of May 31, 2004 and 2003 consist of the following:

GOLDEN ENTERPRISES, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
May 31, 2004, 2003 and 2002

NOTE 10 - EMPLOYEE BENEFIT PLANS

The Company has trustee "Qualified Profit-Sharing Plans" that were amended and restated effective June 1, 1996 to add a 401(k) salary reduction provision. Under this provision, employees can contribute up to fifteen percent of their compensation to the plan on a pretax basis subject to regulatory limits; and the Company, at its discretion, can match up to 4 percent of the participants' compensation. The annual contributions to the plans are determined by the Board of Directors. Total plan expenses for the years ended May 31, 2004, 2003 and 2002 were \$94,683, \$231,332, and \$177,405, respectively.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

The Company has an Employee Stock Ownership Plan that covers all full-time employees. The annual contributions to the plan are amounts determined by the Board of Directors of the Company. Annual contributions are made in cash or common stock of the Company. The Employee Stock Ownership Plan expenses for the years ended May 31, 2004, 2003 and 2002 were \$-0-. Each participant's account is credited with an allocation of shares acquired with the Company's annual contributions, dividends received on ESOP shares and forfeitures of terminated participants' nonvested accounts.

The Company has a salary continuation plan with certain of its key officers whereby monthly benefits will be paid for a period of fifteen years following retirement. The Company is accruing the present value of such retirement benefits until the key officers reach normal retirement age at which time the principal portion of the retirement benefits paid are applied to the liability previously accrued. The change in the liability for the Salary Continuation Plan is as follows:

	2004 -----	2003 -----
Accrued Salary Continuation Plan - beginning of year	\$ 1,959,586	\$ 2,010,000
Benefits Accrued	30,576	2,000,000
Benefits Paid	(88,595)	(8,000,000)
Accrued Salary Continuation Plan - end of year	\$ 1,901,567 =====	\$ 1,950,000 =====

NOTE 11 - LONG - TERM INCENTIVE PLANS

The Company has a long-term incentive plan currently in effect under which future stock option grants may be issued. This Plan (the 1996 Plan) is administered by the Stock Option Committee of the Board of Directors, which has sole discretion, subject to the terms of the Plan, to determine those employees, including executive officers, eligible to receive awards and the amount and type of such awards. The Stock Option Committee also has the authority to interpret the Plan, formulate the terms and conditions of award agreements and make all other determinations required in the administration thereof. All options outstanding at the end of the 2004, 2003, and 2002 are exercisable.

The 1996 Plan provides for the granting of Incentive Stock Options as defined under the Internal Revenue Code. Under the Plan, grants may be made to selected officers and employees, of incentive stock option with a term not exceeding ten years from the issue date and at a price not less than the fair market value of the Company's stock at the date of grant.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

NOTE 11 - LONG-TERM INCENTIVE PLANS - CONTINUED

Five hundred thousand shares of the Company's stock have been reserved for issuance under this Plan. The following is a summary of transactions:

Shares Under Option	2004		2003	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Outstanding - beginning of year	369,000	\$ 3.78	369,000	\$ 3.78
Granted	--	--	--	--
Exercised	--	--	--	--
Forfeited	--	--	--	--
Cancelled	--	--	--	--
Outstanding - end of year	369,000	\$ 3.78	369,000	\$ 3.78

Pro forma information regarding net income and earnings per share is presented as if the Company had accounted for its employees stock options under the fair value method. The per share weighted average fair value of the stock options granted during fiscal 2002 was \$.25. The fair value of these options was estimated at the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions: risk-free interest rate 5.05 percent; dividend yield 6.56 percent; expected option life of 5 years; and expected volatility of 15 percent. No options were granted during 2004 or 2003.

The Black-Scholes options pricing model was developed for use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect an option's fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of it employee stock options.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

NOTE 12 - NET INCOME PER SHARE

Basic earnings per common share are computed by dividing earnings available to stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflects per share amounts that would have resulted if dilutive potential common stock equivalents had been converted to common stock, as prescribed by Statement of Financial Accounting Standards No. 128, "Earnings per Share". Options to purchase 369,000 shares of common stock at May 31, 2004 and 2003 were not included in the computation of diluted earnings per share because the options' exercise price were greater than the average market price of the common shares and, therefore, the effect would be antidilutive. The following reconciles the information used to compute basic and diluted earnings per share:

	Average Co

	2004
Basic weighted average shares outstanding	11,879,891
Effect of options	--

Diluted shares	11,879,891
	=====

NOTE 13 - DISCLOSURES ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS

The Statement of Financial Accounting Standards No. 107, Disclosures About Fair Value of Financial Instruments requires disclosure of fair value information about financial instruments, whether or not recognized on the face of the balance sheet, for which it is practical to estimate that value. SFAS 107 defines fair value as the quoted market prices for those instruments that are actively traded in financial markets. In cases where quoted market prices are not available, fair values are estimated using present value or other valuation techniques. The fair value estimates are made at a specific point in time, based on available market information and judgments about the financial instrument, such as estimates of timing and amount of expected future cash flows. Such estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument, nor do they consider the tax impact of the realization of unrealized gains

The carrying amounts for cash and cash equivalents approximate fair value because of the short maturity, generally less than three months, of these instruments.

The fair value of notes receivable is estimated by using a discount rate that approximates the current rate for comparable notes. At May 31, 2004 and 2003 the aggregate fair value was approximately \$2,437,778 and \$2,507,357 compared to a carrying amount of \$1,865,746 and \$1,908,000, respectively.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

May 31, 2004, 2003 and 2002

NOTE 13 - DISCLOSURES ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS -CONTINUED

The interest rate on the Company's bank debt is reset monthly to reflect the 30 day LIBOR rate. Consequently, the carrying value of the bank debt approximates fair value.

The carrying value of the Company's salary continuation plan and accrued liability approximates fair value because present value is used in accruing this liability.

The Company does not hold or issue financial instruments for trading purposes and has no involvement with forward currency exchange contracts.

NOTE 14 - COMMITMENTS AND CONTINGENCIES

Rental expense was \$493,028 in 2004, \$498,031 in 2003, and \$547,742 in 2002. At May 31, 2004, the Company was obligated under certain operating leases for buildings, office space and equipment.

In May of 2004, the Company terminated a lease for equipment from a company which is principally owned by a major shareholder of Golden Enterprises, Inc. The lease was terminated through a purchase of the equipment for \$160,000.

The Company leases its airplane to a major shareholder of the Company for approximately \$20,000 per month. The lease provides for his personal use of the airplane for up to 100 flight hours per year and is for a term of one year with automatic renewal at the option of either party.

The Company had letters of credit in the amount of \$1,758,987 outstanding at May 31, 2004 to support the Company's commercial self-insurance program. The Company pays a commitment fee of 0.375% to maintain the letters of credit.

The Company entered into a five-year term product purchase commitment during the year ending May 31, 2001 with a supplier. Under the terms of the agreement the minimum purchase quantity and the unit purchase price were fixed resulting in a minimum first year commitment of approximately \$2,171,000. After the first year, the minimum purchase quantity was fixed and the purchase unit price was negotiable, based on current market. Subsequently, in September 2002, the product purchase agreement was amended to fix the purchase unit price and establish specific annual quantities. As of May 31, 2004 the Company's outstanding purchase commitments were as follows:

Years ending May 31, -----	Amount -----
2005	\$1,491,000
2006	605,000

The Company has entered into various other short term purchase commitments with suppliers for raw materials in the normal course of business.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

GOLDEN ENTERPRISES, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED May 31, 2004, 2003 and 2002

NOTE 15 -CONCENTRATIONS OF CREDIT RISK

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash equivalents and trade receivables.

The Company maintains deposit relationships with high credit quality financial institutions. The Company's trade receivables result primarily from its snack food operations and reflect a broad customer base, primarily large grocery store chains located in the Southeastern United States. The Company routinely assesses the financial strength of its customers. As a consequence, concentrations of credit risk are limited.

The Company's notes receivable require collateral and buyer investment and management believes they are well secured.

NOTE 16 - QUARTERLY RESULTS OF OPERATIONS (UNAUDITED)

The following is a summary of the unaudited quarterly results of operations of the years ended May 31, 2004 and 2003.

Quarter	RESTATED Net Sales	RESTATED Net (Loss) Income	RESTATED Per Share Net (Los Income
-----	-----	-----	-----
2004			

First	\$24,580,778	\$ 431,692	\$ 0.0
Second	23,296,981	(196,021)	(0.0)

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
 May 31, 2004, 2003 and 2002

NOTE 17 - SUPPLEMENTARY STATEMENT OF INCOME INFORMATION

The following tabulation gives certain supplementary statement of income information for continuing operations for the years ended May 31, 2004, 2003 and 2002:

	2004	2003	2002
	-----	-----	-----
Maintenance and repairs	\$5,914,221	\$5,625,851	\$5,290,498
Depreciation	2,346,880	2,490,329	2,593,621
Payroll taxes	2,241,443	2,337,330	2,473,871
Advertising costs	4,452,926	5,031,409	4,371,719

Amounts for other taxes, rents and research and development costs are not presented because each of such amounts is less than 1% of total revenues.

NOTE 18 - SUBSEQUENT EVENT

The Company signed a line of credit note with a financial institution with a limit of \$2,262,500 on July 6, 2004. The interest rate will be a monthly variable rate based on the LIBOR rate plus 1.75%. The purpose of the line of credit is to pay off the current line of credit and to purchase new vehicles. The line of credit note expires on November 30, 2004, at which time the Company plans to convert the line of credit into a note with a fixed monthly payment and maturity date which will be collateralized by the above equipment purchased.

ITEM 9. - CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS
ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not Applicable.

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

ITEM 9 A. - CONTROLS AND PROCEDURES

The Company performed an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the fiscal year ended May 31, 2004. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of the end of the fiscal year ended May 31, 2004, the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed in reports that the Company files or submits under the Securities and Exchange Act of 1934 is recorded, processed, summarized and reported within the specified time periods.

During the performance of the audit for the fiscal year ended May 31, 2004, the Company's independent auditors, Dudley, Hopton-Jones, Sims & Freeman, PLLP (the "Auditor"), identified and communicated to the Company material weaknesses relating to the Company's accounting for its vacation pay (which was not in conformity with generally accepted accounting principles ("GAAP")) and self insured obligations. The Company was not accruing for earned vacation pay and its liabilities were understated for certain incurred as well as incurred but not reported self-insured casualty claims and health costs. Based upon the forgoing, the Company has restated its audited financial statements for fiscal year 2003 and for the first three quarters of fiscal year 2004 to properly account for accruals for its vacation pay and self-insured health and casualty obligations. The Company believed, during the years being restated, that it was correctly following proper accounting practices. For a full discussion of the restatements, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations."

The Company has accepted the recommendations of its Auditor to reduce the recurrence of material weaknesses and is implementing policies and procedures to strengthen the Company's internal controls, including, among other things, the following: (1) developing written policies and procedures to be followed with respect to accounting for vacation pay and self-insured obligations; (2) formally designating management level personnel responsible for accounting for vacation pay and self-insured obligations; (3) expanding internal audit activities to include a quarterly examination of vacation pay and self-insured obligations; (4) implementing a fully developed actuarially based method of measuring liabilities related to self-insured obligations; and (5) implementing quarterly communications among management, internal auditor, and the Audit Committee prior to filing Forms 10-Q.

Other than as described above, there has not been any change in the Company's internal controls over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9 B. - OTHER INFORMATION

Not Applicable.

PART III

ITEM 10. - DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT

With the exception of information set forth under the caption "Executive Officers of the Registrant and Its Subsidiary" which appears in Part I of this Form 10-K on Page 5, the information required by this item is incorporated by reference to the sections entitled "Election of Directors," "Additional Information Concerning the Board of Directors," "Executive Compensation and Other Information" and "Code of Conduct and Ethics" of the Company's Proxy

Edgar Filing: GOLDEN ENTERPRISES INC - Form 10-K

Statement for the 2004 Annual Meeting of Stockholders to be held September 23, 2004.

48
